GOOD SHIP YOLA IN A HURRICANE

Captain Despaired of Ever Reaching This Port.

DECKS AWASH FROM VERY STEM TO STERN

Cook of Vessel Rolled Around in Galley Amidst Confusion of Steam and Water.

The British ship Yola, Captain Pennicuk, arrived in port this morning after a tough trip of 161 days from Liverpool. In describing the voyage, the captain, who is well known in this port and has sailed the stormy seas for many a year, says that this last trip was by far the worst he ever experienced and that on several occasions he thought that his vessel would never reach the port of Honolulu.

Sailing from Liverpool across the Atlantic ocean and rounding the Horn nothing of an event happened but after leaving the Horn, the good ship ran into all kinds of bad weather. Between the 56th and 42d degree South, the weather was especially bad and in this space, two regular hurricanes were encountered. The worst of the two began on April 2 and lasted for forty-eight hours but the other one, which was somewhat shorter, was bad enough.

Terrific seas continued to wash over the decks from stem to stern doing all kinds of damage. Everything movable on the decks was washed away by the tremendous billows and finally the climax of the trouble was reached when the steering gear was broken and put out of commission. Twice every one on board thought for certain that the vessel was going to founder and all hands assembled on the poop in readiness for the worst.

The ship's cook, a venerable negro, had a startling experience during the storm. A tremendous wave struck the galley and filled it with water in a moment. Everything in the place was immediately a confusion of steam and water and for ten minutes, the unhappy occupant was tumbling around in the chaos, trying to escape.

As a result of the accident to the galley no cooked food could be prepared on the vessel for a space of ten days and the officers and crew had to subsist on sea biscuits and tinned goods without any preparation whatever.

Finally, however, the worst of the weather came to an end and things were put in shape again. However, there was still much to be desired in the way of weather and altogether, it took the Yola more than a hundred days to make the passage to this port, after she had rounded the Horn.

The vessel was towed into port this morning by the Fearless and was docked at the Irigard wharf opposite the Alsterwharf, the big German four-masted bark which recently made the same trip as the Yola. The latter brings about 1500 tons of general merchandise to Honolulu, which she will discharge where she now lies. It is consigned to T. H. Davies & Co., Ltd. She also has in her hold between 800 and 900 tons of freight consigned to firms in Vancouver, to which place she will proceed upon leaving this port.

After discharging at Vancouver, the Yola will probably take a cargo from there to her home port.

Captain Pennicuk, master of the Yola, is very well known in this port where he has been on several occasions before. This morning, as soon as his vessel touched the dock, a host of his old friends and acquaintances here filled his cabin to shake his hand and bid him welcome. While the captain is glad enough to come into this port again, he is inclined to be put out on account of the length of the voyage.

Washington, D. C., July 7 (Special).—It is expected that consideration of the Corliss bill, providing for the construction of a submarine cable between the United States and Hawaii will be taken up in the House Tuesday next. Debate on the measure, it is expected, will continue for two days, and it is believed to be reasonably certain that the bill won't pass the House. It is also reasonably certain that the bill will not pass the Senate at this session of Congress. The Committee on Naval Affairs in the Senate has refused to take favorable action on any Pacific cable bill, holding that the proposition of the Mackay company to build a cable regardless of Government aid, will serve all purposes intended by bills introduced providing for cable construction. Senator Perkins of California, who is second in rank on the Committee on Naval Affairs, is as has already been indicated, earnestly opposed to Government constructed cables, and with his opposition, it is certain the Corliss bill can not pass the Senate at this session. Senator Perkins' opposition is not based upon any desire to see Hawaii deprived of cable communication with the United States, but he believes that it is not necessary to involve the Government in the expense of construction while a private company stands ready to incur this expense, and guarantee reasonable rates of toll. The Democratic attitude on the cable bill is very interesting. When the interstate and foreign commerce committee considered the bill, the six Democrats on the committee were equally divided on the question of Government construction. When the Rules Committee gave a hearing for a special rule for the consideration of the bill, the six Democrats all opposed the granting of a rule. Now that consideration of the bill is assured, word is being passed around that Democrats cannot afford to favor Government construction except to Honolulu, for a Government cable to Manila could be interpreted as a tie between this country and the Philippines of such a nature as to be an argument for the retention of the islands permanently, to which the Democrats are vigorously opposed.

Banker Peck of Hilo will appear before the Committee on Pacific Islands at its next meeting Monday next, and will present the question of the desirability of Government construction of a breakwater in Hilo harbor.

The omnibus public building bill which today received the signature of President Roosevelt, directs the Secretary of the Treasury to investigate the postal situation at Honolulu and Hilo, and report to Congress at its next session the probable cost of suitable sites in these cities, upon which to erect postoffice buildings. It is reasonably certain that Congress at its next session will make appropriations for public buildings at Honolulu and Hilo, if exorbitant amounts are not asked for.

EUREKA NOT TO COME GARDEN ISLE ALSO HAD CELEBRATION

Eleventh of June Was Observed at Koloa Saturday.

BIG BASEBALL GAME WON BY HOME TEAM

Kaula, the Garden Isle, claims just as much loyalty to the custom of celebrating the natal day of Kamehameha the Great as any of the other islands of this group, Oahu not excepted. From reports that came by steamers yesterday and today, Kaula certainly "did her proud."

Koloa has always been known as one of the most enthusiastic towns on the whole island and it seemed but natural that the citizens of that place should make the first move toward celebrating the 11th of June. They of course insisted that the various components of the glorious celebration should take place in their home town.

It being deemed inconvenient for people from the other parts of the island to have the celebration on the 11th of June, which fell in the middle of the week, the date was set for the following Saturday and the good news of coming excitement was spread broadcast throughout the land. On the day mentioned, hundreds of people arrived from every town and hamlet on the island and by the time the fun began, the accommodations of the place were taxed to their utmost. Stores were closed, houses were decorated and on all sides could be seen evidences that the people intended taking a day off.

The events of the day took place on the broad place in front of the principal stores and in close proximity to the plantation. The big thing of the day was the exciting baseball game between the Koloa and Waimea teams which resulted in a victory for the former 12 to 11. The score by innings was as follows:

	1	2	3	4	5	6	7	8	9
Koloa	1	0	3	2	0	4	1	1	0—12
Waimea	1	0	0	0	0	0	8	1	1—11

Had it not been for William Welch of this city, the Koloas would have lost to the Waimeas. He brought in four runs by his splendid batting.

It is said that the show of talent brought out in this game has set Kaula people talking of a league. It is believed—

Rumor That Meteor Will Succeed Eureka on Run Between Seattle and the Port of Honolulu.

PRATT'S GOOD WORK

Washington, D. C., June 7 (Special).—It is believed definite action will be taken by the Senate Committee on Pacific Islands at its next meeting on the proposition to aid the Territory of Hawaii in payment of losses sustained in suppressing bubonic plague.

The Globe Navigation Company's steamer Eureka, which was expected to leave Seattle on June 10 for this port, will not make this trip on account of a change of plans. The reason is to be found in the fact that the company's steamer Meteor, which was chartered to sail for Cape Nome, has been expected to take her about forty-five days.

In the meantime, the company has a contract for the shipping of a large cargo of railroad ties for Topolobampo, in Mexico, and as this has to be shipped pretty soon and as the Meteor is in time to take it, the company has decided to postpone the trip of the Eureka to this port and to send that vessel on to Topolobampo with the ties.

The next Globe Navigation steamer for this port will probably be the Tampico which should leave in the neighborhood of July 1.

It is said that the Globe Navigation company contemplates fitting the Eureka out as an oil-burner and that bids for the change will be taken when she reaches San Francisco.

Rumor also has it that the probabilities are that the steamer Meteor may succeed the Eureka on the freight carrying run between Seattle and this port.

TREASURER REPORTS BALANCE IN TREASURY

Registrar Presents Paper On What Was Done During Past Years

Washington, D. C., June 7, (Special).—Further hearing will be granted Monday by the Senate Committee on Pacific Islands to parties for and against the bill granting to the Hawaii Ditch Company, Ltd., the right of way over public lands in the districts of North and South Kohala, in the island of Hawaii. It is believed final action will be taken by the committee at this hearing. Hon. Robert W. Wilcox, Delegate from Hawaii, will appear in behalf of the bill, which was introduced in the House by him. He has submitted to the committee a brief favoring the measure, in which he says: "I am in favor of the passage of this bill, in the interests of the people of the Territory. I commend the measure for the following reasons:

First, it will be a benefit to the people, both with large and small holdings throughout the district in which it is proposed the ditch shall operate. To the homesteader, or other settler upon the public lands remotely contiguous to the lands upon which these waste waters may be assembled, it will afford opportunity for irrigation that he could not otherwise have; it will give a character of stability to, and greatly increase the value of his lands.

Second, it purposes giving the small holder equal advantage with Governor Dole and the other trustees of the Bishop Estate, with detracting one iota from that of the latter. It will jeopardize no interest, interrupt no benefit; it threatens only a monopoly that can avail nothing to the monopolists beyond emulation of the "dog in the manger."

Third, it has the commendation of every landholder along the line of the proposed ditch, whose petitions are before our committee.

Fourth, in every particular, the rights of the people are safeguarded in the bill.

There is no genuine opposition to the provisions of this bill. The objections offered by Governor Dole, as shown by the record, are vacillating and shifting; evasive, unfixed; I believe them to be insincere. Substitute, as grantee of the right of way sought by this bill, the name of Mr. Jones—one of Governor Dole's political managers—for that of the Hawaii Ditch Company, and you would overcome the only real objection the Governor has in the premises; and the bolstering support of the trustees of the Bishop Estate, of which Governor Dole is one, would drop out as naturally and gracefully as at the eleventh hour, it came into the case.

I do not believe it a tenable argument against the passage of this bill, that similar measures would come before Congress. The peculiar conditions in the district to be benefited by the provisions of this bill, do not exist elsewhere in the Territory; nowhere else is there water supply running waste into the sea, that can be diverted and made beneficial in the irrigation of dry lands.

Personally I have no greater interest in the Hawaii Ditch Company than I have in Governor Dole or Mr. Jones, but as the representative of the people I must desire that which will best serve the interests of the people; therefore, as I have said, gentlemen, I am in favor of the passage of this bill.

After a forensic battle that might truly be called fierce, Domingos Pereira was discharged from Oahu prison by Judge Gear yesterday afternoon, on the ground that the jailer had no written authority for holding him. The prisoner was brought into court for the decision at 1:30 o'clock, but when the Judge suggested a method whereby the Attorney General's office could mend its faulty hold upon the lawbreaker the lawyers rushed from opposite sides into the breach and started as many new fights as a colony of cats might raise in the course of a live-kick night. For one thing, a furtive move was made to have a policeman cited for contempt of court, but abandoned on the flight of the policeman.

E. A. Douthitt, Assistant Attorney General, represented the High Sheriff, while F. M. Brooks and Geo. A. Davis appeared for the prisoner. Judge Gear began with the remark that the amended return to the writ contained the very same mistake for correcting which he had allowed an amendment to be made. Although he pointed out that the decision of the Supreme Court in the Orlem case settled that a prisoner was not held by virtue of the mittimus, but merely committed thereby to the custody of the High Sheriff for the carrying out of the sentence, yet here the amended return said that the prisoner was held under a mittimus. He did not think that the decision was good law, appearing to have been given without due consideration upon the strength of a New York case, still the decision should be respected as the law of this Territory. True, upon a question that the Supreme Court decided in two different ways the same day he had decided a case for himself, but when the Supreme Court agreed

with itself its decision was the law of the land until reversed. In the Orlem case the court held that no matter how imperfect the mittimus might be, the prisoner was not held under it but under the authority of the officer into whose custody he was committed. In New York the mittimus directs the sheriff to deliver the prisoner into the custody of the jailer and directs how he shall be kept. This was the correct form, though not provided by Hawaiian statute, and the jailer should never receive a prisoner into his custody without written authority. If that was law—and the Orlem case made it law here—then the jailer should have written authority. "We have got into this position," observed the judge, "through having a decision hastily written without, I am sure, its effect being considered."

"Your return is inconsistent under the law," the court continued. "I asked the Attorney General's office to strike out the inconsistency of this return."

Mr. Douthitt said he could see the drift of his honor's reasoning, that the clause was not put as patly as it might be. If there was an imperfection in the mittimus, he maintained that it was within the power of the court to remand the prisoner and give an opportunity of having the proper papers made out. If it appeared that the man was lawfully tried and there was a valid judgment behind the commitment, it became the duty of the court to remand the prisoner and order the mittimus to be changed. For imperfection in the holding papers the court should not allow the prisoner to go free.

Judge Gear rejoined that the Orlem case held that when a mittimus

conveyed a man to jail it had performed its function. He repeated what he had said about having previously given an opportunity for correcting the return which had not been improved. Mr. Davis, perceiving an inclination of the court to allow the error still to be corrected, interposed an argument that a return could not be amended more than once.

Judge Gear said it was clear that the jailer should have a certified copy of the judgment. The jailer and the High Sheriff ought here to be treated as if the same person, as the High Sheriff had the custody of the prisoner.

Mr. Douthitt remarked in an undertone that the error was at the most surprising, and raising his voice stated that he had set out the conviction and sentence. To this the court replied that the record was not certified and that was a case where sufficient cause for holding the prisoner had not been set out in the return. Mr. Douthitt remarked on the lack of proper record books for judgments, saying that this was about to be filled by an order sent East. Again he contended that if the judgment was valid the prisoner ought not to be released. Mr. Davis interjected the remark that the (Assistant Attorney General) did not make a commitment at all. Mr. Douthitt, resuming, cited the stenographic record of the verdict of the jury and the sentence of the court.

Judge Gear, conning the papers, said he was at a loss how to proceed, as he had been all along. He would hold as a matter of law that the jailer had not power to hold the prisoner. He apologized as to whether he might hold the prisoner in jail until the

written authority required to hold prisoners.

Marshall Field, Chicago, June 7. — The final meet between the University of Chicago and the University of California was won by Chicago today by a score of 8 to 5.

Shortly after the games were called a drizzling rain set in. This finally ended in a terrific downpour, which put a stop temporarily to the events. When the officials again called the athletes to resume the games there was fully two inches of water on the track, while the field was a miniature lake. Under such conditions fast work was out of the question. The best race of the day was the 220-yard dash, participated in by Blair and Senn of Chicago and Cadogan of California. It was a close race throughout. Blair won in a hard finish.

JUDGMENT FOR JUDGE

KALAUPAPA MAGISTRATE ACCUSED OF MISCONDUCT

Board of Health Refuses to Allow the Employment of a Japanese Doctor in Government Service.

Dr. C. R. Cooper presided at the Board of Health meeting, first in a fortnight, held yesterday afternoon, other members present being Dr. W. L. Moore, Fred. C. Smith, Attorney General E. P. Dole and E. A. Mott-Smith. There were in attendance: Dr. J. S. B. Pratt, executive officer; C. Charlock, secretary; J. D. McVeigh, superintendent Molokai settlement; C. H. Tracy, city sanitary officer, and Miss Mae Weir, stenographer.

Thomas K. Nathaniel, district magistrate at Kalaupapa, was the subject of a complaint by petition with nine signatures. He was accused of pronouncing opinions on cases before they came up for hearing, and then refusing evidence that was opposed to his opinion. It was alleged that he was taking the work and power of the captain of police into his own hands, and inserting words in warrants to suit himself without the approval of the captain of police. Finally, it was charged that Nathaniel urged plaintiffs in old-standing cases to bring them up again, "which caused a terrible flut to flit against said judge and the keeper of the Board of Health store."

Mr. Dole, after a statement from Mr. McVeigh, moved that a copy of the petition be sent, each, to the Supreme Court and the Governor. He said the district magistrate ought to be a peace-maker instead of a promoter of strife. While the Board did not control the district magistrate, he thought it was proper for them to express their views. His first motion having been carried, he moved the following resolution, which was seconded and passed: "That while the Board of Health has no official control over district magistrates, it is the sense of the Board that the district magistrate in the leper settlement should exercise the duties of his office, so far as consistent with the upholding of law and the doing of justice, to promote peace and harmony, and that it is strongly for the interests of the leper settlement, as the Board views it, that anything in the nature of stirring up strife or ill-will should be avoided."

Keoki Kaoliopa petitioned for leave to go to the settlement and stay a week on a visit to his mother. The request had the usual fate of such papers in being promptly denied. As a rule the Board issues visiting permits only on occasions of its own periodical visitations.

On the favorable report of the board of medical examiners, Dr. R. G. Curtis was recommended to the Territorial Treasurer for a license.

Rev. J. A. Cruzan, on account of intended departure from the Territory, tendered his resignation as a trustee of Hilo hospital. In accepting it the Board directed the secretary to convey its thanks to Mr. Cruzan for his active interest in the hospital. The matter of a successor was deferred until the president, Dr. Sloggett's, return from Hilo.

Dr. P. R. Waughon, Kealia, informed the Board that his father, government physician at Lihue, was unable to continue his assistance for the Hanalei district and requested permission to employ a Japanese doctor for that place in an emergency. The request was denied.

Dr. L. E. Cofer, Federal quarantine officer, sent in a report of pestilence in the Orient, showing: Hongkong, two weeks to May 24, cholera 69 cases and 64 deaths, plague 1 case and 1 death. Amoy, a few sporadic cases of cholera and, in the surrounding country, the same of plague. Shanghai, 3 cases of cholera on a French cruiser three miles off.

Reports of the food commissioner, the plumbing inspector and the Hilo sanitary inspector were presented. At Hilo 113 orders had been made and obeyed, and 500 inspections made.

Dr. T. McMillan, Wailanae, was granted leave of absence with Dr. Hoffmann of Waipahu as a substitute.

Miss Weir was granted two months' absence with pay in accordance with the rule.

The Attorney General reported up a new regulation for steamers carrying lepers. It was to the effect that any steamer conveying lepers may not convey other deck passengers under a penalty of \$50 for each offense. It was adopted with the understanding that a guarantee would be required of the I. I. S. N. Co. as well as Wilder's.

The concluding business was consideration of the report of committee on revision of rules and regulations. Proof sheets of the revised code were in the hands of members.

PLUMBING AND SEWERS.

E. G. Keen, inspector of plumbing, made the following report for the semi-monthly period ending June 15: Number of plans filed, 50; permits issued, 50; inspections made, 151; final certificates issued, 52; sewer connections made, 24.

Dr. Pratt, executive officer, on reading the report to the Board of Health, remarked that the amount of work done showed the good service being performed by the increased corps of sanitary inspectors.

KING EDWARD DINES WITH MINISTER CHOATE

London, June 11.—A crowd of several hundred persons, including a number of American sightseers, had gathered outside of the house of the United States Ambassador Joseph H. Choate, on Carlton House terrace when King Edward and Queen Alexandra dined there at 8:45 tonight to attend the dinner given by Mr. and Mrs. Choate. Their Majesties came in what is known as a town carriage, with outriders in red livery. The front of the embassy was decorated with the customary coronation device, a crystal transparency showing the royal cipher. It was surrounded by the Stars and Stripes. The crowd uncovered as Their Majesties passed in. Otherwise there was no demonstration.

Following is a full list of the guests present at the dinner: The King and Queen, Princess Victoria, the Duke of Norfolk, the Duke and Duchess of Portland, Lord Rosebery, the Bishop of London, Right Rev. Arthur F. W. Ingram, the Earl and Countess of Pembroke, Earl and Countess Spencer, Sir William and Lady Harcourt, A. J. Balfour and Miss Balfour, the Earl of Derby, Lady Alice Stanley, the Russian Ambassador, Baron de Staal; J. Pierpont Morgan, Whitelaw Reid and Mrs. Reid, Harriet Lane Johnson, a niece of the late President James Buchanan, who was appointed United States Minister to Great Britain in 1853; John Sargent, the American painter; Mrs. Douglass Robinson, Mrs. W. S. Cowles, sister of President Roosevelt; Lord Kenyon, Sir Stanley Clark, the Countess of Gosford, Mr. Choate, Mrs. Choate and Miss Choate, Henry White, secretary of the United States Embassy, and Miss White, J. R. Carter, second secretary of the United States Embassy, and William Woodward, private secretary of Mr. Choate.

JOHN L'S ACTING IS TOO REALISTIC

New York, June 8.—A special to the World from Waterbury, Conn., says: John L. Sullivan's realism on the stage is responsible for the wreck of his "Uncle Tom's Cabin" company in this city. Sullivan, as Simon Legree, used his blacksnake whip in such a vivid manner that the negro actors under him rebelled. Sullivan says these colored men have no sense of the true art in acting.

"The nearer you get to the real thing in acting the more of an artist you are," he said, and he lashed mock slaves on the stage till their backs were patch-work. "Massa John, you're too pow'ful," said Uncle Tom, in a rebellious stage whisper at the last performance, after Sullivan had lashed his back with more than usual vigor. The gallery gods yelled in delight, and John L. lashed some more. The result was a strike, a wrecked company, and a miscellaneous collection of stage settings was loaded for shipment to New York. The freight was not paid, and the railroad company dumped the scenery and trunks on the track and left them there. The negroes carried off all they could, including souvenirs of some of John L.'s greatest battles and a \$75 dress belonging to Topsy, and pawned them about town. Detectives were called to the pugilist's aid, and rounded up Uncle Tom, William Fairfax, William Carmel and George Harris.

ATTORNEY GENERAL KNOX, WHO IS CONDUCTING THE PROSECUTION OF THE BEEF TRUST.

Attorney General Philander C. Knox is just now one of the busiest officials in Washington. When he undertook the prosecution of a case against the beef trust, he began a task of no small proportions. Mr. Knox is well equipped for the job, as he is an expert in corporation law. Somewhat below the middle stature, he is yet impressive and possesses vital and nervous energy in a high degree. He is called an intellectual dynamo by the people who know how his mind works when it is busy with some intricate question of law. His talents were the subject of common talk among the lawyers of Pittsburgh before he went to the capital, and, although a comparatively young man, he had earned the reputation of one of the cleverest and quickest legal minds in Pennsylvania. Mr. Knox is a graduate of Union college of Alliance, O. He went to Pittsburgh soon after he finished his law studies in 1872 and was soon practicing in partnership with James H. Reed. The firm was very successful and ultimately was appointed counsel for the Carnegie company.

AMERICAN HOLDINGS OF CUBAN SUGAR LANDS

Washington, June 7.—Truman G. Palmer of Chicago continued his statement on the subject of American holdings of sugar lands in Cuba before the Senate Cuban Committee.

Summarizing the entire presentation he placed the number of Cuban estates held by Americans, individual and corporate, at 112, with a total acreage of ownership amounting to \$1,482,801, of which 330,846 acres are cane producing. The annual cane capacity of this land he placed at \$30,445 tons, but he said that the lands were not producing to their full capacity and some of them not at all. These American ownerships have war claims against the United States amounting in the aggregate to \$41,335,803.

"Some of the American factories for which claims for damages have been presented," he said, "undoubtedly have not been rebuilt, but neither the Spaniards nor the insurgents could have destroyed the land which was in cane. The cane undoubtedly was destroyed, but the land must be in better condition to grow cane after years of idleness than it was several years ago, when Cuba produced over a million tons of sugar per season."

"Whatever additional scaling down may be done on the statements submitted on the basis of inaccuracies or misstatements on the part of the claimants for damages, the fact must be patent that the holdings by American citizens and corporations of sufficient area to produce as great a crop as the entire island turned out this year, and this is less than one-fourth of the total area owned by American citizens and corporations."

In this connection Palmer said there were other large acreages of Cuban lands owned by outsiders which he had not included in his list. In this excluded list he referred to the 150,000 acres of land which Sir William Van Horne had informed the committee he had come into the possession of. The Conciliation Committee, representing the best sugar Senators, held its second meeting with the Republican members of the Senate Committee on Cuban Relations today. The effort to reach an understanding on the Cuban reciprocity bill was continued, but no agreement was arrived at. The positive announcement was made after the conference that the differences are now no nearer adjustment than before the first conference was held.

SHE SLAPPED BREVAL

New York, June 8.—A cable to the World from Paris says: Lucienne Breval, the noted opera singer, was the heroine of a misadventure exceedingly painful for herself. Mlle. Breval's friendship for George Leygues, Minister of Public Instruction in the Waldeck-Rousseau Cabinet, had long been a matter of public gossip and a source of distress to his wife. Mme. Leygues, in calling on her husband at the Ministry yesterday, chanced to meet the beautiful singer coming out of Leygues' private office.

Mlle. Breval, assuming her most winsome smile, rushed to greet her, but the jealous wife instantly applied two resounding slaps to the singer's cheeks. Mlle. Breval ducked a third blow, which only set her pretty spring hat flying. The antechamber of the Ministry was crowded with statesmen, university professors and officers. Mlle. Breval was led away, while Mme. Leygues entered her husband's office, deliberately closing the double padded doors behind her. The affair is creating a great commotion.

Melbourne, June 8.—Plentiful rains in portions of South Australia and New South Wales have relieved the drought and the outlook is now more hopeful.

Webster Davis Will Leave Kansas City

Kansas City, Mo., June 11.—Webster Davis, who resigned as assistant Secretary of the Interior as a protest against the attitude of the Administration in regard to the Hoers, is to leave Kansas City because of the many unkind things that have been said of him here. It is announced that he will go to New York, where he has accepted a \$25,000 position.

In answer to the charges made against him by Kansas City people that his recent accumulation of wealth is to be traced to the fact that President Kruger entrusted him with a large sum for the aid of the Boer cause in America, his brother said tonight: "Those stories about Webster's having gotten anything out of the Boers are all false. I am in a position to know, for I have handled most of his investments. He made \$41,000 in one day in New York. His books brought him \$150,000, and \$140,000 was invested here in Kansas City."

SMALL PROPORTION OF MILK BELOW STANDARD

Some Familiar Names in Black List—Soda Water Stoppers Receive Careful Attention—Also Baking Soda.

E. C. Shorey, Food Commissioner, in his report of the work done in his department during the month of May gives particulars of 95 samples of milk analyzed which were up to or above standard, and ten samples which were below standard.

"Further work was done in connection with the presence of lead in soda water. A number of stoppers of Hutchinson present in California acids were examined and all found to contain lead in amounts varying from 40 to 60 per cent.

"In my opinion there is little danger of serious contamination from these stoppers if they are kept clean but unfortunately this is almost impossible and after a short time in use the inner side of the stopper becomes coated with lead salts which come off in scales resulting in some bottles containing a comparatively large amount of lead in solution.

"From examination of several samples, and from conversation with manufacturers I found that the use of saccharine as a partial substitute for sugar was common in soda water, and having been asked for an opinion I stated in writing to the soda manufacturers in Honolulu that I considered the use of saccharine an adulteration unless the article containing it bore a label stating its presence.

TROUBLE IS BREWING

THURBER GOT MONEY OF CUBA AND HAVEMEYER

To Boom the Cuban Reduction Scheme -- Voucher Approved By Governor Wood--Came From Cuban Treas-ury--Excuses.

Washington, June 11.—F. B. Thurber, president of the Export Association, the witness who has been wanted by the Committee on Cuban Relations, was before the committee today. Senator Teller produced a copy of a voucher for \$280, showing that that sum had been paid by the military government of Cuba by authority of Governor Wood to the United States Export Association, of which Thurber is president.

The witness said he thought \$20,000 worth of literature had been circulated. He said he had received a contribution of \$2500 from Havemeyer of the sugar trust when he solicited that gentleman for a substantial subscription.

In response to questions by Senator Teller, Thurber said he had been active in the effort to secure a reciprocal arrangement with Cuba. He had come to Washington originally at the instance of the Export Association and of the Cubans who were favoring reciprocity.

Thurber then said that all was done through an understanding that the Export Association should do all possible to get industries on a proper basis. He denied, however, that the money was paid on a verbal order from General Wood, given when the latter was in the United States.

"When asked what was meant by the phrase 'leaders of thought' in his bill to the Cuban Government, Thurber said he had a list of 8000 people in the United States who 'represent something,' to whom this literature was sent.

In reply to a question by Teller as to whether he had consulted Havemeyer of the sugar trust in the preparation of the literature, Thurber said: "After making my argument before the Ways and Means Committee I told Mr. Havemeyer that I had been asked him for a subscription. He gave me a check for \$2500."

"Received payment, United States Export Association. 'F. B. THURBER, President. 'April 2, 1902.' "To service, as per bill attached (see above) in support of the application of the inhabitants of the Island of Cuba for reciprocal tariff relations with the United States, \$2800."

"Under the authority of General Wood March 29, 1902." The document here the following in substance: "Headquarters, Department of Cuba, Havana, April 10, 1902. "The services herein charged for have been rendered under the verbal directions and authority of the Military Government, this voucher, as submitted is approved and the auditor is authorized to issue the same. By direction of the Military Government. "EDWARD MCGOW, Auditor."

ENGLISHMEN WIN SECOND POLO GAME

Hurlingham, June 9.—The betting before the opening of the second polo game was in favor of England, in spite of the American success in the first game of the series played May 31.

At half-time the score was: Englishmen, 2; Americans, 1. In the fourth period the Americans played a resolute game. Miller and Nickalls were hurt, but immediately resumed play.

The score stood England 3, Americans 1, at the close of the period. The fifth period was fine, continued play on both sides and after a grand struggle the Englishmen gradually forced the ball down and scored their fourth goal.

In the sixth period the Americans ran away with the ball and hit the goal, but unluckily they had a man off side and the goal was canceled. In spite of this the American team held on with great pluck and there was a fine struggle in front of the goal.

Dear Sirs: In my innocence I purchased in Honolulu a jar of your

Pin-money Pickles

It brought me great trouble, and one of three things must occur:

- 1. You must stop making them; or
2. I must get them at less expense; or
3. I am a ruined man.

Since my first venture I've had many "Jars." My family from early morn cry "Pickles"; neighbors ring the door bell and shout "Pickles"; relatives visit me in expectation of "Pickles". Your pickles are my Nemeses. Please, dear sirs, quote them by the keg, barrel, hoghead, ton or shipload, and "preserve" me. Yours very truly,

POPULAR COUPLE WED

GILLET-YOUNG NUPTIALS AT ST. ANDREW'S CATHEDRAL.

Bride Niece of Dr. and Mrs. J. S. McGrew—Costly Presents—Pleasant Assembly of Friends—Wedding Trip to States.

The marriage of Miss Maud Gillet to Archibald A. Young in St. Andrew's Cathedral last evening was one of the prettiest weddings of the season. The body of the church was well filled by the friends of the popular couple from the society circles of the city. Guests were conducted to their seats by J. Tarn McGrew, R. W. Shingle, William Williamson and R. E. Wright.

The bridal party entered the church promptly at 8:30, the full surpliced choir rendering the appropriate "Faithful and True" as the bride, preceded by her sister Miss Alice Gillet as maid of honor, marched up the main aisle leaning on the arm of the venerable Dr. McGrew. Miss Gillet and her sister were very prettily gowned. At the chancel the bride was met by Mr. Young, attended by B. Griggs Holt as best man. The Rev. Alexander Mackintosh then read the impressive Episcopal marriage service. Following the usual responses the wedding ring was bestowed upon the bride and the couple proceeded to the altar, where they were pronounced man and wife.

After leaving the church Mr. and Mrs. Young went to the home of Dr. and Mrs. J. S. McGrew, accompanied by a few friends and relatives. Refreshments were served, congratulations extended and toasts offered for happiness of the benedict and his fair bride.

The presents displayed in one of the large rooms of the McGrew home were abundant and costly. Among the most striking pieces were a magnificent cut glass punchbowl with glasses given the bride by Mr. Young's bachelor friends, and a solid silver tea set from Mr. Young's father and mother. It was a late hour when the home party broke up and the bride and groom departed followed by the usual showers of rice with hail stones of old shoes.

Among those present at the home reception were Hon. and Mrs. Alexander Young, Hon. and Mrs. S. M. Damon, Mr. and Mrs. von Hamm, Dr. and Mrs. Anderson, Mr. and Mrs. W. M. Graham, Dr. and Mrs. J. S. Cooper, Mr. and Mrs. S. E. Damon, Miss Nellie White, Mrs. Annis Montague Turner, Mr. and Mrs. W. H. Babbitt, Mr. and Mrs. Harry Macfarlane, Rev. and Mrs. Alexander Mackintosh, Mr. Campbell, Mr. and Mrs. Young leave on the China for a bridal tour through the States.

A FIRST CLASS SHOW

The Orpheum offered a practically entire change of program last evening, giving an entertainment that has never been excelled in Honolulu even by those past masters of vaudeville introduced by Lee and Rial in the World's Entertainers.

The changes introduced were unusually clever, Cogill and Arlea in particular staging a sketch that was original both in plot and dialogue, action and situation. Cogill separately engulfed his audience in laughter with a fresh budget of songs, Male Arlea appearing to special advantage in a skipping rope dance and other specialties.

The newly introduced team of the Warsaw Brothers achieved the hit last evening. The team is a musical one with the reputation, fully lived up to last night, of playing on every musical instrument known to modern orchestration, not merely with the capacity of one or more airs, but with the ability of masters. Last night the saxophone, piano, mandolin, guitar and an instrument, the name of which the critic wrote not of, but which looks like an earthly edition of Gabriel's Horn, demonstrated the ability of the brothers as artists of the first rank. They added to this much amusing evidence of their right to be called comedians. Caston gave a great exhibition of dancing last night to an excellent piano accompaniment and had three brand new songs.

Lena Harvey brought into local favor several pretty ballads. Aquinaldo varied her clever performance, as did Della Ross and Adalina Sartina. Throughout the program is worthy of big patronage. Nothing better has been seen here.

LOCAL AND GENERAL

Q. H. Berrey's office, 8 Campbell bid. The place to get pure Kona coffee is at G. J. Day's grocery. Word came by yesterday's steamer that Rev. W. H. Sullivan, scheduled for the presidency of Oahu College, will not come to Honolulu, he having accepted a position in a Minnesota College.

The big Chinese gambling case came up for trial in the Police Court this forenoon. Seven of the number pleaded guilty but the other 89 pleaded not guilty and, the attorney for the defense asking for further time, all the cases went over until tomorrow forenoon.

The commencement exercises of the Honolulu High School will take place tomorrow. Following will be the graduates: Miss Marie Blanche Mulren, Miss Abbie Marion Dow, Alfred Dykes Cooper, Clarence Jennings Peterson, James Derwent Kennedy and Kongo Kawasaki. Partial course—Miss Margaret Montague Cooke and Lewis King.

There was to have been a meeting of the Third Precinct Club of the Fourth District in Nuuanu valley last evening, but for some reason or other the voters did not show up and it became necessary on account of the lack of enough men to carry on the work, to postpone the nomination of officers until tonight. Every voter of the precinct is expected to turn out.

Hunise, the Japanese charged with an attempt at rape on Tami, had his case nolle pro'd in the Police Court today. Deputy Sheriff Chillingworth stated that he believed the case to have been brought about as a retaliatory measure because the other day Hunise caused the arrest of the four Japanese who had put up the woman Tami to act in this last matter.

A grand concert will be given by the Charity Army Mission of Kaula in the Kaula Kindergarten Saturday, June 21, at 8 p. m., under the leadership of Rev. Samuel K. Kamakala. This concert will be in the nature of a benefit for the Charity Army Mission. One of the features of the program will be a cornet solo by Mr. Kamakala. Tickets may be had of members of the mission or at the door.

Hop Kee, a Chinese shopkeeper, appeared in the Police Court this forenoon on the charge of selling tobacco without a license. J. Batchelor, Inspector of Licenses, had been after the Chinaman on several occasions and the fellow had always put him off and refused to act. Consequently, a penal summons was issued the other day and Kee immediately went up after a license. This he showed to the court this morning but, as dates do not lie, Judge Wilcox found Hop Kee guilty and fined him \$10 and costs.

Kaona, one of the oldest drivers for the Union Feed Company, appeared in the Police Court this forenoon on the charge of larceny in the second degree by stealing oats, bran, barley and corn, the value of the whole amounting to \$89.55. Defendant waived examination and was committed to the Circuit Court for trial. The friends of Kaona do not believe that there has been any intentional theft on the part of the native, for he has ever been one of the very best and hardest-working Hawaiians in the community, and has the respect of all who know him on account of his exemplary conduct.

WILCOX COMING HOME

A letter from Delegate Robert Wilcox was received by one of the prominent Home Rulers in yesterday's steamer. In it, Hawaii's representative states that he will be back in Honolulu on the 27th inst.

GARDEN ISLE ALSO HELD CELEBRATION

(Continued from page 1.) A very interesting series of games could be arranged for the season. Another big event was the tug-of-war between a team of five men from Koloa and another from Waimea. They pulled according to the old style, every man standing. A number of races were represented on the teams but the Koloa aggregation had the best mixture and had the Waimea fellows coming their way.

A novelty was introduced in the shape of seven big Porto Ricans pulling against one native mounted on a small Hawaiian pony. The pony combination won three out of five pulls and carried off the money prize. The native boasted that he could pull seven more Porto Ricans added to the original number.

The one hundred and fifty yards dashes were both won by Henry Sheldon of this city, who is at present visiting his father on the Garden Isle. There were other sports such as putting the shot, jumping and the like and the day was topped off by a big luau given in the courthouse and to which everybody was invited. It being Saturday night, everybody went and a jolly time was had.

All the events of the day were in the hands of a committee of Koloa citizens and all the money was put up by Koloa people. The day's entertainment was one of the best Kauai has ever had and the success scored reflects great credit on the citizens upon whose shoulders all the responsibility rested. On the Fourth of July there will be a number of horse races at Kealia and that town will do its best to outshine the 11th of June celebration given at Koloa.

Associated Charities At Its Annual Session

The annual meeting of the Associated Charities was held in the Y. M. C. A. yesterday afternoon. At that time a resolution was passed whereby the executive committee is empowered to present the matter of obtaining aid from the Government for the affiliated societies and have each one endorse the plan. The idea was suggested by George R. Carter, the treasurer, who spoke quite at length in favor of the measure. Among other things, he said the Associated Charities being non-sectarian and organized for the benefit of the whole community, was in a position to receive such assistance for maintenance. Governor Dole was another who spoke in favor of the measure. He saw no objection to the Government controlling it.

Mrs. Berger, manager of the Associated Charities, reported, in part, as follows: For the first time since the organization of this society, the Chinese have applied for aid. These applicants have in all cases either been old men, or widows with children, all suffering from the great fire, who have been reduced to poverty by the delayed payment of the fire claims. Mr. C. K. Al has been of considerable assistance in investigating and reporting on these cases, and all have been provided for.

We are greatly indebted to the Strangers' Friend Society for the use of free beds in the Queen's Hospital, where the officials, physicians and nurses have been unflinching in their courtesy and kindness. Thirty-six cases have been treated there.

The Castle Home, and Day Nursery, and the Salvation Army Rescue Home solve many a problem for us, and what should we have done without the Kona Orphanage, which cares for forty children, nearly all from this city?

But the care of the aged is more difficult. The old, decrepit men are housed in different parts of the city, either in separate rooms or in small groups at considerable expense. Situated as they are they must do their own cooking, cleaning, washing and mending. We are able to keep them well clothed from the quantities of clothing sent to this office, and books, papers and magazines are furnished in the same way, and they are made as comfortable as possible under the existing conditions. But you see the need there is for a real home for these poor old dependents.

Private donations have been of the greatest possible help in putting people on their feet again, enabling — or compelling them as the case may be — to be self-supporting. We are endeavoring to give a man a dollar in money, but we gladly spend many dollars to put people in the way of earning their own living, and while the means or equipment may seem extravagant at first, in the end it is much cheaper and is always better.

Each year we draw nearer and nearer to the real centralization of the charity work of the city, and get more in touch with the affiliating societies and their many beneficiaries. There are many people receiving continuous relief who have been receiving it for years, and this year's applicants only however, the children have grown large enough to take positions and so support the families, and this we urge and assist them to do.

Charity work is private or should be, so we make no mention of specific cases, where ready help has been given to people suddenly, and sometimes shockingly bereft. But we wish, in the names of these afflicted ones, to thank the people of these islands for their generous aid in times of great trouble, who we could not otherwise have managed certain cases.

These are strenuous times, when many are unemployed, and the demands made upon us are frequent and pressing. But we have no fear for the future, just working on day by day, hoping that none may suffer, but that all will thrive.

The report of George R. Carter, treasurer of the society, was as follows: It takes \$2500 to keep up the Bureau of Associated Charities. This provides

headquarters for all applicants, prevents the overlapping of charity, and relieves the voluntary officers of the affiliated organizations of the work and investigation. And the whole sum is only about 70 per cent of the amounts distributed each year by the charitable organizations of this city.

From a study of the manager's reports for the last three years, it is evident the work has greatly increased, and that the bureau is gradually assuming the care of the old, the helpless and the destitute.

The question arises, does it pay? Are we justified in asking a few generous people of this community to keep up this bureau? If it is a benefit to the community as a whole, why should it not be supported by all? One of the arguments used by those in favor of municipal government is that each municipality can then assume the care of its poor and helpless, and the whole island will not be taxed for the benefit of the larger communities.

One point is certain, that today our Government—yes, the whole community—is deficient in charitable institutions for all races except the Hawaiian. The Queen's Hospital is supported largely by private funds given by a Hawaiian monarch for the benefit of the Hawaiian people. Our insane asylum needs new and better buildings; while we have no public poorhouse, no orphanage, and no home for the aged. And yet, with all our many blessings, we are not free from the poor, the orphan and the old.

Now, if this bureau represents all societies, all sects and all races, why is it not proper to have it supported from public funds? Can we not arouse public sentiment so as to bring the matter forcibly before the next Legislature? During times of depression such as we have been experiencing, poverty increases, the demands upon charity double, and our work increases accordingly, while it is all the harder to secure the funds needed.

With the combined assistance of all, perhaps in another year we can be relieved of the worry for our future, and can, under some kind of public control, devote our energies to seeking out the worthy who need assistance, and to help up those who have fallen.

To the committee which has so far supported us we extend our sincere thanks, and firmly believe that they could not have used their funds to better advantage.

To the societies that make up this bureau, we ask you to use it more and more; to come closer in touch with the other organizations which are, after all, in perhaps different ways, working to the same grand end, and shoulder to shoulder, accomplish as much as can be done toward making life easier for the unfortunate and afflicted.

Mrs. Whitney, the secretary, read a lengthy paper on "The Subtle Problem of Charity," giving a history of organized charities.

Governor Dole in referring to the society said he believed the work of the Associated Charities of Hawaii had fully vindicated its creation. Several of the societies had testified to a large saving in their expenditures since joining the Associated Charities. House to house applications for assistance had been substantially broken up through the system of reference in such cases to the central office and the investigation that immediately follows such reference.

The speaker continuing his remarks said that the Associated Charities and the police may be credited with the substantial extinction of begging in the streets of Honolulu. There are no longer any professional beggars on the streets.

In conclusion, the Governor expressed his thanks to Mrs. Berger for her industry, tact and firmness in the management of the affairs of the institution, and for her success in bringing the business basis to its present solid foundation. He believed that more than \$2500 used for expenses was saved under the present administration.

London Latest Horror. London, June 8.—The remains of a young woman, sawed and chopped up into a dozen pieces, have been found in an alley in the Lambeth district. The body had apparently been baked and boiled. The scalp had been torn off, and the hands, feet and intestines were missing. It has been impossible to identify the remains as the face was practically destroyed.

Patton Resigns. Princeton, N. J., June 9.—The chief event in connection with Princeton's 155th commencement came as a great surprise today at the annual meeting of the board of trustees, when President Francis J. Patton resigned the presidency and Professor Woodrow Wilson, McCormick professor of jurisprudence and politics, was elected to succeed him. There was a full attendance of the trustees, and after the meeting had been called to order President Patton handed in his resignation and at the same time suggested that Prof. Wilson be elected to succeed him. A prominent member of the board of trustees said that President Patton so strongly urged his own resignation that the board could not do otherwise than accept it. The election of Prof. Wilson was made unanimous on the first ballot.

President Patton afterward made the following statement: "I have resigned my office as president of the university because I desire to carry on my literary plans on a larger scale than I could do by retaining the presidency. This is really all there is to say. I shall retain my professorship in the university in the chair of ethics and the philosophy of religion. I have been president of the university for fourteen years."

Former President Cleveland was among the members of the board present at today's meeting.

China Voluntarily Opens New Ports. Tacoma, Wash., June 8.—The most important news brought by the steamship Duke of Pife is that the Chinese Government has decided to open either late this year or in next January eight important cities as international commercial ports. High provincial authorities of Yang-tse provinces have recommended this action upon the suggestion of Sir James Mackay, who has advised that a much better impression will be created if China opens these ports voluntarily instead of being forced by foreign powers by means of the new treaty now being framed.

The cities to be opened are as follows: In Chihli province, the prefectural city of Shun-tien-fu or Peking; in Kwantung province, the district city of Ching-ming-shien, in Hainan province, the prefectural city of Changsa and Changte; in Anhui province, the prefectural city of An-hing-fu or Nanking; in Szechuan province, the prefectural city of Cheng-tu and the departmental city of Hachou; in Kiangsi province, the independent sub-prefectural city of Hokou. Of these cities four are provincial capitals and headquarters of Governors or Viceroy.

Limit Fixed in Which Boers Must Surrender

Cape Town, June 11.—An extraordinary issue of the Official Gazette published today fixes July 10 as the limit in which the Boers or Rebels who surrender will receive the benefit of the peace terms. All the rebels surrendering before that date will be merely disfranchised for life and will not be subject to trial or punishment. Exception is made in the case of field cornets and justices of the peace, who may be tried and fined or imprisoned, but they will not

MEN, WAKE UP!

Are You Weak? Are You Easily Tired? Have You Dragging Pains? Have You Varicose Veins?

Have you lost the fire and strength of youth? Have you "come and go" pains in your back and shoulders? Are you growing old too soon?

If you have these symptoms or any other sign of breaking down of your nerves and vitality you will find new life in electricity as applied while you sleep.

DR. McLAUGHLIN'S ELECTRIC BELT

It is made for you. It is the best way to use electricity. It pours a gentle stream of life into the weak parts continually for hours every night. It refreshes the nerves, expands the vital powers, enriches bright, active and vigorous in one day, and in a few weeks you are a new man, stronger and younger in the fire of youth.

Don't delay trying it. Your future happiness depends on your checking this drain upon your vitality, so stop it now and you can be sure of a long and vigorous life, full of the joys of a healthy vigor.

PHILIPPINE LOOP HOLE

NO PENALTY IS PROVIDED TO PREVENT SMUGGLING

Interesting Discovery Made In San Francisco—Goods Must Be Passed If Duty Is Finally Paid.

San Francisco, June 11.—A weak spot in the Philippine tariff bill has been discovered by Cress Unger, chief clerk of the Custom House, and on account of the defect it will be impossible to punish persons detected in smuggling goods into the United States from the islands. Though Unger felt sure of his ground, he submitted a hypothetical case to the department, and Collector Stratton was informed yesterday that if the person who attempted to evade the customs duties refused to pay them when detected there was nothing to do but seize the goods and sell them as unclaimed. In case, however, he paid the duty the goods might be delivered to him.

It was suggested by a high official in the service of the Treasury Department that through hasty legislation, found necessary after ports had been opened to free entry of Philippine goods by the Supreme Court's decision in the "fourteen diamond ring case," the Philippine tariff act had been passed without inserting any reference to the statutes providing a punishment for smuggling as "fraudulently importing goods from foreign countries without payment of duty," and fixing the punishment thereon as unimprisonable as far as the Philippine invoices are concerned.

Pending this decision Unger had directed the detention of dutiable goods which came from the Philippines through the mail, and these will now be placed in the unclaimed warehouse unless the consignees pay the duty.

Some time ago J. W. Winklebach was taken before the special agents for receiving a quantity of just cloth through the mail from a clerk in the Manila postoffice, but as it could not be shown that he had any knowledge of the transmission of the goods until they were received he was allowed to take them on the payment of duty.

Coming as it does on the heels of the loophole in the customs cordon through Tutuila, the discovery has caused considerable consternation among those charged with guarding the Government's revenues. From the Samoan islands goods may be brought to this country duty free when accompanied by a certificate from the customs officials there showing that the duty levied upon Tutuila was paid. This duty, fixed by the Naval Governor of Tutuila, is but 2 per cent ad valorem on all merchandise, except wines, liquors, tobacco and cigars, imported from a foreign country, and the Dingley tariff may not be applied until Congress takes action.

SWEEP OF TORNADO. Bloomington, Ill., June 11.—Sweep over a stretch of country 100 miles in width and devastating territory fully 200 miles long, extending from Livingston county on the north and McHenry county on the south, and leaving its mark clear across the face of Central Illinois, a tornado last night inflicted property loss which will aggregate \$1,000,000 and cost a dozen lives. The brunt of the storm fell upon McLean and adjoining counties. The wind reached a velocity of 100 miles an hour, and the situation was the worst ever recorded in the history of Central Illinois. Not a village or city of McLean county escaped, and from every district comes the same report of destroyed buildings, injury to growing crops and razed fruit and shade trees.

WRITTEN AUTHORITY REQUIRED TO HOLD PRISONERS

(Continued from page 1.)

proper papers were prepared and furnished to the jailer. If the prisoner were released under this writ, could he be arrested again?

Mr. Douthitt thought he could be. "You have a warrant ready for him?" queried Mr. Brooks.

"To be candid with you, I have," answered the Assistant Attorney General. "I can send him to prison under the mittimus, but cannot hold him there."

The court at this stage found as a fact that the prisoner was held without authority to hold the prisoner.

Mr. Davis here introduced a dramatic touch by beckoning the prisoner from a back bench to sit beside his counsel, and then vigorously protesting to the court against the presence of a policeman menacing the prisoner. He was interrupted by his associate, Mr. Brooks, who said it was the old mittimus and all right, concluding, "That is all, Your Honor."

Judge Gear said he would discharge the prisoner, but Mr. Douthitt persisted in arguing that the course he had suggested was the proper one for the court. The judge said it might be straight enough since he as the trial judge knew the facts but suppose Judge Robinson were fearing the petition was there to show him that the conviction, etc., were regular? He was bound by the Orlemo case. If the prisoner were held he would decide that it could only be under the certified judgment.

Mr. Douthitt, upon a faint from Mr. Davis about the responsibility of the Attorney General's office for correct procedure, warmly remarked that whenever a verdict in a criminal case was rendered the Attorney General or his representatives was quit of the case. It was an exploded idea that prevailed here that it was the duty of the prosecuting officer to move for sentence.

The reporters for the afternoon papers had been hanging on for half an hour after the usual time of turning in latest copy, if possible to get the decision in yesterday's issue. They thought they had it now and were just going out the door when a remark from the bench made them return.

It sounded as if as Portia's elucidation of the nub of Shylock's bond, but Portia did not have a Davis to fight. The attorney was bothered for about a minute, in which he had a break to get the petition amended, but he suddenly recollected something he had read in "Church on Habeas Corpus," and it turned things his way again.

Judge Gear incited the fresh wrangle by observing that the case had assumed a new phase since the writ of habeas corpus was issued. The petition alleged that the prisoner was unlawfully restrained of his liberty because he was tried before the judge now speaking while Judge Humphreys was speaking court. He could not go beyond the cause stated in the petition, and he believed that his holding of the trial was legal.

Mr. Davis here made the motion to amend the petition, by inserting the words, "that he is restrained of his liberty without written authority." At the same time he reverted to his argument over the papers, followed by Mr. Brooks on the same line. They contended that having asserted illegal restraint they were not bound to show how the man was illegally imprisoned if the respondent failed to show that he was legally held. Mr. Douthitt said the proceedings were analogous to a civil action, where the court was bound to decide by the pleadings. To this Mr. Davis eagerly assented, but turning the argument in the other direction. In habeas corpus the court did not decide on the petition, but on the pleadings—to wit, on the return.

"You have held," said Mr. Douthitt to the court, "that the proceedings before yourself while Judge Humphreys was holding court were legal?" "I have," answered the court.

"Then that is an end of it," observed the government attorney.

Mr. Davis here recited his reading of Church and asked leave, as his feet sped toward the law library, to fetch the book. Returning with the volume he read the rule that where a respondent in habeas corpus failed to show legal restraint the court must set the captive free. "You are a good lawyer," he affectionately pleaded with the judge, "and are bound to recognize this authority."

Judge Gear received the authority from counsel's hand and after perusing the open page said that it brought him back to the original judgment. When Mr. Douthitt urged the specific grievance of the complaint as exclusive of newly discovered ones, contending that the latter constituted a different cause of action altogether, the court asked him to suppose his return did not

WORK OF COWARD VENTS HIS SPLEEN ON A POOR DUMB BRUTE

Horse of Washington Mercantile Company Cut In Several Places On Left Side—Warrant Out.

A warrant will be sworn out this afternoon by Otto Gertz, the young man who has charge of the Kalbi branch of the Washington Mercantile Company, for the arrest of a young Portuguese on the charge of malicious injury. The circumstances leading up to the arrest, as told by Gertz himself, are as follows:

"On Saturday night last, according to orders which I had received from headquarters, I dismissed the Portuguese. He was very angry but went away, and I saw very little of him until yesterday.

"The fellow was standing about a quarter of a mile away from the store. I instructed the new driver of the store wagon not to allow the other man to ride with him, should he seek to do so.

"Later on, I learned that he had made an attempt to ride in the wagon and had been thrown out because he was not allowed to do so.

"At 12 noon, I met him and we had quite a row. I told the fellow that I had told Day & Co. of his actions at the store and his reason for being fired and that if he continued his offensive demeanor, I would tell them more so that if he intended going there, as I had already heard, they would not take him.

"He became very angry at this and left me saying, 'All right; I'll fix you, I thought no more of the fellow, but this morning when I went to the stable, I found the wagon horse cut in three places on the left side and on the left front leg, the latter being the worse cut of all. Upon inquiry about the neighborhood, I learned that the Portuguese had been seen lurking around in the neighborhood of the store last night."

"The cuts on the poor horse are not so very deep and look as if the dastardly work had been done with a dull jack knife. The cut on the front leg was worst of all and looks as if a cowardly prospector had pinged the knife down ward in the flesh and then wound it around a couple of times."

JORDAN PASSES THROUGH

Stanford University, June 11.—President David Starr Jordan will leave the university tomorrow and sail by the Sierra at 7 p. m. from San Francisco for the Samoan Islands. He will spend the summer in the islands, making his headquarters at Apia. Dr. Jordan has in charge the work of the United States Fish Commission in the Pacific, and he will study and collect the shore fishes of Samoa, his report being brought out by the commission, and the collections added to the National Museum at Washington. Collections will also be made for the zoological museum of Stanford University.

Dr. Jordan will be assisted by Prof. Vernon Lyman Kellogg, head of the department of entomology of the university, who will also study the insect and bird life of the islands, a field almost unsearched, and of great interest to naturalists from the long isolation of the island forms. The fauna and flora of Samoa are among the most peculiar of the world, and it is hoped much light will be thrown on the problems of development by their study.

Prof. Allardice of the department of mathematics also accompanies the expedition as a volunteer, and Dr. Jordan will have the help of Michitaro Sindo, a Japanese student of the university, who has accompanied him on his former tours to Hawaii and Japan.

Dr. Jordan will be accompanied by Mrs. Jordan and their son, Knight Jordan, and the party will return to this country August 25.

RAPID TRANSIT BOOMS

The Rapid Transit Co. received news by the Sierra yesterday that bonds to the amount of \$215,000, constituting the money necessary for present building needs, had all been placed so that there remain no obstacles in the way of steady progress.

The Rapid Transit Co. has also the good news to offer that it has authorized the further extension of the King street line to McCully street, a distance of about a half mile from the Waikiki turn of King street which it was expected would be the terminus.

REVOLUTION SONS' ANNUAL SESSION

(Continued from page 1.)

come to hand. There were upward of seven hundred compatriots and guests present, representing every part of the United States. The speaking was of a high order, and the whole proceedings were pervaded by intense patriotic and fraternal feeling. The greatest enthusiasm was called forth by the ringing speech of President Roosevelt, especially by his statement that "this Republic has raised its flag in the islands of the Eastern Sea, and it will stay there," and by his appeal to the sons of the patriots of the Revolution to stand by that flag to the end.

Eloquent speeches were also made by Senator Lodge, at the resting place of Mr. Walter Scott Logan and by Mr. Edwin Ward of Maryland, the newly elected president general.

A resolution was passed by a unanimous vote that a committee of five be appointed by the president general to devise methods and means for instructing our alien immigrants in American principles. Also by a close vote, the constitution was so changed as to allow of the re-election of a president at the close of one term of office.

Mr. Logan exhorted the society to remember that "it was the red blood of achievement and not the blue blood of ancestry that accomplished things."

An infusion of fresh new blood would strengthen our society, and there are certainly many persons in this Territory who are eligible, but have not yet applied for membership. It would suggest that special efforts should be made to interest them in the objects of our society, and that circulars be sent out from time to time, containing news of special interest to members of the society.

THE EXECUTIVE COUNCIL

Superintendent of Public Works J. H. Boyd submitted a statement of proposed land exchanges for widening the Waikiki road to the executive council this morning. The deals were approved but could not be given out as yet for publication.

Commissioner of Public Lands E. B. Boyd submitted an application of Palmer Woods for lease to assign by mortgage to the Bishop Museum Trust the lease of Kohala-pui.

MANY SHIPS COME FROM MANY PORTS

The favorable trade wind prevailing brought quite a number of vessels into port this morning and the waterfronters are looking for still more of the windjammers now due to turn up soon so that quite a bit of business is expected to be doing on the front.

This morning the Fearless had more business than she could attend to at one time, there being no less than four vessels off the harbor, and the tug Elee got a chance at a tow.

First of all, the American schooner George C. Perkins came in after a trip of twenty-three days from Eureka. She had light southerly winds during the whole voyage. She was docked at Naval wharf No. 2, where she will discharge her cargo, consisting of 400,000 feet of lumber consigned to Lewers & Cooke.

The big British ship Yola came in yesterday and was moored at the Irmgard wharf. She was followed by the American bark Albert, Captain Turao, which returns from Laysan Island, with about 100 tons of guano for Hackfeld & Co.

S. S. NEVADA COMING

Agent C. Percy Morse, of the Hawaiian-American Steamship Co., has received news from the Coast that the company's new steamer Nevada, which is at present on her way to San Francisco from New York, will leave San Francisco for this port on or about July 8.

The Nevada is expected to arrive in San Francisco on about June 26, when she will immediately proceed to take on board cargo for Honolulu. This steamer will be put on the regular run between San Francisco and Honolulu, taking the place of the Hydades which was under the charter of the company.

TO TEST CRICKETERS

On Saturday afternoon at 2:30 o'clock there will be a cricket match on the Makiki grounds which will take on the nature of a test, as the teams which are to play in the big Coronation Day game will be picked from the men playing on Saturday.

HEALAN'S NEW SHELL.

By the Sierra arrived yesterday from San Francisco the Healan's received their new English shell which was transhipped in San Francisco from the American-Hawaiian steamer to the Sprockels boat.

The new shell was taken to the club house soon after the steamer arrived and was inspected by the members who felt very much pleased with the appearance of the boat. It is nearly the same in detail as the Boston boat imported last year. Instead of the regulation our locks on the outrigger pins are used. The boat was built by Rough of Oxford and the oars, of which there are two sets, were built by Ayling & Sons of Putney.

SEALED TENDERS.

Sealed Tenders will be received by the Superintendent of Public Works until 12 m. of Friday, June 27th, 1902, for constructing Section "C" of Kewalo Drainage.

NOTICE TO CREDITORS.

All creditors of Mary MacPherson, deceased, are hereby notified to present their claims, duly authenticated, and with the proper vouchers, if any exist, even if the claim is secured by mortgage upon real estate, to me at my residence, DELMONICO HOTEL, on Beretania street near Fort Street, next to Fire Station, in Honolulu, Iland of Oahu, Territory of Hawaii, within SIX MONTHS from the date of this notice. If such claims be not presented within six months from the date of this notice they shall be forever barred.

NAMES ARE MIXED IN EQUITY SUIT

(Continued from page 1.)

States Supreme Court decision that not merely exempted but prohibited the Collector of Internal Revenue from producing his records of other matters as well as taxation in court without consent of the Secretary of the Treasury or the head of the Bureau. Accordingly, he said that counsel for the defendant could not do otherwise than assent to the advising of Mr. Chamberlain not to give the particular evidence.

The court announced that its ruling was in accordance with the decision quoted. Judge Humphreys stated that some time ago Mr. Dunne, while acting District Attorney, showed him the decision of the Federal Supreme Court, so that when the point was raised his mind had been already made up. He excused Mr. Chamberlain.

Chung Yik was called and testified that the name given was his "style." Yes, he had another name, which was Chung Yee, but made the change of cognomen two or three years ago. Why? Because Chung Yee was the name belonging to him as a boy. He changed it because he got married. His marriage took place about five years ago, he stated in answer to a following question. That there was any difference, in point of fact, between "two or three" years and "five" years did not seem to bother the witness. He would appear to lack only polish for being an artistic narrator.

The case may have more widespread results than its intrinsic merits produce. If there should be fraud determined in the lease under dispute, the possibility is that a similar cloud of title might develop in neighboring leaseholds to that before the court. Messrs. McChesney and Griswold, who conveyed a batch of leaseholds to the Waikiki Land and Loan Association, which is a party defendant to this suit, are watching the proceedings with some concern.
