SHORT CABLEGRAMS.

Paris, Oct. 4.—Anti-clerical riots are reported in Brittany.

Rome, October 3.—Fifteen silver chalices are missing from St. Peters.

San Francisco, Oct. 4.—Engene Deuprey, one of the best known lawyers in San Francisco, died here today.

Marionette, Mich., Oct. 4.—The steamer Hackley capsized in today's storms. Eleven were drowned. Nine were saved.

Princeton, Ill., Oct. 4.—A tornado which destroyed much property here today, killed three people. Others were injured.

Taku, October 3.—The United States sidewheel gunboat Monocacy has been sold to a Japanese merchant for \$11,000.

Butte, Montana, Oct. 5.—General William Passmore Carlin, a retired officer of the United States Army, died here today.

Sofia, Oct. 5.—Serious fighting is reported between the Turks and Bulgarians in Demirkajria with heavy losses to both sides.

Shanghai, Oct. 4.—China has refused the request of France to be allowed to station troops in Mingkiang. Trouble may result.

Toronto, October 3.—Stern has been ordered extradited to the United States where he is wanted in connection with the postal frauds.

Salonica, Oct. 5.—Twenty Turkish villages were burned in the Razlog district after a battle in which two thousand Turks were slaughtered.

Waupaca, Wisconsin, Oct. 4.—Five were killed in a cyclone that swept through this part of Wisconsin today. The property loss has not been estimated.

Vienna, Austria, Oct. 3.—The Secretary of the Austrian Ambassador to the United States gave out an interview today in which he states that there is no fear of war.

New York, Oct. 3.—F. L. Crosby, an ex-convict, has been arrested at Denver for stealing a mail pouch at Philadelphia on September 8, containing negotiable paper valued at \$500,000.

Sofia, Oct. 3.—Five engagements have taken place near Kratovo in which 5000 Turks routed the insurgent forces. Six thousand Turkish troops were routed in the Perin mountains.

Constantinople, Oct. 3.—There has been desperate fighting at Lovcovo on the Servian frontier, the insurgents using bombs. Lovcovo is in flames. The Turks have lost 300 men including several officers.

Vienna, Oct. 5.—At the close of the conference between the Czar of Russia and the Emperor of Austria, a joint note was issued in which the two monarchs pledged the strength of their countries in attempting to secure Macedonian reforms.

London, England, Oct. 3.—Hon. Joseph Chamberlain has issued a manifesto dealing with the issues before the British public which brought about his resignation as Secretary for the Colonies. Chamberlain deals with his subject in a masterly and convincing manner. He flat-footedly opposes a continuation of the British free trade policy and makes a strong plea for closer commercial union between the British Government and its colonies.

BONDS TAKEN.

Treasurer Shaw Takes Them as Security.

Washington, Oct. 3.
"Kepoikai, Honolulu:
"Treasurer decides to accept this issue of bonds up to ninety, as security for Government deposits and as substitute for Government bonds to increase circulation. Trust Hawaii appreciates the administration's extraordinary favor. Leave for New York.
"CARTER."
The above cablegram was received by Treasurer Kepoikai from Secretary Carter shortly after 10 o'clock this morning. The Treasurer immediately took the message to the Governor, who was hearing the Kohala ditch matter in the executive chamber.
Later the Treasurer framed the following reply:
"Honolulu, Oct. 3.
"Carter, New York:
"We appreciate the administration's extraordinary favor and congratulate you on your success.
"KEPOIKAI."
The Governor, being busily engaged in the Kohala matter when the cable was received, made no comment thereon, passing the message to Superintendent of Public Works Cooper.
This cablegram from Secretary Carter undoubtedly records the very satisfactory result of correspondence that has been going on between the Secretary of the Treasury and Cashier Cooper of the First National Bank.

Delmar's Fast Mile.
New York, September 25.—The big event today at the Empire City track was the effort of the champion gelding, Major Delmar, to beat his own record of 2:00 1/4 and beat the world's record of 2:00, held by Lou Dillon. He trotted a most wonderful mile, and in a game but tiring finish shot under the wire in the record time.
After a preliminary warming up the gelding champion came out for his great trial at 4:30 o'clock. He went round the first turn, broke and came back. At the second attempt he went away as steady as a clock, and, though a slow beginner, got to the quarter in 0:30 1/4. Up the back stretch he shot with such lightning rapidity that he flashed by the half-mile pole in 0:59. The grand stand arose and cheered as the gallant son of Delmar flew round the top turn to the three-quarter pole in 1:29 and came home to the wire in 2:00, thus equaling the time of Lou Dillon. It was a splendid performance by the animal which only this week changed owners at the highest price—\$40,000—ever paid for a gelding. Major Delmar is a New York animal, bred, foaled, trained and owned in the Empire State, but Delmar, his sire, was imported from California.
Two running horses, hitched to sulks, were provided for pace-makers. The sulky equipped with the wind shield was driven by George R. Shears, the regular trainer for E. E. Smathers, Major Delmar's owner.

Washington, Oct. 3.—Rear Admiral Kempff will retire October 11.

London, Oct. 5.—The Russian and Japanese negotiations regarding the situation are proceeding favorably.

Los Angeles, Oct. 5.—In a train collision in the Chatswood Park Tunnel four persons were killed and eighteen injured. In a freight wreck at Lang one person was killed and one seriously injured.

Washington, October 5.—Peter Elliott, the man who made such strenuous efforts to see President Roosevelt today and who caused the fight in which the guards were injured, has been sent to the Insane Asylum.

ANOTHER MANDAMUS.

Registration Matter is Considered in the Supreme Court.

Honolulu, Oct. 6.—Chief Justice Frear, Associate Galbraith and Circuit Judge De Bolt were the members of the Supreme Court sitting this morning in the case of George H. Fairchild against the Kauai Board of Registration, a mandamus proceeding to compel the board to register Fairchild as a voter for the coming county election. Fairchild was represented by Attorney Prosser of Kauai and R. W. Breckons, while J. D. Willard of Kauai and Attorney General Andrews appeared for the board.

Breckons had the pleasure of appearing for himself as well as his client, for he told the court that he was in the same class as Fairchild. "I have lived here nearly two years," he said "and am no longer a citizen of Wyoming, and if I cannot be allowed to register and participate as a voter in this coming election, it is certainly a hardship and an injustice." Breckons claims that the court should avoid a situation if it can be done without violation of the law.

In the course of his argument Andrews stated that there was not time for making new lists of registration, and that a decision to the effect that they are required would defeat the whole county act as far as the election was concerned. He contended that the law required registration as a qualification for voting and that the statutes did not provide for meetings of the boards of registration at this time for the special election.

The question of whether registration is a qualification of an elector or a mere election regulation was principally discussed by Breckons before the noon adjournment. It was declared to be of great importance as containing possibilities of another mandamus proceedings in the event of the present writ being denied. Fairchild is a nominee for office, and the law says that only "qualified electors" may be candidates. If he is not allowed to register the question will arise whether a man can be a qualified voter without being registered, and Breckons said that if the court didn't cover this question in its forthcoming opinion there would have to be another mandamus to get Fairchild's name on the official ballot.

Tokio, Japan, Oct. 5.—An immediate crisis in Korea is not expected at the present time.

Washington, D. C., Oct. 3.—Secretary of the Treasury Shaw today informed Secretary George R. Carter that he would accept bonds of the Hawaiian loan of \$1,229,000 as security for national bank deposits and circulation up to 90 per cent. of their face value. This places the Hawaiian bonds on the same basis as United States bonds.

SHORT CABLEGRAMS.

Iquique, Chile, Sept. 30.—The Province of Iquique has been declared free from plague, the usual period having elapsed since the last case reported.

Constantinople, Turkey, Sept. 30.—War rumors were again set in motion today by the call for 50,000 recruits to the army issued by the Ottoman Government.

St. Paul, Minn., Sept. 29.—C. S. Mellen, president of the Northern Pacific Railroad, has resigned his position to accept the presidency of the New York, New Haven & Hartford.

Budapest, Hungary, Sept. 30.—A riot of striking van drivers occurred here today. Police officials in quelling the mob used firearms with warlike freedom. Seventy of the strikers were injured.

San Francisco, Cal., Sept. 29.—Edward Delabrousse in a fit of jealous rage shot and killed Marie Jordan. After shooting the subject of his affections, Delabrousse put a bullet in his own head. He will probably die.

Ventura, Cal., Sept. 30.—The oil steamer Whittier with the barkentine Fullerton and barge Santa Paula in tow left port today with oil for Honolulu. The oil ships will go to San Francisco before departure for the islands.

Vienna, Austria, Sept. 30.—The first meeting of Czar Nicholas with Emperor Francisco Joseph took place here today. The conference will result in a positive decision on the attitude of Austria and Russia in the Balkans trouble.

Tientsin, China, Sept. 30.—The Province of Petang, which has been suffering from an epidemic of plague, has been isolated by the authorities. The people are dying by hundreds, the conditions in which they live making it almost impossible to check the progress of the disease.

Birgas, Bulgaria, Sept. 29.—The Turkish forces are gradually withdrawing from the Bulgarian border. Three points recently occupied by the Turks on the frontier have been evacuated and it is anticipated that the army will be withdrawn from other posts as the program for peace in the Balkans is developed.

New York, Sept. 29.—The brokerage firm of Taylor & Mandewell, doing business on the Stock Exchange, suspended operations this morning. The announcement of this failure caused a small panic among the brokers, but the failure is believed to be due to dealings in heavily watered stocks recently brought to a bed-rock basis.

McClellan for Mayor.

New York, Oct. 2.—Tammany has nominated George B. McClellan for Mayor and E. M. Grout for comptroller.

George B. McClellan son of General George B. McClellan, Democratic nominee for President in 1864, is but thirty-eight years old, but has made great strides in politics. He was at one time a member of the New York Board of Aldermen and since 1895 has been a member of Congress. Lewis Nixon announced himself as a candidate for the Democratic nominee for Mayor of New York a week ago but the statement of the one time leader of Tammany Hall that he could not remain at the head of the powerful Democratic machine and keep his self respect was the cause of his defeat in the convention. McClellan has done considerable work on New York newspapers.

Edward M. Grout is a New York lawyer and is known as a "municipal ownership" man and a strong opponent of corporations asking for franchises for which they make no adequate payment to the municipality.

Philippine Lands.

Rome, Oct. 2.—Negotiations in regard to Philippine lands between the United States and the Vatican have been called off and Monsignor Guido, who has them in charge, will return here. The negotiations will then be resumed directly between Rome and Washington.

VOTE AT POHOIKI.

Polling Place Changed From Kalapana by Governor.

Honolulu, H. T., October 2.—It now turns out that Republicans who wrote from Hilo asking for a change of the voting place in Puna from Kalapana to Pohoiki, were not aware of the action taken by Governor Dole some three weeks ago. Requests that there be a change made came in at that time from Senator Kalauokalani, Representative James D. Lewis, P. Peck and others and the Governor immediately had the polling place changed as requested.

Other minor changes in polling places were also made. In Hilo, the change was made from the old waterfront location to the Davies store. In the Fifth District on this island the Seventh Precinct voting place was changed from the Reform School to a place at or near the fire station.

Electoral Registrar Buckland has a request to make of candidates in the various counties in the matter of filing their nomination papers. "Not less than" twenty-five names must be attached to each paper. It is possible that there may be some disputes, particularly as the limit of time when nomination papers can be filed draws near, over names that have been attached. It is also possible that it may be decided to throw out the names of some of these signatories so that there will remain less than twenty-five, which would throw out of the list the candidate or candidates concerned unless sufficient names to fill the gap should happen to be filed in time. It is therefore the advice of the Electoral Registrar that enough names be secured by each candidate to preclude the possibility of any such trouble as has been suggested.

Ambassador Herbert Dead.

Davosplatz, Switzerland, Sept. 30.—Hon. Michael H. Herbert, British Ambassador to the United States, died here today after a short illness.

Ambassador Herbert was considered one of the most promising figures in the British diplomatic service. When appointed to the Washington post last year to succeed Lord Pauncefoot, Herbert was secretary of the British Embassy at Paris. He had also done creditable service at the British legations at The Hague and Rome.

Herbert in 1888 married Miss Leila Wilson, daughter of Richard T. Wilson, the New York banker. His wife and two children survive him.

Honolulu's Big Fire.

Honolulu, Oct. 2.—Fire broke out in the two story building at the Ewa-makai corner of Richard and Queen streets at 2 o'clock this morning. The building was occupied on the ground floor by Japanese and Chinese as stores of various kinds, while many people lived in the upper story. Three alarms were sent in. The building and contents were nearly all destroyed. The fire department prevented the flames spreading to surrounding wooden structures.

Amalgamation Scheme.

Honolulu, Sept. 29.—At a joint meeting of Paia and Haiku plantation stockholders held yesterday afternoon it was decided to refer the whole amalgamation matter to a committee of three to make the trip to Maui, look into the properties concerned and report at a meeting to be held later. The committee will go up next week.

BABY'S COUGH MUST NEVER LINGER.—Nothing is more distressing than to see a helpless little infant suffering with a cough, and to be fearful of using a remedy which may contain some harmful ingredient. The makers of Chamberlain's Cough Remedy positively guarantee that this preparation does not contain opium in any form, or any other harmful substance. Mothers may confidently give this remedy to their little ones. It gives prompt relief and is perfectly safe. It always cures and cures quickly. The Hilo Drug Co. sells it.

THE GERR TO DOLE

Warm Words Over Action on Kohala Ditch

Honolulu, Oct. 2.—Arthur C. Gehr, in an open letter to Governor Dole regarding the Kohala ditch matter, in which he claims that the Governor has in effect broken faith with him after he had secured a reversal of the Ryan opinion regarding the power of the Territory over its public lands, concludes thus:

"I now demand that you keep your promise and faith. Do you refuse because the Bishop estate tells you so to do?"

"You now seek to cut from the operation of the license a large part of the water from the government lands. Why?"

"That it may continue to flow into Waipio and Honokane valleys to the lands of the Bishop estates, of one of which you are trustee, and under their agreements with the Hawaii Ditch Company give to the Bishop estate largely increased revenue, and by so much cut down the revenues of the government? Will you attempt to decide other material questions offhand, one of which I have called to your attention, which has been and is the cause of much thought to very able counsel, and in the States has been construed in so many ways that it will be most difficult to determine what the law is in Hawaii with the peculiar conditions which attach, with some of which you have had experience."

"Your suggestion to meet the question regarding the rights which might accrue to the Hawaii Ditch Company and the Bishop estate from beneficial appropriations of the water from government lands which are not included in the proposed license is so palpably inefficient that I must conclude that you have been too busy to give the matter sufficient consideration."

"You say that conditions have changed, and so you must act differently from the plan of September, 1901. So far as Parker is concerned there has been no change, for he gave you notice of his attempted breaking of his agreement on September 30, 1901. I had my talks with you on October 2 and 3, 1901, and foolishly acted upon them, as what was said was not in writing."

"Yes, there has been a change of conditions, but only in this: That in place of the opinion of Mr. Ryan that the Territory had no power in the matter, you now have the opinion of the Secretary of the Interior, and of his advisor, Judge Van Devanter, reversing the Ryan opinion and holding that the Territory has full power in the premises, and this change has taken place solely through my efforts and at my expense. Yes, conditions have changed, and the plantation interests which were threatened by the Ryan decision are now serenely calm, and the conditions desired in September, 1901, by one of the prominent business men of Honolulu bids fair to be realized, through your influence and assistance, unless some fool has the nerve to fight. His opinion and that of others was expressed when he said: 'Sam, we don't want to fight you, but we must keep these outsiders out.'"

"And now you want tourists and investors from the States?"

"Yes, if they will take 5 per cent and you the other 95 per cent after the unsuspecting mahini has taken all the risk and spent his money."

"For the laudable purpose of protecting the interests of the Territory from spoliation you now require an auction sale. That sounds well, and might have weight but for the fact that there have been times when you have granted valuable rights without auction sale and without requiring the recipients of your favor to spend years in fighting."

"You say that you are called upon to follow the instructions of the Secretary of the Interior. The Secretary did not instruct you to auction this right, and in your letter to him you failed to recite any of the conditions attaching to this matter."

"With the Bishop estate under contract with the Hawaii Ditch Company, the president of which is now John Hind, you know that the auction sale will be a farce and a travesty of justice."

"Do you take this means to relieve you, as you may think, from the responsibility under which you now rest?"

ANOTHER NEW PEST.

Maui Has a Weed Which is as Bad as Lantana.

Honolulu, Oct. 2.—A new pest said to be even more destructive than the lantana is frightening the stockmen of Hawaii, and they have called upon the Board of Agriculture for aid in eradicating the noxious weed. The pest is most prevalent on Maui and steps will be taken to prevent its spread to the other islands. The native name for the pest is "pamakani" and the curious thing about the weed is that it grows best just upon the upper levels where the lantana ceases to flourish.

Secretary Cooper of the Board of Agriculture has received a letter from the Live Stock Association asking for government aid in getting rid of the weed. The letter from A. F. Judd was read at the meeting of the Agricultural Board on Wednesday, and in it he requested also the help of the government entomologist in finding some remedy for the horn fly which is bothering stock very much at present. It was stated in the letter that the horn flies, in some instances, caused large sores on cattle, and generally they were injurious to stock. A request was made that Professor Koebele be instructed to search for enemies of the fly.

A further request was made that the entomologists be asked to search for an insect parasite which preys upon noxious weeds found upon Maui. It was stated that the weed grew luxuriantly on Maui, and that there was danger that it might spread to other islands. Mr. Judd asked that the board send out a warning against allowing it to get a foothold in other places, as eventually it might choke off all other vegetation.

L. A. Thurston stated that he had been asked by a leading stockman to present the matter to the board. This new pest, he said, grows wild on Maui, and is particularly luxuriant on the slopes of Haleakala. It is particularly destructive to vegetation on the upper levels—as much so as lantana. The weed grows from three to six feet high and has a broad level leaf, with a small flower. It grows so densely that the strongest bullock cannot force its way through the heavy growth. A curious fact in connection with the pest is that it grows just above the lantana. The lantana growth ends generally at the 3,000 foot level, and the new weed starts within a few hundred feet from that level, and grows to a height of seven or eight feet.

It was stated that the same blight which attacks the lantana is also destructive to the new pest, but this statement was disputed. Mr. Thurston states that the native name for the new weed is "pamakani".

The matter of the new pest was generally discussed, the final decision being that steps should be taken to prevent it from getting a foothold on any of the other islands. It was decided also to instruct Professor Perkins and Professor Koebele to find, if possible, a blight for the new pest and also a parasite for the horn fly.

The cattlemen are very much alarmed over both pests and are themselves taking every possible precaution to prevent their spread and to find some antidote to choke both the fly and the weed.

Interlocutory Divorce Decree.

San Francisco, Oct. 3.—The Supreme Court of California handed down a decision today sustaining the interlocutory decree in divorce proceedings.

The California Legislature enacted a law requiring that decrees of divorce should not be final until one year after the rendering of an interlocutory decree. The law was contested and taken to the Supreme Court, which sustains the legality of the enactment.

Port of Spain, Trinidad, Oct. 5.—Emissaries sent by President Castro of Venezuela have arrived at Ciudad Bolivar with orders to collect by forcible means if necessary the customs duties, amounting to a million dollars, part of which has already been paid by the foreign merchants to the revolutionists.

MOKUAWEOWEO.

The outbreak of Mokuaweoweo is the chief topic of interest on the Island of Hawaii. The telephones are kept busy by inquirers anxious to have the latest and best news. The crater from which the lava is flowing is fifty miles from Hilo and difficult of access.

THE Hilo Republicans are now off on the right foot. Time has been lost by reason of the ill-founded fear that the campaign could not be conducted properly unless such and such persons were placed just so and so in the line up for battle.

THE telegram from Honolulu setting at rest all doubts as to the qualifications of Mr. Lambert as a candidate straightens out a matter that threatened embarrassment for the Republican ticket.

THE acceptance of the entire issue of Hawaiian bonds by Treasurer Shaw upon a basis making them equivalent to United States bonds should dissipate any fear that the issue may have to sell below par.

Axtell Wins Suit.

Honolulu, Oct. 2.—In J. C. Axtell vs. H. E. Hendrick, malicious prosecution, before Judge Robertson, the jury this forenoon returned a verdict for plaintiff in \$5,000 damages; Biting for plaintiff, Fitch for defendant.

Hendrick, proprietor of the Honolulu Iron Fence & Monument Company, prosecuted Axtell in the Police Court, charging him with embezzlement. The case was dismissed and Axtell brought suit for malicious prosecution with the result above noted.

Axtell, when accused by Hendrick, had been in Hendrick's employ and there was a dispute ever a matter of some \$200 collected, Hendrick claiming that Axtell had appropriated the amount to his himself.

MOKUAWEWEWO ACTIVE.

Lava River Flowing Toward South Kona.

Mokuawewe, the slumbering crater on Mauna Loa forty five miles from Hilo has become wide awake. The awakening came at 12:45 p. m. Tuesday last. Great volumes of smoke arose from the higher summit of Mauna Loa and observers knew that the expected had happened. Tuesday night the reflected glare from the clouds above Mokuawewe was seen as far as Iahina and Molokai. The people on the leeward side of this island were witnesses of a magnificent play of the fire lights shooting upward from the crater, and telling of the boiling rivers that were seeking an outlet. Two Hawaiians employed on a dairy high up on the other side, reported Wednesday morning that the lava had broken over the rim and was rolling down in six streams toward Kahuku ranch. After some time these six streams merged into one. Thursday morning, Manager Bidgood of the Volcano House reported that during the night before, the illumination above the big mountain was a splendid spectacle. The employees at Pahala plantation seem to have the superior point of view. Wednesday night they viewed the burning mountain top through long hours. Their report is that the flow is making its way along the main crest of Mauna Loa toward South Kona and that from their observation, they estimated the flow to have reached a length of from 12 to 15 miles. The progress of the flow as against the night before was plain. Sunday morning a party will leave Pahala to get a close view. A trail leads up the mountain from Pahala over which the trip can be made in fourteen or fifteen hours on horseback. The outbreak has caused great excitement but no apprehension and the general expressed hope is that the activity will continue all winter. When the flow of lava reaches lower and more accessible levels, large numbers of people will go over to the other side to see the show.

BLOODHOUNDS CHASE ROBBERS.

Robbers entered the servants' cottage on the premises of J. W. Mason on Wai-anueue street last Saturday night and stole a trunk containing money and valuable papers. The alarm was immediately given to the Sheriff and officers with bloodhounds put on the trail. The trunk was located near the rock crusher on the banks of the Wailuku river, where it had been abandoned by the robbers. The Sheriff was pleased with the performance of the bloodhounds, although they failed to locate the housebreakers, owing to the heavy rainfall.

LAMBERT QUALIFIED.

W. H. Lambert received a wireless telegram Wednesday evening from Honolulu stating that matters regarding registration had been adjusted and to send along his nomination papers. The inference from this telegram is that the Supreme Court has decided that registration books are to be opened this year. The only alternative inference would be that the Supreme Court has held that a failure to register does not disqualify a citizen from being a candidate for office.

TO VOLCANO HOUSE.

There will be an excursion to the Volcano Saturday leaving by the Hilo Railroad at 3 o'clock p. m. At Mountain View the Volcano Stables stage line will carry the passengers to the Volcano House. Excursionists will be returned to Hilo by 9:30 a. m. Monday morning. The entire round trip including meals and lodging at the Volcano House will be made at a cost of only \$10.

REPUBLICAN COMMITTEE.

Case of W. H. Lambert Discussed by Party Leaders. The Republican County Committee met last Saturday night at Republican headquarters and perfected an organization for carrying forward the work of the campaign. The officers elected were J. D. Lewis, Chairman; Dr. J. Holland, Vice Chairman; S. G. Walker, Secretary; Joe Pritchard, Treasurer. The Executive Committee is composed of Messrs. Chas. Swain, Albert Horner, Dr. J. Holland, Jim Morris and T. M. Rowland. The Executive Committee was also empowered to serve as finance committee. T. M. Rowland was appointed to look after the printing. Jim Morris was appointed as a hall committee. After organization the most serious question that arose was that of the qualification of Mr. W. H. Lambert, one of the Republican nominees for member of the County Board. Mr. Lambert is in exactly the same predicament as Mr. Fairchild on Kauai. He did not register last year. Pending the decision of the Fairchild case by the Supreme Court, the local committee decided to secure the proper signatures to the nominations of A. B. Lindsay of Honokaa. Should Lambert prove to be disqualified Mr. Lindsay's name will go on the ticket. Mr. Lindsay missed the nomination in the convention by only a very narrow margin. The County Act requires that a nominee for any County office in addition to other qualifications must be an elector of the District in which he resides. Last year Mr. Lambert was away at the Coast and could not register. This year the registration books are not open, therefore the difficulty. The Republican Headquarters have moved from the Peacock block to the room beneath the telephone office. The latter place has two rooms and affords greater privacy for executive sessions of committeemen and candidates.

REPUBLICAN MEETINGS.

An enthusiastic Republican meeting was held at Twelve Miles Wednesday night. The speakers were S. L. Desha, Captain Brown, George H. Williams and Jim Lewis. The speakers found many chances to enlighten the voters of that vicinity on matters which had been handled recklessly by the opposition. The crowd present filled the house and was enthusiastic for the Republican ticket. Tonight at Papaikou there will be a Republican meeting, at which a number of the Republican candidates will speak. Among them will be L. A. Andrews and S. L. Desha. Last night a meeting was held at Pepeekeo, where the following speakers dispensed Republican doctrine: S. L. Desha, Jim Lewis, George Williams and Captain Brown. The big Republican meeting of the week will be held at the Japanese Theater Saturday night at 7:30 o'clock. A full house is desired. Home Rulers, Republicans and Democrats are invited. The speakers of the evening will be W. H. Smith, C. A. Stobie, E. N. Holmes, Joe Vierra and L. A. Andrews. This meeting will be the first big cannon of the campaign. Let everybody come.

COTILLION DANCES.

A meeting of the Cotillion Club Executive Committee was held Wednesday evening and arrangements for the first club dance to be given tonight were completed. Those in charge will endeavor to make the opening ball a success in every way. A long list of new members were filed and action on these applications will be taken in the near future. Mr. Ross and Mrs. J. T. Lewis were added to the committee on refreshments. The committee decided to give the first german of the year in November on Thanksgiving evening. The german will be in charge of Mrs. Hayes and Mrs. Rice. These ladies with their assistants will make the Thanksgiving german one to be remembered.

ELKS BALL TEAM CHALLENGE.

F. M. Brooks, manager of the Elks' baseball team of Honolulu, writes that the Elks want to cross bats with a Hilo team. The Elks team will come by the Kinau, play ball Thursday and return Friday morning. P. C. Beamer believes he has a nine that can whip the visitors, and Mr. Wright of the Volcano Stables offers the use of Hoolulu Park on liberal terms. The Honolulu team will be accompanied by a small regiment of rooters. Half rates have been offered by Wilder's. The baseball men have the proposition under consideration.

TO THE CRATER.

Claude Bidgood left Hilo Thursday morning to get as near the crater of Mokuawewe as possible. He took a good mount at Mountain View and rode to Kau, there to take the trail to the summit of Mauna Loa. Mr. Bidgood intends to get back as soon as possible with full details of the volcanic action. He will also be able to tell others how best to get there.

AGRICULTURISTS MEET.

Jared Smith Makes Address to Hilo Farmers.

The meeting of the Hilo Agricultural Society last Saturday was the most interesting one held since the society was organized. The attendance was large and among those present was Jared Smith, Director of the U. S. Agricultural Experiment Station of Honolulu. The floor was given to Mr. Smith and his talk was full of interesting and valuable information. He first stated that the Federal Government through the Agricultural Department was determined to promote diversified agriculture in Hawaii in every possible way along the lines of greatest pecuniary benefit to Hawaii and her people. He is abundantly satisfied with the work done so far, and is encouraged with the prospect. Mr. Smith said he has formed a deep and abiding faith in Hawaii's future and believes that prosperity, equal to the fondest dreams of the optimist is in store for the people. When asked what products would best reward the champions of diversified agriculture, Mr. Smith said there are many. He said that the question of ability to produce could not be questioned as that had been demonstrated in many lines. He said the problem is that of a market for the stuff we can grow, and emphasized the necessity of growing staple products for export. Among these he mentioned tobacco with which he is experimenting on the Louissou coffee ranch in Hamakua. He stated that the experiment had not proceeded far enough to demonstrate the outcome, but that his department is hopeful of proving that tobacco can be profitably grown on Hawaii. He named manioc as another staple for which a good market is assured. Manioc starch is preferred by the manufacturers of textiles and paper for sizing purposes, and manioc starch commands a good margin over any of the mainland starches. Mr. Smith also mentioned the castor bean as a product of certain profit, even though not a bonanza crop. He recommended the growing of cabbage and beans for the local market, stating that 5000 tons of beans are imported annually. One of the natural products of the Islands is awa root. This commands a price of \$160 to \$200 per ton. The preparation for market consists of sun drying and packing in 40 pound bags. It is used in the drug trade and in the manufacture of proprietary medicines. Sisal was named as a product of promise and pineapples and bananas were discussed as sure things. Mr. Smith says the Hawaiian grown pineapple is superior to any other offered in the market and the only drawback is that not enough are offered. Mr. Smith named the pineapple and the banana as articles of agriculture which are beyond the experimental stage. The vanilla bean was mentioned as a crop, which while grown in Napoopo, is not as promising as others for this country. Mr. Smith complimented the members of the Agricultural Society and asked that papers read at its meetings be forwarded to him for publication in the Department bulletins.

SPICES

Many who read this advertisement have never seen any **PURE BLACK PEPPER**. In its pure state it is a most pleasing, fragrant, pungent condiment, but the article commonly sold—a little black pepper and a lot of roasted peanut shells, cannot appeal to any one. Our **PEPPER** comes in 15c, 25c, 40c and 75c tins, and it will be a lesson to you to try a tin of it and learn how little you have known of **BLACK PEPPER**.

In future advertisements we will speak of Red Pepper, White Pepper, English Mustard, Leaf Sage, Allspice, etc. In the meantime we want to show you the goods at our store.

No Strength

Are you easily tired? Is your work a burden? Do you often feel weak and faint? Is your appetite poor? Are you easily discouraged? Then your nerves are weak and your blood impure. Sickness is not far away.

Mr. Frederick DeVore, of Claremont, Cape Colony, South Africa, sends his photograph and this letter:

"My blood often became impure, causing eruptions on the skin, and the general system gets all run down, causing indigestion and great debility. I used Ayer's Sarsaparilla, which quickly brings me out of my trouble. For all these ills are cured, and I am now weakened by the loss of my stomach, and in my country, there is no remedy equal to the grand family medicine."

AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's.

Always keep your bowels in good condition with Ayer's Pills. They are purely vegetable and act on the liver, and cure constipation, biliousness, sick headache, and all liver troubles.

BOOMING RICE TRADE.
What Texas Farmers Are Doing to Develop Market.

New York, Sept. 1.—The rice industry of the country is very much interested in the meeting of the Rice Association of America in El Campo last week, which was in every respect one of the most important in its history. Not only was the meeting a record breaker in point of attendance of directors, but a larger number of rice farmers than ever before were present.

Two questions of vital importance to the rice industry were discussed and action taken by the association. The first related to the association's rice kitchen at the St. Louis Fair, and the second had reference to the Cuban reciprocity treaty. The association has taken steps to raise and spend \$20,000 in maintaining a rice kitchen for the purpose of advertising rice.

The object is to extend the domestic market for the product. While there is no present danger of the supply exceeding the demand, the association believes it is good policy constantly to strengthen demand, so that it may keep ahead of any possible increase of production. It is the aim of the association to make rice a staple article of food.

The association adopted a resolution offered by Charles J. Beer, president of the Rice Millers and Distributors' Association of Louisiana and Texas, providing for the appointment of a committee of three to go to Washington and present to Congress, at its extra session, the claims of rice to free entry into Cuba. It is probable that this committee will consist of Dr. S. A. Knapp, president of the Rice Association of America; Hon. C. C. Duson and S. Locke Breaux of New Orleans, vice president of the Rice Association of America.

In a recent interview on the subject Mr. Breaux said:

"We shall attempt to show Congress that in enabling the Gulf coast to compete in the Cuban market with German and English rice from India it will in a measure repay this section for the alleged injury contemplated against sugar.

"If the treaty is adopted and Cuba experiences the prosperity expected, she will consume at least 2,000,000 pockets of low grade rice. With an advantage of 45 cents per roo we can compete with the foreign rices in Cuba at about \$2.25. As the grades used there are very inferior, this would give us a chance to dispose of a reasonable figure, and in the event of a heavy production during the next few years would materially relieve the home market.

"The association believes we are entitled to free entry into Cuba for our rice, and we propose to go after the concession. We hope to get the backing and assistance of the Gulf coast delegations in both branches of Congress, although the fetch of sugar is not unlikely to frighten many of them. We do not propose in any way to interfere with sugar, but inasmuch as rice is not only more important in the aggregate, but also more important to a greater number of people in Louisiana and Texas than sugar, we feel that we are entitled to the support of our representatives in both houses of Congress."

Belgrade, Servia, Oct. 5.—A new cabinet has been formed with Grucia as premier. He has announced that his policy will be one of peace, in an effort to reunite all factions. Grucia was not a member of what was termed the "Assassin Cabinet."

Paris, France, Oct. 5.—There is a prospect that the consuls of foreign countries who are stationed in Manchuria may form the council to administer the proposed reforms. The Porte denies the reports of massacres that are emanating from Bulgaria.

Washington, Oct. 5.—In the postal scandal indictments were today found against James N. Tyner, at one time Postmaster-General, but later Attorney General, James T. Metcalf, superintendent of the money order system, H. J. Barrett, assistant attorney general and a nephew of Tyner, N. R. Metcalf, H. Hallenbeck and W. Doremus.

FENNEL SAW WATERSPOUT.
Wharf Superintendent at Punaluu Sights Marine Marvel Monday.

W. P. Fennell of Punaluu has been seeing things. The latest thing he claims to have seen was a waterspout. He said the waterspout was rushing along the sea off Punaluu on last Monday. This waterspout was a very big one. Some of the officers of the steamer Mauna Loa, which brought the news here today, were unkind enough to insinuate that Fennell is a bigger one. Be that as it may, Mr. Fennell seems to be living up to his reputation for "seeing things."

The last thing he saw was the Republican nomination for County Assessor of West Hawaii county. The convention saw him too and went him one better, and the result is that, instead of being one of the orators of the Republican campaign, Fennell is now "among those present who received the candidates with the greatest enthusiasm."

But the Republican nomination for a county office was but the natural culmination of the succession of things Fennell had been seeing for months before. Among other things he sighted "was a piece of the brilliant meteor that flashed across the Island of Hawaii some months ago." The average citizen was content with relating how he had seen the meteor in its flight, but Fennell, being of a vivid imagination, was not satisfied until he had discovered somebody who had actually seen a piece of detached meteor steaming and sizzling in the all but inaccessible wilds of Mauna Loa.

Months before that time Fennell lost a crowd of five tourists in the crater of Kilauea, and some years before that time he had the entire business actually suspended along the east coast of Hawaii by reporting that a fleet of Portuguese men o' war had passed Punaluu steering north toward Hilo. Some years ago a report came down to the effect that "Mokuawewewo was smoking." Mokuawewewo is the name of the summit crater of Mauna Loa, and it is also the name of a diminutive engine in Kan. The report was somewhat ambiguous and gave the impression that the volcano was smoking when the little engine was the cause of the excitement that subsequently arose.

Balfour Opens the Canvass.
 London, Oct. 2.—Prime Minister Balfour opened the Parliamentary campaign in a speech at Sheffield. Great interest was taken in it. The papers of both parties comment unfavorably upon the address.

NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY.—Many cough cures contain opium. The effect of this drug is to diminish secretion of the mucus, and the relief afforded is only temporary. As soon as the effect of the opium passes off, the malady returns in a more severe form. The system is also weakened and rendered more susceptible to cold. Chamberlain's Cough Remedy does not contain opium in any form. It affords relief and leaves the system in a healthy condition. It always cures and cures quickly. The Hilo Drug Co. sells it.

Colds often hang on. You try this thing and that thing, every kind of home remedy and cheap cough mixtures, and yet your cold continues to hang on. You must not deal lightly with these old colds. You must get rid of them just as soon as possible. You must take something to break their hold.

Ayer's Cherry Pectoral
soothes irritable throats, heals inflamed bronchial tubes, and quiets congestion in the lungs. This is why it so quickly controls these old coughs and prevents pneumonia and consumption.

"I was troubled with a very hard cough which I could not get rid of. When I read of Ayer's Cherry Pectoral I sent to Johannesburg and procured a bottle. It completely cured me, and I have many comrades here who have had hard coughs cured in the same way."
— Wm. Sessions, Company C, Second Royal Borneo Reg., Nol's Spruit, Transvaal, S. Africa.

There are many substitutes and imitations. Beware of them! Be sure you get Ayer's Cherry Pectoral.

LOU DILLON'S RACE.
How She Trotted a Mile in Two Minutes Flat.

After two slow miles the queen and her retinue appeared. As usual she half-galoped past the stand and as usual those who watched her for the first time thought she was acting badly. It was only "her way"—the way of dainty, independent, little Lou Dillon, who has a mind of her own and always knows what she wants to do. Bless her heart, let her have her way—for it's all ways the right way in the end. She pirouetted airily, tossed her head sideways, and played at will, for she and her driver have long since agreed that these little romps are harmless. Once he scored her down, but her play-spell wasn't over, and she broke. The crowd took it seriously, but Sanders only smiled. The second time she turned and Tanner passed his runner, Peggy from Paris, over to the pole and just in front of her, while Scott McCoy kept the other, Carrie Nation, well behind and to the side. This time there was no play. She was trotting straight and true and fast—but nowise as fast as she came home. No time was flashed till the end of the mile, but hundreds of watches caught the time and every man and woman was told it as the successive quarter pole was passed. The first one was reached in 30 1/4 seconds. The half was passed in 1:00 3/4. If she could only keep this clip up she would trot in 2:01 1/2—but that is 2:01 1/2 now!

The official score by eights was: First eight, 15 1/4 seconds; second 15, third 15, fourth 15 1/2, fifth 15, sixth 15 1/4, seventh 15, eighth 14. Think of it the last eighth of a 2:00 mile in 14 seconds—a 1:52 clip. It is this last eighth, and this alone, that can serve as a criterion of Lou Dillon's greatness. The fractional time, by eighths, was: 15 1/4, 30 1/4, 45 1/4, 1:00 3/4, 1:15 1/4, 1:31, 1:46, 2:00.

Shakespear said: "Its the pace that kills," and so it is; but even this truism cannot be applied to this chestnut mare who seems a

creature beyond the pale of time or pace, or the limitations of flesh and blood. Where does she get her wonderful power? they ask on seeing her, and we who know so very little of these things can only guess. Some point to her muscular quarters; others to the slope of her shoulders, and the breadth of her stifles; others to the depth of her girth and her heart-room. Perhaps it is one, or some, or all of these things—and perhaps, also, all the guesses are wrong. These physical things—are they not merely elementary? The motor, with its mysterious power—that surely lies in her brain. I well remember the day after her sale at Cleveland when a group of gentlemen were making conjectures as to the why of her power and speed. After each had said his say, Sanders, who had been silent, placed his hand on her head and said: "My opinion is that the trot comes from here." Yes, the rosiest dreams of the two-minute enthusiasts are fully realized in Lou Dillon. She is as nearly perfect as an animal can be. She has her little caprices it is true, but these are only trivial and we love her all the more because of them.

Millard Sanders, whose gentle hand has guided her in all her flights against time and who knows her as an engineer knows his machine, says she will trot in 1:59 or better. "If," said he, "the great Dan Patch were out of consideration I would say, 'Pacers, look to your laurels.'" Tommy Waugh, who has taken care of the little mare for two years past, was the least excited of the great crowd which surrounded her after her mile. "This is nothing," said Tommy as he gently stroked her beautiful head, "some day she will show you a real fast mile."—Joe Markey in the Horse Review.

HAWAII'S BUILDING.
Typical Hawaiian Residence to be Erected at Fair.

Honolulu, Oct. 1.—Broad, cool, inviting lanais will be among the principal features of the building proposed for Hawaii at the St. Louis Exposition next year. It is suggested that Hawaii's building should be indicative, in outward appearances, of the enjoyable home life to be found in almost any part of the group, an advertisement to all the 25,000,000 people who are expected to visit the Fair, that the climate of Hawaii is such that upon similar lanais, our people spend a good part of their lives. The Hawaii Exposition Committee agreed yesterday that a one-story building, a composite of the typical Hawaiian residence of modern times, with broad lanais, sloping roof and large rooms, would more fairly represent the islands than a building of more palatial design, but reflecting nothing of the island life. The interior also would show home adornments in Honolulu, with its Hawaiian corner, composed of tapas, fine mats, fans, and other trinkets, handiwork of the present day Hawaiians, giving an idea of the practical as to which the leaves of so many tropical trees and plants can be put. An array of photographs showing all manner of scenery residences, business blocks, harbors, wharves, recreation grounds, beach amusements the year round, and almost anything the camera will take, would give the building an attractive appearance. Above all such a building as proposed is designed to be the most restful and cosy in appearance of all the state and territory buildings, inviting passersby to drop in and get a cup of Kona coffee. The building would be Island headquarters, and tons of literature on Hawaii is proposed to be stored within that it can be used to the best advantage in advertising Greater Hawaii.

Attorney General's Opinion in Fairchild Registration Case.

Honolulu, Sept. 29.—Nomination papers of Geo. H. Fairchild for Supervisor of Kauai County having been received by Registrar of Elections C. R. Buckland, and Fairchild having the matter of his registration in the courts, appealed from Judge Hardy's decision to the Supreme Court by the Board of Registration, Registrar Buckland turned the papers over to Attorney General Andrews, receiving this morning the following opinion from the latter:

Office of the Attorney General, September 29, 1903.
C. R. Buckland, Registrar of Elections.

Dear Sir:—In regard to the papers filed by Geo. H. Fairchild for nomination for the office of Supervisor for the county of Kauai, which papers you have referred to me, with the statement that Mr. Fairchild is not an elector in any precinct of the County of Kauai, nor is there anything to show that he has been a resident therein for the past three years, I would state that in my opinion the same should be returned to Mr. Fairchild and not accepted by you, as the papers should affirmatively show that he possesses all the qualifications necessary for nomination as Supervisor, before his name can be placed on the ticket.

Yours truly,
LORRIN ANDREWS,
Attorney General

Attorney General Andrews this morning filed notice of moving the Fairchild registration case on the Supreme Court calendar, looking to an immediate hearing.

As the matter is of great importance to many in a position similar to that of Fairchild, desiring to qualify by registration as voters at the approaching county elections, it is probable that the appeal of the Registration Board from Judge Hardy's decision will be heard within a few days.

Term opens on Monday, but, as announced in yesterday's Bulletin, Justices Galbraith and Perry will not be present.

Chief Justice Frear may ask Circuit Judges Gear and De Bolt to sit with him on the Supreme Bench in the Fairchild matter, so that a decision can be arrived at in time to allow it, if favorable to registration, to take effect before the November elections.

Registrar Buckland will forward Fairchild a copy of Andrews' opinion.

PRINTING PLANT SOLD.

Judge Humphreys Sells His Interest in Robert Grieve Pub. Co.

Honolulu, Oct. 2.—A. S. Humphreys has sold his block of stock in the Robert Grieve Publishing Company, and his connection with the concern through which he began the publication of the now defunct Honolulu Republican, is at an end.

James L. McLean and Norman E. Gedge of the Inter-Island Steam Navigation Company are the purchasers of Humphreys' stock, as well as of considerable other stock, and are now said to have a largely controlling interest in the corporations.

The price paid Humphreys is understood to have been \$2 a share. The corporation owed Humphreys large sums of money advanced to keep the Honolulu Republican on its feet. What has been done in regard to this is not known.

The Robert Grieve Publishing Company was organized April 19, 1900, with a capital stock of \$25,000 in shares of \$20 each, with the privilege of increasing the capital to \$100,000. The corporation was organized to buy the printing and publishing plant belonging to the estate of the late Robert Grieve. The object of securing this property was to publish the Honolulu Republican, the first issue of which came out June 14, 1903. The paper lasted less than two years, the last issue bearing date January 25, 1902.

Peoria, Ill., Oct. 3.—An explosion occurred in the Cooker cornering distillery today in which four men were killed, five injured and two workmen are missing. The explosion wrecked the building and it is feared the missing men are in the ruins.

TEACHERS' MEETING.

Pedagogues of This District Hold Interesting Meeting.

On Friday, October 2, 1903, the Hilo Teachers' Union held its fortieth quarterly meeting in the Hilo Union School, there being present forty-seven teachers and six visitors.

At 9 a. m. President L. C. Lyman called the meeting to order, which was opened by prayer. Owing to the absence of the secretary, Miss Carr, Vice President Miss Coan called the roll, which was responded to by quotations from Shakespeare.

After the minutes of last meeting were read and adopted the annual election of officers resulted in the re-election of President L. C. Lyman, Vice President Miss Coan, both of Hilo, and the election of Wm. McCluskey of Papaikou as secretary.

A motion by Messrs. McCluskey and Carvalho to reduce the meetings from four in the year to three was much discussed, but failed to carry.

The date of the next meeting was set for Dec. 4.

The first item on the program was a drawing lesson with the eighth grade by Miss Coan. It was a very exhaustive review and application of free hand principles. Light must be admitted from only one side to show the shading. To secure harmony and a good setting the position of the picture on the paper must suit the object and the margins will vary in proportion of the length to width. At arm's length eye measurements are best taken on the pencil to preserve the proportions. Flat surfaces should be shaded evenly, while round surfaces have graduated shadows. Shade with a flat point. Aim at finishing drawings as the work proceeds and not by drawing lines. In placing objects be careful to have the height right, so that the pupil may properly observe the curves and lines.

Miss Deyo called attention to chalk modeling and its value in teaching geography.

Drawing in story telling was illustrated by Miss Kalei Ewaliko. She told the story of "A Pancake" and by wonderful dexterity pictured on the blackboard each step as the story proceeded. Miss Ewaliko's genius in this line elicited the admiration of all.

Miss M. L. Deyo read from "The Psychology of Number" by McLellan and Dewey extracts on Primary Number Teaching. Children take pleasure in number exercises under a sympathetic and competent teacher. A teacher versed in the psychological method of dealing with number secures good results giving real meaning to numerical operations.

After recess Mrs. Moses gave a violin solo in her usual good style.

Miss E. Ewaliko illustrated the method as used in the Summer School for "First Step" in Sol-Fa music teaching, the audience serving as class.

A valuable paper by Miss Dillon was read on "Sincerity in Our Work." The sincere person is the one we turn to for help. We must endeavor to make it part of the children's moral equipment. Unless the writer feels what he writes he cannot win his readers. So with the teacher. In geography the teacher who images accurately makes the children picture a real river, a real city, and not a black line or a round dot on the map. One who feels a glow in the heart in relating a noble deed will inspire the same in the pupils. Do not have children memorize what they do not understand. This breeds insincerity. They are shams who preach truth and practice it not. Words must be enforced by the living example of perfect sincerity.

Inspector C. W. Baldwin in a short talk gave the Hilo Teachers' Union great praise for their good work. It certainly is the "Star Circle" of the Territory. He recommended circulation of the papers read at meetings among other circles.

A motion by Miss Deyo and C. O. Smith was passed constituting the officers of the Hilo Teachers' Union a committee to attend to the

publication of papers and circulation of reports.

A discussion on the teaching of physiology was opened by Miss Deyo, who was followed by about a dozen. The subject is treated in the schools from a very practical standpoint and has a hygienic tendency.

The meeting was closed by short reports from many of the teachers on vacation experiences.

Berlin, Oct. 2.—The Berlin police were called upon to disperse a mob of striking bus drivers and non-unionists today. The police fired on the mob wounding thirty of the rioters.
