

HOUSE GIVES US FEDERAL BUILDING

Lopez' Long Escape Ends Bloodlessly

CAPTURED AT EWA THIS MORNING BY JOHN LEAL AND DEPUTY FERNANDEZ AFTER EXCITING CHASE—A GAMBLING FIGHT PROVED HIS RUIN—FIVE MONTHS AT LIBERTY—SHERIFF IAUKEA CONGRATULATES OFFICERS—PRISONER IS CHEERFUL

Having enjoyed nearly five months of freedom after his last break from jail, Frank Lopez was this morning captured in a gulch mauka of the Ewa plantation mill, by Special Police Officer John Leal, Deputy Sheriff Fernandez and three assistants and was brought to the city on the 1:40 train this afternoon by Fernandez and Leal and driven at once to the sheriff's office where he was met by Sheriff Iaukea and Chief of Detectives Taylor.

(Continued on Page Five.)

IS COUNTY LIABLE?

JUDGE KEPOKAI SENDS A QUESTION OF COSTS UP TO SUPREME COURT.

Judge Kepoikai has passed an interesting matter up to the Supreme Court for a decision. It came up in the case of Frank Robello vs. the County of Maui, in which judgment was given for the plaintiff. Then came the matter of costs, which would naturally be assessed against the loser. Not being certain of what should be done in this matter, Judge Kepoikai, by an agreement with the opposing attorneys in the case, has passed the following question up to the Supreme Bench for a decision, reserving his own decision in the case till he hears from Honolulu: "Is the County of Maui liable for any costs in a suit brought by a private individual, said county being the losing party and if so, to what costs?"

GOOD RUN OF TAXES

IT IS EXPECTED THAT COLLECTIONS WILL LARGELY EXCEED LAST YEAR'S.

There was a good sized crowd around the windows of the Tax Office all this morning. Yesterday's record was a very good one, \$80,210.49 having been taken in by the office force, which made a total of about \$195,200 for the present month. It is expected that about \$90,000 will be collected today and the office will remain open till 9 o'clock tonight, and even later if there is business to be transacted.

The taxes have been coming in much better this year than last. Up to May 13 \$159,000 had been collected during the year, while in 1907 the amount for the same period was only \$116,000. The total for last year up to May 15 was about \$287,000, while this year it will be considerably over that. It should be understood that these figures simply refer to the district of Honolulu and not to the Territory.

A Fifty Cent Tin of glucose will catch all the mice, rats and cockroaches in your house. Honolulu Candy Co.

MIGHTY MORTARS BROUGHT ASHORE

FIVE MONSTER SHELL-SHOOTERS SUCCESSFULLY LANDED FROM STEAMSHIP HILONIAN THIS MORNING—SHE WILL BRING REMAINDER OF DIAMOND HEAD ARMAMENT NEXT TRIP—MORE SHELLS ALSO TO COME UNDER SHIPPING CONTRACT.

The Matson Navigation Company's S. S. Hilonian, Captain Peter Johnson, will live in local history as the boat that brought Oahu's first great guns. She has the contract to bring everything to make the fort behind Diamond Head complete and her next trip from the Coast will bring the balance of the armament, except shells, and shipments of the latter will continue indefinitely, for at least a thousand shells are to be landed here. Some will be used in a month or so for target practice and the cruel looking mortars will be popping 1100-pound shells over Diamond Head, over the Honolulu harbor and over of Koko Head, for five or six miles out, smashing targets, as soon as things are in shape.

A splendid job was today made of landing the five mortars brought by the Hilonian and great credit is due Captain Peter Johnson and First Officer Charles Peterson and all others concerned. Early this morning the Hilonian started to get out the 200 tons of armament. There were five fifteen-ton guns, two

DR. KOCH IS HERE

WORLD'S LEADING BACTERIOLOGIST AMONG PEOPLE ARRIVING IN THE S. S. KOREA.

Most prominent among the passengers for Honolulu aboard the P. M. S. S. Korea, arriving from San Francisco this morning, is Professor R. Koch, one of the world's greatest bacteriologists. He is accompanied by his wife, Dr. C. D. Langhorne, U.S.N., and Mrs. C. D. Langhorne, arrived, the doctor coming to relieve Dr. Smith, U.S.N., at the local Naval station.

Mrs. R. C. Brown, Miss Heiene Brown and Master Arthur Brown, Mrs. George P. Castle, Mr. and Mrs. C. F. Clemons, Mr. and Mrs. A. J. Fairweather, F. Klamp, S. S. Litchfield, Captain J. K. Parsons, U.S.A., Miss Grace Spaulding, Mrs. M. E. Tenney and Mr. and Mrs. A. A. Young are other arrivals.

J. Morton, Jr., and Mr. and Mrs. R. T. Winston are bound for Hongkong and are stop-overs here. Professor and Mrs. R. Koch are en route to Yokohama and will visit here a few weeks.

IMPREGNABLE HONOLULU

With an hundred great guns bristling from nature's ramparts back of the city—with the opportunity of purchasing anything that you wish. Now we are on the brink of great prosperity, you can get a glass of Tansan anywhere. From hotel man or grocer or restaurant or druggist or fixologist the impregnability will come in time, but you can drink Tansan now.

AN ENTERPRISING MERCHANT
K. Yamamoto is the biggest importer of Japanese goods in Hawaii. Every steamer from the Orient (tramp or passenger) brings him the largest shipment consigned to one firm. By getting his goods in large quantities the freight and other charges are greatly reduced which enables him to undersell all competitors.

CALIFORNIA FOR TAFT

SACRAMENTO May 15.—The state convention has instructed the California delegates to the Republican convention to vote for Taft. Knight, M. De Young, H. A. Melvin, and Jacob Neff, are the California delegates.

Robertson Will Go

Contrary to a statement published this morning, it is highly probable that A. G. M. Robertson will leave next week for Chicago, to attend the Republican National Convention as one of the two delegates from Hawaii, assured of seats, the other one being Delegate Kuhio.

Meantime the following cablegram was sent to Delegate Kuhio this morning by the Chamber of Commerce and the Merchants' Association:

"Robertson Delegate National Convention cannot leave. No steamer accommodation. Shipping law responsible."

Next Thursday night, the second Red Cross lecture will be given at eight o'clock in the Sunday school room of Central Union church, by Dr. Sinclair, who will speak on "Cholera." Every one is cordially invited to be present.

LINGERING COUGHS.

Persistent coughs that continue through the spring and summer usually indicate some throat or lung trouble, and it is a serious mistake to neglect them. Chamberlain's Cough Remedy is famous for its cures of coughs of this nature and a few doses taken in time may save a doctor's bill and perhaps years of suffering. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

Bill Passes With \$850,000 For Honolulu

Washington, D. C., May 15.
MOTT-SMITH, Honolulu.
Public Buildings bill passed House. Honolulu goes \$850,000.
KUHIO.

This cablegram was received today from Delegate Kuhio and brings the welcome news that a Federal building for Honolulu is practically assured. The bill will have to be passed by the Senate and signed by the President before becoming law, but it is understood that there is little doubt of quick action from these sources. The only manner in which it might be blocked is through a rumored threat of President Roosevelt that unless his wishes in regard to the appropriation for four battleships were acceded to he would veto the building bill. It is hardly thought that this is even a remote possibility.

The original estimate made for a Federal building here called for an appropriation of \$500,000. This was afterward increased to \$750,000 and finally to \$850,000, and has passed the House in the latter form.

THE FIGHT ON KOKI OPPOSE A SALOON

POST OFFICE EMBEZZLEMENT CASE CAUSING MUCH TECHNICAL DISCUSSION IN COURT.

There was no testimony taken before the jury in the trial of Moses Koki, charged with embezzling from the postoffice funds, in the Federal Court this morning. Two objections, entered by the defense, were argued before Judge Dole, Postmaster Pratt, being called in to give evidence in regard to the custom here as to the handling of Postoffice funds. The reason for this is that the conditions here are such that the strict rules, in relation to the forwarding of money to the main office are not followed out in the same manner as on the mainland.

It was held by the prosecution that if Koki failed to forward the funds that he had on hand by the first steamer leaving for Honolulu he was guilty of embezzlement. On account of the fact that steamers for Honolulu do not leave every day and that for this reason even in Honolulu it is not the invariable practice to forward funds by every steamer leaving for the Coast, Judge Dole held that Koki's not sending the money by the first steamer would not make him guilty of embezzlement. In this matter he sustained the defense.

In the matter of the second objection it was claimed by the defense that the letter of Koki in regard to his remittances to Postmaster Pratt, was in the nature of an admission and that therefore it could not be introduced in evidence.

IN THE CIRCUIT COURT OF THE First Circuit—Territory of Hawaii.

In Probate—At Chambers.
In The Matter of the Estate of Andrew Brown, deceased.

Before Judge Alexander Lindsay, Jr. Order of Notice of Petition for Allowance of Final Accounts and Discharge in this Estate.

On Reading and Filing the Petition and accounts of Cecil Brown Executor of the will of Andrew Brown, deceased, wherein he asks to be allowed \$600.30 and he charges himself with \$5412.86 and asks that the same may be examined and approved, and that a final order may be made of Distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such Executor.

It is Ordered, that Monday, the 15th day of June A. D. 1908, at nine o'clock a. m. before the Judge of said Court at the Court Room of the said Court at Honolulu, Island of Oahu, be and the same hereby is appointed as the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property. And that notice of this Order, in the English language, be published in the Hawaiian Star newspaper, printed and published in Honolulu, once a week for three successive weeks, the last publication to be not less than two weeks previous to the time therein appointed for said hearing.

Dated at Honolulu, this 7th day of May 1908.

ALEXANDER LINDSAY JR.,
Second Judge of the Circuit Court of the First Circuit.

Attest:
JOHN MARCALLINO,
Clerk of the Circuit Court of the First Circuit.

4ts—May 8, 15, 22, 29.

AUSTRALIAN NEWSPAPER MAN'S EXPERIENCE WITH DIARRHOEA.

Mr. S. G. Mathers, publisher of Chronicle, Normantown, Queensland, says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy completely cured me of chronic dysentery from which I had suffered for years. I feel confident that this remedy also saved the life of my infant daughter, who when teething was severely attacked with diarrhoea and was given up by the doctors." For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

Yamada Hatsunosky to Lee Kai, L;

plowed along for a few hundred feet
without turning over. The second en-
gine crashed into the bank south of
the track a few lengths from where
the explosion occurred. Every per-
son on the train has been accounted
for except Engineer Bussy of the sec-
ond engine, who is supposed to be
buried under his locomotive.

Carl Mange, who was riding on the
blind baggage, had to be taken from
the mass of timbers under which he
was buried. His arm and leg were
broken. Fireman George Ebele of the
second engine was badly scalded. Both
were hurried to the hospital in the
police patrol, which was at the scene
of the wreck quickly after the news
was received in the city.

Locomotive No. 2100, in charge of
Engineer Bussy and Fireman Ebele, is
lying on its side south of the track,
the mail car, which was right behind it,
was hurled on its side and badly
wrecked. A cold storage fish car was
next to the mail car and it was smash-
ed into kindling wood.

Following the fish car was the ex-
press car. Only the front trucks of the
express car left the rails. The baggage
car was also derailed, only the Pull-
mans remaining on the track.

Sheriff Charles Henderson, accom-
panied by Deputies Wheeler and Rich-
ards, were quickly at the scene of the
wreck. Under Sheriff Howard Bailey
quickly went there. The police patrol
took Sergeants of Police Sinsel and
Brinton and Chief of Detectives
Charles Bates to the wreck. The of-
ficers at once began an investigation
of the affair. The dynamiting is be-
lieved by the officers to be the work
of some hobo seeking revenge for be-
ing ejected from a train.

Express Messenger J. B. Valentine
was seriously bruised, being badly cut
by a flying grenade. His escape from
death in his car is considered miracu-
lous.

A very clear account of the explosion
is given by Engineer F. W. Lense:

"We were about ten minutes behind
time," said Lense, "and were running
at the rate of about 40 miles an hour.
The line is perfectly straight and we
had a clear track. The first thing I
knew there was a terrific explosion and
my engine was lifted clear of the
track, but quickly settled on the ties
along which it ran for about 300 feet.
I applied the brakes, but not before
the coupling had broken between my
engine and the one following.

"The explosion was one of the most
terrible that I ever heard of, and for some
moments I was unable to hear any-
thing. After applying the air I shout-
ed to my fireman, John Doreng, to
jump, and we both dropped to the
ground as the engine came to a stand-
still.

"I am at a loss to account for the
dynamiting, except that it might have
been the act of a hobo who sought to
get even for having been thrown off
the train at some previous time.

"As soon as I realized the situation I
hastened to the scene of the wreck and
was horrified to find the second en-
gine turned over on its side. A moment
later I ran to George Ebele, En-
gineer Bussy's fireman. He was walk-
ing wildly about with his arms and
hands terribly shattered and the skin
falloffed off. The police patrol re-
sponded and the poor fellow was hast-
ened to the hospital."

The Hawaiian Star

DAILY AND SEMI-WEEKLY.

Published every afternoon (except Sunday) by the HAWAIIAN STAR NEWSPAPER ASSOCIATION, LIMITED.

SUBSCRIPTION RATES:

Local, per annum\$5.00
Foreign, per annum12.00

Payable in advance.

Entered at Post Office at Honolulu, Hawaii, as second class mail matter.

Subscribers who do not get their papers regularly will confer a favor by notifying the Star Office; Telephone 365.

The Supreme Court of The Territory of Hawaii has declared both THE HAWAIIAN STAR (daily) and THE SEMI WEEKLY STAR newspapers of general circulation throughout the Territory of Hawaii, "suitable for advertising proceedings, orders, judgments and decrees entered or rendered in the Courts of the Territory of Hawaii."

Letters to THE HAWAIIAN STAR should not be addressed to any individual connected with the office, but simply to THE HAWAIIAN STAR, or to the Editorial or Business Departments, according to tenor or purpose.

GEORGE F. HENSHALL.....MANAGER

FRIDAY MAY 15, 1908

KEEPING A NAME ALIVE.

Among the visitors to Honolulu last fall was William Kent, of Chicago and California. While here he addressed gatherings in the Central Union church and at the Normal school and made very many new friends. He was welcomed on his arrival by former Governor Carter, who was one of his classmates in Yale. In the last number of the American Magazine, in an editorial on public bravery and modesty, his name is brought up in a most complimentary way.

The editorial referred to compliments District Attorney Jerome of New York for his fearless and sincere actions, then rates Andrew Carnegie, using the expression, "It pays to advertise something you have to sell, but it doesn't pay to advertise something you have to give away." The last man mentioned is Mr. Kent, in the following words:

It is a wise man who understands these things and applies them to his own course of action. Some time ago, Mr. William Kent, whose name has been modestly connected with more movements for public betterment than that of any man I know, became so disturbed by the destruction of the "giant redwoods" of California that he presented a large and very valuable forest of these trees to the government. He proposed to call the park the "John Muir Monument." The President thought it should be called the "Kent Monument." Mr. Kent promptly wrote the following letter, which I have had the privilege to see. It may well close this homily:

"I thank you from the bottom of my heart for your message of appreciation, and hope and believe it will strengthen me to go on in an attempt to save more of the precious and vanishing glories of nature for a people too slow of perception.

"Your kind suggestion of a change of name is not one that I can accept. So many millions of better people have died forgotten, that to stencil one's own name on a beneficence seems to carry with it an implication of mundane immortality, as being something purchasable.

"I have five good, husky boys that I am trying to bring up to a knowledge of democracy and to a realizing sense of the rights of the 'other fellow,' doctrines which you, sir, have taught with more vigor and effect than any man in my time. If these boys cannot keep the name of Kent alive, I am willing it should be forgotten."

SOME IMPRESSIVE FIGURES.

The following figures give an estimate about as near as can be arrived at, of the total appropriations which as now appears will be immediately available to be spent in Hawaii by the time the end of the present session of Congress comes:

Fortifications on Oahu	\$1,100,000
Pearl Harbor work	1,000,000
Hilo Breakwater	400,000
Honolulu harbor	400,000
Honolulu federal building	250,000
Lighthouses	100,000

Total\$3,250,000

Some of these items are a little uncertain, the federal building especially being at this writing a matter of doubt. On the other hand, in addition there are some large contemplated improvements at Fort Shafter and the great sum to be spent here coaling the fleet, etc. The figures are certainly impressive.

THE NATIONAL PUZZLE.

The Vreeland bill, which the House passed yesterday, contains many of the features of the Aldrich bill, over which the Senate spent more time and debate than any other measure of the session. As presented to the House the Vreeland bill had an additional provision extending the basis for currency circulation to commercial credits. It is an emergency measure, but Senate financiers are likely to talk it to death if it is pressed upon them. The currency question is too much for the average member of Congress,—in fact it is whispered that the all-knowing Roosevelt has admitted that it is the exception that proves the rule of his general ability to settle all questions,—but there are a few men who think they know all about it in the Senate and they present a fine spectacle of disagreement. One thing the debate appears to have brought out, and that is, as was hinted at as a great probability at the time, Morgan and the other big men who "saved" the country from panic last fall found the panic a very profitable one to them.

DEFENSIBLE,—FOR THE FIRST TIME!

The guns being imported for Diamond Head are of a type known as mortars among military men, but they are none the less, in the ordinary sense of the word, guns. When they are in place, it will be possible to say, for the first time, that the Hawaiian islands are able to resist attack. Excepting during brief periods when we have had large war vessels in port, there has been no time since annexation when an ordinary second class cruiser could not have taken the islands. The eight mortars of which four are now here, to be installed at Diamond Head, will for the first time make this island to an extent prepared for defenses. They will command the sea in a manner that will make it a risky business for a hostile warship to approach within gun range.

San Francisco is warned by Dr. Blue, the Federal sanitary expert stationed there, that it would be dangerous to drop the defensive operations against the bubonic plague at present, notwithstanding the respite from the visitation. He would have the sanitary work proceed, as it has been carried on, for at least six months from the time the last human case occurred. Moreover, Dr. Blue recommends that the city be made ratproof by concreting all basements. The advice as to sanitation ought to be earnestly regarded in Honolulu as well as in San Francisco, but to make this city ratproof in the manner proposed for that city is unfortunately impracticable. We have not had a legislature in the past which could even be induced, to pass any amendment to the building laws that would disturb the privilege landlords

GUARDIAN IN TROUBLE

STORY OF ILL USAGE FILED IN CASE OF LEON STERLING, A MINOR.

Complaints of cruelty and improper handling of funds are brought out in papers filed this morning in which Sam Kupaehelani asks for the guardianship of Leon Sterling, a student at the St. Louis College, who is a minor and has been adopted by Kanohoku Enos. It is alleged that the parent by adoption has sold property according to a court order and received the sum of \$1,250, but that the bond given in the case is worthless. Also it is stated that she has failed to file any account of the property. Further it is alleged that the boy, who is thirteen years old, has been beaten and flogged with a blacksnake whip till he ran away from home. Judge Lindsay issued an order in the case that Mrs. Enos should file her accounts at once and appear in court to show cause why she should not be removed as guardian.

HILO JAPANESE PAPER.
The Hilo Shimpo Publishing Company has been incorporated with a capital stock of \$5,000, divided into one thousand shares at \$5 each. Of this amount \$4,425 has already been subscribed, being all in very small amounts, with over one hundred stockholders. The equipment of R. Degawa, including buildings, presses, etc. has been purchased for \$2,000 and that of the Hinohe Shimpo Company for \$1,500.

COOKING SCHOOL SUCCESS.
Superintendent of Public Instruction Babbitt has received an interesting report from Principal Nettie Scott of the Holoalua school, Hawaii, of the cooking school which was only

started last February. Mrs. Scott says that she is now teaching Roman History, Partial Payments and Biscuit Making, as her share of the work. Improvements are asked and a list of

COLLUSION IN DIVORCE

DECREE TO UNMARRY A COUPLE IS RIGHTLY DENIED FOR THAT CAUSE.

Justice Ballou is author of a unanimous decision of the Supreme Court affirming the decree of the Circuit Court which denied a divorce in the suit of Peleumoku (w) vs. Makanoete (k). S. K. Kaeo was attorney for plaintiff, the defendant being unrepresented. Following is the syllabus:

"A libel for divorce brought at the instigation and for the benefit of the defendant upon his agreement to pay the plaintiff money is properly dismissed on the ground of collusion."
Here is a portion of the defendant's evidence on which the case was decided, which was corroborated by evidence of the plaintiff:

"I don't mean to defy the law by living with a wahine manuahi. I came here by request of the attorney. After my divorce, I shall marry the woman I am living with. I helped to bring this suit with that object in view. I testified as to my marriage. Was brought here under a subpoena. Have had a talk with my wife that we should get this divorce and then I should marry Kua. I knew my wife was bringing this divorce. I asked my wife before she brought the suit because I felt I was guilty in having deserted her. I offered to help her with money if she procured the divorce."

IN POLICE COURT.

Twelve cases were on the calendar this morning at Police Court, and were disposed of before ten o'clock. J. Alfred Magoon, charged with violating the Board of Health regulations, after several warnings had his case continued until next week. Two drunks netted the Territory \$9. Ke-annu was found guilty of malicious injury, and was sent over for four months, and fined \$1. Omal a Japanese hack driver was fined \$5 for leaving his horse untied. The other cases were continued.

PUBLIC BUILDING BILL HELD BACK

SHIPPING BILL IN GOOD HANDS IN THE SENATE BUT LIKELY TO HAVE STRONG OPPOSITION—INCREASE OF FEDERAL SALARIES IN HAWAII DEFERRED FOR THE SESSION—ADDITIONAL FEDERAL JUDGE LIKELY TO GO OVER ALSO.

WASHINGTON, D. C., May 4.—The Public Building bill is still being withheld by the House leaders, and it will not be brought in until certain other measures have been acted upon.

In order to secure if possible the passage of my shipping bill, I have, on the advice of Mr. Littlefield, had it introduced in the Senate by Senator Piles who is a member of the Committee on Commerce. The bill will be considered by the Senate Committee on Thursday of this week.

Mr. Littlefield went with me in person to present the matter to Senator Frye, who is chairman of the Senate Committee on Commerce, and we were thus able to secure his support for the bill as we had already that of Senator Gallinger. These two men are the watch dogs of all merchant marine legislation in the Senate, and we have been able to secure their consent to this legislation only because the bill had been put into the least objection-

able from while still affording the needed relief. This would seem to fully justify the policy of adopting the amendment in the House Committee in order to make possible the securing of some relief at this time. Even in the present form, there will be some strong opposition to the bill.

The bill to provide an additional Federal Judge for Hawaii has been favorably reported, but it is not probable that it will be passed at this session.

On the advice of some of our best friends, in the committee on territories, we shall let my bill for the increase of Federal salaries in Hawaii go over until the next session. There is some opposition to the bill, and any effort to force it through in the closing weeks of the session would probably result in defeat just as in the case of the immigration bill.

Very truly yours,
J. KALANIANAOLE,
Delegate to Congress.

NAVAL COMMITTEE MAY BE DETAINED

ALL THE MEMBERS DESIRE TO VISIT HAWAII BUT THE POLITICAL CAMPAIGNS MAY PREVENT THIS SUMMER—EVEN SO THE INVITATION FROM HONOLULU COMMERCIAL BODIES HAS BEEN AN EXCELLENT THING FOR HAWAII.

Washington, D. C., May 4, 1908. EDITOR HAWAIIAN STAR:—I have been very much gratified by the action of the Chamber of Commerce and the Merchants' Association in authorizing me to invite the Committee on Naval Affairs to visit Pearl Harbor during the coming summer.

I have received only the most cordial responses to my letters of invitation sent to each member of the committee, and all express their desire to make the trip and to gain more personal knowledge in regard to the new naval base which is now to be established.

Owing to the Presidential and Congressional campaign, it now seems very doubtful whether the committee will be able to carry out its plan of a trip

to the Pacific coast and islands during this summer. If by the end of the session it is found that a sufficient number can get away, the trip will be arranged; otherwise it will be deferred until the next summer.

It has however been an excellent thing for Hawaii, to have extended the invitation for this summer, even though the trip itself be deferred. We shall be asking the Committee for another large appropriation for Pearl Harbor at the next session of Congress; and a committee is less apt to hold back the work to wait for a personal inspection if we have already invited them to come out this year and look over the ground.

J. K. KALANIANAOLE,
Delegate to Congress.

THE LOG-BOOK

Matson bark Amy Turner, en route to Hilo from San Francisco, is carrying 10,000 cases of oil, and a lot of fertilizers, lime, fodder and machinery.

It is reported aboard the S. S. China that Chief Steward Johnson of the S. S. Siberia, left in Hongkong in the hospital, was very low when the China left that city.

S. S. Enterprise has nearly 3000 tons of freight from San Francisco for Hilo. Included is a large shipment of California cherries. She also carries a deck load of mules and horses including two well-bred racers to compete in the Hilo handicap.

It was reported that the S. S. Rosecrans was en route to Honolulu with oil and towing the barge Monterey. The San Francisco Chronicle of May 3 states that the Rosecrans left Eureka May 7 for Monterey to load 23,000 barrels of oil for San Francisco.

Pacific Mail S. S. China arrived from the Orient this morning, docking at the channel wharf at 7:30 o'clock. She brought seven passengers, 300 tons of freight and 100 Japanese immigrants (for this port) and sails for San Francisco at 5 o'clock this afternoon. She is taking aboard 550 tons of coal.

Soon after daybreak the Pacific Mail Steamships China and Korea were off port, the China entering first. The Korea docked at the Hackfeld wharf about 9 o'clock and sails for the Orient at 4 p. m. today. She brought 82 tons of freight for this port and three days mail. Seventy cabin passengers arrived for Honolulu, and about an equal number are bound through for Yokohama, Kobe, Shanghai and Hongkong. She has 7000 tons of freight for the Orient.

John Nieber brought suit against the bark Mohican company on May 3, in San Francisco, in the United States District Court, to recover \$567. He states that he shipped at Tacoma for

FULLER TO TAKE CARE OF HARBOR

Captain Fuller, the local harbor-master, will have complete charge of the waterfront when the battleship fleet arrives. He spent some little time this morning talking over plans for what shall be done with Superintendent of Public Works Campbell, and states that he will give the naval men every possible courtesy. That he will keep up to his word in the matter is certain, for his long experience will enable him to do what no one else in this city would be able to accomplish.

Chief Taylor put him through an examination and then turned him over to High Sheriff Henry for secure confinement at Oahu prison where he will probably stay a while.

Sheriff Iaukea this afternoon publicly congratulated Deputy Sheriff Fernandez and Special Leal and declared that they "should" receive the reward that had been offered. He said that they deserved a great deal of credit for bringing in so desperate a character, one who had so frequently threatened to do murder and who was dangerous.

H. Lopez and Rodriguez escaped from "the reef" late last December. Lopez was serving time for robbery.

TOURNEY AT HALEIWA.

Last Sunday the rooms at Haleiwa were all occupied by guests from Honolulu and there are indications that the same conditions of affairs will exist next Sunday when there is to be a turn at the links. Haleiwa is the mecca for all the automobilists. Those who go around the islands and others who go down just for the run and a good meal. The roads are in first class condition and the ride pleasant in the extreme. For that reason Haleiwa attracts people. A number of them take in the pineapple district at Wahiawa as a side attraction and enjoy the trip. If you contemplate going down write or telephone Manager Bidgood for accommodations.

Fine Job Printing, Star Office.

LOPEZ' LONG ESCAPE ENDS BLOODLESSLY

(Continued from Page One.)

he hiding in the mountains most of the time to keep away from the police while he had a chance to work for his living without going to jail. He refused to give me back the money and he grabbed hold of a cane knife and threw it at me, but it did not strike me as I dodged. I ran outside and he followed and threw rocks at me. I asked him to fight like a man, but he wouldn't do that. He continued to throw rocks at me, so I saw that if he wanted to kill me I had better take care of myself; I fired three shots in the air. Then I got back up the gulch.

Lopez told his story readily enough, true or not, and was not backward in answering questions.

He informed Chief Taylor that it had taken him and Rodriguez two days to saw their way out of Oahu Prison last December and it was a hard job. Once out they went to Iwilei and then to Aiea. From Aiea they went to the mountains, striking down on the windward side of Wahiawa and making their headquarters in the Waiulus district and thereabouts. Finally Lopez and Rodriguez had a quarrel over the conduct of their affairs and they agreed to separate.

Lopez says he bought his 38-caliber revolver from a man from Maui and the clothes that he now wears he bought with his own money, having made something gambling at Waiulus. He says he has been in Waiulus nearly all the time, but Deputy Sheriff Fernandez thinks it likely that he took a trip to Honolulu now and then.

Early this morning Deputy Sheriff Fernandez received a telephone message to the effect that Lopez had been seen in the Porto Rican camp last night gambling and Special Officer John Leal at once made for the gulch back of the mill in the direction in which Lopez had gone the night before, after the affair with the gambling Porto Rican.

Fernandez and Leal, armed, followed by three other officers, took to saddle and hastened after Lopez. They struck the gulch in which he was supposed to be hiding and found he- low them a house, not recently occupied by any except Lopez, and a man walking up and down the veranda. Fernandez recognized the escape and the real chase began. Leal made for the region of the house as Lopez ran for the bush and as Lopez disappeared in the lantana Leal let drive at him with his revolver, Fernandez making for what would likely be Lopez's exit from the bush and the other officers getting around so that the Porto Rican convict was surrounded.

Fernandez shouted to him to drop his gun and behave and he would not be harmed. Lopez dropped his revolver and came out with his hands up, grinning.

For months he has been running from the police. He says he saw the special officer sent after him by High Sheriff Henry on several occasions. He is in good health and has had no particular hardships, though on several occasions he was near capture or thought he was. He had two bullets left in his gun when captured, the iron being a "ve-shooter."

Chief Taylor put him through an examination and then turned him over to High Sheriff Henry for secure confinement at Oahu prison where he will probably stay a while.

Sheriff Iaukea this afternoon publicly congratulated Deputy Sheriff Fernandez and Special Leal and declared that they "should" receive the reward that had been offered. He said that they deserved a great deal of credit for bringing in so desperate a character, one who had so frequently threatened to do murder and who was dangerous.

H. Lopez and Rodriguez escaped from "the reef" late last December. Lopez was serving time for robbery.

LOVE ESTATE CORPORATION

Articles of association of the Love Estate, which is soon to be incorporated, were filed in the office of Territorial Treasurer Campbell this morning. The estate will be divided into 600 shares of a par value of \$100 each. They will be distributed as follows: Alice Love Hoogs, 99 shares; W. H. Hoogs 1 share; W. A. Love, 100 shares; J. H. Love, 100 shares; W. C. Love, 100 shares; Lily Love Cooke, 99 shares; C. H. Cooke, 1 share; Stella Love Patterson, 100 shares. The officers of the association are: W. A. Love, president; W. H. Hoogs, vice president; C. H. Cooke, treasurer.

British Consul Forster has given a decision in favor of Second Officer Stuart of the steamship Elvaiston, holding that he was justified in smiting the chief engineer, who had addressed him in unbecoming language.

APPEAL DENIED

EWA PLANTATION CO. DOES NOT MAKE OUT A CASE FOR WASHINGTON.

By an opinion handed down today the Supreme Court of Hawaii denies the petition of Ewa Plantation Company to be allowed an appeal to the United States Supreme Court from the judgment of this court of January 27 last, reversing the decision of the tax appeal court and affirming the assessment made by the tax assessor.

Keeping in mind the fact that appeals in Territorial lawsuits can be carried to the Federal appellate court only where the amount involved exceeds \$5,000, the following extract from the opinion will make clear why the petition is denied:

"This was not an action to recover the tax but a proceeding to determine its amount, the difference between the parties, to which the controversy relates, being \$1706.09, which is all that is involved in the case. If the judgment were reversed on appeal the appellant would be the gainer to that amount and not otherwise."

The facts of the case are quoted from 18 Hawaiian 530 as follows:

"Ewa Plantation Company returned its gross income for the year 1906 at \$1,907,928.77 derived almost entirely from sales of sugar. Against this it claimed a deduction of \$1,290,109.76 under the heading 'Amounts expended in the purchase or production of movable property mentioned in Schedule A.' This with other deductions which are not in issue brought its net income, as returned, to \$577,829.56, on which the tax at two per cent. amounted to \$11,558.59. Included in the deduction of \$1,290,109.76, as shown by the books of the corporation, was the amount of \$55,204.35 written off as depreciation of its property against the crop of 1906. This item was disputed by the assessor, who subtracted it from the deduction claimed and assessed the net income at \$663,233.92 and the tax at \$13,264.65. The plantation appealed from the total assessment and was held to be entitled to a certificate of appeal. Ewa Plantation Co. v. Holt, 18 Haw. 262. The only controversy before the tax appeal court was upon the item of \$55,204.35 upon which the tax amounts to \$1706.09. The tax appeal court sustained the contention of the plantation that it was entitled to the deduction claimed, from which decision the assessor appeals to this court."

COSTLY TRIAL

IT WILL PROBABLY COST \$10,000 TO TRY JOHN WYNNE FOR MURDER.

The trial of John Wynne, who is charged with the murder of Oiler McKinnon, of the oil steamer Rosecrans, will cost the United States in the neighborhood of \$10,000 from the present outlook. The United States attorneys here have issued subpoenas for thirty-six witnesses from San Francisco alone and the money which will be required to pay their mileage and expenses will mount up to such a sum that the Territory may be very glad that it has not had the case thrown on its shoulders.

There is another unusual circumstance in connection with this trial, which is set for Monday. Up to this time it has always been the custom to issue subpoenas for witnesses through the office of the United States Marshal in this city, but in this trial the subpoenas were sent directly to the United States authorities in San Francisco and the local marshal was left out of the matter altogether.

The mileage alone of the witnesses from California will be in excess of \$7500 and in addition to this there will be other heavy expenses to be paid. The trial, as has been mentioned, is set for next Monday, but there is no chance that it can be tried on that date, as the Moses Koki trial, which only commenced yesterday, is expected to take at least ten days and possibly more. In the meantime the witnesses, and they will be very many in number, will have to remain here and will receive \$1.50 per day from the Federal Government for their support.

Her Father—And so you want to marry my daughter, eh?
Young Man—That's what I said.
Her Father—But how do you expect to support her on an income of \$500 a year.
Young Man—Oh, come now, your income must be ten times that amount.

THE ROSE MAIDEN

The last rehearsal of "The Rose Maiden" has been held, the last rough places smoothed over, the last bit of advice given. Everything is ready for the great carnival of song. And there is going to be a record house in attendance. There are only a few more seats to be sold, but there is still a chance for the early comers.

For those who may not have time or opportunity to read the argument of the cantata tonight, the Star prints it below:

The first chorus gives the wintry setting. "Green vales and vine-clad mountain lie locked in snowy sleep." At the first whisp of Spring (baritone), Rose-blossom, the Queen of the Flower Fairies, (soprano), weary of a life of unbroken calm, requests of Spring that he bestow upon her the gift of love that she so misses from her life. Spring warns her of the "sweetness that is mingled with the bitterness of Love."

Yielding to her entreaties at last, he changes her while she sleeps into the form of a beautiful girl. Waking, she starts in quest of the love she craves. She meets the Gardener's Daughter (alto), who, deserted by her lover, dies broken-hearted in the presence of Rose-blossom.

Undeterred in her search, however, she presses on, and finds love in the Forester (tenor), with whom she lives for a time in such perfect happiness that she cannot survive his death.

Mourning her sad lot, she follows her lover in death, and is borne away by the Elves, who bewail that "Love's joy ends in sorrow. Love's triumph is death."

The final chorus sets forth the joy of a life of Love and its triumph in death!

"You! even as die the roses, must die the truest heart.
They that rejoice must sorrow, and they that love must part.
But yet, O God, we praise Thee, who blindest night and morn;
Too lovely were thy roses, were they without a thorn."

25 doses, 25 cents. Never sold in bulk.

The baseball games to be played at the league grounds tomorrow afternoon are the cause of a great deal of speculation among the fans just at present. The Diamond Heads and the Punahou who are tied for first place will meet, and a battle royal is expected. Both teams are in the best condition possible and both confident that they will head the league after the game is over. It is going to be a red-hot fight from the time Bert Bower calls play ball and it is not at all unlikely that the game will go more than the regulation nine innings. Bill Chillingworth will be in the box for the Heads, while Bill Hampton will do the twirling for the Puns. Both pitchers are confident that they will be able to hold down the hits so that no damage will be done, and if the rest of the teams support them the game ought to be very interesting to watch.

The Saints and the Kams also meet and their game will be another one worth watching. They both have two games on the minus side debited to them, and they are going to try and start in on the winning side of the column tomorrow. Renter and either Joy or Williams will be the ones that will turn in the speed from the box for their respective teams, and it is very possible that Jones and Vannatta will also be seen in the game again for their old school. At any rate the games should be the best played so far this year, and the lovers of the American National game will be given base ball of the coast league variety.

A large crowd of golfers is expected to journey down to Haleiwa on Sunday to take part in the tournament that has been arranged by the management, and from the remarks Biggood made yesterday the course is in the best condition it ever has been. Two prizes have been offered by the management and good scores are expected.

Young Nelson is very anxious to enter the ring with Corporal Bird before he leaves for the coast and the chances for a match are very promising at present. Nelson says that Bird must weigh in at the ringside not over 127 or 128 pounds.

At the meeting of the Chinese Athletics held the other day, A. Y. Lee was unanimously elected to succeed W. Tin Chong.

The recently organized walking club will meet on Sunday and take a long tramp up the mountains.

The Newspaper League games on Sunday morning at the league grounds promise to attract a large crowd, as a number of fans who were unable to get away last Sunday to see the opening games have decided that they would see the next games played. The Bulletin and Paradise teams line up in the first game, and the Mercantile and the Stars in the second. All the teams have been working hard this week correcting their weak points, and they will go on the field Sunday morning prepared to show the crowd that

they can play the great game. The first game will be called promptly at nine-thirty, to be followed by the second fifteen minutes after the first is over.

A lively meeting of the Riverside League was held last night at the president's office in the Judd building, those present being A. L. C. Atkinson, W. Tin Chong, Robt. Asam, Bernard Kelekolio, Benj. Kane, L. Mon Tai, E. S. Kong, C. B. Farm, J. Notley and K. Laasumori.

A new constitution and bylaws were read and accepted. The protest filed by the Japanese A. C. was lost.

Everything is in readiness for the concert and dance which will be given tomorrow night at K. of P. Hall under the auspices of the Asia A. C. Edwin Fernandez will sing several songs, Sam Hop, manager of the team, will make a speech. Bernard Kelekolio will also speak a few words on the history of minor league baseball in Hawaii. Kallimal and his singing boys will render several special songs, also play for the dancing. A. L. C. Atkinson will probably have a few words to say on sports in general. Every one who attends will be promised a good time.

The first yachting cruise of 1908 will start tomorrow afternoon, with nearly every one of the first class yachts as escorts to the newest yacht in the Territory, the Hawaii. Vice Commodore Charles Wilder will hoist his flag on the flagship shortly after one o'clock, and the signal to get under way will be given. The yachts will sail down to Waianaloa where they will anchor for the night, the return signal being given on Sunday afternoon shortly after luncheon. After dinner tomorrow night the different captains who take part in the cruise will meet aboard the Hawaii to discuss a schedule for the coming cup races.

The yachting season of 1908 promises to be the best ever held in the history of yachting in the islands, and if the transpacific race is held as expected now Hawaii's yachting will be the talk all over the world.

Nothing further has been heard from the coast relative to the race, but it is almost certain that a race will be held. The Hawaii will probably take a crew of experienced sailors, instead of the crew of amateur ones that was decided on when the race was first talked of. Just as soon as the race is an assured thing, the name of the captain will be announced and the crew picked for the race.

There will be no horse races tomorrow at Kapiolani Park.

A special meeting of the Trigger Club will be held shortly to try and get the members to take some interest in the club. Since its organization a few weeks ago nothing has been done by the members to revive the sport of surf board riding and canoeing. The only one that seems to take any interest at all in the sports is the one who started the club.

THE DIAMONDS AND DEPRESSION

(From Consular Reports.)

Consul Henry H. Morgan, writing from Amsterdam, says that possibly no country of Europe has been relatively affected so disadvantageously by the financial crisis in the United States as the Netherlands, largely on account of the total suspension of the diamond trade. He reviews the market situation as follows:

In 1905 the exports of polished diamonds from the Netherlands to the United States amounted to \$9,197,843; in 1906 the exports were \$11,633,352. The year 1907 opened auspiciously and under most favorable conditions for the trade, and it was then thought that the number of diamonds that would be exported to the United States would be far in excess of any previous year, but in the month of July the American buyers began to reduce their purchases, and as the financial crisis in the United States became more acute the orders from America ceased entirely, and from the middle of August up to the end of the year the entire shipment of diamonds through this office did not exceed \$75,000, and the total exports for the year amounted to only \$7,462,604, as against \$11,633,352 for the calendar year 1906. In sympathy with the American market the other markets of the world became affected, but not to the extent anticipated, and while the business was not so good as in previous years the decrease was not of such extent to cause alarm, and considerable satisfaction was found in the fact that China and Japan had during the past year commenced to import large quantities of the cheaper grades of goods.

THE AGREEMENT MAINTAINED. One danger the diamond people had

to contend against and which constituted a source of anxiety was the fear that the United States, their principal customer, having ceased to purchase, the price of diamonds, according to the law of supply and demand, would be considerably reduced, but fortunately for them the business was in exceedingly strong hands, and a tacit agreement was entered into to sell no diamonds under the prevailing market price, which agreement has so far been adhered to. This is evidenced by the statement of an American buyer at this consulate some time ago that he had come here prepared to buy \$250,000 worth of diamonds provided he could get them for 30 florins (\$12.06) per carat below the market value, but had been unsuccessful. The banks of Amsterdam, with the exception of the Amsterdamse Bank, which during the height of the crisis declined to advance any money on diamond paper or diamond collateral, are now advancing all that is required at 4 to 4 1/2 per cent.

Those taking a pessimistic view of the situation regarded the closing down of the polishing factories and the throwing out of employment of 4000 to 5000 polishers with considerable anxiety. They contended that these workers would start to polish on their own account, and as the brokers had no control over them they would sell their product at a price considerably below the market value. This in effect did take place to some extent, and there are now about 1000 workmen polishing diamonds on their own account and selling them at reduced prices, but it is said that they are for the most part rose diamonds; and, as they are only

MURDERER HIDING IN OR NEAR HILO

Fukuda Tetsuji Reported to Have Been Seen on Amaulu Road.

OFFICERS FAIL TO GET HIM.

Desperate Japanese Criminal Hiding in or About Hilo and Being Protected by Friends.

HILO, May 12.—Fukuda Tetsuji, a Japanese degenerate for whom there has been a hue-and-cry out since December last, being wanted for two atrocious murders, is lurking somewhere in the outskirts of Hilo. He may indeed be actually in Hilo and that he is being sheltered by friends of his own type, there can be little doubt.

On the evening of December 24 last Fukuda Tetsuji, who was for a long time a professional gambler in Hilo, entered the hotel kept by Y. Sugioka at Honokaa, Hamakua, and there accosted Kane Okada (w), a former paramour of his who had separated from him. What passed between them is not known but it is supposed that the woman refused to return to him. He drew a revolver and fired twice at her, killing her instantly.

Sugioka, the hotel man, rushed in and received a bullet from the murderer's pistol which brought him to the floor. Fukuda then opened a clasp knife and stabbed the prostrate victim a dozen times or more. Sugioka died within an hour.

From that time on Fukuda has been able to elude the authorities, though, from time to time, fearful Japanese have brought in stories as to having seen the man in the vicinity of Hilo. Last Friday night however, a Japanese with more than usual nerve reported that he had seen Fukuda on the Amaulu road. Captain Peter, with such men as he had available, went out in the locality in which Fukuda had been seen at 2 o'clock Saturday morning. They cut off all avenues of escape, so far as possible, and examined the ground thoroughly though fruitlessly.

The much wanted murderer is of slim height, medium build and reddish brown complexion. He has very slight eyebrows and a scar on the left side of the head above the ear. The outside corner of his left eye is a little drawn up and he limps slightly. There are white spots on his body which are suspected to be of leprosy origin. Fukuda is a desperate criminal and will probably not be taken without a fight.—Tribune.

able to turn out at most 2,000 carats per week, this quantity is not liable to have any effect on the market.

FUTURE TRADE PROSPECTS.

The whole question, however, as to whether the price of diamonds is to be kept up is altogether dependent upon what action may be taken by the Rough Diamond Syndicate, of London, controlling the output of the De Beers Company and the Premier Mine Company, which represents about 95 per cent of the world's diamond production. This syndicate, in connection with the De Beers and the Premier Mine, has given to the diamond people of Amsterdam and Antwerp a solemn assurance that under no circumstances will they reduce the price of rough diamonds, and as they are vitally interested in keeping the prices up, there is every reason to believe that this assurance will be strictly adhered to. It is not to be denied that the diamond brokers of Amsterdam are at present loaded with diamonds, and if the Rough Diamond Syndicate should reduce the price of the rough diamond a great calamity will be brought not only upon themselves, but upon the brokers who would be forced to sacrifice their stocks. At present, for mutual protection, the strong are carrying the weak, but should the price of the unpolished diamond be reduced there would be a rush to cover and the disaster to the trade would be very great.

Possibly the most important and influential diamond broker of Amsterdam, at my request for an expression of opinion regarding the outlook of the diamond industry for the coming year, has given the following opinion:

As the stock of polished diamonds has not increased during the past six months, on account of all the factories being closed, and as there was much more sold than polished, I shall not be astonished that as soon as there is a demand for diamonds again we shall see the same condition which prevailed after the big lockout of February, 1904. There will be a scarcity of the right goods on account of the reduction to one-half of the output of the De Beers and Premier mines, and a rise in the price of the rough articles is not at all improbable. No one can say with any certainty what the results for 1908 will be, but the above-mentioned facts will sufficiently prove that, even if it takes some time before we shall see an improvement in business, there need not be any fear for losses caused by lower prices, and this is the main and most important factor of our trade.

Fine Job Printing, Star Office.

CONSTERNATION OF LIQUOR MEN

Federal Officers on the Big Island Are Making a Lively Round-up.

LAW BEING STRICTLY APPLIED.

Offences Against Federal Decrees Summarily Dealt With by Agents of the Revenue Department.

HILO, May 12.—To say that consternation reigns among the liquor dealers of this County of Hawaii would be to put it mildly and the cause of it all is the appearance of Special Agent L. L. Harding of the Internal Revenue Department, Washington, D. C., accompanied by Deputy Inspector J. Walter Doyle of Honolulu.

These smooth mannered young men landed down on the far side of the island from the Mauna Loa and have cut a wide swath among the booze dispensers. As Federal officers their duties are very clear and, from all that is told by some of the liquor sellers themselves, that duty has been very thoroughly performed. Just how much money in the shape of fines and penalties will be taken away from Hawaii is a matter that is kept inviolate in the official breast but from the stories which pass current, very many have felt the squeeze.—Tribune.

WHAT IS THE BEST FICTION.

The best fiction of today has really more of constructive art than that which preceded it, though this art, following the lines of life rather than an arranged scheme, is not manifest in obvious features. It has more varied traits, instead of a few emphatically pronounced or merely typical features. It has a deeper dramatic interest, intellectually and emotionally, though the drama itself is so changed to follow the pattern which life itself makes up in its course unfolding novel surpluses. Above all, it has more spontaneous play of human activities and a finer and more vital humor—not the specific humor which excites to laughter or even suppressed merriment, but which, like every other quality of the modern art of expression, is pervasive without losing articulate distinction, concurrent with the ever-varying course of the writer's thought and feeling. Humor in this sense, is the most distinctive quality of life—the index of its flexibility, of its tenderness, mercy, and forgiveness.—H. M. Alden in Harper's for May.

HAWAIIAN EGG RITES.

An exchange copies an article from the Benzogero Magazine on "Easter

SCHOOL GIRLS FORBIDDEN STYLE

Gainsborough Hats, Artificial Curly And Cheap Jewelry Are Tabued.

GIRLS THINK BOYS FAVORED.

Frivolities of Feminine Apparel Are Condemned in a New York School.

NEW YORK, May 2.—The girls of Horace Mann school at Broadway and One Hundred and Twentieth street have been forbidden to wear ultra fashionable or extravagant headgear, false hair, elaborate adornments of jewelry, high heel shoes and peek-a-boo waists. This sweeping edict was given from the pulpit in the chapel. Ever since the new dress reform has been the chief topic of discussion among the girls, who aver that the boys in the school are allowed wide latitude in their selection of wearing apparel.

Virgil Prettiman, principal of the school, disparages the talk caused by the new rule, and says that questions of good taste in dress frequently arise in the school.

For months the question of proper dress has agitated the pupils and interested the teachers. A certain clique of girls has been in the habit of going to class in raiment that verged upon the extremely fashionable types. Finally a girl showed herself in a hat that bewildered her colleagues. It was a Gainsborough affair, with untold decorations.

She was told by one of the teachers that she must not wear such a hat to school. Another girl revealed a coiffure gay with little artificial puffs, and was promptly commanded to leave the surplus attachments at home.

Another young maid demonstrated geometrical problems on the blackboard with her fingers decorated with brilliants. These instances aroused a keen rivalry among the girls in the matter of dress, until the decision was reached to tell the girls that there must be moderation.

"Eggs," in which the following paragraph appears:

"In Hawaii and among the Australian aborigines, rites are practiced to-day in which the egg takes a prominent part, while the Russian peasant goes out on Easter morning with his egg, which he exchanges with his best friend."

"Our engagement is so romantic. Not like other affairs."

"How's that?"

"Why, Ferdie assures me that I am positively the first girl he has loved, this season."

THE HOLLOWNESS OF THE EARTH

That the earth is hollow is the engaging belief of a modern philosopher, Mr. William Reed. Any one who doubts this somewhat startling proposition is invited to ponder these questions, as propounded by Mr. Reed in a delightful article in Harper's Weekly: "Why did Nansen sail fifteen days through clear waters and only advance one degree unless he was sailing round and round inside? Where do the seals and musk-oxen go for their feeding-grounds? Where do the freshwater icebergs come from? Why do scientists treat the earth as if it were a solid and have to make out that it's three times as heavy as nickel steel in order to make their calculations fit? Why is the sun invisible so long at the north and south in winter, unless there's a depression which saunts out its light? What is the Aurora Borealis? Electric lights? Then why don't we meet it all over the earth? It is fires reflected from inside the earth."

JAPAN AND THE COW.

There was a time when milk was regarded in Japan with the same abhorrence as cheese in China. But time has worked a great change in this respect, and milk and butter are now in great favor in Japan. Whereas, says a writer in Harper's Weekly, twenty-five years ago not more than one or two per cent of the Japanese visited a European restaurant, or eating a European meal at a friend's house, would have thought of touching butter, fully forty or fifty per cent now eat it with a relish. They are, however, quite content to do without it.

Dairy farms have increased notably in recent years. Butter, however, is a by-product at these places. It is to milk that they look for their profit. Milk has a curious history in Japan. Thirty or forty years ago it was abhorred. The average Japanese could not induce himself to drink it. But today many a household consumes one or two bottles of milk daily, partly because people have come to like it and partly because the doctors have recommended it as a unique and wholesome beverage. "Milk halls," too, are now quite numerous.

"I see where some wizard has evolved a barkless tree," remarked the scientific boarder as he helped himself to the hot cakes.

"Great Jupiter!" exclaimed the comedian boarder. "Wouldn't it be a great benefit to the world?"

"What?"

"Why, if some wizard could evolve a barkless dog."

DISEASED HEARTS.

transform the rich, red, gushing blood of health into a sluggish stream of thin, impoverished fluid of impurities, which carry death and decay to every organ, and tissue of the body. Restore the heart action with Dr. Miles' New Heart Cure. If first bottle fails to benefit money back.

STAR FLEET EDITION THAT WILL ATTRACT WORLD ATTENTION

The Hawaiian Star's special fleet edition will be issued simultaneously in San Francisco and Honolulu, on the lines of the plan whereby the London Daily Mail issues simultaneous editions in London and Manchester, and the New York Journal and San Francisco Examiner frequently issue at the same hour papers in many respects identical, though the width of a continent apart from one another.

The existence of a cable line between here and San Francisco makes such an enterprise possible. It will be the first time such a journalistic feat was ever attempted in the Pacific. It will give the Hawaiian Islands one of the greatest advertisements they ever had, for the publication will arouse comment all over the United States and Europe.

To Honolulu advertisers this edition offers the best opportunity ever given, without exception.

TWENTY THOUSAND officers and men of the fleet will be reading and referring to this paper all the eight or nine days of their trip here.

They will get the paper just when they are looking for information about Hawaii,—when they are leaving San Francisco with Hawaii as their next stopping place. They will look it over every day, for information about Hawaii.

More than three quarters of the officers and men have never been here, and they will be deeply interested in a Honolulu newspaper.

Prominent business men of the Territory in commenting upon the plan above outlined have expressed the opinion that the fleet edition of The Star, issued in this way, will be one of the greatest bits of Promotion work ever done here.

SAN FRANCISCO, CALIF.

**SAN FRANCISCO
PLAGUE DANGER**

Dr. Blue, the Federal Expert, Says The Peril of Pestilence Is Not Over.

THE INFECTION AMONG RATS.

The City Would Make a Great Mistake in Dropping Sanitation at Present.

SAN FRANCISCO, May 2.—The Bulletin says:

San Francisco was much exercised some two months ago over the imminence of a quarantine being called on this port on account of the presence of bubonic plague and was particularly apprehensive that the great Atlantic fleet would not be permitted by the Federal authorities to land any of the men from the vessels in this city. The objective of a clean city, and the assurance that the fleet would land its sailors, has scarcely been attained when a certain antagonism developed in some quarters against the work of the city Health Department and the Federal Marine Hospital Service.

Dr. Rupert Blue, the United States medical expert on epidemics, was asked yesterday what the probable effect might be on the city of this sudden lapse of enthusiasm for the cause of sanitation. He expressed dispassionately the Federal view of the situation.

"I have absolutely no personal interest in this crusade," he said, "other than to do my duty by stamping out infection as soon as possible. It is a great mistake to think of dropping the work of sanitation at this time. People say we have no human cases of plague, so why work further? It is true that there has not been a human case since January 30, but the contagion among the rats continues about the same for the city, and so long as it does we are not safe. Sydney, New South Wales, had an outbreak of epidemic last January, after the plague had disappeared for seven months. We should continue the crusade for six months at least after the last human case has been noted.

STILL CARRY INFECTION.

"The infection among rats is now six or seven-tenths of one per cent for the whole city, not for the particular districts where the plague is found, and that is just about the same as it was last September, when we had nearly fifty human cases. The danger still exists. Bubonic plague is the most difficult and the most expensive contagion to eradicate that is known to the medical profession because it is carried among the rats, which are hard to fight.

"There has been some unfortunate antagonism to the work of the health officials. And what have we done here? We have torn up some board walks and flooring and the like. Why, in Mazatlan, Mexico, in 1902, I think I was, they burned whole sections of the city to eradicate it. In Honolulu in 1900 the authorities burned the whole of Chinatown for the same reason. And in Hongkong every year they destroy block after block of the city as the only means of fighting the epidemic. It is necessary because the world will quarantine a city for a single authentic case of the dread disease. We had no quarantine here because we did not hide our cases but let the world know we were taking proper measures to eradicate the contagion.

"Some have complained of the arbitrary actions and the incivility of inspectors. I examine any complaints that are brought to me, and when they are warranted the man at fault is dismissed. Where there are so many men employed there are sure to be some such cases, especially since 25,000 inspections are made a week. Then too, there are always some citizens who, when caught themselves, will try to get even by reporting the inspector for incivility. There is no desire on our part to abridge the rights of any citizen, but we must have the support of the city.

CITY SHOULD ASSIST.

"The city has been spending \$11,000 a month since last November. The Federal Government has been spending \$1000 a day. It is manifestly unfair that the Government should spend that sum if the work is not to succeed from lack of co-operation from the city. Sanitary laws must be enacted and enforced to make the work of fighting the plague possible. There is the danger that the Federal support will be withdrawn altogether if no response to the call for co-operation is met. The citizens' health committee is still enthusiastic in the work. The fund that they have raised is not handled by me. It is disbursed by their own committee under my recommendation and report.

"It has all been explained in the past that the danger increases with the return of warm weather because the fleas on the rat then grow in numbers. The work certainly should not be dropped at this time, when there is likelihood of the contagion reappearing. I think in time San Francisco must be made ratproof by concreting basements, as it must assure the world against the possibility of plague in this city, which is the gateway to the Orient, from which the contagion comes."

Here Is Some Advice---

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All The World

For The Day Just Ended---

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

TRENT TRUST CO

STAND BY THE BALL

FLEET ENTERTAINMENT COMMITTEE DECLINES TO HAVE ITS PLAN SET ASIDE.

Vexation in strong degree was the feeling of the sub-committee on entertainment at its seventh meeting held this morning. The cause was the abrupt blast from the meeting of chairmen of sub-committees held yesterday afternoon against the proposition of this sub-committee to give a ball to the fleet at the Moana and Seaside hotels.

It was the sense of the entertainment sub-committee that the executive committee, if it did not approve of this ball, should have sent in its objections earlier. Reports of no less than six meetings of this committee, beginning on April 29, had been promptly rendered to the executive committee, yet not a single note of exception to any of its proposals was heard until the chairman, F. L. Waldron, met with strong opposition to the ball at the meeting of chairmen yesterday.

Moreover, it was the sense of the sub-committee on entertainment, expressed this morning, that the general committee should hurry up its conclusions on all of the proposals submitted. Not a word had yet been returned about the Kapena Falls bathing party for the men, or about the Pearl Harbor land and sea excursion for the officers, both of which items on the program as sketched by the entertainment committee were submitted weeks ago. The committeemen would like to have their suggestions acted on with some little degree of promptness, as otherwise they will be squeezed for time in making the necessary preparations.

"This blast from the meeting of chairmen," Secretary Berndt of the entertainment sub-committee said this forenoon, "is liable to blanket all enthusiasm. The proposal to charge \$2.50 per man attending the ball will simply smother the whole affair. You cannot get the people out on such terms. It is entirely unnecessary, as we are to have the two hotels' besides temporary pavilions upon the lawns. Yes, we will stand for the ball. The only question is whether we are going to charge an admission fee or make it a public invitation affair, with only the officers of the fleet to be formally invited."

There were only four members present most of the time at the meeting of chairmen which created the first discord thus far apparent in the fleet visitation preliminaries.

George W. Smith questioned the advisability of giving a ball at all, saying the society people of Honolulu would not attend a ball given for the bluejackets.

W. R. Farrington responded that if the society folk did not choose to attend a crowd could be got without them.

F. L. Waldron informed the meeting that his sub-committee was prepared to handle the ball proposition, all it wanted being authorization and the funds necessary.

L. Tonney Peck proposed a grand ball for the officers on a subscription plan, which he believed would obviate heartburning over omissions from an invitation list. If not a ball an elaborate banquet to the officers should be given.

Mr. Waldron said a banquet would cost twenty thousand dollars. Colonel Johnson reported everything going on smoothly in the sports sub-committee.

H. E. Cooper, for the clubs and societies, reported that the clubs would entertain officers personally recommended to them, while fraternal organizations would attend to their respective membership in the fleet. No funds would be asked for.

Mr. Farrington for the press sub-committee said matters were too indefinite with it as with all the other subcommittees and suggested a general meeting to decide on details. This suggestion was adopted and such a meeting on the transport Sherman will take place Monday afternoon at 3:30. The names of all the teachers who have applied for transportation will be placed in a hat and forty-five picked out. The first thirty of these will have the first chance to go, and if any of them are unable to make the trip the other fifteen, beginning with number thirty-one, will fill the vacancies.

NO PICTURES WERE DUPLICATED

There was an entire change of program at the moving picture show at the Opera House last night and, while it could not improve on the films of the first entertainment, the pictures were as much enjoyed. There was a run to the comiques which were very clever and amusing. The improvement most noticed, and also appreciated, was in Miss Clifton. Her selections were better and her singing so vastly improved over her first appearance here that one can readily believe her failure to please the audience on Wednesday night was due to the newness of everything. Ashton Stevens, the well-known dramatic critic of San Francisco, gave her the name of the best singer of pictorial songs on the coast. Mr. Stevens' opinion on any matter theatrical is considered worth while at the coast and is accepted here.

THE ROSE MAIDEN

Hawaiian Opera House FRIDAY, MAY 15

Chorus of 300 Voices

From HONOLULU HIGH SCHOOL KAMEHAMEHA SCHOOLS NORMAL SCHOOL MILL'S INSTITUTE

Conducted by STANLEY LIVINGSTON

Soloists: MRS. BRUCE MACKALL; MRS. DR. O'DAY; MR. CHESTER LIVINGSTON; MR. EDMUNDS. Tickets \$1, 75c and 50c. Sold by students of above schools.

For Saturday night Miss Clifton will have other new numbers.

There was no blood and thunder in the pictures shown last night and they tended to amuse. There were several showing the black art in a way that kept the audience guessing how the beautiful woman disappeared without an apparent movement of a muscle and there were those in the audience who wished they had remained longer in view. Among the funny stunts was that showing the maniac juggler. It was a laugh from beginning to end. The troubles of a king were illustrated in a way that caused many a laugh and few desires to take the place of the monarch. There should be a good house tomorrow night. Seats are on sale at Wall, Nichols Co., Ltd., at fifteen cents for gallery, twenty-five cents for the balcony and fifty cents for down stairs.

WHAT HE SAW AT KILAUEA

Mr. C. L. La Rue of Sacramento, California, who has travelled extensively around the world, returned from Hawaii by the S. S. Mauna Loa Tuesday of this week, in an interview he said:

"Yes, I have just been to the volcano; was it worth while? Well! I should think so; it was worth going around the world to see; I would not have missed it for any consideration; it is a spectacular performance which cannot be described; it is so awfully fascinating that one can hardly leave it; if my business would have permitted, I would have remained there a week. The wonder to me is that your Honolulu people do not make more of it; they can't realize the extent of the present activity; I understand that hundreds of people went up to see the flow of 1907, and that it was not a bit more attractive than Kilauea is at the present time."

Everybody returns from the volcano with the same enthusiasm and yet Honolulu has not awakened to the fact that a great eruption is taking place within twenty-four hours travel of her gates.
