EMPEROR WILLIAM'S BIRTHDAY.

Emperor William of Germany will
have completed his 90th year to-
morrow. In all parts of the world
where subjects of the Empire are to
be found the day will be duly cele-
brated. In Honolulu resident Ger-
mans will not be behind in com-
memorating the event. The Ha-
waiian Band will play suitable selec-
tions of music at the German Con-
sulate, at the store of Messrs. Hack-
feld & Co., from 12 o'clock noon
till 1 o'clock. In the evening there
will be a banquet at the British
Club, and music will again be fur-
nished by the Band.

A FALSE RUMOR.

It was reported around the streets
on Saturday last that a certain in-
dividual had purchased a lot of 15 or
20 tickets for the evening's show, at
the Opera House, and was retailing
them at an advance of 50 per cent
on the original cost. The matter
was reported to this office by two
or three different persons. With
the view of verifying the truth of
the matter, in order to expose the
little trick, a representative of this
paper went to the ticket office,
where the sale of every ticket is
duly recorded, and made inquiries,
and was surprised to find the rumor
was false. The individual had pur-
chased tickets and reserved seats
for several other persons, by re-
quest, and those persons received
their tickets in due time. Only
two of the total number were for
the person applying at the office.
These are the facts in the case,
which anyone can verify for him-
self; and yet some people will per-
sist in asserting that the rumor was
correct, and accuse the BULLETIN of
being afraid to publish the matter.
This latter, also, is a false charge.
The BULLETIN is not afraid to ex-
pose any proceeding of the kind,
provided it exists. But we are
desirous of being just, fair and
truthful, not knowingly giving pub-
licity to a false statement respect-
ing anyone. We satisfied ourselves
that the rumor was false, and there-
fore declined to publish it as truth.
Had the result of our inquiry been
different, it certainly would have
been dealt with in these columns on
Saturday.

Berlin, March 8.—On the proposal
of the Bremen Commercial Exchange
the Imperial Bank has agreed as an
experiment to permit the payment
of bills of exchange drawn beyond
the seas upon merchants having dis-
counts with the bank, free of charge,
at the head office or branches. The
sums to meet bills must be lodged
at the place at which payment is to
be made.

FOREIGN NEWS.

Smallpox is prevalent at Los
Angeles. 41 cases had been re-
ported to the 12th instant, of which
4 had resulted fatally. Vigorous
measures are being taken to prevent
the spread of the disease.

The firm of Greenebaum &
Stauss, stock speculators, is insol-
vent.

The 27th session of the California
Legislature terminated on the 12th
instant.

Washington, March 8.—A party
of Senators, including Sherman,
Manderson, Palmer and Ransom,
start for Florida to-day. It is
understood to be Sherman's inten-
tion to extend his trip through some
of the other Southern States, and
those who are watching events with
regard to their influence on the next
Presidential conventions think they
see in this trip of the Sherman party
connection with 1888.

Washington, March 12.—Pending
decision by the Attorney-General of
the question as to whether the
cruisers Chicago, Atlanta and Boston
can be completed by the Navy De-
partment, in view of the failure of
Congress to make specific appropriation
for the purpose, all work on the
vessels has been suspended. The
opinion is generally entertained that
the General fund appropriated for
construction and repairs can be used
to finish the work on the cruisers.
At the beginning of the present
month \$60,000 of this fund remained
available, after meeting the require-
ments of the various navy yards,
and it is believed that this sum, if
applied to the new cruisers, would
suffice to complete them.

Captain Eads, the ship railroad
projector, is dead.

The two yachts, Coronet and
Dauntless started on their trans-
atlantic race on the 12th instant.
When the judges' boats left the
yachts, the Coronet was leading by
about one-quarter of a mile, with a
twenty-four miles north-west breeze.

London, March 12.—At Mentone,
Thursday, the shock was the most
violent since that of February. The
walls of many houses were again
cracked, and mirrors, glassware, etc.,
were smashed. Visitors are
again hurrying away from Mentone,
and the residents are camping out in
the open air. At Monte Carlo the
shock caused a panic in the gam-
bling-rooms. The tables shook
violently, and the players fled in
dismay.

Paris, March 12.—A sharp shock
of earthquake was felt throughout
Marseilles yesterday. For a time
there was general panic, and hotels
and the Bourse were emptied of
their occupants in a very few sec-
onds. People however were reas-
sured. It is feared that many walls
of buildings in various parts of the
city were cracked.

Monte Carlo, March 12.—A re-
currence of earthquakes at different
points in the Riviera has induced a
fresh rush of frightened tourists
here from Nice, Cannes and San
Remo.

New York, March 12.—The Post's
Berlin special says: Herr Mixuel's
speech of yesterday is the exclusive
topic to-day, because it is considered
the financial programme of the
National Liberals. This has caused
the true Liberals the deepest dis-
comfort as showing that the National
Liberals now, like the Conserva-
tives, plead exemption of the Ger-
man high nobility from taxes laid on
other citizens.

Berlin, March 12.—Russia has not
sent a circular concerning the Bul-
garian executions or about with-
drawing from the three Emperors' alliance.

St. Petersburg, March 12.—The
Czar will send the Grand Duke
Vladimir and the Grand Duke
Michael, together with a large suite,
to Berlin on the occasion of the
Emperor William's birthday as a
mark of his cordiality.

Berlin, March 12.—Bismarck gave
a dinner last night to the leaders
of the various parties which voted for
the Septennate bill.

Glandstone is reported to be in
the highest spirits. He says the
Tories are on the verge of an abyss
from which there is no escape.

Nine officers and civilians con-
cerned in the recent Bulgarian re-
volt were shot at Rustchuk Sunday.

The release of the Skye crofters,
Macmillan and Macdonald, from jail
was celebrated in Edinburgh by a
breakfast to the crofters and speeches
against landlords.

The general opinion on Right
Hon. Arthur James Balfour's ap-
pointment to the Irish Chief Secre-
taryship is that it is a weak one and
will lead to more confusion than
ever.

Reports from Austria, Hungary,
Russia, Poland and Bessarabia show
increasing armaments and continued
concentration of troops on both
sides. All the Balkan States are
preparing levies en masse.

The Official Messenger of St.
Petersburg, reflecting Imperial
opinion, declares that Russia ad-
heres to her Bulgarian policy. This
means that anarchy is to continue
until a case is made out for interven-
tion.

Rome, March 8.—The Pope has
selected Mgr. Rampollo, the Nuncio
at Madrid, to succeed the late
Cardinal Jacobini as Pontifical Sec-
retary of State.

London, March 8.—England and
Germany, it is asserted, will en-
deavour to effect an amicable settle-
ment of the dispute between Zanzibar
and Portugal.

London, March 8.—A widespread
Nihilist plot has been discovered in

Finland. Numerous students and
artisans were arrested in Ulenborg
in connection with the conspiracy.

The Hague, March 8.—The
Chamber of Deputies, by a vote of
43 against 28, has approved the law
regulating the succession to the
throne. The law provides that if
the direct line fails, the succession
shall fall first, upon Sophia, sister
of the King; second, upon the
descendants of Marianne, daughter
of the late King; third, upon the
descendants of the last Queen
Louise of Sweden, and fourth, upon
Princess Marie of Wiede.

Rome, March 8.—The Tribuna
prints a dispatch from Massawah
saying that the King of Abyssinia
is marching to Goggiam and has sum-
moned a portion of Ras Elouah's
troops to join him.

Dublin, March 2.—A mob at
Ballyhannis attacked a force of
police last evening and rescued some
prisoners whom they had in charge.
The mob stoned the police and
partially wrecked the barracks. The
police fired a number of shots at the
crowd, but without hitting any one.
Several policemen were injured by
stones.

Limerick, March 5.—A sensation
has been caused by the perpetration
of very extensive incendiarism
Thursday night in the country sur-
rounding the city, a large number of
houses being burned, the victims in
all cases being persons who paid
rents. Great excitement prevails.
The aggregate of the property de-
stroyed is very large. The fires were
caused by armed incendiaries, who
escaped. The district was ablaze
all night with burning houses and
hay.

New York, March 2.—The Cana-
dian Pacific Railway, to which re-
cently was chartered the Cunard
steamships Parthia, Batavia, and
Abyssinia for its Pacific trade, has
arranged to start its first line from
Vancouver to Japan and China
ports. The Parthia will be the
pioneer steamer of the line, leaving
Hongkong by way of Higo and
Yokohama for Vancouver. Vessels
will run monthly until new steamships
are built. The line will connect with
Peninsular and Oriental and Mes-
sageries Maritime lines in the East
India trade.

AT HIS DESK ALL NIGHT.

THE PRESIDENT HARD AT WORK SIGN-
ING VARIOUS MEASURES.

The White House presented a
scene of unusual activity last night.
Light streamed from every window
in the official wing of the building,
while inside every one, from the
President down to the clerks and
messengers, was hard at work all
through the night and until the
grey light of the morning dimmed
the gas lights over their desks. In
the telegraph room the click of the
instruments kept the President con-
stantly informed as to the state of
business at the Capitol, and at
short intervals the messengers of
the two Houses rode up to the door
with the bills which only a few
moments before had been passed by
Congress, and only awaited the sig-
nature of the President to become
law.

The different members of the
Cabinet were at the White House at
intervals throughout the night.
Early in the evening the Attorney-
General, the Postmaster-General
and the Secretary of the Interior
were with the President. Later the
Secretary of State and the Secre-
tary of War left a short time before
midnight, and just as his carriage
rolled away that of the Secretary of
the Navy drove up.

The President passed the night at
his desk in the library examining
and signing bills and consulting
with the members of his Cabinet as
to the measures that affected their
respective Departments.

As a consequence of the work
done by the President last night, it
will be unnecessary for him to go to
the Capitol to-day to sign bills. He
advised the President of the Senate
and the Speaker of the House of
his decision in this respect early
last evening, and added that the
Executive office would remain open
all night, and up to the very hour
of adjournment at noon to-day, for
the reception of all matters requir-
ing Executive action.

The Capitol also presented an
animated appearance last night.
Thousands of people had gathered
from all parts of the city to witness
the closing scenes in the life of the
Forty-ninth Congress. Before the
two Houses reassembled after the
recess the galleries were packed
and throngs of people—including
many ladies—wandered through the
corridors from one wing of the build-
ing to another, in the hope of find-
ing entrance to the legislative halls.

In both Senate and House the tem-
perature was almost torrid and the
air very bad, but the vast crowd
that filled every seat and even the
passage-ways in the galleries held
its place. It was an orderly gather-
ing on the whole, and maintained a
decorous quiet except when a bright
sally on the floor, or the discor-
dant of some member, anxious to
catch the elusive eye of the
"Chair," convulsed it in a burst of
applause or merriment. As fast as
the spectators relinquished their
seats they were filled from the hun-
dreds in waiting at the doors, and
it was very late at night before
there was any appreciable thinning
out of the crowd.—[Washington

A CORRECTION.

We are requested to say that the set of Waverley, mentioned in Saturday's BULLETIN as having been presented to the Library Association by Mr. A. J. Cartwright, were the gift of Mr. H. F. Lewis. The fact that Mr. Lewis presented the books through Mr. Cartwright was the cause of the mistake being made. Honor to whom honor is due.

A NARROW ESCAPE.

Five young men, stopping at the Hawaiian Hotel, had a close shave Saturday night. They were in a bath, going down to the Kapiolani Bath House, to see a hula dance, that was to have been given there, and had got near the Marine Railway, when they saw the police stealthily going that way. The five immediately wheeled about, and went home to feel glad later on.

BEAVER CIGAR DIVAN.

There will be on view and for sale to-morrow, at Nolte's Beaver Cigar Divan, one of the finest selections and one of the largest stocks of cigars, cigarettes, and smoker's requisites ever exhibited in this market. Those who wish to have the first pick should remember that to-morrow will be the day of commencement.

DEATH OF AN OLD RESIDENT.

The Zealandia brought from San Francisco, yesterday, the lifeless body of the late Mr. Hugh McIntyre. The deceased was on a visit to the Coast, and was taken ill there on the 7th instant, and died on the 9th. The body was interred in the Nuuanu cemetery yesterday afternoon, the Revs. J. A. Cruzan and E. C. Oggel officiating. The late Hugh McIntyre was a native of Scotland, and was 73 years of age. He came to these islands in 1846. A widow, three sons, and two daughters mourn his loss.

LUSO HAWAIIANO.

The Portuguese Lusos must be well-supported to be able to lavish premiums in the way it does. In the last number, prizes of \$2 and \$5 were offered to those of its readers who may guess a certain number of the enigmas and charades published by that paper. This number offers two premiums of \$2 each, to such of the Portuguese school children on these islands, who will be able to send the best translations of texts published by the Lusos; one, Portuguese into English, and the other, English into Portuguese. And outside of the interest of the premium, the two selections are highly interesting. The Lusos was obliged to publish a 4-column supplement. Evidently that paper is making strenuous efforts and doing good work to propagate instruction amongst the Portuguese, and is worthy of every encouragement.

HAWAIIAN OPERA HOUSE.

AMATEUR MINSTRELS' PERFORMANCE.

People went to the Hawaiian Opera House Saturday night for pleasure and amusement. An unusually large proportion of the community was of the same mind; for a more than ordinary audience, in point of numbers, awaited the lifting of the curtain. Wherever a place could be found for a chair in the lower part of the house, besides the regular fixed seats, there a chair was placed, and someone was there to occupy it. The anticipated pleasure and amusement were realized. The songs and choruses were mostly new, and appreciation was shown by frequent applause. J. M. Dowsett, who sang "Sweet Chiming Bells," was complimented with a beautiful bunch of flowers. The "Sensational Japanese bamboo pole act," by E. Low and W. G. Armstrong, was an excellent take-off of the Japanese Acrobats, and excited great merriment. "Chun Hook" was even better than when played at the previous performance, several finishing touches having been added to the burlesque. A crush of foreign matter by the Zealandia prevents a more extended notice.

A FATAL ACCIDENT.

Mr. Fred Harrington, a stalwart sailor, who came here several months ago as second officer of the bark C. O. Whitmore, and who was appointed chief officer of the steamer Waiatale four months ago, met violent death on Tuesday last the 15th instant, while discharging his duty. The steamer Waiatale was landing freight at Kilauea, Kauai, on the above date, and was discharging a heavy box of iron bolts, when the accident happened. The vessel was rolling, considerably swinging the box of bolts that was suspended in mid-air. As the box came in with a roll of the vessel, Harrington tried to stop it and was jammed against the donkey-engine. He received a violent blow on the abdomen and fell to the deck. On being picked up he said that he felt something running downward inside of him. He was taken ashore at 9 o'clock, half an hour after the accident occurred, to be treated by Dr. Campbell. After 47 hours of terrible agony, Harrington breathed his last. He retained consciousness nearly up to the moment of his death. At 5 o'clock on the evening of the 17th, the day on which he died, the remains were interred in Kilauea cemetery. The deceased belonged to Massachusetts and was about 28 years of age. He was not married and had no relatives here.

RAIDS.

During the small hours of Saturday night, when all good boys should have been in bed, Marshal Kaulukou, accompanied by officer Hopkins, two native policemen and Arthur Peterson, Deputy Attorney-General, rudely, that is without invitation, descended upon the Kapiolani Bath House, and collared an army of naughty boys. When the Marshal and party made their appearance in the house, there was a general stampede. Lab-de-dahs in their Sunday-go-to-meeting clothes jumped from the balcony into the bay, thus escaping. One, well-known, tried to go through a window, but the Marshal caught him by the legs, saying, "Pardon me, I would like you for a witness; your name, please." "Oh never mind my name, and let me go, sir," responded the well-known. After securing the boys, and Chas. Molteno, keeper of the house, the rooms were searched and wines, beer, gin and whisky were found in large quantities, besides hula dresses and other things connected with a disorderly house. Molteno was taken to the Station House, but was liberated shortly after on \$500 bail. Frank May, the ex-hack driver, who was hurt during the great Chinatown fire, was visited yesterday forenoon by the police and in his house on Queen street, near South street, was found a large stock of liquors. He was arrested for selling spirituous liquors without a license, and the result may be seen in the Police Court record in another column.

DEATH OF HENRY WARD BEECHER.

Henry Ward Beecher, the great preacher, is dead. He breathed his last on the 8th March, at 9:15 A. M. The event was expected. Mr. Beecher began to sink slowly after midnight. The watchers at his bedside soon saw that the end was near, and he passed quietly away while asleep. He never recovered consciousness after the paralysis had stupefied his mind. Most of the members of his family were present. Dr. Seale, his medical attendant had noticed a change in the patient's condition at 1:30 A. M., and summoned all in the house to the bedside, momentarily expecting his death, but he lingered much longer than had been anticipated. He passed away gradually and almost imperceptibly, drawing his last breath without apparent suffering or a return to consciousness in any degree. Mrs. Beecher bore up wonderfully and with marvelous courage. No craps was hung on the door, Beecher having always objected to the use of this and the gloom associated with it in the presence of death, and instead a magnificent wreath of flowers was hung from the left side of the doorway, and the top of the stoop, composed of white and red roses, and lilies of the valley tied up with white satin.

The remains of the late Rev. Henry Ward Beecher were taken from Plymouth Church at 8:30 o'clock on the 12th and conveyed to Greenwood Cemetery, where they were deposited in a large receiving vault, where they will remain until the family select a lot for final interment. All night long the church was guarded by Plymouth Company G., and at 7 o'clock in the morning the remains were turned over to the Plymouth Church committee who had charge of the burial. Only the family and close personal friends of the deceased went out to the cemetery. The funeral cortege proceeded from the church to Greenwood Cemetery by the shortest route.

THE CATHOLIC CHURCH AND KNIGHTS OF LABOR.

Rome, March 14th.—Monsignor Straiero, in his report to the Vatican on the condition of the Catholic Church in the United States, gives a statement concerning the organization called Knights of Labor. He thinks the society honest in its endeavors to secure the objects of its organization, which are peaceful, and in that belief the large workmen have given it their support. Religions or political feeling does not control the society as a body. The objects sought to be obtained are generally made known when particular action of the body is decided upon. The question as a social problem has its interest centered in America, and disturbances have occurred between the members of this body and those who opposed them, and sometimes with the authorities, but it is difficult at all times to check the passions of a people who are accustomed to independence of speech and freedom of action. The workmen in America are mostly members of the Catholic Church and should be properly heard before an edict of condemnation is issued, condemning them for participation in a secret society which they believe is beneficial to them.

DEATH OF THE GENERAL OF THE JESUITS.

Rome, March 5.—Peter John Beckx, General of Jesuits, died in this city yesterday. He was born at Sichen, in Belgium, February 8, 1795, and was educated for the priesthood. He was admitted into the Society of Jesus at Hildesheim in October, 1819. When Duke Ferdinand of Anhalt-Kothen became a convert to Catholicism the young priest was appointed as its confessor, and officiated at Kothen for a number of years. In 1847 he was appointed Procurator for the Province of Austria, and in that capacity went to the College of Procurators at Rome. In 1848 the Jesuits were driven out of Austria, and Father Beckx returned to Belgium, where he became Rector of the College of the Jesuits at Louvain. He became instrumental in the re-instatement of the Jesuits in Hungary. In 1853 he was called to Rome and was elected a Superior of the Order. He was the author of a "Month of Mary," in 1843, which has passed through numerous editions and many translations. He was also the author of many minor writings and discourses.

AN IRISH LAND BILL.

New York, March 12.—The Post's London special says: The obvious and startling fact has at length become known that the Government's promised Land bill shall be introduced, if not concurrently with coercion, at least in a few days or at most a week or so after. It was high time for them to make this statement. The Unionists were going about openly declaring they would no longer support pure and simple coercion, any declaring sympathy with Travelyan as opposed to Chamberlain. As for the Round-table Conference, Mr. Chamberlain

is endeavoring to frown down Travelyan and retard a settlement. The form of the Government Land bill which will occupy this session will be not much more than a stay of the Eviction bill. By the irony of fate, the Government will probably bring in a measure which will be practically a reproduction of Parnell's bill of last session. The Coercion bill will probably not be brought before the end of May. As there will not then be time for a detailed Land bill, a more detailed measure will be reserved for the autumn session.

A RUSSIAN PLOT.

Sophia, March 12.—A Russian named Beloff recently brought back of Montenegrin desperadoes, numbering fifty men each, into Sofia, with the view of creating an insurrection. The plot was discovered and Beloff and a portion of his followers decamped. The others were arrested and have confessed that they were paid to come and do whatever they were instructed to do. A list of the members of the Government party was found in Beloff's quarters. Some of the names on the list were marked, and it is presumed that the conspirators intended to assassinate the persons so designated.

THE CATHOLIC CHURCH AND KNIGHTS OF LABOR.

Rome, March 14th.—Monsignor Straiero, in his report to the Vatican on the condition of the Catholic Church in the United States, gives a statement concerning the organization called Knights of Labor. He thinks the society honest in its endeavors to secure the objects of its organization, which are peaceful, and in that belief the large workmen have given it their support. Religions or political feeling does not control the society as a body. The objects sought to be obtained are generally made known when particular action of the body is decided upon. The question as a social problem has its interest centered in America, and disturbances have occurred between the members of this body and those who opposed them, and sometimes with the authorities, but it is difficult at all times to check the passions of a people who are accustomed to independence of speech and freedom of action. The workmen in America are mostly members of the Catholic Church and should be properly heard before an edict of condemnation is issued, condemning them for participation in a secret society which they believe is beneficial to them.

DAILY BULLETIN SUMMARY

40 columns. \$2 per annum.

There is a nature exceeding all measure,
Left to enliven this sorrowful world;
Who does not think of that moment with pleasure,
When first round his lips the wreathing smoke curled?
Parents look grave or sick,
Call it a nasty trick,
Say it is ruinous—say it is wrong;
Happy indeed is his lot,
Who, for these caring not,
Pulls like a chimney-pot,
All the day long.
Some, who are troubled with endless entreaties,
Strive for a time this delight to forego;
Vain are their efforts, their failure complete is—
Life without smoking's unbearably slow.
Soon their mistake they find,
Leave all such thoughts behind,
Wise resolutions all vanish in smoke;
And to their cost they see
That, if their life must be
Unfugatory,
'Twill be no joke.

We should Blot Out Disease in Its Early Stages.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and in fact the entire glandular system; and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions he will be able to determine whether he himself is one of the afflicted—Have I distress, pain, or difficulty in breathing after eating? Is there a dull, heavy feeling, attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky mucous gather about the gums and teeth in the morning, accompanied by a disagreeable taste? Is the tongue coated? Is there pain in the sides and back? Is there a fullness about the right side as if the liver were enlarging? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the kidneys highly coloured, with a deposit after standing? Does food ferment soon after eating, accompanied by flatulence or belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dreadful disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against the latter agonising disorder. The origin of this malady is indigestion or dyspepsia, and a quantity of the proper medicine will remove the disease if taken in its incipient stage. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure, and when it has obtained a strong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White, Limited, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system. Ask your chemist for Seigel's Curative Syrup.

"East-street Mills, Cambridge-Heath, London, E. C., July 24th, 1882.

"Sir,—It gives me great pleasure to be able to add my testimony in favour of your valuable Syrup as a curative agent. I had suffered for some length of time from a severe form of indigestion, and the long train of distressing symptoms following that disease. I had tried all possible means to get relief, by seeking the best medical advice. I had swallowed sufficient of their stuff to float a man-of-war, so to speak, but all to no avail. A friend of mine, coming on the scene in the midst of my sufferings, brought with him a bottle of your Seigel Syrup; he advised me to try it, stating he felt confident it would benefit me. Being weary of trying so many drugs, I commenced it before I had thought it could not possibly do me any good, but ultimately determined to take the Syrup. After doing so for a short time it worked such a change in me that I continued taking it for nearly two months, and I then felt thoroughly cured, for I have discontinued its use for five weeks, and feel in the best of health, and can partake any kind of food with ease and comfort. I am therefore thankful to you that, through the instrumentality of your valuable medicine, I am restored to the state of health I now enjoy.—Yours truly, W. S. FORTNER.

"To Mr. A. J. White."

Those who are in the "Asthma Fur race" should lose no time in obtaining relief by the use of "The Rosinweed Tar Mixture"; but do not use the medicine unless you will follow all the directions "to the letter."

Poor Asthma sufferers, who are strangers to "tired Nature's sweet restorer, balm sleep," should make use of "The Rosinweed Tar Mixture." Quiet refreshing sleep will follow its use.

"Waterloo House, London Stile, Chiswick, February 17th, 1882.

"Messrs. White and Co., London.

"Gentlemen,—It is with great pleasure that I add my testimony to the wonderful effects of Seigel's Syrup. For years I had been suffering from bilious attacks, which began with giddiness; then a mist would come before my eyes, so that I should not be able to recognize any one or anything at the distance of a yard or two from my face. This would be followed by excessive trembling of my knees, so that I could not stand without support; after which a severe headache would occur, lasting often two or three days. I have tried various remedies for these distressing symptoms, but until I tried Seigel's Syrup I had no relief. Since then I have had excellent health in every respect, and if ever I feel a headache coming on I take one dose of the Syrup, which arrests it. Hoping that this testimonial may be the means of inducing others (who suffer as I used) to try the Syrup, as I feel sure they will receive speed, benefit and ultimately be cured, I beg to remain, yours faithfully,

"A. H. HORTON."

Seigel's Operating Pills prevent ill effects from excess in eating or drinking. A good dose at bed-time renders a person fit for business in the morning. If you have Asthma use "The Rosinweed Tar Mixture."

A DEMAND FOR HORSEFLESH.

One of the most striking results of the present war scare has been to direct the attention of almost every European Government to its sources of horse supply. Germany was the first to take alarm, and last week issued an edict that do more horses should be exported. Russia followed with a ukase of the same kind this week, and Austria will follow their example immediately. That France has no horses to spare is well known. She recently purchased 3,000 in Denmark, and their shipment to France was one of the incidents which frightened Germany into issuing her edict against equine exportation. The number of horses required by the two European armies when on a war footing is astonishing. The number of those required for military purposes, even in time of peace, is enormous. Little Belgium requires no less than 10,000 horses for the peace footing of her army. If Germany were to go to war, she would want 396,000, and France at least 375,000. The Austrian services call for 202,000, and Russia exceeds all by requiring 460,000. These figures are taken from a little work just published here on the organization and equipment of foreign armies, and their accuracy may be depended upon. England is more destitute of cavalry and artillery horses than any of the great Powers. A writer in the Daily Telegraph gives some interesting figures on this subject. He states that in the event of a war England could not put two army corps into the field, with out having at least 20,000 more half-breed horses than she now possesses, and that if war lasted six months she would require an additional reinforcement of at least 10,000 per month. There are only 2,000,000 horses in Great Britain, and nearly all of these are draft, hunting and race horses, so that no European country can come here to buy its cavalry or artillery horses. Russia has more horses than any other country in the world the number amounting to over 23,000,000, but since the export is prohibited, Europe can only look for fresh supplies to the United States and Canada. The latter two countries have only 13,000,000 horses 12,000,000 belonging to the United States. None of the European Armies employ mules except those of Spain and Portugal, where they are used almost exclusively for the commissariat service, as they were in the United States during the Civil War. Italy and Switzerland have also a small number of mountain batteries horsed by mules. The English War Office purchased large quantities of mules in America for her commissariat service when it looked as though she would go to war with Russia eighteen months ago. But they were not satisfactory, and were sold at auction here in London at less than one-fourth of their cost.—[London Corr. N. Y. World.]

A NERVY ENGINEER.

Frank Jones, who was killed at Garrison last week while "bucking" a snow-bank, was one of the nerviest men in the service. It is a rule on railroads that for bucking snow only men of unquestioned nerve shall be selected. A friend relates the following circumstance, illustrating the man's characteristic heroism: It was at Mullan Tunnel. Upon leaving the tunnel on the down grade, east side, he discovered (always on watch) that the train had broken in two just back of the baggage-car, which, of course, caused a momentary anxiety on his part, being in the situation; opened up his engine and ran down his steep grade, which should never be run down at a rate of speed exceeding ten miles an hour, as fast as speed could take him, his object and judgment being to keep away from the rear end of the train, taking chances of ditching his engine to save the passengers innocently sleeping on the train. At the foot of the grade he did not stop his engine and jump off, as he could have done and save his life, but kept his eagle eyes open and rated his speed according to the circumstances, and as the balance of the train came down (two sleepers and three coaches) caught them and saved the train with a mere jar to the passengers, who never knew the cause of it, and only awoke and dropped to sleep again, never knowing of the danger they were in. This is the man who was killed at Garrison.—[Butte, M. T., Inter-Mountain, Feb. 9.]

FASTED ONE HUNDRED AND FIVE DAYS.

Wabash, Ind., Feb. 7.—Mary Baker, the White county faster, completed last evening her one hundred and fifth day of total abstinence from food or drink. Several days ago the extremities began growing colder and signs of dissolution were apparent, but she still lives. There is a wide difference of opinion among physicians as to the cause of the malady, and the post mortem is looked forward to with great interest.—[Special Chicago Times.]

Truth is impossible to be soiled by any outward touch as the sunbeam.—[Milton.]

Let me have a mild CIGAR

ENGELBRECHT'S "Sampler" Health Cigar

THE ABOVE REQUEST IS HEARD daily in cigar stores, saloons and other places where cigars are sold, for it is an undisputed fact that most smokers prefer a mild cigar and that those who have for a long time smoked strong cigars, principally imported Manillas, will, after having thoroughly injured the stomach and impaired the nervous system, surely want a mild cigar, if they could find the right kind. How many thousands of smokers who suffer from loss of appetite, headache, nervous irritability, asthma, etc., and who have tried all possible remedies without success, might be cured if they knew that their sufferings were caused by the impure use of strong cigars, and that they should only smoke mild and properly prepared ones. It is a fact that all mild cigars agree well with smokers, for in most cases there is a lack of care in the selection of the tobacco, and often the necessary experience for it is wanting, and therefore a brand which suits the most fastidious smoker, and that is

ENGELBRECHT'S "Sampler" Health Cigar

Which is made from mild, aromatic and particularly selected and prepared tobacco, and combines all the qualities which may be expected from a health cigar. It causes no bad effect of any kind, is agreeable to the taste, burns evenly to the end, and possesses a fine aroma. No smoker should fail to give

Engelbrecht's "Sampler" Cigars

A fair trial, and benefit himself at the same time.
