VOL. IX No. 3599 HONOLULU, TERRITORY OF HAWAII, FRIDAY, JANUARY 25, 1907 PRICE 5 CENTS

CARTER HAS POSITIVE LIQUOR LAW IDEAS

Novel Tax Principle Involved In New Bill By Long

TERRITORY FORCED TO PAY VALUATION

Representative-elect E. A. C. Long is at present engaged in the framing of a bill, which would revolutionize the present taxation system. It plans nothing more nor less than to make the government live up to the valuations, which it places on property in its assessment. In other words, if a property owner finds that his land has been assessed too high, and he cannot or will not pay the taxes thereon, he can simply force the Territory to buy the property at its own valuation. This scheme would certainly have a tendency to make the tax assessor very careful not to fix his valuation too high, lest the Territory be forced to swallow its own pill.

"As it is at present the assessments are often forced so high that the taxes amount to more than the income," said Long this noon, while explaining the features of his bill. "I plan to have it so that if any one has a piece of land, on which he thinks he is assessed too high, and the Supreme Court sustains the assessment, he can turn around and make the government buy it at the price, which it holds that it is worth. The government would not necessarily have to pay cash for it, but could make payment in bonds, bearing interest at, say, 4 per cent, issued for that purpose. Then it could cut up the land into lots for settlement or dispose of it in any other way it saw fit.

"It is very often that a man is made to pay large taxes on a piece of land which brings him little or no income, and which he cannot afford to develop. If he sells it to the government at the valuation, which it says is fair, he will have a negotiable medium, and can go into business on a smaller scale, developing a smaller property. By this means a large amount of business would be done, where otherwise large tracts of land are lying idle without being developed."

JOHNSON IS OFFERED IMPORTANT POSITION

Sam Johnson may resign as Road Supervisor for the County of Oahu.

Johnson has not said so but it is definitely known that he has been offered a first class position on Maui in the service of a leading corporation and at a good salary. As some of his friends think that a good position in private service with opportunity for promotion is better than anything that can be offered under any government on earth, they say there is a possibility of Sam resigning.

Just what Johnson will do is not stated. It is certain that he is not dependent on the County for a first class place.

SOLD LIQUOR TO MINOR

Al Cheong, Chinaman who keeps a saloon on Hotel street was found guilty of selling liquor to a minor in the police court this morning and was fined \$50 by Judge Whitney. This is one more conviction to be placed to the credit of John Martin, who is hard after this class of law breakers.

JUDGE WEAVER REFUSES TITLE

Judge Weaver has granted a registered title to about 900 acres of land on the island of Maui to the Puleia Plantation Company of that island.

In the hearing of the above the Territory, as a respondent, laid claim to title in fee simple to certain roads across these lands. The roads were surveyed and a compromise effected whereby the plantation was willing that the title to the roads should vest in the Territory.

Judge Weaver refused to issue any such title. He granted the Territory right over the roads by no title.

This question is an issue of law and it is the opinion of many that the more certain solution would be for the Legislature to make a change in the law.

Rights Of Alien Residents

The provisions of the Act of Congress of March 3, 1903, "to regulate the immigration of aliens into the United States," apply to alien immigrants, but not to aliens domiciled in the United States who may have temporarily gone abroad and are returning thereto.

Such is the decision rendered by Judge Dole this morning in the matter of the petition for a writ of habeas corpus Chiyomatsu Nakashima. The decision is of extreme importance, so much so that the probabilities are that the matter will be appealed by United States District Attorney Breckons to the Appellate Court of the United States.

Judge Dole granted the writ of habeas corpus, but ordered the man be not released until tomorrow, to give Breckons time to hear from the Department of Justice at Washington as to whether or not he shall take an appeal.

Chiyomatsu Nakashima was a passenger from Japan to America last fall, and was denied a landing at Honolulu and ordered to be deported on the ground that he was an alien immigrant and was suffering from a contagious disease known as trachoma. He denied that he was an alien immigrant, or that he had the disease, and alleged that he was a subject of Japan and had been for more than four years a resident of the United States, the greater part of which time he had lived at San Jose, California. He said he had been called upon to serve in the Japanese army, and having been discharged, was returning to his home in San Jose. On the way he had attempted to land at Honolulu to visit friends. His wife is still living at San Jose.

The immigration authorities did not consider the question as to whether the man was an alien immigrant or as alien resident, but disposed of it merely on the ground that he was an alien. Judge Dole says that a person seeking to enter the United States who is an alien resident is not within the immigration laws and may not be excluded. The petitioner is discharged subject to the taking of an appeal.

Governor Is Opposed Very Strongly To Proposed Liquor Law

DANGER TO CITIZEN'S LABOR

Governor Carter is strongly opposed to the proposed new liquor bill, and especially that clause of it which bars aliens from obtaining liquor licenses. The Governor said that he could not say now that he would veto such a law, as it might contain other provisions of sufficient value to outweigh this undesirable feature, but he intimated that he would do all he could, other things being equal, to prevent any such provision from going on the statute books of the Territory.

The Governor bases his objection to the clause debaring aliens from selling liquor on the ground that any such legislation will be liable to endanger the Citizen Labor law.

Last fall, he states, President Roosevelt and the United States Attorney General asked him if he did not think the Citizen Labor Law ought to be overturned. The Governor states that at that time he urged that it be left alone, and he won his point, against the objections of the President, who was finally prevailed upon to take no action in the matter.

At that time, however, states the Governor, District Attorney Breckons gave an opinion to the local Japanese newspapers that the Citizen Labor Law is unconstitutional. This opinion was printed in the Japanese paper.

The Governor states that he understands that Breckons has given an opinion to the liquor dealers to the effect that the proposed legislation to keep aliens out of the liquor business will stand in law, as it will be part of the police laws of the Territory.

But the Governor fears that if this provision does become a law and is held to be not unconstitutional, the Federal Government may again take up the matter of the Citizen Labor Law and knock it out. If such action is taken, it will be because the Federal Government thinks that the Japanese are getting the worst of it here and some reparation should be made them.

If such action is taken, it will mean that the laboring men of the Territory and the interests which the Citizen Labor law is designed to protect will have to suffer. The liquor interests will be the gainers at their expense.

It is stated that much feeling exists among local Japanese over what they think is class legislation against them and any move such as the one contemplated will only add to their feeling on the subject.

\$200,000 AT PRESENT FOR HILO BREAKWATER

Captain Otwell has received a copy of the bill providing for an appropriation for the Hilo breakwater. It reads as follows:

"Be it enacted by the Senate and the House of Representatives of America in Congress assembled:

"That for beginning the construction of a breakwater at Hilo Harbor, in the Territory of Hawaii, according to the survey made in compliance with the Rivers and Harbors Act of March 3, 1905, and the project approved by the Board of Engineers for Rivers and Harbors, the sum of \$200,000 is hereby appropriated, out of any money in the Treasury not otherwise appropriated.

"Section 2. That the Secretary of War is further authorized to enter into a continuing contract for additional work on said Hilo breakwater at an additional cost of \$200,000."

MONEY FOR ATTORNEY GENERALS DEPARTMENT

Governor Carter makes his final estimate of the amount of money which he will recommend be appropriated for the Attorney General's department \$61,500 for the next biennial period.

Of this, \$32,500 is for salaries and the balance for current expenses, including \$15,000 for incidents and \$3000 for expenses of appeals to the United States Supreme Court.

Clothes as a Help In Life

To be correctly clothed will make friends and unlock doors everywhere. The time is past when education was an all-sufficient passport and a guarantee of at least moderate prosperity. Nowadays a man is measured by his clothes as much as by his knowledge. Society and business life demands of its members the observance of a certain code in clothes.

Good taste counts for more than money in this matter, and good taste is always assured in Correct Clothes for Men, bearing the label of ALFRED BENJAMIN & CO.

BANK MAY LOCATE, SAYS AKAI. IN PROGRESS BLOCK

With reference to the erection of a new building for the Yokohama Specie Bank branch, at Honolulu, Y. Akai, manager of the local branch stated this morning that for the convenience of the Japanese population he thought it would be more satisfactory to remove the present office to the vicinity of the Japanese Consulate. He thought that the Progress block would be large enough to accommodate both the consulate and the banking business. "Of course this proposition is not yet gone into with the Japanese Consul," said Akai, but would be entered into as soon as possible. The object of keeping the bank in touch with the Japanese Consulate is to enable the laborers to find the bank more easily. As it is a good many of them have trouble in finding the exact spot where the bank is doing business, and sometimes they have left the town and gone back to their plantations without accomplishing their purpose. As yet there is no further advice received from the main office relative to the construction of a new building. According to a report Architect Kerr has had the plans and specifications prepared and had Kishi stayed here a little longer the building would have been going up by this time.

\$150 FOR A WIFE

United States Marshal Hendry leaves tonight on the Claudine for Hilo to get together the witnesses in the case that is to come up in the United States District Court there at the approaching term. Judge Dole and the other members of the court will leave on the Kiana on the 29th. The principal case to come up is that of Aino Y. Yoshida, who is accused of selling his wife for \$150. The charge against him is that of conspiracy. Yoshida, of course, denies the charge and says that he got the \$150 from the woman, and not from the man who, it is charged, bought her—or at least foreclosed a mortgage on her.

G. R. BISHOP IS 85 YEARS OLD

Local Friends Will Give Expression Of Esteem.

LARGE FORTUNE DEVOTED TO PHILANTHROPIC PURPOSES

SPECIAL SERVICE SUNDAY—A SKETCH OF WHAT IS BEING DONE WITH BISHOP FUNDS.

This is the eighty-fifth birthday of Hon. C. R. Bishop. As a mark of esteem for the man who has done so much for Hawaii the trustees of the various trusts which Mr. Bishop has made will meet at Kamehameha schools this afternoon with the school faculty. While there will be no ceremonies, there is no doubt that remarks will be made which will express appreciation of a good man. On Sunday special exercises will be held in the Kamehameha school chapel. "Mr. Bishop does not care for publicity in connection with his work here," said W. O. Smith, when asked of what plans the trustees had for recognizing Mr. Bishop's birthday. "Faithful stewardship is I believe the central thought behind everything done by Mr. Bishop. He is truly a wonderful man, and worthy of the great aloha felt for him in Hawaii. The trustees will meet with the Kamehameha faculty today, and while we shall have no special program, we will no doubt extend our congratulations and express our sentiments as best we may." While C. R. Bishop has for many years done innumerable charitable acts within this Territory, his work in this direction has been especially made evident by the Chas. R. Bishop Trust Fund, which he instituted in August, 1895. The original capital consisted of six notes for \$50,000 each, four for \$100,000, and four for \$25,000 each, making a total of \$800,000. Part of this sum was given to the Queen's Hospital and other institutions in lump sums, about \$200,000 of it having so far been expended in this manner. From this, however, a provision that the capital must not be reduced below \$500,000. The interest in the remaining capital is distributed to schools, hospitals, and charitable institutions in annual payments, there being a general provision that the surplus income, which remains when the other institutions have received their shares, shall go to the Bishop Museum. The principal recipients from the fund are the Kawaihau Girls' Seminary, the Kohala Girls' School, the Makawao Girls' Seminary, the Sisters of the Sacred Heart School, the St. Andrew's Priory, the Free Kindergartens, the Kona Orphanage, the Kamehameha Alumni Association, the Central Union church, the Kaunakapili church, the Kalahele Home, the Kawaihau church and others.

GAMBLER'S FOUND GUILTY AS CHARGED

Judge Robinson today, acting as both judge and jury, found the sixty-eight Chinese gamblers arrested in the Grand Jury raid, guilty as charged. They will be sentenced tomorrow morning. The case was before the court on appeal from the district court judge Whitney had found the sixty-eight lovers of the fascinations of pal kaun guilty and had soaked them each for \$25 and costs, with the exception of the man who was running the game and the doorkeeper. The former got 60 days and the latter a month at hard labor. The case has been an interesting one in that the attorneys for both sides devoted a large part of their attention to trying to prove that witnesses of one another were liars. They seemed to be remarkably successful.

HAUKEA EXPLAINS HIS APPOINTMENTS

Says He Was Forced By Cut In Salaries By Supervisors

HANDS GENTLE ROAST TO JACK ATKINSON

SHERIFF FAILS TO FIND LAW TO SUBMIT LISTS OF AP-POINTEES TO SECRETARY OF TERRITORY.

The changes which Chairman Hus-tace and Secretary Jack Atkinson claim have been made in the police force for political purposes were forced by the action of the Board of Supervisors, according to a statement made by Sheriff Haukea this morning in speaking of the matter he said: "I had told a number of men that I would give them appointments and they had been measured for uniforms and had been already fitted when the cut of the payroll to \$6000 for the month of February was sprung by the Board of Supervisors. I could not tell these men who had gone to this expense that I would not keep my promise. I could not discharge the men who were already appointed by me and working. I do not think that anyone would expect that. Naturally, I let out some of the old men whom I did not expect to let out for some time. "I guess I must have fired some pets of the Secretary, from what he says about my having men on the force who have been arrested time and again for all sorts of crimes. Do you know whom he refers to? He had nothing to say till some of his favorites, men who have been going into rowing and that sort of thing, were let out. Then he starts with an attack. Really I cannot see myself where the dismissing or the hiring of men in the police department so comes under the jurisdiction of the Secretary of the Territory. I may be mistaken in this but I hope not. "Before any men were let out, I talked over the matter with Captain Parker and he gave me the names of a number of men who are in the habit of asking for leaves continually to do outside work and take part in matters which have nothing to do with the police department. These men naturally were the first to be let go and they seem to be the ones over which the trouble has started. "We are trying to get along with a very small force and have \$1300 less with which to pay the men than there was during the last month that Sheriff Brown was in office and I want men who are loyal to my administration. If I have appointed men who will not do their duty as officers and it comes to my ears I shall see that they are removed."

Recall is too good for Jamaica's Governor. He should try him in oil.

Ninety-five millions for the Navy sounds like a whole lot. The country would be better off if the appropriation were doubled.

California's declaration against admission of Japanese to citizenship is a repetition of the old story with the backing of the State.

Baseball managers will show good judgment if they avoid a competition to put all the best players in one team. The public wants a contest, not a procession.

A San Francisco jury that did not convict an insurance company that evaded disaster payment, would have to seek other times the day after the verdict.

Another Trans-Pacific line should be a certain success with a subsidy appropriation behind it. That is the reason why Hawaii should do all it possibly can to aid subsidy bills and cease talking about suspension of coastwise shipping laws.

What fools the California legislators can be. Their expansion of representatives of a newspaper reads like the law against cartoons that Governor Pennypacker's Pennsylvania Legislature passed. And memory still lingers of where Pennypacker and his legislators got to.

Lucien Young meant well but he was inspired by a face dispatch. If Lanai injunctions are saving Lanai from the Japanese, what is the status of the Progress block purchased for the Japanese consulate? Such incidents increase the public disgust for buncombe and tommyrot and also the anxiety for speed that the Lanai case may be decided on its merits.

MR. BISHOP'S ANNIVERSARY.

Hawaii extends its heartiest congratulations to Hon. C. R. Bishop. Much as he shuns special publicity in connection with his philanthropic plans in this Territory, he is of too kindly a nature to refuse an expression of appreciation from the many who know him personally and the many more who feel well acquainted with him through their knowledge of his good works. Mr. Bishop is indeed a wonderful man and a magnificent character. With his marked business ability, he possesses what so many men lose in the harsh butler and smash of every day life—a kindly spirit toward man kind generally. What his special motive or inspiration may be, is of small moment. What he has done with his own vast fortune and the estate left to his stewardship tells the story. It is often a source of conjecture whether the particular people in whose interest the funds of various Bishop trusts are expended do or can appreciate what Mr. Bishop and his beloved wife have done for them. What other man would have turned practically his whole fortune over to be used for the education and enlightenment of a single people? We cannot say what other might

have carried out the same idea had not Mr. Bishop taken the field, but the fact remains that he is the only one who acted. And there are so many worthy institutions already established in need of assistance and men of wealth not yet moved to contribute more liberally, that the Bishop trusts may properly be classed as the one truly great philanthropy of Hawaii.

The best reward possible has fallen to Mr. Bishop's lot. He has been blessed with the health and strength of body and mind to live and see his plans succeed. Years have dealt kindly with him, taking none of the vigor that finds pleasure in doing things. Best of all he has accomplished his ends in a manner that has secured for him the greatest respect and most heartfelt esteem without his seeking it.

Hawaii extends to Mr. Bishop its kindest aloha. To one who has lived in these islands this means all there is to say.

WHAT IS THE PURPOSE?

It is hard for the uninitiated to understand in what way a full investigation of the Nomanu dam situation by the Legislature is going to help things.

Suggestion of an investigation coming from the authority put in charge of the work indicates something wrong. If this supposition is correct, the immediate and natural query is, Why do not those who will be held responsible for the work pitch in and do the work?

The more that is said about the dam, the more the business public in general to the view that the dam is up to the builders. The Legislature added the responsibility when it made the appropriation. Do these responsible persons after two years of effort wish to be unscathed?

Or is it a fair square admission that a mess has been made of the whole business and the Legislature will be asked for authority for a new start?

A JAPANESE EDUCATOR'S VIEWS.

Baron D. Kikuchi former Minister of Education for Japan, successfully evaded the interviewers during his short stay in this city. He said little when he arrived in San Francisco but he gave our fellow countrymen of the Coast views on the educational problem that are worth while. He said: "I can clearly see why objec-

tion should be made to Japanese young men attending schools with small children, for it is not from an educational point of view to have adults and small children in the same grade and I agree with the San Francisco Board of Education in that regard. I cannot understand, however, why there should be any objection to permitting young Japanese children to be with other children in the primary and grammar grades. These, I think, should be allowed to go to the public schools attended by other children and should not be segregated with the older Japanese."

"However, I consider the matter one to be reasonably dealt with. There is no need for excitement. Cool and deliberate reasoning should guide the final action of the board."

An American citizen could not put it better. One has yet to meet a person of average moral sense who does not support the San Francisco in their objection to half grown or full grown boys attending the primary schools with little children. Metcalf's report upheld San Francisco in this complaint and intelligent Japanese are of the same mind.

Hawaii may be charged with being Orientalized in its like ex-Minister Kikuchi in its inability to understand why a well behaved Japanese child should not attend a public school on an equality with any other nationality. Certainly Hawaii's children have not become contaminated by the Japanese any more than by the Irish or the Dutch or the Scandinavian.

There is reason in all things, but San Franciscans have evidently decided to not find any in this school matter for no other cause than it is Japanese who ask them to keep cool.

MANY COMING ON THE EXCURSION

About 225 Are Already Booked To Sail From Los Angeles

At the regular meeting of the Promotion Committee, which was held yesterday afternoon at the committee rooms, the principal matter of discussion was the Los Angeles excursion. The special steamer carrying the excursionists is due to arrive here about the end of next month. Several communications in regard to this matter were read by Secretary Wood, all of them indicating that the affair is going to be a successful one. About 225 have already booked for the trip.

There were present at the meeting Chairman McCandless, J. F. Morgan, F. P. Smith and Secretary Wood, Mr. Wood read his weekly report, which was published in Thursday's Bulletin. The first matter considered was that getting a set of lantern slides illustrative of Hawaii for the use of Father Stark, who offers to lecture on Hawaii. The set would cost about \$40 or \$50 and it was the opinion of those present that the views should be purchased for Father Stark.

In regard to the Los Angeles excursion, Secretary Wood stated that about 225 excursionists have already signed up for the trip.

A letter from Lloyd Childs, the Los Angeles representative of the Committee, telling of the arrangements made by the Los Angeles people for the securing of the steamer Ohio for the excursion was read by Mr. Wood. It was in part as follows:

Lloyd Childs' Letter. My Dear Mr. Wood:—I have put off writing to you until now as the committee on the excursion were at sea in regard to the trip owing to the fact that it seemed almost impossible to secure a boat.

The committee secured a ten day option on the steamer Ohio, now on the ways in Seattle or near there. We find that the Ohio is an old iron steamer formerly on the Atlantic and running between Philadelphia and Liverpool. She was launched in 1873. Length 345 feet, beam 45, and she makes between 12 and 14 knots.

She has first class accommodations for about 270, second class about 100, dining room seats 154. The state rooms are small and have two berths. The committee has canvassed the entire coast and this boat, while not so big as many of the others, is the best that can be secured at this time.

Seafaring men tell us she is a splendid seaboat and her hull is without a patch of any kind.

The committee has limited the number to go to 300 and up to the present time we have booked about 225. We can easily book the 300 but we are holding off because the plan of the boat has not yet arrived.

The rate has been fixed at \$160 for the round trip. The boat to leave San Pedro harbor, February 23 and the round trip to consume twenty-five days. At the speed registered for this boat she ought to arrive in Honolulu about the first of March.

Some of the most prominent men connected with the Chamber here are on the list and altogether it will be the pick of Los Angeles. Some of the business men are going prepared to do business as they have informed me.

that that is the reason they are taking the trip. Chas. Wilson and I have outlined a plan for the exhibit and will submit it to Mr. Morgan upon his arrival.

LLOYD CHILDS. Bonine's Pictures. A letter from R. K. Bonine, Edison's moving picture man, was read by the Secretary, relative to the Hawaiian views which he has been preparing with the idea of submitting them to the Promotion Committee. He expects to make a proposition to the Committee in regard to lecturing on Hawaii. Mr. Bonine states that he has several hundred fine Hawaiian views from which he is preparing lantern slides.

Mr. Wood stated that he had received a letter from a man in New York asking when the Honolulu fair is to commence. The Pan-Pacific project, it was suggested, is at least getting some advertising for Hawaii.

Wharfage for Steamer. The matter of wharfage for the San Pedro excursion steamer was considered at length. A letter was read from Frank Wiggins, secretary of the Los Angeles Chamber of Commerce, asking whether or not there would be any difficulty in securing room at the Hilo and Honolulu wharves for the steamer. It was suggested that one of the naval docks might be secured, but Mr. Wood said it was probable that the steamer would bring freight, in which case the naval authorities probably would not allow the use of the government docks. Secretary Wood was instructed to inform the Los Angeles people that in any event there would be no difficulty in securing wharfage for the excursion steamer.

Los Angeles Exhibit Here. Mr. Wiggins wrote as follows regarding a Los Angeles exhibit here: "Do you suppose it would be possible to secure a storeroom for an exhibition of manufactured material and products of this country that could be used on the islands? If so, at what price for the short time we are there? It might be that arrangements could be made so that we could leave it there for a while, at least. Our object in this excursion is to open up trade between the two points and eventually start a line of steamers."

Decline With Thanks. The Promotion Committee will not do any advertising in the special edition of the New York Commercial for which H. T. Willis has been canvassing. A letter from Mr. Willis was read suggesting that the Promotion Committee take the last page of the special edition at a rate of \$150. Mr. Morgan moved that the secretary write to Mr. Willis thanking him for his offer, but stating that the finances of the Promotion Committee are in such shape that nothing can be done at present. The motion was carried.

Mr. Morgan stated that the hotels had been requested to double their subscription to the Promotion Committee and the Moana Hotel had promised to increase its subscription by 50 per cent.

Shriners May Get Ohio. It is possible that the local Shriners may make an attempt to secure the Ohio for an excursion to Los Angeles for the Shriners conclave to be held there in the spring. The following communication to Dr. Cooper was read by the secretary:

January 15, 1907. Dr. Charles Bryant Cooper, Honolulu, Hawaii.

My Dear Doctor:—You write me that you have booked for the Pacific Mail liner arriving about May 1. May I not make a suggestion? Why not all of you who plan coming wait until you see the ship which is to carry the Chamber of Commerce excursion from here, and see if an excursion for it may not be had? The Ohio is bigger than the Alameda, 350 feet long by 45 feet beam, and you will have your own ship, to come right here and then go home.

I believe you could make a \$100 round trip rate, with not less than ten days here, landing within electric car reach of this city. This steamer is believed to be good enough for use by

Open Letter From Pacific Department

Royal Insurance Company of Liverpool

Many of the Companies which at the memorable meeting of June 12th voted in favor of a horizontal deduction of "not less than 25%," have, as we predicted, found it impossible to settle their San Francisco losses on that basis and have been forced, though reluctantly, to pay considerably more than an average of 75% of their claims. Some which voted to adjust every claim on its merits and pay the same "Dollar for Dollar," have fallen away from that high and correct standard and have submitted their policy holders to sharp deductions from adjusted claims. Others, while paying in full have, in accordance with Eastern usage, exacted a cash discount in lieu of sixty days' time in which to make payment.

The "ROYAL" has paid every claim as soon as the amount of loss has been agreed upon with the assured, in full, in cash, without a cent of discount. Comparatively few companies have pursued as broad and as liberal a course.

We have refrained from commenting upon the conduct of any individual company, believing it better to extol the virtues of our own. The ROYAL INSURANCE COMPANY of Liverpool has paid to date 2,265 claims, aggregating \$5,850,835.88. We have remaining but a few unsettled losses, and these are chiefly awaiting authorization of claimants abroad, probate proceedings, or further investigation as to actual amount of fire loss.

The "ROYAL" continues to be the leading Fire Insurance Company of the world. Its annual income is over \$15,000,000. Its San Francisco gross losses were not very much more than one-third of one year's premiums, and its surplus, after all losses are paid, will exceed the surplus of any other Company in the world.

It has been building up its reserves for years against just such a disaster as came to San Francisco and was therefore able to meet its great losses with equanimity. It will continue to pursue the even tenor of its way and will doubtless be more popular than ever with insurers.

You are perfectly safe in putting your business in the "ROYAL," knowing that it will under all circumstances be able to fully and promptly meet its contracts and that it will not resort to any quibbles or shifty pretenses to avoid its obligations. Now is the time to make use of your opportunity.

There is no closing the issue; there are "Dollar for Dollar" Companies; there are "Six-bitters" and there are "Welchers." There are also Companies strong, and Companies weak, financially.

No Company can offer a better policy than the "ROYAL," few as good.

IMMIGRANTS AND RATES BY TEHUANTEPEC ROUTE

Editor Evening Bulletin:—In regard to the trouble in bringing the Spanish emigrants here.

What is the matter with the Tehuantepec route. It was understood from the first that people would be brought in that way.

There are Spanish lines running from South Spain to the West Indies and these people could be cheaply got to Coatzacoacoas.

Would it be so very difficult to bring them here from Salina Cruz?

INQUIRER. Honolulu, Jan. 24, '07.

[We regret to say that this query is easily answered. Thus far the Board of Immigration has been unable to secure rates for immigrants by way of the Tehuantepec route that do not far exceed the highest quoted for a "round the Horn" charter. The Tehuantepec route is all right and steamship rates on the other side of the Isthmus may be low, but the rates on this side or the combined rates involved in this line of transportation are so high and exacting as to make the route practically prohibitive.—Editor Bulletin.]

The members of the subcommittee of the Automobile Dealers' Association have been busy, with the result that their figures show that 24,000 square feet of floor space has been reserved by those intending to exhibit at the San Francisco auto show. Only 1000 square feet are left and some of the larger spaces reserved will be cut down. By the end of this week all the spaces will be cut down.

PINS FAITH TO KONA

An official of the Territory in speaking of the excessive steamer rates in force in and about London, remarked that he did not think that point in question would retard emigration to these islands. "If we can't stand the rates charged now," he remarked, "we can have our Immigration Committee stand by until the rates drop to a figure that can be covered."

He says that the government has plenty of most desirable land in the Kona district and it is one of his dearest hopes to some day see that land dotted with pretty homes and inhabited by desirable settlers.

He says, "Note the quality of coffee raised in the Kona section and examine the trees. The district mentioned wants developing, too." He wound up his remarks with, "Keep your eye on Kona."

United States May, If Necessary, Take Up Lanai Case

WASHINGTON TELLS BRECKONS TO WATCH IT

It is possible that the Federal Government may interfere in the Lanai lands case and take the matter entirely out of the hands of the Territorial Courts. This will only be done in case the Government officials think they have reason for believing that the interests of the United States are in danger of injury by any action that may be taken.

United States District Attorney Breckons has received a cablegram from United States Attorney General Bonaparte instructing him to watch the Lanai case, and if he thinks it wise for the Federal Government to intervene, to report to the Attorney General.

at public auction. The broader section of 252 provides that the Commissioner of Public Lands may, with the authority of the Governor, dispose of the public lands in such manner as he may deem best for the welfare of the Territory. Section 254 provides that the provisions of section 252 shall not apply to cases where the government shall in cases of exchange, dispose of its rights to any land.

Peters and Milverton contended that this provision is broad enough to cover the matter. In reply to a question by the court they stated that they relied upon section 276. This section provides that the commissioner may, with the consent of the Governor, sell public lands, not under lease, in parcels of not to exceed 1000 acres at public auction, for cash. The section, however, contains the proviso appended, that "land patents may be issued in exchange for deeds of private lands."

Under this proviso, they contended, there is no limitation placed upon the amount of land that may be disposed of by exchange.

Gear contended that the provision does not mean so, and that the Territory has no right to exchange more than 1000 acres at a time.

The arguments of both sides were entirely technical and upon points of law. The merits of the proposed exchange were not touched upon.

During the morning Henry E. Cooper asked permission to address the court, as representative of interested parties, presumably bidders. He supported the contentions of the Attorney General.

Governor Carter stated this morning that the holding up of the exchange will probably result in no loss to the Territory, as all those whose names are on the list of people having lands which the government wants to acquire, have expressed their willingness to wait until the matter has been decided by the courts.

Unless Breckons believes the United States is in danger of suffering loss, however, through the action of either party to the suit, he will take no action. He has no authority to take any action himself other than the report of the governmental attorney.

If McCandless loses out before the Territorial Supreme Court, it is understood that he will carry the matter to the Supreme Court of the United States. In that case, Breckons might have to take up the local end of the matter.

Breckons this morning refused to discuss what he might do. He would not even admit, a few days ago, that he had received any instructions from Washington regarding the matter, but Judge Gear stated today, while arguing the case before the Supreme Court, that such instructions had been received by the United States District Attorney. Breckons was in court this morning taking in the proceedings.

The argument on the appeal from the decree of the Circuit Court overruling the demurrer of the respondent, James W. Pratt, came up in the Supreme Court this morning. The justices took a very active part in the proceedings. Instead of simply letting the counsel for the opposing sides make their arguments, and listening to them, the court started proceedings at once by asking questions.

As soon as the justices were in their seats and court was opened, Justice Hartwell propounded a question to Deputy Attorney General Milverton that on the face of it looked as if the complainant had gained a strong point. He asked if it were not true that under the Organic Act only the Superintendent of Public Works has the power to acquire land for public purposes, and that no such power is given to the Land Commissioner.

Judge Gear looked as much surprised as Milverton, while Link McCandless immediately acquired a broad, happy smile which he continued to wear all morning. He evidently thought that he had won hands down, and on a point which neither he nor his attorney had raised.

However, as question after question was asked, first of the Attorney General's department and then of counsel for the complainant, it became evident that the court was taking in turn the side of each party in order to oblige the attorneys to answer the objections and questions that might be put to them.

Attorney General Peters and his deputy, Fred Milverton, expressed themselves as well pleased with the general tenor of the proceedings and said they thought they had had the best of it all through.

In reply to the question first put by Justice Hartwell, Mr. Milverton replied that while it might be true that only the Superintendent of Public Works has the power to acquire land for public purposes, the Land Commissioner is the only one who has the right to dispose of lands of the public domain. It might, therefore, require one or more steps before the land could pass under the control of the Superintendent of Public Works, but that would make no difference, so far as he could see.

In response to a question by Justice Wilder as to what provision of the statutes the Attorney General's department relies upon for the right of the Land Commissioner to make the proposed exchange, Milverton and Peters replied that they relied upon section 254. This section of the Revised Laws limits section 252 which provides that transfers of public land shall be made

at public auction. The broader section of 252 provides that the Commissioner of Public Lands may, with the authority of the Governor, dispose of the public lands in such manner as he may deem best for the welfare of the Territory. Section 254 provides that the provisions of section 252 shall not apply to cases where the government shall in cases of exchange, dispose of its rights to any land.

Peters and Milverton contended that this provision is broad enough to cover the matter. In reply to a question by the court they stated that they relied upon section 276. This section provides that the commissioner may, with the consent of the Governor, sell public lands, not under lease, in parcels of not to exceed 1000 acres at public auction, for cash. The section, however, contains the proviso appended, that "land patents may be issued in exchange for deeds of private lands."

Under this proviso, they contended, there is no limitation placed upon the amount of land that may be disposed of by exchange.

Gear contended that the provision does not mean so, and that the Territory has no right to exchange more than 1000 acres at a time.

The arguments of both sides were entirely technical and upon points of law. The merits of the proposed exchange were not touched upon.

During the morning Henry E. Cooper asked permission to address the court, as representative of interested parties, presumably bidders. He supported the contentions of the Attorney General.

Governor Carter stated this morning that the holding up of the exchange will probably result in no loss to the Territory, as all those whose names are on the list of people having lands which the government wants to acquire, have expressed their willingness to wait until the matter has been decided by the courts.

EXCURSION UNDECIDED

Nothing definite has been decided in regard to the proposed excursion to the volcano on the Kinau tomorrow. If the activity is sufficient to make the trip worth taking the Kinau will be sent out shortly after she arrives tomorrow but nothing is certain as yet. An inquiry at the office of the Inter-Island Steam Navigation company brought the following answer:

"We will be unable to tell whether the Kinau will go on a second excursion or not till she arrives tomorrow." "But that will leave only an hour or two to notify those who wish to go, will it not? If the Kinau arrives at 9:30 as she generally does there will be very little time."

"Yes, that is so but we cannot say anything till she arrives."

VALUABLE FOSSILS USED FOR CABIN FOUNDATION

A few years ago some men who were crossing the Bad Lands of Wyoming chanced upon a little hut, once the home of a sheep herder, but long since abandoned.

One of the party, says "Appleton's Magazine," noticed that the house did not rest directly upon the ground, but upon piles of what seemed to be dark-colored stones.

In this part of the Bad Lands one seldom sees even a pebble, and the stones aroused his interest. Pulling out one which had become loosened, he gave an exclamation of surprise. It was a fragment of a brontosaurus, the prehistoric creature known to man.

"Bone Cabin Quarry," as the place is now known to scientists the world over, is by far the greatest hunting ground for these animals of the past that has yet been discovered.

ROYALTY BUYS SPEEDY MARE

White Plains, N. Y., Dec. 26.—Jas. C. Farrell, a director of the Westchester County Fair Association, announced today that he had sold his 8-year-old mare, Mabel L., to the Emperor of Germany. The mare, which is a trotter with a trial of 2:19.4, was finely bred.

Mabel L. will be used by the royal stables for breeding purposes. She was in Carroll Keegan's trading stable in Mamaroneck when Tomo Noble, the Kaiser's representative in the United States, happened to see her while looking over some other animals.

SPORTS

FEATS WORTH SEEING

The Hawaiian Swimming Club have been practicing some new feats which they will spring on the public tomorrow night at the Baths. Freeth and Kopke have a few up their sleeves that will make the spectators sit up and take notice. Freeth has now had enough practice in the new Baths to give a good account of himself. People will see a big improvement over the opening night's performance. Freeth now does a corker's cut-off from the rafters that is a wonder. His canary dive is also a remarkable feat. Watch the spring board work of Freeth and Kopke.

The Diamond Heads put in several hours hard practice at their stunts yesterday. The boys went down to the Heaiani Boat Club to practice so that the people would not get wise in advance. When they make their appearance in the follow-the-leader act the house will drop. Do not leave until the last act.

Those four little mermaids are certainly improving. Miss Testarick now does a trick that defies a duplicate. She can turn a complete flip from the spring board and not go under the water.

Reserved seats are still on sale at the Baths.

FRANCHISE BOUGHT

The Diamond Heads have completed their purchase of the Oahu franchise in the Honolulu baseball league for the sum of \$500. The committee which has been authorized to handle the sale of the franchise has completed the sale and this action was ratified by the club at a special meeting held in the Y. M. C. A. last night. The club gave the sum of \$150 from its treasury and the remainder was made up from subscriptions. E. Fernandez was elected as manager of the team for the coming season and will start in to get his men together immediately.

The Rapid Transits offered \$500 for the Oahu franchise but the Diamond Heads had secured an option and took the prize. They will attempt to buy from the Milies or the Punaious in all probability.

CHINESE ATHLETES

The Chinese Athletic Club will meet this evening to decide on the team which they will enter in the coming track championship games. That they will make a good showing goes almost without saying, as the club are to be found a number of athletes who can take their place beside the best men in the city in their various lines. The make up of the team will, of course, not be decided until a later date.

CARTER PETITIONS WITH OTHERS FOR ROAD REPAIRS

Governor Carter is one of a number of petitioners who have filed a petition with the Board of Supervisors, asking that a portion of Liliha street be repaired. The petition reads as follows:

Honolulu, T. H., Jan. 21, 1907.
To the Honorable Board of Supervisors of the County of Oahu, Territory of Hawaii.

We, the undersigned, residents, property owners and taxpayers, earnestly petition you to take such action as will insure the prompt macadamizing of Liliha street, between Ford and Wyllie streets, in the city of Honolulu.

"You will find attached a rough diagram showing the street in question marked with blue pencil, and your attention is particularly called to the fact that all the surrounding, adjoining and adjacent streets on said diagram are now macadamized, thereby leaving this one block without having received any attention for some years, and in a condition, which is bound sooner or later to injure, or at least partially destroy those portions of macadamized road adjoining or adjacent to this block.

"We therefore request that your immediate attention be given to this matter, not only for the purpose of completing the macadamizing of this entire section, but also for the purpose of protecting the work which has already been done."

The diagram referred to shows that Wyllie, Judd and Nuuanu streets, Punuu avenue and the makai portion of Liliha street have all been macadamized, but that Liliha from Judd to Wyllie street, has not been so treated.

The document is signed by G. R. Carter, J. R. Galt, A. F. Judd, Sam'l. G. Wilder, A. W. Carter, C. du Roi, Bishop Libert, P. T. P. Waterhouse and others.

JUDGE ROBINSON GETS BACK PAY

Judge Robinson arose this morning a few hundred dollars richer than he was yesterday morning.

The judge received the news yesterday that his suit for held-up pay, which has been on the boards at Washington for some time, had been decided in his favor, so the judge is \$412.50 to the good. The suit was brought in the Court of Claims for unpaid salary from January 23 to March 16, 1906. It is stated that no appeal will be made from the judgment.

THE BUSINESS MAN'S HANDY INDEX, published in the Saturday Bulletin and the Weekly Edition, gives a concise and complete resume of all legal notices, calls for tenders, judgments, building permits and real estate transactions. Evening Bulletin, 75¢ per month. Weekly Bulletin, \$1 per year.

NOTICE.

I, William K. Hutchison of Honolulu, County of Oahu, the husband of Sabina K. Hutchison, hereby give notice that I have not signed and attached my signature consenting the sale of the interest of my said wife in all the real estate mentioned in the mortgage made by Sabina K. Hutchison et al to Alexander Young, transferred to Sarah Sharp on August 1st, A. D. 1902, recorded in the office of Registrar of Conveyances in Liber 163, page 38, and a notice was published in the Nupepa Kuokoa, a Hawaiian newspaper for the sale at public auction on January 26, 1907, of all the real estate therein at Jas. F. Morgan; now therefore, by this also give notice claiming against the mortgagee or grantee for the unlawful possession of the interest of my said wife.

Signed this 25th day of January A. D. 1907, at Kalihiwaena, Honolulu, County of Oahu, Territory of Hawaii.
W. K. HUTCHISON.

Laundry Location

Serial Story No. 3

The linen you wear next to your body absorbs the discharge of the pores of your skin. On the other hand your body is exposed to all the dangers of germs that may be brought home from the laundry in your linen. A laundry should be kept scrupulously clean and managed by persons with intelligence enough to know the necessity of sanitation. One of the evidences of cleanliness is public exposure. With this end in view we have located a laundry in the heart of the city, on the ground floor, where all the washing and ironing is exposed to public view from the street at all times. Visitors are welcome at all times and our wash-room is as public as our office.
