In the opinion of the ship's officers, the man has not much claim to Honolulu as a home port, but he says he has lived here for many years and is very anxious to land now. Naturally.
He also says that he is a detective, and has worked for three years in the Pinkerton service in San Francisco. Like the Romanian Count who arrived in somewhat the same manner on the Marana her last trip, he is indignant at the treatment he has received. He is also a man of importance, as he is a vaudeville artist, temporarily retired from circulation.
Unless he can claim the rights of an American citizen, and be landed here, he will have to be reshipped from this port by Davies & Co., or taken on and reshipped later from the Coast.

COLONEL SPALDING HAS BEEN LOCATED

Fairchild Receives Letter From Rithet, Who Has Spalding's Cable Dated May 16.
Acting Governor Mott-Smith this morning received a letter from Gen. Fairchild, in which the latter states that he has received a letter from R. P. Rithet in San Francisco. Rithet writes to inform Fairchild that Spalding has been located.

He says that he received a cable from Spalding dated May 16th, from Verona, Italy, in which Spalding says he has received all of the previous cables sent him.
It was only the other day that Fairchild cabled to Rithet to cable him immediately whether or not any word had been heard from Spalding, with the statement that the Government was annoyed at the delay. Rithet seems to have taken little notice of this, or he does not deem the matter of very great importance, for it is thought very strange that he did not cable to Fairchild immediately.
In his letter to the Acting Governor, Mr. Fairchild states that he will probably receive written instructions in the matter from Spalding some time in the early part of June. Whether or not the Government is willing to wait is a question that has not been publicly decided, for Mott-Smith will make no statement yet.

MISSING DEPOSITIONS
(Continued from Page 1)
papers filed with the rest of the papers in the case, and they may have been lost. We had always had great difficulty in finding papers in the Attorney General's department, even important ones, owing to the lax system of filing employed by the clerks.
Deputy Attorney General Larnach stated that he did not expect to find the depositions. If anything, scribbled notes would be the only thing on file. He personally requested Mr. Matheson to call at his office yesterday, following out a custom in such cases, to go over his part of the case. He would probably have done this whether or not Milverton's original notes had been found.
The story of the Advertiser about the matter reads as follows:
The Leo Let monkey-business continues to develop.
Yesterday, in looking for the depositions made in the case a year and more ago by two of the principal witnesses, not a sign of them could be found. They had been removed from the files. Only Chief Taylor's statement remained, as the fact of that having been previously published made its theft useless.
So far there is no clue. The depositions were made by Messrs. Matheson and Ayres, the witnesses mentioned to Mr. Milverton, when he was on the Attorney General's staff. Milverton is now with the County Attorney. Of course, nobody suspects him—but what has become of the papers?
Things seem to have been carefully prepared to make it easy for Leo Let to get out. He was indicted, as our readers will remember, for the attempted bribery of Chief Taylor on behalf of Chinese gamblers. County Attorney Cathcart let the case drag along like the Duvauchelle case—which he surreptitiously non-pressed—but publicly in these columns made him abandon it and turn the whole business over to the Attorney General. Now it is in Deputy Larnach's hands and on the calendar for trial.
The man who stole the depositions ought to have been able to pick up a tidy sum from the Chinese gamblers, who have shown themselves willing to pay high for favors of any kind.
Considerable building will be done in San Francisco during the summer season and large firms continue the movement downtown.
John R. Glaseck, Jr., will explore Thibet under auspices of the British War Department.

NOTICE TO MARINERS

Entrance San Francisco Harbor, California.—San Francisco Light Vessel No. 70, page 15, No. 25 (List of Lights, Buoys and Daymarks, Pacific Coast, 1908, page 22). Stationed about 3 1/4 miles outside the bar off the entrance to San Francisco Harbor, 10 7/8 miles 234 degrees 59 minutes (SW 7-8 W) from Fort Point Lighthouse, and about 500 feet northward of the range line marked by Fort Point Light and Alcatraz Light.
Correction.—May 18, 1908, this vessel was temporarily withdrawn from her station for repairs, and the station was marked by a gas buoy instead of Relief Light Vessel No. 76.
The gas buoy is painted red, with "Light Vessel Moorings" in black, and shows a fixed white light without ellipses.
San Francisco Light Vessel, 70, page 11, No. 25 (List of Lights, Buoys, and Daymarks, Pacific Coast, 1908, page 22). Stationed about 3 1/4 miles outside the bar off the entrance to San Francisco Harbor, 10 7/8 miles SW 7-8 W from Fort Point Lighthouse, and about 500 feet to the northward of the range line marked by Fort Point Light and Alcatraz Light.
About May 18, 1908, Light Vessel No. 70 will be withdrawn from her station for repairs and the station will be temporarily marked by a gas buoy painted red, with "Light Vessel Moorings" in black, and showing a fixed white light.
The light vessel will be returned to her station as soon as repairs have been completed, of which due notice will be given, and the gas-lighted buoy will then be withdrawn.
No change will be made in Light Vessel No. 70 as to the characteristics of her lights, fog signal, or general appearance.
Blunts Reef Light Vessel, No. 85, page 22, No. 60 (List of Lights, Buoys, and Daymarks, Pacific Coast, 1903, page 26). Stationed 1 7/8 miles SW 1-8 S from Blunts Reef, off the sea coast of California, and 1 1/2 miles WSW, southerly, from Cape Mendocino Lighthouse.
About May 23, 1908, the vessel will sound, in addition to her regular fog-whistle or fog-bell, during thick or foggy weather, a submarine bell, striking the number "85" at regular intervals, thus:
3 strokes: *****
Silent interval: 3 sec.
2 strokes: *****

FANCY DRESS BALL HELD ON MANUKA

Empire Day Celebrated By Unique Event On Poop Deck of British Liner.
The R. M. S. Manuka, Phillips, arrived here this morning from the Colonies by way of Suva. She leaves this evening at 8 o'clock on her way to Vancouver via Victoria. The boat had her accommodations full, with a long list of cabin passengers. The purser's report of the voyage is as follows:
"R. M. S. Manuka, 4500 tons, Commander Edwin Phillips, arrived at 8 o'clock this morning from Sydney via Brisbane and Suva. Departure was taken from the Commonwealth, 13th Inst., 11 p. m.; Suva, Fiji, being reached on the 19th, 11:30 p. m., leaving again next day. Unpleasant seas and heavy rain squalls prevailed in the first part of voyage, the latter being much finer. Sports and deck games were indulged in and heartily enjoyed by the large number of people on board, and on the evening of Monday, the 25th, a highly successful fancy dress ball was held on the poop deck, being largely attended, the fancy dresses being numerous and of an exceptionally good assortment. Miss D. Jones of Melbourne carried off the first prize as a brown paper parcel, Miss Clarke being voted as runner-up. Mr. Babul carried off the prize for the gentlemen. D. Wilson-Smith coming a close second."

The Manuka had about 500 tons of general freight for this port, including a good bunch of ammonia sulphate. She also had a quantity of royal mail.
On board was a gentleman who had stowed away at Brisbane, claiming to be a resident of this city.
Prominent among the passengers was Capt. Bridson of H. M. S. Challenger, with Mrs. Bridson and Lady Trafalgar and her brother, Lieutenant Dalgety. The Manuka had over 200 in her passenger list.

IS MUSICAL PHYSICIAN
Mr. A. K. Virgil is in the city for a few days, having arrived by the Manuka this morning. Mr. Virgil will give a free musical examination this evening at the studio of Mrs. Henry Belknap, 70 Kukui street. This talk is given to help the teacher, player, and learner to overcome their difficulties in piano playing. All those interested are invited to be present. Interview hours have been arranged by Mrs. Belknap at her studio every day. The recital will be given Friday evening at the Alexander Young Hotel ball-room. Mr. and Mrs. Virgil will be here one week.

PRESS COMMITTEE
READY FOR FLEET
The Press Committee of the Fleet Committee held a meeting yesterday afternoon in the Promotion Committee rooms. It was found that there was comparatively little to be done. Answering the suggestion of the Executive that more attention be given publicity in connection with the entertainment, the committee responded that if each sub-committee would notify the newspapers of the city of the time it is to meet, the papers will do the rest. A motion was also passed to request the Executive for information on how much entertaining the Press Committee was supposed to do for the correspondents.
Mr. Conness, reporting for a sub-committee, stated that rooms as a headquarters for the correspondents have been offered in the McCandless block and the Alexander Young building. Mr. Sheba reported that the dinner for the correspondents at the Mochizuki Club could be arranged at a nominal figure.
Messrs. Like, Poepeo, W. D. Adams, C. R. Frazier, and Bonine were added to the committee.

ARCHER DOES NOT LIKE GERE'S PLANS

Many Jars At Meeting Keep Supervisors Awake

The session of the Supervisors last evening, though of a routine character, was very much enlivened by a few passages at arms, between the chair and the men about the official board. The climax came near the last, when Mr. Archer demanded to see plans for a culvert in the Ewa district, and announced that they were not "acceptable" to him, and that he thought the engineer should have made the arch in a semicircular shape. County Engineer Gere objected to the impeachment of his judgment, and took occasion to tell Mr. Archer that he was talking about something of which he knew nothing. And all the time, Mr. Hustace was having the time of his life, at his same old job, asking the Supervisors to stick to the English tongue in the heated course of their argument. Incidentally, the matter of the bridge was finally amicably settled by the allowance asked being made when all the objectors had been convinced that the County Engineer thought he knew something about drawing a plan. Those present at the meeting were: Chairman Hustace, Supervisors Fern, Dwight, Harvey, Cox, Archer, Keoloha, Clerks Kalaokalani, Aea, Buffandean, County Engineer Gere, Col. Sam Johnson, W. L. Frazee, W. R. Sims, Fire Chief Thurston, H. T. Lake, members of the press.

When the bills were being allowed, a representative from the Salvation Army Home came in, wanting to have the matter of an appropriation of public funds for a home acted on, and was told that the matter was in the hands of a committee, which would report on it later.

Squabble Over Bills.
Bills were not allowed without friction. Two, one from the Inter-Island Steam Navigation Company, and one from the police committee, were the subjects of animated and impassioned discussion.

The chairman remarked that the bill from the Inter-Island, which was for coal, had an item for sacking, while the original order had called for coal in bulk. The bill was finally allowed when it had been understood that all future orders were to be for coal in bulk strictly.

The committee on police affairs had taken the authority necessary to allow the expenditure of quite a neat sum for "repairs." Among the items were some for varnish and calcimining, and the like, and in view of the fact that the department had been limited to a certain sum for expenditures, and was behind on expenses, Mr. Hustace thought the matter should have been referred to the Board. A lively chat arose, but the thing was passed as soon as it was put up to the Board.

Over the ratification of two appointments by County Engineer Gere of two assistants, rose a battle of tongues. Mr. Archer and others thought Gere might have done all of the work about his office and outside, too, if he had not meddled, as they claimed, with other jobs.

Raising a Salary.
"He goes down, Mr. Chairman," said Mr. Archer, "where the work on the roads is going on, and grows the men."

"From what I hear, he has the right to growl them, and reason," said Archer.

"I don't believe he has the right," was the retort.

And almost immediately there came up a squabble over the allowing of a raise in the salary of Miss Achuck, in the County Attorney's office. Two salaries had been reduced, those of Mr. Cummings and of the stenographer and Mr. Cummings' salary had been restored to its former figure, while that of the girl remained at twenty dollars less. After a process which resembled drawing eye teeth, the Supervisors decided that they could afford to pay the girl what the County Attorney said she was worth, and desisted.

Communications.
The following communications were read and ordered filed or referred to the proper authorities.

Honolulu, T. H., May 25, 1908. Gentlemen:—I have had a call from Mr. Cathcart, County Attorney, who has requested from me information in reference to what has been done by the Honolulu Rapid Transit & Land Co. in regard to the wooden block pavement on Queen street. For your information, I would state that the Honolulu Rapid Transit and Land Company has been notified to construct the pavement in accordance with the general specifications, as adopted by the Board of Supervisors, and the matter is only awaiting the preparation of special details covering the track construction, the details being prepared by the Department of Public Works. I have to remain, Very truly yours,

MARSTON CAMPBELL, Superintendent of Public Works.

Honolulu, T. H., May 25, 1908. Gentlemen:—I take pleasure in informing you that the necessary transfers have been made between the Territory of Hawaii, and the Campbell Estate and Mary Lyman, for the widening of the Diamond Head road. There is now nothing in the way of your completing this work at any time you may see fit.

Very truly yours, MARSTON CAMPBELL, Superintendent of Public Works.

Honolulu, T. H., May 25, 1908. Gentlemen:—Complaint has on several occasions reached this Department from the Association of Masters, Mates and Pilots, Honolulu Harbor No. 54, in regard to screening the electric lights on the waterfront of Honolulu, as the glare from these lights makes it quite difficult in docking vessels at night.

I would most respectfully request that you instruct the Superintendent of Electric Lights to have these screens placed, the cost of same to be borne by the Department of Public Works.

Very truly yours, MARSTON CAMPBELL, Superintendent of Public Works.

Re Police Protection.
A letter from T. H. Petrie, secretary of the Waioluia Consolidated Pineapple Co., asking that a doctor's bill, due Dr. H. Wood, of Waioluia, for services in attending a Japanese who had been wounded in defending the property of the company from a burglar, be paid out of the public funds, in compensation for the lack of police protection. The matter was referred to County Attorney Cathcart.

W. Larsen wrote asking for permission to sprinkle the street in front of his school street residence with crude oil. Referred to road committee.

Jared G. Smith wrote asking that the road on the southeast slope of Punchbowl be repaired from the head of Ponsacola street to where it joins the Tantalus road. Referred to road committee.

J. H. Hertsche wrote thanking the Board for kindly interest taken in the matter of connecting the generating plant of the Alexander Young hotel with the Hawaiian Hotel premises for illuminating purposes during the feet's stay.

Chas. Kuramoto, secretary of the Japanese Baseball League, wrote asking for the use of the Atkinson Park on Sunday afternoons, beginning May 24. The chair said that the Board had nothing to do with the park in question.

In response to a request by Government Electrician W. L. Frazee: It was voted to grant him a seven months' vacation.

The employment by County Engineer Gere of E. B. Loomis as assistant engineer and D. Kama as chairman, at salaries of \$130 and \$35 per month, was ratified.

It was decided to raise the salary of Miss Achuck, stenographer of the County Attorney's office, to \$100 a month, the salary which was paid to the former stenographer, Miss Perkins.

A petition was read from residents, taxpayers and property-owners requesting that the makai half of Kalaheua avenue from Kalia or John Ena road, Waikiki, and extending toward a space of about 800 to 1000 feet in length, should be attended to, either by macadamizing or oiling.

At 9:55 p. m. the meeting adjourned (th June 3 at 7:30 p. m.)

IRWIN AND WILSON START NEW PAPER

The first copy of the Newport Mail, Lincoln County, Ore., has been received. It is of special interest, as the editors of the paper, a lively 8-page, newsy sheet, are John Fleming Wilson and E. P. Irwin, both of whom have worked on Honolulu papers, the latter being until a short time ago on the Bulletin staff.

The editors outline their policy in the leading editorial, which reads in part as follows:

The Newport Mail is a new paper. This first issue, we hope, speaks for itself. We are in business to sell news. We have no other object than to present the happenings of Lincoln County in readable and correct form; we intend to chronicle fully the history of our community and tell what happens to our citizens—be earnest, friendly and helpful. The editors of The Mail are of a cheerful disposition. Their digestion is good, their sleep undisturbed, their temper serene. They believe that now is the great moment in the life of our county and our town. They are unwilling to sit back and watch. They intend to be active in the present progress toward better things.

HONOLULU AND ITS OPPORTUNITIES.

The undeniable fact that Honolulu people do not appreciate the Volcano is set forth in a letter to the Abusive Advertiser by its proprietor, L. A. Thurston.

From the many reports the Bulletin has received of the Volcano from other sources, there is no doubt that Mr. Thurston is correct. How far the public has been educated into a non-appreciation of the Volcano by ponderous editorials on "Is the Volcano a Tourist Asset?" published in Mr. Thurston's paper, we will not attempt to say.

But the Volcano is not the only thing the people of Honolulu do not appreciate.

The City of Honolulu is on the verge of the greatest era of prosperity in its history. But the people refuse to entitle, and some are even doubtful that it can be true.

Pearl Harbor is about to become the greatest naval station of the world, but the people of Honolulu are thus far accepting it with a great calm—a passing item of the natural course of events.

Honolulu and Hawaiian securities are the best field for investment to be found anywhere. Despite the "boom" of a former day, the income-bearing level of Hawaii's industrial enterprises over a long period of years is second to none. But Honolulu people are holding onto themselves hard for fear they may indulge in the excitement of a "boom," and over-estimate the extent of the Hawaiian prosperity when the mainland is "hard-up."

Honolulu real estate is the best buy that can be found in any city of the United States at the present time. Long-headed men are holding their property, only on the market, and other long-headed men, are quietly picking up "good buys." But too much comment of the street-corner is still of the number of vacant lots and "to rent" signs.

Honolulu is within a very short time to receive a visit from the greatest Fleet—the Fleet of our own Nation—that ever toured this ocean or any other. Cities of the mainland have shown the greatest enthusiasm over the approach of this Fleet and the prospect of entertaining its officers and men. The greatest nations of the earth have competed to be of the favored ones to receive this Fleet in at least one port. The eyes of the world have been, are, and will continue to be centered on this peace Fleet until it returns to Hampton Roads after having circled the globe. The attention of the world will be centered on Honolulu and Pearl Harbor. But the people of Honolulu are looking forward to the coming of this greatest armada of modern times with a complacent serenity that has caused the Executive Committee in charge of the Fleet entertainment to request the Press Committee to please arouse the people. The pacific spirit of the town falls on the men at the head of the affair.

Honolulu, finally, has received more attention from the United States Congress, has been successful in more of its appropriations, the Territory has secured more favorable consideration for its needs, than has ever been known in its history. Yet some of our kind-hearted and abusive people have found time to forget the glory of it, and devote their hours to haggling over whether the credit of all this belongs to the Delegate from the Territory of Hawaii, and whether he should not be defeated because he has secured the passage of a law enabling the people to rent their lands, get a good income from them, and at the same time keep these lands free to use for homesteading purposes.

We shall not attempt to say whether Honolulu is in that comfortable but sleepy stage of the man taking a last nap previous to thoroughly waking up and getting into the day's work.

There are many things to suggest that the people, having had a long

pull of it, are taking a few quiet breaths before they start in to "whoop it up" and fully understand their opportunities and improve them.

Let each man make his own explanation of why the people don't appreciate the Volcano; why the people do not go "Fleet-mad"; why they don't "whoop it up."

The fact remains that the city of Honolulu is due to wake up.

The greatest opportunities of a life time are laid on its door-step, waiting to be picked up with the enthusiasm characteristic of the live, progressive, appreciative spirit that Honolulu has shown it possesses to a marked degree—but dormant for the moment.

NEWSPAPERS BEST

CROCKETT FOR JUDGE

A prominent Mauiian stated today that Judge McKay of Walluku, in case he is appointed Tax Assessor of Maui, will use his best endeavor to have W. F. Crockett appointed District Magistrate of Walluku. Crockett is at present the Deputy County Attorney of Maui. He is said to be unpopular with the natives on account of his having taken part in the recent Kepoikai affair. Crockett is under case and they both tried to defeat Kepoikai's reappointment.

COIN OR DRAFT FOR MAHUKA SITE MONEY

Will the money for the purchase of the Federal building site arrive in coin or draft?

This is a question that is interesting the financial men of the town just at present. If the coin is sent out, it will be a very considerable act on the part of the Federal officers because it will serve to offset the shortage of coin against which Honolulu has always to guard in consequence of the necessity for remitting the surplus deposits of import moneys to the mainland. Uncle Sam takes the coin away and local banks have to pay to have it brought back again.

If the payment is made by draft, it will be up to the financiers of Honolulu to find the coin.

One hundred and four thousand dollars is a very tidy sum to be turned into the coffers of those interested in the sale of the Mahuka site, and it will be here next week or possibly by the Alameda.

THROWING WOULD STOP BOXING

(Continued from Page 1)
leads to brutality and gambling. An early reply is requested.

Yours very truly,
(Signed) Theodore Richards, A. M. Merrill, E. W. Thwing, A. F. Cooke, Lyle A. Dieck, F. A. Fon, Josh. Rath, G. P. Castle, O. S. Gulick, C. H. Dieck, Brown, Moses K. Nakulua, E. Herrick, Paul Super, E. H. Hand, D. W. Crane, F. S. Scudder, D. Scudder.

Throwing is responsible for the above, which has been presented to United States District Attorney Breckons. What it signifies is apparent, should the letter of the request be carried out.

Prominent men of the city have expressed themselves in no mild terms regarding the petition. United States Attorney Breckons has not had time as yet to study the situation very closely, but he made a positive statement this morning.

"I will give a very liberal construction to the word 'fight,'" was the only thing that Breckons would say. The fact of the matter is that unless unusual pressure is brought to bear on him, Mr. Breckons will probably let the sport go on.

Theodore Richards, was called up and asked whether he had any objection the petition being printed in the paper. He stated very emphatically that he could see no reason why the matter should not be brought fully before the public, and he also could not see any reason why any other of the signers should object.

"I intended to write a communication to the paper," said Richards, "regarding the promoters of the fight." "I had a talk with Ah Sam, the Chinese boxer, the other day and asked him if he was aware of the fact that he could be given at least one year for breaking the law by fighting. He told me that he did not know that. I say that the promoters should have told the boy about this."

SAID SAM TAUGHT

(Continued from Page 1)
as one of the lessons for the National Guard of Hawaii to study, and that the promoter of this proposition is Colonel Sam Johnson.

"Vote for a straight Republican ticket," said Col. Johnson, according to this story, "and do not give your votes to the Democrats, Home Rulers or the Labor party men at the coming election."

These instructions are said to have been given by Johnson to his men, whom he drilled separately by companies, he having not very long ago ordered each company to turn out in order to acquaint itself with the afore-mentioned instructions. Each company turned out by itself, separate from the other companies. After the men had finished their drilling Johnson is said to have told them to vote the straight Republican ticket. His last remark is alleged to have been, "If you don't vote for the Republican ticket, we will be in pill-kia." The story was told by some of the soldier boys of the National Guard of Hawaii. They are apparently Democrats.

The genial Sam was considerably amused when he was told of this report.

SUPPLIES AT COST

(Continued from Page 1)
to sell tickets to the town-people who might want to go on the Pearl Harbor trip. The income from these tickets would go toward satisfying the cost price.

"Manager Kennedy also tells me that if it is decided to have the hookups, all the freight from the other Islands will be carried by his company free of charge.

"Captain Rees has very well said that it is not the money spent on them that will count with the city's guests, but the spirit of cordiality shown. That is undoubtedly true, and in that connection I have learned that one of our citizens has planned to throw his country home open to the men in uniform, give them the freedom of the place and provide coffee and sandwiches.

"I think if the merchant gets a new dollar for the old one when furnishing supplies to the Fleet committee, he should be satisfied. I am sure the most of them are and, better than that, will give liberally."

Rev. Cornelius Kennedy is appointed pastor of St. Mary's Cathedral to succeed Rev. Philip O'Ryan.

ALL FOR TAFT

COLUMBUS, Ohio, May 16.—Arthur I. Vorys, manager of the Taft canvass, gave out the following statement tonight:

"The last conventions for the selection of delegates to the National Convention were held today. With the close of the campaign for delegates to the Republican National Convention the nomination of Secretary Taft on the first ballot is a foregone conclusion. Of the 980 delegates who will sit in the convention, 263 have been chosen under positive instructions to vote for Ohio's candidate, or under resolutions of endorsement of preference that were the equivalent of instructions. Two hundred and twenty-five delegates have been instructed for other candidates. One hundred and ninety-two are uninstructed. Of these 192 more than 100 are known supporters of Taft. This assures Secretary Taft at this time a total delegate strength in the convention of only a few votes less than 700.

"The seats of 182 delegates are contested, but in only 126 of these contests are Taft delegates affected."

SUGAR

The Federal Reporter for May 12 says:

SUGAR.—While the sharp edge is off the market, there is no pressure to sell, and both buyers and sellers appear content to await further developments. No sales have been reported since the American Sugar Refining Company purchased the latter part of last week 15,000 bags Cuba Centrifugals at 3-1-16c, cost and freight, basis 96, equal to 4.42c, for shipment during the last week in May. The market became steadier on the announcement that 40,000 bags Cuba Centrifugals in port would be stored by the owners, rather than sell them at current quotations. The effect of this, however, was counteracted yesterday when advices were received from Cuba to the effect that the production of the whole island up to May 1st was 824,149 tons (or about 24,000 tons more than generally estimated), when figuring on a 900,000-ton crop. In our report of March 13th, when it looked to us as though the crop would reach 940,000 tons, we estimated receipts May 1st at 892,000 tons, so we are 68,000 tons behind that estimate, and there seems to us every reason to believe that the ultimate output will be very little if any in excess of 900,000 tons. However, this news led to some selling abroad, and the market turned easier, at fractional declines. Sellers of Cuba sugar are today asking 3-3-32c, to 3-1-8c, cost and freight, for early June shipment, and 3-1-16c, to 3-3-32c, for prompt shipment, and it is possible that if buyers appeared at 1-32c, to 1-16c, under these prices, some business could be put through. We hardly think, however, that the volume would be very large, as holders are showing the greatest confidence in their position, and are not ready sellers at today's prices. As to the future course of the market, it would seem that for the present we are going to have a temporary dullness, with the market staying around 3c. All the sugar available will be needed, and if sellers are content to wait until buyers' necessity force them into the market, there should be no difficulty in maintaining present prices, and securing higher figures later on, when the consumptive demand increases. The market closes quiet, with the spot quotation on the basis of 4.30c, duty paid, for 96 Centrifugals, 3.86c, duty paid for 89 Muscovadoes, and 3.61c, duty paid for 89 Molasses Sugars.

CUBA.—The figures for the week are as follows: Receipts for Week: 11,000 tons; last week, 8,000 tons; 1907, 22,000; 1906, 42,000. Exports for week: 37,000 tons; last week, 23,000 tons; 1907, 23,500; 1906, 31,800. Stock: 160,000 tons; last week, 187,000 tons; 1907, 411,000; 1906, 311,500. Centrals grinding: 23; last week, 23; 1907, 28; 1906, 164.

Aside from the figures which we give above, there has been no news of special interest from the island. As shipments from Cuba during May will be large and receipts small, stocks on June 1st will be correspondingly reduced, and probably not show over 100,000 tons. Sales are made from time to time at prices a trifle higher than the New York values. As to the next crop, it would seem that with favorable weather from now on it will be reasonable to expect a crop of 1,000,000 tons to 1,100,000 tons. On the other hand, if the weather is unfavorable, the crop will probably be less than this year, but it is of course too early to make any definite predictions. There have been local showers, but no general rains as yet, and where rain has fallen, although very beneficial, it has not been as much as needed, and in some places the drought continues.

EUROPE.—Notwithstanding the fact that advices were received from Licht to the effect that the sowings will be decreased from 2-1-2 per cent to 4 per cent, the market has turned easier on the Cuba news, and evidently operators on the other side fear that Cuba has deceived them as to the conditions in the island. We do not, however, think that such a belief is well founded. So far as actual sugar is concerned, the offerings of Beets which have been received quite generally from day to day, have been withdrawn, and today there is practically nothing offering from which it would appear that holders of actual stocks believe in the situation, and are waiting for better prices. Today's closing is about on the same basis as yesterday's, the cable reading market quiet, prices unchanged. Yesterday's prices were: May: 11s. 7-1-2d., equals 4.46c. June: 11s. 8d., equals 4.47c. August: 11s. 9d., equals 4.49c. October-December: 10s. 6-1-4d., equals 4.21c.

FIVE CENT SUGAR AND WILLING TO BEL

"I am willing to wager that the price of raw sugar will go as high as five and a quarter during the year beginning with July," said a well-known broker of Honolulu this morning.

"I have no line on the future, but that is my judgment. The Cuban crop is short. You can't make it out any other way. This slump in beets is brought about by a falling off of buying orders in England to await the reduction of duty that goes into effect on June 1. Buying will begin next Monday.

"Of course, we do not know how the invisible supplies will pan out and we don't know what the weather will be, but taking all the natural and reasonable things that people in this world have to gauge the future there will be a shortage of sugar at the end of the season and it will not be made up next year.

"Some of the brokers were talking 'scape-talk' yesterday. That, I believe, is nonsense. We are getting a good price for our sugar. What's the use of knocking?"

"Yes; I am fully convinced that five-cent sugar is coming within twelve months."

EASTERN SUGAR MARKET FIRM

The following cablegram on the state of the Eastern sugar market was received this morning by Alexander & Baldwin from their New York office: "There was a sale of 96-degree Centrifugals today (but does not affect the basis of Hawaiian sugars) at 4.33. Cuba for delivery at New York, June shipment by steamers. The Federal Sugar Refining Co. was the buyer. Market firm. Advance affected spot sugars at 1-16 advance. Beets, 11s. 11-2d., firm; three months quoted at an advance of 1-1-2d."

BONINE'S PICTURES

This morning at 9 o'clock the reserved seat tickets for the moving-picture exhibition at Bishop Hall, Oahu College, were put on sale at Wall, Nichols Co., and from the number that have already been disposed of it is evident that Honolulu people are appreciative of their opportunity of seeing something really good in this line.

Not only will the exhibition be very entertaining, but it will be instructive. Those who are ignorant of old Hawaiian customs and modes of life, which are somewhat of a rarity in Oahu, will do well to profit by their opportunity of learning something about them at such a small outlay of time and money.

Some of the best pictures are new from Kauai and Kahoolawe. Others show child-life and boys' sports that should appeal to everyone.

Tickets for the entertainment are 25 and 50 cents, at Wall, Nichols Co.

JAPAN WANTS LOAN

NEW YORK, N. Y., May 17. — A report reached the city tonight from Washington that the Japanese financiers who came to New York about a week ago on their way to London to float a loan of 300,000,000 yen were in negotiation with E. H. Harriman, Jacob R. Schiff, August Belmont and others for the formation of a syndicate here to take over the entire loan or a large part of it.

Harriman, according to this report, had visited the Japanese financiers in Washington and returned to New York with some of them.

It was said that Harriman's large Oriental interests had prompted him to aid the Japanese in floating a loan and that many telegrams passed between Schiff, Belmont, Harriman and the Japanese Embassy in Washington in the course of the visit of the Japanese bankers to the capital.

BOY ORATOR'S TALK

(Special to the Bulletin)
Waikane, Oahu, May 25. — The people of Waikane were fortunate to have an opportunity to listen to an address delivered by Bernard Kelekolio, the Boy Orator, at the Lannakila hall yesterday afternoon. Bernard, who was present at the Christian Endeavorers' annual meeting, was requested to speak on the subject "The Christian at the Ballot Box."

There were about fifty or more members present, including some well-known Hawaiian politicians and about a dozen ladies. The meeting was presided over by John Koi-koi, who is the new president of the C. E. Society of Waikane. Previous to Bernard's address the election of officers of the C. E. Society took place, with the following result: John Koi-koi, president; Frank Lelaioha, vice president; John Kialoa, recording secretary; Rev. M. Kuakahi, corresponding secretary; and Hon. J. K. Paale, treasurer.

Immediately after the election of officers, the Boy Orator was introduced to the audience by Rev. M. Kuakahi, as a promising young Hawaiian, who has done a good deal for the benefit of his people and who is now a candidate for legislative honors. "I have not come to your beautiful place to deliver a political speech, but merely for pleasure and to pass my leisure hours," Bernard began. "The Christian at the Ballot Box" has a broad meaning. It teaches us to be true to ourselves in all our dealings with every man, and higher than that—to be true to God." He then dwelt on the life of A. Lincoln and the Civil War, stating that if the people of those days had only voted as a "Christian at the Ballot Box" the great war, which caused many lives, would probably have been avoided. He kept the audience wrapped most of the time and there were a good many "Polois" heard during the course of his remarks.

Bernard remained overnight as the guest of S. Kaiwi, the postmaster of Waikane, and returned to Honolulu Monday morning.

MAUI PLANTATIONS MAY RETIRE BONDS
Haiku And Pala Hope To Be Able To Pay Off Portion

It is probable that during the present year the Pala and Haiku plantations will retire part of their outstanding bonds, it being practically certain that this will be done if the season continues to be as profitable as it has been so far.

"This matter has not been brought before the board of directors as yet," said J. P. Cooke of Alexander & Baldwin, when asked about it this morning, "and therefore no action has been taken. However, we hope to be able to retire a large part of the bonds of these plantations this year, though we cannot be sure that we can do so, as sufficient sugar has not yet reached the market to determine the price the crop will fetch."

The Pala bond issue amounts to \$750,000 and that of Haiku to \$300,000.

AIEA PUPILS MAKE THEIR OWN DRESSES

Miss Mary Maxwell, teacher of the Aiea school, has written a letter to Superintendent of Public Instruction Babbitt, giving some very interesting information. There is also a picture enclosed, showing a number of her pupils, wearing dresses of their own making.

Miss Maxwell has been engaged in teaching the children sewing for some time past, and the dresses which the girls are wearing in the picture are a practical result of her instruction. She emphasizes the fact in her letter that the children made the dresses without any aid other than her preliminary instruction. Mr. Babbitt stated that this was one of the most practical results of such teaching that has so far come to his notice.

COMPLAINT OF POOR SANITATION ON MANUFA

The steerage passengers who arrived this morning on the Manuka made a kick to the marine hospital surgeon, Dr. Cofer, saying that the sanitary conditions on board were very bad during the passage. They had a signed paper on arrival at port, setting forth their complaint.

The officers of the ship merely say that they have room in the steerage for twelve more, in accordance with the American law.

The agents, Davies & Co., had not been notified this noon. Neither had anything been said on the ship.

Los Angeles Man Discusses Points of Yacht 'Hawaii'

An opinion, rendered from a study of the design of the yacht Hawaii, and printed at the scene of action, in Los Angeles, referring to Crownshield's work in designing her, reads as follows:

He has provided a craft which will be, first and foremost, seaworthy. Whether she would win against our old victor, the Lurline, is at present open to doubt, because the Hawaii is rather too short on the waterline to have the right legs in a long race, with the sheets well off. The Lurline is 72 feet on the water line and she can hang up rags to coral all the breeze in the neighborhood, while the Hawaii is only 62 feet on the waterline.

Disadvantages

She also drags an extraordinary amount of standing keel, which no doubt would be serviceable if she had to claw to windward for the whole 2500 miles, but provides some detriment when Pacific trades can be counted on for a soldier's wind from here to Diamond Head.

This keel is flat on the bottom and quite horizontal except at the curve at the heel of the rudder. With this curve, the bottom of the keel is 23 feet long, and from its forward corner it rises in a straight line to the bobstay, providing a most unusual lateral area to prevent leeway and a good deal too much wetted surface for really first-class racing. With all due respect to the designer, this craft is too much like his celebrated Gloucester fishing craft to promise much among exaggerated modern racing machines; but as there is none of these in the fleet which will now contest, the Hawaiian seems well fitted for her company.

Her beam is 17 feet and she will draw about 10 feet of water. These figures have to be taken off the design at one-quarter inch to the foot, and the over-all length seems to be 68 feet.

Free From Pounding

She has the same overhang at both ends, each of these being eight feet, and consequently will be very free from herd pounding. The lines are easy and fast, and the lateral plane is the only unattractive view of her.

Yet this counts for little, and as Crownshield has had a yacht regatta of his own every time the Gloucester fleets sailed in company, he most know when "handsome is as handsome does." When his vessels sail for the fish they sail for blood.

But the Hawaii will carry a large sail area, the height from the deck to main truck being 68 feet, and to the fore truck 60, while the square sail yard for running is 36 feet. She is about the same size as Fred. Door's ketch, the Yankee Girl, and if our local broker's fine new craft gets the full supply of sails that ketch can carry, there ought to be a fine race between these two.

NEW MAN ON MOUND SATURDAY'S GAMES

Leslie Breaking Into The Play Again—Ball Gossip

There was some discussion as to whether the League would play ball on Saturday, it being a holiday, but it has been officially announced there will be something doing, and the fans now sit up and take notice. Punahou will play the Kams; the Jewels draw the Saints.

Hampton will transfer the slab to a "new one" on Saturday, playing the second leg himself. Manager Steere is contemplating several changes also, in his line-up, which will be announced later, and which may prove quite an addition to his already healthy aggregation.

Leslie, who twirled so well for the Diamond Heads last season and who also held down the same position for the Saints on their Oriental tour, will again appear in one of the Jewels' suits on Saturday. Leslie's reappearance will no doubt gladden the hearts of many of the old-time fans, as his speedy twirling last year put his team well in line to carry off the championship.

Jack Desha is again reported on the sick list and may not be seen in Saturday's game.

An effort is to be made at the next meeting of the League to furnish the press with an official line-up of each team at least one day before the game, showing who's who and where they will play. The Bulletin has come forward with the offer of printed score-cards for each game.

En Sue Getting Wide Reputation As Sprinter

Probably the most famous athlete in Honolulu today, outside of Barney Joy, is En Sue, the Chinese sprinter and ball-player. The story of his great time for 50 yards has gone the world over, even the papers arriving here from the small towns of the Middle West having pictures of him, with long stories of his feat. The latest is the Livingston Republican, of Livingston County, Wisconsin.

Few of the men who have seen En Sue work realize that if his time of 5 1-5 seconds for fifty yards is correct he is the greatest runner who has ever lived in the world, for that distance, and that he has wealth and fame at his command if he would take it. The time is equal to 9 1-5 seconds for 100 yards, and is more than such men as Arthur Duffy, Archie Hahn, Wefers, and Eaton have been able to do. It ties a world's record which has withstood the onslaughts of years.

SPORTIVE SPLURGES

The Young Stars defeated the Komas, 5-4, and the Lahainalunas won from the Pioneers 10-5 at Lahaina on Sunday.

Frank Kanae wants a boxing match, preferably with Mike Patton, at 190 pounds.

August Belmont and Richard Croker head the list of winning owners in England and Danny Maher leads the jockeys.

THAW CASE TONIGHT

The popularity and curiosity of the great Thaw trial has been demonstrated by the enormous crowds that have filled every available seat in the Orpheum theater the past two nights. The pictures are well put on and are exceedingly interesting, showing all of the particular points brought out in the world-famous trial. The Thaw pictures will be put on again tonight with a change in the other interesting views. Tomorrow evening may be seen the "Brigand's Daughter," a very thrilling and exciting film, with an entirely new change of program.

Promoter Sam Berger is eager to go through with the proposed Atteig-Gans fight, although it is a bad match from the public viewpoint.

LOS ANGELES INTERESTED

While the committee here is having such trouble getting funds for the Trans-Pacific Race, in Los Angeles the matter of getting up the money went forward without any trouble. A big affair at San Pedro when the yachts are all there is being planned, and the thing is being given a boost in the Coast papers which is sure to arouse interest in it to fever heat.

COMMITTEE PASSES

(Continued from Page 1)

tion of McCandless seconded by Cooke, decided that \$1,000 instead of \$600, be appropriated for the transportation to and the entertainment of the naval officers at Pearl Harbor.

The Executive Committee further favored appropriating \$250 instead of \$500 to pay expenses of fixing up the Kapena Falls.

At the request of Col. Jones the expenditure of \$750 will be favorably reported on by the committee, to cover the expenses of fireworks which will be displayed on the Palace grounds.

The Press Committee's request for \$500 to defray expenses of a dinner to be given the naval correspondents at Mochizuki Club, and other expenses, was not favorably thought of.
