## Senate, House pass supplemental budget

by Rafael H. Arroyo

The Seventh Northern Marianas Commonwealth Legislature recently passed the Second Partial Appropriations and Budget Authority Act of 1991 after criticism from some sectors on the manner some appropriations were made.

The bill that would enact such a measure was passed by both houses of Congress in separate sessions after a joint Conference Committee came to a compromise on differences between the original House version (House Bill 7-230, H.D. S.C.S. 1)

The Conference Committee agreed that there were no substantial differences between appropriations in the substitute Senate bill and the corresponding appropriations in the House

version.

According to a Committee report, the main difference between the two versions of the bill lies in the number of items funded and the total amount of additional identified revenue resources identified in each.

The passage of the supplemental budget was stalled due to an apparent disagreement on which project gets top priority and how much funding should be appropriated for which. Some members of the Saipan delegation questioned appropriations for some projects which they considered not as important as that for the rehabilitation of Saipan's sewer system.

The Agingan Sewage Treatment Plant is currently being cited by the US Environmental Protection Agency, for violations

of the Clean Water Act after it was found to be spewing out raw sewage into the ocean.

As per an earlier agreement by members of the Committee, about \$5 million and \$3 million was to be appropriated for the rehabilitation of the Southeastern and Central Saipan Sewer Systems, respectively, but the amount was to be lowered down into a total of \$3 million and \$1 million in a subsequent Committee meeting.

The Committee, finally increased in the appropriation to \$4.5 million and \$2 million for the two projects, with expenditure authority vested in the Director of Finance.

It was, however, stipulated under the bill that the Commonwealth Utilities must be required to expend all those funds within

its control, which have been contributed by private developers for this project before any of the supplemental funds are spent.

The funds will be available until the projects' completion but shall be dispersed in increments upon the approval of the Finance Director.

The Committee agreed that all of the supplemental funds would be appropriated, including some \$8,075,000 identified by Governor Lorenzo I. DL Guerrero on July 9, this year.

Such an amount was not available for appropriation in either the prior House or Senate versions of the bill, and was seen to have raised available resources for appropriation to \$42 million, from the \$34 million earlier identified.

In order to include these addi-

tional funds in the bill and because of numerous adjustments made by the committee, a Conference Committee substitute bill was drafted, which was subsequently passed by the House in its Second Special Session Friday, and by the Senate in its Fourth Special Session yesterday.

It was for purpose of clarity and convenience that it was decided that the House version of the bill transmitted to the Senate in the form of H.B. 7-230, H. D. 4 which would serve as working model for the Committee's substitute bill.

The bill encountered "smooth sailing" through both the House and the Senate but not after criticism from some lawmakers who questioned the propriety of some

## Mendiola counsels allege illegal search

by Teri M. Flores

A motion which sought for the suppression of evidence and ultimately, the dismissal of charges filed against a Tinian man who is alleged to have smuggled about \$2.1 million of crystal methamphetamine into the Commonwealth, was heard in Superior Court yesterday with Judge Alex Castro presiding over the matter.

The defense attorneys for Francisco Barcinas Mendiola are seeking that several pieces of evidence be suppressed by the court as they have been obtained through an illegal search and seizure.

Mendiola's lawyers are also seeking that the court vacate the search warrant which they contend, have violated their client's Fourth Amendment right and

that the case be dismissed due to alleged prosecutorial misconduct.

The case was argued in court Friday and was continued up until today where three defense and one government witnesses are expected to take the stand.

Mendiola has been identified as the consignee of a container van which originated from the Philippines. Inside the van, law enforcement agents from the Department of Public Safety - Special Operations Division (SOD), Boating Safety, Tinian DPS and Customs officers, found construction materials, 100 bags of birdseed and two tanks of which one contained four and a half pounds of the seized contraband.

In their testimonies on the events that led to Mendiola's

The Governor arrives Mangaha Island for the groundbreaking rites. (See story on page 3)

## Ruling on Hakubotan case reaffirmed

by Rafael H. Arroyo

The Supreme Court of the Northern Marianas has recently affirmed the decision of the Superior Court on a complaint jointly filed by the Commonwealth Ports Authority and the Duty Free Shoppers, Ltd. against Hakubotan Saipan, Ltd.

The trial court in January

26, 1990 came out with a summary judgment and memorandum decision in favor of Hakubotan after the firm was not found to have violated nor interfered with a Master Concession Agreement (MCA) between CPA and the DFS.

Under the MCA, DFS was granted the exclusive use of any port of entry to offer to sell, to sell any merchandise at the air-

port or to deliver any merchandise "in less than wholesale quantity to departing individuals at the airport.

The plaintiffs were invoking Public Law 4-60, which empowered the CPA to award a duty-free retail concession, a non duty-free concession or a master concession at any port of entry to an entity selected by the agency.

In an opinion dated August 8,

1991, the high tribunal concurred with the trial court's decision to dismiss the action brought by the plaintiffs challenging the use of the air cargo facility at the Saipan International Airport by Hakubotan and Pacific Forwarders.

In July of 1989, Hakubotan implemented a "Liquor Home Delivery System by which liquor is ultimately delivered to a

customer's home in Japan.

Under the scheme, a Japanese tourist purchases liquor at the Hakubotan store on Saipan and fills out an address card and customs declaration form, which together with the liquor, are then placed in a bag for pickup by Pacific Forwarders, a company owned by appellee

# Ground breaks rites held for Managaha projects

Starting early next year, tourists and sightseers who plan to include a trip to Managaha Island in their itinerary, will notice a major change on the island resort.

Not only will the commercial services be improved but, plans are also being made to improve the present infrastructure and the amenities available on the island.

On Saturday, officials of Tasi

Tours and Transportation together with Saipan officials led by Gov. Larry I. DeLeon Guerrero officiated in the ceremonial groundbreaking which will mark the start of a five-month project that will see the construction of additional infrastructure improvements on Managaha Island.

The improvements which is estimated at \$1.1 million is being undertaken by the Marianas

Public Land Corporation (MPLC) and Tasi Tours. The MPLC will shoulder half of the cost while and the remaining half will be shouldered by Tasi Tours, according to Tasi Tours representative Mr. Norita.

Plans are being made not only for the construction of a rainwater catchment which will be the source in supplying water to the rest rooms and public open air showers that will be located near the beach but repairs will also be made to the existing pier on the island.

Norita said the main hall will also be expanded to the west for it to accommodate 200 persons while a first-aid shelter and an information desk will also be two of the other planned improvements.

Almost a year ago, Tasi Tours has extended \$4.17 million to the MPLC as its payment for its five year concession on the island. The company has already made contributions which have exceeded the \$5 million mark.

Presently, the company has 23 employees who look after the needs of the island's visitors. Of the 23, 19 are locally hired. There are two lifeguards, two boat captains and two rangers who are assigned to provide peace and security in the area while two salesgirls manage the gift shop.

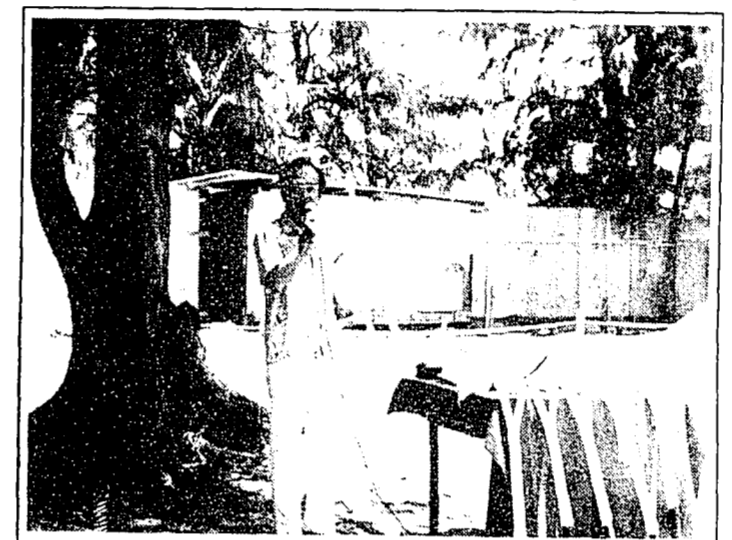

Other employees are assigned as hosts, food servers and bartenders. Another company which also has a concession on the island, operates scuba, snuba and skin diving services.

Governor Larry I. DL Guerrero (right) refreshes himself with a drink in the company of Planning and Budget Assistant David Sablan on a private boat to Managaha Island.

Tasi Tours' Narita delivers his piece to welcome guests at the groundbreaking ceremonies for Managaha's pala-pala.

# Yapese stabbed dead by ex-cop

Law-enforcement agents are contemplating if charges of possible involuntary manslaughter or homicide will be filed against a former police officer who is being named as a suspect in the stabbing death of a San Antonio last Friday evening.

Chief of Police Tony Reyes said on Monday that Pascual Cango, a Carolinian national from San Antonio, has been tagged as the primary suspect in the death of Sylvester F. Nugam, a 28-year old Yapese national who works as a warehouseman at the Payless Supermarket.

Cango himself sustained a stab wound but was pronounced in a stable condition after he underwent surgery for a laceration in the abdominal area which was allegedly a stab wound, Reyes said.

Initial investigations show that Nugam died of multiple stab wounds in the head, chest and abdominal areas after he attacked Cango with a knife.

Investigations revealed that on the night of the incident, Nugam allegedly trailed Cango who was in a with wife Evelyn heading south along Beach Road.

Nugam allegedly blinked his lights prompting Cango to make astop near the San Antonio Elem. School. The vehicles were parked alongside each other and Reyes said that Nugam, who was seen carrying a 14 inch knife, attacked Cango immediately after he alighted from his vehicle.

Investigations revealed that Nugam may have already stabbed Cango even before he managed to wrestle the knife from Nugam.

The police were alerted of a stabbing incident in the San Antonio area when an unidentified call was made at the DPS Central in Susupe.

Minutes after the call, responding officers found Cango inside his in-laws house in San Antonio. He was found by the police sitting inside the house with a white towel wrapped around his wound, Reyes said.

An hour after the call was made, DPS Central again received anonymous call informing them that a body was found near the vicinity of the San Antonio Elem. School.

It was there where police found the partially clothed body of Nugam laying below the front driver's door of a red Mazda pick-up which was left open.

In other news:

\*A 49-year old Filipino national who works with the Marianas Country Club as a maintenance man died of an apparent drowning on Sunday evening.

Benjamin D. Lawan was pronounced dead at the Commonwealth Health Center after efforts to resuscitate him proved futile.

Lawan allegedly died while spearfishing with some 5 friends near the vicinity of the Hotel Nikko in Marpi.

Reyes said that several of Lawan's companions noticed that he may have encountered trouble when they saw his flashlight's beam bobbing in different directions.

## Measures passed to ensure swift action by MPLC

by Teri M. Flores

The House of Representatives passed on Friday a measure which calls for the Marianas Public Land Corporation to immediately act on pending land exchanges and to expedite the processing of such claims prior to approving further proposals to lease public land for project development by foreign investors.

The resolution which was introduced by Vice-Speaker Luis Benavente, Majority Floor Leader William Ada and Rep. Juan Tenorio affects those who have legitimate claims for land exchanges either as a result of previous land exchanges or for rights of way, wetlands and other public purposes.

Ada noted that while the MPLC has been constitutionally mandated to manage public lands for the people, the government agency has yet to take action regarding pending land exchanges.

He also said that the MPLC should first exert efforts to resolve all pending land exchange claims before the approval of land leases to possible investors and developers.

"The MPLC has done nothing so that the claimants can be given what is rightfully theirs," Ada said.

Ada said that before the MPLC further approve any land lease from developers, efforts must first be made by the government agency to resolve all pending

land exchange claims that are still pending.

The issue of land exchange was also brought to the attention of MPLC Executive Director Bill Concepcion through a letter from Department of Public Works Director Elizabeth Salas Balajadia inquiring about the status of the land exchanges for the roadways that are currently being improved.

Sharing Ada's concern was Rep. Antonio Quitugua of Rota who said that something must be done for the MPLC to correct its previous mistakes, the recent one of which was the approval of a prime beach front land in Garapan to a Japanese investor

Rep. William Ada who has proposed to construct a \$100 million resort in the area.

Ada did not only question the MPLC's inability to collect dues particularly from a major developer on the island but, he also whose concern over the way the agency was spending its funds.

On the other hand, a resolution which will give authority to the Governor to appoint the members of the Board of Education, was denied by the leg-

islators in a 6-2 vote against the measure.

Reps. Jesus Atiao, Ada and Tenorio supported the measure which, they say, is a means to curb the Board's actions particularly in issues affecting the education department's policies.

The legislators said that several instances showed that the Board has not performed its function as mandated by law and it has superseded the authority that has been vested in it.

The lawmakers cited the recent strike of the more than 500 Public School System employees and the approval of the Commissioner of Education's pay increase.

"The Board is taking all its initiative to break all the laws that have been approved by this House. They did not act properly during the recent teacher walk-out and that incident could have meant disaster," Tenorio said.

Ada, on the other hand, noted that an appointed board such as during the time of the Camacho and Tenorio administration accomplished work satisfactorily and with less funding.

In opposition to his colleagues, Rep. Gabriel Babauta said that an appointed board will not mean the solution to the current status and issues facing the Board of Education.

Aid that since there is a need to improve the way the Board of Education is performing its job, the lawmakers must find a system that will ease the current situation in the PSS.

## Ruling on Hakubotan case. . . Continued from page 1

Anthony C. Ayuyu.

Pacific Forwarders packages the liquor in packing material supplied by Hakubotan and transports it, using a Hakubotan truck, to the air cargo section of the airport.

At the air cargo office, an airway bill is prepared identifying Pacific Forwarders as the shipper and Japan Travel Bureau (JTB) Cargo as the consignee.

By pre-arrangement with Hakubotan, JTB Cargo accepts the liquor in Japan and delivers it to the customer there. Upon receipt, the customer pays freight charges and a Japanese government tax.

Upon learning of the Hakubotan system, CPA felt that Hakubotan and Ayuyu were using the airport to deliver merchandise in less than wholesale quantity within the meaning of the Act, thus violating the Public Law 4-60 and interfering with the MCA.

Invoking that the agency had statutory authority to award the exclusive use of NMI ports of entry to DFS under the master concession, CPA told Ayuyu to cease such an operation.

But Ayuyu disregarded the letter and continued to forward merchandise under the Hakubotan system, prompting the filing of the suit.

CPA specifically asked that the plaintiffs be enjoined from continuing the Hakubotan system; that the system be declared as being in violation of the Act and 2 CMC Section 2122 (b) "as endangering the 1987 CPA bond issue and indenture, and as tortiously interfering with the MCA.

The CPA also pressed for damages after which DFS subsequently intervened as party-plaintiff, seeking identical relief.

The High Court in analyzing the case, noted that under the MCA, DFS clearly has the sole right to offer to sell, to sell any merchandise at the airport, or to deliver merchandise in less than wholesale quality to departing individuals at the airport.

The opinion penned by Chief Justice Jose S. Dela Cruz, Jus-

tice Ramon G. Villagomez, and Special Judge Edward C. King also noted that under the Hakubotan system, the delivery of the merchandise occurs and is completed in Japan, and not at the Hakubotan store or at the airport.

There was no dispute that if Hakubotan delivers the merchandise to a customer at its store, and the customer, in turn, transmits the merchandise to an independent shipper, no violation of the Act or the MCA would occur.

CPA and DFS contend that the clause "use any port of entry...to deliver" refers to any activity involved in any stage of the delivery process and that

"use" of the airport is considered as any part of the delivery process.

According to their argument, The use of airport facilities is an essential step in the Hakubotan home delivery system, and that this system violates 4 CMC Section 2201 et. seq., which precludes anyone from making use of the airport as any part of the delivery process.

Moreover, CPA and DFS interpret "delivery" to mean delivery at the airport or any place beyond the airport, so long as the airport is used in the process of delivery, apparently basing on the common meaning of the word.

Appellees Hakubotan and Ayuyu, on the other hand, con-

tend that the common meaning of "deliver," as used in the statute, is physical delivery of the merchandise directly to a departing passenger, or to some individual such as a cabin attendant on his behalf or possibly by direct belly-loading of merchandise in a cargo hold of the aircraft for the benefit of the departing passenger.

In ruling in favor of the Appellees, the high court concluded that the word "deliver," in its ordinary sense, does not mean any particular stage in the process of delivery. Rather, it means the completion of delivery itself. It was surmised that the legislature, in passing out the Act into law, must have realized

that this meaning of the word corresponds with CPA's overall jurisdiction.

The court's opinion recognized that CPA's jurisdiction extends to all NMI ports of entry, but not beyond. Thus, it ruled that the restriction on use of the Saipan airport to deliver merchandise in less than wholesale quantity to a departing individual cannot extend to deliveries completed outside the airport.

"Since the delivery of liquor under the Hakubotan system is not completed until the product reaches Japan, the Hakubotan system does not violate 4 CMC Section 2205 (c), nor does it interfere with the MCA," the court opinion read.

### Senate, House...

Continued from page 1  
Committee members in the drawing up of allocations. Rep. Manuel C. Sablan in earlier interviews said that the delegations from Tinian and Rota did not seem to care much about the sewer and other problems Saipan is currently experiencing, opting to push for their own pet projects despite the urgency of allocations for the sewer project.

Sablan was apparently referring to a provision in the budget bill that allocates \$1.1 million for parks and recreation projects

### Mendiola counsels...

Continued from page 1

arrest, government witnesses including two Customs officers, Chief of Tinian Customs Hofschneider and Tinian DPS Chief Tony Kiyoshi, it was revealed that the container van had been at Charlie Dock on Saipan about two weeks before it was transported to Tinian.

According to testimonies in court Monday, DPS officials connected with SOD have prior knowledge that the van contained a shipment of possible contraband in it.

Arrangements have been made for Mendiola to claim the cargo and about two weeks prior to his arrest, he was on Saipan however, no inspection was made on the container.

On May 14, the container van apparently was transported to Tinian with law-enforcement agents having no knowledge who on Saipan released it.

Kiyoshi was that a few hours after the container van arrived on Tinian, he was informed through a telephone call by the SOD not to release it.

In his testimony, Kiyoshi said that upon instruction, he immediately contacted Hofschneider. Contrary to the orders from Saipan, the container van was released and was already enroute to Mendiola's residence when it was apprehended by Hofschneider.

Based on the motion filed in court, the defense argues that the May 15th search which led to Mendiola's arrest should be suppressed and prohibited from the court as there was no search warrant to justify the search and that the container was not inspected on Saipan which has been listed as the port of entry.

The defense has also contended that there was professional misconduct in the way the government prepared for the case. According to the document filed by the defense, the supporting affidavit prepared an SOD special agent contained unreliable information and that it did not supply the prosecution with the necessary probable cause for the case.

The case has been continued for today as the defense has two witnesses to testify on the case.

on Tinian and another \$400,000 for Rota.

Other appropriations which encountered rough sailing in the budget approval process were the \$2 million for the Talafofo Water Collection System and the \$500,000 for the FYU-LCU dry-docking project, which were both deleted in their entirety.

It was also specifically stipulated that the funds appropriated in the bill and under Public Law 7-21 are to be expended by the expenditure authority provided for in 1 CMC Section 7401 (a) through (M) except that the Chairperson of the Municipal Council in the First and Second Senatorial Districts or his designee shall be the expenditure authority for appropriations to the respective Municipal Council.

Likewise, the mayors of each of those senatorial districts shall

be the expenditure authority for improvement projects.

It was also provided that the Chairperson of the Third Senatorial Districts Municipal Council shall have expenditure authority for appropriations to the district's Municipal Council and that the Mayor of Saipan shall have that authority over the office of the mayor and as provided by law.

Section 108 was added to prevent any company, organization, partnership or person that has been awarded a Commonwealth government contract for a capital improvement project and failed, without justifiable reason, to complete the contract within 180 days of the date agreed upon, from being awarded any subsequent contract for any capital improvement project funded by this bill.

# DPW starts use of anti-skid coat on roads

The Department of Public Works has commenced the use of plant mix dense-graded anti-skid pavement surface for the Commonwealth's main roads in compliance with a federal requirement recently imposed by the Federal Highway Administration.

This was revealed yesterday by DPW Director Elizabeth Balajadia, who said that the usage of an anti-skid material that goes with asphalt has been implemented with an ongoing project at the Chalan Pale Arnold Road.

Other main roads are set to be layered with the material within the next few months.

Balajadia pointed out that the anti-skid project is in line with a road improvement and hazard elimination project being undertaken by the federal government and is being funded solely

by federal funding to the tune of \$1.2 million a year.

Phase I of the Chalan Pale Arnold Road, stretching from Kaiser Construction all the way to Gualo Rai is nearing completion after which Phase II of the project involving the stretch from Gualo Rai to CHC will be next.

Balajadia, however, said that since this is the first project where the anti-skid material is being introduced, there was a lot of bumps that was noticed on the Phase I project.

"Western Equipment, contractors for the project will either be made to redo the installation of the material, scrape it off and replace it, or just do an overlay," Balajadia said in an interview.

She indicated that something was not done right somewhere. For this we have sought assistance from some of our friends in the Public Works Department

in Guam since they have more experience in using such material.

Just recently, PW Guam's Construction Quality Control Manager Danny Lizama and one of his inspectors, John Garcia flew in to make recommendations on how the project is un-

dertaken.

The work shall consist of furnishing all materials and constructing dense graded anti-skid pavement surface on a prepared asphaltic concrete (A.C.) foundation in accordance with federal specifications and in reasonably close conformity with the

lines, grades, widths, and thicknesses and typical cross-sections shown on the plans established by DPW's experts.

The material was imported from the Philippines and takes around a week to dry up depending on the weather condition, said Balajadia.

DPW Director Elizabeth Balajadia supervises Road paving project of Dandan Road with Public Works Inspector from Guam.

## Security Council recommends Micronesia, Marshall Islands as United Nations members

UNITED NATIONS (AP) - The U.N. Security Council on Friday unanimously recommended that the Federated States of Micronesia and the Republic of the Marshall Islands be admitted to the United Nations.

They will be seated in the world body on Sept. 17 if as expected the General Assembly votes to accept their membership bids as well as those of North and South Korea.

The four new members would increase the General Assembly's membership to 163 nations.

The new membership reflect the end of the Cold War between the United States and the Soviet Union.

For years, the Soviet Union had opposed ending the U.N. trusteeship over the two Pacific island nations because it said the United States as the administering authority could use the region for weapons testing and development.

But last year the Soviet Union dropped its opposition after the United States gave assurances that it had no military designs on the region.

That cleared the way for the Security Council to terminate the trusteeship over the islands,

allowing them to seek membership in international organizations as full-fledged nations.

Council President Jose Ayala of Ecuador welcomed the two Pacific nations after the council votes, saying their admission will "help foster peace and orderly international coexistence."

"The universality of our organization is steadily becoming a reality and gaining in significance as more and more of the states which make up the world community are admitted to membership," he said.

Admission of the two states, he said, "will make an outstanding contribution to the United Nations by bringing to it an innovative approach and a fresh perspective on world affairs, in order to promote changes in established practices, many of which are in need of renewal."

Council action on the two states was delayed for a day because the Soviet Parliament was discussing the issue and the Soviet U. N. delegation did not have authorization to vote.

U.N. membership requires a recommendation from the 15 nation Security Council and a two-thirds vote in the General Assembly.

## Employee of the Year Marilyn Jones: On the planning & saving side

by Pamela Mathis

Marilyn Jones, a staff of the Department of Planning and Budget was recently named as this year's department Employee of the Year.

Marilyn will be one of 21 civil servants who is vying for the recognition of Employee of the Year.

Although Jones has worked in the office for the past three years, she has 18 years of experience as a civil servant in the Finance office to her credit. Everyday, she has surrounded herself with numbers.

"When I was in Finance, I was spending the money. Now, I am on the planning and saving side," she said.

Marilyn is currently assigned to plan the budget for the Public Health and Governor's Office. The two department's provide her a "wish list" after which she analyzes and determines what the two agency's most urgent needs are. She then delivers the budget package to the Legislature.

Jone's work may sound all routine, but, for her, there is more

to job than numbers. She says that the hardest part was convincing people to cut back and cut down their budget as much as possible.

"Everybody wants exactly what they ask for. We can't give them all that they ask for. We have to look at available resources," she said.

By all accounts, she does her

knowledgeable, organized, efficient, helpful and cheerful.

Although she is so successful in her career, Marilyn has one regret and that is to watch her four children ages 21, 20, 15 and 6 grow. "I still want the chance to see the little one grow up," she said. "If not, I guess I will wait for grandchildren and I'll retire and be a grandma," she said while

Dept. of Planning and Budget "Employee of the Year" Marilyn Jones

job exceptionally well. She has been credited by her supervisors as someone who willingly assists co-workers and other agencies.

Marilyn consistently volunteers to work overtime and is

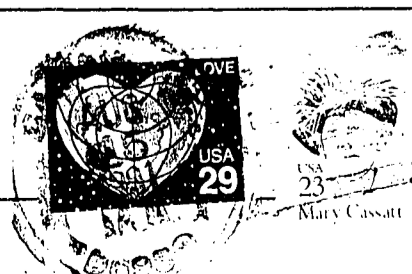

thinking of the future.

Jones has plans of retiring within two years. During her interview, she joked, "I always said I will give this job 20 years and a day."
