ONE DAY. (Original.) One day--some day--I know that we shall meet.

Charles Peabody, writing in 'The Gentleman's Magazine,' reports that Macaulay was the tyrant of the table, and rarely tolerated any talk but his own.

Perfumes and Disinfectants. Professor Manteguzzi found that nearly all the essences used in perfumery, and many others not appropriated by the perfumer, when exposed to air and light develop ozone.

The most effective essences are those of cherry, laurel, palma rosa, cloves, lavender, mint, juniper, lemons, fennel and bergamot; the less effective are anise, nutmeg, cajuput and thyme.

In these days, when diseases of the throat are so universally prevalent, and in so many cases fatal, we feel it our duty to say a word in behalf of a most effective, if not positive, cure for sore throat.

Last fall we were induced to try what virtue there was in common salt. We commenced by using it three times a day--morning, noon and night.

The favorite doll of the world is made in England, that country supplying more than three-fourths of all the dolls carried by the children of civilized nations.

It has been discovered that the word 'Kish-dish' is fifteen hundred years old, the origin of its revival is due to Tourgueneff, the novelist.

We urge this as a precautionary measure, and not for the purpose of exciting alarm. We think that the small-pox this time will be confined to the Japanese immigrants, and that few of them will be afflicted by it.

This country has suffered a very serious loss by the destruction of its native trees. The only proper thing to do, therefore, is to set to work to repair the waste.
