Insurance.

WHY THE Equitable Life Assurance Society

of the United States is the Best company with which to Assure.

I.—Because of its Safety.

Its surplus is larger than that of any other assurance company.

II.—Because of its Promptness.

Of 1,043 death claims paid in 1885, nearly one-half were paid the very day proofs were received; while of the remainder, the majority were paid within the following three days. No other company can show such a record.

III.—Because of its Liberality and Reforms.

All policies are INCONTESTABLE after three years. All incontestable policies are payable immediately upon receipt of proofs of death. The Society's policy contract is clear and simple, and liberal in its conditions. Its Non-forfeiting Tontine (or Semi-Tontine) policy affords all the ultimate benefits of the full Tontine, and has during its earlier years the surrender value and other material advantages of ordinary life policies.

IV.—Profit.

No other company is paying on its policies, as large profits as are shown under the Equitable's matured Tontine policies with fifteen-year periods. Persons desiring assurance may obtain estimates of the probable results of similar policies, and of policies with twenty-year terms, which are expected to show even larger profits.

V.—Prospective Advantages.

The unexampled progress of the Equitable in the past is the best guarantee of the increasing future value of assurance with the Equitable.

SATURDAY, OCT. 23, 1886.

TRUTH ABOUT MISSIONARY RULE.

There is probably no one subject affecting this Kingdom on which there has been so much wild, erroneous, ignorant, and malicious local talk as the subject of "Missionary Rule." That people in the distance should get false impressions from scraps of imperfect information, is not to be wondered at; but that so large a proportion of false assertion should pass as truth at home, where the facts are known to many and may be learned by all, is surprising. Perhaps the true explanation is that some unprincipled people with strong prejudices, who know better, seek to advance their own selfish aims by blacking the character of missionaries, and bringing their principles of government into disrepute, while more recent arrivals receive the false assertions without sufficient interest in the matter to trouble about ascertaining their validity. Among the many false impressions of erroneously informed new comers is the belief that, up to the time of the present Prime Minister's advent to power, the Missionaries had entire control of the Government, and conducted it in their own interests, to the exclusion of all others. Nothing can be farther from truth. The fact that such strong minded men as Doctor Hutchinson and others, with no missionary connection or sympathy whatever, held Cabinet positions for many years, with several men of a similar stamp filling important subordinate offices, shows the utter fallacy of the belief just now referred to. As to missionary interests having been served, to the neglect of others, no stronger testimony to the contrary is required than that of a very old resident of these islands, uttered on Fort Street the other day, in hearing of a knot of listeners. Said he, "You may say what you please about missionaries. I don't like them, and they don't like me. I am a hardened old sinner who hasn't been in church for forty years. But fair play, boys. I have been here over thirty years, and I can tell you I don't want any better Government than what you call missionary government. We had things straight and honest then, but what have we now? Give me missionary government all the time, and then I know my taxes are honestly expended for the general good. I want a decent and respectable government, whatever I may be myself; and that is what the missionary government was."

BON VOYAGE AND SAFE BACK!

His Excellency George W. Merrill, United States Minister Resident, and Mrs. Merrill, are about to leave Honolulu on a short visit to their native land, the United States of America. Mr. and Mrs. Merrill have been here about a year and a half, and have secured the hearty friendship of the community. Not only do they stand well with their own people, the American residents, but are much respected and highly esteemed by all nationalities represented in this polyglot population. Their brief absence will leave a blank in social circles, that will be undoubtedly felt until their return. They take with them the best wishes of the community, with which the BULLETIN cordially joins, for a pleasant voyage, an enjoyable vacation, and a safe return.

PATRONIZE HOME INDUSTRY

By buying cigars of J. W. Hingley, Cigar Manufacturer, at the Crystal Soda Works, where he is prepared to fill all orders at the lowest possible wholesale prices. Island orders solicited and promptly filled. The attention of dealers is respectfully invited to the fact "no license is required" to sell these cigars. Do not forget the name J. W. Hingley, nor the place Crystal Soda Works, Hotel street.

THE PLANTERS' CONVENTION.

ANNUAL MEETING OF THE PLANTERS' LABOR AND SUPPLY COMPANY.

The Planters' Labor and Supply Co. met at the Chambers of Commerce, Campbell's block, on Monday 18th inst, at 10 o'clock a. m. Hon. S. B. Dole, President, took the chair, and Hon. L. A. Thurston, Secretary, called the roll, which showed the following shareholders represented: A. N. Baldwin, S. G. Alexander, J. B. Atherton, H. P. Baldwin, Beecroft Plantation, E. C. Bond, C. M. Cooke, B. F. Dillingham, S. B. Dole, Grove Ranch Plantation, Hawaiian Agricultural Company, Hitchcock & Co., R. Halstead, Honolulu Plantation, J. M. Horner, W. Y. Horner, Haku Sugar Co., P. Isenberg, P. C. Jones, Kaneohe Plantation, Kilauea Sugar Co., Koolala Sugar Co., Kipahulu Mill, Kipahulu Plantation, W. Lidgate & Co., Makee Sugar Co., R. A. Macfie Jr., Princeville Plantation, Pacific Sugar Mill Co., W. H. Purvis & Co., Richard, A. H. Smith & Co., W. O. Smith, A. H. Smith, Z. S. Spalding, F. A. Schaefer, J. G. Spencer, G. N. Wilcox, A. S. Wilcox, Wailuku Sugar Co., Waiakea Mill Co., T. R. Walker, Andrew Welsh.

THE SECRETARY'S ANNUAL REPORT.

To the President and stockholders of the Planters' Labor and Supply Company—Gentlemen: The following is respectfully submitted as the Secretary's report for the past year:

TRUSTEES AND OFFICERS.

At its last annual meeting, held October 10, 1885, the company elected the following named gentlemen as Trustees: S. B. Dole, H. P. Baldwin, W. E. Rowell, G. N. Wilcox, R. Halstead, H. F. Glade, R. A. Macfie, J. B. Atherton, P. C. Jones, L. A. Thurston, W. Y. Horner, J. M. Horner, W. R. Castle. The following officers were elected by the Trustees: President, S. B. Dole; Vice-President, H. P. Baldwin; Treasurer, P. C. Jones; Secretary, L. A. Thurston; Auditor, J. B. Atherton. The Trustees have held five meetings during the year.

IMMIGRATION AND LABOR.

During the year ending October, 1885, immigration laborers were brought into the country to the number of 1,734, consisting of Portuguese, 63; Japanese, 1,598; South Sea Islanders, 73. This was in addition to women and children. The following is a statement of the arrival of immigrants since the last annual meeting: March 2, 1886, by the Strlingshire-Portuguese, men, 148; women, 99; children, 192; total 439. February 4, 1886, by City of Pekin—Japanese, men, 690; women, 228; total 918. September—1886, by Amama—Portuguese, men, 146; women, 116; children, 239; total 501. Total, Portuguese, men, 294; women, 215; children, 431. Total, Japanese, men, 690. Total new laborers for the year, 684. Ditto for two years last past, 2,718.

No South Sea Island immigrants have been obtained during the year, the last attempt of the Hazard, two years ago, met with such poor success. The brig Allie Rowe is now on a trip to the South, with orders for 200. The South Sea Islanders are obtained at lower wages than either Japanese or Portuguese, but it is doubtful policy to obtain them, as almost without exception they return home upon the expiration of their contracts, the expense of getting them here hereby becoming a dead loss. As none of the Japanese contracts have yet expired, we cannot say what they will do, but it is probable that a large proportion of them will remain in the country. The Portuguese have shown that in the main they will make a permanent population, but a small proportion of the whole number brought here have gone to California, and the reports from those who have gone there are that they regret the change and would be glad to get back.

There is no doubt that the expense of obtaining Japanese at \$55 each and Portuguese at \$10 each is very much more than is necessary. These figures have given the introducers of the laborers a much larger margin of profit than the planter can afford to pay, and there is no reason why the figures should not be very much reduced in the future.

The obtaining of laborers during the coming year is a question of the greatest importance. The position of the Government with relation to the subject is doubtful. Some time ago it was announced that the Government would not undertake to introduce any more labor for the present. Since that a partial change of Administration has taken place and an item of \$250,000 for immigration purposes has been placed in the Loan bill. It is, however, optional with the Government to borrow the money and expend it for this purpose, and no further declaration of policy has been made since that above mentioned. Meanwhile the available plantation laborers are growing less in number by reason of departure and engaging in other occupations, and necessity for a new supply will soon become urgent. There are now applications on file for about 700 Japanese, and a much larger number will soon be required. In several of the districts labor is

abundant at the present rate of wages, but any decrease in wages would immediately cause a scarcity of labor. With the present prices of sugar cheap labor is an absolute essential to the future existence of the sugar industry. It is not a question of sentiment or advisability of high or low grade labor; it is simply a cold question of fact—will you continue the sugar industry with cheap labor, or will you abolish the sugar industry of the Islands? That is the only alternative.

THE TREASURER'S REPORT.

Mr. P. C. Jones, Treasurer, presented his report, showing balance on hand at the beginning of the year, \$924; collections, \$3,187; expenditures, \$3,679; leaving a balance on hand of \$579.

At the afternoon session, a discussion on the position of the company took place, participated in by Messrs. Jones, Spalding, Horner, Baldwin, Walker and Smith. A resolution passed, on motion of Mr. J. M. Horner, amended by Mr. H. P. Baldwin, as follows: "Resolved, that a committee of five be appointed by the President, whose duty it shall be to revise or so change our Constitution or by-laws that our members may be more equally and justly assessed, and their rights as planters be as well, or better, maintained, and to report the same to this association tomorrow morning for adoption or rejection."

The committee appointed consisted of Messrs. J. M. Horner, H. P. Baldwin, Z. S. Spalding, R. Halstead and P. C. Jones. The company next took up the consideration of the publication of the *Planters' Monthly*.

TUESDAY'S SESSIONS.

The committee appointed on the previous day reported, recommending that by-law 11 be amended to read:—

The Board of Trustees may levy assessment on the capital stock of the company as provided in article 8, and may fix the date (not less than thirty days from the time of passing the resolution) at which said assessment, if unpaid, shall have become delinquent, and any stock upon which any assessment may become delinquent shall be advertised by the Secretary in some one newspaper published in Honolulu for the period of thirty days, and if the said assessment shall still remain unpaid, the Board of Trustees shall declare the same forfeited to the corporation, and the holder or holders shall be debarred from any rights or privileges based upon the possession of such shares of stock (provided that any member may at any time surrender any part of his stock to the Treasurer of the company upon his payment of all assessments that may have become due and payable on such stock so surrendered up to the time of such surrender). And the Board of Trustees may then issue new certificates of stock in place of shares so forfeited (or surrendered), the same as if the forfeited (or surrendered) shares had never been issued.

THE AMENDMENTS APPEAR IN BRACKETS.

Mr. Horner said the object of the committee had been to allow those who have more shares than they thought they ought to pay assessment for to surrender, so as to bring them more on an equality. Further, he said, the committee recommended and urged upon all parties interested in the sugar industry throughout the Islands to help to carry out more vigorously the objects of this company by subscribing for one share approximately for every three tons of their yearly average production. They urged the adoption of this recommendation as a resolution. If this could be carried out the assessment would probably not be more than 10 cents per share, and the association would be held together as an organized body ready for action whenever it might be needed. That was all the committee had been able to accomplish, and on these points they were unanimous, excepting Mr. Dole, who had not yet seen the form in which the recommendations had been drawn up.

The report and recommendations of the committee were discussed at length by Messrs. A. H. Smith, J. M. Horner, the President; Mr. J. Austin, the Secretary, and Mr. Spalding. The proposed amendment was adopted.

The other recommendation of the committee was adopted with an amendment by Mr. Schaefer that the last part of the resolution, giving the proportion of shares to the tonnage, be omitted.

An amendment proposed by Mr. Spalding to article 6, to make the number of trustees seven instead of thirteen, was supported by Messrs. Spalding, Jones and Austin, and opposed by Messrs. Macfie, Bishop and J. M. Horner. On being put, the amendment was lost, on a vote of shares—5,255 to 3,075—a two-thirds majority being necessary to pass it.

AFTERNOON.

A report was read by Mr. Baldwin, as chairman of the Committee on Seed Cane and Fertilizers. He recommended a plan for saving all the refuse on the plantation, including dead animals, in a large cellar on the side of a hill, with an opening in the roof to dump through. By some such means enough fertilizers could be produced on the plantation to manure all the land

planted each year. The report also discussed seed cane, and was supplemented by a letter from Mr. E. C. Bond, a member of the committee.

On motion of Mr. Horner the report was accepted and ordered to be published in the *Planters' Monthly*.

ELECTION OF TRUSTEES.

The company proceeded with the election of trustees, which resulted as follows, the result of the ballot being: H. P. Baldwin, 11,790; H. F. Glade, 11,780; J. Lidgate, 11,435; Geo. Williams, 11,434; R. Halstead, 11,425; P. C. Jones, 11,085; Geo. N. Wilcox, 9,570; Jas. B. Castle, 9,210; Z. S. Spalding, 6,950.

Mr. P. C. Jones from the Reciprocity Committee, said that no meeting had been held, and he had no report. He commended the actions of the Hon. H. A. P. Carter, Minister at Washington, on the matter of the Reciprocity Treaty.

Mr. R. A. Macfie presented the report of the Transportation Committee. The report will appear in the *Planters' Monthly*. The report of J. M. Lidgate, of the Committee on the Manufacture of Sugar was read by the Secretary, and was ordered to be printed in the *Monthly*.

WEDNESDAY'S SESSION.

A discussion took place on the report relating to the manufacture of sugar.

Mr. P. C. Jones said the Hawaiian Agricultural Company had tried boiling for one grade during the year, and found that it lowered polarization without compensation in quantity.

Mr. H. F. Glade reported on a trial in boiling for one grade, the result of which was an average of 91 per cent, when before and since there was an average of 94 and 95 per cent. They had therefore come to the conclusion that one grade boiling was not advantageous.

Mr. H. P. Baldwin had tried one grade boiling, the average of polarization being favorable, but the process more expensive for fuel. He had therefore given it up.

Mr. E. Lyman read a paper on legislation which appears elsewhere in this paper, in full. A discussion on this subject followed, resulting in the adoption of the following:

Resolved, That the Planters' Labor and Supply Company do hereby place themselves on record as being opposed to an opium license, which they consider injurious to the planting interest of the country, and regret that a law permitting it was passed. And that we consider the increase of taxes made by the late Legislature to be unjustifiable and in derogation of the interest of planters. Also that we consider that the vetoing of the law compelling the retaining of road taxes in the district was against the interests of tax-payers and of good roads, and we are of opinion that such a law should have been passed.

After the transaction of some routine business, the convention was closed for the year.

DEATH OF MR. THOMAS BROWN.

Mr. Thomas Brown, whose golden wedding anniversary was celebrated a week ago, departed this life, yesterday afternoon. As stated in the notice of the anniversary celebration, Mr. Brown has been an esteemed resident of these Islands, the greater part of forty years. He has held the responsible position of Registrar of Conveyances for many years, entering the office as clerk, thirty years ago. Mrs. Brown is a sister of the Hon. Godfrey Rhodes, one of the ex-Presidents of the Legislative Assembly. The surviving members of Mr. Brown's family are: Mr. Godfrey Brown, Mrs. (Rev.) Alex. Mackintosh, Mr. Frank Brown, Hon. Cecil Brown and Mr. Malcolm Brown. Deceased was a native of England, and had attained the ripe age of 82 years. His funeral takes place this afternoon, and will doubtless be largely attended. The Government buildings were closed today, and flags were at half-mast in respect to the memory of the deceased.

FOREIGN NEWS.

The steamship Mariposa, which arrived from New Zealand this morning, brings dates to the 12th instant, from which the following late news is gathered:— London, October 2.—Lord Randolph Churchill, addressing a Conservative meeting at Deptford last night, referred at some length to the position of affairs in Eastern Europe. He dwelt upon the many efforts which England had made to assist the young nations in gaining liberty. He rejoiced that Austria had taken the lead in endeavouring to preserve the freedom and autonomy of the countries of the Balkan Peninsula. Some of the Great Powers are inclined to be contentious, others were anxious for the maintenance of peace. If compelled to choose England would sympathize with Bul-

garia. England's adhesion would probably serve to avert war. Wellington, October 6.—Sir J. Vogel has received the following telegram from the postmaster at Whakatane:—

"White Island appears from here to be in state of active eruption. At 6 o'clock this evening vast columns of smoke were thrown up some thousands of feet."

Melbourne, October 6.—The proposal to conclude a reciprocity treaty between Fiji and Victoria, has been under consideration by the Cabinet, and has been favorably viewed. Further communications with Fiji, however, are deemed necessary before coming to a final decision on the subject.

Gisborne, October 7.—Captain Johnson, of the steamer Australia, reports that when abreast of White Island, and 5 o'clock last night, the island broke out into violent eruption, clouds of black smoke shooting hundreds of feet into the air. He lost sight of the island quickly owing to the smoke.

Vienna, October 9.—An anarchist plot to set fire to the timber yards and public buildings in this city has been frustrated by the authorities, and a quantity of dynamite has been seized.

London, October 9.—The first heat of the Welsh Harp Handicap was rowed on the Thames to-day, when Wallace Ross and Perkins beat Neilson, who is consequently out of the final heat.

Sofia, Oct. 9. A circular has been addressed by the Regency to the foreign Consuls in Bulgaria, threatening the expulsion of foreigners if they continue to meddle in connection with the elections now proceeding for the Grand Sobranie. The Russian Consul, M. Neklinoff, has returned the circular, and suspended his relations with the Regency. He awaits orders from General Kaulbars as to the further course which should be pursued.

London, October 10.—The efforts of General Kaulbars to excite treason in the Bulgarian army have failed, and the Russian meetings are everywhere conducted with a great amount of danger.

Bulgaria has been compelled to accept Russian loans. Russia has proposed a union between Roumelia and Bulgaria under a king if Bulgaria submits.

London, October 11.—A plot to provoke a rebellion in the chief centres in Bulgaria on the 15th inst., as a prelude to a Russian occupation on November 9th, has been discovered. Russia is massing her troops at Odessa and Bessarabia.

High officers stationed along the Austrian and Roumanian frontier declare that the occupation of Bulgaria by Russia is a certainty. The Czar is in a state of nervous excitement.

EDITORIAL ARTICLES.

THE PEOPLE ARE THINKING.

This is the fifth day since the prorogation of our biennial Legislature. Four clear days have passed and gone—days of peace and quietness. Everybody seemed pleased to see the end of the "long parliament."

Well, they have gone, and the capital is left in peace. Everybody is, or should be, thankful that for the next eighteen months the country will probably be free from any additional legislative monstrosity. So far, so good. But the past cannot be blotted out, nor easily forgotten.

This appears to have been the general line of thought among thinking people, during the past four days. And, strange to say, some gentlemen whose habit of thought has usually been very quiet and all to themselves, are getting into the way of thinking aloud.

Others of the same class are thinking and talking in the same way. Of course, it is quite natural for persons peculiarly interested in a continuance of the past, and not overburdened with conscience or principle, to say that all such thinking and talking is wild, impulsive, unreasonable, and unwarranted by facts.

We, too, have taken a thoughtful turn. For months past we have viewed with curiosity and concern the "concentrated wisdom" of these beautiful isles of the Pacific, legislating for a mixed population of eighty thousand souls. We have beheld with admiration a small minority of brave, fearless, uncompromising men, consistently and persistently struggling against a reactionary and retrogressive majority.

The country cannot long continue in the same course, and retain its independence. This conviction is the reverse of agreeable to those in whose creed independence is the first article. Nevertheless, this is what we think. The legislation and the government of the country are leading straight on to the point where foreign interference will step in.

The greatest surprise and the bitterest disappointment of the Long Parliament, which terminated on the 16th instant, were reserved for the last day. The announcement on the closing day of bills signed and vetoed was not what was desired by those who contribute most to the support of government, nor what was expected by those who relied upon existing checks to reckless legislation.

It is gratifying to learn from the report of last night's meeting of the Agricultural Society, which our readers will find elsewhere, that it has been decided to hold a Horticultural Show next May in the Society's building, on King street. We are quite confident that the ladies of Honolulu will be happy to do all they can to make the floral department of the proposed show a success, and with all the more zeal as the month selected is one in which the flower gardens in and about Honolulu are looking their best.

NO MUSIC. The Honolulu public will have to forego the pleasure of Band music for the next two weeks. The Royal Hawaiian Band takes a vacation, to which it is justly entitled. The boys and their leader have had particularly hard work during the past five or six months, while the Legislature has been in session. Not only have they kept up the regular abundant supply of music to the general public, by concerts at Emma Square and the Hawaiian Hotel, but they have responded to many special demands, incidental to the Parliamentary Session. They are now allowed two weeks' rest, and they deserve it. On the first of November the Band will return to duty, undoubtedly refreshed by the relaxation, and better appreciated by the public, because of the temporary absence. We heartily wish Professor Berger and every member of the Band a fortnight's real enjoyment. Monday, Oct. 18th.

A VALUABLE COLLECTION. We had the pleasure of examining this morning a complete set of the ferns of the Hawaiian Islands, prepared and mounted by Mr. F. L. Clarke for Mr. J. C. Pfleger, who is about returning to Germany. The ferns in this collection, which is the second of its kind which has gone abroad from the Clarke Herbarium, are displayed full size on straw boards, 26 by 36 inches in size. Each board is covered with white paper prepared so as to prevent the ravages of insects. The representatives of each family of ferns are displayed, on the same, or adjoining sheets, and the spaces between the specimens are occupied by specimens of Hawaiian mosses, lichens, and a few rare plants. Each fern specimen bears a numbered label and a full description is affixed to each. Mr. Clarke has also prepared a list of the ferns to go with the collection, which embraces one hundred and fifty-one examples—and the whole are to be packed for transportation in a sealed tin case. The collection has been examined by several of our residents who are interested in the botany of the islands, as well as by a leading lady botanist from the United States who is visiting the islands, and it is pronounced by all to be a most complete and valuable exhibit of our ferns, mosses, etc. The Hawaiian Museum will soon be furnished with a like collection which will be an interesting and useful addition to that collection of National History specimens.

OPIMUM PROSPECTS. There is intense excitement among the Chinese over the new Opium Law. They regard a licence to sell the drug as a short and quick road to fortune. They are undoubtedly better posted in the possibilities and probabilities of the trade than any white man, and do not hesitate to say that the consumption will be doubled and trebled almost immediately after the licence is issued. They calculate that the price of the drug can be reduced to one half of the lowest price ruling at any time during prohibition, and will then return a profit of from 80 to 100 per cent. This is a very different showing from that of the licence advocates, who have contended that opium would neither be more abundant nor cheaper under licence than under prohibition. We have no doubt that our predictions of demoralization, death, and destruction, as the results of legalized opium, will surely be realized. We are sorry for it.

A FLORAL SHOW. It is gratifying to learn from the report of last night's meeting of the Agricultural Society, which our readers will find elsewhere, that it has been decided to hold a Horticultural Show next May in the Society's building, on King street. We are quite confident that the ladies of Honolulu will be happy to do all they can to make the floral department of the proposed show a success, and with all the more zeal as the month selected is one in which the flower gardens in and about Honolulu are looking their best. We predict that there will be much pleasant rivalry between those who pride themselves on the variety and beauty of the flowers they grow, in exhibiting their beautiful pets, and that the variety exhibited will surprise and delight all.

In addition to a floral exhibit there should be a grand display of fruits, besides palms, ferns and orchids. The size of the building will

give an opportunity for the display of taste in the arrangement of the exhibits, and its location—so near to town—will enable all to enjoy the show.

FROM MICRONESIA. The Jennie Walker and the Star of Devon bring advices of the visit of an English man-of-war to the Gilbert Islands. The rebellion and fighting chiefs of Tarawa had signed an agreement to stop all fighting. The Hawaiian Missionaries were all well, and their families, except that Rev. J. W. Kanoa's youngest child, a daughter, two years old, had recently died. Rev. G. Haina had left Tarawa to go to Marakok but had not arrived there when the Morning Star touched at that island. The Star had landed Rev. S. P. Kaiaia on Tapiteua, and he had taken up his abode in the church, until the Star's return, when the lumber for his house would be landed. The Star had made a successful trip thus far, having gone through the Gilbert group, landing supplies, and securing six or eight scholars for Dr. Pease's school at Kusaie from the Marshall Islands. A school exhibition at Mille, while the Star lay there, was a very successful affair. It was rumored that a Spanish governor, twenty policemen, and a Catholic priest were to be sent by Spain to each of the islands of Yap, Ruk, Ponape, and Kusaie. A large mail was sent on to the States, and many letters received here, bearing date, Jaluit, August 24th.

CORRESPONDENCE.

A TEACHER'S OPINION. EDITOR BULLETIN:—Living on one of the other Islands, it was only this week that I read the speech concerning school teachers, which Minister Dare made before the Legislature. Had I lived in Honolulu, my answer would have appeared sooner. It is quite evident that Mr. Dare knows very little about the system of education on these Islands, and that he is entirely unacquainted with the work of our schools. Any one who has ever taken enough interest in the schools, to visit them, could not have spoken as lightly of the teachers' labors as Mr. Dare did. I know I but give voice to the opinion of every teacher in Hawaii when I say that I would like to have Mr. Dare undertake a teacher's duties for only one week. I will take my class, as an example. There are 39 children—Hawaiians, Portuguese, South Sea Islanders and Japanese. (Some teachers have even more nationalities represented.) These children understand but a few words of English, and the teacher, besides laboring under the disadvantage of teaching a language unknown to his pupils, must also teach them obedience, love of truth, honesty, order, discipline and application to work. Nor is this all. Cleanliness, of which the majority have no idea, must be inculcated, and the children must be sent out and taught to wash their hands and faces, or must be sent home to have their hair cut off and their heads cleaned. Not only do we teach them to read, we must also teach them to think, to frame the simplest sentence, and the same words must be repeated again and again, until the familiarity of the sound, accompanied by gestures, and the comprehension of one or two words, will make them grasp the idea. Home influence, which in other countries is such a powerful motor towards instilling ambition, the love of school, and respect towards teachers, into the children's minds, not only is this wanting among our pupils, but even the smallest ones (chiefly among the Portuguese), are made to think that the time is wasted, which is devoted to learning, and that manual labor, for which there is some pecuniary return, would be far better for the children. Teachers in the States can have 60 and 70, or even 80 children, in their care, and their work is much lighter than ours, even if their daily session is one hour longer, for their classes are graded. Here, that is utterly impossible, and each teacher has two or three classes, and sometimes four. Now that Mr. Dare understands the teacher's work, I think he will agree with the Board of Education that 30 or 40 children are sufficient for one teacher, and that our hours are long enough. His Excellency Mr. Gibson knows under what difficulties we labor, and he stated them—first, in his report of the Board of Education, and then again last week before the Assembly. We all feel grateful to him for the public appreciation of our work. Thanking you, Mr. Editor, for your valuable space I have occupied. I am, VOX PLEBEORUM.

THAT OLD ADAGE. "No fool like an old fool."

EDITOR BULLETIN:—Really some of our Government officials are too smart to live, as the following facts will show:—The bark Elsinore recently arrived from Newcastle, N. S. W., with a cargo of coals for the Government with the usual "Port Certificate," which is always accepted here by merchants, but our official knowing how "it was himself," Darkey in the fence, and wouldn't accept the certificate from the New South Wales Government but would have the cargo weighed. This of course the captain of the ship was but too glad to do. It was weighed, and instead of the Government paying for one thousand tons as per certificate, they had to pay for sixty-one 840-2440 tons more than they would had, they had the sense to take the "Port Certificate" as the merchants invariably do. This goes to show that one-third of seventy-five is twenty-five per cent. Biz.

KAUAI NOTES. (Oct. 15th.) A hearty and loyal welcome was given to Her Majesty Queen Kapio-lani, when she landed at Nawiliwili; but Her Majesty only remained a few hours, and then went on board the steamer again for Waimea. A very large number of natives from Nawiliwili and Koloa went overland to meet her there, and will return with her, as an escort, as she will come overland from Waimea. She is expected to-day (Friday) and great preparations are being made at the residence of the ex-Governor of Kauai, for a grand luau in honor of Her Majesty. There is some little difficulty about it, however, for pigs are very scarce here, and what is a luau without a pig? But no doubt, it will be overcome, for natives are out in all directions to secure whatever they can in the shape of pigs and poultry and other good things. A disease of the eyes is very prevalent among the Portuguese, which, it is asserted, is contagious, and affects the sight—perhaps only temporarily, but some cases are of quite long standing. The ruffian who assaulted the little girl has been sentenced to 18 months imprisonment. The case was tried before Mr. Kala, a new judge, who understands English very well, and it was the first one on which he had to decide. The child was taken to the prison, and among a large number of prisoners, identified the man as the one who assaulted her. The prisoner was one of the two men who ran away from Koloa plantation, some eight or ten days ago, and for which he was sentenced to one year's imprisonment. He, with a lot of other prisoners, was working in a cane field, and although the luna had strict orders to watch him, he escaped, and with much assurance remained in a cane field right on the Government road. Although a large

number of men were searching for him, it was Sunday evening before he was discovered. He will probably be sent to Honolulu. Kauai, Oct. 15th.

number of men were searching for him, it was Sunday evening before he was discovered. He will probably be sent to Honolulu. Kauai, Oct. 15th.

NEWS ARTICLES.

BIRTHDAY ANNIVERSARY. (Oct. 15th.) The eleventh birthday anniversary of Her Royal Highness, the Princess Victoria Kawekiu Kaiulani Lanailo Kalaninuihilapalapa, daughter of H. R. H. Princess Likelike and Hon. A. S. Cleghorn, was celebrated on Saturday, 16th inst., in true Royal Hawaiian style, at the family residence at Waikiki. The elements of nature favored the occasion, as the pouring rain that drenched the city a little after mid-day reached Waikiki only in a gentle sprinkling, just sufficient to lay the dust and give a rich refreshing coolness to the atmosphere. It was a source of exquisite pleasure to many of the guests who have passed through the grinding tedium of the Legislative session to be let loose at midday, and immediately after to fly off to the paradisaical retreat of royalty at Waikiki and enjoy the unbounded hospitalities of Noble Cleghorn's residence. A hearty welcome awaited all the guests from Noble Cleghorn and Princess Likelike. All were directed to make themselves at home. The youthful Princess, in one of the apartments of the fine mansion, guarded right and left by the kahills, the emblems of her rank, received the congratulations and good wishes of a throng of visitors, who entered and retired in one continuous stream for nearly two hours. His Majesty the King, attended by his Chamberlain, arrived a little after 2 o'clock. There were also present, Their Royal Highnesses Liliuokalani and Poamakekani, General Dornan, Chancellor Judd and Mrs. Judd, Members of the Cabinet, Foreign Representatives, Justice McCully and Mrs. M. McCully, the President and Members of the House of Nobles and Representatives, Bishop Willis and Mrs. Willis, Hon. Paul Neumann and Mrs. Neumann, Mr. and Mrs. Creighton, Mr. and Mrs. Dare, Officers of the Military and Members of the Consular Corps. A magnificent spread was laid out on three long tables, with another table extending across the upper end. At the head of the feast sat His Majesty the King, over whom was disposed the Royal Arms, disposed on a back-ground of ferns. Some two hundred guests sat down to the tables Hawaiian fashion. The tables were literally loaded with national dishes, cooked in the ancient Hawaiian style of the culinary art which really excels all modern innovations. A large side table was loaded with foreign food for the benefit of the guests not initiated in the ways of Hawaiian tables. The provisions for the dietary entertainment of the guests, Hawaiian and foreign, were on a grand scale, both as to quality and quantity. After the luau, His Majesty the King, rising, proposed the health of Her Royal Highness the Princess Kaiulani, in a neat speech, responded to, at His Majesty's request, by Hon. S. G. Wilder. The Hon. S. G. Wilder then proposed the health of H. R. H. the Princess Likelike, which was responded to by the Hon. A. S. Cleghorn. In an adjoining room, was spread out a fine variety of handsome presents, besides the presents in coin, which were in the keeping of Miss Brickwood, treasurer for the occasion. The presents and donors were: A large mat of Niha grass, from aged native women, retainers of the late Mrs. Bishop; a beautiful jewel casket, of silver, shaped like a piano, Agnes Creighton; a fine large silver jewel casket, gondola shape, Mr. and Mrs. L. J. Levey; a ring, set with diamonds, Walter and Lizzy Hayselden; gold bangle, Paul and Ned Neumann; a handsome kukui brooch, Major Bendel; a large elegantly bound volume of Whittier's poems, illustrated, J. M. Monsarrat; two dress patterns and craps, Mrs. Nakayama; embroidered frame and paper cutter, Mrs. Taro Ando; a painting by the donor, of a scene on the demesne, by Mr. J. D. Strong; painting by the donor, of the fine banyan tree on the premises, C. R. Barnfield; violin, Major Boyd; hair lariat, Major Lumahelie; a horse bridle of elaborate workmanship, Captain Tripp; lace handkerchief, Liliu Carter; aloha brooch, Mrs. Herbert; gold breast pin, guitar shape, Mr. Holdsworth; art needle-work handkerchiefs, Mrs. McAllister; six beautifully gilt and illuminated birthday cards, no name; a fine illustrated volume, "The Story of Ruth," J. S. Webb; an elegant volume, "The Parables of Our Lord," illustrated, Bishop and Mrs. Willis; a handsome illustrated volume, "The Little People of the Snow," S. W. Heydtmann; \$1 each from the members of the Liliuokalani Educational Society; gold coins from members of His Majesty's Cabinet; a postal savings bank pass-book for \$50, H. R. H. the Princess Poamakekani; gold coin to the amount of \$50, His Majesty the King; an elegant heavy silver water set, name of donor not ascertained; kahills of various sizes from sundry persons; two kahills, made by the donor of the peacock feathers, H. R. H. Princess Likelike; two large Kahills

of kala feathers, twelve feet staffs of Kaula wood, His Majesty the King; Album of ferns, L. M. Mather; together with Mr. Mather's congratulations, conveyed in an original poem, neatly engrossed on an illuminated and gilt card in neat antique letters. The poem reads: TO HER ROYAL HIGHNESS PRINCESS KAIULANI. Dear little Princess, joy to thee this day That adds another year to thy young life. Now bursting fresh as tender buds in May. To bloom, we pray, a stranger unto strife. All that is sweet in life's springtime be thine. Lose not an hour of youthful days too few; Their happy memories will in future shine. And bring to serious age a brighter hue. Thus may thy course of life go gently on, As each new year its beauties shall disclose. And when the blush of summertime has gone, Remaining years be full of sweet repose. L. MONTGOMERY MATHER.

The Royal Hawaiian Band, stationed under the banyan tree, in front of the house, played appropriate national airs, from time to time, throughout the afternoon. Altogether, the occasion will be one of the happiest memories to all who had the pleasure of participating in it, and all took their leave with earnest wishes that the youthful Princess may live to see many returns of the day.

TWO ADVENTURERS.

Two young men, one by the name of Yrongs, a luna at Waianae, and the other Tom Forester, vacation nother, started on a perilous cruise last Tuesday. Yates bought the old water-boat that Simenson once owned, and having purchased a mast and boom, a small piece of drilling for a sail, some ropes, an anchor and chain, and having taken in provisions (one demijohn of water and 25 cents worth of bread), set sail to a stiff breeze and headed for Waianae. All went well until they arrived within 8 or 10 miles of Waianae, when a dead calm befell them. The calm continued through that night and half the next day. The boat drifted seaward with a strong current. The bread was all gone, and but two or three drinks of water left. Shortly after noon yesterday a gale from shore sprang up, and the boat, with an oar for a rudder, became unmanageable. The boys being tired and hungry, going further and further to sea, and being unmercifully shaken by the waves, were about to give up in despair when the schooner Emma was sighted. A handkerchief was run up in the rigging, as a signal of distress, and the poor fellows were thankful when they saw this signal answered. Captain Kibbing, of the schooner Emma, with a powerful glass saw the water-boat with a distress signal at 12 o'clock, and immediately put about to give assistance. It was 4 o'clock before the Emma reached the water-boat, and it was not any too soon, as the lads were about played out. They were taken aboard the schooner, their stomachs filled and landed in Honolulu this morning, wiser than when they left.

REPORT OF STAR OF DEVON.

The Hawaiian bark Star of Devon left Honolulu, July 24, 1886, arrived at Jaluit, Marshall Islands, August 13th, after a passage of 20 days, during which experienced the ordinary run of weather and trade winds, to the parallel of 10° N. Lat., 173° E. Long., when westerly and southwesterly winds were encountered to port. The German Government have assumed control of the Marshall Islands, and are going to send a governor and some soldiers or policemen, to enforce the laws, and keep order. Got no news from Caroline Islands before leaving. The Morning Star arrived at Jaluit via Gilbert Islands on the 23rd August, and left for Caroline on the 25th. All well on board. The Star of Devon sailed from Legrip (her last port) on September 21st noon, and arrived at Honolulu, October 21st, having made the passage up in 31 days. Experienced northeast trade winds from Legrip to Lat. 31° N., Long. 164° E., when southerly and westerly winds to Lat. 30° N., Long. 169° W., and variable winds from thence to port. She brings a cargo of copra and firewood to the Pacific Navigation Co. and one passenger, Mr. Harry Emmerson; also some mail. Mr. Morgan and wife were landed at Jaluit in place of Capt. Lovell, who has resigned the management at Jaluit. They were well at date of leaving.

HE WAS MANGED.

It may be remembered that some time ago a Manila man stabbed a white man, during a drunken brawl at Jaluit, and that the wounded man having died from the effects of the injuries, the Manila man was held for trial by the traders. The bark Star of Devon, which arrived this morning, brings the news of the assailant's death. He was tried by the officers of a German man-of-war, convicted of murder and hanged. He went to the gallows, erected for the occasion, as game as a cow boy, saying as the noose was being placed over his head, "Good-bye, boys; I'm going to kick now."

SATURDAY, OCT. 23, 1886.

SOME TRUTHS.

A LEFT-HANDED REPORT ON LEGISLATION BY A VOLUNTEER.

Following is a paper read this forenoon at the meeting of the Planter's Labor & Supply Company, by Mr. J. M. Horner:

MR. PRESIDENT OF THE PLANTERS' LABOR & SUPPLY CO.—In order to make an intelligent report on Legislation, I copy from article first of our By Laws the following, as a text for my report, viz.: "And having for its objects, the importation of labor, the improvement of the industry of sugar raising in this Kingdom, and the general benefit of its stockholders."

Under the heading of "Financial Benefit" I will call your attention to two laws of this Kingdom, the rum and opium law, which we consider mischievous to our financial interests, and in this way: if a company of men, either by law or legulein, so injure my horse that I can get only a part of the service out of him that I formerly could, they take so much of my property from me and rob me of so much benefit; or if they so injure my help by free opium and liquor laws that I can get only a part of the benefit from them that I pay for, I have a right—you have a right—this Planters' Association has a right to protest, and to take action to prevent this loss which in the aggregate is large; as every plantation manager and every overseer will tell you that they suffer great loss during the year from the use of rum, and now that the free use of opium is added, our interests will be still more injured; and we can, and must protest and legislate for the general benefit of stockholders. Not only are planters injured by the evil working of these injurious laws, but merchants and the general public are also injured, as there is less property for trade and traffic by many thousands than there would be if labor was not injured by these debasing evils.

Political benefits. While former cabinets were piloting and steering the ship of State, with Mr. Spreckels behind the curtain as prompter, we felt safe, although things were not quite to our liking; but now, I feel that we are drifting—drifting upon an unknown sea with neither compass, chart nor rudder, and where we will fetch up, no one knows. We felt safe under the pilotage of former cabinets, because we knew them to be intelligent, and sprung from the ruling race. I have an excited idea of the high destiny of the white man and of his power to control and govern both men and elements. The word in the beginning seems to have been spoken to the white man, when he was commanded to "subdue the earth and have dominion over it." Europe was given to the white man, America to the red man, Asia to the yellow man, and Africa to the colored man. And with slight exceptions, the white man is the only one that has ventured beyond the "bounds of his habitation." He has overrun Europe, and crossing the Atlantic westward, has taken possession of America, and is "monarch of all he surveys" from Cape Horn to Behring's Strait. He has leaped across the Pacific Ocean, leaving the imprint of his enterprising foot upon the various islands of the sea; he has taken possession of Australia and India with their countless thousands; he has gone to Africa and this time to stay, you bet—this time, it will not be a Mongo Park, a Livingstone, a Baker, or a Stanley, as a traveller or explorer. The coming of the white man to Africa means government, enterprise, agriculture, commerce, churches, schools, law and order. It will be better for the colored man to have the white man rule. It is better for the yellow man of India and Australia that the white man rule, and it is better here that the white man rule, not that he should hold the office and be king, but he must do a large share towards making the laws, and then seeing that they are obeyed by king and people.

Moral benefits. Years ago, when the first missionaries landed upon these Islands, they found the people truly "children of nature"—innocent, hospitable, unshooled and untainted, living in the rudest way, labring but little even to secure comforts, with no commerce and little agriculture, and with very crude ideas about property. But the native was taught how to increase his comforts by labor, which he has done to some extent, but he does not like it. He has learned that civilized government requires officers. The office he likes—(most men do if the salaries are large)—for he has learned that it is an easy way to get a living. He has also learned that to support a civilized government and pay its officers re-

quires money, which is taken from the people by law in the way of a tax. These things he has learned, but he has not learned yet of the sacredness of money taken from the people by process of law, and the personal and moral obligation of every officer to restore to the people full value for every dollar taken from them by process of law, and that the people will hold him strictly accountable for it. This he has not learned, and must be taught it by the white man, and you, gentlemen, must teach him. All the native seems to comprehend now, is, first, to get into office, and if his salary is not large enough to support his fancied dignity, he must raise it; and if the money is not in the treasury to pay his checks, he is to take it from those that have it by process of law, as he has been taught. So, almost without discussion, without consultation with the parties most affected, in a hasty and undignified manner and by as it were a wave of the hand, 33 1/3 per cent is added to the tax roll of the kingdom. This, I say, the native has been taught by the white man, but he does not yet realize that to all this power there are necessarily some bounds and limits fixed, as well as the moral and personal obligations attending it. And further, he does not realize the danger there is in taxing people without their consent. An unwarranted use of this power has upset the authority of powerful nations and caused the shedding of much blood. The white man has organized for the native, a government, placed the ballot in his hands, and set him up as a lawmaker and a ruler; but the placing of these powers in his hands before he knows how to use them is like placing sharp knives, pointed instruments, and dangerous tools in the hands of infants. They do not yet realize the effects of their own acts even upon themselves; hence they want teaching. You must teach them, do not take these powers from them, but teach them how to use them, so as not to injure themselves and us. It is now painfully evident that our last legislature and the preceding one were handling edged tools and in a manner dangerous to this kingdom, injurious to the people, and to the health of the natives. I need only refer you to the two laws upon opium and rum to make most of this apparent, while the government's Genealogy Board, armies and other follies clinch the argument.

The danger to the natives lurking in the "Indulgences" laws above referred to, being in their nature death dealing, will destroy many natives to one Chinaman and hundred of natives to one white man, so that the natives will waste away unless they are saved by the white man—by you, gentlemen and the white people outside of these walls. You must, under God, save their bodies as the missionaries tried to save their souls. Where there is a will there is a way, and the white man, belonging as he does to the dominant race of the earth, at the present time, and possessing as he also does, a goodly share of intelligence, always finds a way to carry out his projects, whether they be laying cables, running railroads, exploring the heavens, or governing among the nations. Hence, I take it, you have a right under your charter and by-laws, to save this government and people and to protect their interests whenever and by whatever means you think best, and whether these interests be financial, political, moral, or legal. And it is the duty of this organization to protect their own interests, whether they be assailed by taxation, or by immoral or extravagant laws.

We now ought to call upon all the people of these Islands, of all nationalities who have the welfare of this country and people at heart, to come to the help of the Lord against these mighty sins of intemperance, extravagance and folly, and by their acts, protest against those laws that have opened the flood gates of intemperance and let loose the juggernaut of hell to roll over and crush the weak victims of intemperance. This doubt will be set down as "Politics." All right—politics means the Science of Government, and if not polluted, good government. When an individual thinks that he can shut the mouth of an American, a British subject or a German when he talks of taxes or sumptuary laws, by simply calling "politics," he is much mistaken.

MORE BOOKS FOR THE LIBRARY. In addition to the books mentioned a few days ago as having been recently added to the library, the following have just been presented by Mr. A. J. Cartwright Sr. Narrative of a four years' residence in Tongataboo. Correspondence &c. of Richd Grenville, Earl Temple and Rt. Hon. Geo. Grenville. 4 Vols. Ed. by W. J. Smith. Two Journeys to Japan by Kinahan Cornwallis, 2 Vols. History of the Bank of England by John Francis. The Roman Question by E. About. The Capital of the Tycoon by Sir Rutherford Alcock. 2 Vols. Adventures among the Dyaks of Borneo by Fredk. Boyle. Kitto's Cyclopedia of Biblical Literature, Condensed. 1 Vol. Aurliau or Rome in the 3rd. Century, by Wm. Ware. Autobiography of Lord Herbert of Cherbury. Books and Reading by Noah Porter. The Empire of Austria by J. S. C. Abbott. Genl. Todleben's Defence of Sebastopol. A Review by W. H. Russell.

THE following named persons are registered at the Royal Hawaiian Hotel—Major W. H. Cornwell, Maui; C. N. Arnold, Hilo, Hawaii; Mr. and Mrs. R. W. Putnam, Maui; Colonel Z. S. Spalding, Kaula, Kauai; Mr. R. A. Macfie, Jr., Kilauea, Kauai; Mr. and Mrs. Richter, Kohala, Hawaii; Mr. and Mrs. A. G. Burchardt, Hamakua, Hawaii; Mr. A. B. Saylor, Pottsville, Penn.

ROYAL HAWAIIAN AGRICULTURAL SOCIETY.

The annual meeting of the above named Society was held, pursuant to announcement, at the Hotel, last evening. The Vice-President, Hon. A. S. Cleghorn, being absent, Hon. L. McCully presided. Mr. J. S. Webb, Secretary, read the following report:

HONOLULU, October 21, 1886. On taking office the Board of Management found the society in debt to the Treasurer for balance of cost of removing and re-erecting the large hall, and also under obligations to many exhibitors for medals which had been awarded to them. The whole of the grant made to the society by the Legislature in 1884 had necessarily been applied to the payment of the debt incurred in that year for buildings at Kapiolani Park, and no means of defraying the expenses of a Fair were left except the subscriptions of members which, at the most sanguine computation, would be wholly inadequate for the purpose, the charging of entrance fees to the public having been virtually abandoned when the Fair was transferred to the Park, where until the society's ground is fenced in, there is no way of collecting them. Under these circumstances the members of the Board were unanimously of opinion that it was undesirable to hold an agricultural fair during the present year. It was at one time intended that a horticulture show should be held during the present month in the hall on King street, but when arrangements to carry this project out were initiated it was found that sufficiently long notice to intending exhibitors had not been given, and that the show was in consequence not likely to be a successful one.

The Treasurer and Secretary were instructed to ask the Government to place on the estimates a grant in aid of the society. They presented a memorial to the late Minister of the Interior, Major Gulick, who expressed himself strongly in favor of it. A change of Administration immediately following, the matter was brought before the new Minister, Hon. Mr. Gibson, who entertained the proposals very cordially and on whose motion the Assembly granted a subsidy of \$1,000 in aid of the society. With this assistance the successors of the present Board of Management will be in a position to carry out the objects of the society in a modest way, but it must depend very greatly upon the support awarded to them by the public in the way of subscriptions whether they can offer prizes to exhibitors in the same liberal manner as in the past.

Under the circumstances, it has not been deemed proper to collect the subscriptions of members for the past year. The debt due to the Treasurer for cost of removing the hall has been partially defrayed by voluntary subscriptions of members and non-members, who take an interest in horticulture.

The Secretary advocated the holding of a horticultural show at an early date. Mr. F. L. Clarke thought if the ladies' interest could be enlisted, the show might be a success, and for his own part, he would contribute creditable exhibits of Hawaiian ferns. Mr. Charles Lucas thought a horse show ought to be combined with the horticultural and floral exhibit, as this department had attracted special attention on former occasions. Judge McCully said it would be difficult to find a suitable location with sufficient room near the city for such a show. On motion of Mr. Giffard, it was resolved "That the Board of Management be instructed to cause a horticulture show to be held during the month of May, at the Society's hall on King street."

ELECTION OF OFFICERS. The following officers were re-elected. His Majesty the King being permanent President; Hon. A. S. Cleghorn, Vice-President; Hon. S. M. Damon, Treasurer; Mr. J. S. Webb, Secretary. The Board of Directors were also re-elected, as follows: Hon. L. McCully, Mr. R. F. Bickerton, Dr. R. McKibbin, Mr. Charles Lucas, Mr. W. M. Giffard, and Mr. B. F. Dillingham.

A discussion followed on the advisability of holding a stock show, in which Hon. L. McCully, Capt. Ross, Mr. Rice, Mr. Jaeger and the Secretary took part, resulting in the passing of a motion recommending that a live stock show should be held in May.

The chairman intimated that the Board of Management do not intend to give so many silver medals in future. He thought bronze medals would be satisfactory.

Mr. Jaeger remarked that the highest mark of honor in the German army was an iron medal.

A newspaper man present asked if that had any connection with the "man of blood and iron" at the head of affairs in Germany?

There being no further business, the meeting adjourned.

HAWAIIAN HOTEL ARRIVALS.

THE following named persons are registered at the Royal Hawaiian Hotel—Major W. H. Cornwell, Maui; C. N. Arnold, Hilo, Hawaii; Mr. and Mrs. R. W. Putnam, Maui; Colonel Z. S. Spalding, Kaula, Kauai; Mr. R. A. Macfie, Jr., Kilauea, Kauai; Mr. and Mrs. Richter, Kohala, Hawaii; Mr. and Mrs. A. G. Burchardt, Hamakua, Hawaii; Mr. A. B. Saylor, Pottsville, Penn.

Y. M. C. A.

The monthly business meeting of the association was held last evening, the President Mr. W. Bowen in the chair. Some twenty-four members were in attendance. The Devotional Committee reported the Sunday evening meeting well attended. The Entertainment Committee reported an entertainment for the purpose of raising funds to be under advisement to be held if possible within the coming month. The Reading Room Committee reported an average daily attendance during the past six weeks of upwards of fifty. One voting and seven associate members were added to the roll. Six of the accessions are Portuguese. Following is the Treasurer's statement for the past month:

Table with columns: RECEIPTS, DISBURSEMENTS, and a final balance of \$21.25.

MUSICAL PRACTICE. Though the members of the Royal Hawaiian Band are now enjoying a well-earned vacation, and their instruments like the harp in Tara's Hall, "hang mute as though their souls were dead," Honolulu is not without music. The Portuguese Band practice frequently—and with much vigor—at the club house on Beretania street. In time the performers in this band will, no doubt, give us plenty of good music. Just now they "make Rome howl," their instrumentation being that of "sweet bells jangled, out of tune and harsh." They are no worse, however, than the Hawaiian Band, and we can reasonably hope that with a little more practice they will give us music as good as the Royal Band furnishes.

ELECTION OF OFFICERS.

The following elections of officers have been made for the ensuing year: Hilea Sugar Company—President, Claus Spreckels; Vice President, John S. Walker; Secretary and Treasurer, Wm. G. Irwin; Auditor, Chas. N. Spencer. Hilo Sugar Company—President, Wm. G. Irwin; Vice President, John D. Spreckels; Secretary and Treasurer, W. M. Giffard; Auditor, John A. Scott. Hutchinson Plantation Company—President, Wm. G. Irwin; Vice President, John A. Buck; Secretary and Treasurer, W. M. Giffard; Auditor, Hugh Center.—P. C. Advertiser.

THE LATE ISRAEL FISHER.

An inquest was held on Saturday last by Coroner David Dayton into the death of the late Israel Fisher. The following were the jury: Henry J. Hart, C. Vitras, Geo. Engelhardt, Henry F. Devoll, John Mahon and James Welsh. The following verdict was rendered:—"That Israel Fisher came to his death the 14th day of October, 1886, by taking some unknown poison from some source obtained unknown to us outside of the dispensary of the Branch Hospital, as extra precaution had been taken by the Sisters and medical attendant to guard against any such casualty." The deceased had made it known that he would commit suicide the first opportunity he had. He also promised to leave an explanation of his conduct. The following is the substance of a document found amongst his papers:—

HIGHLY SATISFACTORY.

The transfer of the stationary and news agency business of Messrs. J. M. Oat & Co. to Mr. J. H. Soper, which is now an accomplished fact, does not affect the active management. As during a long period past, Mr. A. M. Hewitt will continue to manage the business. This is highly satisfactory to the numerous patrons of the establishment. Mr. Hewitt is attentive to business, affable and accommodating to customers, and is therefore popular. His retention in his old position is hailed with pleasure by many, including the DAILY BULLETIN.

ALL WELL.

The boys who left here a year or two ago, to try their luck in the South Sea Islands, are all well. Captain Macy is now master of an American trading schooner, at the islands. McIntyre has gone to China, as mate of a German bark; and Harry Emerson, who has been keeper of the Pacific Navigation Co.'s station at Jaluit, has returned to Honolulu, to have another peep at civilization. He is looking well, wears a moustache and goatee, and still possesses that always pleasing smile.

NEWS ITEMS.

Monday, Oct. 18th. Dr. Robt. McKibbin's valuable horse died of colic this morning. Mr. W. H. Page is suffering from a hole made in his right hand with a piece of iron, the other day. The principal school of the Kamehameha house, Kalihi, is being erected, and roads to it are being constructed. Mr. Hare, lately employed at Yates & Mackenzie's has received a reportorial position on the Gazette, which paper, it is said by a person who ought to know, will shortly appear as a daily.

OFFICIAL APPOINTMENTS.

The following appointments have been made in the public service:—Mr. F. Wundenberg, Postmaster-General; Mrs. J. T. Baker, Governess of Hawaii; Mr. Jacob Kulu, District Justice for the district of Lihue, Kauai; Mr. S. R. Hapuku, Deputy District Justice for the district of Lihue, Kauai. Official notification is made of Mr. Arthur W. Richardson's appointment to the office of Consular Clerk in the service of the United States, and his assignment to the Consulate-General at Honolulu.

SUIT IN ADMIRALTY.

On July 19th the Pacific Navigation Company, owners of the steamer James I. Dowsett, filed a suit in admiralty for \$25,000 damages against S. C. Allen, owner of the schooner Moiwaiine. The two vessels came into collision June 20th, the Dowsett being sunk. Yesterday S. C. Allen filed a cross bill against the Pacific Navigation Company, in which he states that the damages received by the schooner in the collision have deteriorated her value. Chief Justice Judd ordered next Monday as the day for filing an answer. Messrs. Paul Neumann, Whiting and Creighton for the Pacific Navigation Company, and Kinney & Peterson for S. C. Allen.—P. C. Advertiser.

A BIRTHDAY.

Mr. B. Ordenstein, at Messrs. Gribbaum & Co.'s, reached his 48th birthday yesterday. A few intimate friends met at Mr. Ordenstein's residence, on Emma street, in the evening, and tendered their congratulations. A quiet but extremely enjoyable evening was passed.

A CUTTING SCRAPE.

This morning's Advertiser reports a cutting scrape at Honokaa, Hawaii. Two natives had a quarrel about a woman. The stomach of one was ripped across with a knife by the other. The wound was sewn up by Dr. Greenfield, and there is a possibility of the man's recovery. The other was arrested, and is kept in custody.

REPUTATION.

In view of the rumor now flying around,—"That a Cabinet Officer" doesn't feel bound By the Ex-Minister's promise to repay the shuckles Their "Government" borrowed of Col. Claus Spreckels. To keep good the credit and name of the State 'Tis the words—not the debt—we should repudiate.

THE COLLECTOR HAS COME.

Mr. John Magoon has, pursuant to previous notification, opened a collector's office, with his son, Mr. J. A. Magoon, in Merchant street. He is now prepared to do collecting, and a variety of other things, specified in his card. Mr. Magoon has resided in Honolulu for a number of years, and is therefore pretty well known, and favorably known, too. His established reputation is that of a steady, industrious, honest, and upright man—just exactly the reputation that should secure for him ready and liberal patronage in the lines of business which he has now entered upon.

SOME STYLE.

Style extraordinary was exhibited on Fort and Hotel streets, Saturday evening. Some ladies had their Japanese woman lay boards across from Tregloan's corner to Goo Kim's, then take them up and place them to Fisher's corner, so that the dainty feet of the ladies should not be soiled by the rude mud.

A LETTER OF THANKS.

The following letter of thanks has been received by Mr. Lewis J. Levey, Auctioneer:—"Dear Sir:—I am instructed by the Hon. C. R. Bishop, President of the Honolulu Sailor's Home Society, to express the thanks of the Board of Trustees due you for the gratuitous services rendered them in the disposal at auction of the buildings and property belonging to the Society. The Treasurer has already given you a receipt for the proceeds of the sale, and I have the pleasure to add that the Board are fully satisfied with the result. Yours very Truly, JOHN H. PATTY, Treasurer Sailors Home Society. Approved: CHAS. R. BISHOP, President."

NEWS ITEMS.

Monday, Oct. 18th. Dr. Robt. McKibbin's valuable horse died of colic this morning. Mr. W. H. Page is suffering from a hole made in his right hand with a piece of iron, the other day. The principal school of the Kamehameha house, Kalihi, is being erected, and roads to it are being constructed. Mr. Hare, lately employed at Yates & Mackenzie's has received a reportorial position on the Gazette, which paper, it is said by a person who ought to know, will shortly appear as a daily.

The barkentine Geo. C. Perkins, which arrived this morning, brought 220 hogs consigned to McChesney & Son. When she left San Francisco, 17 days ago, she had 250 hogs, but 30 of them died.

The collection at Kaunakapili church yesterday, in aid of the building fund, amounted to \$844.50. The King was present, and delivered a short address. Mr. Aholo, Minister of Interior, and Mr. Kaunamano, also made speeches.

The Pacific Hose Company No. 1, under the supervision of the new foreman, Mr. M. D. Monsarrat, turned out for drill Saturday night. The rain made the streets muddy, but that did not dampen the ardor of the firemen.

The Japanese services yesterday at the Y. M. C. A. hall were well attended, about 40 Japanese being present. The Japanese Commissioner, and Japanese interpreter were present. The services were conducted by Mr. Auki, and an address was delivered by Miss Gulick.

BETWEEN 12 o'clock Saturday night and daylight Sunday morning it rained very heavily in the district of Honolulu. Considerable damage was done to the almost ripe rice crop. The weight of the down-pour fluted the standing rice in plots, much of which will be ruined thereby.

Tuesday, Oct. 19th. It is rumored that Major J. T. Baker will become Sheriff of Hawaii.

The steamer Kilauea Hou will take a mill complete to Hamoa this trip.

The Hawaiian Agricultural Society's annual meeting is announced for Thursday evening next.

A COUPLE of bundles of old clothing have been left at this office, by Mr. Wright and Mr. Scrimgeour, for the Branch Hospital.

TO-DAY'S "Gazette" says "It was rumored on the street yesterday that Mr. F. Wundenberg has been appointed Postmaster-General. The appointment has not as yet been made public officially." Our neighbor is behind the times. The official announcement was made yesterday afternoon.

Wednesday, Oct. 20th. The Zealandia will be the intermediate boat for November, but her time of sailing is not exactly known.

The number of Mr. J. T. Dare's office is 12, Spreckels' block, where he can be consulted in all matters of law.

The first of the one hour go-as-you-please races, to take place at the Yosemite rink for gold and silver medals, will come off on Nov. 3d, the second on Nov. 11th.

Mr. C. Grey's residence, at Wai-kiki, was broken into the other day, during Mr. Grey's absence, the contents turned upside down, and some article taken away.

Mr. M. McNery has invited tenders for the erection of a two-story brick building, on the site now occupied by Mr. McNery's store, corner of Fort and Merchant streets, tenders to be in on the 1st of November.

Mr. S. M. Carter, wood and coal merchant, No. 82 King street, has added another branch to his business—hay and grain—and is now prepared to furnish his patrons with food for their horses, as well as for their stoves and ranges.

Hon. John Cummins, when asked about the two weeks' jubilee, to begin November 16, said that the programme has not yet been arranged, but there would be but two legal holidays, and as to the remaining 12 days he was not prepared to say.

A GENTLEMAN connected with a wholesale liquor establishment, and one employed in a hardware store, being impatient for a shave at the Hotel last evening, entered upon a race in shaving themselves. The hardware man wore hard, while the liquor man kept up his spirits and won.

A LITTLE misunderstanding occurred on Saturday last, at the pro rogation of the Legislature, between a French and a British subject, which has caused considerable talk in certain circles. The matter was referred to the British Commissioner, and is said to have quietly dropped.

Thursday, Oct. 21st. FANNING'S Island is pretty dry, no rain having fallen there for some time.

The Merry-go-round has returned to Honolulu, it having played itself out on Kauai.

Mr. Geo. Markham has a Maui potato that weighs two and a half pounds.

In addition to the list of books given in our issue of Tuesday, Mr. Cartwright has also presented the Library with a set of Sparks's American Biography, comprising some twenty volumes. Next! The Eagle House is now thrown open to the public. Mrs. J. T. White has been appointed manager, in which line of business she has carried a reputation for herself in Honolulu. Terms reasonable, and house now ready for occupation.

Steam Laundry, the other day, for \$900, he was buying it for the Brunswick-Balke-Coller Co., for which house Mr. Hiller is runner.

Friday, Oct. 22nd. Pigs, in almost continual streams, are coming in from the country, for His Majesty's birthday.

Hos. Asa Kauiha has been re-appointed judge for the district of Koolau, Island of Oahu.

Mr. Geo. Richardson has been re-appointed Road Supervisor-in-Chief for the Island of Maui, Molokai, and Lanai.

The Supreme Court opened this morning, at 10 o'clock, but there being no business, adjourned at 10:25 for the day.

Going to-morrow, Captain? No, going to stay. You don't say so! Yes, going to make my fortune. Why, how? Issue notes. Good-day, sir.

YESTERDAY afternoon officer Hopkins made a raid on a gambling den, in Beretania street, and captured two native players, the others escaping then to be caught this morning.

OUT of 40 chickens, Mr. Dow has but two left. He thinks that the death of the 38 chickens was caused by some sickness, and not by a monogoose, as was at first supposed.

The billiard exhibition at the Hotel last evening, by Mr. McCleery, was attended by about 60 ladies and gentlemen, who thoroughly appreciated and admired the billiardist's skill.

Mr. W. O. Smith has resigned his trusteeship of the Kamehameha schools, on account of continued absence from the Kingdom, and Mr. J. O. Carter has been appointed to fill the vacancy.

On Monday Mr. J. Williams will have on view, at his photographic parlors, the latest painting of the Volcano, by Mr. Furneaux, copied from photographs lately taken by a young lady of this city.

The Honolulu Planing Mills, besides making Queen Ann chairs and kahili sticks for the King, as mentioned in this paper the other day, are making about 100 walking sticks or canes and about 75 candle sticks, to be used in the coming jubilee.

Mr. Sam Decker, who arrived in Honolulu by the schooner Emma yesterday, tells of the rescue of two Chinamen from drowning, in Hanapepe stream, last Friday. The Chinamen, while crossing the river on a raft, upset in mid-stream, and were drowning, when Mr. Decker and the mate of the Emma went to the rescue, in one of the ship's boats.

The nimble boys of the volunteer jumber, of Engine Co. No. 2, were practising at laying hose and connecting with hydrants, on Emma street, last evening, under the direction of First Assistant Foreman Mr. C. J. McCarthy. The young firemen were very lively in the practice, taking off the nozzle, adding another length of hose, and putting on the nozzle again, in less than a minute.

REPORT OF S. S. MARIPOSA. Left Sydney Oct. 7th, at 4:50 p. m. Had strong South West winds with heavy beam seas to North Cape; thence to Auckland light winds and a smooth sea. Arrived at Auckland Oct. 11th at 2 p. m.; running time 3 days 19 hours and 45 minutes. Left Auckland Oct. 12 at 6 p. m. On Oct. 13 at 5:58 a. m. passed S. S. Mariposa southward bound. Arrived off Tutuila Oct. 16th at 11:57 a. m.; detention 34 minutes. Left at Tutuila the U. S. S. Mohegan and the British steamer Explorer. Since leaving Auckland the weather has been anything but favorable for fast steaming. Received the South East trades, with heavy seas, well to the South; wind too much to the East to carry sail. Heavy rains fell while passing through the doldrums. Running time from Auckland to Honolulu 11 days, 15 hours and 57 minutes. The Mariposa will sail this 5 p. m. with 28 cabin and 28 steerage passenger, and 106 tons of freight for San Francisco.

AMERICAN BARK SARANAC, from New York, sailed July 13th, due here Nov. 18-30, to Castle & Cooke.

BRIT BARK W H WATSON, from Liverpool, sailed June 9th, due here October 20th-Nov 1st, to Castle & Cooke.

BRIT BARK GLENGAR, Rolleston, from Liverpool, due here, Jan 15-31, to Davies & Co.

AM BARK S N CASTLE, Hubbard, from Fort Bakers, due here Dec 15th, to Castle & Cooke.

AM BARK MARITHA, Fisher, from Glasgow, sailed Aug 28, due here Jan 15-30, to Schaefer & Co.

BRIT BARK LADY LAMPSON, Marston, from the Colonies, due here in Feb, to Brewer & Co.

AM BARK HOPE, Penhallow, from Port Townsend, due here Oct 15th, to Lewers & Cooke.

LOCAL AND GENERAL NEWS. A DANGEROUS hole in the middle of Waikiki bridge is reported.

PAHALA mill began grinding last Wednesday on new cane.

THANKS to purser Brewster, of the S. S. Mariposa, for late Colonial papers.

THE usual temperance meeting will be held this evening, in Fowler's yard.

THERE will be a race at the skating rink to-night, and music by a band of new musicians.

THE billiard match between Mr. McCleery and Mr. Taylor comes off at the Hawaiian Hotel this evening.

THIS morning's "Advertiser" announces the appointment of Colonel G. W. Macfarlane as Financial Agent of the Hawaiian Government, to negotiate its loan.

COLONEL Claus Spreckels has returned the decorations of which he had been the recipient from His Majesty the King, and declined, on persuasion, to retain them.

WHILE the steamer Hall, was taking aboard rollers for Honouapuu mill this morning one weighing about seven tons fell, breaking through the hatch and lodging itself in the hold.

HON. L. KAULAKOU has resigned the Attorney-Generalship of the kingdom, and has resumed the Marshals-ship. Hon. L. Aholo, Minister of Interior, is said to be Acting-Attorney-General, pro tempore.

THE steamer W. G. Hall which arrived yesterday afternoon from Hawaii and Maui, brought news of two slight earthquake shocks, in rapid succession, at Kau last Tuesday. They were felt throughout the Kau district.

DR. FLINT'S HEART REMEDY is a Specific for all forms of Heart Disease and also for Diseases of Kidneys and Circulation. Descriptive book with every bottle. Eenson Smith & Co., Agents. 354

HAWAIIAN HOTEL ARRIVALS.

E. F. Chillingworth, Maui; Miss W. Crook, Maui; C. B. M. Mackenzie, Samoa; Justice Gillies, Auckland, N. Z.; Miss Gillies, Auckland, N. Z.; J. A. Noyes, Ohio; Mr. and Mrs. J. A. Leamouth, Victoria, Australia.

NOTABLE PASSENGERS.

Among the in transit passengers, per S. S. Mariposa this morning, were Mr. G. H. Bates, United States Commissioner to Samoa and Tonga, on his way home; Justice Gillies, of New Zealand Supreme Court, and his daughter, on a visit to the States; and Mr. Greenbaum, late United States Consul at Samoa, returning home.

AN ELEPHANT.

Mr. Hille's elephant, the Steam Laundry, was to have been bought by a syndicate for some \$20,000, but this syndicate having been told that the creditors were to buy it, they relinquished the claim, only to find that through somebody's smartness the Laundry was knocked down to a foreign corporation for \$900. If the purchaser think it is an elephant or a burden there are parties here who are willing to buy.

EXCITEMENT.

There has been considerable excitement around the town to-day, and in fact for the past two or three days, of a political, or semi-political, nature. Capitalists, merchants, professional gentlemen, and obscure citizens, have knotted together at street corners, on sidewalks, and other convenient places, to receive and communicate news, and express opinions. To learn what is the true position of affairs, seems almost impossible. In conversing with a dozen different persons, as many different stories will be heard, each individual asserting that his is the correct version. This is about the position of affairs, and until the wheat can be sifted out of the chaff, and the truth ascertained, it is wisdom to be reticent.

REPORT OF S. S. MARIPOSA.

Left Sydney Oct. 7th, at 4:50 p. m. Had strong South West winds with heavy beam seas to North Cape; thence to Auckland light winds and a smooth sea. The Mariposa will sail this 5 p. m. with 28 cabin and 28 steerage passenger, and 106 tons of freight for San Francisco.

AN IMPENDING CRISIS.

EDITOR BULLETIN:—Those of these islands—the Hawaiian Kingdom—who have not sought to gather the opinions of the more intelligent and influential classes, citizens hereon, relating to the legislative and administrative affairs of the Kingdom of late years and up to the present period, can have no fair idea of the extent of dissatisfaction and even of open censure which prevails in Honolulu, and over other parts of these Islands. This social rumbling continually growing louder and more threatening from time to time, should seem to forwarn an open outbreak of a reformatory character, in due time.

Let us not take an unwarranted alarm. It is intelligence that is leading the way, not barbarism; and we can conceive of nothing more grand in the human conduct than a considerate, bold and manly assertion of popular rights, or of a determination to suppress political wrong, whenever occasion may demand this issue. It is true and safe to say that the great bulk, if not the whole of whatever now exists in popular liberty and in more rational forms of public administration, came exactly through agencies of this kind. It was but a comparative trifle—a tax of threepence a pound upon tea for one—which, after a long struggle and great sacrifice, resulted in the independence of the U. S. of America. We need not go farther in illustration than this.

Now, what are the grounds of these complaints? There are several. It is said that the Royal administration is needlessly prodigal; that by far too large a share of the public monies, exacted from many of the poor and needy, inures solely to his own benefit, and to the benefit of his family, kindred, and favorites. If so the case shows a clear departure from the true quality of government, of a nature to specially require the intervention of his subjects. It should ever be borne in mind, that public monies can only fairly be raised by taxation, for the benefit of the public.

It is further said that the forms and process of popular election are invaded and treated with disrespect, in order that undue advantages may be taken in the interest of the Sovereign's party and friends.

This, if true, is a very serious charge; it strikes right at the root of free government and of political morality. It is also said, that personal and Court pressure are brought heavily to bear upon the legislative action of the Kingdom directly for personal favor and aggrandizement, overlooking many of the important wants of a general nature, which are persistently pressed by the members and their constituencies. Such conduct cannot be too loudly condemned. No intelligent subjects have ever endured such treatment long. The heels of such an administration are by far more powerful than its head.

Wanton extravagance in the use of public funds is always a precursor of a staggering public debt, inclined always to grow in size and viciousness; and long interest bearing bonds come easily in its wake. This is the present condition of this Kingdom, and the course stands out to view clear enough. What the end we do not know, but may readily conjecture. Our thoughtful people need not to be informed, for their thoughts on public affairs running in this direction have filled their minds with grave apprehensions. Just here has come in their fears, their leanings toward a crisis.

Nor are the more intelligent of the native population indifferent? The Tax Collector is not far away; their scanty living is soon to be reduced by exaction, tending mainly to the increase of luxury, to speak mildly, elsewhere than in his home; and neither is he neglectful of the feelings and interests of his lowly fellow citizens, much desiring a simple, honest, true and respectable government, around him, equal with himself.

Now in conclusion it should appear, we think, that a political crisis is impending here on the Sandwich Islands. It can only be avoided by falling back upon and observing the rules of government which shall time come nearest possible to the public welfare. A change of front, speaking in a military way, is needed. There need be no violence, no great clamor, even; but sure it is that present conditions cannot exist long.

HOSET GOVERNMENT.

A SERVIAN TOBACCO MONOPOLY.

The Government of Servia has just granted a monopoly for the sale of tobacco to a Vienna bank in consideration for the loan of \$10,000,000 during the last war. Patriotic smokers are now threatening to discontinue the use of tobacco, and the strike is likely to become general, as was the case in Hungary under precisely the same circumstances in 1852, and in Lombard-Venetia in 1859, when the Italian patriots tried to injure Austria by a general abstention from the weed. At that time there existed private committees whose business it was to induce smokers, by threats or gentle persuasion, to renounce their favorite habit. Those who would not comply with the demand were branded as "Shwarzelber" (Austrians) and excluded from the of good society.—[S. F. Bulletin.]

SUNDAY SERVICES.

ROMAN CATHOLIC CATHEDRAL.—High mass at 10 a. m. Vespers at 4:30 p. m.

KAWAIAHAO CHURCH.—Rev. H. H. Parket, pastor. Sunday school at 10 a. m. Preaching at 11 a. m.

A Woman's Sufferings and Gratitude.

A Voice from Austria.

Near the village of Zimigdorf, in Lower Austria, lives Maria Haas, an intelligent and industrious woman, whose story of physical suffering and relief, as related by herself, is of interest to English women. "I was employed," she says, "in the work of a large farmhouse. Over-work brought on sick headache, followed by the most painful and distressing of the stomach, until I was unable to retain either food or drink. I was compelled to take to my bed for several weeks. Getting a little better from rest and quiet, I sought to do some work, but was soon taken with a pain in my side, which in a little while seemed to spread over my whole body, and troubled in my every limb. This was followed by a cough and shortness of breath, until finally I could not sew, and I took to my bed for the second, and, as I thought, for the last time. My friends told me that my time had nearly come, and that I could not live longer than when the trees put on their green new more. Then I happened to get one of the Seigel pamphlets. I read it, and my dear mother bought me a bottle of Seigel's Syrup, which I took exactly according to the directions, and had not taken the whole of it before I felt a great change for the better. My last illness began June 1, 1883, and continued to August 9th, when I began to take the Syrup. Very soon I could do a little light work, and the cough left me, and I was no more troubled in bathing. Now I am perfectly cured. And oh, how happy I am! I cannot express gratitude enough for Seigel's Syrup. Now I must tell you that the doctor in our district distributed hand-bills cautioning people against the medicine, telling them it would do them no good, and many were thereby influenced to destroy the Seigel pamphlets; but now, wherever one is to be found, it is kept like a relic. The few preserved are borrowed to read, and I have lent mine for six miles around our district. People have come eight miles to get me to buy the medicine for them, knowing that it cured me, and to be sure to get the right kind. I know a woman who was looking like death, and who told them there was no help for her, that she had consulted several doctors, but none could help her. I told her of Seigel's Syrup, and wrote the name down for her that she might make no mistake. She took my advice and the Syrup, and now she is in perfect health, and the people around us are amazed. The medicine has made such progress in our neighborhood that people say they don't want the doctor any more, but they take the Syrup. Sufferers from gout who were confined to their bed and could hardly move a finger, have been cured by it. There is a girl in our district who caught a cold by going through some water, and was in bed five years with convulsions and rheumatic pains, and had to have an attendant to watch by her. There was not a doctor in the surrounding districts to whom her mother had not applied to relieve her child, but every one crossed themselves and said they could not help her. Whenever the little bell rang which is rung in our place when somebody is dead, we thought surely it was for her, but Seigel's Syrup and Pills saved her life, and now she is as healthy as anybody, goes to church, and can work even in the fields. Everybody was astonished when they saw her out, knowing how many years she had been in bed. Today she adds her gratitude to mine for God's mercies and Seigel's Syrup. MARIA HAAS. The people of England speak confirming the above.

After Several Years. "Stoke Ferry, January 9th, 1884. "Gentlemen,—I have used Siegel's Syrup for several years, and have found it a most efficacious remedy for Liver complaints and general debility, and I always keep some by me, and cannot speak too highly in its praise—I remain, yours truly, Harriet King."

After Sixteen Years. "95, Newgate Street, Worksop, Notts., December 29th, 1883. "Gentlemen.—It is with the greatest of pleasure I accord my testimony as to the efficacy of Mother Siegel's Syrup. My wife, who has suffered from acute Dyspepsia for over sixteen years, is now perfectly better through the sole help of your Syrup. I have sent pounds in medicines from doctors—in fact, I began to think she was incurable, until your marvelous medicine was tried. I remain, yours, thankfully, ALFRED FORD."

After Many Years. "Whittle Woods, near Chorley, December 26th, 1883. "Dear Sir,—Mother Siegel's medicine sells exceeding well with us, all that try it speak highly in its favor. We had a case of a young lady that had been troubled many years with pains after eating. She tells us that the pains were entirely taken away after a few doses of your medicine.—Yours truly, E. PEEL."

The Effects have been Wonderful. "Ilford Road Dispensary, Dukinfield, May 3, 1884. "Dear Sir,—I am happy to inform you that the sale of your Syrup and Pills increases here continually. Several of my customers speak of having derived more benefit from the use of these than from any other medicine. In some instances the effects have been wonderful. Yours very respectfully, W. W. PRO. EDWIN EASTWOOD, J. B."

SATURDAY, OCT. 23, 1886.

MY BOY, DO YOU SMOKE?

The United States Navy annually takes into its service a large number of apprentice boys, who are sent all over the world and taught to be thorough sailors. It has been the policy of the Government since the war to educate the "blue-jacket" upon the principle that the more intelligent a man is, the better sailor he is likely to become. There is no lack of candidates for these positions. Hundreds of boys apply, but many are rejected, because they cannot pass the physical examination. Major Houston, one of the marine corps, who is in charge of the Washington navy yard barracks, is the authority for the statement that one-fifth of all the boys examined are rejected on account of heart disease. His first question to a boy who desires to enlist is: "Do you smoke?" The invariable response is "No, sir," but the tell-tale discoloration of the teeth at once shows the truth. The surgeons say that cigarette smoking by boys produces heart disease, and that in ninety-nine cases out of a hundred the rejection of the would-be apprentices on account of the defect comes from the excessive use of the milder form of the weed. This is a reasonable statement, coming as it does from so high an authority, and based upon the results of actual examination going on day after day, and month after month.

INDIA.

There are twelve thousand miles of telegraph in India, ten thousand miles of railway, and no river of any size, however sacred, is free from the vulgar plunge of screw and paddle-wheel. The re-marriage of widows, the suppression of cruelties at festivals, and changes more radical than any the missionaries would dare to advocate are openly discussed in native papers. The leader of the Brahmo Somaj holds up the missionary to the everlasting gratitude of India. More attention is given to the education of the girls of India now, than was given to that of the boys thirty years ago. On the tables of cultivated Brahmins may be seen copies of Euclid, Blackstone and Cowper, often sacrilegiously bound in the skin of the sacred cow.

RELATIONS OF EARTHQUAKES TO THE MOON.

In a letter to the London Times, B. G. Jenkins of Dulwich, under date September 6th, writes as follows:—

Prof. Geikie in his "Geology" says that "an earthquake maximum occurs about the time of new moon." It is well known that the new moon produces two tides simultaneously in the external fluid of our globe on opposite sides of it. There is good ground for believing that the new moon affects the internal fluid in a similar manner.

Between August 26th and September 3, 1878, earthquakes and volcanic eruptions occurred in Germany, Holland, Belgium and Italy, the center of the disturbed area being in 50° N., 10° E. At the same time earthquakes and volcanic eruptions occurred in the Aleutian Islands, which are situated on exactly the other side of the globe. The moon at the time was new and in perigee.

Between August 26th and September 3, 1886, earthquakes and volcanic eruptions occurred in Europe and America, both again in the same latitude and both in a southeastern direction from the areas affected in 1878. The moon at the time was new and in perigee.

The difference in time between these two sets of events is exactly eight years. But eight years is the time that the tides of the external fluid take to repeat themselves. Do not the above instances show that eight years is the time the tides of the internal fluid take to repeat themselves?

MURDEROUS RELIGIOUS MADNESS.

A painful case of religious madness is reported by a Paris correspondent to have just taken place in the Hautes Alpes, near Briancon. Two sisters, named Marie and Catherine Olaguer, aged respectively 47 and 46, lived there on a little property which they had inherited. They had also a sum of 40,000 francs, which was well invested. They were noted for their piety, and both had a profound belief in miracles and the supernatural.

Last Monday morning Catherine told Marie that she had a vision in the night in which God appeared to her and demanded a proof of her obedience in sacrificing her sister. Marie lent herself to this idea, which did not appear to her at all strange. So after devoutly hearing mass on Tuesday morning she came home to prepare herself to be a sacrifice. Catherine got a sharp razor and cut with it into each of the arms in front of the elbow, and into the instep of each foot. The victim kept repeating "Jesus, Marie, my hope, my Savior!" Catherine then collected the blood to dry it and keep it as a relic. When Marie was lifeless, her sister dressed the corpse in white and went with the will of the defunct to a notary, to whom she related what she had done. She also said that

in obedience to God's command she had burned all the debentures and scrip belonging to her sister. The number of these had been, however, given to the notary by Marie. Catherine has been arrested, and will be subjected to an examination by doctors who make lunacy a special study.—London Globe.

NEW SEWING MACHINE MOTOR.

An exhibition of a new motor for sewing machines has been given. The motor is run by two cells and is claimed to be the first successful one of its kind. The method is exceedingly simple and can be readily understood. The battery is in a box 12 inches long, 12 inches high and 6 inches wide. It is an ordinary zinc and carbon battery, the solution being mainly bichromate of potash. The chemical is furnished in solid cakes, and is easily handled. The cells are square, with handles, and when the solution is exhausted they are taken out, the cake of bichromate is put in, with sufficient water to dissolve it, and the battery is all ready for running. The motor is attached to the sewing machine by a thumb-screw and is connected with the battery by two wires.

A handle is used for raising and lowering the zincs, and the speed of the machine can be regulated by the depth to which they are immersed in the solution. A speed varying from 250 to 1,000 revolutions per minute can be obtained. About eight hours' continual running exhausts the solution, when it must be renewed. The zincs last from six to eight weeks when in constant use, and they can be renewed at a small cost. For ordinary family sewing the charge will last three weeks. There is no chance of shock from the battery, as the current is so low that it is an impossibility. The estimated cost of running is 3 cents per hour when in use. The motor itself is as little liable to get out of order as the sewing machine, and there seems to be a probability that a domestic problem of very general interest has been solved at last satisfactorily.—N. Y. Post.

Great Excitement in Wales about a Marvellous Cure.

Living Six Years Without Going to Bed.

Mr. Editor:—While spending a few days at the pleasant seaside town of Aberystwith, Cardiganshire, Wales, I heard related what seemed to me a rather fabulous story of a marvellous cure.

The story was that a poor sufferer who had not been able to lie down in bed for six long years, given up to die by the doctors, had been speedily cured by some Patent Medicine. It was related with the more implicit confidence from the circumstance, as was said, that the Vicar of Llanyrtyd was familiar with the facts, and could vouch for the truth of the report.

Having a little curiosity to know how such stories grow in travelling, I took the liberty while at the village of Llanyrtyd to call upon the Vicar, the Rev. T. Evans, and to enquire about this wonderful cure. Though a total stranger to him, both he and his wife most graciously entertained me in a half hour's conversation, principally touching the case of Mr. Pugh, in which they seemed to take a deep and sympathetic interest, having been familiar with his sufferings, and now rejoiced in what seemed to them a most remarkable cure.

The Vicar remarked that he presumed his name had been connected with the report from his having mentioned the case to Mr. John Thomas, a chemist of Llanon. He said Mr. Pugh was formerly a resident of his parish, but was now living in the parish of Llanidolau.

He strongly vouched for Mr. Pugh's character as a respectable farmer and worthy of credit. I left the venerable Vicar with a livelier sense of the happy relation of a pastor and people, feeling that he was one who truly sympathized with all who are afflicted in mind, body, or estate.

On my return to Aberystwith, I was impressed with a desire to see Mr. Pugh, whose reputation stood so high. His farm is called Puncum-Mir, signifying "above the dingy," situated near the summit of a smooth round hill, overlooking a beautiful valley in which is situated the lovely ivy-mantled Church of Llanidolau. I found Mr. Pugh, apparently about 40 years old, of medium height, rather slight, with a pleasant and intelligent face. I told him I had heard of his great affliction and of his remarkable and almost miraculous relief, and that I had come to learn from his own lips, what there was of truth in the reports.

Mr. Pugh remarked that his neighbors had taken a kindly and sympathetic interest in his case for many years, but of late their interest had been greatly awakened by a happy change in his condition. What you report as having heard abroad, said he, is substantially true, with one exception. I never understood that my case was ever given up as hopeless by any Physician. I have been treated by several Doctors hereabouts, as good as any in Wales, but unfortunately no prescription of theirs ever brought the desired relief.

Fifteen years ago, he said, I first became conscious of a sour and deranged stomach and loss of appetite, which the Doctors told me was Dyspepsia. What food I could hold in my stomach seemed to do me no good and was often thrown up with painful retchings. This was followed after a time with a hoarseness and a raw soreness of the throat which the Doctors called bronchitis, and I was treated for that, but with little success. Then came shortness of breath and a sensation of suffocation, especially at night, with clammy sweat, and I would have to get out of bed and sometimes open a door or window in winter weather to fill my lungs with the cold air.

About six years ago I became so bad that I could not sleep in bed, but had to take my unquiet rest and dreamy sleep sitting in an armchair. My affliction seemed to be working downward into my bowels as well as upward into my lungs and throat. In the violent coughing spasms which grew more frequent, my abdomen would expand and collapse and at times it would seem that I should suffocate. All this time I was reduced in strength so that I could perform no hard labor and my spirits were consequently much depressed.

Early in this last spring I had a still more severe spasmodic attack, and my family and neighbors became alarmed, believing that certainly I would not survive, when a neighbor, who had some knowledge, or had heard of the medicine, sent to Aberystwith by the driver of the Omnibus Post, some seven miles distant, and fetched a bottle of Mother Seigel's Curative Syrup.

This medicine they administered to me according to the directions, when to my surprise and delight no less than my own, the spasms ceased. I became at ease, and my stomach was calmed. My bowels were moved as by a gentle cathartic, and I felt a sense of quiet comfort all through such as I had not before realized in many years. I could walk around the house and breathe comfortably in a few hours after I had taken the medicine. I have continued to take the medicine daily now for something over two months, and I can lie down and sleep sweetly at nights and have not since had a recurrence of those terrible spasms and sweats. I have been so long broken down and reduced in my whole system that I have not tried to perform any very hard outdoor labor, deeming it best to be prudent lest by over-exertion I may do myself injury before my strength is fully restored. I feel that my stomach and bowels have been and are being thoroughly renovated and renewed by the medicine. In fact I feel like a new man.

I have been much congratulated by my neighbors, especially by the good Vicar of Llanyrtyd, who with his sympathetic wife have come three miles to shed tears of joy on my recovery.

I bade Mr. Pugh good-bye, happy that even one at least among thousands had found a remedy for an aggravating disease.

Believing this remarkable case of Dyspeptic Asthma should be known to the public, I beg to submit the above facts as they are related to me. 299 1/2 wly] F. T. W.

THE FIRST HANSARD

Ever issued in the Hawaiian Islands.

A Complete Record

OF THE

Proceedings,

with verbatim Reports of Speeches

of the

Legislative Assembly

OF 1886.

will be issued from the

Bulletin Office

At the close of the Session, and will consist of the reports published from day to day in the BULLETIN, with corrections, where necessary. The BULLETIN Reports are STRICTLY IMPARTIAL and are THE ONLY PHONOGRAPHIC

Verbatim Reports

which have been taken.

The Edition will be limited, and orders should be sent to the BULLETIN Office without delay. All orders received in time will be filled as soon as the book is published.

HUSTACE & ROBERTSON

DRAYMEN.

All orders for Cartage promptly attended to. Particular attention paid to the

Storing & Shipping

of goods in transit to the other Islands.

Also, Black and White Sand

in quantities to suit at lowest prices.

Office, adjoining E. P. Adams & Co.'s auction room.

989 1/2 Mutual Telephone No. 19.

TO THE PUBLIC.

The Pacific Transfer Co.

Office with O. K. Miller, 42 Merchant Street,

Bell Tel., 377, Mutual Tel., 391.

I am fully prepared to do all kinds of drayage, hauling or moving work, all of which I will guarantee to execute faithfully.

62 1/2 S. F. GRAHAM, Prop'r.

Pacific Hardware Co., L'd, HONOLULU, H. I.

Novelties in Lamp Goods.

A new Invoice of Lanterns, Kerosene Oil of the very Best Quality, Stoves, Ranges and Tinware. SOMETHING NEW.

FIRE-PROOF SHINGLE PAINT, Recommended by Fire Underwriters of San Francisco, etc. etc. An actual Protection against Fire.

Harden Hand Grenades, A Small Lot, to Close Consignment.

Full lines of Hardware, Agricultural Implements, etc.

New Goods by Every Steamer.

JOHN NOTT, No. 8 Kaahumanu Street.

Granite, Iron and Tin Ware!

Chandeliers, Lamps and Lanterns,

WATER PIPE and RUBBER HOSE,

House Keeping Goods,

PLUMBING, TIN, COPPER AND SHEET IRON WORK.

Yosemite Skating

Health is Wealth!

SCHOOL

Will be open every afternoon and evening as follows:

Monday, Tuesday, Wednesday and Saturday Evenings, To the public in general.

FRIDAY EVENINGS, For ladies and gentlemen.

Saturday Afternoons, For ladies, gentlemen and children. Lessons in Fancy Skating.

MUSIC, Friday and Saturday Evenings.
