

# THE RESIGNATION OF KEPOIKAI

## QUEEN ASKS ONLY \$250,000

(Associated Press Cable to The Star.)

WASHINGTON, D. C., January 14.—Ex-Queen Liliuokalani of the Hawaiian Islands today appeared before the Claims Committee of the House of Representatives to press crown land indemnity claims growing out of the taking over of the islands by this government. The former monarch of Hawaii was accompanied by Prince Kuhio, Delegate to Congress from the Territory of Hawaii, and Princess Kianiana'ole, the Delegate's wife. Judge Francis M. Hatch presented an argument on behalf of Liliuokalani, asking for a quarter of a million dollars in full settlement of the Queen's claims. During Judge Hatch's presentation of this proposition the Queen had nothing to say, though she nodded approval of Judge Hatch's argument.

## FLOODS MENACE CALIFORNIA

SAN FRANCISCO, January 14.—Heavy rains have fallen throughout the entire state and floods are threatened in many sections.

## TILLMAN AGAIN ASKS FOR PROBE

WASHINGTON, D. C., January 14.—Senator Tillman today again made a demand for a full investigation of the charges in the matter of the alleged Oregon land frauds.

## ILLINOIS ORDERED TO MESSINA

MALTA, January 14.—The U. S. S. Illinois has been ordered to Messina to assist in the work of aiding the earthquake sufferers.

SAN FRANCISCO, January 14.—Two taxmen have been temporarily passed as jurors to try President Calhoun of the United Railways for alleged bribery.

NEW YORK, January 14.—Earl G. Ronald and Beatrice Mills, daughter of Millionaire Mills, were married in this city today.

MALTA, January 14.—U. S. S. Kearsarge and Wisconsin arrived here today.

## FLOCKING VISITORS

COTTAGES AND ROOMS IN DEMAND FOR PEOPLE NOW ARRIVING IN HONOLULU.

Secretary H. P. Wood, in his weekly letter to the Hawaii Promotion Committee, says:

"Each steamer now calling at Honolulu contributes its quota of home-seekers, investors and tourists. Arrivals for the past two months have been unusually large and it is pleasing to be able to report that the prospects favor a record breaking season. By the first steamer in February, we will actively commence our campaign for next summer's travel in which I believe we are also going to be successful.

"Within the past month, we have had an unusually large inquiry for cottages and rooms, with and without board. While we have quite a complete list of the boarding houses throughout the city, it would prove of assistance if those of our citizens having furnished cottages or rooms to let would send in word to the committee in order that the information may be filed for future use."

Mr. Wood mentions inquiries regarding homes and investments, from a small farmer in South Carolina, a miner, in Alaska with \$4,000 to invest and a resident of Richmond, Va., with \$5,000 capital and a regular income of \$12,000.

Consul General Michael at Calcutta wants more "Crossroads" maps of Hawaii, and Consul Conner at Saigon, China, hopes that place will be marked on the next edition of the map and says, "Some Saigon people recently returned from Europe via Hawaii and speak of your city's beauty in the highest terms and I was pleased to be able to corroborate all they said."

The Director of the Philadelphia Museum asks for an exhibit from the islands. They will build the necessary cases and give space without cost. As a basis for an exhibit, they already have the photographs, colored drawings and sketches displayed by Hawaii at the Paris Exposition.

A lady residing at New Castle, Pennsylvania, wants information to be used in an address on Hawaii to be given before a woman's club.

Frank Clark writes that he will be unable to extend the stay of the Arabic in port.

The Southern Fruit Grower, published at Chattanooga, Tennessee, writes for certain cuts appearing in the pamphlet "Agriculture in Hawaii," for use in a special article on the islands shortly to appear in that paper.

Miss Tower tells about stories she has had published and is to have published bearing on Hawaii.

## CITY GETS THE BAND; TO MARCH TOMORROW

HONOLULU FAVORED BY FIFTH CAVALRY'S MUSICIANS STAYING IN TOWN—TROOPS MOVE ON LEILEHUA IN THE MORNING—TRANSPORT'S SAILING DELAYED—ENTRAIN TO WAHIAWA AND HIKE TO IDEAL BARRACK GROUNDS.

Off to what is going to prove one of the most delightful military camps on the topside of earth, five hundred Fifth Cavalry men will at 8 o'clock tomorrow morning start for Leilehua, taking the train to Wahiawa and hiking thence to camp.

Tonight, as last night, the cavalry troops will remain aboard the transport Thomas which brought them here, for the transport, instead of sailing for Guam and Manila at 5 o'clock this evening as originally planned, will not get away until 9 o'clock tomorrow morning.

Everything is in readiness for the reception of the horse soldiers at beautiful, breezy Leilehua. Camps and kitchens and messhalls and quarters and stables are awaiting their occupants, standing as a monument to the bustling enterprise of Construction Boss Captain Castner and when the mounted men, without their mounts which are in quarantine, hit camp, there will be a scurrying for quarters that will long be remembered as an initiation into one of the most agreeable camping spots in the world.

Good news for the city of Honolulu is conveyed in the fact that the famous band of the Fifth Cavalry will not be obliged to waste its sweetness on the far-away air of Leilehua, but will be the instrument of a patriotic musical education for those in the city of Honolulu who may be in need of such a psycho-logical treatment.

The Fifth Cavalry band's headquarters will probably be at Fort Shafter, within easy trolley-car distance of Honolulu, and this burg will be the beneficiary of many concerts given by the noted military musical aggregation, calculated to stir love of country and flag in the hearts of those not already enthused with such sentiments.

With the Oriental population this strategic move is significant, for there is much that can be taught by harmony, melody and musical meter that cannot be inculcated by force, or books or preaching.

The boys will be marching at 8 o'clock tomorrow morning, from the transport Thomas to the railway depot and Leilehua will be duly christened before tomorrow's sun has set.

The joy of the remaining of the band is Honolulu's joy, nor let Berger of the Hawaiian band feel that he is slighted, for it will be rather an increase of pleasure than a substitution.

The inventory of the estate of Mrs. Campbell-Parker was filed this morning in the Circuit Court and at the same time a motion was made to admit the will to probate, but this matter was continued for a week in order that a settlement may be arrived at between Miss Muriel Campbell and the Hawaiian Trust Company, the temporary administrators of the estate, over some minor matter. The same attorneys represent both parties and in case of a dispute a change will be necessary.

From a search of the records of the tax office it appears that Mrs. Campbell-Parker did not own the Emma street residence which the Parker family lives in. In the will the "Emma street house and lot" were left to Miss Muriel Campbell, but this refers to the Freeth cottage and lot, makai of the residence. This is valued at \$11,000.

The principal items in the inventory are as follows: Real estate Kewalo property, \$2521.04; Tantalus house and lot, \$3900; Emma street house and lot, \$11,000. Peninsula house and lot, \$10,000. Bonds: Kohala Ditch, \$90,000; Oiaa Plantation, \$29,100; O. R. & L., \$4049; Alexander Young Building Company, \$57,000. Notes and mortgages: Excelsior Lodge I. O. O. F., \$2,500; Sam Parker note (paid), \$26,700, and numerous other notes amounting to about \$8000.

There are twelve life insurance policies, one of which makes Helene A. K. Kawannakoa the beneficiary in the sum of \$32,000 and the second is to Mrs. Alice E. K. Macfarlane, for the sum of \$32,000. A note of Princess Kawannakoa for \$6800 is mentioned.

In debts due the estate there are several items, the only two large ones being \$42,607.16 from Princess Kawannakoa and \$23,773.26 from Mrs. A. K. Macfarlane, both amounts being advanced by Mrs. Campbell-Parker to refund two years' income of the Campbell estate which the court held had been illegally paid to the parties in question.

All told the inventory foots up a value of \$394,146.46.

W. R. Grace & Co., of New York, through W. W. Dimond & Co., Ltd., engaged Professor Sedgwick to establish an experiment station at Lima, Peru. After he had fulfilled that commission he was engaged by the Peruvian government for a similar task on its behalf. Having completed this engagement he returns to Honolulu better equipped than ever for further usefulness.

COMBINATIONS. A fine combination lunch is served every day at the Alexander Young Cafe at 25c, 35c, 50c and 75c.

K. Yamamoto's store will be closed today and tomorrow on account of the death of Mr. Yamamoto's father.

## MAUI JUDGE IS REQUESTED TO RESIGN

UNITED STATES ATTORNEY GENERAL CABLES TO THE MAUI JUDGE ASKING FOR HIS IMMEDIATE RESIGNATION—GENERAL REPORT THAT JUDGE KINGSBURY WILL BE NAMED TO SUCCEED HIM AS JUDGE OF THE MAUI CIRCUIT.

Confirmation of the announcement of the resignation of Judge Noah Kepoikai of the Maui Circuit Court, which was published exclusively in The Star some three weeks ago, was received by the mail from Maui this morning. In addition to this an explanation is given of the denial made by the Judge in regard to his resignation.

Judge Kepoikai on Tuesday, according to advices which come from Maui and which are from him personally, received a cablegram from Attorney General Bonaparte on Tuesday in which he was requested to forward his resignation at once. In case that this is not done he will without doubt be summarily removed from the position which he now fills.

The denial made by Kepoikai that he had resigned was practically a quibble. It appears that while he did not forward his actual resignation to Washington by Governor Frear he did send a letter asking that he be allowed to resign. In other words, in case the department found that his acts had been indiscreet and constituted a cause for removal, he wished to be given an opportunity to get out in a graceful manner and without being actually expelled and thus being subjected to a rather severe mode of procedure.

It may be stated as practically certain, as was published in The Star at the time that Kepoikai's resignation or removal was announced, that Judge Selden B. Kingsbury will be the new appointee. He has never made any formal application for the position and will not do so till a vacancy has actually occurred. That his application, when made, will be regarded favorably by Governor Frear, who will naturally be asked, or probably already has been asked, for a recommendation, is regarded as certain.

The charge which brought Kepoikai to his downfall was one which involved the borrowing of money from an estate while it was in the custody of the court. It was alleged and proven beyond reasonable doubt that Judge Kepoikai obtained a loan from the estate of a dead Japanese of \$1000 giving his personal note, unendorsed and unsecured, for the same. Photographic copies of the note were obtained as additional proof and the testimony in the matter was forwarded to Washington some five months ago.

## WATER SUPPLY FOR KAIMUKI

Superintendent of Public Works Campbell will address a special meeting of the Waialae, Kaimuki and Palolo Improvement Club this evening on the water supply question. The residents of the district covered by the club are planning to secure a new reservoir and a better water system, and Campbell will give his ideas on the subject. The meeting is to be at the home of A. F. Cooke, Kaimuki, and is not confined to members of the club, all interested being invited.

## MRS. CAMPBELL-PARKER'S ESTATE AS INVENTORIED

INVENTORY OF REAL ESTATE, SECURITIES AND LIFE INSURANCE AMOUNTS TO NEARLY \$400,000—ADMISSION OF WILL TO PROBATE IS POSTPONED—EMMA STREET RESIDENCE DID NOT BELONG TO THE TESTATRIX.

The inventory of the estate of Mrs. Campbell-Parker was filed this morning in the Circuit Court and at the same time a motion was made to admit the will to probate, but this matter was continued for a week in order that a settlement may be arrived at between Miss Muriel Campbell and the Hawaiian Trust Company, the temporary administrators of the estate, over some minor matter. ## TRANSPORT DANCE TONIGHT AT MOANA

There will be a dance tonight at the Moana Hotel in honor of the officers and ladies of the 5th Cavalry and the Buffalo. Special arrangements have been made for a splendid musical program for a band concert by the Hawaiian band under the direction of Professor Berger, to be given before the dance, and beginning immediately after dinner.

Many parties of Honolulu people have arranged to dine at the Moana tonight to meet the officers and ladies of the Buffalo, and there should be more. Special efforts have been made to make the concert and dance a memorable one. The Hawaiian Quintet Club will furnish the dance music. All

friends of the Buffalo and Moana are welcome.

## BIGGER SALARY FOR PRESIDENT

ROOSEVELT SUPPORTS THE BILL TO MAKE EXECUTIVE'S SALARY \$100,000 PER YEAR.

(Special Correspondence.)  
WASHINGTON, D. C., December 24.—President Roosevelt endorses the Bourne Bill to increase the salary of the President to \$100,000 after March 4th next. The President does not wish it to be understood that he thinks he has been underpaid, but as he has had 7 years experience in running the Executive establishment he believes he knows enough about it to be certain that it takes good management to run the place without spending more than the salary allowed. The government furnishes the establishment, keeps up the grounds, maintains the stable and green houses and also makes arrangements for the traveling of the President. On the other hand entertaining, which is almost a public function, must be paid for almost wholly from the President's private purse. President Roosevelt and his family have been liberal entertainers. The President knows personally people from all over the world, and he has gathered under the White House roof all sorts of people. It is recalled that at one mid-day luncheon "Bar" Masterson, the former rough rider and Western town marshal, rubbed elbows with Ambassador Bryce, who was there informally. Captain "Bill" McDonald, the Texas ranger, has been just as welcome a guest at the White House as John Morley or any other distinguished light from across the seas. These informal luncheons, which have been a midday feature of the White House life for the past 7 years are not over expensive, but the state functions cost much and real money, and if President Roosevelt had not had an income from outside sources he would now be leaving the White House with the problem facing him of making a living. President Roosevelt is in a very comfortable situation in that he has a modest little fortune, a good home and an earning capacity through his pen. But the President can conceive of some of his successors not being so fortunate and he favors the idea of either granting a life annuity say of \$10,000 or \$15,000, but does not want it to apply to himself, or if this plan does not seem feasible he would favor the Bourne Bill, doubling the present Presidential salary.

# Milling Plant On The Mayflower Mine

This is a photo of the "MAYFLOWER" gold foundry the shares of which I am selling today at 25 cents per. If you want to make some sure money, some quick money, some big money, get wise and buy some stock. Buy it before the price gets on the quick-march forward. Buy it to hold or buy it to sell.

But hurry up and connect with this OPPORTUNITY. You can't make any mistake in buying "MAYFLOWER" except the mistake of not buying enough. The security back of it is the goods in the Store—the proven treasures of the Mine. BUY "MAYFLOWER" STOCK. BUY IT NOW!

There have been about a million dollars taken out of this property, so far, in an old-fashioned sort of a way under former ownership. The "MAYFLOWER" Company happened along on bargain day, during the recent financial shyness, and purchased the whole shooting-match as a going concern—Mine, milling plant, water rights, everything. Now they are going to work it with heart, soul, and pocket-book for all there's in it. And there are millions in it. The estate is literally criss-crossed with high-grade gold quartz veins going down to an unknown depth. There is, to boot, an auriferous gravel channel which has not yet been touched. It is the richest looking patch of ground in the Nevada City gold belt. There are 100,000 Shares—and no more—for sale at 25 cents. Then the curtain raises on the advanced price. Get in your order today. First come, first served. Collar all you can carry. Get busy and nail your share. BUY "MAYFLOWER" STOCK. BUY IT NOW!

## MAYOR'S APPOINTMENT APPROVED BY BOARD

INSPECTOR OF CHAUFFEURS IS A STATUTORY OFFICER AND DOES NOT COME WITHIN QUESTIONS OF APPOINTING POWER IN DISPUTE—DEPUTY ATTORNEY MILVERTON PUTS IT UP TO MAYOR TO SPEED A TEST.

At the Board meeting last night Supervisor Aylett reported from a special committee that S. R. Jordan, candidate for examiner of chauffeurs, had not taken out his second papers for citizenship.

Later a letter from Mayor Fern was read, stating that Jordan was not eligible and nominating James Lynch for the position. It is an office created by ordinance and therefore under the law appointive by the Mayor with the approval of the board.

Conversation around the Board showed that four out of the six members present knew Lynch and considered him well qualified for the office. Logan therefore withdrew a motion he had made to refer the nomination to the Jordan committee.

Ahia did not know Lynch and wanting to have him investigated moved for a special committee to be appointed by the Mayor.

No one seconding this there was a pause. McClellan then told of his acquaintance with Lynch since the latter was ten years old, and of his conducting a garage in Oakland, concluding with a motion to confirm the appointment. No one seconded this and there was another pause, broken at length by Kane with a motion to confirm the appointment. A member having said that Kane's motion amounted to a second of McClellan's Kane withdrew his motion and seconded Ahia's.

Then some talk ensued between the Mayor and members as to what was the question, when Logan seconded McClellan's motion, as he said, to obtain a "showdown." The motion to refer to committee should have been put first but was not, and the motion to confirm being put was carried unanimously to the surprise of the mover.

On the opening of the meeting, Kane presented a motion in writing that all employees of the City and County be paid on the 15th and on the last day of each month.

Deputy Attorney Milverton said he understood some payrolls were to be presented that night. He thought some action on the appropriation bill should be taken without delay. The appropriations were necessary whether the board's committees and appointments or the Mayor's stood. It would not be right, he submitted, for the Mayor to hold up the bill for ten days. Mayor Fern replied that the bill had been handed over to him that day for

approval. It needed to be looked over by him before he acted on it.

Mr. Milverton said it seemed to him that the Board had done all it could to bring the matters in dispute to an issue.

Kane claimed his motion did not affect the approval or otherwise of the appropriation bill.

Quinn said that no resolution could bring the money out unless an appropriation bill was passed.

Milverton said the motion did not go to the disputed powers between the Mayor and the Board.

"The Mayor has no right to decline to put a motion whether he likes it or not," Kane emphatically asserted.

Mayor Fern declined to entertain an appeal from his ruling that the motion was out of order and refused to put the motion. Three demands on him were denied and the Board voted five to one in favor of the motion.

A letter from Treasurer Trent announcing his appointment of M. G. K. Hopkins as his clerk at a salary of \$125 was read. Logan moved, seconded by Aylett, that the letter be filed and the salary fixed as requested.

Mayor Fern, after long consideration, said: "In the other appointments I have refused to put the motion. Every department has a right to appoint its deputies, but when it comes to salary I refuse to put the motion."

A member made three demands which were denied and then put the motion which carried 5 to 1.

The appointment of inspector of chauffeurs came next.

The meeting adjourned till four this afternoon.

## HARBOR MATTERS

It is recommended by the committee on harbors, shipping and transportation of the Chamber of Commerce that a further appropriation of \$500,000 be asked from Congress for continuing the work of improving the Honolulu harbor and that the Delegate be asked to work for an appropriation for a survey of the harbor of Kahului, with a view to improving it. The same committee informs the trustees that the marine railway could not be removed without great expense because of the vested interests involved.

Among letters read at the meeting of the trustees yesterday afternoon was one from President-elect Taft re-

GEORGE F. HENSHALL .....MANAGER  
 THURSDAY ..... JANUARY 14, 1909

There must be a mistake in that cable about the Presidential riding test, or else Roosevelt has made a new kind of record. He is stated to have ridden 98 miles in 17 hours, using up four horses. The new record made is in managing to use up four horses in such a lady-like little jaunt. The speed is a little less than six miles an hour. To put it another way, a horse is represented as being used up after carrying the President for four and a half hours at less than six miles an hour. Judging by some recent Washington tales Roosevelt on foot can beat horses of that sort. We'll back the cavalry that has just arrived here to beat the cabled record and never think of using four horses per man.

### SICILY'S DREADFUL EARTHQUAKE RECORD.

- With perhaps one exception,—the earthquake of 1703 at Yeddo, Japan,—the only former disaster of the kind in a long list since the beginning of the Christian era, which compares in loss of life with the Sicilian earthquake of this month was also in Sicily. It occurred in 1693 and in causing the loss of 100,000 lives and the destruction of fifty-four cities and towns and 300 villages, it was very like the present one. In the following list Sicily, with the sole Japanese exception, already has the fearful prominence she has just so sadly earned again:
- 79 A. D.—Herculaneum and Pompeii destroyed by eruption of Mt. Vesuvius.
  - 105—Four Asiatic, two Grecian and two Galatian cities overturned.
  - 385—Nicomedia destroyed, with all its inhabitants.
  - 557—Thousands perished in Constantinople.
  - 742—Over 500 towns destroyed in Syria, Palestine and Asia; awful loss of life.
  - 1137—At Catania, Sicily, 15,000 buried in the ruins.
  - 1158—In Syria, 20,000 perished.
  - 1186—A Calabrian city and all its inhabitants overwhelmed in the Adriatic.
  - 1268—In Chilia, 60,000 perished.
  - 1456—Naples, 40,000 killed.
  - 1531—Lisbon, 30,000 buried in city's ruins.
  - 1596—Thousands perished in Japan.
  - 1626—Thirty towns near Naples destroyed; 70,000 dead.
  - 1687—At Schamaki, 80,000 perished in shocks within three months.
  - 1682—Port Royal, Jamaica, destroyed; 3,000 lost.
  - 1693—Fifty-four cities and towns and 300 villages destroyed in Sicily; 100,000 lives lost.
  - 1703—Yeddo, Japan, ruined; 200,000 dead.
  - 1716—At Algiers, 20,000 dead.
  - 1731—At Peking, 100,000 swallowed up.
  - 1746—Lima and Callao demolished; 18,000 buried in the ruins.
  - 1754—At Grand Cairo, 40,000 perished.
  - 1755—Lisbon practically wiped out within eight minutes. Upward of 50,000 perished in the ruins and by being engulfed by a tremendous seismic wave. The shock was felt as far as Scotland, and many cities suffered severely. In Morocco more than 12,000 persons lost their lives.
  - 1759—Baalbec, in Syria, destroyed; 20,000 dead.
  - 1797—All the country from Santa Fe to Panama shaken; 40,000 dead.
  - 1812—At Caracas, 12,000 lives lost.
  - 1822—Aleppo destroyed with 20,000 of its inhabitants.
  - 1842—At Cape Haytien, Santo Domingo, two-thirds of the town destroyed; 5,000 dead.
  - 1857—Over 10,000 killed in Calabria.
  - 1868—Many towns in Peru and Ecuador wiped out; 25,000 persons perished.
  - 1891—In Japan, 10,000 dead.
  - 1896—Northwest of Japan, 1,000 perished by earthquake and over 20,000 by attendant seismic wave.
  - 1902—St. Pierre, Martinique, volcanic eruption; 40,000 killed.
  - 1905—Several towns in Calabria district, 500 killed, thousands rendered homeless.
  - 1905—Northern India; 35,000 perished.
  - 1906—San Francisco, quake and fire; 1,000 killed.
  - 1906—Valparaiso, Chile; 1,000 dead.
  - 1906—Mormosa, 2,000 killed, \$45,000,000 damages.
  - 1907—Kingston, Jamaica; 1,700 perished.

The Star exposed the Twelve Dollar Club but, when the trail began to lead in a certain direction, it lost interest. We don't wonder.—Advertiser.

This is about hint No. 6. Why not give us a bit of plain English? Where does the Advertiser think the trail leads or began to lead? Out with it. As far as The Star is concerned the statement that it "lost interest" is untrue and is not borne out by matters we have published. All the news obtainable on the subject has appeared in this paper and editorially a close investigation has been urged. The Advertiser has been so full of mysterious hints concerning "Isoi's attorney during fleet week" that we took occasion to intimate that the public was getting curious and would like to be shown what it was all about. That's all.

It begins to seem likely now that the local hotels during the next few months will not be able to accommodate the arrivals. Honolulu's rooming accommodations seem likely to prove inadequate for the tourists and others headed this way.

Is there any special significance in the fact that so many big railroad men are headed this way at the same time? It is something of a coincidence that several of the head men of the big systems should all happen to come here on a vacation trip at once. The results of their visits, considering Honolulu's natural part in the general problem of transcontinental freight bound for the Far East, may be important.

The department heads appear to be all engaged in getting up enormous estimates of the appropriations needed for the next two years. The Public Works Department, for example, wants about a million and a half, and there are to be requests for increase all round. Probably if they are all made on anything like the schedules proposed, one result will be a vast increase in public expenses generally and the system of local self government will be charged with causing it. One of the

best things the legislature could do would be to make a thorough study of the relations and connections of the County and Territorial Departments, with a view to preventing duplication of bureaus.

Mayor Fern's position appears to be that he will put motions which he approves if they are likely to carry, but that if a motion is made which he does not want carried, he will rule it out of order, refuse to put an appeal from his ruling and compel the Board of Supervisors to act without him, claiming that everything it is doing is illegal anyhow. Isn't there enough public spirit on both sides of the fence to bring about a submission of the questions at issue to the courts?

What object, or what purpose to serve, the Mayor has in refusing to put to the Board of Supervisors regularly made and seconded motions that do not affect in anywise the questions in controversy between himself and the Board, is puzzling to legal and probably also to most lay minds. His only reason thus far advanced for refusing to perform the functions of a presiding officer is that "everything the Board has done has been illegal." This is frivolous. The Mayor has joined with the Board in doing a lot of the business thus denounced and, besides, if he deemed the methods of the Board illegal it was his duty, whenever those methods were attempted, to have compelled the Supervisors to present justification therefor, if any they had, in the courts.

## VACCINATION IN PHILADELPHIA

PHILADELPHIA, December 5.—Nurses and orderlies in the city's hospitals will probably be inoculated with dead typhoid vaccines in the near future. Dr. Harlan Shoemaker, the Methodist Hospital's pathologist, having tested anti-typhoid inoculation with success.

Dr. Shoemaker inoculated himself, two nurses and an interne November 9. The reactions in the doctor and the three others were satisfactory, the fever and pain lasting four days. To determine whether the inoculation was effective Dr. Shoemaker examined some of his blood yesterday and found that he was immune from the disease.

The physician's motive for the experiment was to keep orderlies and nurses in hospitals free of the disease. He said last night that many orderlies and nurses in every hospital in the city had been stricken with typhoid in the last six months. All recovered. He maintains that those who attend the sick are more susceptible to the disease than the average person.

Dr. Shoemaker experimented on a guinea pig before inoculating himself. The pig in recovering showed that the vaccine was not poisonous, and the doctor asked for volunteers at the Methodist Hospital. Dr. Miller, the interne, and the Misses Henderson and McBroom responded. Two inoculations were made on each.

"The reaction after the first experiment," said Dr. Shoemaker last night, "was well defined. The interval between the inoculation should be eleven days in the experience of English and German doctors who have experimented with typhoid vaccines. The inoculations 'took' better than small-pox vaccinations.

INOCULATION FOR SCHOOL CHILDREN.

"If the city is threatened with a ty-

phoid epidemic it is possible that it may be prevailed upon to have all school children inoculated with dead typhoid vaccines. I purpose seeing that all persons working in the Methodist Hospital are vaccinated, and the other hospitals probably will follow suit.

I am considering the advisability of making further experiments by eating the vaccine. Maj. W. S. Harrison of the Royal Army and Navy College, England, has eaten typhoid vaccine with satisfactory results. The Antivivisection Society, which seems to be opposed to vaccination, surely could not enter a protest against doctors giving patients typhoid germs to eat to render them immune.

A committee appointed in England to investigate the question of obtaining immunity by inoculation has recommended that it be continued in the British army. At the time of the Boer war Sir Almworth Wright prepared 400,000 vaccines for use in the British army."

YOU CAN WASH THE MATTRESS BEARING THIS LABEL

Soap, water and a brush are all that is needed to keep the outside of an Ostermoor Mattress sweet and clean. The inside never needs attention. Costs nothing for repairs. An occasional "outing" in the sun keeps it fresh and new, because it is built (not stuffed) of elastic, fibrous Ostermoor sheets. It cannot sag, lump nor pack like hair.  
 Make sure you get the genuine Ostermoor. Note the label put there to protect you against worthless imitations.

ORDINANCE NO. 2.

An ordinance directing and authorizing certain Standing Committees of the Board of Supervisors to engage and discharge all employees as such Committees may deem necessary for the municipal service to said Committees assigned by the Rules of the Board of Supervisors of the City and County of Honolulu, to prescribe the duties and services of such employees, and to fix their compensation; subject to the disapproval of the Board of Supervisors of the City and County of Honolulu.

BE IT ORDAINED by the People of the City and County of Honolulu.

Section 1. That the Standing Committee of the Board of Supervisors of the City and County of Honolulu elected under the Rules of the said Board of Supervisors, known as the Committee on Roads, Bridges, Garbage, Parks and Public Improvements, be and it is hereby directed and authorized to engage and discharge all employees by such Committee deemed necessary to maintain and perform the public work of the City and County of Honolulu on the Roads, Bridges, Garbage, Parks and Public Improvements thereon, to prescribe the duties and services of said employees, and to fix their compensation.

Section 2. That the Standing Committee of the Board of Supervisors of the City and County of Honolulu elected under the Rules of the said Board of Supervisors, known as the Committee on Fire Department and Electric Lights be and it is hereby directed and authorized to engage and discharge all employees by such Committee deemed necessary to maintain and improve the Fire System and the Electric Light System of the City and County of Honolulu, and to perform the public work thereof or pertaining thereto, to prescribe the duties and services of such employees, and to fix their compensation.

Section 3. That the Standing Committee of the Board of Supervisors of the City and County of Honolulu elected under the Rules of the said Board of Supervisors, known as the Committee on Public Expenditures, be and it is hereby directed and authorized to engage and discharge all employees by such Committee deemed necessary to maintain a Band for the City and County of Honolulu, and to maintain all other municipal service not otherwise provided for, to prescribe the duties and services of such employees, and to fix their compensation.

Section 4. PROVIDED HOWEVER that said Committees shall at the last Regular meeting in each month, report to the Board of Supervisors of the City and County of Honolulu the persons so engaged or discharged by said Committees, except such as are known as day-laborers, together with the compensation so fixed, and if said Board, by a majority vote, shall thereupon disapprove any action of said Committees, whether of employment, discharge or compensation, such action of said Committees, so disapproved, shall be of no effect after the date of such disapproval.

Section 5. This Ordinance shall take effect from and after the date of its approval.

Date of Introduction: January 11, 1909.  
Introduced by J. C. QUINN.

The foregoing Ordinance was, at a Special Meeting of the Board of Supervisors of the City and County of Honolulu, held on Monday, January 11, 1909, passed to print on the following vote of the said Board of Supervisors:

**A PRUDENT YOUNG MAN.**

It was one day about the middle of last August that a broad-backed young man entered the jewelry store, and had been gazing around for five minutes when a clerk came forward and asked what could be done for him.

"I'm just looking about a little for Christmas," was the reply.  
"I see. It's rather early for Christmas presents, but it's the early bird that catches the worm, you know. Is it a ring for a young lady?"  
"Mabbe."

"How expensive a ring would you like to look at?"

The young man fidgeted around for a spell and then sunk his voice to a whisper and replied:

"I'm not engaged to her yet."

"No? But you are expecting to be?"

"That's it, but you can never tell, you know. Do you guarantee those things?"

"How do you mean?"

"That she'll agree to marry me if I buy a ring?"

"Well, hardly. That's scarcely in our line, you see. The best I can do is to hope that the ring may sort o' clinch things."

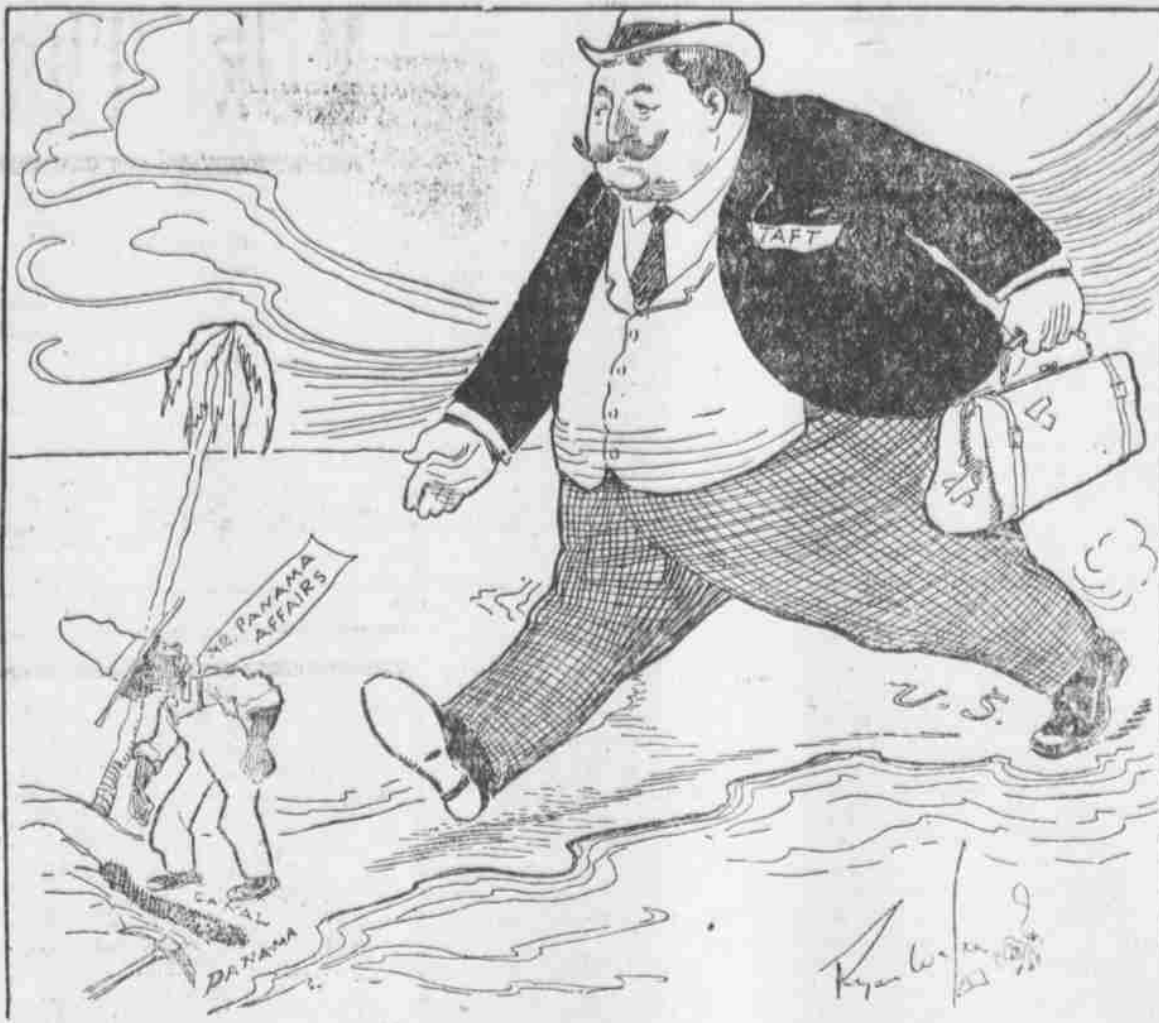

"That won't do," said the young man as he shook his head. "If you won't guarantee then I guess I won't buy."

He went away and nothing more was seen of him until the other day. Then he entered the store again, and walking up to the same clerk he said:

"I guess you remember me. I was the fellow who was in here one day last summer. You wouldn't guarantee that the girl would marry me if I bought her a Christmas present?"

"Ob, yes. And you've come now for the present?"

"Not any. I've come to tell you that she married the other fellow the first of October, and if I'd bought a ring I'd be in the soup now."

**LIVELY COMEDY SKETCH IN BILL**

There will be a breezy little comedy sketch at the close of the program Saturday night by members of the Dramatic Circle of the Kiloahana Art League. "Mrs. Oakley's Telephone" keeps the interest up to the highest pitch throughout by its unexpected

developments and comic situations. Mrs. Oakley, a bride of five months; Constance, who is in love with the "best man;" Mary, the cook, who successfully mixes up things, and the telephone, which helps her do it, furnish the nucleus for an interesting situation.

Miss Whitford is admirable in the part of Mrs. Oakley, Miss Marion Green, as Constance, is thoroughly at ease and makes the most of her lines, and Mrs. W. Montrose Graham, as Emma, could hardly be improved upon. Miss Sprinks, who takes the part of

**FRANCE STILL WORLDS BANKER**

THIRD OF A BILLION SENT INTO THE COUNTRY FROM ABROAD EACH YEAR.

PARIS, December 27.—Although general trade conditions in France suffered in 1908 largely because of the reduction in American demand, figures submitted by M. Leroy-Beaulieu and other statisticians demonstrate the imposing strength of France's financial position and her right to the title of "the world's banker." France's fortune is growing steadily as the result of an annual saving of one billion dollars, much of which must seek investment abroad.

Leroy-Beaulieu's figures show that France now receives \$360,000,000 as an annual income from foreign holdings. He estimates the present wealth of the French people at \$15,000,000,000, or more than \$1100 for every man, woman and child, and as the estimate is based upon declared succession taxes it is admittedly much below the real figures.

The Young Men's Christian Association will put up a comfortable and spacious building near the cavalry camp which will doubtless be much welcomed by the troopers, for therein will be contained a billiard room, reading room, shower baths, gymnasium, social hall, writing room and meeting room, wherein all who are so inclined may gather for social, men-

**LADIES AUXILIARY**

One of the first fruits of the radical change in the directorate of the Healan Yacht & Boat Club is a movement to establish a ladies' auxiliary in connection with this popular organization.

With this end in view a meeting of ladies interested in the project will be held at the boathouse on Saturday at 2:30 p. m.

Rowing has certainly caught on with the fair sex during the past year or so and the formation of a Healan ladies' auxiliary will furnish the other ladies' clubs with worthy competitors and provide an exceedingly interesting feature for next Regatta Day.

The Best Cough Drops Are Drops of Ayer's Cherry Pectoral. Sixty years ago physicians first used Ayer's Cherry Pectoral, and ever since then it has been the standard cough remedy all over the world.

Ayer's Cherry Pectoral controls the spasmodic efforts of coughing, relieves the congestion in the throat, quiets the inflammation in the bronchial tubes, and prevents the lungs from becoming involved.

There are many substitutes and imitations. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind. Put up in large and small bottles.

BANONICA TO BE SENT TO RACE AT THE COAST

In a letter to the Sporting Editor of the Star received this morning, John O'Rourke, the astute racing man in the Territory, says that he intends to ship his good mare Banonica to the Coast by the S. S. Enterprise for racing purposes.

Banonica, which is by Bannockburn, is one of the best race-horses that the islands have ever seen. She won the rich Merchants' Stakes at Hilo as well as a number of other events, with the greatest ease imaginable.

Charles David, who trained Banonica for her recent engagements, will in all probability take the mare to the Coast. She has only to keep right in order to win if properly placed.

There looks a chance to make a killing over Banonica the first rattle out

of the box. The bookmakers will lay as good as eight to one at least against the "Hawaiian wonder" on her first appearance and if she be intelligently handled her connections should, with racing luck, win a pot over her.

Hawaiian turf-lovers will watch the Coast fortunes of the good mare with interest and if good wishes count for anything she will win whenever she faces the barrier.

Owner John O'Rourke knows what he is doing in sending Banonica to the Coast. His brother and he won the Burns' Handicap with the Fretter, which, by the way died in Hilo. He also imported Lazell from the Coast to win the first Merchants' Stakes, and how he succeeded in doing so is now a matter of local turf history.

HILLO TO HAVE MATCH RACE WORTH WATCHING

Word was received by the steamer Claudine arriving this morning, that Hilo is to have an unusually interesting match race next Saturday afternoon.

The distance will be a mile and a quarter and the starters will be Adion, Little Joker and Major Collier.

The race will be for a purse and \$100 a corner.

Adion is the horse which the Maui people imported and took to Hilo to win the Merchants' Stakes, which Banonica centered away with. The gelding is at present in the stable of W. H. C. Campbell.

Little Joker is one of the horses which Domingo Ferreira brought from

the Coast recently. He took Little Joker to Hilo and sold him to a Japanese hui for \$400. The horse has won on the California tracks but has been his best days.

Major Collier is a Hawaiian-bred and a good one. He is a sorrel gelding by Eastside and is probably the best Hawaiian-bred that the islands have ever produced. He has speed and endurance and runs best from behind.

Both Little Joker and Adion are likely to be more fancied in the betting than Major Collier but if the latter is beaten the one to do the trick will have to go better than well, the exact time doesn't matter, anyway.

'E 'ASN'T 'AD ENOUGH

(I should like to meet Johnson again. I think still that I am his master.—Statement by Tommy Burns.) When gallant Julius Caesar, after subjugating Gaul,

Became "in Dutch" with Brutus and was punctured with an awl, He wriggled round upon the ground, and, ere he passed away, The following mournful saying he did say:

CHORUS: "Yes, he gave it to me hard, But he caught me off my guard, Which accounts for my unfortunate disaster; Let me tell you, merry men, When I'm on my feet again, I will show this false alarm that I'm his master."

When stern Napoleon got too gay, as even great men do, And got an awful cleaning on the field of Waterloo, He pressed his throbbing forehead just before he got the gate, And this pathetic statement he did state:

CHORUS: "Yes, they've got me looking slouchy, But I place the blame on Grouchy; That is why my face is full of sticking plaster; Wellington has swelled his chest, But when I have had a rest I will show the world that I am still his master!"

CHINESE FIELD MEET

The program of the Chinese New Year's Day field meet has been arranged and is as follows:

Three-mile walk, one-mile walk, two-mile run, 100 yards dash, 220-yards dash, 440-yards run, 120-yards hurdles, high jump, broad jump, 880 yards run.

Entries will be open to Chinese and part-Chinese only and admission to the sports will be free.

Entries should be sent to the Sun Chung Kwoc Bo office.

The committee on arrangements is: Tong Kau, chairman; Dr. E. F. Li; W. Tin Chong, Sam Hop, A. K. Vierra.

C. A. C. MEETING

The adjourned meeting of the Chinese Athletic Club will be held to-night at 7:30 o'clock at the Chinese Y. M. C. A. hall. All members are requested to attend.

GOT DOLLAR FOR HIS FIRST FIGHT

DETROIT (Mich.), January 2.—When Tommy Burns departed from Detroit in a hurry one spring day in 1904 he left behind him a pack of debts. Today Burns is reported to be worth \$200,000, not all of it made in the ring.

Burns invested his money judiciously and is a wealthy man. Wise Tommy has made \$159,851.25 in his ring battles, not including the money he bet himself, for the Detroiters believe in backing himself in all his fights. He also advises his friends to bet.

One night Burns appeared in a hall in the suburbs of Detroit where a fight was scheduled, but one of the fighters failed to appear, and one silver dollar was offered to the man who would take his place.

"Make it a plunk and cartare," shouted Burns. "You're on," shouted the referee, The fight started, and the man whose name appeared on the programme lasted about two rounds, when his second tossed up the sponge. It was Burns' first ring battle.

ROSE FOR THE LAW

SACRAMENTO, January 3.—Ralph Rose, the giant hammer thrower, arrived in town tonight and tomorrow morning will take the examination for admission to the bar. Presiding Judge Chipman of the Appellate Court and Judges Hart and Burnett are to sit in bank, and a long list of aspiring barristers will take the examinations.

Rose had decided that he has had enough of the athletic game, and the once hero of many at field meet has at last decided to forsake the white-washed circle for the less strenuous occupation of the law. Rose has been delving into Blackstone for nearly a year, and expects to have as easy a time in passing the examination as he did in breaking shot-put records.

NO RACE THIS YEAR

GLASGOW, January 2.—As there is no prospect for an America's Cup race in 1909, the time limit for entering a challenge having been passed, William Fife, Sir Thomas Lipton's yacht designer, has laid aside the plans for a yacht which had been well near completion.

Sir Thomas Lipton and William Fife are both desirous for another race for the America's Cup, but the restrictions of the New York Yacht Club make the chance of a challenge well-nigh impossible.

DON'T FORGET WALK ENTRIES

Entries for the fat men's and veterans' walking races to take place next Sunday over the Waikiki course must be made not later than 6 p. m. on Saturday next at either the Star or Advertiser offices or to Messrs. Cheatham and Ayres. There is no entrance fee and the list of prizes will be published in a day or so.

The weight limit is 200 pounds and the age limit 60 years.

These two races will be started together at 2 p. m. The race for the cup presented by the Honolulu Brewing & Malting Co. will be started at 3 p. m. The entries in the cup race are as follows:

E. M. Cheatham, Jack Denham, Dick Sullivan, H. M. Ayres, Bill Hulbul, Dal Fahey, Hang Chack, Sam Hop, Henry Chillingworth, G. B. Henderson, G. C. Bechert, W. F. McTighe, L. Rosa, I. J. Hurd, C. R. Roe, W. Feagler, G. J. Boisse, H. W. Meyers. The officials will be as follows. Judges—C. G. Bartlett, Jack Scully, Edwin Fernandez.

Starter—Jack Scully. Timekeepers—W. Heilbron, A. Fallon, Leg. Petrie.

On Saturday afternoon at 2 p. m. C. G. Bartlett, who will act as one of the judges, will give a short talk to competitors on the rules of walking. This talk will be of interest not only to the intending contestants but to all interested in toe and heel walking, as Mr. Bartlett is a recognized authority on the subject.

KALIHI A. C.

The Kalihi Athletic Club will hold a special meeting this evening at 7:30 o'clock, at the residence of the secretary, A. M. Keoho.

Business of importance will be transacted and every member is urgently requested to be present. The election of officers for the coming year will take place.

SPORTDRIFT

Dr. D. F. Roller of Seattle has called off his match with Al Kaufman at Los Angeles.

The chicken show is open today and will remain open till 9 p. m. on Saturday.

The annual meeting of the Outrigger Club will held today at 1:30 p. m. in the rooms of the Hawaii Promotion Committee.

J. J. Corbett is now forty-two years old. Since the night of August 14, 1903, when Jeffries knocked him out in ten rounds, Corbett has had on a boxing glove but once.

In the year drawing to a close death has reaped an unusually heavy harvest in the world of sport. Baseball, pugilism, aquatic sports, football, cycling, auto racing and the turf mourn the loss of many prominent leaders who lately were foremost in the ranks. What deep loss is there in the death of such well-known figures as George Siler, Henry Chadwick, Virgil Garvin, Riley Grannan, Pat Cavanaugh, Ike Weir, George Dixon, Edward Hanlan and Frank De Haas Robinson!

ARNST YOUNGEST ROWING CHAMPION

Richard Arnst, the young New Zealander, who won the world's sculling championship from William Webb, is twenty-seven years of age, just two years younger than Webb. His first important race was the Australian championship, which he won from Pearce this year on the Paramatta. Arnst was formerly prominent in track cycle racing, winning the Sydney thousand three years ago, since when he has taken to rowing. The last race was for three miles, the usual world's course, which has been sculled since 1831, with only two exceptions, when the distance was two miles and a half. The purse was £500, provided by Webb's backer, W. R. Tuck of Wanganui, New Zealand. Webb only held the championship a little over a year. He is twenty-nine years of age. He was born in Lyttleton, Christchurch, New Zealand, and made his first championship appearance on December 20, 1906, when he won the championship of New Zealand on the Wanganui river from J. Stanbury in 18 minutes 50 seconds. Less than a year later he won the championship of the world by defeating Charles Towns on the Paramatta river, Sydney, N. S. W., in 20 minutes 45 sec-

onds, August 2, 1907. He defended the title and retained it this year, on February 25, when he beat Tressider on the three-mile course on the Wanganui river in 20 minutes 55 seconds.

The first world's sculling championship was rowed on the Thames in 1831 between J. Williams and C. Campbell, the latter proving the winner, and again beating Williams in the next race in 1838. Since 1831 there have been nineteen world's champion scullers, the greatest of whom was Beach, who won the championship seven times. Hanlan, the Canadian sculler; Kemp and Stanbury were next, winning the title five times each, while Towns, Chambers and Kelly were champions four times each. The record time for the race is held by Stanbury, who rowed the three miles on the Paramatta river, Sydney, N. S. W., against Towns in 1905 in 19 minutes 47 seconds.

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the Europe capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World

For the Day Just Ended

Here are some of the features that go to make the evening paper

the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

# DISCUSSING TARIFF CHANGES

AN AGGRESSIVE MOVEMENT IN FAVOR OF A GENERAL REDUCTION OF THE SCHEDULES.

(Special Correspondence.)  
WASHINGTON, D. C. December 22.—Representative Mondell of Wyoming said today of the Ways and Means tariff hearings:

"The public hearings before the Committee on Ways and Means of the House of Representatives having closed the natural query is, what inference can be drawn from the hearings as to the trend of public sentiment in regard to tariff revision, and of the probable attitude of the committee in the work of revision. Looking at the matter from the standpoint of those items in which the intermountain territory is particularly interested I regret to say that the outlook is not as satisfactory as we would like to have it.

"Taken as a whole the hearings have clearly shown that those who are interested in tariff reductions have in the main been more active in the presentation of facts, views and arguments, than those who favor the retention of the present rates of protection.

"It is my opinion that this does not indicate a lack of interest on the part of those who feel that a considerable lowering of the duties affecting the industries in which they are interested would be disastrous but rather from over-confidence that adequate duties will be retained without any effort on their part.

"The case of the wool growers was quite fully presented, though it is an unfortunate fact that with the exception of the testimony of General Grosvenor no considerable argument was presented on behalf of the farmers who grow mutton sheep and whose interests are quite as much imperiled as those of the range sheep grower. It is true that the manufacturers of woolen goods have joined with the sheep men in advocating an adequate duty on wool and while this is helpful it is not altogether certain that this class of support has been an unmixed benefit. It is my opinion that it will require an earnest effort to retain the present wool schedule.

"In the matter of the tariff on hides, the testimony presented on that point, like that on the wool schedule, ought to be entirely convincing but in view of the very insistent demand for free hides and the reiteration of the fallacy that the farmer and ranch man received little or no benefit from the duty, and judging from the attitude of some of the members of the committee there is a very considerable danger of hides going on the free list. A strenuous effort must be put forth if such action is to be prevented.

"With the exception of my appearance before the Ways and Means Committee and that of some Wyoming operators the Northwestern view of the necessity of an adequate duty on coal was not presented to the committee while there was considerable argument from the East both for free coal and a reciprocal free trade arrangement with Canada, either of which would be disastrous to the coal industries of the Northwest, particularly those of Washington, Montana, and Wyoming, and indirectly to the coal industries of Utah, Colorado, and Kansas through the increase of competition that these coals would have to meet should Wyoming be compelled to secure its entire market south of the Montana line. From the standpoint of the interests of the Northwest, it is an unfortunate fact that the bituminous coal operators of West Virginia do not seem to be taking very much interest in the coal tariff and some of the operators of Western Pennsylvania hold that a reciprocal arrangement with Canada would give them a larger market than they would lose.

"The case of the beet sugar growers and producers of beet sugar was pretty thoroughly presented before the committee but the danger to that industry lies in the demand for the free importation of Philippine sugar. I believe, however, that there is reasonable prospect of preventing injurious action on this line.

"We should not lose sight of the fact that the so called tariff reformers are very active and insistent. Those who insist that the declaration for revision in the Republican platform should be interpreted to mean a revision downward and who constantly put forward the statement that any thorough revision must bring a general lowering of the duties are constantly active through the press and their various associations, in promulgating their views. Neither should we lose sight of the influence of that class of manufacturers who are clamoring for what they are pleased to call 'free raw materials,' for this is the sort of a clamor that is particularly dangerous to Western industries and products, most of which the manufacturers class as raw materials.

"To sum up the matter I would say that the character of the hearings indicates that a very determined effort

will be made to bring about a general reduction in tariff rates and that it will require earnest and diligent work to prevent reductions that would be very injurious to Western industries."

# TO SEEK GOLD ON COCOS ISLAND

CORPORATION BEING FORMED TO HUNT TREASURE HIDDEN BY PIRATES.

NEW YORK, December 27.—Steps are being taken by L. H. Andrew, an attorney of New York city, and Devenant Rodger, now residing here, to form a corporation for financing an expedition to Cocos Island, in the Pacific ocean, to search for treasure supposed to have been buried there. Rodger has visited Cocos island and obtained a concession to operate there from the government of Costa Rica, which owns the island.

Rodger states that his personal investigations concerning the treasure have been carried on for the last ten years. He has charts of the island which he thinks will aid in locating the hidden gold. Some of the treasure is supposed to have been left there in 1802 by a British schooner which had turned pirate. Eleven boatloads of other gold was secreted there in 1835 by the crew of the barkentine Mary Dyer. Part of Rodger's information consists of a statement said to have been made by a sailor named Keaton, one of the three survivors of the Mary Dyer's crew.

The Rodger party, if enough money for it is contributed, will consist of hardy men and take a long mining and blasting machinery. Numerous attempts to find the Cocos island treasure have been made. The schooner Herrman returned to San Francisco in 1903, after an unsuccessful expedition.

## MY HAT OFF TO DR. WAYSON.

EDITOR STAR: Today I notice in your columns that Dr. Wayson has been invited to attend the Conference at Bergen. They couldn't well leave him out.

It was about three weeks ago I wrote asking him for a report of his work, saying that if he did not go to Norway himself, he must let me present his work before the conference.

I knew, too, that others in Hawaii

know he had done good work in leprosy but I wasn't sure they would fall over themselves seeing who would be first to tell it to the right people, and so I made sure I would see that it was done; I would see that Dr. Wayson's modesty did not cheat him out of what he deserved.

There are others, too, of my craft in Honolulu who have done real scientific work along the same lines of study; just as good work as has been done anywhere else, as I said to the society a few years ago, and, if I go to Norway, I'm going to tell on them whether they like it or not.

The field is wide, there's no monopoly of subjects or brains either, and because one man has been caught by the eyes of Europe doing something they regard as worth while, is no saying that others yet undiscovered may not be doing just as much, if not more. Nothing makes me feel so much like throwing my hat as to have some of my hard working fellows appreciated—honors coming to myself, some way, make me feel the reverse.

I presume because I know more about my own limitations.

# AGRICULTURAL BOARD SESSION

At a meeting of the Board of Agriculture and Forestry yesterday, Jacob Kotinsky, superintendent of entomology, in a lengthy statement to the Board, showed that a wholesome fear had been created in the Coast merchants by the action of the Territory in sending back some fruit that did not pass inspection. Several merchants in San Francisco wrote Kotinsky very nice letters, saying that they would be careful in the future that no fruit would be shipped by them save in the best of condition and free from all insects and diseases.

Forester Ralph Hosmer submitted a report on the work done in his department during the period, speaking among other things, of the great results that were bound to follow the visit of Reclamation Expert Newell here. Mr. Hosmer has started a good work in the organization of an informal seminar, which meets monthly to take up matters of interest to agricultural workers.

The Board in executive session considered appropriations desired for the next biennial period.

# CAN THE SUPERVISORS PAY OFF?

LABORERS EXPECT THEIR MONEY FOR THE FIRST HALF MONTH TOMORROW, BUT IT CANNOT BE HAD UNLESS FERN ACTS ONE WAY OR THE OTHER ON THE APPROPRIATIONS — QUESTION MAY BE UP TO BICKNELL.

A crisis will probably come tomorrow, to be foreshadowed by this evening's proceedings, in the difficulty between the Mayor and the majority of the supervisors. Tomorrow is supposed to be a pay day for the day laborers of the municipality, and there will be pikia if the men don't get their usual money. Just how they are to get it, is not as yet apparent, however. It is said that Mayor Fern is likely to veto the supervisors' appropriations, in which case they can be passed over his veto tonight and then the usual pay rolls will be made out, and it will be up to Auditor Bicknell to decide whether to approve the warrants or not.

## BOTTLED MESSAGE

This is a true bottle story. On November 17, last, the P. M. S. S. Manchuria sailed from Honolulu, bound for the Orient. She carried among her passengers Mr. and Mrs. D. H. Osborn, as may readily be seen by reference to the passenger lists of that time.

On January 3, of the present year, a Hawaiian, Kahauloa by name, was on the beach with several other Hawaiians at Waianae, this island, at Mailli beach, to be exact.

They saw a bottle floating off shore. Kahauloa swam out to it, brought it to land and opened it, extracting a piece of folded "Mercantile" paper, smelling of, and in its folds saturated with whiskey, upon which was written in soft pencil, the ship's rail, judging by the cramped scrawl, having been used as a desk, the following:

"Nov. 17, 1908.  
"Thrown overboard the steamer Manchuria about 20 miles from Honolulu on our way to Hongkong—it is of no more use—Very sorry—D. H. Osborn & wife."

S. S. Manchuria passed through here, returning to the States from the Orient, on January 9, Saturday last and her officers, some of them, remembered the incident of the throwing over of the bottle, though they are not sure whether the Osborns wrote the message and put it in the empty whiskey bottle or whether the deed was done by some other passenger or passengers as a joke on the Osborns, who are missionary folk. The latter hypothesis is more likely.

At any rate it took thirty-seven days for the whiskey bottle containing the message to reach the hands of Kahauloa at Mailli beach from twenty miles at sea from this island, a fact which may well excite the curiosity of students of currents, winds and waves, the coast and geodetic survey experts and marine scientists generally.
