LOMI LOMI LAW GETS A WARM ROAST

PHYSICIANS' LICENSE LAW IS A DISCRIMINATION IN FAVOR OF "MESSAGE ARTISTS" AND AGAINST TRAINED AND EDUCATED SURGEONS, SAY ATTORNEYS FOR DR. McDONALD—OSTEOPATHS GIVEN ADVANTAGES OVER REAL PHYSICIANS AND SURGEONS

Thompson & Clemons have filed in the Supreme Court a brief in the case of the Territory against Dr. J. T. McDonald, which is the test case to decide the validity of the law compelling physicians to take out licenses, in which they declare that the law is one merely in favor of "lomi lomi" and so palpably opposed to the constitution that there is hardly an excuse for argument. In support of the proposition that the law is invalid the attorneys say:

"The 'reason and spirit' of any law regulating the practice of the 'healing art,' would, presumably be, the welfare of the public, whom the legislature is supposed to represent, but one can, in all fairness, see nothing in this enactment but an intent to discriminate in favor of a particular class of 'healers' an intent which was carried out by an amendment of provisions of law which operated fairly and without discrimination upon all within their scope. In other words, the law was amended by making it 'worse.'"

"Under the provisions of the amendatory act, an osteopathist may practice surgery upon an innocent community, without having had any special training in that science, other than the

limited experience necessary for the obtaining of a 'diploma from any legally chartered and regularly conducted school or college of osteopathy,' while a general 'regular practitioner' or a specialist in surgery may not practice surgery without, as this Court must take judicial notice, a prolonged and vigorous course in both medicine and surgery. In other words, under this law the osteopathist, little more than a massage artist or trained nurse, is free to practice the important art of surgery for which the highest skill, training and knowledge are required, and which cannot be practiced without a broad foundation in pure medicine, in biology, chemistry and even mechanics and physics; while the ordinary surgeon must have all these qualifications of both physician and surgeon. This law would operate to permit a man who in his examination for permission to practice medicine and surgery as a physician, had failed for incompetency in the subject of surgery, to practice the very art in which he was incompetent and by reason merely of his having a diploma evidencing his qualifications to practice the refined art of massaging otherwise known as osteopathy.

YACHTS TO RACE

FOUR WHICH HAVE ALREADY ENTERED AND OTHERS ARE EXPECTED TO GET IN LINE SOON.

The success of the yacht race from San Francisco to Honolulu is already assured for there are four entries now recorded and there is every reason to believe that there will be two, and possibly four more.

The yachts entered are: Nixie, Fulton G. Berry, Corinthian Yacht Club, San Francisco. Anemone, C. L. Tait, New York Yacht Club, Colorado Springs. La Paloma, C. W. Macfarlane, Hawaii Yacht Club, Honolulu. Lurline, Commodore H. H. Sinclair, South Coast Yacht Club, San Pedro.

The fact that it has been definitely decided to enter La Paloma will bring joy to every man of sporting proclivities, whether yachtsmen or not, for it is an earnest of the faith of Hawaii in the success of the event. The Hawaiian yacht will have to be sailed up to the Coast and refitted up there before starting so that yachtsmen will be assured of the practicability of the race. Incidentally the cost of this trip will be large and it will be plainly the duty of people interested in Hawaii's welfare to contribute to that expense. This is being done liberally and there will be no trouble in raising a satisfactory amount, it is understood. Commodore Macfarlane will be his own skipper but will have to take a navigator along. Two natives, a cook and two amateurs will complete the crew.

MOLOKANS ARRIVE

FIRST INSTALMENT OF THE RUSSIAN SETTLERS ARRIVES BY THE CHINA HIS AFTERNOON.

The first of the Molokans are here. The China, which was docked late this afternoon, brought from San Francisco forty families, numbering 120 people in all, men women and children. It is expected that this lot will soon be followed by a number of other families. The intention is to send the Molokans to Kaunala at once, and they will immediately settle on the lands of the Maize Sugar Company, which are later to be turned over to them. They will begin work on the cane lands at once.

PYTHIANS WANT NEW QUARTERS

NEGOTIATIONS OPENED FOR THE ACQUISITION OF THE WHOLE SECOND STORY OF THE NEW HARRISON BUILDING AT THE CORNER OF BERETANIA AND FORT STREETS—PLANS WOULD BE LAID OUT FOR THE KNIGHTS AS THEY SAW FIT.

Negotiations were opened tentatively by Supervisor Moore with Fred Harrison this morning for the purpose of securing the entire second floor of the new block which Harrison is building at the corner of Beretania and Fort streets, for the purposes of a "Pythian Castle" or lodge rooms for the Knights of Pythias. Supervisor Moore was appointed a committee of one from his lodge to see what could be done in the way of getting new and adequate quarters for the ever growing ranks of the plumed knights and the chance are that the deal will go through, as Harrison states that he is willing to enter into negotiations.

"The matter is all in the air at present," said Moore this morning, "but we want to get new quarters and if we can get the top floor of the Harrison block I think that everyone would be satisfied as it could be laid out on plans suitable to our needs. We have three lodges here, Mystic, McKinley and Cuba, and I feel sure that with the rapid growth of the order we would be more than justified in taking the new place, that is, of course, if satisfactory arrangements can be made."

It is understood that the Pythians, should they make arrangements with Harrison would have a big hall room which would be available for all sorts of functions and which would of course return a revenue. The lodge rooms, retiring rooms and officers' rooms would be arranged to suit the knights and the owner has expressed a willingness to put in a separate entrance on the Fort street side, if desired.

WILL WELCOME THE ALL BLACK

SHORT PROGRAM PREPARED FOR THE ENTERTAINMENT OF THE NEW ZEALAND ATHLETES.

Arrangement for the reception of the "All Black" foot ball team of New Zealanders who will pass through here on Wednesday have been put pretty well into shape and while the time that the men spend here will be short, enough will be done to cause them to remember that there is such a place as Hawaii on the map. The S. S. Sotomura is expected at 8 a. m. and will depart at 2 p. m. so that the local committee of New Zealanders will have to hurry things through.

As at present planned a committee of two or three will go out to the ship and meet the strangers. They will be met ashore by others and taken for a car ride all over the city. It was found impossible to get a trolley as all will be tied up for decoration in the Washington's birthday parade the following day. The journey will wind up at one of the hotels, probably the Moana where luncheon will be served and the guests then will be free until the sailing of their ship.

Harry Armitage has been deputed by the Promotion Committee to look after the visitors as chairman of a special reception committee. He is having prepared a neat souvenir badge for

THE CIVICS TO FRAME A PRIMARY LAW

THE CIVIC FEDERATION WILL TAKE UP THE CONSIDERATION OF A PROPOSED PRIMARY LAW FOR THE TERRITORIES, WHICH WILL BE A SUBJECT OF OTHER STATES.

The Civic Federation is taking up the matter of a primary law for the territories and will probably have its proposal for consideration by the legislature. The matter has been a good deal discussed among members of the Federation and at the last meeting it will probably come up for further consideration.

Another matter to be considered is the question of a law to be passed to regulate the practice of the healing art and the matter of the qualifications for the practice of the healing art. It is understood that the Civic Federation is taking up the matter of a primary law for the territories and will probably have its proposal for consideration by the legislature. The matter has been a good deal discussed among members of the Federation and at the last meeting it will probably come up for further consideration.

SURVEY ON TEXAN

BOARD CONSIDERS THE QUESTION OF DETERMINING DAMAGE, IF ANY, TO THE STEAMSHIP.

A board of survey to determine the extent of the damage, if any, done to the hull of the S. S. Texan by the recent fire, was called this morning. The board consists of Captain A. Fisher, harbor master, Captain Gable of the cable S. S. Hawaiian, and W. J. Lloyd of the Hawaiian Iron Works. The board will advise the S. S. Texan this morning, accompanied by C. F. Moore, the freight agent of the American-Wholesale Company, and by Captain Lloyd, the master of the vessel.

All of the debris from the fire has not been removed from the compartment but a sufficient quantity has been put out to enable the members of the board to make some inspection of the vessel. The indications this morning were that no damage had been done to the hull of the craft by the recent fire. Several days will elapse before the matter can be definitely determined however.

SAVED VESSEL AND WANTS HER ENTIRE VALUE

COMPANY WHICH CLAIMS TO HAVE SAVED THE KA MOI AND A
\$600 CARGO FROM TOTAL DESTRUCTION FILES A LITIGATION FOR
MORE THAN THE VESSEL'S VALUATION - PERILOUS PLIGHT
OF THE SCHOONER DURING A STORM.

A libel for more than her total value
was filed in the Federal Court
this morning by the Inter-Island Steam
Navigation Company against the
schooner and the cargo of sugar she
had aboard when, so it is alleged, she
was saved.

The libellant's petition sets forth that
on January 30, when the Ka Mo'i lay
off Paoulo, Hawaii, a storm arose so
suddenly that she had no time to get
to a place of safety. Her only store
boat was smashed and she lost one
anchor. The crew left her and she was
in imminent danger of being dashed to
pieces on the rocky shore. Signals of
distress were flying when the Kauni
sighted her.

Captain Bruhn of the Kauni, at great
personal risk, lowered a boat and went

in her, with several of the strongest
and best men in her crew to the Ka
Mo'i. The latter's captain had returned
aboard, and he asked for help. The
Kauni is a steamer worth \$45,000, it is
stated, and at great risk of losing her
Captain Bruhn steamed in and gave
the Ka Mo'i a tow to safety. Subse-
quently the storm increased in violence
and continued for several days and but
for the rescue the Ka Mo'i would have
been a total loss, says the libellant.

The Ka Mo'i is valued at \$4,000 and
her cargo at \$4,375, added to which are
\$199.75, the freight earnings of her trip
to Honolulu after the rescue. Libellants
claim \$4,399. U. S. Marshal Hen-
dry this morning attached the vessel
and everything aboard of her. Smith
& Lewis are attorneys for the Inter-
Island Company.

MURPHY MAY JOIN HEARST

PROSPECT ALLIANCE BETWEEN
POLITICAL LEADERS WHO HAVE
FOLLOWED THE SAME COURSE.

NEW YORK, February 15.—The Post
says: There has been much talk at
Washington and the City Hall in the
last few days about a combination
between Charles F. Murphy and Wil-
son H. Hearst to promote the pur-
poses of both. Murphy wishes to re-
main at the head of Tammany, Hearst,
it is said, wants the Democratic nomi-
nation for Governor. Hearst can help
Murphy by instructing his followers to
vote for district leaders favorable to
Murphy at the next primaries.

Murphy can help Hearst by sending
a delegation to the State Convention
which will vote for Hearst for Gov-
ernor. It would be a strong combina-
tion—there is no doubt about that—
and the talk about it seems something
more than a possibility. It would be
strange indeed to see Hearst working
for Murphy, yet stranger things have
happened in politics. It has been ob-
served lately that the Hearst journal-
ists have been dealing more freely
with Tammany and Murphy. Mur-
phy's newspaper organ, on the other
hand, no longer has a word to say
against Hearst.

Politicians would not be at all sur-
prised if within a few months the
Hearst newspapers should refer to
Murphy as the "steady backbone of
Democracy in New York City." Hearst
and Murphy can meet on a common
ground of limiting Dr. Major McMillan.
Then the benefit of the combination
to both would clearly be great.

PERSONALITIES

Augustin Rodin, the French sculptor,
had a great struggle with poverty and
adverse criticism in his youth. Of an
episode of his early period a writer
says: "With that indomitable will and
doggedness of purpose that never failed
him throughout his career, the young
sculptor set himself to capture in clay,
marble or bronze his conception of life,
and art." He used his leisure in work-
ing at night time, in a deserted stable,
as he had transformed into a studio, at
the wonderful black of "The Man with
the Broken Nose." After eight or ten
months of hard and patient labor he
displayed this work and sent it to the
Academy. It took the judging committee
months to give any notice to the
work, but it was rejected in 1864,
and Rodin succeeded only in 1874.

Mr. Henry Irving has had a break-
down while in the United States. I never
saw you at the theater now," said Mr.
Henry, who after uttering some
words about his lack and shabbiness,
"on someone, you come tomorrow and
give your best at the box office." He
went to bed two tickets awaiting him,
with a \$50 note.

Whether the matter was one day
diving in the city newspaper in Paris
when some indiscreet acquaintance
showed him "Well, Mr. Whether,
and how are you getting on?" said he,
"Oh, no," said Whether, holding his
cheek and putting on his hat. "I'm
getting on."

REPRESENTATIVE MEETING.

The Board of Supervisors will meet

of the road and garbage department
will be passed.

SOLDIERS MADE HONOLULU BUSY

HUNDREDS OF MILITARY MEN
AND OTHER STRANGERS WERE
IN THE CITY YESTERDAY.

Honolulu was a very lively place
yesterday. In fact the streets were
more crowded than has been known
in this city in many months. The
presence of two army transports
with hundreds of soldiers and other
passengers was the cause for such a
busy appearance about the city.

The Federal army's military officers
from Manila and Honolulu en-
route to San Francisco with the same
and cavalry attached, in addition to
hundreds of other passengers, and on
Sunday the transport made arrival
from San Francisco with two batteries
of artillery and most of the Second In-
fantry. Other passengers were also on
the Mauni.

It is reported that there was granted to hun-
dreds of the soldiers and the city was
very military air with the crowds of
soldiers going to various places of in-
terest. The day was Sunday so saloons
were closed. In consequence compara-
tively few arrests were made for in-
tervention.

PINK DOMINOS

"Pink Dominos" is the play that will
be presented at the Orpheum this evening
by the Butler Company. It is an
amusing play and the reputation of
the Butler players is guarantee that it
will be put on in great shape. The play
is a melodrama in quality, and should
draw a crowded house.

An innovation is to be made this
week. There will be a matinee on
Thursday afternoon, Washington's
birthday. Curtain rises at 2 o'clock.

WIDE TRAVELS
OF A STICK
COLLECTOR CHAMBERLAIN HAS
A NINE-STAMPED SOUVENIR
TO MANY OFFICES.

A mailing stick that has probably
traveled through American lands for a
hundred thousand miles or more, going
to and fro between Washington and
various local revenue offices, is in
the possession of Collector Chamber-
lain, waiting to start on another trip
to the national capital. It is decorated
early all over with the stamps of sev-
eral countries from Honolulu to
Boston. The stick is used to wrap
monthly reports around before they are
mailed, and the collector has a habit
of putting their rubber stamps on it
before mailing it.

The stick appears to have begun its
career in October, 1907, by a trip to
the collector at Cleveland, Ohio. Since
then it has been here twice and has
been out to more than to Arkansas,
Illinois, New York, Texas, South Car-
olina, Indiana, Louisiana, Kentucky,
California, Tennessee, Iowa, Kentucky,
Michigan and Massachusetts. It was
sent back to its home in Washington
each time with a report. The department
at Washington returns it with a report.
The various collectors report monthly,
so that the sticks are going all the
time.

"There are many of them going to
and fro all the time," said Collector
Chamberlain, "and when they get all
covered over with stamps it is likely to
hold on to them as long as I suppose this
one has done a hundred thousand miles
in the past few years. It will
start to Washington again soon."

The U. S. CHIEF is due today from
San Francisco with three days later
mail and the Molokai gutters for
Kauai.

THOUSANDS OF TONS OF SUGAR

ARE AT THE RAILWAY WHARF
WAREHOUSES AWAITING SHIP-
MENT.

Ten thousand tons of sugar are piled
up in the warehouses at the railway
wharf. About 6,000 tons of this amount
are to go into the S. S. Texan as soon
as it is decided whether she be sea-
worthy and is in proper condition to
take cargo. The recent fire aboard the
S. S. Texan is responsible for such a
large quantity of sugar piling up here.
It had been expected that the vessel
would be dispatched by this time for
Kauai with the Honolulu allotment
aboard. It looked at one time as if
she might be delayed in port waiting
for such cargo but the fire brought
about a complete change in matters
and instead of the Texan waiting for
sugar, sugar has been waiting for the
Texan.

But there will be a quick onslaught
made on the sugar at the Railway
wharf warehouses. The ship Edward
Russell is taking about 3,000 tons of
sugar for Delaware Breakwater in ad-
dition to about 3,000 tons that have
been or are being loaded from outside
sources.

The schooner S. G. Wilder will get
about 300 tons from the railway wharf
and the schooner Mary E. Foster and
Robert Lewers are to get cargoes of
about 1,000 tons each. The Foster takes
Watson sugar however.

Ruberoid Roofing

Ruberoid Roofing has a number of features to recommend it which are not found in other roofings. It is inexpensive to buy and easy to keep in repair. Besides being light it is extremely durable and is waterproof and odorless, and is not affected by changes of temperature. It is elastic, acid and alkali-proof, fire-resisting and oil proof and vermin will not attack it. It is all ready to lay, needs no painting or coating and will not deteriorate with age.

SUPT. FILLER INJURED.
WAILUKU, February 17.—Superintendent K. W. Filler of the Kahului railroad met with a painful accident last week. While on his truck automobile he met a freight train. He was backing his auto from the engine when it was struck. He jumped in time to save himself from serious injury but in doing so received injuries that were painful but not serious.

The Onomea Landslide

HAWAII HERALD SAYS IT WAS CAUSED BY TURNING ON FLUME WATER TO CLEAN DITCHES.

HILO, February 15.—About 2 o'clock yesterday afternoon residents at Onomea, near the gulch, were surprised by a terrific rumbling noise and the crashing of trees. An inspection of the vicinity resulted in finding that the earth at the side of the gulch had slipped down the declivity and carried with it the store of K. Matsumura that stood directly on the bank. There were several Japanese men in the building and one woman, and they were carried down the embankment and covered up with the mass of earth and stones that was carried down in the slide. After much hard work the men managed to dig their way out and then began a hunt for the woman. She was found further down the bank unconscious from the shock, and carried to the road and afterward taken to Papaikou, where the services of a physician were obtained. The first report received in Hilu was to the effect that a half dozen houses and their occupants were carried down and the men killed, but this was one of the usual exaggerations following an accident of this kind.

The accident was caused by men working on the road turning flume water in the ditches in order to clean them out.—Hawaii Herald.

BAND CONCERT

The Hawaiian Band will play the following program this evening at 7:30 at Emma Square:

PART I.
March, "Hands Across the Sea"; Souza Overture, "Isabella"; Suppe Ballad, "Elva Maki Ululi"; Herms "Reminiscences of Verdi"; Godfrey.
PART II.
Vocal—Hawaiian Songs, by Berger; Mrs. N. Alapai, Intermezzo, "Silver Heels"; Muret Two-Step, "Happy Heine"; Janne Finaid, "The Mashed Star"; O'Hare "Star Spangled Banner."

FRANK MESTOCKER'S VIEWS.
Frank B. Mestocker is quoted as saying that the government should put down sidewalks at actual cost to property owners. He also thinks that parks should be established on the slopes of Punchbowl and on the flats at Kakaako. Ala Moana driveway should be continued to Punchbowl, he thinks, and the Allen street extension to Queen should also be arranged.

MARRIED.
GODFREY—STOVER.—In Amsterdam, N. Y., Feb. 7, 1904, Miss Ann Hale Stover, daughter of former Associate Justice and Mrs. Martin L. Stover, of Amsterdam, to William B. Godfrey, Jr., formerly of Honolulu, son of Captain and Mrs. William B. Godfrey. The attendants were Miss Winifred Stover, sister of the bride, and Gardiner Kline, one of the publishers of the Evening Recorder. Godfrey is a graduate of Yale, class of 1902. He is connected with the firm of W. A. Boole & Son, shipbuilders and engineers at Oakland, Cal. After the bridal tour the couple will reside in San Francisco.

VERDICT WAS WRONG.
Judge De Bolt Saturday granted the motion for a new trial of the case of the Territory against Yokoyama, on the ground that the evidence did not warrant a verdict of guilty. Yokoyama was tried last week for selling liquor without a license, and the jury found him guilty. Magoon & Lightfoot moved for a new trial on the ground that the verdict was contrary to the evidence and also because, as was claimed, the jury was influenced by a display in court of a number of bottles of booze that had nothing to do with the case. After argument this morning by Lightfoot and Donchitt, who prosecuted, Judge De Bolt set aside the verdict and ordered a retrial. The case will probably be nolle prossed.

NEW COLD STORAGE.
Work has been commenced on the new portions and the additions to the cold storage buildings of the Metropolitan Meat Company on King street. The place when finished will be of two stories and will give very much greater accommodations. Fred Harrison has the contract.

A PATRIOTIC ADDRESS.
There was a large attendance at the Central Union Church last evening when a patriotic service was held. Principal Horne of the Kamehameha School delivered an eloquent address on the life and example of George Washington. The students of Kamehameha attended in a body, the girl students singing an anthem "To Thee O Country" with fine effect. At the conclusion of the address the Hawaiian and the National Anthems were sung.

TELEPHONE SERVICE.
P. W. Macfarlane states that the telephone wires on Punahou street will be put in cables and the weak poles throughout the city will be replaced by stronger ones.

NEW PYTHIAN KNIGHTS.
There will be a big gathering of Knights of Pythias tonight in Pythian Hall. No less than eighty novices are to be initiated into the mysteries of the order.

IDAHO TRAGEDY ARRESTS.
DENVER, Colo., February 19.—Charles Moyer, president, and William Hayward, secretary of the Western Federation of Miners, have been arrested for complicity in the murder of Ex-Governor Steunenberg of Idaho.

SHIPWRECKED CREW RESCUED

TRANSPORT BUFORD PICKED UP 27 JAPANESE FROM A DISMASTED BARKENTINE.

With a shipwrecked crew of Japanese 27 in number, the transport Buford arrived Saturday afternoon from Manila and Nagasaki. The crew of wrecked barkentine was from the Japanese barkentine Tonomoto Maru. The barkentine was sighted on February 7 at 8:45 p. m. about five days out of Nagasaki. The sailing craft had been dismasted and was trying to get along under a jury rig. She had been caught in a typhoon and was about to founder when the transport sighted her. The Japanese said they were going to Marcus Island after guano.

This island is the one that figured in an international episode some years ago. Captain W. W. Rosehill who discovered the island and annexed it as American territory many years ago went in the schooner Julia E. Whalen from Honolulu to take possession again but found a force of Japanese marines there in possession. He was not allowed to take possession of the island. Since that time the question of the sovereignty of the island has been left in the hands of the State Department for settlement.

The Buford carries troops E. F. G. H. I. K. L. and M. of the Second Cavalry. She also has a number of indigent citizens from Manila, who are to be taken to San Francisco. The vessel struck some heavy weather out of Nagasaki. She sailed for San Francisco at 11 o'clock this morning.

Saleswomen's Peril
GRAVE DISEASES, DUE TO STANDING
Facts About Miss Merkle's Dangerous Illness and Complete Cure

Have you ever thought why so many women or girls rather walk an hour than stand still for ten minutes?

It is because most women suffer from some derangement of their delicate organism, the discomfort of which is less trying when they are in motion than when standing.
In some states laws compel employers to provide resting places for their female employees.
But no amount of law can regulate the hard tasks of these women. They must get the strength which this world demands or run the risk of serious disease and the surgeon's knife.
Read the experience of Miss Margaret Merkle, 375 3d Street, Milwaukee, Wis.

Dear Mrs. Plinkham—
Gradual loss of strength, nervousness, bearing-down pains and extreme irritation compelled me to seek medical advice. The doctor said I had diseased organs and advised an operation if I wanted to get well. I objected to this and decided to give Lydia E. Plinkham's Vegetable Compound a trial. I soon found that all the good things said about this great medicine were true. The irritation soon healed, backache, headache and nervousness disappeared and in a short time I was strong, vigorous and perfectly well. I wish every working girl who suffers would try Lydia E. Plinkham's Vegetable Compound.
Lydia E. Plinkham's Vegetable Compound is a vegetable tonic which invigorates and strengthens the entire female organism and will produce the same beneficial results in the cases of other sick women as with Miss Merkle.

MEADE CHEWS UP ARMY COAL

TRANSPORT IS LOADING NEARLY 900 TONS AT THIS PORT—WILL SAIL ON WEDNESDAY.

The transport Meade is certainly the champion coal burner in the transport service. She began this morning to load 870 tons of coal to enable her to make the remainder of her trip to Guam and Manila. The vessel is scheduled to sail at noon on Wednesday.

The vessel brought no passengers for this port and takes no passengers away.

During the trip to this port the vessel was stopped for about three hours as some repairs had to be made to the condenser. The vessel is far from being in good condition and ought not to have been sent out on such a long voyage without receiving more than a trial spin of a couple of hours. It was reported among the soldiers yesterday that she had sprung her shaft. It was also said that the men in the engine room were going to sign a round robin declaring her unfit for sea unless extensive repairs were made to her. The men would, it was stated, leave the vessel at this port unless their recommendations were followed. Inquiry aboard the vessel met the information this morning that the shaft had not been sprung and that except for some minor repairs to the condensers, she was perfectly able to attempt the voyage to the Philippines.

On the voyage to this port Private Fink of the 2nd Infantry died of acute meningitis. The remains were transferred to the Buford this morning and sent back to the mainland.

SIXTY DAY LIMIT APPROACHING

(Continued from page one).

the first sixty days of a term have expired, except by the consent of both sides. The present term opened on the first Monday in January, and will have lasted sixty days by the beginning of March.

As a result of the intermission caused by the delay in the Robinson reappointment, there has been far less reduction of the calendar than was expected this term. Judge Lindsay has had to devote his time to criminal matters and Judge De Bolt has also had some time to spare for this work. He is now engaged in the case of Brown vs. Spreckels, which will last a couple of weeks or so yet, carrying the term beyond the sixty day limit. This means that there will not be many more civil trials during the term, as one side or the other is usually unwilling to go ahead.

There is considerable difference of opinion among attorneys as to the value of the sixty day rule, which is a new one made by the last legislature, but many approve of it because of the chance it gives them to leave for other circuits after sixty days of a term here.

ARRIVED SHORT OF COAL.

The British S. S. Appalachee, en route from San Francisco to Japan, arrived Saturday afternoon in distress. She was short of coal. She had gotten as far as the 180th Meridian when it was discovered she had not enough coal to complete her voyage. Captain Simpson put about for Honolulu. He said that he feared he would be unable to get more than 30 tons as he did not know much about Honolulu. There were scarcely 25 tons of coal in the bunkers of the vessel when she arrived off port. The wood work of the vessel would in all likelihood, have been chipped up and put into the furnace had she been a few days more making this port.
