It is all right to let your little girls and boys run about barefooted once in a while, but not all the time. Their poor little feet soon become big, broad and swollen, and they won't thank you for that when they grow into men and women.

We have imported a line of shoes especially made for school children. They are strong and neat. You will have no reason to complain about the price.

Kindly also bear in mind that we have the finest lines of Ladies' and Men's shoes from the greatest shoe firm in the world.

ATTEMPTS TO RECRUIT JAPANESE.

Steamer Olympia finds few to sail for California--Starving
Japanese appeal for aid--Thousands in North Eastern
Japan Suffer for want of food.

AN APPEAL FOR HELP.

From time to time we have published telegraphic dispatches relative to the famine stricken district of North East Japan and now publish the following at the request of the editor of the Hawaii Shinpo.

Americans generally do not realize the terrible famine conditions which induced President Roosevelt to urge subscriptions for the relief of sufferers in the North-East of Japan. Were this region one accessible to, or frequented by, the correspondent and artists of the great newspapers of the land, there would be articles and illustrations which would shock the world like the awful scenes sent forth from the last great famine in India. In Japan, as there, are women and children starving and freezing to death. There are thousands and thousand of families unable to obtain food to maintain life and unable to protect their shrinking bodies from the cruel cold of an unusually severe winter. There might be pictures, as there were from India, of slowly dying mothers giving of their last strength to

thin, suffering babes at the breast, or whole families might be shown huddled hopelessly in their unwarmed homes--dependant upon what more favored people of earth can send to their district to help them, until nature shows a more kindly spirit. Snowcovered grounds where the able bodied would work if they could and these, together with the aged, the cripples, the women and the children--there are from twenty-five to forty thousand sufferers all--have no hope but that the human charity that always is ready to respond to real suffering will be informed of their dire need. In this emergency, all over the civilized world--and especially in more fortunate parts of Japan--efforts are being made to secure funds for the stricken districts. Honolulu is asked to help.

The spectacle of a single woman, a single child, freezing or starving to death, if close at hand, would be, enough to melt the heart of anyone seeing it, enough to stir him to the most earnest, even frantic, efforts to give relief. In this case there are thousands so suffering, and they are not a bit the less real because they are a long way off. Set those who have the imagination picture the terrible scenes in those luckless homes in Japan, and they will be sure to respond to the appeal for help.

As showing the conditions that exist the following extracts are quoted from the Japanese press:

"Enough has been said of the distressing cases of starvation, they are many but I will give one or two in the village we are giving relief in a family of seven living in a shed--no window,--all laying in straw on the bare earth. The aged father a cripple, the mother blind, a son farm laborer with wife and three young children. Husband unable to work in the land because of deep snow. Another family also seven in number, living in a hole dug out of the hill side, about 7x6 feet, four and half in height, a little lean--to roof or kitchen 3x6 feet. The whole family huddle together in this hole. Needless to say the poor mother and children look like sick patients; the eldest boy of 12 is ill with consumption, the man's name is Sakuma Kishiroku. Further up the hill most piteous cases are everywhere. It is a wonder how people live under such circumstances. In nearly all cases one finds a child hanging on to the mother's breast, the poor mother, still full of smiles, giving her very life to feed her child. Another case, an old mother aged 73 with grandchildren; the mother had died two days before I arrived in the village. She left her aged mother with a son age 18 perhaps a life invalid unable to walk. A girl of 20 the only one able to work.

They lived in a shed, nothing to lay in except straw matting and between the lot two filthy dirty old futons. The whole space which the four had to live in was not more than five mats. The name of these people is Suzuki. I could go on telling story after story but other besides myself have found the same state of things over and over again. What are we doing to help?

"Very careful investigations have been made and it is found that in these three provinces there are from 25,000 to 40,000 sick and aged persons and helpless children, not one of whom can support himself by his own labour and who must be helped for some months whether it snows or not and no matter if the weather is cold or hot. But how bitter is their lot in this severe winter."

Columns might be filled with such descriptions of the present conditions. Surely Hawaii will help to give relief. Subscriptions will be received by the Hawaii Shinpo and transmitted, as may be desired by the donors.

C. SHIOZAWA.

ATTEMPTS TO RECRUIT JAPS.

The steamship Olympia arrived off Kahului harbor last Friday evening and attempted to take a load of Japanese to California that were supposed to have been induced to go through the efforts of two Japanese agents from Honolulu.

The steamer was about the island for some days but failed to find any number of men dissatisfied with their lot and willing to venture where labor troubles would soon become so acute as to render it difficult for them to work and would surely lead to the passage of such stringent labor laws that not only would the Japanese now living in America be affected but those who live here or wish to come here to labor would be under the same restrictions.

The failure of the Olympia will prove a source of satisfaction to all those in America who have the interests of the laboring men of America at heart as well as those who wish to see the islands prosper and realize that labor other than white are necessary here in the tropics.

THE CIRCUIT COURT IN SESSION.

Promptly at 10 o'clock on the 14th inst the Circuit Court of the Second Circuit began its session with Circuit Judge A. N. Kupoikai presiding. For good and sufficient reasons two grand jury men A. Alberg and Wm. Nawai were excused from duty. David L. Meyer, was appointed foreman of the jury and after the usual charge to the jury touching upon their duties and needs of the community they retired to a room in the new Jail. They were waited on and assisted in their labors by Deputy Attorney General Wm S. Fleming.

The most of the offenders seem to be Porto Ricans and there are a member of Koreans who will have to answer for their misdeeds. Jardim who is charged with rape has forfeited one thousand Dollars bail and a bench warrant was issued for him.

The case of the Territory of Hawaii vs. Ko Zee called for some caustic comments from the bench on account of a noli pros. having been agreed to at a former term.

After the battle Wood claims that many of the Moros feigned death and killed members of the hospital corps who were succoring the wounded.

SATURDAY, MAR. 17, 1906

Good Tidings. The trip of Superintendent Holloway of the Public Works Department is a matter of much interest to all the people of Maui, and especially to those of Lahaina and Central Maui.

The Superintendent made the trip primarily to investigate the proposition to buy water rights for Lahaina and furnish the town with an abundant supply of Good water in accordance with the wishes of the last legislature as expressed by their appropriation of funds for that purpose.

The purchase of water will be a distinct loss to the plantation but they are willing to assist the residents and sell what is gold to any plantation.

The Lahainaluna School will then be enabled to use their taro lands and will save about three thousand dollars per year in the purchase of poi alone. While the Superintendent will inspect the Punhele Kibei's road, McGregors Landing and the Iao Valley road.

Undesirable Immigration. The movement of the Japanese toward America is one of the most unwise things the Japanese could possibly do and will shortly make their living not only there but in the insular possessions impossible.

Fair Play and no favors. In a recent issue of the Advertiser the following appears in the editorial columns "Listen for the howl of the members from Hawaii, Maui and Kauai when the Legislature is asked to appropriate for the support of parks in Honolulu."

The taxes have been collected in the past to support Honolulu. The men elected to the legislature should stand together and see that she gets her just share and no more.

A Lahaina Hero. Last week we published a short account of a rescue from death by drowning in the angry sea of a Japanese by a brave Hawaiian by the name of Kuaiwa.

Kuaiwa should receive some recognition of his brave act and should know that his efforts are appreciated. To swim into the breakers after all efforts to propel a boat into the angry surf had proven futile and fight for hours in the heavy surf for the life of a crippled and almost helpless person at the risk every moment of losing his own life required a nerve that few men possess.

On first hearing an account by phone of the occurrence we suggested that this matter be communicated to Delegate Kalaniana'ole with the request that steps be taken to have the United States government acknowledge the heroic act by the presentation of a suitable medal as is given in just such cases.

Sudden Death of Clarence White.

Clarence M. White, chief clerk of the Public Works Department, died last evening at his residence, 1417 Makiki street. Mr. White was suddenly stricken about 8 o'clock and immediately became unconscious. At 8:20 he was pronounced dead by Dr. C. B. Cooper, who had been summoned immediately after Mr. White was taken ill. Death was due to rupture of a cerebral blood vessel.

The news of Mr. White's death spread quickly and was given out in various lodge meetings, the deceased being prominent in secret societies here. Representatives of the various organizations to which Mr. White belonged immediately went to his home and arranged to hold the funeral on Thursday afternoon at 3 o'clock from the Masonic Temple under the auspices of Oceanic Lodge No. 371, A. F. & A. M.

Mr. White has been a sick man for several years and while cashier of the Oahu Railway & Land Co., was compelled to give up his office work and seek health in work which was less confining. Of late he seemed to be in pretty good condition. At all times he was cheerful and was always interested in public affairs.

Clarence M. White was born September 2, 1848 at Maumee City, Ohio. He received a common school education there and afterwards attended and graduated from Phillips Academy in Massachusetts. His ambition to take a college course was never gratified. He was of a literary turn of mind and became a student of English literature and history, in both of which studies he was quite advanced. This opened up for him a career as a school teacher, and he went west and taught for several years in California. He also held several elective offices. He came to Hawaii in 1879 and taught school in Hilo, Hawaii; Hamoa, Maui, and Kapaa, Kauai. Coming to Honolulu he was a bookkeeper with Macfarlane & Co., and afterwards became chief bookkeeper and cashier for the Oahu Railway Co. He was appointed chief clerk of the Public Works Department by H. E. Cooper, then the Superintendent of Public Works, which position he held at the time of his death.

The deceased was a Past Master of Oceanic Lodge No. 371, A. F. & A. M.; Chancellor Commander of Oahu Lodge No. 1, Knights of Pythias; Worthy Patron of Lele Aloha Chapter, Order of the Eastern Star; and as an 18th degree Mason was a member of Rose Croix Chapter.

He was married on January 16, 1888, to Miss Ettie Spring, sister of the wife of Henry Davis. He leaves besides the widow, five children, the eldest fifteen years of age.

President to aid Ship Bill.

WASHINGTON, February 24.—Representatives Myers of Wisconsin and Humphrey of Washington, both of whom are members of the House Committee on Merchant Marine and Fisheries, and also of the Congressional Merchant Marine Commission, had a conference with President Roosevelt to day concerning the ship subsidy bill which convinced them that the President will lend his hearty support to that measure in the House. The two members say they were assured by the President that, in his opinion, the subsidy bill is second only in importance to railroad and Panama canal legislation.

Judge Humphreys and Soda Stand Prescriptions.

"Every drug store in Honolulu is violating section 1095 of the Revised Laws of Hawaii for 1905 in permitting Chinese boys to serve their soda water stands from which bromo seltzer is dispensed," said Judge A. S. Humphreys yesterday. "I know this because I have ascertained by personal observation that the Chinese boys, who are not licensed, are dispensing a dangerous drug to the patrons of these stores."

This is one of the laws which was passed by the Legislature at the instance of a well-known druggist, who, it is said, wished to keep a competitor from engaging in similar business on a corner opposite his own.

The law as passed by the Legislature providing only for licensed pharmacists to dispense drugs is as follows:

"Section 1095. License Required. It shall be unlawful for any person not licensed as a pharmacist within the meaning of this chapter to conduct or manage any pharmacy, drug or chemical store, apothecary shop, or other place of business for the retailing, compounding or dispensing of any drugs, chemicals or poisons, or for any person not licensed as a pharmacist or assistant pharmacist, within the meaning of this chapter to compound, dispense or sell at retail any drug, chemical or poison upon the prescription of a physician, or otherwise except as an aid to or under the immediate supervision of a person licensed as a pharmacist under this chapter. And it shall be unlawful for any owner or manager of a pharmacy, or drug store, or other place of business, to cause or permit any other than a person licensed as a pharmacist or assistant pharmacist to compound, dispense or sell, at retail, any drug, medicine or poison, etc."

The penalty provided for a violation of this section is a fine, upon conviction, of not more than five hundred dollars, or imprisonment at hard labor for not more than three months. The section requiring the pharmacist to be a graduate of a pharmacy school, is 1103.

Judge Humphrey points to bromo seltzer and caffeine as two of the drugs which druggists permit their Chinese soda-water fountain attendants to dispense to whomsoever calls for them. Both are an acetanilid and a deadly poison.

"On the bottle of each of these nostrums," says Judge Humphreys, "the dose is prescribed, but the Chinese boys at the various soda fountains never take the time or the trouble to measure out the dose indicated. They simply pour out from the bottle into the glass what they guess is 'about right.' To illustrate: I dropped into a drug store the other day and asked the Chinese boy at the fountain for a dose of bromo seltzer. He seized the bottle and poured into a glass what I, by actual measurement, on the spot, found to contain a little more than four teaspoonfuls—enough to have laid me out in ten minutes. I have had similar experiences at other fountains.

"Collier's Weekly says. The full dose of this preparation (as prescribed on the bottle is a 'heaping teaspoonful.' A heaping teaspoonful of bromo seltzer means about one grain of acetanilid. The United States Pharmacopoeia dose is four grains; five grains have been known to produce fatal results. The prescribed dose

of bromo seltzer is dangerous and has been known to produce sudden collapse.

"What right have the druggists to leave the administration of these poisons to the haphazard guesswork of the boy at the fountain?"

Collier's Weekly has been making a strong crusade against certain nostrums under the title of "The Great American Fraud," and acetanilid has been one of the poisons against which it has directed some of its attacks.

While the Board of Health has been directing its efforts to have certain of the drug and druggist laws enforced upon Asiatic dispensers, this law with reference to other dealers has been overlooked.

To Bar Out More Aliens.

Washington, Feb. 15.—Senator Dillingham, chairman of the Senate Committee on Immigration, to-day introduced a bill making a number of changes in the immigration laws. It proposes to exclude all alien imbeciles and feeble-minded persons and persons not comprehended within any of the classes now excluded by law, "who are certified by the examining surgeon as being mentally or physically defective, such mental or physical defect being of a nature which affect the ability of such alien to earn a living"; aliens who admit having committed a felony or other crime, or who admit their belief in the practice of polygamy; women or girls coming into the United States for any immoral purpose; children under 17 years of age who are unaccompanied by parents, unless coming to join parents, brothers or sisters already in the United States. An attempt to land an alien not duly admitted is made a misdemeanor, instead of an unlawful act, as at present.

The provision of the present law which imposes a fine of \$100 on steamship companies for bringing persons afflicted with a loathsome or a dangerous contagious disease is extended to include idiots, imbeciles, feeble-minded persons insane persons and epileptics. It is also provided that masters of vessels carrying aliens from ports of the United States to foreign ports shall furnish complete descriptive lists or manifests of all outgoing aliens.

President Sends To The Cubans.

Havana, February 24.—President Roosevelt's letter to President Palma tendering his thanks to the Cuban Congress for its generous wedding gift to his daughter, said that the sentiments dictating the splendid gift were even more beautiful and more highly appreciated than the present itself. "Neither you nor any other citizen of Cuba," President Roosevelt added, "can rejoice more than I over the marvelous progress and prosperity of the Pearl of the Antilles. Since she has taken her place among independent nations the republic of Cuba has maintained peaceful relations with foreign nations, conserved order at home, demonstrated a most generous spirit toward her soldiers who fought for independence, provided ample means for education, constructed public works and developed her great natural riches through the rapid progress of her people."

The letter concludes: "With the heartfelt felicitations of your friend and admirer of your country."

MILLION LOST IN CAR SHOP FIRE.

Moncton (N. B.), February 24.—The Canadian Government sustained a loss of \$1,000,000 by a fire which destroyed practically the entire plant here of the Intercolonial Railway in this city to-night.

The Intercolonial Railway is owned by the Government, and the headquarters of the entire system are located in this city. More than one thousand persons are thrown out of employment, and the officials of the road state that the system will be badly hampered for many months as the result of the fire.

More than 100 passenger coaches and freight cars in the shops and on sidings, and a large amount of costly machinery in the buildings, were destroyed. One of the coaches burned was the private car of Earl Grey, Governor-General of Canada.

The station and the large general offices of the railroad were saved.

To please every body.

The Hilo Herald has recently changed hands and is now edited and managed by Mr. J. U. Smith, whose political status is a most questionable one and needs only a populist twist to make it complete. We quote his first editorial as published in the "Herald of last week.

In "butting" in to the journalistic field I am entering upon a new phase of life. Having always regarded newspaper work as a snap, I was dumfounded at the cry by the compositors for fourteen columns of "copy," when it always seemed to me that about half a column of "editorials" would be all that an "editor" would have to provide. This is truly a strenuous life. I shall do the best I can, however, and if anyone is dissatisfied I will do better than that. For my place in politics I shall have to quote Justice Chilton A. Galbraith, who introduced me to speak at a banquet in Honolulu, just after my election as District Attorney for East Hawaii on the Home Rule ticket. He truthfully said: "Smith is a democrat by birth, a Republican by affiliation and a Home Ruler by promotion." This statement of my political status ought to satisfy the most fastidious. Those looking for "roasts" will be disappointed. I shall not use the columns of the Herald to vent personalities, but shall try to build up, further, its reputation for truth. The editor and manager of the Tribune are my warm, personal friends and former schoolmates, and I sincerely hope our friendship will be brightened by journalistic rivalry."

Pinkham Waging War Against Mosquitoes.

"I don't hear so much about the pest of Mosquitoes now," said President Pinkham of the board of health yesterday. "We are still carrying on the war. You will understand that it is carried on at a considerable expense of worry as well as of money, because I have not a cent from the Territory to do the work—and the matter of getting the money is about as hard work as getting the mosquitoes. "I'll tell you how I do it: We are gathering up all the old cans in town,

The County allows me the horse, and I had an old wagon here which I fixed up. Well, I found that when I had the horse, I could not get feed enough for him, and so I instructed my man to buy oats, and I pay for that out of my own pocket. Fearful Punishment was Meted Out To Korean.

Hilo, March 7.—The Korean who was tortured to death by nine other Koreans at Kukulau December 23, undoubtedly underwent the most diabolical torment ever perpetrated on any human being in these islands. This man was an inveterate gambler and an unlucky one. When his losses had continued until he had no more money, he stole \$56 from his sleeping mate and taking this money lost it. When the robbed man discovered his loss he told some of his friends and their suspicion at once fell on the Korean who is now dead. Nine of them got this man and after beating him with sticks, secured a confession. He said he had taken the money and it was hidden in a graveyard. They went to get the money and finding they had been misled, commenced punishment the thief, using the most fiendish means conceivable.

The form and manner of this punishment was learned only recently through a confession made to Criminologist Doyle, who has been here working on the case the past three weeks. According to the confession, after disrobing the man they hung him up by his hands and taking thorn sticks, saws and knives, they hacked at his body until he was a mass of bleeding sores. All the time while administering this punishment they were particular to not strike a vital point, as they wanted to prolong the misery as much as possible. After continuing this punishment for some time the man finally fainted. They then gave him wine to revive him. When he came to, one of them maliciously conceived the idea of giving the man a bath in soy, which, when it touches a sore, causes excessive pain. This was done. Not content with this they eventually secured an iron and after heating it to a white heat they seared parts of the body. All of this time they continued giving the victim wine whenever he became unconscious, so as to resuscitate him, that he might be conscious of all of the infernal torture. Finally, as a conclusion to the anguish they had kept the unfortunate in for four hours, they covered him with dry leaves and set fire to them. They then left, and coming back an hour later found he was dead. The body was buried, but one of them becoming terrified with his recollections of the heinous crime, told the manager of the plantation. The arrest of the nine men followed and they have been in jail here since. They have been examined by the Grand Jury now in session and it is likely an indictment will be returned Wednesday. They will then be tried at once before the Circuit Court, Attorney Milverton prosecuting. It is claimed that these will be the first Koreans ever tried for murder anywhere under the United States Government. On this account, and the fact that there are so many implicated, gives more interest in this case than any ever tried.—Bulletin.

Peace Reigns in the Yerkes Mansion.

NEW YORK, February 26.—The Journal announces the complete reconciliation of Wilson Mizner and his bride, formerly the widow of Charles T. Yerkes. According to the Journal, Mrs. Yerkes-Mizner gave a dinner tonight at the Hotel Netherland during which she looked lovingly into the big blue eyes of her athletic young husband.

"It was all a conspiracy to separate us, but it failed," Mrs. Yerkes-Mizner said in an interview. "They told me all sorts of dreadful things about Wilson," she added, "and foolishly I credited them until I started an investigation and found they were all false. We never were separated. We had a little quarrel, it is true,

but I love him and I have found out he is not so black as he has been painted. He was always good to me. The stories that he abused me and we quarreled over money matters are absolutely untrue. He never asked me for a cent, either before or after our marriage, and gave me only what I have found to be the best of advice in regard to financial affairs. All I have is his if he wishes, for I know that but for him I might be put in a position where the very roof could have been sold over my head."

From a friend who was present at the dinner it was learned later that Mrs. Yerkes-Mizner had discovered in the scheme to separate her from her husband a plot involving millions. Mrs. Yerkes-Mizner believed her husband, Wilson Mizner, saved her from great loss by his advice.

She is reported to have said: "I have not had much experience in the

ways of the world, and I believed it would be better for me to do as I was told and withdraw as trustee in order to save myself all the trouble and work that the office would bring upon me. I was told that it meant only signing away 1 per cent. That conveyed no meaning to me and it was only when I asked the advice of my husband I learned that it meant a sum of at least \$75,000 a year, providing the estate was worth only \$10,000,000 and not \$50,000,000, as I believed.

"Then I consulted one of the best lawyers in New York. On his advice I hastily revoked my decision to withdraw. I was only just in time. Two days more and I should have been out. I have had terrible experiences. Three persons in Chicago, one here and one in Philadelphia have been nagging me and trying to persuade me to go out, but luckily I withstood them all. I must however, thank Wilson that I escaped.

"At first I doubted him. I kept receiving such awful reports about his past career that I was almost frantic. I started an investigation of my own and found the stories had been vastly exaggerated."

Mrs. Yerkes-Mizner declares the known value of the estate is increasing daily because of discoveries of valuable property hidden away by Yerkes.

"Why, we are finding more money belonging to the estate every day. "It is reported she said, "For example, only yesterday I discovered some keys to safe deposit vaults that had been hidden away by Yerkes that I am sure will add millions to the value of the estate. Already we have found clues to large sums in England, and goodness knows how much more we shall find before we are through."

Banquet To Oregonians.

The dinner given by the members of the Promotion Committee at the Moana hotel in honor of the visiting Oregon girls was a most enjoyable affair. Covers had been laid for twenty four guests, the long tables being tastefully decorated with red and white chrysanthemums and malle wreathes, red shaded candles being disposed along the length of the table. Dainty white Hawaiian fans were distributed as favors.

The guests were Mrs. Weatherred, Mrs. McCandless, Mrs. E. I. Spalding, Mrs. F. C. Smith, Mrs. U. C. Blake, Miss Florence Heaven, Miss Molly Proebstel, Miss Emily Crosson, Miss Effie M. King, Miss Bertha Courtemanche, Miss Katie E. Nash, Miss Edna Parstey, Miss Ena Waldron, Miss Blanche Brown, Miss S. Madigan, E. I. Spalding, J. A. McCandless, F. C. Smith, H. P. Wood, A. Gartley, F. L. Waldron, H. H. Tomkins, R. C. Matheson and H. W. Kinney.

The health of the visitors from Oregon was proposed by Mr. Spalding and responded to by Mrs. Weatherred, who said that the conventional thanks in response to a toast was not to be included in the thanks that she and the young ladies under her charge desired to give to the members of the citizens of Honolulu for the favors with which they had loaded them. Their visit had been made pleasant in every possible way and it was well worth seasickness every day for six days to meet with such hospitality as had been shown them here. When they returned to Oregon they hoped to be able to do something for Hawaii in return and the young ladies had thought of some practical way of showing their thanks. Each one was going to be a promotion committee of one to boost Hawaii and the Oregon people and the Oregon press were to be asked to cooperate in the plan of having the Volcano set aside as a national park, something that would help in bringing tourists here. She would like to see a railway run from Honolulu to Portland, but as this seemed even beyond their power a direct steamship line bringing about an exchange in products and swelling

Still Raiding the Kauai Gamblers.

The gambling fraternity has been very careful in its movements since last court term; the vigorous way in which the last grand jury tried to throw light on the proceedings of the hui, that carried on a profitable business on Kauai, gave the men conducting the transactions a shock. As long as the result of being caught was simply a money fine, they didn't trouble themselves much about covering their tracks; they could easily recuperate afterwards. But when the sentences commenced to take the form of a sojourn in jail, the affair took on another aspect, and precaution became a necessity.

That is probably the reason why arrests for gambling have been rather scarce in the last three or four months. Of late the fraternity has become more confident and gone to work with less secrecy, and the result has of course been the inevitable one—arrest.

Captain of Police Gardner had noticed a suspicious preference for the neighborhood of Niunualu as a place of promenade among the Chinese residents of the district and therefore determined to ascertain what the attraction could be. Sunday night he took two of his police officers along and proceeded to investigate. Down by the fish pond he found a house that seemed to be the rendezvous of the celestials, and placing one of his men as a guard at the foot of the stairs he and his other man quietly ascended to the lodge room. The fifteen Chinese, gathered in the room, seemed to be much more interested in the game of fantan at the moment in progress than in any possible interruption. Captain Gardner, recognizing that the rule of duty before pleasure applies to his work as well as in other lines, put courtesy aside, and got busy securing the inmates of the room. He succeeded in gathering in fourteen out of the fifteen speculators in chance, one alone preferring to take the risk of breaking his neck by jumping out of the window to the ground fifteen feet below to the possibility of enforced board and lodging in Sheriff Henry's hotel. The Captain took fifteen dollars bail from each as a security for their appearance in court the next day and let them depart.

Thirteen of the unlucky devotees of fantan turned up before Judge Kawi Monday morning and were fined six dollars each. The fourteenth one forfeited his fifteen dollars rather than take a chance of more serious consequences.

William Dunbar Seriously Ill.

On Thursday morning William Dunbar was stricken with paralysis at the Wailuku Hotel and is considered in a critical condition. Mr. Dunbar came to Maui about two months ago and entered the employ of the Wailuku Sugar Company as a concrete expert. During the short time he has been here he has made many friends. He was taken to the Malulani Hospital and placed under the care of Dr. R. H. Dinegar.

Kinross Overdue.

The Kinross from Chill with illiatis is now twenty five days over due and much anxiety is felt for her as severe storms have raged the northern part of the torrid zone of late. A tug was dispatched some days ago to search for her and after two days search returned with no tidings of her.

More Or Less Pungent.

A Pertinent Question.—In a North of England college a student greatly annoyed the professor of natural sciences by asking frequent and foolish questions. One day, after he had interrupted the lecturer several times with irrelevant remarks and questions, he asked, "Professor, how long can an animal live without brains?"

"Well," was the professor's reply, "I really don't know, Mr. F.—How old are you?"—Tit-Bits.

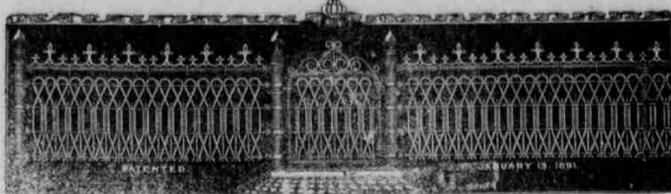

Proud Moment.—Mike "Oi her yez wor foined foive dollars fer assault ing McDooley." Pat: "Oi wor; an' it wor a proud momint whin Oi hur rdth'sintince, b'gorry!" Mike: "Pfat's th' rayson av thot?" Pat: "Faith, an' it show'd which av us had th'best of th' contist."—Detroit Tribune.

Getting Even.—During the South African War, when that country was under martial law, every letter which was sent home had to pass through the hands of the Press censor. A private in the Yorkshire Volunteers had sent four or five letters home, telling his parents about the doings of the regiment, which portions had been obliterated by the censor, and were therefore unreadable on their arrival at the destination.

He decided to get square with the censor's and at the foot of the next letter he wrote the following words: "Please look under the stamp." At the censor's office the letter was opened and read as usual. The officer in charge spent some time in steaming the stamp from the envelope so that he could read the message which he was certain he would find there.

At last his patience was rewarded; but his feelings can be better imagined than described when he read these words: "Was it hard to get off?"—Tit-Bits.
