DAN LOGAN, Editor  
WREAY TAYLOR, Local Reporter  
JAS. G. CLEVERLY, Manager

### WHAT IS THIS DISEASE THAT IS COMING UPON US?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-coloured, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is sought that nearly one-third of the population has this disease in some of its varied forms. It has been found that medical men have mistaken the name of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various modes of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community where they live show in what estimation the article is held.

John Archer, Harthill, near Sheffield:—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Geo. A. Webb, 141, York Street, Belfast:—I have sold a large quantity, and the parties have testified to its being what you represent it.

J. S. Metcalfe, 55, Highgate, Kendal:—I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many gross.

Robt. G. Gould, 27, High Street, Andover:—I have always take a great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland:—I find that the trade steadily increases. I sell more of your medicines than any other kind.

Frickheim, Arbroath, Forfarshire, Sept. 23, 1882. Dear Sir,—Last year I sent you a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced, and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaints and general debility.

N. D. Droll, Clun, Salop:—All who buy it are pleased, and recommend it.

Jos. Balkwill, A. P. S., Kingsbridge:—The public seem to appreciate their great value.

A. Armstead, Market Street, Dalton-in-Furness:—It is needless for me to say that your valuable medicines have great sale in this district—greater than any other I know of, giving great satisfaction.

Robt. Laine, Melksham:—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

A certain minister in my neighbourhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A near friend of mine, who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

## New Goods!

Band, Hawaiian Hotel, 7:30.

**AN AMERICAN CONSERVATIVE LAND POLICY.**

A conservative policy with regard to the public domain has forced itself upon the United States Congress. The pre-emption desert land and the timber culture laws have been repealed, and the homestead law has been amended. Under each of those three laws it was possible for one person to obtain 160 acres of land, or 480 acres in all. Under the desert reclamation law good agricultural lands were taken contrary to the intent of the measure. The timber culture law came short of its intended object and opened a door to fraudulent operations similar to those practised under the other law just mentioned. An amendment to the homestead law, under which also abuses grew up, "provides that no public lands, except abandoned military or other reservations, mineral lands and other lands the sale of which has been authorized by special acts of Congress, shall be sold at public auction or by special private entry." Rights begun to be acquired before the law was amended are to be respected. The report of the committee on the land bill just passed by the Senate contains the following significant passages:—

"There is a rapidly growing sentiment in this country for the repeal of all laws providing for the disposal of agricultural public lands, except the homestead law, that the public domain shall hereafter be reserved for homes for settlers. The committee is of the opinion that this should be the future policy of the Government. Even if settlers are restricted to 160 acres of land, it would be but comparatively a few years before all the public lands suitable for homes will be exhausted."

"The practical exhaustion of our public domain will force upon the attention of the people of this country new, important and difficult questions, and in the opinion of the committee the time when our rapidly increasing population, instead of being able to take up homesteads on public lands and make homes for themselves, shall be compelled to find homes in our overcrowded cities, should, by wise legislation, be postponed as long as possible."

Not many years ago any apprehensions of a not remote time, when room would be straitened for population in the vast domains of the United States, would have been scouted as the dreams of a pessimist. Yet even now, early in the first quarter of the nation's second century, while people are living to whom Ohio was the "Far West," the national councils are brought to face the but lately unthought-of emergency. Very liberal, and, to tell the truth, somewhat loose settlement laws, a most lavish endowment of railways, and, latterly, the leaving the door open for the most unconscionable and extensive land grabbing, on the part of New World monopolists and Old World aristocrats, have combined to bring the nation to this pass. Late as it is, it is re-assuring to the people of America that the colossal prodigality heretofore obtaining in the disposal of their own and their children's heritage is going to be, if possible, put an end to. The example of our big neighbor is one that should be laid to heart by this Kingdom. Perhaps in no country in the world, proportionately to the population and extent of territory, is the land parcelled out so unequally, and so regardlessly of national interests, as in these Hawaiian Islands. The statesman of the future will have to engage this great wrong in a life and death struggle. For a country wholly dependent upon its soil, there can be no question paramount to the land question.

**EDITORIAL NOTES.**

Elsewhere an article upon, "What Constitutes Good Mortar," is republished by request for the edification of builders.

If the Kapiolani Park Association has no business of sufficient importance to procure a quorum, the reasonable inference is that there are no improvements wanted in the park and the money voted for it in the Legislature may be saved to buy more genealogy.

**HARRISON—NOTT.**

A wondrous feat has the parson not wrought? He's tied a knot and made a Nott not Nott.

Last evening the Rev. J. A. Cruzan united in the holy bonds of matrimony a pair of the most amiable and popular young people in the town—Mr. Fred. Harrison and Miss Emma Victoria Nott. The ceremony and festivities following took place at the house of the bride's parents, Mr. and Mrs. John Nott, on King Street. Some extra interest had attached to the event owing to its having had to be postponed from an earlier date, owing to an unfortunate accident happening the bridegroom while responding, as one of our gallant firemen, to a fire alarm. The wedding was joyfully celebrated by a large company, the majority of which was composed of young "fair women and brave men," including many of the father's and groom's fellow fire-fighters. Minister Gulick and wife and a number of venerable sires and dames made up the balance. Seldom has a finer illumination been seen here than that arranged by Mr. McGuire, fire marshal, in the front of the residence. Festoons of Oriental lanterns formed a resplendent avenue all the way from the street to the house. The front of the house was one great chromatic blaze from over a hundred lanterns, arrayed in the most effective order. Flower-trimmed arches of palm leaves made the portals entrancing, and the interior of the house was beautifully decorated. The parlor where the ceremony took place was hung in rare taste with palms, roses, honeysuckles and other flowers and foliage. At half-past seven, the appointed hour, the bride and groom entered, attended by the bridesmaid and groomsmen—Mr. E. B. Hopkins and Miss Harrison—and in a few minutes the Rev. Mr. Cruzan had performed the rite and proclaimed the twain husband and wife. After congratulations, the parlor was cleared for dancing, which was carried on with zest by the young people until about midnight, to the strains of soft and agreeable music. There was no lack of enjoyment, either, for non-dancers, and a more pleasant company it would be difficult to gather. An abundant collation was spread in a large wing of the house, and refreshments, staple and dainty, were in order throughout the evening. The young couple thus starting upon their united course through life are happy in the good wishes of all who know, and only know to esteem, them.

**WHAT CONSTITUTES GOOD MORTAR.**

Machinists and engineers often have occasion to use mortar, and will value the appended information: Good mortar is a solid silicate of lime, that is, the lime unites with silica or sand to form a silicate of lime. In ancient days those who had some conception of the way the two things united superintended their mixing; nowadays anybody is supposed to know how to make

mortar, while nobody knows much about it. Dry lime and dry sand laid together or mixed and kept dry for a thousand years would not unite to form silicate of lime any more than acetic acid and carbonate of soda dry in a bottle would effervesce. To make silicate of lime just as good as was made by the Romans, all that is necessary is to proceed intelligently: Procure good caustic, i. e., fresh-burned lime, and if you find it all powder, i. e., air slaked, don't use it, use only clear lumps. Slake this (if possible in a covered vessel), using only enough water to cause the lime to form a powder. To this while hot add clean sand—not dirt and loam called sand, but sand—and with the sand add enough water to form a paste. Then let it lie where it will not become dry by evaporation, if in a cellar so much the better; for as soon as you have mixed the sand and lime as above, they begin to react one on the other, and if not stopped by being deprived of moisture will go on reacting until silicate of lime (as hard as any silicate of lime ever was) is formed.

But if you take this so-called mortar as soon as made, and lay bricks with it, unless the bricks are thoroughly wet, you stop the formation of silicate of lime, and might as well lay your bricks in mud. Lime and sand, after being mixed, might lie two years with advantage, and for certain uses, such as boiler setting, or where the whole structure is of brick and mortar, the mortar ought to be mixed for one year before use, and two would be better; but for house building, if the bricks are so wetted as not to rob the mortar of its moisture as soon as used, mortar that has been mixed a month will form good solid silicate of lime among the bricks it is laid with in ten years. The practice of mixing mortar in the streets and using it at once is as foolish as it is ignorant, and would be no improvement. Silicate of lime is made only by the slow action of caustic lime and sand, one on the other—under the influence of moisture. Dry, they never will unite, and mixing mortar as now mixed and using it at once, so as to dry it out and stop the formation that the mixing induced, is wrong.—Sel.

**Auction Sale.**

Wednesday, Feb. 4th,  
At 10 a. m., at the Store,

MARRIED.

At the residence of the bride's parents, Honolulu, Jan. 29th, by the Rev. J. A. Cruzan, Mr. Fred. Harrison to Miss Emma Victoria Nott, daughter of Mr. and Mrs. John Nott.

LOCAL & GENERAL NEWS.

This is ladies' night at the skating rink. No band concert at Emma Square to-morrow afternoon.

EARLY this morning it was cold enough to wear an overcoat. The steamer Kinau may be looked for early to-morrow morning.

A KEY found at the skating rink awaits an owner at this office. COLONEL SPRECKELS will probably leave by the Alameda to-morrow.

MR. George Gray Macfarlane leaves by the Alameda to-morrow. MRS. Governor Kinkead returned from Hawaii this morning by the W. G. Hall.

THE Supreme Court will sit in Banco to-morrow, and then adjourn the session. THE Alameda will take to-morrow about 2200 tons of cargo besides 2000 bunches of bananas.

THE South Sea Islanders occupy quarters at the Immigration depot, Kakaako. THE Hawaiian Mission Children's Society will meet at the residence of Dr. Hyde, to-morrow evening, at 7:30 o'clock.

JACOB Sims, the pedestrian, is now proprietor of a boot blacking stand, at the entrance to the Union Saloon. THE annual meeting of the Honolulu Athletic Association will be held in the Gymnasium, Monday evening.

MAX Eckart, the jeweller, is moving into more commodious premises in Campbell's Block, next to J. E. Wiseman's office.

THE S. S. Alameda sails at noon to-morrow for San Francisco. Letter writers should take notice that the mail closes at 10 o'clock.

THE meeting of the Kapiolani Park Association yesterday was adjourned for one year, there not being a quorum of members present.

THERE was a large gathering at Emma Square concert last night, and frequent applause indicated appreciation of the excellent music.

MADAME CORA, the magician, returned by the W. G. Hall this morning from a tour round the island of Hawaii. She reports business as being very dull.

AFTER being absent about five hours yesterday afternoon, the jury brought in a verdict of not guilty against Akiona, charged with perjury in the second degree.

OFFICER Mehtens arrested three Chinamen last evening with opium in their possession. They were brought up in the Police Court this morning, and remanded till Monday.

ON Friday evening next there will be an exhibition of dissolving views at the Government English School, at Waialua. The Rev. A. Clark, principal of the school, has charge of the exhibition.

THIS noon, a Chinaman named Ah Kiu swore out a warrant charging his child, six months old, with deserting him. It appears that he had adopted the child, and it had been taken away from him.

MR. Chas. B. Wilson, Superintendent of Water Works, gives notice to-day that owing to the scarcity of water, the hours of irrigation will be limited to 4 hours per day, from 6 to 8 a. m., and from 4 to 6 p. m., until further notice.

DEAR "daily dodger", we take the liberty of saying that it is rather late in the day for the steamer W. G. Hall to sail for Maalaea and Kau, on the 13th of January, or the Iwalani to sail for Paauhau, January 7th, 1885.

IN the Police Court this morning, Chas. Elsen was fined \$10 and \$3.50 costs for disturbing the quiet of the night. Thos. Dawson, for assault and battery, had the same fine imposed on him. Kalama, for drunkenness, was fined \$6.

PASTOR Cruzan was seized with horror at the sound of the fire alarm last evening, as he had the momentarily-approaching marriage of Fireman Harrison already inserted in the Friend. Who would have suspected such rare journalistic enterprise in our clerical brethren of the quill?

TO-morrow being the anniversary of the birth of Lunalilo, the founder of the Lunalilo Home, the band will give a concert on the grounds of the home, commencing at four o'clock. The building will be thrown open for the inspection of visitors.

LAST evening, about five minutes past six o'clock, Hon. John Cummins telephoned to the central office to say that there was a fire in a Chinese shanty near the corner of Punahou and King streets. A few minutes later he sent word in that it was all out. No damage of any account was done. The fire department did not go out.

A FEW days ago, in the Police Court, a Chinaman, Chock Hoon, was tried for embezzlement committed about five years ago, found guilty and sentenced to six months' imprisonment. He appealed his case, and it was heard before a jury yesterday, who found him guilty. The Police Court sentence therefore stands good.

REMEMBER the band concert at the Hawaiian Hotel this evening. The two paintings by Messrs. Jules Tavernier and Joe Strong will be on exhibition in the parlors of the hotel. It is desired that everybody should take this opportunity of seeing those fine art productions, as well as enjoying the delightful music and moonlight in the sylvan retreats of the hotel. Mr. Tilden will make everybody welcome.

YESTERDAY afternoon by permission of Capt. Morse, the Custom House authorities searched the S. S. Alameda for opium. Five tins were

found in the Chinese fore-castle done up in a parcel ready for dispatch. Two trunks from the same quarter were taken to the Port Surveyor's office, in one of which was found 15 tins of opium.

MR. Jules Tavernier's wonderfully realistic picture of the Volcano, which will be on exhibition to-night, will go forward by the steamer Alameda to-morrow, to be placed on exhibition in San Francisco, and thence to the New Orleans World's fair. No one should fail to take advantage of this only opportunity of seeing it at the Hawaiian Hotel to-night.

THE condition of Mrs. L. Smith is again slightly favorable to-day. She slept fairly through the night.

AN editor who "aims" at good diction was composing a horrible fiction. His hero wouldn't work, and he swore like a Turk.

AT the brain-lack that caused his affliction. It is a hard matter to satisfy a Chinaman. One went to the Treasury the other day to get gold for paper money. The registrar said, "All right, Johnny, you shall have it," and produced a tray full of two-and-a-half dollar gold pieces. Before he could commence to count it, Johnny said, "No, me no likes that, too muchee small," and then departed. He wanted larger pieces.

THE case of S. Ehrlich, charged with violating the revenue laws, occupied the attention of the Police Court this morning. The goods in dispute were a number of children's suits, which he entered as cotton, while the Custom House authorities had reason to believe there was wool in them. Experts were called who testified that they were cotton and wool. Others said they were shoddy and cotton, and one said that the same kind of goods was exported to Mexico as cotton goods. After hearing the evidence, Mr. Ehrlich was found not guilty and discharged.

WHILE the Police Court was in session this morning, a Mrs. Roe advanced to Deputy Dayton and commenced talking to him, upon which Justice Bickerton told her to keep quiet. The old woman did not readily comply, so His Honor told a policeman to remove her. One of the Chinese officers took hold of her for that purpose, when she told him to keep his hands off her, she could go out without his assistance, and would take her time about it. However, she did go out, muttering all the way down the stairs. Order is one of the first laws of Justice Bickerton's court.

MR. MAX KOHM is about completing a very handsome piece of work. It is a pictorial sign of large dimensions to ornament the exterior of the store of Mr. J. Williams, the photographer. In the centre is a large medallion, filled completely with miniature portraits, among which we noticed, His Majesty the King, the late Princess Ruth, Kamehameha statue, Father Leonor and Mr. Lycan. On either side are two panels containing island views and curiosities, from which are suspended garlands of mail. The whole is surmounted with the Hawaiian Coat of Arms most beautifully painted. It is one of the finest pieces of work of its kind we have ever seen, and Mr. Kohm will place it on exhibition in a few days, due notice of which will be given.

HAWAIIAN HOTEL CONCERT.

The Band will play at the Hotel this evening at 7:30. The following is the programme:

- PART I. Overture—French Comedy... Keler. Bela Duet—Troubadour... Verdi. Waltz—Southern Breeze, (by request) Meisler. Selection—The Lombardians... Verdi. PART II. Selection—Mascotte... Audran. Polka—Bellona... Faust. Quadrille—Madame Angot... Lecocq. Hooheno, Hawaii. Honolulu.

LERoy BRUNDAGE.

THE well-known HORSE TRAINER and BREAKER is now prepared, at the old training stables of Capt. Clukey, corner Punchbowl and Queen sts, to break in and feed horses for \$35. No responsibility, but every care taken. Horse clipping a specialty. 928 3m

Honolulu Carriage Manufact'y

NOTICE. Having leased the TRAINING STABLES from H. J. Agnew, at Kapiolani Park, I am now prepared to take horses to train, and prepare them for the coming Fair on the 11th of June next. Breaking and Educating Young Horses a specialty.

It is a point of importance to all owners of fine young colts not to have them jammed or hammered over the hard roads, and to get them properly handled for the first lessons are the ones that make the horse.

Also in connection with my Training Stables, I will serve a certain number of choice mares with my Young Ham-bellonian Stallion "APTOS CHIEF." He was sired by Electioneer, owned by Gov. Stanford. The sire of Electioneer was Risdeke's Ham-bellonian. The dam of Aptos Chief was sired by Speculation; he by Risdeke's Ham-bellonian—so it will be seen that Aptos is an in-bred of Ham-bellonian.

Terms for service of Aptos Chief, \$50 for the season, payable at the time of service; and all mares failing to be with foal will have the service of the horse the next season free of charge. HENRY KEITH, Kapiolani Park, Jan. 22, 1885. 925 5m

LEVY & WOOLHAM, Horse Breakers and Horse Clippers.

THE above firm will break horses to single and double harness, and being well known as competent horse breakers, they need no further recommendations, as they guarantee all work in their line. Clipping Done in the most Artistic Style. All orders left on King Street, back of Kawaiahao Church, or at the Office of J. E. Wiseman, will be promptly attended to. 927 6m

Macleale & Urban Safes!

Honolulu, Jan. 11, 1885. C. O. BERGER, Esq., Agent Macleale & Urban Safes. DEAR SIR, It is with great pleasure that I add my testimony to the Fire-Proof qualities of your Safes.

I had a small single door Macleale & Urban Safe in last night's terrible fire, and, on opening the same this morning found its contents—consisting of books, papers, and money to the amount of \$1040—IN PERFECT CONDITION. I am so well satisfied with the result that I want another No. 3 Safe at once. Yours truly, GEO. M. RAUPP, 926 Germania Market. G. D. FREETH. W. C. PEACOCK

M. Durand refers spontaneous combustion in collieries to the oxidation of iron pyrites in the coal, friction from slipping, and heat of air current.

The Sutlej, a large river of British India, with a descent of 12,000 feet in 180 miles, or about 57 feet per mile, is the fastest-flowing river in world.

The system of electric light now used in a part of the Parliament building in London is proving so satisfactory that it is to be extended to every part of it.

Platinum has been discovered in a vein in New Zealand, and it has also been found in octahedral crystals in a quartz vein in the Thames gold district.

It was long doubted if impressions of animate objects could be found in coal and shale formations, but Professor Miall regards the doubt as being negated by facts.

A very important discovery has been made in the South in the fact that a layer of Spanish moss in a dike or dam prevents its destruction by the crayfish boring holes in it.

Anthrax of man, a very fatal malady, is caused by bacilli, which are frequently conveyed in the skins and hides of animals, and thence to those who handle them.

A solution of lime, salt, and wood ashes, applied to wood, renders it fairly fire-proof and preserves it from decay. If color is desired yellow ochre or lampblack may be added.

Bricks are now made of corks, refuse and cement. They are used in building owing to their lightness and isolating properties, and as a covering for boilers to prevent the radiation of heat.

Crucibles have heretofore been examined inside for flaws by means of a gas jet inserted into them. The flames and fumes have been an objection, and the electric light is now used instead of the gas.

A shotgun prescription is one compounded of many drugs, that if some fail one or the other of them may be effective. They are not, however, a very safe remedy, as certain drugs in hot weather are liable to decompose each other.

An infusion of the dried leaves of bitter orange-tree in Brazil, is regarded as a specific for sick headache, flatulence, indigestion, hysteria, spasms, recent colds and chills and fever. When freely used it acts as a sudorific.

The vitality of seeds can be tested by a proper application of heat and moisture, and a germinator has been devised for this purpose. When placed in at a temperature of about 60° Fahrenheit, the seeds, if vital, will germinate in about twenty-four hours.

Typographic etchings are now done on glass, and are used in newspaper illustrations, the printing being executed directly from the glass. A drawing is made by a resisting crayon of waxy material, and the biting is effected by hydrofluoric acid.

An electric vote recorder has been exhibited in Washington. By its aid members of Congress can vote yes or no without leaving their seats, and the possibility of error is avoided. It is a pity it could not be made useful in general elections, but its accuracy would tell against it.

It would seem to be well settled that germs of epidemics cannot be carried across the ocean by the wind. Over the open sea the air is found in all cases to be singularly free from the organisms found in land breezes. All low forms of life in the wind at sea soon reach the water and die.

AN ALARMING DISEASE AFFLICTING A NUMEROUS CLASS. The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and, in fact, the entire glandular system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions, he will be able to determine whether he himself is one of the afflicted.—Have I distress, pain, or difficulty in breathing after eating? Is there a dull, heavy feeling attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the gums and teeth in the morn-

ings, accompanied by a disagreeable taste? Is the tongue coated? Is there pain in the side and back? Is there a fullness about the right side as if the liver were enlarged? Is there costiveness? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the kidneys scanty and highly coloured, with a deposit after standing? Does food ferment, soon after eating, accompanied by flatulence or a belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dread disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold, sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against this latter agonizing disorder. The origin of this malady is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incipient stage. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure and even when it has obtained a strong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effective remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors, A. J. White Limited, 17, Faringdon Road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

Market Place, Pocklington, York, October 2nd, 1883.

Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and am thankful to say have derived more benefit from it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they would soon find out for themselves. If you like to make use of this testimonial you are quite at liberty to do so.

Yours respectfully, (Signed) R. TURNER.

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Spanish Town, Jamaica, West Indies, Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men" and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir, Yours ever gratefully, (Signed) Carey B. Berry, A. J. White, Esq. Baptist Missionary.

Preston, Sept. 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible. The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it." The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am, dear Sir, yours faithfully, (Signed) W. Bowker.

To A. J. White, Esq., Hensingham, Whitehaven, Oct. 16, 1882.

Mr. A. J. White.—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.—I remain, yours respectfully, (Signed) N. WEBB, Chemist, Calne, September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours, (Signed) VINCENT A. WILLS, Chemist-Dentist, Merthyr Tydvil.

To Mr. A. J. White, Preston, Sept. 21st 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

A SKILFUL SURGICAL OPERATION. The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms.—The appetite is quite poor. There is a peculiar indigestible distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky; a cold perspiration. The sufferers feel tired all the time, and sleep does not seem to give rest. After a time the pa-

tient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Faringdon-road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November, 29th, 1881.

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly, Mr. A. J. White. William Brent.

September 8th, 1883.
