# THE HAWAIIAN STAR.

The Hawaiian Star is the paper that goes into the best homes of Honolulu.

VOL. VI.

HONOLULU, H. I., SATURDAY, FEBRUARY 17, 1906.

No. 2484.

Captain Hemming of the Mowera reported that very exaggerated ideas prevail in British Columbia regarding the plague here. The people seem to have a notion that most of the inhabitants of the islands are made.

## NEW ADVERTISEMENTS

### NOTICE TO INTENDING PASSENGERS PER S. S. AUSTRALIA.

THE AGENTS HEREBY GIVE NOTICE that the Steamship "Australia" will leave this port for San Francisco on Tuesday, the 20th instant, at 4 p. m. All heavy baggage must be delivered to the Oceanic Steamship Co.'s warehouse for disinfection between the hours of 9 and 12 a. m. on Monday the 19th instant, and all cabin and hand baggage at the same place between the hours of 8 and 10 a. m. on the day of sailing. Keys must accompany baggage. All such baggage, etc., after disinfection, will be cared for and delivered to the steamer by the company's employees. Transportation from the Oceanic Steamship Co.'s dock to the steamer will be furnished passengers at 1:30 p. m. of the day of sailing, and all passengers must be on board the "Australia" not later than 2 p. m.

### Baggage Notice.

Intending Passenger by the S. S. Australia, wishing the Union Express Co. to handle their baggage will please notify this office as early as possible. Telephone 86. We check all Baggage.

**Per Mowera**

## CONSUL HAYWOOD'S WORK

WHAT HE DID AT HILO AND KAHULU.  
Perfect Shipping Facilities at the Former—Instructions Given—The Situation at Kahulu.

"Whether there is plague at Hilo or not; whether or not there ever may be plague there, need not affect one particle of the traffic of the Hawaii capital," said Consul Haywood this morning. "I was discouraged when I left here for Hilo, but I return very much encouraged. It will be possible now to arrange and carry out any scheme made necessary by events by correspondence, without again visiting the island. "Hilo is particularly well situated for an emergency of the present kind. Sugar from the plantations on the Hamakua side is brought down by clean coastwise steamers and discharged directly into ships on the outer edge of the bay without touching the city at all. Sugar from Wainaku is let down over the bluff upon lighters and reaches the ships in the same way. From Wainaku the sugar goes down the creek on lighters to the ships, also without touching the town.

"The only exposed mill is that of the Portuguese company, which unfortunately happens to be in the center of the town and, by the way, next door to the house in which Mrs. Serrao died. This concern now has 200 tons of sugar on hand. After consulting with Dr. Carmichael I instructed Consul Furneaux not to permit its shipment until next Wednesday. If by that time there has not been a case of plague it may be loaded, after a thorough disinfection of horses and wagons hauling it. "Wainaku mill will have a rat proof fence around it and the mill gang has already gone into quarantine there. This is considered an excellent precaution. Should plague become epidemic in the town I am sure there need be no interruption of the shipping business, save perhaps in the product of the Portuguese mill. I understand, however, that in case of an emergency the latter would dump its cane to Wainaku for grinding, which would render it perfectly safe and also would be quite satisfactory.

"At Maui arrangements were made to ship sugar direct from Kahulu and the scheme is perfectly safe and satisfactory. When we arrived we found Dr. Garvin had posted a guard at the foot of the long wharf and had disinfecting the landing out to the end. From the plantations sugar will be brought down on trains by the plantation gangs and run directly out to the end of the wharf and discharged upon lighters for the ships. No stop at all will be made in Kahulu, which renders the scheme perfectly safe. "Should plague spread, however, arrangements have been made to use Kihel, which is almost equally serviceable and will, with a little work, be made available to the plantations. "Now, about Hilo again. I found the people there perfectly calm and working together to the best possible end. There was no shot-gun business there and I do not believe there ever has been. We were met at the wharf by Mr. Lyman. There was no appearance of excitement of any kind and certainly no indication of trouble, past or present.

"I do hope there will not be an epidemic of plague at Hilo. At the same time the scare has done lots of good, in that the town has been cleaned as it had never been before. People have worked together and untriflingly to this end, and, though I had not been there in two years, I could see the result instantly. The situation there is all right, and I feel good."

**THE LAW OF THE ROAD.**  
The law of the road again received judicial elucidation and vindication in the District court this morning. J. P. Podaken and S. F. Rice, both on bicycles met on King street near the bridge last night. Rice was on the right hand side of the road as he should be. Podaken was on the wrong side as he should not be. There was a collision. Both were arrested. This morning Podaken pleaded guilty to heedless riding. Rice who was on the right of the road was considered also on the right of the law, and the charge of heedless riding against him was nolle prossed.

**THE WEATHER.**  
Weather Bureau, Punahou 1 p. m.  
Wind moderate north east; weather fine.  
Morning minimum temperature, 66; midday maximum temperature, 78; barometer, 9 a. m., 30.10 steady (corrected for gravity); rainfall, 24 hours ending 9 a. m., 0; dew point, 9 a. m., 60; humidity, 9 a. m., 82 per cent.

## THE HILO SUSPECT CASE

DR. WOOD REPORTS TO BOARD OF HEALTH.  
Considers Case Very Suspicious and Regular Action Taken—Situation on Maui Improved.

Dr. Wood, President of the Board of Health, who returned from Hilo by the steamer last night, believes that the case of Mrs. A. G. Serrao, who died there on the morning of February 6th, is very suspicious and before leaving he gave instructions that the case be treated as one of plague. Before the Board of Health this morning he detailed his trip and gave an account of the case of Mrs. Serrao—history, symptoms, etc. The statements of the physicians in charge were also repeated. "I consider that the case is a very suspicious one," said Dr. Wood, "and felt that the only thing to be done was to treat it as a case of plague. Upon my orders the stores of A. G. Serrao and the house in which the victim was ill ten days were destroyed by fire. A rat proof fence had previously been placed around the premises. The ditch or town sewer was disinfected with carbolic acid and the ground around the Serrao store was treated to a solution of the same. In addition, the residents of the premises were removed to quarantine."

This action was approved by the Board. Dr. Wood also appointed a sanitary committee of three members and gave it full power to act in case of an emergency. The members are C. C. Kennedy, R. A. Lyman and Dr. W. L. Moore. The action in appointing this committee and giving it full powers was unanimously approved. Portions of the business section of the town seem to be in a very insanitary condition. Buildings and sink arrangements were much as they were at Kahulu and fully as bad as in Chinatown of Honolulu. Dr. Wood pointed this out to the citizens and suggested to them a system of inspection as in Honolulu and that owners be compelled to put their premises in proper shape.

"Hilo is not crazy," added Dr. Wood. "I found little or no unusual excitement and all the citizens seemed to be working together for the common good." "We do not think Hilo is crazy," retorted George W. Smith, "but an element there has managed to force itself to the front and create that impression. The intelligent, conservative element has never been unduly excited." These views were coincided in by the entire Board. At Kahulu health conditions were found to be in good shape. Dr. Garvin was doing excellent work. A. L. C. Atkinson had been left there to assist him. There were 200 people in the detention camp and all were found to be in excellent health. A most careful watch was being kept over all of the island, and indications were that the situation was fully in hand. In this the Board had the most cordial and valuable assistance of the whole population.

Dr. Wood asked authority to appoint J. L. W. Zumwalt quarantine officer at Kahulu to inspect all shipments to foreign ports and to attest the same. So ordered. Mr. Cooper moved that unless an emergency occurs the Board adjourn to 3 p. m. Monday. Carried.

## ELEVENTH CLEAR DAY.

Honolulu has passed the eleventh day without a case of plague. The danger point is almost left behind, the only chance of plague now seeming to be in Oriental merchandise. This morning the little Chinese child on South street was declared not a plague patient. The guard was withdrawn and the quarantine raised. **Y. M. C. A.**  
The Y. M. C. A. gymnasium classes will open next Monday. The classes will be carried as before. The gymnasium and locker room have been cleaned and repaired. The new game, indoor base ball is here. It is considered a good indoor game for this climate. Thursday and Saturday night are devoted especially to games, at which times the public is invited to come in and witness the sports.

**MARU TAKES PASSENGERS.**  
Owing to the improvement of the plague situation here it was decided yesterday morning that the America Maru, from the Orient, might take passengers from here to San Francisco. This was the first true sign of the lifting of quarantine and was welcomed by a number of people who have been anxious to get away. The passengers were taken to the vessel outside the channel in the scow and the trip was a lively one. The passengers were: Mrs. M. G. Worrall, D. P. Jenkins, G. Matsuka, T. L. Southwick, F. W. Alston, C. P. Desky, wife and nurse, Miss Flossy Desky, Mr. Marsden, Mr. and Mrs. L. W. Caldwell, J. Boetus, M. Brasch, Mrs. W. Maertens, J. L. Spitzer, and wife, Miss Gwen, Miss Dulcinea, Ralph Moss, and wife, Mrs. M. Stanford, H. C. Perry, wife and child.

**HERE IS A CHANCE TO DO SOME ONE A KINDNESS.**  
If the reader of this should chance to know of any one who is subject to attacks of bilious colic he can do him no greater favor than to tell him of Chamberlain's Colic, Cholera and Diarrhoea Remedy. ## A DIG STRIKE AT OLAA SMITH ESTATE

HUNDREDS OF JAPANESE WITH ARMS.  
Sixteen Ringleaders Arrested—Laborers Object to Clearing Land Under Contracts for Field Work.

HILO, February 15.—The Hawaii Herald publishes the following: There was a little difficulty among the Japanese of the Olaa Sugar Co. on Tuesday which resulted in sixteen of them being brought to Hilo and lodged in jail. From information at hand the trouble occurred in the division presided over by Mr. Fuller and was the outcome of the men declining to work at clearing land when their contracts provided for field work. One gang quit work with the intention of calling on Manager McStocker. They marched in the direction of Mountain View carrying their boss and cane knives and in passing other gangs at work were joined by them so that when Mountain View was reached there were several hundred in line. As indications pointed to a riot all the lunas from the other divisions were called to headquarters. Eleven men were placed under arrest and sent to Hilo. Later in the day there was a recurrence of the trouble and Sheriff Andrews was telephoned for assistance. He left at 4:30 p. m. with a posse including Frank Smith as a special officer, reaching Mountain View in about four hours. Five men believed to be ringleaders in the difficulty were arrested and brought to Hilo and locked up and several of the laborers came yesterday afternoon to appear against them as witnesses. The presence of so many armed Japanese in the vicinity of the homes of the white employees caused considerable excitement. One Japanese called on Mrs. Fuller and her husband and they were killed and the laborers would come to the house and kill her. At least that is what the fellow was supposed to have said. At all events he thoroughly frightened the lady and she went into the woods with her children for the purpose of hiding. It transpires that the man was friendly to the Fullers and had no intention of making threats. All the striking men but the sixteen arrested returned to work.

It is said that the laborers at 20 miles persistently and after repeated warnings violate sanitary and other rules and when detected have been given the choice of being arrested as nuisances or taking the alternative of being fined. The men have invariably taken the latter course. Japanese laborers on the plantation say that those at 20 miles are of the opinion that the arrest and conviction in Hilo of the Japanese last week was without reason and that if the building destroyed was next to the New England bakery. It was put up by and for the old Hollister Soda Works over fifteen years. Phillips moved to it after the fire on King street near Bethel in 1894.

**WAR BY TELEPHONE.**  
How Col. Baden-Powell Conducts Defense of Mafeking.  
LONDON, February 9.—An interesting letter has been received from Col. Baden-Powell telling how he conducts the defense of Mafeking by telephone. He made himself a bombproof mound in the center of the town. He says: "Here I sit in my bombproof bunker writing these letters. Around me is telephone communication with each one of my outposts. At each one of the outposts a telescope keeps constant watch on the Boer outposts and guns. As soon as it is seen which way their guns is about to be directed, the wire communication sends word and the bell, with which each defensive quarter is provided, clangs in that part of the town where the shell is about to fall. All in the open at once go to ground like rabbits."

**CHICAGO, February 5.**—Dr. Daniel R. Brower who spent several months lately in the Hawaiian Islands has this to say of bubonic plague: "There are many ways in which the germ becomes infectious. It may enter the bowels through the drinking water, but I do not believe that is so common as by the visits of vermin, and especially of rats and the rodent kind. The bubonic germ is heavy and naturally seeks, from gravitation, a low level. Rats are especially susceptible to the infection, as they seek dirt and filth of all kinds, especially those kinds which are favorites of the bubonic germ. "As a consequence I believe that the principal danger of the germ reaching the United States ports is through the rats and mice aboard ships which come from infected ports. I must say that commendation is due the health officers, especially at San Francisco, for the vigilance with which they watch these migrating rodents. All rodents are migratory and must be watched closely. They swarm a ship in an infected port and are first noticed in the landing port when they attempt to leave the ship and reach the docks by scaling the hawsers. In San Francisco the health officers take particular note of this, and every rat which attempts to make a landing by a hawser signs his death warrant by so doing."

**HAS FEW EQUALS.**  
For light running, easy adjustments, and good work the Singer Sewing machine has few equals and no superiors—B. Bergersen, agent, Bethel street.

**AT THE OLD STAND.**  
General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

All kinds of Dried Fruits.

## LOCAL PARTIES HAVE A CLAIM

STARTED FOR INVERNESSHIRE MEN.  
A Claimant Who Alleges That There is a Will in Which She is a Beneficiary.

George H. Brown of the Statesville, North Carolina, bank is not the only outsider who has come forward to interfere in the administration of the estate of the late D. B. Smith. A contest is threatened in Honolulu, by a woman who claims that the deceased left a will in which she was named as a beneficiary. The woman is a half-Chinese, half-native who declares she acted as housekeeper for Mr. Smith for many years and it is in consideration of these services that she puts forward her claim. Her claim that a will was left in line with the positive statement contained in the telegram from the man in North Carolina. "There is a will," he stated. "If it cannot be found I am entitled to administration as the largest creditor."

So far no will has been discovered. The objection from the States to the appointment of Cecil Brown as administrator has been filed and if it is heeded some weeks will elapse before any move is made. If the administration of the estate carried on and no will is brought to light the local contest is likely to take the form of a suit for services rendered, it is stated. D. B. Smith's estate is valued at about \$140,000. Kinney, Ballou & McClanahan and W. A. Henshall have been retained to represent the contestants. There is a good representation of Smiths and Browns in the list of those interested in the case so far. G. A. Brown sends a protest to clerk H. Smith against the appointment of C. Brown to administer the estate of D. B. Smith.

## RAT KILLING DAY.

War on Honolulu Rodents will Begin Tonight.  
The rat war will begin tonight. Poison is being distributed by distributors today. The following circular of the Citizens' Sanitary Committee will explain the plan: "The Citizens' Sanitary Committee and the Board of Health want all rats killed and furnish rat poison free of charge. The inspector for your district will give you the poison today. Please set it about, under, or near your home every night for a week. Put it away each morning in a safe place. Keep your pet animals in the house at night. Show all rats which you may catch or find dead to your inspector and he will pay you 15 cents apiece for them. Then burn the rats. Place a dish of water near each poison block. **CITIZENS' SANITARY COMMITTEE**  
Rat poison was stacked high in the rooms of the Citizens' Sanitary Committee this morning and is being taken out by inspectors for distribution in every quarter of the city from Diamond Head to Moanalua. There are twenty blocks of poison in each parcel. Some people put out the poison last night, getting in a little ahead of time. In downtown Honolulu a number of dead cockroaches were noticed in a short time. This morning a dead mouse was found on top of the block, having not lived to escape from the rim of the poison bowl. Colonel Fisher is sure he has many rats in his barn. Poison was laid for the pesky rodents. This morning, however, they were still there and looked like they wanted to say: "You can't lose us, Harry." Some birds came down, pecked at the poison but did not relish it and flew away. There were indications that rats had nibbled at the poison but had not eaten any amount of it.

By tomorrow morning some idea of the work of the little blocks can be gathered. The distribution of the poison is being made in various ways. Some inspectors personally distribute it throughout their district, others make use of their subinspectors. Some of these hire express wagons to deliver it through their own vehicles and some carry it around in oil tins on bicycles.

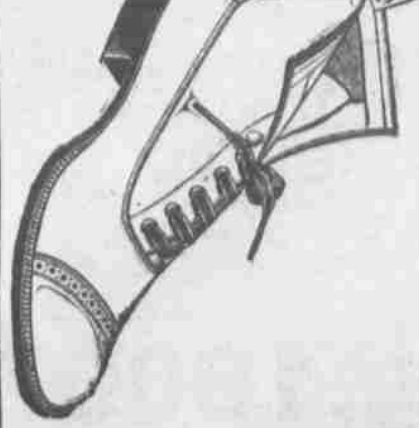

**RATS AND PLAGUE.**  
Dr. Brower considers Rodents the Great Source of Infection.

**FOR BIBLE STUDY.**  
An enthusiastic spirit of good fellowship prevailed last night among the eighteen young men who passed a delightful social evening in Nuuanu Valley by invitation of Mr. and Mrs. Arthur B. Wood. Mr. Brown presented plans for a young men's class at the new annex at Central Union church and officers were elected and plans laid to start tomorrow morning at 9:30. The following officers were elected: President, Geo. P. McClellan; vice president, Wales B. Kincaid; secretary, Geo. P. Thieler; treasurer, Dr. G. W. Burgess; teacher, Arthur B. Wood.

**FROM NANAIMO.**  
VICTORIA, Feb. 9.—Bark Onaway sailed from Nanaimo on Wednesday with coal for Honolulu. The bark Corporation, owned by Nanaimo for Honolulu, is at Port Townsend shipping a crew.

**HIGH PRICES AT HILO.**  
HILO, February 15.—The United States government was charged \$6 a head for unloading horses and mules from the transports at this port. It is said. Freight rates from San Francisco to Hilo by the Whitman were \$1 per ton and by the Baxter, due in ten days, \$4.00 per ton, owing to high price of the charter. Among the cargo of the schooner C. T. Hill, was some potatoes and rice. This was sold on the wharf the potatoes bringing \$5 the bag and rice \$12 the bag. The lot on the Falls of Clyde caused a drop in the market.

## THE ELEU TO THE RESCUE

PILOT SAUNDERS GETS BACK AND REPORTS ALL SAFE ON BOARD THE SHIP—MUCH ANCHOR CHAIN IN DANGER.

The tug Eleu started yesterday afternoon to the rescue of the men who it was feared had fallen in their efforts to reach the ship Invernesshire, but just as she got outside the harbor wharf the schooner Surprise, towing Captain Saunders' life boat, with news from the vessel whose drifting away had caused so much trouble and uneasiness. Captain Saunders reported that Captain Evans and the men with him had all reached the vessel and that they were in no danger. The Eleu returned with the Surprise and the pilot boat. "Captain Saunders thinks that the Invernesshire will lose both her anchors and about 180 fathoms of chain. He got to the vessel with the pilot boat some time before the two shore boats completed the dangerous trip. "There were no sails set," he says "and one of the crew came to me and stated that he represented the strikers and that low wages was the cause of the trouble. We did not ask them to work, but put the men we brought with us on duty, trying to light the anchors. The captain broke after we had been working for a time and we found it useless. We tried with tackles but could make no progress and at midnight gave up till morning. Yesterday morning, while we were still at it, the schooner Surprise hove in sight and answered our signals. She towed the pilot boat in. I think Captain Peattie will slip both anchors, set sail and try to make port again. How long it will take him depends on the winds. I started at 5 in the morning and got in about 8 in the afternoon."

The two shore boats that went out to the Invernesshire were hoisted on deck and will be brought back in safety. Their occupants had as lively a time as they ever want to experience in getting to the drifting vessel. The men who returned in the pilot boat were wet with the waves that had splashed over them, but they had a much bigger craft than the little shore boats that went out. There was great anxiety on shore among the friends of Captain Evans and others when they heard the reports of the watchers on the Iwalani, that the small boats had given up their efforts to get to the ship and begun trying to pull back. The Invernesshire was about eighteen miles south southwest, when Captain Saunders left her. She was in no danger, except that of losing the anchors, and all on board were well. The old crew, which went on strike, is likely to make the acquaintance of the police as soon as the ship gets in.

**FOR BIBLE STUDY.**

Schr. Surprise, Wharton, from Hawaii ports.

### DEPARTING.

Saturday, February 17.  
S. S. Miowera, Hemming, from Vancouver, February 9: 600 tons merchandise.

### PASSENGERS.

Arrived.  
Per S. S. Miowera, from Vancouver, February 9.—W. W. Cross, D. E. O'Daniels.

### MEMORANDA.

The tug Iroquois made a fast trip to Hilo and back. Captain Pond using her speed capacity in view of the importance of her mission.

The S. S. Miowera, from Vancouver was sighted at about three o'clock this morning. She entered the harbor and docked at the Pacific Mail wharf.

The harbor is being thinned out a little now, departures having recently exceeded the arrivals. (Additional Shipping on Page Five.)

## "DICK" THOMPSON DEAD

WAS A PICTURESQUE POLITICAL FIGURE.

Had a Long and Influential Political Career—Was of the Frontier Type of Lincoln and Oglesby.

TERRE HAUTE (Ind.), February 16.—Richard W. Thompson died this evening. He was ninety-one years of age.

Richard W. Thompson is one of the most striking figures in the political history of Indiana. He has been a man of influence in that state since the thirties. He was elected to congress in 1841 and was almost continuously in congress for nearly thirty years. He was a man of homely phrase but sterling good sense, ready with apt illustration drawn from his experiences in the life of the frontier. To him, as to Lincoln and Gov. Richard J. Oglesby of Illinois, the latter of whom he resembled very much in personal appearance, have been attributed many telling, but for the most part apocryphal stories. He was Secretary of the Navy in President Hayes' Cabinet, and it is told of him in reference to his early experiences as a flat boat and steamboat man on the Western rivers, that the first time he went aboard a naval vessel in his official capacity, he exclaimed to those with him, "Why, the blamed thing's hollow."

In his later life he was an industrious writer on political and economic subjects. His most important work is "A History of the Protective Tariff in the United States."

## GEAR ON HARTWELL.

George D. Gear who returned by the Nippon Maru thinks we shall have a territorial form of government.

"That we shall have a territorial form of government," he says, "I have no doubt. That we shall get it earlier than several months hence I do not believe. I am more than ever convinced it was a mistake for the government to have sent Gen. Hartwell, and I believe Gen. Hartwell believes now that it was, and would leave Washington if he could. Senators and Representatives look at the matter this way. What interest has the government here in advocating the report of the commission or in urging every provision of the bill accompanying it? The members of the commission themselves are its best advocates. There are some provisions in the bill that are repugnant to the political thought and its of congressmen irrespective of party, that for Gen. Hartwell and W. O. Smith to urge and advocate them, gives a character and substance to the words of Cayless and Wilcox that perhaps they were never without it. One of these is the provision relating the judges into office and giving the judges of the supreme court a life tenure of office. When that provision is advocated with such pertinacity as it is, it makes members suspicious of other provisions in the bill, and confirms the belief that Hartwell and Smith are merely lobbyists for the local government here. Then the continued altercations between Hartwell and Smith on one side and Little, Cayless and Wilcox on the other, before the committee creates the impression of factional fights and delays matters. The Cullom bill will pass, I think, but it will be amended so that it cannot be recognized, but we will have a territorial form of government. As to who will be the first governor, I know no more than anyone else."

### LABOR AVAILABLE.

J. P. Cooke and Theodore Richards of the Quarantine Relief Labor Bureau are able to fill orders for the following labor: Japanese—Yardmen, 14; stone masons, 5; assistant sugar mill engineers, 2; farmers, 5; carpenters, 10; tailors, 6; nurses, 10; common laborers, 12; Chinese—Cook, A. L. 1; cook, second, 1; carpenters, 2; tailors, second grade, 3; common laborers, 17; Hawaiian—Wharfhands, 6; sailors, 1; lumbermen, 1; plumber's helper, 1; painter, 1. There are also several South Sea Islanders, who speak little English, but are good workers, as evidenced by several who have gone out from camp.

### MORE IMPERIALISM.

Brazil is another country having trouble over the threat of imperialism. The drivers of vehicles in Rio de Janeiro are rioting and calling for a monarchy.—Seattle Post Intelligencer.

### THE BEST MEDICINE FOR RHEUMATISM.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Hermine, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

**THE CENSUS BUREAU BUSY**
**IT HAS A SPECIAL BUILDING OF**
**ITS OWN.**

Director Merriam Has Every Conven-
ience to Facilitate His Work—Work
All on One Floor.

WASHINGTON, D. C., January 31.—
There is a great deal of activity down
at the census office these days, and
will continue for the next two or three
years. Director Merriam is well satis-
fied with his new building, which was
designed by him and erected through
his enterprise. Heretofore the census
people have been scattered all over
town, occupying such buildings as could
be secured on a temporary lease, and
they were neither safe, convenient nor
comfortable, while the rent was
enormous. The rent bill for the last
census was somewhere between \$150,000
and \$175,000. Mr. Merriam entered into
a contract with a syndicate of real es-
tate men, under which they erected a
new building upon his designs, which
covers 112,000 square feet, or about two
and one-half acres. The building cost
\$143,000; the land upon which it stands
is estimated to be worth \$175,000, and
under Mr. Merriam's plan the govern-
ment will pay a rental of \$25,499 a year
for five years, with an option to renew
at the rate of \$20,000 a year for a second
five years, or to purchase at any
time within the next ten years for \$320,-
000.

The beauty of the building is that,
with the exception of one small wing,
where the executive offices are located,
everybody will be employed on the
ground floor. There are no stairs to
climb, no elevators, no defective flues
to start a fire, no plumbing, plenty of
light from glass roofs and electric
lamps after sundown. The rooms are
very large. In one room will be placed
1,064 electric tabulating machines, by
which the returns of the enumerators
will be tabulated automatically by the
use of a most ingenious apparatus. In
two other rooms there will be desks for
1,900 clerks, so that their work can be
supervised by two men. The different
divisions of the organization will be
assembled each in its own great apart-
ment under the eye of the chief.
At one end of the building is a com-
plete printing office, where the emer-
gency printing will be done. Beside
it is a stationery store, from which
supplies will be distributed upon orders
from authorized persons, just as if it
were a private establishment and the
employees were purchasers. In another
large room the blanks are classified
so that they can be reached instantly
as they are called for; but it would
take a great deal of time and space
to describe all the arrangements and
conveniences which Col. Merriam has
introduced. He sits at the desk and
converses with the chief of every divi-
sion and all of the responsible men
under his direction. He will issue his
orders and receive his reports through
a telephone. The wires from his ear
and his mouth go to every corner of the
building.

The vault is one of the most impor-
tant features of the building. It costs
the government \$5,000,000 to secure the
information upon which the census re-
ports are based, and it will all be con-
tained in paper schedules which hereto-
fore have been exposed to fire; but for
their protection Col. Merriam has con-
structed an enormous vault, with thick
walls of fire brick, that is absolutely
fireproof, and at the close of business
each and every document which hereto-
fore would be stowed away upon its
shelf.

The clerks are now engaged in send-
ing out blanks and other supplies to
the supervisors throughout the coun-
try, and if they were able to ship at the
same time it would require a long train
of freight cars. The first thing for the
supervisors is to subject the candidates
for appointment as enumerators to a
test. Each will be given a sample
blank, which will be required to fill out
with imaginary information as he will
be required to obtain from the peo-
ple in his district, giving the names,
the abodes and the personal informa-
tion concerning each citizen. After
these blanks are filled they will be re-
turned to Washington for examination,
and the selection of enumerators will
be based upon the intelligence, accuracy
and the neatness with which they
are made.

**APPEAL OF TRANSVAAL.**
LONDON, February 3.—The papers
here publish extracts from a remark-
able document from the office of the
Secretary of State at Pretoria, dated
December 16th. The document com-
prises 10,000 words and is countersigned
by Secretary of State Reitz. It seems
especially written for the American pub-
lic. It says:

"We to a great extent depend on
America and Europe for our food stuffs
It will be criminal on the part of the
great powers to suffer this little nation
to perish by famine, since the sword has
fallen. Since 1879 when the President
of the United States acknowledged our
republic as a sovereign state, Ameri-
cans have flocked here in numbers. In
every instance the hand of fellowship
has been extended to them. Not a single
case of disagreement is on record,
but with the first war note of the op-
pressor we are informed that America
is acting in league with the enemy.

"If our sister republic has no sympa-
thy with us; if the boasted condescen-
sion of the British is to be preferred
to sincerity and truth, we will no longer
believe in the justice and integrity
of the American Nation, and her pro-
fession of Christianity we will consider
empty sound."
Secretary Reitz further says the
Boers have never abused the white
flag, and that the British ordered the
women, children and Americans citizens
at Derdepoort.

**A GOOD THING.**
There's one good thing when they feel
dry.
That business men cannot pass by.
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer.

**Company.**

The cleanest, brightest, safest and really
in the long run, the cheapest and best light
for use in the family residence, is the incan-
descent electric light. Safe; nothing could
be safer. A few days ago a prominent gen-
tleman of Honolulu came rushing down to
the office of the Electric Company and said:
"Give me figures for wiring my house, and I
want it done at once; no more lamps for me.
Last night a lamp tipped over and it came so
near setting fire to the house and burning my
children and I take no more risks."
This is the sentiment of quite a number in
the past few weeks, who have ordered their
houses fitted with the perfect light.
Just think it over and make up your mind
that you want the best and safest light; send
for the Hawaiian Electric Company and tell
them what you want.
We have a complete stock of everything in
its line and have just received a lot of the
very latest designs.

Kaialani Drive—aptly termed, the via Maxima or Grand Boule-
vard, and in itself an artistic piece of engineering—affords easy access
to all points, as also scenic and marine views of exquisite grandeur at
every turn.

**Electric Railway.**
Contracts have been let for material, and the work of construction
equipping and installation placed in the hands of a competent electrical
engineer to be fully completed by June 1st. Having an independent
power plant we are prepared to furnish electric power for lighting,
heating and other purposes, to our home builders at most reasonable
rates.

**As Promised.**
Our reservoirs are now completed and water mains laid so as to
supply each lot. Permits for making water connections will be granted
on application.

An inspection of the attractive homes now building, or the name
of purchaser of lots, will convince anyone that **PACIFIC HEIGHTS**
is the choicest and most select of all the residence sites of Honolulu.

SATURDAY, FEBRUARY 17, 1906.

It is extremely satisfactory to learn that the crews who went out to the rescue of the Invernesshire all reached that vessel. Captains of experience on the harbor front were very much alarmed as to the fate of two of the boats.

The high prices at Hilo were foreshadowed by expressions of opinion from Kona and Kau. However the channels of trade will soon be opened and prices will come down to normal again.

The Japanese at Oloa appear to have been giving trouble. The advice given by Consul-General Saito and the Immigration firms, of sending delegates would probably have obliterated the scare. Japanese of the laboring class are prone to making demonstrations.

Colonel Baden-Powell's account of the use of the telephone in warfare is interesting. If shells are cast into a town the population can manage to get out of the way by due notice being given through the telephone from the outposts to the headquarters.

The Australia will carry a very large passenger list again. This is the time of year when people are beginning to think of winging their way to the East. The traffic, owing to the plague has become much congested, but things look brighter for regular travel, and when once the through steamers take to carrying passengers we shall reach our normal condition again.

Everybody is interested in the rat crusade which is to be inaugurated today. If everybody goes in with a will there should be many dead rats during the next week. But the crusade should be conducted outside the infected district, and the other Islands should be urged to enter upon it as well. A rat should become as rare as the dodo—that is, it should cease to exist on the Islands.

**HAYWOOD'S REPORT.**

The report of Consul-General Haywood upon the means of shipping our product clean is very satisfactory. Sugar from the plantations around Hilo town can be shipped without any danger of infection, even if an epidemic of plague does set in the sugar would not be effected.

Wainaku plantation has taken a very proper step in putting a rat proof fence around the mill. With the knowledge that rats are such dangerous carriers of the plague, the protection of a mill by this means is eminently a wise move, and similar precaution might be taken on Maui.

Mr. Haywood also states that the products of Maui can be shipped either from Kahului or Kihel without the slightest fear of infection. This is good news too. It has been bad enough to have to fight the plague, but the fear that it might interfere seriously with our commercial industry was very pronounced when the news of an outbreak on Maui and Hilo came down.

It was a wise thing on the part of the Consul-General to at once proceed to the two Islands and to see for himself what the situation was. There is nothing like personal inspection for giving weight to a report. It is much better to be able to say "I have seen" instead of saying "I am informed."

**BRIGHTER PROSPECTS.**

Nothing could have been more satisfactory than the report brought back by President Wood from Hilo and Wailuku. The Hilo case is apparently a solitary one, if it was a case of true plague, and the plague in Maui had not spread, nor had there been any developments among the quarantined people. Dr. Wood evidently considers that Mrs. Serrao's case was one of plague, and was so satisfied of it that he ordered the house and store to be burned, while all who came in contact with the dead woman have been put in strict quarantine. It is well to take no chances, and the people of Hilo will appreciate Dr. Wood's promptitude.

The cause of Mr. Serrao's attack Dr. Wood traces to a sewer which practically ran into or through the back yard, and this would seem strongly to support the theory that plague germs need not necessarily have been imported, but that they have germinated in our own filth. It is therefore incumbent upon the citizens of Hilo to very thoroughly cleanse their town, and above all to kill off their rats. For it would appear that in spite of all precautions taken for preventing the approach of plague from without, the subtle destroyer may make an attack from within, where filth conditions are favorable. The Hilo case was promptly seized and the results are satisfactory. The case of Kahului is still more satisfactory.

factory. The quarantine of that village was not established till some time after the cases of plague had broken out, because the physician called in failed to diagnose the cases as plague, but considered them to be "malignant malaria." There was the danger that infection might have been carried to other parts of the island, especially as the census shows that about one-third of the population had managed to get away before the cordon was drawn round the place.

The population which was infected, however, seems not to have developed any cases of plague as yet, and there seems likelihood that there will be complete immunity. This tallies with our experience here. As long as we were obliged to keep our infected people in the infected district, so long did we have cases of plague occurring daily. But when we got the people into the detention camps, had them bathed and fumigated and supplied with new clothes very few cases indeed developed. Could we have dealt with Chinatown, as thoroughly and as quickly as Kahului was dealt with, our list of deaths from plague might have been considerably curtailed. But at first we had no means of housing the people who had to be taken out, and the gradual destruction of the infected district took time. A higher power intervened, and saved us.

With such encouraging news from the other Islands, and the prospect that in Honolulu we have at last won our fight, for it is now eleven days since any case has developed, the latter part of February is a pleasant prospect than it seemed to be in the commencement of the month. We are not quite out of the wood, but we are on the edge of it and can daily congratulate ourselves upon the brighter prospects which each day shows.

Many signs are now encouraging. Yesterday the America Maru agreed to carry passengers, showing that there was no longer the necessity of fearing a vigorous quarantine. Last week the churches and the theater opened. The fraternal and other societies have resumed their regular meetings. On Monday the house to house inspection will be reduced from two visits to one visit daily. All this tends to make us feel more light hearted and to realize that the great strain which has been on us since December is being lightened. We ought to be heartily thankful that we have got so far so well.

**HONEY.**

Honey is growing into quite a business here, and there are quite a number of honey farms scattered along the line of railroad, up the valley and towards Waikiki. In view of the fact that the honey crop in the United States has practically failed, there ought to be bright times for the honey farmers.

The New York Evening Post has quite an article upon the honey situation, and states that the price of honey has gone up 40 per cent during the last two years and in some cases it has even doubled. The falling of in product is especially noticeable in California. In 1897, New York received from California 500 car loads, 1898, the yield fell to 100 car loads, and in 1899, there were but 60. St. Lawrence County in New York used to be a great honey producing place. In 1898, there was forwarded to the city 4,000 crates, but in 1899, it fell to only 200 crates.

The honey crop of Hawaii has been exported to London in a great measure. Of course there is some local demand, but it is not large. There seems no reason why a considerable portion of the crop should not now go to the United States. Hawaiian honey is considered as remarkably pure, and if it has any fault, it is that it is too sweet.

Of late the bees have been much improved by the introduction of Italian queens, and the old black bee is being replaced by a much better worker. The hives are also all up to date and there is not nearly the loss in gathering the product which there used to be by the antiquated methods of the past. Honey is coming forward as quite an important minor industry.

**THE LOCK AND THE KEY.**

You can operate a lock only with the key that fits it. Very well. So you can cure a disease only with the medicine that goes down to the cause of it. Now, many so-called diseases are in truth only forms of one disease, branches of one tree, as we may say. For example, if we can nourish the body and enrich the blood, we speedily get rid of many of our troubles, such as Anemia, Fevers, Rheumatism, Scrofula and Blood Disorders, Rickets in children, Lung Diseases, etc.—all proofs that the body lacks vitality and force. Nothing is so effective a body-builder as cod liver oil; but, alas, how many are nauseated at the very thought of it. In

**WAMPOLE'S PREPARATION,** which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, we have the rose without the thorn; the valuable drug minus its vile taste. Add to this the Compound Syrup of Hypophosphites for making bone, and the Extracts of Malt and Wild Cherry for equally excellent purposes, and we have a remedy indeed; one as pleasing to the palate and stomach as it is potent and successful in banishing disease in old or young and making life worth having. "You cannot be disappointed in it." More lives have been saved by it, than by any other medicine; you get an effective remedy while seeming to be using only a palatable food. "Dr. G. C. Shannon, of Canada, says:—I shall continue its use with, I am sure, great advantage to my patients, and satisfaction to myself." Has all the virtues of cod liver oil; none of its faults. It is not like the old things; it supersedes them. One bottle convinces. Genuine only with trade mark is effective from the first dose. Sold by all chemists.

### BY AUTHORITY

Honolulu, Feb. 14, 1900.

By order of the Board of Health, on and after midnight, February 14th, 1900, King street, from Nuuanu to River street, is hereby opened for public traffic. HENRY E COOPER, Acting President Board of Health.

Honolulu, Feb. 14, 1900.

The Board of Health hereby requests that the public of Honolulu carry out the suggestions of the Citizens' Sanitary Committee in regard to the poisoning of rats and the subsequent disposition of the same.

The Board further suggests that the poison shall be placed in suitable localities each night for one week, beginning Saturday night, February 17th. By order of HENRY E COOPER, Acting President Board of Health.

### NOTICE TO SHIPPERS.

In the matter of disinfection or fumigation of freight, shippers will make no distinction between that destined for points on the Island of Oahu and that destined to points on other islands.

The original cases must be opened and the straw or loose paper wrapper or sawdust or other packing material removed from each bottle or tin, each bottle or tin is then to be dipped in an approved disinfecting solution; the interior of the original case is then to be washed out with disinfectant; in re-packing the already disinfected bottle or tin no wrapper may be used unless same has first been fumigated or disinfected; the filled case is to be closed up and the entire exterior is to be disinfected.

In cases where the tinned or bottled goods have no loose paper or straw wrapping, or where they are not packed in saw dust or any similar substance the entire original package, after two or more large openings have been made in it, may be dipped in a disinfecting solution; but great care must be exercised to ensure the thorough disinfection of each tin or bottle and the whole interior of the original package as well as the whole exterior surface of such original package.

Shippers having the interests of the entire island community at heart will exercise very cheerfully every precaution and assist rather than impede the efforts of the Board of Health in preventing a further spread of bubonic plague in these Hawaiian Islands.

Willful infringement or careless disregard of these or other regulations of the Board of Health on the part of shippers will be followed by the immediate withdrawal of privilege of shipment of any goods whatever by those engaging in such infringement or carelessness.

BOARD OF HEALTH, A. B. INGALLS, Superintendent of Disinfection and Fumigation. Honolulu Feb. 15, 1900.

## MANY PASSENGERS AGAIN

THE AUSTRALIA'S LIST LIKE LAST MONTH.

A Hundred and Seventeen Given Bookings—Regular Travel Now Open Both East and West.

A hundred and seventeen passengers have booked to take the steamer Australia to San Francisco next Tuesday. Before the vessel goes the number will probably be increased, so that the steamer will have a list like she had last time. The plague record has resulted in some easing up of the regulations regarding passengers, but the same programme as regards inspection and fumigation will be followed as was last month. The baggage must all be sent to the Oceanic warehouse before the vessel is to be taken to the stream.

The first lifting of quarantine as regards the travelers came yesterday, when the S. S. America Maru consented to take passengers to the coast. A number of those who had booked for the Australia took advantage of the opportunity to leave a few days sooner. Today captain Hemming of the Miowera decided to take cabin passengers. His is the first vessel to take anyone from here to the colonies since the plague began. None have yet managed to get to China and Japan, but the next vessel is expected to take them.

The Australia's list of passengers is as follows: W. O. Atwater, Miss F. Alright, J. F. Badenoch, A. H. Badenoch, A. H. Bachelder, W. S. Brigham, C. R. Bowman and wife, A. C. Danning and wife, Captain C. S. Beath, Cecil Brown and wife, A. Bramer, Mr. H. E. Cooke, J. Conkley, Miss J. Crow, J. Craig, Miss Mary Cordeiro, H. Campbell, Miss Cheeseman, J. A. Colvin and wife, Emil Duchemin and wife, Frank Davis, A. de Erlach, J. C. Fitzsimmons, Captain W. B. Godfrey and wife, Misses Mary, Clara, Sophie and Ruth Godfrey, George Godfrey, Mrs. Garvin, Miss E. Garvin, M. Green, Mrs. Annie Green, A. Gartenburg and wife, Faxon B. Gedge, Emily E. Gedge, Vernon M. Gedge, Miss H. Gower, F. W. Hankey, C. Von Hamm, A. N. Jackson and wife, A. H. Jordan, W. H. Lorke and wife, A. C. Lovekin, Mrs. H. Mehrtens, J. E. Miller and wife, R. M. Mein, L. F. Marshall, Mrs. E. G. Mansfield, Mrs. Penfield, F. G. Prescott, Charles Peterson, Miss Pope, George Randall, Mrs. E. O. Reisel, Miss C. E. Rowan, H. L. Richards and wife, Miss Mary Richards, J. R. Riley, P. C. Rawlings, D. J. Styne, Miss N. Smith, Miss Kate Smith, Edward Shelley, Captain A. L. Soule and wife, Arthur Soule, Miss Elsie M. Suuntra, M. Swift, N. S. Sachs and wife, H. B. Underhill, W. M. Von Valkinberg, C. W. Yolland, wife and child, Robert Young, William Walhams and wife, W. S. Withers, Miss J. Weber, A. H. Williams, Miss M. A. Williams, Mrs. Alice Wilson, B. Lichtig, T. S. Southwick, J. C. Pond, Miss Wefard, Miss Rosenberg, Miss L. Hill, Mr. Ponds and family, T. P. Flutin, Otto Schult, Mrs. Viven, C. Widemann, T. Taylor, Lord Thym, Miss Rice, Miss Beresford, Miss Oakley, Mrs. Lederer, I. J. Pasquall, Mrs. Bale.

It is announced that the Australia will leave promptly at four o'clock next Tuesday afternoon. The work of discharging her cargo has been continued almost night and day since she arrived, and it appears likely that she will be ready to go at the time set.

## SHIPPING INTELLIGENCE

(Continued from Page Two.)

DEPARTING. Saturday, February 17. S. S. Miowera, Hemming, for the colonies.

### MEMORANDA.

Two more barks were sighted off Koko Head this morning, making three and a four-masted schooner for one day's arrivals. The brig Harriet G. and bark Albert entered the harbor from their anchorage outside this morning. The S. S. Miowera will probably leave this evening for the colonies. She brought a large shipment of Seattle beer.

### HILO.

Arrived, Feb. 10, Am. schr. C. T. Hill, H. Hansen, from San Francisco, 209 tons feed stuff; Feb. 11, Hawaiian bk. Andrew Welch, Drew, from Honolulu in bulk to load sugar; Feb. 12, Hawaiian ship Falls of Clyde, A. E. Clippierfield, 4000 tons general merchandise, 30 head stock and 16 passengers. Mrs. W. McCaslin, Mrs. A. G. Curtis and 2 children, Mrs. McMillan, L. H. Thompson, A. E. Sutton, Miss F. A. Sutton, Geo. A. Turner, R. McConnor, R. H. Bowman, Mrs. G. H. Bowmar, A. Stewart, Tieknor, E. C. Bowman, A. Stewart, Feb. 13, Am. schr. W. F. Witzemann, M. B. E. Butenshon, 300 tons general merchandise to R. T. Guard.

Departed, Feb. 11, Am. bktn. Irmgard, Schmidt, with 18156 bags of sugar to Welch & Co., from the following plantations: Honokaa, 6576; Pacific Sugar Mill, 5255; Onomea, 5377; Honolulu, 948.

To sail, Feb. 15, bk. Roderick Dhu, for San Francisco, with the following passengers: Mrs. W. D. Smith and 2 children, Mrs. Carlsen, Miss F. W. Smith, Lillian Smith, Frank Smith, N. E. Nelson, Miss F. Fisher, Joseph Salvador and wife, J. James, Mr. Orbin and Mr. Tuttle; Andrew Welch, for San Francisco about Feb. 25; U. S. Transport Port Albert for Manila as soon as sufficient water can be taken aboard for the stock.

In port at Hilo: Andrew Welch, C. T. Hill, Falls of Clyde, I. M. Coleman, O. M. Kellogg, Roderick Dhu, U. S. Port Albert and W. F. Witzemann.

### MRS. PALMER FIGHTING HARD.

Chicago Woman Determined to be a Commissioner to Paris.

WASHINGTON, D. C., February 1.—Mrs. Potter Palmer has been here nearly a week, doing some quiet electioneering. She wants to be one of the twelve honorary commissioners to the Paris exposition. It is learned that Mrs. Palmer's name was at the head of the list when opposition developed, and the appointments were held up. One story is that the source of the opposition is Commissioner-General Ferdinand Peck, and the cause social jealousy. The official reason, however, is that the Paris exposition authorities do not want a woman to come over as an official of the exposition, because as a commissioner she would have something very like a diplomatic standing. She would have to be invited to strictly official functions, where she would be the only woman present. But Mrs. Palmer is determined to go with the prestige of official standing.

Fine Book and Commercial Printing at the Star Office.

## Commissioner's Sale of Real and Personal PROPERTY.

Pursuant to an order made by Honorable A. Perry, First Judge of the Circuit Court of the First Judicial Circuit, held the 21st day of January, A. D. 1900, I am directed to sell at public auction, subject to confirmation by the Circuit court,

ON SATURDAY, MARCH 3, A. D. 1900, At 12 o'clock noon of that day, all the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-twelfth interest each of said minors, and also the one-twelfth interest of Madeline C. K. Dowsett and Annie H. K. Dowsett, minors, in estate of James I. Dowsett deceased, in and to all those certain pieces and parcels of land situate on the Islands of Oahu, Maui, Hawaii and Molokai, and more particularly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, described in deed from John H. Wood to the Honolulu Dairy Company, dated April 30th, 1882, and recorded in the Registry of Conveyances in Honolulu in Liber 138 at pages 174 to 177, containing an area of 271 acres, more or less.
2. The land situated at Kapalama, in Honolulu, Island of Oahu, known as the Akepo lot, being a part of Royal Patent No. 5572, and described in deed made by Kahea and J. W. Akepo to James I. Dowsett, dated the 3rd day of February, 1882, and recorded in Liber 72 on pages 210 to 212. Containing an area of 1.13 acres.
3. The land situated at Apua, in Honolulu, described in deed from A. Francis Judd to David Kahanu, dated March 21st, 1870, recorded in Liber 29 on pages 424 and 425, and the land described in the deed from John O. Dominis and E. Mahai, Administrators of the estate of Josia Kanukai, to David Kahanu, dated June 7th, 1866, and recorded in Liber 21 on page 315, and in a deed from Kahananu and Keohokii, her husband, and Kaluahuine to David Kahanu, dated September 14th, 1866, and recorded in Liber 22 on pages 106 and 107.
4. The land situated at Kakaako in Honolulu, described in the deed from Keokolohe and Nainoaieua to David Kahanu, dated March 30th, 1860, and recorded in Liber 63 on pages 415 and 416. Containing an area of 1-5 of an acre.
5. The land at Aala on Liliha street, in Honolulu, described in the deed from Nika and Puniakala, his wife, and Keala to David Kahanu, dated October 9th, 1869, and recorded in Liber 29 on pages 40 and 41; also the land described in the deed from John Thomas Waterhouse and Eleanor, his wife, to David Kahanu, dated January 25th, 1878, and recorded in Liber 56 on page 83, and 64; also land described in the deed from Kia Nahaoleiua and Nabele to David Kahanu, dated January 10th, 1876, and recorded in Liber 49 on pages 385 and 386. Containing an area of 3.03 acres.
6. The land situate on King street, in Honolulu, described in the deed from F. M. Hatch to James I. Dowsett, dated October 15th, 1888, and recorded in Liber 115 on pages 68 and 69. Containing an area of 17-100 acres.
7. The land situate at Kapaeha, Kapalama, in Honolulu, being a portion of Apana 1, Royal Patent 2356, L. C. A. 2440B, described in the deed from Thomas Carry and Mary, his wife, to James I. Dowsett dated June 14th, 1887, and recorded in Liber 106 on pages 192 and 194. Containing an area of 1900 square feet.
8. The one undivided half of the lands situated in Honolulu, known as the land of Kahaohao and Kahaloa, L. C. A. 153 to Wm. Sumner, dated March 5th, 1849.
9. The land situated at Puhawai, Waianae, Island of Oahu, described in Royal Patent 1973, L. C. A. 7465, and in the deed of Fine and Kinikaku to James I. Dowsett, dated April 30th, 1888, and recorded in Liber 110 on page 256. Containing an area of 6.74 acres.
10. The land situated on Pearl River Bay near Honolulu known as Puloa, containing an area of 224 acres, and described by metes and bounds in the deed from Kekanonohi to Isaac Montgomery, dated September 7th, 1849, and recorded in Liber 4 on page 4.
11. The land situated at Honolulu, at Ewa, on the Island of Oahu, comprising 86 acres, more or less, now under lease to Sing Chong & Co.
12. The land situated at Kapalama, Island of Oahu, described in Royal Patent 2366 issued to John Meek, and comprising 9 58-100 acres; and also the land situated at the same place part of the III of Kahaoua, described in L. C. A. 8515, Apana 1, Part 1, and comprising 1 725-1000 acres, more or less, which said two last mentioned parcels of land are now held under lease dated September 15, 1896 by Y. Ah In.
13. The land situated on the Island of Maui, known as Rose Ranch, comprising all the lands described in certain Royal Patents and deeds as follows: All the land described in the deed from Parker N. Makee and others (James I. Dowsett, dated March 3rd, 1886, and recorded in Liber 191 on pages 200 et seq.; also the leasehold estates in the following lands: Lease of the Hawaiian Government of the Ahupuaa of Kanala to Catherine N. Makee, Number 292, dated February 9th, 1861. Lease from John M. Kapena to James Makee dated December 22nd, 1876, and recorded in Liber 47 on page 496. Containing an area of 21,650 acres.
14. The land known as Kaulu situated at Ewa, Island of Oahu, being part of Hoanae. Containing an area of about one acre.
15. The land with an orange grove situated at Hana, Island of Maui. Known as Dowsett's land. Containing an area of 1 1/2 acres.
16. The taro land situated on the Island of Molokai described in Royal Patent 2330.
17. The land situated at Waipio on the Island of Hawaii known as Dowsett's land.
18. The land situated at Kapulona in Honokaa, Island of Hawaii, formerly leased to J. M. Horner & Sons and now occupied under said lease by the Pacific Sugar Mill. Containing an area of 17 1/2 acres.
- Also the leasehold estates in the following lands: The land of Halawa, the land of Kahauiki, the land of Lilehua, the land of Mikilua, the land of Nana-kuli and the land of Aiea, all situated on the Island of Oahu.

Also all the live stock belonging to the Estate of James I. Dowsett, deceased, comprising 6,000 head of cattle, more or less, 60 head of oxen and bulls, and 212 head of horse and mules.

Also all and singular, the lands, chattels, choses in action, and property, real and personal, belonging to the Estate of James I. Dowsett, deceased, or to which said Estate may be entitled, whether herein enumerated and specified or not.

Terms of sale are cash in U. S. Gold. Deed at the expense of purchaser. For further particulars apply to

PAUL NEUMANN, ESQ., or GEORGE LUCAS, Commissioner.

BY AUTHORITY

SANITARY REGULATIONS OF THE BOARD OF HEALTH FOR HONOLULU DISTRICT.

The following regulations shall apply to, and be in force within, the portion of Honolulu described as follows: Beginning at the seashore, at the west corner of Loko Kuwili 2 near the east corner of the Kapalama Detention Camp and running mauka, along the Waipiole road to the old line of the Oahu Railway, thence along Oahu Railway to the boundary of Maunakea, thence mauka, along the Mokauea boundary and the Kahlili road to the survey station at the lower end of Mokauea ridge, thence in a straight line to the survey station above the north end of Wylie street, thence along the central line of Wylie street to Nuuanu street, thence in a straight line to the forks of the Manoa road, thence in a straight line to the corner of the Waialae road and the Kapahulu road, thence down the Kapahulu road and along Campbell Avenue to Monsarrat road, and thence in a direct line over the summit of Diamond Head to the seashore at high water line, and thence to the initial point.

REGARDING BUILDINGS AND YARDS. RAIN WATER.

1. Where the space between the buildings is less than fifteen feet, the water from the roofs of the buildings on the sides of such space shall be conducted in water tight leaders and made to discharge into suitable drains leading into street or alley gutters; and if the building abuts on an alley or roadway of like width the same rule shall apply.

AIR SPACE BETWEEN BUILDINGS.

2. There shall be a clear air space of ten feet between all buildings except those fronting on a street. No building except such as fronts on a street shall be built within five feet of a boundary line. The word "buildings" in this paragraph shall be construed to mean and include sheds, lean-tos, privies, and all other structures.

LIGHT AND VENTILATION OF DWELLINGS.

3. Each and every room intended or used for human habitation shall be provided with at least eight square feet of window area having unobstructed access into the open air for each 100 square feet of floor space in said room, and free access shall at all times be had to the same by the occupants of the room; and at least one-half of such window space shall be movable and available for ventilation.

AIR SPACE UNDER BUILDINGS.

4. Every building shall have on an average at least twenty inches of clear space for the circulation of air between the floor timbers and the ground, and shall have sufficient openings for ventilation in the outer walls to admit a free circulation of air; but, in case this air space cannot be secured without reaching "ground water level" then there shall be no air space, but the floor shall be of concrete or masonry.

YARDS, AREAS, COURTS, ETC.

5. Yards, areas, courts, alleyways and other open spaces within or between buildings, where water is used for washing of any kind, shall be properly graded and cemented, or paved so as to be water proof, and drained into trapped drains properly connected with sewer or cesspool, and no permanent wooden floor or grating shall be maintained over the same.

WATER TIGHT FLOORS.

6. All houses, structures, rooms or parts thereof, in which water is used, or intended to be used, in such quantity as to render the floor or floors thereof constantly damp, shall have such floor or floors made absolutely water-proof, with proper drainage into trapped leaders conveying the water away into cesspool or sewer; and the water proofing of all such floors shall be done in a manner satisfactory to the Board of Health.

7. No building or structure shall be used as a residence or place for human habitation or abode which is situated upon land where there is standing water within eighteen inches of the surface of the ground; nor shall any building or structure be so used that is placed on land that has been made by filling in with refuse or garbage, or that is declared by the Board of Health to be of foul or corrupt material.

REGARDING PRIVY-VAULTS AND CESSPOOLS.

8. No privy-vault, sink or cesspool

in Honolulu, shall hereafter be located or constructed within fifty feet of any stream, lake, pond, well or spring of water, nor within two feet of the line of any lot; nor shall it be made more than eighteen or less than six feet deep or placed in such a position that it is not easily accessible for emptying and cleaning.

9. When deemed necessary by the Board of Health, the sides and bottom of any privy-vault, sink or cesspool, shall be made either wholly or in part water tight, so as to prevent any saturation of the ground about the said vault, sink or cesspool, and shall be provided with suitable ventilating arrangement.

10. No structure or cover shall be put upon or over any privy-vault, sink or cesspool, until it has been inspected by the proper Agent of the Board of Health and approved as meeting the requirements of these regulations and of public health.

11. Any privy-vault, sink or cesspool, already constructed in Honolulu which has become a nuisance, or in any way dangerous to life or detrimental to health, shall be removed, re-constructed, or altered to meet the requirements of these regulations and of public health, as directed by the Board of Health or its Agent.

12. The Board of Health or its Agents may cause the emptying or disinfecting of any privy-vault, sink or cesspool that may be deemed offensive, or when required by public health, at the expense of the owner or occupant of the premises.

13. Within thirty days after the public sewer system is put into operation the use of privy vaults and cesspools shall be entirely discontinued within the limits of such sewer system, and all privies shall be removed, except in so far as permission may be granted by the Board of Health to transform the same into approved water closets connected with the sewer system.

14. No privy vault or cesspool shall be excavated or maintained within ten feet from any dwelling-house or inhabited building or cook-house or place where cooking is done.

15. No privy vault or cesspool shall be maintained or excavated in any place where for any reason free and unimpeded access may not be had to the same by an excavator cart.

16. No privy shall be built or maintained so as to entirely cover the cesspool or vault under the same, but the cesspool or vault shall project out on one side beyond the superstructure in such a manner as to allow the inspection and removal of the contents of said cesspool or vault. The contents of any privy vault or cesspool shall not be allowed to rise within eighteen inches of the top of the same or to such a height as to flow out onto the surface of the ground.

17. No cesspool or privy vault shall be built or maintained in any location except the same shall have a substantial water-tight curb which shall retain the earth without and the contents of the cesspool or vault within, and shall be provided with a substantial water-tight cover, having a small, movable lid in the same to facilitate examination and removal of the contents.

18. All cesspools or privy vaults shall have four-inch cast-iron vent pipes with caulked lead joints, or galvanized iron pipes, extending not less than twelve feet into the open air, and if within twenty feet of an inhabited building the top of such vent pipes shall extend above the roof of the highest building within a distance of twenty feet of the same. All such vent pipes shall run as direct as possible. Every privy shall have proper seats with hinged lids to cover the opening of same, which shall be kept closed when not in use.

19. All connections to cesspools or privy vaults shall be made with cast iron, lead or vitrified, sewer pipe. All urinals shall be connected to cesspools, vaults or sewer by trapped waste pipes.

20. All cesspools shall be properly cleaned out at once, and hereafter at least once every four months, and shall be thoroughly disinfected at least once each week with such disinfectants as the Board of Health shall direct; all such cleaning and disinfecting to be at the expense of the owner of the property.

21. All waste, soil, sewer or drain pipes shall be of cast iron, lead or vitrified clay. If of iron or lead the joints shall be caulked with molten lead; if of vitrified clay, they shall have tight cement joints all joints to be smooth in the inside; open drains may be of water tight masonry.

22. All cesspools or privy vaults when abandoned and the use thereof discontinued shall be at once entirely emptied of liquid and solid contents, and shall be disinfected and filled with earth, sand, ashes, or other such clean materials; and the wooden curbing about the same removed to a depth of at least four feet below the surface of the ground. In no case shall refuse, garbage or any unclean material be used in filling such privy vault or cesspool.

23. All buildings and premises which do not conform in every respect to the requirements of the foregoing regulations are hereby declared nuisances and dangerous to the public health.

REGARDING GARBAGE.

24. Garbage will be carried away free of charge by the Board of Health carts within these limits, i. e.: School street mauka; Alapai streets east; Liliha street west; and seaward by the water front.

25. It shall be the duty of each house owner, householder, lessee, or tenant who is a housekeeper, within the district in which the free removal of garbage is provided, to supply, and keep ready for use suitable container or containers, of not more than eighteen cubic feet capacity and provided with tight covers, for the reception of all garbage, and to cause the same to be set out in such places and at such times as the Board of Health shall direct for the convenience of garbage collectors. All empty containers shall be kept clean and thoroughly disinfected.

26. Yard scrapings, tree cuttings and stable manure will not be removed by the Board of Health carts.

27. All garbage and refuse which is subject to decay shall be collected by householder or occupiers of dwellings each day; and if within the limits named in section 24 the same shall be placed in containers as provided in section 25 for collection; and if beyond said limits the same shall be burnt or removed.

28. No garbage shall be used for filling house lots or other tracts of land.

29. No garbage shall be deposited in any place not authorized by the Board of Health.

Extract from Penal Code:

"Section 874. Every person who shall violate any regulation of the Board of Health, after the same shall have been published, as provided in the last preceding section, shall be fined not exceeding one hundred dollars."

C. B. WOOD, President Board of Health

OFFICE OF THE BOARD OF HEALTH.

Honolulu, Feb. 7, 1900.

Section 28 of the Sanitary Regulations of the Board of Health is hereby amended so that said section shall read as follows:

"Sec. 28. No garbage, stable manure, night soil, or animal or vegetable refuse of any nature which is subject to decay shall be used for grading purposes, or for filling up any house lot or other tract of land."

C. B. WOOD, President of Board of Health.

THE HAWAIIAN HARDWARE CO

FOR ST., opp. Spreckels' Bank.

The 1900

Columbia, Rambler and Hartford Bicycles seem to be just about the right thing. We have had supplies of these wheels and will have a big stock by the Australia in two weeks. Most of the chainless Columbias are sold to arrive there is such a demand for this wheel. They are 4 pounds lighter this year and are fitted with the "Special Tropical Tire" which makes them a perfect mount for these Islands. The Columbia Chainless weighs less than 25 pounds and we guarantee it for any rider weighing up to 300 pounds. Our "Hartford" and "Rambler" chain wheels are beauties, call and see the samples. We have a complete repair shop as ever, though it is not conveniently located at present. During this year we expect to get back to the old corner, where a fine modern department is to be fitted up in our new store. At present we sell, rent and repair wheels in the brick building on the upper side of King Street opposite to where our old stand was and are able to do the best repair work done in town, rent the well known Columbia Chainless, and sell any model of Columbia, Rambler, or Hartford for cash or on easy installments. We want your custom.

HEALTH BOARD THINKS THAT SUFFICIENT.

Mr. Thomas Denied Permission to Erect New Building at Smith and King Streets—Routine Matters.

At the meeting of the Board of Health yesterday afternoon it was decided to discontinue one of the inspections each day by the Citizens' Sanitary Committee. The reason is that some of the inspectors are finding the work exceedingly irksome and it is not deemed necessary now to have the double inspection.

E. B. Thomas was denied permission to erect a new one story brick building at the corner of Smith and King streets for the present. The principal reason was that the premises are within the late infected district and it is not considered advisable to build there at present. Another reason for refusing the permit is that the scheme of streets and alleyways in Chinatown has not yet been decided upon.

J. P. Mendonca was refused permission to go into Kaneohe and drive beef cattle to Honolulu. The application was made because Mr. Dowsett had been given permission to drive from Funua. It appears, however, that Puloa is just beyond the quarantine limits and is not settled while beyond the Puloa conditions are different. It was voted to allow Mr. Mendonca's man to drive the cattle to the top of the Puloa and there turn them over to men from town.

A committee of ladies asked permission to erect a building at Kalihi for the care of certain Japanese women who wish to lead a better life. It was decided to refer the matter to Superintendent J. D. McVeigh for an opinion.

Dr. Mouritz submitted a proposal to go to the Kaunakakai side of Molokai and treat fever cases at the two plantations, assisting the regular plantation physician. He agreed to undertake the important work for four months at a salary of \$125 a month and \$50 a month for medicines. Proposition accepted. Frank Foster offered to go as assistant to Dr. Mouritz, but his proposal was deferred for the present.

A request of the ship John McDonald to be allowed to discharge her ballast into another vessel sailing to the Sound was referred to Dr. Carmichael.

## SUNDAY CONCERT.

This program will be presented by the band at Makee Island tomorrow afternoon:

PART I.  
Overture—"French Country"..... Bela Bala

Overture—"Ladoiska"..... Kreutzer  
"Star Spangled Banner."

# FOR RED ROUGH ITCHING BURNING HANDS PALMS

**FOR PAINFUL FINGER ENDS**  
One Night Treatment. Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

**HOW TO CURE TORTURING, DISFIGURING HUMORS.**  
Bathe the affected parts with HOT WATER and CUTICURA SOAP, to remove the crusts and scales, and soften the inflamed, cracked, bleeding, or thickened cuticle. Next apply CUTICURA Ointment, the great skin cure and purest of emollients, to allay itching, irritation, and inflammation, and soothe and heal. Lastly, take a full dose of CUTICURA RESOLVENT, to cool and cleanse the blood, and expel HUMOR GENIUS.  
This simple treatment affords instant relief, permits rest and sleep, and points to a speedy, permanent, and economical cure of the most torturing, disgusting, itching, burning, and scaly skin and scalp humors, rashes, and irritations, with loss of hair, when all other remedies, and even the best physicians fail.

Sold every where. Price, THE SET, \$1.25; SOAP, 25c.; OINTMENT, 50c.; RESOLVENT (4 size), 50c. PUTTER D. AND C. CO., Props., Boston, U.S.A. British Depot: F. NEWBERRY & SONS, London. How to Have Beautiful Hands, See

# BULLER'S FLYING WEDGE

FOOTBALL TACTICS APPLIED BY THE BRITISH.

An Advance of Another Five Miles Would Enable The British to Score a Touch Down.

LONDON, February 9.—The military experts are spending their energies just at present figuring out, from the meagre news given out by the War Office, just what Gen. Roberts and his chief assistants are doing in South Africa. What puzzles them is the silence of the War Office.

It is figured out that Gen. Buller is not attempting to turn the Boer position. His seeking to break his way through the Dutch lines by means of his hammering power of artillery. During the first three days, artillery fire from 36 guns at one point and 72 at another were concentrated upon the enemy's entrenchments. Gen. Buller was not in a hurry, but was content with holding the position taken by Lyttleton's and Hildyard's soldiers, and with moving his guns across the river to support them. The wedge had been driven in only a short way, but it was in the direction of Ladysmith, which was not more than ten miles from the advanced British position. If it could be hammered forward another five miles, White would be enabled to co-operate with Gen. Buller.

CHULALONGKORN REMEMBERS. WASHINGTON, February 6.—The president was born fifty-seven years ago, January 23, 1843, at Niles, Trumbull county, Ohio, and a great many of his friends remembered the fact, but the only cablegram of congratulation received from a foreign government up to this writing came from Chulalongkorn I, emperor of Siam.

### NEWS IN A NUTSHELL.

#### Hits of Paragraphs that Give Condensed Notes of the Day.

The Orpheum pleases all. A bark and a schooner were telephoned off Koko Head this morning. The usual Sunday concert will be given at Makee Island tomorrow afternoon. Dr. Myers is now in charge of the Government dispensary at Pohukaina school. 1900 Ramblers are here. Out of sight too, regular beauties. E. O. Hall & Son, Ltd. The Golden Rule Bazaar carries a large stock of standard and miscellaneous books. They are putting plate windows in at the Brewer buildings. The Triangle Literary Club has its regular meeting next Monday night at 7:30 o'clock. Sang Lee Chan was fined \$25 in the police court this morning for selling adulterated coffee. Furiashio, Japanese woman, aged 20, died at the drill shed camp yesterday of typhoid malarial. Mrs. Dole, wife of the President, may be a passenger for the coast on the Australia next week. The Agents of the S. S. Australia have an important notice to intending passengers in this issue. The Weisbach incandescent lamp, burns gasoline, cost one cent an hour. Oceanic Gas Electric Co., Ltd. W. A. Kinney and wife transferred from the Nippon Maru to the Mikahala yesterday and will to Kauai. Mrs. J. M. Whitney will entertain the members of the Hawaiian Mission Children's Society this evening. The funeral of the late Mrs. J. Kaufane, of Kau, will take place from Kawahao church at 2 o'clock this afternoon. On Monday next and following days N. S. Sachs Dry Goods Co., Ltd., will open their store at 7 a. m. and will close at 5 p. m. Namee, O'Neill, McKee Rankin and Mr. and Mrs. Clay Clement are through passengers on the S. S. Miowera for the Colonies. Unless there is a fresh outbreak of plague there will not be another meeting of the Board of Health until Monday afternoon. Captain John Kidwell leaves for the Colonies on the Miowera, en route to London. He will return to Honolulu in November. When the plague is all over Dr. Davis, one of the call physicians of the Board, will become a plantation doctor on the island of Hawaii. Mr. Thrum hopes to get his annual cut for the Australia. The great delay has been caused by the quarantine of a large part of his mechanical force. The Metropolitan Meat Co., are in receipt of large shipments of Beef, Pork, Turkeys, Chickens and game by the Australia and Miowera. Manager Waller, of the Metropolitan Meat Company, says that his coming shipment of mutton is from Brisbane only and not from Sydney. Charles Ramsey and family got away by the America Maru yesterday for the mainland. They will visit various points of interest in California. The Union Express Co. desires, that all who wish them to handle their baggage for the S. S. Australia, to notify them as early as possible. Telephone 84. Kaala, native woman, aged 18, died at Judge Wilcox's place at Kalihi yesterday of consumption. An autopsy was held by Dr. Hoffman at the morgue. The fifth assessment on the stock of the McBryde Sugar Co., is five per cent or One Dollar a share and not Two Dollars a share, as an error yesterday made it. A Pacific coast life insurance company, with a general agency here, is negotiating for the investment of about \$500,000 in sugar plantation six per cent bonds. Joseph Marsden left by the America Maru for San Francisco to engage in shipping business. His company has seven small steamers. Another, to be built, will be named the "Honokaa." President Dole has called a meeting of the Council of State for Monday, February 19, at 2 o'clock. The new court of claims matter and losses arising from the plague and sanitary fires will probably be considered.

### NOTICE.

Notice is hereby given that at the annual meeting of the Hawaiian Agricultural Co., held January 25, 1900, the following officers were elected to serve for the ensuing year, viz: Chas. M. Cooke.....President S. C. Allen.....Vice-President Geo. H. Robertson.....Treasurer E. F. Bishop.....Secretary T. R. Robinson.....Auditor P. C. Jones.....Director H. Waterhouse.....Director T. M. y.....Director E. F. BISHOP, Secretary. Dated Honolulu January 26, '00.

HENRY WATERHOUSE & CO. QUEEN STREET.

### SENATOR HOAR.

Senator Hoar is evidently worrying the Philippine war lords greatly—more than all the other advocates of constitutional and peaceful methods of dealing with the Filipinos. They have determined to attempt to fasten upon the Massachusetts senator the entire responsibility for the insurrection in Luzon. Hitherto they have been willing to divide up this responsibility between Edward Atkinson, George S. Boutwell, Carl Schurz and other leaders. But since Mr. Hoar is the only senator who is now effectively criticising the doings in Luzon, it is more necessary to discredit him than anybody else. That is the reason why John Barrett, who is ardently seeking official favor at the hands of Mr. McKinley, now comes forward to say that it was Mr. Hoar's speech against the Spanish treaty in the Senate last winter which was called to Hong Kong by the Filipino junta and then circulated as an inflammatory document by Aginaldo and his associates. Mr. Hoar very properly declines to take any notice of this "failing accusation."—Hartford Times.

### BY AUTHORITY
