THE DAILY

Pacific Commercial Advertiser.

Be just and fear not: Let all the ends thou aim'st at be Thy Country's, thy God's, and Truth's.

TUESDAY, DEC. 23, 1890.

The appointment of Mr. Wray Taylor to be Secretary of the Board of Immigration, created a vacancy on the staff of this paper, which is now filled by Mr. D. W. Kratzer, who has been in the service of the Board of Education as school teacher on Hawaii and Mani for some two years past.

The news received by the Alameda and published yesterday regarding the action of Congress on the Steamship Subsidy Bill, and also on the Pacific cable from San Francisco to Honolulu and thence on to Australia, is very favorable as respects both these great enterprises.

It is also stated that whenever the change takes place in the Australian mail service, Honolulu will be supplied with semi-monthly steamers probably the Australia and Zealandia, which with the three or four large Australian steamers will give us regular weekly mails to and from San Francisco.

THE ANGLICAN CHURCH AND BISHOP WILLIS.

The following is taken from the Honolulu Diocesan Magazine, a quarterly periodical lately started by Dr. Willis, bishop of the Anglican Church in these islands: 'CHANGE OF THE HOURS OF SERVICE IN ST. ANDREW'S CATHEDRAL. In accordance with the terms of the Schedule under which the Second Congregation exists, dated December 4, 1888, the Bishop gave notice at the beginning of October, that on and after January 4, 1891, the regular cathedral service on Sundays would be held at 11 A. M. and 7:30 P. M., and that there

would be evening service on Wednesday evenings instead of Friday evenings at 7. It will be seen in Article 11 of the Schedule that the arrangement under which the use of the Cathedral Church was granted to the Second Congregation on Sundays, etc., at 11:15 A. M. and 7:30 P. M. was only binding for two years from the date at which it was made, the article providing that "if not renewed for a further definite period, it shall not be changed without three months' notice of such change being given." No renewal for a definite period has ever been made. Consequently, ever since December 4, 1887, it has been open to the Bishop to alter the arrangement by the same authority that he had to make it in the first instance.

We have heard reports of this change being contemplated for some time past, but it seemed hardly credible that it would ever become an accomplished fact; especially since being a regular worshipper at the Anglican Cathedral we had heard murmurs loud and deep against any change at all being made. Such a step as this should be made only for the convenience of the great majority of people concerned.

We have read the Article 11 of the schedule referred to in the magazine, and if this were the only ground that the Bishop took for his action, it seems to us a very frail one, and one which would not obtain for a moment in any secular cause. But lower down in the article quoted we find—"The necessity for the alteration of which notice has been given, has been forced upon the Bishop by the policy pursued by the Second Congregation during the present year." Then we may judge from this that the Second Congregation has been naughty and must be punished; the innocent with the guilty. No ark, to save the righteous, and no leave for the poor lots to escape with their families—but perhaps the "regular cathedral services," which are to take the place of the services thrown back an hour or two, and which do not meet with much favor just now. We would like to show our interest in the matter by asking a few questions:

Does the Bishop think that later hours will improve the attendance at his own services. If so, what will be gained by the Church as a Church, or, by himself, as a bishop? Is there some virtue in the services conducted by his lordship which the other services do not contain? Will he define that virtue if it exists, just for our information?

What has the Second Congregation been guilty of? Has it dwindled down to the rector's family and school? Can't it pay current expenses? Is the rector a persona ingrata to his people? These are the general faults in a congregation which requires the action of a bishop. We would like to know, as we feel concerned in the business, whether the bishop is not an official placed over a part of the Church to guard its members from all harm, and to even consult their comfort, both in and out of church; and that when he acts officially towards them, he must be guided by a full knowledge of his trust, and never to think of his own personal convenience.

Now, we know for a certainty that upwards of three hundred persons will be put out of a routine, formed for at least five years, and be obliged to make new plans for servants and everything connected with the household. They will have reaped much benefit from their Christian teachers, if very strong language is not used while these alterations are being made. Will not very much more harm than good be done by the action of the Bishop?

HAWAIIAN RECIPROACITY.

WASHINGTON, December 8.—Carter, Minister from Hawaii, left this city to-night for San Francisco, to consult with King Kalakaua. To a reporter he expressed a belief that the story from San Francisco that the King was here on a mission of annexation is an absurd invention. He said: "I am free to say, the King is anxious for an extension of the reciprocity plan to all the products of the islands, and it is, no doubt, on that subject that he wants to talk to me. He is a firm believer in the benefits of a general reciprocity, and is eager to see it consummated. I should be glad also if the thing could be done, but do not think it wise to take any steps in that direction at present, in view of the attitude of the political parties. The late election effectually blocks us for the present."

Advices from Guatemala state that the smallpox epidemic is raging, and for the first time in the country's history the Government is compelled to make rigid quarantine regulations. Already hundreds of deaths have resulted from the disease, and no abatement in the virulence of the epidemic is apparent.

OUR SAN FRANCISCO LETTER.

For R. M. S. S. Alameda, San Francisco, December 14, 1890.

(From Our San Francisco Correspondent.)

(Continued.) Market Report.

The local sugar market has ruled higher during the week than it has for the past two or three months, and prices are for stocks very low. No relief can be expected until the arrival of the new crop Hawaiian, as the California Refinery is placing all of its arrivals of Manila and Java sugars in bond in the temporary bonded warehouse on Mission Rock, so as to take advantage of the change of the tariff in March. The demand, however, for all grades will not be large till Hawaiian crop begins to arrive. Local prices are now fixed on the basis of 6 1/2 cents for granulated.

The Eastern market is steady, and gives promise of remaining so until the tariff bill goes into effect. There are no late developments in the case of the Sugar Trust, now before the New York Courts.

Parnell's Stand.

Charles Stewart Parnell, who has led the Irish party in the English Parliament since 1880, is being vigorously opposed for the leadership of his party by Gladstone, and by the majority of Irish members no in Parliament. Parnell's troubles really began less than two weeks ago, when an English Court decided the famous O'Shea divorce case by granting Captain O'Shea, one of Parnell's former friends, a divorce from his wife on account of criminal intimacy with the Irish leader. Parnell presented no defense to the allegations that were made, and as soon as the trial was over, there arose an instant demand for his retirement coming from the better class of Irish members and the entire Liberal party of England. It was represented to him that unless he immediately withdrew from public life the cause of Home Rule would be irrevocably ruined; but, nevertheless, he refused to retire. Several meetings of the Irish members of Parliament were held during the past week with a view to ousting Parnell. That leader had, however, rallied to his support twenty-three of the Irish members—the rag-tag and bob-tail element of the party, and occupying the chair himself, succeeded in out-generalling his opponents. After several stormy meetings, the powerless majority seceded and elected Justin McCarthy, the novelist, as leader, to succeed Parnell. Parnell's faction renewed their confidence in their leader, and at the coming elections in Ireland the question of Parnell's continuance in public life will be definitely settled. Gladstone has positively refused to treat with Parnell under any circumstances, and if Parnell wins at the coming elections, it is stated that the Grand Old Man will retire from public life—that the English Liberal party will give up Ireland's struggle—that Hancock will succeed to the leadership of the English Liberal party, dropping forever the alliance with the Irish party. Hancock, it is said, has already begun negotiations with the Marquis of Hartington to induce that once-noted Liberal to leave Salisbury's camp in case Parnell is victorious and Gladstone retires. Parnell is now making a trip through Ireland, where he is welcomed by one faction and hooted by the other.

Developments in Leprosy.

A dispatch from Vienna, under date of December 11th, says that Professor Billroth, who has experimented widely with Dr. Koch's lymph, declares that the remedy produces a marked effect in cases of leprosy. What may be the result of its application to this use, remains to be seen. A young white man born in Honolulu, and who resided there till he was 20 years of age, was committed to the Pest House some time ago. Since he went there he has contracted small-pox, owing to the fact that the leper lazaretto and the Pest House are in the same building. Developments in the case, as to how small-pox will effect a leper, are being watched for with interest by the medical fraternity. Thus far his chances of recovery are not good. During his confinement he has expressed a wish to be sent to Molokai, but on account of a lack of transportation facilities, the authorities have been unable to grant his wish. George Gilley, first mate of the steam-whaler Thrasher, which arrived in this port a few days ago, has been taken in custody by Health Inspector Boyle on suspicion of being a leper. An examination of Gilley's legs indicated leprosy scales, but another will be held to-day to determine whether the case is one of leprosy or syphilitic eczema. It is said that Gilley's wife, who was formerly a resident of this city, but who now lives in Yokohama, is also a leper. Attention was attracted toward Gilley by several sailors in the employ of the Pacific Steam Whaling Company, who refused to sail under him as mate on the ground that he was suffering from a loathsome, if

not contagious, disease. He is now at the Pest House.

Sporting News.

Slavin the Australian pugilist having declared that he will not leave England to fight anyone, the proposed match between him and Peter Jackson at Melbourne has fallen through. Jackson is now on his way to San Francisco, and an effort is being made between the dusky pug and Jim Corbett, the champion heavy weight of the Pacific Coast. The California Club will probably offer a good purse to the men and it is believed that both men would readily agree to do battle for it.

Jack Dempsey has gone to New Orleans to finish training for his fight with Fitzsimmons, the Australian middle weight who has made such a fine record since his arrival in America. In the betting thus far the man from the Antipodes appears to be the favorite.

John Teemer, the orsman, is here looking for a match with Peterson, the local man. Teemer is on his way to Australia to get a match with Kemp for the championship of the world.

Joe Thompson the wealthy bookmaker has at last succeeded in finding a sight for his proposed great race course. It will be situated between the city and the ocean on the line of several of the fashionable driveways, and will be reached also by a railway to be built by the Southern Pacific Company. Thompson will build a one-mile trotting track surrounded by 14 mile running course, and there will be a straight-away of one mile. A magnificent grand stand, betting pen, etc., will be features of the place. Mr. Thompson's first outlay will be over \$100,000 for improvements alone. He expects to have a grand opening next fall.

The catch-as-catch-can world's championship has finally been settled and Evan Lewis, "The Strangler," is the proud possessor of it. In his recent contest with Joe Acton he beat the Englishman with comparative ease.

NEWS AND NOTES.

The new fashion of wearing a rimless eyeglass without any gold wire or string attached to it is becoming so paramount in New York that all who wish to be considered of the elite are obliged to do it somehow; therefore it is not surprising to read an advertisement extolling a perfectly transparent and powerfully adhering gum, for the attaching of an eyeglass to the side of the nose.

The German Post Office officials have been experimenting during the last few days with the North Sea cable, seventy-five kilometres long, between Heligoland and Cuxhaven, to test the possibility of using submarine cables of considerable length for telephonic purposes. The results have been very favorable, distinct communication having been obtained at both ends. The Glasgow Committee of the Mutual Telephone Company, Limited, has decided to adopt the metallic system for Scotland, so as to enable subscribers to speak over long distances, as, for instance, between Glasgow and Manchester and London. The new system is proposed to be inaugurated with the new year.

A few days ago a gentleman went into a well-known store in Boston with the intention of making a large purchase. Several of the clerks were laughing and chatting together, and as the gentleman made no demonstration of his purpose, none of them thought worth while to interrupt the flow of good fellowship that happened to occupy them at the moment. The gentleman, who, by way, has succeeded in making a handsome fortune for himself and his partners in large measure through his strictness in supplying his customers, never keeping them waiting in his own store, and often telegraphing an order to New York when the cost of the telegram exceeded the amount of the purchase, waited eight minutes by his watch, and at last, coming to the conclusion that he might have to wait all day, turned to go out. Then only, a young man hastened up to him and asked him if there was anything that he could do for him. The intending purchaser replied that it was too late. This story has a moral.
