STACKABLE AFTER THE JOB

WANTS TO BE DESIGNATED BY THE SECRETARY OF THE TREASURY AS THE FISCAL OFFICER TO REDEEM THE HAWAIIAN SILVER COINAGE UNDER THE ACT LATELY PASSED.

Collector Stackable is said to be making vigorous efforts to secure appointment by the Secretary of the Treasury, as the fiscal agent for the redemption of the Hawaiian silver coinage.

The act providing for the redemption of the Hawaiian silver coinage, in effect, that the work of receiving it for redemption shall be done by a collector of internal revenue or of a collector of a port within the territory of Hawaii, or by a United States depository, as shall be designated by the Secretary of the Treasury.

Another effect of the passage of the bill is to make all Hawaiian silver coins legal tender to the same extent that they were under the laws of the Republic of Hawaii. This legal tender quality is one that they have not had since the organization of the territory.

This short limit of time in which to make redemption, while plenty long enough to secure the redemption of the bulk of the coinage, is likely to work hardship in a few individual cases.

AGAINST THE TREATY

THE LEGISLATURE OF CALIFORNIA DECLARES ITSELF AND THE SENTIMENT OF THE STATE—IT ADOPTS A RESOLUTION INSTRUCTING SENATORS BARD AND PERKINS AGAINST TREATY.

Associated Press Cable to the Star. SAN FRANCISCO, January 29.—The Legislature has passed a resolution instructing Senators Perkins and Bard to oppose the Cuban treaty.

GERMANY MUST NOT BLUFF.

Associated Press Cable to the Star. WASHINGTON, D. C., January 29.—The Venezuelan situation was discussed today in the Senate Committee on Military Affairs. The sentiment of the committee was that the dignity of the United States must be maintained and that Germany must not be permitted to bluff the government.

POWERS REFUSE

NEGOTIATIONS SUSPENDED IN THE VENEZUELAN CASE AS A RESULT OF REJECTION OF UNITED STATES MINISTER BOWEN'S PROPOSAL—THE MINISTER IS CONSULTING CASTRO AGAIN.

Associated Press Cable to the Star. LONDON, January 29.—Great Britain, Germany and Italy have replied to the note addressed to them regarding the proposal of United States Minister Bowen to place the powers on an equal basis in the settlement of claims.

NEGOTIATIONS CEASE.

Associated Press Cable to the Star. WASHINGTON, D. C., January 29.—The attitude of the allied powers in insisting upon preferential treatment in the matter of the Venezuelan claims has resulted in a temporary cessation of negotiations.

LET'S TRANSPORTS ALONE.

Associated Press Cable to the Star. WASHINGTON, D. C., January 29.—The Senate has decided not to disturb the provision made by the House regarding the army transports. This means in effect that there will be no material change in the system of operating the transport service as San Francisco will still be continued as the principal port.

IS GERMANY HUNGRY FOR CUBA?

Associated Press Cable to the Star. HAVANA, January 29.—The Cuban government is considerably aroused over the report that German officers have been occupied secretly photographing various fortifications about Cuba and also taking soundings of the principal harbors.

Associated Press Cable to the Star. ROME, January 29.—Minister Prinette has been stricken with paralysis.

Associated Press Cable to the Star. MANILA, January 29.—The report that the verdict in the court martial of Major Glenn, charged with cruel treatment of Filipinos, was an acquittal, is confirmed.

HAS NO ORDERS ON COAL REBATE

LOCAL COLLECTOR IS WAITING FOR INSTRUCTIONS IN MATTER OF APPLYING REBATE LAW.

Although the law granting rebate on foreign coal became operative the middle of this month, no advice on this subject have been received by Collector Stackable. It was thought that the Treasury Department would have notified the Collector regarding the steps to take in the matter, but for some reason, such instruction has not been sent.

Only three vessels have arrived with coal since the rebate became a law. They are the barkentine Makawell and John Palmer and the schooner Churchhill. About 4,000 tons of coal has been brought by those vessels. The regular duty is being enforced and will continue in force until orders notifying the local customs people of the rebate will have been received.

PARKERS TO LEAVE. BOYD IS OUT

Samuel Parker and wife and Miss Campbell are booked to depart for the Mainland tomorrow by the S. S. China. The resignation of Robert N. Boyd, engineer of the road department of the Public Works department, has been called for by Superintendent Cooper. It is stated, and Boyd will leave the office at the end of this month. R. N. Boyd is a brother of the former superintendent of Public Works, and was appointed by James H. Boyd.

CATHCART TO PROSECUTE

WAIHAWA AND ITS TEACHERS

BOARD OF EDUCATION SENDS A MAN TO INVESTIGATE TROUBLES—CHANGED POSITIONS.

The Board of Education held a meeting this morning. Among the matters taken up were a number of complaints from Waihawa against Miss Byrns, teacher in the school there. The Board received communications both in favor of and against the teacher, some of the residents of the colony having objections to her teaching. It was decided to send Charles E. King to Waihawa to investigate, and he will come back with a solution of the troubles, it is expected.

Mary C. Lofquist, Helen Severance and Ella L. Austin were held entitled to life certificates, and certificates were ordered issued for them. The resignation of Miss Mary Chalmers, of Pohakupuka, Hawaii, was received and accepted. The following changes among teachers were reported and approved:

Oahu.—Miss Eleanor Koelling appointed teacher of the Kailua school in place of Aruni Ahaa, resigned, in order to attend the Normal. Hawaii.—Mrs. A. H. Hancock appointed assistant in the Papekoi school in place of Carleton Miller, resigned.

Miss M. Torres appointed assistant in the Ookala school; a new position. Miss Alice Zerbe appointed assistant in the Waioliu school in place of Miss Emily Williams, resigned.

E. K. Iona appointed teacher of the Papa school in place of William Hu, dropped from the service. James Ontai appointed principal of the Honouanui school in place of David K. Baker, resigned.

Mrs. Urs Storn to be an additional assistant in the Kona waena school. Miss Van Deerlin, assistant at Makapala, married and become Mrs. Irish and moved to Mahukona; appointed teacher of the school at that place, succeeding Miss Louisa Kala, transferred.

Miss Louisa Kala of the Mahukona school transferred to Pololu in place of Miss Aoe Akina, transferred. Miss Aoe Akina of the Pololu school transferred to Makapala in place of Miss Van Deerlin.

Maul.—Hugh F. Sturtevant appointed assistant at Lahaimatuna in place of J. P. Looney, resigned. Miss Maggie H. Mosser appointed assistant in the Pala school in place of Miss Carsey Culbert, resigned.

Kauai.—Miss May Ticoomb appointed assistant in the Haena school in place of David Laames, dropped from the service. Miss Ella Thronas of the Koolau school having married and resigned from the service at the end of December, has applied to be reappointed to her former place and the request has been granted. She is now Mrs. C. S. Christian.

TEXAN'S FINE SHOWING.

A splendid showing was made recently by the S. S. Texan on her last run from New York to San Francisco. She made the trip in 47 days averaging 11 1/2 knots. She brought 10,000 tons of freight from the east. Her Honolulu freight was transferred to the Nebraska which arrived yesterday, making it possible therefore to land New York freight in Honolulu in 61 days.

WILL HANDLE CRIMINAL CASES

The Boyd, Wright, Wright and Other Cases On For Trial At The Next Term Will Be In His Hands.

The Boyd and Wright embezzlement cases coming up in the Circuit Court next week will be prosecuted by Deputy Attorney General John W. Cathcart, it is reported. Cathcart's resignation as deputy takes effect at the end of this week, but owing to the fact that he has handled the cases so far and is familiar with them, as well as one or two other important cases, it is said to be the plan to secure his services as special deputy.

The term opens next Monday and there will be about 75 criminal cases on the list when all the appeals and commitment cases are entered up. The transition period cases are at the head of the list as usual, but they will be again postponed, to await the result of the case which is to be argued at Washington during the month, by Attorney General Dole. The two cases against J. A. Magoon, charged as an accessory in the William H. Wright matter, it is expected that there will be a motion to dismiss the indictment, as it is admitted that there cannot be a trial of the case without the conviction of William H. Wright.

There are about 400 cases on the calendar, including the civil, jury, jury-waived and divorce cases. This is a slightly larger calendar than the last one.

It is expected that during the term there will be a decision from the Supreme court in the case of Henry Smith vs. the Hamakua Mill Company, in which the question of whether the three first circuit judges may hold court at once will be settled. If the view of Judge De Bolt and Judge Robinson is sustained, Judge Gear will be able to try cases as well as the other two. Other wise De Bolt will sit in term alone and the other two will divide chamber business. Until there is a decision, De Bolt and Robinson will try cases and Gear will take all the chambers business. He is expected back on the Ventura.

The grand jury has been summoned to appear in court next Monday at 9:30 a. m. and the trial jury at 1:30 p. m.

SCHOONER ADA WRECKED TODAY

PILED HIGH AND DRY ON BEACH AT KAHANA—NORTHERLY GALE DROVE HER ASHORE.

The schooner Ada is wrecked. A telephone message was received this morning from the windward side of Oahu stating that the little vessel had been piled high and dry on the beach at Kahana.

This message was sent to Nelson Lansing, the owner of the vessel. Not many details of the wreck were learned. The boat evidently went ashore some time early this morning. She has been on the northern side of this island for some days waiting for a load of rice. The high wind which prevailed during the last three days evidently proved too much for her and drove the little vessel onto the shore.

Kahana is a little bay about 25 miles from Honolulu. Just what the Ada was doing in that bay is not certain. She could scarcely find much shelter at that place in the kind of wind that has been prevailing.

Mr. Lansing started to the other side immediately to ascertain if something could not be saved from his vessel. The boat went out only a few days ago after laying up for some weeks. She was formerly in the rice trade to Hanalei and Kailihwai, but was taken out of that business. Mr. Lansing had signed a contract only a short time ago to have his boat operated in the business from the north side of the island.

It is not surprising to learn that some boat was wrecked in this gale. The wind had been blowing a gale ever since Tuesday and the owners of various island boats on the other side of the island have been considerably worried. Thus far the Ada seems to be the only boat that has suffered from the fury of the weather.

GALES ARE NOW PREVAILING

CUMMINS IS WAITING FOR WEATHER TO SUBSIDE BEFORE GOING TO WINDWARD SIDE.

The islands are experiencing some very rough weather. Reports from Kauai and Hawaii are to the effect that the strong weather has been prevailing ever since the first of the week. The steamer J. A. Cummins is practically weather bound in this port. Now that the sugar season is on her objective point is Waimanalo plantation on the other side of the island. The weather is so rough on the windward side however that the vessel will hardly attempt to go to Waimanalo today. Last Tuesday the Cummins had to get out of Waimanalo as the weather came up very suddenly. Within four hours time there was such a heavy sea breaking at the entrance to the Waimanalo lagoon that it seemed impossible for the steamer to get out.

The steamer Mikahala arrived yesterday from Kauai with a report of very rough weather on the windward side and very heavy seas and gales crossing the Kauai channel. The steamer Nihau arrived yesterday at noon and reported that the steamer Ke Au Hou was weather bound at Hanalei on Kauai.

The schooner Charles Levi Woodbury arrived last night from Hilo. She experienced very heavy weather with high winds. The vessel came under reefed sails the entire trip and made the run in about 28 hours.

One of the island schooners had to heave to off Waikiki yesterday afternoon owing to the heavy wind that was blowing off shore.

The barkentine John Palmer arrived this morning from Newcastle. She experienced strong northerly and northeasterly gales during the last two days evidently having to fight her way up through the first part of the present storm.

Cable advices this morning from San Francisco stated that the weather was perfect in that part of California.

Deputy Attorney General

E. C. PETERS GETS THE APPOINTMENT AS DEPUTY ATTORNEY GENERAL UNDER LORRIN ANDREWS—HE CAME HERE TWO YEARS AGO AND FOR A TIME WAS A PARTNER WITH ANDREWS.

Attorney E. C. Peters, of Magoon & Peters, is the new deputy attorney general, having accepted an appointment from Attorney General Lorrin Andrews. Andrews and Peters will take hold of the work at once as there is a term of the court beginning next Monday, with a long criminal calendar and only three days in which to prepare the cases. The new deputy attorney general came here from California, in 1900. He graduated from Stanford University, and in 1897 from the law department of the University of California. In 1899 he was admitted to practice by the Supreme court of the State of California, and during the following year he received the degree of Bachelor of Law from the State University. Peters was associated with Attorney General Andrews for a time as a member of the firm of Andrews, Peters & Andrews. Several months ago he went in with Magoon and has remained with him up to this time. He has shown much legal ability and skill as a practitioner, and is expected to make a very good record as deputy attorney general. Lorrin Andrews said this morning that he did not know what would happen in the matter of the assistant deputy attorney general. He said that the position was at present held by E. A. Douthitt, and that he had not heard that the latter intended to resign.

ANKNEY IS SENATOR.

Associated Press Cable, Morning Service.

OLYMPIA, Wash., Jan. 28.—The peculiar three-cornered fight that has been waged in the legislature here over the election of a United States Senator to succeed Senator Turner, the fusionist, resulted tonight in the election of Levi Ankeney, a capitalist, who had secured many of the Democratic votes. His opponents were Harold Preston and former Senator John L. Wilson. The contest has been a bitter one and assertions were made that Senator Ankeney used money to secure his election. Ankeney has been an avowed candidate for the senatorship for some years.

COMPOSER PLANQUETTE DEAD.

Associated Press Cable, Morning Service.

PARIS, Jan. 28.—Robert Planquette, composer of some of the most famous operas, died today. Planquette was fifty-three years of age. The success of his life was the "Chimes of Normandy" which met with instantaneous success when first performed in Paris in 1877. Since then the opera has been heard in nearly every part of the world. Planquette's successful operettas were "Valet de Cour," "Le Serment de Mme. Gringoire," and "Paille d'Avoine." His most recent efforts were "Rip Van Winkle," "Le Chevalier Gaston," and "Nell Gwynne," the latter having phenomenal runs in English playhouses.

TAGS FOR FISH.

One of the most important duties of the naturalists on the Huxley, a vessel which is pursuing investigations in the North sea, will be to liberate fishes bearing numbered labels in different parts of the English area of the fishing grounds. This part of the work is to be carried out on a large scale by all the participating countries in the hope of throwing a clearer light upon the migration and growth of food fishes in the North sea. By this method the biologists hope to contribute definite results of value on the immature fish question, since they expect to show the extent to which the shallow banks where small flat fish abound serve as a source of supply or nursery for the general area of the North sea fishing grounds. Science has found a way of attaching labels to fish without inconveniencing them and it is asserted that not the least cruelty is involved in the experiment.—Chicago News.

Is generally regarded as the best Machine on the market to-day.

In these days while some manufacturers are flooding the country with worthless sewing machines and issuing circulars wherein they have copied the legitimate claims of reputable companies, many purchasers become bewildered and puzzled and find it difficult to make a selection. The popularity that the New Home Machines have earned and which they maintain throughout the world is evidence of their superiority and as we have always enjoyed the enviable reputation of handling only first class machines, there need be no hesitation in buying from us. We also handle the Pan-American Hand Sewing Machine.

DENGUE FEVER AND THE SCHOOLS

THE DISEASE NOT SERIOUS ENOUGH TO WARRANT CLOSING THE PUBLIC SCHOOLS.

President Cooper of the Board of Health yesterday replied to Superintendent A. T. Atkinson's inquiries regarding the closing of the public schools on account of dengue fever.

Dear Sir:—In view of some anxiety expressed about the present epidemic of fever, variously spoken of as dengue or breakbone fever, I should like an authoritative opinion from yourself as to how this Department should act.

I have also consulted several physicians in general practice, and the consensus of their opinions has been that there is no danger.

I am anxious to protect the school children but want to avoid causing an unnecessary alarm. If you will kindly give me authoritative advice or ruling upon the matter I shall be obliged.

The disease generally appears in epidemics and is almost exclusively confined to tropical and semi-tropical countries.

Dengue is an acute disease, considered by those who have had opportunities of studying it, as both contagious and infectious, a general inference being that it depends on a specific germ.

It appears to me that unless the epidemic assumes alarming proportions excluding children who have been in contact with the disease or the closing of the public schools would create a feeling of universal disquietude that is altogether unwarranted by the usual favorable termination of the disease.

Parents should isolate their children suffering from the malady and when that is done the danger of conveying the disease to others is minimized if not altogether effective.

It appears to me that unless the epidemic assumes alarming proportions excluding children who have been in contact with the disease or the closing of the public schools would create a feeling of universal disquietude that is altogether unwarranted by the usual favorable termination of the disease.

LET THE GOVERNOR ACT PROMPTLY.

If Governor Dole wishes to aid the business community in the fire claims matter he can do so better by spending a few dollars in cable tolls than by sitting down and waiting for mail from Washington.

The bill appropriating the money has been signed and is law. It is not to be supposed that anyone in Washington is worrying about how soon Hawaii gets the money, or how long she waits for it.

THE MOSQUITO.

While the members of the legislature are considering measures to be brought before the session which begins in a little more than three weeks, it would be well for some of them to take up the matter of ridding Honolulu of the mosquito pest.

Other places have had success, according to well founded reports, in destroying their mosquito population. Some months ago Dr. Sloggett, then president of the Board of Health, expressed the opinion that the use of oil in the breeding places of the mosquito, gave enough promise of success to be well worth a trial.

The conditions in Hawaii are peculiarly favorable for the experiment. There is no vast extent of territory around us, from which the pestiferous swarms might be steadily repopulated.

By the creation of the office of mosquito-killer, and by allowing reasonable funds for a thorough trial of the experiment, the legislature may do a great service.

ACHI IS AFTER THE INCOME TAX

PROPOSED AMENDMENTS TO THE COUNTY ACT—SENATOR DICKEY PROPOSES SOME ALTERATIONS.

At least two of the senators who are in Honolulu have some important amendments to propose to the county government act. The act has been generally distributed now, and scores of people are looking over it with a view to suggesting changes. Senator Achi proposes to have the income tax stricken out, while Senator Dickey has been marking up his copy with a lot of proposed eliminations.

Dickey is inclined to think that the act can be pared down a good deal by cutting out a lot of matter that is already in the laws of the Territory. "In the first chapter," he said, "the bill sets forth that the Territory shall be divided into five counties, and then it gives the boundaries of the counties in detail. The counties correspond with the judicial districts already established and defined in the present laws of the Territory, and there is no need of setting them out again. Then there is a division of the counties into districts, and the district act set forth in the county act the same as they appear in our present laws. These matters might as well be stricken out, to shorten the bill.

"As far as I have gone in examining the bill I am in favor of it, though other amendments may suggest themselves. For instance the bill provides that there shall be no change of a county seat unless two-thirds of the voters of the county favor it and that the proposition is only to be submitted to the voters on a petition signed by a majority of all the voters. This last provision should be changed to one-third. It is too much to ask that a majority petition be secured for anything. If a one-third petition can be secured that is evidence that there is enough desire for a change to warrant submitting the matter to the people."

Senator Achi stated yesterday that he would attack the income tax provision in the proposed new law, and will endeavor to have it stricken out. The income tax law passed by the last legislature has been incorporated bodily into the county act, without any changes except such as are necessary to make it apply to the county governments. Corporations and individuals doing business in more than one county are required to make a return in each.

One of Achi's complaints against the act is that it requires each corporation and individual to file a sworn statement of income and expenditures under oath, and this is impossible in many cases, it is claimed. "Last time I made a statement and swore to it because I had to, but I know that I swore to things that were not so, because I cannot make it as near correct as I could and then swear to it," said the senator.

Senator Achi remarked that he would try to have the income tax stricken out. In this he has the support of some others, as there is some sentiment against the tax. Dickey is the author of the act and will fight to retain it. He expressed himself, however, as willing to consent to an amendment allowing a return to be a sworn to as not absolute truth, but the "best knowledge and belief."

DENGUE IN POETRY

Beyond the Chagres River,
Are paths that lead to death;
To fever's deadly breath—
To DENGUE'S poisoned breath!

Beyond the tropic foliage,
Where the alligator waits
Is the palace of the devil—
His original abode—

Beyond the Chagres river
Are paths forever unknown,
With a spider's tooth each pebble,
A scorpion's stings each stone.

'Tis here the boa constrictor
His fatal banquet holds,
And to his silny bosom
His hapless victims folds.

Beyond the Chagres river
Lurks the panther in his lair,
And BREAKBONE'S paroxysms
Are in the noxious air.

Beneath the trembling leaflets,
Beneath the fallen rocks,
Are the ever present perils,
Of a million different broods.

Beyond the Chagres river
'Tis said—the story's old—
Are paths that lead to mountains
Of purest virgin gold.

But 'tis my firm conviction,
Whatever tales they tell,
That beyond the Chagres river
All paths lead straight to hell!

The foregoing is from a collection of poems by an American named Gilbert who was long resident on the Isthmus of Panama. It seems rather to overdraw breakbone fever, as it is said to overdraw other conditions.

Dengue fever is following its usual course in Honolulu and becoming epidemic. The disease is described in the Standard dictionary as follows:

"An acute epidemic disease peculiar to warm climates, characterized by violent fever, pain in the bones and an eruption on the skin similar to that of scarlet fever. Called also break-bone fever; dandy-fever; sun-fever."

The disease has been epidemic in Honolulu before, the name having been derived from the cries of those who felt its pains. In some cases the pains are acute, which accounts for the name of "break-bone" fever. Dengue is comparatively harmless, having a very low rate of mortality and leaving no bad after effects, as is the case with grip.

It runs a course of high fever, with severe pains in the bones and joints and ends with a mild rash somewhat similar to those of scarlet fever and measles.

NEBRASKAN MAY SAIL TODAY

The S. S. Nebraskan may sail for Kahului tonight at 5 o'clock to discharge the remainder of her cargo. She is now awaiting a wireless message from Kahului announcing the condition of the weather at that port. Unless word to the contrary be received, the vessel will depart for that place today.

MUST MAKE THE BUSINESS PAY

EXPERT TESTIMONY IN CLUB STABLES CASE AS TO PROPER SALARY FOR A MANAGER.

The Club Stables case was continued before Judge De Bolt this morning with more expert testimony about the salaries of managers of livery stables.

"Billy" Cunningham was the first witness called, but he was unable to qualify as an expert on the subject. He said he had had a good deal to do with stables and had had some experience with the Territorial Stables, which had been "very disastrous." He admitted, however, that he had not had practical experience as a stableman, and the court sustained objections to his answering as an expert.

E. H. Lewis of the Honolulu Stockyards Company was called, and McCants Stewart and Thompson admitted that he was an expert. Robinson then put a long hypothetical question. He wanted to know what would be a proper salary for a foreman of a stable similar to the Club Stables on Fort street. Lewis thought that from \$75 to \$150 a month was proper. The same wages would be right at the Kukui street branch, according to the value of the man who held the job. As to a manager of the whole business, Lewis didn't want to give figures.

"If the business was paying well, \$250 or \$300 a month would be all right," he said. "If it didn't pay \$50 a month would be too much." The witness stated that he could not answer the question any more definitely, but offered to tell the court his own salary, which was held to be not evidence.

Under cross-examination Lewis stuck to his theory of results. If a man was a good man and managed the business well and it paid enough to warrant such a salary, he thought it right to pay as much as \$300 to a manager, but his idea was that if the manager did not make the business pay, \$50 a month was too much for him.

Thompson sought to show that the business had paid until general depression began in the community, when profits ceased through no fault of Manager Bellina. The salary of Bellina, to which Bolte and other stockholders object, is \$300, and the foreman get \$200.

John Sullivan was called as an expert and testified that he thought the salaries much too high. Sullivan was one of the starters of the suit. He thought that \$75 and \$100 were enough under the circumstances.

C. Bolte testified to the same effect. He would pay \$100, and he thought the foreman ought to pay rent for the cottages they used at the stables.

MADE DIFERFUL THREATS.

"Bod" Robinson the watchman of Fred Harrison's place in Kewalo reported to the police this morning that a Portuguese named Antonio threatened to set fire to one of the houses by Harrison's canal. Robinson said that the threat was made because of dislike of Robinson.

STACKABLE IS AFTER THE JOB

even them, unless more success is met in disseminating the information than is usually met with. Some of these hoarders will turn up at a bank or a store next January or later with a quantity of Hawaiian silver which will be worth only its bullion value, say about forty cents on the dollar. Then they will wonder how it happened. They will think they are being cheated, and if so it may very likely be, that out of the savings of months half or three-quarters of a year is in Hawaiian silver, worth after December 31, 1903 and its bullion value, the loss will be considerable.

The following is the bill as it passed the two houses and was signed by the President:

Be it enacted, etc., That the silver coins that were coined under the laws of Hawaii, when the same are not mutilated or abraded below the standard of circulation shall be received at the par of their face value in payment of all dues to the government of the Territory of Hawaii and of the United States, and the same shall not again be put into circulation, but they shall be received in the mints as United States coins.

Sec. 2. That when such coins have been received by either Government in sums not less than five dollars they shall be deposited as bullion in the mint at San Francisco, Cal., and shall be received as subsidiary coinage of the United States. And the superintendent of the said mint shall pay for such coins, at their face value, to the proper officer or agent of the Government depositing the same, the sum so deposited, in standard silver coins of the United States. The expense of transmitting said coins to and from the Hawaiian Islands shall be borne equally by the United States and the Territorial government of Hawaii.

Sec. 3. That any collector of customs or of internal revenue of the United States in the Hawaiian Islands shall, if he is so directed by the Secretary of the Treasury, exchange standard silver coins of the United States that are in his custody as such collector with the government of Hawaii, or with any person desiring to make such exchange, for coins of the government of Hawaii, at their face value when the same are not abraded below the lawful standard of circulation, and the Secretary of the United States, under the direction of the Secretary of the Treasury, is authorized to deposit such silver coins of the United States as shall be necessary with the collector of customs or of internal revenue at Honolulu or at any Government depository for the purpose of making such exchange under such regulations as he may prescribe.

Sec. 4. That any silver coins struck by the government of Hawaii that are mutilated or abraded below such standard may be presented for recoinage at any mint in the United States by the person owning the same, or his or her agents, in sums of not less than \$50, and such owner shall be paid for such coins by the superintendent of the mint the bullion value per Troy ounce of the silver they contain in standard silver coin of the United States, and such bullion shall be coined into the subsidiary coinage of the United States.

Sec. 5. That silver coins heretofore struck by the government of Hawaii shall continue to be legal tender for debts in the Territory of Hawaii, in accordance with the laws of the Republic of Hawaii, until the 1st day of January, 1904, and not afterwards.

Sec. 6. That any silver certificates heretofore issued by the government of the Hawaiian Islands, intended to be circulated as money, shall be redeemed by the Territorial government of Hawaii on or before the 1st day of January, 1905, and after said date it shall be unlawful to circulate the same as money.

Sec. 7. That nothing in this act contained shall bind the United States to redeem any silver certificates issued by the government of Hawaii, or any silver coin issued by such government, except in the manner and upon the condition stated in the act for the recoinage of Hawaiian silver.

Sec. 8. That the sum of \$10,000, or so much thereof as may be necessary, is hereby appropriated, from any moneys in the Treasury of the United States not otherwise appropriated, for the payment of the expenses of transporting said coins from the Hawaiian Islands to the mint at San Francisco, and a return of a like amount in the subsidiary coins of the United States to the Hawaiian Islands.

STOPPED ONE DREDGER.

Contractors Had to Discontinue Scoop at Pearl Harbor.

Work with the scoop dredger at the Pearl Harbor has been discontinued during the present heavy weather. This style of dredger, that works satisfactorily in calm weather, but is inoperative in any swell or high wind, work is accomplished with great difficulty. It has been decided therefore not to attempt to use this dredger in any but good weather.

The big suction dredger is working satisfactorily however. Although there has been very rough weather with gales the last two nights the dredger has performed work without a break. The contractors will continue to operate this dredger unless the weather should become so rough as to render its use impossible.

STEAMSHIP PROMOTIONS.

Captain Albert Barron the captain of the S. S. California which arrived yesterday from Seattle, is making his first trip in the vessel as master. He was formerly mate on her and when Captain Lyons was transferred to the Arizona, Barron was given the command of the California. Mate Walters went back to New York recently as second mate of the S. S. Alaskan but was promoted to be mate of the California.

CHINA MAY ARRIVE.

The S. S. China may arrive this afternoon or tonight from the Orient. Barron has been a strong head wind however for the last three days so it is not probable that she may not arrive off port until tomorrow morning. She will sail for San Francisco tomorrow.

CONFIDENCE

said Lord Chatham, "is a plant of slow growth." People believe in things that they see, and in a broad sense they are right. What is sometimes called blind faith is not faith at all. There must be reason and fact to form a foundation for trust. In regard to a medicine or remedy, for example, people ask, "Has it cured others? Have cases like mine been relieved by it? Is it in harmony with the truths of modern science, and has it a record above suspicion? If so, it is worthy of confidence; and if I am ever attacked by any of the maladies for which it is commended I shall resort to it in full belief in its power to help me." On these lines

It quickly eradicates the poisonous, disease-breeding acids and other toxic matters from the system; regulates and promotes the normal action of the organs, gives vigorous appetite and digestion, and is infallible in Prostration—following Fevers, etc.—Scrofula, Influenza, Asthma, Wasting Diseases, Throat and Lung Troubles, etc. Dr. W. A. Young, of Canada, says: "Your tasteless preparation of cod liver oil has given me uniformly satisfactory results, my patients having been of all ages." It is a product of the skill and science of to-day and is successful after the old style modes of treatment have been appealed to in vain. Sold by all chemists.

A SOUVENIR PROGRAM.

Good Work of Symphony Orchestra in Maritana.

There will be a special souvenir program arranged for Maritana as a remembrance of the occasion. There will be no advertising and all the names of those taking part will be enrolled on the pages. The printing will be done in Spanish colors, red, green and black upon buff paper.

Mrs. Annis Montague Turner is enthusiastic over the present condition of the chorus and is particularly delighted with the Symphony club musicians who, under the leadership of Mr. Joehner will furnish the orchestra. They play with much expression and feeling and handle with delicacy the dainty music with which the opera is so plentifully besprinkled.

Fitting costumes is now a daily part of the duties of the chorus and principals.

HAD A NARROW ESCAPE.

A Japanese fisherman had a narrow escape from being drowned at Kawaihae yesterday. One of the marine whirlwinds came sweeping along at Kawaihae. The fisherman's sampan was caught by the column of wind, plucked out of the water and thrown some distance. The Japanese was carried along too. He escaped being hurt but lost all of his fish.

SHIP OFF THE HARBOR.

At 1:45 p. m. today the tug Fearless took hold of a ship off the harbor. It was at first thought that the unknown vessel might be the overdue Florence from Tacoma, but the vessel off the port is in ballast, so can not be the Florence. The identity of the vessel will not be learned until she enters the harbor this afternoon as the wires between here and Diamond Head Charlie are down, and no communication with the lookout can be secured.

Weak Nerves

Are you ever nervous? Do you lie awake nights, suffer from despondency, and often feel discouraged? It's a terrible life to lead. Don't suffer in this way any more. Get strong and well.

Follow the advice of Mrs. Thomas Fritchard, of Adelaide, South Australia. She sends us her photograph and says: "I had a terrible illness which left my nerves all unstrung. I had severe headaches, indigestion, sleeplessness, and my nerves were just as weak as they could be. I then tried Ayer's Sarsaparilla and I began to improve at once. My appetite returned, my digestion improved, and my nerves became strong and steady."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's. Use Ayer's Pills with the Sarsaparilla. These are purely vegetable pills. They cure constipation, biliousness, sick headache. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

LABOR FOR HAWAII

The problem of supplying the right kind of labor for our island colonies will be a difficult one to solve. The legislation that resulted in the exclusion of Chinese from the United States was vigorously contested before it prevailed. The Chinese had not obtained the hold on our industries that they have on the industries of Hawaii or the Philippines; and their exclusion was not attended by serious consequences. It proved easy to get men of other nationalities to do the work that the Chinese had already begun to monopolize. The change, instead of producing an economic convulsion as was predicted merely made an unnoticed ripple.

But in the Hawaiian Islands and the Philippines the situation is entirely different. Industries have grown to large proportions because of the employment of cheap labor, and the exclusion of this labor would, so the people of the islands say, put an end to many of their most profitable enterprises. Of course we remember that the same predictions of disaster were made in California a dozen years ago when the exclusion law was enacted, and they failed to come true; but it must also be remembered that the conditions are different in our new colonies. The climate, the surroundings, the people, the customs, the traditions of the countries are those to which the white man is not accustomed and to which it may prove difficult for him to habituate himself. In Hawaii attempts have been made to substitute Japanese, Portuguese and Porto Ricans, but always unsuccessfully. No people, it is claimed, can do the work as the Chinese can.

Even if this claim can be substantiated the question of Chinese competition is by no means eliminated. It may not exist in the islands. The Chinaman may not be taking the place of the white man in Hawaii, but he is coming directly into competition with the beet growers of California and the sugar planters of the South. If Chinese competition be an evil, and the highest legislative authority in America has pronounced it such, it is equally so, whether the labor be in Hawaii or in California. There may be a question of degree; it may not be as perceptible when the coolie is working in the cane brakes of Hawaii, three thousand miles away, as when he is picking fruit at San Leandro, or making shoes or overalls in San Francisco, but the principle involved is the same.

The proposition to allow the settlement of Chinese in Hawaii or the Philippines has been fought and will be fought vigorously, and the same arguments will be advanced as have heretofore been used. Several of the most prominent national labor leaders have issued a combined protest on this subject. They say that the proposals to introduce Chinese into the Philippines means the establishment of the contract system of coolie labor in its most objectionable form, in many respects resembling slavery. The chief argument in its favor seems to be the desire to attract capital and hasten the exploitation or development of the Philippines by a system of cheap labor.

This appears to be an altogether insufficient reason for such a proposition with its great wrong to the Filipino—who is not in any way consulted—and its peril to the American workingman. With Chinese coolie labor in the Philippines it will be almost impossible to prevent its coming into competition with American labor at home and lowering its standard of life.

Another experiment is now proposed by the government—the colonization of the Southern negro. Attempts to send the negro to Africa have always failed, but it is thought that they may be more successful when an American colony is the objective point. But here again another interesting complication arises. The negroes are American citizens and voters and if they be colonized and should thrive in Hawaii it would not be long before they would outvote the white citizens and hold the political power in their own hands, a condition that the present population objects to, and will fight against.—Oakland Enquirer.

SEEING SNAKES.

Persons suffering from delirium tremens usually imagine that they are surrounded by snakes. An explanation of this hallucination, says the "Family Doctor," is offered by the results of some recent experiments. Sixteen alcoholic patients were examined with the ophthalmoscope, and it was found that the minute blood vessels in the retina of their eyes were congested. In this condition they appear black, and are projected into the field of vision, where their movements resemble the squirming of serpents.

THE WORLD'S SUGAR BOWL

The most conservative estimate of the amount of American capital invested in Cuba is \$100,000,000. As compared to the \$500,000,000 of United States money in Mexico, this showing, on the face of it, would seem to be very much against Cuba, but it is really in favor of it when its size is taken into consideration.

Cuba has been called the sugar bowl of the world. Its largest crop was raised in 1894, and consisted of 1,054,000 tons. The crop for last year amounted to 850,152 tons, while the one which is now being cut is estimated at 900,000.

Next to the sugar industry the most important enterprise in which American money is involved is the Cuba Company. This concern is composed of the following well-known group of American capitalists: William C. Whitney, Levi P. Morton, Thomas S. Ryan, Gen. G. M. Dodge, George D. Haven, P. A. B. Widener, H. L. Terry and Sir William Van Horne.

At the present time it takes three days to go from Havana to Santiago, stops being made over night at Santa Clara and Puerto Principe. As soon as the sleeping cars arrive, through trains will be put on and the distance covered in twenty-six hours.

Another great enterprise of recent origin is the American Tobacco Co., which has spent millions in buying up the cigar factories in Havana, together with thousands of acres of land in the celebrated Vuleta Abajo district, in Pinar del Rio province.

The Havana Electric Railway Company is an American corporation in which there is some Canadian capital. It has 38 miles of track, 110 cars, 30 travellers, and has 50 new cars ordered.

There are large deposits of iron and manganese in Santiago province, and American capital to the amount of several millions has been invested in mines in that locality.

In the city of Havana the American brewery, bottling works and ice plant cost \$800,000. There is a wholesale grocery and provision house in the capital which is incorporated for a million.

Three-fourths of the American capital in Cuba was invested during the American occupation. There has been a practical halt on everything since the withdrawal of the United States forces.

Examples That Point To a Higher Order of Intelligence Than is Usually Imagined.

L. H. Spencer, in charge of the aquarium at the Battery, New York, believes that the lower orders of animal life have intelligence and reasoning power limited only in degree. As a student of submarine life for over 30 years he has had many opportunities for experiment.

There is a sea anemone in one biological room which affords a good example of intelligence in adaptability. The sea anemone is a lower form of sea life which fastens itself to some hard substance. It is a brownish, jelly-like mass, and when closed has not a prepossessing appearance.

Another threatened "famine" was raised yesterday. Had the S. S. Nebraska been delayed in arriving, people would probably be going without potatoes. The price of this staple vegetable would probably be soaring.

CHANCE AND CRIME

Chance is, after all, the best ally of the police, and this is exemplified almost every time that the Criminal Court sits in Paris, says the Edinburgh Scotsman. For much as has been said about the superior astuteness of French detectives, the courts afford abundant evidence that but for sheer luck many crimes would go unpunished by reason of the real incapacity of the police.

As far as the police and the public are concerned, the men Campi and Prado are as much a mystery as the Man with the Iron Mask. Both steadfastly refused to lift the veil which hid their real personality, and every effort of the police to trace their past failed. It was afterward bruited abroad that Campi was a brother of General Boulanger, while of Prado it was asserted that he was the son of General Prado, the Peruvian Dictator.

A similar veil of mystery hangs over the personality of the man Vacher, whom one may perhaps describe as the wickedest man who ever lived. The strange story of the latter part of his life was told in the Assize Court of Montpellier, in which city he afterward paid the penalty of his crimes. He was convicted of ten murders, but confessed to twenty more. In fact, it was established that for some years previous to his arrest he had made a profession of murder. His victims were all shepherd boys and girls, or peasants in lonely fields. He killed for killing's sake, and traveled on foot all over France to indulge his sanguinary frenzy.

A remarkable fact that transpired during the trial was the description of the cunning method he had devised and practiced to escape pursuit. He, too, invariably returned to the scene of his crime, but not often from the motive or under the impulse which criminal psychologists have analyzed.

"I killed, by preference, toward the evening," he said, "and hastened away in a given direction. Immediately at nightfall I doubled back at full speed, passed the spot where I had killed, and then straight on in a direction opposite to the one which I had first taken. The morning following found me miles away from the spot where I had last been seen, and to which the gendarmes, following my daylight flight, had traced me. By this system," he said, "while the police went in one direction I went in the other. The world being round, it is strange that we never met."

NEW YEAR'S DAY OF THE CHINESE

A RECEPTION AT THE CONSULATE IS LARGELY ATTENDED—CHINESE OF ALL PARTIES PRESENT

The Chinese new year is being celebrated today at the consulate on Victoria street. There is a constant succession of visitors of all races and nationalities, and the Chinese and Chinese Americans who are receiving at the consulate are showing the usual Chinese hospitality.

Vice Consul Goo Kim was at the consulate quite early, and has been receiving scores of visitors ever since. The Chinese present represent all factions, and all in harmony and good fellowship. This is different from other recent observances and it is a testimonial to the general popularity of Goo Kim among the people of his race. The Bow Wongs and their political opponents joined together in today's observances.

The government band took up a position on the grounds in front of the consulate, and gave a concert there. The visitors were received by Goo Kim, Secretary Poon Kwai Leung and others and at the present rate the number of callers by evening will be very large.

Among those who left cards at the consulate this morning were Governor Dole, Attorney General E. P. Dole, Consul Hoare of Great Britain, Consul Isenberg of Germany, Consul Schaefer, Justice Galbraith, Justice Perry, Collector Stachab, Postmaster J. M. Oat and Assistant Postmaster Louis Kenake, Post Office Inspector R. W. Madden, High Sheriff Brown and Deputy C. F. Chillingworth, Col. W. F. Allen, C. M. Cooke, Walter G. Smith, A. C. Behrens and wife, J. K. Brown, R. C. Brown, F. C. Atherton, R. W. Maydwell, Dr. Mori, R. F. Lange, George Roedick, A. P. Taylor, W. Pfotenhauer, P. H. Burnette, W. R. Castle Jr., and wife, F. W. Damon, W. F. C. Hasson and C. H. Atherton.

BUYING STOCK AND HAY.

The cable ship Silvertown will probably get away Sunday or Monday, at the latest for London via Coronel. The coal is nearly all taken from the schooner Churchill which has been lying alongside the steamer. The officers on the Silvertown evidently believe in fresh meat and all the delights of a dairy for they have purchased nine head of stock from the Metropolitan Meat Market. A large quantity of hay has also been purchased for feed for the stock.

Head-Ease

A Cure For All Headaches

Safe to Take

WE HAVE PERFECT CONFIDENCE IN THIS WONDERFUL REMEDY WHICH WE CALL HEAD-EASE FOR THE CURE OF ALL HEADACHES. IT IS UNLIKE OTHER REMEDIES WHICH ARE SOLD FOR THIS COMPLAINT FOR IT CONTAINS NO OPIUM, MORPHINE OR OTHER DANGEROUS DRUGS WHICH DO FAR MORE HARM THAN GOOD. THESE POWDERS PRODUCE NO UNPLEASANT EFFECTS; THEY DO NOT UPSET THE STOMACH, NOR CAUSE ANY DISTURBANCE IN THE SYSTEM. THEY WILL RELIEVE THE MOST SEVERE HEADACHE IN A FEW MINUTES. THERE IS NOT THE LEAST REASON WHY YOU SHOULD SUFFER WITH HEADACHE WHEN YOU GET THIS REMEDY THAT WILL CURE IT. INSIST ON HAVING THE GENUINE HEAD-EASE POWDERS AND LOOK FOR THE PICTURE OF CHILD WITH BANDAIDED HEAD.

Many dollars are turned away annually by The Star in rejecting offensive and improper advertisements offered for insertion in its columns.

This is a cogent reason why The Star's advertising columns are so generally used and so widely read.
