RULER OF GERMANY PAYS VISIT TO AMERICAN FLEET AT KIEL—WAS DELIGHTED WITH THE SHOWING OF THE VISITING VESSELS—SPOKE IN HIGHEST PRAISE OF SHIPS AND MEN.

Associated Press Cable to the Star.

KIEL, June 25.—Emperor Williams inspected the visiting American fleet today. He expressed himself as delighted with the vessels and spoke in the highest praise of the fleet as well as the personnel of the officers and men. The Emperor was given an ovation by the men of the visiting fleet.

YALE CREWS BEAT HARVARD

WEARERS OF THE BLUE WIN ALL ROWING EVENTS AT NEW LONDON TODAY—RACES CAPTURED IN BRILLIANT STYLE—CONTESTS CAUSED GREAT EXCITEMENT AND WERE WITNESSED BY IMMENSE CROWD.

Associated Press Cable to the Star.

NEW LONDON, June 25.—Yale crews triumphed in all of the rowing events here today. In the three championship races with the Harvard crews, the Yale boats won. The races were witnessed by even larger crowds than attended the events a year ago. The losers made a fine effort to win, but the stroke of the Yale crew proved too much for the wearers of the crimson.

POPE OPENS PUBLIC CONSISTORY.

Associated Press Cable to the Star.

ROME, June 25.—The public Consistory was opened here today. His Holiness was able to preside, as his health was such as to permit him to attend. The various Cardinals of the church are members of the court. A number of important measures of interest to the church will be considered. It is likely that the appointment of a number of new cardinals will be made by the Pope.

PETER TAKES SERBIAN OATH.

Associated Press Cable to the Star.

BELGRADE, June 25.—King Peter I took the oath today as ruler of Serbia. The confirmation of the appointment of the ministers was also a part of the ceremonies. The utmost enthusiasm prevailed during the day. There was the wildest sort of demonstration in honor of the new monarch.

START ON IMPORTANT CRUISE.

Associated Press Cable to the Star.

NEW YORK, June 25.—Some extensive maneuvers are to be undertaken by the American fleet. Today a big fleet consisting of the battleships Alabama, Illinois and Massachusetts, and cruisers Brooklyn and Mayflower sailed for the Azores where the maneuvers will be conducted.

Special interest is attached to this cruise as the intention is to give the battleships some special line of maneuvers according to the latest idea of naval warfare.

ROOSEVELT SENDS FIRST MESSAGE.

Associated Press Cable to the Star.

WASHINGTON, D. C., June 25.—Arrangements have been made whereby President Roosevelt will send the first cablegram over the new American-Philippine cable. The message from the President will be sent to Governor Taft at Manila. It will be sent July 4 on the completion and formal opening of the All-American-Pacific cable.

MORE FLOODS COMING TO KANSAS.

Associated Press Cable to the Star.

TOPEKA, Kan., June 25.—Fears are entertained that a recurrence of the recent terrible floods may be experienced. A cloudburst near here early this morning caused a sudden rise of all the rivers in this vicinity. Great damage has been done to crops and houses. No lives are reported to have been lost.

SUMNER WINS OUT

The John K. Sumner case was decided this morning by one of the longest opinions ever handed down by the Supreme Court here, Justice Perry dissenting in a sixteen-page opinion. The court orders Sumner's money paid to him, declaring the trust deed under which the cash was held to have been revocable. The syllabus is as follows:

"A trust cannot be terminated by the consent of interested parties unless all consent, including possible beneficiaries not yet in being or sui juris.

"Nearest blood relatives' are not the same as heirs and do not include a wife.

"In the absence of exceptional circumstances, a voluntary deed of trust containing no power of revocation, reserving a life interest in the grantor, and with remainders to relatives, is irrevocable.

"But under the exceptional circumstances of this case, the deed is held to be revocable—it having been executed by a weak-minded and easily influenced aged man, for his own convenience, as he supposed, and in consequence of pressure brought to bear upon him by his relative, and there being evidence tending to show that the trustee and other beneficiaries as well as the grantor considered it revocable.

"The burden is on the trustee seeking to recover a portion of an alleged trust fund to see that all necessary parties are brought in and to show that the sum claimed is subject to the trust.

"A trustee of an action may sue for the recovery of trust funds without making the cestuis qui trust parties when his relations with them are not involved.

"In suits by trustees, claimants of very remote and uncertain interests under the trusts need not be made parties.

"A bequest to each of them for the life of the survivors, with a bequest over to the survivor or survivors in case one or two should die before the testator without having lawful issue or wife or husband then surviving, and a further gift over in any event on the death of the survivor of the first there, gives nothing to the issue, wife or husband by implication."

The court reviews at great length the various transactions in which Sumner participated and the records of past litigation. Some rather uncomplimentary language is used in comment upon the actions of those who sought to continue the trust, the court remarking that while they were contending that it was an irrevocable trust, they were "willing enough to participate in its spoliation to the extent of \$62,000." This money should have been paid back if the trust was not terminated, says the court. The court says:

"It doubtless would have been much better for Sumner, considering his infirmities and the activity and avarice of his relatives, if the trust could have been kept intact, for he would then have been assured a good income for the rest of his life, but now that the greater portion of the fund is gone and the rest would soon go to others under the trust, it may be a question whether it would be better for him to keep the balance tied up, giving him the income only, or to let him have it and get what enjoyment he can out of what he is not cheated out of during the brief remainder of his life."

The court says that all the circumstances show that Sumner regarded the trust as revocable and did not intend to finally give up the management of his own affairs. "If there is one thing that he has dreaded, it has been the imputation of insanity," says the decision, and it adds that the late Bishop Gulstan and all others concerned in the case held that the trust was revocable at the time when the \$62,000 of the money was distributed by Sumner among his relatives. Says the decision:

"The six attorneys who represented the various parties at the time of the distribution were of the same opinion, or else they were guilty of deliberately joining in the spoliation of the trust for a share of the booty. The Davises were of that opinion, as they say themselves, and they received \$10,000 of the fund, besides \$5,000 for their attorneys. One thing however, does appear that Sumner then from 82 to 84 years of age, with all his infirmities and burdened with his trials, was then wrestling practically alone with his relentless relatives and their attorneys."

The charges made against one another by attorneys are not discussed by the court. In his dissenting opinion Perry remarks that they are not a part of the issue. Perry holds that the trust was an irrevocable instrument and that it should therefore be kept in force, a new trustee appointed, and the clerk of the court ordered to pay the money to him.

SENATE SUSTAINS THE VETOES

THE UPPER HOUSE IS UNANIMOUS IN TURNING DOWN REPRESENTATIVE WRIGHT'S \$80 CLAIM FOR SERVICE AS AN ATTORNEY—ON OTHER ITEMS THE VOTE WAS GENERALLY TEN TO FIVE.

Governor Dole's vetoes of the various items of the Unpaid bills measure were all sustained by the Senate this morning. The consideration of the governor's vetoes occupied the greater part of the session. Only on one item was the vote unanimous. This was item of \$80 for W. J. Wright. Everybody voted to sustain the veto.

The vote on the other items generally shifted down to ten to five in favor of the vetoes. The Home Rulers voted against the measures.

IROQUOIS LEFT MIDWAY TUESDAY

SUPERINTENDENT GAINES OF CABLE COMPANY RECEIVES NOTICE TODAY THAT U. S. VESSEL HAD COMPLETED WORK AT MIDWAY—SHE IS DUE SUNDAY.—ANGLIA SAILS FOR HONOLULU TOMORROW.

The U. S. S. Iroquois has completed her work at Midway. She is en route to Honolulu from assisting in the landing of the shore end of the Pacific cable. Official notification of this fact was received this morning by Superintendent Gaines of the cable company. The Iroquois sailed from Midway for Honolulu June 22. She went down from Honolulu to Midway in 5 1/2 days. With the wind against her she will require about six days actual steaming time on the way home. She is due therefore Saturday evening and certainly Sunday morning at Honolulu.

There is a chance however that she may not reach this port until next Monday. Captain Rodman expected to stop at Laysan Island en route home. While that island is operated by H. Hackfeld & Company as a guano island it is under the jurisdiction of the Navy Department. Captain Rodman may make a brief visit in order to report to the department regarding the condition of the place.

Superintendent Gaines received information yesterday afternoon that the Guam-Midway cable section of cable had been completed, as had the shore end of the cable between Midway and Honolulu. The cables ship Anglia was not to start for Honolulu until June 26, tomorrow. She is due here July 3.

THOUGHT THEIR TIME HAD COME

KOREA SWERVED INTO NAVAL WHARF THIS MORNING AND BUCKLED STRUCTURE.

A couple of hundred people on Naval Wharf No. 2 got a very bad scare this morning when the S. S. Korea was docking in naval slip No. 1. The big vessel gave them good reason, for she bumped against the wharf so hard as to buckle the flooring and do an extensive amount of damage.

The bow of the vessel was alongside the wharf and about 20 yards from the head of the slip. The bow of the vessel was close to the wharf but the after part of the vessel was slanting out in an Ewa direction from the sea end of the wharf, there being about thirty feet of space from the vessel and the end of the wharf.

The order was given to send the vessel ahead and at the same time she began to slew around toward the wharf in order to lie alongside. The double movement forward and to starboard gave the big craft double momentum. The result was that when she did brush against the sea end of the wharf she did it with a momentum that was practically irresistible.

As the side of the big craft swerved against the wharf, there was a loud crunching, then a louder groaning and cracking of timbers. The people at that part of the wharf felt the asphalt flooring moving up under their feet. For an instant the crowd thought some submarine earthquake was at work. There was no particular damage done the piling but the vessel swerved against the top capping. The flooring was lifted off the piles and buckled. The asphalt was cracked in many places and in several spots, was shoved up in pyramid form to a height of two or three feet.

A wild scramble followed the impact. Great confusion ensued for a time. The vessel slipped away and was soon moored hard and fast.

Captain White the commandant at the Naval station has not estimated the extent of the damage. It is not thought the piling has been damaged. The capping and flooring were buckled and raised at least a foot off the piles. The damage to the asphalt flooring was considerable. The damage has been estimated as high as \$2,000. The Naval people do not think that it will be much over several hundred dollars however.

EDITOR STAR: Will you kindly publish for Pilot Sanders' consideration that I received this request through the Hawaiian News Company, that I call him up by telephone whenever the Alameda or any other ship is sighted; that in the instance he complains of, I did try to ring him up, and was told by the operator that the lines were crossed, and that it was impossible to get him. I then asked the operator to call up Mr. Sanders from "central," and notify him. I could do no more. Pilot Sanders ought to make his complaint to the authority that can remedy the matter. It would be more appropriate. C. PETERSON.

KOREA BROUGHT MANY PEOPLE

HAD 64 CABIN PASSENGERS FOR HONOLULU FROM MAINLAND TODAY—SIX DAYS MAIL.

The S. S. Korea, Captain Seabury, arrived this morning on time from San Francisco with six days later mail and files of the San Francisco papers. The trip was perfect from the start the weather being every thing that could be desired.

The vessel had 235 sacks of mail for Honolulu. She brought 100 tons of freight for this port and has a full cargo for the Orient. The vessel sighted a bark several days ago but could not make out the identity of the sailing vessel. Last night the Korea sighted the Alameda.

As usual, the Korea had a big list of passengers, both for Honolulu as well as the Orient. She brought 64 cabin passengers for Honolulu. Among those returning to Honolulu were some young people from attending school on the Mainland.

Former Attorney-General E. P. Doie returned from a five months absence in the mainland. He successfully represented the Territory in the Osaki Mankichi case before the Supreme court of the United States.

James F. Morgan was a returning passenger from an absence on the mainland of several months.

Mrs. Dr. C. B. Wood and children returned from an extended visit on the mainland.

W. B. Allen of Allen and Company was a returning passenger.

R. W. Chambers who is to start the new drug store arrived. He was accompanied by his family.

A. C. Gehr the promoter of the Hilo-Kohala railway returned to attend the opening ceremonies of the railway on July 4th.

Mrs. N. Rhodes a former resident of Honolulu, returned from several years residence with her daughter Miss A. T. Rhodes, in San Jose. Miss Rhodes also returned to Honolulu.

C. Hedeman of the Honolulu Iron Works returned from a trip to the mainland.

F. W. Klebahn returned from a brief trip to San Francisco on business connected with the steamship interests of the Pacific Mail and other Oriental Steamship lines.

F. T. P. Waterhouse and family returned from a residence in London. He went to England about a year ago, as a representative of the National Cash Register company.

P. Peck returned from Oakland whither he was called some time ago by the serious illness of his brother who subsequently died.

T. J. King of the California Feed Company returned from a seven weeks trip to the coast.

General Charles A. Whittier who did service in the Philippines is going to Shanghai, accompanied by his daughter. He was one of the first army officers to go to Manila during the war, and was subsequently Collector of the Port of Manila.

Allan Cameron is the general manager of the Portland-Oriental S. S. Company. He is going to Hong Kong. Colonel and Mrs. S. A. Day, nee Helen Gardner, will depart from Honolulu on the vessel.

The Korea is scheduled to depart for the Orient at 6 p. m. today.

AT THE PLAY.

The laughable play, "The Private Secretary," which made such a distinct hit at the Orpheum last Tuesday will be repeated next Saturday, June 27. The Lyceum Stock Company has made an auspicious opening in Honolulu and if "The Private Secretary" is a criterion, then its future programs will be well received.

As has been before stated in these columns the company made a most creditable showing.

Kunkel is digging into the dark recesses of his grey matter for new ideas which he can form into rhyme for his original song-specialty. "Said Aaron to Moses." It can be truly said that the specialties introduced are all of a high order.

The Lyceum Stock Company has lived up to its promise to give a clean play and deserves the continued support it has received.

Next week the management has slated the rapid-going, quick-firing, melodrama, "The Judge."

NEARLY RAN VESSEL DOWN.

The barkentine Wrestler tried to sail out of the harbor yesterday about noon, bound for Gray's Harbor. The wind was not strong enough and the vessel narrowly missed running down the Swedish ship Thessalus which was lying anchored in the stream. The Wrestler let go her anchors in time to check her speed. The Fearless then towed the Wrestler out of the harbor.

THE COUNTY ACT.

The County act fight has had its first round and comes up smiling. Judge Gear has decided that that portion of it which refers to the Board of Public Institutions is repugnant to the Organic Act, but he very clearly lays down that a statute may be valid in part and invalid in part and yet the statute may stand. According to Judge Gear's reasoning only that portion of the act which affects the Board of Public Institutions is invalid. The County act, as an act, minus the Board of Public Institutions, stands, according to Judge Gear's theory.

But the end is by no means yet. Appeal proceedings have been commenced and the subject will be argued all over again before the Supreme Court. Eventually the question may be carried to the Supreme Court of the United States. Before the matter is finally threshed out, in its legal aspect, another legislature may be in session, mean time, as stated in yesterday's Star, until the matter is finally adjudicated the statute stands even in its entirety.

Judge Gear's decision does not even destroy the Board of Public Institutions, as long as that board has the power to appeal, it exists and it is now in existence. Thus, not only does the County act still stand minus the Board of Public Institutions, but on appeal it still stands plus the Board of Public Institutions, or in plain words, it at present stands in its entirety.

The members of the legislature who have been alarmed about their act may lay their fears quietly aside. The County act was carefully drawn, and honestly drawn. It was drawn with the full intention that it should become a good workable act. It is a good workable act. It has been attacked in part, and an adverse decision has been rendered as to that part, but it, by no means follows that even that portion of the act is weak, for the decision reached is not final, and it may be reversed, its reasoning may or may not be sound.

That this litigation is most important to the community is self-evident. It is highly important to be satisfied as to the validity of a law which is so radical in its character as the County act, and which changes so thoroughly our entire system of government. The members of the Legislature of 1901 can now appreciate that the drawing of a bill of this character is no child's play. Those gentlemen scissored and pasted a bill which they passed and then roared because the governor vetoed it. They can now see what would have happened to this bill if it had not received the governor's veto. It would have been knocked into a cocked hat, and we should have been left stranded.

The present County act was put together with the very greatest care, and was scrutinized by some of the very best legal talent in the Territory, but even with this there has been a possibility of attack. A carefully drawn document such as the County bill of 1901 was, would have been open to attack from a dozen different quarters. The present County act will stand in spite of the present attack. It has its basis in good law, and has been constructed both with skill and with care. It is no haphazard measure.

PORTO RICO,

Porto Rico is asking for special assistance in the protection of the articles which it exports, and a memorial to Congress upon the subject has been forwarded to our Chamber of Commerce, with the request that its members should co-operate. As far as we are concerned we would like very much to have a bounty upon our coffee, or we should like to see a heavy tariff placed upon foreign grown coffee. Unfortunately Congress does not like paying bounties, and a high tariff on coffee would be hard to pass.

The trade between Porto Rico and the United States has been increasing wonderfully, and the island is very much more prosperous than it was before it became an integral part of the Union. In the year 1898, just before the transfer, the exports were \$2,400,000, in 1902 they had risen to \$8,375,000, and according to calculations based on ten months of the fiscal period, the exports for 1903 will be \$12,000,000, or about five times as much as there were five years ago.

The same tale can be told of the imports. In 1898 there were only one million and a half's worth of goods obtained from the United States. In the next year it was two and a half million, in 1902 it was ten and three-quarter millions, and it is now close on to twelve million. This is a most marvellous growth in both exports and imports, and shows how trade must have gone forward by leaps and bounds. With increasing trade must have come increasing prosperity.

The principal articles of export from Porto Rico are sugar, and confectionery, tobacco, coffee, fruits and nuts. The value of the sugar, &c., exported in ten months was \$6,000,000. Tobacco for ten months was close on to \$2,000,000. Coffee was valued at \$700,000, not a very heavy amount. Of the imports cotton, rice, iron and steel manufactures and provisions form the bulk of the amount. We are fortunate here in that we produce most of our own rice, though we have to import some. Apparently no rice is grown in Porto Rico. The confectionery manufactured in Porto Rico is chiefly guava jelly. We have never been able to have a large market for this product, though some goes to the coast now, but it can hardly be classed as an industry. If Porto Rico produces no rice we produce no tobacco, so honors are easy in that direction.

Porto Rico is interesting to us in many ways. Not only are our products similar, but Porto Rico foreshadows how our population may grow. The island has a less area than Hawaii, and yet it supports a population of close on to a million, while our population can even now, three years after the census was taken, be well below 160,000. The possibilities for an increased population on these islands are immense. We can easily support one million of people. When we do we shall have solved a good many of the problems which bother us at the present time. Whether the Territory will be as pleasant to live in then is quite another matter. Crowded islands are not always agreeable.

A pastorate which has lasted for forty years is certainly a record. The Rev. H. H. Parker has spent forty years of consecutive service at Kawaiaho church. During that time he has ministered to a very large congregation, chiefly, if not entirely composed of Hawaiians. Among Hawaiian scholars Mr. Parker takes first rank, and probably no one understands the Hawaiian character and the Hawaiian language better than he. The Star hopes that the worthy pastor may be spared to celebrate his jubilee anniversary.

The legislature devoted yesterday to talk instead of to work. It was out with frenk resolutions. Kupuhea wanted a little fling at the Governor, but slipped up. Vida was after Marston Campbell, and some other Solon wanted to have a tug of war with the Senate. A House which respected itself

would never allow such resolutions to see the light. But the majority of the present House has no self respect and is utterly without dignity.

Nothing is gained by the resolutions which are for ever cropping up in the House. They have absolutely no effect upon the persons they are aimed at, indeed to have resolutions passed of the character that have been put forward is rather a compliment to a man than otherwise.

The character of the proceedings against Sumner called forth some sharp criticism from Judge De Bolt. He stripped the motives of the litigants here and showed that they were after the old man's money. The Sumner case is really a legal disgrace. The poor old man has really been humiliated and badgered for his money, and it has

all been done under a cloak of solitude for his welfare.

The Minister of the United States joined the other retiring ministers from Belgrade. King Peter, when he is crowned will have very few representatives at the ceremony. Russia and Austria, who have recognized him, may yet withdraw, since they both accompanied their recognition with a request for the punishment of the Regicides. Peter cannot punish them, as he is personally involved in the plot.

Head after head falls during the post office investigation. Now it is an ex-Congressman who has fallen into the clutches of the law. It is rumored in Washington that one or two senators may be implicated. However when there is a scandal of this kind there are always rumors flying round.

Turkey is concentrating one hundred thousand troops at Salonica and Russia is assembling a fleet in the Black Sea. These two facts seem to point to a speedy outbreak. That some blow will be struck soon seems evident. The question is where. Will it be on the Pacific or will it be in Europe. There are elements for a war in both directions.

Governor Bailey of Kansas is opposed to using public funds for charity, but he is quite prepared to favor the construction of roads and bridges, which shows that Governor Bailey has a level head. We may look for some lively use of the veto power during the Kansas extra session.

Analyst Shorey is after the milkmen. If the law permitted the summary up-sewing of the milk into the street, as is done in some places, the milkmen would very soon give up selling adulterated milk. Fines have very little real effect, since enough money is made to pay the fine by the sale of adulterated article.

The fact that the negotiations about Manchuria have come to a deadlock, shows that the hand of Russia is strong in the Imperial Councils at Peking.

There is no fun in passing a County bill and creating new offices if one cannot get hold of them. The members of the legislature are very anxious to know whether they are eligible for election in the counties. If there can't be a continuous legislature, the next best thing would be a County office with pay and pickings.

CARRARA Mixed Paint

Is not an old paint in the sense that it has been in the market for many years, but the pigments used in its manufacture are believed to be old, because they are supposed to represent the re-discovery of the secret of permanent color, thought to have been lost with Michael Angelo, Leonardo da Vinci, Fra Angelico, Correggio, Murillo, Titian, Guido, Raphael and other Old Masters.

CARRARA has been in the market long enough, however to establish the fact that it gives a BETTER FINISH, lasts LONGER, under the most severe tests, covers more surface, and COSTS LESS than the best Lead, Zinc, and Oil.

If you want the Best Effect and the Best Results, USE CARRARA. Of course some people want what came over in the "Mayflower" and think that pure lead, Zinc and Oil Paint is the thing to use because "Grandpa" used it. "Grandpa" was no doubt an authority in his day, and a man of judgment; but if he were alive today, it goes without saying, that he would use CARRARA.

In passing, we may say, that we still have a balance of the OLD KIND OF PAINT, as good as can be made under the old formulas, which we were selling when our knowledge was in the rudimentary stage.

This we can give you at A BARGAIN.

From Father to Son.

Pater had corralled on and was measuring out and cutting off yards of advice calculated to guide youth through life in the straight and narrow path. Son began to think that he would have some few inches left over. The tobacco evil had been dwelt upon and its wicked way pointed out. Son saw a corner of "Dill's Lookout" peeping from Pa's vest pocket. He made no remark for he knew when he was well off.

"And my last words, my son," said Pater, "are, always hold that which is brightest, best, above you, and remember, my boy, that Bath sells the Douglas Patent Closet.

OUR LAWS AFFECT FOREIGN SHIPS

COURT HAS DECIDED THAT "JACK" CAN GET ADVANCE MONEY FROM BRITISH VESSELS

Quite a material victory has been won by American seamen before the Supreme Court of the United States. Notification of the decision was received today by Shipping Commissioner B. Griggs Holt from the Bureau of Navigation.

The decision was given in the case of Patterson et al vs. the British bark Eudora. The Supreme Court holds that Section 24 of Act 21 1898, covering advances and allotments of seamen's

wages is applicable to British as well as American vessels. The full text of the decision will be forwarded later to Mr. Holt.

The United States laws hold that any seaman whether of foreign citizenship or not, can when he ships on an American vessel receive a month's wages in advance. This ruling is made to enable the sailor to settle any outstanding indebtedness that he may have.

The Eudora is a British vessel and was here some time ago. Her master refused to grant the advance, claiming that his vessel was a foreign bottom and the laws of the United States were not applicable to her, in the matter of the seamen's wages. A test case was made, with the result that Jack wins out.

GRANT FOR VICE PRESIDENT. SAN DIEGO, June 18.—The Union will announce tomorrow that U. S. Grant Jr., son of the famous General, is a candidate for the Republican nomination for Vice-President next year, and will immediately inaugurate a vigorous campaign in his interests.

GRANT HAS BEEN A RESIDENT OF THIS CITY for many years and is a large property owner. "Atlantic and Pacific-Roosevelt and Grant" will be the rallying cry of Grant's friends.

NOT WHAT HE EXPECTED. At Sharon springs a countryman stepped up to Mr. Roosevelt and said, "What's the President?"

"Did you wish to see him for anything in particular?" said Mr. Roosevelt, scenting perhaps a joke and perhaps a compliment.

"I never seen but one president in my life an' of course, I would like to see him on gin'ral principles," replied the countryman. "But what I want to see is this one fur mos' particular is to see if he's got them squirrel teeth the papers say he has."

And then and there the president displayed his "squirrel" teeth in the broadest of grins.—Kansas City Journal.

SENATE SUSTAINS THE VETOES

(Continued from Page One.)

Once in a while Senator Nakapahu would break away from the Home Rule ranks and vote to sustain the governor.

There was quite a fight however on the items of pay of police for telephones. Senators J. T. Brown and Kaohi were the leaders of the movement to try and put these items through by overriding the governor. Senator Kaohi said that his son had been paying \$5 for uniforms and telephones for years and the claim was only \$30. This was not enough.

Senator Achi said that the telephones were a great help to the police officers. By having the telephones in their houses, the police were able to avoid having to report daily to the head offices. With the telephones in the houses, the police could report in that way and then remain at home to work in their taro patches or on their small farms. The vetoes were sustained however.

The cause of so much time being taken up with the consideration of the veto message, was that the Senate insisted on taking the ayes and noes on every item.

FINAL TEST FOR NAVAL CADET

Notification that the examination for cadetship to Annapolis was to be conducted at Honolulu was received this morning by Prince Kuhio, as well as by the local Civil Service Board and Captain White, the commandant of the Naval Station.

The examination is to be conducted by the Civil Service Board. Professor A. B. Ingalls, the secretary of the board was told that his board is to conduct the examination. The examination is to last three days. There will be five people examined, the principal and four alternates. In addition to the mental examination, there will be a physical examination. This examination is to be conducted by the medical officer at the local Naval Station and will be conducted as soon as the other examination will have been finished. The traveling expenses of the successful candidate to Annapolis is to be paid by the Navy Department.

On the first day there will be punctuation and capitals, grammar, geography and United States history. This session will last four hours. There will be an intermission of two hours and then world's history, reading and spelling will close the day's work, two hours being devoted to examinations in those studies.

On the second day three hours will be devoted to arithmetic and two hours to algebra. With an intermission of two hours. The next day will close the examination. Only three hours of examination will be required. All of that time will be occupied with geometry. No longer time will be given any of the applicants for their examination.

Professor Ingalls stated that not until he had consulted with Delegate Kuhio would the date or place for holding the examination here be announced. This examination is the final one for admission to the Naval Academy. The papers will be forwarded to the ANAVL cademy immediately on the conclusion of the examination. The marking will be done at Annapolis.

THE OLD MAN FROM MANY A STOOD THEM OFF FROM MANY A CORAL ISLAND

JUDGE DE BOLT SAYS SUMNER IS LIKE OTHERS WITH RELATIVES AND WEALTH.

Judge De Bolt yesterday in his Sumner case decision made the following comments on the old capitalist's predicament:

"I might say further that the Court takes judicial notice of all the litigation and proceedings touching this old man's property interests that have been going on for almost ten years in the courts of this jurisdiction, and I cannot feel—cannot bring my mind to the conclusion—that these present proceedings have been instituted in good faith, so far as the petitioner himself is concerned. I do not think it is love for the old man that operates as the motive therefor—it is the money he has. This old man doubtless is having the same experience as that of many others who have relatives as well as wealth; so far, however, he has been able to stand them off and retain a goodly portion of his property without the assistance of a guardian.

"As an additional reason for holding that these present proceedings were not instituted in good faith on the part of petitioner, I will refer to an affidavit made by him in the matter entitled: John K. Sumner by his next friend Maria S. Davis, vs. Oahu Railway & Land Co., and the Right Reverend Gulstan F. Roper, a bill to set aside a trust deed, sworn to by him on the 19th day of September, 1902, wherein, among other things, petitioner W. S. Ellis, swore that 'The said John K. Sumner is, and, to the knowledge of this affiant always has been, perfectly sane and competent and capable of transacting and managing and attending to his business; that he is, and always has been, a man of unusual physical health and strength and possessed of a shrewd and sound mind; that he may possess some of the infirmities of age, especially in relation to hearing, and that he is not an adept in the use of the English language; but that any charge that he is senile, imbecile, or in any degree or manner improvident, careless or not fully qualified to act for himself, is without foundation in fact and is contradicted by his entire history and by such definite transactions on his part as are within the knowledge of this affiant.' Thus it would seem that his contentions are simply made according to the purposes in view as prompted by self-interest."

MISSIONARY-SCHOONER CARRIE AND ANNIE RETURNS FROM MICRONESIA AFTER A YEAR.

SAN FRANCISCO, June 19.—After a year's cruise among the Gilbert, Marshall and Caroline Islands, the missionary schooner Carrie and Annie reached port yesterday and will be given a thorough overhauling before returning to the islands a few weeks hence. The schooner is owned by the American Board of Commissioners for Foreign Missions, and is under the command of Captain G. C. Mitchell. Rev. A. C. Walkup, a Congregational minister, who has been laboring in the South Sea Islands for twenty-three years, returned as a passenger on the schooner on a periodical visit to his home in Illinois, and expects to go back to the islands on the Carrie and Annie. Miss Louise Wilson of Sonoma, who has been a teacher in the girls' school at Kusaie, Caroline Islands, for ten or eleven years, also returned, on her second visit home. She, too, intends to return to the missionary field. Willie Chanson, the ten-year-old son of a missionary on one of the islands, came with Miss Wilson for the purpose of attending school in this country.

The only news of interest brought by the Carrie and Annie related to the stranded and unknown vessel which was some weeks ago reported as having been seen on one of the Marshall Islands by natives. A number of islanders who board the Carrie and Annie before her departure from the Carolines reported that they had seen the stranded vessel, but had not ascertained her name, even though they had aboard the wreck. No person was found on the wreck, and it was destitute of provisions and small boats, her crew having evidently left the vessel before she went on the reef. No masts were standing hence it is not known whether the hapless vessel was a schooner, bark or ship. She was of wood, however, carried a cargo of lumber, and went ashore on the island of Mille the latter part of March or early in April. The German authorities at Jaluit, Marshall Islands sent the schooner Neptune to investigate the wreck. The Neptune is soon to arrive here.

After leaving here on June 15th last the Carrie and Annie touched at Honolulu, going thence to Butaritari, in the Gilbert group and later to the Carolines During her cruise she had several nar-

row escapes from going ashore. A series of great storms last winter ruined hundreds of bread-fruit trees, and young coconut trees in the islands.

A CONTENTED WOMAN.

Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality and general debility. Modern science furnishes the most successful of remedies for these conditions, namely WAMPOLE'S PREPARATION.

It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures those weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colours the pale faces and rounds out the hollow chests. In a word, it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. Dr. E. J. Boyes says: "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two month's treatment, in which it was the principal remedial agent." It is the typical medicinal success of our age, for time has proved our claims are supported by results, and a remedy which acts in harmony with nature's own efforts and processes. No demand has been made upon it for relief and cure, that has not met with instant response. Effective from the first dose. "You cannot be disappointed in it." At chemists.

OFF FOR A CRUISE. On Saturday the yacht La Paloma will sail from here for a cruise of about a week. As guests of Commodore C. W. Macfarlane will be T. W. Hobron, Frank Halstead, Allan Dunn, J. O. Carter, Jr. The first stop will be made at Kaulakakai, and an incursion inland for some shooting. From Kaulakakai the party will go to Lahaina, and from thence come back to Honolulu.

No Strength
Are you easily tired? Is your work
a burden? Do you often feel weak
and faint? Is your appetite poor?
Are you easily discouraged? Then
your nerves are weak and your blood
impure. Sickness is not far away.

Mr. Frederick Deviens, of Claremont, Cape
Colony, South Africa, sends his photograph
and this letter:
"My blood often becomes impure, causing
eruptions on the skin, and my general system
gets all run down, causing indigestion and
great debility. But I take Ayer's Sarsaparilla,
which quickly drives me out of my troubles.
For all those who are debilitated and
weakened by the long hot summers of our
country, there is no remedy equal to this
grand family medicine."

**MILK DEALERS
DOING BETTER**

DR. SHOREY FINDS THAT THE
NEW LAW MAKES THE MILK-
MEN MORE CAREFUL.

The Board of Health held a regular
meeting yesterday and transacted a
good deal of routine business. Dr.
Shorey's report as food commissioner
for the month of May was received,
containing accounts of work he has
done among milkmen and other pur-
veyors of foods. Dr. Shorey reported
marked improvement in the milk sam-
ples since the reorganization of the
Board under the new laws. His re-
port said, regarding bad samples of the
month:

"These samples with one exception
were all obtained during the first part
of the month, when owing to the pend-
ing reorganization of the Board, I did
not feel sure that I had any authority
to prosecute. Since the present Board
of Health was appointed and the mat-
ter of a new food law was given some
publicity in the papers, the average
of samples examined has been high.

"Milk supplied from the other side
of this island and retailed by A. Lud-
loff has, previous to the passage of the
present food law, contained a preser-
vative, boric acid. The attention of
those interested was drawn to the
clause in the new law prohibiting pre-
servatives of any kind in milk and af-
ter some talk of testing the matter in
court the use of preservatives in this
milk has been discontinued."

Mr. Shorey reports a sample of pear
jam with no adulteration and two sam-
ples of water from the boys' industrial
school at Waialeale too small for com-
plete analysis. His report also says:

"A number of cases of ptomaine
poisoning have been reported includ-
ing salmon, cheese and shrimps, but
I have had the opportunity of exam-
ining only one sample of the suspected
articles, viz: cheese. This was ordi-
nary California cream cheese contain-
ing over 30 per cent butter fat and with
nothing in taste, smell or appearance
to excite suspicion. From about 1 lb.
of this a very small portion of a crys-
talline body was obtained giving the
chemical reactions of tyrotoxin, a
ptomaine sometimes found in cheese,
milk and ice cream. Eating a small
piece of the cheese produces severe
headache and nausea.

"With regard to a lot of canned
goods reported condemned last month
I have been asked why I did not give
the names of the brands and in reply
would say that in this lot were many
brands which are first class goods
when in good condition, but those were
to a certain extent in a state of de-
composition owing to age and careless
handling. Any canned salmon oysters
condensed milk, etc., no matter how
good will become unfit for food in time
especially if moved several times and
stored in a warm place as these were,
and the publication of the brands of
goods which has become unfit for food
in this way would be no guide to the
public and would be unfair to those
handling the same brands in good con-
dition."

A letter was read from Superin-
tendent McVeigh, asking that the permit
of C. Kopena, to stay at the leper set-
tlement as a kokua, be revoked, as he
was lazy and a trouble maker, being
a swipes manufacturer and a drunkard.
He is 67 years of age and married, and
the board decided to give him a warn-
ing and defer action in his case until
the next visit of the board to the set-
tlement.

Paul R. Isenberg, president of the
Dairymen's Association, wrote a letter
inquiring why bids had not been asked
for on the asylum milk supply. The
matter was referred to the asylum
committee for report, after Dr. Cooper
had stated that it had not been cus-
tomary to advertise for bids for milk
since 1891.

The petition of John Robert Holt for
permission to open a coffee shop at Ka-
laupapa was, on the recommendation
of Mr. McVeigh, granted.

A. G. Kullberg petitioned for per-
mission to open a fish market in Hilo. The
president stated the Board could only
deal with markets in existence, and it
was decided to refer Mr. Kullberg to
the Superintendent of Public Works.

A letter was received from George
R. Carter, Secretary of the Territory,
stating that the Executive Council was
not in favor of B. H. Smith's scheme
of establishing drinking fountains for
horses throughout the city. It was
voted to reply to the Secretary of the
Territory in effect that the Board's
jurisdiction only extends to the sani-
tary question of the proposed foun-
tains.

Dr. W. F. Jones sent in an applica-
tion for the position of veterinary sur-
geon at Hilo. The secretary was in-
structed to reply that there being no ap-
propriation in the hands of the Board
for the purpose the application could
not be considered.

HAVE FILED A PROTEST.
A protest against closing Lahaina as
a port of entry has been filed by H.
Hackfeld and Company with Collec-
tor Stackable. The firm ask that the
order to close the port July 1 be ex-
tended until January 1 as they have a
number of coal vessels chartered to
come to Lahaina and to enter at Hono-
lulu or Kahului would cause extra
trouble and expense.

SANKEY HOPELESSLY BLIND.
Associated Press, Morning Service.
NEW YORK, June 24.—Ira D. Sankey
the singer who assisted D. L. Moody
in his great revivals many years ago,
has become hopelessly blind.
On March 20 it was first announced
that Ira D. Sankey, the associate of

the late Dwight L. Moody, the famous
singing evangelist, had become blind
but at that time there were slight
hopes that his eyesight might be re-
stored.

A fact which adds to the pathos of
the case of the famous evangelist and
hymn writer is that Mr. Sankey him-
self does not fully realize the serious-
ness of his condition and believes his
affliction to be only temporary. He
does not even wish his friends to know
of his condition and his relatives have
kept from his knowledge the fact that
his many admirers throughout the
world know that he is blind.

E. S. BOYD,
Commissioner of Public Lands,
Public Lands Office,
June 23rd, 1903.

To Whom It May Concern:

We the undersigned Manufacturers
of Carbonated Beverages have formed
an Association for the mutual protec-
tion of our property, viz: bottles and
cases, the loss of which during the
year last past has been enormous, in
fact to such an extent that we have not
been able to pay more than running ex-
penses.

As a matter of business, we will, on
the 1st day of July, 1903, inaugurate a
system whereby a strict account of bot-
tles delivered to and received from each
dealer in Carbonated Beverages will be
kept, and at the end of each month or
as soon as possible thereafter our au-
thorized agent will balance each bottle
account and should there be a shortage
he will collect for such deficit at the
rate of Five Cents per bottle; we re-
spectfully request each dealer in Car-
bonated Beverages commonly called
"Soda Water" to co-operate with us to
the extent of requiring a deposit of
Five Cents per bottle where said bot-
tles are taken away from their place
of business.

We shall on the above date discon-
tinue the practice which has been in
vogue for some time of giving any
"extra bottles" on each dozen and any
discount on our prices which will be
net. The increase in the cost of mat-
erial and the loss of bottles has forced
us to make this change in our business
methods.

We thank our patrons for their sup-
port in the past and solicit a continuan-
ce of the same under the new con-
ditions.

ASSOCIATED CHARITIES

ANNUAL MEETING OF ORGANIZATION HELD YESTERDAY—REPORT OF THE YEAR'S WORK.

The annual meeting of the Associated Charities was held yesterday afternoon. The officers were re-elected as follows: President, S. E. Dole; First Vice-President, Rev. Alexander Mackintosh; Second Vice-President, Mrs. John Osborne; Secretary, Mrs. J. M. Whitney; Treasurer, Clarence H. Cooke; Mrs. Edith C. Berger, the manager, was given a month's vacation.

The Treasurer's report showed receipts from member's dues \$342, donations \$1178.42, from Dr. Wile's entertainment, \$300.10, making a total of \$1820.52. There was a balance remaining from last year \$133.93 and the disbursements the past year were \$1841.25 leaving a balance on hand of \$112.55.

The manager's report of the work of the year was as follows:

We have added 128 new names to our records this year. 73 of these applications were from single men, 11 from single women, and 44 were family cases. Besides these, there were the many recurrent cases, bringing the total number of persons relieved up to 425. 100 people have received clothing, and 845 meals were furnished. 24 cases were sent to the Queen's Hospital, and 5 to the Home for Incurables, 10 were sent to Kona Orphanage, 5 to the Castle Home for Children, 3 to the Salvation Army Rescue Home, and 1 to the Girls' Industrial School.

One thousand one hundred and seventy-four dollars and fifty-five cents dispensed for the afflicting societies, and \$288.55 for private specific cases, make a total of \$1462.85 dispensed from this office. There were 1507 office interviews, and the Manager has made 90 visits. 20 societies now affiliate with the Associated Charities, and our relations with them and with the institutions furnishing indoor relief have centralized the work and simplified it greatly.

In comparing these figures with previous reports, we find a falling off in the number of new applications, which is easily accounted for. Several thousand people belonging to the working classes have left this country in the last two years, and fewer sailors now come to this port. The Police Department have helped us in the Porto Rican cases by compelling the men either to work or go to prison. And too, four years' work in this office has made us pretty well acquainted with the poor who are always with us. Their cases have been investigated, and the proper societies are giving them regular relief.

The number of institutions giving indoor relief is constantly increasing. The most of them receiving Government aid, making the burden of caring for special cases much lighter for the benevolent few who heretofore have borne it almost alone. Aged foreigners and convalescents still need domiciles, and when these are provided by the Government or otherwise, the care of the dependent in this territory will be comparatively easy.

Several decrepit old men have come to this city in the past year, and in some cases have demanded support. When possible we have promptly sent them back to the country from which they came, asking them to discourage others from leaving their homes for such a purpose. There are two or three men begging in this city for money to bury their dead. Three have applied to this office at different times for money for that purpose, but we have never yet been able to locate the body. Neither has the undertaker. We have no means of knowing how much money these men collect, because those who give do not report to this office, but they must receive some encouragement, or they would cease begging. They apply here only once, always asking for money, and I send them to the undertaker with the assurance that they shall receive the assistance they require. Needless to say they fail to go.

Some very pathetic cases have come to our notice this year. Deserted wives neglected and abused children, old and destitute men and women, and much sickness, suffering and want. But, notwithstanding the hard times, with the prompt, generous and intelligent co-operation of the afflicting societies, and the generous contributions of friends of our work, we have been able to meet all emergencies. It always takes some time to adjust ourselves to new conditions, but the poor have been very ready to see that only those whose cases were very serious could demand much assistance in these hard times. Fortunately the donations of clothing are generous and frequent, being a great help to the needy.

With our system, where each society takes care of its own, the burden is not so great on any one, and can be borne more easily. We were very anxious last September, wondering how we could meet the emergencies of the year. But the end of the year is at hand, with the work done, and no overdrafts.

Following the presentation of the manager's report, Gov. Dole made a brief address, speaking particularly of the change of view of the effect and duty of promiscuous alms-giving, which had followed the study of the sociological effect of it. He said that if Christ were on earth again he would doubtless hold somewhat different ideas regarding it than those he expressed during his mission here, during which he spoke of alms-giving as a duty.

RECONSIDERED SEVERAL ITEMS

SENATE DECIDED AFTER CONSIDERABLE DISCUSSION TO GIVE KAHULUI \$50,000.

Second reading of the Territorial Loan appropriation bill was concluded by the Senate yesterday. It was decided to have third reading of the measure tomorrow. There was quite a fight over several of the items and in the matter of the wharf and landing at Kahului, considerable acrimony was displayed.

Senator Achi moved that this item for \$50,000 which was cut out of the bill the day before be reconsidered. Senator Baldwin spoke in favor of the item. He said that he was working against his own interests in trying to have this measure passed. The people had decided at a mass meeting that they desired this landing and wharf so he would try to have the measure passed.

Considerable discussion followed. Senator McCandless said that Senator Baldwin was working for his own interests in seeking to have this landing located at Kahului. The speaker was called to order both by Senator Baldwin and President Crabbe. The latter said that Senator Baldwin had expressly declared his position on this matter and that the Maui senator was working against his own interests in seeking to have the item reinstated.

Senator McCandless offered an amendment for the government to condemn all of the land along the water front at Kahului. This amendment was killed. An amendment was made to the item of \$50,000 providing that land could be secured for the wharf and landing. The measure then carried.

The item of \$20,000 for a landing at Lahaina reduced to \$10,000 the day before was passed at the original amount. The item of \$20,000 for a landing and wharf at Honouliuli was reconsidered and amended so as to be for a landing at Hilo.

The Kauai delegation reported on the various items of their part of the appropriation, as did a special committee appointed to look after some Maui items. The recommendations of the two committees were followed. The recapitulation of the bill was cut out.

House bill No. 6 making appropriations for the unpaid Territorial expenses to July 1, was taken up but an adjournment was taken until 10 o'clock today before the measure had been concluded.

PASSED ITEMS AS WERE ASKED

SENATE TOOK FAVORABLE ACTION ON REPORTS ON MAUI AND KAUAI ITEMS IN LOAN BILL.

In the Senate yesterday a report was made by the Kauai delegation regarding that island's share of the appropriations under the loan measure. The item of \$13,700 for reconstructing a road from Nawiliwili to Lihue was reduced to \$10,700. The item of \$3,000 for the reconstruction and relocating of roads from Koloa town was raised to \$6,000. The item of \$10,000 for road machinery was reduced to \$6,000, and a new item of \$4,000 for bridges at Kapaa inserted. These recommendations were accepted, the rest of the items being passed as in the bill.

The special committee to report on various Maui items reported in favor of reducing the appropriation of \$50,000 for a road from Nāhiku to Kailua to \$40,000 and striking out the item of \$3,000 for the Keokea-Kihel road. A new item of \$13,000 for constructing and relocating a road from Peahi to Kailua was inserted. All of these changes were made by the Senate.

Favorable report was made on the item of \$5,000 for the construction of a landing at Pukoo. The measure was passed.

Similar action was taken in the matter of the item of \$75,000 for the construction of a fire proof building for the storage of the archives of the government. The House bill appropriating money for the unpaid bills of the Territory to July 1 of the present year was then taken up on second reading. Senator Crabbe had the following items inserted, \$900 to the American-Hawaiian S. S. Company due for overcharge of pilotage fee from January 29, 1901, to August 9, 1903, and \$250 to pay the Hawaii Rifle Association for a building destroyed during the cholera epidemic.

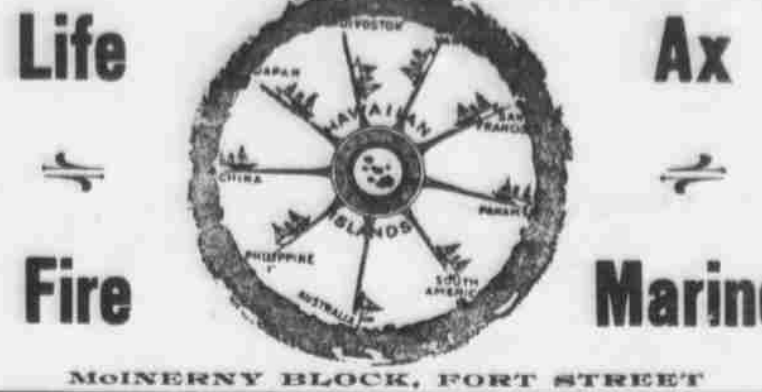

DIED. TSCHUDI—At the Queen's Hospital, Honolulu, June 24, 1903, Mrs. Jennie Tschudi, wife of M. Tschudi, of the custom house, aged forty-two years, and for many years a teacher in the Sunday School of St. Andrew's Cathedral, and a member of the Woman's Guild of St. Andrew's. The funeral was held at 1 o'clock today from the cathedral, the interment being at Pearl City cemetery.

ORGANIC ACT BOTHERS KUPIHEA

PRESENTS A RESOLUTION ASKING THE ATTORNEY GENERAL'S OPINION.

The Organic Act caused a lot of trouble in the House this morning. Kupihea, Paele and Oili appeared to have been reading it and the first named had arrived at a serious doubt as to the legality of the procedure followed so far. Oili also found that the House had been going wrong all the hundred days of the session. Kupihea introduced the following:

"Be it resolved by the House of Representatives that the following questions be submitted to the Attorney General for his official opinion:

"1. Does the Organic Act require that all bills passed by either of the two houses of the legislature should be certified by a 'speaker' in the House of Representatives and by a 'President' in the House of Senate, with their respective clerks? What action or sections in the Organic Act sustain that requirement?"

"2. Does not the Organic Act give

the official name of the presiding officer mentioned in section 17, to be a 'chairman' as given in section 24 and not a 'speaker' or 'president'?"

"I think any of the two houses of the Legislature determine or pass any rule or procedure which is contrary or inconsistent with the Organic Act?" Andrade proposed adding a few questions, asking the Attorney General to tell the House what was the title of the Organic Act and whether it was constitutional. Paele supported the resolution, but it was voted down.

Senate bill No. 9, appropriating current expenses for 18 months after January 1, 1904 was taken up for second reading and Oili objected to reading it item by item, saying that the Organic Act provided that the bills must be read through. Fernandez said that reading item by item was reading through and that the member seemed to think that all the House had to do was read the bill through and then pass it.

"That would be all right—wikiwiki Pau," said Harris.

The house finally took up the bill item by item and the governor's office, passed incidentals, \$750. The secretary of the Territory was given \$2,000, incidentals; \$3,000 state entertainments and ceremonies; \$12,500 expenses of election and \$500 printing and advertising. An item of \$30,000 for the St. Louis Fair, only such part to be used as was necessary to make up balance of the \$30,000 formerly appropriated which remains unspent on January 1, was deferred, some of the members thinking it was appropriating \$30,000 over again.

Under the head of the attorney general's department Harris moved an item of \$5,000 to pay for fighting the fisheries cases in the United States court. It was voted down by a large majority, on motion of Fernandez.

Vida proposed \$12,000 to reimburse the Coney estate for lands taken for the Tantalus road. Harris tried to have it referred to a special committee, but the House wouldn't stand for this and then Harris raised a point of order, that it was a county item and could not go in the territorial current expenses. Beckley sustained the point and the item failed to go in.

FITZSIMONS IS EASILY CONSOLED

HIS ENGAGEMENT TO A CHORUS GIRL ANNOUNCED THROUGH HIS WIFE DIED ONLY RECENTLY.

CHICAGO, June 18.—Bob Fitzsimmons has been knocked down and out by Cupid. The pugilist announced tonight his engagement to Miss Julia May Gifford, prima donna in the "When Johnnie Comes Marching Home" company, now playing at McVicker's Theater. Later Miss Gifford confirmed the story.

"Yes, I am engaged," said the victor of many ring battles. "And to the sweetest little woman in the world. I had known two or three of the girl members of the company to which Miss Gifford belongs, and attended the show at McVicker's a number of times. I fell in love with Miss Gifford when she appeared before the footlights and later when I was introduced to her my affection toward the engagement was rapid.

"I suppose the public will think it is not doing honor to the memory of my wife to fall in love and become engaged so soon after her death, but I am sure if she could know she would approve of the proposed alliance between myself and Miss Gifford. I am lonely and need the affection of a good woman. We do not expect to marry for a year or perhaps two years. Miss Gifford is making a name for herself on the stage and I will not interfere with her career."
