Andrew's Priory.
 Exercises—List of Prize Winners.
 The closing exercises of the St. Andrew's Priory, held on Thursday, one of the best entertainments kind given this year. The school room was very prettily decorated with flags, ferns and flowers and had quite an artistic appearance. One of the prettiest dialogues was "Alice at the looking glass." WEDNESDAY, JULY 29, 1891.

VACCINATION AND LEPROSY.

Mr. William Tebb, of London, has favored us with a copy of a pamphlet on the above subject, designed to show that in his opinion leprosy is spread by vaccination.

There is really no argument in his brochure worthy of an answer. So far as we can learn, Mr. Tebb is not a physician, but belongs to that numerous class of lay practitioners who think they know more than the medical fraternity, and put forth their theories as undeniable conclusions.

There has undoubtedly been careless vaccination in Hawaii, but there is no proof obtainable that it has had any influence on the spread of leprosy in these Islands.

The Treasury Department has purchased 449,000 ounces of silver at prices ranging from 1.0075 to 1.00875.

Extensive drought and heat prevails throughout Spain. Much damage has been done to the vineyards and pastures and all the springs have dried up.

The sufferers from famine in the Volga region are becoming intense. The Provincial Assembly at Kazan reports 40,000 persons without food.

Frenchy, the New York "Jack the Ripper," has been sentenced to life imprisonment for the murder of a woman in a Bowery lodging-house some time ago.

LONDON, July 11.—The census of England and Wales, just taken, shows a total population of 29,001,018, an increase of 3,026,572, or 11.65 per cent., since the last census taken.

CALCUTTA, July 11.—The crop prospects in the Province of Bengal, Assam and Burmah are good. Elsewhere the rainfall is deficient and the distress is increasing. Cattle are dying of starvation.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

Kohala Road Matters.

MR. EDITOR: The Kohala Road Board is able to defend itself against any attacks that are worthy of notice, but after reading the letter signed "Kenelm," in your issue of the 14th, an outsider may perhaps be allowed to observe that as the eastern end of this district, wherein lies the Walaohia gulch, is represented in the Road Board as well as the middle and western sections, it may be inferred that there must have been some good reason for having work done on other sections of the road rather than on the gulch complained of, and this inference is sustained by the fact that the said member of the Board, with members of his household and a number of employees, cross that gulch regularly on their way to a church other than the one attended by the other members of the Board and referred to by "Kenelm."

It may further be observed that some of the heaviest work on the roads has been done on the gulches in that eastern portion of the district, and certainly a Board that has affected such marked and unprecedented improvements as has the present during its term of office, is entitled at least to freedom from such absurd charges as "selfish extravagance," resorting to "blinds," and seeing "that plantation in which they are interested have first-class roads," etc., or of being guided by a "system of helping out plantations to find labor for their men in slack times," when every one who has the slightest desire to state the truth, knows full well that the boot is quite on the other leg, and we ought all to be thankful that there are seasons when large gangs of men on some of the plantations are available to the Road Board to put through rapidly heavy jobs of work that would otherwise extend over an interminable length of time, interfering with the traffic.

Walaohia gulch is a peculiarly difficult one to cross on a good grade, and inquiry would doubtless elicit the fact that work there had been deferred in part because no satisfactory grade had been determined, aside from want of funds.

There can be no injustice in giving first attention to unfinished jobs and roads that bear heavy traffic, and it is right that people who render assistance or exhibit some degree of public spirit in this matter should receive attention before those who want everything but are unwilling to assist or give an inch of land without the highest compensation. But give our Road Board the funds, and we may rest assured that as rapidly as possible the necessary improvements will be pushed forward.

FOREIGN GLEANINGS.

France has ordered wheat this year in Baltimore up to the present time to the extent of about 25,000,000 francs.

The Treasury Department has purchased 449,000 ounces of silver at prices ranging from 1.0075 to 1.00875.

Extensive drought and heat prevails throughout Spain. Much damage has been done to the vineyards and pastures and all the springs have dried up.

The sufferers from famine in the Volga region are becoming intense. The Provincial Assembly at Kazan reports 40,000 persons without food.

Frenchy, the New York "Jack the Ripper," has been sentenced to life imprisonment for the murder of a woman in a Bowery lodging-house some time ago.

LONDON, July 11.—The census of England and Wales, just taken, shows a total population of 29,001,018, an increase of 3,026,572, or 11.65 per cent., since the last census taken.

CALCUTTA, July 11.—The crop prospects in the Province of Bengal, Assam and Burmah are good. Elsewhere the rainfall is deficient and the distress is increasing. Cattle are dying of starvation.

LONDON, July 11.—Several Par-nellites have made overtures to join the McCarthyites on condition they be assured that they shall retain their seats at the general election. McCarthy declines to give a pledge, on the ground that the decision must be left to the electors.

LOS ANGELES, July 11.—On instructions from Washington the United States Attorney to-day filed a libel against the arms and ammunition on the Itata at San Diego. The writ is made returnable August 8th.

BOSTON, July 11.—A constitutional majority of the House of Bishops, held yesterday in New York, has approved the election of Rev. Phillips Brooks, D.D., Bishop of Massachusetts.

MONDAY, July 27.

How about that long grass in your yard? It needs cutting, and you haven't made up your mind what sort of a lawn mower you want! We're going to tell you.

If the grass is very long, get a Pennsylvania high grass cutter. It will work just as well in short grass as any other, but the ordinary mower will not do for high grass.

If you manage with that antiquated affair you've been using to keep the grass short but ragged, we advise you to get one of our "Pennsylvania" or "New Easy" Lawn Mowers. Either of them will do the work and you may not recognize your lawn after its improved appearance.

When you have cut the grass nicely you will want a new piece of hose—rubber hose, mind you, not merely called rubber, but made of rubber. We have it. After that you want a sprinkler that will throw the water broad cast and give the best substitute for a natural rainfall. The "California" Sprinkler is the one to do this. We sell them.

Procure the articles we have mentioned, water your lawn night and morning and it will look like a bed of emeralds. Now is the time to improve your garden, and we have all the tools necessary to help you. What do you do about spoons for your after-dinner coffee? We have some that will tickle your fancy, and they're cheaper than the cheapest.

You may not know it, but we have the only genuine Rookwood Pottery for sale on these islands. For decoration it is superior to anything of the kind made. The color generally is a dark brown, and the vines and flowers modelled on the pieces are as delicate as nature. Some pieces are useful. Chocolate jugs, smokers' sets, and small pitchers for instance. No two pieces alike—when one is made the mould is destroyed. No danger of you neighbor copying your good taste.

Silverware is an odd thing for hardware people to deal in, but it is customary here and we have the best—same as everything else. Choice bits, odd designs in smokers' sets and champagne holders and the best shakers—lemonades we have ever seen. They answer for something stronger just as well.

Silver ice tongs for the table are useful and pretty. Some we received by the last steamer are rather better than the last lot, and you're bound to like them. If you use cracked ice at table you will find them more convenient than a spoon and they look better.

Engraved glass tumblers are prettier than plain ones and just as cheap. We have them in many styles and sizes and you're hard to please if we can't suit you. We study your wants and seldom fail to give satisfaction either as to quality of the article you buy or the price you pay for it.

An elegant assortment of table and pocket cutlery arrived on the Australia last week. We believe it is the best in the city at present.

36 Unrivaled Residence Lots

About a quarter of a mile beyond the Kamehameha School. Following is a plan of the lots:

The lots have been laid out and divided in such a manner and size as to bring them within the reach of all who desire a home of their own within convenient distance from the business center of the city.

The location and general advantages of these lots are unequalled by any property of the kind offered in this city for years.

Situated at the mouth of Kalihi valley, at a good elevation, pure air and healthful conditions are assured.

All these lots front on Kaili avenue 55 feet wide running through the place connecting King and Beckley streets, and being the widest streets in the suburbs of Honolulu.

The lots are situated at less than 3 minutes' walk from the terminus of the King street Tram Cars.

WATER—The plans are perfected, and it is now the intention of the Government to lay an 8 inch water main along the line of King street from the foot of Liliha street to the road passing the Kaili churches, from which extension water is expected to be available within 8 months. For the present, water for domestic purposes can be obtained from Kamehameha School premises.

TERMS—ONE HALF CASH. Balance in one year at 9 per cent., secured by mortgage. A large map of the property can be seen at my Salesroom, Queen street, where all desired information can be given.

REFRIGERATORS AND ICE CHESTS

After an importation of years, and considerable buying the "latest and best" which we had to take on account of their being any of the refrigerators, we have something, made of the best principles, which will be better than anything yet seen in this market.

The EDDY Refrigerators and Ice Chests, of which we carry a large stock, are given satisfaction. They are plain, well made and durable. The WHITE MOUNTAIN ICE CREAM FREEZERS, of which we have sold hundreds, are generally known and appreciated. We have an invoice on hand from a large invoice just received from the factory. These are at p. terms. We keep reliable goods and sell at reasonable prices.

HOME RULE.

The Liberal Press on the Attitude of the Queen.

LONDON, June 21.—The position of the Queen in English politics is usually supposed to be generally passive. In foreign politics she has been known to be greatly interested, but with internal English politics she has hitherto been credited with interfering but little. At an opportune moment, when the Conservative scheme for local self-government for Ireland is about to be contrasted with Gladstone's Home Rule proposals, Her Majesty has permitted the publication of a confidential communication which she sent to the Archbishop of Canterbury on the eve of another crisis in Irish political history—the introduction of bills for the disestablishment of the church in Ireland. The inference is that Her Majesty desires to make Archbishop Tait's memoirs the medium of divulging what her attitude then was, with a view to its application to present events.

Her Majesty did not approve of the disestablishment policy, but she accepted the decision of the country, and the Commons used her influence to induce the Lords on one hand to accept the bill, and Gladstone to take conciliatory methods with the Lords. The Archbishop of Canterbury was her mediator and go-between. When the bill went into the Lords the expectation was that they would reject it and that another of those constitutional crises would arise which threatened the existence of the Upper House, as now constituted. Undoubtedly, if the Peers had rejected the Disestablishment Bill, Gladstone would have been backed up by the enraged country, and the always impending agitation to disestablish the Peers as a legislative body would have received a dangerous momentum.

The Queen wrote to the Archbishop. "Considering the circumstances under which the measure has come to the House of Lords, the Queen cannot regard without the greatest alarm the probable effect of its absolute rejection in that House. Carried as it has been by an overwhelming and steady majority through the Commons, chosen expressly to speak the feeling of the country on the question, there seems no reason to believe that any fresh appeal to the people would lead to a different result. The rejection of the bill, therefore, would only serve to bring the two Houses into collision and so prolong the dangerous agitation of the subject."

These words, pregnant of application in the early future, are being quoted throughout the Liberal press as proof in the anticipation that the Queen, accepting the verdict of the country on home rule, will use all her power and personal influence to prevent the Lords from opposing it.—[S. F. Call.
