WHAT IS THIS DISEASE THAT IS COMING UPON US?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-coloured, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community where they live show in what estimation the article is held.

John Archer, Hartill, near Sheffield:—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Geo. A. Webb, 141, York Street, Belfast:—I have sold a large quantity, and the parties have testified to its being what you represent it.

J. S. Metcalfe, 55, Highgate, Kendal:—I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many gross.

Robt. G. Gould, 27, High Street, Andover:—I have always take a great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland:—I find that the trade steadily increases. I sell more of your medicines than any other kind.

N. Darroll, Clun, Salop:—All who buy it are pleased, and recommend it.

Jos. Balkwill, A. P. S., Kingsbridge:—The public seem to appreciate their great value.

A. Armstead, Market Street, Dalton-in-Furness:—It is needless for me to say that your valuable medicines have great sale in this district—greater than any other I know of, giving great satisfaction.

Robt. Laine, Melksham:—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

Frickheim, Arbroath, Forfarshire, Sept. 23, 1882. Dear Sir,—Last year I sent you a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced, and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaint and general debility.

A certain minister in my neighbourhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A near friend of mine, who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,
(Signed) William S. Glass, Chemist.
A. J. White, Esq.

15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,
(Signed) N. Webb,
Mr. J. White, Chemist, Calne.

SIDEWALKS.

It is scarcely any use, so far as present prospects of improvement go, to advocate any change for the better in town affairs. Under existing conditions this town is only a sort of side-show to the country. In the United States little villages on the frontiers of civilization are dignified by the title of cities, to the amusement of people from older countries. That is the opposite extreme from the position occupied by Honolulu. There is probably no urban community in America of the size of this one, which has not a system of self-government. Perhaps our system is cheaper than a corporate one, and it has examples to justify it, nominally at least, in such an old country as England. Some day we may be able to give a comparative statement of the relative contributions made by town and country to the treasury, and the expenditures made in each, to show on which side the financial advantage, if any, lies, of the pooled issues of both in matters of government. In any case, however, we shall not stake much upon the ground of cheapness. Civilization does not rest upon cheap qualities, but on the contrary its progress is marked at every step by fresh demands upon wealth, to maintain its increasing dignity and its growing appetite for luxury. One of the most striking anomalies to our mental and physical vision, when in a philosophical mood, is how people strive to surround themselves in their homes with all the comforts and mental and physical delights which our civilization places within reach, and submit, with nothing more than a passing growl or a vanishing expletive, every time they go abroad, to annoyances and hardships innumerable, the results of indifference, indolence, carelessness, and stinginess, singly and collectively, on the part of everybody in general and of nobody in particular. Yet most men are more of the time away from the homes they take such pains in making comfortable and luxurious than they are from the midst of the confusion, dirt, stumbling

blocks and pitfalls of the outside Honolulu. Of course, the reason for the greater part of the difference lies in the fact that the homes are under a system of self-government, administered in each case by one of the naturally-refined sex, while the great beyond is left, in large measure, to the care of everybody and therefore of nobody. This applies to some extent even to cities governed from within, for the best of rules and regulations are allowed to become dead letters unless public interest in the administration of affairs is lively. What arithmetic is equal to the computation, what tongue to the declaration, of the amount of annoyance and injury, the physical violence and the mental disarrangement, occasioned to the inhabitants of this town during every diurnal revolution of the earth, by the irregular, the rough, the broken, the dirty, the narrow, the ill-curbed, the unscientifically graded, the utterly abominable sidewalks throughout the town? Would any system of self-government be too dear that would lead to even a moderate alleviation of human distress from that source—the sidewalks? Can nothing be done under present conditions to improve the disgraceful state of affairs under foot?

EDITORIAL NOTES.

The dumping of the rotten fruit forming part of a damaged cargo on the water front within the town limits, mentioned in our local news yesterday, might properly engage the attention of the health authorities. The thousand unholy smells all along the edge of the harbor are not at all in keeping with the odor of healthful balminess wafted to other climes to lure their inhabitants to our shores.

A few weeks ago we gave a sort of warning that our banana industry was threatened with home competition in California. At yesterday afternoon's session of the Planters' Company, Mr. W. O. Smith made the statement that although the bananas grew finely in Los Angeles, California, they did not bear. There need therefore be no apprehension of immediate danger to the interest of our banana growers from that quarter.

The Guide suggests public action to make proper arrangements for carrying out the aquatic events of the King's Birthday. Several weeks ago we suggested the same thing with regard to the day's celebration as a whole. Only confusion may be expected from leaving such things to the last moment. Part of the day might be devoted to other athletic sports on the plains, or in one of the squares or parks. There might be baseball and football matches, bicycle, tricycle and foot races, etc., all held in conjunction.

Owing to a press of other matters, some points in the public accounts were overlooked in the hastily made comments of yesterday. One thing unnoticed was a shrinkage of \$31,889.48 in the Custom House receipts from the corresponding six months of last year. The receipts from taxes are \$55,510.51 behind, but as less than \$2,000 have been collected, only the tardiness of collectors is signified by the figures. On the other hand there is \$15,699.09 to the credit of "Government realizations," against \$851.38 last year, or over seventeen times as much, and this windfall, together with an increase of \$2,393.50 from stamps, come within one or two thousand dollars of the excess of receipts over expenditure (\$18,952.91) shown by us yesterday. The four items mentioned, however—Custom House, Government realizations, taxes and stamps—show a net shrinkage of \$70,158.78 from the corresponding term last year. And, even, if the taxes were up to last year's, the shrinkage would still be \$14,648.27. As these four items represent the principal sources of revenue of which a comparative statement is afforded, except those which are almost stationary, and include that one which furnishes the best gauge to the state of our foreign trade—the Custom House—the showing is not an encouraging one. Yet another item in the accounts must be added to the evidence that the finances have fallen seriously behind, and

that is the respective balances on hand on April 1st of each year. Last year there was a balance of \$48,250.71, while this year the term was entered upon with but \$2,220.42, and that with a large portion of the appropriations for roads and bridges, etc., belonging to the last period, unexpended.

THE PLANTERS IN COUNCIL.

TUESDAY, OCT. 21st. The morning session was largely occupied with routine business. Mr. Jonathan Austin presented the report of the committee on the Treasurer's accounts, finding them correct and well-kept, with a balance of \$1,370.55 in bank. Unanimously adopted.

Balloting for trustees, with Messrs. J. H. Paty and W. W. Hall as tellers, resulted in the following selection:—Messrs. J. B. Atherton, Jonathan Austin, W. H. Bailey, H. P. Baldwin, S. B. Dole, R. Halstead, R. R. Hind, J. M. Horner, P. C. Jones, J. L. Richardson, W. H. Rickard, W. O. Smith and G. N. Wilcox.

At the afternoon session the trustees reported the following named office-bearers:—President, Mr. Jonathan Austin; Vice-President, Mr. S. B. Dole; Secretary, Mr. W. O. Smith; Treasurer, Mr. P. C. Jones; Auditor, Mr. J. B. Atherton.

A discussion as to the best method for raising funds—\$4,000 being required for the purposes of the year—ended with a pending motion by Mr. J. M. Horner, seconded by Mr. S. B. Dole, that an assessment of ten cents per ton on the crop of 1884 be levied.

A letter from Mr. Horner was read, urging the necessity of the planters having cheap labor, and, to that end, advocating the admittance of the Chinese. More work should be got out of the laborer planter now has, by teaching the laborer to use his strength to better advantage.

The Committee on Machinery reported. Trials of the Jarvis furnace had not in all cases yielded results favorable to it. The burning of green trash and the crushing of cane were matters still under investigation.

Mr. P. C. Jones read a paper on the diffusion process, which elicited some discussion. He advised the Company to devote \$20,000 to a trial of it. Mr. Davies said that Mr. Hart, of Kohala, intended to import a diffusion plant from Germany. Mr. Schaefer thought all needed information about the process could be got from Java by correspondence. Mr. Davies said that the "saturation" process was being tried at the Waiakea mill, with prospects of success. By it the crushed cane after leaving the main rolls is brought under a shower of hot water and then passed under another pair of rolls.

Mr. W. R. Castle presented the report of the Committee on Legislation. The Committee had held themselves aloof from political discussion, believing it was out of their province, but had nevertheless interested themselves in legislation. They had taken action in regard to the currency question, Chinese registration, diseases of animals and the establishment of a chair of natural sciences, with good effect in each case. Attention of planters was directed to the law relating to the registration of births and marriages. Planters had been relieved of some expense by the abolition of tuition fees for laborers' children. Liberal appropriations for internal improvements were not expected to have great results, owing to the depleted condition of the treasury. There was hope in the election of men to the Legislature who could not be bought with free lunches or a poi contract. Oppression was complained of in the system of taxation, whereby not only were the growing sugar crops taxed, but also their product of sugar and molasses.

An interesting discussion upon the report of the Forestry Committee engaged the Company during the remainder of the afternoon. It ended with a motion directing the Secretary to draw up a resolution of thanks to Mr. Jaeger, superintendent of the public nurseries, for his self-sacrificing interest and labors in the promotion of forest cultivation.

WEDNESDAY, OCT. 22nd. After the meeting opened this morning, the trustees reported that

they had resolved to levy an assessment of 25cts. a share to raise funds. The Secretary presented draft of resolution of thanks to Mr. Jaeger, for his services to forestry, which was adopted.

Mr. T. H. Davies presented a draft of memorial to the Minister of the Interior on the subject of immigration. It urged the necessity of a vigorous immigration policy, and recommended, if the Japanese scheme proved inadequate, that the Chinese be admitted. Messrs. the President, J. M. Horner, A. Unna and T. H. Davies were appointed a committee to present the memorial.

Mr. Horner presented the report of the Committee on Transportation, that is, the carrying of cane from the field to the mill. Mr. Walsh read a paper on the same subject, giving the experience on Paia plantation. There was a lively discussion of the several points raised, and the report was ordered to be published, also Mr. Walsh's paper as a supplement to it.

The report of the Committee on Fertilizers and Seed Cane was called for, but not forthcoming. The Secretary said that there was only one member of the committee present (Mr. Halstead), and the latter had informed him that all he had to submit was a recommendation of bone-meal with a sample. Mr. Walsh said the bone-meal was a failure on Paia plantation. The President's experience had been that bone-meal was useful on cane, but had no perceptible effect on rattoons. He thought it helped the cane in his case by correcting acidity in the soil. Its use made the sprouting more regular. Mr. Marsden had found the skimmings from the mud press very beneficial on the crop.

Mr. W. O. Smith, Secretary, presented a report on Statistics. He explained that it was very incomplete and meagre, as his circulars had not been generally attended to. When more replies were received, which he expected, a fuller report would be prepared and published in the Monthly. His report was adopted and ordered to be published.

The meeting took a recess from 11.45 till 2 o'clock.

The long looked for opening of this store will be on Monday, Sept. 15th, with a full stock of

Confectionery, Soda Water, And Tobaccos.

ROBT. DONNOLLY, manufacturer of Soda Water, Ginger Beer, Root Beer and Spruce Beer, will offer to the public on Monday, cooling drinks superior to any in the Hawaiian Islands. The drinks mentioned above are manufactured at my Arctic Soda Cottage. One trial of my Arctic Soda will pronounce it the best in the city. My syrups are imported from London, comprise the choicest of English fruits, namely—Gooseberry, Cherry, Pear, Raspberry, Strawberry, Lemon, Red Currant, Black Currant and Pine Apple, Sarsaparilla, Ginger, Orange and Vanilla. Any of these fruits at 5 cts per Glass.

My motto is, to give a superior article even if it cost more, and thereby ensure speedy sales.

With my GINGER BEER, ROOT BEER and SPRUCE BEER, I have been at a heavy expense experimenting on them, so as to give the public drinks that will be both strengthening and refreshing in this climate. I guarantee them strictly VEGETABLE, no MINERALS employed. I use some of the finest medicinal herbs that grow in the States. The public wants a drink with some nutriment in it, this you find in my beers that strengthen the body as well as dilute the blood for purposes of a more easy flow through the system. They can be taken by any one as they are absolutely pure. They are the most enjoyable thirst quenchers ever introduced. I will sell them at prices to suit one and all.

Superior Genger Beer, 10c. per bottle. Donnolly's Root Beer, " " " Donnolly's Spruce Beer, " " "

"BAZAAR."

(Thoroughbred.)

By Jack Malone, he by Lexington, 1st dam, Ivy Leaf, by imported Australian; 2nd dam, Bay Flower, by Lexington; 3rd dam, Bay Leaf, by imported Yorkshire; 4th dam, Imported Maria Black, by Philo da Putah, etc., etc.

Bazaar was bred at the great Woodburn Farm, near Lexington, Ky., by the late R. A. Alexander, and was sold to W. L. Pritchard, of Sacramento, Cal., for \$5,000. He stands 15 1/2 hands, weighs 1,065 lbs., and is a bright chestnut color. During his racing career he downed many a favorite, and won many a hatful of money for his owners, and proved himself one of the greatest of horses over a distance, most of his races being at two and four miles. He has already sired several colts in California that are winners, among which are Lizzie Dunbar, Young Bazaar, Sophia, and another called the Bazaar Minerva Colt, he being out of Minerva by imported Lexington, the sire of Parole and Iroquois. Lizzie Dunbar greatly distinguished herself last year in her two-year-old form by defeating one of the largest fields of two-year-olds that ever started in California, among which were the two beautiful fillies brought here last Spring by Mr. Agnew, distance 5/8 mile; time, 1:04 1/2, the fastest time on record for two-year-olds at the distance. This year she has won several important events, and has proved herself to be a crack three-year-old.

Bazaar has now been brought back to Honolulu, and will remain here the balance of this year, and breeders, horse owners and stock raisers should avail themselves of the opportunity to obtain his services while they have the chance. Terms, \$40. Payable at time of service.

The imported Clydesdale Stallion Donald Dinnie, Jr., will stand at the same time and place at \$30 for the season. He was bred in Canada, sired by imported Donald Dinnie, and out of an imported Clydesdale mare. He is a beautiful dapple grey, 16 hands high, and weighs 1,400 lbs.; is very active, and as fine a large horse as could be found anywhere.

Also, the fine large imported Kentucky Jack Sampson. This is one of the largest Jacks that we could find in California, and is an animal of immense bone; is a very sure breeder, and should be liberally patronized, as he is one of the very best animals of his kind. Terms, \$30 for the season.

The public are cordially invited to call and inspect the above animals.

THE SICK READER RECOVERING.

EDITOR BULLETIN:—I have to thank you for two things: first, for having done me the honor to insert my last scrawl; second, and especially, for replying to it. I confess, your reply breaks me all up and leaves me legless; but I don't feel a bit hurt. Why didn't you pitch into me hammer and tongs, and call me an ignoramus, a know-nothing, a fool, a blockhead, a dangerous lunatic, an enemy to good government, a man bad at heart, and lots of other hard names? I see you have a great deal to learn yet. You are a stranger in this country. By the time you have been here a year you will have learnt that the Honolulu style is to abuse and curse a man who dares utter an opinion adverse to your own, especially if it be about politics. To treat such a man as a gentleman, and meet his views with calm and logical arguments, is contrary to the fitness of things, is casting pearls before pigs. It won't do to import here any of your Montreal and Nova Scotia notions of showing any measure of consideration for those who differ from you. Honolulu newspaper method of criticism is centuries in advance of old, slow-going, respectable countries. Believe me, Mr. Editor, you will have to read up a little Billings-gate literature, and learn to scatter mud around in all directions, or you had better shut up shop.

I once wrote a piece for the Advertiser, one of those communicated pieces. It was a great effort. Many sleepless nights, half smothered in pools of ink and devoted to terrible combats with dictionaries and grammars, I spent in its preparation. When completed, I gazed on the manuscript with boundless admiration, and thought it a work of unquestionable perfection. Its substance was an expression of my views on the then political situation, which views were not altogether in "accord" (as the government folks say) with the other papers; and didn't those papers go for me! They called me all the bad names that can't be found in any decent dictionary—I was a liar, and a cheat, and a scoundrel, and a pick-pocket, and an aider and abettor of all the misdeeds of this wicked little world of Honolulu. They were ready to swallow me alive, if they could only put their paws on me. But I chanced to be one of those "cowardly anonymous writers" who haven't the pluck to sign their names to their "senseless chubbions." This was my only safety. They wondered and guessed who the crack-brained idiot could be, but hit the wrong man every time. I was dreadfully afraid the "Zoo" people would give me away, and, to keep on the right side of them, went sneaking around there at night time with pockets full of choice cigars. Of course, I didn't dare venture within a block of that establishment by daylight. The cigars did their work, and the benzine helped some, and the secret was kept. But I can tell you it is hard to imagine the trouble of soul I endured for about two weeks, with the dread of some great impending calamity pent up in my breast. When the papers had exhausted their fury on the "cowardly anonymist," and I had partially recovered my breath, I discovered that my nervous system had received such a shock that I couldn't, to save my head, determine where my proper place was—whether it was breaking stones on the roads, struggling to release myself from a strait-jacket at the Lunatic Asylum, or dangling from the gallows on the Reef. One thing only could I decide with certainty, that my character was too black to permit of my ever being admitted to membership in respectable society; and from that time to the present I have always looked upon myself as a suspicious person, to be kept under perpetual surveillance of the police.

Now, Mr. Editor, you see why I am so grateful to you. Instead of taking it for granted right away that I am a blockhead, and piling venom on my head by the bucketful—scum, dregs, and all—you gratuitously assume that I am a rational creature, and proceed at once to talk to me in a cool, logical, temperate kind of way. This gives me a new experience. I don't feel terror-stricken, or wounded, or pugilistic one particle, but quite peaceful and happy. The spirit of your reply is unobjectionable, and by its arguments I am "almost persuaded" that you are right. Just come around to Bachelors' Hall some evening, and we will drink your health in a glass of Hollister's ginger ale, and plug it down with a chunk of Horn's sponge cake; for that heroic dose of yours has done me good; I'm recovering; I'm not now so much of

A SKILFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is peculiar indigestible distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferers feel tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whirling sensation, and he is obliged to grasp something firm to keep from falling. The bowels become constipated, and hot at times; the skin becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farrington-road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November, 29th, 1881. Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly, Mr. A. J. White. William Brent. September 8th, 1883. Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "God-send to dyspeptic people." I always recommended it with confidence. Faithfully yours, (Signed) Vincent A. Willis, Chemist-dentist, Merthyr Tydfil.

To Mr. A. J. White, Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure constipation. Spanish Town, Jamaica, West Indies, Oct. 24, 1882. Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men," and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir, Yours ever gratefully, (Signed) Carey B. Berry, A. J. White, Esq. Baptist Missionary. Preston, Sept. 21st, 1883. My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible. The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it." The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great. I am, dear Sir, yours faithfully, (Signed) W. Bowker. To A. J. White, Esq., Hensingham, Whitehaven, Oct. 16, 1882. Mr. A. J. White,—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health—I remain, yours respectfully, (Signed) John H. Lightfoot. 753 1/2 y 3
