

TEACHING FARMERS TO GROW CORN

Uncle Sam Spending Much Time and Money to Get Best Results.

Ask the average farmer if he thinks the "Rag Baby" will be the salvation of the corn crop...

The so-called "Rag Baby" is merely a simple little device for testing seed corn...

The Crop Improvement Committee of the Council of Grain Exchanges is responsible for the introduction of this device.

Now, the average farmer will declare that he knows good seed when he sees it. Or if he can't tell by the looks of it...

"Think of this enormous sum of money going to waste, all for lack of a little discrimination on the part of the farmers in selecting their seed."

Mr. Ball is enthusiastic over the agricultural kindergarten idea. He believes that if the boys and girls can be interested in seed testing it will be possible to interest many farmers...

The latest and most successful way for testing different grades of seed corn is to order to know which grade will work best under local climatic conditions...

When the pile is complete, make a roll of it, being careful not to roll too tightly. The same sort of tape or strings of the same cloth around the roll, about one inch from the end.

If it is kept in a temperature of about 70 degrees, at the end of four or five days the kernels will be ready to sprout.

In scoring, the kernels fall into four classes, as shown in the illustration. No. 1 is dead. No. 2 is weak, having rootlets only.

Finally a day is selected when they are brought back to school for examination and marking. It will be found that some ears are wholly dead, and others too weak to plant.

The Crop Improvement Committee is carrying on an especially active campaign this year, urging the necessity of testing seed corn.

The average ear of seed corn has about eight hundred kernels, each of which should produce a stalk bearing one ear.

When it is considered that it takes only about twelve ears of corn to plant an acre, and that every poor seed a farmer uses actually costs him between four and five bushels of corn...

Mr. Ball is enthusiastic over the agricultural kindergarten idea. He believes that if the boys and girls can be interested in seed testing it will be possible to interest many farmers...

HILLO SCHOOL TEACHER HURRIES TO COAST

Walking on crutches as a result of a shot fired by Ezra F. Nichols at Hilo last Saturday Dorsey L. Miller, a teacher of the Hilo High School...

LAND APPORTIONED TO MANY APPLICANTS

Oahu Homesteads and Beach Lots Go Like So Many Hot Cakes.

In the midst of a mob of excited, men and women, Land Commissioner Tucker yesterday morning apportioned a large batch of Oahu homesteads among nearly 150 applicants.

The list of the successful applicants for the lands, and the lots they will get follows: 1-William P. Young, Kuliouou 43 and 43.

2-F. Meyer, Jr., Pahoa 33 and 34. 23-Rose Reeves, Kuliouou 40 and 44. 4-Jose Rodriguez, Kuliouou, 41 and 37.

6-Chris Holt, Kuliouou, 45 and 46. 7-Emily A. Watson, Lualualei, 202 and 203. 8-H. E. Peterson, Kuloouou, 47.

10-A. K. Nawa, Kuliouou, 38. 11-Wing Lee Kwai, Kuliouou, 39. 12-Kapua Pake, Pahoa, 46.

16-Caroline Luka, Lualualei, 161 and 162. 23-Abigail K. Kailua, Lualualei, 204 and 205. 27-Emma McCandless, Pahoa, 19B.

34-Kemhemakani Landford, Pahoa, 35 and 41. 38-W. Perry, Jr., Lualualei, 181B. 41-John Mitchell, Aiea, 7 and 8.

44-David Kahuku, Pahoa, 48. 45-Alexander H. Tripp, Lualualei, 179 and 180. 53-Silvester J. Garrida, Aiea 5 and 6.

57-B. Weirich, Aiea 28 and 29. 59-Joseph Frias, Aiea 10 and 11. 65-F. C. Betters, Aiea 15 and 14. 67-Mary O'Sullivan, Aiea 18 and 19.

FILIPINO NAVAL EMPLOYEES MUTINY

Submit Meekly to Arrest When Marines Appear Ready to Shoot if Ordered.

MANILA, June 1.—As a result of a mutiny among Filipino naval employes, on May 22, at Olongapo, a board has been appointed to examine into the causes which led up to it...

This outbreak had been simmering for several months but only occurred on the twenty-second, when, on account of a reduction of yard employes, the commandant ordered the enlisted men of the insular force to water the parks.

They then marched up, seventy-nine strong, to the office of the commandant, who turned them over to the captain of the yard to whom they were told to air their grievances.

This was one of the gravest breaches of discipline that has occurred in a Pacific station and the authorities are determined to deal severely with the mutineers.

CANAL LOAN WIPED OUT; \$100,292,980 IS NEEDED

WASHINGTON, June 6.—The entire proceeds of the Panama canal bonds of 1961 issued less than a year ago have been spent.

The construction of the waterway, like the ordinary expenses of the government, it is expected will be borne by the receipts from customs and internal revenue for months to come.

The total cost of the waterway, it is estimated, will be \$375,200,980. Of this \$274,908,000 has been expended to date.

MUST BRAKE THE "BROKE" NEWS TO TRANSPORTS

The transport service is now affected by the "moneyless" war department, for Captain Game, the local transport officer, has been instructed by cable from Washington to convey the sad news to everybody aboard the troopship expected here from Manila about the Fourth.

The cables which have been sent to army headquarters here have cost several hundred dollars. They are all full of instructions and information telling just how badly the war department is "broke."

GEORGE'S SWORD CUTS CAKE.

PHILADELPHIA, June 6.—"When you wed, Edna, cut your wedding cake with the sword of the father of your country. It will bring you luck and fortune. Treasure this blade with which Washington helped to win our independence."

TO MAKE AVIATION SAFE AS NAVIGATION

NEW YORK, June 5.—Unless the wishes of Orville Wright are overruled by the board of directors of the Wright company, the secret plans of the late Wilbur Wright, father of aviation, to make aerial navigation as safe and practicable as travel by an ocean liner or a railway passenger train, will be carried out by Orville Wright and Alexander Ogilvie, the English aviator, who assisted Orville Wright last fall in making experiments at Kill Devil Hill, North Carolina, with a motorless glider.

This fact became known when it was announced at the offices of the Wright company here that A. F. Barnes, secretary and treasurer of the company, had been summoned today to a conference with Orville Wright. While in New York, five weeks before his death, Wilbur Wright confided to friends that Mr. Ogilvie would probably join him and Orville in perfecting improvements which he was confident would completely revolutionize aviation.

MEXICAN FEDERALS AND REBELS IN SKIRMISH

PUERTO DE PILON, Mexico, June 25.—A sharp skirmish has taken place between the government troops and the rebels. The losses are not known.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

VANCOUVER HEARS OF NEW COLONIAL LINE

VANCOUVER, June 10.—At the board of trade meeting on last night Ewing Buchanan stated that there was a probability that a new cargo steamer service might be established between here and Australia. He is one of a committee that is looking into the possibilities in this direction and a short time ago he had a brief interview with J. H. Welsford of J. H. Welsford & Co., Ltd., Liverpool. Mr. Welsford after conferring with what had been said at this interview wrote to Mr. Buchanan saying that his company which is now deeply interested in the British Columbia coast service and is establishing a service between Canada and Mexico, would give the Dominion government would give the necessary subsidy for three years put on three or four boats equipped with refrigerator space. Mr. Welsford pointed out that as it was understood that these steamers were not to call at Puget Sound points and could only carry cargo to and from the Dominion of Canada. A subsidy would be necessary for three years at least. Mr. Welsford explained that he expected shortly to have an interview with Hon. George E. Foster and would take the matter up with him. The board of trade passed a resolution favoring the granting of a subsidy and a copy of it will be sent to Hon. Mr. Foster.

SULLIVAN HELD.

Frank Sullivan, formerly seaman on the ship Edward Sewall and who recently brought a damage suit against the ship for personal injuries sustained in the sum of \$30,000, was yesterday held to the grand jury by Judge Monsarrat, charged with the theft of \$135 from S. De Freest. His bond was placed at \$1000, which he has so far been unable to arrange for.

EAT WHAT YOU WANT

Tone up Your Stomach to Do Its Work and Stop Starving Yourself.

If you have indigestion, gas on the stomach, sour stomach, acid stomach, belching or heartburn; if you cannot eat substantial, nourishing food without distress, your stomach is weak. As a great deal of your comfort, happiness and success depends on a good digestion, you want to be able to eat anything your appetite craves. Don't try to get relief by cutting down your diet to a starvation basis but strengthen your stomach until you can eat good, nourishing food. What you want is a better digestion, not a poorer diet. Mrs. G. W. Eggleston, of North Topeka, Kans., says: "In my case stomach trouble seemed to follow a run-down condition. What food I ate did not seem to digest but felt like a lump in my stomach. My stomach would bloat with gas and was sour all the time. I was so sore about my body that I could not bear to have my clothes touch me. Later I began to be troubled with rheumatism which settled in my limbs. They were swollen and at times my arms were so stiff that I could not raise them. There was a dull aching pain through the small of my back and for weeks I could not bend over. Nothing seemed to help me, although I tried many remedies, until I began taking Dr. Williams' Pink Pills for Pale People. A few boxes helped me and I continued with them until completely cured of both the stomach trouble and rheumatism. I am now able to do my work and am in good health. Don't go about your treatment blindly but start today to cure your indigestion by using Dr. Williams' Pink Pills. You will find that stomach troubles disappear as soon as the blood is made pure and rich. The value of the tonic treatment with Dr. Williams' Pink Pills is shown by the thousands of cures the pills have made in the various forms of stomach trouble, as acid stomach, nervous dyspepsia, neuralgia of the stomach, gas, and catarrh of the stomach. A booklet, "What to Eat and How to Eat," giving valuable information will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y."

NEW YORK, June 25.—The striking waiters whose efforts have embarrassed half of the larger restaurants and hotels in this city last night declared the strike off.
