### MANA PASSENGERS ON THE MONGOLIA

Steamer Brings Rev. J. L. Barton En Route To Yokohama

The Mongolia came into the Hackfeld dock this afternoon at 2 o'clock after a rather rough passage from San Francisco. As Purser Ronnie expressed it, "She moved around some on the way over." This naturally means that there was pretty heavy weather, as it takes a very heavy sea to stir the Mongolia from her usual steadiness. The Mongolia has a new captain in the person of R. H. Hathaway, a new man on the Pacific. Capt. Hathaway is a rather young man in comparison to the other captains of the Pacific Mail boats, but is said to be one of the best officers in the American merchant service. He came to the Pacific Mail from the Ward line on the Atlantic, where he enjoyed a reputation of the best. The wharf was crowded with ministers and other church people waiting to greet Rev. J. L. Barton, the secretary of the American Board of Foreign Missions who is on the way to Yokohama. As soon as he came off the ship he was taken in charge by P. C. Jones who placed him in a wagonette drawn by four horses and took him to his home in Nuuanu Valley, where he will be entertained till the Mongolia leaves tomorrow noon. Among others who were on the Mongolia was A. G. M. Robertson, returning from a trip to the Coast. Mrs. S. M. Ballou and Misses Florence and Charlotte Ballou, returning, leaving Attorney S. M. Ballou in Washington, where he has some cases to fight before the Supreme Court of the United States. Mrs. John Ena, widow of the late John Ena, returned with Thos. Ena and Misses Mabel and Clarice Ena. Dr. Samuel J. Call, who will take the place of Dr. Robinson on the Manning, was on board. Mr. James Dole returned from the Coast with his bride. Mr. and Mrs. Albert Waterhouse were among the passengers. The Mongolia brought 291 sacks of mail for this city and a few packages of freight. She has 310 Orientals on board, bound for their homes. Two hundred and fifty of these are Chinamen and the rest Japanese. The officers of the Mongolia were shocked to hear of the death of Capt. Seabury, who was a great favorite with all. They say that they knew when they left that he had little chance of living. He was walking along a street in one of the small cities near San Francisco about two weeks ago and fell into a cellar which had been left without covering. From the injuries received in this way his death resulted.

### FORMER WAITER IS NOW COAL MAGNATE

Has Salvaged 600 Tons Of Fuel Jettisoned From Sheridan

It's an ill wind that blows no one's good and the stranding of the transport Sheridan at Barber's Point has turned out to be a windfall for a young hawke named Hammond, and the natives living in that section. In order to get the Sheridan off it was necessary to jettison the coal which was on board the transport and 1700 tons of her fuel were thrown over the side and then washed on the beach. Hammond, who but a short time ago was working as a waiter at Scottie's, saw a chance to make some money, so he rented the land on which the coal had been washed and made an agreement by which he should have the right to salvage the coal without any interference. He then got the natives together and went to work. Now there is in the vicinity 650 tons of first class fuel coal piled on the beach and Hammond is in the city today making preparations to have it brought here in scows. He should be able to get from \$4 to \$5 per ton for the coal and will clear a handsome little sum as the result of his foresight and hard work.

### ALLEG WAS ONLY ON BUSINESS IN CALIFORNIA

Cables Ship May Take The Wrecked Sailors To Vancouver

A. G. M. Robertson, the well known lawyer and politician, returned this afternoon in the Mongolia, his return being almost as unexpected as his sudden departure. Immediately after leaving the steamer Robertson went to his office. Here he was found, among a host of friends who had hastened there to greet him. Regarding his trip Robertson did not have much to say. He was very pleasant, but not communicative. "Where have you been?" he was asked. "In San Francisco and California," he answered. "Then you didn't go to Washington?" "No; I did not have the time." "What was the purpose of your trip?" "Pleasure and business combined. Law business." "What cases were you working on, which necessitated the trip?" "Oh, nothing that would interest the public." Robertson was asked whether the resignation of chairman of the Republican Central Committee, which he tendered when he left, was still to be considered effective. He answered that it was not. It was tendered merely in case the committee should want to elect another chairman during his absence. As the committee had not wanted to do so, he did not intend to resign. (Continued on Page 2)

### Excitement Wild in Nevada

Daily fresh fortunes are wrested from Mother Earth. Tenderfoot and inexperienced men have become millionaires overnight; a few weeks ago they labored for day's wages. YOU CAN DO THIS ALSO. The chances are better now than ever before. Many of our island clients have reaped stupendous profits by following our advice.—in substantiation of which we reproduce the following from the SAN FRANCISCO CALL of date December 4, 1906: "HONOLULU BUYING STOCKS 'ISLAND SPECULATORS MEET WITH SUCCESS IN NEVADA MINES.' "HONOLULU, November 26.—Interest in Nevada mining stocks has been growing rapidly for some time past. It is said that, while a large number of men are buying and have bought stocks in the various concerns in Nevada, so far there has not been a single loss recorded. "All the stocks in which local people invested have advanced in value. In two or three instances men in this city are said to have cleared up \$50,000, while there are a number who have made smaller amounts, but still running into the thousands." The early youth of '07 will see more and quicker huge fortunes made than since Comstock days. This is not speculation — THE GOLD IS THERE. We are right where you need us—in San Francisco where the market for Nevada shares is made. Our fingers are constantly on the pulse of the mining stock situation, and we have accurate knowledge of the good stocks. WRITE NOW for our FREE MARKET LETTER. And when you get our tip to buy or sell, be ready to ACT. Members of the San Francisco & Tonopah Mining Exchange, Suite No. 243 Monadnock Building, San Francisco, Cal.

Spends Day In Office Learning The Ropes

Abram G. Kaulukou, who has for some time been connected with the firm of Magoon & Lightfoot, was on hand this morning in the office of Deputy Sheriff Kakakela taking lessons in the manner of filling out warrants and getting on to general routine of the office. The rumor has it that he is to be appointed Assistant Sheriff, to fill the vacancy made by Henry Vida. It is certain that some position will be tendered him by Sheriff-elect Iauka. Assistant Sheriff Henry Vida will sever his connection with the police department on January 1, as he states that he has given Sheriff Brown his resignation to take effect on that date. If he wished he might remain in his present position till noon on January 7, when the office will be turned over to the new administration. He has some plans on foot and states that he intends to remain in Honolulu for some little time, though what his plans are he refuses to announce as yet.

SAM REPORTS ON ROAD WORK DONE

Much Accomplished In 18 Months of County Control

The Board of Supervisors will this evening hold their last meeting of the present year. Among the most interesting features will be the reading of a report prepared by Road Supervisor Sam Johnson, showing road work done in the city during the eighteen months of County administration, and the work which is still left to be done, as follows: Honolulu, December 26th, 1906, D. Kalaokalani, Esq., Clerk, County of Oahu.

The average appropriation per month for the period was about \$15,000, out of which, besides payrolls and other regular expense, a large amount was expended for new machinery, live stock, new tools and implements, and road contracts.

At the present time there are in the district of Honolulu about 65 miles of macadamized road. Out of this number, 26.93 miles were reconstructed and macadamized during the past eighteen months, and under the administration of the present Board.

There were nine bridges reconstructed during the period, and are as follows: Kala road bridge, Ala Moana road bridge, Anapuni street bridge, Lanai lane (brickyard) bridge, concrete bridge near Kahauiki reservation, new wooden bridge on Kuku street over Nuuanu stream, re-covering bridge on Queen street extension over Nuuanu stream, scraping and painting steel bridges over Nuuanu stream on Beretania and School streets, new wooden bridge on Vineyard street over Nuuanu stream.

The Honolulu storm drain system has been materially improved during this period, and 58 catch basins, and about 8,507 feet of various sizes of concrete pipe were laid underground during this period, thus making a large saving to roads, as shown by the light damages caused by the last rain storm; 5,180 feet of bitumen gutters and bitumen crossings were laid in various parts of the city.

At the expiration of the term of the present Board of Supervisors there will be only a little over 12 miles of road left to be reconstructed and macadamized, and which are distributed as follows:

- 11 streets in Punahou, McCully and College Hills sections, amounting to 22,300 feet; 5 streets in the Punchbowl Slope section, 3,100 feet; 2 streets in the town section, 10,150 feet; 5 streets in the waterfront section, 4,000 feet; 10 streets and lanes in Kewalo and Kakaako, 10,000 feet; 8 streets in the Fifth District, including King street, from Nuuanu stream to the Kahauiki reservation, 22,000 feet.

partment will be left in an excellent condition, as far as machinery, road implements and organization are concerned. Among other numerous property, this department is in possession of 1,580 feet of concrete storm drain pipe of various sizes, ready for use, and has on hand 590 barrels of cement.

Respectfully submitted, SAM'L JOHNSON, Road Supervisor

GRAND JURY IS PREPARING REPORT

The Grand Jury met at 7:30 last night instead of during the day, as heretofore. This, as previously explained, is not an account of any particular press of Grand Jury work, but because the business men of the body concluded that they would rather put in an hour or two at night than to take the time away from their own business.

No indictments were returned last night, and it is understood that nothing of any great importance came up. The principal work before the Grand Jury now is the preparation of the final report which is to be presented before the end of the term. Work on this will go ahead as fast as possible, and the greater part of the time of the jury will be taken up by it. There are still a few cases to come up, but so far as is known now, there will be nothing of a sensational nature. One or two cases committed to the action of the Grand Jury from the district court will be considered.

ROAD WORKMEN DEMAND WAGES

Lihue, Dec. 25.—The men who have been working on the Hanalei-Haena road have been growing for some time rest, and rightly so, because they have not been able to get their wages for some three or four months. A couple of weeks ago they put their complaint before Sheriff Rice and asked him to do what he could for them. When he went to Honolulu last week he saw the authorities there with the result that Messrs. M. Cook and Venhuizen were sent up with sufficient cash to pay off the labor on the stretch of the road finished by the government.

There is, however, still a balance due the men from the original contractor, so the dissatisfaction is not wiped out. The administration is not liable for this amount, as there is nothing due the contractor, the reserve having been utilized in the completion of the part of the contract left unfinished by the contractor.

POST CARDS THAT TALK

Talking post cards have recently appeared, and the fad is spreading. The cards talk their message to the recipient instead of conveying any written message. Of course, the card must be run through a phonograph, or their novelty lies in the fact that they are nothing more nor less than a brief phonographic record fixed to the card, to be produced at any time and place, with the aid of one of the machines.

INVENT A TOY AND GET RICH

The history and growth of inventions are subjects in which all are interested. The stylographic pen brought in \$200,000 a year; the India rubber tips to pencils \$100,000; metal plates for shoe soles and heels brought in over \$1,000,000 and "copper toes" for children's shoes twice this sum; the roller skate was also worth a million; the return ball brought the inventor \$50,000 and dancing "Jim Crow" \$75,000 a year. A clergyman realized \$2,000 a week by the invention of a toy, while Singer, of sewing machine fame, left at his death nearly \$15,000,000.

Think of the Danger

If a will is lost it often means legal complications worse than a contest. If a deed to a piece of property is mislaid and not found when wanted there must be a duplicate made and certified by the proper officials in the land offices. And it all means money lost. In either event the cost is greater by far than the rent of a box in our Safe Deposit vault several times over.

FOR FOUR DOLLARS

we guarantee you security from loss for the period of one year and you will have the use of one of the boxes in our vault that is made of steel and iron and built so strong that it will resist the attacks of burglars even when dynamite is used to effect an entrance.

FOR CORPORATIONS

we have the largest private boxes to be found in any vault in the country. These are made large so that books of record as well as silver plate in large quantities may be easily deposited in one of them. For estates managed by two persons they are most satisfactory for the reason that both officers must be present in order that the safe may be opened.

We have private rooms where papers may be examined at any time during business hours and where there is less danger of interruption than there would be in a private office.

The officers of this Company are always ready to give advice when asked upon any subject with which their experience has made them familiar. The securities offered investors are believed to be gilt edge and such as the courts approve for investment by executors and administrators.

We will be pleased to have you call and inspect the offices and the mammoth vault whether or not you intend to become a patron.

## DISPOSAL OF THE KAPAA HOMESTEADS

Kawaihau People Want Chance To Buy Property

The arrival of George W. Fairchild gives special interest to the following from the Garden Island:

There is still considerable uncertainty as to the fate of the Kapaia lands.

When the Moikinis were given their chance at the property, there was considerable grumbling among the residents of the district, because the administration left them entirely out of consideration. The Russians came and went without doing much damage to the land, and then the Kawaihau people began to hope that they might get a chance. For a long time nothing could be learned about the administration's intention regarding the land. There was some rumor in the papers that Pratt was going to do this or that, but the official himself kept mum officially.

It seems that he has let the Honolulu people know that he intends to open up the tract, and in some way or other the Kapaia residents got wind of the news. They made arrangements between themselves, and also saw the Makee Co. about the attitude that the corporation was going to take in the matter. They were told that the company was willing to throw up the lease at once, although there was still about two years left before the lease expired. As a condition for such action it was demanded, however, that the intending buyers enter into a grinding contract with the sugar company. The contract would in the main follow the lines of the Hakalan contract with a sliding price for cane which with sugar at its present price would amount to about \$4 per ton. It would be more liberal than the Hawaii one, however, as no restriction would be put upon the class of labor that the planter would be allowed to use.

It can easily be understood that this proposition was readily accepted and everything promised a settlement of the question in the near future. But now there is a hitch somewhere.

Some person or circumstance has caused the seed of distrust to sprout up in the community. Some believe that the sugar company is going to beat them out in one way or another. Others distrust that Governor Carter and Commissioner Pratt are going to treat them squarely; still others look askance at their fellow settlers and say that the other man is no use.

It is to be regretted that such misunderstandings should take place, as they apparently bear out the prophecies heard from many quarters, that it is impossible to realize the idea of settling Hawaii lands with farmers.

Those favoring the corporation point to Kapaia and say that no matter what is offered the people something different will be demanded.

The friend of the settlers on the other hand maintain that it is the corporation which disseminates the distrust in order to make as many as possible, the administration included, believe that it is useless to offer the land for sale, and that wrangling will break up the whole scheme.

## SOLDIER BOYS NOT FORGOTTEN

The soldiers at Camp McKinley experienced a most delightful surprise yesterday morning as they took their places at the long tables to the breakfast hall. At each table a neatly wrapped package, tied with white ribbon, greeted each soldier.

Each package contained beside the present a neat little card which bore a Christmas wish of good cheer to the recipient.

The name of the giver of these remembrances will not be made public at the present, but this does not lessen the appreciation of the many soldier boys who are far from home and dear friends and they extend their most heartfelt thanks to the giver.

## BOARD OF ARCHIVES

MEETS AND

## ADOPTS REGULATION

At the meeting of the Board of Archives held this evening the following resolution, offered by Commissioner Judd was adopted:

No books, document or paper of any nature or kind whatsoever, nor any relic or article now deposited among the archives of Hawaii shall be removed from the archives, including exhibits, signed by a Commissioner of Public Archives.

Mr. Judd stated in explanation of the resolution that there are many valuable documents and relics now in the archives building, and no chances should be taken of their being lost through carelessness or otherwise.

There were present at the meeting Chairman Jack Atkinson, Mr. Judd and Librarian Lydecker. The meeting was for the purpose of gathering up the loose odds and ends and getting things in shape for the regular work of the building, which is now being filled with the documents and relics for the housing of which it was built.

In view of the value of many of the papers and records, it was the opinion of the meeting that something ought to be done to preserve those that are needed from time to time in the courts as evidence. It was proposed that a bill should be introduced in the Legislature providing for the having made of certified copies of such papers, which shall be accepted as the originals. Many of the latter, besides being valuable, are old and in bad condition, and will not bear much handling. The measure will probably be presented at the coming session of the Legislature.

Mr. Atkinson suggested that there are many documents and papers in the possession of private individuals which would be valuable additions to the archives, and an opportunity should be lost of getting hold of them. In nearly all cases, he thought, the owners would be glad to have such things placed in the fire proof vault of the archive building. It was resolved that whenever any member of the commission heard of any such papers, a note of the fact should be made so that an effort might be made to get it.

Secretary Atkinson asked Librarian Lydecker to make a report to him at the end of the year, so that he could include in his own report to the Governor an estimate of the expense of running and maintaining the archive building during the next two years.

Mr. Lydecker reported that there is great need of a number of flat cases, which are needed for the filing of certain papers. The cases now installed are not suitable for all purposes. An estimate will also be submitted of the probable cost of getting such new cases as will be needed and of building the proposed mezzanine gallery.

## WILL DISCUSS PAN PACIFIC PROJECT

Governor Carter has called a meeting for this afternoon at 3:30 o'clock in his office of the joint committee from the Merchants Association and the Chamber of Commerce to discuss the proposed Pan-Pacific exposition.

Notwithstanding the efforts of some knockers to discredit the proposition, there is no disposition on the part of those who are most interested in it to let the matter drop. But it is evident that something is needed besides talk and an effort is to be made to put the proposition on a substantial footing and get to work on it as soon as possible.

Those who have had anything to do with expositions know that there is an immense amount of work connected with them, and the sooner plans are made and work begun, the better for the success of the exposition and the consular meeting, which is proposed to be held in conjunction with it.

It is hardly probable that any definite plans will be presented at the meeting this afternoon, but the matter will probably be more fully discussed and preliminary steps may be taken toward getting the project into working order.

The Radhi Christian Sunday school will give a Christmas entertainment at the Chapel, corner of Ulrich and Beckley streets at 7:30 tonight. All members and friends of the school are invited.

**STATE PRESS AGENT.**

"The trusts have their official press agents now," said Governor Hoch of Kansas, "and in my opinion the great State of Kansas should do equally as well."—Associated Press Dispatch.

Governor Hoch in looking after the interests of Kansas has made a proposition which can be fully understood by the progressive people of the Territory of Hawaii.

Thus far we have no war with the Trusts such as Koch is fighting, but we have a constant war with the misunderstanding and the misinformation that gains ground on the mainland regarding Hawaii.

Hoch intends to make a recommendation to the Legislature of his State that an appropriation be made to pay the expenses and salary of an official advertiser. Kansas newspapers are backing the plan and it promises success.

And why not? It is for the benefit of every citizen and taxpayer that a State or a Territory as well as a city be put before the country in a proper light.

This is in fact what the people of this Territory put their sign of approval upon when they placed a plank in the platform of each of the leading political parties of the Territory endorsing an appropriation for Promotion Committee work.

Hawaii already has its publicity bureau and its beginning has been such a success that it may properly be placed on the list of Territorial institutions. The benefit is shared by the whole commonwealth. It is an improvement on what Kansas proposes on account of its members serving without pay and the chief expense is centered on the absolute necessities of management and publicity.

Ours is a big country and the people of each community do not get far afield in their knowledge of other communities unless their attention is especially called to what the "others" have to say. Hawaii has found it out and experience of this and every other place on the face of the globe is that

it pays to keep everlastingly at advertising.

In a measure Hawaii can claim to be among those setting the pace which Kansas now intends to strike. We have been at it several years although the support has not taken the broad Territorial character now contemplated by the people and which we presume will be carried out by the legislators.

If anyone is backward about the value of a publicity bureau which puts the Hawaiian brand of prosperity and climatic blessings before the reading public of the world and especially the mainland of the United States, it is worth while for him to recall that citizens of older communities and older States, like Kansas for instance, are finding that they cannot get about without it. Promotion, proper publicity and advertising are invaluable to a community that is not dead.

**MANUAL TRAINING PROGRAM.**

Manual training for the public schools, which received the endorsement of the Republican party in its Territorial platform, is one of the generally accepted necessities of the public school curriculum in the leading cities and towns of the mainland.

There are a hundred and one cities where the manual training department is kept to a very high standard and is doing a great work for the children who must earn their own living. We hear little of this but much of general municipal graft that goes on. Evil report travels with great speed. Good report is figured as so commonplace that there is no occasion to give it prominence.

Dr. James P. Haney, who supervises the art and manual training course in the public schools of New York City, gave an address before the Massachusetts Teachers' State Convention on the outlook for manual training. He lays special stress on the development of the industrial phases of the work. In this connection he said:

"Nature demands that the process of learning be in the little child an active and not a passive process. She demands a curriculum of activities. The arts—manual arts—drawing construction and design make an immediate response to this demand. These subjects were once laughed at as fads but business men, schoolmen and physicians have come to see that the child who is to be trained to skillful and intelligent manhood must be given opportunity to use his hands in various occupations.

"Such training has in it industrial possibilities of immense importance. The country's welfare depends in no small way upon the thorough organization of its constructive industries. Nine out of every ten boys who enter the elementary schools must later make their living with their hands.

"As an industrial people we must early gain the constructive point of view. The boy in the public school, as he becomes a youth, must see the world around him as a constructive world, and he should be made to see that part which it is his to play in such a world. He should know the constructive power which lies in his own fingers."

In conclusion Dr. Haney made a strong plea for more industrial schools. He said that the cry which one hears in every workshop and factory the country over was, "Give us skilled workmen." Industrial schools, he declared, were the only agencies which could satisfy this demand.

Respectfully submitted, H. P. WOOD, Secretary.

**RECORD TOURIST SEASON PREDICTED**

Wood Says Big Rush May Be Expected From Coast

Secretary H. P. Wood has prepared the following report, which he will submit to the Promotion Committee at its regular meeting this afternoon: Honolulu, December 27, 1906. Chairman and Members of the Hawaii Promotion Committee.

Dear Sirs:—The latest news from Southern California is to the effect that the rush of winter travel has already begun. Mr. J. J. Byrne, assistant passenger traffic manager of the Santa Fe, in a recent interview says: "The present volume of high class tourist travel to Los Angeles has never been equaled; the Eastern offices connected with his road also reporting a continued and larger number of inquiries than during any past season."

Other railroads report the same conditions. A letter from the Promotion Committee's agent at Los Angeles, dated December 14th, says: "Your estimate of tourist travel to Hawaii for the winter is very certain to be realized, at least from Southern California, as this office has hours of work per day granting interviews and assisting in securing reservations from date until as late as March 15th. For the Ventura, January 17th, we are already assured of thirty passengers from Southern California."

The Western Tours Company, Mrs. Weathered's agency, also has a special representative in this field, a former teacher in the Los Angeles High School, who will spend the next three months in Southern California endeavoring to work up travel to Hawaii.

We should soon hear from the Edison Company with reference to the moving pictures of Hawaiian scenes taken by Mr. Bonine and can then select a few of the best to be reproduced in the daily lecture on Hawaii. We are arranging to give in the rooms of the Los Angeles Chamber of Commerce. This feature of our work in Los Angeles will be well advertised and will undoubtedly bring good results.

Mr. Frank N. McCandless writes from Tacoma, Washington, under date of December 14th: "A number of people have been in to see me in regard to a trip to the islands, but I have not the time to do justice to the matter. Now if you could have some one up here for a month to go over the State you could have 250 people going there the very first boat out."

Mr. McCandless probably refers to the proposed Seattle-Tacoma excursion, which is being handled by the Seattle Chamber of Commerce. There is no doubt as to the interest being taken in Hawaii all along the Pacific Coast. The excursions planned and worked up by the Promotion Committee will certainly be brought about if steamers can be secured.

The certificates awarded the prize winners in the recent photographic contest have all been sent out and the selection of photographs to be exhibited on the other islands will be forwarded without further delay.

The exhibit of work by the children of our public schools is being put in place by the special committee of teachers having the matter in charge and cannot fail to attract general attention.

Respectfully submitted, H. P. WOOD, Secretary.

**NO RELIEF FROM MOSQUITO HORDES**

Countless Swarms Are Result Of Recent Rains

Mosquitoes are becoming an almost unendurable pest in some parts of Honolulu since the rains. No part of the city is entirely free from them, but in Waikiki, especially along the beach, they swarm in thick clouds. The only refuge from them is to go to bed under a net.

Those who have lived here many years claim that they never before knew them to be so bad. Nothing seems to bother the little pests, which seem to get a peculiar delight from the squirmings of their victims.

President Pinkham of the Board of Health says nothing can be done to relieve the situation. His force has all the work it can do now, and there are no funds for increasing the mosquito-fighting brigade. Oil has been spread around over some of the breeding places, but there are so many of them that it is impossible to look after all.

The only way to get rid of the mosquito pest permanently, President Pinkham thinks, is to put into execution the reclamation plan proposed some time ago, by means of which some of the numerous duck ponds and swamps out toward Waikiki will be done away with.

Nothing is being said about this matter at present, but it is probable that it will be presented to the Legislature at the coming session and that body will be asked to take some action in the matter. President Pinkham, however, does not care to discuss the proposition at present. It has already been pretty thoroughly exploited, and it is now up to the Legislature to do something.

Those who are suffering from the irritating bites of the countless myriads of mosquitoes will hope that the matter may be brought to the attention of the Legislature and some action taken.

NO MORE DANDRUFF.  
Newbro's Herpicide Destroys the Pesticiferous Cause of Annoying Dandruff.

Does your head itch? Is your coat or dress full of white flakes after dressing your hair? That's the effect of dandruff. Is your hair thinning? Are you beginning to get bald in spots? Are you already, in fact, rapidly becoming bald? If so, that is the effect of a mossy little parasite that burrows in at the root of the hair, and throws up the scalp in dandruff and eats of the hair at the root. Science's latest discovery is a destroyer of that pestiferous germ. -out destroyer is contained in no other hair preparation on earth but Newbro's Herpicide. Try it, and be convinced. A delightful dressing. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Hollister Drug Co., special agents.

## KOLOA DISTRICT SWEEP BY GALE

Lihue, Kauai, Dec. 24.—On Thursday evening the Koloa district was swept by a tremendous gale which continued all through the night and the greater part of Friday morning with unabated fury.

The Kukuila fishing fleet, seeing their danger of being swamped, made for the harbor late in the evening, but owing to the fury of the wind sailing was out of the question, and the skiffs had to be relied on; consequently it was well beyond the wee sma' oar before the landing was reached.

One fisherman, owner of one of the largest boats, finding he could do nothing against wind and weather, had anchored off Koloa about 8 in the evening to wait for daylight and the falling of wind.

About 5 o'clock in the morning Mr. Jaeger was awakened by a Jap from the fisherman's camp and asked to go to the rescue of the belated fisherman, and he with Mr. Boyle and three Japanese soon manned the gasoline launch. With awning covers well lashed down, the "Marion" ploughed through the whitecaps and quickly rescued the anchored fishing boat.

A few unsuccessful attempts were made to get a towline to the launch for owing to the heavy seas running it was impossible to get close aboard.

Two Japs of the launch solved this difficulty by swimming to the fishing craft, and with the rescue towing he hnd the "Marion" soon made the harbor.

Mr. Jaeger's gasoline launch has been a boon and a blessing to the Japanese fishermen of Kukuila, this not being the first time he has rendered timely assistance. — Garden Island.

## CHRISTMAS JOYS AT WAIMEA SCHOOL

Waimoa, Kauai, Dec. 25.—The Sunday schools of Waimoa held the usual Christmas exercises in Waimoa hall last Saturday and as usual the attendance was as large as the capacity of the building would admit.

The children from the Foreign, Hawaiian and Chinese Sunday schools were all clever little people and said their pieces and sang their songs very creditably. The following were the items of the program:

Song—"Joy to the World"..... Hawaiian and Foreign Sunday Schools  
Recitation—"Glad Christmas Time Has Come"..... Tin Kau  
Recitation—"The Old Story".....

..... Oheo Oyama  
Song..... By Chinese Children  
Recitation—"The Blessed Story".....

..... Willie Wright  
Recitation—"Sing a Song of Christmas"..... Ah Kong  
Song—"Tidings".....

Recitation—"Miss Bahnam's Class Recitation—"Santa Claus Coming".....

..... A. Matsuda  
Recitation—"Candle Light".....  
..... By Three Little Girls  
Songs—"The Gospel Bells"..... Hawaiian and Foreign Sunday Schools  
Recitation—"A Christmas Song".....

..... M. Malama  
Recitation—"Miss Bahnam's Class Recitation—"Day Before Christmas".....

..... Aloehawai  
Song—"Glory to God the Father"..... Hawaiian and Foreign Sunday Schools  
Recitation—"Two Little Stockings".....

Recitation—"Dolly You are Tired".....  
..... Ellen Pah On  
Song..... By Little Chinese Children  
Recitation—"Mrs. Santa Claus".....

..... Angela Wright  
Song—"Aloha Dear Friends"..... Hawaiian and Foreign Sunday Schools  
The children of Waimoa schools have not forgotten their former principal, W. I. Wells, for whom they had a great aloha. As a proof of that they still think of him and sent him a Christmas present in the form of a watch, the cost of which they had raised. Coming as it does on initiative of the children themselves it will no doubt be highly appreciated by Mr. Wells.

## Another Dance

Think now about spending the year-end pleasantly. The last dance at HALEIWA was such a success that the management has decided to repeat it on the 20th of this month. He has arranged with the Kaai Orchestra to play at a concert and dance on that date and to have music all day Sunday. On that day there will be a golf and tennis tournament at which, it is expected, a large crowd will be present. You may write the manager, ST. CLAIR BIDGOOD, for accommodations.

## MIKADO'S MEN TO SOME DAY OWN ISLANDS

The Portland Evening Telegram of Dec. 12 prints the following:

That it is the boast of many of the little brown men, subjects of the Mikado, that Japan will some day exercise sovereignty over the Hawaiian Islands is the statement of D. W. Marsh of Hilo, who is in Portland arranging for a pleasure excursion to Uncle Sam's Pacific possessions.

Mr. Marsh asserts that while scores and hundreds of Japanese who took part in the war with Russia are coming to the islands, thousands of those formerly employed on the sugar plantations have flocked to California and are scattering along the Coast. The vast pilgrimage, he says, continues ceaselessly.

In fact, he declares, the emigration of Japanese from Hawaii has gone on to such an extent that the scarcity of cheap labor comprises the most difficult industrial problem with which planters on the islands have to deal.

For a long time Mr. Marsh was editor and proprietor of the Hilo Tribune. Recently he assumed the management of excursions to Hawaii. He is a member of Hilo Lodge, No. 759, B. P. O. E. His plan is to form a party of ten or more persons for an excursion to the islands in January, the intention being to occupy about five weeks on a comparatively leisurely tour of the Hawaiian group, covering a larger field than the ordinary junket. Two members of the party are expected from Seattle. The remainder, he thinks, will be secured in Portland.

"Japanese emigration from Hawaii, particularly to California, creates a big labor problem," said Mr. Marsh. "Several large plantations are short of men. Every steamer carries between 400 and 500 Japanese to the Coast, so that several thousand are arriving in the United States every month. Most of these spent some time in Hawaii, others only a brief period.

"As a common proposition the rumors of war between Japan and America have been treated as a joke in the islands, though street talk among the laboring classes recently has been that Japan will some day own the islands. These fellows are getting very important in their own estimation, and are butting into all kinds of business.

"Many veterans are on the islands and more are continually arriving. Many of these are inclined to be insolent.

"Hawaii is solely a sugar country. Other industries are in the experimental stage. The land laws are very poor, and there is nothing to attract small settlers. Almost all the arable land is in the hands of corporations, who control it on lengthy leases from the Government. Much land will revert to the Government in the next few years. Then will come an era of prosperity for the small settler."

## Legal Notices. UNITED STATES OF AMERICA.

**IN THE DISTRICT COURT OF THE UNITED STATES FOR THE TERRITORY OF HAWAII.**

Whereas, A libel was filed in the District Court of the United States for the Territory of Hawaii on the 19th day of December, A. D. 1906, by George Johnson, Harry Carlson, John Krastin, H. S. Silas, Fritz Weil, Michael Casey, Karl Pedersen, Harlo Lyke, libellants, versus the ship W. F. Babcock, her tackle, apparel, furniture, engines, boilers, machinery, boats, appurtenances, cargo and freight money, and against all persons intervening for their interests therein, libellee, in a cause of damages, civil and maritime, to recover the sum of \$45,000, as by said libel, reference being hereby made thereto, will more fully and at large appear.

Now, Therefore, In pursuance of the monition and under the seal of the court to me directed and delivered, I do hereby give public notice to all persons claiming the said ship W. F. Babcock, her tackle, apparel, furniture, engines, boilers, machinery, boats, appurtenances, cargo and freight money, etc., or in any manner interested therein, that they be and appear before the said District Court, to be held in the City of Honolulu, on Friday, the 28th day of December, A. D. 1906, at ten o'clock in the forenoon of that day, provided the same shall be a day of jurisdiction; otherwise on the next day of jurisdiction thereafter, there and then to interpose their claims and make their allegations in that behalf, otherwise default and condemnation will be ordered.

Dated the 19th day of December, A. D. 1906.

## Legal Notices. UNITED STATES OF AMERICA.

**IN THE DISTRICT COURT OF THE UNITED STATES FOR THE TERRITORY OF HAWAII.**

Whereas, A libel was filed in the District Court of the United States for the Territory of Hawaii on the 17th day of December, A. D. 1906, by Chas. May J. Gundersen, H. Halvorsen and H. C. de Vissser, libellants, versus the ship W. F. Babcock, her tackle, apparel, furniture, engines, boilers, machinery, boats, appurtenances, cargo and freight money, and against all persons intervening for their interests therein, libellee, in a cause of damages, civil and maritime, to recover the sum of \$20,000, as by said libel, reference being hereby made thereto, will more fully and at large appear.

Now, Therefore, In pursuance of the monition and under the seal of the court to me directed and delivered, I do hereby give public notice to all persons claiming the said ship W. F. Babcock, her tackle, apparel, furniture, engines, boilers, machinery, boats, appurtenances, cargo and freight money, etc., or in any manner interested therein, that they be and appear before the said District Court, to be held in the City of Honolulu, on Friday, the 15th day of December, A. D. 1906, at ten o'clock in the forenoon of that day, provided the same shall be a day of jurisdiction; otherwise on the next day of jurisdiction thereafter, there and then to interpose their claims and make their allegations in that behalf, otherwise default and condemnation will be ordered.

Dated the 17th day of December, A. D. 1906.

E. R. HENDRY,  
U. S. Marshal.  
Geo. D. Gear and J. J. Dunne proctors for libellants.

CAPT. SEABURY PASSES AWAY

A late telegram brings the news of the death of Captain W. B. Seabury. Captain Seabury has been connected with the Pacific Mail Steamship Company for about thirty years and by his frequent comings and goings to and from this port as master of Pacific Mail steamers he has made himself popular and endeared himself generally to the people of Honolulu. For a number of years Captain Seabury was in command of the S. S. China. He was relieved from that duty in 1901 for the purpose of bringing the S. S. Korea from Newport News to San Francisco via Cape Horn. He was to be in command of the S. S. Mongolia, which arrived this morning from San Francisco, and many expressions of kindness and regret were heard on all sides when it was learned that the old-time master had passed away.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day. For \$1 a year.
