CONSTITUTIONAL CONVENTION

Twenty-third Day.

TUESDAY, JULY 3. The Convention met at 10 a. m., with a full attendance, President Dole in the chair.

After routine business Del. Kuniakea moved the following resolution:

"RESOLVED, That the delegates of this Convention express their hearty appreciation of the modesty, courage, patience and forbearance of the President during the deliberations of this Convention, and their thanks for his courteous tact, and their earnest wishes for his continued success in administering the Government of this Republic."

Del. Vivas seconded the resolution, moving it be spread on the records.

Carried.

Min. Hatch moved the adoption of the following certificate to the Constitution, which being seconded by Del. Kalua was passed unanimously.

"The Constitutional Convention, convened in Honolulu, Island of Oahu, Hawaiian Islands, on the 20th day of May, A. D. 1894, pursuant to the provisions of Act 26 of the Acts of the Provisional Government of the Hawaiian Islands, entitled, 'An Act to Provide for a Constitutional Convention,' approved the 16th day of March, A. D. 1894, and pursuant to the proclamation of the President summoning said Convention to assemble, having framed and adopted the Constitution hereinbefore set forth:

"Now, it is hereby declared, enacted and proclaimed by the Executive and Advisory Councils of the Provisional Government and by the elected Delegates, constituting said Constitutional Convention, that on and after the fourth day of July, A. D. 1894, the said Constitution shall be the Constitution of the Republic of Hawaii and the Supreme Law of the Hawaiian Islands.

"Done in Convention by unanimous consent this third day of July, A. D. One Thousand Eight Hundred and Ninety-Four. In witness whereof we have hereunto subscribed our names."

The Secretary read an invitation from the Fourth of July committee, for the members of Convention to attend the celebration of the day on the grounds of J. N. Wright. Accepted.

Min. Smith moved that the title be, "Constitution of the Republic of Hawaii." Carried.

Pres. Dole then read the revised proof sheets of Constitution, slowly and distinctly, for final verification.

Coun. Emmeluth, in the first part of Sec. 1 of Article 13, "Letters of Denization of the following classes may be granted by the Executive Council," said that in the second draft the power was "the President with the approval of the Cabinet." He moved that such be adopted. Being ruled out of order he moved suspension of the rules, which lost.

Min. Hatch moved suspension of the rules to add to Art. 27—"Power of Removal"—a provision to empower the President to call the Senate without the consent of the Cabinet, so that in case of irreconcilable disagreement with the Cabinet he could have the decision of the Senate.

Coun. Brown asked if this was necessary. Two thirds of the Senate could under another Article require the calling of the Senate.

Min. Smith—That is a special session of the whole Legislature.

Coun. Brown said all the change necessary then would be to insert "or Senate" in that Article.

Min. Hatch said the matter could be settled by striking out a few words in Art. 28, which would give a little more power to the President. On the rules being suspended, he moved to strike out the words requiring the Cabinet's approval of a call of the Legislature or of the Senate alone by the President. Carried.

The reading was completed at 12:20.

Pres. Dole called a meeting of the Executive and Advisory Councils at 2 o'clock.

The Convention then adjourned till 4:30 this day.

Not Entitled to the Honor.

EDITOR BULLETIN: Not desiring to assume the honor of being present at the mass meeting held at Union Square, at 5 o'clock p. m. Monday, July 2, as noted by the P. C. Advertiser's reporter, in his report of the proceedings of the said mass meeting, permit me to say that I am not at all entitled to the honor of being "among the prominent royalists present" at the time referred to by the Advertiser's report, although, it is not a detestable feat for any good supporter of good government to be among such men as Judge Wideman, J. O. Carter, Judge Cooper, W. W. Hall and many others.

Joseph M. Porro. Kapalama, July 3, 1894.

All Government schools will be given a holiday to-morrow.

RATIFICATION MEETING.

Large Crowd at the Drill Shed to Endorse the Republic.

With the accessories of band music and a pyrotechnic exhibition to advertise Japanese fireworks, the call for a mass meeting to ratify the Constitution of the Republic (before Senator Emmeluth was quite done trying to amend it) drew a large crowd under the iron roof of the drill shed last night. The big building was full to overflowing, which would make the attendance over a thousand.

F. B. McStocker was chairman. P. C. Jones spoke on behalf of people at large, in his funny style, ending with a parody on "Daisy Bell."

F. M. Hatch, Minister of Foreign Affairs, in his accustomed serious vein, praised the new Constitution as giving liberty. Referring to the prospects of the Pacific cable and Nicaragua Canal, he said annexation to the United States was in sight.

J. M. Vivas, a delegate to the Convention, announced the funeral of the monarchy on the 4th. (He did not mention the burial of his oft attempted amendment to get the Portuguese language recognized in the Constitution.) That document was not satisfactory to all its framers, but with President Dole to operate it everything would be lovely.

E. A. Towse, representing the American League, eulogized the Constitution, for one thing on account of the enemies it made, whereby one would imply that the American League's function is to prevent the Republic from having any more supporters than are now eagerly waiting to scramble for the fodder in the public bin. He compared President Dole to Brutus—"the noblest Roman of them all."

R. J. Greene gave a revised version of how he saved little Rhode Island's reputation in the war of the rebellion, and again in the recent tumults of Hawaii.

J. W. Kalua boasted of the glorious part he had taken and was taking in depriving his country of its existence as a free and independent nation. Although he did not put it that way, such was the virtual purport of his harangue.

R. J. Greene gave a revised version of how he saved little Rhode Island's reputation in the war of the rebellion, and again in the recent tumults of Hawaii.

J. W. Kalua boasted of the glorious part he had taken and was taking in depriving his country of its existence as a free and independent nation. Although he did not put it that way, such was the virtual purport of his harangue.

Geo. Cavanaugh gave utterance to the deathless devotion of the Schaeffer Club.

H. Kiamie spoke for the same body, saying that, although the Constitution did not suit all its members, yet it was a good one on the whole and would be supported by the "loyal" members of the club.

T. B. Murray, president of the American League, was granted the honor of reading the resolutions, which passed as follows, after which the assemblage dispersed without uproarious cheering.

Resolved—This mass meeting is largely represented by delegates from the various organizations supporting the Provisional Government, and

Whereas—The Provisional Government is about to be converted into a Republic with the institutions and features dear to a liberty loving people, and

Whereas—Representatives of the people, in convention assembled, have formulated a constitution to be the fundamental law of the Republic of Hawaii, and

Whereas—This Constitution is wise and just, and liberal in its provisions, and by its nature designed to enable Hawaii to take its proper rank among free nations and to insure tranquility and freedom and the rights of the people throughout the islands and to ultimately secure political union with the United States, therefore, be it

Resolved—That this mass meeting of citizens of Hawaii does hereby endorse the new Constitution and does declare that the allegiance and fealty heretofore held to the Provisional Government is, on and after July 4, 1894, transferred to the Republic of Hawaii.

Resolved—That the selection of the Honorable Sanford B. Dole to be President of the Republic of Hawaii was in conformance with the undivided sentiment of the loyal citizens and masses with our unanimous and hearty approval.

Resolved—That a copy of these resolutions be transmitted without delay to the Executive Council of the Provisional Government.

SCOTS HAE A NIHT

Auspicious Opening of the New Hall of the Scottish Thistle Club.

The inaugural hall of the Scottish Thistle Club yesterday evening was a grand success, and those who were fortunate enough to be present enjoyed a pleasant evening. The new hall of the club, which is over the Fishel building, corner of Hotel and Fort streets, is large, airy and a great improvement on its former quarters. The Scotch rampant occupied a prominent position in the hall while inside the entrance and on either side hung the British and Hawaiian flags. At the upper end were the American and Hawaiian flags. On the walls were pictures of Scottish worthies and scenes and plant shawls. The Hawaiian Quilt Club furnished excellent music for dancing. At intervals the club rendered vocal selections in their inimitable style. Robert More acted in the capacity of floor manager, and through his management everything passed off without a hitch.

There were fifteen dances on the program and several extras had to be added to the list. During intermissions refreshments consisting of coffee, cake, ice-cream and lemonade were served. Much credit is due the following committee: A. Garvie, E. Rennie, W. McKay, R. Laing, A. McDonald and A. C. Steels, who were assiduous in their attention to the guests of the club.

The lawn on Palace Walk near the drill shed was packed with Japanese yesterday evening, the attraction being a display of fireworks by Italian. During intermissions the Japs filed into the drill shed and stared in evident wonder at the speakers at the mass meeting.

THE GLORIOUS FOURTH.

The scheme to run a line of steamers from Tacoma to Yokohama, making Honolulu a stopping point is gradually taking shape. Tacoma is now, and has been for several years, the shipping point for a vast amount of products of North Western Washington. Railroads from points east of the mountains connect the great wheat producing district of Walla Walla Valley with tide water and the promoters of the new line anticipate a large business in Washington products between these points.

We understand the Canadian and Australian line gets this business now by means of a transport between Tacoma and Vancouver, and the idea of the Great Northern is to secure the business without the extra handling of freight. Washington is a great state, rivaling Minnesota in the production of wheat and giving to the people of the northwest fruits more luscious than California can grow. If a line of steamers from Tacoma to Yokohama calling here could be made to pay it would certainly be a good thing for Hawaii. Every vessel that docks here means money to the merchants; the more vessels, the more money, and it is the same in any city with a harbor. Some years ago a city on Puget Sound got most of its business through the fact of its being the port of entry for the Sound. As time passed other towns sprung up and developed into cities of larger and stronger growth than the other, and they were in time made sub-ports of entry. From that time until today it has been a case of the "survival of the fittest." The first town with its \$300,000 custom house and glorious climate has sunk into insignificance; vessels which formerly entered and cleared there go further up Sound and the trade has gone with it. So it has been here on the Islands. Lahaina is to-day commercially dead; hundreds of people here can remember counting 200 vessels in the harbor at one time. Is money as plentiful in Honolulu as when the harbor was full of whaleships? It is easy to note the change which have taken place since the days when the shipping at Lahaina was larger than it is today. It is as easy, then, to calculate the benefits to be derived from additional lines of steamers into Honolulu.

If there has ever been a better iron stove than the "Pansy" manufactured we've not heard of it. Hundreds of these stoves are in use here, and every one has given satisfaction. We have them in three sizes and keep getting them by every steamer. If you want a good baker that uses the minimum quantity of fuel you can do no better than to buy a "Pansy."

The "D & D" polisher will succeed Sapolo just as the safety has succeeded the old time velocipede. We have tried this polisher for every purpose for which Sapolo is used and find it superior.

PROVISIONAL LEGISLATURE

Special Meeting of the Executive and Advisory Councils

There was a special meeting of the Executive and Advisory Councils this afternoon. Present: President Dole, Ministers Hatch, King and Smith; Councilors Wilder (Vice President), McCandless, Allen, Waterhouse, King, Tomney, Young, Nait, Morgan, Madonea, Brown, Bolte and D. B. Smith.

A petition in the native language was read from Kaupana of Maui, asking to be restored to his civil rights, he having served a short term for larceny. The petition had a certificate of present good character and petitioner's fidelity to the Provisional Government.

The petition was ordered granted. An invitation to attend the celebration of the Fourth was accepted.

Minister Smith presented the report of the Attorney General for the past biennial period. It was ordered printed in English only. He also presented the report of the Board of Health, of which the same disposition was made excepting that the printing was not restricted to English.

Minister Hatch introduced a bill providing for the proclamation of the Republic of Hawaii and the transfer of the property and authority of the Provisional Government to the Republic of Hawaii.

The bill to transfer part of Pana to North Hilo District passed second reading.

Mr. Emmeluth asked the Executive for information as to whether it was discretionary with the Collector

General of Customs to allow immigrants

without \$50 cash in the pockets of each.

President Dole thought it was discretionary, as an incoming passenger might have valuable property.

Mr. Emmeluth did not consider it right that immigrants should be landed here in the manner as reported a number of Japanese brought by the S. S. Aikoku Maru were.

President Dole asked if they were really being so landed.

Mr. Emmeluth quoted this morning's Advertiser as authority.

Mr. Waterhouse (sotto voce)—You should not believe everything you read in the Advertiser. If you saw a statement in the BULLETIN you might decide it was correct.

Minister Hatch said the matter had not yet been considered by the Executive.

Under suspension of the rules, the bill relating to the Republic of Hawaii was passed through its final stages.

Mr. Brown presented the report of the Judiciary Committee on the recommendation of the Board of Prison Inspectors for certain pardons. They recommended a full pardon to J. K. Mills, sentenced on May 5, 1900, to nine years' imprisonment for manslaughter, his conduct having been very exemplary in prison. They recommended pardons to Lui, a South Sea Islander, and to a Japanese prisoner in poor health, both conditioned on the prisoners leaving the country. They further recommended the pardoning of Kapaehi and Kehalukia, natives imprisoned for long terms. Mr. Brown complimented Lui for his brave conduct when Ryan tried to escape.

Minister Smith agreed with the report excepting as to Mills, although he felt sympathy with the prisoner.

President Dole felt like requiring a full statement from Mills of all he knows about the crime for which he was convicted. There was great difficulty at the trial in getting at the facts, and he thought before Mills asked for pardon he should offer to do this.

Mr. Brown said the petition was not from Mills but from the Prison Inspectors.

Minister Smith cited conclusions reached by prison inspectors in Massachusetts. It was found that the exercise of the pardoning power there had reduced the average period of confinement of life prisoners to below a ten years' term.

Mr. Emmeluth was opposed to a too free exercise of the pardoning power. He would only concur in the pardon of Lui.

Mr. D. B. Smith—A cold-blooded murderer.

Minister Smith said it could hardly be called a cold-blooded murder. The man he wanted to kill was suspected of destroying the prisoner's home, but unfortunately he killed the wrong man.

Mr. Brown, although opposed to indiscriminate pardoning, thought the birthday of the Republic was a good time for exercising the power in cases for which good reasons could be given.

The names were voted on separately as to pardons, with the following result:

Kehalukia, granted; Hapaku, granted; the Japanese, convicted of manslaughter on second trial for the murder of his wife, granted on condition he leave the country; Lui, granted on condition he leave the country.

Minister Smith made the motion in each of the foregoing cases.

Mr. Brown moved to adopt the report with regard to J. K. Mills.

Mr. D. B. Smith seconded the motion.

Mr. Wilder said it had always been customary on particular occasions to grant pardons on the recommendation of the Prison Inspectors, and he did not see why an exception should be made in the case of Mr. Mills.

The motion carried.

Mr. Brown called attention to this being the last meeting of the Advisory Council under the Provisional Government, and suggested that a resolution recognizing the event should be passed.

Minister Smith concurred in the idea. He paid a high tribute to the self-sacrificing devotion of the members of the Advisory Council. Without their assistance the Executive Council would have had an extremely difficult course.

President Dole desired to express his highest appreciation of the devotion of the Advisory Council. Its members had served without pay. They had met questions that would have puzzled any body of men to a great extent. Their work could not be successfully assailed except on political grounds. He thanked them cordially for their assistance to him, thanking his burdens much lighter and his course easier than otherwise would have been the case.

Minister Smith asked a vote of approval, complimented the Secretary, Dr. C. T. Rodgers, on his work.

Mr. Waterhouse thought the news paper reporters deserved thanks for their work.

Minister Smith—A necessary evil.

At 3:20 the Councils of the P. G. adjourned forever.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally.

The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%). It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cane, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill. The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where grinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill roll shaft, and distance center to shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hawi Mill, Kohala, where they are giving great satisfaction.

Prices and further particulars may be had by applying to

HOMES

PEARL CITY

THE

Oahu Railway & Land Co.

OFFERS THE PUBLIC

Another Great Opportunity

To Secure Homes in One of the Most

Delightful Localities to be

Found in the Paradise

of the Pacific.

As a healthy resort—Pearl City has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

THE WATER SUPPLY IS AMPLE!

And can be increased to meet the needs of a population equal to the largest city in the world.

Prof. A. B. Lysons of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

Special Inducements to Early Settlers:

For ninety days from date we will sell LOTS OF SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity. Those who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning (arriving a little before seven o'clock), and from Honolulu to Pearl City in the evening (leaving Honolulu station a little after five o'clock), for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 14 cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, (above Pearl City station), and those having homes on the Peninsula, will be allowed to ride free on regular status between Pearl City station and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school, at five cents each way for each pupil. This is equal to 24 to 30 miles ride for ten cents.

Equal inducements for those desiring to secure homes in the country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

(Continued from 1st Page.)

son than the last, we should all the more loudly proclaim our approval of the proposed institution of a new form of Government, under a new constitution formed by an oligarchy, until the voice of our disapprove is heard from, and until it need be the voice of the people of Hawaii is heard, whose right it is to speak upon Hawaii's future destiny.

We regret, deeply regret, the necessity that calls for this protest from us. But duty to ourselves and honor to those whom we have appealed to demand that we should give utterance to our views in brief and in unmistakable language, without being personal or vituperative. It is a God-given right, and we would be derelict in duty if we refrained from exercising it, and unanimously sustaining the resolution just read, which embodies all that is necessary to express our principles and by thus publicly and peacefully putting ourselves upon record before the world, absolve ourselves from the charge of being partakers in arbitrary and high-handed measures, the culmination of successive unprincipled acts, which began nearly two years ago.

We have met here to protest against personal government, against every act which restricts the inherent rights of the people. No one can deny that the constitution proposed by the Provisional Government is based upon a fraudulent foundation. The whole fabric from which it emanated is one of injustice, fraud and fiction, and it will end, as all such acts of Neroism should end, by disgrace to the inspectors and disaster to the State that should be unfortunate enough to have such retrogressive principles for its foundation, whereby and by which to rule and govern its people.

Mr. Bush had thrown a few impromptu remarks into his written address, which caused laughter and applause. In arguing that the Constitution of the Republic did not assure stable government, he referred to the quarrel in the Convention between "Brother Damon and Brother Smith." He asked if men born under the free flag of America could support the conduct of the authors of the Constitution. Cries of "No" answered him.

Mr. Nawahi in a few words spoke of the action in proclaiming a republic as premature, while Hawaiian affairs were yet under consideration by the United States. If he were the American Minister he would tell those people to keep to their provisional status until the matter was settled. He called for the ratification of the resolution by three cheers.

The call was responded to by a roar of voices which could be heard a mile away.

Messrs. Cummins, Widemann and Nawahi were named as a committee to present the resolution to foreign representatives.

Mr. U. Thompson for four years connected with the school has been appointed Vice-Principal by a vote of the trustees.

J. L. Dumas of Waieae, Maui, who holds many diplomas for normal work in the U. S., has been offered the position of Normal Instructor in the Kamehameha School. We take pleasure in recording his acceptance.

The long expectation of a loss can never lessen its intensity. Miss Malone's departure from Kamehameha Preparatory is too universally known and regretted to require much comment. It is earnestly hoped that she may not leave the Hawaiian work to which her head and heart so peculiarly adapt her. Enthusiastic and hopeful educators are gone too common in the Hawaiian fields.

From the Manual go two strong men. Mr. Babb and his wife go back to their home in Maine, and Mr. Ruessky goes to continue his work in teaching. May success attend them. The good influence exerted by them over the boys will last longer than they can know. The military department will especially miss Mr. Babb, while the music and athletics will suffer by Mr. Ruessky's departure.

Kamehameha departs from its own custom, as well as that almost universal among schools in that it no longer grants diplomas. The certificates granted the class of '94 are graded in their nature. They specify an opinion in reference to each boy's scholarship, mechanical ability and industry, and not always of a flattering kind. Hereafter the expression "graduation from Kamehameha" will mean nothing more than that a boy has continued in his course up to the end. Our guarantee of scholarship or of character will be found only in the certificate.

LUCOL :-:

IS THE

BEST PAINT OIL!

The following testimonial has been received from a prominent plantation owner and manager:

HONOLULU, H. I., May 29, 1894.
PACIFIC HARDWARE CO. L'N, Honolulu.
Gentlemen:— You ask my opinion of Lucol as a Paint Oil. I have experimented with Lucol Oil for outside and inside work, also on iron work, painting my vacuum pan, machinery and centrifugals, with it and the result has been most satisfactory. It dries harder, makes a better finish, goes farther and is more satisfactory in every way than linseed oil. Certain paint work which was always sticky with linseed oil, dried hard when Lucol Oil was used.
Yours truly,
A. C. DEESEE.

Direction for Use.

Use LUCOL in every respect in the same manner as you would linseed oil, with the single exception that you may add fully one-quarter more LUCOL to the same quantity of pigment than you would of linseed.

In using metallic, Venetian red, the ochres, and other dry pigments, it is advisable to mix up to the point at least one day before it is to be used, then add a third more LUCOL, and the paint will be found to cover well and have a good gloss.

NEVER USE JAPANESE.

Where hard surfaces such as floors, steps, etc., are required use litharge only, never use Japanese.

LUCOL MIXES WITH VARNISHES

and assists their working and improves their appearance BUT THEY SHOULD BE USED SAME DAY THEY ARE MIXED, otherwise the gum of the varnish may be precipitated or the mixture curdled.

The addition of from 1/4 to 1/2 of LUCOL to varnishes does not reduce their lustre nor retard their hardening and drying and it prevents their cracking.

Pay the Printer.

All who owe long-standing accounts to the BULLETIN PUBLISHING COMPANY for advertising, subscription or printing, are requested to pay up before the end of June. The money belongs to us and is needed to meet the constant large drain for labor and material required in conducting a daily paper and a printing house. We make no threats but would advise all concerned to heed this request.

The Tagawa Coal Mine is located in Fukuoka Ken in the Island of Kinshui, Japan, and was discovered about twenty years ago. It was owned by the government and mined simply for the government's use.

Great improvements, however, were made since it was sold to a corporation about six years ago, by importing mining machinery from Europe and America.

Tagawa Coal is used more than all other Japanese coals in the following countries: China, Manila and Strait's Settlements. It has found its way even to Bombay.

Two cargoes have been imported into the Hawaiian Islands recently, and it has no superior in this market as stove or steam coal.
