### FATAL SHOOTING TODAY

NATIVE OFFICIAL FIRES ON A DAIRYMAN.

Victim a Portuguese — Assailant Claims He Did the Act in Self Defense—In Prison.

J. C. Pacheco, a Portuguese who operates a small dairy business and lives near C. W. Booth's place in Panoa valley, was fatally shot through the breast by Poundmaster Kaapuni at 8 o'clock this morning.

Kaapuni had arrested a stray cow which turned out to belong to Pacheco. The latter met the former with the cow on his way to the pound and asked him to take the cow to the dairy, promising to pay the costs upon reaching there. When in front of Pacheco's place Kaapuni says he was assaulted and beaten by the dairyman and four or five other Portuguese. In self-defense he drew his 38-calibre revolver and fired. The ball passed through Pacheco's middle breast.

Kaapuni gave himself up and is behind prison bars. Pacheco will die. He is about 45 years of age and has a wife and several children.

If ordered this way she will have been out eleven days tomorrow, and should be close at hand.

### A CUSTOMS SURPRISE

THREE PROMINENT MEN ARE DISMISSED.

Fishel—Severin—Thos. E. Cooke—Turned Out Summarily—No Reason Given—Some Speculation.

About 9 o'clock this morning Theo. P. Severin and Thomas Cook, head inspectors of the customs house, were summoned to the office of Deputy Collector McStocker and there informed that their services were no longer required.

At the same time Appraiser C. J. Fishel was notified to the same effect. The dismissals produced quite a sensation in the city, both on account of the popularity of the men concerned and the importance of the positions they have been filling. No explanations accompanied the notifications to vacate.

Mr. McStocker was very busy all forenoon and was very reserved when approached on the subject. He said the matter was a delicate one and he could not give anything out today. There is a report that the dismissals were the result of information gleaned by Collector Castle on the Sound and at Vancouver and sent down by the Australia. Another report is that the recent visit of Thomas Cook to Molokai, followed soon after by Officer Harry Evans and the arrest of a Chinaman forms an important link in the case.

Both Severin and Cook on being interviewed declared they had not the slightest idea as to the cause of dismissal.

Petit states that Breckenridge represented himself in Port Huron to be an agent of Castle & Cooke. Twenty-Six Tins of the Drug Off the S. S. Australia.

The information had been imparted to the purser by Customs officers in San Francisco. The port surveyor was told that the stuff was in the bottom of the ice house. Mr. Stratemeyer opened up the ice house and found the stuff as indicated. There were two packages containing twenty-six tins of opium. The opium was wrapped up in newspapers. Before leaving San Francisco the purser was told that the dope belonged to two men who were employed on the Australia. One of the men stayed over on the Coast this trip. No arrest was made as the opium was not found on anyone's person.

### PROGRESS OF CAMPAIGN

McKINLEY'S LETTER IS A MASTERLY DOCUMENT.

On Finance—Protection—Open Mills—Mr. Harrison in the East—Bryan Is Still En Tour.

#### McKINLEY'S LETTER.

CANTON, O., Aug. 26.—Maj. McKinley's letter of acceptance was given to the press this evening. These are the opening words on finance:

For the first time since 1898, if ever before, there is presented to the American people this year a clear and direct issue as to our monetary system, of vast importance in its effect and upon the right settlement of which rests largely the financial honor and prosperity of the country. It is proposed by one wing of the Democratic party and its allies, the People's and Silver parties, to inaugurate the free and unlimited coinage of silver by independent action on the part of the United States at a ratio of sixteen ounces of silver to one of gold. The mere declaration of this purpose is a menace to our financial and industrial interests, and has already created universal alarm. It involves great peril to the credit and business of the country, a peril so grave that conservative men everywhere are breaking away from their old party associates and uniting with other patriotic citizens in emphatic protest against the platform of the Democratic National Convention as an assault upon the faith and honor of the Government and the welfare of the people. We have had few questions in the lifetime of the Republic more serious than the one which is thus presented.

Other points in the speech include the showing the Republicans are not opposed to silver. International agreement is suggested. "Open mills, not mints." The speech is strong on protection.

The letter is regarded as a masterpiece and thousands have sent congratulations. Five delegations are scheduled to arrive here tomorrow, the commercial men of Chicago, the Supreme Lodge Knights of Pythias, the Lisbon, O., farmers, German-American citizens from Cleveland and the Workingmen's McKinley Club from Columbus, O.

#### BENJ HARRISON.

NEW YORK, Aug. 27.—With the words of McKinley's letter of acceptance on nearly every tongue ex-President Benjamin Harrison acted as the Eastern proxy of the Republican candidate tonight, and struck the keynote of the Eastern campaign in an explanatory and careful speech to 5000 people in Carnegie hall. Half as many people as composed the audience were denied admission because of lack of room. The enthusiasm was tremendous, and the many points were received with hearty applause. Chauncey M. Depew was chairman.

#### LEAGUE.

CANTON, O., Aug. 28.—A committee of fifteen from the National Republican League reached here at 1:30 this afternoon from Milwaukee. They dined with Private Secretary Boyle and called on Maj. McKinley at 2:30 o'clock this afternoon, when John Goodnoe of Milwaukee made a formal presentation.

#### BRYAN

BUFFALO, N. Y., Aug. 27.—Apparently the entire population of Buffalo, the home of Grover Cleveland, turned its footsteps tonight toward Music Hall, where Candidate Bryan addressed 4,000 people, as many as could be packed within the four walls, while unnumbered thousands filled the neighboring streets. The day in Buffalo had been the greatest ovation Bryan has received "in the enemy's country."

KNOWLESVILLE, N. Y., Aug. 28.—There were several stops at small stations between Niagara and Knowlesville, but Bryan made no speeches. His voice was getting unmanageable. "My head is willing but my throat is weak," he explained to the people of Lockport, who had chartered a band and burned powder to greet him.

NIAGARA FALLS, Aug. 28.—Bryan left Buffalo by trolley this morning to begin a two days' campaign among the smaller cities of Northern New York.

### GOLD COMES FROM EUROPE

UNITED STATES TRADERS IMPORTING COIN AND METAL.

Dun & Co. on the Situation—Advice from London—Bank of England—The U. S. Treasury.

#### DUN & CO.

NEW YORK, Aug. 28.—R. G. Dun & Co's. Weekly Review of Trade says: Clearing house certificates have not been issued, but instead gold is coming hither largely, about \$10,000,000 being already on the way. Higher lending rates bring it, notwithstanding foreign events, which disturb London markets and the growing confidence in the monetary future of the country helps.

#### BANK OF ENGLAND

NEW YORK, Aug. 28.—A special to the Evening Post from London says: There will be further withdrawals of gold from the Bank of England for America. The bank has raised its selling price for bar gold to 77 1/2 d. Money rates are rising here, which, if continued, may have some influence on the prices of stocks.

A quarter of a million pounds sterling will go by the American liner tomorrow, while between £700,000 and £800,000, perhaps more, will go by the Campana.

#### EAGLE DECLINE.

LONDON, Aug. 28.—The Westminster Gazette says the Bank of England is beginning to feel the gold withdrawals, and has reduced the price of eagles and raised the price of bar gold, with the object of inducing shippers to take the eagles.

#### PROFIT.

WASHINGTON, Aug. 28.—A telegram received from the sub-treasury at New York states that the firm of Lazard Freres today deposited \$500,000 in gold coin in exchange for United States notes. It is stated at the department that the continued exportation of gold has resulted in a considerable contraction in the circulation in this country, and the redundancy abroad has rendered gold importations profitable.

#### U. S. TREASURY.

WASHINGTON, D. C., Aug. 28.—The treasury gold reserve at the close of business today stood at \$101,770,019. The day's withdrawals at New York were \$96,400. The treasury is advised that \$1,500,000 of gold was engaged today in Europe for export here. This makes the aggregate gold on the way here \$11,000,000.

#### CRAMPS GOOD WORK.

BOSTON, Aug. 27.—The United States cruiser Brooklyn on her official trial trip today, averaged 21.92 knots an hour during a forced draught run of four hours, and earned a bonus of \$350,000 for the Cramps.

#### JAPANESE CABINET

YOKOHAMA, Aug. 28.—Premier Ito, also the Minister of the Interior and the Secretary of the Cabinet have resigned.

#### CONSULATE PLUNDERED.

LONDON, Aug. 28.—A dispatch to the Telegram from Athens, giving an account of the recent troubles in Crete, says that the Moslems plundered the offices of the British Vice-Consulate at Heraklion.

#### VENEZUELA.

LONDON, Aug. 27.—The St. James Gazette, commenting on the publication of the latest Venezuelan Blue Book, says it regards the step as an indication that the Marquis of Salisbury, contrary to recent assertion, does not intend to submit to arbitration the territory inside the Schomburgk line.

#### BRAZIL AND ITALY.

NEW YORK, Aug. 28.—The Herald's correspondent in Rio Janeiro cables: Senor Olindeira, the Brazilian Minister to Italy, has had a conference with the Minister of Foreign Affairs in Rome, in which he promised that Brazil would make full reparation for the insults to the Italian flag.

#### DIAMOND THIEF.

NEW YORK, Aug. 27.—Julius M. Lyon, a wholesale dealer in diamonds in Maiden Lane, has made an assignment, caused by the fact that he has been robbed of more than \$150,000 worth of diamonds by a trusted employe. The thief was a relative of Lyon.

### THE EAST AND THE WEST

LI HUNG CHANG SETS FOOT IN AMERICA.

The Chinese Statesman Is Given a Cordial Reception—Guest of the Nation Cheered.

NEW YORK, Aug. 28.—Li Hung Chang, who for thirty years held the destinies of China in the hollow of his hand, today set foot upon a new world, under a new sky, among a new people with a government for which his language has no equivalent, and he smiled. It was appreciation and not satire that turned this ancient diplomat's fancy. He was a westerner among easterners. He had dreamed of the sun setting while his country but saw it rise. He journeyed forth and went into lands where the sun lived after it was born, and he is satisfied.

No tribute to a great man could have been more frank or more magnificent than that which descended upon the St. Louis as she brought Li within the environments of the Republic. He was not regarded only as the servant of his master, the Emperor of the oldest empire—it was an acknowledgment of his own greatness. He was as Bismarck, or as Gladstone. He was one of the three great men who are now living who have built empires, fought battles that have saved their sovereigns, made laws that have secured them, lived lives which have been given as lessons to their countrymen. From the time the American liner passed the bar until she reached her pier, she passed through a continuous salute, a splendid welcome.

Li Hung Chang was greeted by the representatives of the Government. He received the salutes of the Army and Navy in this country, which he knows commercially, but which is a terra incognita to him politically. Then came the extraordinary journey from Fulton street to the Hotel Waldorf. He received the cheers and the congratulations of the citizens of the freest country on earth, he, the representative of the most absolute despotism, and the estimate of Li Hung Chang among those who saw him and conversed with him is that he is one of the elect of the earth.

#### ZANZIBAR

ZANZIBAR, Aug. 27.—The palace of the Sultan of Zanzibar was bombarded this morning by British ships, and at noon was a mass of blazing ruins. The usurping chieftain, Said Khalid, and the commander of his forces, Said Sales, escaped to the German Consulate, where they remained under the protection of the German flag. Great Britain will most likely annex Zanzibar.

#### MANITOBA SCHOOLS.

WINNIPEG, Manitoba, Aug. 28.—Premier Laurier's efforts to settle the Manitoba parochial school question seem to be futile. The compromise accepted by the Greenway Government does not suit the Roman Catholics.

#### COLORED ENSIGNS.

NEW YORK, Aug. 28.—The Washington correspondent of the Mail and Express telegraphs: The Navy Department is stirred up over the prospect of two colored naval officers. It has just been learned that among the young men who have presented themselves at the Naval Academy at Annapolis for examination next week are two very bright young colored men.

#### SPANIARD BOYS.

BOSTON, Aug. 28.—Lieut. Alvarez of Gen. Maceo's forces has arrived here. He believes the struggle for Cuban freedom will be ended before cold weather sets in. It is true Maceo has only 8000 or 9000 men with which to oppose the 40,000 troops of Gen. Weyler, but the lieutenant declares that these 40,000 are almost all boys.

#### BLACK FOR GOVERNOR.

SARATOGA, N. Y., Aug. 26.—The sincerity of Thomas C. Platt was quickly verified today when the Republican State convention got down to business and the following ticket was nominated with practically little friction. For governor, Congressman Frank S. Black of Troy; Lieutenant-Governor, Timothy F. Woodruff of Brooklyn; Judge of the Court of Appeals, Irving C. Vann.

**THE CHILDREN.**

Nauseous and bad-tasting medicine is objectionable to adults and a horror to children. No doubt its frequent lack of good effect is, at least partly due to the disgust it excites in them—the shock to the system. This is especially true of Cod Liver Oil, in the form of the ordinary old-fashioned mixtures so often forced upon the terrified and helpless children. A most marked contrast is **Wampole's Preparation**, which, although it contains all the curative and flesh-producing properties of Cod Liver Oil, is entirely free from its taste, odor and appearance. In combination with this drug are the Hypophosphites Compound and the Extracts of Malt and Wild Cherry Bark. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and Bone and Blood Diseases, nothing equals the Preparation. Its tonic qualities are of the highest order. It creates new blood, strong muscles, sound teeth, solid bones, and enables them to grow up into healthy men and women, for cures made in the young are economical and permanent. It is a product of modern study and science. **Druggists everywhere sell it.**

## HE INVITED SUSPICION A WOMAN'S MESSAGE

ACTIONS OF THE MAN ACCUSED BY "JIM" CAMPBELL.

Was In Hiding in Oakland—Elaborately Disguised—Had Pockets Filled With News Clippings.

A San Francisco paper tells that the arrest of Winthrop, charged with trying to squeeze "Jim" Campbell of Honolulu for \$20,000 was neatly performed by Detective Charles Cody. He had been located by Capt. Lees and Cody and Police Officer Samuels were sent to Oakland to watch the house of a friend of Winthrop's, on Sixteenth street, between Telegraph and San Pablo avenues. After a watch of ten hours Winthrop appeared on the street. He had shaved off his mustache and whiskers, and his eyes were covered with large blue goggles. He carried a cane and walked with difficulty, like a man who had met with some accident or had just recovered from a long and serious illness.

Detective Cody could find in the disguised stranger nothing to warrant the supposition that he might be Winthrop, and yet there was something familiar about the man. He accordingly accosted him. The stranger looked up in evident surprise.

"Who are you?" asked Cody, abruptly. "Al Brunson," was the reply. "Where do you live?" "In San Jose."

The sound of the man's voice convinced Cody that he was on the right track, and he asked the fellow what he was doing in Oakland. Brunson replied that he was going to visit his sister. The detective's arm shot out and in the next instant he had removed Brunson's goggles. There before him stood Winthrop—changed in appearance considerably, but Winthrop, the long-sought-for assailant of Millionaire Campbell.

"The jig is up Winthrop," said Cody. "You must come with me." Capt. Lees superintended the searching of Winthrop. In his pockets were found numerous newspaper clippings all relating to the abduction and attempted extortion on Mr. Campbell.

### Curious Showers.

M. Peltier has put a frog shower on record as having happened within his own experience. He speaks of seeing the frogs fall on the roofs of the houses and rebound thence on to the pavement below. A mud shower occurred along the Union Pacific railway at Onaga on the 4th of April. The rain, we are assured, commenced early in the day, and soon the south and east sides of all the houses were covered with yellow clay.

A Union Pacific train which ran through the storm had its windows covered, and the headlight was so completely plastered that the light was shut in, and the train ran in darkness into Rosville, where the mud had to be scraped off. As far east as Topeka the windows showed that the edge of the mudstorm had extended this far. It is said to have been even more severe 50 miles northwest.

Blood rain and black rain are only varieties of this phenomenon. Of the latter we hear nothing worth speaking of nowadays, but an almost historic shower of this sort fell at Montreal in the earlier part of this century and enveloped the then youthful city in a black pall, which must have been worse than a prime London fog, seeing that it gave the inhabitants the idea that the last day had come, or was at least on the point of coming.

Blood rain is caused by the presence of infinitely little plants, animals, or minerals in the globules. In one instance of a shower that fell at Bristol and in the Bristol channel, the analytical examination showed that the red color was due to ivy berry seeds. In medieval times blood rain was a prodigy. In the east it was connected with the belief that man was produced from blood that fell from heaven.—Chambers' Journal.

CONVEYING WORDS OF HOPE TO THE AFFLICTED.

Had Suffered from Heart Trouble and Liver Complaint, Which Wrecked Her Nervous System—Is Now as Well as Ever.

From the Carleton Place (Can.) Herald Truth, it is said, is stranger than fiction, and in no way has this phrase been better exemplified than in the plain unvarnished statement of Mrs. W. H. Edwards, of Carleton Place, to a reporter of the Herald a few weeks ago. The story she related we will give in her own words. She said:

"In July of 1894 I was taken ill with fever, caused by blood poisoning, and laid hovering between life and death for eight weeks. After the doctor succeeded in breaking up the fever, my heart began to trouble me, jaundice and liver complaint also set in. I could not sleep and my nerves were terribly unstrung. During my illness, after the fever left me, I was attended by no less than three doctors, but their medicine seemed of no avail, as I lay for months in a terribly emaciated condition and never expected to be around again. This state of affairs lasted until about Christmas, when a friend suggested to me to try Dr. Williams' Pink Pills. My husband procured a few boxes and I then began their use, although with but little confidence in them. By the time I had used three boxes I began to feel a little better and began to get an appetite. This encouraged me to persevere in the use of the pills, and I still continued to improve. I began to sleep well, my heart ceased to bother me and my nervous system, which had received such a fierce shock, was again fully restored. My liver trouble also disappeared, in fact, I became almost a new creature. I now feel as well as I ever did in my life. I have used in all eight boxes and still continue to take an occasional pill if I feel any way depressed. Yes," she said, "I am thankful that I tried Dr. Williams' Pink Pills, because I believe no other medicine could have effected such a cure in me and have so effectually built me up."

Dr. Williams' Pink Pills make pure, rich blood, thus reaching the root of disease and driving it out of the system, curing when other medicines fail. Most of the ills afflicting mankind are due to an impoverished condition of the blood, or weak or shattered nerves, and for all these Pink Pills are a specific which speedily restore the sufferer to health. Pink Pills are put up in glass vials, both outside wrapper and vial bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People. These Pills are sold by the Hollister Drug Co., the Hobron Drug Co., and all dealers in medicine.

## "STYLE" IN FURNITURE

It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we ask less than you pay for the old elsewhere.

### Bedroom Suits.

In Oak or Birch, are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service, there is a certain elegance and richness about these woods not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheval plate mirrors, are preferred by ladies because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureaus to which they are attached give larger space for clothing.

We have them in all styles and in modern designs. Price, from \$25 to \$40.

### Chiffoniers.

In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

### Side Boards.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

### China Closets.

There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.

China Closets in oak are the proper thing, and a dining room is not complete without one—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from \$30 to \$45.

### Secretary Book Cases.

Wall pockets and shelves for books are out of date; fashion demands something more modern and more artistic in design.

General Reupholstering and Cabinet Making a specialty and guaranteed A1. Matting laid by experts. Chairs to rent for Balls and Parties

## The Way to Tell a Good Bicycle

From a bad one is very simple if you follow the rules correctly. Start at the tire on the front wheel and go upwards, carefully inspecting every spoke, nipple, etc., and when you come to the steering head stop for a moment, and if you see anything like this

You will see them on the Race Track.

You will see them Everywhere.

You are lucky. You can then stop your inspection, and take it for granted that the bicycle is all right.

Cleveland Bicycles have a World-Wide Reputation, and there is no risk in purchasing such a good wheel.

Clevelands have been sold in this city for the past five years and not a Frame of a Cleveland Bicycle has ever broken. This is a record that no other bicycle sold here can claim. Cleveland riders are proud of their mounts.

SATURDAY SEPTEMBER 5, 1896.

The Coast papers do not appear to care so much lately for Hawaiian royalist interviews.

The Cuban patriots are becoming almost as great boosters as the Spanish "mouth fighters."

Those fanatics who plundered a British Consulate in Crete will after a time come to regret their indiscretion.

Great Britain had the prior claim on Zanzibar anyhow and in taking full possession of a country over which she has exercised a supervision for several years, is only following out a confirmed policy. Advance of civilization again. The governments of irresponsible barbarians are going down in all directions like houses of cards.

Gold must be getting rather scarce and very highly prized indeed when the Bank of England begins to figure on the conservation of its supply. If the yellow metal movement continues in the lines now laid, as indicated in the dispatches, the United States treasury will depend directly on the Bank of England for its supply.

It must have been very clear that Italy was the wronged and offended and injured party in the recent collision with Brazil. Else why should the South American government so readily agree to make reparation? The case develops the fact that an astonishing amount of vigor yet remains in Italy, notwithstanding her reverses abroad and her internal troubles of the past two years.

Li Hung Chang should naturally be surprised at the cordiality, magnificence and elaborateness of his reception to the United States. How can he reconcile the attention given himself with the Chinese exclusion acts upon the statute books of the Great Republic? And it is safe to say that he has not forgotten the frightfully cruel and unjust treatment to which fellow countrymen of his have been subjected in the United States for many years.

It is the San Francisco Chronicle that with the file by this Australia gives a genuine newspaper surprise. It mentions that a number of citizens of the islands presumed to be in opposition to the present Government here are sojourning in the California metropolis. Then the Chronicle goes on to say none of them are connected with any political cabal, that they are all on missions of pleasure or business. The only conclusion to be drawn from this remarkable course of the Chronicle is that its columns are crowded with American political news.

Perhaps the Armenians made a mistake in starting that riot that ended in the Constantinople slaughter. If they did they paid for it dearly on the instant. Whatever the provocation, the wholesale murders committed by the Turks cannot be justified. The recent warnings of the powers to the sublime porte appear to have been wholly futile. The Turkish government has never paid any heed to other nations except when armies were sent to force attention or conviction. This must be repeated. It would be a settlement or solution much more creditable to the century and the world than even the proposed overthrow of the sultan's government. This latter would be only continuously followed by other and bloody revolutions for many years.

**THE CAMPAIGN.**

The Presidential campaign in the United States may now be said to be in full blast. With the publication of Maj. McKinley's letter of acceptance the issues are fairly and squarely made and the case is before the people with special pleadings in order up to the fateful day of the first week in November. The decision will be voted in less than two months. It is fortunate for the Republicans that their leaders have been able to maintain a balance within the party. The cohesive force is a power. The showing of not a prominent desertion is unparalleled. Even Platt of New York works in the

harness furnished by Manager Hamn. Mr. Harrison has been added to the list of great generals in the field and will be almost a complete offset to Hill in case that gentleman becomes active for Mr. Bryan. The news is brought that commerce is becoming reassured again and that confidence is returning on account of the prospects for Republican victory. Bryan and his hordes have become almost too radical. Their conduct of campaign is beginning to inspire distrust on the part of the average thinking citizen. Their extravagant claims and remarkable promises had better be criticism of the faults in the camp of the opposition, for the Republicans are none too plain or satisfying yet in their stand on finance. The Bryanites do not appear to notice this, but keep shouting doctrine that the most pronounced of honest socialists would not entertain. Maj. McKinley remains at home making speeches to delegations. Mr. Bryan is speaking to crowds along railroad lines. Nothing is said of Hobart, Sewall or Watson. By the end of this month the atmosphere of the struggle will be well enough lighted to predict the outcome with reasonable certainty. At present the tremendous enthusiasm which Bryan's nomination and the Chicago platform evoked has not yet run its course by any means and the people will consider little besides currency expansion. Inroads on the general thought are being made by the systematic work of the Republicans in their effort to avoid this direct issue and interest the voters in tariff and bimetalism.

**SUPPOSED TO BE FUNNY.**

(Mavericked.)  
"Mabel," said the man who favors free silver, "that young man who calls on see you remains altogether too late. It was after half past 12 when he started for home last night."  
"I can't help it, father."  
"Can't you give him some kind of a hint?"  
"I did. But he said he had too much respect for your sentiments to think of leaving until 16 minutes to 1."

**WORLD WHEELING.**

A German Lad Reaches Honolulu on a Long Trip.

Heinrich Horstmann, a sturdy German of 22 making a bicycle tour of the world, called on The Star this morning. He left his home in May '95 and is to return in two years, working his way for the journey. He is a newspaper correspondent and sells his picture. The Australia brought him from the Coast, he having wheeled over a part of Europe and the American continent. He is a trick rider and at racing has a record of 497 miles. Tomorrow afternoon the visitor will be at the race track with city wheelmen. He rides a Crescent wheel, a fine machine for which H. Hackfeld & Co. are agents.

**THE SEPTEMBER "PARADISE."**

The September number of "The Paradise of the Pacific" is a handsome issue. It contains a series of pictures that have not been reproduced heretofore: the originals were taken by W. J. McConnell, a recent visitor, and are artistic in every way. Another feature of this issue is an article on coffee, written by a planter; other interesting matter helps to make up a splendid number of the local magazine.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficiency." This medicine is also of great value for rheumatism, lame back pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

**Steamers Come and Go**

And it is a rare occurrence when they do not bring new shipments for L. B. Kerr. Scarcely a month passes but what some new line is added to his already large and varied stock. The latest addition is a corset department, and it goes without saying that the values to be found there eclipse all previous attempts. Ladies should take a look at the celebrated French Wove Corsets now being introduced.

A number of houses and lawns are being built just at present and it would be wrong for us not to "jog" your memory that you can't make grass grow without giving it a little assistance. We handle the Pennsylvania Lawn Mower, the best on earth; in four sizes, 10, 12, 14 and 15 inch blade. The last size is for extra high grass. The "Success" Portable Hose Reels at \$4 50 are not to be questioned as they more than pay for themselves by keeping the hose from rotting. Hose left on the lawn with water standing in them are sure to rot, while five minutes work with the reels takes all the water out and makes the hose last four times as long.

Some of our competitors imagine they are cutting a big figure by selling stoves at \$12. We have a 2-hole stove called the Bono No. 7, which consumes either wood or coal that we are selling at \$9.00. Another one called the Olive, 4 holes, for \$12 50 and the Pansy and Columbus, which are our standards, now selling at \$16 00 to \$28 00. A Pansy stove was being loaded into one of our wagons just as this advertisement was being written. Don't believe all that is told you about the other dealers' stoves until you have seen the above makes, as they are the best to be had at the prices named.

By the Transit which arrived on the 4th inst. we received 100 Jewel Stoves and Ranges, one large car load, direct from the factory at Detroit.

This is our third shipment, and we find that we have only 4 stoves left from our previous lot.

The excellence of these stoves has already been proved by the large sale, but we will name three points:

First. Long life from the heavy high grade of iron, which is the same in the \$12 stove as in the \$50 range.

Second. Economy in the use of fuel.

Third. Quick and even bakers.

We propose leasing these stoves on the following terms:

When the stove is delivered one-third of the price is paid in cash, and the balance monthly thereafter in five equal payments.

If before the expiration of the five months, the lessee wishes to pay off the balance, he will be entitled to a discount of five per cent. on the amount unpaid.

If a customer wants to buy outright, he gets five per cent. discount on the whole amount.

Jewel Stoves and Ranges can be had only of us.

**J. T. WATERHOUSE.**

A dinner cannot be considered much unless the soup is good and how many cooks in Honolulu know how to cook a soup? A combination of water and a few vegetables underlying a greasy scum is called soup by the average celestial and yet a lot of people put it into their stomachs once a day and consider themselves well fed.

To get good soup it is necessary to procure the kind that is made by persons whose education has been entirely in soup. Everybody knows Hucking's, if not from experience then by reputation. They are pure in quality and of delicious flavor. We have in stock all the varieties made by this well known firm. Look at the list:

Mock Turtle; Tomato; Julienne; Ox Tail (soup and bouillon); Mulligatawny; Bouillon of Beef; Consomme of Chicken; Okra or Gumbo.

Then we have Sniders Tomato Soup an excellent article and inexpensive. In Morton's Soups we have Giblet; Ox Tail; Ox Cheek; Mock Turtle; Mutton Broth; Hotch Potch; Soup and Bouille; Vegetable; Tomato and Mulligatawny.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. # MURDER OF 3000 TO 4000

THE WORK OF MOBS AT THE CAPITAL OF TURKEY.

Official Reports on the Riot—Started by Armenians, Who Are in Turn Mercilessly Killed

LONDON, Aug. 29.—A dispatch to the Daily News from Constantinople says that on Thursday it was estimated that from 3000 to 4000 persons had been killed in the riots in the different portions of the city. All Europeans en route for this city have been turned back by cordons of troops.

The whole thing could have been stopped in an hour if the Government had desired, but the members of the mob pretend to have received permission to loot, burn and destroy the Armenian quarters for a certain period of time.

A dispatch to the Chronicle from Rome says that private letters just received from Constantinople state that the Turkish Government is on the eve of being overturned, and that a provisional government will be appointed.

PHILIPPOLIS, Aug. 28.—Travelers who have arrived from Constantinople say that the state of anarchy continues at the Turkish capital. The number of persons massacred reaches into the thousands.

BERLIN, Aug. 28.—A dispatch to the Vossische Zeitung from Constantinople says that there was a general fusillade and massacre. At the conclusion of the riot many hundred dead bodies were lying at the head of the Stamboul bridge. The Turkish mob, armed with knives and sticks, invaded the quarters of the Armenians, attacking the Armenian houses, and tossed their butchered bodies out of the windows. The police and militia stood idly by in the streets, where wagon-loads of human bodies were lying scattered in all directions.

MADRID, Aug. 28.—The Spanish Minister at Constantinople reports that the Mussulmans killed hosts of Armenians during the rioting Wednesday and dragged the bodies through the streets.

LONDON, Aug. 29.—The Armenians started the rioting.

### BIG FIRE IN GERMANY.

HAMBURG, Aug. 28.—A most destructive fire has taken place upon the premises of the Export Warehouse Company in the suburbs of Steinwaelder. The loss in merchandise amounts to \$1,500,000.

### THE "DRUMMERS."

CHICAGO, Ill., Aug. 28.—A special train of seven Pullman sleepers left Chicago tonight over the Pennsylvania for Canton bearing not quite 300 commercial travelers and their wives and a few other Republicans who joined for the occasion.

### BANK FAILURE.

SIoux CITY, Ia., Aug. 28.—The Sioux City National Bank of this place closed its doors this morning as a result of heavy and unlooked-for withdrawals of deposits and difficulty in realizing on assets. During the last three weeks an average of \$10,000 per day is said to have been drawn out, while the total yesterday was nearly \$25,000.

### GALLAGHER LET GO.

LONDON, Eng., Aug. 28.—Dr. Gallagher, the Irish-American dynamiter, who, thirteen years ago was sentenced to imprisonment for life, was released from Portland prison this morning and at once driven to the railway station under the escort of the principal warden of the prison. He looked pale and thin and his hair was very gray. No one was allowed to speak to him.

### FOR TEMPERANCE.

The Rev. Dr. Dille is a Rather Pronounced Advocate.

Following are a few sentences from a recent temperance sermon by Rev. Dr. Dille, who dejected the Methodist church here some months ago:

"I impeach and indict the saloon as being the enemy of the home. On this coast there is a house built of cast-up timber, the flotsam and jetsam of the wrecks that have strewn the beach. Some houses in this city are built upon the wrecks of ruined homes. The saloon is a power in politics. Four million voters are controlled by the saloon men of the country. In this city the saloon is the all-powerful element. A man who would erect a false light upon the shore to lure a vessel to destruction would be sent to the gallows, but every safeguard is thrown around the saloon. Even the policeman with his belt and club stands upon the corner to see that the saloon man's rights are not trampled upon.

"We need a new uprising of the industrial classes to overcome the saloon. It will be the burning issue of the coming campaign, and Christian men and women must unite and prepare for the inevitable conflict."

There Have Been Difficulties in the Work—Sergt. Elvin's Task—The Very Best Plans for Shooting.

The shooting range at Kakaako will be in shape to use next Saturday. Sergt. Elvin reports that the cause of the delay in getting things in shape was the difficulty in procuring sand for the bulkheads.

The details of the job have proved more troublesome than was ever expected. It was found that the sea at high tide came up to the top of the foundations at the bulkheads.

From the bulkheads to the shore at the shooting galleries there will be a board walk, obviating the necessity of the marker going through the water to his place, as has heretofore been the case.

The match between companies G and D will take place at 1:30 this afternoon. The former will enter the same team and G will shoot the team that met B a short time ago.

Capt. Paul Smith wishes to meet Company A at the armory this evening to talk over the situation.

### FEWER BLOOMER GIRLS.

Many of Them Have Gone Back to the Skirt in New York.

The passing of the bloomer girl is almost complete. Any one gifted with observant eyes who spends a couple of hours of any fair afternoon watching the bicycles go by on a favorite thoroughfare will need no other demonstration. Last year when the season closed there were plenty of bloomer girls, but during the winter their costumes underwent a decided change, and when they started out in the spring again the bloomers were discarded. It is more than possible that in every one of the very few cases in which a woman bicycle rider still clings to bloomers it is because the wheel she owns has a diamond frame, and she can neither ride it in skirts nor afford to buy a new machine with a low frame. Frequenters of the Boulevard have noticed the steady decline of the bloomer with a good deal of interest. It is a not infrequent occurrence to hear one old rider comment to another that such and such a woman has quit bloomers and gone back to skirts. Two of the early morning regulars were trundling up to Claremont recently when a young woman in an extremely neat suit came sailing down the road.

"Look at that girl," said one to the other. "That's one of the prettiest suits I've seen, and it makes a great change in her appearance. Last year she used to ride in blue bloomers, and her outfit was about the homeliest I ever saw. It's surprising what a change in appearance a dress makes."—New York Sun.

### WIT OF THE WHEEL.

When a maiden lady offers to give up a collection of Angora cats for a second hand bicycle you may know that this is really the cycle cycle.—New York Recorder.

Mrs. Farmer—Why do you walk the roads in this aimless manner year in and year out? Weary Watkins—Because I ain't got no bicycle.—Indianapolis Journal.

Catchings—I suppose, doctor, the bicycle is also hurting your business? Doctor—Yes; the surgeons are securing most of the patients now.—Philadelphia North American.

Mrs. Scorch—I thank heaven for one thing at any rate. Mr. Scorch—What's that? Mrs. Scorch—You can't say I don't ride a wheel like your mother used to.—New York Commercial Advertiser.

A large dog went mad upon seeing some women in bloomers in Chicago a few days since. This dog no doubt thought, like the men do, that the women were trying to rob him of his pants.—St. Joseph (Mo.) Herald.

"Still taking up collections to send flannels to the heathen?" asked the sarcastic man. "Oh, dear, no," answered the earnest woman. "They insist on getting bicycles now before they will even think of becoming converted."—Indianapolis Journal.

### "Just Tell Them You Saw Us."

A gay young couple came whizzing down the Boulevard on a glaring yellow tandem. They were scorching. "Hey there!" called the bicycle cop, who stood in the shadow by his black wheel. "Slow up there now." Faster went the pedals on the tandem, and as the streak of yellow faded from view there was wafted back on the evening breeze in a girl's voice these words: "Just tell them that you saw us. Ha, ha!" "And that I raised you twice," murmured the bluecoat, smiling grimly as he pulled his cap down over his eyes and settled himself for a spin. At Sixty-seventh street he was getting dangerously near the scorches. They noticed it, and suddenly veered into Sixty-seventh street. Nearer and nearer came the flying cop, and just as he was in grabbing distance the scorches dodged into the park, out of the cop's precinct. He abandoned the chase. "That's one that won't get into the papers," puffed the man on the tandem as he helped his companion to alight. "No," replied the latter defiantly. "You never hear about the times when they get left."—New York Sun.

### Cycle Racing Among Women.

Racing among women ought to be abolished. Persons who witnessed the women's six day bicycle race in Madison Square Garden last January will recall with disgust the displeasing spectacle of exhausted riders having to dismount with the aid of their trainers or physicians and barely able to see or speak. Moderate wheeling invigorates the system, strengthens the muscles and increases physical endurance, but excessive wheeling is positively injurious and shockingly unwomanly.—New York Sun.

### Turning Corners.

The law regulating the speed of teams and cyclists turning corners is to be strictly enforced in this city in the future. Several accidents resulting from fast driving around corners have been brought to the attention of the police, and it is said that an order will soon be issued to strictly enforce the law. Some cyclists are more careless than drivers in this matter.—New York Times.

### When to Look Around.

Always take a look to the rear before turning to enter a side street or for any other purpose. There may be a scorch behind you. Many accidents have been recorded because of neglect to do this. Recently a wheelman in Pawtucket, R. I., was killed while turning by being run into from the rear by a reckless rider.—American Cyclist.

### Highwaymen on Wheels.

Now that the highwayman has added wheelmen to his list of hold ups it will be timely for some astute hosiery manufacturer to introduce a pocket in golf stockings. Inside and just over the calf would make the invention serve a double purpose—for the storage of valuables and the plumpifying of calves.—Wheel.

## Ripans Tabules

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said: "I am 61 years of age, and until I was high onto fifty years old, I was always well and peart, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Mr. Ripan's medicine. I want you to tell everybody how I got cured, for it is a blessing to humanity. (Signed) L. A. ROCHER.

Ripans Tabules are sold by druggists, or by mail if the price 50 cents a box is sent to the Ripans Chemical Company, No. 10 Spruce St., New York. Sample vial 10 cents.

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.
