

A claim for loss of use and personal property due to the construction of a Loran station was filed in April, 1945, by a native of an island in Kwajalein Atoll. The claim in the amount of \$100. evidently reached the office of Claims Commissioner, Kwajalein, via Commander MarGil. In December, 1945, it was referred to a USCG Loran unit located on the island, and apparently no further action was taken. The claim has not been denied, and the native is under the impression it will be allowed. The file is being forwarded to ComMarianas for adjudication and instructions.

No other claims are pending.
