

Every issue of the EVENING BULLETIN in which a business is advertised acts as an agent for that business. Tells the reader what that business is, where it is located, what stock it possesses, and the advantages it has to offer. Without such advertisement there would be, therefore, a community of readers knowing nothing about that business, and, as a matter of course, passing it by in the search for supplies.

San Francisco Merchants are running their largest ads right now

VOL. X. NO. 3901

HONOLULU, TERRITORY OF HAWAII, FRIDAY, JANUARY 17, 1908

PRICE 5 CENTS

IMMENSE SUPPLIES ORDERED FOR FLEET Merchants Hold Their Annual Session

Sugar 4 Cents

Financial Conditions Again Normal

Sugar Four Cents! This message, that came over the wire, put a sort of holiday atmosphere on the business section of the town this morning.

The first signal of the advancing price was the cable to the Planters' Association announcing a price of 3.975 cents, or \$79.50 per ton. Shortly after this the Henry Waterhouse Trust Co. received a cable announcing that sugar had sold on the New York market for 4.10 cents. Then, others got the same news from their mainland correspondents and things looked brighter all along the line.

As if the good things were coming all at once—just as the unpleasant things came rolling in rather rapidly during October and November—Bishop & Co.'s cablegram from the Bank of California—"Conditions Now Normal"—assisted materially in giving the business men and purchasers of stocks a cheery view of the world in general and the future of Hawaii in particular.

There is no indication of loose

money just at present, but the general improvement, coupled with the fact that Hawaii may have a late sugar cargo soon to arrive in the New York market, fulfil the predictions of those looking for a good year for Hawaii.

Hawaii's old crop is practically all marketed. There is only one vessel carrying old-crop sugar about which there is any doubt. She was due in New York three or four days ago with about 5000 tons of sugar, and, although no word has yet reached the Sugar Factors Company here, it is supposed that the vessel reached her port too soon to take advantage of the rise in price. However, the price the day before the vessel arrives is the one in effect, and it may be that the ship has been delayed so that advantage may be taken of the recent raise, according to Frank Atherton, of the Sugar Factors Company here.

None of the vessels carrying new-crop sugar is due in New York for probably a month yet.

Local Socialists May Decide To Put Up Candidate

MAKING CONVERTS AMONG HAWAIIANS

While the politicians are beginning to get busy and Republicans, Democrats, Home Rulers, Civic Feds, Good-Government men, and Wallchers are arranging for their stunts in the next campaign, there is a new organization, to which heretofore no attention has been paid, getting ready to enter the fray, namely: the Socialists.

Some months ago the Socialists organized a party locally but to start with it has confined its work to the getting of converts to the doctrine. Now it appears, however, that the local Socialists are sizing up their chances for taking a hand in local

affairs. (Continued on Page 2)

MRS. NAKUINA TAKES PART OF WALLACH

Protests to Governor Against Pinkham Changes

Mrs. Nakuina called on Governor Frear this morning to discuss the proposed Wallach "experiments."

Mrs. Nakuina is one of Wallach's most ardent supporters. She says she has seen the proofs of his skill and knows that, while he has probably told as many lies as President Pinkham, yet he undoubtedly has a cure for leprosy, for she has watched the progress of one of his cases and has seen a most wonderful cure. The case, however, is that of Chas. Hoo-kano, the man whom Wallach has been taking around to exhibit as one of his patients, and who was some time ago declared by the examining physicians of the Board of Health to be not a leper.

Mrs. Nakuina's particular mission this morning was to protest against the change in the conditions which it is alleged Pinkham intends to enforce. Pinkham, she says, declares that Wallach must choose his patients from among the inmates of the Bishop and Baldwin Homes. This, she says, would be a great injustice, for people are not placed in those institutions until they are too sick to remain outside. Pinkham's plan, therefore, means that Wallach must choose subjects who already have one foot in the grave. Wallach should be given a fair chance, and not be required to try to cure hopeless subjects.

BANKING CONDITIONS ARE NOW NORMAL

"Conditions now normal." This is the text of a cablegram received this morning by the banking house of Bishop & Co. from their San Francisco correspondents, the Bank of California.

It is very good news for the business men of this Territory and indicates a complete recovery in San Francisco from the conditions brought about by the banking panic of October in New York City. The presumption is that the California banks have finally cleared away their clearing house certificates and are going ahead with strengthened reserves backed by a general return of confidence on the part of the people.

The reduction yesterday of the Bank of England rate of discount to five per cent was a very impressive indication of returned normal conditions in the east. The Bank of England has no further fear of withdrawals of gold to bolster the American financial situation.

JOHN DAY HURT BY FALL AND HE MAY DIE

John Day, a young mechanic employed by Catton & Neill, was badly hurt by a fall this morning and may die as a result of his injuries. Day was working on a scaffold in the new building which his employers are putting up at Kakaako near the Union Feed Co.'s place. He was screwing some bolts with a monkey-wrench when he apparently lost his balance and fell to the ground, about twenty-five feet below.

Day was rendered unconscious by the fall. He was picked up by his fellow workmen and placed on an automobile driven by Wm. G. Hall, in which he was taken to the Queen's Hospital. This afternoon it was reported by the attending physician that he was suffering from a hemorrhage of the brain. His condition is serious and death is likely to result.

Catton & Neill have but little information in regard to the injured man. They state that he came to Honolulu about six months ago as a sailor and has been employed by them ever since then. He was about 22 years of age. Nothing is known in regard to his home or whether he has any relatives.

SAITO NOT NOTIFIED

Japanese Consul General M. Saito has not as yet been officially informed of the reported changes in the Japanese cabinet of which Salouji is the Premier. Since the resignation of Premier Salouji was announced the local Japanese Consulate has anxiously waited for a cable from the Home Government. Chief Secretary Tsuchiya said this morning that the official announcement of the changes in Salouji's cabinet might be received after a new premier has been appointed by the Emperor.

General Count Katsura, once a Premier of the empire, is reported to be the next Premier.

The Buford has arrived in San Francisco.

JUDGE DE BOLT WILL HANDLE \$400,000 SUIT

The \$400,000 damage suit of Lowrie against Baldwin and the Castles has been transferred from Judge Robinson to Judge De Bolt, Judge Robinson taking the criminal work this term.

There was a hearing in the matter this morning on the motion of the defense to reserve certain questions of law to the Supreme Court. The attorneys for the defense in their arguments took the ground that there are so many legal questions involved that the Circuit Judge is liable to decide incorrectly in some of them, and for this reason it would be better to have the questions carried directly to the Supreme Court. An affidavit was filed by D. L. Withington in support of this motion.

EMPIRE THEATRE

There will be an entire change of program this evening, the same popular prices prevailing. Matinee every day on and after Saturday the 18th.

If You

have your life insured, and meet with an accident that cripples you for life, what will you do for your family?

What will you do if a fire destroys your income property?

Can't you see that fire, life, and accident policies are equally important?

We represent all branches of insurance—fire, life, accident, marine, plate glass, and employers' liability.

Hawaiian Trust Company, Ltd. Fort St. Honolulu

CHANGE TO SELL STEAMER SUPPLIES

American-Hawaiian To Submit List To Merchants

Honolulu merchants will have no more chance to grumble against the American-Hawaiian Steamship Company because all the supplies for their vessels are bought on the Coast, for a list of goods needed will be submitted to them shortly and they will be given an opportunity to name their price. If this is not too much in excess of the prices on the Coast, according to a letter received from the head office of the company by C. P. Morse, the local agent, all the supplies for the A.-H. company's steamships will be bought in Honolulu.

"There has been considerable talk here during the past year," said Mr. Morse this morning, "to the effect that while the company was making money out of this port, it was spending comparatively nothing here. This has been rather unjust in view of the fact that we buy in the neighborhood of 10,000 pounds of meat from the Metropolitan Meat Company every month, and have done so for the past year. However, it was brought before the notice of the head office, and from there I recently received a letter giving a list of steward's supplies which is to be submitted to the local merchants for their bids. If a fair price is given by them, not only will the steward supplies be bought here, but also everything pertaining to the ships and their needs, such as general supplies, paints, oils, chandlery work, drugs, etc. The company realizes that the Honolulu merchants are right in making a demand for a share of the trade, and we are prepared to give them a chance. It has been the custom of the company for some time to pay off their crews in Honolulu, so that local people would receive the benefit, and they have also made it a rule, so far as is possible, to employ Hawaiians for the deck crews. If the merchants here offer fair prices, the most of the supplies for our boats will be purchased of them. These will amount to a large figure, too, if advantage of the proposition is taken."

LAND MATTERS DISCUSSED

Superintendent Campbell had a conference with the Governor this morning with reference to a proposed exchange of an old Government road in Hamakua for a new one. Land Commissioner Pratt also conferred with Governor Frear in regard to the conditions that shall be imposed in the sale of the Kaunalea land.

The coal ship Benj. F. Packard, which put into Montevideo in distress, continued on her voyage today.

Quantities Of Supplies For Battleship Fleet

WASHINGTON, D. C., Jan. 17.—An immense amount of supplies have been ordered to the Mare Island Navy Yard for the battleship fleet.

RIO DE JANEIRO, Brazil, Jan. 17.—The torpedo flotilla of the American fleet arrived here today.

Mine-Laying Ships Are Now Planned

WASHINGTON, D. C., Jan. 17.—Estimates have been asked for the conversion of the U. S. ships San Francisco, Baltimore and Paul Jones into mine-laying vessels.

TROOPS TO STAY TILL NEVADA ACTS

WASHINGTON, D. C., Jan. 17.—The President will retain the Federal troops in Goldfield to guard the mines, pending action by the Nevada Legislature.

MRS. THAW TO TESTIFY

NEW YORK, N. Y., Jan. 17.—Evelyn Nesbit Thaw, wife of Harry Thaw, will testify in his second trial.

WALKER WILL ESCAPE

SAN FRANCISCO, Cal., Jan. 17.—The charge of embezzlement against Walker, former president of the Safe Deposit and Trust Co., has been dismissed.

MASONIC TEMPLE FIRE

BALTIMORE, Md., Jan. 17.—The Masonic Temple in this city was burned today.

SUGAR

SAN FRANCISCO, Cal., Jan. 14.—SUGAR: 96 degree Centrifugals, 3.975 cents, or \$79.50 per ton. Previous quotation, 3.913125 cents.

Merchants Review Work Of The Year

The Merchants' Association met this afternoon for its annual meeting. One of the first reports placed before the meeting was that of the Board of Directors submitted by Secretary Paris as follows:

Honolulu, January 17th, 1908.

To the Members of the Merchants' Association of Honolulu.

Your acting directors for the year 1907 and to date, now closing, beg to report in a general way the work that has been done and accomplished during the past year.

There have been held five general or special meetings of the Association and twelve meetings of the Board of Directors.

The standing committees, having different matters in hand, as appointed by the President to serve for the year, were as follows:

Publicity and Promotion—Mr. F. L. Waldron, Mr. M. Phillips, Mr. Robert Catton.

Public Affairs—Mr. W. W. Harris, Mr. F. W. Macfarlane, Mrs. E. H. Paris.

Trade and Finance—Mr. E. A. McInerney, Mr. W. T. Lucas, Mr. E. H. Paris.

The several committees have, from time to time, considered matters coming within the scope of their duties, and we feel that through the efforts

Roosevelt Supporters Have Downed Hughes Resolution

NEW YORK, N. Y., Jan. 16.—After a bitter fight the New York Republican County Committee has tabled the resolution endorsing Governor Hughes for the Presidency. The County Committee is controlled by Parsons, a strong Roosevelt man.

JAPAN'S EXPENSE MEANS MORE TAXES

TOKIO, Japan, Jan. 16.—The budget submitted to the leaders of both houses of the Diet shows receipts of 511,010,000 yen and expenditures of 615,950,000 yen for the fiscal year. It is proposed to meet the deficit by increasing the tax on sake, beer, alcohol, sugar, and kerosene. The sugar increase, on four standards, averages 40 per cent. The deficit is due to over-expenditure on the army and navy and the nationalization of railroads.

JAPAN PLAYS STRONG HAND

TOKIO, Japan, Jan. 16.—China has been notified that the proposed railroad between Simintun and Fukumen is in violation of the treaty of Peking, and that Japan will interfere to prevent construction.

WRECKAGE WASHED ASHORE

SEATTLE, Wash., Jan. 16.—Wreckage supposed to be that of the British ship Hartfield, from Valparaiso to Puget Sound, has come ashore. It is feared that the vessel has been lost with thirty lives.

HARRIMAN MUST ANSWER

NEW YORK, N. Y., Jan. 16.—The United States Court has ordered E. H. Harriman to answer the questions put to him by the Inter-State Commerce Commission.

REVOLUTIONS ARE ADVANCING

PORT AU PRINCE, Hayti, Jan. 16.—A body of revolutionists is approaching this city. Measures are being taken to check the uprising.

LOCAL SOCIALISTS

(Continued from Page 1) It is quite probable that they will enter the fight with a few candidates of their own.

It has been noticed by the authorities that recently a large amount of Socialist propaganda has been distributed here, a large portion thereof being in the hands of the Hawaiians. Last night, for instance, a Hawaiian appeared at the meeting of one of the Hawaiian societies with a bunch of pamphlets such as Wm. H. Leffingwell's "Easy Lessons in Socialism" and Gaylord Wilshire's "Why a Workingman Should Be a Socialist."

This Hawaiian was located this morning. He stated that he had been given the pamphlets to distribute by Jos. I. Whittle, the painter. He explained that he had had several talks about Socialism with Whittle, and that it was the intention that the Socialist party which had been organized here, should take a hand in the political campaign together with the other political parties.

Whittle was seen at his shop on Union street. His office was filled with Socialist pamphlets by Upton Sinclair, Jack London, Bellamy, Karl Marx, and other well-known authors. Whittle appeared to be well versed in these works, and spoke very intelligently on the nature and aims of Socialism.

WATERFRONT NOTES

It is reported here that among the stowaways on the transport Sherman who were gently requested to try Honolulu as a home, were two decidedly "undesirables"—one of them having a proclivity for putting people of note out of the world by the dynamite route, and the other having just a common fondness for other people's valuables. If they exhibit any of their favorite traits, they will probably be asked to remain as guests of the Hotel Je Taylor.

MARION CROOK SUE

BY JOHN EFFINGER

John Effinger this morning filed and again Marion C. Crook, doing business as the Hawaii Photo & Art Co., for \$408.01, together with interest, costs and attorney's fees. The complaint alleges that on September 1, 1907, the defendant became indebted to Chas. R. Frazier for \$125.85 for advertising. This account has been assigned to the plaintiff. The defendant also owed the Honolulu Photo Supply Co. two bills for \$155.95 and \$15 respectively, and Effinger is now the owner of this account. Another item is a promissory note to E. O. Hall & Son for \$72.76, unpaid. Crook's particular bill owing to John Effinger amounts to \$8.95. Effinger asks for judgment on all the various accounts.

LAND FOR SISAL

Governor Frear and Land Commissioner Pratt are considering placing on the market for sale a tract consisting of about 2,000 acres of sandy land lying between Kekaha and Mana on the western side of Kaula. The land, it is thought, will prove valuable for the raising of sisal. It is now under lease to the Knudsens, the lease having only a few years more to run. The present holders are anxious to buy it, and offer to surrender the remaining term of the lease if the land is put up for sale.

LOCAL NOTICE TO MARINERS.

The following affects the list of lights, buoys and daymarks, Twelfth Light-House Subdistrict, 1907, page 15. PEARL HARBOR, OAHU, T. H. Dredged Channel Buoy, 5, a 2nd-class can, is out of position. It will be replaced as soon as practicable.

DEAF CAN HEAR

A test of the usefulness of the acousticon was made in the Central Union Church yesterday afternoon. The acousticon, an instrument enabling deaf persons to hear and distinguish sounds that would otherwise be indistinct, was placed on the speaker's desk and connected by wires with the individual ear-pieces, which are placed before the persons employing them.

When the speaker commenced to talk his voice was evidently heard, as the persons who had the ear-pieces in their ears nodded and said that they had distinctly heard what was said. The acousticon is made in three grades of sensitiveness, and only one kind was available for use yesterday.

RUMOR STIRS UP LOCAL JAPANESE

A rumor has been in circulation in the Japanese colony this morning to the effect that the Japanese government, through the War Department, has sent out to China a large force of soldiers to prevent the construction of the proposed railroad between Simintun and Fukumen. The anxiety of the local Japanese to ascertain the truth of the rumor was so great that the telephones were kept busy for some time with inquiries about it.

The officials of the Japanese Consulate were also communicated with, but no satisfactory answer was obtained. They said that they had not received any news relative to the matter.

DEATH OF MRS GUILD

Mrs. Mary Guild died this morning at Ewa, where she has been living with one of her sons.

Mrs. Guild was born at Selkirk, Scotland, on 2nd February, 1839. She came to the Islands to join her sons about seven years ago and has lately resided at Ewa.

Mrs. Guild leaves a family of six sons and four daughters; four sons and one daughter being here in Hawaii.

The funeral services will be held at the residence of John Guild, 1728 College street, tomorrow, Saturday, at 3 p. m.

MERCHANTS REVIEW

(Continued from Page 1)

of these standing committees and of other special committees appointed, much good has been done and effectual work has been accomplished.

Your committee on Trade and Finance has had, for its special consideration, the following matters: insurance rates, handling of baggage and freights at this port and at San Francisco, and recommendations to the tax committee. Special reports by the committee on the above matters are now on file and available to any of the members of the Association. Minor matters, regarding general trade affairs, have been cared for by this committee and informally reported to your directors and the Association from time to time.

Your Committee on Publicity and Promotion has been particularly active, during the past year, and has directed, through our representatives, the Hawaii Promotion Committee, all possible effort for the encouragement of tourists, traffic, and for the proper advertising of the Territory's resources and commercial advantages.

Your Committee on Public Affairs has had, for its consideration, matters of general interest to the community at large and has, at all times, particularly endeavored to co-operate with members of the Chamber of Commerce of Honolulu for the betterment of conditions in these Islands. This committee, through its individual members, has been particularly active in having matters properly represented through our representative at Washington, Mr. Geo. B. McClellan, and has through him kept in especially close touch with our Congressional Delegate, Honorable Jonah Kalanianoʻe. We take particular pleasure in advising you that at all times this Association has received due recognition by the authorities at Washington and that our representative has received every possible courtesy in pre-arranging communications which we have quite frequently addressed to our Congressional friends and to the Federal officers at Washington and in this city.

The Association, through Special Committees appointed, has been active in the endeavor to further the passage of the refunding bill and also the passage of the ship subsidy bill and for the modification of the coastwise shipping law as applied to traffic between this Territory and the mainland. Special resolutions and communications have been forwarded to the proper authorities at Washington and assurance has been received of the hearty support on these matters from several of the United States Congressmen. We, however, regret to say that no definite or formal action has been taken by the home government on these matters.

It has been gratifying to the directors of this Association and no doubt it has been to the members in general, that a satisfactory decision was made by the Federal authorities regarding a Post Office site and that through the efforts of this Association, in conjunction with those of the Chamber of Commerce, the matter was finally and so satisfactorily settled.

Upon a call from Admiral Very, rep-

P. E. R. Strauch

A HIGH ELEVATED TRACT OF LAND opposite Hon. Henry E. Cooper's residence at Manoa Valley with unobstructed view, on right hand side of car line. Will sell one or two acres to suit purchaser. One of the very best building lots in Manoa.

WATY BLDG., 74 S. KING ST.

representatives of this Association met and discussed efforts to be made for the securing of improvements at Pearl Harbor. Valuable information and encouragement was given us by Admiral Very and your directors have made a strenuous effort to promote this work and secure the necessary appropriations by the Federal Government.

Communications have systematically gone forward, urging appropriations for the Hilo Breakwater and for the improvement of the Honolulu Harbor, and also for appropriations for fortifications and lighthouses on this island. It is gratifying to note that our efforts have been rewarded in a considerable measure, and we feel that these efforts have in a measure done their part in securing the improvements referred to.

Your Special Committee, appointed to confer with the Board of Health and Federal quarantine authorities, was particularly successful in securing a modification of the quarantine regulations as would in the least possible way prove a hardship to the local merchants.

Reports regarding the receipts and disbursements of the Honolulu Shippers' Wharf Committee, in the handling of what is known as the local quarantine tax, have been received by your directors and it has been the sense of your Board of Directors that this tonnage tax is a practical and just manner of collecting a fund for emergencies, such as have arisen during the past number of years. In connection with this matter, your directors recommend that every possible effort be made by this community to secure, if possible, from the next coming Legislature an appropriation for the proper support of the local Board of Health. It is also recommended that, if possible, some person among the local mercantile trade be appointed to fill the next vacancy that may occur on the Board of Health, it being felt that suggestions emanating from such a representative would, on many occasions, prove practical and very beneficial in the deliberation of the local Board and the formation of its regulations.

Your directors particularly urge that every effort should be made to secure better wharf facilities for the handling of incoming freights. As a retiring Board of Directors, we earnestly hope that a spirited interest may be taken in the affairs of this Association during the coming year, and we wish to extend to our successors the encouragement and assurance that, as individuals, your retiring Board will offer and lend every possible help in the work of the incoming officers.

DIED.

GUILD—At Ewa, Oahu, on January 17, 1936, aged 97 years, Mary Guild, widow of James Guild, late of Edinburgh, Scotland.

THE FLYING OF KITES.

The Japanese and Chinese have about the same enthusiasm for kite-flying as we have for baseball, and one of the national sports is kite fighting. In a kite fight the strings of the kite are covered with a preparation of powdered glass that gives them along their entire length tiny saw-teeth, and the object is for one string to fall sawlike over another so as to cut it. Great skill is displayed in these fights. Young men handle the kites with great dexterity, steering them here and there in a way outside of the orient. A kite, as if alive, suddenly darts down and to the left. It crosses the track of another kite, the two strings come together with a humming noise, and in a minute the under kite, its cord sundered, falls to the ground like a bird that has been shot. A Japanese or a Chinese thinks nothing of sending up a kite so that for hours it shall fly directly above his head. It seems curious to the scientists of other countries that these Orientals who are so skillful at kite construction and flying and who can build things so lightly have never turned to the problems of aerial navigation.

TO CLEAN OUT WALL STREET.

McKeesport, Pa., Dec. 20.—Dr. R. J. Black, the former Mayor of this city, who was Congressman Dalzell's opponent in 1906, was invited recently by Dalzell to visit President Roosevelt and accepted. Together they visited the White House last Wednesday. Black told Roosevelt he was sorry the people of McKeesport would not have an opportunity to vote for him again and Black says the President made this reply in the presence of Dalzell: "I'm sorry, too, Doctor, because I would like to have had a little more time to clean out Wall street syndicates."

Speaker Cannon and J. B. Keating, campaign manager for Vice President Fairbanks, and Thomas K. Neidringhaus held a star-chamber session in the Planters' Hotel, St. Louis. It is believed to mean a combination for concerted action against the candidacy of Secretary Taft.

It is announced in London that the pick of the Kann art collection, purchased by Duveen brothers for \$4,000,000 last August, has gone to America, Mrs. Collis P. Huntington being one of the chief purchasers.

METHODIST KOREAN INTERESTING SERVICE

Another interesting religious service was held last night in the little church of the Korean Mission on Punchbowl street. The room was crowded with the members of the Korean congregation who listened attentively to the address by Bishop Moore. His remarks were interpreted by one of the teachers. Those who took part in the services were the fifty pupils of the Korean school, including boys of from eight years old up to twenty. They were in uniform. They sang several hymns, some in English and some in their mother-tongue.

After the address by Bishop Moore, six men, four women, two boys and one little girl were baptized.

Mrs. Richards related the incident of the first Korean band coming to Hawaii. A reception for Bishop Moore and his daughter, Mrs. A. M. Pitkin, was held after the religious services. Refreshments were served.

In his address, Bishop Moore spoke of "Some Characteristics of the Apostles Paul." He dwelt on how willing Paul was to do all things and brave all things to the death in order to carry out the Divine commands that had been laid upon him.

Rev. J. W. Wadman, superintendent of the mission, gave a lengthy report of the local mission work.

At the King Street Japanese Methodist Church Rev. G. Motokawa held a devotional meeting yesterday. It was a rousing meeting. Mrs. Mack, superintendent of the Susannah Wesley Home and Training School, on South street, presented a report of that institution.

Following these reports, there were a number of introductions, including Dr. Bingham, Mrs. Coan, Mrs. Chapman, Mrs. Bryant, Miss Tanaka, and Mrs. Amy Moore Pitkin of Denver, daughter of Bishop Moore, who accompanies him on the present itinerary.

The program for tomorrow is as follows:

8:30 a. m.—Prayer and praise. Leader, Mrs. Joseph Richards.
9 a. m.—The Bishop's address.
9:30 a. m.—Sectional interpretation.
10 a. m.—Business session.
11:30—Consecration.
2 p. m.—Field Day at the Korean compound. Photograph.
7:30 p. m.—Around the World with Rev. W. D. Westervelt, followed by a musical treat.

EVENING COURSES OF THE NEW COLLEGE

There was a meeting of the Board of Regents of the College of Agriculture and Mechanic Arts yesterday afternoon. Action was taken upon various matters connected with the opening of the school on February 3. An evening course in horticulture and entomology is being arranged, which will consist of lectures given twice a week, continuing probably through February and March. No tuition fee will be charged.

Governor Froom was present at the meeting, and told of his work at Washington to get for Hawaii her share of the Federal appropriation for agricultural colleges.

TO DISCUSS TAX CASES

"To the Attorneys in the Tax Cases." "The attorneys in the tax cases are requested to appear before the Supreme Court on Monday next, January 20, at 10 a. m., to arrange for further disposition of the remaining tax cases."

"By the court."
"JAMES A. THOMSON,
"Clerk, Supreme Court."

The foregoing notice has been posted at the door of the Supreme Court room. The tax cases mentioned are the fairly or more depreciation cases which are all of the same nature as the Ewa case, which was decided last Monday. The meeting is to determine the formal proceedings to be had in the remaining cases.

FRIDAY JANUARY 17, 1908

GOOD SUGAR PRICES.

The advanced price of sugar, taken in connection with the fact that the time for the resumption of normal financial conditions is no longer a matter of conjecture, may well cause the people of Hawaii to take a most optimistic view of the future this sugar year offers.

The conditions presented today confirm for Hawaii the doctrine so generally preached on the mainland—buy, if you have the money.

Having been so recently through one sugar campaign of five-cent prices when predictions were not fully realized, it is quite natural that the people of this Territory should not become over-enthusiastic and get into a speculative whirl. This is one of the features that adds strength to the situation. Values will advance slowly, and on a basis of investment rather than speculation.

One of the factors that has undoubtedly operated to bring about the present sharp advance in New York is the delay in opening the Cuban season. Recent reports show that at the period under discussion only five cents were grinding the 1908 as compared with nearly a hundred the previous season.

When these mills of Cuba are in full swing the price for centrifugals will probably be somewhat depressed, but it can never go far below the parity for European beets, and all indications are that the European price will be maintained at a high average throughout the year.

This means good profit on the product of every plantation in Hawaii.

Americanism to foster a scheme that will "settle" the lands with fake farmers!

Is it true that there are no citizens or those eligible to become citizens who wish to take up public lands?

Can it be that any lands in this Territory can be better cultivated by fake farmers who will sell out to a corporation when the title is complete, than by people, citizens, now within the Territory?

Has there not been enough of the unfortunate policy of dealing out public lands to fake farmers only to have them either grabbed by land-grabbers or left unproductive?

The spirit of local self-government as expressed in County government will first consider the honest American citizen.

KEPOIKAI REVERSED BY SUPREME COURT

Opinion Handed Down In Augustine Enos Estate Matter

The Supreme Court handed down an opinion this morning reversing the order of Judge Kepoikai of Maui approving the partial accounts and report of T. B. Lyons from August 21, 1906, to July 31, 1907, as one of the executors and trustees under the will of Augustine Enos, deceased. The court says that the record is not sufficient for the Supreme Court to intelligently pass upon all of the items in the accounts as they stand, and consequently the whole matter will have to be referred back to the Circuit Judge to proceed in accordance with the opinion.

The syllabus says:

Executors and administrators: accounts, appeal.—An order approving partial or annual accounts of an executor or administrator is appealable by co-executors who appear and object to same.

Id.: accounts, confusion in.—Where a will names certain persons as executors and the residue of the property is devised and bequeathed to the same persons in trust, a partial or annual report by one of the executors which confuses the administration and trust accounts should not be approved.

Id.: accounts, fictitious entries.—An executor should not include in his accounts fictitious entries of the collection and payment of moneys.

Id.: accounts, objections to in appellate court.—On an appeal from an order approving the accounts of an executor matters therein not objected to before the circuit judge may be questioned in the Supreme Court.

Id.: accounts, surety premium on bond not allowed.—A fee of a surety company for the premium on the bond of an executor or administrator is not chargeable to the estate.

Id.: clerical assistance, counsel fees.—An executor may charge an estate for clerical assistance and legal services when the necessity therefor and the reasonableness of the amounts are shown.

Id.: accounts, penalty on tax payments.—An executor who allows taxes to become overdue cannot charge the estate for the penalty and interest thereon.

Id.: accounts, investments.—An investment by an executor is improper in the absence of explanation, and in any event a loan made to himself should not be allowed.

Id.: commissions.—Commissions should not be allowed to an executor who is indebted to the estate, nor on moneys not actually received and paid out, nor on payments for expenses of a temporary administrator, nor on any payments not within R. L. Sec. 1590.

FAKE FARMERS?

It makes the fake-farm schemers squirm to point to dishonest hoodluming which there is every reason to believe is the underlying factor in the purpose of one of the exponents of the alleged campaign for the "Americanization" of Hawaii.

Mere suggestion of the dishonest seeker after land—the man who wants it merely to turn it over to a corporation employing servile labor—acts upon the excitable nature of the fake-farm promoter in a most extraordinary manner. A paranoiac impelled by the liveliest enthusiasm of his mania would not throw a more unhappy fit than the individual, obviously aiming to throw public lands on the market in such a manner that they will shortly be grabbed by corporations and "settled" with Orientals.

The system has been worked so frequently on the mainland that Hawaii's authorities do well to guard against it.

The campaign opens with all the appearances of the best purpose in the world. Public lands are thrown open to settlement and persons who cannot till the land and have no intention of either tilling the lands or making a permanent home thereon enlist in the ranks of alleged "settlers."

In due course of time these fake farmers perfect their title and dispose of their property to a corporation. This corporation, "in order to make it pay," draws the mass of its labor from the Orientals. The "American" withdraws with his "fake-farm" profits.

Thus is the fake-farming plan made complete, and the un-American master-and-servant-servile-labor condition is intensified and made more permanent.

Hawaii has no room for fake farming, nor can its progress be thereby promoted. The Territorial Government will not participate in the business.

GOING AFTER FORGER

Marshal Hendry leaves this afternoon on the Claudine for Hawaii to bring back with him Moses Lono, who, according to a wireless received yesterday, has been arrested on the charge of forging a money order. U. S. District Attorney Breckons is also going to Maui and Hawaii on official business.

Nineteen Chinese who were arrested for playing fan-tan at Punaluu last night, appeared before Judge Andrade this morning, but had their cases continued. Detective Leal and other Honolulu officers conducted the raid.

GOOD WORK DONE BY FREE KINDERGARTEN

The Free Kindergarten Association held its annual meeting this morning. The general review of the year showed much work done, much kindly aid rendered, and good prospects for a successful year to come.

Mrs. Richards presided at the meeting, which was well attended. A very gratifying feature was a kindergarten exhibition given by the pupils of various schools.

The business session was taken up with a revision of the constitution and by-laws to meet changing conditions. The election of officers for the ensuing year resulted as follows:

President, Mrs. Theodore Richards; first vice president, Mrs. L. L. McCandless; second vice president, Mrs. L. Tenny Peck; third vice president, Mrs. C. H. Cooke; recording secretary, Mrs. Richard Ivers; financial secretaries, Miss Margaret Hopper and Mrs. F. E. Richardson; kindergarten treasurer, Mrs. A. V. Swanzy; Castle Home, Mrs. F. M. Swanzy; auditor, D. W. Anderson.

Board of Supervisors—Ways and Means, Mrs. Walter Brinckerhoff; Fort Street Kindergarten, Miss Parke; Miller Street, Mrs. A. V. Swanzy; Vineyard Street, Mrs. A. F. Wall; Kawaiahae, Mrs. O. H. Gulick; Palama, Mrs. J. A. Gilman; Affiliated Kindergarten, Mrs. B. L. Marx; Department of Hygiene, Mrs. Fred B. Damon; Buildings and Grounds, Mrs. E. W. Peterson.

Children's Home—Ways and Means, Mrs. F. E. Richardson; Rules and Regulations, Mrs. Andrew Fuller; Publication, Mrs. W. W. Hall.

The Castle Children's Home will move to the beautiful Castle Home in Manoa in the near future. This will allow for an increased number of children and this of course will require more money for maintenance. "The people should understand," said Mrs. Hall, of the publicity committee, "that the home has to be kept up by contributions from the public. It is called the Castle Home just as Bishop Hall at Punaluu is named for the liberal donor. But the up-keep of the institution has to be provided by the public. I want to say that the public has been very kind during the past year in contributing liberally to the work of all departments of the Kindergarten Association. We have got along fairly well. We always have to live within our means, and can think of many more things that could be done with more money. We want it understood that we are deeply grateful."

Association Holds Meeting Electing New Officers

The Mission Conference of the Methodist Episcopal Church now in session at First Church, on Beretania avenue, resumed its deliberations this morning.

The devotional meeting was led by Rev. C. H. Miz. At 9 o'clock Bishop David H. More, addressed the audience in a very helpful discourse based on I Samuel, 16:7; 5, bringing the thought that "the Lord seeth not as man seeth." That the outward exhibition of greatness counts for but little as compared with the heart love for God and for man. His application was in the thought that the humblest may not only worship, but also represent God in acceptable service among men.

Beside the regular conference body, a number of business and professional men of the city were present and greatly enjoyed the Bishop's remarks.

At 10 o'clock the matter of business was taken up. The usual disciplinary questions were asked. A class of six young men were continued on trial in the studies of first year; five in the studies of second year; one in the studies of fourth year. Honolulu was selected as the place of the next annual meeting.

Adjourned to meet at 9 o'clock tomorrow morning.

The Bishop will speak tonight in English at the River street Japanese church.

DIED.

PILTZ—At Palama, Jan. 15, 1908, Ignomiar Kauli Piltz, son of Geo. E. Piltz, 3 years of age.

RADIUM CAN CHANGE ELEMENTAL METALS INTO ONE ANOTHER

Chicago, Ill., Jan. 4.—That the changing of elemental metals into one another is now possible was the startling claim made yesterday by Professor Herbert N. McCoy of the University of Chicago, at the final meeting of the American Association for the Advancement of Science.

The ancient dream of the separation of the elements, which antedates the whole science of chemistry, is being fulfilled by the process of nature and the effect of radium emanation, it is alleged by the chemist, who read a paper on "The Inter-Relations of the Elements." The new theory is based on original investigation into the nature of the atom and experiments believed to shatter many famous scientific hypotheses.

In support of his statement that the elements may no longer be considered immutable, Professor McCoy told of the production of different metals from elements in his own laboratory. The presence of radio-active conditions in the atoms is held responsible for the changes.

The chemist of the middle ages, then, were wrong only in attempting to disintegrate the metals by processes such as were then known.

The discovery of radium is an important link in the theory and the radio-active changes in nature give the best examples of separation of elements. The study of radium was likely to prove a complete solution of the problem of transmutation, now all but cleared, he declared.

RADIUM CAN CHANGE ELEMENTAL METALS INTO ONE ANOTHER

Chicago, Ill., Jan. 4.—That the changing of elemental metals into one another is now possible was the startling claim made yesterday by Professor Herbert N. McCoy of the University of Chicago, at the final meeting of the American Association for the Advancement of Science.

The ancient dream of the separation of the elements, which antedates the whole science of chemistry, is being fulfilled by the process of nature and the effect of radium emanation, it is alleged by the chemist, who read a paper on "The Inter-Relations of the Elements." The new theory is based on original investigation into the nature of the atom and experiments believed to shatter many famous scientific hypotheses.

In support of his statement that the elements may no longer be considered immutable, Professor McCoy told of the production of different metals from elements in his own laboratory. The presence of radio-active conditions in the atoms is held responsible for the changes.

The chemist of the middle ages, then, were wrong only in attempting to disintegrate the metals by processes such as were then known.

The discovery of radium is an important link in the theory and the radio-active changes in nature give the best examples of separation of elements. The study of radium was likely to prove a complete solution of the problem of transmutation, now all but cleared, he declared.

Exclusion Not Allowed

ROOSEVELT WILL VETO ANY LAW PASSED ALONG THIS LINE

Washington, D. C., Jan. 3.—The serious statement is made here that it is believed, with the best authority, that if Congress passes any Japanese exclusion legislation during this session President Roosevelt in the interest of interest of international comity will veto it.

Whether this assurance has been extended to the Tokyo Government is not known, but it is believed that Tokyo has not yet been promised as much. That the President, however, is determined to take this course has been stated by people who know the exact attitude of the Administration.

The assurance received from the Tokyo authorities by Ambassador O'Brien, it is said, are so entirely satisfactory as to have convinced this government that exclusion legislation not only would accomplish no useful purpose of keeping Japanese out, but would create an exceptionally bad feeling between the two countries. Accordingly, it is said, the State Department will authorize Ambassador O'Brien to inform the Tokyo Government that while the President may not be able to prevent Congress from passing exclusion legislation, he will veto such, in view of his perfect confidence in Japan's recent assurances regarding the limiting of emigration to the United States.

Some London seamstresses receive only 31 cents a dozen for making shirts.

JUDGE KEPOIKAI IS NOW WANTED FOR MAYOR

T. B. Lyons, a well known business man of Waialua, and a Democrat, is in town, having arrived in the Claudine. He said this morning that if Judge Kepoikai does not receive his re-appointment in April, when his present appointment expires, then it is expected that he will come down here, possibly to stay for good.

"In that event," said L. Victor, a Republican, "we will put him up for the first mayor of Honolulu."

"There are already a large number of aspirants for the office of mayor, and among the Hawaiian candidates none has the support of the Hawaiian voters. The Hawaiian voters prefer to have a Hawaiian for mayor, provided, however, that that man is a lawyer. This applies to the white candidates as well. Isenberg, McCandless, Hustace, and Lucas are all good men, but they are not fit to be mayor because they do not know the laws."

GARTLEY OUTLINES PLANS FOR PARADE. Several Excellent New Features Are Proposed

At the meeting of the Promotion Committee, A. Gartley gave a comprehensive outline of his plans for the floral parade. He had, he said, met with great interest on the part of the auto owners, and expected to get the principal public schools into line, it being his hope that they would participate by sending floats. He also intended asking the St. Louis College Alumni, the Kiohiana Art League, the Kamehameha Alumni, the Civil Service represented by the Postoffice and Customs House, the Army, Navy, Marine Corps and Militia to take part.

IN WOMAN'S WORLD

DICTATES OF FASHION

Extremely smart gowns consist of wooden skirts made of taitan, worn with plain cloth or plain velvet jackets.

The shoulder seam in all dresses is disguised by draperies or embroideries, and the shoulder line is always drooping.

The square jacket and the plaited skirt in some heavy stuffs, plaids or plain brown-reds or very dark blues, are much worn. With them are seen shirt blouses and jackets that grow fuller and wider.

The foremost couturiers are making princess dresses of dark-tinted velvets, sapphire blue or peacock, myrtle green or the very fashionable shade called "seafoam blonde," made with sleeves of Italian point.

A smart motor coat worn by a young woman who is her own chauffeur was of dark red rubberized silk with a deep sloping yoke in front from which fell box plaits. There was a high storm collar and the coat was fastened with huge buttons and loops.

A blue cloth costume was trimmed with a pale yellow vest and white lace emplacements on the jacket portion only. The three pale tints were nicely blended and the jaunty little jacket was well matched in the neatly plaited skirt, also cut in the latest godet pattern.

A high round girdle laid in soft folds of plain satin was given a novel touch by two broad streamers of brocade ribbon, ten or more inches wide, that came from the top of the girdle in the back, where the ends were caught through an oval rhinestone buckle.

As many lace waists on the burnt-ivory tone as those made of white or cream are to be worn. Tiny gold buttons in clusters trim prettily in many cases, relieving the depth of color by a touch of brightness. A cerise cravat is also one of the best color contrasts to be worn with one of the waists.

A nightgown that seems to be growing in favor is the Josephine or empire model. This is particularly liked by stout women, who find extremely comfortable the band of beading just below the shoulders that is run with ribbons. The opening at the neck is generally the short, full strip of the regulation empire models, but occasionally it is arranged in a V.

A becoming street costume and one suited to a young miss is a dark-brown broadcloth, cut in a jumper style with button trimming. The buttons should be very small, covered with cloth of like material and used to decorate the various skeleton waistbands, and may also be rather lavishly used on the skirt. Wear beneath the waist a gumpie of heavy cream silk, trimmed with ecru insertion. Have circular sieve pieces to give the broad-shoulder effect. A gumpie of like material will be serviceable.

Jap mink is almost as stylish this season as some of the finest set pieces of Russia sable. Despite the fact that one sees many pieces of like fur with trimmings of heads, tails and claws, nevertheless, the plainer pieces are considered the most fashionable of the season. The attempt to mingle different tones is something decidedly pretty in novelty effects and the manufacturers certainly deserve praise for some of the wonderfully beautiful coats, which are so original that one could not help admiring the cleverness in their make-up.

FOOD AS MEDICINE

Watercress is an excellent blood purifier.

Lettuce has a soothing effect on the nerves and is excellent for sufferers from insomnia.

Tomatoes are good for a torpid liver, but should be avoided by gouty people.

Celery is a nerve tonic; onions also are a tonic for the nerves.

Spinach has great aperient qualities and is far better than medicine for sufferers from constipation.

Beetroot is fattening and good for people who want to put on flesh.

Parsnips possess the same virtues as sarsaparilla.

Cranberries correct the liver. Asparagus stimulates the kidneys. Bananas are beneficial to sufferers from chest complaints.

Celery contains sulphur and helps to ward off rheumatism.

Honey is a good substitute for cod liver oil.

The juice of a lemon is excellent for sore throat, but should not be swallowed, but used as a gargle.

Carrots are excellent for gout.

YACHT REGISTERED AT CUSTOM HOUSE

Committee Must Name Boat--To Get Cushion

Interest in the trans-Pacific racer is not lagging in the least, as is testified by the fact that every day enquiries come in to the Yacht Committee on various phases of the development of the boat. Suggestions are the best things in the world to help the boat along, for, although a suggestion offered by a person may not be acted on, it will bring on discussion and probably throw light on problems that must be met and overcome.

Everyone has the fever for helping. It is one of the best fevers that ever struck this town, too. Bonine, the picture-man, who only came down here the other day, has made a very generous offer to the committee. He will exhibit a new roll of splendid films at the Opera House, and the proceeds of the house will go towards the yacht. Shake hands with Mr. Bonine, for he has the right kind of spirit.

Mrs. Sam Lyle by her kind offer of a sofa cushion, with the name of the yacht embroidered thereon, has put the matter of giving the yacht a name definitely point-blank up to the committee. Of course, it is generally known and conceded that "Hawaii" will be the name—public opinion almost demands that it be so,—but as yet the men who have the real say in the matter have taken no decided action. It was a wise plan on their part, too, for by so doing they have kept interest up by their semblance of secrecy.

As every marine man knows, a boat must be registered with the Customs officials before she can sail in any waters under the United States flag. The other day the "Hawaii" was registered as a yacht, and she will fly at her pretty mast-head the National Yacht Ensign, which is the same with the exception of a blue anchor in place of one of the stars. The flag is the beautiful silk affair presented to the boat by R. C. Brown.

MORE AUTO ENTRIES

Entries for the automobile endurance run around the island tomorrow close today. There are more machines entered in the run this year than there ever have been before. This year's rules governing the contest are more stringent than formerly, and it is probably on this account that so many local cars have been entered. Absolutely no racing will be allowed, so that all danger of accidents is avoided. There are several tourist machines which came down on the Manihua entered in the run, and Honolulu drivers will have to look to their honors.

GOLF FOR '08

The Honolulu Golf Club will hold its annual meeting in the near future when new officers will be elected and arrangements for the year '08 will be finally set. The schedule of events and tournaments will be laid out.

CANNOT PLAY THIS SEASON

Offending Socker Players Suspended--Is Good Lesson

At a meeting of the executive committee of the Hawaiian Football Association held last Wednesday afternoon, it was decided to suspend the two men who were concerned in the squabble on the field last Saturday. The men will not be allowed to play for the remainder of the season. Before action was taken the members of the league thoroughly looked into the matter, and it was found that both men were about equally to blame.

The action and drastic measures taken by the league members may seem a little hard to the offending players. They may argue that every man is liable to lose his self-control in a sudden fit of passion. Yet that is the very thing that the league wants to guard against. The boys are probably fine chaps, too, and they may take it a little hard that they should be kept out of the game for an entire season. Then, if they are the right sort, they will accept the decision of the committee gracefully and like true sportsmen. They will announce that they will be on hand to play the very first game next season, and they will play the game for all there is in them.

By so doing, they will win the admiration of every man interested in sport in the city of Honolulu. Any man can win gracefully, but it takes a sportsman to lose with the proper spirit. So also is this true with the man who commits an error. If he gives evidence of a desire to do the right thing in the future, a great deal more will be thought of him than if he sulks and refuses to admit himself wrong. True it is that the boys probably would never have acted so had their temper not gotten the best of them last Saturday. Let the action of the committee teach them a lesson.

On next Saturday the Thistle Club team will stack up against the cream of the rest of the league, and a hot contest is assured. The following players will be in the game:

Thistle Club—Goal, R. Anderson; backs, McGill and Balcombe; half back, McKinnon; center, MacConnell; forwards, Gray, Jamieson, Craik, Macaulay, J. H. Catton (Capt.); reserve, C. Dixon.

Rest of League—Goal, Frazier; backs, C. Davis, J. K. Clarke (Capt.); half backs, L. G. Blackman, R. Chillingworth, W. Chalmers; forwards, C. Oss, E. K. Fernandez, J. Woo, W. Chillingworth, Mon Yin; reserves, Andrews, F. Dodge.

Referee—J. W. Waldron.
 Game will commence at 2:15 p. m.

JAGNIES SEE DOGS

It is reported that there will be a dog show during the stay of the fleet at this port. That is a long time to wait, it seems, for such a good show. There are some good dogs in this part of the country, and a corker of a show should be given. When those jacks get off the war vessels, they will probably have a nice little wad of coin burning in their pockets, and the idea of holding the show over until they get on shore is not a bad scheme at all, at all, from a financial standpoint.

NEW OFFICERS WILL HUSTLE

The yearly program of events will be mapped out in tennis circles when the annual meeting of the Pacific Tennis club is held on Saturday. New officers to serve during the year of 1908 will also be elected. The past year has been a very successful one from almost every standpoint, and the new officers will have to hustle to maintain the record of their predecessors.

Frank Gotch, the American champion wrestler, and George Hackenschmidt, the "Russian Lion," will meet on the mat in Kansas City or Chicago May 6 in a struggle for the championship of the world. Gotch has posted a forfeit of \$1900 for his appearance, and "Hack" is expected to post his forfeit this week. Hackenschmidt has agreed to come to this country and give four exhibitions before the main go with the American champion. With this consideration, Wittig has offered a purse of \$10,000. The match will be catch-as-catch-can style, the best two out of three falls, to a finish. The referee will be chosen later.

FOUR TEAMS IN COAST LEAGUE

Directors At The Annual Meeting Can Not Increase Circuit

The chances for a six-club circuit in the Pacific Coast Baseball League went a-glimmering at the annual meeting of the board of directors. But one man, R. F. Goings of Venice, near Los Angeles, applied in person for a franchise. As no other clubs are available, it is an assured fact now that the league will consist of but four clubs.

Though most of them were aware of the fact that there would be no enlargement of the circuit this season, the magnates in general kept talking six clubs with such regularity that many of the fans were beginning to believe what they said. But from the developments the fans may as well make up their minds to get along without the two additional clubs for a while at least.

The magnates would not admit that they had abandoned all hope, but beat about the brush by appointing a committee consisting of President Ewing, Ed. Walter of Oakland and Judge McCredie of Portland to do a little quiet missionary work with the hope of enticing some other city in. As the league season will open in about two months, it seems hardly likely that any town would agree to get a good ball team together in such a short space of time.

Salt Lake applied for admission some time ago, but as the Mormon city is so far away the proposition was never given serious consideration. The magnates admit that they will have to get a city near San Francisco or Portland to make up the circuit of six clubs. The teams of the State league are evidently meeting with too much prosperity in their old zone, for none of them attempted to break into the Coast organization.

The schedule for the coming season has not been made out, but it will probably be completed within the next few days. Chairman McCredie of the committee favors opening the season on the first Saturday in April and closing it early in November, making seven months of baseball.

The same officers and board of directors were re-elected: President, J. Cal Ewing; first vice president, Judge McCredie; second vice president, Corney Pendleton; secretary and treasurer, Dan W. Long.

The pennant was duly awarded the Los Angeles club, and Manager Ben Berry accepted it with a very graceful speech.

The task of appointing umpires was left to the president, as in the past. Bull Perrine will be retained, of course, but who his fellow worker will be is not yet known. Ewing has a long list of names to select from, including Derrick, Ralph Frary, Lou Mahaffy and several others. Each manager was given power to name ladies' and children's days. The meeting will be continued at 10 o'clock this morning.

ABE ATTELL IS NOT AFRAID

Abe Attell, smarting under the charge that he had Owen Moran at a disadvantage in the matter of weight in their fight on New Year's day, offered yesterday to meet the English fighter in a return match, the weight to be raised to the recognized featherweight limit of 122 pounds. Attell added the qualifying word "ring-side" to this, and thereby left an opening for a lot of argument.

When the boys were discussing terms for their last match Moran went on record as being opposed to ever fighting a man at a ring-side weight, and Manager Jim Coffroth sustained him by saying he did not want to handle any fight where the weight was made that way, as he felt it was an injustice to the public, as he did not think a fighter could be at his best at that weight.

Attell will meet Charley Harvey, the manager of Moran, today, when they will try to reconcile their differences. Attell is willing to have them agree upon the terms under which they will fight and then leave the match open to bids from promoters in various parts of the country. There is no doubt that the fight would draw more money here than in the East, where they could not have a long fight. Los Angeles is bidding for some big fights, but it has not developed how much they will draw under the new conditions prevailing there. These include large gloves, 10-round fights and no decision from the referee, that official being required merely to see that the rules are observed by the fighters during the progress of the contest.
