## GOVERNOR AND BOARD OF HEALTH.

If Governor Carter had done nothing before to bring him completely in line with the sentiments and desires of the people, he struck the spot on Saturday when he coolly informed the spendthrift Board of Health that if it could not bring its expenditures within the estimates, its members might resign and make way for other people who could. A previous letter, written by the Governor earlier in the week, struck terror to the hearts of the army of grafters in the bureau, and they brought such pressure upon the Board that the chiefs weakened.

In his whine to the Governor, President C B Cooper, of the Board, declares that the only way he can economize is to cut out the store at Kalaupapa (a self sustaining institution) and to cut down the ration allowance to lepers—which is already too small. If any other cuts are made, Dr Cooper declares that he and his colleagues will not be responsible for the consequences. Governor Carter's reply, which is as follows, is of a character that must and will meet with hearty and general approval:

The last recommendations for reductions, enclosed in yours of the 29th ult, I do not believe will be satisfactory to the people of this Territory, nor to its representatives who are about to assemble in a special session of the Legislature.

In the first place, a crisis of this kind is no time to evade responsibility; every government employee should be willing to make some sacrifice, and every citizen should be public spirited and forego condemning those in charge of departments, the efficiency of which, of necessity, has had to be reduced.

Part of your resolution of March 25—"After earnest consideration of the Board, we find that we are unable, after arduous labor in trying to solve the problem, to see our way clear to accept the responsibility for the proper conduct of public health, if the resources of the Board of Health are cut to a lower figure than the statement prepared by the Board," reads as if your Board took the attitude that it could not make further cuts and would not accept the responsibility of any of them.

In order to bring the Territory out of the present intolerable condition of its finances more cuts are necessary, and if any of the members of your Board still feel that they cannot take the responsibility of the Board, they always have the alternative of withdrawing and making way for others who can and will do everything in their power to meet the emergency.

I can hardly believe that you intended to convey the impression that the Board of Health would run its department, in spite of the people and the financial condition of the Territory. The principal cut you propose, that of the Kalaupapa store, is, by your own evidence, not a saving to the Territory; after it is charged to your department, an equal amount appears in government realizations from the sale of goods. This conforms to the usual method of all governments in requiring the expenditures and receipts of all departments to be kept distinct.

Under these circumstances, you have forced me, at the last moment, to make changes in your appropriations, but from the start I have been of the opinion that this could best be done by yourselves.

## THE PEOPLE WILL PAY.

There is one point of the license tax question that has not been discussed. It is this:—Who'll pay the license? It is generally supposed that such a tax would be a direct one upon wholesale, retail merchants and peddlers. Not a bit of it. The wholesale merchant would add whatever percentage of his business, and perhaps a little more, the license tax might cost him to his bill of goods to the retailer. The retailer would add to the price of his goods sold over the counter his share of the license tax as well as whatever was charged up to him by the wholesaler. In this way the people would pay the tax twice over. Then the push cart man and the peddler would have it charged up to them in additional ratio. By the time the people got their goods with a license tax in force they might expect to pay five per cent. more for their goods. The Honolulu merchants are notorious for their ability to overcharge. This originated mainly through the smaller competition that existed in earlier days and through the long credit system that has always been in vogue here. It is an extremely moderate statement to make that the cost of living in Honolulu is at least twenty-five per cent. more than it is in San Francisco. This reduces a monthly salary of one hundred dollars to an equivalent of seventy-five dollars and it is small wonder that the cash discount granted by some stores of five per cent. is seldom called for by customers. An addition

of five per cent., however, due to the imposition of a license tax would never be omitted and the burden of providing this additional revenue for the Territory would fall upon the consumers in every instance.

### Of More Importance.

Setting aside the question whether or not it would be good policy to make jurors serve without pay, Alex. Robertson seems to think that a free jury service means the cremation of the Republican party in this Territory. The ability to pay for such service does not appear to have entered his mind. Our young attorney has only in contemplation a more arduous collection of his fee, which, he says, it is already difficult enough to secure. With the burden of payment of jury fees added to the plaintiff's other troubles the lawyer's prospects would, indeed, become more difficult of solution.

But the broader and more patriotic side of the question involved is the ability of the territory to meet its just dues and obligations. Would it be better to cremate the honesty and integrity of Hawaii rather than to cremate the Republican Party? Of the two, we say most decidedly and emphatically let the Republican Party be cremated, even if the political aspirations of the young attorney are enveloped in the ruins. The fair name of Hawaii is worth far more to us than the survival of any political party, whether it be Republican, Democratic, Home Rule, Mugwump or Socialist.

### Home Rule Tactics.

And so Home Rulers have something up their sleeves, i. e., they want to see Republicans commit themselves to Governor Carter's economic streak as a weapon to be used against them at the next campaign. But Charley Notley, the "Buster Brown" of the Home Rule Executive, who once was an ardent annexationist and Republican, frankly says that "Beckley let the cat out of the bag." In our opinion, no cat was let out of the bag other than the cat of political sense, if one watches closely the course of politics. It is yet to be seen whether the cat is in their bag, or else it is not there, but already at large, because Notley has already admitted that "in view of Carter's attitude and straightforwardness with us," quoting from remarks in the Star of March 22nd last, "I think it was right for Beckley to answer frankly." Their too confiding frankness is what is doing the Home Rulers up and turning quite a few of their following towards the Democratic party. The cat Beckley let out wasn't much to be talked about.

If a Superintendent is needed at the Leper Settlement during only two weeks in each month, it seems that it would be a wise and economical policy to wipe him out entirely and employ a man who is willing to give his entire services to the Government. A big salary is now being wasted through favoritism.

### Forcing Grand Juries.

Evidences of forcing grand juries to indict Kumalae is too evident and plain. The investigation of the House vouchers scandal, if such it may be called, took three or four grand juries, one of which was Federal. It was too clear that an indictment was all that was wanted, and, since they got it, why not bring Kumalae to trial? But no; it is still lagging behind like a cow's tail. Nothing has ever been done towards the Senate, which squandered about \$2,000 of the people's money without any service being rendered. Great, isn't it? All our Circuit Judges must have had their eyes blinded.

### TOPICS OF THE DAY.

A two per cent. assessment for political purposes on top of a five per cent. reduction in salary was a rotten Easter egg for Republican office holders.

The Advertiser has put the test of loyalty plainly up to Dr. Cooper. It remains to be seen whether he is equal to the emergency or is only a political-grafter.

If there is to be no jollying with the legislators by officials during the coming special session, the Governor should be the first one to set the example of non-interference and non-dictation.

The late Patriot W. H. Coney has been succeeded by Graftor Bill 'oogs as secretary to the Republican Committee. Lower and lower is the managemnt of the G. O. P. falling in the estimation of its supporters.

Attorney General Andrews seems to have been putting in a month visiting his friends and relatives in New York. The taxpayers are putting up for the little jaunt just the same and his salary still continues.

If the Republicans have any desire to redeem themselves in the eyes of the people they will wipe out such men as Crabbe, Gilman, Jones, and 'oogs from all voice in the party management. They will have a chance to do so at the primaries.

Legislators should carefully scan the new pay roll that goes to the police department to see how Sheriff Brown has economized in the salaries of the higher paid officials. It should be remembered that Mr. Brown was not the choice of the people for High Sheriff in the County election.

What is Judge Kaulukou hanging on to Maul for? There's no use for him up there; he won't get that Judgeship, and he had better return here. Come back home, John Lot; Aala and the Tenth Precinct, Fifth District, Republican Club is weeping, moaning and groaning for you. That Judgeship belongs to another, and not to the likes of you.

The manner in which Judge Weaver loaded up his land court with unnecessary office-holders before he had any

work for them to do shows that he is a grafter of the graftiest type. It is, moreover, known that during his many idle hours the Judge has worked for the Attorney General's department and it would be interesting to learn whether he rendered any bill for such services and, if so, whether it was paid.

Hilo is kicking, and justly so, at the delay in spending any portion of the loan money on the big island. If Superintendent Holloway has not a large enough force to do the work needed it won't hurt the employees to put in a few hours' night work for a week or two. Better still, he might employ another engineer or draughtsman in place of idlers White and Murray, who do more loafing than any other Government employees in the Capitol building.

A grand jury indictment does not necessarily make an indicted man guilty and he is not so considered until he has been tried and proven guilty of the offense for which he is indicted. On this score we don't think that any party can prevent Representative Kumalae from taking his seat in the House until he has been tried and found guilty. The Advertiser finds him already guilty without a trial by jury, and when the trial does come, that's likely to be packed in order to find him guilty.

When suggesting that Judge Robinson and the other judges should volunteer a reduction in their salaries we forgot that they were paid by the Federal Government and not by the Territory. There is nothing, however, to prevent them from showing a patriotic desire to assist the Territory in its financial difficulties by turning over to the Territorial Treasurer anywhere from twenty to fifty per cent. of such salaries as a Government realization. It could be used to establish a "conscience fund".

In our opinion, no cat was let out of the bag other than the cat of political sense, if one watches closely the course of politics. It is yet to be seen whether the cat is in their bag, or else it is not there, but already at large, because Notley has already admitted that "in view of Carter's attitude and straightforwardness with us," quoting from remarks in the Star of March 22nd last, "I think it was right for Beckley to answer frankly." Their too confiding frankness is what is doing the Home Rulers up and turning quite a few of their following towards the Democratic party. The cat Beckley let out wasn't much to be talked about.

If a Superintendent is needed at the Leper Settlement during only two weeks in each month, it seems that it would be a wise and economical policy to wipe him out entirely and employ a man who is willing to give his entire services to the Government. A big salary is now being wasted through favoritism.

### Forcing Grand Juries.

Evidences of forcing grand juries to indict Kumalae is too evident and plain. The investigation of the House vouchers scandal, if such it may be called, took three or four grand juries, one of which was Federal. It was too clear that an indictment was all that was wanted, and, since they got it, why not bring Kumalae to trial? But no; it is still lagging behind like a cow's tail. Nothing has ever been done towards the Senate, which squandered about \$2,000 of the people's money without any service being rendered. Great, isn't it? All our Circuit Judges must have had their eyes blinded.

### TOPICS OF THE DAY.

A two per cent. assessment for political purposes on top of a five per cent. reduction in salary was a rotten Easter egg for Republican office holders.

The Advertiser has put the test of loyalty plainly up to Dr. Cooper. It remains to be seen whether he is equal to the emergency or is only a political-grafter.

If there is to be no jollying with the legislators by officials during the coming special session, the Governor should be the first one to set the example of non-interference and non-dictation.

The late Patriot W. H. Coney has been succeeded by Graftor Bill 'oogs as secretary to the Republican Committee. Lower and lower is the managemnt of the G. O. P. falling in the estimation of its supporters.

Attorney General Andrews seems to have been putting in a month visiting his friends and relatives in New York. The taxpayers are putting up for the little jaunt just the same and his salary still continues.

If the Republicans have any desire to redeem themselves in the eyes of the people they will wipe out such men as Crabbe, Gilman, Jones, and 'oogs from all voice in the party management. They will have a chance to do so at the primaries.

Legislators should carefully scan the new pay roll that goes to the police department to see how Sheriff Brown has economized in the salaries of the higher paid officials. It should be remembered that Mr. Brown was not the choice of the people for High Sheriff in the County election.

What is Judge Kaulukou hanging on to Maui for? There's no use for him up there; he won't get that Judgeship, and he had better return here. Come back home, John Lot; Aala and the Tenth Precinct, Fifth District, Republican Club is weeping, moaning and groaning for you. That Judgeship belongs to another, and not to the likes of you.

The manner in which Judge Weaver loaded up his land court with unnecessary office-holders before he had any

work for them to do shows that he is a grafter of the graftiest type. It is, moreover, known that during his many idle hours the Judge has worked for the Attorney General's department and it would be interesting to learn whether he rendered any bill for such services and, if so, whether it was paid.

Hilo is kicking, and justly so, at the delay in spending any portion of the loan money on the big island. If Superintendent Holloway has not a large enough force to do the work needed it won't hurt the employees to put in a few hours' night work for a week or two. Better still, he might employ another engineer or draughtsman in place of idlers White and Murray, who do more loafing than any other Government employees in the Capitol building.

A grand jury indictment does not necessarily make an indicted man guilty and he is not so considered until he has been tried and proven guilty of the offense for which he is indicted. On this score we don't think that any party can prevent Representative Kumalae from taking his seat in the House until he has been tried and found guilty. The Advertiser finds him already guilty without a trial by jury, and when the trial does come, that's likely to be packed in order to find him guilty.

When suggesting that Judge Robinson and the other judges should volunteer a reduction in their salaries we forgot that they were paid by the Federal Government and not by the Territory. There is nothing, however, to prevent them from showing a patriotic desire to assist the Territory in its financial difficulties by turning over to the Territorial Treasurer anywhere from twenty to fifty per cent. of such salaries as a Government realization. It could be used to establish a "conscience fund".

**Brown Has a Bill.**

Senator John T Brown, who came over in the Kinau from Hilo, last Saturday, brought with him a county act which he proposes introducing before the special session. He thinks that all of the defects of the former law are eliminated, and adds that the bill will go through "as slick as a cat." It is understood, however, that that or any other county or outside measure will meet with violent opposition by Governor Carter and a large number of members of both houses.
