Warship Bogota In Battle At Panama

Panama, Nov. 12.—The first American casualties as a result of the revolution occurred yesterday. The Colombian fleet captured a boat having on board correspondence showing the whereabouts of two revolutionary schooners loaded with provisions. The government warships headed for the place, and on arriving there the Bogota, formerly the Jessie Banning, manned by an American crew, commanded by Captain Marmaduke, lowered two boats with armed men, but as the schooner was aground they waited until high tide to attack them. In the meanwhile the revolutionists were discovered in ambush close to the beach, and when the Bogota's boats pulled ahead the second time the rebels opened fire on them, killing the ship's armorer, Richard Kane of Washington, and wounding George Walker, who was shot through the legs. A seaman named Clarke and Lieutenant Vasquez were also wounded, but not seriously.

ZEALANDIA IS LATE

The old steamship Zealandia arrived from San Francisco last Saturday afternoon, having left that port one hour before the Gaelic. Owing to the rough weather, the Zealandia had to anchor off the harbor while she underwent quarantine inspection.

When she steamed into the harbor the tremendous waves swamped the pilot boat which was being towed along by the steamer in the usual manner. The boat was cast loose and the quarantine launch, which was near, sped to the rescue, picking up the pilot boys who were struggling in the water, and taking the boat in tow. It was Orlo's crew that had this rough experience. A boat was also sent to the rescue from the Oregon, but as the quarantine launch was nearer to the spot where the accident happened, the bluejackets arrived too late to be of any assistance. Their prompt action was, however, much appreciated.

The Zealandia has been thoroughly overhauled since she was last in this port and is now in fine trim. She made the trip from San Francisco in seven days, two hours and ten minutes despite the rough weather she encountered on most of her trip.

The Zealandia brought quite a number of passengers, among them being Officer McDuffie, who returns from his fruitless quest after W. H. Wright. The steamer brought 1,600 tons of freight for Honolulu. She will sail for San Francisco Wednesday afternoon.

MORE LIVES SAVED

Herbert Young yesterday added another life-saving expedition to the large number of such trips, which already stand to the Young Brothers' credit. Last Saturday afternoon Young was notified that a sampan with six men was far outside the harbor and that its crew was unable to force their craft back against the storm. Young located the sampan through a telescope and started to the rescue in his launch "Billy". On reaching the sampan, he tried to tow her in, but although the Japanese rowed for all they were worth and the launch tugged as hard as it could, both crafts instead of nearing the harbor, drifted farther away.

This pilikia was observed from the Oregon and a launch was sent from the battleship. This launch passed a line to the "Billy" and for fifteen minutes the three crafts battled against the weather. Then the man-of-war launch's line broke and Will Young, who by this time had arrived on the scene in the launch "Fun", took its place, all three boats finally making the harbor in safety.

The band will play the following selections at a concert in Emma Square this evening, beginning at 7:30 o'clock:

LOST CHINESE SERVANT.

San Francisco, Nov. 14.—Luke E. Wright, Lieutenant Governor of the Philippines and member of the Philippine Commission, has gone East with one less personal servant than he arrived. He did not part with the man willingly, however. On the other hand, the Governor put up a stiff battle to retain him. The servant happened to be a Chinese, and when the Governor asked Collector of Customs Stratton to land him that official said "No." The Collector, with his usual suavity, told Governor Wright that he would be only too pleased to accommodate him, but the law was plain and he had to uphold it to the letter, even though inconveniencing a noted personage.

Last Saturday afternoon the ship Marion Chilcott arrived in port with the first cargo of fuel oil ever brought here. She brings 17,900 barrels of oil stored in twelve tank compartments. She went to the railroad wharf, where she will discharge her liquid cargo into the twist tanks.

Owing to the inflammable nature of her cargo, the Chilcott is lighted throughout by electricity.

WILL ENTER PROTEST

HALAWA TARO MEN HAVE DELEGATE HERE

BOARD OF HEALTH WILL BE SEEN ABOUT RECENT ACTION OF SETTLEMENT SUPERINTENDENT.

Waialuku, Nov. 22.—Hon. Joel Nakaleka arrived in Waialuku from Halawa, Molokai, this week, per steamer Lehua. He goes to Honolulu today on important business with the Board of Health. He reports that five hundred palala intended for the leper settlement this week are still lying on the beach at Honolulu, Molokai, and he goes to urge the Board of Health to take the said shipment so that it would not be a dead loss of \$375 to the poor taro planters of Halawa.

Last Monday morning the weather was very bad at Halawa and feeling sure that the steamer Lehua would not dare to enter Halawa on the following day in the face of the prevailing high seas fierce winds, and the high breakers wildly dashing against the rocky shores of Halawa bay, Mr. Nakaleka, after consultation with taro planters, gave orders to have the 500 bundles of palala packed over by mules to Honolulu, a distance of about 4 1/2 miles, as it would be much safer for the Lehua to call in there. On the following Tuesday morning about 10 o'clock, the Lehua was sighted off Tonouli heading for Halawa. Captain Naopala with Superintendent McVeigh of the settlement, stood the Lehua off land on account of the weather. Signals were made at Honolulu in order to attract the attention of those on board but the steamer was too far out to see the signal; besides, the high seas were steamer so as to make it impossible for those on board to see those on shore. Signals were likewise placed at a place semi-distant between Halawa and Honolulu but these also failed to attract the attention of those on board.

The Lehua arrived off Halawa that noon and proceeded to the settlement. On arrival there the superintendent gave orders to get taro for that week. Waikolu and then gave strict orders to Captain Naopala under no condition to bring the palala of the Halawa people. Mr. Nakaleka met the Lehua at Pukoo last Thursday but acting under orders, the captain would not take the palala. Mr. Nakaleka says that the palala are so carefully wrapped with ti leaves as to last two weeks without getting bad and he saw no reason, sense or justice in the orders of the superintendent in view of the fact that some time ago when the schooner was under contract to take palala to the settlement, it was nearly three weeks before one shipment reached the settlement. No complaints were made then.

The palala are prepared by Hawaiian experts in the art of pounding poi and calculated and guaranteed to last at least a week longer than palala put up by Chinese who do not understand as yet the secret of making poi. Should the Board of Health utterly refuse to take the palala, it would mean a great loss to the natives who tried every device in modern signalling to attract the attention of the Lehua but in vain. Even if the palala will be taken up next Tuesday, they will reach the settlement in fairly good condition and no one will die from the effects of them. In fact some people prefer sour poi to fresh.

Mr. Nakaleka reports very bad weather throughout Molokai last week especially last Tuesday when the boisterous elements wrecked fishponds all the way from Kamalo to Ahahno, bringing ruin to many Molokai householders who depend for their livelihood on fat Molokai mullets. These fishponds are built of coral rocks about five feet high and four feet wide along the beach on the Kona side, and were quite picturesque objects to strangers beholding them for the first time. Now most of them are wrecked in places and it would mean the expenditure of much time, labor and money to place them in serviceable condition again. These fishponds were erected some thirty or forty years ago under the care and supervision of the missionary fathers, and this is the first time that these landmarks of history have suffered the fate of similar famous structures. For forty years have they withstood the fury of the angry waves, defying the elements, but like other handiwork of man, they cannot last forever.

These ponds are built by natives as penalty for breaking the ordinances of the church against the vice of smoking tobacco, and whether they were rightly set to work on these historic walls which served as sea breakers at times, yet many generations have been benefitted by their handiwork, and it is now for the present generation who take pride in their advancement in modern arts to restore these fishponds to their former state of usefulness, and so whether they can build fishponds to last longer than the ones erected by their forefathers. However, the trouble may be that the dignitaries of the church of these days do not compel their adherents to build sea walls for enjoying the pleasures of the fragrant weed.

Knights of Pythias Expel J. A. Hinsey

Chicago, Nov. 14.—After a hearing that lasted nearly all week, the Grand Tribunal of Illinois, Knights of Pythias, has voted unanimously to expel J. A. Hinsey, who retired from the head of the board of control of the Endowment Bank last year. Hinsey has appealed to the Supreme Tribunal, which will meet at Indianapolis in February. At the recent meeting of the Supreme Lodge in San Francisco he was suspended from its membership pending the action of the Illinois Grand Tribunal.

Dr. A. I. Duffeleur, who was medical director of the Endowment Bank during the Hinsey administration, has been suspended for a year by the Illinois Grand Tribunal. Secretary H. D. Stolt, who was also to have been tried, died last month.

In the sixteen months since the Hinsey administration was retired the Endowment Bank, according to its announcement today, has paid up \$509,000 of overdue death claims and has now nearly \$600,000 cash on hand.

MAUI LEGISLATORS

Waialuku, Nov. 22.—The successful candidates of the Republican party will tour Maui and Molokai when Delegate Kalaniana'ole and suite reach here. It is the intention of the Maui Republican party to take the Maui members of the next Legislature around so as to acquaint them with the needs of the outer districts, and likewise to ask their constituents, Republicans, Democrats, and Home Rulers as to their needs in the way of legislation. The Maui delegation is composed of young and capable men and it is their desire to do all in their power so that the Third District will receive handsome appropriations for roads, bridges, landings, schoolhouses, courthouses and other buildings of a public character. These young men are infused with new and progressive ideas and the floor of the legislative hall will hear their sonorous voices on behalf of Maui and the Territory as a general. The idea of going around in a good one and will be of the utmost benefit not only to the members themselves but also to this community, so that whenever any measures come up relating to any particular district, each and every one can stand up and talk knowingly and to the point on the subject at issue.

HAWAII MILITARY POST

Washington, Nov. 10.—In his annual report to the Secretary of War, the Quartermaster General of the Army says: "Owing to the decrease in the number of troops sent to the Philippines on transports via Honolulu during the past year and the fact that no public animals were shipped, thus eliminating the necessity for the maintenance of the resting corral at that place, the business of the Honolulu depot has been proportionately decreased, resulting in a large saving in the expenses of the department here in the way of supplies, civilian employees, etc. "In the act making appropriations for sundry civil expenses of the Government, approved June 28, 1902, the Secretary of War is authorized "To acquire leases in such lands in Hawaii as have been set aside for purposes of a military post." The matter was under consideration at the close of the fiscal year. J. A. BRECKONS.

WANTS PROMISES KEPT

Editor Evening Bulletin:—The present time may seem a little previous for a letter of this nature, but it is certainly not too early nor will it ever be too late to remind the Republican party of its promises to the people of this Territory.

I am an American born citizen, earn my living as a mechanic, have my own paid-for home in this city, and, God willing, expect to spend the remainder of my life in Hawaii. I have always been a Republican, but I wish to state candidly that I came very near voting the Home Rule ticket at the recent election, for the reason that I had doubts of the sincerity of the Republican party's promise to pass a county and city government bill at the first opportunity.

I had the Home Rulers put a good man at their head instead of trouble-maker Wilcox, I should very likely have put a cross mark by the name of each of their candidates from first to last.

I am much opposed to the un-American way in which this Territory is run by the very few but very crafty individuals at the helm in the Capitol. Of course, without cities and counties the government of this Territory can be nothing else but un-American, no matter who are holding the reins; but there is such a thing as getting too much of a good thing. Mr. Dole and his friends—or perhaps it should be his friends and Mr. Dole—have managed things here now, I believe, since 1893, nearly ten years. They seem to be tireless and squeeze tighter the longer they hold. A new broom sweeps clean; his friends and Mr. Dole are old brooms and the house is evidently, from recent disclosures, very dirty.

There is entirely too much centralization of power in the Territorial government here for it to be Americanistic.

I, for one, shall state plainly that I expect, as a good Republican, the party to fulfill its promise of city and county government at the coming session of the Legislature, and I think there are many others who have the same expectations.

Thanking you for space, and assuring you that I believe the public will take more interest in the present time in letters upon political topics than upon religious, I am,

INSISTENT.

Among the working women in Belgium there are 30,000 who earn less than 30 cents a day. Only 5000 earn more than 50 cents, and only 350 more than 80 cents a day.

### BUREAU OF EQUIPMENT ASKS FOR APPROPRIATION

### REPORTS ON WORK ALREADY DONE FOR ESTABLISHING THIS IMPORTANT STATION.

Washington, Nov. 8.—In his annual report to the Secretary of the Navy, the Chief of the Bureau of Equipment has the following to say concerning the naval station at Hawaii:

There are no facilities for equipment work at this station other than for the storage and supply of coal and fresh water. As stated in the last annual report, it is of great importance as a coal depot.

The act of Congress approved March 2, 1901, making appropriations for the naval service for the fiscal year ending June 30, 1902, contained the following clause under the Bureau of Equipment, viz:

Depots for coal.—To enable the Secretary of the Navy to execute the provisions of section 1552 of the Revised Statutes, authorizing the Secretary of the Navy to establish, at such places as he may deem necessary, suitable depots for coal and other fuel, for the supply of steam ships of war, \$600,000; and to enable him to acquire land for a naval station and harbor and channel defense at Pearl Harbor, Hawaii, \$150,000; in all, \$750,000.

In accordance with this act the Bureau under the direction of the Department, has made the following progress toward acquiring land at Pearl Harbor, Hawaii, for a naval station and harbor and channel defense.

Reference is made to the accompanying chart of a portion of Pearl Harbor in the neighborhood of Southeast Loch. The site selected for a naval station is shown on this chart by dashed lines; the greater portion is on the mainland. Kuaiaua Island and the southeastern part of Ford Island are included. The entire site, not including that portion in use by the Oahu Railroad Company, amounting to 0.646 acres, is about 719 acres.

The acquisition of this land was complicated by certain leaseholds, mortgages, claims for indirect damages, etc.

As the owners in fee refused to name what was considered a reasonable price for the land selected, condemnation proceedings under the Hawaiian law of eminent domain were instituted July 6, 1901. Subsequent to this date all of the land in question was considered condemned for government purposes.

Kuaiaua Island and the site selected on the mainland, except that portion occupied by the Oahu Railroad, were owned by the Bishop Estate; the railroad property was owned by the Oahu Railroad and Land Company; and Ford Island by the John II Estate. These lands were leased as follows:

Ford Island by the Oahu Sugar Company; the Bishop Estate, except Kuaiaua Island and small portions of land between the railroad and Southeast Loch, by the Honolulu Plantation Company and the James I. Dowsett Company. The portion leased to each is clearly indicated on the chart.

At the request of the Navy Department the Attorney General instructed the United States District Attorney at Honolulu, Hon. J. J. Dunne, to represent the Government in the condemnation proceedings.

At the present time the Government owns in fee the entire site selected. With the exception of that portion leased to the Honolulu Plantation Company, the site is free of incumbrance.

The following sums of money out of the appropriation have been paid:  
To the Bishop Estate, for 683.47 acres of land.....\$52,737 54  
To the John II Estate for 25.83 acres of land..... 3,000 00  
To the James I. Dowsett Estate, for leasehold on 48.88 acres of land belonging to the Bishop Estate..... 2,400 00  
To W. G. Irwin, for interest on Ford Island by reason of mortgage..... 2 00  
To Oahu Sugar Company, for leasehold on Ford Island..... 1 00  
Total.....\$58,140 50

There have been other minor expenses in connection with condemnation suits, making abstracts of titles, recording deeds and resolutions, witness fee, etc., probably within \$500.

The property belonging to the Oahu Railroad and Land Company was deeded to the United States in consideration of a perpetual right of way granted by the latter at some point over Government land.

The question of the value of the Honolulu Plantation Company's leasehold is now, by appeal, before the United States Circuit Court of Appeals at San Francisco.

The United States District Attorney at Honolulu, Hon. J. J. Dunne, and Rear Admiral J. F. Merry, U. S. N. (retired), commandant of the naval station, Hawaii, are entitled to commendation for the zeal and ability displayed in conducting condemnation proceedings and guarding the interests of the Government.

The bar at the entrance of Pearl Harbor is being dredged under the supervision of the War Department. The channel leading from the bar to Pearl Harbor is tortuous and at present un-

## MAILE-ILIMAS BEAT HONOLULU SATURDAY

Notwithstanding the stormy weather of Saturday afternoon, the football game scheduled to take place between the Honolulu and Maile-Ilimas teams, was played on the grounds at Oahu College. There was a very good attendance, considering the state of the weather. The band, stationed under one of the large trees near the college buildings, played before the game, in the interval between the halves and after the game.

The Honolulu were defeated to the tune of 5 to 0, there being a failure to kick goal on account of the strong wind prevailing. Both teams put up a good game, although it must be said that the Honolulu will have to change their tactics radically if they expect to do any effective work. Of course, the absence of Isaac Cockett from the line was a great loss, but this did not account for all of the gains of the Mailes and the failures on the part of their opponents to go through the line.

If the truth must be said, there is too much standing up on the part of the Honolulu. They will not get down. The difference was seen when during the second half of the game, Kauhane took the place of Chillingworth in the line, the latter taking the place of Scott, who was retired on account of his lightheadedness. Kauhane got down low and when an attempt was made to get past him, it was always frustrated. Chillingworth, not having played the position before, but being forced to take it on account of the absence of Cockett, was passed continually. In fact, it was through the left of the Honolulu that their opponents made their biggest gains.

Another thing, there was too much individual playing on the part of the Honolulu, and while this may do once in a while, still it is not the work that counts. Team work was sadly lacking and men were forced to do the best they could alone when they had once been given the ball. The best work for the Honolulu was done by Fernandes, the left half back, who at one time had the ball very close to the goal. Kaminsky was a failure as the other half back. He seemed to be afraid to tackle the line, and when trying to take the ball through, just stood up at full height and let the men of the other side tackle him. Russell, the quarter back, played a good, hard game, but was retired. Gleason took his place, and did some good individual playing, but was badly hurt toward the end of the game and had to be taken to town. Some of the tendons of his left arm were badly strained in a scrimmage.

John Lane did some excellent work for the Honolulu, but as in other cases, he was forced to fight alone. Several times he was interfered with by his own men, who were attempting to form some kind of an interference. The Honolulu from now on will have to get down to hard work and will have to insist on team work if anything is to be done to their credit.

The Mailes played a very plucky game from start to finish. They were much lighter in weight, but they made up in quickness of play and hard bucking at vulnerable points in the line. Sam Johnson, the right half back, was a tower of strength and was the man who made the only touchdown of the day.

It was impossible to do any around the end running on account of the condition of the ground, and so hard work against the lines had to be resorted to. This tired the men of both teams so that at the end of the game, there was a willingness on the part of every one to stop. The touchdown of the Mailes was made in the first half and there was no scoring whatever in the second half.

### EDUCATION ON MAUI.

Wailuku, Nov. 22.—Chas. E. King, school inspector for Maui, goes to Honolulu by this evening's mail to lay before the Board of Education the urgent needs of Maui, especially in the line of a new site for the Wailuku school house. The election of Hon. Samuel Kellinui as member of the House of Representatives from the Third District will prove of the greatest benefit to Maui as far as educational needs are concerned, for in his capacity as school inspector for several years past, Mr. Kellinui knows better than anybody else the crying needs of Maui especially toward the establishment of a high school in Wailuku conducted by educators or high attainments.

### RARE SPANISH COIN.

Wailuku, Nov. 22.—Edgar Norton is the happy possessor of a Spanish silver quarter of 1776. "Del Gracia, 1776," is the inscription on one side, while Carolus III, Hispan, et Ind., and other Latin inscriptions which cannot be made out on account of age, adorn the other side. Mr. Norton paid a Chinaman ten cents for the rare piece.

## LAHAINA SOCIAL LIFE

### SOCIAL CLUB'S DANCE AND WEDDING RECEPTION

### ARE PLEASANT EVENTS OF PAST WEEK—MARRIAGE OF ARTHUR WAAL AND MISS BORTEFELD.

Lahaina, Nov. 20.—The third full-moon dance of the Lahaina Social Club was held at the plantation club house on Saturday last, and, like the previous ones, proved an unqualified success.

The guests began to assemble at 7 o'clock, and soon afterwards the dancing commenced. In spite of frequent showers, which finally compelled the merry-makers to abandon the spacious lawn and adjourn to the dining room, dancing was kept up with unremitting vigor until nearly 12 o'clock, when a delicious lunch of salad, sandwiches and coffee was served. Most of the staid citizens and citizenesses then retired while the young folks kept up the fun for a little longer, finally dispersing after a most enjoyable evening.

Unfortunately the showery weather prevented several gentlemen from Puenene, whose arrival was anxiously awaited by the fair ones of Lahaina, from attending the dance, but it is hoped that the next gathering will find them all "on deck."

A long-whispered court was consummated on Wednesday, the 19th inst., when the popular postmaster of Lahaina, Arthur Waal, was married to Miss Frida Bortfeld, formerly of Lahaina, but lately of Honolulu, who arrived from the capital in the Maui Wednesday morning. The young couple were quietly married at high noon by Judge D. Kahaulelo, being only attended by Miss Rachel Hayselden and Fred C. Hayselden Jr., as witnesses.

An informal dinner was given for these two attendants at the Pioneer hotel at 6 p. m., after which a general reception was tendered the bridal couple by the residents of Lahaina. Shortly after 8 o'clock the Kahakulua string band arrived on the scene, and dancing commenced in the spacious dining hall of the hotel, which had been cleared and appropriately decorated for the occasion. The dancers exerted themselves with great zeal until 11 p. m., when a delicious cold collation, consisting of whole roast pig, chicken, duck, sandwiches, cake, etc., was served and shown ample justice by appetites whetted through assiduous exercise. The health of the newly married couple was proposed during the repast, and during amid acclamation. Supper over, dancing again waxed fast and furious and it was nearly 3 o'clock when the last reveler ceased their fun and dispersed for their respective couches.

The affair was one of the most successful ones in Lahaina for several years and was very largely attended by the elite youth and beauty of the "Breadfruit Town," the somewhat contemptuous name applied to the beautiful, flourishing and progressive, ancient capital of Hawaii by the ponderous pen wielded in the editorial sanctum of the Maui News.

Great credit is due George Freeland, the genial Boniface of the Pioneer hotel, for the excellence of the arrangements and the signal success of this most enjoyable function.

### MAKAWAO DOINGS

Puenene, Nov. 22.—The Makawao Ladies' Aid Society report as the result of their bazaar, November 14, the sum of \$480. They express their appreciation to all who assisted in making the effort a success.

The Japanese who was so badly beaten by his countrymen in Camp 3 (mention of which appeared in the Bulletin) is improving rapidly under the efficient treatment of Dr. R. H. Dinegar.

### DEPUTY SHERIFF MORTON.

Wailuku, Nov. 22.—Edgar Morton of Kula, Maui, received his commission as deputy sheriff of Makawao, vice Hon. Samuel E. Kalama, resigned, this Saturday morning at the hands of Sheriff L. M. Baldwin. Mr. Morton is a very popular young Hawaiian, very intelligent and fairly educated, and with these qualifications at his command, he may prove an efficient officer. Mr. Morton will move with his family to Makawao.

When the changes in the sugar quotations move so steadily toward higher prices, there is good reason to believe the statisticians are not far astray and four cent sugar or better will soon be reached.

Adventurous Americans among the fighting forces at Panama may turn out to be the pioneers who in assisting to put the peninsula government in order, are preparing the way for stronger American control in the canal region.

France's agitation over the decrease in the national birth rate appears to have had its good effect. According to a dispatch from Paris the 72,398 increase in population for 1901 is due principally to lower death rate and a marked increase in the number of births.

Upon the success which Honolulu citizens make of the polo tournament to be held at the park this week will largely depend the extension to inter-island contests in other departments of athletic sports. This is the first inter-island athletic contest of any character that has fulfilled the requirement of representation from every important island of the group. If the people of the city will give it the support deserved, the young men interested in other sports will take new courage in their efforts to create a more widespread attention to athletics and consequent yearly meets in this city.

No patent remedy can be devised for the solution of these grave problems in the industrial world; but we may rest assured that they can be solved at all only if we bring to the solution certain old-time virtues and if we strive to keep out of the solution some of the most familiar and most undesirable of the traits to which mankind has owed untold degradation and suffering throughout the ages. Arrogance, suspicion, brutal envy of the well-to-do, brutal indifference toward those who are not well-to-do, hard refusal to consider the rights of others, the foolish refusal to consider the limits of beneficent action, the base appeal to the spirit of selfish greed whether it take the form of plunder of the fortunate or of oppression of the unfortunate—from these and from all kindred vices the nation must be kept free if it is to remain in its present position in the forefront of the people of mankind.—President Roosevelt.

FORWARDING THE MUNICIPALITY.

Fears that the Republican party will weaken on its declarations concerning county and municipal government are not justified if the Bulletin reads aright the signs of the times and the opinions of legislators and members of the organization. The doubt expressed by our correspondent is probably due to the fact that in the past, whatever opposition has been offered to this new departure has come from members of the Republican party. While some opinions may remain unchanged the opposition has been withdrawn and to quite a marked degree former opponents have enlisted in the work of properly preparing for the fulfillment of Republican promises.

At the present time the Governor and the Senate are very important factors in forwarding the local self-government program to a speedy and successful conclusion. The officials whom they will select will exert a very powerful influence in carrying on effective measures in keeping with the energetic spirit of party organization and legislative representatives. Far seeing constructive ability is needed to prepare the way for the radical decentralization and enable aggressive co-operation between all departments of the present government and the political organization which will be strengthened or lose prestige according to the rapidity with which the county and municipal task is completed. Present indications are that the responsibility resting on the Executive and law making departments is thoroughly appreciated; that the Governor and his advisors are not blind to the mass of strenuous work before them.

If the department heads to be named fulfill the proper duties of their

offices they will have no leisure during the next few months of preparation for the Legislature. As business men of the city are devoting additional time to framing the county and municipal act, so these government officers must be men who can and who will go beyond the mere routine of their offices and find time for the study necessary to shape department affairs so that changes in governmental forms may be concluded intelligently and with the least friction possible.

The recent windstorm was one of the most severe this city has experienced in a good many years. While the trees and wires about the town have suffered it is due to the telephone and electric companies to recognize the improved condition of their lines. The storm was a harsh test and results indicate that closer attention is being given to eliminating the dangers which our much-wired streets offer the traveling public.

Senator Foster makes no mistake when he says that Hawaii's form of centralized government will not long continue. Whatever the Commission may report on other matters, it will likely favor making the Organic Act explicit on this point if there is any possible doubt in the act as it now stands.

WEATHER WAS ROUGH

STEAMER PURSERS TELL OF THEIR EXPERIENCES

STORM WAS GENERAL ALL OVER ISLANDS — ISLAND BOATS COULD NOT ANCHOR AT PLACES.

The island steamers which arrived on Saturday and Sunday from various islands of the group all had more or less trouble with the storm which has been general all over the islands. The steamer W. G. Hall arrived from Kauai ports yesterday morning at 3:46 o'clock. Pursuer Friel reports as follows: "Arrived off Nawiliwili 2 a. m. November 19. Found it was too rough to land mail and passengers. Went to Hanamaulu and landed the mail and passengers. Did not land Nawiliwili freight till Friday, November 21. Strong northeast wind blowing on Kauai with rain squalls. The steamer Waialeale was at Hanamaulu weatherbound. It was too rough at Kilauea for her to anchor. She only discharged three slings of freight and stopped work. The steamer Mikahala was at Waimea discharging lumber and the Nihau at Waimea discharging coal. Fine weather at Waimea. Strong northeast winds with high sea crossing the channel."

The following sugar is reported at Kauai ports ready for shipment: K. S. M., 1600 bags; V. K., 400; W., 1400; Naak., 872; and G. & R., 272 bags. The steamer Kauai arrived from Hawaii ports yesterday afternoon with three deck passengers, 7000 bags of sugar for C. Brewer & Co., 50 head cattle and 4 bundles hides. Pursuer McNamara reports the following sugar left at Kau ready for shipment: Honoupa, 2000 bags; and H. A. Co. 4485 bags.

The following report is given of the trip: "We had a very rough trip both over and back. Going across the Hawaii channel, the foresail was blown away. On arriving at Punaluu we found the sea running very high. Heavy trade winds Sunday, Monday, Tuesday and Wednesday made it impossible to work. On Thursday we were able to get to work. The schooner Serena Thayer was towed in to Punaluu Friday evening by the tug Charles Councilman from Hilo. She has ties and lumber. We passed the Mauna Loa at Napooopo."

The pursuer further states that the trip from Hawaii was especially unpleasant as the seas continually broke over the deeply laden vessel. The cattle tied to the masts naturally suffered from the continuous drenchings they got from the waves and several times the steamer had to slow down to afford them some relief. The steamer Lehua, which arrived from Maui and Molokai ports Saturday afternoon, also had a hard battle with the storm. The weather on the outward trip was not as bad, however, as that experienced on the trip before that, and on the way back to Honolulu the wind being with the steamer, made the discomfort suffered from it comparatively little.

Pursuer Knell reports that the storm has done considerable damage on Maui by blowing down trees. It was said that the wind had been especially fierce in the stretch between Lahaina and Oluvalu. On Molokai the storm was accompanied by terrific rains.

The windmill operating the Queen's hospital artesian well was wrecked in the gale Saturday night. It will cost \$200 to restore the motor.

Dr. J. S. McGrew had many trees destroyed or damaged upon his town residence premises bounded by Lunalilo, Hackfeld, Green and Kapiolani streets. The devastation here was not a circumstance to the havoc wrought at Dr. McGrew's Pearl Harbor place. Among the many trees uprooted or broken off there was a big algaroba close to the house. The man in charge of the grounds anticipated the going of this particular tree and after consultation with the doctor quayed it with chains. It came up by the roots nevertheless and almost grazed the house in its fall.

PRETTY KAUI WEDDING

HENRY BLAKE—MISS MILLER MARRIED AT HOME OF BRIDE

MANY KAUI FRIENDS PRESENT. HEAVY WEATHER—ROADS NEEDING ATTENTION.

Koloa, Kauai, Nov. 22.—The weather up to the time of writing was most undesirable. Very heavy winds and rain prevailing all day leaving the roads in almost an impassable state.

Miss Rice of Honolulu is at present spending a vacation at the residence of Mr. and Mrs. Henry Blake. The residents here are very anxious to see the macadamizing of the roads finished before the heavy rains set in as if left unfinished walking on foot would be impossible.

Invitations are out for a dance which will be given tonight in the new school house, got up by the young men of Koloa.

John Spalding is again to be seen at the postoffice having returned from his honeymoon.

On the evening of November 20 at 8 o'clock a very pretty wedding was celebrated at the residence of the bride's parents, Mr. and Mrs. Charles E. Miller, when Henry Blake was wedded to Miss Margaret Kahaipilani Miller. The service was conducted by the Rev. J. M. Lydgate of Lihue. The happy couple were surrounded by many admiring friends, who, immediately after the ceremony presented their congratulations. After receiving the guests, everyone retired to the dining room where two beautiful tables were laid with various Hawaiian dishes which presented a very pretty sight and was enjoyed by all present. Dancing was indulged in till 2 a. m. when the party broke up, wishing Mr. and Mrs. Blake many happy days. The house was beautifully decorated for the occasion, and the laanai illuminated with Chinese lanterns, which gave a very pretty effect. Miss Rice of Honolulu looked very charming as maid of honor, and E. C. Vaughan of Koloa acted as best man. The presents were very numerous and made a pretty display on a table set apart in the reception room. Mr. Rego was also very kind in placing his various rigs at the disposal of the guests.

A SHORT SESSION OF THE SENATE

(Continued from Page 1.)

of three appointed to investigate the affairs of the Auditor's Department. He had had financial dealings with the suspended Auditor that might bias him.

On motion of Senator Baldwin, the resignation of Senator Dickey was accepted. Senator Baldwin moved further that Senator Isenberg, being a heavyweight and therefore of great usefulness on the committee, be appointed on it in place of Senator Dickey. This carried and the Chair appointed Senator Isenberg.

Senator Isenberg stated that with this new appointment he would have work on three committees. He would therefore ask that he be relieved from duty on the committee appointed to investigate the affairs of the Public Lands Office. The name of Senator Dickey was suggested and, upon motion, he was substituted for Senator Isenberg.

Senator Wilcox next arose and stated that his family and that of the suspended Auditor were very closely related by marriage. It was therefore a very personal matter with him, and he would rather not act on the committee appointed to investigate the affairs of the Auditor's Department. It would be better to have someone appointed on the committee who had no feeling one way or the other.

Senator Kalne asked if Senator Wilcox would be affected in the same way when it came time for the Senate to act on the report of the committee and the answer was in the negative. Senator Wilcox said he would certainly vote on the report of the committee no matter what it might be.

The resignation of Senator Wilcox was accepted and Senator McCandless was substituted in his place.

Senator Baldwin mentioned the matter of the absence of Senator Cecil Brown, stating that he was not expected back for several days. As the work on the committee appointed to investigate the affairs of the Attorney General's Department would have to go on, he suggested that someone else be appointed to take the place of Senator Brown.

The chair stated that it had been his intention to mention this matter, and ask the Senate for the privilege of appointing someone else. He thereupon appointed Senator Dickey chairman of the committee.

Senator Baldwin moved to adjourn until 10 o'clock tomorrow forenoon. Senator Achi arose to introduce a resolution, but Senator Baldwin insisted on his motion to adjourn, which had been duly seconded. This was put by the Chair and it carried almost unanimously. The Senators left the hall immediately and proceeded to the various departments which they are expected to investigate.

MAUI PREACHER DEAD

Wailuku, Nov. 22.-Rev. J. Kamakele of the "Hoomananaau," died at his home at Keokea, Kula, Maui, on Tuesday afternoon, November 18, of blood poisoning. Kamakele was an Independent Home Rule candidate for Senator from the Second Senatorial District last election and received seventy votes in all. It was during his recent campaign tour that he contracted the blood poisoning that ultimately proved fatal to him. Two weeks ago he scratched his right leg below the knee with his finger nails and immediately it commenced to swell to unnatural proportions. He felt uneasy about the condition of his leg and he sought the advice of his numerous friends who told him not to lose any time in seeing the doctors. However, Kamakele thought castor oil leaves were more healing than any appliances doctors could give him, so he continued putting these leaves around his leg and never sought medical aid. Last Tuesday afternoon while attempting to get into bed, he suddenly expired in the arms of his faithful wife. The suddenness of his death led some to believe that the cause was heart failure. On the following day a doctor ten miles away was notified of the death, and the prompt answer through the telephone was "bury him," and perhaps a certificate was issued that death was due to old age, or some other cause. Kamakele was about sixty years of age and was well liked in the community in which he lived. He is likewise well known throughout Maui. Years ago he was sent to the Legislature under the monarchy to represent Kula interests, and he was father of the bill that extended the free use of intoxicants to native Hawaiians, whereas previously to that time natives were prohibited from entering or buying liquor from liquor saloons. Kamakele was a good hearted man and represented the best type of old time Hawaiians who are rapidly dying away. His home at Keokea was always open to his friends and was a sort of half way inn where travelers who are thirsty and hungry may enter and be sure of a hearty welcome. His funeral took place last Wednesday and was very largely attended by the people of Kula and adjoining districts.

Pain-Killer, the old and well known remedy, has acquired a world-wide renown for the cure of sudden colds, coughs, etc., weak stomach, indigestion, cramp or pain in the stomach, bowel complaint, diarrhoea and dysentery. It has lost none of its good name by repeated trials, but continues to occupy a prominent position in every family medicine chest. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c and 50c. One of the oldest colas in the world, the German Tonic, is disappearing. It is to be replaced by a four-mark piece, equivalent to our American dollar, as the five-mark silver pieces have been found to be too heavy.

Maui and Kauai Ready FOR FIRST GAME OF Inter-Island Polo Contest

(Continued from Page 1.)

with it. This promises well for the tournament for if each man feels that the animal which he bestrides in the games is in the very best of condition he has just so much more confidence.

Maui leads the teams with nineteen horses in all. Oahu comes next with fifteen. Kauai next with twelve and Hawaii last with only eight.

The press stand at the games of the tournament will be on the Waikiki side near the side lines. This will be raised six feet from the ground so that the newspaper men will have a complete survey of the field over the heads of the spectators on foot, horseback or in carriages.

The shelter places for the various groups of polo ponies will be directly to the rear of the press stand. There will be twenty grooms in attendance who will give their whole attention to the horses.

The Maui men will change mounts continually during the games in which they play, it being thought by them that this method will give them a much better show. A player will rush for the side lines during a period when there is no particular danger of the other side scoring, will jump off his horse, mount a new one being held in readiness by a groom and then rush back again into the game.

The Kauai men will not change horses except during the two minutes intervals after goals, it being thought by them that everything is to be gained by remaining in the game and not creating any opening which might be taken advantage of by the opposing team.

Four cups have been donated by B. F. Dillingham. Each man in the winning team will secure one of these.

The Kauai team was photographed yesterday.

P. L. Rice will be the substitute on the Kauai team.

The program which is being gotten up by Allan Dunn, will be a feature. There will be contained a great deal that will be well worth looking at. Besides that there will be blank score cards and the rules of the game.

3000 MILE AERGRAM

Rome, Nov. 11.—The Ministry of Marine has received a dispatch from the captain of the Italian cruiser Carlos Alberto which was placed at the disposal of Signor Marconi for wireless telegraphy experiments and which is now at Sydney, N. S., stating that the ship daily communicated by means of the Marconi system with the station at Poldhu, Cornwall, England, throughout the voyage and after entering the port of Sydney.

The experiments confirmed the possibility of communicating simultaneously with Europe and America during the navigation of the Atlantic at a distance of at least 3000 miles.

It will be easier to assure communication when instruments more powerful than those that can be carried on ships are installed at other stations.

KEKAHA NEEDS NO RAIN

ONE OF PLACES WHERE RAINS RETARD WORK

GRINDING SEASON CONTINUOUS. LABOR ALWAYS EMPLOYED. PERSONAL NEWS NOTES.

Kekaha, Kauai, Nov. 22.—It seems strange yet Kekaha is one place among many where rain is not wanted from one end of the year to the other. When it does rain, which is not often, the plantation is obliged to suspend all work and shut down until dry weather comes again. Another peculiar thing is that the cane does not tassel and therefore no seasons are experienced thus permitting the mill to grind at any time they choose.

Manager Faye in speaking of his plantation said that it would be impossible to run a steam plow for three weeks after a rain on account of the sticky, clay soil. The cane, which extends over a strip of low land nearly twelve miles long is watered by a thorough irrigation system and every time it rains the growth is retarded instead of being advanced. When they wish to grind a certain piece of cane the irrigation is stopped at that particular place which causes the cane to ripen and it is sent to the mill within short notice.

No sensible reason has ever been advanced to explain why sugar cane does not tassel at Ewa, Waianae and Kekaha as much as it does in other places. Kekaha is much better off for labor than many other plantations as by grinding the year around none of the help is turned away.

Kekaha is turning out about forty tons per day and is one of the very few properties in operation at the present time.

HALL WAS IN DANGER.

A passenger who arrived here in the W. G. Hall yesterday states that that steamer had a close shave from going on the rocks at Nawiliwili last Saturday evening. The anchor was just being heaved when the current and the wind seemed to take hold of the steamer and carried her in close proximity to the rocks before the engines could be started and the steamer thus be gotten out of her perilous position.

A BRADSTREET LETTER

The following letter regarding the standing of the Mutual Reserve Life Insurance Co. is from the Oklahoma office of Bradstreet's the greatest commercial agency in the world, and speaks for itself: Oklahoma Office, August 30, 1902. Postoffice Building Robinson St. Mr. J. B. Harrell, City.

My Dear Harrell:—In response to your request I have obtained from our company's headquarters in New York, a confidential report on the Mutual Reserve Life Insurance Company, and I find the report of a decidedly satisfactory character. Their report is based in part on their familiarity with the Mutual Reserve Company's business in general, the high standing of its managers, and in part on the results of the recent investigation of the company by the New York State Insurance Department, which terminated so satisfactorily. Our report shows your company in control of a large line of business and in an excellent condition, and the report is so favorable in character and from such a source that I am of the opinion that you may frequently find it to the advantage of your business to refer manufacturers, bankers, and large dealers, who have access to these reports directly to Bradstreet's.

I myself have become so much interested that when I take out an additional life policy, which I am now contemplating, I will come around and see what you have to offer in Mutual Reserve goods.

Congratulations you on the excellent standing in which I find your company, and wishing you continued success, I remain, Very truly yours, W. R. SWARTZOUT, Superintendent.

LIVES WERE IN DANGER.

A small Chinese store on the corner of Liliha street and a small lane mauka of School street was destroyed beyond repair by fire this morning at about 3 o'clock. The store, which was a small, three-cornered affair, was a frame building and had a small pot shop attached to it. A number of Chinese were sleeping in the building when the fire broke out and so rapidly did the flames gain headway that they barely escaped with their lives. The Fire Department was summoned, but when the engines arrived the fire had already progressed too far to save the building. The Fire Department is at a loss to account for the origin of the fire.

WHEREABOUTS OF WRIGHT.

Officer McDuffie, who was sent to San Francisco to arrest W. H. Wright, returned by the Zealandia yesterday. McDuffie states that he is positive that Wright landed in San Francisco and on the day after landing, went on the steamer San Pablo to Port Richmond, the terminus of the Santa Fe route. People who know Wright saw him on the San Pablo. From Port Richmond Wright must have taken the train south and is now in all probability either in Central or South America.

A SALOON FIGHT.

James Pickard appeared in the Police Court this morning charged with assault and battery on Henry Akau. Last Saturday night Pickard got into a row with Akau in an uptown saloon. Several policemen interfered and their was a general fight ending with Pickard's arrest. In the court today Pickard's memory failed him in most of the salient points, as he was drunk at the time of the row. He was fined \$10 and costs.

John Hackard, a friend of Pickard's, who had interfered with the officers when they arrested Pickard, was also in court this morning, charged with having obstructed the course of justice. As Hackard at the time was so drunk that he did not know what he was doing, this charge was nolle prosequi and a charge of drunkenness entered on which the defendant was fined \$2 and costs.
