## SCHOOL TEACHERS ANNOUNCED FOR YEAR OF 1918-19

The Department of Public Instruction is now giving out the list of appointments as decided upon at the meeting of the Commissioners of Public Instruction, which was held on Monday and Tuesday, May 27 and 28.

As usual, all of these appointments were made subject to the condition that they were all tentative, and that no contracts are to be issued until after the final grade examinations are over, when contracts shall be issued as soon as possible, except in cases where marked inadequacy of the examination results or violation of the rules make it appear best to withhold action until the next meeting of the Commissioners; also excepting all cases where teachers are to attend summer school or take examinations. No teacher, who should have taken the teachers' examinations and who fails to do so, shall be reappointed.

While most of the requests made by teachers for transfers were granted, it was impossible to arrange all of these at present. The remaining requests will, however, be considered whenever suitable occasion occurs and there are, undoubtedly, a number of teachers on the lists given out who will be able to secure their transfers before schools opens in September as these lists are subject to constant revision during the summer months.

## Kauai Troops Now in Fort Armstrong

The Kauai contingent of the National Guard is now in camp at Fort Armstrong, Oahu. The final orders for embarkation arrived last Wednesday, and were to the effect that the battalion be prepared to embark on the S. S. "Kilauea" at Port Allen on Saturday, June 8th, at 4 o'clock p. m.

Company I, from Kealia, left their armory Friday morning and was transported to Eleele, where they went into camp.

Companies K, of Lihue, L, of Makaweli and M, of Waimea occupied their camps until Saturday morning, when they broke camp and were transported to Port Allen by rail and motor trucks.

The boys received a great send-off at Port Allen. The Lihue band was in attendance, and hundreds of civilians, representing every walk in life were there to bid them God speed.

Kauai is proud of her battalion, in both officers and men, and is satisfied that they will give a good account of themselves in whatever capacity they are required to act.

## JURY ONLY OUT TWENTY MINUTES

After being out about twenty minutes the jury in the case of Fujii Tokumatsu, Miyasawa Fukuzo (alias "Whiskey") and Takahasa Tomeji, three Japanese held for the murder of Chang Chin, a Korean, at Kealia, returned a verdict of not guilty.

The verdict seems to be a popular one, as the case had not proceeded far when it became very evident that the Korean witnesses for the prosecution were perjuring themselves.

The killing took place at Kealia on April 29th, last, and Fujii Tokumatsu was arrested for the crime. The grand jury failed to find a true bill on account of a lack of evidence so the case was dropped. Later the grand jury secured more evidence and asked to have the case reopened.

This time three men were implicated—Fujii Tokumatsu, Miyasawa Fukuzo and Takahasa Tomeji.

Attorney Fred Patterson represented the Territory and A. G. Kaulukou appeared for the defense.

On account of the fact that Attorney Patterson and court stenographer Ahana were called in the guard, the case was rushed through by holding night sessions.

The Korean was killed by blows delivered with a broken bottle which severed the arteries on his left side just under the arm. Other wounds were made on the left side of the face and at the back of the head near the base of the skull.

The witnesses for the prosecution claimed that the defendants called the Korean into a room and, after some words Fujii picked up a bottle and stepping behind the Korean, dealt him a blow on the back of the head, which knocked him to the floor.

Then while one kicked him, the others shoved him into another room, and Fujii struck him repeatedly with the broken bottle in the left side, inflicting the wound which caused death.

It is claimed the Japanese then took the Korean outside and that Miyasawa Fukuzo struck him repeatedly with a hoe.

The location of the wounds on the dead man, and the manner in which the blows were delivered that caused them as testified to by the witnesses for the prosecution, did not tally as the position of the wounds plainly showed that they were caused by blows coming from the side, which could not happen if the blows were delivered as witnesses testified.

Attorney Kaulukou, for the defense, called witnesses to prove that the dead man had been of a quarrelsome and vicious disposition, that he was a large and powerful man and was frequently in trouble. It was proven to the satisfaction of judge and jury that the Korean had forced a fight upon Fujii and had grabbed him by the throat with his left hand. It was then Fujii delivered the blows, in self defense, which caused the death of his adversary.

The defendant "Whiskey", who is accused of striking the Korean with a hoe, came forward with a perfect alibi. It was proven that he was drunk and in his bed, asleep, at the time of the trouble.

It is quite likely that charges of perjury will be preferred against the Korean witnesses.

## KAUAI BOY DIES AT RESIDENCE OF BROTHER

James K. Mahikoa, son of Mr. and Mrs. G. W. Mahikoa of Kilauea, died yesterday afternoon in Honolulu after a short illness, at the home of his brother. Funeral services will be held from William's undertaking parlors at 3 o'clock tomorrow afternoon Mahikoa was a native of Hawaii, 28 years of age. He is survived by his father, mother, three brothers and three sisters. He enlisted in the National Army, but was discharged on account of illness at Camp Lee, Virginia, last year, returning to Honolulu where he died.

A change has been made in the date of the Kapaa and Lihue sale of fancy work. It will be held on Thursday, June 20th. The children of the Lihue school will give a few patriotic exercises at 1:30, after which the sale will begin. The public are cordially invited to come to both exercises and sale.

Mr. R. Spalding was a returning passenger from Honolulu this morning.

W. J. SHERMAN, Y. M. C. A. War Work Secretary, who with Captain Pequegnat has just finished a lecturing tour of the island.

The privilege Kauai has just enjoyed, of listening to two men of the calibre of Captain Pequegnat and Mr. Sherman on the public platform, is one that will long be remembered. They are doing a great work in the land by giving us first-hand knowledge of conditions at the front. And the manner in which they give it brings it home to us in a way that we shall not soon forget. It is one thing to read of these things in the daily papers and magazines, but it is quite another to listen to these two gifted speakers tell of them as incidents actually witnessed and conditions actually experienced by them. These men have given us some cold facts as to conditions over there that should give us cause for sober thought. They have given us some facts as to Hun atrocities over there that should arouse in every American breast the resolve to do all in their power to cause the downfall of the war-mad Kaiser and his hellish hordes.

## HOW KAUAI WON THE FLAGS

The following table shows how the enrollment on which Kauai won the pro rata was worked out on school two beautiful silk banners that was put up on the 2nd War Fund Drive by the Red Cross for the island raising the largest amount. It will be noted that Kauai beat Maui by 50 percent, even though they had a Kauai-boy to boost things for them.

## Churches Observe Childrens' Day

In common with the custom adopted generally on the Mainland, the Lihue Union Church observed last Sunday, being the second Sunday in June, as Children's Day.

The church was beautifully decorated for the occasion with potted plants, bauhina, and great masses of pink shower, in the midst of which a snary bird was enshrined and which entered into the spirit of the occasion with timely bursts of song.

Two little babies made their first public appearance in the baptismal service and conducted themselves most modestly and demurely. Two members of the Sunday School were received into church membership with appropriate services.

The children's program was one of more than usual interest, including children's songs and recitations, some of them in groups, some as duets and solos; all very effectively and intelligently rendered. As usual, the smaller children were most appealing and won the most favor.

A novel feature was the scripture presentation, in character and costume, of the healing of the lame man at the Beautiful Gate of the Temple, and the restoration of Dorcas, the first Red Cross worker—the latter being set forth by a narrator. The children entered into these scenes with interest and enthusiasm and rendered them very well.

The whole affair went off very smoothly and was creditable to all concerned.

## Maulili Kapule is Killed at Honolulu

A wireless message was received from Chas. A. Rice last evening of the death, in Honolulu, of Maulili Kapule, head cow boy for Lihue Ranch. He was killed by having his horse fall on him while taking part in the roping contest at the Fair Grounds about four o'clock yesterday afternoon.

Maulili has been with Lihue Ranch since childhood and was considered one of the best hands with cattle and horses in the Territory. He was a man of exceptionally fine character, and an industrious and earnest worker. He leaves a widow and several children.

Word comes from Huleia that Mrs. Kapule had premonition yesterday morning that something was going to happen to her husband, and in consequence was in tears most of the day.

## LEUTENANTS BRANCH AND BALCH INSPECT LOCAL WIRELESS STATION

Lieut. L. W. Branch, N. N. V., District Communication Superintendent, accompanied by Junior Lieut. J. A. Balch, Naval Reserve, arrived by the Kinaiu this morning to inspect the local wireless plant.

Lieut. Branch expects orders for sea duty in a short time and is going the rounds with Lieut. Balch, who will be his successor. Lieut. Branch will be remembered as the young electrical engineer who erected the local wireless plant.

## YOU MAY WRITE TO FRIENDS IN HUN COUNTRIES

The Red Cross is now able to accept communication from residents here for relatives or friends in Germany. This arrangement has been perfected by the Red Cross, with the permission and sanction of the United States Government, through certain neutral governments.

An applicant for communication in Honolulu, must report personally to Red Cross Headquarters, Castle Cooke Building, to Mrs. F. A. Schaefer, Jr., who is in charge of this service. She will take the messages which must be purely personal in character. This message will be transferred to proper blanks, which must be signed in duplicate by the applicant.

Each branch will appoint one or more representatives in the Territory covered by its jurisdiction for the purpose of receiving communications. This representative must witness the applicant sign both original application and the duplicate, and the representative must write his or her name after the word "accepted." The representative will transfer the message to the blanks in duplicate either before or after the applicant signs. It is recommended that the applicant hand in his message on a separate piece of paper, sign the application blanks in duplicate, and then the representative will transfer it to blanks, using the typewriter if possible.

The applicant must be a reputable person in good standing in the community, and must have with him a letter signed by a reputable American citizen, known to the Chapter officials, who will vouch for the good faith and truthfulness of the applicant. This letter must be in the following form:

"I hereby certify that I have known the applicant ..... for ..... years. He is a reputable person in good standing in this community, and I can vouch for his good faith and truthfulness."

If outside of Honolulu both blanks properly signed and filled in in duplicate, together with the letter of loyalty, must be forwarded to Headquarters in Honolulu for disposition.

Messages relating to financial or political matters or matters of public interest can not be forwarded. A single communication cannot be addressed to more than one person in enemy territory. Each communication is forwarded to the Bureau of Communication in Washington for disposition there, as it sees fit. The Chapter alone forwards communications, and nothing will be accepted in Washington unless it comes through the local Chapter.

The Hawaiian Chapter in every case decides whether it cares to receive the application or whether it will forward the same.

The Chairman of the Kauai Branch of the Hawaiian Chapter American Red Cross or his duly appointed representatives are now prepared to receive applications for personal communication from residents of this island with relatives or friends in Germany under the foregoing rules.

W. O. Crowell, of Waimea, and K. C. Hopper, of Lihue, have been appointed representatives to receive applications.

W. D. McBRYDE, Chairman Kauai Branch of the Hawaiian Chapter American Red Cross.

## SECRETARY OF Y. M. C. A. LOOMIS MAKES REPORT

Following is the report of County Secretary Chas. F. Loomis, of the Kauai County Y. M. C. A., for the fiscal year closing April 30, 1918: To the Kauai County Committee of the Young Men's Christian Associations.

Gentlemen: Your two year experiment of making rural life more satisfying for boys and young men through the agency of the Young Men's Christian Association has ended.

Besides working through regular organized Y. M. C. A. groups which conduct a definite program of physical, educational, social, religious and service activities, the Association has co-operated with the schools, homes, churches, and civic agencies in carrying on the community type of work.

It was not the intention of the Association to carry on a special work for the plantation laborers who live in isolated camps during the experimental stage of its work but the demand for it was so insistent on the part of the Filipinos and the need for it was felt so keenly by a few individuals having plantation interests that a secretary was secured to give full time to work with Filipinos.

In adapting Association work to Kauai needs we have had the cooperation of the pastors, educators, Board of Supervisors and plantation managers. The supervision given our work by the Territorial and International Committees of the Young Men's Christian Association has been invaluable.

The Board of Supervisors have equipped the Waimea, Kalaheo and Lihue schools with lights for our use. Kekaha Sugar Co. installed lights in the Japanese Language school building for the use of the Filipino and Japanese night school classes, put lights and equipment in the boarding house for the use of the mechanical drawing class and furnished posts for volley ball. The Hawaiian Sugar Co. erected a school bungalow at Camp 4 for the use of the Filipino club and night school and provided a room for a drawing class. The Japanese night school classes have been held in the Camp 1 Language school building. McBryde Sugar Co. built a club house for the Filipinos of Camp 7 and the Hanapepe Japanese Church equipped their kindergarten building for the use of our night school. The Japanese boys of Wahiawa Camp used a private club house for their meetings. Gay & Robinson provided a hall for the Filipino class at Pakala. The Koloa Sugar Co. remodelled a

(Continued on page 3)

## Japanese Y. M. C. A. Hold Farewell Party

On Sunday evening, June 2nd, the Japanese Y. M. B. A. and Y. M. C. A., held a party at Lihue to bid farewell to the Hawaiian born Japanese who were called into service by the United States Government, and who are ambitious to do their bit.

We congratulate these boys who are called for military service by the United States Government as this is the first time the Japanese were ever called since the annexation of Hawaii and everyone ought to grasp this opportunity and help America win the war.

Among those present at the meeting were Capt. Fred Patterson and nine Japanese soldiers, H. Miyasaki, H. Miwa, T. Selke, K. Okamoto and many others. Captain Patterson gave an interesting talk that was very much appreciated by the Japanese present. After this meeting the party adjourned to the Tip Top Theatre where another meeting was held on how to be good American citizens. Those who spoke were H. Miyasake, K. Yamasake, H. Miwa, N. Tsuchiya, N. Sadaoka, and others.

H. Andermann, Jr., chief engineer of Hanamaulu Mill, will be in charge of the electrical department of Lihue plantation during the absence of E. O. Thurtell.

Corn Muffin Dessert with Spiced Apples

Cut four medium sized apples into eighths, and core but do not pare them. Devide each eighth cross ways into four pieces. Place one teaspoonful of whole cloves and half stick of cinnamon in three quarters of a cupful of vinegar and boil for five minutes. Then add one cupful and a half of corn syrup and half of the apples and continue boiling. When the apples are tender remove with a skimmer and cook the other half. Remove when done and boil down the liquid into a heavy syrup. Pour this over the apples and cool.

Bean Molasses Cake

1 1/2 cups flour, 1 1/2 cups bean meal, 3/4 tsp. soda, 1 tsp. salt, 1 egg, 1/2 cup molasses, 1 1/2 cup milk. Sift the dry ingredients. Add the egg and molasses to the milk and add to the dry ingredients. Shape into a loaf and bake in a moderate oven.

Corn Flour Griddle Cakes

1 1/2 cups corn flour, 1/2 tsp. soda, 1/2 tsp. salt, 1 cup sour milk, 1 egg. Sift the dry ingredients together, add the milk and the beaten egg. Mix well and cook on a hot griddle. The batter must be very thin.

Honey Drop Cookies

3/4 cup honey, 1/4 cup fat, 1 egg, 1 1/2 cups white flour, 3/4 cup of rice flour, 1/2 tsp. soda, 1/4 tsp. salt, 2 tbs. water, 1 cup raisins cut in small pieces. Heat the honey and fat until the fat melts. Sift together the flour, soda and salt. To the cooled honey mixture add egg, well beaten, water and raisins. Add gradually to the dry ingredients. Drop by spoonful on a greased sheet. Bake in a slow oven (180 to 185 deg. C) for about 12 to 15 minutes. This makes about 42 cookies. 1/2 teaspoon cinnamon and 1/8 teaspoon of cloves may be added to the honey mixture.

Rice with Bananas.

Peel and scrape three well ripened bananas and mash with a fork to a smooth, creamy pulp, adding a very few drops of lemon juice. Stir this lightly into one cup of cold cooked rice. This is a nutritious dish, and attractive to children.

MEATLESS DISHES

East Indian Dahl and Rice

Mrs. W. Whittington

Soak 1 cup cow peas, lentils, or split peas with a pinch of soda over night. Boil until tender. Fry 1 large onion light brown, add 1/2 tsp. curry powder and a little salt. Add the drained peas, fry a minute, add milk or stock, simmer slowly until very soft, and serve with boiled rice. Soy Bean or Cow Pea Croquettes

Mrs. W. Whittington

1 1/2 cups soy beans, 1/2 tsp. Bicarbonate of Soda, 1 onion, 1 egg, parsley, thyme, pepper, salt. Soak the soy beans 12 hours with a little soda, change the water, add more soda, and place in a fireless cooker over night. Next day put through the meat chopper with the onion, parsley and thyme. Add the egg, pepper and salt, form into croquettes, roll in corn meal and fry in hot oil.

Hindoo Beans

Mrs. H. C. Brown

1 cup Hindoo beans, 2 slices ham, pork or bacon, 1 onion, cut in thin slices, salt and pepper to taste. Wash the beans thoroughly and soak over night, add the other things and cook slowly for several hours or all night in the fireless cooker. As these beans are rich in protein they are excellent substitutes for meat. Cook in plenty of water.

Bean Croquettes

Mrs. H. C. Brown

2 cups left over beans, 1 well beaten egg, pinch of any kind of spice, put the beans through a meat chopper, add more seasoning if liked, and the egg, roll into croquettes larger than one's finger, and brown quickly in a little fat.

Salt Salmon or Codfish Stew

Mrs. J. Melim

Soak the fish and boil it. Cut up an onion and put it in a sauce pan with some drippings and some fresh or canned tomatoes. When browned put in a little water, the fish, and some cold boiled potatoes cut in pieces. Add parsley and serve.

Salmon Omelet

Mrs. J. Melim

Cook about six potatoes, mash them, and add any left over salmon or other fish, 2 eggs, parsley, and minced onion. Cook as an omelet.

Baked Salt Mackerel

Mrs. J. Melim

Soak mackerel over night. Put it in a pan and pour boiling water on to cover it. Let stand a few minutes drain and add some butter, 1 cup milk and pepper. Put in oven and bake to brown.

Mrs. J. R. Myers, recently of Kilauea, who was a member of the Women's Committee on Food Conservation for Kauai, and who served as Chairman for her district, writes from Portland, Oregon, telling of the celebration there of "Potato Week." She has kindly sent us the following recipes which were demonstrated by the women of the First Presbyterian Church of the city during the week, and which it is hoped, may prove useful and suggestive to the housewives of Kauai:

Potato Buns

2 cups riced potatoes, 1/2 cup water, 1 tbs. sugar, 1 tsp. salt, 1/2 yeast cake, 1/2 cup barley flour, 1 cup white flour. Mix into dough, let rise until light, shape, put into baking pans.

Potato Omelet

1/2 cup riced potatoes with enough hot milk to make a thick, creamy consistency, 2 well-beaten eggs, 1 tsp. salt, 1 tbs. melted butter. Mix lightly, put in well-greased omelet pan, cook slowly on top of the stove, place in the oven a few minutes to dry on top, fold and serve at once.

Potato Bread

3 well-packed cups mashed potatoes, 1 cup milk, 3 tbs. sugar, 3 tbs. melted Crisco, 3 tsp. salt, 1 cake yeast, 2 cups rice flour, 1 1/2 cups of barley flour, 2 cups white flour. Makes three loaves. Bake in slow oven one hour.

Delicious Potato Pan Cakes

1 cup mashed potatoes, 1 egg, 1/2 cup yellow corn meal, 3 tbs. flour, 1 tbs. sugar, 1 tbs. baking powder, pinch of salt. Mix same as any pancake, serve with syrup, honey or jelly.

Potatoes on the Half Shell

Bake a medium sized potato, cut in half lengthwise, remove the inside from the shell, mash and whip light with butter, milk and one egg yolk, salt and pepper to taste, add 1/4 cup chopped nuts and fill into half shells. Cover tops with stiffly beaten whites of eggs, dot with nuts, bake in moderate oven.

Potato Muffins

1/2 cup riced potato, 1 cup of barley flour, 1/2 cup milk, 1 egg, 2 1/2 tsp. baking powder, 1 tsp. sugar, 1 tsp. fat. Makes eight muffins.

Chocolate Potato Cake

1 cup mashed potatoes, 1 and 1/3 cup sugar, 1/2 cup Crisco, 1/2 cup water, 3/4 cup Baker's chocolate, unsweetened, 3 egg yolks, 1 1/4 cups barley flour, 1/2 cup white flour, 3 tsp. Royal Baking Powder, 1 tsp. vanilla, 1/2 tsp. salt. Bake very slowly.

Potto Buns

2 cups riced baked potatoes, 1/2 cup water, 1 tbs. sugar, 1 tsp. salt, 1/2 yeast cake, 1/2 cup barley flour, 1 cup white flour. Mix into a stiff dough, let stand in a warm place over night, shape and put in greased baking pans, let stand till they double their size. Bake in a moderate oven for from 25 to 30 minutes. If made into a loaf it makes good sandwich bread.

Devil's Food Cake

3/4 cups Crisco, 2 cups sugar, 4 eggs, 1 cup hot mashed potatoes, 2 squares Baker's chocolate, grated; 1/2 cup milk, 1 cup nut meats, 1 cup white flour, 1 cup rice flour, 2 tsp. cinnamon, 3 tsp. baking powder, 1/2 tsp. nutmeg, 3/4 tsp. salt, (1 tsp. vanilla may be used instead of spices). To make: Cream Crisco, adding sugar gradually and cream together. Add beaten yolks of eggs. Stir in mashed potatoes, grated flour, baking powder and spices and chocolate and nut meats. Sift together stir in alternately with milk. Beat thoroly and lastly fold in beaten whites of eggs. Bake, using hotter oven at first than for white cake because of the chocolate.

Conservation Steamed Pudding

1 1/2 cup potatoes, 1/2 cup carrots, put thru food chopper, 1/2 cup white flour, 1/2 cup barley flour, 1 cup sugar, 1 cup raisins, 1 tsp. soda, 1 tsp. salt, 1/4 tsp. each of cinnamon, cloves and allspice and little grated orange peel, 2 tbs. of Wesson oil. Steam two hours. I use fireless cooker. Serve with any good sauce. Will double bulk in cooking. Is good steamed second time.

Potato Soup

2 cups hot riced or mashed potatoes, 1 quart milk, 2 slices onion, 3 tbs. butter, 2 tbs. flour (rice or corn flour), 1 tsp. chopped parsley, 1 1/2 tsp. salt. Celery salt, pepper, cayenne to taste. Scald the milk with the onion, remove the onion, add the milk slow-

ly to the potatoes. Melt the butter; add to it the dry ingredients; stir the mixture until well blended, and add to the liquid mixture, stirring it constantly. Boil the soup for one minute. Strain it if necessary, add the parsley and serve. Water saved from cooking celery is good addition to potato soup. Two cups of tomato juice and 1-16 tsp. of soda may be substituted for two cups of milk.

War Muffins

Mrs. W. Whittington

1 cup Ralston's bran, 1/2 cup rice flour, 1/2 cup wheat flour, 4 tsp. baking powder, 4 tsp. salt, 2 tbs. vegetable oil, 2 tbs. honey. Add milk or water to right consistency for muffins. Bake in gem pans. This is enough for eighteen muffins.

Barley Yeast Bread

Mrs. Grandhomme

2 cups barley flour, 1/2 cup rye flour, 1 cup rolled oats, 1 1/2 cups wheat flour, 3/4 cup yeast, 2 cups water, 1 tsp. salt, 1 tbs. sugar.

Cassava Cookies

Mrs. Broadbent

1 cup ground cassava or pia, 1/2 cup barley flour, 1/2 cup wheat flour, 4 tsp. baking powder, 1 tbs. sugar, 1 tsp. salt, 1 well-beaten egg, 3 tbs. crisco, 1/2 cup milk. Roll out thin, cut round with biscuit cutter, and bake.

Rice Flour Pudding

Mrs. W. Whittington

4 tbs. rice flour, 2 cups milk, 1 tbs. sugar, 1/2 tsp. salt, 1 tsp. lemon extract. Heat the milk, reserving a little to stir smooth with the rice flour. When the milk boils, add the flour mixture, sugar, salt. Cook in a double boiler. When thick, add the extract and pour into a dish. Eat hot or cold with corn syrup.

POTATOES IN BREAD MAKING

There are many advantages in the use of potatoes in bread of which we do not know, and we give you below some of these advantages which have come to the attention of the Food Administration.

1. They improve the quality of the bread, particularly the texture, flavor and keeping quality.
2. They increase the volume and weight of the bread which can be obtained from a given amount of ingredients.
3. Potatoes are much cheaper than the other official substitutes. Thus bread can be made more cheaply if some potato is used than if only the other substitutes are used.
4. The flavor of bread in which potato is used is agreeable to most people. It is an improvement over bread in which no potato is used.

INTERESTING DEMONSTRATION OF VALUE OF CORN FLOUR AS A WHEAT SAVER MADE IN THE BAKERY AT FORT SHAFTER

An interesting demonstration has been made at Fort Shafter proving the valuable uses of corn flour as a wheat saver. Owing to the heaviness of corn flour many people have not yet learned how to use it, says Lieutenant Charles Koerpel, Infantry N. A., who has adapted his bakery at Fort Shafter to using it at all times on a 50-50 basis with wheat flour.

In the presence of a committee of officers and cooks from the different companies of the regiment, Sergeant Henckle, superintendent by Lieutenant Koerpel, turned out layer cakes biscuits and bread that were almost as good as the kind that mother used to make. Lieut. Koerpel's long experience as an instructor and commander of the Cook's and Baker's school at Fort Shafter is now proving valuable in his ability to save wheat and as he says, "Saving a pound of wheat flour is almost as good as shooting a German."

From our "after the war" History. 1918 saw marvelous developments in the food situation, America began to manufacture rice flour, corn flour, soy bean meal, and barley meal in large quantities and the people used these in the place of wheat flour, thus releasing enough wheat to feed the soldiers of the allied armies and the United States.

Back to the Present.

Make it true. Make the pages of history bright for the children to read tomorrow. We will do it. It wait, do it now. The United States will come to us eventually, but don't Food Administration will tell you how to use the new foods.

The Bureau of Chemistry through its representative in Hawaii has been co-operating with the Federal Food Administrator to enforce the bread regulations. The shops of practically every commercial bakery holding license of bakers who are complying with the bread regulations in every particular.

Those not baking the required amounts of substitutes in their bread have been reported and after being interviewed have changed their formulas to comply with the regulations.

One baker after several interviews was unable to make the "Victory" loaf and voluntarily closed his bakery.

It is not the intention of the Food Administration or the representatives of the Bureau of Chemistry to relax their vigilance in bringing to terms any violators of the Baking Rules and Regulations.

Lihue: Macadam, Lihue-Halehaka	2,500.00
Wailua Bridge	500.00
	3,000.00

Kawaihau: Macadam.	
Kealia	400.00
Hanalei: Wainiha Bridge	800.00
and being seconded by Mr. Bettencourt Jr., the same was carried.	

E. M. Cheatham of Kapaa Homesteads appeared before the Board and asked for the building and opening of a one room school at Kuamoo, Wailua. In this connection a request (P 1546) from Miss Hundley, supervising principal, for the construction of new class rooms at Mana, Kekaha, Makaweli, Eleele, Kalaheo, Omao, Koloa, Huleia, Lihue, Kapaa, Kilauea and Hanalei; a kitchen for Kapaa; and teachers cottages at Makaweli and Lihue; also for the replacing of the Hanamaulu and Kilauea school buildings, was read by the chair.

Hon. E. A. Knudsen, Commissioner of Public Instruction, not only recommended the construction of new school buildings but favored the building of large school houses instead of one room schools.

The expenditure called for the buildings needed was certainly a large one and the chair deemed it best to have a committee appointed to make a general survey of the finances of the County and submit a report at the next meeting showing the county probable income and expenditures for the balance of the year before the Board take any action on this matter. This recommendation was accepted. The committee appointed were Messrs. T. Brandt, A. Menefoglio, and W. D. McBryde.

Reports [P 1547] on the conditions of the school buildings for May were received from Anahola, Eleele, Haena, Hanamaulu, Huleia, Kalaheo, Kapaa, Kapahi, Kauai High, Kekaha, Kilauea, Koloa, Lihue, Makaweli, Mana, and Wailua, and were placed on file.

A request [P 1548] from C. B. Holgaard Esq., District Magistrate of Waimea, for repairs to be given the Waimea Court House was referred to the County Sheriff with full power to have the work done.

The following requests were granted by the Board: [1]-Grove Farm Plantation [P 1549] for permission to construct a 50 foot reinforced concrete siphon across Koloa road, in Lihue. [2] Koloa Sugar Co. [P 1550] for making a culvert under the Lawai public road to enable it to lay a pipeline to carry water to its field south of the place [3] McBryde Sugar Co. [P 1551] for permission to lay a portable track across the public road so to harvest the cane from its East Lawai fields.

Mr. McBryde reported verbally

on the matter of removing the Chinese restaurant away from the Waimea Public Park premises, reporting progress, and was accepted. A request (P 1552) for writing material for the use of the Hanalei District Court was referred to the County Sheriff with instructions to furnish the supplies needed, also one flag for the said court.

An offer (P 1553) from the Kauai Electric Company of Wainiha, and another one (P 1554) from the Hawaiian Canneries Co. Ltd., of Kapaa Town, to purchase crushed rocks from the County, each offer being accompanied by a check for initial payment, were granted.

Financial Reports Nos. 216, 216-a, 216 aa, and 216b, for May took the usual course.

The report (P 1555) of the County Road Engineer for May was received and filed. It is as follows: "The work of grading the new Mana road went on satisfactorily. Stone breaking for macadamizing the above road was begun at a point near the bee-hives.

Koloa District:—Asphalting was extended from the short-cut road to the Lihue District line. Some homestead road work was done.

Lihue District:—Macadamizing of the Halehaka-Malumalu road was finished last week. Resurfacing of the road along Lihue School lot is now going on. There is not enough rock to resurface this road to the foot of the Lihue Store grade as was intended. Could not get any more rock hauled.

Waialua Bridge:—Work on the new concrete bridge at Waialua was started last week.

Kawaihau District:—Work of rounding up Kapaa Homestead road went on during the month. It is now intended to suspend work on these roads for a while and take up the work of grading the new homestead roads mauka of Kapaa School which work is to be paid for by the Territory.

Hanalei District:—The new Wainiha bridge was finished and is a very substantial well built wooden structure. Hanalei grade is being asphalted. It is intended to extend the asphalt surface right through to Kalihiwai as fast as the weather permits.

Schools:—The new cottage at Eleele was finished and is now ready to be occupied. Large deep cesspools are being blasted out onto which the water closets will be moved. Not much other work was done during the month except at Kilauea. The Kilauea new cottage is to be finished next week, and balance payment is requested on completion.

Water Works:—No new work done during the month.

Proposed school buildings: It is going to be a difficult matter to get carpenters to do any great amount of building this summer, and if there is anything to be done it should be started right away.

P. S.:—Fair progress is being made with the resurfacing work at Waialua, nearly 1 1/2 miles done to date. This work is being done by use of an asphalt binder put on with a home made sprinkler which is doing good work. Our home made scarifier being used on the same job is also doing good work."

Upon the motion of Mr. Menefoglio seconded by Mr. Bettencourt Jr. the chairman was authorized to countesign bills which may be presented later for work done on the Kilauea School new cottage.

At 12 m. the meeting adjourned subject to the call of the chair.

SECRETARY LOOMIS MAKES REPORT (Continued from page 1)

residence for a Filipino club house. The Koloa Japanese Church secured black boards and tables for the night school held there.

At our request Lihue Plantation erected a club house in their Filipino camp. Grove Farm plantation has provided a room in their new Filipino camp for the Association club and has consulted us on the plans for the hall to be erected in their new model camp. A club house and athletic field is to be provided for Hanamaulu. The Association does not claim credit for all these material advances but feels that it had a share in stimulating them. Many of the club houses

erected in the camps are used as social centers and churches.

#### SOME THINGS ACCOMPLISHED Educational

Night school classes have been conducted in ten centers. Twenty-eight teachers were used. There were thirteen English classes for Filipinos, ten for Japanese and four classes in mechanical drawing and shop mathematics. A total of 327 students were enrolled. These classes were held in two Japanese Language School buildings, two Christian Japanese Churches, four public schools and in five club houses or rooms furnished by the plantations. Club reading rooms and individual members have been supplied with public library books. Illustrated magazines and newspapers. The Lihue Filipino club subscribes for and keeps on file in its club house several newspapers and magazines published in the Philippines. Literary programs and debates have been held. Men like pictures. Many illustrated historical and educational talks have been given. The Association's moving picture machine has been used with success where electric current is available. Thrift is being emphasized in the clubs by means of talks and illustrated posters.

Physical Practically all the boys and young men respond to an athletic program. Volley ball has been introduced in all the clubs and proves to be the best all-around game available. Soccer, basketball and track athletics have also been used. Last summer the Filipinos of Lihue, Koloa, McBryde and Makaweli had an outdoor athletic contest which kept interest in the clubs at white heat. Metal badges were awarded at the close of the season to those who score the required number of points. At the present time the schools on the Waimea side are having a series of volley ball match games. The teams are transported from school to school in the "Y" Ford. A number of Saturday hikes have been conducted. Talks on hygiene and health have been given. Many of our foreign born brothers need to be taught the A. B. Cs. of right living.

Social The practice of having frequent socials, entertainments, concerts and public meetings has been continued. The church socials have been especially helpful. The club orchestras and the occasional get-togethers of the clubs from all over the island have had worth-while socializing effects. Individual men have formed friendships in the night school classes, the club meetings and in the club houses that have had much to do with their having good times together that were helpful instead of harmful. This is especially true of the Filipinos who are mere boys and strangers in a strange land.

Religious Special religious meetings for older boys and young men have been promoted. A number of important conferences for older boys and young men have been held. The one led by Mr. Horn of the Honolulu Army and Navy Y. M. C. A. last summer at Kukulono Park was inspiring and helped the young men who attended it and took part in discussions. The secretaries have given much time to distinctly church work and have helped organize the Japanese Sunday Schools on an English basis. Personal helpful religious interviews have been held with the leading boys of each group. The object in all of our work is to relate all the Association activities in a way that the boys and young men may be led to dedicate their lives to the service of their Lord and Master.

### A REAL PLEASURE TO USE IT

Webster's New International is a Necessity in Every Well-Equipped School, Cultured Home and Up-To-Date Business Office.

Every day in your talk and reading, at home, in the office, shop, and school you question the meaning of some new word. A friend asks: "What is *white coal*?" *sabotage*? *gantry*? Who was *Becky Sharp*? Is *Hongkong* a city or an island? etc., etc. This *New Creation* is far more than a dictionary, being equivalent in type matter to that of a 15-volume encyclopedia. It answers with final authority all kinds of questions in language, history, geography, biography, trades, arts, and sciences, sports, foreign phrases, abbreviations, etc. **Get the Best.** Supreme Court Judges concur in its favor. The government Printing Office at Washington uses it as the authority. These statements can be made of no other dictionary.

**The United States Boys' Working Reserve**

Uncle Sam has gone to war in self defense. With his ships ordered from the free seas, his vessels destroyed, and his people wantonly murdered, he was compelled either to submit or fight. He has sprung to the side of his allies to take up the gauge of battle. If Germany wins, eventually she will impose her will on the civilized world, and the principles for which our forefathers fought and bled will perish from the earth.

For thirty years Germany has been organizing every resource, human as well as material, for war. Her men, women and youths have all been trained, her factories, her mines, her harbors, her railroads, have all been planned so as to make effective all of her power in the conflict that was intended to make her dictator of the world. She has taught the countries against which she is fighting that they too must make war with every ounce of human and material power in order to match her wonderfully coordinated fighting machine.

Uncle Sam has assumed a sacred trust. The entire civilized world looks to him not to fail in defending the principles with which to insure the happiness of mankind for centuries to come. With more than one-third of the world's wealth, with incalculable material resources, Uncle Sam finds that his supply of labor is limited and cannot be appreciably increased. Human industry, that is labor, alone can sustain the fighters at the front. Labor must be supplied continuously, and at the point where it will produce the maximum benefit for the nation. The shortage of man-power must be met by a redistribution. Others must become producers and the worker in a non-essential industry must be induced to take up something that is helpful in winning the war. Labor must be drawn from sources that have never been utilized before. Uncle Sam takes inventory and finds that the most promising supply from which to draw is from the five million young men of the nation between the ages of sixteen and twenty-one. About two million of these are either idle or are engaged in non-productive activities for a substantial part of the year. Uncle Sam, after considering how he could make most readily available this source, brought into being the U. S. Boys' Working Reserve.

**WHAT THE RESERVE IS**

The U. S. Boys' Working Reserve is a registered army of patriotic youths between the ages of sixteen and twenty-one, organized under the U. S. Department of Labor to help the nation where most needed to win the war in field and factory. Every boy physically fit, of proper age, is eligible for this non-military civilian army. To enroll, the young man applies to any school principal, fills out an en-

rollment card, obtains the consent of his parent, takes the Oath of Service and receives a certificate bearing the Great Seal of the United States and an Enrollment Badge. He can serve his country in three separate units of the Reserve. If he goes into the AGRICULTURAL UNIT, he will probably work on a farm, a camp or live in the farmer's family, and after six weeks of satisfactory service he will receive a Federal Badge bearing the Great Seal of the United States. If he works in an industry which is essential in helping to win the war, he enters the INDUSTRIAL UNIT, and gains the Federal bronze badge when he has served ten weeks subsequent to enrollment. The Reserve recommends that all boys who are at school remain there and use their spare time in preparing themselves vocationally for some essential occupation. The boy who thus trains himself and goes into active service in a war-essential occupation as a member of the VOCATIONAL UNIT, is awarded the Federal Bronze Badge on taking employment.

**WHAT THE RESERVE HAS DONE**

Organized in May, 1917, the Reserve has organizations completed or under way in practically all of the States, and, during the summer of 1917, had thousands of boys making good on the farms. Many farmers, at first skeptical as to the value of boy labor on farms, have been convinced that the boy makes a capable farm laborer, and they openly declare that without the young men's help during the past season, they could never have harvested their fall crops. The Reserve has operated under the State Council of Defense in each State and has utilized boy labor organizations already in the same field of activity to the utmost, giving the members of such bodies Federal recognition.

**THE CALL TO YOUTH**

Never before has the boy had such an opportunity to become a vital factor in history. Every boy who loves his country should ask himself, "How Can I Best Serve the Nation in the War Emergency?" He should realize that, having received untold benefits from the freest and best government on earth, he holds his services in trust for the preservation of Democracy on which that government rests. Although he may have to endure aching limbs and sore muscles in field and factory, he will be happy in the consciousness that he has had a real part in winning the war. With true pride and satisfaction he will show in after years his Reserve Badge of Honor granted by the United States for his faithful and loyal service. If not enlisted in the Army or Navy no boy can better serve his country than by joining the U. S. Boy's Working Reserve.

Editor Garden Island—The following is part of a letter written by a young Californian, now in the Signal Corps, in France, to his sister. The extracts have proved interesting to us, and we think they will interest other members of the Red Cross on Kauai.

Respectfully yours,  
Mrs. J. K. Farley.

311 Tel. Bat., Co. D,  
France, April 1st, 1918.

Dear Sister: I am located in a tent near the big base hospital, awaiting transportation to my company, which is quartered at a beautiful chateau, about three miles from here.

I cannot begin to tell you the good the Red Cross is doing over here, and anything you may be able to do for them, if only folding bandages, is surely helping a good cause. "When a fellow needs a friend" applies to them, without a doubt. They are always there, and when you least expect them.

To begin with, when we left for the Port of embarkation, we had to walk a long distance, with heavy packs, over lead roads and frozen pavements. We were tired out and hungry toward the end of the journey, and believe me, we found a friend in the Red Cross. They were there with real coffee, and hams, and cigarettes. Again, on the boat, they distributed sweaters and helmets. Over here we had a sixteen-hour ride in the train, and as sure as we were cold or hungry, the Red Cross was always on hand to serve us with hot coffee. We surely appreciated it; but it was when I was sent to the hospital that I saw the real work they were doing. Every patient on a bed here as they could get any place in the world, and always on the alert to make the fellows comfortable in any way possible.

It would surprise you to see how

the people utilize every available bit of land for cultivation. It is all layed out in small squares of about one and two acres, with a three foot bank around each square, and a hedge on top of that, which serves as a fence, I suppose. With all their thrift, however, they are very backward in their methods. They use quite a number of oxen, drive their horses tandem, have very few four-wheeled wagons, no buggies at all, but use many big, high-wheeled carts. The majority of the people wear wooden shoes. Their railroads are like our old narrow-gauge, with very few large engines. There are many things I would like to tell you, which would, no doubt interest you, but I will have to find out what I may write about. While it may seem alright to us, the censor may think it of some military value if it should fall into the hands of the enemy.

The weather is much more agreeable now that Spring is here, and we hope that in a few days our work will begin. It will be much the same as we did in the States, and we are not only ready, but anxious to get at it.

Your loving brother,  
EMMETT.

Editor Garden Island: The United States Congress has just passed the Bill, so long pending, for the Prohibition of the liquor traffic in the Territory of Hawaii. The law is a so-called "bone-dry" measure and as a Congressional enactment will be the more effectively enforced by the Federal authorities.

The campaign for this Act has been beset by many difficulties of an unusual character. The forces in opposition were strongly entrenched and other obstacles blocked the pathway. But at last the reward has come and Hawaii is set legally free from rum's bondage.

With a heart full of gratitude I wish to acknowledge my sense of obligation to the National Officers of the Anti-Saloon League and the W. C. T. U. of America for their sympathetic interest and patient cooperation. Dr. E. C. Dhwiddie, the Legislative Superintendent of the League, has been a tower of strength.

It was Senator Morris Sheppard of Alabama, loyally assisted by other friends and Prohibition Leaders in the Upper House, who skillfully engineered the Bill through the Senate while Congressman William C. Houston of Tennessee, with the assistance of Representative C. W. Hamilton of Missouri and others, enthusiastically took charge of the Measure in the Lower House and secured its enactment.

In later days, our Delegate to Congress, Hon. J. K. Kalaniano'le sponsored the Bill which has been enacted, and by his loyal backing of the same made victory more readily achieved.

This greatly needed legislation will prove a boon to the Paradise of the Pacific. The writer returns to his home and work on the Islands with a light and happy heart.

Sincerely and cordially yours,  
JOHN W. WADMAN,  
Superintendent of the Anti-Saloon League of Hawaii.

First Stenographer: Isn't it terrible the way we have to work these days?

Second Stenographer: I should say it is. Why, I took so many letters yesterday that I finished my prayers last night with "very truly yours."

You seem happy since you enlisted.

"I am. Now it's against the law for any of my relatives to borrow my clothes."

"We have not studied cost nor economy as we should, either as organizers of industry, statesmen, or as individuals."

---President Wilson.

Agents For Kauai.

Island eggs are scarce this week although the price has not advanced materially. At last accounts, Mr. Nicholas Ro manoff was much addicted to what, if such is still the case, he is the only noiseless thing in Russia.

### Automobile Stealing Becomes a Science

While the man who steals a \$150 horse promptly gets a good term in prison, the automobile thieves throughout the country escape entirely or get a few months for stealing a \$3,000 car. This makes them very bold. A well organized force for stealing automobiles usually consists of at least three men. One, a salesman, who under the guise of a traveling representative for some staple article, visits a country town, finds out who is thinking of buying a car, what car he prefers, and its price new. In a most casual way he relates how his next door neighbor, having recently purchased just such a car for his wife, and she having died, no longer requires it. He gives the car owner's address and makes an appointment by telephone for the two to meet in a few days. In the telephone conversation the car buyer's wants are adroitly described.

Thereupon the street man gets busy and proceeds to pick up precisely such a car on the street. He drives it rapidly a few blocks, jumps out, and the third man takes it to his place, which has a small garage in front and a concealed workroom in the rear. There some rapid work is done. The wheels, and perhaps one or two other parts, are painted a different color, with a quick drying paint. Then the numbers which the factory has placed on various easily accessible parts are skillfully altered. A 1 is changed to a 7; an 0 becomes a 6 or a 6 becomes an 8. Numbers also raised by addition of other figures, and in a manner difficult of detection. In the case of a recently stolen car the factory reported the engine of that number to be in Cleveland, the body in Dallas, Texas, and the rear axle in San Francisco.

The following day the traveling salesman rolls into the country town and finds the prospective buyer. Says he was coming out that way and the owner suggesting driving the car out. He leaves it with the buyer for a few hours to try out, while he goes on to the next town to call on his customers. Returning, there is a long distance conversation between the buyer and "owner," and it is arranged to pay the salesman in cash, who makes out a bill of sale as the owners agent. The saving of several hundred dollars on a practically new car makes the buyer anxious to get the bargain, as the car is almost sold to a man in the city, but who can't pay for a week or two. Of course if the car is discovered, as often happens, the buyer of the stolen car loses both car and money.

The moral is for buyers to purchase from an owner who is personally known to be alright; and for owners only from the established agent, or to identify their cars by placing their initials, or other marks, in such inaccessible places that no ordinary search would discover them.—Popular Mechanics.

## FARM TO WIN "Over There"

Mr. Hoover says: "In order to count on a maximum production of food in this country we not only have to increase the productive units but we have to face substitution for the units lost by putting our men at the front. Every boy in active productive service in the United States will oppose a similar working boy in Germany. The United States Boys' Working Reserve must be the dominant organization in the effort to mobilize the working boys of the United States."

President Wilson says: "I call upon the able-bodied boys of the land to turn in hosts to the farms and make certain that no pains and no labor is lacking in this matter."

# BOYS!

## Uncle Sam Wants You

Your country calls you to active service. You can do a full share in helping win this war. All boys who are not less than 16 years nor more than 21 years of age are urged to enroll in the United States Boys' Working Reserve for active duty in a food producing industry. Every working member will receive pay. This is where you work to win. It is the Job Over Here to Help "Over There." Don't be a slacker. Enroll

**Registration Week, June 12 to 18**

Boys, this is your chance to serve Uncle Sam and earn money during your vacation and at the same time get good, healthful, outdoor exercise. The Principal of your School or the Director for your County can give you full information about the

### TIME FOR THE FIRST BIG DAY TERRITORIAL FAIR OPENS ON

The opening of the Territorial Fair at Honolulu yesterday at noon found 95 percent of the exhibitors ready, all buildings completed, and practically every thing in readiness for the great crowds which attended the first day.

The livestock, poultry, dog, cat rabbit and automobile shows were ready to open and all were patronized very heavily in attendance.

Secretary Lane of the Interior opened the gates with a very simple ceremony, a company of the regulars standing at attention and the raising of the flag over the main entrance completed the ceremony.

An attendance of about ten thousand were present up to six o'clock of the opening day.

### RICE GROWERS FROM ALL THE ISLANDS HOLD MEETING

A meeting of the rice growers was held in Honolulu a few days ago and at this meeting was a representative gathering of all the rice growers of the islands. This meeting was held to decide the price of rice for all the islands and to try to equalize the rice price for all.

The prices agreed upon were as follows:

\$4.50 per hundred for paddy from the grower to the miller. Cleaned rice to bring \$8.10 to the miller; \$8.50 was the price which the grower was to sell to the retailer and who in turn would sell to the consumer for \$9.25 per hundred.

This will give the retailer 55 cents on the hundred; the grower 20 cents; 40 cents for the miller and \$3.60 for the grower; it costing \$4.50 to produce this rice.

On the islands which raise no rice, the price will be the same, but the freight may be added to this price and this will equalize the price all over the islands.

The following passengers arrived by the Kinau this morning:

E. C. Roberts, R. Spalding, Mr. and Mrs. Honan and daughter, John Edgar, Miss M. A. Kalai, Mrs. G. Mahikoa, Master Kalai, Miss E. Mahikoa, A. Y. Young, Chung Sang, Mr. and Mrs. E. S. Gordon, Master Vida, Miss C. Moses, Miss A. Pena, Lt. Branch, Lt. Balch, P. Manlipit, C. Miyasato, Miss A. Kauli, Mrs. K. Kauli, Mrs. H. Baker, Mrs. J. H. Hakole, S. Koika, George Huddy, Miss Malao, Miss Huddy.

### TONIO CAN'T READ BUT WILL TAKE NO CHANCES ON JOE

Tonio staggered along with the two sign boards under his arm. He felt very proud. Had he not been chosen from the gang to perform this special mission? Tonio wished he knew what they meant—if he could only read English! He was to place one at each end of the huge bridge.

He stood on the bridge now. Nearly a quarter of a mile long it was, with the big river sparkling beneath.

Tonio leaned far over the rail to enjoy the sight, and in the act dropped one of the beautiful signs. The blue water caught it and held it, dancing, for a moment, far, far below, then swept it from view. Here was trouble! Tell the boss? And perhaps lose the job that brought the good money? Never!

Tonio was a man of resources as he himself often reflected. Grasping the remaining signboard firmly, he walked half way across the bridge and nailed the board firmly on a pillar—conspicuously. Then he stood back and admired the effect.

And later, vehicles which crossed passed a board on the rail in the center of the bridge which read, "This bridge is not safe. Trucks or any vehicles heavily laden must not cross."—Motor Life.

Repair Man (entering business office): Does your typewriter need repairs?

Head Clerk: It would seem so; she has just gone across the street to consult a dentist.

### W. S. S.

Jones was telling a friend about a quarrel between two stubborn men, which he illustrated by saying:

"And you know what happens when Greek meets Greek?"

"Yes," replied his friend, "most likely they open a confectionery store."

**KAPAA NOTES**  
The entertainment given by the Kapaa School children last Saturday evening netted \$175.00 which was turned over to the Red Cross.

M. Minura, the storekeeper has enlarged his premises and put in several fine new show cases. The store now has a strictly metropolitan air.

The post office at Kapaa will soon be ready for occupancy. The building is being put up by the Hawaiian it for offices. K. Masunaga, assistant Canneries Co., who will use a part of clerk at Keala will be the new post master.

Contrads & Sahara are putting up a fine big building in Kapaa in which will be housed a thoroughly up to date garage and display rooms.

**W. S. S.**  
**SUGAR AS A BASIS OF CURE FOR TUBERCULOSIS**

Discoveries which are expected to revolutionize the treatment of tuberculosis and which are reported to have met with great success in his experiments, are credited to Prof. Domenico Lomonaco of Rome. His remedy has sugar for its basis.

In explaining his discovery Professor Lomonaco says that certain secretions in the bronchial tubes and passages are indispensable for the growth and development of the tubercle bacillus. By the injection of his saccharose fluid those secretions are destroyed and the progress of the disease checked until ultimately the bacilli disappear and the health of the patient is restored.

### IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT Territory of Hawaii

At Chambers—In Probate

In the Matter of the Estate of John P. Kamanuwal, deceased.

Order of Notice of Hearing Petition for Probate of Will.

A Document purporting to be the Last Will and Testament of John P. Kamanuwal deceased, having on the 20th day of May A.
