Supply from Kauai-Express Confidence in National Board of Healh.

not want to be confounded with Hilo. A meeting was held here yesterday at which James Renton presided. G. P. Tulloch was selected as district sanitary inspector on a salary.

J. Weir Robertson, American, aged 41, is in the pest house at Kakaako with plague. The diagnosis was made last night by Drs. Garvin and Wood and was confirmed this morning.

ment the following resolution was spread on the minutes:
Resolved that the sympathy of the people of this district be extended to the people of Honolulu at this time of trouble, and that we congratulate them on the possession of an able and effi-cient Board of Health as well as a sound public sentiment, and that we extend the fullest measure of confidence to the National Board of Health in any action which they may take affecting our own interests.

THE KAIULANDS CREW.

Shipping Laws and Quarantine Cause a Dilemna

The trouble of the crew of the Kainlani appears to have been caused by a misunderstanding on the part of the consular agent at Hilo. The vessel was regularly entered here and it was the intention of the Wilder Steamship Company to discharge the men here. To do that, however, would have left the vessel without any men except those who could be engaged in Honolulu. That meant quarantine for the vessel. An agreement was therefore entered into by which the men were to take the steamer to Hawaii and be discharged there. When they arrived at Hile, the consular agent would not allow this to be done, not understanding the state of the case. Consui-General Haywood has sent additional instructions and the discharge of the crew has probably been allowed by this time, if the com-pany still wanted to get rid of the men. They are to be given passage back to Honolulu.

It was the intention to put the crew f the Kilauca Hou in the Kaiulani, but the action taken at Hilo prevented that, before the Kilauea Hou left on its famous trip with Representative Loebenstein. The problem is to get crews for both vessels without taking on board any of the plague-infected laborers of the Honolulu water front.

H. P. BALDWIN'S AUTOMOBILE. PAIA, January 31,-H. P. Baldwin's automobile is all prepared for a trial run, but owing to the difficulty in se-curing gasoline, has not been tried yet. It is a very neat, trim looking vehicle, run by gasoline, and will doubtless cause much astonishment amongst the

Arrangements for an Independent Rice Treated with Plague Serum and Appears to be Improving-Stock Clerk for May & Company.

Tulloch was selected as district santary inspector on a salary.

The question of food supplies was fully gone into and arrangements made for an independent supply of rice from Kauai. San Francisco supplies are weit on the way and it was concluded that the district would soon be in a position to stand a long seige. Before adjournment the following resolution was spread on the minutes:

Resolved that the sympathy of the Resolved that the district would soon be in a position to stand a long seige. Before adjournment the following resolution was spread on the minutes:

Resolved that the sympathy of the Resolved that the district would soon be in a position to stand a long seige. Before adjournment the following resolution was spread on the minutes:

Or. Garvin responded. He found a bub in the right groin; temperature 193 2-5, and pulse 118. Diagnosis of bubonic plague was also returned.

Dr. Wood examined Mr. Robertson shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the district value of the shortly after and agreed with the shortly value of the shortly after and agreed with the shortly after and agreed with the shortly value of the shortly after and agreed with the shortly after a

shortly after and agreed with the dia-gnosis. The sick man was removed to the pest house and arrangements were made to remove the family to the de-tention camp at Kalihi.

As soon as possible Mr. Robertson was treated with the piague scrum through Dr. Carmichael from General Wyman during the afternoon. In the presence of Drs. Wood and Day, Dr. Garvin injected two doses into the back between the shoulders.

There was no immediate result but this morning there was an improve-ment. Temperature was lower and there was every indication that the se-rum was doing its work well.

Mr. Robertson was stock clerk for Henry May & Company in the Bethel street store. His principal work was in the warehouse in the rear of the es-tablishment. He lived in a cottage in a lane on Nuuanu street between School and Vineyard. Just how he could have contracted the plague will probably always be a mystery, as he is a man who stuck very closely to business and seldom left the store during the day.

Fred. Waterhouse, manager of the Bethel street store, does not think that rats could have been the cause. He says that a few days ago the cellar was thoroughly fumigated and that precautions against infection was frequently taken.

Mr. Waterhouse seems to think that

an accident may have caused the bubb found by the physicians. He says that a few days ago Mr. Robertson strained himself lifting a box weighing about 100 pounds and has since complained of pain in the region of the stomach and groin. It seems that the box actually fell on his stomach. On the other hand the physicians are positive of their plague diagnosis.

will likely be officially condemned and ordered burned.

All of the houses opening on the

court in the rear of the Bethel street store of May & Company have been closed pending the fumigating operations of the Board of Health. Some of the outhouses will be destroyed altogether and the whole place will be cleaned. The Waterhouse store will be thoroughly fumigated.

Prof. Ingalls will make his second

Prof. Ingalls will make his report to the Board of Health this afternoon as to what had best be done with the re-

sidence on Nuuanu street.
Dr. Garvin was called last night to see a Chinaman named Chin, aged 15, on Vineyard street near Emma. Case reported by an inspector. Man found to be suffering of cold and diarrhoes.

This morning J. W. Sheldon, in Ivilei telephoned the Board of Health that his wife was taken suddenly ill during the night. The call doctor found nothing

suspicious and is treating the case. There have recently been three cases of ordinary illness in the Sheldon home. Lulia, Hawaiian, aged 50, died at the Kerosene detention camp early this morning of consumption. Dr. Bowman was her attending physician. was her attending physician.

The Report of a New Emperor in China.

Leung Chi-tso the Chinese reformer, and Washington have received no no-tification of it, rather than on any imon the throne, she, as regent would re-tain the real power for years longer. Still Mr. Leung thinks that if it had been actually accomplished the Chinese Ministers at London and Washington would have been notified so that they could notify the governments to which they are accredited. For all that how-ever, he says it may be so and is not

unexpected.

Though he was a high official of the Chinese government at Peking for some time, he never knew or heard of Put Sing, the new emperor nor Prince Tua-

which they seek to accomplish those hopes are diametrically opposite. Dr. Sun is a revolutionist desiring the over-throw of the Manchu dynasty, while Leung Chi-tso and his party seek only

the reform of the government.

Leung Chi-tso has no fears but that
he will be allowed to land in San Francisco. He is a subject of the Emperor of Japan, and as such is not prohibited from landing. He expects to leave for the coast as soon as the plague is over.

THE "MAIL NEWS!

plague diagnosis.

This morning the Bethel street store was visited and ordered closed. As it is a fire proof sturcture it can be effectively fumigated and burning will not be necessary. May & Company expressed their willingness to comply fully with any requirements of the Board, and, in fact, invited Dr. Woo'l to do whatever the Board deemed advisable in the matter.

Later in the morning the Board of Health visited the Robertson cottage in Nuuanu valley and looked it over. At the meeting this afternoon the place will likely be officially condemned and

DISSATISFACTION OVER PAY.

Dissatisfaction is expressed by some of the men who have been employed as guards at Kalihi as to the rate of pay they have been allowed. F. G. Coburn, one of them speaking for him-Coburn, one of them speaking for himself and others says that he with thirty-nine others were taken from the Board of Health office the forenoon of January 24, in charge of Mr. Heminway. The latter told them distinctly that they were to receive \$3 a day until they could be provided with board and lodging. When they were paid only at the rate of \$2.50 a day, though they had been boarding and lodging themselves. Neither Heminway, McVeigh nor anyone else under whom they had been working, Colburn says, would listen to any protests or explanations. listen to any protests or explanations. McVeigh said afterwards that he had been so busy that he had not time previously to explain to the men that they were to receive only \$2.50 a day, or contradict their understanding that they were to get \$3 a day.

HE ONLY REPEATS WHAT HAS BEEN SAID AROUND THE GLOBE.

GLOBE.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease, M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always Chamberiain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawalian Islands.

HERE AT LAST.

DANCE AT WAILUKU.

WAILUKU, January 31 .- A most delightful dance was given Monday night in the Walluku Court House, under the auspices of the young men of Wailuku, with Dr. Boote and George Cummins in charge. A native orchestra furnished the music and the large number pre-sent spent a very enjoyable evening.

VISITORS HITHER AND HENCE. PAIA, January 3L—Miss Eva Smith returned home last week, after a visit of a year in California. Rev. Mr. Jones of Chico, California, also arrived on the Island for a two months visit.

ONE WAS A WOMAN.

Further Details of the Fatalities at Pioneer Mill.

Further details of the accident by which three Japanese lost their lives Kamaole seems to have suffered most, at the Pioneer Mill were received this though other parts have had their share morning by the steamer Kauai. It appears that the mill was about to start up and it is supposed that some piece of machinery became loose during the preparations. One of those killed was a woman and another woman was injured by the falling juice-pan. The pan was an enormous iron tank, 20 feet by eight and it crushed absolutely flat all who were beneath it. The woman who was injured was close by and was

truck as it fell.

The juice tank is hung on iron hinges. It had been tested by filling the tank full, it was only about half of juice. The cause of the accident is not known but it is believed it was due to some defect care and foresight could not de-

Reports say that Captain Ahlborn had only just stepped from under the pan when it tumbled down and had only got a few feet away. The woman was washing bags under the tank, and when it fell the two men had just gone under to get some tools.

The posts have been shortened and hence more men are now required for each guard detail. Every man is now on duty 6 hours out of each 24.

which have done an untold amount of good. Paia and Hamakuapoko milis had been able to run but half time, the day shift, but now fluming can be resumed and work go on at full blast.

Handsome Response-Money for Chinese, Japanese and Hawalians.

Dr. Wood this morning received a letter from Colonel Curtis P. Iaukea, enclosing checks for the total sum of \$125, raised by the people of Waialua do'' from Honolulu, as indicated by the suffering on account of the plague. Sums for the Japanese and Chinese are made payable to the consuls of those respective peoples. Following is the letter of the hotel man to Dr. Wood:

"It affords me much pleasure in now hanging to your honorable Board, for the immediate relief of the sufferers by the plague, the sum of seven hundred and thirty-five dollars. This donation

Kot alone is Hilo herself not unanimous on the subject of "incommunication" from Honolulu, as indicated by the do'' from Honolulu, as indicated by the study and the subject of "incommunication" from the Hilo Tribune published in The Star yesterday, but it would seem the other districts of Hawaii strongly dissent from the proposal und even look on it with the suspicion that it is a commercial scheme for the benefit of a few in Hilo.

Kohala strongly dissents as is shown by the report of the meeting held there which appears in another column. A correspondent who claims to represent the views and feelings of Kona and Kau, writes under date of January 31, as follows from the the latter districts: "Proximity to the vent hole of a Dr. Wood this morning received a let-

the disposition of the funds except a generally expressed wish by the sub-scribers that the same be made through

eigners, Waialua Agricultural Co., \$160; native Hawaiians, \$134.55; Japanese, \$225; Chinese, \$121.25; Portuguese, \$7.25; proceeds of concert, \$23.25; Haleisa hotel, \$26; Government school, \$13.70.

GEORGE GREIG MARRIED.

APIA, January II.—A fashionable edding was relebrated today at the Apia Foreign church by the Rev. W. Huckett, when Florence Edith Arm-strong of Flji was married to George Bicknell Greig of Fanning Island. There was a large number at the wed-SUBDUED CELEBRATION.

PAIA, aJnuary 31.—The Chinese are celebrating their New Years beginning yesterday, and trying to make the most of the situation, though it is far from satisfactory to them. There is the usual visiting and for the structure of the structure of the situation of the situation

A short meeting of the commi of agriculture was held yesterday after-noon. Secretary Haugh's report for the biennial period was read and ap-proved. The action of the Minister in offering a reward of \$25 for the con-viction of persons who destroyed cer-tain cocoanut trees on the new beach

road was approved.

MANY JAPANESE. KAHULUI, January 31 .- A commor sight to be seen on Maui roads nowa-days is large numbers of Japanese pedestrians going in every direction, with seemingly nothing to do. The new Spreckelsville ditch has brought a great many to the island, and many is doomed to a frost which the moral seen this week are free laborers fiber of its promoters badly needs." brought up by the Claudine on Sunday last. There were about 200 of these landed here, almost all of whom have gone to work on the different plantations of central Maui, though they are not all settled yet, as evidenced by the

MAUI FARMERS SUFFER.

numbers seen about.

KAHULUI, January 31.-Maui fac mers are greatly put out at not being able to send produce to Honolulu mar-kets. The steamers give less than a days notice of the time of their de-parture, and ranchers in consequence have not time to get their live stock and produce to the landings. Many of them have been caused much hardship through this, and the steamers have lost much freight.

Hog cholera has been prevalent in Kula of late, and many ranchers there have been almost cleaned out of pigs.

GUARDSMEN RELIEVED.

One-Third of the Force Released From Right up to date is the Duty

About 100 men from the ranks of the National Guard have been relieved from active duty and it is expected they will be paid off today. A little larger proportion of the non-commissioned officers have been relieved than sioned officers have been relieved than of privates. About the same proportion of commissioned officers, all but two or three from the line have also been relieved. It is estimated that the active force has been reduced about one-third. This it is supposed will make a corresponding reduction in the pay roll. The expense of the military establishment has been \$1200 to \$1250.

An inquest was held on February 2.

RAIN ON MAUI.

KAHULUI, Jan. 31.—The island has good effect. They was a general agreement visited the past few days by most opious and drenching showers of rain, some of the men went so far as to say that the meals were good.

MEMORANDA.

Captain Hubbard, the old skipper of the S. N. Castle, has retired from active duty. His place has been taken by first mate Lanfeldt. The Hawaiian bark Iolani, which has

The Hawaiian bark lolani, which has been at anchor outside the harbor for some time, not desiring to enter quarantine, left for Kaunakakai yesterday towed by the steamer Helene.

The Mikahala is taking cargo from the Mauna Ala and the Iwalani is discharging her sugar into the Rithet, in the stream.

the stream.

By last Thursday evening the schoo-ner Robert Lewers had 19,000 bags of sugar on board at Koloa.

The steamer Iwalam, with Captains Gregory and Simerson on board, the latter acting as pilot, as the vessel went on his Mauna Loa run, arrived yester-day morning from Hawaii and Maui. Rough weather is reported at Mani on Wednesday. The Iwalani is also well supplied with pursers, Mr. Tuft, of the Mauna Loa being with Mr. Christian.

AT MAUI PORTS.

KAHULUI, January 31 .- The Cus KARCLUI, January 31.—The Cus-tom's department have their hands full just now, with four vessels at Kahu-lui, two at Kihei and one at Hana. A rumor spread here last week that the steamer Cleveland has sailed away

the steamer Cleveland has sailed away leaving all her clearance papers locked up in the Custom House, but it proved to be unfounded. What she did leave behind was some copies of invoices, which can easily be replaced.

Efforts are being made by Alexander & Baldwin to get the steamer Charles Nelson to come to Kahului, but it is not yet known whether they succeeded or not. If the Nelson does not come, in all probability the steamer Centennial will, as there is sufficient freight at San Francisco to fill her. Either the Charles Nelson or the Centennial may be secured to run regularly bemay be secured to run regularly be-tween San Francisco and Kahulul in conjunction with the famous Cleveland, giving the Island a regular service. Said Island sincerely hopes it may so

LARGE STORES OF SUGAR.

Nearly a Hundred and Fifty Thousand Bags on Kauai

An enormous quantity of sugar is being piled up on Kauai, awaiting ship-ment, the grinding going ahead far quicker than the island steamers are able to move the stuff. The steamer Kauai reports 147,500 bigs there on Fobruary first. It was divided among the plantations as follows: Kilauea, 20,000 M. S., 12,000; P. 14,500; H. M., 29,500; K. P., 14,200; Mck., 24,000; G. & R. 2300; W., 4,000; Kekaha, 4,000.

THE BLOEMFONTEIN.

Nearly Finished Discharging a Very Large Cargo.

The steamer Bloemfontein is about through discharging at the Pacific Mail wharf and will probably leave for Mail wharf and will probably leave for Seattle this morning. She has put 4,500 tons of merchandise ashore, this being the largest single cargo ever landed here, it is said. The Bloemfontein has used four hatches all at once most of the time, and is capable of making a very quick discharge, when not impeded by quarantine rules. It is the plan of the company to have her make one trip a month between here

make one trip a month between here and the Sound.

The Bloemfantein will be fumigated here and again at Seattle. The officers do not enjoy this very much, as the strong smell of sulphur remains in the cabins a long time. cabins a long time.

A NEW MILL COMPANY.

A NEW MILL COMPANY.

"The A. Harrison Mill Company, Limited," is the newest corporation. Papers were filed yesterday. The concern purposes having a mill and engaging in the lumber and building business in all of its branches.

The company will have a capital of \$25,000, divided into 500 shares of \$50 each, with the privilege of increasing to \$200,000. Joseph Sharp is president; Frank C. Betters, vice-president; W. E. Burnett, secretary; Arthur Harrison, treasurer; A. B. Johanson, auditor.

QUARANTINE ISLAND NEARLY PRINCE BERT AND WEAVER DESERTED.

The End of Contract Labor Importations Believed to Have Come-The Helene Gets the Last Lot.

Quarantine island is empty now for the first time in many months. The

the first time in many months. The last of the Japanese there were taken on the quarantine scow today from the island to the steamer Helene, which is taking them to Hawali ports. There about five hundred in the lot, and the Helene had a big deck load. She will land them before getting to Hilo, if the people of Hilo will let her.

The quarantine station has probably seen the last of the contract labor business for some time. In it now there are twelve Japs, who have been rejected by immigration inspector John W. Short. They will be sent back to Japan at the earliest opportunity and then the red buildings in which so many thousans of Orientals have encountered doctors and officials who subjected them tors and officials who subjected them to the often painful experience of a bath, will be deserted, or comparatively

The end of the assisted immigration business means the loss of one of the picturesque sights of Honolulu, though that may not worry many people who did not enjoy seeing the Asiatics come into the country. The crowded tramp steamers, the hurried discharging of the human feacht. the human freight on to a seew and then the long march, with baggage on their backs along the narrow wharf that leads to quarantine, have been sights that have attracted the attention of many travelers passing through Now it is all over, unless some com-pany makes a new start and is allowed to do so by the long-awaited territori-al bill. The last of the assisted labor-ers are about to begin work on the plantations, at the munificent wages for which they were induced to leave their homes in the Sunflower Kingdom. At the end of their contracts, most of which are for three years, they will be "free" laborers. Until then they are supposed to stay with the plantation that paid their fare from Yokohama. INTRENCHING BY STEAM.

"The latest development in modern warfare," says the Aldershot correspondent of the London Telegraph, "is the steam intrencher, a huge plow that will throw up a four-foot intrenchment at the rate of three miles an hour. This colossal machine is the invention of Colonel Templer, director of military ballooning and steam transport, now on his way to South Africa in charge of his way to South Africa in charge of the new steam transport company and balloonists of Royal Engineers. A trial of the plow was made lately on the Long valley. A traction engine was attached to it, and it fully carried out the work expected of it, cutting deep into the very rough ground it was tried the work expected of it, cutting deep into the very rough ground it was tried on and throwing the excavated earth up on one side, forming a very serviceable shelter trench. The body of the machine consists of a powerful horizontal framework, made at an angle of 35 degrees, mounted on two large iron wheels at the angle. At each extremity is an immense plowshare, four feet by four feet, fronted by a six-inch steel pick. These plowshares point one each pick. These plowshares point one each way, so that by bringing down the end way, so that by bringing down the end required the earth is thrown either to the right or left. The steel pick splits rock or stone that comes in its way, and the whole machine is guided by means of cogged wheels that slew the carrying wheels to the right or left. The machines, two of which are going to the Cape this week, would follow a line of skirmishers at right ungless proine of skirmishers at right angles, pro-tected by artillery, and make a trench behind them for the purpose of occu-pation in carrying an intrenched posi-tion. The engine and machine would,

WERE SUSPECTED.

Inquiry in the Apia Municipal Council as to Whether the Yacht Norns Smuggled in Arms,

When Prince Bert Peterson left here on Commodore Weaver's yacht Norna there was a fear felt among some of his friends that he had been shanghaied. When he arrived in Apia there was a fear felt there that he was on a flibustering expedition as witness the following from the proceedings of the Apia Municipal Council of January 16, published in the Samoa Herald of January 20: January 20:

"Mr. Carruthers asked the President whether he could furnish the Council with particulars about a report said to have been sent home from here re-garding the smuggling of firearms by

different merchants, more especially by Commodore Weaver, "The President in reply regretted his inability to give full particulars, as the records of his office in mere depart-ment matters are not open to the pub-lic. He could only say that nothing is known to the customs authorities of smuggling arms to any extent, and that he had forwarded home a despatch stating that the alarming rumors about fresh imports of arms and ammunition into the Islands were ground-

The arrival of the Norna at Apia is thus reported by the Herald: United States Yacht Norna, 89 tons United States Yacht Norna, 88 tons arrived in port on Saturday, December 2, from Japan and Honolulu via Fannings Island. Fine weather and calm until the day before reaching the Samoan coast, when it blew very hard. Commodore Weaver is owner and salis his own vessel. The Norna is manned by 8 of a crew. A few days previous to arrival one of the hands feli overboard and was drowned; every effort was made to save the man. Two gentlemen and two ladies are guests of the tlemen and two ladies are guests of the

Deputy In Parliament and How He Was Arrested.

A prosecution which has just been initiated in Italy and now forms the subject of every conversation here and the daily theme of leading articles is of The company expects about fifty men. The companies state that they are not making new contracts now.

ANTI-PLAGUE PRECAUTIONS.

United States Surgeon General Applies

Them to San Francisco.

The Maily theme of leading articles is on national importance. Sig. Pallzzolo, a knight commander of the crown of Italy and the deputy for Palermo in the Italian parliament, has been arrested. Members of parliament cannot be tried without the permission of the house, which is granted or withheld after an inquiry, generally consuming experts days. The Sicilian deputy.

SAN FRANCISCO, January 25.—In view of the existence of the bubonic plague in Hongilulu and Asiatic ports the supervising surgeon general of the Marine Hospital Service of the United States has issued a circular letter to Collectors of the Port making them acquainted with the additional quarantine regulations adopted by the service. The new rules are very stringent with regard to the inspection, detention and fumigation of baggage and cargo of vessels arriving from a suspected or infected port.

For instance, passengers shall not be vaccinated at or en route from ports or places infected with plague, such vaccinated at or en route from ports or places infected with plague, such vaccinated at the inspection, all over Sicily, reigning supreme in the over Sicily, reigning supreme in the island and so powerful that late gov-ernments are said to have sought its support in electoral contests. But the Pelloux ministry was equal to the occasion. At a sitting of the chamber of deputies the minister of justice unexpectedly announced that the police "wanted" Palizzolo, and at the moment of this announcement orders were sent to stop telegraphic communications with Sicily. Baron Gounino, the leader of the majority, immediately proposed that the sitting be suspended for an hour, after appointing a committee to examine at once and report whether the request for the prosecution of a deputy should be granted. At 7 p. m. the house agreed to allow the prosecu-tion, and a telegram reached Palermo ordering the arrest of the Sicilian deputy. Palizzolo was found in bed when the police broke into his palace and he was quietly taken to prison, an undertaking which would have been attended with difficulties if the Mafia adepts had had the least inking that

> lated Sicily from 2 to 7 p. m. was not due to "the state of the weather." Fine Job Printing, Star Office.

SATURDAY, FEBRUARY 3, 1900.

The end of the Japanese tramp steamer is now in sight. The question now before the territory is how will additional labor be obtained if this source of supply is definitely cut off. A large number of the Japanese and Chinese congregated in Honolulu would be much better at work. They only add to the vicious and loafing class.

ONLY ONE IDEA.

The Hilo patriots are certainly showing themselves in strange colors. When Mr. Loebenstein was here as a delegate from the Hilo Board of Health (self appointed) he tried to impress on the Honolulu officials that the rest of the Island was at one with Hilo. Letters arriving by yesterday's mail, however shew that the districts outside of Hilo are far from being in accord with the would be capital. They assail Hilo and its inhabitants with opprobrious epithets which have to be edited out, and they assign motives to the Hilo people which are extremely selfish and far from patriotic.

If it is true that Hilo speculators are anxious to shut out Honolulu, with a view of getting a corner in food stuffs and being able to grind down the rest to fall into her hands. of the Island, the position of those men is one of the meanest that can be occupied by any body of men. That the people on the other districts firmly believe this to be the case is certain, and they base their opinion upon facts, which they present with some cogency.

So eager have the people of Hilo been in their schemes, that they have not had time to express sympathy for the homeless and destitute thousands in Honolulu. Both Kauai and Maui have readily responded with gifts of clothes and money, which have been very welcome to the various societies that have received them for distribution, and they have done a great deal of good. But the second town in the Territory has not a word to say, in sympathy or a dollar to give in charity apparently, graphy as more than a possibility, the It, or rather one would hope only a section of it, devotes itself to a policy of selfishness, and wrapped in that one idea, it forgets the kindliness of spirit which used to animate the Hawaiian Idea that their scheme is absolutely heart at all times.

CONSUMPTION.

lished recently an article under the cap- the new system. It has been used expeadvances some startling figures.

20, showing a great increase upon any distance of 83 miles. previous month of the last year, and this gives nothing like the deaths from in the new venture and wishes it the consumption for the entire group, seefor the outer districts.

In his paper Dr. McNutt stated that the annual number of deaths from consumption in Russia was 279,020; in France 123,675; in Germany 123,675. He points out that from May 1st, 1898 to June 20, 1899, the total loss of regulars and volunteers from deaths in battle and from various diseases was 6,619, and that many papers were hysterical over this loss of life. But in the same fourteen months the deaths from consumption in the United States amounted to 150,000, and no one seemed to be struck by it. Of these 150,000 about 70 per cent were between the ages of 15 and 35, and therefore from the most useful part of the nation from a working point of view.

And yet in spite of these facts people allow consumption to pass unchecked, permit it to be present in the schools, in the churches, in the street cars, never realizing that every consumptive person is a center of infection and is adding to the sum of the disease smitten army that keeps marching steadily to a premature grave. The only known preventive is segregation. We segregate in other contagious disorders, but because consumption is not repulsive, like small-pox or leprosy we Jo not seem to realize the danger of it.

ANOTHER CASE.

The appearance of another case of plague in a most unexpected quarter is depressing, certainly, but it is in line with what has been foreshadowed. It certainly looked as if the end of our long lane had been reached, yet sporadic cases were to be expected, and one has come suddenly, like a bolt from the blue. This emphasizes the necessity for redoubled caution and vigi-

In the present case conditions are somewhat different to what they have / been. The physician now have at hand something to fight the plague with, when it takes possession of a patient.

THE HAWAIIAN STAR Before the treatment might be said to e in a great measure negative, now it is distinctly positive, and a hand to hand battle with the disease itself can be waged. The results in the Weir Robertson case will be watched with the deepest interest not only by the physicians, but by the public at large. If the treatment prove successful li will give additional conflience, which will aid very much in preventing any one worrying themselves into plague through fear, and will also give heart to those stricken.

The case of Mr. Robertson will be arefully investigated, for it is vitally important to know how he could have contracted the disease. Waterhouse's grocery does not handle Oriental goods. The place where Mr. Robertson lived was healthy, had good surroundings and was distant from the center of infection. It is suggested that the infection may have come through rats. Thousands of these rodents were destroyed in Chinatown, but undoubtedly some escaped, and these would seek a home not far from the scene of their former habitation. A grocery store would be an attractive place for a hungry rat, and it is quite on the cards might become a rendezvous. Some of the rats might be sick and thus the bacilii of plague be spread. A thorough investigation of Mr. Robertson's movements and the chances be ran of catching the disease in other ways, will undoubtedly be made.

There are two parties in China, opposed to the present regime. One set, as represented Leung Shi-Tso, now in this city is the party of reform. The other, as represented by Dr. Sun Yat Sin, once resident on these Islands, is the party of revolution. The former does not desire to overthrow the dynasty, but aims at a reform in the government. The latter is for China for the Chinese, and wants to sweep the Manchu dynasty from the throne, and all the Manchu nobility along with it. The Dowager Empress with pleasing impartiality cuts off the heads of any members of either party that happen

WIRELESS TELEGRAPHY.

The experiment with wireless tele graphy here shows how go ahead our people are. In the east and in Europe there is still much discussion over it. Professor Elihu Thompson in a recent lecture in Lynn, Massachusetts asserted that "while wireless telegraphy is a very beautiful system and may be of great practical use, there are many objections to its wide adoption and many difficulties in the way of its perfection.

The fact it that at its present stage of development the scientific men of the first rank do not regard wireless teleway to which is pointed by an extensive toy. On the other hand the men who are handling the Marconi system are thoroughly imbued with the practicable and that it is worth sinking money to reap the reward of the ven-

The really practical test from a commercial stand point will be It was pointed out yesterday that the here, though there is a proposal to have deaths from consumption in this city stations at Frankfort to communicate were alarming. For January they were with Menominee, Michigan, this is a

Every one here is deeply interested very greatest of success, but it is well ing there are no published statistics for those who build on the hope of the innovation to realize that it is not perfeet and that it may bring disapporat ment in spite of the enthusiasm of those interested in the innovation.

HER MOTHER'S GIRL.

A bright, handsome girl on the borderland between childhood and womanhood, is at once a source of pride and anxiety to her mother. But she has grown fast and is still growing. Nature makes stern demands upon the slender body. The skin is dull, the eyes lustreless, the cheeks and neck are sunken, the appetite is capricious, and the movements languid. The trouble is impurity of the blood. It needs the life-giving elements from which alone the body derives its vigor and health.

WAMPOLE'S PREPARATION, of the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry, has saved many such girls. It contains all the flesh-forming and strengthening qualities of the oil without its loathsome taste. Taken before meals it creates an appetite, stops the emaciating process, puts fiesh on the thin and bony body, and ruddy cheeks soon tell the story of pure blood, good digestion and re-covered health. It is a scientific modern combination of the best of curatives made palatable as honey. Taken in time it prevents consump-tion: taken in time it cures, "Dr. J. L. Carrick says: I have had remarkable success with it in the treat-ment of Consumption, Chronic Bronchitis, Catarrh and Scrofulous Affections, and consider it a marvelous auccess in medicine." It is food and medicine combined. To give it a trial is to believe in it always thereafter. Genuine only is effective from the first dose. "You cannot be disappointed in it." Sold by all chemists.

THE NEW ORDER IN SAMOA Commissioner's Sa'e of Real and Persona I

ACQUIESCED IN CHEERFULLY BY ALL CLASSES.

Public pinion as Shown by Speeches, Editorials and Communications in the ON SATURDAY, MARCH 3, A. D. 1900, Newspapers-Native Public Meeting.

The report published in America and Europe that the German flag was raised over the court house in Apia on the arrival of the news there of the treaty giving the island to Germany, does not seem to have yet reached Samoa. There is no intimation in the Samoan papers that any such thing was done. The report has been denied in the United States Senaje.

port has been denied in the United States Senaje.

The new arrangement in regard to the Samoan group seems to have been received there with acquiescence, and at least as a settlement of political difficulties and unsettled conditions.

At the opening of the meeting of the Apia Municipal Council December 4, President Solf said: "Before entering on the order of the day I think it proper to allude to a communication received from the Imperial German Consulate about the contemplated change in the administration of the Samoan sulate about the contemplated change in the administration of the Samoan islands. As you have all no doubt heard through the Colonial papers the three joint powers came to a final agreement to settle Samoan affairs. As far as the official telegram from Count von Bulow. Imperial Minister of Foreign Affairs states, Great Britain abandons her rights in these islands in favor of Germany and America; the latter getting the islands of Tutuila and Manua, and Germany the remaining part of the group; in exchange Germany Makiki Street, Waikiki side, House contains seven rooms. Nice lawn, abundance of shrubof the group; in exchange Germany withdraws her rights in the Tongan group of islands, and arranges with England in other places. As this arrangement cannot come into operation before all the contracting bodies have ratified it no change in the conduct of affairs will probably take place before the expiration of a couple of months. I am unable to say how the administration of the Municipality will be affected by the future government but I may confidently state aiready that the Imperial German Government will undoubtedly act fairly towards all par-

The Samoan Heraid says editorially concerning the change of government:
"As this change of Government will necessitate a number of changes in officials here, we were pleased to hear the Presi, ent express himself that he had no doubt the German Government would deal liberally with them. As very little is known as to what changes will be made, it would be useless to make comment until such time as we have had further information. From the Colonial papers we gather that England and America have secured equal trade rights to their citizens in accordance with the Convention of in accordance with the Convention of

in accordance with the Convention of 1886."

A farewell dinner was given December 12 to William Blacklock who has recently left Apia after a residence there of eighteen years, and who for much of that time was United States vice consul, there were present representatives of all nationalities. In responding to the good wishes of the guests Mr. Blacklock among other things said: "A settlement of the long vexatious Samoan difficulty has been arrived at and although not just what we all wanted it to be, still I am certain that it will be a great improvement on the past.

"No person in Samoa has fought harder against German rule in these Islands than I have. I have always done so openly, and the Germans always knew it and I don't think they have any poorer opinion of me for it. "But gentlemen the fight is now over and the Germans have won it; and were I to remain in Samoa they would find me a good loyal staunch supporter of their government, and it is the duty of every one who remains here to do all in his power towards the maintenance of peace and good order."

A correspondent of the Samoan Weekly says:

"Whatever may be the feeling and oning on of the different parties about in the deed from F. M. Hatch to James I, Dowsett, dated October 18th, 1888, and recorded in Liber 100 on pages 185 on pages 68 and 69. Containing an area of 17-100 acres.

The land situate at Kapahahs, Kapalama, in Honolulu, being a portion of Apana 1, Royal Patent 2256, L.
C. A. 2440B., described in the deed from Thomas Carry and Mary, his wife, to James I. Dowsett dated June 14th, 1887, and recorded in Liber 100 on pages 193 and 194. Containing an area of 1900 square feet.

S. The one undivided half of the lands situated at Puhawai, Walanae, Island of Oahu, described in the deed from F. M. Hatch to James I, Dowsett dated June 14th, 1887, and recorded in Liber 100 on page 193 and 194. Containing an area of 1900 square feet.

S. The land situated at Puhawai, Walanae, Island of Oahu, described in the deed of Pine and Kiniakua to James I, Dowset

A bicycle opposite Beretania street bridge, makai St, Louis College, Owner can hav same by proving property and paying for this ad.

Departure Bay Coal, just received samoa question, everyone residing on these islands will agree that the separation of the small island of Tutuila from the main group and to have this island governed by a separate administration of an other great power must lead sooner or later to serious consequences. To fence in the whole island by a cordon of custom house officers will not only be hard and unjust, but also very difficult to carry out and at prising 1 798-1000 ceres; and comprising 9 1.798-1000 cer Samoa question, everyone residing on these islands will agree that the separation of the small island of Tutula from the main group and to have this Assessment No. 5 of 5 per cent on the assessable stock of the Kamalo Sugar Company Ltd., will be due and payable on February 1, 1900, at my office, also very difficult to carry out and at the least a very expensive experiment. From the first beginning a special treaty of extracition must be concluded by the two administrations as nat-urally every Samoan of the main isl-ands having reason to evade the auth-

orities will take up his ionucile in Tu-tuila and vice versa."

As to the attitude of the Samoans the

Samoans Herald says: "As we had been informed that there was a movement made by the natives to take matters in their own hands as to the Government of Samoa-we as to the Government of Samoa-we made enquiries and were informed that a public meeting had been held at Leulumoega during the week at which Mataafa and his chiefs were present, also that several chiefs from the Tanuside were there and made representation to the Mataafa party, who exhart. tion to the Mataafa party, who exhort-ed them to remain peaceable and obey the law, and not be led away with any flighty talk might be going on."

WARRANTS SWORN OUT.

S. M. Ballou has sworn out warrants for the arrest of three native women charged with changing their residence without a permit. Two of them have been arrested, and as they have been unable to obtain ball so far it seems likely they who be compelled to remain in the police station over Sunday.

SENATOR BEVERIDGE.

One passage in Senator Beveridge's speech is omitted in the report recent-y printed, yet it should be called to the attention of the public, to show the state of the senator's profound knowledge of world affairs. He referred to the great treks of the Boers as having taken place on the sea. "his is

If the Boers must have traveled by land, they would never have reach the Transvaal: but they sailed on lib-erty's ocean—they walked on civiliza-tion's untaxed highway, the welcoming

That the eloquent 'ndiana senator supposes that the Boers and their big six-yoke or wagons migrated to the wilderness by the sea route cannot be doubted, for the context deals exclusively with expansions over the ocean. This will be important news for "Com Paul," who walked the whole way. pingfield Republican.

She-He says he loves me; yet he has only known me two days. Her Friend-Weil, perhaps that's the

Pursuant to an order made by Honorable A. Perry, First Judge of the Circuit Court of the First Judgial Circuit, filed the Sist day of January, A. D. 1806, I am directed to sell at public auction, subject to confirmation by the Circuit

ON SATURDAY, MARCH 3, A. D. 1900, At 12 o'clock noon of that day, adi the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-tweifth interest each of said minors, and also the one-tweifth interest of Madeline C. K. Dowsett and Annie H. K. Dowsett deceased, in and to all those certain pieces and parcels of land situate on the Isiano of Oahu, Maul, Hawaii and Molokal, and more particuarly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, described in deed from John H. Wood to the Honolulu Dairy Company, dated April 30th, 1832, and recorded in the Registry of Conveyances in Honolulu in Liber 136 at pages 174 to 177, containing an area of 271 acres, more of less.

2. The land situated at Kapalame, in Honolulu, Island of Oahu, known as the Akepo lot, being a part of Royal Patent No. 5572 and described in deed made.

Akepo lot, being a part of Royal Patent No. 5572, and described in deed made by Kanea and J. W. Akepo to James I. Dowsett, dated the 3rd day of Fen-ruary, 1882, and recorded in Liber 73

hanu, dated June 7th, 1866, and record-ed in Liber 21 on pages 315 and 316, and in a deed from Kahananui and Keoho-kii, her husband, and Kaluahine to David Kahanu, dated September 14th, 1866, and recorded in Liber 22 on pages 106 and 107.

SANITARY REGULATIONS OF THE BOARD OF HEALTH FOR HO-NOLULU DISTRICT.

The following regulations shall apply to, and be in force within, the portion of Honolulu described as follows: Beginning at the seashore, at the west corner of Loko Kuwili 2 near the east corner of the Kapalama Detention Camp and running mauka, along the Waipilopile road to the old line of the Oahu Railway, thence along Oahu Railway to the boundary of Maunakea, thence mauka, along the Mokauea boundary and the Kalihi road to the survey station at the lower end of Mokauea ridge, thence in a straight line to the survey station above the north end of Wyllie treet, thence along the central line of Wville street to Nuuanu street, thence in a straight line to the forks of the Manon road, thence in a straight line to the corner of the Walalae road and the Kapabulu road, thence down the Kapahulu road and along Campbell Avenue to Monsarrat road, and thence in a direct line over the summit of Diamond Head to the seashore at high water line, and thence to the initial

REGARDING BUILDINGS AND YARDS.

RAIN WATER.

1. Where the space between the buildings is less than fifteen feet, the water from the roofs of the buildings on the sides of such space shall be conducted in water tight leaders and made to discharge into suitable drains leading into street or alley gutters; and if the building abuts on an alley or roadway of like width the same rule shall apply.

AIR SPACE BETWEEN BUILDINGS.

2. There shall be a clear air space of ten feet between all buildings except those fronting on a street. No building except such as fronts on a street shall be built within five feet of a boundary line. The word "buildings" in this paragraph shall be construed to mean and include sheds, lean-tos, privies, and all other structures.

LIGHT AND VENTILATION OF DWELLINGS.

provided with at least eight square feet of window area having unobstructed access into the open air for each 100 square feet of floor space in said room, and free access shall at all times be had to the same by the occupants of the gial water-tight curb which shall re-CASTLE & COOKE, LIMITED room; and at least one-half of such tain the earth without and the conwindow space shall be movable and available for ventilation

AIR SPACE UNDER BUILDINGS.

4. Every building shall have on an average at least twenty inches of clear space for the circulation of air between the floor timbers and the ground, and pipes with caulked lead joints, or galshall have sufficient openings for ventilation in the outer walls to admit a free circulation of air; but, in case this air space cannot be secured without reaching "ground water level" then there shall be no air space, but the floor shall be of concrete or masonry.

YARDS, AREAS, COURTS, ETC.

5. Yards, areas, courts, alleyways and other open spaces within or between buildings, where water is used for washing of any kind, shall be properly graded and cemented, or paved so as to be water proof, and drained into pipes. trapped drains properly connected with sewer or cesspool, and no permanent wooden floor or grating shall be maintained over the sam

WATER TIGHT FLOORS.

6. All houses, structures, rooms or parts thereof, in which water is , sed, or intended to be used, in such quantity as to render the floor or floors thereof constantly damp, shall have such floor or floors made absolutely waterproof, with proper drainage into trapped leaders conveying the water away into cesspoll or sewer; and the water proofing of all such floors shall be done in a manner satisfactory to the Board of Health.

7. No building or structure shall be used as a residence or place for human habitation or abode which is situated upon land where there is standing water within eighteen inches of the surface of the ground; nor shall any building or structures be so used that is placed on land that has been made by used in filling such privy vault or cess filling in with refuse or garbage, or that is declared by the Board of Health to be of foul or corrupt material.

CESSPOOLS.

8. No privy-vault, sink or cesspool in Honolulu, shall hereafter be located or constructed within fifty feet of any stream, lake, pond, well or spring of water, nor within two feet of the line of any lot; nor shall it be made more or placed in such a position that it is west; and seaward by the water front. not easily accessible for emptying and cleaning.

9. When deemed neccessary by the Board of Health, the sides and bottom of any privy-vault, sink or cesspool, shall be made either wholly or in part water tight, so as to prevent any saturation of the ground about the said vault, sink or cesspool, and shall be provided with suitable ventilating arrangement.

by the proper Agent of the Board of feeted. Health and approved as meeting the requirements of these regulations and of public health.

11. Any privy-vault, sink or cess-Health or its Agent.

12. The Board of Health or its Agents may cause the emptying or dis- ling house lots or other tracts of infecting of any privy-vault, sink or land. cesspool that may be deemed offensive, or when required by public health, at the expense of the owner or occupant of the premises.

13. Within thirty days after the public sewer system is put into operation the use of privy vaults and cessrools shall be entirely discontinued within the limits of such sewer system, transform the same into approved wa- lars." ter closets connected with the sewer

14. No privy vault or cesspool shall be excavated or maintained within ten feet from any dwelling-house or inhabited building or cook-house or place where cooking is done.

15. No privy vault or cesspool shall be maintained or excavated in any place where for any reason free and unimpeded access may not be had to the same by an excavator cart.

16. No privy shall be built or maintained so as to entirely cover the cesspool or vault under the same, but the esspool or vault shall project out on such a manner as to allow the inspec-tion and removal of the contents of said cesspool or vault. The contents corporation is \$400,000, divided into 4,000 3. Each and every room intended or of any privy vault or cesspoil shall shares of \$100 each, paid up in full; used for human habitation shall be not be allowed to rise within eighteen inches of the top of the same or to such a height as to flow out onto the surface of the ground.

> 17. No cesspool or privy vault shall be built or maintained in any location except the same shall have a substantents of the cesspool or vault within, and shall be provided with a substantian water-tight cover, having a small, movable lid in the same to facilitate examination and removal of the con-

> 18. All cesspools or privy vaults shall have four-inch cast-iron vent vanized iron pipes, extending not less than twelve feet into the open air, and if within twenty feet of an inhabitd building the top of such vent pipes shall extend above the roof of the highest building within a distance of twenty feet of the same. All such vent pipes shall run as direct as possible Every privy shall have proper seats with hinged lids to cover the opening of same, which shall be kept closed when not in use.

> 19. All connections to cesspools or privy vaults shall be made with cast iron, lead or vitrified, sewer pipe. All turinals shall be connected to cesspools, vaults or sewer by trapped waste

20. All cesspools shall be properly cleaned out at once, and hereafter at least once every four months, and shall be thoroughly disinfected at least once each week with such disinfectants as the Board of Health shall direct; all such cleaning and disinfecting to be at the expense of the owner of the property.

21. All waste, soil. sewer or drain pipes shall be of cast iron, lead or vitrified clay. If of iron or lead the joints shall be caulked with molten lead; if of vitrified clay, they shall have tight cement joints all joints to be smooth in the inside; open drains may be of water tight masonry.

22. All cesspools or privy vaults when abandoned and the use thereof discontinued shall be at once entirely emptied of liquid and solid contents and shall be disinfected and filled with earth, sand, ashes, or other such clean materials; and the wooden curbing about the same removed to a depth of at least four feet below the surface o the ground. In no case shall refuse garbage or any unclean material h

23. All buildings and premises which Superintendent.

The 1900

Columbia, Rambler and Hartford Bicycles seem to be just about the right thing. We have had supplies of these wheels and will have a big stock by the Australia in two weeks. Most of the chainless Columbias are sold to arrive there is such a demand for this wheel. They are 4 pounds lighter this year and are fitted with the "Special Tropical Tire" which makes them a perfect mount for these Islands. The Columbia Chainless weighs less than 25 pounds and we guarantee it for any rider weighing up to 300 pounds. Our "Hartford" and "Rambler" chain wheels are beauties, call and see the samples. We have as complete repair shop as ever, though it is not conveniently located at present. During this year we expect to get back to the old corner, where a fine modern department is to be fitted up in our new store. At present we sell, rent and repair wheels in in the brick building on the upper side of King Street opposite to where our old stand was and are able to do the best repair work done in town, rent the well known Columbia Chainless, and sell any model of Columbia, Rambler, or Hartford for cash or on easy installments. We want your

WOULD HAVE HIS KING STREET SHACKS BURNED.

Prefers This to Removing the Houses Resolution on Sewerage-Lot of Routine Business

At the meeting of the Board of Health yesterday afternoon the application of the J. Lightfoot syndicate for approval of its plans and site for a steam laundry on South street near Queen was granted. It is stipulated that the site be raised to street level and the drains connect directly with the sewerage system.

and the drains connect directly with the sewerage system.

Engineer Edward's report on the ditch running from near the corner of King and South streets to Kewalo was accepted and the ditch condemned. Minister Young was requested to have it filled at once or otherwise placed in a sanitary condition.

A petition from property owners of Emma street and neighborhood, asking that all the buildings at the corner of Emma and Beretania and the two buildings in front of the Chinese church on Emma street be condemned, was tabled until today, Attorney Paul Neu-

tabled until today, Attorney Paul Neu-mann, representing the lessees asking for the additional time to prepare certain proposals in the matter. It was voted that the Collector of

Customs immediately remove all per-ishable merchandise from the wharves, such as could not be removed to be destroyed. Captain Campbell was appointed agent of the Board for the waterfront to look after such matters as may

arise.

Minister S. M. Damon, agent of the Austin Estate, requested that the build-ings on King street between Chisholm's harness store and the shop of the Metropolitan Meat Company be destroyed by fire. This is the lot upon which it is purposed to erect a fine block. Mr. Damon prefers that the old shacks on the place be burned. The Board deferred action. It is understood that the fear is that the risk is rather too great, the block being against the business center. harness store and the shop of the Me

Mr. Hatch introduced the following esolution and the same passed unanimously: Resolved, That in the opinion of the Board the immediate extension of the sewerage system, so as to include all of the area lying between Liliha and

Punahou streets and extending toward the mountains to the line of Wyllie street, is a matter of present and vital street, is a matter of present and vital necessity in order to suppress the present epidemic of plague and to prevent the recurrence of the same; and that the Executive Council be respectfully urged to at once submit this matter to the Council of State with a recommendation that the amount of money necessary for this purpose should be appropriated. propriated.

SUPPOSED TO BE THE PLAGUE Steamer Monmouthshire Signals That There is Disease on Board.

VICTORIA, B. C., January 19.-The victoria, B. C., January 19.—The steamer Monmouthshire, which was expected at quarantine, Victoria, B. C., about midnight last night, signaled that there is sickness and disease on board. It is supposed to be the bubonic plague. She has also signaled, reporting a wreck off the straits.

CYRUS WAKEFIELD ARRIVES. A Ship Whose Crew Have a Hard Vayage.

The ship Cyrus Wakefield, which San in up to date colors and styles, and Francisco advices say may expect trouble with her crew here, arrived at noon yesterday with a cargo of 4000 tons, It was stated on the coast that many of her men would desert rather than go through the hard work of discharging all this merchandise and then the labor of getting a cargo of sugar to go round the Horn. It will be an unusually hard trip for them, but manager Smith of the Seamen's club says that that will an Bakery

TELEPHONE 677.

The Seamen's club says that that will not make seamen desert, and he calls attention to the case of the Helen Brewer, which had 43 days here with much hard work, and whose captain said on leaving that he had never a better crew. The Captain also stated that he owed much of it to the Seamen's club that his men had made such as club that his men had made such a re-

PLAGUE SERUM ARRIVES.

Washington Government Sends Medicine to Honoiuiu.

Dr. Carmichael has received the pla-gue serum sent to Honoiulu by Sur-geon General Wyman from Washington There are two kinds. One is to be given to actual plague patients and the other to persons removed from infected premises. One hundred vials of the former and 1990 vials of the latter arrived from the chief surgeon. President Wood and physicians of the Board of Health will be inoculated with the latter at once.

atter at once.

The two lots will give the country all it wants of the medicine for the present.

THE FILIPINOS.

Major W. H. Bishop, late of the wentieth Kansas, but now of the hirty-sixth Infantry in Luzon, writes o a friend in Salina that while there s much that is confusing and doutful n the Philippine situation, he has been able to come to three conclusions of which he is thoroughly convinced. These three conclusions he sets forth is follows:

"An American can live here and en-joy good health if he will adapt himself joy good health if he will adapt himself to the conditions.
"These islands will be a source of great profit to the United States in a commercial way.
"The Tagalos (Aguinaldo's tribe) cannot govern these islands, and they are the most untrustworthy of any of the tribes that are presumed to be civilized."—Kansas City Journal.

SENIOR WRANGLER PAU. The English University of Cambridge has abolished the title of Senior Wrangier, the highest and most desir-ed honor given to its mathematical students. So many men who have schieved that honor have disappointed the university in their after career that the title has lost its value.—Angli-can Church Chronicle.

Two Left the Vessel in Darkness and Could not Get Back-Troubles of the Bits of Paragraphs that Give Con-Hall and Mikahala

The stenmer Maul has lost a captain, first mate and first engineer. Captain Weisbarth had enough of his job under quarantine conditions and the other two officers left the vessel some time during last night and could not get back, the Board of Health guard on the vessel refusing to allow them to return. Eight men of the W. G. Hall all met with the same experience several nights age.

The mate and engineer of the Maul are said to have spent the night on shore. The health guard saw them returning to the vessel at about four o'clock this morning. He met their o'clock this morning. He met their boat and told them they could not come aboard. After making another effort to get back by going round to the other end of the steamer they went back ashore. Captain Weisbarth announced his intention to leavy before his last trip, but then decided to remain for a time. His last trip to Hilo, in which he was made sick by bad water because Hilo would not let him get water from the wharf, satisfied him.

cause Hilo would not let him get water from the wharf, satisfied him.

The W. G. Hall's men stole ashore by climbing down a rope. They had a good time and started back, only to find the rope drawn up, and those on board would not let them have a ladder. They reported for work the next mornhowever, and were put on the Mi-

The Mikahala also had its troubles with the health guard business last night. The man who was put on board by the Board of Health is declared to by the Board of Health is declared to have looked too often on whiskey when it was amber. Early in the evening he left the vessel to go up town and replenish his stock of wet goods. When he returned he was accused of being too drunk for duty, and the Inter-Island people refused to let him go to the vessel. They watched the steamer from the shore all night.

acknowledges the receipt of \$100 from Aubrey Robinson, Makawell, Kausi and \$\$ from Mrs. C. L. Crabbe.

The Board of Health ask written the local Board of Health ask ing for full information about the plague and the treatment adopted here.
