

COMMERCIAL.

SATURDAY, OCTOBER 1, 1864.

We have had four arrivals from San Francisco the past week—long passages, as is usual at this season of the year. The ship John Nicholas which touched on Sunday, sailed the same day for Shanghai. The bark John Wells which arrived on Wednesday, has been purchased by Wilcox, Richards & Co., and will be fitted out as a whaler.

The Hamburg bark St. Thomas Packet passed the port on Wednesday, seeking freight, bound for Hongkong.

By the Onward, which arrived yesterday, a heavy cargo has come to land—valued at nearly \$200,000 and is \$25,000 in gold. We learn that the agents in San Francisco had the finest freight offered, as the vessel was full. It is evident that our packets leave that end of the line full as did the Onward, and augurs well for our increasing trade with California. The Flag of St. T. refers to her and other vessels in the following paragraphs:

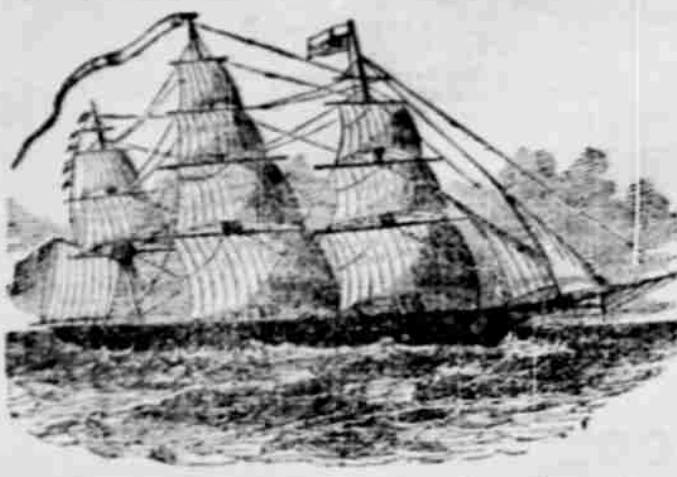

The Onward for Honolulu has been obliged to refuse much freight that was offered. Her cargo is valued at \$50,138 88, in addition to which she carries \$25,000 in treasure. Including the treasure, this is the largest amount of gold ever sent to the Sandwich Islands. At present the stock of sand-which Island produce is low, and the market is very tight. Full freight about the only article that drags now.

The bark Onward, in the Opposition Line of Hawaiian Packets, is about loaded, and will carry full freight to Honolulu. Her letter bags are at the office of Charles W. Brooks & Co. She sails early Friday morning. The waiting bark John Wells sailed yesterday for Honolulu, with 49,000 lbs of sugar, valued at \$1800. We see by the papers that the ships John Wells and A. One, for Hongkong, are both at stop at Honolulu on their way over.

The same paper refers to the sugar market, as follows: There were two auction sales of sugar to-day—one of 4000 lbs. New York Crushed at \$15 1/2 @ 15 3/4, cash, the proceeds offered to the licensed importer, New York, by telegraph. The other was of Hawaiian raws, the rates obtained were quite satisfactory to the importer, and considering their quality, brought about half a cent @ 1/2 advance on previous public sales. Prices ranged from \$9 to \$12 1/2 per 100 lbs, chiefly at \$10 50 to \$11 50. The 1000 bags dark Java, 500 lbs in weight, for the Old Sugar Refinery, at \$c. 1/2 lb.

Commercial Advertiser. FOREIGN NEWS.

The bark Onward arrived yesterday, after a long passage of three weeks, having left San Francisco on the 9th. The following is a summary of her news: From Grant.

HEADQUARTERS ARMY OF THE POTOMAC, Sept. 4.—The rebel pickets in the front line have fallen. They have been very friendly lately. They have their pockets filled with Jeff Davis' proclamation, offering protection and safe conduct to deserters. They gave largely to reduce our ranks by this dodge. They beg all the supplies they can get from our men, given greenbacks and tobacco in exchange.

Sept. 5th.—Last night our batteries along the entire line opened and saluted the enemy for an hour, in honor of the fall of Atlanta.

New York, Sept. 7.—The Tribune special from Wilbur's Headquarters on the 6th says, the Duxon Gap Canal is so far complete that its success is beyond question. The river will be taught a new and better channel. Of how much value as a military expedient the canal will be remains to be seen. It will by no means open the river to Richmond.

Sept. 6.—Official dispatches received at Nashville, announce that in the late fight before Atlanta the rebels lost three thousand, killed and wounded, with two thousand prisoners, including a Brigadier-General, ten guns and a large amount of camp equipment. Our loss was trifling. The rebels were retreating in great haste. Official information from the front dated Sunday, says the enemy below Atlanta, represents Sherman as pushing rapidly southwards.

WASHINGTON, Sept. 7.—This Department is still without dispatches from South of Nashville. It is supposed to be Sherman's design to withdraw his advance columns and give his army a rest in Atlanta, establish himself securely there and restore the railroad communication, now broken by Wheeler and Forrest, before making another advance.

New York, Sept. 8.—The following is a log account of how he was shipped. On August 28th, the enemy made a lodgment across the Flint River, near Jonesboro. We attacked them there on the evening of the 31st with two corps, but failed to dislodge them. This made it necessary to abandon all hope of success on the night of the 1st of September. Our loss on the evening of the 31st was small. On the evening of the 1st of September, Gen. Hardee's corps in position at Jonesboro, was assaulted by a superior force of the enemy, being outfought and compelled to withdraw during the night with the loss of eight guns. The enemy's prisoners report their loss very severe.

LOUISVILLE, Sept. 8.—In answer to a request that General Sherman would give us details of his late operations before Atlanta, we have received the following: On August 25th, pursuant to a plan of which the War Department had been fully advised, I left the Twentieth Corps at Chattahoochee Bridge, and with the balance of the Army moved to the several positions, using considerable artifice to mislead the enemy. Moved rapidly south, reached the West Point Railroad near Fairburn on the 27th, broke up twelve miles of it, and then moving east, my right approached the Macon road, seven miles from Atlanta, being near Rough and Ready. The enemy attacked the right wing of the Army of the Tennessee and was completely beaten on the 31st. During the combat I pushed my left of the centre rapidly to the railroad, above and between Long and Ready streets, Jonesboro. On the 1st of September I broke up about eight miles of the Macon Road, and turned on the enemy at Jonesboro; assaulted him and his lines were carried there capturing Brig. Gen. Given (Gowan) and about two thousand prisoners, eleven guns and much plunder. Night alone only prevented our capturing all Hardee's corps, which escaped south that night. Hood, in Atlanta, finding all the railroads broken or in our possession, blew up his ammunition trains, seven locomotives, eight cars, and evacuated Atlanta, which, on the 24th of September, was occupied by the Twentieth Corps, left for that purpose. We are following the retreating rebels to near Lovejoy's Station, three miles south of Atlanta, and now in our possession, are in a position to re-occupy Atlanta, which, on the 24th of September, was occupied by the Twentieth Corps, left for that purpose.

On August 25th, pursuant to a plan of which the War Department had been fully advised, I left the Twentieth Corps at Chattahoochee Bridge, and with the balance of the Army moved to the several positions, using considerable artifice to mislead the enemy. broke camp yesterday morning, and moved toward Berryville, Crook on the left, the Nineteenth Corps in the centre, and the Sixth Corps on the right. Crook reached Berryville at noon, and rested in line of battle, white pickets were posted on the road leading from Berryville.

Crook's command went into camp and had just finished pitching their tents about four o'clock, when heavy pickets skimming the road, and resting in line of battle, white pickets were posted on the road leading from Berryville.

The conflict lasted till after sundown, and the army engaged in a night fighting, with pickets and throwing up breastworks. We now occupy a strong position. We captured fifty prisoners and three standards of colors. Our loss about three hundred killed and wounded, and that of the enemy at least one third more.

New York, Sept. 9.—The Times' special from Charleston, S. C., says the enemy show no disposition to offer battle in general engagement. On Monday General Birge's Brigade of Granger's Division of the Nineteenth Corps advanced to Winchester and Berryville, Tennessee, where the rebels fought without firing a shot. The First New York Dragoons, Major Smith, the same day, went on a reconnaissance to the right, but met with no serious opposition. Our troops reached a point on the Tennessee River, where the rebels' headquarters had been three hours before. Early's movements are enveloped somewhat in mystery.

From Tennessee. New York, Sept. 6.—The Commercial publishes the following dispatch from Knoxville, Tennessee: The following official telegram was received early this evening from Bull's Gap, Tenn. 4th: Gen. Tilson surprised, defeated and killed John Morgan at Green River this morning. The killed are scattered for miles, and not yet counted. They will probably number from 60 to 100. About 25 prisoners were taken among those captured were the staff, with one piece of artillery and a caisson. The enemy's force outnumbered mine, but the surprise was complete. (Signed.) ALVIN C. GILLES.

LOUISVILLE, Sept. 6.—Three thousand rebel cavalry, under Williams and Robertson, with three pieces of artillery, were attacked by Gen. Milroy, near Murfreesboro, on Saturday morning, and broke fighting continued all day Sunday. The rebels retreated toward Trine, followed by Milroy, who made several attacks during Sunday. The Federal loss was ten killed and wounded. The rebel loss is thought to be larger. General Milroy having exhausted his ammunition, joined General Rousseau's force near Franklin. Wheeler's main force was six miles southwest of Columbia, Sunday. Williams' detachment, it is reported, had joined him, Rousseau closely following. The damage to the railroad is very slight, no bridge nor trestles were destroyed. A later dispatch from Milroy reports eleven rebels captured and twenty killed, twenty five wounded. The Nashville Times says a dispatch received this morning reports General Rousseau pursuing Wheeler south of Duck river. In a charge upon the rebels, who were dismounted to fight, we captured five hundred horses.

Nashville, Sept. 8.—The latest intelligence from Rousseau is, that he is driving Wheeler, who is trying to get across the Tennessee river. We have captured many prisoners. The railroad between Nashville and Chattanooga will be in running order to-morrow.

The "Niagara" Seizes the "Georgia." New York, Sept. 5th.—The United States frigate "Niagara" seized the rebel pirate steamer "Georgia," twenty miles off Lebanon, put a prize crew on board, and sent her to New York. The "Niagara" landed the Captain and crew of the "Georgia" at Dover. The "Georgia," when seized, was under the command of her captain, and was carrying a large quantity of arms and munitions. The event has excited much controversy, and it was rumored that the capture was effected under the consent of the British Government. There is much difference of opinion as to the legality of the capture, but general satisfaction is expressed.

Miscellaneous. WASHINGTON, Sept. 5.—The President has issued a series of orders in relation to the recent Federal successes at Mobile, and Atlanta, tendering the National thanks to Generals Sherman, Canby and Granger, and ordering a National salute to be fired at the arsenals and navy yards in the United States, in honor of the recent victories. He also recommends thanksgiving be offered in the churches next Sunday therefor.

WASHINGTON, Sept. 6.—During the last ten days the number mustered into the service averaged three thousand per day. The number mustered in on the third was over six thousand, which probably is a greater number than has been mustered in on any other day for two years. There is authority for the statement that an arrangement has been entered into between our own and the rebel government, whereby the condition of our prisoners, in rebel hands, will be materially benefited. The rebel Commissioner, Ould, has submitted a proposition to our Government, agreeing to relieve our prisoners of war in their hands, in close confinement, and put them on the footing of other prisoners of war, providing our Government will do the same toward the rebel prisoners similarly held by us. This proposition was accepted by the Government.

New York, Sept. 8th.—The Committee appointed by the Chicago Convention to notify General McClellan of his nomination, met this morning at the St. Nicholas Hotel. Nearly all the Committee were present, and the meeting was held in a private room at Belmont, Potter Cagier, Dean Richmond and others. General McClellan to-day; among them was August Belmont, Potter Cagier, Dean Richmond and others. New York, Sept. 6th.—The Commercial's Washington special dispatch says five officers of the "Kearsarge" had arrived there, to give evidence respecting the capture of the English yacht "Crescent." The Commercial's special dispatch says that the "Crescent" was a schooner, and was captured by the "Kearsarge" on the coast of New England, where she took and destroyed many vessels, including a steamer with a valuable cargo, supposed to have been the steamer "Electric Spark."

Baltimore, Sept. 9th.—The Constitutional Convention completed its labors and adjourned to-day. The new Constitution will be submitted to the people on the 12th of October. New York, Sept. 8th.—The New London correspondent of the Commercial Advertiser says the greatest excitement prevailed the past week in the steamboat offices of the lines from Boston to New York, consequent upon the revealing to Collector Barney of a plot to destroy all the steamboats running on the Sound. It was said that the "Electric Spark," recently captured by the "Tallahassee," and now her consort, was hovering about our coast, and was to do the work.

40,000 Old Newspapers SUITABLE FOR WRAPPING PAPER. For sale cheap by the 100 or 1000. H. M. WHITNEY. HEADQUARTERS ARMY OF THE POTOMAC, Sept. 6.—Rebels were prevalent for two days past that part of Early's troops had arrived in our front, and were massing on our left flank, necessitating another struggle for the possession of the Weldon Railroad. Preparations are being made to resist them. Thus far, with the exception of a few guerrillas, no enemy has appeared in that direction.

From Sheridan. BALTIMORE, Sept. 5.—A special to the American, near Berryville, the 4th, says Crook's command

Foreign Summary.

Vermont makes sugar enough for home consumption. The New York Evening Post and other city papers have advanced here to five cents for each single paper, and \$12 per year.

RESULT OF THE LATE DEBATE.—The results of the last debate were stated in Congress, the other day, to have been:—Exempted for disability, 75,000; for other causes, 74,000; paid commutation, 41,000; procured substitutes, 34,900; rewarded, 11,000.

LITERARY LABORER FORWARDED.—It is said that Washington Irving realized on his works the sum of \$205,358. Since his death, to September 30, 1863, the sum of \$24,373 has been received by his executors.

PARIS.—According to the report for 1862, published by the Hon. G. M. Robertson, Justice Secretary, that year 62,312 births in the city of Paris, of which number 14,951 were illegitimate!

CARDINALS.—Nine cardinals' hats are at the disposal of Pius IX., who has, in the course of his reign, created forty-five cardinals, and outlived sixty-five. Among the cardinals, there are four who number more than eighty years, twelve who are upwards of seventy, and twenty-nine who are above sixty. Cardinal Antonio Tosti, who is ninety, is the oldest.

A NEW HEALING POWER.—An assistant surgeon, writing from Gettysburg, says that what water is in the wounds of the soldiers, is a remedy easily applied, and that it dispels flies, expels vermin, sweetens the wounds, and promotes a healthy granulation. He states that he has seen patients, whose wounds have been dressed with it, asleep before they were through with the bandage. This is a remedy easily applied in our hospitals. If it serves to keep away flies, it will add materially to the comfort of the wounded as well as their cure.

A LESSON IN SPELLING.—The Boston Courier makes fun of a learned disquisition in the Philadelphia Press upon the subject of the syllable "Kear-sar-gee" (with a hard g.) The Courier says:—"It is amusing to know, in the face of all this erudition, that the people who live around the mountain in question know it only as 'Kear-sar-gee'—pronounced in two syllables, the g soft as it is spelled."

CYRUS W. FIELD, Esq., left St. Johns, N. F., Friday, for Piacentia Bay. Heart's Content is the place where the Atlantic cable will be landed. Mr. Field proposes to build a land line there to Piacentia, the hundred miles in length and over a good road the entire distance. A cable will connect Piacentia Bay with Cape Breton. Capt. Orlebar, of Her Majesty's steamer "Margate," which has been sent to Piacentia, to make soundings.

A PRUSSIAN AUTO DA FE.—Mr. Fusch has fallen a victim to his irreverence of dignities. He has made fun of the King and people of Prussia, and after being solemnly tried by the chief tribunal of Berlin, with closing doors, he has been sentenced to be burned. As in order to burn him the worthy Prussians will first be compelled to buy him, we dare say the unprincipled offender will make light of the flames in which he is to be consumed. The windmills in this case by the Berliners resemble one of the financial vengeance exercised upon the Bank of England, by an indignant gentleman, who thought its privileges a monopoly, and attacked its credit by destroying all the notes on which he could lay his hand!

ATLANTA.—The importance of Atlanta can hardly be overestimated. The Savannah Republican considers no portion of Georgia safe, if that stronghold cannot be held. It frankly calls upon every man in the State to bury its arms. "There is not a man in the State who is not directly interested in the result, for the triumph of Sherman involves the ruin of us all. No man will have anything that he can call his own. Everything will be held at the mercy of the mercenary foe, and every man may read our fate in the bitter experience of thousands who have been brought under the abolition yoke."

FOREIGN VIEW OF RETALIATION.—The London Daily News, in commenting upon the Fort Pillow massacre, says that the mercenary foe would be executed. The murder of the peasantry by the French soldiers, which had previously been common enough soon ceased after this intimation had been given and acted upon in a few instances.

Have you—"The Look!" The Richmond Examiner lately furnished the following factious item: "For the first time in our varied experience we saw on Tuesday a barrel of flour hauled up Governor street in a hearse. The public had never before seen a hearse. When we came to recall that flour was five and six hundred dollars per barrel, and that the struggle for bread was one of life and death, we better appreciated the connection between the hearse and the barrel of flour."

European Intelligence. DATES TO AUGUST 28. HALIFAX, N. S., Sept. 6.—The steamer "Scotia," from Liverpool to the 27th, and Queenstown the 28th, has arrived. The Daily News and Morning Post have editorials showing the necessity of the Georgia in a legal and the British Government cannot interfere, as a Confederate war vessel could not legally be sold in British ports.

The Liverpool Courier editorially states that Mr. Bate did not purchase the "Georgia" until the customs authorized, and informed him she should be registered as a British vessel. She was accordingly registered. It also publishes evidence that her charter for service to the Portuguese Government was bona fide. The Army and Navy Gazette admits the Federal success at Mobile, and as regards peace declares its belief that the existence of a peace party is mythical. The Times editorially questions whether the Republicans are any more inclined for recognition or reconciliation than they were a year ago.

The weekly returns of the Bank of France show an increase of four and one third millions of francs. Arrests continued in Tyrol, owing to the alleged conspiracy to detach Tyrol from Austria. Senor Fassio, the representative of the Emperor of Mexico, had arrived in Spain, as bearer of dispatches, announcing to the Queen the accession of the Emperor Maximilian to the Mexican throne.

SUGAR AND MOLASSES, From HAIKU PLANTATION! FOR SALE BY S. SAVIDGE, Agent. The Clipper Schooner "HELEEN!" Runs regularly to MALIKO, for freight or passage apply to the Captain on board or S. SAVIDGE, Agent.

THE HONOLULU SOAP WORKS. 435-17

SCHOONER CUT OFF.—By the schooner Abby Forrest, which arrived on Sunday from Micronesia, intelligence has been received of the loss of the Hamburg schooner Franz, and the massacre of her crew and passengers, at one of the Micronesian Islands. This vessel left the Amoor River for Honolulu some three years ago, consigned to Messrs. Meichlers & Co. of this city. The long absence of the schooner, created fears that she had been lost at sea or cut off by savages, but until this arrival no news had been heard from her. The intelligence of her loss is conveyed in a letter to Rev. S. C. Damon from Rev. Mr. Snow of Eben, from which we extract the following particulars, published in the Friend for October: Eben, May 19, 1864.

REV. S. C. DAMON.—My Dear Brother,—If you have not learned the fact before, let me here communicate to you the sad intelligence that another vessel has been cut off among these islands, and all on board have been murdered. It was sometime during the past year, and at one of our northern islands. The native name of the island is Kongerik, lat. 11° 20' N., long 167° 14' E. according to Kotzebue. The information was given me by Eben natives who have just arrived from the north. They have not been to that island but have seen natives from there, and obtained many things of them taken from the vessel. They describe the vessel as a schooner about the size of the Maria, which was wrecked on this island. They were at anchor in the lagoon, and I think it was the second day after they came to anchor that they murdered them and took the vessel. They did it while part of the company was on shore, murdering those on shore first, then those in the vessel. So far as I can learn there was no provocation whatever for the barbarity. It was solely for plunder. And they were greatly disappointed to find that the things they most wanted were not in the vessel, such as tobacco, hatchets, knives, axes, etc.; but on the contrary there was a great deal of clothing, prints, boxes, books, and I should judge, bar iron for blacksmithing, together with a great many China or Japanese boxes.

But what makes it sadder to us is the probability that there was a missionary family on board, for they speak of one of the company—and he was not the captain—who read from a book morning and evening, and then stood up and shut his eyes and talked, and while he did this all the rest put their heads down and went to sleep, that is, shut up their eyes. The white woman who was on board was the wife of the man who prayed. The flag of the vessel with a name on it is with our chiefs who are now at Jaluit. I have a medicine chest from the vessel with a few medicines in it, and all of them labeled in German. An apothecary's card is on the inside of the cover with the name A. L. Siemens and Hamburg upon it. It is a German medicine chest, and I think, that medicine chests could be fitted out or replenished at short notice and on reasonable terms, with directions in the various languages of Continental Europe. It is a touching and instructive fact that the natives, either from their teaching or from his praying, called the name of the praying man Ahava.

After they had killed the company they worked the vessel on shore upon the reef and burnt her.

THE STEAMER "KILAUEA!" Will leave Honolulu on Monday, October 3d, at HALF-PAST FOUR O'CLOCK. For LAHAINA, ULUPALAKUA, KEALAKEAKUA, KAILUA, HONOIPU, and KAWAIIHAE. Returning Saturday Morning. The KILAUEA will lay up to scale boilers the week after the above trip and commence her regular trips again on MONDAY the 17th October. JANION, GREEN & Co., Agents H. S. N. Co. 435-2m
