CURRENT EVENTS.

It was only natural that the inauguration of direct steam communication between Canada and Australia should have immediately led to overtures for closer relations between those two great sections of the British Empire. Doubtless this result was counted upon by the promoters of the steamer line. There are good prospects of the telegraph cable being hastened by the visit of Messrs. Bowell and Fleming of Canada, to the Australian colonies. A Melbourne despatch of Nov. 1 says: "All the colonies display great interest in the visit of the Canadian Minister of Commerce and the cable project is being heartily supported. The coming conference is regarded as being of the greatest importance, and it is said here that it will be held early next year and that Great Britain will send delegates to discuss the Pacific cable project." Although Canada sticks to the protection doctrine adopted in 1878, and several of the Australian provinces have similarly departed from the Imperial example, there is no reason why satisfactory reciprocity arrangements for commerce should not be established between the two sections. The reversal of their summer and winter seasons in relation to each other will make favorable conditions that in some respects would not otherwise exist for profitable exchange of products.

Trouble is just as fond of tagging at the heels of wealth as at those of poverty. At the first of this month Mrs. Roosevelt, daughter of the late John Jacob Astor of New York, was prostrated in London from an overdose of laudanum taken to relieve extreme pain. Mrs. Roosevelt is the wife of the newly appointed First Secretary to the American Embassy.

Keep the English out! This seems to be a rather general cry. It is reported from Paris that the Grand Duke Alexis of Russia has arranged a treaty between Russia, France and Spain, under which the latter's ultimate occupation of Tangier, Morocco, is provided for. It is added that if this is not carried out these powers have determined that in no event shall Great Britain occupy Tangier, no matter what it costs to prevent it. The newspapers declare Europe cannot afford to allow England to occupy and hold the key to the Mediterranean, and urge the Government's immediate despatch of a powerful squadron against Tangier to support Spain against British interference in the disturbance about Melilla and help to force the Sultan of Morocco to pay a heavy indemnity to Spain for the loss of life at Melilla, and for the expenses of the consequent war preparations. Yes, keep the English out. What a pity for civilization they were not kept out of North America!

If Russian naval men are superstitious, as we think a late writer says their soldiers are, they will be cast down over an accident that happened as the squadron entered the harbor of Ajaccio, the capital of Corsica, on the first of November. An explosion occurred in the engine-room of the flagship, Emperor Nicholas, seriously injuring six firemen and engineers. This accident, following closely upon a collision between the cruisers Pamiat Azova and Admiral Naehimoff shortly after they left Toulon, cast gloom over the squadron.

Some "toney" gamblers have just come to grief in Berlin. At the end of a great trial, Lieutenant von Meyerick, Captain Faehrt and Ludwig Abter have been each sentenced to four years' imprisonment, while Lustrum has been condemned to lose his civil rights. Seaman and Hesseman have each been given two years' imprisonment and others small penalties. The newspapers make severe comments upon the revelations and demand that the authorities take stringent measures to prevent such scandalous gambling in future. The anti-Semitic press exults over the fact that six of the prisoners are Jews.

Nicaragua is playing for a sound sitting-upon. The New York Herald's correspondent at Managua, Nicaragua, cables the following:

"Foreigners in business in Nicaragua and those who have come here as colonists are considerably excited over the provision of the new Constitution which has just been adopted, which subjects foreigners residing in this country to all kinds of taxation. In company with other Central American and South Amer-

Ship Wm. A. Campbell's Missing Boat.

News of the Captain and His Party Having Arrived in London.

A report circulated round town this noon that the captain of the wrecked ship Wm. A. Campbell, together with his family, had arrived in London safe and sound.

The report was traced to Capt. Rice of the American bark Enoch Talbot now in this port.

Capt. Rice was asked if the information was reliable. He replied that the gentleman who told him the good news was perfectly reliable.

Chas. Gerard, one of the shipwrecked sailors who arrived at these islands in the mate's boat, is on board the Enoch Talbot.

The ship Wm. A. Campbell, built in Maine in 1866, left Puget Sound on August 5, 1892.

All went well till the morning of August 26, when a cyclone caught the vessel, doing her much damage.

Captain Havemeyer, wife and baby, with a number of the crew, 14 persons all told, left the derelict in a whaleboat.

Gerard answered the inquiry for information in a surly manner.

The ship Wm. A. Campbell, built in Maine in 1866, left Puget Sound on August 5, 1892.

For two days the captain stuck to her, but on the 28th it was decided to abandon her.

JOHN POTTIE, VETERINARY SURGEON

ESTABLISHED 1862.

I take pleasure in announcing that I have established an Agency in Honolulu for the sale of my well-known Remedies, and have appointed Mr. CLARENCE W. MACFARLANE my Sole Agent for the Hawaiian Islands and United States.

Calling attention to the above announcement, I beg to inform plantation owners, ranchers and the public generally that I am now in full supply of all of Dr. Pottie's Celebrated Remedies, together with his treatises on the principles of doctoring animals and the remedies to be used.

Dr. Pottie stands pre-eminently at the head of the veterinary profession and his leading remedies are known throughout the whole civilized world.

When we mentioned mud last week in connection with mats, we had no idea that the rain would continue falling to such an extent that there would be a big sale of Hartmann steel mats.

Cleanliness is next to soap. We handle Colgates, best quality toilet soap and sell it at prices which make other dealers blush first and then turn green with envy.

Ten tons of wire shipped last Tuesday to people who intend building locked fences and save money.

The men on H. M. S. Champion are nearly all the same as when the warship was here last year.

The Alameda's passengers who were in quarantine on account of measles, were liberated this noon.

One hundred and seventy tins of opium were taken from the Police Station strong room to be stored in the Custom House this afternoon.

Two police officers are stationed night and day guarding the Queen, one at the front and the other at the rear entrance to Washington Place.

The Post Office despatched by the brigantine W. G. Irwin to-day for the Coast 64 letters and 12 papers. There were no registered letters included in the mail.

A large quantity of opium was landed from the S. S. Australia on her last trip. The fifty tins captured in huckman Jack Neill's possession was part of the dope put ashore.

A Jap named Yoshimoto, who came lately from Hana, Maui, has been locked up on the complaint of a fellow countryman that he was inebriate. Dr. Cooper examined the man and found that he was sick, and not insane at all. Yoshimoto was discharged. It was probably a game to have the Jap incarcerated.

H. B. M. S. CHAMPION.

Arrival of the Cruiser—Sad Fatality on Board.

H. B. M.'s cruiser Champion was sighted this morning at 7:25 o'clock, and at 9 o'clock she came to anchor in naval row. She presented a pretty sight when coming in the harbor, the gentle swell in the passage causing her to roll majestically as she glided along, the grandeur of the scene being intensified by the belching forth of fire and smoke as she saluted the Hawaiian flag.

Passing the foot of Fort street and crossing the bow of the U. S. S. Philadelphia, the flagship's band gracefully struck up "God Save the Queen," the officers and men on the British cruiser remaining stationary with their right hands held up to their caps in salute. The Admiral's salute followed, which was replied to by the Philadelphia and the Miowera.

The Champion is a third-class screw cruiser of 2840 tons and 2000 indicated horse power, and carries 12 guns, 25 officers and 275 men. The following is a list of her officers: Captain—Eustace Rook. Lieutenants—Chas. W. Fowler, Roland Nugent, Fred K. C. Gibbons, Henry D. S. Ford, Wm. F. Benwell. Chaplain—Rev. Thos. T. Griffiths, M. A. Staff-Surgeon—James C. Dow, M. B. Staff-Paymaster—Beresford C. Scott. Chief Engineer—Jas. Armstrong. Sub-Lieutenants—Fred H. Walter, Frank C. Grover. Surgeon—Richard F. Bate. Assistant Paymaster—T. Hayes. Engineer—Walter J. Kent. Assistant-Engineer—Vernon A. ter Veen. Gunner—Samuel T. Marchant. Boatswain—Samuel J. E. Galley. Carpenter—Wm. Neale. Midshipmen—Francis H. Mitchell, Osmond J. Prentiss, Geo. A. Rook, Richard M. T. Stephens, Robert M. G. Knight, Humphrey H. Smith. The Champion sailed from Esquimault, B. C., on the 6th of November. Just after leaving port, a sailor named Butler met with an accident that crushed both of his legs. One leg was amputated and the man lingered until this morning, when he expired just as the vessel came to anchor. The Champion will sail again for the South seas on December 3rd.

A reply to the salute of the Hawaiian flag was made from the Kakaio battery after the Champion had entered port.

Important to Stockmen.

Mr. C. W. Macfarlane makes an announcement of great importance to owners of all kinds of live stock. It is that he has been appointed sole agent, for the Hawaiian Islands and the United States, for the celebrated remedies of Dr. Pottie, the eminent veterinarian of the New South Wales Government. An extensive list of the remedies will be found in the same connection, so that owners of stock can select just what they want. A great deal of the wealth of these islands being in food, working and pet animals, it is no small boon to have at hand remedies preventive of disease and death among them.

"The Best in the World."

This is what W. D. Woodring, of Bordly, Ky., says of Chamberlain's Cough Remedy. He spoke from personal experience in the use of it, himself and family having just been cured of bad coughs and colds by it, and considers it the best in the world. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

A Chinaman reported at the Police Station yesterday that Wong See, a relative, was insane. An officer was sent after the man and came near being stabbed with a knife.

Business dead? Not much! Leastwise it is not so with the California Feed Company. We have made a business for ourselves, which has steadily grown through all the hard times other people are complaining about. We have just secured from Mr. J. F. Colburn his old stand, corner Queen and Nuanu streets, and taken possession of those large and convenient premises. We had to do so, because our old place at Lele is too small for our fast-increasing business. In a few days the bark "Mauna Ala" will be here again with her fourth full cargo of Hay and Grain, bought by our Mr. J. N. Wright who will arrive on that vessel. We prefer to select our merchandise ourselves rather than have others do it, which means that we get better goods at a less price. We thank our many friends for their liberal patronage for the past three years, and hope by strict attention to a business we thoroughly understand to merit the patronage of as many more. Finally after a great deal of suffering I began to take Hood's Sarsaparilla, and when I was using the third bottle I could see it was doing me good. WHY LUCOL

IS THE BEST

PAINT OIL.

Dries perfectly solid inside of twenty hours.

Forms a durable and elastic, not a brittle coating.

Retains its gloss longer than any other oil.

Resists the action of acids and alkalies better than any other oil.

Flows freely from the brush without running and spreads well.

With the addition of Litharge, yields a hard surface, suitable for floors, steps, etc.

Mixes readily with pigments ground in oil in paste form.

Brings out the real shades of the colors and keeps them unaltered.

Is a solvent for the most delicate of the new coal tar colors.

Added to varnish greatly improves the working of the varnish.

Does not darken white lead or any delicate colors.

Has greater body than any other oil.

Requires one-third less pigment than any other oil.

Can be added to linseed oil and it will greatly improve the linseed.

Can be thinned with turpentine.

By actual tests, has outlasted the best linseed oil.

Therefore, is the best paint oil ever manufactured.

Direction for Use.

Use Lucol in every respect in the same manner as you would linseed oil, with the single exception that you may add fully one-quarter more Lucol to the same quantity of pigment than you would of linseed.

In using metallic, Venetian red, the ochres, and other dry pigments, it is advisable to mix up the paint at least one day before it is to be used, then add a third more Lucol and the paint will be found to cover well and have a good gloss.

NEVER USE JAPANS. Where hard surfaces such as floors, steps, etc., are required use litharge only, never use Japans.

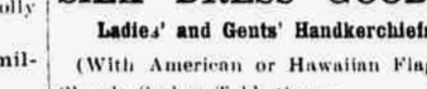

LUCOL MIXES WITH VARNISHES

and assists their working and improves their appearance BUT THEY SHOULD BE USED SAME DAY THEY ARE MIXED, otherwise the gum of the varnish may be precipitated or the mixture curdled.

The addition of from 1/4 to 1/2 of Lucol to varnishes does not reduce their lustre nor retard their hardening and drying and it prevents their cracking.

ican countries, Nicaragua has offered special inducements for foreigners to settle within its borders. One of these inducements was a promise that, under certain conditions, they would not be subject to all taxes. Some who have invested in lands and have established enterprises claim that without this inducement they would not have chosen Nicaragua, but would have settled elsewhere. They claim that the adoption of such articles is unjust to them and they are consequently in a state of excitement.

Germany has fresh trouble in South Africa as well as Great Britain. The Cologne Gazette has a despatch from Cape Town, giving alarming reports of the condition of affairs in German Southwest Africa. It is stated that Chief Witbooi and his followers had a fight with the colonial troops near Hornkrans, and several Germans, including Lieutenant Francois, were killed, and the German settlements burned.

Along with the assassination of the Mayor of Chicago, a regular epidemic of crankism has broken out in the large cities of the United States. One day's record in New York contains accounts of several appearances of male and female cranks, the Mayor and other officials receiving visits from them in some cases accompanied by violent actions. If there was more promptness and less fuss in dealing with dangerous cranks by the authorities, that class would not make itself so numerous as it does in every time of any considerable public excitement. All who attempt violence should be sent to the penitentiary within three days, and all who kill to the gallows or an asylum within thirty days, at the outside.

NOTES FROM HILO.

Volcano Active - Arrival of the Lurline - Pleasant Party.

The crater is said to be particularly active. The Volcano House is being exceedingly well patronized. Wilson's big concord wagon goes up to the crater every other day from Hilo. No one need be the slightest alarmed about coming to Hilo on account of scarlet fever, as there is but one new case which is quarantined. The three cases before reported are now nearly well and soon will be allowed to be at liberty, we think.

The beautiful snow appears at the present time to fine advantage on the tops of Mauna Loa and Mauna Kea. Arrived at Hilo, Nov. 14, brig Lurline, Capt. Chas. Matson, 19 days from San Francisco, with a full cargo of general merchandise and 17 mules, 6 horses and 4 cows. Passengers - Mr. Moir, Miss Longher, Mr. Webster, Mr. Low, Mr. Hutchins.

There was a surprise party at the house of one of our old residents, Mr. W. L. Rose, on the 17th inst., got up in honor of his daughter, Miss Ann Rose. The weather was not particularly pleasant, but it did not deter anyone from being present. So we were delighted to meet and have a good time in fact a good time is assured when invited to this hospitable abode. There were the three Misses Rose to greet us, Mr. and Mrs. Rose being particularly blessed. There was much dancing during the evening, also playing the zither by Mr. Wolff, that being his favorite instrument. He gave us much pleasure by his excellent rendering of a good number of selections. There was one piano solo by Miss Helen Severance. Before leaving we were invited to a bountiful lunch which we all appreciated. Hilo, Nov. 20.

LAHAINA NOTES.

Abundance of Rain - Interesting Meeting of Teachers.

Lahaina, parched and thirsty for so many months, has at last been refreshed with abundant rain. It was such a rain as does much good and no harm, not even interfering with work, as it fell on Sunday.

Our new deputy sheriff, Mr. L. M. Baldwin, is showing himself vigilant in looking out for illicit liquor dealers. Whether he will succeed in suppressing this sort of traffic remains to be seen, but it is already evident he will try.

The Lahaina teachers met at the residence of Mr. H. Dickenson last Saturday evening to organize for professional study during the remainder of this school year. They resolved to meet once each three weeks, to make the text book adopted by the Maui Teachers' Association the basis for a somewhat extended course in the history of education, and to take up courses of study in tonic sol-fa music, free hand drawing, and perhaps others as opportunity offers. The first regular meeting is to be held at Lunahu school, next Saturday, the following being the program: Education in Greece and Rome, General Discussion; Homer's Poems as Readers, Mr. H. S. Townsend; Aristotle on Education, Mr. O. Abbott; Lesson in Tonic sol-fa, Mr. H. Dickenson; Lesson in Free-hand Drawing, H. S. Townsend.

The same evening the young people had a pleasant dance and social at the residence of Mrs. F. H. Hayselden, who, with her family, the Misses Walker and Mr. Armstrong, was spending a few days at Lahaina. Just now there is considerable general interest in the water-rights case to be tried before Mr. H. Dickenson on the 29th inst.

Lahaina, Nov. 21, 1893. Four passengers from the Volcano arrived on the steamer Kinau this morning.

(Im)-Pertinent Questions.

EDITOR BULLETIN:- I would like to enquire what is the reason of the extraordinary display of military (?) forces made every night in the streets of Honolulu since the arrival of Minister Willis. The state of things here, previous to his arrival, was exactly what it is now, and yet the Saviors of the country (?) did not deem it necessary to have armed men parading the streets every night. It would seem then that the danger, if any, comes from the person and presence of the U. S. Minister! and the suspicion is stronger still when we hear that every night the wharves and landings are especially patrolled, for fear of an insidious landing of American troops! Now, how much is all this tomfoolery going to cost the poor taxpayers? We understand that every night there are 200 extra men and spies under arms patrolling through the streets or stationed in certain thoroughfares. Two hundred men at five dollars a night make seven thousand dollars a week, thirty thousand a month, three hundred and sixty thousand a year, more than the whole cost of running the monarchy, for this single item alone. Now, as the natives are perfectly peaceful and unarmed, are the Ministers afraid of their friends of the American league?

ENQUIRER.

THE COURT OF HONOR.

It Will Be Reproduced in South Kensington, London.

The matchless court of honor at the World's Fair, with its wealth of sculpture and brilliant electric effects, is to be reproduced in South Kensington, London, and with it a theatre is to be built, where "America," the theatrical sensation of the exposition season, will be given. A company of rich Englishmen who visited the World's Fair furnishes the money for the gigantic undertaking. They have called to their assistance several gentlemen formerly in high positions in the World's Fair. Among them are Charles B. Atwood, until recently designer-in-chief of the exposition. Mr. Atwood sailed for London October 31 to direct the work of fitting up the buildings. He will soon be followed by Montgomery B. Pickett, who lately resigned the office of secretary of works under Mr. Burnham.

A Common Occurrence.

It is not unusual for colds contracted in the fall months to hang on all winter or as soon as a person is over one cold to contract another. This succession of colds is what causes chronic catarrh and bronchitis. One or the other of these diseases is almost certain to be the result. For this reason it is of much importance that colds contracted at this season of the year receive prompt attention. They can be quickly cured if Chamberlain's Cough Remedy is used. It acts on nature's plan, loosens the cold, aids expectoration, and relieves the lungs, soon effecting a permanent cure. 25 and 50 cent bottles for sale by all dealers.
