

MORE WASHINGTON HELP FOR HAWAII

RECLAMATION DRAWS NEAR

GOVERNOR FREAR WAS ASSURED THAT THE BILL TO EXTEND THE RECLAMATION SERVICE TO HAWAII WOULD BE INTRODUCED A THE RECONVENING OF CONGRESS — HYDROGRAPHER LEIGHTON TO COME—VALUABLE WORK DIRECTOR NEWELL.

Governor Frear was early at his office after returning home from his trip to Washington this morning. To the press representatives his news was largely in amplification of correspondence and cablegrams relating to his doings while absent. An exception was the important statement that when he left Washington it had been decided that a bill extending the Reclamation Service to Hawaii was to be introduced whenever Congress reconvened after the holidays. Senator Perkins was to introduce it in the Senate and Delegate Kalaianaoale in the House. The Governor was a little surprised to hear that nothing had been heard here to show that the arrangement had been carried out. "I think one of the best things that have happened here for some time," Governor Frear said, "was the visit of Mr. Newell, director of the Reclamation Service. We had a meeting in Washington at which Mr. Newell, the geographer,

the hydrographer and other officials of the service were present. It was decided that Mr. Leighton, the hydrographer, should come out here any day, notwithstanding the adverse decision of the comptroller regarding the applicability of the appropriation. While he may not come to do hydrographic work there is nothing to prevent his coming to make investigations for the purpose of procuring information that would be of value to the Reclamation Service Commission. "Another idea we acted on was that of putting out a feeler about getting homesteaders here—Americans with some capital of course. This originated with Mr. Newell, who has great capacity for initiative. He and I both gave out little stories on conditions in Hawaii. These were to appear in thirty-five papers, reaching a couple of million people. "I regard Mr. Newell as a particularly valuable friend of Hawaii. Being a permanent officer he is there all the time."

POSITION OF SUPERVISORS

AN ANSWER TO THE MAYOR'S LETTER—FERN'S HIGH HANDED MANNER OF ASSUMING ALL POWERS FORCED THE BOARD TO OPPOSE HIM—NOT MAKING HIS OWN APPOINTMENT BUT BEING DICTATED TO BY PARTISAN COMMITTEE.

EDITOR STAR: Mayor Fern, in a letter to the Advertiser attempts to justify his attempted appointment of so-called officers of the City and County of Honolulu, together with a long array of what no stretch of legal construction can make other than municipal and district employees. Leaving aside at the outset his citation of Mu-

nicipal Act provisions, I will take up first his contention that it was necessary to make appointments of persons to take care of municipal property and services. The argument that there was anything like an interregnum with anarchy (Continued on Page Seven).

GOVERNOR RETURNS

ARRIVES HOME IN SIBERIA THIS MORNING—OTHER NOTABLES RETURN FROM COAST.

The big liner Siberia, Captain A. Dixon, was sighted early this morning and came to the dock at the foot of A-akea street shortly after 8 o'clock. As was to be expected, perhaps, in view of the return of the Governor and other prominent citizens, the wharf was crowded with people. There were over eighty passengers for Honolulu, more than half of the ship's list getting off here. The Siberia brought no mail nor papers, the Alameda having cleaned up the lot at San Francisco. "Same old story," Mr. Mossman, of Oat & Mossman's explains to his paper customers today, "the slow boat always catches the late mails and news files." On the way down the Siberia experienced very good weather considering the time of year. It was thought that the storm of a few days ago may have reached her but such was not the case. The passengers thoroughly enjoyed the voyage, which began with the cold fog of the California coast and tapered off, as it were, into the "liquid sunshine" anyway, of Hawaii.

The most prominent passenger on board the Siberia was Governor Frear, returning from his visit to Washington. He travelled alone, his private secretary having returned here earlier in the month. The Governor appeared considerably fatigued, but expressed himself as feeling well and ready to take up the duties of his office at once. And it is well it is so; for while Secretary Moti-Smith met him with his best smiles, he informed the Governor that the official desk in the executive chamber was literally loaded with important documents of every kind, some requiring immediate attention. The Governor rode with Mr. Moti-Smith directly to the capitol and, after visiting his home, settled down to work.

Alexander Young and wife also returned. Both have been ill. Mrs. Young was taken with a severe cold three weeks ago and has only begun to improve in the past few days. Mr. Young was sick for two weeks but landed in better shape than he had hoped for. The Youngs left here on October 11, so have been away over three months.

General John F. Soper returned from a business visit on the coast. He had been away since November 15. General Soper looks well and says he has had a good time as well as putting in some good promotion work for Hawaii.

H. E. Hendricks, the safe man, returned from a business visit to eastern centers. He brought back with him the large vault ordered by the Trust Company for their Fort street offices.

Another returning passenger was Justice S. M. Ballou. He was having a good rest of it in San Francisco when a hurry-up call came from Chief Justice Hartwell for him to return. He is badly wanted here or at least Judge Hartwell thinks so to take a hand in prospective county cases.

Walter F. Dillingham and George P. Denison, of the Hawaiian Dredging Company, returned from Washington where they have been in connection with the dredging contract for Pearl Harbor. Mr. Dillingham is very well pleased with the results of his trip, he having landed the big contract and, incidentally, laid the foundation for other contracts for his concern in the Pacific. He will proceed at once to get everything in shape for a start on the work.

Judge Lindsay was another homeward swallow. He has been spending a short vacation on the coast. Louis Schweitzer, a former business man of Nununu street, returned and will probably remain here. He is accompanied by his wife. George P. Thielon, the broker, etc., was also a passenger, having visited San Francisco on business. Among the through passengers for Manila is Rear-Admiral A. P. Nazro, U. S. N. He has been assigned to duty as station admiral at Cavite. Captain James Hamilton Lewis, whom the coast papers have mentioned as going out to the Orient on a mission for the United

HEAD OF SCIENCE ASSOCIATION HERE

SAYS THERE WILL BE OVER 200 DELEGATES, MANY ACCOMPANIED BY THEIR FAMILIES, TO THE CONVENTION TO BE HELD HERE IN 1910—MUCH PLEASED WITH HONOLULU AND WANTS TO COME HERE.

Dr. T. C. Chamberlain, president of the American Association for the Advancement of Science, is passing through Honolulu on his way around the world. Mr. F. C. Atherton is entertaining him during the day. He was a visitor during the day at Oahu College, Mid-Pacific Institute, Kamehameha and the Museum. President Griffiths and Albert F. Judd of the Hawaiian Committee for the American Association 1910 convention both had most pleasant and satisfactory interviews on the possibilities of the 1910 convention. Dr. Chamberlain reports that the A. A. S. council reaffirmed their decision to hold the convention here providing satisfactory arrangements, principally transportation, could be made. This decision will be finally confirmed by the council next winter. Dr. Chamberlain is most favorably impressed with Hawaii and has the strongest hopes that nothing will occur to interfere with the coming of the convention. He reports that the association is more than ordinarily interested and desirous of coming to Honolulu in 1910. He estimates that not less than 200 members will come, he says that many will bring their wives. The Hawaii Committee are naturally delighted to have President Chamberlain see the advantages of Hawaii, as he is already most friendly to the claims of Hawaii. His coming will give his advocacy a personal zeal and will help Hawaii to get the convention and to bring attendance.

Immigration Bill News A Surprise

WHEN GOVERNOR FREAR LEFT WASHINGTON IT WAS UNDERSTOOD THE MEASURE WOULD NOT BE INTRODUCED THIS SESSION—SHOW PROGRESS IN MATTER OF GETTING ITALIANS FOR HAWAII BUT THE OUTLOOK NOT UNFAVORABLE.

Governor Frear was surprised at this morning's cablegram stating that Agent Trenor felt assured that the immigration bill for Hawaii would be introduced at this session of Congress. "We decided in Washington that it would not be well to introduce the bill this session," the Governor commented. "The chances were very slim about getting anything done and an attempt might hurt us in other ways. That was the situation when I left Washington. "Our idea was that it would be a good thing first to have the Immigration Commission visit the island this summer, and if the Commission report favorably we would have a better chance of getting legislation next session." Mr. Trenor's work is to get Italians and it is impossible to say at present what his success will be. Progress is slow but the fact that nothing tangible has been done is no reason for thinking that nothing will be done. Mr. Trenor is trying to lay his foundations broad. Continuing, the Governor stated that the first thing sought by Mr. Trenor and Mr. Fabbri, president of the Italian society, was information as to whether or not it would be good for the Italians to go to Hawaii. Mr. Fabbri, though not in an official position, stands high in the regard of the government of Italy. "He feels the responsibility," the governor said, "but after investigation he came to the conclusion that it would be good for the Italians to come here."

States government, is also aboard. Lewis was a noted politician and lawyer of Seattle and recently removed to Chicago. The Siberia will continue her voyage to the Orient at 5 p. m.

CHIYO TOMORROW

A wireless message from the Japanese steamer Chiyo Maru early this morning stated that the big new liner would arrive in port early tomorrow morning. She will probably get away during the afternoon for San Francisco.

CITY IS FLUSH
There is more money in the treasury of the City and County of Honolulu than was expected. Today the treasurer has \$17,584.17. Of this amount \$11,533.25 is the balance from last year, including four days of this year for salaries. From the Territorial treasurer this morning was received \$35,950.92. At the end of this month, it is expected, \$32,500 will be received and a pretty good balance is in sight. The City and County starts business with considerable more "wherewithal" than was anticipated.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

THE LOG-BOOK

On Monday the naval transport Bufalo will begin taking on coal preparatory to her return trip to the Coast. From San Francisco she will go to Magdalena bay to await the return of the Pacific fleet from the South.

Regular mail from Kanaal will arrive by the Kinau tomorrow morning. Hereafter she will return regularly from Kanaal on Saturdays in place of Sundays.

The new Chiyu Maru, of the Japanese line, will try for a record on this port to Frisco. She is built for speed and her officers believe she can cut down the record a little in a pinch.

WALKER IN JAPAN

Henry E. Walker, the local rice-mill man, who returned by the last steamer from a four months' tour of Japan, has great faith in the business future of the Mikado's realm. The imposition of a flat ten per cent duty on imports has stimulated local manufacturing tremendously, and opened an important field for exploitation by American and European enterprises. The superiority of the white man's wares is becoming generally recognized, and the shoddy products of cheap labor are being readily driven from the field. Mr. Walker believes that the entire manufacturing industry of Japan will eventually be in American and British hands, with white skilled labor.

POTTER'S FIELD NEED IS SHOWN

The death of a little child of Mary David, Hawaiian, in the Magoon block yesterday again accentuated the need of suitable burial provision for the poor. The father of the child died a few months ago, leaving the heart-broken mother and youngster in the throes of extreme poverty. Yesterday neighbors found the distracted mother wailing over the dead body of her babe. The little form lay upon a straw mat, which served as a bed. Around the room were a few beggarly garments and cooking utensils, which formed the total of the miserable woman's possessions. Mr. P. M. Rider arranged with the Board of Health for the interment of the body.

NEWDISPENSARY AND MILK DEPOT

Certain leaders of practical charitable endeavors in Honolulu have under way a project of supplying to Kakaako an up-to-date pure milk depot, its home being in a large room at the Kakaako Mission. Miss Sadie C. Sterritt, a trained nurse of the Queen's hospital, has been engaged to look after ordinary cases and the dispensary is in her hands. Cases of a serious or difficult nature will be turned over to a physician employed by the promoters of the institution. Thirty patients, mostly children were treated by Miss Sterritt the first day and the number has steadily increased since then. The pure milk depot is a side line of the same general work.

SUPPLYING THE ARMY OF OAHU

The Army of Oahu is now fifteen hundred strong—and there are more, many more, to come. To figure on the present force, however, fifteen hundred men and officers, infantry, cavalry, engineers and marines, it means that in pay alone about half a million dollars will every year be spent in this city and will be circulated here.

This is allowing for a proportion of the pay received by officers and men which may be sent out of this Territory to relatives.

In addition to pay money, half a million a year, that will be put into circulation here, there will be between \$50,000 and \$200,000 spent here annually for food for the soldiers.

And in addition to soldiers' pay spent here and money paid out by the military for food supplies, there will be a very considerable sum for labor and construction outside of Naval work, Pearl Harbor and the fortifications not being considered.

It is conservatively estimated that, with pay and food money and incidentals expended here, on the present basis of a force of fifteen hundred men, not less than \$750,000 a year will be added to the income of the community.

The Army of Oahu as it is at this time, may be approximated as follows:

Fifth Cavalry: 500 men and 40 officers, equalling 540.

Twentieth Infantry: 250 men and 25 officers, equalling 275.

Engineers: 150 men and 20 officers, equalling 170.

Marines: 450 men and 15 officers, equalling 465.

Naval men, etc., equalling about 50.

A total of military and marines, forces which may most appropriately be referred to as "The Army of Oahu," of 1,450 men and officers, with an allowance of 50 men more to cover the U. S. tug Iroquois, the local station ship, etc., making a grand total of 1,500.

Allowing for 100 officers and 1,400 men, and figuring the average pay of enlisted men per month at \$20 and the average expended pay here of officers, not what they receive but what they spend here, at \$100 per month, it will be seen that 1,400 men at \$20 per month will spend \$28,000 per month, or \$336,000 per year; and the officers will spend \$10,000 per month, or \$120,000 per year, making a total yearly expenditure here by officers and men of \$456,000, or nearly half a million dollars.

Estimating at a fair figure the daily ration per man, not counting officers, at 20 cents, it will be seen that it costs the military \$420 per day to eat, or \$12,600 per month, or \$151,200 per year; and officers' mess at least at \$1 per day, including families, will be \$36,000 per year, or a total of food expenses, for 1,500 officers and men, of \$187,200, or nearly \$200,000 per year. Of the "garrison ration" there will, of course, be considerable that may not be purchased here. Flour, baking

powder, beans, prunes, coffee, sugar, canned milk, vinegar, salt, spices, lard, butter, strup, canned goods, jam, tea, pickles, rice, hominy, bacon, ham and poultry may all be sent here in transports, to save freight, from the mainland commissary.

But there is considerable leeway in all this, for instead of importing canned meat, there is fresh beef to be purchased here; and there is the opportunity of local coffee successfully competing with the imported article; and of local refined sugar getting the better of the sweet stuff coming back from the coast; and of local dairies collaring the butter situation, if they go at it right.

Articles of food sure to be purchased here are: fresh beef and mutton; fresh poultry on holidays; fresh fish, potatoes, onions, tomatoes, other fresh vegetables and native fruits on occasion.

The total cost of food consumed, per man, travelling on Army transports is not supposed by Army regulations to exceed 24 cents per day, but it is thought by officers here that 30 cents per day per man for the Oahu garrison is a conservative estimate.

The average will certainly not be less when it is remembered that in garrisons it is the custom for men to get together for their own mess and add many luxuries not allowed in the ration, such as sauces, preserves, pastry, fruits, poultry out of holiday seasons, etc.

There is the garrison ration, the field ration, the haversack ration, the travel ration, the Filipino ration and the emergency ration. Local troops will have the garrison ration, tackling other rations only in maneuvers.

Fresh meats from the block will usually be provided for troops by contract.

BOARD OF SUPERVISORS.

At the meeting of the Board of Supervisors yesterday afternoon the resolutions for a lease of the McIntyre building second floor and granting the United States a right of way for a military railway on Saratoga street were passed to the Mayor for approval. Mayor Fern promised to state his disposition of the appropriation bill at next meeting on the one after. He also said he had the matter of assistants in the Clerk's office under consideration. The Board adjourned until 7:30 this evening.

WILL ENTERTAIN BOYS.

Officers and committeemen of the Boys' clubs of the city will be entertained by Theodore Richards at his residence this evening, beginning at 2 o'clock. First there will be a supper, and this will be followed by a sort of business convention. Reports from the various clubs will be read and there will be talks by several gentlemen interested in the work. The occasion promises to be a most instructive and pleasant one for all those attending.

SAFE LIFTER TO GO AWAY

WOODS, TO WHOM JUDGE KALUA GAVE LIFE IMPRISONMENT, IS NOW FREE.

Fred Woods, a negro who has just completed a ten-year term in the Territorial prison for burglary, was released early in the week and is trying to get a berth on an outbound vessel for the coast. He is at present staying in a locality selected by the police, in order that the minions of the law may keep tab on his movements and, incidentally, check any itchy feeling that may come to his fingers prior to his departure hence.

Woods came from Florida with a batch of negro laborers to work in the sunny fields of Maui. All went well until one sad day his eye fell upon a small safe in the office of the Hawaiian Commercial and Sugar Company. That night, when the stars kept a lone vigil, Woods disappeared and the safe with \$1100 in it, went with him. He was caught red-handed, charged and entered a plea of guilty. It is averred that Judge Kalua had looked upon the square-face with extreme affection the night preceding and really saw several "niggers" where there should have been but one. At any rate, even the injured parties were staggered when he sentenced the prisoner to "life imprisonment at hard labor."

There was, of course, an appeal and, after considerable delay and a course through numerous ramifications of the law, Woods was given ten years. At first he was a troublesome prisoner, giving no end of annoyance to the work lunas, but afterward settled down in a groove that won for him the legal commutation of nearly two years "good" time. He got away with very little, if any, of the money and worked for about eight years and four months for his midnight exploit.

WOMAN BOOZE SELLER.

License Inspector Fennell has sworn to a warrant charging Chung Su, a Chinese woman of Kahaolu, this island, with selling liquor contrary to law, and the papers in the case went over the Pail today to Deputy Sheriff Pahia for service. According to Mr. Fennell, the prospective prisoner has been in the suspect class for some time, but has heretofore proved shrewd enough to escape arrest. A third party and a marked dollar did the business.

GEORGE F. HENSHALLMANAGER

FRIDAY.....JANUARY 15, 1909

OUR LOCAL WATER SUPPLY.

If Superintendent of Public Works Marston Campbell can manage to plan and create an adequate water system for the various districts of this community, he will do something that will make his administration of the department most noteworthy. The project is a big one and seems to call for more comprehensive planning and more systematic enterprise than it has yet had. In the meantime as a part of such planning the Nuuanu dam scheme is worth a bit more study. It is already noted that the number of days' sluicing to be had by reason of the recent heavy rains is dwindling. We don't pretend to say that the sluicing is not practicable, but at least there seems to be a doubt. Engineers say that any other filling system would be much more expensive, and this is especially the case in view of the fact that an expensive sluicing plant has been acquired. But the prime consideration, within reasonable limits of cost, of course, should be the completion of the dam as soon as possible. It must be regarded as a result of very poor management in the past that a community so surrounded by water as Honolulu is, should have some areas of residence sections where, even during midwinter, irrigation of gardens and lawns is restricted, and where almost at any time, household taps are likely to emit mud-colored fluid because small reservoirs are going dry, or on the other hand, because after having been nearly dry they have suddenly filled in a few hours. There is an abundance of water to be had and certainly the community has shown a willingness to pay both for the engineering skill and the labor needed to make it available. Not alone Kaimuki, but all the rest of the city, hopes that Superintendent Campbell will do better than his predecessors in this matter.

There appears to be a chance—a better chance than has been generally supposed,—that the ex-queen will obtain some financial remuneration from Congress on account of the crown lands. It would be a fine thing for Congress to allow the relief asked for. Such claims are usually very difficult to get through, and it may be that Liliuokalani's will die in committee, but it is not an ordinary claim, and under all the circumstances there are many reasons in favor of allowing it.

After accusing The Star of having, for some mysteriously hinted at reason, "lost interest" in the Twelve Dollar Club investigation, the Advertiser now protests against the federal court bothering itself with such matters at all. However, we won't accuse the esteemed Advertiser of having some motive for wanting the investigation to stop. Many people will agree with its idea of leaving "slum-begotten immoralities" to the local laws, and that, we understand, is the policy of the Department of Justice here, except in cases where there are violations of the larger federal laws, such as those against the importation of women for immoral purposes, or peonage. The department some time ago refused to take up the matter of Iwilei generally, much to the disgust of certain active members of the Civic Federation. But if pimps are engaged, as the Twelve Dollar Club investigation shows, in the business of importing women, that is another matter.

If there is a duty on coffee it will be largely a revenue measure. In that event look out for cuts in the duty on sugar.

THE LEPROSY PROBLEM REVIEWED.

Dr. Walter R. Brinckerhoff, director of the Molokai Leprosy Investigation station, is the author of a Treasury Department booklet just issued on the leprosy problem in Hawaii. In the introductory it is shown that the problem is a national one, not only because of the annexation of Hawaii, but because the disease is widely disseminated on the mainland. Dr. Brinckerhoff, in a scientific paper decides, though not with final positiveness, against the theory that mosquitoes can transmit the disease, and he gives a cheering picture of the general situation here:

In recent years, largely owing to the efforts of Mr. L. E. Pinkham, president of the Territorial Board of Health, the Settlement on Molokai has been converted into a comfortable native village which compares favorably, as a place of residence for the natives, with any of the villages on these islands.

From a public-health standpoint the most urgent problem is how to get lepers segregated early in the course of the disease. Two general lines of policy may be pursued to this end: First, to improve the conditions of care for lepers so as to increase the number who will surrender voluntarily; and, second, to use every means possible to collect cases of the disease.

CONCLUSIONS.

First. The leprosy problem in Hawaii calls for more thorough enforcement of the laws of segregation.

Second. The field for the study of leprosy furnished by the Territory of Hawaii is unsurpassed and merits the most painstaking efforts to utilize it to the utmost.

THE APPOINTING POWER.

Mr. Achi's construction of the Municipal Act that he drafted, in regard to the question of the Mayor's power of appointment, is surely entitled to some weight. He states as elsewhere reported in effect that the act neither continued so-called officers of the county nor established any but elective officers for the municipality. The deputies and assistants of elective officers are of course not officers in the legal sense excepting as any of them are made so by law. In the case of inspector of chauffeurs, the Board confirmed the Mayor's appointment because the office is created by ordinance.

There has been a good deal heard in the present municipal controversy to the effect that an inherent power of appointment is vested in a presiding officer. This theory has practical refutation right at home in the boards of Education and Health, whose members do the appointing of subordinates and employees. The practice, as it very generally exists, is about to receive a striking reversal in the State of Nebraska. The Legislature of that State is about to take the appointment of committees out of the hands of its presiding officers, the

president of the Senate and the Speaker of the House of Representatives. William Jennings Bryan has heartily endorsed the proposal. The idea is that the appointment of legislative committees by the presiding officers makes too much of a one-man power in each of the branches. It is contended that their functions are purely those of presiding and that they ought not, through the appointment of committee, to assume powers they were never intended to possess. The Nebraska plan is that the appointments shall be made in non-partisan caucuses of all the members of both houses respectively.

Again, some legal constructionists here have been heard to argue that it was preposterous for a legislative body such as our Board of Supervisors to take or hold any appointing power whatever. In the face of such a contention the following opening sentences of a news article in the San Francisco Chronicle of January 5 appear exceedingly strange:

William H. Smith Jr. is now doubly a Justice of the Peace. A few days ago he was named by Governor Gillett to succeed Judge Van Nostrand who was at the last election chosen for a place on the Superior bench. Yesterday the Supervisors while refusing to confirm the appointment made by the Governor made one of their own and Judge Smith was their appointee, not without a preliminary skirmish which for a time indicated that some of the Supervisors were much set against Smith holding down the Justice Court appointment.

Having the power of approval of appointments in common with other legislative bodies, as well as absolute control of salaries where such are not fixed by law, the Board of Supervisors of this municipality ought certainly to have been expected to have been consulted by the Mayor before he attempted to make any appointments. No matter which way judicial decisions may go with regard to the course taken by the Board, it will still retain the advantages in full which have just been mentioned. Legislatures of Hawaii, time and again, when they had not even the function of approval, compelled changes in the hierarchy of offices by riders to appropriation bills. When other means failed to dislodge an obnoxious officer they abolished the office. The Board of Supervisors have identical powers. It seems therefore a bootless contest on which Mayor Fern entered on taking office.

LINDSAY RETURNS

Judge Lindsay was again at his chambers this morning having returned home in the Siberia looking strong and refreshed from his vacation.

The trial jurors in Judge De Bolt and Judge Lindsay's courts are to appear on Monday. Judge Robinson's jurors are not to appear until further notified.

The Supreme Court this day ordered that the two cases of Lucio Ferreira vs. Kamo (k) et al and Hodson vs. Wolters be set for tomorrow morning for hearing, and in the matter of the petition of Lewers & Cooke, Ltd., on appeal from Court of Land Registration, said cause is set for next Monday morning. All other cases on the calendar not disposed of with the exception of the case of William R. Castle trustee, will be taken up in their order next week beginning Monday.

Judge De Bolt is trying the case of L. L. McCandless v. Honolulu Plantation Co., Robertson for plaintiff, Prosser for defendant.

Martha Hanapi sues Charles Hanapi for divorce for extreme cruelty and non-support. A conviction of defendant by Judge Hahuku at Lihue for one

brutal assault upon her is specified.

Ye Yap is suing Young Young, sometimes called Young Tuck Cho, for \$682.50 on a note.

Charles A. Long, trustee for John K. Sumner and others, prays for a decree pro confesso against Robert W. Davis and Mary K. Davis.

Elsie M. Wundenberg, executrix of the estate of Frederick Wundenberg, has presented her annual account. She charges herself with \$35,057.72 and asks to be allowed \$34,126.16.

Judge Robinson sustained the demurrer to bill to remove cloud from title of Rebecca Lukua against Luika Menese and others. Lightfoot noted an appeal. Donthitt represented defendants.

FRESNO MAYOR QUILTS JOB FOR HONOLULU

Here's the first chance that the first Mayor of the City and County of Honolulu has had to meet another mayor, a mayor from the mainland, a mainland mayor.

The Honorable W. Parker Lyon, who a few weeks ago was Mayor of Fresno, Cal., arrived here with his family in the P. M. S. S. Siberia this morning from San Francisco.

He and his folks wanted to come to Honolulu and Mayor Lyon resigned his position to make the trip. He was here five years ago, but Honolulu, he heard, had changed much in that time and he yearned again to enjoy this Paradise of the Pacific.

Whether he and his family will go on to China or return to the Coast at the end of this month, he and his wife have not yet decided.

When Lyon left the Mayor's office at Fresno he appointed a City Councilman to take up his duties; whether the law allows this or not Lyon is not quite clear; at any rate he did it and the City Councilman is still the Mayor.

However, Lyon may go back to Fresno and run again for Mayor, the election coming off in April.

The meeting of Mayor Fern of this City and Mayor Lyon of Fresno, scheduled to come off this afternoon or this evening, may prove interesting to both. Lyon may be able to give Fern a number of pointers and Fern may be able to teach Lyon something of the relations between Supervisors or councilmen and the Mayor.

Mayor Lyon may attend the meeting of the Board of Supervisors this evening, an entertainment and opportunity for study he did not have when he was here five years ago, for then there was no Mayor.

Lyon was elected Fresno Mayor in 1905, so when he resigned he had but a few months more to serve. He and his family are delighted with Honolulu and they may extend their stay.

They wish now that they had brought their automobile with them. Lyon is a furniture king in the way of business, in fact he remarks that it is necessary for the Mayor of Fresno to be in a big paying business if he wishes to keep up his end as head of the city, since entertaining is expensive.

Lyon reports Commodore H. E. Pickler, formerly of Honolulu and the Hawaii Yacht Club as now gracing Fresno by his presence.

The Lyons are stopping at the Moana Hotel.

CITY AND COUNTY CLEARING FOR ACTION

City and County officers are busy clearing the decks for action. In the upper story of the McIntyre building, corner of King and Fort streets, which now may be termed the City and County building, pending the acquisition of a City Hall, there are today busy scenes of reconstruction, house-cleaning and readjustment.

Tonight there will come before the Mayor and the Board of Supervisors for approval the matter of the lease of the entire upper floor of the McIntyre building, but even now the fourteen rooms are undergoing desertion and reoccupancy.

Starting from the Waikiki corner, maaki, the two rooms which have for some time been occupied by the County Clerk, Kalaokalani, will be continued as his quarters and the quarters of his assistants. Opposite, the room now bearing the shingle of Judge Andrade will be taken by City and County Engineer Gere, who will also have a new room added by the partitioning off of the hallway.

The room formerly used as an ante-room to the County Attorney's office is being relieved of a partition and will be converted for the office of Police Court Prosecutor A. M. Brown.

City and County Attorney Cathcart will keep the room he has been doing business in, the stenographer also having a desk therein. Next comes the general office of the City and County Attorney, over which Detective H. T. Lake will hold guard, challenging all who enter, while in the third room en suite of the Attorney's quarters will sit Deputy Attorney Milverton.

The Auditor has decided to take unto himself and his staff two rooms, and another room will be used for storage purposes, for a great mass of records, documents, books and other stuff calls for special accommodations.

Lawyer Achi and Frank Cooke are vacating the premises, as is also the underwriters' concern. The assembly hall remains as it is.

Mayor Fern is preparing to move into his office, adjoining which will be the office of the Mayor's secretary, Charles Rhodes.

Mayor will have to pass through the office of the secretary, so that the Mayor will not be overcome with superfluous visitors.

Incidentally, if the Aloha Anna takes on an English section in the advancement of Democratic journalism and Rhodes becomes English editor, as is rumored, the secretary's office might unofficially be referred to as the editorial rooms of the Democratic party.

A little matter which may be brought before the Board of Supervisors, should those now discussing it pluck up courage to ask, is for a special janitor for the upstairs region, the realm of City and County affairs; for the general concierge is too apt to ignore the honorable dust that persistently accumulates behind official desks.

There will still be one room to spare and as to the disposition of that there is much uncertainty. It might be used by the Police Magistrate or it might be equipped as a waiting room or lobby such as public buildings often boast.

ALAMEDA ARRIVED

The Alameda was sighted off Waimanalo shortly before noon today and reached the Oceanic dock shortly before 3 o'clock. The voyage over the coast was without special incident, the weather being excellent except for a matter of a day. She brought the mail and papers, having left ahead of the Siberia. Among the well-known kamaainas to return were: W. W. Harris, who went to San Francisco on business with the Santa Fe railroad in relation to the sale of mahogany railroad ties to that concern a short time ago; J. C. Cohen and wife are accompanied by several list artists who will appear in the local ring. W. M. Langton, of the Paradise of the Pacific, returned from a visit to San Francisco and his old stamping grounds. Other passengers were:

- Mrs. L. Chapman, Miss Dora Chapman, C. K. Chow, J. C. Cohen, Mrs. Cohen, Miss Gladys Downing, Miss M. Gorman, B. S. Harris, Hiram Kiley, Mrs. H. J. Kreutzmann, W. M. Langton, Chas. ACHI SHEDS SOME LIGHT

AUTHOR OF MUNICIPAL ACT SAYS THERE WERE NO OFFICERS TO APPOINT.

W. C. Achi, who drew the municipal bill and also ran for Mayor, answering a joking remark by a Supervisor yesterday, said:

"If I were Mayor there would have been no dispute about appointments. The fact is there were no officers of the City and County of Honolulu for Mayor Fern to appoint. 'You ought to look in Rouvier's Law Dictionary if you want to know what is an officer. Among other definitions there you will find that an Ohio decision held that a road supervisor was not an officer.'"

"I drew the municipal bill for the future and the officers there declared to be under the Mayor's appointment imply mean those which the Board of Supervisors might create."

DR. SINCLAIR SAYS INSANE

(Continued from Page One.) Dr. A. N. Sinclair was the first witness called today. After stating his professional business Dr. Sinclair stated that he had examined Dr. Acherley last Monday and found him suffering from a form of insanity, pyramania. He considered that the public safety demanded his confinement. The witness had seen other cases of the same kind. Dr. Acherley was,

he said, laboring under the delusion that Dr. Wayson was persecuting him. He had told witness that Wayson had stolen his leprosy cure and when asked why he had shot up the Wayson homestead replied that that was the only way to get even.

Witness classified the disease as paranoia and stated that it was caused by the constant use of cocaine and opium. He here entered into the history of Acherley's case as he knew it from current gossip, relating some of his eccentricities. He told of how Dr. Wayson had reasoned with the sick man and endeavored to disabuse his mind, all to no effect. Witness believed Acherley had been in his extreme condition about a month.

From this point witness went into details regarding paranoia and his reasons for saying that Acherley "had 'em." Dr. Emerson had told him that in jail Acherley had used cocaine and opium—two to three grains of the former and 7 to 10 grains of the latter; and that he also used morphine. Prior to hearing of his using these drugs, however, witness had formed the opinion that Acherley was insane. The information from Emerson and others merely confirmed what he already felt certain was the case.

From this point the witness was subjected to considerable cross-firing from the attorneys, which merely brought out the fact that he knew nothing positive about Acherley's trouble with the Board of Health regarding a position in Kona. Dr. Wayson's earlier bouts with Dr. Wayson. He concluded on redirect examination by saying that he considered any man was a menace to the community who would threaten and attempt to kill in this manner without more of an injury.

On cross-examination by Attorney Magoon witness repeated much of the above, explaining more in detail his reasons for thinking Acherley insane. He also told of a couple of similar cases he had treated in his life, affecting to show that he could not be mistaken in his diagnosis. He had no personal desire to declare Acherley insane.

On redirect and to the court witness described the effect of the drugs Acherley had been taking. He considered that the act of shooting at Wayson's house in place of at the man himself showed an unbalanced mind. Here the prosecution rested.

Sister Albertina was the first witness called for the defense. She had known Acherley fifteen years and was a frequent visitor to his house. Did not consider him insane.

The case is still on this afternoon. Fine Job Printing, Star Office

Y. M. C. A. TRACK MEET PROGRAM IS ARRANGED

The Y. M. C. A. field and track team held a meeting last night and decided to have their annual field day on Saturday, Feb. 27. The following events will constitute the program: 100-yards dash, 220-yards dash, 440-yards run, 500-yards run, one-mile run, pole vault broad jump, high jump, 16-pound shot put, 12-pound hammer throw, 120-yards high hurdles, invitation mile walk, invitation mile relay. The races with the exception of the invitation ones will be open to members of the association. Efforts will be made to have silver cups donated for winners breaking island records. The question of breaking records, however, depends in large measure upon the track and it would be a splendid thing if the Punahou college track could be borrowed for the occasion. Failing this an effort will be made to get the city to drag and roll the track at Kapolani Park, on which many of the island records were made. The runners and jumpers have become tired of contesting over the apology for a track at the Boys' Field and if neither the Punahou or Kapolani Park track is available the meet may fall through for lack of entries. If a man goes to the trouble to get himself in shape it is only natural that he should want to compete on a track where he can do himself the fullest possible justice. The invitation mile walk is sure to be an attractive feature of the program for it will afford a chance for Gibson, who is considered by many to be the fastest mile walker in the Territory to show just how good he is. Dick Sullivan and Ayres will probably be among the entries in this event.

ROSE WILL NOT MEET JOHNSON

SACRAMENTO, January 4.—While visiting the State Capitol Building this morning, Jimmy Coffroth, the fight promoter of San Francisco, came across Ralph Rose, the champion shot-putter, who had just emerged from the Appellate Courtroom after taking the examination for admission to the bar. Coffroth, after shaking hands, buzzed Rose as to what he thought about meeting Jack Jackson. "Now, Jimmy," said Rose, "there is nothing doing and you could not drag me into the ring. The last time I met you was in New York, and then you tried to frame me up to go against Jeff, but there is nothing doing in the fighting game for me. I weigh 280 pounds at the present, and it would be too much work to get rid of some of this avoirdupois that I am carrying around."

ROLLER WANTS MONEY BACK

LOS ANGELES, January 4.—Dr. F. B. Roller, Seattle's physician-wrestler, will not meet Al Kaufman before the Jeffries Athletic Club. Some time ago he challenged the winner of the Barry-Kaufman battle and posted \$1000 with a Seattle paper as a forfeit and side bet. In a letter to Baron Long today he asks that the proposed match be called off, giving as his reason that he can secure a more acceptable division of the purse before a Seattle club. Jim Barry, who was defeated by Kaufman Wednesday night, left tonight for New Orleans. His hands are still in bad shape and his face is discolored. His manager says he cannot fight again inside of two months.

SPORTING DATES

BASKETBALL GAME

There will be a basketball game tomorrow night, commencing at 8 o'clock, in the gymnasium of the Y. M. C. A. between the Fort Shafter team and the Normal School aggregation. The public is cordially invited to be present. The game promises to be a good one. The Normal School has a very fair team and that the Fort Shafterites can play the game was amply demonstrated the other night when the boys in khaki won from a strong Y. M. C. A. combination.

OUTRIGGER OFFICERS.

At a meeting of the Outrigger Club held on Thursday afternoon in the rooms of the Promotion Committee, the following officers were elected for the coming year: Alex. Hume Ford, president; H. L. Herbert, vice president; Allan Herbert, second vice president; Henry O'Sullivan, secretary; A. L. C. Atkinson, auditor; Kenneth Atkinson, captain; George Osborne, treasurer. The treasurer reported that the club had a debt of two hundred dollars to meet. The club is to be boomed in the immediate future and a spirited canvass for new members made.

BIFFS

Young Corbett and Phil Brock have been matched to meet again at New Orleans. Billy McCarney, manager of Young Ernie, has called off the match with Packer McFarland. Abe Attell's fondness for gambling has gotten him into a lot of trouble recently on the Pacific Coast. Young Corbett and Jeff Doherty may meet before the Knickerbocker A. C. of Albany, N. Y., in a ten-round bout. The New Orleans promoters have taken the proper stand in declaring that no outsiders shall referee bouts in that city. Cyclone Thompson and Jerry Murphy have been signed to box in Indianapolis Jan. 20, providing, of course, the lid on the game in that city is lifted. The bout between Jack (Twin) Sullivan and Tony Ross, which was to have taken place in Rochester, N. Y., has been postponed till next month. Napoleon Dufresne and Freddie O'Brien of Boston, Mass., fought a twelve-round draw at North Adams, Mass., on Dec. 15, before the North Berkshire Athletic Club. Mickey Gannon, the Pittsburg lightweight, looks like championship material. A battle between Gannon and Paddy Sullivan, of New York, would be worth going a long way to witness. Joe Jeannette, the colored heavyweight, and Willie Lewis, the New York welterweight, are talking of taking a trip to Paris, where boxing is said to be very prosperous at present. They have guaranteed ten battles by the management of the Hippodrome in Gay Paree. Packer McFarland and Freddy Welsh demanded \$4,000 each for their services for boxing at Colma, Cal., on New Year's Day, and as Manager Jimmy Coffroth considered that sum very much in excess of what they would draw, he promptly notified them that the match was off.

SPORTDRIFT

Include in the picked team which will oppose the All-Hawaii tomorrow afternoon at the league park, will be Bob McCorriston, Sam Chillingworth, Leslie, Sing Chong and Olmos. In a practice game of soccer played at Punahou on Thursday afternoon between the High School and Aliolani College, the former were the victors by the score of 2 to 0. With lots of good talent in town it is to be hoped that future fistic matches will be made with some idea as to the equality of the contestants. The Sullivan-Miller got disgusted a great many by its one-sidedness and Promoter Cohen was freely blamed for having foisted such a dish on the unsuspecting public. Joe is an old enough hand at the fight game to know whether a match is a good one or merely an attempt by one of the parties to pull down a comfortable loser's end. If you want to see good clean sport and lots of it take in the walking races on the old Waikiki road tomorrow afternoon.

ABE WAKES UP

GOLDFIELD, Nev., January 15.—Attell knocked out Weeks in the tenth round. The foxy Abe Attell has been under suspicion recently of playing with his opponents and being content to win by the decision rather than by the knockout route. This may have been due either to a cautiousness brought about by lack of training or by a desire to obtain matches more easily by "pulling" and thereby giving the impression that he had gone back. Whatever the reason may have been for his lack of enthusiasm when inside the ropes his attitude made him extremely unpopular with ring-goers and resulted in some very unkind things being said about the little Hebrew scrapper. That he considered it high time to change his tactics is evidenced by his knocking out Freddie Weeks as stated in the above cable.

BASEBALL SATURDAY

There will be a game of baseball at the league ground on Saturday commencing at 3 p. m. between the All-Hawaii nine and a picked team captained by Sam Chillingworth. The game will be well worth seeing for it will bring out the best Honolulu has to offer in the baseball line. There will be no charge for admission.

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind New York and ten to eleven hours behind the clocks in the Europe capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World For the Day Just Ended

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign: It is delivered at the home each night when the whole family has plenty of time to read it. It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read. The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention. It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning. The evening paper presents the news the day it happens. The morning paper the day after. The evening paper presents the news first. The morning paper merely elaborates it. The evening paper prints daylight news. The morning paper takes what is left.

POSITION OF SUPERVISORS

(Continued from Page One.)

to provide against will not stand a moment's investigation. There have been changes in the management of the identical services in this city and these islands without any confusion. Section 146, under which the December appointments were purported to be made, according to common report was not inserted to provide against an interregnum but to be used as an instrument, first, for unduly influencing support in the election, and, secondly, for evading the spirit and defeating the preceding letter of the law requiring the Board's approval of appointments. But, as before shown, the section destroys its own object by requiring the Mayor's appointees to qualify at noon on the Monday in question when it was impossible for them to qualify excepting at a meeting of the Board that itself only took office at the moment stated. Therefore, Section 146 is not to be considered in the present controversy, being nugatory in its own terms.

As anticipated the Mayor called the Board to order on the instant of change from county to municipal regime, and any danger of confusion or suspension of the public services could have been averted by a simple motion adopted by the Board that all holders of jobs under the county should continue on duty until their successors were appointed.

Now as to the Mayor's appointing power. It is admitted by the majority of the Supervisors that the Municipal Act gives the Mayor a general power of appointment of "all officers of the City and County whose election or appointment is not otherwise specially provided or in this charter or by law." Then we look in the charter, which the Mayor seems not to have done, for such officers as may by implication be meant in the provision just quoted.

We find the law silent on the matter. There are no officers of the City and County, other than elective ones, named in the charter. Here are the only sections creating City and County officers, others relating to duties and salaries being confined to this list:

"Section 24. The officers of said City and County shall be a Mayor, a Board of Supervisors, a Sheriff who shall be ex-officio Coroner, a City and County Clerk who shall be ex-officio Clerk of the Board of Supervisors, an Auditor, a Treasurer and a City and County Attorney; all of whom shall be elected at large by the duly qualified electors of said City and County.

"Section 25. In each and every District of said City and County, there shall be a Deputy Sheriff who shall be a person residing in the District for which he is a candidate, and shall be elected by the duly qualified electors of such district."

Where, then, did Mayor-elect Fern find his list of officers to which he made appointments before the City and County government was constituted and began its functions?

Presumably from the salary and payrolls of the County of Oahu. Then we must look up the County Act to find what beneficiaries of county stipend had the rank and position of officers. These are the sections of the sections of the County Act bearing on the search:

"Section 12. The officers of each county shall be a Board of Supervisors, a Sheriff, who shall be ex-officio Coroner, a County Clerk who shall be ex-officio Clerk of the Board of Supervisors, an Auditor, an Assessor and Tax Collector, a County Attorney and a Treasurer; all of whom, except the Supervisors, shall be elected by the duly qualified electors of the County."

"Section 15. All County officers, except as herein provided, shall hold office for two years and until their successors are elected and qualified.

Clause 2 of Section 62 of the County Act gives the Board of Supervisors power "To appoint such subordinate officers as they may deem necessary for the public service."

Now the designation of "officer" is distinct in law. It has been defined by the Supreme Court of Hawaii. In general it means a public servant whose duties are prescribed by statutory law. Another definition I have had from a lawyer holding a judicial position is that an officer in the legal sense is one confirmed in office for a stated period and who cannot be removed excepting for statutory cause. The conditions mentioned do not apply to such "subordinate officers" as the county Board of Supervisors may have deemed "necessary for the public service." There was indeed not one of them whose legal rank was higher than that of an employee of the county except possibly the "Examiner of Chauffeurs" which office was created by Ordinance No. 5 of the County of Oahu. Their functions were not more responsible in any case than those of a foreman or a time keeper.

Probably it was the intention, however, of the Legislature to make such functionaries having some executive duties appointive by the Mayor with the approval of the Board of Supervisors under Section 81, viz:

Section 81. The Mayor, with the approval of the Board of Supervisors,

shall appoint all officers of the City and County whose election or appointment is not otherwise specially provided for in this charter or by law."

Mayor Fern, it may be said in passing, in quoting three lawyers at a recent meeting as agreeing that the Mayor had the appointing power, came to state that the same lawyers agree that the spirit of the law required that the December appointments, notwithstanding the silence of Section 146 on that point, should have been submitted to the Supervisors for their approval.

Our position is that before any officers could have been filled, outside of those named in the charter, or possibly those created by County ordinance, the board of supervisors must have taken some action either to create offices or to continue those "subordinate" ones appointed by the County Supervisors, as the Legislature not having named appointive offices the only other power on earth to do so was the Board of Supervisors. Had a Mayor of the same party as the majority of the Supervisors been elected, that end would have been accomplished through agreement between the Mayor and Supervisors before any appointments were made, followed by their acquiescence, silent or spoken, when the municipal government was fully constituted. The consent of both signified in action would have created such subordinate offices which, though not prescribed, are not forbidden in the charter and have a precedent in the county charter as above quoted. Nay, more, if Mr. Fern had consulted the Supervisors before attempting to make appointments, in all probability an agreement might have been reached which would have served the same end—the rehabilitation of positions deemed necessary for the public service by the action of the municipal legislative body as a whole.

But when it was learned, in good time to be forewarned, that Mayor Fern was proceeding to decide by himself what former county positions should be continued, and to fill those positions by him independent appointment, the majority of the Board set about trying to find whence his list of officers was obtained. They could not find any in the law except probably that of Examiner of Chauffeurs created by ordinance No. 5 of the County of Oahu, referred to above and their next search was to find a legal way of escape from a deadlock in the public service. This they found under legal direction in a plan by which the Board of Supervisors should immediately on taking office assume control over the various services of the municipality.

We admit the Mayor's appointing

power, subject to the Board's approval, whenever an office is to be filled whose incumbent is an officer in the judicially declared sense. But, since the Mayor has declined to consider any agreement involving the submission of his appointments to the Board, the Board will be able to get along under its rules, until these are declared illegal by a competent tribunal if that should happen, and give the public efficient service through such skilled and unskilled labor as it may employ.

Why, coming to the concrete, should it be thought daring or revolutionary for the people's representatives in the municipal legislative body to assume control of the various public services involved in the charter? Until events show the contrary, the Board of the municipality has a claim on the confidence of the people equal to that which the Board of the county had. There has been no division of the Hawaiian government under any regime with more autocratic power reposed in its head than the Board of Health or the Board of Education. Yet members of each of those bodies have always had either the appointment or the approval of appointment of all subordinate officers and employees in their respective departments. As successors to the county Supervisors the municipal Supervisors, providing as has been shown the charter does not designate subordinate officers to carry on the public services, certainly have the power to devise and execute methods of doing so.

Finally, the Supervisors had it put up to them to challenge the Mayor's claimed powers in the premises when they learned, on unquestionable au-

thority that Mayor Fern was not exercising such powers as a free, independent and public agent, but was accepting the dictation of a political organization as to whom he should appoint.

Senator C. H. Dickey entertained members of the G. A. R. to the number of about twelve on Monday evening, serving them with a genuine old army dinner. The soldiers indulged in reminiscences of the past, each one telling a story of his experiences in the Civil War.

A most interesting and rather important matter is to be sprung at the next meeting of the Promotion Committee in the way of a Hawaiian advertising scheme in the east which will not only pay for itself, but may net a considerable profit to those handling the matter.

The idea is to establish a headquarters on the famous board walk at Atlantic City, New Jersey, where Hawaiian products may be on exhibition and sold, as is done by the Los Angeles Chamber of Commerce.

The Los Angeles Chamber maintain a considerable place on the historic board walk and in the spacious rooms are to be seen the products of the City of the Angels and environs. Orange juice is sold in the form of a refreshing drink and not only are visitors treated to a museum exhibition, but they are afforded opportunities for enjoying the fruits of California and learning all about its advantages.

Hawaii could, thinks W. H. Hoops and others interested, the original idea having been advanced by Secretary H. P. Wood of the Promotion Committee a year or so ago, to very great advantage maintain an attractive establishment in a conspicuous place on the Atlantic City board walk where pineapples, fresh, canned and in the form of syrup and cooling drinks could be sold and served; and where, for example, taro could be received and made into poi for the conversion of many easterners to its beneficial use.

Photographs of these islands and all manner of promotion literature would be available and the place would be made to pay expenses on what was sold in the way of curios, postals, photos, handkerchiefs, pineapples in all conditions, sea-shells, coffee, Hawaii-an souvenir jewelry, Hawaiian music and anything else Hawaiian convenient to sell. A Hawaiian quintet might at the height of the season be stationed there. Public phonographs with Hawaiian records and an occasional moving-picture exhibition or Hawaiian scenes would add to the interest, advertisement and revenue.

The matter is being seriously considered and favorable action is expected.

While no nomination has as yet been received by the Board of Supervisors in regard to Police Court Chinese Interpreter, the indications are after general reference to parties interested and concerned, that Willie Crawford is the man likely to get the position—it is recommended.

The difficulty appears to be a backwardness in recommending him for the appointment, not that those who have to recommend him are unwilling to do so, but for the reason that they anticipate opposition.

One name suggested to the powers was that of Hang Chew, but that name was promptly disapproved in the legal branch of the City and County for the reason that Chew's interpretation was successfully criticised on an important occasion.

Crawford is, from what could be gathered this morning around the City and County headquarters, the most capable man available and he is favored by Judge Andrade and by the County Attorney; that is, he is favored, but has not yet been recommended by Andrade, tho he may yet be.

PLEIADES FROM SEATTLE.

The American-Hawaiian Steamship Pleiades, Captain Armstrong, arrived this morning from Seattle, entering the harbor shortly after the big liner Siberia and docking at the Hackfeld wharf. She had a rather stormy voyage over but no damage to either vessel or cargo. After discharging freight she will take sugar and will then sail for island ports to complete her cargo. This will be early next week.

ANDRADE HESITATES CAVALRY MARCHES

The five hundred men of the Fifth Cavalry are approaching their camp at Leliehua, having left this city with their mounts and equipment early this morning, to ride through mud and rain to what will be their home for several years to come.

The cavalry horses will remain in quarantine at Leliehua for long enough to complete two weeks since their landing here from the S. S. Virginian.

Stables at Leliehua are what may be termed "open work" affairs, designed for tropical climates and these will serve until the concrete permanencies of the future great camp become facts.

With the mounts went quartermaster's drays with accoutrements and stores and other camp material, and the band went, too, though it had been reported that the musicians were to remain here. This, however, may be only temporary. Colonel Schuyler, it is rumored, if General Smith is not assigned to the command of the "Army Oahu," may be appointed head of the forces here with headquarters at Fort Shafter, in which event the band might be placed there. In any event, the report persists that the band will be stationed at Fort Shafter, and as to who is to command this island's forces, the latest reports are, as heretofore exclusively published in The Star, that General Smith will be sent from the mainland to take charge.

Rev. A. C. McKeever begins a second series of talks at the Y. M. C. A. tonight at nine o'clock. The talk tonight is on "Habits." All men welcome.

ACTIVE WORK ON FLORAL PARADE

Active work on arrangements for the Floral Parade program have begun and at the next meeting of the Promotion Committee the business will show some form. President Bowen and H. P. Wood are considering the matter of securing some person to take charge of this year's affair. W. H. Hoops is taking a very active part in the consultations and will put in heavy work for the good of the Promotion Committee. At yesterday's meeting the discussion of the Floral parade was the principal matter. Regular monthly accounts, amounting to \$1,547 were approved.

THE MARINES IN TENTED VILLAGE

Tents were pitched yesterday and today seaward of the immigrant station for the accommodation of the 403 marines brought by the naval transport Buffalo. The tents are in rows, with streets intervening, forming quite a martial spectacle. The marines will camp there until the barracks at Pearl harbor are completed, when about 350 of them will be removed to that place for permanent duty. The headquarters of the local marine forces will remain at Camp Very, however, and a force of 100 men will be kept there all the time which will about double the force heretofore maintained in the city.

THE PACIFIC WEEKLY

The Pacific Weekly will be out bright and early tomorrow morning and the number will be an unusually good one.

That versatile writer C. F. Maxwell, contributes a corking good story called "The Dog Skin Whale," based on the translation of a Maori legend.

Then there is a duck shooting story or long years ago in which a number of local characters figure and will be readily recognized.

"It is Said," appears in quite its old time form and should on no account be missed.

"The Automobile" receives a column of attention and there is a mass of other interesting sporting matter; in fact the number runs rather more to sports than usual.
