JUDGE PERRY FOR MAYOR

THE NAME OF THE FORMER SUPREME COURT JUSTICE FOR THE MAYORALTY IS RECEIVED WITH GENERAL ACCLAIM—"A CLEAR THINKER WITH NO BOMBAST"—TAKEN BY SURPRISE JUDGE PERRY IS NOT READY TO ANSWER.

The latest name brought forward as a possible candidate for mayor of Honolulu at the coming election is that of Judge Antonio Perry, former Associate Justice of the Supreme Court. The matter had never reached his ears till he was questioned this morning by a Star reporter and he could not say at that time whether, in case the honor was offered to him, he would be in a position to accept.

So far as the suggestion has been followed up, Judge Perry's name has met with almost universal favor. In interviewing various business men and others who are interested in the matter of politics to some degree, not one could be found who did not have a good word to say for Judge Perry, whether a Republican, Democrat or Civic Federation man.

A. F. Judd, when asked what he thought of Perry should the latter allow his name to be used, said:

"It would be impossible to get a more competent man for the position. He is a hard worker and a clear thinker with no bombast about him. I believe that if he could be prevailed on to accept the nomination he would make an ideal candidate."

F. B. McStocker in speaking of the matter said:

"A better man for the position could not be found. He is honest and efficient and would be certainly the right man for the place."

Ed. Towse was another who seemed very favorably impressed by the men-

tion of Judge Perry's name for office. He said:

"He would be a very good man in the place and he is very well liked. I doubt if it would be possible to find anyone who would object to him for the position."

Charlie Hustace was another who seemed to like the idea and who believed that Perry would make a strong candidate. Alex. Robertson, the retiring chairman of the Republican Territorial committee, also spoke strongly in regard to Perry's qualifications.

From the opinions which have been expressed it appears as if Perry was just the man whom the various wings of the Republican party might consolidate on and for whom all would work in the most absolute harmony. The only question is whether Judge Perry can be induced to run for the nomination. His legal business is one which he has built up to large proportions and it would necessarily suffer should he take office under the municipal government. In speaking of the matter this morning he said:

"You have sprung something entirely new on me and I really cannot answer a question as to whether I would take the nomination should it be offered me. I have never heard a word of the matter before and you can understand that it is a rather strong proposition to take up at a moment's notice. I can say one thing, that it would require a great deal of persuasion to make me take such a nomination."

LUNCHEON GIVEN TO ADMIRAL VERY

CHAMBER OF COMMERCE AND MERCHANTS' ASSOCIATION TAKE FAREWELL OF THE RETIRING COMMANDANT OF HONOLULU NAVAL STATION—LARGE ATTENDANCE OF BUSINESS MEN AT THE COMMERCIAL CLUB—FRIENDLY SENTIMENTS EXCHANGED

The large dining room of the Commercial Club was well filled this afternoon with a large number of Honolulu's representative business men to say good bye to Admiral Very who leaves this afternoon in the Korea for the Coast.

The lunch in honor of Admiral Very was specially prepared by the Club's steward for the Merchants' Association and the Chamber of Commerce. As a testimony of the feeling these organizations have for Admiral Very, who has done so much to help in preparing the plans for Pearl Harbor.

President Morgan of the Chamber of Commerce presided at the luncheon.

Colic, pains in the stomach, and diarrhoea are not only painful, but may indicate a serious disorder. Chamberlain's Colic, Cholera and Diarrhoea Remedy relieves promptly and cures permanently. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

of Commerce introduced Admiral Very, as a true and staunch friend to Hawaii.

Admiral Very responded as follows: "Aloha, gentlemen, I appreciate very much the complimentary remarks paid me by President Morgan, but I am unwilling to accept all the praise for the success of the Pearl Harbor matter, because I think the greatest credit is due Mr. Morgan and the rest of the Chamber of Commerce, as well as Mr. Wood for their energetic work in getting the appropriation through this year."

"Now that we have the appropriation for Pearl Harbor, nothing is going to stop it, and some of us are going to live to see the greatest naval station in the world completed (applause)."

"One thing that I knew was that examinations would have to be made of the channel entrance before anything could be done in Washington, and as you have all dug down and helped to

WOODEN PAVING

HOW THE QUEEN STREET BLOCKS ARE TO BE PREPARED AND TESTED.

The wooden blocks for the paving of Queen Street, ordered by cable some time ago, are being prepared, and it is expected that a shipment will soon be made. The work will be commenced as soon as the blocks arrive.

The specifications for the preparation of the blocks show an elaborate system of treatment and tests. The following is a copy of the principal specifications as applied to the blocks and laying them on the street:

Dimensions of the wooden blocks are to be four inches wide, four inches deep, and eight inches long. Grain to be laid vertical. The blocks must be uniform in depth and thickness so that when laid they shall present a smooth surface and be closely fitted to one another.

The lumber from which the blocks are made shall be selected heart northern or Douglas fir, perfectly sound, straight grained, wholly free from large

(Continued on Page Two).

ADVANCED THOUGHT.

Mrs. M. Turman of California will give a series of ten lectures at the Kihohana Art League rooms, commencing Thursday evening, April 23, with the balance of the lectures on each Tuesday and Thursday thereafter. A cordial invitation is extended to all who are interested in Advanced Thought, to be present at the lecture, free of charge. Topic, Light and Colour, "The Awakening." These talks are in no way connected with church or sect. All lectures begin promptly at 8 o'clock.

Tickets for full course may be obtained at Kihohana Art League and Bergstrom Music Co.

Ring up the Fashion, 482, and ask for Charley (Johnson), the automobile expert, if you want an auto-ride at hawk rates.

New England Bakery candles are nourishing and delightful. Try them.

For that work, the people saw in Washington that the people of Honolulu were very anxious to have Pearl Harbor station established.

Regarding the work done by Mr. Wood in Washington I know he is too modest to say anything about it, but I am going to say it for him. By his efforts the many chambers of commerce all over the United States have been asked to help in securing an appropriation for Pearl Harbor, and you can all see that it has been done.

"It is with great regret that I am obliged to say good bye to you all, but I appreciate very much all you have done for me since I have been here, and I want to assure every one of you that I am a friend of Hawaii, and will do all in my power to help you in every way possible. Gentlemen, I bid you all good bye."

Those seated at the main table which was tastefully decorated with flags, and a large star made with red, white and blue asters were: Admiral Very, Captain Ottwell, Captain Rees, Acting Governor E. A. Mott-Smith, James F. Morgan, George R. Carter, George W. Smith, Fred L. Waldron, J. P. Cooke and J. A. Kennedy.

Among those present were: George Davies, H. P. Wood, L. L. McCandless, R. W. Perkins, J. W. Bergstrom, Jared G. Smith, George W. McClellan, Geo. Angus, Richard H. Trent, J. D. McInerney, E. E. Conant, Jas. L. McLean, F. W. Macfarlane, S. A. Walker, Wm. Williamson, T. H. Petrie, E. H. Paris, Marston Campbell, W. W. Hall, A. W. T. Bottomley, E. Tenney Peck, Collector Stackable, Ed. Towse, E. I. Spaulding, F. J. Lowrey, M. Phillips, H.

(Continued on Page Five).

Judge Humphreys has written a letter to the Honolulu Gas Company regarding the recent destruction of his home by fire, showing that the gas apparatus in the house was in no way responsible for the fire.

AN ENTERPRISING MERCHANT

K. Yamamoto is the biggest importer of Japanese goods in Hawaii. Every steamer from the Orient (tramp or passenger) brings him the largest shipment consigned to one firm. By getting his goods in large quantities the freight and other charges are greatly reduced which enables him to undersell all competitors.

Best cup of coffee in the city. New England Bakery.

Improvements In Waialae Section

IMPORTANT BUSINESS AT CLUB MEETING—WATER PROBLEM SERIOUS—SATISFACTORY ROAD WORK—CARE OF TREES ASSUMED BY PRIVATE OWNERS—PROPOSAL TO UNITE KAIMUKI AND PALOLO DISTRICTS IN NEW ELECTION PRECINCT.

A meeting of the Waialae, Kaimuki and Palolo Improvement Club, to which residents of Beretania and the Young streets were invited, was held at the Government Nursery last night. President A. F. Clark, Secretary D. W. Anderson and Treasurer A. F. Cooke were at the table.

Wade Warren Thayer read the report of the committee, of which he is chairman, on the question of car service. It is printed in full below. The report was accepted and the consideration of its recommendations referred to a special meeting at an early date to be called by the chair.

Several committees reported on different branches of the club's interests. The road work by the county in the section was considered as having been very satisfactory thus far, and the meeting received with applause the reported assurance that the improvement of Sixth avenue would shortly be undertaken. Residents of the upper part of Kaimuki tract have lately relieved the tree planting committee of the care of trees planted along their frontages, as well as the club's treasury of the expense of that work.

There was only one matter, outside of the car service, which was reported in unsatisfactory status. This was the vital question of the water supply for houses on the upper levels. As lately reported in The Star, the reservoir is leaking badly and threatening to give way entirely. Superintendent of Public Works Marston Campbell finds that its repairing is out of the question, the substructure being quite substantial. There is no fund out of which a new reservoir can be built.

Many of the residents are in favor of replacing the reservoir, under an appropriation from next legislature, with a steel tank lined with cement, which would cost something less than \$15,000. This type of high level water container has strong engineering approval on the mainland. Mr. Campbell inclines to a reinforced concrete reservoir on the site of the present tanks, with a smaller receptacle on the higher Palolo land to serve the houses

on the highest elevations, this to be served by pumping from the reservoir. It would be too heavy a load for the present Kaimuki pumping station to drive water to a reservoir on the summit. This plan would cost about \$35,000.

It is proposed that the government take over the water system of the Palolo Land Co., discarding its supply out retaining its service mains. There would need to be a larger appropriation for including this action, but the government would be reimbursed by having all the Palolo water rates to collect as well as those of the Kaimuki and Waialae tracts. At the same time the Palolo people would receive artesian instead of surface water.

C. H. Kiesel, the public works engineer, it was reported, is investigating the entire water problem of the section.

Another important proposition laid before the meeting by the president was that of joining Kaimuki and Palolo in a new election precinct. It was received favorably by the meeting, which felt that the interests of both sides of Waialae road, from Kapaehulu road up, were identical with regard to public utilities. President Clark, Emil A. Berndt and Wade Warren Thayer were appointed a committee to see Acting Governor Mott-Smith about the matter and they arranged right there to attend to the business today.

Following is the report on the matter of car service mentioned above:

Honolulu, April 22nd, 1908.

To the residents of Kaimuki, Waialae, Palolo Beretania and Young streets:

Your committee on street car service appointed at a meeting held on Feb. 10, 1908, beg leave to report as follows:

Two conferences were held by your committee with Governor Walter F. Frear, at which representatives of the Honolulu Rapid Transit and Land Company were present. Your committee strongly urged upon the Governor

HUTCHINS LEAVES MANY POSITIONS

CINTON J. HUTCHINS, THE WELL-KNOWN INSURANCE MAN AND PROMOTER OF DEVELOPMENT, GOES TO THE COAST PERMANENTLY—HE WILL FOR THE PRESENT RETAIN PRESIDENCY OF THE WIRELESS TELEGRAPH COMPANY.

Clinton J. Hutchins has resigned his local presidency of the Pacific Mutual Insurance Company, the vice-presidency of the West Hawaii Railroad Company, the vice-presidency of the Kona Development Company, the vice-presidency of the Coyne Furniture Company and his official connections with a few other concerns with which he has been identified here, and within a week, perhaps, leaves for San Francisco, accompanied by his wife, to reside permanently. His mother is in Berkeley and he wants to be near her; his wife's health is a most important consideration, and they also wish to be on the coast where their daughter is in college.

As president of the Wireless Telegraph Company, C. J. Hutchins will, for the present at least, retain office. There is much to be done at the California end for the Wireless Telegraph and Hutchins, its president, is the man to do it. Now that the wireless company has taken definite steps to establish long distance stations here and make this the most up-to-date wireless center in the world, arrangements are to be perfected with all the steamship companies for the installation aboard trans-Pacific boats of wireless apparatus that the local long-distance system may serve them.

With Hutchins on the Coast these arrangements may be expected not to be delayed any more than is absolutely unavoidable.

U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time of the tide is taken from the whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

U. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU.

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, April for 33 years. TEMPERATURE. (18 years 1890-1907.) Mean or normal temperature, 73 deg. The warmest month was that of 1893, with an average of 75 deg. The coldest month was that of 1893, with an average of 71 deg. The highest temperature was 86 deg. on the 25th, 1893. The lowest temperature was 59 deg. on the 21st, 1899.

PRECIPITATION. (rain 21 years, 1877-94, 1905-7.) Average for the month, 2.23 inches. Average number of days with .01 or an inch or more, 13. The greatest monthly precipitation was 7.95 inches in 1890. The least monthly precipitation was 0.18 inch in 1906. The greatest amount of precipitation recorded in any 24 consecutive hours was 3.30 inches on the 30th, 1885.

RELATIVE HUMIDITY.* Average 9 a. m., 68 per cent; average 9 p. m., 74 per cent (1893-1904). Average 8 a. m., 65 per cent; average 8 p. m., 69 per cent (1905-7).

CLOUDS AND WEATHER. (18 years, 1890-1907.) Average number of clear days, 11; partly cloudy days, 14; cloudy days, 5. WIND. (Direction, 23 years; velocity, 3 years.) The prevailing winds are from the NE, (1875-94, 1905-7.) The average hourly velocity of the wind is 9.4 miles (1905-7.) The highest velocity of the wind was 36 miles from the NE, on the 3d, 1905. (1905-7.) Station: Honolulu, T. H. Date of issue: March 21, 1908. *9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records. WM. B. STOCKMAN, Section Director, Weather Bureau.

WOODEN BLOCKS

(Continued from Page One.)

loose or decayed knots, dry rot, pitta, seams, cracks, shakes or other defects. All sap wood shall be excluded, and lumber shall have been cut from sound live trees.

The blocks are to be treated throughout with an anti-septic and waterproof mixture, 75 per cent of which shall be creosote oil of coal-tar, conforming to the specifications hereinafter set forth. All parts of each individual block shall be thoroughly treated, and not less than twenty pounds of the mixture per cubic foot shall be injected.

In preparing the blocks to receive the creosote mixture, they shall be placed in an air-tight cylinder, in which dry heat, or heat produced by superheated steam, is maintained and raised to a temperature of 215 degrees Fahrenheit, for one hour, for the purpose of expelling the moisture; the heat is then to be increased until it has reached 285 degrees Fahrenheit, this heat being maintained for a period of three hours, or until the block is completely sterilized. Application of heat is then to be stopped and the temperature of the cylinder allowed to fall for one hour, or until same has been reduced to 250 degrees. A vacuum is then to be applied until about 26 degrees is reached, and while under this vacuum the creosote mixture is to be run into the cylinder at a temperature of from 175 to 200 degrees, after which hydraulic pressure of not less than 200 pounds per square inch is to be maintained and raised until the individual blocks are treated throughout.

The creosote oil is to conform to the following specifications when tested. The gravity at 68 degrees Fahrenheit shall not be less than 1.12. When distilled in a retort with the thermometer suspended not less than one inch above the oil, it shall not lose more than 35 per cent, up to 315 degrees Centigrade, and not more than 50 per cent up to 370 degrees Centigrade. The oil is to be free from adulteration; it must not be mixed or contain any foreign material.

The resin is to be solid resin obtained from pine. It is to be reduced to a fine dust by grinding and then incorporated with the hot creosote oil in a suitable mixing tank until the proper proportions are secured.

After treatment, the blocks are to show such waterproof qualities, that, after being dried in an oven at a temperature of 120 degrees for a period of twenty-four hours, weighed and then immersed in clear water for a period of twenty-four hours and weighed, the gain on weight is not to be greater than 3 per cent. The county shall appoint an inspector who shall inspect and test the blocks; he shall reject any that he may consider not in compliance with sections 1, 2 and 8.

LAYING THE WOOD BLOCKS.

Upon the concrete foundation shall be spread a layer of mortar made of one part of Portland cement and three parts of sand, with sufficient water to make a moderately stiff paste. The mortar shall be thoroughly mixed, and shall be spread in place on the foundation immediately in advance of the block laying, to such a thickness that when the blocks are set and properly bedded in the mortar their tops shall conform accurately to the designed grade and contour of the street. The concrete foundation shall be cleaned and swept to remove all extraneous matter and shall be thoroughly dampened, immediately in advance of placing the mortar bed. The mortar bed shall be "struck" by template to a surface truly parallel to the pavement datum.

Upon this mortar bed the blocks shall be carefully set on end, or with their fiber vertical, in straight parallel courses, either perpendicular to the axis of the street, or at such angle thereto as the engineer may direct. The blocks shall be set as closely together as practicable. After the blocks are thus set in place, they shall be rammed with a street rammer weighing not less than 30 pounds, a plank 10 inches wide, 2 inches thick and not more than 6 feet long laid flat on the pavement, being interposed between the rammer and the blocks and moved about until the blocks are rammed to a firm seat in the mortar bed and their tops brought truly to the designated grade. The ramming shall be completed before the mortar bed has begun to set, but no ramming shall approach nearer than 3 feet to the edge of the block setting, except where the block setting may be interrupted, as at the end of a day's work, when all the blocks then set shall be rammed. Mortar that may have begun to set before the blocks are in place and rammed shall be discarded and replaced with fresh mortar. The top surface of the pavement, when finished, shall conform truly to the grade and contour of the street and shall show at no place a departure of more than three sixteenths inch from the true pavement grade.

After the block setting is completed, perfectly dry fine sand shall be spread over the pavement surface and swept about until every joint into which the sand will penetrate shall be completely filled. The remaining sand shall be left upon the pavement for such time as the Road Supervisors may direct.

CORNER FORMED ON WATER POWER

HARRIMAN AND ASSOCIATES PLAN VAST FUTURE MONOPOLY IN
THE WEST—ELECTRIFYING OF SOUTHERN PACIFIC PART OF
SCHEME PLANNED—GOVERNMENT REALIZES DANGER OF THE
TRUST'S CONTROL OF NATURE'S RESOURCES.

WASHINGTON, April 11.—In the judgment of many far sighted men water is to become the king of American industry and prosperity. As the coal supply decreases, water power becomes more and more important, and its importance is still further increased with every forward step in the development of electricity.

So clearly have the financial and industrial leaders perceived the importance of water power that they have already gobbled up practically every available source of such power in the United States. The officers of the reclamation service tell me that E. H. Harriman controls the water power situation in California as absolutely as he controls the railroad situation. At last accounts there was only one stream in California whose water power resources had not been gobbled up. The reclamation service was after this stream, but it was feared that private enterprise had gotten ahead of it.

The water power resources of the country are supposed to be in a very few hands. Investigation has led the government sleuths to the door of three or four men—and these men by a strange coincidence control also the other sources of heat, light and power in great measure. Coal, oil, timber and water power are the only sources of these indispensable of business, comfort, and even of life. Harriman is one of these men; J. Pierpont Morgan is another; John D. Rockefeller is a third, and Frederick Weyerhaeuser is a fourth. Harriman is reckoned as the active agent of the others in bunching the water power of the country under one management.

The water power companies are merging daily, and all are heading toward the General Electric company as the fountain head. Morgan and Harriman being directors of this company. Perhaps Rockefeller is, too. The government officers who are watching these moves predict that within three years all the water power of the country that is not held by the strong hand of the government itself will be in the grip of a single trust.

PURPOSE OF POWER TRUST.
The water power trust intends to revolutionize business in due time. At present railroads are operated with coal or oil, both of these motive fuels being very expensive and unsatisfactory. The Harriman lines use up about one-third of their freight carrying capacity in hauling the other two-thirds. That is they are forced to haul big loads of coal, oil and water to feed their engines in order to keep traffic moving. In the big stretches of western desert the operation resembles the addition of a string of water laden camels to a caravan to keep the freight camels from perishing. It is a costly way of doing business. The Santa Fe works even more extravagantly on account of the deserts it must cross. It is estimated that one-half of the freight on the Santa Fe is eaten up in moving the other half.

Harriman expects to revolutionize this way of doing business by utilizing water to develop electricity. It is easier and cheaper to transport electricity than coal or oil. The change will cost millions, but it will save millions more. A few years more will see the entire Southern Pacific line, from Ogden and New Orleans to San Francisco operated by electric power generated by California streams which the people of the state think they own. Harriman, through his agents and small corporations, apparently independent, has acquired these water rights. By beneficially using them he can hold them, even against the people, unless the procedure of the public against a corporation has undergone a radical change.

The experience of San Francisco with the Spring Valley water company is sufficient to show how slowly the people can make headway when struggling with a corporation.

THE WORLD INVISIBLE.
Elizabeth Stuart Phelps is writing for Harper's Bazar on "The World Invisible"—a topic surely most appealing to the author of The Gates Ajar. Speaking of this early book, so famous in its day, she says, in the May Bazar: "I am often asked if I still believe in the doctrines of the little book whose heresies marked the incident of my youth. In the main—yes. In substance assuredly I do. With whatever discontent I may now rate the book as a specimen of literary art, I cannot cease to feel respect for it as an episode of religious development. The times were rich for a blossoming truth. If The Gates Ajar appeared as a new

Some of Harriman's principal assistants in the railroad business are unaware of the change that is under way, or at least they are oblivious to it. They do not see as far or as clearly as their master—that is all. They see the big coal and oil burning locomotives and cannot understand how lighter motors, driven by electricity, can take their place. But Harriman does, and he is already planning the larger features of his scheme of evolution. The plan will unfold rapidly enough after Harriman has obtained control of all the water power he wants—which is perhaps all of the water power west of the Mississippi river. He works on a big scale, and he needs lots of power to make his big wheels move.

ELECTRIFYING SOUTHERN PACIFIC.
The electrifying of the Southern Pacific will bring about smaller cars, smaller trains and more frequent schedules. The wayside business will be much greater than at present, and places now given to the desert will be inhabited. Towns will spring up along the new electric roads and the local business will be enormous. This is the experience of Indiana, where interurban trolleys have worked up an immense freight business in square competition with steam roads. With cheap motive power the Southern Pacific will be able to penetrate every nook of California and bring out business.

The prediction is made by government officers who have looked into this matter that the Southern Pacific, if it remains under Harriman's management or that of a man approximately as enterprising, and if it is electrified as he plans, will become a marvelous factor in increasing the population and wealth of California and the coast generally. They say they are not indulging a prophecy but merely applying eastern conditions to the coast, taking into consideration also the enormous water power resources of California. They predict that electricity will supplant even crude oil in every industry in the state. Power will be so cheap that manufacturing enterprises of all kinds will be installed and dependence upon the east will be reduced to a minimum.

Upon this cheap power development, also, they think the Asiatic commerce of the coast will depend, for the Panama canal places San Francisco on a sidetrack when commerce between New York and the Orient is concerned. It is only by underselling New York that San Francisco can compete with New York in the Chinese and Japanese business after the opening of the canal. Cheap power will enable the coast to do this.

Some of the government people wonder whether power will be as cheap in such hands as Harriman's as it would be if the government and the state should safeguard such natural sources of wealth. They think California ought to co-operate quickly with President Roosevelt in heading off the enterprising speculators who are gobbling up water power. It is partly to throw a little light upon the water power situation that the President has invited the governors of the states to the White House next month. He will tell them a few things that are going on in their own states which they may not know. He stands ready to do all in his power to bring about government conservation of these resources, and congress, if it obeys the plain popular mandate, will preserve all water power on navigable streams for the use of the public. This is a "Roosevelt policy" that cannot be questioned. The nonnavigable streams, however, are in the hands of the states, and it depends upon the state executives, who are not Roosevelt, to guard these sources of public wealth. The chances are that the water powers of all the western states are like those of California—already in the maw of private monopoly, to be disgorged only by main force.—Ira E. Burgett in S. F. Call.

publication now it would scarcely excite remark. The heresy of the sixties has become the credo of 1900. To-day who expects to stand in a row with other musical ghosts around a throne? Who anticipates a white robe and a palm branch, a hymn book, and an eternal prayer meeting as the accessories of his future lot? "I am not afraid to say that the deepest longing of the individual nature, if turned in the high direction, must be gratified in a reasonable heaven. These personal preferences of the soul can no more be exchanged than a complexion or a voice."

NOVEL BANQUET OF CALIFORNIANS

High Jinks in Chicago To Celebrate The Anniversary Of Earthquake.

A BREAD LINE WILL FORM.

University Club Of California Gives The Interesting Function.

CHICAGO, April 11—"Forget It" will be the watchword of Californians at a banquet to be held in Chicago on commemoration day, April 18, two years after the San Francisco earthquake.

The banquet will be held under the auspices of the University of California Club. It will be a stag affair. Methods to be used in "forgetting" are not announced, except that "high jinks" will be the order of the day.

California has not gone dry, and the university club has received a handsome present for the occasion from a California association with extensive interests in the vintage in that state. There will be a "bread line" at the commemoration day banquet similar to the famous bread lines in San Francisco on the days following the earthquake, when rich and poor stood in lines as equals. The final ceremony of this "forget it" banquet will be the burning of the "knocker tree." It is said that this species of vegetation is most prolific in California, and that Rudolph Spreckels and other enthusiastic workers have been obliged to sit down under its shade. The Californians will join hands in a great circle about the fire and bury their hammers.

The program of speakers includes Franklin K. Lane of the interstate commerce commission, George H. Maxwell, former chairman of the national irrigation association, and E. P. Bicknell, superintendent of the bureau of charities of Chicago.

Well known Chicagoans, whose homes have been in California at some time, will attend the banquet.

The special program of forgetting at the banquet is one of the secrets of the committee. The real "high ball" will not be sprung until the night of the banquet.

CHOSEN BRIDE OF BROTHER OF ABRUZZI

COUNT OF TURIN WILL MARRY THE PRINCESS PATRICIA OF CONNAUGHT.

WASHINGTON, D. C.—With the reported engagement of the Duke of Abruzzi, to Miss Katherine Elkins, the heiress, comes the announcement that his brother, Count of Turin, will marry the Princess Patricia, of Connaught.

PATRICIA OF CONNAUGHT.
piece of King Edward. Princess Patricia is one of the most beautiful girls in the royal set of England. She is twenty-one years old and is known to her intimates as "Princess Pat," having been born on St. Patrick's Day and christened Princess Victoria Patricia.

ACCIDENTS WILL HAPPEN IN THE BEST REGULATED FAMILIES.
The average home is frequently in need of a good liniment, as accidents will happen and slight ailments appear when least expected. For a cut or bruise, a burn or scald, Chamberlain's Pain Balm is excellent. It is also good for sprains and swellings and for lame back it is superior to any plaster. For sale by all dealers, Benson Smith & Co., agents for Hawaii.

HOP AND WINE MEN URGE TEMPERANCE

Organization To Preserve Two Of California's Big Industries.

THEY CONDEMN INTOXICATION.

Wine and Beer of Less Than Thirteen Per Cent Alcohol Not Intoxicating.

HEALDSBURG, April 11—At a mass meeting of the grape and hop growers of this vicinity on the plaza this afternoon it was decided to form an organization to aid in preserving two great industries of the state. D. N. Martin was elected presiding officer and W. Richards secretary. A committee on organization of seven was named, and another meeting will be held Thursday to hear its report. A. Sbarboro presented resolutions at the close of his speech. They were adopted as follows:

"Be it resolved, by the people of Healdsburg, in mass meeting assembled, that while we strongly condemn intoxication and are desirous to do all in our power to remove this evil, we most earnestly request that instead of hampering by municipal regulations and other restrictions the sale and use of the nonintoxicating beverages—wine, cider and beer—that we highly recommend the moderate use of the same among all the families and we earnestly appeal to the so-called prohibition people, whose aim is the same as ours, to bring up our children in purity and sobriety, to join in this beneficent movement and thus set the example to the other people of the United States how truly and effectively the evil of drunkenness can be removed from our beloved country. And he it further

"Resolved, that we earnestly recommend to the next legislature the passage of such laws as may be necessary in order that wine, cider and beer shall be permitted to be distributed to the people of the state free from the payment of any license and that such nonintoxicating beverages shall not be affected by any prohibition law or regulation of any town, city or county in the state of California.

In the preamble to the resolutions it was stated that wine, beer and other liquors containing less than 13 per cent of alcohol had been declared nonintoxicative by the congressional committee of the District of Columbia.

CHORUS OF HARMONY GROWS.

The following heading and clipping are from this morning's Advertiser:

DUB POLITICS.
"The only way I can see out of it is to have either Robertson or myself resign," said Lane this afternoon. "I think that it would be best that I resign as vice chairman, though I can still remain as a member of the committee. In that case I want to have W. R. Farrington appointed vice chairman in my place so that he can take charge while Alec and I are away. I have spoken with several members about this matter, and they all feel the same way about it as I do."—Bulletin.

THEN HE BACKED.
"I dreamed about you last night." "You did?" "Yes, I dreamed that you had promised to marry me." "What crazy things people do in dreams, don't they."—Houston Post.

Berkeley, Cal., improvement clubs have taken joint action against the heavy blasting nuisance.

PROHIBITION QUESTION AGAIN.

As an answer to the old "Prohibition does not prohibit" it sounds conclusive at first sight to say that "the law prohibiting murder does not prohibit, nor do the laws prohibiting robbery, arson, counterfeiting and forgery." A bit of examination shows, however, that this seeming solar plexus of an argument is scarcely even in the ulnar bone class. In the first place these laws do prohibit to an extent that makes it safe to call them effective, and in the second place they apply to offenses not to be compared with the offense against the law of Prohibition. There are no arguments in favor of murder or forgery; no sane man claims the right to commit arson, and no one can be heard to say that the prohibition of robbery destroys a great industry. These crimes are plainly and indisputably against the conscience of the human race. They would be punished or avenged by society whether laws proclaimed against them or not. The offense of violating a Prohibition law is in dispute. Thousands of citizens refuse to admit even that society has a right to pass a Prohibition law, and thousands of others claim that its moral effect is injurious. So that our race is in the midst of a discussion of the subject in which, as was tried to point out yesterday, the question of whether prohibition does or does not effectively prohibit, is a crucial one. That is why, as also stated yesterday, it would be profoundly interesting to have expert reports as to the effect of the new laws in several American states.

"The charge that prohibition does not prohibit was probably as common in the time of the Saxon Kings of England, who gave the justices power to close the ale houses, as it now is," says the Advertiser, and this very fact shows how serious a charge it is. No mere phrase, unbacked by substance, could so survive for centuries. The problem is one important enough to justify a Congressional commission for investigation, though that wouldn't be a new thing and might not bring a decisive answer. It can be stated in so many words that if Prohibition does not very materially reduce the consumption of liquor—very materially indeed—it is an evil. To compare it with laws against murder is in the meantime beyond the question. Woolley's plan here, of working up sentiment among the children rather than trying his lifelong plan of forcing laws upon the elders, seems to be a recognition of this idea. If the Voice from Sinai had enjoined against the use of liquor as against murder, we would not be discussing today the question of whether to attempt legal suppression of it.

ROOSEVELT FLOURS CONGRESS.

In announcing that he will veto the Naval appropriation bill if it does not carry out his recommendation for the construction of at least two battleships, President Roosevelt invites a battle with Congress that may have momentous results. It might not unnaturally stir the House to strike out the battleships and pass the bill over his veto and then take up the matter of battleships separately on its merits. Beyond question it will stir up a new set of denunciatory speeches regarding executive interference with the legislative department. Only two weeks ago, in the course of an address in which the revered fathers of the American constitution were quoted on the subject of separation of the government into executive, legislative and judiciary, a Democratic Congressman declared that Congress had become the slave of the White House and aroused the applause of his colleagues by the following remarks:

Congress is no longer the legislative department. It is simply a machine to record the will of the man at the other end of the Avenue. The Senate and the House of Representatives do not deserve any more of the respect of the people of this Republic than they receive. Of course, the President does not respect them. He despises them as belonging to the "mollycoddle" class. The people just as well understand that there is but one power in control of the Government now, and that is the President. He makes the laws because he dictates to and controls the men who should make them. He interprets the laws because he appoints and influences the men who should interpret them. He executes the laws all by himself. Instead of having a Government in three departments, we have three departments in one man, and Roosevelt is the one man. Roosevelt makes the laws and interprets them and executes them and suspends them at his own pleasure and will.

Evidently the fight is on. A failure to enact a naval appropriation bill would mean an extra session, but it will be somewhat surprising if Congress doesn't resent being clubbed into voting for battleships by threats of a veto.

A PROPOSITION TO BE URGED.

The Honolulu Chamber of Commerce has asked for \$50,000—not \$15,000 as reported—from the federal government for the cleansing of Honolulu, Hilo and other island places where scientific sanitation is needed. Such an allowance of funds is a matter of simple justice to Hawaii. Our position makes it necessary to spend abnormally on health precautions, and the benefit is not merely local, for Hawaii's strategic position makes her a protection to the coast in the matter of disease as well as in a military and naval sense. In the light of what was done by Uncle Sam for Havana, a foreign port, and in view of the tremendous sums this community has spent on health matters, we certainly have a right to hope for aid. The Hilo and other business bodies should add their voice to Honolulu's asking this assistance. It may be said that it will pay the federal government in the long run to see that the island ports are aided in this matter.

SAVING THE CHILDREN.

Dr. Cofer is making a good move in bringing the non-leprosy boys here from Molokai without further delay. It is stated that there is no known case of hereditary leprosy, but that it almost invariably develops in children left to grow up in Kalaupapa or Kalawao. This is all that need be said, to show that the action being taken means simply that the lives of these children will be saved to society. The separation from parents is painful, but the choice is between that and

inevitable doom to leprosy. To allow children who are wards of the Territory to remain exposed longer than it can be avoided would be outrageous.

Honolulu bids good-bye to Admiral Very with regrets at losing so fine a gentleman as a citizen and hopes that he will find occasion to visit here again. During his term here he has done much for the port and his administration of the affairs of his department has been in keeping with the good executive and other traditions of the American navy.

Sir Henry Campbell-Bannerman, Britain's lamented premier, was one of the Empire's great men. After arduous years of leadership in opposition he was returned to power at the head of a somewhat heterogeneous following, almost unprecedented in majority over its opponents, and immediately began to build up a reputation for leadership and statesmanship of a high order, somewhat to the surprise of many of his best friends. They had known him as a good fellow, equable in temper, indefatigable in routine work, and unusually well-liked, both by the rank and file of those whom he led and by those to whom he was politically opposed; but they did not generally regard him as of the timber out of which statesmen are made. However, when the opportunity came, Sir Henry more than rose to it, and proved himself to be a far greater leader of men than he had been given credit for. By courage and character, as someone has said, he conquered prejudice and gained his reward in face of adverse circumstances. He was not born great, he did not have greatness thrust upon him, but he was eminently one of those who achieve greatness by means of faithful and unremitting service, founded upon a pure and manly character.

MILLS CASE POSTPONED.

The Mills habeas corpus case came up this afternoon before Judge Lindsay at two o'clock, but was continued until tomorrow afternoon at two o'clock, as Assistant County Attorney Milverton was only served with a copy of the papers a few minutes before two. Judge Quarles represented Mills and asked that his client be released on his own recognizance, which was granted by the court.

Captain Max Schlemmer is going into the tannery business as a partner in a new firm to be known as Haine & Co.

"Ever notice it?" queried the party who asks questions on the installment plan.

"Did I ever notice what?" asked his one-man audience.
"That when a man gets beaten at his own game he always tries to square himself saying he is out of practice?" concluded he of the prelude.

NOTICE TO BONDHOLDERS.

THE KOLOA SUGAR COMPANY.

In accordance with the terms under which its Bonds were issued, The Koloa Sugar Co. will pay with accrued interest of \$15,000.00 of its Bonds. The numbers of Bonds to be paid are: 25, 27, 29, 35, 48, 50, 73, 78, 103, 109, 111, 155, 157, 188, 240. Notice is hereby given to the holders of these Bonds to present the same for payment at the office of the Trustee of the Bond issued, The Bank of Hawaii, Ltd., in Honolulu, on May 1, 1908 and that interest on the same will cease from and after that date.

W. PFOTENHAUER,
Treasurer, The Koloa Sugar Co.
Honolulu, April 10, 1908.

IN THE CIRCUIT COURT OF THE First Circuit Territory of Hawaii. At Chambers—in Probate.

In the matter of the Estate of Pang Pol, deceased.

Before Judge Alexander Lindsay, Jr., Second Judge.

Order of Notice of Petition for Allowance of Final Accounts, and Discharge in this Estate.

On Reading and Filing the Petition and Accounts of Goo King, Administrator of the Estate of Pang Pol, deceased, wherein he asks to allowed \$427.00 and he charges himself with \$631.70, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such Administrator of said Estate.

It is ordered, that Friday, the 15th day of May A. D. 1908, at 9 o'clock a. m. before the Judge of said Court at the Court Room of said Court at Honolulu, Island of Oahu be and the same hereby is appointed as the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property and that notice of this Order in the English language, be published in the Hawaiian Star newspaper, printed and published in Honolulu once a week for three successive weeks, the last publication to be not less than ten days previous to the time therein appointed for said hearing.

Dated at Honolulu, this 8th day of April 1908.

ALEXANDER LINDSAY JR.,
Second Judge, Circuit Court, First Circuit.

JOHN MARCALLINO,
Clerk of the Circuit Court of the First Circuit.

E. C. Peters, Attorney for Administrator.

Secretary.

DO YOU "GAWP"?

If you dawdle the steps you had better try the links at Haleiwa. They are good, pleasantly located where there is always a light breeze and something pleasant to look at. The road to this famous resort abounds in scenery pleasant to the eye and the novelty of it wins the admiration of every tourist who travels over it. We have excellent accommodations, fine cuisine and delightful surroundings. Write to Manager Bidgood about rooms.

Territorial Treasurer A. J. Campbell has received an application from Hilo for a license for the forming and maintaining of Francis Council No. 573, of the Young Men's Institute. The ap-

PRIESTESS OF VIBRATION

AND TWO OF THE BABIES SHE IS REARING ACCORDING TO NEW CUT RULES.

NEW YORK, March 31.—Mrs. Florence Weiland and others have incorporated a new cult which is called "The Corporation of the Commonwealth." She proposes to adopt a number of babies each year and raise them in accord with her ideas which she explains as follows: "Vibration?" said Mrs. Weiland, in reply to the reporter's question, is life, healthy, sanity and sex can be controlled through the understanding of the laws of vibration. In fact, no life, health or sanity

the color of your soul. If you have not the right name, that means the soul.

"Wonderful souls are about to be born into this world. Prepare for the new reign of the spiritual in the world. The reign of matter is passing and the new cycle is at hand.

"Every individual has a soul color, number, keynote and name. The number indicates the age of the soul, and your name indicates can be real except through vibration, the law of the development of that your soul is not sufficiently developed. It must pass through more bodies, it must come back again until it has worked its problem out, then you will have the right name given you unconsciously."

Laupahoehoe PRISONERS AT THE BAR

Acting Governor Mott-Smith had a conference this morning with E. H. Wodehouse of Theo. H. Davies & Co., the agents, in connection with the lease of the Laupahoehoe sugar lands. Three propositions have been made and will probably be decided on in the near future.

In the first the land to be leased is 3,132 acres, for which the government wants a minimum rental of \$2.70 per acre and will allow the lease to be made for about nine years. The second matter concerns 100 acres of land for which the government wants \$3.35 per acre rental and the lease of which will be about five years, or long enough to raton and take off three separate crops of cane.

The third matter is a new one and of a good deal of importance. The Laupahoehoe Sugar Company wants a right of way from the government to allow the building of a cane flume which will carry its cane across the Waipunaie gulch, doing the work which is now being done by means of a wire cable arrangement. The land over which the flume will run is not valuable for any other purpose and it seems likely that the request will be granted and, in view of the large amount of capital which will be expended for the flume, about \$25,000, no rental will be asked. The right of way is asked for a term of twenty years.

Application gives the names of fifty-five charter members and is signed by M. de F. Spinola, Antonio A. Silveira, Ezekiel Vierra and V. A. Carvalho.

K. Ono has been appointed administrator of the estate of Naotaro Nishikida. He must furnish a \$250 bond.

In the Federal Court this morning, a number of prisoners were arraigned and several had attorneys assigned to them. The case of Kiyochi Yanagi, charged with perjury, was continued till Saturday. Ah Wan entered a plea of not guilty, as did Man Pio, and both cases went over till Saturday.

Jacob Rosenberg pleaded not guilty and his case was set to follow the case left over from last term on May 4. C. F. Chillingworth was assigned to defend Kastlehua, charged with bigamy and plea will be entered on Saturday. W. A. Greenwell was assigned to defend Stephen Smith and Charles Duesbury, charged with larceny, and their plea will also come up day after tomorrow. The same course was followed in the case of Takani, charged with Edmunds Act violation and E. A. C. Long was assigned as lawyer for the defense.

MRS. MACKALL ALSO POSTPONES

Owing to the postponement of "The Mascot" and the new date for it being the same as the date set for Mrs. Mackall's recital, the latter also has been postponed. Mrs. Mackall's recital will take place on Tuesday evening, April 28, in the ballroom of the Alexander Young Hotel, and the indications are that the room will be crowded. The recital had been set for April 30, but the Mascot performance was yesterday unexpectedly postponed to that date.

BIGGEST LOAD OF BIG BUGS

STEAMER KOREA HAS A RECORD COMPANY IN NUMBER OF NOTABLE PEOPLE.

There is a little world afloat aboard the P. M. S. S. Korea which this morning arrived from the Orient and sails for San Francisco at 5 o'clock this afternoon from the Hackfeld wharf.

B. Griggs Holt, agent for the Pacific Mail Steamship Company at Shanghai, and very well known here, is on a vacation to visit his family in this port and he will go on to the mainland states before returning to his duties in the Celestial Empire.

Judge J. H. Beatty, of the Circuit Court of Idaho, accompanied by Mrs. Beatty, who have been touring the world, intend to make a stay in these islands before returning to their beautiful home in Boise City.

W. J. Dickey, a very prominent financier of San Francisco, with whom are Mrs. Dickey and their children, who have been jaunting about the Orient as far as China and Japan represent that section, will stop awhile in the Paradise of the Pacific before getting away for home.

F. J. Giffard and C. Y. Le Bas, citizens of the Isle of Jersey, England, will take a breathing spell in Honolulu while en route around the globe.

H. L. Riseley, accompanied by Miss Riseley of Bristol, England, will visit friends in this Territory for a spell. Mrs. G. S. Achilles and family of New York intend to make a prolonged visit here.

K. Abe, here with his family from Japan, is to be attached to His Imperial Japanese Majesty's Consulate at this American port.

Judge E. F. Johnson and Mrs. Johnson, of Manila, P. I., are en route on a visit to their old home in the mainland States.

Judge J. T. Tracy, of Manila, accompanied by his wife and their son, are also visiting the States.

Judge D. R. Williams accompanied by his little daughter, and Judge Adam C. Carson, of Manila, as is Judge Williams, are bound for the American continent where it begins at the Golden Gate.

Lieutenant E. H. Watson of the United States Navy, late an officer of the American Asiatic squadron, is under orders to proceed to Washington.

Captain A. Dixon, of the P. M. S. S. Persia, having turned his vessel over to First Officer Jefferth at Hongkong, is under orders to report at San Francisco.

Ensign S. C. Loomis and Ensign W. H. Smyth, U. S. N., have been detached from the Asiatic fleet and are going to San Francisco.

Bishop Merriman C. Harris, superintendent of Methodist missions in Japan and Korea, is en route to New York for a holiday.

Mrs. E. F. Woodward, wife of the surveyor of the port of San Francisco, with whom are the charming Misses Bess and Irma, and Mrs. H. B. Rogers, who have been on a round trip to the Orient in the Korea, are now headed home for Santa Rosa.

Dr. Franklin Rogers, U. S. N., stationed for six years past at Yokohama, is proceeding with Mrs. Rogers to his Eastern home.

M. and W. Rihoutschinsky, bankers of Moscow, Russia, are on a visit to the United States, en route around the world. Banking is good in Russia.

E. Stocks Massey of Mampford Hall, England, and his wife will visit the States.

Mr. and Mrs. Rene Dubuffet and Mr. and Mrs. Lecompte of Paris, Mr. and Mrs. W. E. Jacobsen and Nells Dahlgaard of Copenhagen, Mr. and Mrs. Sydney R. Lysaght and A. M. Fry of Bristol, England, Frederic Lutman and Colonel Patrick Hehr of India, Miss Burke-Wood, of Marston Hall, England, and Mrs. M. Grabix and Mrs. F. Gillum Webb of Stratford-on-Avon, England, Norman Nowell of Stockton and Stanley Steel of Sunderland, will all visit in the States en route to their European homes.

Captain Charles R. Woodroffe of Tokyo is on a trip to England.

John Moffatt of Paisley, England, is going home after a trip around the world.

Mrs. Ella K. Sibley of New York and Mrs. Florence C. Ashley of Detroit are returning from a world tour.

Christopher C. Donovan of Santa Rosa is going home from a round trip in the Korea.

Mr. and Mrs. J. H. Hiland, H. H. Hiland and F. A. Miller of Chicago are homeward bound from an extended Oriental journey.

Calvin Pardee, well known in the anthracite region of Pennsylvania, and his wife, are going East from the Orient.

J. Reifander, wife and daughter, are going to Toledo, Ohio.

Rev. Dr. and Mrs. H. M. Hannill, of Nashville, Tenn., are returning after a six-months stay in Japan.

T. Kurosawa, C. Muzukami, T. Tani and Dr. T. Kurosama are all prominent in Japanese public affairs and are to tour the States and go to London.

IMPROVEMENTS IN WAIALAE SECTION

(Continued from Page One.)

the need of a better service on the Hotel street line and protested against the ratification by the Governor of the 20-minute service which the Rapid Transit Company wished made permanent upon said Hotel-street line. Your committee reports that the Governor upheld the views presented by your committee and refused to approve the proposed permanent 20-minute schedule on said Hotel street.

The work thus far has been in the nature of negative action to prevent the Rapid Transit Company from basing upon us a permanent 20-minute service. It is time now to consider whether the residents who patronize the Hotel-street line wish to undertake any positive steps to secure a better service.

Your committee on March 15, 1908, addressed a letter to the Rapid Transit Company requesting a better service. A copy of such letter is hereto attached. On March 21, 1908, this letter was acknowledged with the promise that a definite answer would be given at once. The chairman of your committee is aware of the fact that a meeting of the directors of the Rapid Transit Company has been held since the receipt of the committee's letter, but no reply has been made and it is evident that our letter is to be ignored.

In view of the decision of the Supreme Court in the so-called "Liliha-street Case" your committee believes that the Rapid Transit Company can be compelled to furnish a more frequent service on Beretania street and to Kaimuki, if it can be shown to the Court that the present service is inadequate. To make this showing a quantity of statistics must be obtained.

Your committee has not felt justified in authorizing the collection of the necessary data, as to do so would involve the expenditure of a considerable sum of money. A further consideration which deterred your committee from incurring expense was the fact that the Rapid Transit Company had taken steps to take the "Liliha-street Case" to the Supreme Court of the United States. In the ordinary course of events this case should come up at the October Term of the Supreme Court. A decision affirming the decree of the Supreme Court of Hawaii will open the way to an action by those interested at the Kaimuki end of the Hotel Line, a decision overruling the local Supreme Court would make it practically impossible to secure any better service through the Courts.

In view of the foregoing your committee makes the following recommendations:

1st.—That a committee of three be appointed to solicit subscriptions to the amount of about \$100, and to use said fund to secure the necessary data to establish definitely whether the present street car service on the so-called Hotel-street line from Port street to Kaimuki is adequate to the public needs.

2nd.—That such committee be required to report its findings at a meeting to be called in sixty days from this date.

3rd.—That no action be instituted until after a decision has been rendered by the Supreme Court of the United States on the so-called "Liliha-street case."

will not be ready with his return at 2 o'clock and the case will probably be continued in order to give him a chance to file the necessary papers.

DIED.
DAMON—In Albany, New York, April 23, 1908, Cornelia Beckwith Damon, widow of the late Edward C. Damon, and mother of Fred. B. William F. Maurice S., Ethel M., and Julia M. Damon, in the fifty first year of her age.

POLICE COURT WORK.
Only five cases were on the calendar this morning at Police Court, and before nine thirty court was finished. Paul Kane and his wife, Lottie Kane, were fined \$5 each, for disturbing the quiet of the night. Charles Katalahi was fined \$5 for the same thing. Mahuka had sentence suspended for thirteen months, for being drunk. Watanabe, charged with gross cheat, had his case continued until tomorrow.

MILLS SUES OUT HABEAS CORPUS

Bill collector H. T. Mills, who was ordered into the custody of Sheriff Iauka yesterday afternoon by Judge Andrade, on account of his refusing to pay the \$10 fine assessed against him for fighting in court, obtained a writ of habeas corpus from Judge Lindsay this morning, returnable at 2 o'clock. He spent the night in the police station and was in the custody of the sheriff all the morning but will probably be admitted to bail this afternoon. It is understood that Judge Andrade

SPORTS

The hardware for the Hawaii is expected today per S. S. Mexican.

E. J. Lord drove from Honolulu to Haleiwa last Sunday in one hour and ten minutes, in his sixteen-six Winton.

The golfers of the Country Club will have a foursome tournament on Sunday at the Club, for which prizes have been offered. Play will commence at 10 a. m. sharp.

Local lovers of boxing are looking forward to the boxing matches which will be held at the Fort Shafter Athletic Club on Thursday evening, April 30. The bouts will be ten rounds each. The main go will be between Murphy and Poole, and the preliminary between Bird and Richardson.

A special meeting of the Honolulu Cricket Club will be held this afternoon at five o'clock, in the Scottish Thistle Club rooms. This meeting will be for the purpose of arranging about the cricket match with the team which is on board the Aorangi due here on the 29th.

The Heanani Yacht and Boat Club are arranging for a series of boat races during the stay of the fleet. The Rowing Association will meet in the near future to decide definitely on the matter.

There will probably be a number of races between the different man-of-war crews while in port, and the lovers of boat racing will have a chance to see some good races, as there is the greatest rivalry existing between the boat crews in the Navy.

The wrestling match between Sailor Roberts and Mitsuka, the champion Japanese wrestler of the Territory, will take place on Saturday evening, May 2.

Articles were signed yesterday afternoon at the Orpheum theater, and the next wrestling evening promises to be just as interesting as the first one.

Several good preliminary matches will be held before the big match.

H. M. Ayres will have charge again as before, and Harry Cobb will act as referee.

A very spirited meeting of the Newspaper Baseball League was held yesterday afternoon in the Young Hotel Roof Garden, to decide on the question of allowing the carriers of the Advertiser to play on their team. After a good deal of talk on all sides it was finally decided to allow them to play, the only ones that are barred being signed players in the big league.

Another matter that was decided was the price of admission to the games. General admission will be ten cents, and twenty-five cents will be charged for reserved seats in the grand stand.

The Kalihii Athletic Club held its regular weekly meeting last night at the residence of Adrian Keoho. Some of the business that came up at the meet-

ing was the news that the Twilight team of the Kapiolani League intended to withdraw from that league, and it was suggested that the Kalihis take their place. The matter went over for a week so as to give the officers of the club a chance to communicate with the officials of the Kapiolani league.

George Silva, Harry Markham and W. Kalama were admitted to membership.

The committee who have the concert and dance in hand for May 2 reported that the sale of tickets had been very large and that a large crowd would be on hand.

Sporting events scheduled for the near future:

April 23—Honolulu Baseball League meeting, 12:15 p. m.

April 23—Meeting Honolulu Cricket Club, Scottish Thistle Club, 5 p. m.

April 24—Meeting Outrigger and Fishing Club, Promotion Committee rooms, p. m.

April 25—Match race, Kapiolani park Shamrock vs. Exchange Five.

April 26—Foursome golf tourney Country Club.

April 27—Kapiolani Baseball League meeting.

April 30—Boxing, Fort Shafter.

May 2—Boys' Clubs field meet.

May 2—Senior League baseball season opens.

May 2—Wrestling carnival, Orpheum theater.

May 10—Newspaper Baseball League season opens.

May 13—Invitation tourney, Berea-antania Tennis Club.

June 4—Y. M. C. A. gymnasium contests.

June 10—Hawaiian Gun Club's shoot for club championship.

June 11—Hawaiian Gun Club's semi-annual prize shoot.

June 17—Hawaiian Gun Club's unknown angles shoot.

July 3—Hilo races.

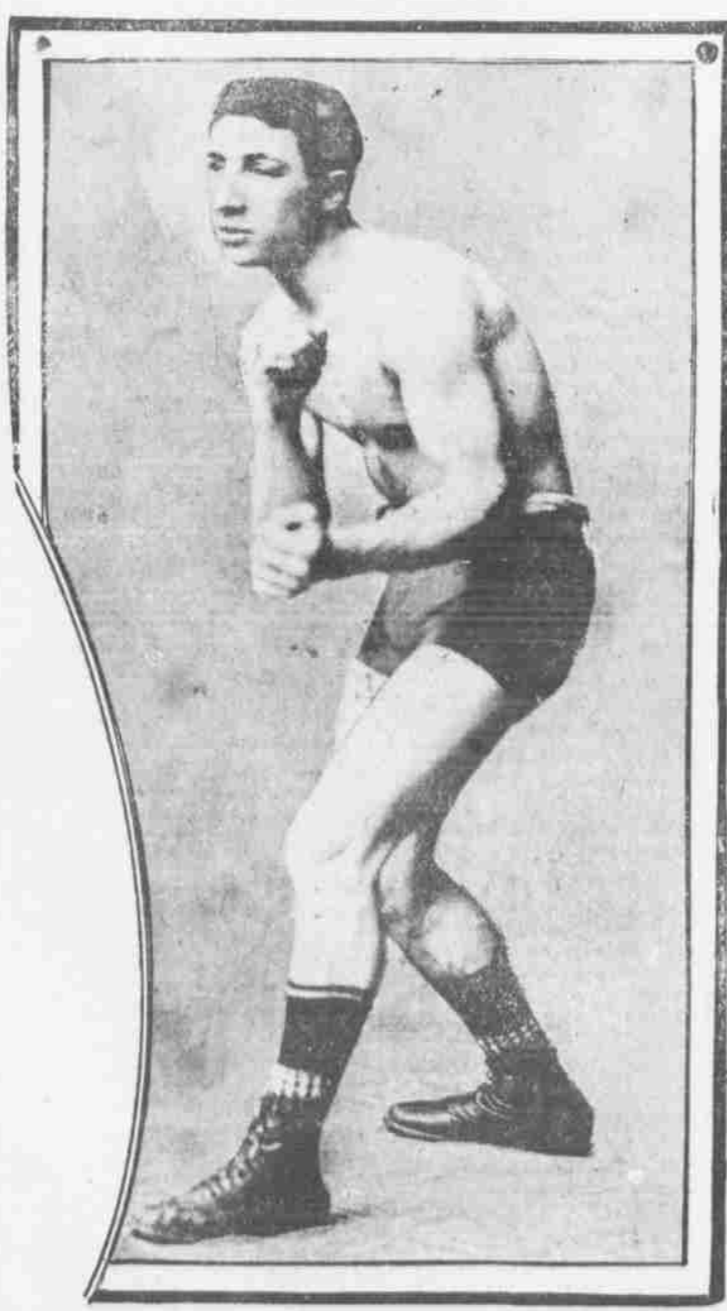

July 4—Maui races.

DOING GOOD WORK

Road Supervisor Johnson is getting ready for the coming of the fleet and his latest move is certain to meet with the approbation of the Fleet Reception Committee and of the general public. This is relative to the paving of Richards street, which will be the principal avenue through which the thousands of sailors coming from the battleships will travel to reach the business section of the city.

Work on the macadamizing of Richards street from the waterfront, by the old Fishmarket, to King street was commenced this morning and will be hurried through. This work follows the macadamizing of Millard street, which runs from King street, by the Opera House, toward the waterfront. It is proposed to place all the streets in this section of the city in the best possible condition before the arrival of the battleship fleet.

ABE ATTELL, THE FEATHERWEIGH.

NEWS SNIPS

The San Francisco police believe they have hold of a clever swindler, through the arrest of a man named G. D. Pulsiner.

Expert cracksmen made a sensational robbery of diamonds and jewelry valued between \$45,000 and \$48,000 at the store of Thomas Lundy, San Francisco, early in the morning of April 11.

Benjamin Stevens, for more than 50 years president of the New England mutual life insurance company, died at his home in Boston on April 11, aged 84 years.

Riveters and other men working on the structural steel at the Berkeley national bank, Berkeley, Cal., went on strike because of the strike of the cement workers and the hiring of non-union men.

Samuel L. Carleton, one time head of the world's organization of Sons of Temperance, died at Portland, Me., April 11, aged 86 years.

By the judgment of the supreme court of Tennessee in an opinion delivered by Justice Neill the Standard oil company is ousted from Tennessee for the acts of this company at Gallatin in restraining trade.

Senator Cullom, chairman of the senate committee on foreign relations, informed the president on April 11 that his committee would consider the Venezuelan correspondence at its earliest convenience. He had no idea what the committee would do, he said, but on general principles he thought President Castro should have a good spanking.

In the suit brought in San Francisco by Ruef against Judge Dunne, Land-don, Heney, Spreckels, Burns, Biggy and others for \$4,650, the cost of the boss' luxurious maintenance in a private prison, notices of motion were filed in behalf of Spreckels and Burns to have the greater part of the complaint stricken out on the ground that the allegations of Ruef are sham, irrelevant and redundant.

Believing that the water problem is the most serious question before the people of San Francisco at the present time and that the gravity of the situation has been greatly augmented by the deadlock between the city and the Spring Valley company, Mayor Taylor and those associated with him in the city government will co-operate with the local civic organizations in a big public meeting at which the entire matter will be discussed.

Oliver N. Moxey, central figure in the once famous Moxey trial, and who on his wedding day four years ago was given a gift of an estate valued at \$250,000 by his wife, is today a street-car conductor on the McAllister line, San Francisco, not one single dollar of the fortune for which he battled so hard in the courts and for which he faced the besmirching of his reputation having come to him.

Deputy Sheriff Matt Starwich of Ravensdale, Wash., and J. C. Storey, justice of the peace at Ravensdale and special sheriff in the hunt for the slayers of Marshal Miller of Kent, captured one of the highwaymen April 11. The man who was captured was shot in the knee by Deputy Sheriff Starwich and one of the other highwaymen was shot in the right side. The man who was arrested is believed to be the leader of the gang.

The four delegates at large from New York are General Stewart L. Woodford, ex-Mayor Seth Low, Frederick R. Hazzard of Syracuse and E. H. Butler of Buffalo. They are instructed to use all honorable means to secure the nomination of Governor Hughes for President. The platform indorses in strong terms the administration of President Roosevelt and Governor Hughes and commends the policies of the federal administration. A revision of the tariff is favored and the action of congress in declining to revise the tariff by piecemeal is indorsed. Changes are advocated in the currency laws to provide a more elastic and satisfactory monetary system.

Norman Hamilton, 15 years old, attempted suicide in San Francisco by inhaling gas. Disheartenment over hardships had moved him to the last desperate resort of suffering mortals. Four years ago his mother died and he was left to the care of his father, a cook in the Terminus hotel at Vancouver, B. C., who made him perform all kinds of drudgery and beat him constantly. The boy stood the cruel treatment as long as he could, and two months ago ran away. Since then he has worked his way along the coast, cooking on small tugs and sailing vessels, and earning what he could, but scarcely making more than his board and lodging. He arrived in Oakland recently and was picked up by a policeman but allowed to go his way after begging piteously to be released.

District Attorney Swallow has commenced action against T. B. Rickey, John S. Cook and Frank Golden, bondsmen of the county clerk of Esmeralda county, Nevada, to recover \$14,045.98, which was placed in the defunct State bank and trust company by the county clerk. A similar suit has been brought against the State bank and trust company to recover \$4,870.03, deposited by the county. Charges of embezzlement have also been filed against Rickey, Cashier Lindsay of the Goldfield branch and the directors, all of whom are now facing like charges from the grand juries of Nye and Ormsby counties.

YOU WANT The News First.....

You Want Your Ads Read

Here Is Some Advice---

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All The World For The Day Just Ended---

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:
It is delivered at the home each night when the whole family has plenty of time to read it.
It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.
The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.
It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.
The evening paper presents the news the day it happens. The morning paper the day after.
The evening paper presents the news first. The morning paper merely elaborates it.
The evening paper prints daylight news. The morning paper takes what is left.

NORDAU SCORES AMERICAN TITLE HUNTERS

Max Nordau delivers some pungent utterances on international marriages in a recent magazine article, in which he refers to the coronehunting American woman as a "hothouse flower of Manhattan Island," and then pays the other kind of American woman this compliment:

"The American man knows another kind of American woman—earnest, industrious, compliant without abjectness, independent without arrogance, warm hearted without being weak, worthy daughter of the New England wives, those patient heroines who stood

by and helped the vallant pioneers of the country."
Of the American woman who seeks a husband among the aristocrats of Europe the author of "Degeneracy" says:
"She is no American woman, but a hothouse flower of Manhattan Island; an artificial product of Fifth avenue. She stands quite apart from the movement of progress in her nation. She brings to Europe her millions, but with them she does not bear the spirit of Americanism."
The occasion of Nordau's essay on the American woman was the recent marriage of Gladys Vanderbilt to a nobleman of Hungary.

GOLDWIN SMITH ON RELIGIOUS STATUS

In the April number of The North American Review Professor Goldwin Smith undertakes a description of "The Religious Situation." It is quite a negative picture which he draws, indicating the prevalence of a denial or a questioning of the beliefs entertained a generation ago regarding the Bible and its authority, and the dogmas which were based upon its teaching.

"Bishop Butler's grand argument for belief in the possibility of a future life goes upon the supposition that our conscious personality is distinct and separable from our perishable frame, and is in itself 'indiscrptible,' so that there is no reason why it should not survive the death of the body. To prove that it ever has survived the death of the body, or to show the mode of its survival, the Bishop does not attempt. But Butler lived long before Evolution and the general advance of physiology in these later days. Johnson, who was no septic, owned that he yearned for more light on the 'spiritual world,' by which he apparently meant immortality.

"Positivism tenders us endless existence as particles in a collective humanity, the 'colossal man.' But would there be much satisfaction in existence when individuality and personal consciousness had been lost? Would the prospect lead the ordinary man to work and suffer for the future generations, at all events, for any beyond the effects of the immediate objects of his love? What the end of the colossal man is to be seems undetermined. The Positivist Church has produced very good and beautiful lives, but its power as a religion to go alone would be more clearly seen were not Christianity at its side."

LATE NEWS BY CABLE

WASHINGTON April 23.—The House has defeated the bill introduced by Delegate Kalaniana'ole allowing the Territorial Board of Immigration to accept contributions from private persons and corporations for the purpose of assisting the immigration of white laborers into the Territory of Hawaii.

THE BIG STICK.

WASHINGTON, April 23.—President Roosevelt has announced that if the Naval bill now before Congress carries no appropriation for the construction of two new battleships he will veto it.

THE PREMIER'S FUNERAL.

LONDON, April 23.—The funeral of Sir Henry Campbell-Bannerman, the former Premier, will take place at his late home in Scotland on Monday next.

OAKLAND BOMB THROWING.

SAN FRANCISCO, April 23.—The Oakland residence of ex-supervisor Gallagher, one of the hoodlers forced to resign from the San Francisco Board, was damaged by a bomb yesterday. The police believe that the bomb was placed in an attempt to assassinate Gallagher, who has been one of the witnesses depended upon for material evidence by the graft prosecution.

HONOLULU BOY SUSPENDED.

STANFORD UNIVERSITY, April 23.—Ernest N. Smith of Honolulu has been suspended because of his editorial criticism of the Student Affairs Committee in the Sequoia.

Smith is the son of Walter G. Smith, editor of the Advertiser, and that paper, in connection with the foregoing dispatch, says that he lately turned over the editorship of the Sequoia to an undergraduate, adding: "Unfortunately the undergraduate editor was expelled for taking part in the recent student demonstration, so the Sequoia reverted to Mr. Smith, who undertook to get out one more issue. Evidently the paper hit the Student Affairs Committee in a tender place, the suspension of the Honolulu youth following. His two predecessors of last year had been expelled."

THE PERSIAN TROUBLE.

ST. PETERSBURG, April 23.—The Persian situation is growing more serious. The Russian troops available for the rescue of the Russian detachment entrapped within the Persian borders is inadequate for the work in hand.

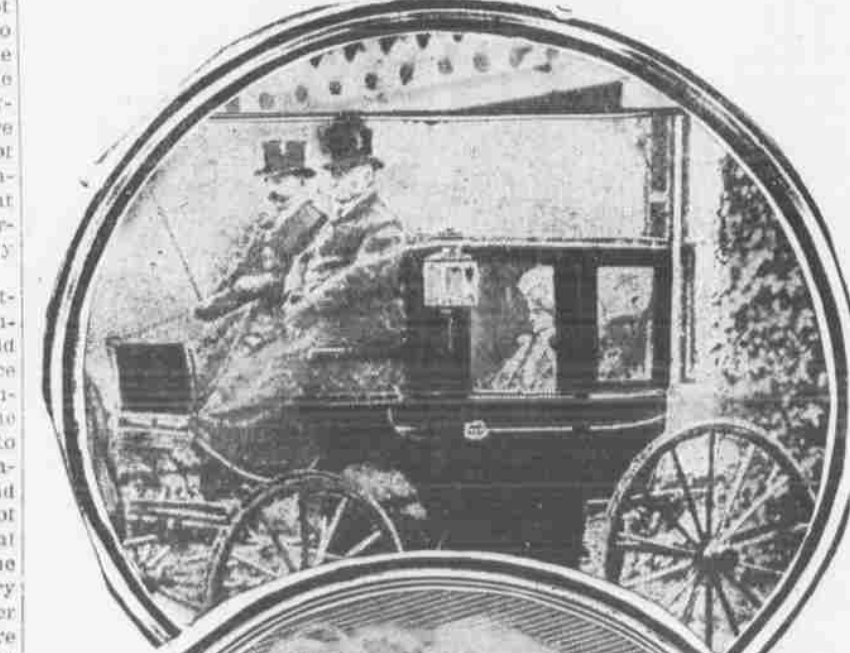

NAVAL CADETS BEATEN.

ANNAPOLIS, April 23.—The Harvard eight-oar crew yesterday defeated the Naval Cadet crew by half a length.

MRS. EDDY-BAKER.

PRESIDENTIAL BOOM FOR CLEVELAND'S MAYOR

This is the season when Presidential booms are as thick as leaves in Valambrosa.

An addition to the list is that of Tom L. Johnson, mayor of Cleveland. Thousands of his admirers over all the country and especially in the middle west believe that the fighting mayor is entitled to a place in the round-up of presidential possibilities. They say

that this successful fight for three-cent fares and his aggressive advocacy of other popular municipal reforms have kept him closer to the people than any of the candidates who are now hoping that the Democratic lightning may strike them next July.

YOUR SUMMER SUIT
—is ready at—
SILVA'S TOGGERY

Out of the Fog

COMMUNITY SILVER

is out of the fog of uncertainty which surrounds the purchase of ordinary plated ware, because it is made in Only One Grade—The Best. Its quality is as fixed as Sterling. In buying it, every dollar spent becomes a sure investment. Made only in a plate heavier than triple, Community Silver is sold at about the price of ordinary plate.

Militia Engineer Company

The forming of an engineer company, to be part of the First Regiment of the National Guard, is now in order. The first step was taken just before Governor Frear left for the Coast, when he appointed Marston Campbell as lieutenant-colonel of engineers on his general staff. The matter now rests in the hands of Adjutant General Jones and Campbell, and it is impossible to say just what steps will be taken.

MONEY SET FREE

NEXT WEEK \$375,000 WILL BE PAID OUT TO STOCKHOLDERS OF KIHAI.

Nearly \$400,000 are to be distributed in Honolulu beginning on Friday of next week, under the announcement made yesterday by Alexander & Baldwin, of the commencement of payments for Kihai stock at \$10 per share, in accordance with the agreement for sale of Kihai. The exact sum is \$375,000, and as there are over 600 different stockholders to be purchased from, the cash will find its way into many homes.

Under the Kihai agreement the sum of \$500,000 is paid for the 50,000 shares of this sum, \$125,000 is paid to H. P. Baldwin for the land, and \$375,000 goes to the various stockholders.

Payments are offered a week from tomorrow, at the offices of Alexander & Baldwin. It is stated that practically all of the 600 odd shareholders will want to sell under the arrangement made, hence a large sum of cash will probably be distributed on the date for starting payments.

BIRTHDAY OF JUDGE DOLE

Judge Dole's office was filled with flowers this morning, and also with visitors, for it was the celebration of the Judge's sixty-fourth birthday. United States Marshal Hendry celebrated the occasion by digging up a large new United States flag which was placed on the flagstaff on the tower of the Judiciary building. All through the day the Federal Judge's office was thronged by messenger boys, bringing floral greetings, and by his friends who came to clasp his hand and wish him many happy returns of the day.

Among those who paid their respects to Judge Dole this morning were A. G. Robertson, E. R. Hendry, S. F. Chillingworth, Henry Macfarlane, Judge Kaukoku, Judge Lindsay, R. W. Breckons, W. T. Rawlins, Col. Sam Johnson, Samuel P. Woods, Frank Hatch and Ralph Johnson.

OFFER FOR OAHU LAND

PLAN PROPOSED TO THE ACTING GOVERNOR FOR TAKING SOME PINEAPPLE ACRES.

A proposition has been made by J. B. Castle and D. L. Van Dine, in connection with the proposed use of the pineapple lands at Kaneohe, which are at present under lease to Castle. This lease expires in 1913 and since it would hardly pay Castle to clear the land and plant it with pines for so short a period it was understood that he was willing to give up the lease if the land was opened to homesteaders.

Instead of this a very different proposition has been made to Acting-Governor Mott-Smith in the matter. D. L. Van Dine and others stand ready to take up the land and wish to do so under the Settlement Association act, or under somewhat stricter terms than that calls for. Castle is willing to give up the lease if the land goes to Van Dine, but otherwise seems to prefer to hold it.

Under the Settlement Association Act the land would be sold for very much less than under the ordinary homestead rules, but the plan offered seems to differ very much from the Settlement Association proposition.

This offer has been made to Acting Governor Mott-Smith by Van Dine for 284 acres of what is known as the Halekolu lands. In speaking of the matter the Acting Governor stated that he had not looked into the matter thoroughly at all and would have a conference with Mr. Castle in regard to it tomorrow morning. He said that he had not formed any opinion but did not see how it could be carried out except under the Settlement Association Act.

MRS. DAMON PASSES AWAY

SAD NEWS CABLED THIS MORNING TO A WELL KNOWN HONOLULU FAMILY.

Fred B. Damon, Assistant Cashier of the Bank of Hawaii, received a cable from his brother in Albany, N. Y., this morning, announcing the death of his mother, Cornelia Beckwith Damon, widow of the late Edward C. Damon.

Mrs. Damon has been very ill for some time past, and her death was not totally unexpected. Mrs. Damon was born in Honolulu on March 2, 1857, and had lived most of her life here. She left here about two years and a half ago for Albany, where she has lived since with her son, Maurice S. Damon.

Mrs. Damon is survived by three sons, Fred B., William F., and Maurice S. Damon, and by two daughters, Julia M. and Ethel M. Damon, who are at school in Boston. She has one brother also living in the East, Maurice G. Beckwith.
