LANTANA BLIGHT DANGER SOURCE

Should be Destroyed by Fire With All Speed.

MORE TO BE FEARED THAN THE VILE SHRUB

Professor Koebele Gave Early Warning of Its True Nature and Now Repeats it.

Professor A.. Koebele, Government Entomologist, has furnished Wray Taylor, Commissioner of Agriculture, notes on the lantana scale, Orthesia insignis, as it is scientifically called. The past history of the scale is given, beginning with extracts from a paper by E. G. Green, Government Entomologist of Ceylon, entitled, "An Important Insect Enemy and the Need for Planters to Guard Against Its Spread," in Tropical Agriculturist of January, 1895. The following extracts are of intense interest to every agriculturist in Hawaii:

"In Dr. Trimen's annual report on the botanical gardens for 1893, mention was made of the occurrence in the Peradeniya gardens of a serious insect pest which was most destructive to the ornamental shrubs there. As this pest has been increasing very rapidly and has already spread beyond the limits of the gardens, it is important that general attention should be drawn to it.

"Within the Peradeniya gardens efforts are being made to keep it in check, but it has appeared on lantana in the neighborhood, and there is no knowing where it will stop. It has fortunately as yet shown no taste for either of our two most important products—tea and cacao.

"Coffee, however, does not show this immunity, for trees of Liberian coffee have been observed to be infested with the insect, and we have no reason to suppose that the Arabian species will be less liable to attack.

"Dr. Trimen is of opinion that this this is mainly a garden pest, and does not expect that it will spread to estates. It is to be hoped that this prediction will prove correct, but it would be unwise to ignore the fact that, if unchecked, the pest might spread enormously and might possibly develop a taste for other plants; as was the case with the fluted scale (Icerya Purchasi), which, at first practically confined to acacia and orange trees, finally became almost omnivorous. Forewarned is forearmed and, though it would be most imprudent to create a scare, it is still most advisable to point out a possible danger.

"As mentioned above, the insect has obtained a foothold upon lantana. Should it once become widely and firmly established, it will be extremely difficult to deal with, and wherever lantana flourishes there will be a stronghold of the pest."

Mr. Green is quoted as saying with regard to treatment of the pest: "Determined efforts should be made to stamp out the pest upon its first appearance in any locality. Infected plants should be treated on the spot, regardless of expense, and if necessary with complete sacrifice of the plant."

Professor Koebele tells of the appearance of the insect in the Hawaiian Islands. It was discovered in November, 1899, by Gerrit P. Wilder at Wailuku, Maui, where it was killing the lantana. David Haughs of the Agricultural Bureau sent specimens to Prof. Koebele, who was then visiting Australia, for examination and opinion. The entomologist says:

"I immediately recognized the lantana scale, Orthezia insignis, and accordingly requested Mr. Wilder to have the patches of lantana with the destructive scale insect burned, informing him fully of the danger of this pest. This letter had been acknowledged under date of January 12, 1900. During the summer of the same year Mr. Wilder personally informed me that he had had the lantana and scale bugs burned."

Recently it has come to Prof. Koebele's knowledge that the lantana scale has been widely distributed on Maui, while Kauai people have been asking his advice about introducing it there to kill lantana. In every instance they were given to understand that, by so doing, they may see ever a more dangerous pest than the plan in question.

The entomologist discusses the habits of the insect and its enemies in many pages of typewriting, and makes these concluding remarks:

"It is a well-known fact, both in Ceylon and India, that the Orthezia insignis is a pest more feared than the lantana itself. It has no enemies and consequently will increase to enormous numbers, overrunning the whole country and destroying plants other than lantana.

"The Orthezia Insignis has been present in Ceylon for nine years and has proved itself useless in eradicating the lantana. Lantana is still growing in places where Orthezia had been placed two years since.

"It may prove a serious menace to our already fast-disappearing forest trees. It is highly advisable that the insect should be kept to the Island of Maui as long as possible. At its appearance on the other Islands, the affected plants and surroundings, for a few yards, should be burned to keep it from spreading. A watch should be kept on such places for the next six months.

"We do not take the invasion as a very serious apprehension, but feel doubtful in being able to overcome all consequences if occasion should require it."

FIRE CLAIMS INCREASE

One hundred new claims were filed before the Fire Claims Commission this morning, most of them being from Chinese people. The Chinese consul placed a time limit on the claims to pass through his hands which it is said expired yesterday.

The total number of claims thus far presented is 6300, involving the amount of somethiag like $2,600,000. It is expected that the claims will reach the 7000 mark. The last day for receiving claims will be the 24th of this month. As some single claims are for losses of several members of a family, the aggregate number of claimants will not come far short of ten thousand.

The Commission came back to the claims of native Hawaiians at this morning's session. They are of the same miscellaneous sort as those previously heard. J. M. Monsarrat appeared as attorney for several of the claimants.

John F. Colburn went before the court to discuss points interesting him as a landlord of claimants. The principle on which the Commission is dealing with lessor and lessee in the matter if improvements was explained to him. Broadly, it is that claims from both parties cannot be entertained. One or other must file a waiver.

"If the tenant replaces the improvements my claim ends," Mr. Colburn said in acknowledgement of the justness of the rule adopted.

WORK OF KINDERGARTENS

At a meeting of the Free Kindergarten and Children's Aid Association in the Y. M. C. A. this forenoon, over which Mrs. Allen, vice president presided, the following business was transacted.

Miss Lawrence, director of the association, reported that the five schools of the association would open on Monday, the 9th inst.

It was reported that Mrs. Thompson, sanitary inspector under the association, would continue her work during the ensuing year.

It was further reported that six or seven babies had been cared for daily at the Mary Castle day nursery while the mothers of the little tots attended to their work in various parts of the city.

The committee of the Castle Home for Children reported a pleasant summer spent by the children at that institution.

Two new applications to the home which were presented at the last meeting, were reported on favorably and admission granted.

Notice of a slight change in the constitution was given by Mrs. Harriet Castle Coleman. This work will be attended to at the annual meeting which is to be held in the month of October.

For groceries ring up Blue 911.

FINE STOP OF RUNAWAY.

Patrolman Copp, the new officer from Maui who recently joined the police force, made a stop of a runaway that has at once placed him in the front rank of the best men on the force. He was on Queen street in the afternoon when a runaway team of horses passed him and started up Nuuanu. The animals were hitched to a wagonette.

Copp put spurs to his horse and gave chase. At the corner of Hotel and Nuuanu streets, he caught up and, grasping the bridle reins, of one of the wildly dashing animals, brought the team to a standstill. People on the streets were surprised to see the stop as it was not thought possible that, going at such a rate of speed, the animals could be captured.

LABOR FROM COAST

NO BAR TO CHINESE COMING FROM STATES

Bright Outlook for Future Supply of Field Labor—Chinese From Coast.

By a recent ruling of the Attorney General in the case of the Chinese brought here from San Francisco it was held that Chinese resident in the United States, duly registered as laborers are entitled to admission at the ports of the Territory of Hawaii.

In the opinion of a gentleman intimately connected with immigration of laborers to the Islands this ruling opens up a third source of supply for the planters who should now not be troubled about the future supply of field hands.

The work of getting Porto Ricans here is progressing favorably; last month between three and four hundred Japanese arrived and now that the bar to Chinese immigration from the Mainland is removed there is no reason why many thousands of them might not be brought here if sufficient inducement was offered. One objection that a registered Chinese might have to coming here from the Mainland is that while they are given the right to come here and to be protected while here by their registration certificates, as they are in every other regularly organized territory of the United States, it is clear beyond question that such certificates of registration would give them no right to return to the Mainland from Hawaii.

In his opinion the Attorney General states: "The question of the right to return, however, I am not called upon to pursue. I, therefore, intimate no impressions of the possible right of return of Chinese persons not laborers or of Chinese laborers who meet the conditions specified in the treaty of 1894, notwithstanding the proviso of section 101 of the Organic Act for Hawaii. Furthermore, I desire to limit strictly my views of the liberty of passage of Chinese persons to the different portions of the United States to the case presented, which submits the question as affecting this particular Territory and as controlled by the special laws cited."

Gerardy's Second Success.

The Gerardy concert last evening was a repetition of the splendid artistic success at Mr. Gerardy's first appearance in this city. The audience was not a large one but it was enthusiastically appreciative. Queen Liliuokalani accompanied by Prince David and Mrs. J. O. Carter occupied a box.

Diggs at Waialua.

M H. Diggs, the duly accredited representative of the Pacific-Union Oil Co. of California, is at present in the Waialua district of Oahu, where he has been most successful in placing a large block of stock in the above promising oil property.

MORE LABORERS COME

DORIC FROM ORIENT BRINGS ONE HUNDRED

Bad Impression of the City Gained by Steamer Passengers Last Night---At Channel Wharf.

If the first impressions of people arriving in Honolulu are to be pleasant as heretofore, some great improvements must be made immediately on the manner of getting them to town, than prevailed with the passengers of the Doric last night. The big steamer from the Orient, crowded with passengers, was moored at the Quarantine wharf. After being released from the vessel the passengers were turned loose on shore. Under ordinary circumstances the hacks are out in numbers to meet incoming steamers. To meet the hundred passengers from the Doric last evening there were but six hacks and these had been used by town people to get to the wharf. In nearly every case they were given up to the strangers.

The Doric had a good trip from the Orient. She left Hongkong, August 15; Shanghai, August 20; Nagasaki, August 22; Kobe, August 23; Yokohama, August 27.

For this port the vessel brought four cabin and over one hundred steerage passengers, the latter being Japanese laborers. Her freight is a very large and valuable one and of it 600 tons is for this city. The vessel besides her large general cargo has three Chinese horses on deck. The animals are of the finest and oldest Chinese stock, their pedigree going back for hundreds of years. They are certainly horses of high degree and are being taken to the United States for a Mr. Mitchell, a well known and wealthy New Yorker.

Among the passengers for the Mainland are many German, Russian and American army people and Assistant Surgeon Furlong, U. S. N., formerly of the U. S. S. Yosemite, wrecked some months ago at Guam. Dr. Furlong has with him a full dress coat which he keeps as a souvenir of the loss of his vessel, as it was all of his possessions aboard that he saved.

The Doric discharged her large freight for this port in good time but worked all night to do it. She sailed for the Coast at 11 o'clock this morning taking several lay over passengers from here and a very large mail. She will arrive in San Francisco on the 12th.

FLY THE FLAG ANYWAY

And the Star Spangled Banner in triumph does wave o'er the head of the judge who the constitution did save.

The flag is flying over the Judiciary building today, in token of the holding of the First Circuit Court in two divisions within. Formerly the flag was only displayed from the tower when the Supreme Court was in session. When the United States District Court was instituted, Judge Estee had the flag raised for its sessions.

Judge Gear this morning, after consultation with Judge Little of the Fourth Circuit, who is trying cases in the First wherein Judge Gear is disqualified, ordered the flag to be raised, and up it went.

In a brief intermission of his court, Judge Little said to a Bulletin reporter that it was not for him to give orders in such a matter, but he believed the Circuit courts should have the flag as well as the Supreme and Federal courts.

"They are all courts of the United States," said Judge Little. "The flag is always raised over the Hilo court house when I am holding court."

BAND NOTES.

The band will not play at Emma Square tomorrow afternoon, but at the baseball game between Customs and Police at Punahou.

Sunday afternoon's concert will be at the Capitol grounds. At this time the innovation of vocal music, hitherto only given at evening concerts will take place. Mrs. Alapai and Miss Kelilna will render selections from Il Trovatore. The band had an excellent rehearsal for Sunday this morning.

Mon. Gerardy the violincello master, has informed Captain Berger that he considers the Hawaiian band as good as any he has ever heard. It delighted Mons. Gerardy to hear Belgian music from the band, the first time he has had that pleasure on his present tour.

Francis Murphy will address a Hawaiian audience at the Kaumakapili chapel in Palama Sunday morning. There will be a big temperance mass meeting in Kawaiahao church in the evening.

WATERED MILK TRIAL

W. H. Throne was yesterday found guilty of assault with a dangerous weapon, in drawing several beads at his relative by marriage.. Sentence was set for this morning, and then deferred until tomorrow morning.

Misioni, Japanese, was brought before Judge Gear yesterday for vagrancy. S. F. Chillingworth moved for the defendant's discharge on the ground that there was no sworn complaint. Defendant was accordingly discharged. E. A. Douhitt for the Territory.

U. Ancion, indicted for larceny second degree, by his attorney, L. M. Straus, changed his plea from not guilty to guilty. At the request of Deputy Attorney General Cathcart, sentence was suspended until the February, 1902, term. Ancion's offense was the stealing of two saws valued at $1.50 each and a bicycle lamp at 4, the property of E. O. Hall & Son.

Antone Richard, Jr., was placed on trial before Judge Gear this morning for selling adulterated milk. E. A. Douhitt appeared for the Territory; Andrews, Peters & Andrade for the defendant.

The following jury was empaneled A. Fernandez, W. A. Baldwin, M. P. Robinson, J. Kunewa, P. C. Jones, W. E. Rowell, E. S. Holt, Geo. Kekauoha, F. Harvey, Geo. Nawaahoa H. Berteimann and W. M. Buchanan. The jury retired to consider its verdict at 11:30.

The jury returned a verdict of guilty.

MERCHANTS WILL APPEAL

A member of the Merchants Association and one of the officers of that organization said to a Bulletin reporter today that work was being done along the line of an appeal in the income tax cases which were recently decided on by the Supreme Court. More information is being gleaned and it is confidently expected that an appeal will soon be forwarded to the Mainland. Among other things the member of the Merchants' Association said:

"The whole thing is in the hands of the Planters' Association now but if something is not done soon, we, the Merchants' Association, will get in and demand an appeal and we will send one forward ourselves, if necessary. We are in this thing to fight and we mean to stay by it to the very end. We have started in these courts and our opinion as to the constitutionality of the income tax law has not yet been changed."

NOW IT IS A NEW RAPID TRANSIT CO.

Palolo Improvement Co. Said to be the Promoter.

BRANCHES TO RUN TO MANOA AND WAIKIKI

Will Carry Rocks, Ballast, Dirt, Sand and Incidentally, Passengers---Announcement 30 Days Hence.

The latest development in new business enterprises is the formation of a new rapid transit company. Honolulu is to have its fill of fast riding through the streets. However, this new proposition is not so much for the transportation of people as it is for the carrying of rocks ballast, sand and dirt and it has come about directly through the refusal of the Honolulu Rapid Transit & Land Co. to allow any connections whatever. It is understood that the Palolo Land & Improvement Co. is the main factor in the proposition and that, within thirty days, there will be "something doing."

It is the intention of the men behind the proposition to have a branch of the new rapid transit company up through the lands in Palolo Valley where the improvement company has its holdings. Besides this, there is to be another branch up Manoa valley through land that is owned by private parties. In this way it will not be necessary to obtain a franchise. The same may be said for the Palolo part of the road.

Waikiki is to be one of the principal places to which the road is to run. The road will go down through property that is now owned by rich men and women who have found that to fill in their various holdings would almost break them up in business. These will naturally have an interest in the enterprise. By connecting this portion of Waikiki with Manoa and Palolo valleys dirt can be run down to the various properties at a very greatly reduced rate and will assure at once the building up of that portion of the city, a portion that none but the rich can afford to dwell in now. It might be mentioned incidentally that the great point is the settlement of the Palolo valley tract.

Another part of the proposition is to run a line into town and to connect with the water front. By doing this, ballast can be taken from Palolo and Manoa valleys and ships can be ballasted with despatch and at greatly reduced rates. However, the Waikiki part of the line will be the first to be completed. It will run through private property for almost the whole distance.

As to the power to run the road, it is learned that negotiations have been pending with the Hawaiian Electric Co. and that these people will furnish the requisite motive power.

In addition to the coupons to be cut from the first page of the Bulletin, new subscribers are to be given receipts with coupons attached, entitling them to votes as follows:

One month	40 votes
Three months	150 votes
Six months	350 votes
One year	750 votes
Weekly Edition, 1 year	100 votes

These coupons are detachable and must be torn from the subscription receipts and deposited in the ballot box the same as the first page coupons. It will be seen that for $8, the subscription price of the Evening Bulletin for one year, 750 votes are allowed to a new subscriber, whereas the same amount of money would buy only 160 votes if spent for single copies of the Bulletin on the street. The sum of $4 will buy eighty votes if spent for eighty single copies of the Bulletin with the newsboys or at the business office. This amount of money, if exchanged for a receipt for a six months' subscription to the Bulletin, will secure 350 votes. One dollar for one year's subscription to the weekly edition entitles the subscriber to 100 votes.

The prize offered by the Bulletin is on exhibition in the window of H. F. Wichman, 517 Fort street, and will be presented to the player receiving the greatest number of votes at the close of the contest Oct. 15.

Votes deposited at this office will be included among the scattering until the contestant has received a total of 10. From that time the names will be published.

HAWAII STRIKE IN OIL

WILL USE PRODUCT EXTENSIVELY FOR FUEL

Local Company to Exploit Wells for Local Use---Good Prospects of Success---In a Famous District.

To attractions of climate, diversity of scenery, and products of the soil, California has added another resource which as a wealth-yielder is likely to surpass all others. No sane man today doubts that the development of petroleum in various sections of California, more particularly in the great basin of the San Joaquin valley, will work greater wonders in the evolution of a great commonwealth than the discovery of gold. It will overthrow the Kingdom of Coal, and banish soot and smoke from the face of the earth. It is to bring the plantation mills and factories of the Hawaiian Islands together, and in no section of the United States or the world at large will the combination be more advantageous than right here.

The use of oil for fuel purposes at the various sugar plantation mills is an absolute certainty, and means an annual saving in fuel and labor alone which are two great expenses today in the operation of pumping plants as likewise the driving of ponderous machinery for the grinding and manufacturing of raw sugar.

The relative value of oil from an economic standpoint when compared with any other of the fuel products will be thoroughly appreciated when it is known that a steamer of the capacity of 5,000 tons wastes enough, through the imperfect combustion of coal and the lost space required to carry it, as measured by the results and requirements of oil, to rebuild itself every ten years. Again, several devices have been lately patented for the burning of crude petroleum which pressages a revolution in the generation of heat for mechanical purposes.

There is but one other section in California where the development of oil is being carried on so extensively as in the Coalinga district in Fresno county, or where the results have been so satisfactory for the capital invested, and which is bound to increase by leaps and bounds. Nearly all the prominent oil experts have visited the Coalinga oil districts and have made extended examinations, and all agree upon its ultimate increased output largely in excess of its present daily yield. As a result of the ultimate adoption of fuel in the Hawaiian Islands, the Pacific Union Oil Company of California have entered the Territory for the purpose of interesting capital in their project for the development of oil to partially supply the enormous consumption of oil when once adopted as a fuel.

The company has been duly incorporated under the laws of the State of California, with a capital stock of $300,000 divided into 300,000 shares at a par value of $1 per share. The officers and directors of the company are men well known in business circles on the Mainland. Briefly stated the above company controls a tract of land in the famous Coalinga oil district in Fresno county, Cal., and in order to develop their lands are now offering to the general public 25,000 shares of the capital stock for the purpose of erecting the proper well boring machinery and the sinking of a number of wells. Up to the present time no stock has been offered for sale in California, it being desirous to make this purely a Hawaiian enterprise, and where the product of the wells when once developed will be consumed.

From the results now being obtained from adjoining properties the company feel confident that they have a good property.

It is a fact worthy of note that the oil produced in the Coalinga district is of high gravity, and in point of value exceeds that from any other field in this section of California. Up to the present time the operations of the above company have simply been confined to incorporation and the erection of derrick frames ready for the erection of machinery and operations will soon be commenced to develop their holdings in a practical way. Up to the present time the company has been most successful in having through their representative placed considerable stock. The local agents for the Hawaiian Islands are J. H. Fisher & Co. of Honolulu.

LIGHT THAT HEALS.

New York, Aug. 22.—A cable to the Sun from London says: A dispatch to the Mail from Copenhagen says Dr. Sophus Bang, manager of the laboratory belonging to Prof. Finsen, the inventor of the light cure for lupus, has constructed a special electric lamp giving a feeble light, but which is extremely rich in chemical rays. The dispatch adds that Dr. Bang uses metal instead of carbon poles. The bacteria-killing power of this lamp is ten times as great as that of an ordinary arc lamp, and a lupus patient requiring seventy-five minutes' treatment with the arc lamp will only require from three to five minutes' treatment with the new one.

The Bulletin, 75 cents per month.

THE ASYLUM QUARRY

SUSPENDS OPERATIONS FOR THE TIME BEING

Stone for Macadamizing of Nuuanu Avenue is Obtained from W. C. Achi's Quarry up the Valley.

Work at the Insane Asylum quarry has been suspended by the Roads and Bridges bureau. This has nothing to do with the ultimatum of the Board of Health for the removal thence of the rock crusher and the stoppage of blasting there. Orders were given to stop work before the communication from the Board was received.

Road Supervisor T. A. Lloyd is at present obtaining material from the quarry of W. C. Achi in Wyllie street, tendered to the Public Works department by the owner. It is being used for macadamizing of Nuuanu avenue from Mr. Schaefer's gate to Beretania street now in progress. By getting the stone from Mr. Achi's quarry a much shorter haul is obtained than from the Asylum quarry.

Mr. Boyd, Superintendent of Public Works, finds that the stone from the Achi quarry to be of fair quality, although not equal to the Asylum quarry product.

MAY RAISE BEER

New York, Aug. 25.—A circular has been issued by the National Asociation of Brewers making the announcement of the commencement of war to the knife on the National Union of Brewery Workmen, commencing September 1. The brewers ask owners to assist them in bringing, first, a general movement against the unions of brewery workmen; second, to bring pressure to bear on the Government to withdraw the new tax on beer, and, third, to raise the price of beer with the assistance of the state organizations of brewery owners. The circular concludes with the announcement "We will take action on September 1." On the other hand, the workmen have sent out an appeal, asking their members to stand together. It is estimated that 20,000 men will be locked out.

Visited the Asylum.

Superintendent of Public Works J. H. Boyd and Treasurer W. H. Wright paid an official visit to the Insane Asylum yesterday afternoon. There is nothing new in the rock crusher controversy with the Board of Health.

BORN.

FRIDAY.....SEPTEMBER 6, 1901.

To trust is to bust, but the average victim of a spendthrift trust appears to "go broke" most o. the time while the trest rolls up coin for future generations.

It is worthy of note t..at the unpleasant remarks made by eastern papers regarding Mrs. Wilcox had their origin in the political gang represented by the morning organ.

The mosquito problem need not continue such a serious and unsurmountable affair if the people of the Islands will keep pace with the work done by scientists of the Mainland.

Agriculturists of Hawaii should mark well Prof. Koebele's warning that there are pests less to be desired than lantana, and see to it that the lantana scale is promptly destroyed.

Hawaii has one consolation in contemplating the sugar trust scheme to take the protective duty off raw sugar. There is no barrier to refined sugar from Hawaii being placed on the market on a par with the sugar trust product.

Sixto Lopez will find himself the smallest fly that ever buzzed on the national wheels of American government. He has probably aroused more interest in Hawaii than he will ever be able to center about himself in the Philippines.

The announcement that Wm. J. Bryan contemplates moving to Chicago suggests that Nebraska prosperity is burying the silver leader so deep that he considers it best to move into new fields where the lightning of discontent strikes more often.

If every foreign military officer does not keep his eyes open with a view to finding out all he can while traveling through the United States, the average American is very much mistaken. The wonderful expose made by the Advertiser this morning is amusing—sort of a Belgian hare proposition.

Hanna has said he is a plain business man and not fitted for the Presidency. Roosevelt on the other hand has the training and ability to particularly fit him for the place. On these grounds there seems but one choice for the Republicans to make in naming the next national leader.

First impressions of Honolulu gained by passengers landed from the Doric at quarantine wharf last night could not have been highly enthusiastic. The hackmen of the city ought to see to it that proper transportation is available for incoming passengers whatever wharf the steamers dock at.

Efforts to obtain Chinese laborers from the Mainland will doubtless meet the same difficulties encountered in the search for Portuguese laborers in California. Chinese are after the almighty dollar and while the present era of prosperity continues they probably make more money where they are than could be obtained in Hawaii.

It is fortunate the asylum rock crusher has gone on a strike for the time being. The breathing spell thus allowed department officers will doubtless be a marked advantage in reaching a calm solution of the problem before them, to decide whether the crusher or the asylum is the white elephant in the case.

The popular favor with which the first electric line of the city is received appears to have stirred the rapid transit ambition to a marked degree. The more the merrier. It is hoped the men behind the latest scheme will strike a Desky transit gait.

The Public Works department is gaining the gratitude of a long suffering public by the temporary repairs now being made on Beretania street. Owing to the nature of the roadbed the first heavy rain storm will probably make the street as bad as ever, but the people appreciate a fairly level road though it may not last long.

Assessor Pratt is having the most difficult task of his life to discover how much money the Territory can bank on as a result of the income tax law. What with the prospect of appeal to higher courts and the raising of specific illegal points the schedule of taxes will be a more unsettled proposition than the Governor's estimates before the Legislature.

If J. H. Boyd's boom for Congress is sprouting on Hawaii as the Herald intimates, the people can bank on it Mr. Boyd will not waste any of his official time nursing the plant. Supt. Boyd is tending strictly to his official business as few of his predecessors have done. His ambition is proved to be a progressive administration of the most important territorial office and it is safe to say that fly by night booms will not lead him astray. Boyd won't lose any sleep, though the people are well aware that he would be a first class man for the Washington position when the time comes for a change.

HANNA AND ROOSEVELT.

Senator Mark Hanna's Presidential boom seems to be taken seriously in Ohio. Whether this is because Ohio must uphold its reputation of always having a Presidential candidate ready or the outcome of a positive ambition on Hanna's part remains to be seen.

When Perry Heath in an interview of some months ago brought Hanna into the field as a logical candidate, the people were surprised but interested. Hanna's indifferent reply quieted active suspicision that the bee was in his bonnet. Interest has centered more particularly in Vice President Roosevelt and Governor Odell of New York with a few favorite sons like Fairbanks of Indiana and Shaw of Illinois thrown in.

The Washington correspondent of the Toledo (Ohio) Blade takes Hanna in all seriousness, however, and devotes two columns of plausible figures and forecasts which show that Hanna has the whole situation in the palm of his hand. All he has to do is close his fingers and the plum is his.

Roosevelt is recognized at the outset as an active aspirant for Presidential honors in 1904, notwithstanding the Vice Presidential hoodoo he has to overcome. His recent trip through the West is spoken of as a part of his plan to keep his friends in order and his boom in motion. Roosevelt is said to center much of his hope in the West and make much of his New York citizenship to strengthen his cause. According to this correspondent, however, Roosevelt's grip on his native State is weakened by the unexpected strength shown by Governor Odell who is said to have a firm hold on the State organization. New York's vote is forthwith stricken off the Roosevelt roll which leaves him with the vote of Idaho, Kansas, Montana, North Dakota, Utah, Wyoming and possibly Washington, Oregon, California and some of the New England States. These conceded States will give him 77 votes in the convention to start with and he will need 476.

It is Hanna and Hanna alone who looms up strong according to the Ohio authority. Hanna is said to be sure of all the Southern States that will poll a convention vote of 332. He can of course get the big vote of the Ohio delegation and is said to be a strong favorite in South Dakota and Nebraska on account of his personal efforts in those States at the last election. Thus an additional 75 votes is figured into the Hanna column.

Quay with Pennsylvania's big vote is known to be opposed to Hanna but this is not supposed to count. It only remains for Hanna to play the game to finally secure the complimentary votes given favorite sons and land the prize.

The Toledo Blade correspondent reads Roosevelt out of the fight with a celerity that runs like a sure tip on the races. This has happened to Roosevelt before, but the immortal Teddy has never been known to become panic stricken in consequence. The men who are figuring on side tracking Theodore Roosevelt are reckoning without their host. If the situation appears dubious for him it is but the signal for harder work on the part of his friends. Roosevelt would not know what to do with himself if there were a walk over in sight. He may indeed lose as is predicted by Hanna's friends. Presidential conventions play queer tricks sometimes. It is to be hoped he will triumph and in his own inimitable way upset the nice laid plans of the men who opened the Vice Presidency for him as a convenient side track.

Planters and homesteaders of Hawaii are justified in calling upon the Territorial officers for more energetic effort in quelling the fires of the Hamakua district. Thus far the attitude of the government has been approaching indifference. It is pretty hard when the property owner sees his property going up in smoke to have the authorities quietly suggest that he do what he can and the government will try to reimburse him for the money he puts out to save his own and government property.

DAMAGES FOR LIBEL

In the libel suit of Eugene Avery vs. Hawaiian Gazette Company, the jury returned a verdict for plaintiff with $400 damages. An appeal was noted before Judge Little and the jury.

Royal D. Mead, counsel for defendant in the suit of J. L. Howland vs. Byron O. Clark, entered a confession of judgment for the amount claimed, before Judge Little. George A. Davis for plaintiff. The amount was $477.25 and interest from maturity on a note at six months, dated Pomona, Calif. December 20, 1896.

H. Zerbe vs. Honolulu Tobacco Co., Ltd., came on for trial before Judge Little this morning, the following jury being empaneled: B. Naukana, A. W. Pearson, E. K. Hanapi, T. Krouse, D. K. Hoapili, O. Cox, J. Zablan, R. W. Davis, I. L. Cockett, J. S. Walker, J. A. Legros and J. A. McCandless. G. A. Davis for plaintiff; Robertson & Wilder for defendant. The suit is for seven months' salary as manager of defendant's store and $100 for expenses, amounting to $800.

Antone Garcia has been arrested on the charge of deserting his wife, a native woman. Garcia will fight his case. Attorney Creighton will appear for him.

The schooner Eclipse brought 1,480 sacks of Kona sugar this morning.

Auction sale of bankrupt stock tomorrow at Jas. F. Morgan's at 10 a. m.

Furnished and unfurnished rooms are for rent. See To Let column on page 8.

The trim bark Kaiulani sailed for San Francisco with many passengers this afternoon.

Kauai steamers arriving this morning report good weather at present on the Garden Isle.

John Degreaves has brought suit for divorce against Caroline Degreaves on the ground of adultery.

Dr. Sandow of Kauai is in town. He comes to meet his wife, expected in the Mariposa this evening.

J. S. Spear, Jr., and wife and H. H. Scott departed in the Doric for San Francisco this morning.

W. F. Reynolds has taken the oath on admission to practice in all the district courts of the Territory.

Geo. Haffner, manufacturing jeweler, has removed to 184 Hotel street, where he will be pleased to meet his old customers.

Prof. and Mrs. Bashford Deane, who arrived in the Doric last evening, sailed for Hawaii in the Mauna Loa this morning.

Judge Estee opened the Federal Court this morning but nothing was brought before it. The court adjourned until Monday.

T. F. Dredge, a relative of Alexander Young, and representing the San Francisco firm of Crane & Co., arrived in the Doric last evening.

Honolulu is an ideal place for picture taking. Honolulu Photo Supply Co. is an ideal place for picture making. Best printing and developing in the city.

A penal summons has been served on Miss Rose Kelly, keeper of the "Engelside" boarding house on Vineyard street, on account of alleged failure on her part to pay her license.

At the Y. M. C. A. at 4 o'clock next Sunday, C. J. Day will address the men. His subject "Laborers Together" will be of especial interest to laboring men and that includes the vast majority.

Seven Japanese stevedores, charged with assault and battery on Takomoto on Liliha street a couple of days ago, were tried in the Police Court this forenoon, found guilty and sentenced to pay a fine of $2 0and costs each.

The four Porto Ricans arrested a couple of nights ago on the charge of vagrancy, appeared in the Police Court this forenoon. The prosecution asked that a nolle prosequi be entered in order to give the defendants another chance.

The charges of fornication and soliciting against Donohue, the hack driver, were nolle prosd. in the Police Court this forenoon on account of lack of evidence. The other charge of violating hack regulations has been set for a later date.

It was learned at police headquarters this afternoon that about fifty Porto Ricans had been turned out of different places about the city last night. There has been a great influx of this nationality into the city of late and none of them seem to have work.

Remember the big baseball game between the Custom House and Police teams on the campus at Oahu College at 3 o'clock Saturday afternoon. Barney Joy will pitch for the Police and George Clark for the Custom House team. The band will play at the game and not in Emma Square, as usual.

Joseph Hartman, the liquor dealer, was up in the Police Court this forenoon on the charge of selling less than a gallon of spirituous liquor to a certain party when, according to the terms of the license granted to him, he cannot do this. The defendant was represented by counsel. He will plead not guilty when the case comes up for trial on Tuesday.

The use of the Singer in millions of homes shows the unprecedented success of these ideal sewing machines. It is convincing proof that the Singer excels in all kinds of family sewing and art needle work. All our sewing machines are of the best construction, beautifully decorated, and are mounted on selected woods in finely designed cabinets of artistic design. B. Bergersen, agent, 16½ Bethel street, P. O. Box 155.

The coming term of St. Loius College will open on Monday next at 9 o'clock. There is a very large enrollment list for both the boarding and day schools. Bishop Ropert has had extensive repairs done to the school buildings and the college is now in fine shape. The institution is now prepared to accommodate a hundred boarding pupils. About 300 day pupils have put in applications so that the college is assured of all the work it can well take care of during the coming year.

In the Police Court yesterday afternoon, the four Japanese arrested some days ago on the charge of beating Yamada were found guilty and fined $25 and costs each. The defendants told a story of how the complaining witness had beaten a woman in Iwilei and how the four men had come to the rescue. Judge Wilcox remarked that he did not believe a word the principal witnesses for the defense had said. It was clearly a trumped up story. Yamada was a police informer and it was undoubtedly on this account that he had been attacked by the four men. Attorney I. M. Long appeared for the defense while Attorney Brooks looked out for the prosecution.

Ewa Plantation, Sept. 3.—N. J. Palmer, chief engineer of pumps in the employ of the Ewa plantation was badly scalded by escaping steam while repairing the engine at pump No. 7 a few days ago. He is now under the care of Dr. C. A. Davis, the plantation physician, who reports that conditions are favorable for an early recovery.

SOUTH SEA SETTLERS

THE GOVERNMENT TRYING TO PLACE THEM BETTER

Dr. Bingham Aiding in the Search for Another Camping Ground Than the Naval Reservation.

Rev. Dr. Hiram Bingham has been exerting himself in cooperation with the government, since the latest action of the Board of Health regarding the South Sea Islanders settlement on the naval reservation, to find a better place of abode for the poor people. He was in consultation yesterday afternoon with the Superintendent of Public Works on the matter and then went out to Kalihi detention camp, with the approval of Mr. Boyd, to have a look at the barracks.

Mr. Boyd told a Bulletin reporter that the government was trying to find a suitable locality for the South Sea Islanders. It might be Kalihi camp, temporarily.

Dr. Bingham has always taken a fatherly interest in the little colony of Polynesians stranded here many years ago after completing labor contracts on the sugar plantations. He attends all of their funerals, being a master of their language. The venerable doctor is author of the Gilbert islands translation of the Bible printed in New York a few years ago.

It is extremely doubtful if the proposition to enforce sanitary regulations upon the self-observance of the simple islanders, in their rude cabins on the sand dumps at the harbor entrance, would result in much betterment of their condition.

CRESCEUS LATEST RACE

Readville, Mass., Aug. 22.—The celebrated Cresceus was the magnet today that drew almost 15,000 people to the Grand Circuit meeting here. As a sort of recognition of the favors shown him in the way of applause when he appeared upon the rack, The chestnut horse proceeded, in the second heat of his race with Lord Derby and Charley Herr, to lower the track record by three-quarters of a second and to break the world's record of final quarters by trotting the distance in 0:29¾. By this latter performance Cresceus lowered the record of 0:30, which he himself made at Detroit about a month ago, when he went the mile in 2:05. His accomplishment today was the fastest quarter of all kinds, for both Peter the Great and Tommy Britton did the second quarter of a heat at Lexington, Ky., several years ago in 0:29½.

Something of the interest was removed from the free-for-all trot when Charley Herr was distanced in the first heat, thus leaving the affair to Cresceus and Lord Derby. All of the horses received a cordial greeting at the scoring, and when they went off in the first heat Charley Herr had the pole, with Lord Derby beside him and Cresceus on the outside. At the quarter the pole belonged to Cresceus, for Charley Herr had gone up in the air, and at the half Cresceus was about two lengths in front. At the three-quarters Lord Derby was breathing into Ketcham's back. The Cahill horse was far back and out of the race. Coming home Cresceus came in ahead by half a length. The time was 2:06½.

In the second heat Cresceus drew away from Lord Derby until at the half he was two lengths to the good. At the three-quarters, however, Lord Derby had his nose at Cresceus wheel and a little later he was actually ahead of Cresceus, but at that moment he broke and it was all over. Ketcham drove home, creating the new last quarter record. The mile was trotted in 2:06.

McCLURE'S FOR SEPTEMBER.

A typical number of McClure's—that is the brilliant September number in a nutshell. Which means, in the first place, that the articles are particularly timely. To begin with the Okapi, the strange newly discovered beast found alive in the forests of Central Africa, is described for the first time in America by its discoverer, Sir Harry H. Johnston, K. C. B Special Commissioner for Uganda, British East Africa. The author contributes some sketches of this extraordinarily colored beast, from which a striking frontispiece in colors and other illustrations have been made.

Of greater importance, perhaps, and equally timely, is the article "How I Hope to Reach the North Pole," by Evelyn-Briggs Baldwin, commander of the Baldwin-Ziegler expedition, whose sailing for the Pole has already been chronicled for the press. This is Mr. Baldwin's only announcement to the public of the plans and purposes of his expedition—an expedition which Nansen believes will reach the Pole. The article is fully illustrated.

In fiction the September magazine lives up to the remarkably high standard set by the midsummer fiction number. A delicious story, comically illustrated by Henry Mayer, is "The Man Who Gave No Tip," by Benjamin Ridgely; a story of real pathos is Kate M. Cleary's "The Stepmother," beautifully illustrated by Frank V. DuMond; Frank H. Spearman's story, "Of the Old Guard—Dave Hawk, Conductor: Looter and Hero," with a fine picture of Dave by Jay Hambidge, is in that popular writer's best vein. And there are other excellent stories.

DECREASED DEATH RATE

CENSUS GIVES VALUABLE DATA ON LONG LIFE

Consumption Apparently Being Conquered---Improved Sanitation and Health Rules Does the Work.

Washington, Aug. 21.—The Census Bureau today made public the mortality statistics for the year 1900, W. A. King, chief of the vital statistics division, says: "The most important feature of the results presented is found in the decrease in the general death rate in the registration era of 18 per 1000 of population, a decrease of nearly 10 per cent, and the decrease in the rates from the particular diseases to which the general decrease is due. The advance made in medical science and sanitation and in the preventive and restrictive measures enforced by the health authorities is still more strikingly shown in the comparative rate for the registration cities of the country taken together. In 1890 the death rate in 271 registration cities of 5000 or more people was 21 per 1000; in 1900 the rate was 18 per 1000 in 341 cities of 8000 population and upward, a reduction of 2.4 per 1000. The gross population of the cities comprehended was 14,958,254 in 1890 and 21,680,037 in 1900.

"The entire meaning of these figures can be properly weighed only when the rates for the individual cities are considered in connection with the known conditions of local improvement in sanitation and health regulations—factors which are not of a statistical nature and were not developed by the inquiries in the schedules.

"The decrease in the general death rate and in the deaths due to diseases most frequent in the early years of life, on the one hand, and the increase in the rates due to those diseases occurring generally at advanced ages, on the other hand, mean increased longevity.

"The average age at death in 1890 was 31.1 years; in 1900 it was 35.2 years.

"The total number of deaths reported in 1900 was 1,039,094; in 1890 it was 841,410. The increase was therefore, 197,675, or 23.5 per cent. As the percentage of increase a more complete return of deaths than in 1890."

Among the totals in the various States and Territories for 1900 are the following:

Arizona, 1233.
California, 22,506.
Idaho, 1142.
Montana, 2882.
Nevada, 483.
Oregon, 3396.
Utah, 3079.
Washington, 4910.
Wyoming, 767.

St. Joseph, Mo., with a death rate of 9 per 1000, shows the lowest mortality, and Shreveport, La., with 45.5 the highest. Death from all the principal diseases shows a decrease since 1890, the most notable being in consumption which decreased 54.9 per 100,000.

LAWSON NOW PLANS VENICE IN AMERICA

Boston, Aug. 25.—Thomas W. Lawson, yachtsman, copper king, multimillionaire, horse breeder, dog fancier and gas agitator, is going to build a miniature Venice on the rugged coast of Maine. He has bought two islands off Stonington, and has options on twelve others, which he will pay for when the titles are proved to his satisfaction.

These islands are situated in Isle au Paut bay and are about fifteen miles from the mainland. The plans contemplate the building of the most remarkable summer resort in the United States. The islands are all close together, and many of them can be connected with bridges. On Saddleback, the largest of the group, about forty acres in extent, Lawson will erect a magnificent palace for himself. The whole matter will be placed in the hands of a landscape artist, who will furnish plans which will transform the islands into a "Venice in America."

The smaller islands will be cleared of everything unsightly and everything which shows the rugged beauty of the group will be left untouched. On some of the larger islands there will be conservatories and vine covered vestibules. Miniature parks will be filled with deer, bears, gray squirrels, partridges and every game animal that lives in Maine. The whole cost of the project will be above $1,000,000.

Old Story Here.

New York, Aug. 26.—A new thing in telephones has been inaugurated at one of the piers of the big ocean-going steamships. Telephone apparatus is placed on the steamers and a station erected on the piers. Connection is made by a flexible cord. By this means telephone communication can be established with incoming steamers before the gang plank is put out. In the case of outgoing steamers passengers can have telephone communication with their friends till the vessel leaves the pier.

New York Shipping in State of Stagnation

New York, Aug. 27.—Stagnation in the shipping business at New York and even more so at the outports is the existing condition, according to the Journal of Commerce, which asserts that shipping is demoralized and that shipowners find themselves unable to obtain business at any rates. The dearth of merchandise is not confined to any one department. It is quite general, including manufactured products, as well as grain and provisions.

"This condition of stagnation, says the Journal of Commerce, "applied to the shipping business of the outports even more than to New York, as practically all the freight business out of this port is carried in the regular packets, including the great freight steamers of the White Star, Hamburg-American, North German Lloyd and Atlantic Transport steamship lines, as well as the smaller freight carriers of the other lines. With these lines the absence of demand for freight room is indicated merely by the low rates at which they offer to take cargo. It does not, however, interfere with their regular sailing dates, for, if they have not sufficient cargo, they merely utilize their water ballast compartments and sail 'light.' It is a fact that large steamers with 12,000 tons carrying capacity and upward, have left this port carrying less than 3000 tons of cargo all told."

KNIGHT TEMPLAR DRILL

Louisville, Ky., Aug. 28.—A spectacular competitive drill by the crack commanderies of the country, the first held since the conclave of 1883, attracted a crush of Knights Templar conclave visitors to Churchill Downs today.

The contestants were: Columbia Commandery No. 2, Washington, D. C.; Colorado Commandery No. 1, Denver; Hanselmann Commandery No. 16, Cincinnati; Allegheny Commandery No. 35, Pittsburg; St. Bernard Commandery No. 1, Chicago; Calvary Commandery No. 3, Parkersburg, W. Va.; Golden Gate Commandery No. 16, San Francisco; California Commandery No. 2 (mounted), San Francisco.

The trophies which are of silver are: First prize, thirty-four pieces, valued at $3000. Second prize, twenty-five pieces, valued at $2000. Third prize, center piece, valued at $1300. Fourth prize, two pieces (mounted), valued at $900. Fifth prize, loving cup, valued at $600.

While the Knights were drilling the meeting of the Grand Encampment got under way at the Girls' High School. When Grand Master Lloyd called the meeting to order there were 120 Knights present to transact business. The Grand Master's, Grand Treasurer's Grand Recorder's and other reports were received and referred to the proper committees.

Several Valuable Pieces

OF

REAL ESTATE AT AUCTION.

By virtue of an Order issued out of the Circuit Court of the First Judicial Circuit, Hon. George D. Gear, presiding, in a cause at Chambers entitled Adelaide Schlief et al. versus Joseph Clarke et al., Equity Division, Number 1208, the undersigned will sell at Public Auction to the highest bidder, subject to confirmation by said Court,

ON SATURDAY, SEPT. 14, 1901,

At 12 O'Clock Noon,

At the mauka entrance to the Judiciary Building, in said Honolulu, Oahu, the following described lands and the improvements thereon, to wit:

1. That certain piece or parcel of land situate on the N. E. corner of King and Punchbowl Streets, in Honolulu, Oahu, Territory of Hawaii, and bounded and described as follows:

Commencing at North corner and running

South 29° East 75 links along Keolewa's; thence

South 48° 30' West 389 links along Hana Haalilio's; thence

North 67° West 37 links along King Street; thence

North 42° East 342 links along Punchbowl street; thence to place of commencement, area 1-5 acre. The same being R. P. 5705 of L. C. A. 243 to Honokaupu, and being the same conveyed to the said Joseph Lazarus by Mrs. J. K. Fyfe and D. K. Fyfe, her husband, as per deed dated Nov. 3rd, 1883, and recorded in Liber 84, pages 104-105.

2. Royal Patent Grant Number 3596. That certain piece or parcel of land situate at the South Slope of Punchbowl Hill, Honolulu, Island of Oahu, and described as follows: Lot No. 502.

Beginning at a point on mauka side of Kinau Street and 200 ft. Westerly from iron pin at West angle of Boardman's premises, thence the boundary runs by true bearings:

N. 21° 12' E. 286 ft. along lots 503 and 505;

S. 81° 34' W. 115 5-100 along Lunalilo St.;

S. 21° 12' W. 229 along Lot 501;

S. 68° 48' E. 100 along Kinau St. to inital point.

Area 26750 sq. ft.

3. Two lots No. 117 and No. 118 on Beretania Street, being lots or parcels of land described in Royal Patent No. 284, and described as follows:

Commencing at the makai South corner of Lot No. 116 (T. Metcalf's) and running

South 78° 15' East 200 ft. along mauka street to West corner of Lot No. 119 (R. H. Rowlin's), thence

North 11° 45' East 150 ft. along Lot No. 119 to its mauka North corner, thence

North 78° 15' West 200 ft. to mauka E. corner of Lot No. 116, thence

South 11° 45 West 150 ft. along Lot No. 116 to place of commencement, containing 833 fathoms and 12 ft. more or less. Less what has since been deeded to the wife. (This lot is on the Waikiki side of lot now occupied by Mrs. A. L. King.)

4. That certain piece or parcel of land situate at the mauka corner of Punchbowl and Palace Walk Streets, in said Honolulu, described as follows:

Apana 1. Commencing at a point on Punchbowl Street; being North corner of Palace Walk and Punchbowl Street, which is the South West corner of this lot, thence

North 43° East 96 chains along Punchbowl street; thence

North 44° West 3.17 chains along lot of Kelilahonui; thence

South 37° West 1.09 chains along government to Palace Walk along lot of French; thence along same to place of commencemnt. Area 1 rood 10 perches R. P. No. 4514 L. C. A. 278 to G. Laanui.

5. That piece or parcel of land at the West corner of Maunakea and Pauahi Streets, Lot "B" and Lot "C".

Beginning at a point on the North West side of Maunakea Street 35.9 feet makai of the corner of Pauahi Street and running

S. 57° 10' W. True 61.5 ft. along Maunakea Street,

N. 32° 50' W. True 42.0 ft. along Malia Kahai lot,

N. 57° 10' E. True 62.0 ft. along Mutch lot,

S. 32° 22' E. True 42.0 ft. along Fire Department lot to the initial point and containing an area of 2590 square feet. This lot is leased to Lau Chong at $35 per month, which lease will expire on the 1st day of May, 1908.

6. Also the undivided interest of the late Joseph Lazarus in and to those certain pieces or parcels of land situated in the District of Hana, Island of Maui, described as follows:

1. That certain piece situate at Kapohue and conveyed to G. Keakaulaiwi and J. Kihaka by deed recorded in the Register of Deeds in Honolulu in Book 78 on pages 354 and 355 area acquired 7¼ acres.

2. That portion of the Ahupuaa of Nuolea conveyed to said G. Keakaulaiwi and J. Kihaka by deed recorded in said Register Book 78 on pages 351 and 354, area acquired 25 acres.

3. That portion of the Iliaina of Koali conveyed to said G. Keakaulaiwi and J. Kihaka by deed recorded in said Register in Book 78 on pages 352 and 353, area acquired 21 acres.

All of said pieces of land being the same that were conveyed to Joseph Lazarus by D. Toomey by deed dated April 6, 1886, and recorded in Book 158 on page 298, and now under lease to the Hamoa Plantation, said lease to expire on March 19, 1904.

Terms of sale are cash in U. S. Gold coin, that ten (10%) per cent of the amount be paid on the day of sale, and deeds at expense of purchasers. For further particulars, enquire of the undersigned at his office in said Judiciary Building.

Dated Honolulu, Oahu, August 15, 1901. J. A. THOMPSON, Commissioner.

Legal Notices.

SWIFT BILL ELOPES

Tacoma, Wash., Aug. 24.—Pretty Adelina Lydia Boyle, aged 14, is the third wife whom William C. Gates, better known as "Swiftwater Bill," has married within as many years. What makes the case more interesting is the fact that she is Gates' own niece, and was won by him despite the protestations of her mother, who is highly indignant that her brother should have eloped with his niece. So indignant is she that she has sworn out a criminal complaint charging Gates with kidnaping her daughter. The Tacoma police have wired the San Francisco police department to arrest Gates on his arrival there, which is expected to be tonight. In that event an effort will be made to bring him back here at once for trial.

When your joints are stiff and your muscles sore from cold or rheumatism, when you slip and sprain a joint, strain your side or bruise yourself, PAIN-KILLER will take out the soreness and fix you right in a jiffy. Always have it with you, and use it freely. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

EMMETT MAY,

Manager for Hawaiian Islands. JUDD BUILDING.

ERRONEOUS STATEMENT

In the Star of Tuesday, September 3, appeared the following:

"The steamer Colon arrived here Saturday afternoon and sailed Sunday afternoon for Port Los Angeles. Although there will be no other steamers to the Coast until September 6, six days later than the Colon left, there was no effort made by the post office to get Coast mail off on her. The post office was closed all day Sunday and no notice in regard to the Colon was posted anywhere.

"Only those who took the trouble to take letters down to the steamer were able to get mail off to the Coast."

The above article shows that absolutely no attempt was made by the reporter who wrote up this matter to get information from headquarters. It seemed to the reporter that everything had been done in a careless manner by the post office and that was sufficient for him. He took no pains to inquire further.

The post office officials are very angry about the Star's story for the very good and sufficient reason they say, that every statement made is an untruth. A Bulletin reporter called on Louis T. Kenake the treasurer of the local post office today and this is what he had to say:

"Two hours after the Colon had been cleared at the Custom House we had all the information necessary in our hands. I went personally to the agents, Messrs. Hackfeld & Co., and there learned that the Colon was to sail for Port Los Angeles.

"Now then, we have our orders from Washington that no mail is ever to be sent to Port Los Angeles. There is only a fourth class post office at that place, and it is probably the idea of the department at Washington, that it would not be for the good of the service to despatch mail there. So you see the reason why we did not make any attempt to get a mail off by the steamer mentioned.

"The second complaint is that there was no one at the post office on Sunday to give the public any information. As a matter of fact, there was someone at the post office almost all day Sunday.

"The third complaint is that there was no notice posted anywhere regarding the Colon. As it was not our intention to despatch a mail on that boat there was no necessity for a notice of any kind. The whole article is a misrepresentation of the true state of affairs."

FOX SAYS HE WILL SPAR

Jimmy Fox, one of the experts of the manly art who has come to Honolulu to remain and who is the man at the head of affairs in the Oahu Athletic Association, called at the Bulletin office yesterday afternoon for the purpose of denying the rumor that has gotten abroad, that the sparring match scheduled to take place between himself and Lon Agnew on Monday next has been indefinitely postponed.

Mr. Fox showed his ankle to a Bulletin reporter and it can be stated that there is no question about the seriousness of the sprain which Mr. Fox has suffered. It will be three or four weeks before he can do any good work. Mr. Fox said: "I will spar with Agnew for points as soon as I am able. You can see for yourself that it would be impossible for me to do this now. I am very anxious to meet Agnew and I have not said to anyone that the contest has been indefinitely postponed."

Lon Agnew said this morning that he was satisfied Fox had a bad ankle and that he would not think of sparring him until he was entirely well. He intended to have things in good shape before standing up to a contest for points.

Complaints are heard on all sides of the condition of the alleyway that leads past Dimond's store on King street to the post office. There is a great need of a police officer at that place during the hours of the night.

"Eagles" and "Red men" will play ball—they all patronize the Pantheon.

NEW TO-DAY

NOTICE TO YACHT OWNERS.

All those intending to enter yachts in the regatta on September 21, 1901 are requested to meet at the Hawaiian Hotel on Friday, September 6, 1901, at 7:30 p. m. The object of the meeting is to classify the yachts, fix courses for yachts, arrange time allowances, etc., etc., for the benefit of the Regatta Committee.

BY AUTHORITY

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT.

Island of Oahu, Territory of Hawaii. —at Chambers.

Order for Special Term.

Deeming it essential to the promotion of justice, I do order that a special term of the Circuit Court of the First Circuit be held in the Judiciary building in Honolulu, commencing MONDAY, the 16th day of SEPTEMBER, A. D. 1901, at TEN of the clock in the forenoon of said day and continuing for the period provided by law.

Done at Chambers this 4th day of September, A. D. 1901.

GEO. D. GEAR,
Second Judge Presiding.

The foregoing order is hereby approved. A. PERRY,
Associate Justice of the Supreme Court of the Territory of Hawaii.
Dated Sept. 4, 1901.
1935—Sept. 6, 7, 10, 12, 14.

Treasurer's Office,
Honolulu, Sept. 5, 1901.

Notice is hereby given to postmasters who served under the Republic of Hawaii to present their claims for postage stamps sent to Washington, to the office of the Treasurer, Honolulu. The receipt for said stamps from the Postmaster General at Washington must accompany the claim.

WM. H. WRIGHT,
Treasurer of the Territory of Hawaii. 1934-3t

Seems - Strange

THAT WE SHOULD BUY MORE

WASHSKIRTS

when we already had the completest stock in town. Yet if you knew the inner history of this purchase the wonder would cease. It was one of those ONCE-IN-A-SEASON CHANCES, that brook not a moments hesitation, much less refusal. Indeed, had we not accepted at sight, would we not have been traitors to our interests?

If you have use for one more summer skirt, these invite your inspection. Every skirt absolutely perfect. Styles the latest; some plain; some with elaborate trimmings; some with flares and flounces. There are all these materials—these good materials—Coverts, Denims, Crashes, Linens, Khakis and Piques. And prices to suit all purses.

Whitney & Marsh,

LOST—If the young lady, who, by mistake or otherwise, took away from Progress Hall last SATURDAY evening a white cashmere, blue, satin-lined cape with white swansdown edging, will return to the Bulletin office, she will confer a favor. 1913-tf

FOUND.

PACIFIC UNION OIL CO.

Located in the Famous Coalinga Oil Fields of California.

Proven oil lands, completely surrounded by as rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day.

Contract prices for oil at the Coalinga wells, 70 cents per barrel.

With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits.

The oil industry of California is in its infancy, yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future.

The average advance on original sales of oil stock in twenty leading companies in California has been from $1 to $108 per share.

Oil lands have advanced from $1.25 to $1,000 and $2,000 per acre.

When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from $1 to $1,500 per share.

The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity, who will see that the money derived from the sale of stock will be legitimately applied to the development of its property.

For further information, apply to J. H. FISHER & CO., Stock and Bond Brokers, and Hawaiian agents for the sale of a limited amount of Pacific Union Oil Company stock. Stangenwald building, Merchant street.

1932—1mo

Kainoa (k) has brought suit against Kaoo (k), Kala, (w), Kale (k), her husband, Kaoni (w) and Kaohea, her husband, Kulia (w) and John Doe, her husband, for the partition of certain valuable land in Honolulu.

No More Dread

OF THE Dental Chair

TEETH EXTRACTED AND FILLED ABSOLUTELY WITHOUT PAIN by our late scientific method applied to the gums. No sleep-producing agents or cocaine.

These are the only dental parlors in Honolulu having PATENTED APPLIANCES and ingredients to extract, fill and apply gold crowns and porcelain crowns undectecable from natural teeth and warranted for ten years, WITHOUT THE LEAST PAIN. All work done by GRADUATED DENTISTS of from 12 to 20 years' experience, and each department in charge of a Specialist. Give us a call, and you will find us to do exactly as we advertise. We will tell you in advance exactly what your work will cost by a FREE EXAMINATION.

Set Teeth	$5.00
Gold Crowns	$5.00
Gold Fillings	$1.00
Silver Fillings	50c

Our name alone will be a guarantee that your work will be of the best.

New York Dental Parlors,

Room 4, Elite Building, Hotel Street.
