"SWEET CHARITY."

This community has the reputation of being a charitable one, and justly so.

It can better afford to exercise charity than many other communities, because it is a well-to-do community.

Although not rich, almost everybody is in comparatively comfortable circumstances.

There is no real poverty, as it is understood in old and over-crowded countries, in this country.

But still there is abundance of room for the exercise of "sweet charity."

We have a jail, a lunatic asylum, a hospital for unfortunates, etc., all of which are maintained at public expense.

The Government cannot be expected to furnish anything beyond bare necessities to these institutions; and yet there are many things outside of these which tend to brighten the misfortunes of the unfortunate and to lighten the suffering of the sick, which the kind hand of charity may furnish.

Many kind-hearted people in this community recognize this fact, and are constantly dispensing of their abundance for the relief of the unfortunate.

Occasionally a newspaper man learns of some such deed, and it is recorded in print.

But many deeds of a similar nature are done in secret, and the public know nothing of them.

No doubt there are many other people in the community who are just as willing and able to contribute to the cause of charity, who nevertheless do not so fully exercise the disposition, simply for the reason that the exciting cause is not before their eyes.

To all humane and charitable persons we would recommend the kind consideration of the unfortunates at Kakaako and Molokai.

These people are sadly afflicted. The Government does all it can for the alleviation of their trouble.

This can be supplemented to a greater extent than heretofore by private benevolence.

Let us do all we can to lessen their sadness.

SMALL POX IN SAN FRANCISCO.

STATISTICS.

There were 139 deaths reported at the Health Office during last week, nineteen more than occurred in the corresponding week of last year.

Ninety-three of the decedents were females, sixty were foreign born, six being Mongolians.

Thirteen children under one year died. There were six violent deaths, two being suicides and four accidental.

Causes of other deaths were: apoplexy, 3; asphyxia, 2; cancer, 5; diphtheria, 2; dropsy, 3; typhoid fever, 7; heart disease, 12; measles, 4; paralysis, 3; phthisis, 18; pneumonia, 19; smallpox, 2; scarlatina, 1.—[S. F. Chronicle.

QUARANTINE AT NEW YORK.

New York, Dec. 27.—During the cholera scare in October, the State Board of Health was ordered by Governor Hill to investigate the quarantine question in this harbor.

The Secretary of the Board has made a report in which he says the

hospital islands were totally unfit for the reception and care of passengers of infected vessels, and that cholera patients were taken care of in the most careless manner.

The report closes thus: "It is the unanimous opinion of those posted on such matters that it would be difficult to imagine a worse state of affairs than now exists at quarantine. It is hard to realize in this age of civilization that the harbor of the city of New York should be so inadequately provided with facilities for the prevention and extinction of epidemics."

This is interesting reading in view of the fact that a vessel infected with small pox lies at quarantine.—[Weekly Bulletin, Dec. 31, 1887.

DEATHS DURING THE PAST WEEK—ACTIVITIES IN VACCINATION—NEW CASES OF SMALL POX.

One hundred and forty-seven deaths were recorded at the Health Office during the week ending last night, as against 110 the corresponding week last year.

Males 102, females 45. Natives of the Pacific Coast, 45; of other sections of the Union 28 and 74 were of foreign birth. The decedents under one year of age numbered 18 and 21 were over sixty years old.

There were 2 suicides, 5 casualties, and 27 died in public institutions. The principal causes of death were: Apoplexy, 3; alcoholism, 3; bronchitis, 2; cancer, 5; erump, 2; convulsions, 2; cerebro-spinal meningitis, 2; diphtheria, 3; dropsy, 4; typhoid fever, 4; inanition, 10; heart disease, 4; kidney disease, 3; liver disease, 5; lung disease, 5; measles, 5; paralysis, 4; phthisis, 20; pneumonia, 22; peritonitis, 4; small pox, 1.

Another man afflicted with small pox was sent to the Twenty-sixth-street Hospital from the Central Hospital, 871 Market street, last night. This makes the eight patient taken from this quarantined house.

A boy eighteen years of age, was sent out this morning from Jones street, between Pacific and Broadway.

Over one hundred and fifty small pox patients have been sent to the hospital since last May.

Timothy Garvey, who was sent to the hospital on the 24th inst., from his residence at the foot of Jackson street, died in that institution this morning. The deceased was employed on the steamer D. E. Knight running to Marysville.

Last evening, the three large rooms occupied by the Board of Health in the Parkin street wing of the new City Hall were crowded to excess by persons wishing to be vaccinated. The corridor leading to the rooms was so crowded that Mayor Pond telephoned to Chief Crowley for police officers to keep order. Three officers were immediately detailed for the duty. Several hundred were vaccinated by Drs. Urban and Fox.

The rooms were crowded with men, women and children to-day, and the good work of vaccination is going on as rapidly as can be done with the present force.

Dr. Gale verified three cases of small pox this morning, and the patients were sent to the hospital.

One was a man twenty-eight years of age, residing at 8, Monroe street. Another man, twenty-six years of age, resided on the 2000 numbered block of Hyde street.

The white walls of a small tent were seen through the trees in Fort-moore Square this morning. The gates remained closed and the passer-by became aware that the pretty breathing-places had been temporarily turned into a small pox inclosure. This morning, between 8 and 9 o'clock, the first two patients arrived at the new hospital, both from the immediate neighborhood. A perceptible shudder made its way down the backs of the people in the vicinity when they were informed that there were two well-advanced cases of confluent small pox within a stone's throw of the old City Hall and under no better shelter than that afforded by the canvas of a tent. At noon the two patients were still in the tent. One of the men was found on Montgomery street, between Washington and Clay. He is thirty-seven years of age and is afflicted with a confluent type of the disease. He said that some two weeks ago, he roomed at the Central House. For the past two days he has been roaming about the streets.

The suspension of circulation of books has been ordered by the Trustees of the Free Public Library.

Another individual, with his face covered with pustules, wandered leisurely about the old City Hall this afternoon. Finally, as he was about to appear before the Chief of Police in person, an officer chanced to meet him and hastily directed him to the tents among the trees opposite. The stricken individual walked about the square, but as he could find no gate open, he again appeared at the City Hall. Again he was directed to the tent, and this time he managed to get into the square. When last seen he was unconcernedly swinging upon the chains awaiting the arrival of a physician to decide his fate.—[Daily S. F. Bulletin, Dec. 31, 1887.

SICK CHINESE.

The health authorities took two Chinese suffering from small pox from a house at the Corner of Clay and Stockton streets, and conveyed them to the pesthouse yesterday.—[S. F. Chronicle, Jan. 3, 1888.

TWO DEATHS YESTERDAY—ALL WELL AT THE CENTRAL HOUSE.

It was judged at the Health Office that the inclemency of the weather was the cause why the daily average of 1,100 vaccinations during the last two or three days of 1887, fell off yesterday and the day before about 50 per cent. The first day of this year the vaccinations were a little short of 600, and yesterday considerably below this number. The stock of vaccine matter on hand was reported alarmingly low, amounting in all to less than 200 points, which, in case the virus ordered from the East does not arrive this morning, will necessitate a cessation of vaccination for a time.

Yesterday afternoon two deaths were reported and two new cases of small pox were discovered. Robert McMartin, the stockbroker who was transferred to the Twenty-sixth-street Hospital, from the quarantine Central House, on Market street, was one of the deaths, and a Chinaman named Fook Sin Long was found dead at No. 715 1/2 Clay street.

The new cases discovered were a young woman, on Kearny street, and a man unknown, found on Powell street. These two cases were taken to the Twenty-sixth-street Hospital.—[S. F. Examiner, Jan. 3, 1888.

AFRAID OF SMALL POX.

Port Townsend, (W. T.), Jan. 2.—The Board of Health has decided to institute a vigorous examination of vessels from sound and coast ports on account of small pox.—[Chronicle, Jan. 3, 1888.

NEW CASES REPORTED AND DEATHS AT THE PESTHOUSE.

More than 9,000 people were vaccinated during the month of December, and the outlook now is that more than twice that number will bare their arms to the lancet before the close of the present month.

There were two new cases of small pox reported at the Health Office up to 4 o'clock yesterday, and two deaths from the disease.

On Sunday there were three cases and one death. A man was taken from a house on Clay street, near Polk, another one from Leavenworth street, near Vallejo, and still another from Fourteenth street, near Folsom.

Genaro Garcia of 11 Broadway, died at the Pesthouse.

REMINGTON STANDARD TYPEWRITER

FOR SALE.

THE Remington Typewriter is the standard writing machine of the world. It prints 76 characters, or with certain combination about 80 characters, with the operation of only 30 keys. The machine is so simple that any one can write with it, and its manipulation is so easily understood, that but little practice is required to enable the operator to acquire facility in its use. The average speed of the pen is from 15 to 20 words per minute, and the average speed of the type writer is from 40 to 50 words per minute. Time spent in writing with the pen is at least two thirds wasted.

Orders for the above instrument may be left with the undersigned at the office of W. G. Irwin & Co., and will receive prompt attention. The undersigned is also prepared to give purchasers full instructions as to the use of the machine.

For further particulars apply to W. M. GIFFARD, Sole Agent for the Hawaiian Islands. 1833 1m

New Freight Boats

FOR SALE.

We take pleasure in recommending our boats, as their construction is the result of years of study and labor in building, and handling boats around our various island landings. We claim these boats to be superior for island use to others (either built here or imported) in every essential point, and we are supported in this opinion by those who have used them, as well as by others who are qualified to judge. They are built for use and durability, and not with the view of having the benefit of future repairs. We use no cross grained and useless Monkey Pod knees, timbers, or floors, nor straight wood stems. Our frames are all Oak bent across without a joint on the keel, and of a size larger than usual in other boats, they are also closer together, and double riveted to the keel, with additional floors between. We have applied both strain and blows to these steam bent timbers and find that they are equivalent to the so called solid floors of twice the size, and are consequently less liable to be severely bilged, and are easier repaired when it occurs. The gunwales are of Oak, and with the outside planking are invariably in one plank from stern to stem. The hoisting strap does not go through the keel, cutting it away at a vital point, but is rigged under a screw-bolt fastened dead wood, and hinged above so as to accommodate the span of hoist. The timbers are not cut away for water runs, our lumber are in the keel. We have also a solid wide iron plate on the keel, and stems of the boat which have secured for these boats their well deserved reputation for superior build. The model also compares favorably with our best imported boats, carrying the weight on the keel, and not on the gunwale as crank boats do, taking all the chafe and pounding against vessels and wharf, when discharging. Our bent Oak knees also carry out the requirements of the oldest and most experienced sailors of Oahu, and who for 70 years have spared neither time nor money to procure the best surf and life boats, wherever found. During the test of 1881, flexibility in boats, was found to be most essential. The relation of these knees bear to the jointless section timbers and to the boat herself when severely struck, to prevent a damaging concussion or any damage, can be readily seen. This quality cannot be found in boats built in any other place, and those in another. Several naval Captains and Officers who have inspected this system pronounce it a great improvement over the old, as a preventive from being stove in or bilged alongside when being lowered at sea, as many have been known to do the short floors and timber ends lifting from the keel.

An other improvement, is that we sell these boats for \$80 less than was formerly paid for the same size boat here, and it is the builder and buyer better.

We have on hand two 24 feet freight boats, price \$230 to \$250.

On stocks two 18 feet freight boats, \$130 to \$150.

A correct model of the 26 feet Kianan boat, \$230 to \$250.

Two 15 feet pleasure, pine copper fastened clinker, weight 80 lbs., oars, etc., \$55 to \$60.

Three various sized skiffs all kinds, \$15 to \$30.

Also our model yacht center board sloop "Reform" all complete for pleasure or fishing, with hooks, lines, water kegs, oars and rowlocks, anchor and chains, extra sails, and a stove, and a little flat boat, that can be carried on deck. This is a speedy little craft, and works second to none in our waters. She was built for pleasure with safety, to sail on her bottom, without packing around tons of ballast. Can be rigged and sail made in 15 minutes, and unrigged in five. Price \$275.

We are also prepared to give plans and estimates of all kinds of scows, rowing, surf or sail boats, steam launches, or schooners, in solid, bent frame, or diagonal building. Our experience in the latter mode dates from 1854, when the celebrated yacht "Fox" and others were built in that way. This vessel was severely tried in the Arctic for 3 years under Sir J. McClintock, when in search of Sir John Franklin. This mode of building is highly recommended where inside finish and capacity is an object. We invite inspection of our boats at the Enterprise Planing Mill, where samples may be found.

**A NEW DODGE.**  
A new dodge was told to a BULLE-  
tin reporter this noon. A man of  
questionable character has been  
going about town doing up the Por-  
tuguese stores in professional style.  
He enters a store, introduces himself  
as an agent to supply every house  
with its proper number, writes the  
numeral in a book, demands a fee of  
20 cents and then goes to a saloon  
for two 10-cent beers.

**PRIZE SHOOTING.**

At a meeting of this company held  
last night, Foreman C. J. McCarthy  
presiding, the following committee  
was appointed to make arrange-  
ments for the collation and decora-  
tions on the 3rd of February: J. C.  
McGuire, Henry Smith, E. R. Ryan,  
Thos. Matthews, and Frank May.  
A communication was received from  
the Chief Engineer, directing the  
company to take a vote on the pro-  
posed amendment to Art. 21 of the  
Constitution. It was argued that  
this was not the proper method of  
procedure to amend the Constitution,  
and on motion action was defer-  
red, and the Chief Engineer asked  
to get the decision of the Supreme  
Court on this matter.

**KNIGHTS OF PYTHIAS.**  
At the meeting of Oahu Lodge  
No. 1 K. of P. held last night, the  
following officers were installed by  
David Dayton, D. S. C.:  
F. Godfrey, C. C.  
C. W. Hart, V. C.  
S. C. Dwight, Prelate.  
H. Smith, M. of E.  
J. H. Bruns, M. of F.  
J. C. White, K. of R. and S.  
James Collins, M. at A.

After the installation the retiring  
C. C., John D. Holt, Jr., was pre-  
sented with a charm emblematic of  
the order, as a token of regard and  
esteem from the lodge.

**FRED L. HANKS.**  
Mr. Fred L. Hanks died in St.  
Vincent Hospital, New York, on  
December 23d, 1887, aged 60 years.  
F. W. Hanks was a brother of the  
Mr. Hanks, formerly with Geo. W.  
Macfarlane & Co. and the agent of  
Wells, Fargo's Express Company.  
Mr. Hanks came to this country in  
1845, and accepted a position as  
clerk to the American Consul, sub-  
sequently in the years '54 '55 '56  
and '57, he was in the employ of  
Capt. Thomas Spencer, ship chand-  
ler. In 1859 he left the Islands for  
New York, where he resided up to  
the time of his death. The deceased  
was widely known and highly re-  
spected in the community for his  
many sterling qualities, and his  
death will be mourned by his many  
old time friends. The funeral was  
conducted by Lafayette Lodge F. &  
A. M., of which he was a member.

**A DAISY CALENDAR.**  
Among the many beautiful calen-  
dars brought to our notice, the one  
issued by the Mutual Life Insurance  
Co., of California, certainly bears  
the palm. It is of the most exqui-  
site design, engraved on copper  
plate, with appropriate scenes, re-  
presenting each month, and the  
changes of the seasons, with an ap-  
propriate verse. The leaves are of  
heavy paper, scalloped edges,  
smooth center with a wild winter  
scene for January—April has a  
view of birds on the bough of a tree  
making sweet music—August has  
a luscious bunch of grapes, while  
September shows a pair of lovers  
gathering pond lilies, a memory dear  
to all New Englanders, concluding  
with a view of the bleak New Eng-  
land Coast, lashed by an Atlantic  
gale, and in the foreground the in-

side of a country house with the  
open fire place, on the mantel piece  
of which are the stockings, short  
and long, hung in anticipation of  
the advent of "good Old Santa  
Claus." Mr. Laine, the agent of  
this popular company, regrets hav-  
ing only secured a sample copy,  
and hopes to have a supply soon.  
This calendar is indeed "a daisy."

**ELECTRIC LIGHT AT THE HAWAIIAN  
HOTEL.**  
The grounds and main building of  
the Hawaiian Hotel will be illumi-  
nated at 7:30 o'clock to-night, with  
the Incandescent Electric Light,  
during the band concert, to be given  
to Sir William Wiseman and the  
Officers of H. B. M.'s Ship "Caro-  
line," by order of His Excellency  
Governor Dominis. The illumina-  
tion of the grounds will take place  
suddenly, or simultaneously with  
the commencement of the band play-  
ing, the turning on of the light be-  
ing regulated by a switch which  
controls the currents of electricity.  
The public and all interested in  
electric lighting are cordially invited  
by the Hotel management and the  
Agent of the Electric Light Co. to  
attend.

**SHOOTING AT A DOG.**  
A laughable dog shooting contest  
took place in the Police Court this  
morning. A white and brown col-  
ored setter dog that had been con-  
demned to death for biting some-  
body was tied to two heavy dumb  
bells. An officer with a revolver,  
stepped up close to the animal and  
talking aim, fired. The ball missed  
the dog, and severed the rope with  
which the dog was tied. A police-  
man then took the pistol, advanced  
within four feet of the crouching  
canine, fired three shots and scored  
three misses. Now came a third  
who raised the revolver, took a long  
aim, pulled the trigger and missed  
fire. A fourth person appeared in  
the arena, followed by a score of  
Police Court people, who in turns  
patted the dog. The Marshal said  
he would keep the animal, for it had  
dodged four bullets and was deserv-  
ing of life.

**ENGLISH-HAWAIIAN DICTIONARY.**  
Mr. R. H. Hitchcock has left on  
our table a new book with the above  
title, of which he is the author. The  
book contains about 16,000 words,  
between three and four thousand  
phrases illustrative of English and  
Hawaiian, and over three thousand  
synonyms; this latter peculiarity is  
found in no other work. For exam-  
ple, the word "make," is defined as  
"E hana, e kukulu," which is the  
general definition; then follow 17  
synonyms, in which the word has a  
slightly different significance in each  
case. It also contains a table of  
abbreviations, a table of christian  
names, a chronological table, and a  
table of common phrases from the  
Greek, Latin and modern languages,  
with the Hawaiian version of the  
same. The book is a valuable assist-  
ant to the Hawaiian pupil in acquir-  
ing a knowledge of English, and  
vice versa. Its typography, and  
general arrangement leaves nothing  
wanting to make it a first class, and  
a thoroughly reliable work for gen-  
eral reference, and is a valuable  
acquisition to the literature of the  
country. The book is for sale at the  
office of the Board of Education,  
and at A. M. Hewett's, Merchant  
street.

**CHASED BY AN ELEPHANT.**  
Mr. Inglis of Bedford recently had a narrow escape. This gentleman, while attending to his duties a short time ago, was chased by the Mutu-kull rogue. The animal was among a small clump of trees close to the jungle path by which Mr. Inglis had to pass, who, after a careful survey of the "monarch," dared to throw stones at him. The first one missed, and only caused the animal to cock his ears to catch the slightest sound. The second went straighter and hit him right in the eye, which the elephant acknowledged with a salaam-like movement with his trunk, accompanied with a terrible roar of anger, and made straight for his assailant, and charged at a furious pace. Mr. Inglis, however, was too clever for him and ran very fast—faster, we hear, than he ever did before—but in suddenly turning a corner round a huge tree he stumbled and fell, the elephant close on him with outstretch trunk, the point of which at one time touched Mr. Inglis' coat. He had also his forefoot already raised to crush him, but the animal's head being caught at this instant by the tendrils of a climbing plant which had suspended itself from the branches above, he turned away and fled, leaving Mr. Inglis rather frightened, but with no limb broken. The rogue is a great terror on the hills. —[Travancore Times.]

**COST OF A FOCCY DAY TO LONDON.**  
The cost of a single day of fog to the gas consumers of London may be gathered from figures compiled from official sources, says the London "Standard." Wednesday was a day of dense and continuous fog, necessitating the extensive use of gas, and on that day the quantity of gas supplied to London by the Gas-light and Coke Company amounted to 103,664,000 cubic feet or 35,000,000 cubic feet in excess of the quantity sent out by the same company in the corresponding day of last year. The above excess in the supply of gas would represent the supply to a town of from 10,000 to 12,000 inhabitants for a whole year. In addition to the quantity supplied by the company mentioned, there were supplied by the other two Metropolitan Companies—the South Metropolitan and Commercial—about forty-five million cubic feet, making a total consumption for London on a day of fog of nearly one hundred and fifty million cubic feet. Approximately the value of this gas was £21,000, of which cost from £7,000 to £8,000 was directly due to the fog. In 1885, on a day of similar fog, a great strain was put upon the companies.

**A PAUPER'S DYING REQUEST.**  
An amusing and yet pathetic incident in what the poet Gray called "the short and simple annals of the poor," is told by Mr. John J. R. Micklejohn, one of the Inspectors of the Poor, at Sherwick, Shetland Islands. He says that some time ago an old woman, named Barbara Smith, came under the notice of the Board. She was extremely ill, and it did not look likely that she would long need care of any kind. She did not reside on the main land, but on a small island a few miles distant and there being no parochial institutions in that place, Barbara necessarily occupied the position of a pauper living out. The trouble from which she suffered dated back many years. In better and more prosperous days she had in some way laid the foundation for Chronic Indigestion and Dyspepsia, and out of this had sprung other complaints as age and bodily infirmities crept upon her.

Barbara was not ignorant, albeit she had fallen into poverty. In earlier life she somehow obtained the advantage of a fair education, and this, added to native shrewdness, enabled her to use good judgment in respect to her own situation and state of health. Although she had long suffered from asthma and a bronchial affection, Barbara was wise enough to see that these ailments arose from the disordered stomach and digestion, and that if the main trouble could be cured the others would soon leave her. It is probable that her disease began as others do, with the usual symptoms: headaches, bad breath, the rising of sour fluids in the throat, oppression and faintness at the pit of the stomach, loss of sleep, coated tongue, dull eyes, bad taste in the mouth, &c., and finally became chronic and hopeless through her not being able to find any remedy. The Inspector states that she had been under medical treatment for years, but to no effect. In this strait she one day made the following touching appeal to the Inspector: "I have been swallowing medicines for months. They do me no good. I am going on from worse to worse. I can endure it no longer. I feel that in a

week or two I shall be dead. There is one last request I would make of you: give me a bottle of Mother Seigel's Curative Syrup; it is my only hope. If it proves a failure and does me no good I will die in peace, and make no more expense to the parish."

It seems she had got hold of one of Mother Seigel's Almanacs and read of the great cures wrought by the Syrup in cases like hers.

The Board pitied the poor lone woman and granted her petition, believing, however, the syrup would prove as useless as the other medicines she had already taken. What was their astonishment to find, in the course of a few days, that she had not only been able to get out of bed, but to move about outside the house, and had taken journeys to a considerable distance, and was actually enjoying better health than since she was first taken ill. The asthma and bronchitis, which were no more than symptoms of her true disease (indigestion and dyspepsia), rapidly abated, and it now seems that Barbara will soon be as hale and hearty as the Inspector himself, and be one of the hosts of living witnesses to the power of Mother Seigel's Syrup to save the thousands who were just ready to perish.

Mother Seigel's Curative Syrup is for sale by all chemists and medicine vendors, and by the proprietors, A. J. White, Limited, 35 Farringdon Road, London, E. C.

I HEREBY forbid all persons from en-  
tering my premises at Kallihwai,  
except on business, after 8 o'clock in the  
evening. Any one having business with  
me after that hour, must first call me by  
name before entering the premises. Any  
one found trespassing on my premises or  
about them after that hour, who have  
no business there, will be dealt with ac-  
cording to law.

**Let me have a mild  
CIGAR**

THE ABOVE REQUEST IS HEARD  
daily in cigar stores, saloons and  
other places where cigars are sold, for  
it is an undisputed fact that most smokers  
prefer a mild cigar and that those who  
have for a long time smoked strong  
cigars, principally imported Manillas,  
will, after having thoroughly injured  
the stomach and impaired the nervous  
system, surely want a mild cigar, if they  
could find the right kind.

How many thousands of smokers who  
suffer from loss of appetite, headache,  
nervous irritability, asthma, etc., and  
who have tried all possible remedies  
without success, might be cured if they  
knew that their sufferings were caused  
by the intemperate use of strong cigars,  
and that they should only smoke mild  
and properly prepared ones.

It is a fact that all mild cigars agree  
well with smokers, for in most cases  
there is a lack of care in the selection of  
the tobacco, and often the necessary ex-  
perience for it is wanting, yet there is  
one brand which suits the most fastidious  
smoker, and that is

**ENGELBRECHT'S  
"Sampler" Health Cigar**

Which is made from mild, aromatic and  
particularly selected and prepared to-  
bacco, and combines all the qualities  
which may be expected from a health  
cigar. It causes no bad effect of any  
kind, is agreeable to the taste, burns  
evenly to the end and possesses a fine  
aroma. No smoker should fail to give

Engelbrecht's "Sampler" Cigars  
a fair trial, and benefit himself at the  
same time.

**THE DAILY BULLETIN**

How wonderful, indeed, are the  
ways of Providence, which dashes  
down our highest hopes and then  
helps us when we least expect it.

While in London he stated his con-  
dition to a friend, who strongly ad-  
vised him to try a medicine which he  
called *Mother Seigel's Curative  
Syrup*, saying it was genuine and  
honest, and often cured when every-  
thing else had failed. He bought  
a bottle of a chemist in Pimlico, and  
began using it according to the di-  
rections. He did this without faith  
or hope, and the public, may there-  
fore judge of his surprise and plea-  
sure when after taking a few doses  
he felt great relief. He could eat  
better; his food distressed him less;  
the symptoms we have named abated;  
the dark spots which had floated  
before his eyes like smuts of soot,  
gradually disappeared, and his  
strength increased. Before this  
time his knees would knock together  
whenever he tried to walk. So en-  
couraged was he now that he kept  
on using *Mother Seigel's Curative  
Syrup* until it ended in completely  
curing him.

In speaking of his wonderful re-  
covery Mr. Richard says it made  
him think of poor Robinson Crusoe,  
and his deliverance from captivity  
on his island in the sea; and added,  
"But for *Mother Seigel's Curative  
Syrup* the grass would now be  
growing over my grave."

Our readers can rest assured of  
the strict truth of all the state-  
ments in this most remarkable case,  
as Mr. Richard (now residing at  
Swiss Cottage, Walton-on-the-Naze)  
belongs to one of the oldest and  
most respected families in the beau-  
tiful village of Long Melford,  
Suffolk, and his personal character  
is attested by so high an authority  
as the Rev. C. J. Martyn, rector  
of that parish, besides other excel-  
lent names. We have deemed the  
case of such importance to the pub-  
lic as to justify us in giving this  
short account of it in our columns,

editorial columns—

Our readers may recall the cir-  
cumstance of a young clerk, named  
Arthur Richard, falling insensible  
on the Westley Lane in this town  
some time ago, and being picked  
up, as he continued perfectly help-  
less, and taken in a cab by two  
gentlemen to the office of F. W.  
Fisher, Esq; the solicitor who em-  
ployed him. On restoring him to  
consciousness it was ascertained  
that he was afflicted with what  
seemed to be an incurable disease.  
When he was able to speak he  
said he had been to his dinner and  
was on his way back to his  
work, when suddenly his head was  
in a whirl and he fell in the street  
like a man who is knocked down.  
On coming to his senses in the sol-  
icitor's office he thought what this  
might mean, and feared he was  
going to have a fit of illness, which  
we all know is a very dreadful  
thing for a poor man with a family  
to care for.

With this in his mind he at once  
sought the best medical advice,  
telling the doctors how he had been  
attacked. They questioned him  
and found that his present malady  
was exhaustion of the nervous sys-  
tem resulting from general debility,  
indigestion, and dyspepsia of a  
chronic nature. This in turn had  
been caused by confinement to his  
desk and grief at the loss of dear  
friends by death. The coming on  
of this strange disease, as described  
by Mr. Richard, must be of inter-  
est both to sick and well. He had  
noticed for several years previously,  
in fact, that his eyes and face be-  
gan to have a yellow look; there  
was a sticky and unpleasant slime  
on the gums and teeth in the  
morning; the tongue coated; and  
the bowels so bound and costive  
that it induced that most painful  
and troublesome ailment—the piles.  
He says there was some pain in  
the sides and back and a sense of  
fullness on the right side, as though  
the liver were enlarging, which  
proved to be the terrible fact.  
The secretions from the kidneys  
would be scanty and high-coloured,  
with a kind of gritty or sandy  
deposit after standing.

These things had troubled Mr.  
Richard a long time, and after his  
fall in the street he clearly perceived  
that the fit of giddiness was nothing  
more than a sign of the steadily  
and deadly advance of the complaint,  
which began in digestion and dys-  
pepsia. His story of how he went  
from one physician to another in  
search of a cure that his wife and  
little ones might not come to want  
is very pathetic and touching. Finally  
he became too ill to keep his situa-  
tion and had to give it up. This  
was a sad calamity. He was appal-  
led to think how he should be able  
to live. But God raised up friends  
who helped to keep the wolf from  
the door. He then went to the sea-  
side at Walton-on-the-Naze, but  
neither the change, nor the phy-  
sicians who treated him there, did  
any good. All being without avail  
he visited London, with a sort of  
vague hope that some advantage  
might happen to him in the metro-  
polis. This was in October, 1885.

How wonderful, indeed, are the  
ways of Providence, which dashes  
down our highest hopes and then  
helps us when we least expect it.

While in London he stated his con-  
dition to a friend, who strongly ad-  
vised him to try a medicine which he  
called *Mother Seigel's Curative  
Syrup*, saying it was genuine and  
honest, and often cured when every-  
thing else had failed. He bought  
a bottle of a chemist in Pimlico, and  
began using it according to the di-  
rections. He did this without faith  
or hope, and the public, may there-  
fore judge of his surprise and plea-  
sure when after taking a few doses  
he felt great relief. He could eat  
better; his food distressed him less;  
the symptoms we have named abated;  
the dark spots which had floated  
before his eyes like smuts of soot,  
gradually disappeared, and his  
strength increased. Before this  
time his knees would knock together  
whenever he tried to walk. So en-  
couraged was he now that he kept  
on using *Mother Seigel's Curative  
Syrup* until it ended in completely  
curing him.
