BOARD OF HEALTH

At the Board of Health meeting at 2 o'clock this afternoon it was decided to notify the authorities of Kauai of the situation here. Two steamers left Monday afternoon with Oriental freight. The schooner *Blanche* slipped out this morning with more freight from the infected district for Hanalei. The Chamber of Commerce will send an agent of the board to give warning of the freight that has gone ahead.

Mr. Cooper brought up the matter of a crematory for rubbish and urged that one be procured. On motion of George W. Smith the president was authorized to secure plans for same.

The Board authorized the steamship companies to stop such steamers returning from the other islands outside of the harbor and to keep them for service between islands other than Oahu. There was also no objection to such steamers taking rice from the Koolau side of this island.

The quarantine will be raised this afternoon on Queen street from Nuuanu street around to King street bridge, and River street through its length.

COMMENDABLE ENTERPRISE.
The Honolulu Steam Laundry with commendable enterprise has doubled their force and will run night and day to accommodate the increased demand upon them for washing. In addition they have arranged to thoroughly disinfect and sterilize all washing that goes through their hands, and return it done up in special prepared paper. This in addition to the great accommodation it will be to the community is a sanitary measure that will add to the speedy extermination of the disease. They will call for and deliver the washing, and all that is necessary, is to ring up their telephone No. 583 and give them your order and place of residence.

DEATH'S HAND SEEMS STAYED

NO PLAGUE CASES TODAY!

FIVE VICTIMS THUS FAR

INFECTED DISTRICT UNDER STRICT QUARANTINE.

Work of Cleansing the City Progressing—National Guard Called Out. Effect of Scourge Felt Everywhere.

The Bubonic Dead.
You Chong, aged 22, Wing Wo Tai's store, Nuuanu street, bubonic plague, body burned.
Ching Yee Now, aged 45, Ahl's store, Nuuanu street, probably bubonic plague, body burned.
Yak Hoy, aged 40, next door to Louvre saloon, Nuuanu street, probably bubonic plague, body burned.
Tam Kwok Yee, aged 44, Maunakea street, bubonic plague, body burned.
Nakawalla, South Sea Islander, aged 27, Queen near Richard street, bubonic plague, body burned.

The following death was investigated by the Board of Health:
Wong Dock, aged 35, King street, died from the effects of an old wound; was buried this morning in regular way.

There have been no cases of plague since yesterday.

Thorough inspection of all Chinatown and the native quarters in other parts of the city has failed to reveal anything of a suspicious nature.

Inspectors are required to report any case of sickness from a cut on the thumb, up. Numerous cases of minor ills have been sent in but nothing came of them.

A Japanese is sick at Dr. Kobayashi's old hospital on Beretania near Nuuanu street. The physicians have decided malaria to be the sole trouble.

One of the ladies of the Peniel Mission is sick in the Irwin block on Nuuanu street, in the quarantine district. This proves to be a case of bad cold or grippe.

These two cases are the only ones of anything like importance since yesterday.

At the latest hour this afternoon the physicians are very hopeful. Every department of the work of cleansing and disinfecting is running smoothly. There is a hearty co-operation of Japanese and some Chinese are assisting, though as usual the latter are more in the way than anything else. Natives are thoroughly aroused and are busy cleaning. They will follow every instruction of the Board of Health.

Dr. Hoffman, the government bacteriologist, says: "I feel that we have the situation well in hand. There may be other cases—most probably will be, in the houses of the first victims—but I now feel sure that the plague will be stopped at or very near its original starting points. If everybody will continue to work together as now there is no cause for alarm."

"There will be no more autopsies. We have established the existence of the plague beyond a shadow of a doubt. In future cases are certain to be discovered before the patient dies and we will take it up from there, cremating the body in case of death. If discovered while the patient is still alive, you should be able to determine the ailment."

Dr. Emerson declines to say that the two Chinese taken from Ahl's store and neighborhood yesterday had plague. The real situation can not be officially determined until cultures of the bacilli have been made. This will take a day or two more. Dr. Emerson superintended the autopsy. Dr. Hoffman is making the scientific examination. The cases are very suspicious. No chances were taken, the bodies being cremated as were the others.

President Dole also feels hopeful on account of the fact that no other cases can be found anywhere. He does not think the contagion has spread very far and believes it is already well in hand.

The end to which the physicians are working is that there shall not be a fresh outbreak in ten days. If there is the quarantine will have to be further extended. All are confident.

The one thing of annoyance is the current belief that the disease has been here for a month or more. Dr. Herbert affirms that it has. There were 111

deaths in November and a number were under suspicious circumstances. In the light of present events. At the same time it is a good indication that if the disease has been here for a month, it has not spread. It would seem that Hawaii's climate or sunshine or open air life had gotten the best of the dread ailment as in the case of other ills.

The Dead Kanaka.
"That is the worst case of all," declared Dr. Hoffman after the autopsy on the body of the Gilbert Islander, Nakawalla, aged 27, yesterday afternoon. This man died in the premises on Queen street directly in rear of the old Gibson residence near the Opera house. Twenty-eight people live in the house. From the body the physicians obtained the most conclusive evidence of black plague.

Evidence as to how the men contracted the disease is conflicting. The family deny that he had worked at the wharves or had been in Chinatown. Friends of the dead man affirm, on the other hand, that he was a stevedore and assisted in discharging the *Thyra* and other recent vessels from Japan. Rev. Hiram Bingham, who talks the Gilbert tongue, closely questioned all members of the family but failed to find the clue so much desired.

The death increases the seriousness of the situation as it shows that the infection is already out of Chinatown and in a large native community. A house to house inspection was inaugurated in the district yesterday morning and is being rigidly prosecuted.

At 8:30 this morning Colonel J. W. Jones issued an order calling out the entire First Regiment, National Guard, for duty in Chinatown. Captains of companies promptly notified their men and the commands at once began to assemble.

The order yesterday merely called for volunteers from the ranks. Eighty-five men at once turned out. By nightfall the number had increased to 175 and this morning it was a little over 200. The war footing of the six volunteer companies is 618 men, but none of the companies are now full.

Yesterday afternoon a military guard was placed over each of the infected houses. Inspection went steadily on under a large force. About 11 o'clock last night the military cordon was placed around the quarantine district and the representatives of all foreign countries yesterday afternoon. Several consuls called at the Board of Health office and evinced great interest in the cleansing campaign being organized. British Consul Hoare applied for a pass to Waialua, but was informed that Colonel Fisk's hotel had not been quarantined as yet against Honolulu.

Consuls Notified.
Official notices of the plague were sent to the representatives of all foreign countries yesterday afternoon. Several consuls called at the Board of Health office and evinced great interest in the cleansing campaign being organized. British Consul Hoare applied for a pass to Waialua, but was informed that Colonel Fisk's hotel had not been quarantined as yet against Honolulu.

Japanese Doctors Help.
The Japanese physicians in a body visited the board of health this morning and offered their services. They brought with them a big roll of placards in Japanese informing their people of the appearance of the disease and the methods they should adopt to ward it off. Their request to be allowed to post these placards in Chinatown and in all Japanese communities was readily acceded to. In fact the move was of great assistance, anticipating just what the board was about to undertake. The doctors were assigned as inspectors in the infected district.

Hungry Firemen.
There were five hungry firemen at Engine No. 3, Pauahi and Maunakea streets, this morning. They could not get out for breakfast and the military guard would not admit servants with the morning moon. About 8 o'clock a pitiable tale of woe reached Chief Hunt over the telephone from his shut-in braves. The Chief took to his buggy and after a time secured a pass for a man to go to the firemen with the breakfast and return. The refreshments reached the men about 9 o'clock and arrangements have been made whereby meals will be supplied to them regularly in the same way.

Keep Servants Indoors.
The Board of Health urges upon housekeepers to keep servants indoors. Under no circumstances should they be allowed to visit other Chinese or Japanese or to eat any Oriental food. Servants should be kept clean and special attention should be given to sanitary condition of kitchens. Any infraction of this instruction will multiply the duties of the inspectors and make a spread of the dread disease more easy and likely.

Closing of Schools.
No schools opened today. There were only four days more of the term, so that very little difference is made. Trust officers now report to the Board of Health and receive instructions from that department. Their work will consist of watching out for children in the streets and seeing that they keep away from "suspect" localities.

Rau Quarantine.
Two Chinese attempted to escape from the quarantined district this morning by "running the guard." They were caught by a policeman and taken to the police station. The police turned them over to the Board of Health

agents and they were sent back to quarantine.

The Plague in Court.
The effects of the plague were felt in the Police Court. This morning the case of Ah Nee charged with larceny in the second degree was continued indefinitely because witnesses on both sides were detained within the quarantine district.

Armstrong Smith Again.
Armstrong Smith, who made a record for noble sacrifices and invaluable service during the cholera epidemic in 1895, has again volunteered for duty under the Board of Health and is already in harness.

BUSINESS IN CHINATOWN.
There has been a jam at the Board of Health office today for passes into the quarantined district. All sorts of reasons for wanting the passes were given. Electric light, telephone, and market men, one representative of each paper and quite a few others on important personal business were admitted. Up to noon 200 passes had been issued. Chinese, Japanese and natives were made available at Jack McVeigh and Sam Decker are assisting in writing out passes.

At 11 o'clock this morning the Board decided that employers might get their servants out of quarantine by applying for passes and reaching the servants through the military authorities. It is required, however, that servants so released shall not visit the Chinese quarter until after the quarantine is raised. The Hawaiian hotel and Arlington kept all of their servants indoors last night and have their services today. This was a thoughtful precaution.

Money Made Available.
The Council of State met in extraordinary session yesterday afternoon to appropriate money for immediate use of the Board of Health in combating the plague. Mr. Cooper asked for \$10,000, but the Council thought enough should be made available at once and the amount was raised to \$25,000. Additional pay will almost certainly be made the National Guard for extraordinary services. It is understood that the figures will be about the same as during the rebellion of 1885.

Japanese Knew It.
The existence of the plague in Honolulu has been known for some days among the Japanese, according to their statements. It is certain that they have talked of it, as many claim to have known since last Saturday that the great Oriental scourge had found its way here. As long as two weeks ago, it is stated, complaints were made that there were many dead rats on Nuuanu street, which is regarded as a sure sign of the plague.

CORRALLED THE LIME.
Armstrong Smith, acting for the Board of Health, has "cornered" enough lime for present uses. Fifty barrels were secured outright this morning; twenty-five are subject to call if necessary. Fifty more are promised to be delivered in a few days if needed. This places 125 barrels in the hands of the board which, it is thought, will be quite enough. There will be a generous distribution of the disinfectant above town. All Chinatown will have a snowy coat.

CASE OF THE IROQUOIS.
The U. S. S. *Iroquois* did not refuse to go after the *Kinai* yesterday. Soon after the vessel sailed the Board of Health asked Lieutenant Pond to bring her back. He replied that he did not have steam up, and it would take some time to get ready. At the same time he called attention to the fact that an island steamer, with steam already up, lay at the wharf. "If nothing else can be done I will get ready and go," added Lieutenant Pond.

THE PIG LIVES.
The guinea pig inoculated by physicians of the Board of Health with bacilli taken from black plague corpses yesterday is still alive, but is very sick. The steamer to Kaula that the animal will die. This is a test made in addition to the bacteriological cultures.

Was Not Plague.
About 8 o'clock last night the military inspectors found a sick child in Chinatown. The ailment proved not to be plague.

Chamber of Commerce Helps.
At the Chamber of Commerce meeting this morning it was decided that steps should be taken at once to communicate with Kauai and inform the people there of the situation, giving them the regulations adopted by the Board of Health. A committee consisting of President T. R. Walker, J. P. Cooke and J. F. Hackfeld was appointed to arrange the matter. The committee will find out what the government intends to do and if necessary charter a small steamer to go to Kaula.

The Chamber also adopted a resolution notifying the government that it would be glad to render any assistance possible while the present situation continued.

The following members were present: President T. R. Walker, W. F. Allen, C. M. Cooke, F. A. Schaefer, J. P. Cooke, H. E. Wally, A. J. Campbell, J. J. Egan, F. J. Lange, W. M. Giffard, A. V. Gear, F. J. Lowrey, J. G. Rothwell, E. D. Tenney, George H. Robertson, C. L. Wright, Secretary J. G. Spencer.

Cecil Brown, president of the First American Bank of Hawaii, was elected a member of the Chamber.

Milk Delivery.
Milk for the Quarantine district will be delivered at the corner of Hotel and an officer will be detailed to receive it.

Not Suspicious.
There was nothing suspicious about

the death of the Chinaman next door to the Metropolitan Meat Market. The man had been sick for several weeks and died of paralysis.

Quarantine Rules.
Vessels that arrive here during the period while the plague is in town will be given the choice of coming in the harbor or going away. A doctor will board all vessels and inform the captain of the state of affairs and if he desire no one else will be allowed to go on board, except in the case of mail steamers which Louis Kanaka will have to visit.

Cleaning the Town.
The custom house and government warehouses have all been thoroughly fumigated and bonfires of rubbish were burning today. There are several very bad cess pools at the lower end of Fort street and on the end of the Oceanic wharf and the attention of the Board of Health is called to the need of looking after them. Lime was sprinkled all over several of the wharves today.

A Plague Specific.
William T. Fee, United States Consul at Bombay reported recently to the State Department upon the bubonic plague in that province. He mentions a prophylactic which has been used in western India. The consul says:

"The plague microbes are capable of living and multiplying only while they have access to supplies of organic nourishment. They are able to pass directly from body to body or to remain alive and even multiply outside of the body. Thus, there are two ways in which plague may travel; it may creep from patient to patient in a direct chain, or it may use places where suitable decaying substances are to be found as temporary links in the chain. An antiseptic or serum, first prepared by Professor Haffkine as a plague inoculation, called Haffkine's prophylactic, is now being used in Bombay and western India with remarkable results.

"This prophylactic is prepared by first taking the plague bacilli, or the young germs, from a person affected with the plague and cultivating them. These microbes are killed by artificial means and a high degree of heat. From these dead germs and their poisonous excrements is produced a fluid that is believed to have acquired the power, when injected into the human system, to render the blood immune from the attack of plague germs and to neutralize their effect. The injection of such poison has the effect of an antitoxin and prevents the system from nourishing plague. A dead-plague germ being inoculated into a person, plague will not follow. A person after having one attack of the disease is rarely liable to a second. The person first inoculated is subject to symptoms of the plague. In vaccination for smallpox a living germ is dealt with, whereas in plague inoculation dead seeds only are injected."

SENDS FOR PLAGUE SERUM

RECOMMENDED BY THE FRENCH CONSUL.

Cabinet Authorizes a Quantity for Future Use—Pay of the Militia During Quarantine.

French consul Moet has made an offer to the Government to order from Paris a serum which has been adopted in Europe as a preventative of the plague. He says the best success has attended the remedy and gave to President Dole numerous opinions, regarding the virtues of the specific.

At the meeting of the Cabinet this morning the matter was taken up. It was felt that the serum would be a good thing to have on hand at any time, though it will hardly be possible to get it here for the present emergency. On motion it was voted that the Board of Health be authorized to accept Consul Moet's kind offers and order as much of the serum as may be deemed advisable.

It was voted that the pay of the National Guard during quarantine duty be as "for active service and maintenance." This means \$2 a day for privates and upward, according to rank.

It was voted to allow Company F, N. G. H., the sum of \$125 for the month of December, the additional \$75 being for the expenses of Sergeant Peterson in the hospital. The Cabinet finds that Peterson can not be treated as a Government patient and arranges it in this way.

FIRE LAST NIGHT.
The cottage used as servants quarters at the residence of H. Renies Nuuanu valley was burned about 10 o'clock last night. When the fire broke out, neighbors assisted in saving the contents of the building and in preventing the spread of the flames to the residence. The absence of wind made this possible. The fire had completed its work before the fire department was able to reach the place.

COMING MOTOR VEHICLES

REPORT ON THE RECENT BERLIN EXHIBITION.

Consul-General Mason Says Not a Single American or British Manufacturer Represented in His Own Name.

An International exposition of motor vehicles has just been held in Berlin. It was opened in the presence of the Emperor and many other distinguished personages. United States Consul-General Frank H. Mason at Berlin, has made a comprehensive report of it to the State Department which has been published in the consular reports, copiously illustrated.

Among other things he says: "The exhibition proper has been made by one hundred and twenty firms and companies, of whom eighty-one are German, four Belgian, twelve French, and two from Switzerland. Not a single American or English motor is represented in his own name, although there are tires, driving chains, and other machine parts of English origin exhibited under the names of their German agents; and three of the most noticeable and admired electrical motor carriages on exhibition are from the works of the Pops Manufacturing Company, of Hartford, and exhibited by the Motorfahrzeug und Motoren-Fabrik, of Marienfelde, a suburb of Berlin, which firm has acquired certain patents of the American company.

"As classified under the schedule previously announced, the exhibition includes forty different models and types of motor carriages for one passenger or more; thirteen exhibitors show motor wagons for freight; twenty-six numbers cover exhibits of motor cycles and trail carts belonging thereto; six firms exhibit motors and parts of the same; two show only springs and wheels for motor carriages; fifty-one firms exhibit various miscellaneous parts, fixtures, and materials for motor carriages not included in the preceding classes; and five exhibitors display the literature, drawings, maps, and models which the new science of automobilism has thus far developed.

"Large sales have been made, some of the different types having been sold as many as twenty times for future delivery; and it is noticed that for town or city use the electrical carriages have the preference among purchasers, while for country districts and parts of the delivery wagons the benzine and gasoline motors have the call. This is the natural result of considerations which apply equally in all countries. The electrical carriage is more easily handled than those of the oil or benzine type; it is self-starting, free from smell, practically noiseless, and can be run at wide ranges of speed without the use of different gear wheels; it is good for 40 miles without recharging, which is quite sufficient for ordinary city, park, or suburban driving, and can be managed by a skillful amateur without the presence and help of a professional driver.

"The hydrocarbon wagons are, on the other hand, cheaper; they require as source of power only a few quarts of benzine or gasoline that can be bought at any country store; and they can be run by any ordinary machinist who has no knowledge of electricity."

PUBLIC CONCERT.

The band will play at Makee Island this evening, beginning at 7:30 o'clock. Following is the program:

ONE ON HIM.

"Blast that lamp!" roared Mr. Pegel, who was heating some water for shaving purposes.

"It reminds me of you at the theater," said Mrs. Pegel, sweetly.
"Reminds you of me?" he thundered.
"In what way?" "Speak, woman."
"Why, this makes the fourth time it has gone out and every time it goes out it smells of alcohol."—Chicago News.

A GOOD THING.

MAY ALL BE SENT BACK PASSENGERS WHO LEFT HERE ON THE KINAU. Over Two Hundred Japanese on Her Deck—Landing Will Probably be Refused.

The island steamship Kinau, which left port yesterday just as the Board of Health was making its order for the Wilder and Inter-Island Steamship companies to allow no more vessels to depart until further notice, carried a large number of cabin passengers and a deck full of Japanese immigrants. There were 270 deck passengers on the boat, most of them Japanese immigrants who are booked to work on plantations.

It is considered very doubtful that Kinau will succeed in making a landing at more than one Hawaii port. She is quite likely to show up here in a day or so with nearly all her passengers and freight still on board, as the people of Hawaii are likely to keep her away as long as they learn that she left here after the plague had been officially declared to be here. The first port at which the Kinau calls on Hawaii is Kawaihau. From here telephones run all over the island. The news that the black plague is in Honolulu will undoubtedly get ashore immediately when the vessel reaches Kawaihau and when the Kinau reaches Hilo and other ports she is likely to get a lively reception. The passengers who left here on the Kinau yesterday, and who may only have a round trip without any landing, are:

HOW IT WORKED. A Cornish Phrase Wins Provisions for Gen. Buller.

Thirty years ago when Redvers Buller was on his way to Canada with a regiment of soldiers, the troopships were stopped by fog in the mouth of the St. Lawrence river, and delayed so long that provisions gave out. On a small island, near the river, was a station for shipwrecked sailors, so Buller took two sailors and rowed off for assistance. Finding a woman in charge of the supplies, he stated his case and asked for a share of the stores. "No," came the reply, "the supplies are for the men shipwrecked, not for such as you!" "But this is government depot, and we are servants of the crown." "Can't help it; you're not shipwrecked!"

Luckily the dispute, which was promising to be a hot one, ended here, for Buller, taking his cue from the woman's Cornish accent, asked her: "What! not for dear old one and all, and I a Buller?" The effect was magic. Rushing toward the colonel as if she would like to embrace him, she exclaimed: "What! be yeuv from Cornwall, en' a Buller? Take everything there is in the place; you're hearty welcome!"

BRAVELY MET.

The Board of Health, supported by the citizens, has taken the matter of the plague in hand with a vim and energy which must be very reassuring to the timid, and satisfactory to the thoughtful. There has been no delay. As soon as it was discovered that the plague had actually gained a foothold, the battle against it was commenced and before evening a strict quarantine had been established, inspections made, organization perfected and money voted for carrying on the fight. Great credit must be given to Minister Cooper for his energy. There are very few places, if any, upon the face of the globe, where measures could have been taken so efficiently and so rapidly.

The situation today is reassuring. There have been five cases of the disease and five deaths. These occurred yesterday. No new cases have developed today. Should any develop the fact would be known instantly and the unfortunate sufferer segregated at once. Of course we are not quite out of the wood. No one can tell for the next ten days, the usual period of incubation, whether others, besides those who have succumbed, have not been inoculated. But the speed with which quarantine measures have been taken will isolate such cases and prevent them from carrying contagion further.

The measures taken for cleaning the town are efficient, and in this the citizens can individually co-operate. Yards should be thoroughly overhauled and all decaying matter should be burned. Each householder should supply himself with disinfectants and there should be a liberal use of white wash. By taking such measures the work of the Board of Health will be lightened at a time when it needs every assistance that the citizens can give.

It is very satisfactory to find that there is no panic, and that the citizens have met this attack from an insidious foe in a calm and business-like manner. They have shown both nerve and judgment. In cases of disease itself that kills, and it must be said that the manner in which the Board of Health is managing this matter dispels fear even in the minds of those who are constitutionally timid.

Today it is permissible to write in a most hopeful strain, and it is possible that the snake has been strangled in its act of birth. If this be so, Honolulu is a very lucky city.

The Portuguese band was extremely cheerful last night. It indulged in a series of the most lugubrious funeral marches. The effect upon the nerves of a number of rather scared ladies was all that the leader of that band could desire. But there are some people who would suggest that when plague is threatening the city this is not quite appropriate music.

PUBLIC vs. PRIVATE CONVENIENCE.

There really should be some limit to moving houses in bulk. At the present time a house is being moved along King street. It disarranges all the tram car traffic and will disarrange it for some time to come. Further it disarranges all the telephone wires and important messages yesterday afternoon failed to connect. As it happened it was very important that these messages should reach, but the house, belonging to one man threw dozens and twenties of people out of connection. Then again the trees which overshadowed the road, and made walking a pleasure under our tropic sun, have had their branches cut and mutilated, and it will be years before they are in proper shape again.

What are the regulations for moving houses? The question has never come up, as far as The Star can learn, before the courts. But there should be some limit to this kind of thing. Certainly it was never meant that the convenience of one man should inconvenience half a city, paralyze, for a time, its rapid telephone accommodation, stop its tram car traffic, and destroy the beautiful trees which are the charm of our tropic city.

When last seen in the evening the devastating edifice had reached Union Square. That was a day's journey from its site, about four hundred yards away. How long it will take the monster to travel to its future abode, no one can accurately determine. We have no municipality, and therefore no city officers or mayor to appeal to. But there is the Minister of Interior, and surely he has power over such iconoclasm.

If the house referred to is being moved without permission it is the duty of the Minister to step in and order that it should be taken to pieces. If the Minister of Interior has given permission for its removal in this manner, he is much to blame, for he should have foreseen the great inconvenience to

which the public would have been put to. The convenience of the individual should never be allowed to interfere with the convenience of the public at large.

It is true that the public was inconvenienced by the opening of the streets for laying pipes for the sewers. But this was for a public improvement. So also the roads may be blocked by laying the rails for the rapid transit company, but this, again, is a public improvement. What advantage the public is going to gain by the removal of the old Gulick premises from the present site to Independence Park is very problematical. Perhaps the Minister of Interior can tell—No one else can.

Minister Mott-Smith is to be commended for his action in closing the schools. There is nothing like being prompt in matters of this sort. It works a hardship on many children because several schools had made arrangements for coming Christmas festivals for their children, and these, of course, are knocked on the head. However, they can be held later when our trouble is over.

During the year just closing The Star has persistently urged that the city should be cleansed. The attention of the Board of Health has been called again and again to the subject, but the remarks fell upon deaf ears. Only last Friday was the subject again urged. The remark was made in an editorial of that day. "Any one visiting the purlieus of the city will soon become satisfied that there are accumulations of filth which ought to be removed. * * * There are festering masses of it in countless back yards, and these not always the residences of poor people." However it required the Board to run up against the plague to be roused out of its apathy. Now the filth will be removed and the city put into excellent sanitary condition—but there is a proverb about a horse, a stable door and a lock, which seems remarkably applicable.

We have an engine on the Plains, and it did efficient service the other day, being able to reach the scene of conflagration in time. Engines from town would never have been able to have arrived till all the buildings were a heap of ruins. With the extension of the city in the upper parts of Nuuanu Avenue, an engine should be stationed somewhere in the vicinity of Judd street. There should also be an engine house somewhere in Palama. The city is widely spread and should be protected from fire. Last evening the engines only arrived at the Renjes' place when everything was in ashes. But instead of the cottage it might have been the main house, and the result, as far as the engines are concerned, would have been the same.

The action of the Japanese physicians in going a body to the Board of Health and offering their services, and also asking to be allowed to placard the infected districts with a printed account of the facts in connection with the plague, is highly to be commended. The Japanese physicians are highly trained gentlemen, and understand the disease as well as any of the physicians here. Their action will have a good and reassuring effect upon the Japanese community.

It is an ill wind that blows nobody any good. The war in South Africa has sent up the price of diamonds thirty-five per cent, so the holders of such gems are just that much richer at present.

FREIGHT NOT DISINFECTED

The freight of five tramp steamers from Japan has been discharged here recently without any fumigation and it is possible that one of them brought the germs of the plague. The last was the Carmarthenshire, which came from Yokohama, where no plague is reported. But even the Carmarthenshire had late Kobe newspapers, showing that there had been communication between that place and Yokohama. About 400 Kobe immigrants, booked to come on the Carmarthenshire, were not allowed to leave. The Carmarthenshire arrived here on the 5th of this month.

The Norwegian steamer Thyra, which brought Kobe freight and 710 immigrants, arriving November 28th, is quite generally thought to have been the ship that brought the disease here and her captain, J. O. Edvordsen, is accused of very grave neglect, or possibly concealment of the facts. His steamer was allowed to dock and discharge at Brewer's wharf, as he gave no reports that there was any epidemic at Kobe. He is said to have stated, in fact, that there was none. His bill of health and clearance papers were all right, showing apparently a serious lack of vigilance on the part of the authorities in Japan. Just before leaving Captain Edvordsen made the statement that black plague was raging at Kobe. Had he told this when he arrived there would have been delay in discharging his freight and it would have been fumigated. Many people think that he deliberately concealed the facts, endangering thousands of lives here, for the sake of getting a quick discharge.

The Abergeldie came here from Yokohama on the first, with 685 immigrants, and on the 25th of November, the Yorihime Maru and Toyo Maru arrived together from the same place, having 1436 Japanese on board. None of the freight from these vessels was fumigated. It was hauled up town from the steamers and is now distributed about Chinatown, on island steamers and on various islands. Some of it is still on Brewer's wharf.

VESSELS IN QUARANTINE

FIVE ANCHORED OUTSIDE THE HARBOR.

Instructions from the Board of Health to the Shipping Companies—Suspect on the Hall.

By noon today five in all steamers were anchored outside the harbor, held in quarantine. One was the transport Warren, Colonel Beck having changed his mind about starting for Manila after consultation with the physicians on board. It is a question why he is waiting, as if the plague should break out among the 800 negroes on the vessel, Honolulu authorities would not be very anxious to have him put back into this port. The other steamers outside are the Helene, Claudine, Mikahala and W. G. Hall. The Noeau and Lehua will also go out before night. The steamers are to wait at anchor for seven days, after which if no sickness develops on board they may proceed to their destinations. Before they left the docks Dr. Garvin made an examination of the crews and passengers giving them certificates of health after a careful inspection. Only one man was rejected as suspiciously ill among those examined. He was a native employed on the W. G. Hall. Dr. Garvin did not order the man to the hospital, as he was of the opinion that the case was nothing serious. The native was slighted, Dr. Garvin thought best that he should not go.

The crews were lined up on the wharves and the doctor felt pulses and looked at their tongues one after the other, ordering them on board as soon as he was satisfied that they were all right. Dr. Garvin found two among those on the Claudine that required special examination and he ordered them to stand aside. One was a native and the other a Chinese. They had a bad scare when the doctor refused to pass them, and both looked ready to clasp their hands in prayer. Dr. Garvin looked at their cases more carefully when he had finished with the others and decided that they were not suspicious cases. Both men ran aboard with faces wreathed in smiles. They looked as if final rejection would have been as good as a death sentence.

No Japanese or Chinese passengers and no freight from persons of either race is allowed on board the outgoing steamers. The instructions given to the inter-island steamship companies is contained in the following letter from President Cooper of the Board of Health in answer to inquiry from President Wight of the Wilder Company.

"No steamers will be allowed to leave the port of Honolulu for any other port in the islands, except the island of Oahu, without first undergoing a quarantine of seven days, to begin from the time the ship crew and passengers have been inspected and the ship anchored in such places as may be directed by the harbor master. No Chinese or Japanese freight of any description will be allowed shipment. By Chinese and Japanese freight is meant all groceries, supplies or goods of whatever description carried or sold by Japanese or Chinese merchants.

"No Chinese or Japanese passengers are to be taken and all other passengers must obtain a permit from this office before being allowed to embark. Vessels which have not yet arrived at the port of Honolulu will be considered free ships if they do not enter the harbor, their freight being discharged from lighters. Such vessels will be allowed to take from this port lumber, machinery, building materials, rice of domestic growth, flour, feed for animals and coal, provided the same is taken to the ship in lighters and put on board under inspection by an Agent of the Board of Health."

Only a few passengers went on the island steamers, to spend seven days at the entrance to the channel. There were none at all on the Helene. On the Claudine were Mrs. Jane Papaia, R. W. Filler and wife, Clarence Allen, James Hatcher, E. J. Silva, J. J. Drummond, A. Aalberg and wife, E. J. Silva. The W. G. Hall's passengers were Frances Gay, W. T. Lucas, H. N. Crabbe, J. J. Silva, P. Miller and wife, H. Isenberg. The passengers on the Mikahala were S. H. Comstock, A. Johansen, Mrs. Scott, Miss Alice Wright, E. Powell and wife, John Thompson, Mr. Graves, J. Tennan, O. Miles.

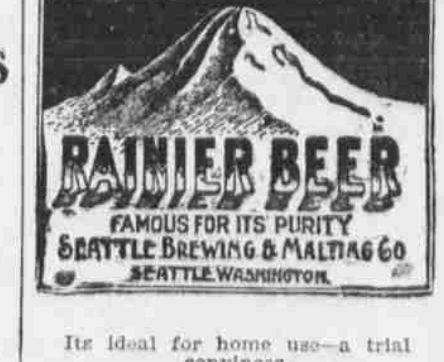

Weeks may elapse before the officers and crews of the island steamers that have gone out set foot in Honolulu again. When they return they will probably keep outside, unless the plague has been stamped out and the quarantine declared off. During the quarantine against cholera island vessels were out as long as forty-six days. Island steamers that are now away will probably take advantage of the opportunity to get away again quickly, by staying outside, and thus keeping their standing as free vessels.

The transport Sherman, which was due this morning from San Francisco, will probably not enter the harbor. The Centennial, having horses on board, will have to do so, but she may keep away from the dock, allowing the horses to swim ashore on the Ewa side of the railroad. Coal could be loaded on to her from a scow. The Sherman will probably be coaled by use of scows outside the harbor.

GENEROUS.

"Harry, you promised me a plain sealin' coat; I believe I'd rather have one trimmed with otter."
"All right, KIRTY; I'll promise you any kind you like, for I'm not going to be able to buy it."

A Favorite with Everyone!

Its ideal for home use—a trial convinces.

The cleanest, brightest safest and really the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind what you want the best and safest light; send in the Hawaiian Electric Company and tell them what you want.

AGE Why do you sit calmly and just let your hair all fall out or get gray and do nothing to stop it? Is this common sense? Not a bit of it. No need of losing your hair in this way. And there is no need of your looking old before your time, either. The hair may be preserved and made beautiful by giving it the food found in—

It always restores color to gray or faded hair. Your hair may have all the dark, rich color of early life. Then why not have it so?

BRILLIANT ENDORSEMENT.

By Health Journal of New York, August 24, 1899—J. A. Davis, M.D., Editor and Manager.

Only last week we examined the beer brewed by the Capital Brewing Company of Olympia, Wash., and it is a perfect illustration of the quality of beer which we are always glad to commend, for the analysis showed it to be entirely free from any trace of any injurious substance. Such a high grade of beer is most beneficial in its use, for none of the pure malt and hops have been displaced by harmful ingredients. Every hygienist will concur with us in saying that a beer of such superior excellence is a very wholesome beverage. Physicians often have occasion to prescribe a pure beer for cases of debilitation, and they can safely order this beer, made by the Capital Brewing Company.

L. H. Dee has in his keeping the American Journal of Health and can be seen by anyone.

This beer can be had in bottle or on draught at the HOFFMAN, corner of Hotel and Nuuanu streets. A large assortment of the very best of American and foreign liquors we are pleased to sell you and give you value for the merit of your health.

DRAMA OF HUMBLE LIFE

STAGE SCENES FROM THE POLICE COURT.

December and May and the Chinaman's Diamond Ring Which Divided a Household.

December and May were before the District Magistrate this morning. Judge Wilcox succeeded in melting December into penitence, but May was obdurate and left court with a pout at the judge and dark clouds of displeasure at her husband.

December was represented by Keala who married at 59, when his wife was only 12. He was charged with threatening to do her great bodily harm. As part of the "res gesta" it was testified that he frequently came home drunk and abused her. In justification he claimed there was a good looking Chinaman who spent too much time at his house when he was away, and whose diamond ring she was wearing as she faced the court.

"You never give me any money to keep house with," she retorted.

"I gave you \$10 on Friday," he replied.

"Yes, you gave me \$10 in the morning, and took it away in the afternoon."

"That's the wrong kind of double entry book-keeping," interposed the court.

"I've tried to live with him twice," she said, "but its no use, I can't."

"Oh but the good book says you must forgive seventy times seven. Your husband says he won't get drunk any more. Now you try it once more," and the judge ordered the case dismissed.

But while December smiled, May frowned.

Peter Aukal a bright looking part Hawaiian had with the glint of burnished copper in his hair was sent to the Reformatory for six months for truancy. His prepossessing appearance together with his frank plea of guilty and naive explanation that he remained away from school to play, rather appealed to Judge Wilcox and he was inclined to let the boy go with good advice. But the boy's mother said he was incorrigible and so he was given six months in the hope that the discipline of the institution for that time would conform his character to his looks.

"Koa," said the court to the man in the dock who wore the uniform of the National Guard of Hawaii, "Koa," your name means soldier but when you're called out for soldierly duty you fall miserably. You try to fill up with Dutch courage, and instead of helping in the work of staying the plague, you get drunk and have to be taken to the police station and locked up. Go and report for duty now, and if you get cold feet don't try to warm them with liquor."

CHURCH FAIR.

The Methodist fair yesterday afternoon and last night was a great success, although the crowd was not so large as it would have been were it not for the health excitement. A neat sum was realized for the church fund.

MOLOKAI PERSONALS.

KAUNAKAKAI, December 12.—P. McLane manager of Kamalo plantation went to Honolulu last Saturday accompanied by his brother who came out recently from the coast to visit his brother in the islands.

Miss Bertha Meyer of Kalae returned from San Francisco last Friday. She is now with her mother who is very ill.

Cuticura SOAP

For the Complexion

To purify and beautify the skin and prevent pimples, blotches, black heads, redness, roughness, yellow, oily, mothy skin, chapping, tan, sunburn, and many other forms of skin blemishes, no other skin or complexion soap is for a moment to be compared with CUTICURA SOAP, because no other soap reaches the cause, viz. the clogged, irritated, or inflamed condition of the pores.

For Hair and Scalp

SHAMPOO WITH CUTICURA SOAP, rinse with warm water, dry, and apply a light dressing of CUTICURA, purest of emollients, gently rubbed into the scalp. This simple, refreshing, and inexpensive treatment will soothe irritated and itching surfaces, stimulate the hair follicles, clear the scalp and hair of crusts, scales, and dandruff, supply the roots with energy and nourishment, and make the hair grow, when all else fails.

For Sanative Uses

Its remarkable emollient, cleansing, purifying properties, derived from CUTICURA, the great skin cure, warrant the use of CUTICURA SOAP, in the form of baths for annoying irritations, inflammations, and chafings; for too free or offensive perspiration, and also in the form of internal washes and solutions for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially to mothers. The use of CUTICURA Ointment with CUTICURA SOAP will also suggest itself in the severer cases.

Warm baths with CUTICURA SOAP to cleanse the skin and scalp, gentle anointings with CUTICURA to heal the skin, and mild doses of CUTICURA Eucalypti to cool the blood, will afford instant relief, permit rest and sleep, and point to a speedy, permanent, and economical cure, when all else fails.

Sold everywhere. Price, THE SET, \$1.25; OF CUTICURA SOAP, 25c; OINTMENT, 50c; EUCALYPTI (half size), 25c. FORTER DRUG AND CHEM. CO., Sole Props., Boston, U. S. A.
