Popular Topics of the Day.

Honolulu has as many machinists considering the population as any place we know of—and they're good machinists too, men who can take a steel rod and with the assistance of a lathe fashion it into parts for the most intricate machinery for an engine. To do this, of course, requires a knowledge of tools as well as the handling of them.

In our store room one department contains the most complete assortment of machinists, tools in the city. Look at them and you will find they are all of first quality (the price will give you the impression that they are thirds) every one of them shining like an African's heel. The assortment consists of hammers—all sizes and shapes from the cute little one used by the jewellers to the heavy one which the boiler maker uses in riveting the steel plates together. Then we have the Handy Pipe Wrench, a new device without a fault. This tool will be found a convenient one even in the house where none of the occupants are machinists. Hand vises for machinists can be had of us in every size manufactured, so can Pipe Vises and Cold Chisels. We have every thing used by metal workers in their trade.

Then we have a stock of carpenters wood working tools second to none in the city—first only in quality. You cannot call for a tool used by a carpenter that we do not have in stock. Another thing you may be interested in is an axe that will hold its edge—a new thing in axes and something every one needs about the house.

Bird cages have been mentioned in another paper; just here we will say that the stock we carry is complete.

RESTORED TO HEALTH

BY THE USE OF

Ayer's Sarsaparilla

Mrs. M. A. Cumming, of Yarraville, Victoria, Australia, says:

"About a year ago, I had a severe attack of influenza, which left me very weak, without energy, appetite, or interest in life. Obtaining little or no relief from doctors, or from the many remedies recommended to me, I finally tried Ayer's Sarsaparilla, and from that time, I began to gain health and strength."

I continued the treatment until fully recovered, and now have very great pleasure in telling my friends of the merits of Ayer's Sarsaparilla, and the happy results of its use. I consider it the best blood-purifier known."

An Animated Scene on the Water—The Healanis Want an Official Organ.

Training for the first annual regatta of the Hawaiian Rowing Association may be said to have actually commenced last evening, as from this time to the day of the races there will be no let up in the daily spins on the water nor in the constant care and instruction of the three coaches. The Myrtles have placed their destinies in the able hands of George Carter, the Leilanis in that of L. de L. Ward, while S. E. P. Taylor looks after the Healanis.

Visitors to either of the boat houses between 5 and 6 p. m. between now and the first of September will be rewarded by getting a good look at the personnel of the various crews and a good chance to observe the mode of rowing and so forth of the various crews. Last evening there were nine crews from the various clubs on the water, of whom the Healanis had two four-oared and two six-oared shells, the Myrtles two fours and one six and the Leilanis two fours out. The crews were made up as follows, and unless some unforeseen accident occurs those mentioned below will be found in the same places on the 21st of September:

MYRTLES.—

Senior Crew.—O Sorenson, stroke; David Crozier, Ruby Dexter and—Smith, bow.

Junior Crew.—Chas Crane, Henry Giles, Willie Thrum and Percy Lishman.

LEILANIS.—

Senior Crew.—Chris Holt, stroke; L de L Ward, J D Holt and Eddie Holt, bow.

Junior Crew.—Chris Willis, stroke; Big Dick, Prince David and Joe Conradt.

HEALANIS.—

Senior Crew.—S E P Taylor, stroke; G E Wallin, E H Parker and Willie Chamberlain, bow.

Junior Crew.—C D Walker, H E Walker, Geo C Ross and R W Atkinson.

For the six-oared barge races in the Freshmen Class the crews have not yet been selected in either club, but as there are many aspirants in all three for positions a good race is already assured. Freshmen are those who have never rowed in a race, and as both the Myrtles and Healanis had double crews out last night this race will doubtless prove one of the features of the regatta.

The main interest in boating circles, however, seems to center in the senior crews. Of these, as far as could be judged from last night's rowing, the Leilanis have the largest and most powerful crew and the Myrtle's the most experienced oarsmen. The Healanis crew has a combination of both, and with the addition of a large amount of grit and unbounded faith in their coach expect to make a good showing in the final event.

The Juniors are all rowing well, and at present it would be a hard matter to pick out the winner. The Healanis have a very good opinion of their crew and if the latter loses it will probably be from over-confidence engendered by the faith placed in their abilities by their own club.

The only contestant for the

proposed single sculling race is James Spencer, but he will not go into training unless he is assured of competitors from the other clubs. It is to be hoped these will soon be heard from.

In last night's trial spins the Seniors of the Myrtles rowed a steady, unchanging stroke of 30 to the minute, which in one spin was increased to 32. The Leilanis started out at the rate of 32 and afterwards increased to 34. The Healanis regular stroke on trials spins is 32 and on spurts 36 and upwards, the crew having pulled as high as 44 strokes to the minute on one occasion for a short distance.

On September 1st the racing crews, as finally selected, will move down to Pearl City and go into retirement for active training. The Myrtles have secured their old quarters at Magoon's place, the Leilanis will occupy quarters with J. L. Colburn, while the Healanis have taken one of the Waterhouse cottages, containing six furnished rooms with kitchen and necessary conveniences.

The evening military organ having taken up the championship of the Leilanis as well as that of Col. McLean, and the morning paper that of the Myrtles, it was suggested last night to a BULLETIN representative that this paper be dubbed the official organ of the Healanis. The matter has been referred to the sporting editor and special war correspondent.

IS IT CHOLERA OR NOT?

THE BOARD OF HEALTH WILL TAKE NO CHANCES.

Suspicious Case Reported Outside of Quarantine—The Board Takes Prompt Measures.

Nothing was said in the BULLETIN yesterday about the cholera alarm of Saturday and Sunday from the Quarantine Station, because it was authoritatively stated to have been a false alarm and therefore inexpedient to have given it publicity. Two Chinese immigrants had died at quarantine. It was at first reported that their malady was Asiatic cholera, but the physicians on investigation pronounced it to have been cholera nobilis.

This morning David Keliipio, a member of the Board of Health, telephoned from the Fishmarket that there was a rumor current at that place of two cases of cholera having been discovered at Iwilei. Just before this message was received Dr. Murray, who is associated with Dr. Brodie, called at the Health office and shortly left for Iwilei with Dr. Wood, of the Board.

Dr. Murray reported that the second case in question seemed like Asiatic cholera to him, and he had seen cases of the disease before. The first case at Iwilei, outside of the Quarantine Station, was that of a native woman named Kea Pukaua, who died on the 18th inst. (Sunday), and was buried in the Catholic cemetery on King street. She had been attended by Dr. Murray. A luau was held yesterday at the house where these cases arose, and if it is any contagious form of cholera there is no saying how far the malady may be spread by this time.

This forenoon President Smith and Senior Captain Parker with a posse of officers placed the infected house under quarantine. It is situated in a lane beyond Oahu Prison, near the premises of Mr. Santos.

Since the foregoing was written a meeting of the Board of Health has been convened.

BOARD OF HEALTH.

A special meeting of the Board of Health was held this afternoon, at which F M Hatch, Minister of Foreign Affairs, and J A King, Minister of the Interior, were present together with W O Smith, president, T F Lansing, Drs Day, Emerson, Wood, Myers, Murray, Wayson, Howard and Herbert. Besides Charles Wilcox, secretary, Mr Marks, the Cabinet stenographer, and representatives of the BULLETIN, Star and Independent were on hand to catch the record. C B Reynolds, executive officer, arrived later.

President Smith, while the arrival of Dr. Wood was awaited, submitted the question of having the proceedings of the meeting published in the newspapers.

Mr. Lansing was against any publicity that would occasion unnecessary alarm.

The president said that if it was decided to be expedient, as a precautionary measure, to prevent the departure of passengers for the other islands by this afternoon's steamers, the public mind would be concerned about the matter just as much as if full details were published. He suggested that after the meeting it might be decided to allow a general statement of facts to be published.

The suggestion of the president seemed to have general assent.

Dr. Murray by request gave a statement of the first and fatal case. He had reported the suspicious symptoms to his partner, Dr. Brodie, but, having heard of nothing of the kind in town, they did not deem it proper to alarm the town. When, however, he was called to the second case, in an adjoining house, yesterday, it was agreed between Dr. Brodie and himself that the Board of Health should be notified. In answer to the President, the doctor said he had seen cases of cholera in Paris, although he had not worked with any.

President Smith made a statement of all the events in the matter. One of the facts given was that the woman who died had visited the Quarantine Island on last Friday.

Dr. Day described the fatal case of a sick man landed from the steamer Belgic, and the cases of other immigrants since taken sick in quarantine. An elderly man was seemingly recovering, when he suddenly collapsed and was soon dead. One of the two fatal cases certainly did not show symptoms of cholera. Others who had taken ill did not reach any dangerous stage nor evince alarming symptoms. The Belgic had brought clean bills of health from both Hongkong and Yokohama. Three Chinese died on the passage, reported as two from heart disease and one from pneumonia. Officer McVeigh at quarantine, however, had ascertained from immigrants that those who died had manifested symptoms of intestinal trouble. The only suspicious death at quarantine was that of one who was buried before the symptoms were reported. It was reassuring to know that the remaining patients were becoming convalescent, and that the second case in charge of Dr. Murray was also seemingly on the way to recovery. It was a suspicious fact, however, that the woman who died had been hunting crabs on Quarantine Island with another woman.

Officer Reynolds remarked that conclusions could not be made from the visit of the women until it was known what part of the island they were on.

Dr. Herbert thought the most stringent measures should be taken.

ONE DAY'S LATER NEWS.

WALTER G. SMITH IMAGINES A RESTORATION PLOT.

Dailey Gets Three Days for Contempt
--Sensations in German Politics-- British Imperial Federation.

By the bark C. D. Bryant a day's news later than last mail is brought. Captain C. J. Campbell of the I. I. S. N. Co. has favored the BULLETIN with a copy of the Chronicle of August 4, from which the following summary of foreign news is made.

ALLEGED HAWAIIAN FILIBUSTERING PLOT.

The Chronicle has conjured up a plot in San Francisco to restore Liliuokalani to the Hawaiian throne. There are some very crude touches in the story intended to give it an appearance of truth. Walter G. Smith is city editor of the Chronicle, and his previous residence in Honolulu gave him facilities for getting up a plausible fairy tale. This attempt is, however, away below his standard. It makes the leader, who is named Morrow, give away the whole scheme like a simpleton, and brings in Rudolph Spreckels as the capitalist backing it, with V. V. Ashford as the nominal leader. Honolulu is to be seized by 200 to 400 armed men, who are to loot the treasury and the banks, and receive their reward in coffee farms. Consul General Charles T. Wilder is rung in at the tail of the story, as saying he was not surprised at the revelation, having known that something was in the wind.

AMERICAN NEWS.

Judge Murphy sentenced W. R. Dailey to three days' imprisonment for contempt of court in producing the play, "The Crime of a Century," alleged to have features of the Emmanuel Church horrors in it. Other members of the company were released. Dailey was to have his case brought before the Supreme Court on habeas corpus proceedings.

There is a marked improvement in business in the Northern Pacific States.

A corporation has been formed in Oakland to prospect for oil in the eastern foothills beyond Berkeley.

The Supreme Court of California has rendered a decision in the famous Hale & Norcross mining suit. It affirms the judgment of the court below in finding that H. M. Levy, president of the company, Alvinza Hayward and W. S. Hobart were parties to a conspiracy to rob the mine. The damages against these defendants and the Nevada Mill and Mining Company were more than one million dollars in the judgment appealed from, but the Supreme Court makes them \$210,197.50 against those three persons and lets the company out as having never been properly served.

AMERICAN ITEMS.

The children of George W. Gage will be heard by the United States Supreme Court in November, in their suit against Mrs. Hetty Green, the wandering millionaire, for property in Chicago worth \$5,000,000. The suit turns on an alleged flaw in the foreclosure of a mortgage by which Mrs. Green got the property. If the plaintiffs win, they will get the property on paying \$360,000, being the amount of the mortgage and interest.

An infernal machine was sent to Water Commissioner Moreland of Detroit. He thought the box was sent to him in a joke and would not open it. A grocer delivering goods undertook to open the box, when it exploded and seriously burned him.

All is quiet again at the scene of the Indian troubles in Wyoming.

The new battleship Texas was to be ready for commission by August 15.

Captain Yancy and Paymaster Tiffany are censured, Paymaster Rasmussen is discharged and Paymaster's Clerk W. V. Moriarity is discharged and debarred from re-enlistment, by the finding of the court of inquiry into irre-

gularities on the U. S. receiving ship Vermont.

GERMAN POLITICAL SENSATIONS.

Two sensations have sprung up in German politics within a week. One is that leading conservative papers have joined the agrarian and radical press in attacking the Chancellor, Prince Hohenlohe. The other is an insult offered to the Chancellor by the Austrian Premier, Count Goluchowsky. The German Chancellor had an audience with the Emperor Francis Joseph at Ausso, and, according to an understanding then made, wrote a friendly note to the Austrian Premier asking for a long confidential conference and inviting him to his estate at Ausso. The Austrian Premier replied that he would be glad to see Prince Hohenlohe later in Vienna. The Chancellor felt that Count Goluchowsky's response was an insult, and did not make any reply. When the Premier, after an interview with the Austrian Emperor, tried to make amends for his rudeness by sending a courier to Ausso announcing his coming, Prince Hohenlohe said he was going hunting and could not see the Count.

EUROPEAN NOTES.

A petition is being pressed upon the Bavarian government at Munich, asking that justice be done in the case of Louis Sterne, an American citizen, charged with understating his son's age in order to avoid the payment of a tax.

The organ of the Russian sympathizers at Sofia suggests that, in view of the possible abdication of Prince Ferdinand of Bulgaria, Prince George of Greece may be invited to the throne.

Joseph Chamberlain, Secretary of State for the Colonies, in a letter to a friend says he had taken office with two objects--to bring the self-governing colonies and the mother country into closer relations, and to develop the resources of the Crown in the colonies, especially to increase the trade between them and the mother country.

Sir Henry Irving will appear mostly in Shakespearean roles in his coming American tour.

The Southampton dry dock, said to be the largest in the world, was formally opened on the 3rd inst. by the Prince of Wales.

Officers of a Russian warship sent to prevent seal poaching in the Behring Sea are accused of the unlawful taking of 5000 seal skins on their own account. Suspicion was aroused on the discovery by a Hamburg firm that the skins did not bear the usual marks and had no bullet holes in them. It is thought the Russians clubbed the seals.

GREATEST OF ALL.

Amidst all the agitation for works of internal development, the greatest scheme of all has dropped out of view, now, for several years. That is the building of a railway from Hilo to Hamakua. It has had no powerful champion since the death of Samuel G. Wilder, who really laid down his life in pursuit of the project. The railway in question ought to have been placed ahead of Pacific and inter-island cables in the order of importance. It would unite in one industrial community the whole windward side of Hawaii, and open up large belts of land adapted to a great variety of products. Hilo would by that railway attain to the importance as an entrepot of commerce for the largest island of the group which is her natural due. The treasury could well afford, from certain promise of increased revenues to pay for whatever improvements the harbor of Hilo requires, both in enhancing its safety for refuge and its facilities of commerce. Mr. Rycroft, representative for Puna, has often and eloquently urged in the Legislature the importance of common roads to open up the coffee lands of Hawaii. His arguments would apply with equal force to the Hilo and Hamakua railway. This great project if carried out would certainly increase to a degree at present hardly calculable the area of improved lands, and thus multiply the tax-bearing capabilities of the whole coast and territory back of it extending far into the mountain range. The process of development would be immensely enlarged by irrigation works where needed to render now desert lands cultivable. What would be saved in freights to the sugar and coffee planters, from having their products shipped direct to San Francisco from Hilo, would be a large economy for those great interests. Direct steamers would be placed on the route, which would at once develop an important trade in pineapples, bananas, limes and other fruits. Honolulu has nothing to gain by stupid jealousy toward a project that would make Hilo a gateway of commerce to the group in general and to the largest island in particular. Whatever develops the resources of one part of the country enriches the whole commonwealth.

OBSERVATIONS.

In an article on the political and commercial prospects of China, the Celestial Empire published at Shanghai says: "In China the excitement of the war is rapidly cooling down, too rapidly indeed, for its lessons are already forgotten, and China, whom dear old women in Europe insisted was going to reform, has tumbled back into her old groove and is lying in the rut, for all the world like a nigger child twirling its thumbs, and staring at nothingness." The article gives a warning relative to the treatment of the Chinese by the Powers, saying that "unchecked rioting is apt to break out again with redoubled violence." This warning has its commentary in the later information of a brutal

massacre of American and English missionary women at a place in China.

The Chinese have a proverb which says that he that hath not a smiling face should not open a shop.

One of the savings of Moliere was "Unreasonable haste is the direct road to error." It will probably be exemplified in the Spalding cable contract.

In this issue appear the appropriation acts of the special session. The soldiering business, including the Citizens' Guard, takes 19 per cent of all the money voted, including the \$32,000 for the Honolulu high school.

The personal pronoun "I" is recommended to ex-Labor Commissioner and Adviser-in-general Armstrong as a coat of arms in lieu of the title or decoration his eminent services to the commonwealth demand at the hands of a grateful oligarchy.

Stimulated by the competition of electric light companies, the makers of coal gas have greatly improved their product. They have perfected an incandescent gas light costing only one-seventh as much as incandescent electric light of equal power. That old gas franchise in the Hawaiian statutes may yet be dug up and utilized.

Speaking of window curtains, we will sell beauties at 75 cents a pair, during the clearance sale at the Temple of Fashion Sept. 2.

A Grand Feature
Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

Hood's Pills are purely vegetable perfectly harmless, always reliable and beneficial. 54tf.

Timely Topics TO

Most people make their wills before they die, and some of them are great curiosities in their way. Among the many curious legacies made lately is that of a Christiana man who directs that his whole fortune shall be expended in bicycles. A Norwegian newspaper which does not give itself up to the comic element relates that a Dutch lawyer, named Nikolson, bequeathed the whole of his property to trustees, to be employed in the purchase of bicycles for the use of children attending school, while part of the money is to go towards paying the teacher to train the boys in bicycle riding.

The validity of the will has been disputed by the sons of the testator, who refuse to acknowledge it, so that it is still a question of doubt whether the children will reap the benefit of the strange bequest. That the testator was sincere enough, and that he recognized in the wheel untold blessings which might have escaped the observation of minds of less acumen, the concluding portion of the will should go to prove. It says:-

I have always found a bicycle capital protection against the impertunity of those people who persist in stopping you in your walk to spin a long yarn in the hot sun or in the biting east wind. My machine, unlike a horse, never shied once; and in my drives I have had no need to intrust life and limb to the tender mercies of a coachman."

Now that lawyer had good hard, solid sense and plenty of it, in fact, a good deal more of it than most lawyers are credited with, and yet not more than many boys and girls in Honolulu have, for are there not many of the latter who are spending their whole fortunes in purchasing a bicycle and they are wise in spending their money on something that will give them their money's worth every time.

The bicycle of the Khedive of Egypt is a gorgeous machine, almost entirely covered with silver plating but if anyone wants a duplicate of it we can furnish it, or if something "English you know" is wanted we can supply similiar machines to those used by the Prince of Wales' boys and girls, all of whom are expert riders.

But for common every day people like those who reside in Paradise, we mean the Hawaiian Paradise, the Monarch is the machine to buy. It gives you better value for the money than any other make, and we can furnish it in any style and price. We have received by the Australia the largest consignment of wheels ever brought to the islands, and also a complete line of extra fittings. If any portion of a Monarch wheel gets broken or out of order we can replace it at a moment's notice at factory prices.

Mr. T. V. King, who arrived by the same steamer, will have charge of the mechanical department of our bicycle business. His large experience in that line enables us to guarantee satisfaction in all work entrusted to him.

THAT FILIBUSTER STORY.

WHAT HONOLULU PEOPLE HAVE TO SAY ABOUT IT.

Different People Have Different Ideas on the Matter--It is Generally Regarded as a Fake.

It would be amusing to detail the various theories advanced on the Hawaiian filibustering story told in the San Francisco Chronicle of August 4th, a few copies of which came to this city by the bark C. D. Bryant on Sunday.

One prominent merchant on Fort street, who was interviewed on the matter by a BULLETIN reporter, said: "Oh, that's one of Walter G. Smith's yarns. The whole thing bears his earmarks and there is no doubt, that he worked the thing up at so much a column including pictures. It is well-known that when Walter G. Smith left here he carried away a lot of photographs, maps, etc., which he intended to use at future periods in articles descriptive of the islands and prominent people here. You can put the whole thing down as a fake and charge it to Walter."

Another merchant on the same street said in answer to the reporter's query: "The whole thing is manifestly a fake, and I firmly believe it was gotten up here and sent to San Francisco for publication by some one in authority here."

Asked on what he based such a theory the merchant said: "Now look here, you know as well as I do that there is a growing sentiment in Honolulu in favor of releasing all the political prisoners from the ex-queen down. Well, the government is opposed to that and in fact is afraid to order their release. For the same reason they refuse to disband the mounted police and useless military. They are afraid to—personal fear, nothing more or less. The whole article is a scheme concocted by the government to give it some shadow of an excuse to keep the political prisoners on the reef while they continue to draw down their salaries and run the Republic into hopeless debt."

A well-known capitalist was next approached by the reporter but he did not care to express an opinion. He did say, however, that there was a strange coincidence in the fact that Johnny Soper, the Hawaiian Vice-Consul at San Francisco, was said to room at the same house where W. P. Morrow was said to be organizing the expedition. "It will be strange," said this gentleman, "if it does not turn out that Consul Wilder knows more about it than he let out to the Chronicle man, whether it proves to be a fake or not. I might add," said this gentleman, "that the reported statement of Wilder to the effect that Mr. Schaefer was in a hurry to get back to bear arms in defense of his country was clearly a fake, because everyone who knows that gentleman knows that his official position as a foreign consul precludes the possibility of his taking any active part in any hostilities which might occur."

With regard to the correctness of the above opinions, it is simply a matter of paying your money and taking your choice.

SPEAKING OF SEWING MACHINES REMINDS US

To remind you that we have a Sewing Machine in which we place so much confidence that we will send it to you on trial free for a week and if not satisfactory you may return it at our expense.
We make this offer because we know our goods.
Our Machine costs a trifle more wholesale and sells for a trifle more retail than any other Machine in the world, but it is worth it. Listen: It makes five stitches to the revolution while others make but three and one half. In other words you do what is three days' work on the old style in two days with the "Standard". If you are tired or busy that is worth while. Paste this in your bureau.
The "Standard" has both chain and lock stitch.
The "Standard" gives a written guarantee for five years. It does every thing that can be done on a Sewing Machine, what more do you want?

Once I Was Blind But Now I Can See

Thanks to Hood's Sarsaparilla.
"C. I. Hood & Co., Lowell, Mass.:
"I have suffered everything possible with
sore eyes and headache, the sores so severe
that I was blind. I tried everything I heard
of without benefit, and went to the Rhode
Island Hospital, but found no relief there.
A friend told me of Hood's Sarsaparilla, so
I bought a bottle and a box of Hood's Pills.

Hood's Sarsaparilla Cures

With More Than Thanks
I want everybody to know that since I have
been taking these medicines, I have become
as well as ever. My eyes have perfectly
healed and the headache is cured. From
my picture you can see there is nothing the
matter with my eyes now." Mrs. ELIZA
LOGREE, Potter Hill, Westerly, R. I.

Hood's Pills cure nausea, sick headache,
indigestion, biliousness. Sold by all druggists.

MRS. AUG. DARROW.

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to
sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and
work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136
pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three
families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend
it to all who are suffering with stomach trouble or nervous trouble.

Yours respectfully,

MRS. AUG. DARROW.

Blood Diseases,

When the blood is diseased and the system Anemic or Scrofulous, it carries sickness through the whole body, for the current of human life is in the blood. This proves how necessary it is to have pure rich blood, because an impoverished condition of it brings on Fevers, Malaria, Rheumatism, Bowel Complaints, Lung Scrofula, General Debility, etc.

Wampole's Preparation,

perfected and tasteless, of Cod Liver Oil with Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark, resists the attacks of all disease germs in the blood, is highly recommended as the best modern treatment to clear your system and to bring back robust health and strength. Is really a family medicine chest.

Don't Make a Mistake!

The oldest, best and cheapest furniture store in the city was established by the veteran furniture dealer and undertaker, Mr. C. E. Williams, in 1859, and is now conducted by him and his oldest son Ed. A. Williams at 611 King St. We wish to notify our patrons and the public generally that we have no connection whatever with any other furniture and undertaking establishment in Honolulu.

WELL! WELL!! WELL!!!

Just Look at the Mistakes.

When people order by telephone of another Furniture Store and then walk into C. E. WILLIAMS & SONS Store and ask why the goods are not delivered on time they make a mistake. When a lady telephones to the store of C. E. Williams & Son to come and take back a piano that was sent to her by another furniture man she makes a mistake.

It is a Mistake to think that C. E. WILLIAMS has left the country without a return ticket.

It was a Mistake to try to stop him from going.

It is a Mistake to imagine that he will not return with a stock of goods, with prices that will make the public happy and paralyze some folks.

It is a Mistake if Clark's school of embalming from which Mr. ED. A. WILLIAMS graduated last year is not the best on Earth.

It is a Mistake if you think we do not covet all the trade in town; we do! We would like the Earth and Necker Island thrown in.

It is a Mistake if you think (all insinuations to the contrary) that we do not still remain, Yours as ever,

TUESDAY'S FLEET GOES OUT

THE BENNINGTON TAKING ON MORE COAL.

A Paauhau Cargo in the Likelike—Coal for Kahuku—Cleanings Along the Wharves.

A gloomy day on the waterfront. The steamer Keauhau left at noon today with 100 tons of coal for Kahuku plantation.

The Bennington is taking on 150 tons of coal. It is being lightered by Hackfeld's scows.

The lumber from the barkentine Retriever is being unloaded at the new Fort street wharf.

A dynamo will be placed in the steamer W G Hall during the week, and the incandescent lights which were placed in that vessel some time ago will be put in use.

The steamer Likelike left this afternoon with a deck load of lumber and a lot of machinery for Paauhau plantation, and considerable freight for Maui way ports. There was a small passenger list.

The barkentine Archer is not only the only American iron vessel in port, in fact one of the few American iron sailing afloat, but is the only one which daily flies her house flag—W & Co. This practice, if more generally followed, would save a good deal of chasing around to find certain vessels along the wharves.

IS IT CHOLERA OR NOT?

(Continued from 1st page.)

en, whether the disease was choleraic or not.

The president stated that the Board was trying to follow up all who were at the wake or feast last night. They included a number of hands on island steamers.

Dr Herbert also said any cases of diarrhoea should be strictly looked after.

It was agreed to send all who attended the feast back to the hamlet, there to be quarantined. There was a discussion on restriction of traffic. Some members thought it would be hard to keep passengers from departing for the other islands, or restricting traffic in Honolulu outside of the infected locality.

President Smith thought that if the physicians believed it was cholera, no passengers should be allowed to leave. Otherwise there would be a liability of spreading cholera all over the islands. If there was no more danger apparent a week from now the embargo could then be raised.

The meeting was still in session at 2:40 when our reporter left.

AMONG PETTY OFFENDERS.

HAPENINGS IN THE COURT OF JUDGE PERRY.

Business Picking Up In Police Circles—Fines and Penalties Imposed by His Honor.

The sight of a calendar with thirty-nine separate charges against that many offenders must have been productive of "that tired feeling" in the breast of His Honor yesterday morning, or in whatever place in the human anatomy that peculiar feeling prefers most to lurk, when he took his seat on the bench and, figuratively speaking, donned the judicial ermine.

W. Stevens is in a pillkia. It is all about a certain holoku, the color and material of which is not mentioned, of the value of one dollar and a half, good American money, which he is alleged to have feloniously stolen, taken and carried away from one Sea. Mr. Stevens denied the soft impeachment connected with the charge of larceny and the Court gave him an especial seance this morning at which he was found not guilty and discharged.

Kiti and Motto pleaded guilty of playing at a game in which money is lost or won, but whether there was more than one "Kitty" in the game or not does not appear, as the record does not state whether it was the great American game of poker they were playing or some new-fangled Japanese game. However, this is probably the first instance on record of the "Kitty" getting fined ten dollars and costs for being in the game.

Harry Saylor was tried on the charge of assaulting Frank Gertz and found not guilty.

Three Japanese who indulged in too much saki of the "fighting" kind were charged with an affray, but were allowed to plead guilty of being drunk and were fined the usual \$3 each.

In the case of Kahaiola, charged with running a che-fa game, J. M. Poepoe for the defense strenuously objected to the testimony of the first witness against whom a similar charge had just been dismissed on the ground that he was an accomplice, but the court thought his testimony competent. His trial ended in his being found guilty and sentenced to pay a fine of \$150 and costs. He was not satisfied with the decision of Judge Perry and will appeal the case.

Four Chinese opium offenders were respited until the 27th, and P. Kalei, who is accused of the heinous offense of distilling spirituous liquors right under the noses of Honolulu's missionary element, will have to make due and proper explanation there of tomorrow.

The case of John Makalea for malicious injury and mischief combined was nolle pro'd.

The seduction case of D. Ferreira has been finally set for tomorrow, and Landcroft will tell what he knows about the proposed expedition on the Kaiulani and how that little schooner got tangled up in the mud.

Paul Neumann will appear as counsel for H. M. Berg on the 29th, against whom a charge of vagrancy has been placed for some time past.

On Thursday Mr. Halulu will explain how he got into A. Cahill's room and why it was that the latter was \$49 25 loser by the operation—that is, if he can.

Lee Quon Chu and Gee Won Hin are the euphonious names of two Celestials who are said to have carressed a poor old drunken native Aieono with that end of a hatchet which goes on the handle. They have pleaded not guilty but will have to prove it before getting out of the clutches of the newly elected Marshal.

In the case of J. Doherty, accused of having opium in possession, Customs Officer Charles Thurston testified that he found opium in a locker in defendant's room on the Mikahala yesterday. Judge Perry found the defendant guilty and fined him \$250 and costs, from which decision an appeal was noted.

TO OWNERS OF BUILDINGS.

The undersigned having purchased the exclusive right, title and interest for the manufacture and use of the PEERLESS PRESERVING PAINT in and for the Hawaiian Islands, desire to call the attention of owners of buildings to the superiority of this Paint for the purpose of Preserving Shingles, Metals, Iron, Steel, Bridges, Posts, etc., against rust, corrosion, decay and leakage. One generous coat of the Peerless Preserving Paint has been found equal if not superior to three coats of any other Paint, and we guarantee it will not scale, crack, or run, it being possessive of a body when applied in which there is no OIL, SPIRITS OR EVAPORATIVE SUBSTANCE. In using this Paint upon a shingle roof its FIRE-PROOF qualities are one of the chief advantages, as it renders the roof impervious to sparks which may fall upon it in the driest season without the slightest injurious effects. The main features which the PEERLESS PRESERVING PAINT offers for its use upon roofs are its thorough resistance to any action of heat or cold, and its wonderful PRESERVING qualities which fully prevent any action from either RUST OR DECAY.

We are prepared to execute and carry out special contracts for the application of the PEERLESS PRESERVING PAINT on any of the Islands. All contracts undertaken by us will be fully GUARANTEED. Our prices for this class of work are extremely moderate, and roofs to which Paint is applied by us are guaranteed against leaks, cracks, scales or runs for a period of years, estimated upon the age of the roof when the work is performed.

Examinations made and estimates given in all work free of charge, and references given by application at our office.
