PUNISHMENT OF CHILDREN.
 Parents Must Rebuke, but There Are Right and Wrong Ways.
 "The Punishment of Children" was the subject of an address delivered by Mr. M. Maggarian yesterday at the Grand Opera house before the Society for Ethical Culture, reports the Chicago Times of a recent date.
 "Paradise," said Mohammed, "lies at the feet of parents." We shall never solve the perplexing problems of life until we know how to educate children. If we save the cradle we save the future. We save children, we reap men and women. The home is a little moral empire. We cannot have order without law. Law is void without some penalty. Pain and pleasure are the two educators of life. Pleasure develops the positive virtues, the discipline of pain is negative. Education is a twisted chain made of these two teachers, joy and pain. It is foolish to attempt to make education stand only on one foot.
 "If the parents decline to use any authority over their children, the children will not hesitate to exercise authority over their parents. We cannot live on equal terms with our children, for while we may treat them as our equals they will not treat us as their equals but as their inferiors. A baby six months old will tyrannize over every member of the family. Children brought up in this way never learn the doctrine of equal rights. They become more vigorous and despotic as they grow older. When we command we must command, and not merely suggest, or pray, or beg. We must never let go of the hands of our children. We must never leave them to fight the battle by themselves. Why do we not forsake our young as the birds forsake theirs? Is it not our duty to throw around them the sheltering arms, to shine upon their path? They are impulsive; we must be constant. They are impatient; we must balance their impetuosity with our patience. They are feeble; we must be firm. It does not follow from this that no room must be given to them for the free play of their faculties. It is our privilege to make the past a luminous page for them. The abuse of punishment is more dangerous than the greatest indulgence. It is better not to punish at all than to punish too severely. The arguments in favor of corporal punishment are ingenious, but not convincing. The harm occasioned by corporal punishment is not to the body, but to the mind. The effect of the blow is not only what the face shows; it sinks deeper. In appealing to the mind we treat the child as a rational being. He is made to submit to reason, not to might. He can reason back, he cannot strike back. We cannot whip a child without a desire to hurt the child. That is immoral. When we show excitement we show signs of weakness. The danger of corporal punishment is that we cannot administer it without losing our head. On the other hand the very act of appealing to the reason of the child makes us reasonable. Treat the child as a soldier to whom the word of honor is the most sacred of all words.
 "The purpose of punishment is to provoke repentance, not only to make the child do right, but to make him love to do right. The desire to please mamma or papa should not be confounded with the duty to obey the right. For this reason we must act not from honor but from principle. There are certain punishments which should be condemned. Shutting up a child in a dark room is most injurious, morally and physically. It spurs the imagination into the wildest, maddest fancies. Compelling the child to taste or smell that which is biting or sickening, denying him the necessary amount of food, exposing him to the inclemencies of the weather, withdrawing from him for too long a time the signs of tenderness, are other forms of injudicious punishment. The important point is to punish his faults by his virtues, to make his lower self ashamed in the presence of his higher self, to strike at his faults with his virtues, to make the right in him, the good in him, the judge of the wrong, the bad. This will make the discipline self-administrative. The best method is the method of prevention. Keep the child in the fresh air. Give him plenty of exercise. Keep him in good health if you do not want to give him medicine.

WHAT'S IN TO-DAY'S PAPER.

FIRST PAGE. Punishment of Children. SECOND PAGE. P. G. Economy—editorial. Then and Now—editorial. Our Only Soper—by "Civis."

The Daily Bulletin.

Pledged to neither Sect nor Party, But Established for the Benefit of All. THURSDAY, APRIL 26, 1894.

When Messrs. Dole, Thurston and Smith were in the opposition ranks in ante-revolution days, they stubbornly maintained that Ministers could not decently vote to save their positions or protect their salaries.

P. G. ECONOMY.

Comparisons are sometimes odious, but none could be more so than that drawn by the editor of the Advertiser this morning on Messrs. Eua and Emmeluth. Because of their efforts in reducing the expenses of the government by a reduction in several items in the appropriation bill they are likened to a "monkey faced negro."

Our legation at Washington has reached a stage where it is incumbent upon the clerks to buy up the votes of congressmen and senators by the generous use of money in the purchase of theatre tickets and wine.

Then upspoke Mr. Thurston again. He "considered the sentiment on which this appropriation was based as altogether too fine for this house to grasp. The Hawaiian ambassador had got along well enough the last four years without a secretary to convey his messages, and it would not hurt his dignity or that of this country if he carried his messages himself.

There is an article in the Advertiser in defense of the large outlays voted by the Councils for the Legation at Washington. It is characterized by the splash and splurge of Envoy Extraordinary Thurston's dictum. Mr. Thurston and his friends held different views in 1886 from those presented in the article in question.

newspaper men had their powerful influence bought by a theatre and supper party costing \$75. There is one omission, however, which speaks louder than all that is told. That is, an account of the princely entertainments, to reach public men "through their stomachs," as the idea is elegantly put, which Mr. Thurston gave during his desultory visits to his post of duty at Washington. It would seem almost certain that if he gave any they would have been duly recorded by the Junkies of Washington, and the reports would have been carefully collected and transmitted to the Government tooting press of Honolulu.

In the Legislature of 1886, on the item "Salary of Envoy at Washington, \$12,000," Mr. Thurston spoke at some length. Below are quotations from his vigorous denunciation of diplomatic extravagance. Supporting an amendment by Mr. Dickey to pass the item at \$10,000, Mr. Thurston said: "If the object was to make a great spread, \$9,000 was not enough, but if it was for the ambassador to live respectably \$5,000 was sufficient. Mr. Carter had means of his own to make extra display if he desired. He ought not to have more than a Minister at home with the work of a Department on him."

Mr. Thurston's personal engagements are such that they require more of his time than he can devote to the duties of his office it would be better for the people who contribute to the payment of the expenses of the government if some one who can remain at the office and do what is required of him was appointed in his place. The "cuckoos" should realize that there are tax-payers outside the legislative chamber. If Mr. Thurston's efforts in overthrowing the monarchy and making a mess of the affair in Washington are worthy of reward, let him be assigned to duty at home, or better still let him resign, and attend to his Hawaiian Exhibit in San Francisco until the end of the Fair and then offer his services to his government.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds, Sims Bros, Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by all dealers. Robinson, Smith & Co., Agents for the Hawaiian Islands.

"MERRY ENGLAND."

Her Wealthy Cities, Famous Cities and Country Life. Mrs. Gans will deliver her illustrated lecture on "England" at Kawaiahao Church to-morrow, Friday, evening at 8 o'clock. It is different from the lecture previously given on "London" and is one of the best in Mrs. Gans' repertoire. These lectures are next best to an actual foreign tour of observation.

The greater number of the views numbering 110 are most artistically colored in oil, and when projected with a most powerful line light, upon the 90 square feet of canvas of which the screen is composed, combined with Mrs. Gans' most interesting and entertaining remarks, go to form an evening's entertainment and instruction, at once so vivid and realistic that, for the time being, the audience is transported to the very scenes depicted.

Included in the list are the following: Rochester and Gadshill, Dickens' Home; Canterbury Cathedral, etc.; Brighton, Isle of Wight, Scenes in Devonshire, Cornwall, Bristol, Chester, Liverpool, Manchester, and other cities; Isle of Man, Carlisle Cathedral, Coventry, Shakespeare's House, Oxford, Cambridge, Ascot Races, The Derby, Windsor Castle (many views), Thames and Clivedon, Presentation of Magna Charta, etc.

EDITOR BULLETIN:—News came by the Australia about the Midwinter Fair, and the continued interest in the cyclorama, and the pilfered silver bowls and the joyful dividend and the carefully worded assurance that the "royal hula dancers" are not suffering a midwinter of discontent, but not a word has leaked out about McGinnis, our only military cadet. The exhibition of the "modified hula" and the curious alleged to be stolen goods are, after all, comparatively, matters of private concern, but the military ward of the nation at \$250 a month demands our profound solicitude. It is, of course, cheering to know that he was dined by the officers of the San Francisco garrison and appeared on the dock to say good-bye to Hawaii's only Barman, in full uniform. But how is the interesting youth progressing in his studies and will the military "coach" be able to put him up to the top notch of proficiency and return him labeled an O. K. Field Marshal or Brigadier-General in the promised five weeks? Civis.

"Not Going to be Annexed After All." Little Dick I don't see much use in going to school. Papa—Why not? Little Dick—It took me two weeks to learn to pronounce Hawaii, and now it isn't going to be annexed after all.—The Boys of New York.

By Jas. F. Morgan.

NAMING THE BABY.

An Occasion When the Father Has Very Little to Say. The father thought he should have something to say in regard to the name the child should bear, and when his wife proposed George Augustus he accepted the first part but rejected the last—that is, tried to reject it, observes the Chicago Post.

"Make it George William," he said. "William is a better name than Augustus, and then it will please Uncle Bill." "Yes, and every one will call him Bill," she protested. "I don't like the name. Augustus is better."

"You won't make the change?" "I don't see why I should." "Very well," he said, as he started for his hat and coat. "I'm going to the office." "The next morning as he was putting on his coat he asked: "How about that name?" "Why, we'll call him George Augustus," she returned, in surprise.

"Good day," he said, as he went out and slammed the door. When he came home that night he asked: "Is it still Gussie?" "Augustus," she corrected. After supper he remarked sneeringly: "Gussie! Gussie! That's a nice kind of a name, isn't it?" "Augustus is a very nice name," she replied, calmly.

Before going to church for the baptism the following morning he asked, sarcastically: "Do you still stick to Gussie?" "George Augustus," she said, sweetly. He shut himself in his room for a few minutes and wrote plainly on a sheet of paper, "George William." Then he put it and a ten-dollar bill in an envelope and joined the baptismal party. Once at the church he slipped off to one side and handed the envelope to the clergyman.

"Thank you for the fee," said the latter, "but I already have the name. Your wife gave it to me." "I thought you might make a mistake in it," suggested the father. "Oh, no. It's written very plainly 'George Augustus.'"

The father sighed and gave up the struggle, but he is getting his revenge now by informing admiring friends in his wife's presence that the baby's name is "Gussie."

A really good French cook in the United States commands a higher salary than a Cabinet officer, but it is doubtful if the latter would change places. There are a few high-priced cooks in Honolulu and if you choose to bother about asking them you will learn that they get their knives for cutting meat in the kitchen from us. We sell the genuine French Cook Knives, made in France of specially selected steel and shaped like a stage dagger. The knife is not an elaborate affair, just a plain finished knife made for service.

We have other knives, bread and carvers, for the table, fine ones, both as to quality and finish. A good carving knife is as necessary as good dishes, perhaps more so because tough beef can be made to appear tender by the use of a sharp knife.

We have some toilet sets, genuine English ware that should attract the attention of anyone if only by the price we ask for them. They are made in "up to date" shapes and the decorations are anything rather than gaudy. The sets have seven pieces and go to you at about half their value.

By the "Alden Besse" we received a quantity of lamps suitable for stores, lanais or kitchens. They are larger than the ordinary Rochester and smaller than the mammoth lamp. For any purpose where considerable light is wanted we know of nothing better than one of these lamps. The finish of the fount is equal to the best quality hanging lamp and the burner is the best made by the celebrated Rochester Lamp Co. The price, well, the price will surprise you.

We have lately added to our stock some very handsome wrought iron affairs in the Piano Lamp line. Just why they should be called "piano" lamps when they are in reality the best shape made for reading purposes is like a Dundreary riddle, "something no fellow can find out." And the advantage a piano lamp made of wrought iron has over one of polished metal is in the fact that it will not tarnish. Of course, with people who have lots of time, there is no material difference; they can keep it rubbed up at all times and a bright metal lamp under their faithful ministrations will never grow dull. We have then to please all classes, the busy and the idle, you pay your money and make your own selection. Our stock of parlor and library hanging lamps is not to be sneezed at either; we have selected the best designs from the best makers, and the burner, the comforting and discomforting thing about a lamp, is selected with unusual care. When you buy a lamp from us you get what is recognized, wherever lamps are used, as the very best that leading manufacturers produce.

"When the spring time comes, gentle Annie," it is time to get out and hustle with the plants. To use one's fingers to stir up the dirt is folly when you can get a set of garden tools for almost nothing. The last sets we received are better than those we have always handled and don't cost you any more; they are rather lighter weight than formerly, better adapted to the person who gardens for health, but the strength of the tools is unquestioned.

Disston's Saws with us are as prominent as any of our other goods, and we usually keep all sizes and styles. We have an abundance in stock now from the ordinary keyhole saw to the Great American, 7 feet long. Disston's have been the standard in saws for many years, simply because their material and workmanship is the best. If when you buy stove wood, your dealer gives you large pieces, your man will have more time for other duties if you provide him with a good sized saw to cut the wood with. We have the saws you want for any purpose.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally. The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cars, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill. The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDER is to be connected, also the side (either right or left hand as you face it) delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Haul Mill, Kohala, where they are giving great satisfaction.

The Pele Moots With an Accident in the Channel. The steamer Pele, Captain Peterson, arrived from Makaweli, Kaula, about noon today, with her foretopmast gone. She looked pretty well battered up. Inquiry elicited the information that the Pele had experienced extremely bad weather during this last trip. She had loaded with 3500 bags of sugar at Makaweli and left Monday for Honolulu during the heaviest weather. On Tuesday morning while the steamer was in the channel, fourteen hours out, her foretopmast carried away and she put back to Makaweli, arriving there in six hours' time. Temporary repairs were made and on Wednesday morning she left again, arriving here as stated, in thirty-three hours. Early this morning the skylight in the cabin was smashed by a heavy sea. The Pele will probably lay up now until a new mast has been put in.

PROVISIONAL LEGISLATURE.

Regular General Session of the Executive and Advisory Councils.

The regular weekly session of the Executive and Advisory Councils met at 1:30 o'clock this afternoon. President Dole presided, with him being present: Ministers Hatch, King, Damon and Smith; Councilors Wilder (Vice-President), Emmeluth, Allen, Waterhouse, Brown, Ena, Tenney, Nott, Mendonca, Morgan, Suhr, Bolto and D. B. Smith.

Secretary Rodgers read the minutes of last meeting. The reading took 40 minutes owing to the inclusion of the items of the Appropriation Bill and the motions and the votes thereon.

Mr. Brown moved to reconsider the item in the Appropriation Bill of \$4200 for the shorthand reporter of the Judiciary Department.

Mr. Waterhouse raised the point of order that a reconsideration having already been had on the bill, another motion to reconsider was not admissible.

Minister Smith believed a single item could be reconsidered, but such a practice at this stage was objectionable.

The President ruled the motion in order. Mr. Tenney made the motion as one who had voted in the majority and, it passing, Mr. Brown moved to restore the item to \$4800, the amount in the original bill. Carried.

Minister Damon presented the weekly financial statement as follows: FINANCIAL STATEMENT FOR THE WEEK ENDING APRIL 25, 1894.

Table showing financial statement for the week ending April 25, 1894, including current account balance, receipts, and expenditures.

Interior Department. Bureau of Public Works. Miscellaneous. Finance Department. Interest. Road taxes to special deposit.

Current Account Balance. \$230,392.90. Outstanding bonds. \$2,430,000.00. Treasury notes. \$9,000,000.00.

PROVISIONAL GOVERNMENT MEMO. Expenses Provisional Government to date. \$25,304.83. This amount covers all expenses including military.

MEMO CASH IN TREASURY. Outstanding certificates. \$32,000.00. Cash in treasury to redeem all outstanding certificates. \$32,000.00.

Cash on hand. Postal Savings Bank. Balance to credit of 2d Road Board in Treasury. 28,173.34.

Balance to credit of School Board in Treasury. 7,017.18. Available cash, current account. 225,204.02.

Due current account from advances to loan fund. \$3,941.26. Due current account from advances to Postal Savings Bank. 6,201.26.

MISCELLANEOUS. Electric Light Repairs, etc. 30.25. Minister Damon referred to a statement in "that very influential journal the BULLETIN" that the country was going to ruin on account of borrowed money.

Minister Damon referred to a statement in "that very influential journal the BULLETIN" that the country was going to ruin on account of borrowed money. Now that amount was made up of the following items: Dredging Ho-Iolala harbor. \$45.50. Bridge Whiting, Kaula. 315.50. Volcano Road. 1,950.30.

Purchase kalamas at Leper Settlement. 204.65. New wharves and sea wall, Honolulu. 2.15. New kerosene warehouse. 188.23. Hilo Water Works. 16.00.

Total. \$5477.49. If expenditures of these kinds were sending the country to ruin then all he could say was that he wanted to go with it.

Minister Smith reported from the Judiciary Committee regarding granting a pardon to E. Devaughel, serving six months in prison for opium smuggling. Also recommending that Thomas McGiffin, who served a sentence for receiving stolen money, be restored to his civil rights. Adopted.

Minister Hatch resigned the chairmanship of the Judiciary Committee, and Mr. Brown was appointed in his stead.

Minister Smith introduced bills to amend the habeas corpus act, the law relating to jurisdiction of Circuit Court Judges, and the law relating to the smuggling of opium.

The last is to reduce the minimum term of imprisonment from six months to one month, also to amend the provisions for the sale of confiscated opium, so that the informer shall be paid \$1 a pound instead of half the proceeds, and that the Board of Health may in its discretion destroy the opium.

Mr. Emmeluth called attention to the recommendations of the committee on reorganization of the Board of Education adopted by the Councils some time ago. He wanted to have the proposal regarding the sale of school books and material carried out.

Minister Smith thought the matters in question should be referred to the Board of Education.

Mr. Brown agreed with the Minister. Mr. Emmeluth said the intention was economy, as the Government paid more for supplies than private dealers could get them for.

AT THE OPERA HOUSE.

Minister Smith moved to refer the report to the Board of Education. Carried.

Minister Hatch asked the authority of the Councils for military expenditures according to list submitted, including cloth, caps, buttons, leggings, bullets, powder, etc., the total price being \$2300.

The President stated that after receiving the requisition he referred it back to Col. Fisher for careful scrutiny. The items submitted were all necessary for the equipment of the men.

Mr. Emmeluth considered the quality of the cloth should be stated. Leggings could be got cheaper than listed on board the American warships.

Mr. Brown asked if all the things were necessary. The President answered that Col. Fisher assured him they were.

Mr. Emmeluth asked what the leggings were for. The President replied that they were to protect the men's trousers in bad weather.

Mr. Waterhouse moved to refer the matter to the military committee. The President answered that it was necessary to forward the order by the out-going steamer.

Mr. Waterhouse wondered why these requisitions came in just before the steamer sailed and rushed through without full investigation.

The President explained that the requisition had come in before the departure of Col. Soper but was referred back for further examination.

Mr. Brown seconded the motion to refer to committee, accepting with the mover a condition that the committee should report to the Executive to-morrow, for it to take action in its discretion. Carried.

The Appropriation Bill for salaries and pay rolls was then taken up to complete its consideration on third reading. Minister Damon stated that an increase of \$37,680 had been made on the total of the original bill, bringing it up to \$1,648,018.

The bill finally passed as a whole. The second reading of the Chinese bill was taken up at 3:20 p.m., when our report for this issue closes.

AT THE OPERA HOUSE.

May Nannary as Star Scores a Triumph. "Forget me not" was the play put on the boards last night by the Dailey Stock Company.

May Nannary (Mrs. Dalrymple) acted the title role with brilliant success. This character really carries the play throughout and Miss Nannary kept it up with a sustained power that won general admiration.

She made up elegantly in a different costume for each act, and her stage manner was graceful and vivacious. Her elocution was superb, creating a veritable spell in the finer passages—and there are several eloquent flights of social philosophy in the piece—which ended in bursts of applause.

Mrs. Bates, as Mrs. Foley, was forceful in utterance and impressive in stage presence as usual, eliciting hearty plaudits mingled with laughter in her displays of horror at "that bad woman." Darrel Vinton, as Sir Horace Wolby, the leading man in the play, lost nothing of his previously earned popular favor, acting his part flawlessly.

Gonovieve Nannary rendered Alice Verney quite prettily. Wm. Bennett played Prince Malcotte with consummate skill, his make-up and address both fitting the character to a dot. Edwin Lloyd and John Howard sustained the minor parts with satisfaction.

There was a medium sized audience that seemed to be well pleased with the whole performance.

The Tagawa Coal Mine is located in Fukuoka Ken in the Island of Kinshui, Japan, and was discovered about twenty years ago. It was owned by the government and mined simply for the government's use.

Great improvements, however, were made since it was sold to a corporation about six years ago, by importing mining machinery from Europe and America.

Tagawa Coal is used more than all other Japanese coals in the following countries: China, Manila and Strait Settlements. It has found its way even to Bombay.

Two cargoes have been imported into the Hawaiian Islands recently, and it has no superior in this market as stove or steam coal.

FOREIGN NEWS NOTES.

ENGLISH NOTES.

The Cabinet are having considerable difficulty in arriving at a decision as to the manner in which they shall deal with the anti-Lords question. The Ministers well know that the Radicals are determined to force them to a definite declaration on the question in the course of the session and are alive to the necessity of arriving at some determinate course of procedure. They are continuing their discussions on the subject at every meeting of the Cabinet, and every effort is being made to reach some conclusion in the construction of some form of measure restricting or abolishing the veto power of the Lords that will command the approval of a majority of the House of Commons.

Lord Rosbery's Lodas is the first favorite for both the Two Thousand Guinea and the Derby. Seven to four is being taken against her for the former event and ten to four for the latter. The betting at these rates is quite brisk.

Lord Francis Hopk, the presumptive Duke of Newcastle, who was recently reported to have married May Yobe, the actress, has been declared a bankrupt.

The furniture of widowed Marchioness of Ailesbury, whose husband's body was buried at Saverioke Forest to-day has been seized for debt. She is living in a lodging in St. James street.

The leading London Jews are about to combine to exclude from the privileges and honors of the synagogues all Jews who engage in money lending at usurious rates.

AFFAIRS IN GERMANY.

BERLIN, April 14.—Count Von Kanitz-Podangon has suddenly become the most conspicuous politician in the Empire. His proposal in the Reichstag that the Government monopolize the foreign grain trade, has excited a sensation far beyond its practical importance and has caused a heated discussion throughout the country concerning agrarian socialism. At first Herr Kanitz's proposal was regarded merely as a specimen of his political eccentricity. This idea was abandoned, however, as soon as it became evident that he was supported by a large group of Conservatives. The Conservative newspapers have handled the matter gingerly. Only the old Tory Kreuz Zeitung has swallowed the proposal whole, and argued with Herr Kanitz that the Government should have the right to fix the price of imported wheat, rye, barley and oats. The journals not devoted to the interests of feudalism agree that the adoption of such a plan would mean the ultimate nationalization of grain growing and thus introduce the socialistic system of nationalizing everything. The Kreuz Zeitung does not fight against these inferences. It says: "Better such a socialistic state than the present Hebrew plutocracy, which sooner or later must be followed by a social democratic state unless radical reforms be adopted to prevent a revolution."

The debates in the Reichstag yesterday and to-day showed clearly the intensity of the interest which the whole question has excited. Herr Kanitz himself avoided all reference to the far-reaching effects which such a scheme as his may probably have, because, being a very mediocre person, he was unable to perceive them, but he spoke at great length of the desire of the agrarians for State help.

Count Von Kanitz's proposal to create a Government monopoly in the importing grain trade was debated again in the Reichstag to-day. Chancellor Von Caprivi spoke strongly against it. "If Count Von Kanitz's motion be carried," he said, "it will place the Government in a very bad position. Foreign powers with which we have concluded commercial treaties will be enabled by it to charge Germany with bad faith. In that event, I should no longer be in a position to conduct the foreign policy of the Empire. The motion has fomented already a demagogic agitation and has spread discontent among the peasants. The only persons who benefit from this state of affairs are the Social Democrats." Eventually the motion was rejected by a vote of 159 to 76.

THE PIOUS STRANGER.

Prolonged the Prayer Meeting While His Pal Was Robbing.

The next time a stranger attempts to relate his experience in prayer meeting presided over by Rev. J. P. Brushingham of the Fulton-street Methodist Church he will be regarded with suspicion and will probably be called upon to show his credentials or leave the house. At the last regular prayer meeting, says the Chicago Mail, the pastor's entire family attended, leaving the parsonage deserted. The brothers and sisters were not in talkative mood, and the preacher arose to dismiss the meeting, when a stranger in the rear of the room stood up and asked to be allowed to say a few words.

He talked for fifteen minutes and took his precious religion to him. During this time the good brothers and sisters were loud in their cries of "amen," and the minister thought he had found a diamond in the rough.

When a second attempt was made to dismiss the meeting the stranger again occupied their attention for some time. The benediction was finally pronounced. The stranger was the first person to leave, not having time to shake hands with any of the congregation.

When the pastor returned home he discovered that the place had been looted. Fifty dollars in money, a gold watch and chain and other articles of jewelry and valuables had been taken. He reported the matter to the police and mentioned the lengthy talk of the stranger. It was learned that the pious stranger was a confederate of the thieves, whose business it was to prolong the meeting until his pals had robbed the house.

A pedigree book of highbred cats has just been published in England.

Hood's Sarsaparilla Purifies, Soothes, Heals, CURES.

Mr. T. F. Johnson, San Jose, Cal.

"I have for many years been a great sufferer from SCROFULA breaking out on my arms and legs; they were covered with eruptions and sores, discharging all the time. I tried very many medicines and consulted physicians far and near, but constantly grew worse. I have taken but three bottles of Hood's Sarsaparilla for rheumatism, and I have derived so much benefit from it that she declares there is no other medicine on earth. We would not be without it in the house if it costs \$20 a bottle." T. F. JOHNSON, San Jose, Cal.
