GENERAL DEBILITY and Indigestion

Made Her Life Miserable, but She is Cured by

Ayer's Sarsaparilla

Read the testimony of Mrs. E. G. Moore, Coburg, Victoria, whose portrait is also given:

"Some few years ago I suffered terribly with indigestion and general debility. I could not sleep, and my condition was such as to make my life miserable. None of the many remedies I tried did me any good, and I despaired of ever getting better. One of my friends told me of the blood-purifying and strength-giving properties of Ayer's Sarsaparilla, and I began taking it. Before I had finished the first bottle I felt better, and was thus encouraged to give the medicine a thorough trial. In all I used four bottles, and then was perfectly cured of the grievous trouble which had afflicted me. I now recommend, to anyone suffering as I did,

AYER'S SARSAPARILLA

As a Splendid Nerve and Blood Medicine.

TO CROSS THE ATLANTIC

AT A SPEED OF THIRTY-EIGHT MILES AN HOUR.

Design for a Vessel that is to Make a Trip in Three Days—new Propeller System.

The model of a steamship designed to make thirty-eight nautical miles an hour and to cross the ocean in three days, says the New York Morning Journal, was exhibited in the Maritime Exchange recently by Richard Paine, the inventor of the system of propulsion. It is thus described in his own words:

"This is a working model made by Stedham & Mercer, model makers for the United States Navy, and the switchboard and motors were made by J. Stanley Richmond of Philadelphia. Besides taking out patents in this country, I have the seals of England, France, Denmark, Germany, Austria and all other European Governments, and will apply to the Mexican and South American republics for letters patent. My object in exhibiting here is to form a stock company with a paid-in capital of \$3,000,000. The model represents a vessel 636 feet long capable of carrying 2500 passengers, 400 officers and sailors, 5000 tons of coal, 4000 tons of freight, 400 tons of food for the passengers and 300 tons of food for the crew.

"I gave the model a successful trial before the Board of Naval Constructors and Engineers at Philadelphia, and I have the assurance of Chief Engineer Melville of the navy that my system of distributing power and my patent propellers will revolutionize the construction of ocean-going vessels. I will exhibit the model before the House of Representatives and the Senate when Congress convenes in December, and I will endeavor to have an appropriation bill passed to build a cruiser that will be superior to anything that the naval powers of the world can show. The distribution of power is the whole secret. We have a series of four fourteen to twenty propellers, four at the stern, four at the bow and four to eight on each side of the vessel. They are all worked by independent motors, and a vessel could be propelled by any one of them. Again, the distribution of power permits a vessel to turn on its own axis. The engines are worked like ordinary stationary engines ashore. The shafts that work the propellers are from twelve to twenty-five feet in length, and weigh from five to ten tons each. At present the shafts of an ocean steamship are sixty-five feet long and weigh about sixty tons. The four propellers on the bows have a two-fold duty. In the first place they help to propel the ship either forward, backward or sideways, and in the second place they keep the bow steady in rough weather and save the strain on the stern propellers. The motors are not connected with each other. They have a capacity of 6½ horse power, and can work the propeller at an average speed of 1800 revolutions a minute. Under the system the ship would average thirty-eight knots an hour.

"A vessel propelled by such a system would save fully 60 per cent in coal. Should some of the propellers become disabled, the passengers would not be subjected to any worry or discomfort, as was the case on La Gascogne last winter. I estimate the cost of a passenger steamer at about \$1,500,000. This would cover the cost of every modern convenience.

"Engineer Melville is interested in my propellers. If the Cushing had not sailed I would have improved on her propellers and increased her speed five knots an hour. The secret of the alternating propeller is this: The blades are constructed like a fish's tail. When the blades strike the water they present a great surface of resistance, and while receding they present a surface akin to the edge of a knife, and by having two propellers in succession the other takes up the work that the first cannot accomplish. No power is lost, and no wash results from the whole series of propellers.

"The whole system of propellers is worked by switchboard, which is operated in the chart house. Any propeller can be run or stopped at will, and in this way the captain is independent of his officers or crew."

THE DISPUTED BOUNDARY.

Who British American Her Claims on the Alaska Line.

WASHINGTON, November 21.—Arthur Delaney of Alaska, United States Circuit Judge of the Territory and Collector of the Port of Sitka during President Cleveland's first administration, points out a new reason for Great Britain's effort to secure Alaskan territory. He says that the Canadian Pacific Railroad is back of the scheme by which England will get a port at Pyramid harbor and control the Yukon river. "The new British boundary line," he says, "swerves when it reaches Mount Waddington, to the west. The reason is obvious, for as it runs England acquires the end of the inland passage. By cutting off this nice slice of territory England would get Pyramid harbor, Chitkat and the beginning of the Yukon trail, which would give her a vast hold over the Yukon valley.

"If successful in her claims it is obvious that the English will control the key to a large portion of the most valuable territory of the United States. In acquiring an entrance to Chitkat pass and trail England would own the only way of reaching the gold fields, except by Behring sea and entering the Yukon river at its mouth and ascending it, this being a distance of 2500 miles to Forty-Mile creek and Circle City, now the principal camps in the Yukon basin."

WHO MAKES TRENT?

Commissioner Marden Has Plans of them for Everybody.

Commissioner Marden of the Bureau of Agriculture calls the attention of the public to the fact that this is the time of the year to plant trees and that he has about 20,000 of them in the Government nursery ready for transplanting. They are free to everybody and will be supplied in reasonable quantities.

Among the varieties to be had are ironwood, algeroba, camphor, Libonian coffee, Ceylon tea and tamarind, fig, eucalyptus, orange, lemon, avocado pear, sour sop, papaya, mango, rose apple, passion vine, agave, sauseviera and nine varieties of pines.

Applications for any of the above may be made to the Commissioner at the office of the Bureau of Agriculture in the Judiciary building at any time, when the requisite order on the gardener will be given. These orders are filled from the nursery on Saturdays only.

Ex-President Bartlett of Dartmouth at the age of 98 has taken to the bicycle, and says it is renewing his youth.

Cesar Celso Moreno's sentence for libeling the Italian Ambassador at Washington was ninety days in jail.

ART EXHIBITION OPENED.

OPENED BY ANNEKE, A. J. VAN DER BEEK.

General Admission Free—Special Admission 50 Cents.

There was a brilliant assembly at the gallery of the Metropolitan League for the opening of the semi-annual exhibition, to which ladies and invited friends, along with a large number of the public, were present yesterday evening.

President and Mrs. Van der BEEK were early in attendance and remained throughout the evening. Mrs. Van der BEEK being a member of the organizing committee and so much solicited in courteous attention by the guests. Mrs. Kate Field, the distinguished magazine editor and journalist, presided at the reception with her presence. Other guests were Mr. and Mrs. F. F. Dillingham, Francis Richards of Lawrence, Professor and Mrs. Judge, Mr. Alfred White, Mr. McLean Higgins, Mr. and Mrs. W. H. Hall, Principal H. M. Scott of the High School, Professor Sawyer, Mr. and Mrs. W. H. Graham, Mrs. Ogden, Mr. and Mrs. Rogers, Mr. and Mrs. Nelson, Mr. DeLong, Mr. and Mrs. H. A. DeLong, Mrs. Rogers, F. A. DeLong, Mrs. Atkinson, Richards, Lead and Muller, D. Howard, Atkinson, Walker Dillingham, Mr. Sawyer, C. H. W. Nelson, H. L. W. A. M. McMechanical and many others, including representatives of the Advertiser, Star and Enterprise.

Admission was free to all sides at the great gallery of art works produced in the month. It is a rule that no work shall be excluded a second time at the semi-annual exhibition. Mr. Atkinson's "The Yukon" picture was in sight, it is true, but not in the exhibition proper. It is a good color picture in the description of the scene in which the music dials a plumed soldier of the gallery. At the same time it should be stated that Prof. Sawyer gave piano recitals at intervals through the evening.

Some general remarks were made on the exhibits and various issues. Specific comments were therefore reserved until the catalogues are issued, which will be some time later. A few exhibitors in previous language are not represented in this year, and they are missed. Others have come out in different lines of subject from their previous efforts with results that will enhance their popularity.

The exhibition is open to the public today, an admission fee of twenty-five cents being charged. It is well worth a visit.

GRAND NEW BOUNDING.

Metropolitan Establishment For

Honolulu people may congratulate themselves over having secured something in every respect up-to-date in the way of a first-class book, stationery and toy store. Messrs. T. E. Hall and F. E. Nicol have fitted up an elegant place in the new Republic building and will open on the second of December.

Mr. Nicol has just returned from a trip to the States having purchased there by far the largest and most select stock of goods in the toy stationery and book ever brought to Honolulu. Whether any one cares to make present purchases in this direction or not, it will repay them well to visit the store and see what a truly metropolitan place of business it like.

IN THE HIGHER COURTS.

VERDICT AT HAPPY TWO

WONG LOK IS ON TRIAL TODAY FOR MURDER OF HIS WIFE.

The trial of Ah Wong for rape continued until after midnight. Judge Magoon charged the jury at 12:30 this morning, and at 2:32 a.m. they returned a verdict of guilty, three dissenting. Mr. Robertson gave notice of motion for a new trial, and sentence was suspended.

Wong Lok is on trial today for murder first degree. He is the man arrested for killing a countryman with a knife in Honolulu a few days ago. Hartwell is prosecuting attorney, and, by assignment of the Court, Davis and Dale appear for the defendant. The following jury is empaneled: J. Emmetoth, C. S. Hall, Thos. Wright, L. Marks, J. Effinger, G. W. Farr, J. E. Westbrock, E. W. Jordan, G. A. Schumann, M. N. Kennedy, C. H. Clapp and W. L. Howard. At noon recess Judge Magoon ordered the jury not to disperse, and an officer was sworn to take charge of them.

At the request of counsel for the defense, Dr. McGraw and Day were called this afternoon to examine the prisoner as to his sanity. The doctors conducted their examination, in presence of the attorneys, in the Law Library.

Judge Whiting has appointed Robert to administer the estate of her late husband, James Kearns, under \$1000 bond. One of the heirs had petitioned for the appointment of A. P. Haiola. Kane appeared for petition, and Kahookeno for the widow.

WIFE ACROSS THE PACIFIC.

German Ship Bertin and Hawaiian Bark Mauna Ala to Contest

TECOMA, WASH., Nov. 6.—The German ship Bertin and the Hawaiian bark Mauna Ala, both now loading lumber at the old Tacoma mill, will make a long distance race across the Pacific Ocean from Tacoma to Adelaide, South Australia. The Mauna Ala is to be given a handicap of five days. The contest will not end at the same time, but the race will be decided according to the time required to make the voyage.

It is expected the Mauna Ala will get to Adelaide tomorrow. The Bertin will not sail for two weeks. The bark is 818 tons burden and the ship 1665 tons. Both vessels will carry cargoes of lumber.

THE BERTIN HAS A RECORD AS A

fast sailing ship. She made the voyage from her home port, Hamburg, to San Francisco in 123 days, the fastest time ever that bark has made. Last year she beat the time of forty-eight other ships from San Francisco to Hamburg, and on her voyage home from that place made the quickest passage out of fifty ships sailing from San Francisco for Europe at that time.

STRANDING OF THE BELGIC.

Captain Walker Reprimanded for Error of Judgment.

Captain W. H. Walker, who was in command of the steamship Belgic when she went ashore on the beach at Sunosaki on September 8th, escapes with a severe reprimand. The court of inquiry was held at Yokohama on Monday, October 21. J. C. Hall, British Consul, presided, and the following sat with him as assessors: Captain E. Street, steamship Ravenna; Captain W. A. Evans, steamship Monmouthshire, and Captain R. Macgregor, steamship Guildhall. Captain Walker's explanation to them was that he mistook Mela head for Sunosaki, and he was merely declared guilty of an error of judgment.

G. T. Tiltson, the first officer, swore that the captain seemed sober when he saw him last just before the accident, but refused to swear that he regarded him as a sober person. He said he had remonstrated with him many times about drinking. He was afraid the captain did get full after the disaster. J. F. Lowder, who defended Captain Walker, gave the chief a sharp cross-examining, and brought out the fact that the relations of mate and master were not pleasant. The evidence of the other officers failed to sustain the charge of drunkenness.

BAD PLACE FOR HUSBANDS.

Held Responsible for the Utterances of Their Wives.

ST. PAUL, Nov. 5.—A decision by the Minnesota Supreme Court today indicates that Minnesota husbands with hot-tempered wives will either have to keep them at home or send them out calling muzzled. The decision is in the case of William Pett Morgan against Esther Kennedy et al. and William Kennedy, her husband. The court holds that the common law rule making the husband liable for damages for slanderous words uttered by the wife, even though he was not present and had not participated, is not abrogated by any of the statutes relating to marriages, but still holds good. The court finds that the words used by Mrs. Kennedy against Morgan, "he has been drunk throughout Thanksgiving week," involve moral turpitude on the plaintiff's part, as well as charging him with the commission of an indictable offense.

The great State of California was valued by the assessors of 1890 at \$584,578,076.

Utah, including the improvement made by the Mormons, is worth \$24,775,279.

In 1890 over \$2,000,000,000 worth of property was legally exempt from taxation in the United States.

New Year Races . . .

TAX APPEAL NOTICE.

Notice is hereby given that the Court of Tax Appeals for the District of Honolulu, Oahu, will sit at the District Court Room on Friday, the 22d day of November, A. D. 1895, at 2 o'clock p.m., to hear such appeals as may be brought before it.

A. PERRY, President of Court of Tax Appeals for District of Honolulu. Dated Honolulu, H. I., Nov. 19, 1895. 157-31

Notice to School-Teachers.

Owing to the shortness of the present school term, teachers in all Government schools are ordered not to prepare for or hold any Christmas exercises.

By order of the Board of Education. ALATAU T. ATKINSON, Inspector-General Schools. 156-51

The Evening Bulletin,

DANIEL LOGAN, Editor.

FRIDAY, - - NOV. 22, 1895.

OBSERVATIONS.

In a trademark suit it has been revealed that the much advertised "Fig Syrup" is mostly senna tea with but a flavor of fig juice in it. Some who have tried it in Honolulu could not bear it on account of the senna flavor. The court in which the suit was heard refused protection to the concoction on the ground that it was an imposition on the public. Its selling price in Honolulu has certainly been exorbitant, even if it was all that has been claimed for it as a medicine.

In one respect the promises of the Kalakaua Monument Association have not been fulfilled. That is the artistic certificates of stock in the memorial which were to be given to all subscribers. Under the adverse circumstances met by the Association, however, subscribers will be content without the certificates when they see the main object accomplished. Although the memorial is not on the ambitious scale at first projected, it is for the means at disposal a creditable production.

If Turkey gets out of her present kettle of fish, through international jealousy, it must only be for a season. That country is beyond mending, and is foredoomed to ending.

One of the inscriptions on a political cartoon in the Chronicle is "Rotten Financial Policy." When was Rotten the Secretary of the Treasury?

An interesting feature of the Planters' Monthly for November is "A Brief Sketch of the Early History and Growth of the Sugar Industry in Hawaii, and Its Pre-eminence as a Field for Investment of Capital." It occupies fourteen pages and is signed by H. M. Whitney, editor of the Monthly. Its facts and figures are worth preserving.

There are indications of a turn in the tide of war at Cuba. At last accounts victories were being scored by Spanish troops. A prospect of compromise on the basis of colonial home rule, on the British plan, was also looming up. This would put off Cuban annexation indefinitely, so that Bob Ingersoll would have to be content with Canada, Mexico and Hawaii.

Relations between Great Britain and Russia having diminished from a war scare to the vanishing point of alleged bad feeling, now begin to crescendo into the strains of mutual goodwill and common understanding upon great international questions. It would ap-

pear, if the latest reports are correct, as if the London papers were not war-whooping by authority when they worked themselves into a frenzy, a few weeks ago, over the going of the Russian fleet to Port Arthur.

In a Tacoma dispatch Adelaide is placed in New South Wales. The same mistake appeared in a legal document filed in the Circuit Court here a few days ago. An atlas is a handy thing to have in the house.

Honolulu has another institution in which it may fairly take pride, by the now established success of the Kilohana Art League.

American co-operation with Great Britain in Turkey would likely postpone the war that Senator Chandler of New Hampshire so eagerly invokes.

Twenty years ago the Keely motor furnished an interesting topic of conversation. Keely could not get his machine taken up then, but he appeared on the scene at intervals since, still insisting on its value but refusing to give away the secret. A few days ago the subject popped up again through the purchase of a small lot of Keely motor stock on the New York exchange.

CHAIN ARMOR IS BULLET PROOF.

Its Use is Rapidly Increasing Among Officers of the British Army.

Setting aside all talk about protections that are perfectly bullet-proof, I give you my assurance that an immense number of the officers of our army and navy who go on foreign service, especially when one of our "little wars" is expected, provide themselves with certain easily recognized protections. These, mind you, are well-known articles of trade to the service. The commonest and most useful type of these protections consists of fine but beautifully tempered single chains, inclosed in soft leather, which run along the shoulders, down the outer side of the arms and over certain parts of the body. These can either be sewn into a particular tunic or they can be adjusted separately and put on like harness. Take it absolutely that hundreds upon hundreds of sets are sold. The most valuable of all chains, in connection with accouterments, are those which guard the head, and in cases where the regulation cap or helmet is not sufficiently protected in this way, specially made chains are sewn inside the same and covered by the lining. Only those who have been in actual conflict know how valuable all the chains mentioned are in minimizing the effect of sword cuts. As regards protection from sword and bullet, the general belief of officers nowadays seems to be in thoroughly tanned leather, and great quantities of tight-fitting leather undertunics are made for officers, the favorite pattern—said to be the invention of the late Sir Richard Burton—being that which forms a not too prominent ridge down the center of the chest. I have heard innumerable stories from officers of bullets which have been diverted in some degree by these leather steel tunics, some of which are lined with woven steel wire. Of course, none of these things are supposed to be an absolute protection, but only a sort of palliative.—London Tid-Bits.

The State of Maine is worth \$225,978,716.

Land Sale Tomorrow. Under a notice of foreclosure of mortgage there will be sold at public auction at the salesroom of Jas. F. Morgan, tomorrow, November 23d, at 12 o'clock noon, 11 2-100 acres of land at Kapahulu in Kapiolani Park. This is the property formerly used for the ostrich farm of the late G. Trousseau. The property is on th main road encircling the Park, and will be sold with irrigating plant, pumps, pipes, etc. The property will make an excellent dairy or stock farm and is a fine investment. The property can be divided into elegant suburban residences.

ST. ANDREW'S CATHEDRAL. Order of Services and Meetings During the Synod of 1895. The following is the order of meetings and services of the approaching Synod of the Anglican church in Hawaii: Monday, Nov. 25.—7:30 p.m. Service of Intercession for Missions. Preacher, Rev. L. Byrd. Wednesday, Nov. 27.—Opening of Synod. 7 a.m., Holy Communion; 4 p.m., Evensong; 4:45 p.m., Opening of Synod; 7:30 p.m. Synod continued. Bishop's Address. Thursday, Nov. 28.—Day of Thanksgiving. 7 a.m., Holy Communion; 11 a.m., Thanksgiving Service; Preacher, Rev. W. Horsfall; 3 p.m., Evensong, 3:30 p.m., Annual Meeting of Trustees; 7:30 p.m., Meeting of Synod.

Comforting Words. Andrew Lang, in a recent article on words of comfort, mentions among others: The lady's "yes" to her lover's fond question; the doctor's "it is a boy, sir," to the anxious papa; "not guilty" to the prisoner at the bar; "finis" to the end of a writer's latest book; the physician's "out of danger," and "not out" to a man at the bat.

THE BICYCLE CONTEST. Interest in the Result is Still on the Increase. Following is the result of the counting of the ballots in the BULLETIN'S Bicycle Contest at noon today, a total of 10,584 being cast:

Table with columns for BICYCLIST and BICYCLE, listing names like Miss Newton, Miss Annie Clark, etc., and bicycle models like Monarch, Rambler, etc., with corresponding counts.

Bulletin Bicycle Ballot No. 26. Good for Two Days Only. MOST POPULAR BICYCLIST. BEST BICYCLE. Fill in blanks with your choice of bicyclist and bicycle, and deposit this ballot at the BULLETIN'S business office by 12 o'clock noon, Monday, November 24, 1895.

Timely Topics

The able address by Mrs. Sturtevant-Peet, president of the California Woman's Christian Temperance Union, on the occasion of the annual convention of that body in San Francisco, contained a passage which takes strong ground on the benefits of the bicycle. In speaking of physical culture and the relation of the clothes to the subject, she said: "All know the value of a strong unhindered body. For this reason the banishment of the corset and restricting bands is a foregone conclusion. Dress reform has pressed its claims for forty years, with little progress till the bicycle, that graceful, silent steed of motion, dashes through and bursts open the door of prejudice. This mystic wheel that we meet on every road and street is the mute but telling advocate of dress reform. It has its virtues as well as its charms. It invites, yea, demands, simplicity in dress. It encourages physical exercise and utterly refuses to carry a drunken rider. Unlike the horse, it balks when touched by the hand of inebriety. It inconveniences and discourages the use of cigars and cigarettes to the number of 65,000,000 a year. In short, the wheel is a reformer, and, though, it came not through the virtue of moral conception, we should welcome its presence as we do the advent of every new invention and corporate edict bearing the balm of sobriety, with the promise of stronger and better men and women." This is a straightforward expression from an able woman who led the California forces of one of the greatest National organizations ever instituted for the uplifting of the race. The dignity and earnestness which characterize her opinion cast into the shades the hallow objections which some physicians have made to the bicycle. Mrs. Peet gives us to understand that in the sole aspect of requiring women to dress sensibly this simple instrument of locomotion has accomplished more at a dash than the preachers on sensible dress for women have been able to bring about in nearly half a century. With so eminent an indorsement as this, even the most timid woman who is not held in what amounts to physical restraint by father, husband or brother from obeying an instinctive impulse to dress rationally and enjoy life and health on a bicycle, may at least console herself with the reflection that her impulse was right and lament that she was born a few years too soon.

In addition to the above Mrs. Peet might have mentioned the saving in labor attained by the patent sprocket attached to the Tribune wheel, which amounts to over 15 per cent, no small desideratum when ladies are concerned. The Tribune is the wheel par excellence for ladies' use, it has the newest patents and improvements and can be run with 15 per cent less work than any other wheel in existence.

LOCAL AND GENERAL.

Dr. R. H. Reid is now located at Waiialua. J. W. Jones is suffering with a lame knee. Football practices this afternoon at 4:30 at Makiki. The Kilohana Art League rooms are now open to the public. George Dennison and wife are making a tour of this island. T. S. Douglass was a passenger on the J. A. Cummins this trip. Kahuku Boy will take part in the New Year's day races. Captain Frank Wildes is the new commander of the U. S. S. Boston. The tax appeal board is in session this afternoon in the District Court room. The Beretania street tennis courts are undergoing repairs and are closed. Durrant is sentenced today unless another hitch shall have occurred. Harry Gillig and Fred Unger, tourists well known in this city, are to winter here. Henry R. Macfarlane, proprietor of Ahuimau dairy ranch, is in town, looking hale and hearty. The new Methodist chapel is rapidly assuming shape. The rafters are going up today. Kohala stockholders will have their postponed annual meeting on Wednesday at 10 a. m. The Kamehameha School boys were all at the wharf yesterday afternoon to say good-bye to Mr. Yatman. E. C. Macfarlane brought home a well-developed case of grippe, which keeps him in his room at the Hawaiian hotel. Loloalani has finally won a race on the Bay District track, San Francisco. Five-eighths of a mile—time 1:02. The Second Battalion of the National Guard will take possession of Union Square tonight for drill purposes. K. Mimashi has been officially recognized by the Hawaiian Foreign Office as secretary of the Japanese consulate. Charles Creighton has already buckled on his legal harness and is ready to take care of any legal business entrusted to him. Professor Ingalls of Punahou is getting the best of a bad attack of grippe which has confined him to his room for the past week. Commissioner Marsden's efforts have resulted in an improvement in the looks of Thomas square, and the good work is still going on. There will be a meeting of the Council of State next Monday. The subject of pardons for the remaining political prisoners will probably come up. Late exchanges say that the only thing which escaped the recent Republican avalanche in the United States was the Tammany tiger in New York city. Large numbers of infants and children, with a few grown-up people to look after them, enjoyed the band concert at Thomas square yesterday afternoon. Peter Paskel has been appointed teacher of the new school to be opened at Waiialua, Molokai, and Miss Camara has been appointed to the Kaluauka school. The American League laid over the matter of final action in the case of delinquent members last night until December 7th. A resolution was adopted asking the government to suspend the sentences of the remaining political prisoners. Mrs. G. W. Pigman, wife of the commander of the Bennington, is in Richmond, Virginia, where her daughters are being educated. Mrs. W. P. Elliot, wife of Lieutenant Elliot of the same ship, is at the Occidental hotel, San Francisco. A Victoria dispatch says that Captain F. D. Walker's claim against the Hawaiian government, for \$5000 for wrongful detention as a suspect during the revolutionary excitement, will be presented in the form of a petition to the British Government by Barrister Frank Higgins of that place.

Geyser water as a table water is without an equal. William H. Hoogs has a daughter, born yesterday. Late telegraphic items will be found on the inside pages. Smith, the bus man, is having stables built at Kalihi. J. J. Williams will take a trip to the big island in the near future. The Hawaiian Historical Society's third annual report has been issued. Ahi, a furniture maker on Nuanu street, has a card elsewhere, which see for yourselves. Mr. and Mrs. Oglivie have been appointed principal and assistant of the Haunala school. A Government night school will be opened in the Fort street building on January 6th. The hearing of the embezzlement charge against Albert Lucas has been set for the 26th. The Christmas vacation in the public schools will commence on December 20th and end on January 6th. See notice elsewhere of lawn party to be given by the Ladies' Aid Society of the Methodist Episcopal Church. One Hawaiian and one American drunk left the usual three dollars each with Judge Perry's clerk this morning. Honolulu medicines met at Dr. McGrew's office last evening and perfected the constitution of the Honolulu Medical Society. The next teachers' examinations will take place at Wailuku, Lihue, Hilo and in this city on the 3d and 4th of January. Y. M. C. A. orchestra practiced last night and quite a crowd of people gathered on the street to hear the choice music. The Hawaiian Hardware Company has ten boys' and girls' bicycles which they will dispose of before Christmas or know the reason why. Nakai pleaded guilty before Judge Perry this morning of having che fa tickets in his possession and was fined \$75 and costs of court. At a meeting of the Board of Directors of the Healani Yacht and Boat Club held yesterday afternoon, Charles Herrick was selected as the club's captain. A. P. Lacazette, who arrived on the Mariposa yesterday and is stopping at the Hawaiian hotel, is a member of a well-known firm of tobacco manufacturers at Havana, Cuba. Hoopii pleaded guilty of larceny in the fourth degree this morning in stealing twenty-seven gunny sacks of the aggregate value of \$1.35 and will occupy quarters on the reef for the next six months. One of the Fort street school buildings is to be moved a few feet within a day or two, so as to get one corner of it off land that is now only leased as a playground. The encroachment was inadvertently committed in making an addition to the building. As the result of a fight in a Nuuanu street saloon between two sailors of the bark H. Hackfeld, one of them is in the hospital and will probably lose the sight of one eye, which was nearly gouged out by his opponent's thumb during the fracas. A fine assortment of attractive literature for the schools is being unpacked at the Bureau of Education. There are stories, poetry, history, botany, etc., in beautiful print, which will be invaluable in the teaching of English and the imparting of useful knowledge. Much of Judge Perry's time was taken up this morning with the examination of Miss Ida Davis, charged with disobedience to her parents. At the conclusion of the testimony the Court continued the case for further hearing, and the parties will probably adjust their differences in the meantime. A prominent business man said yesterday, while in conversation with a representative of another paper: "I do not wish to run down your publication, but, to my personal knowledge, the BULLETIN has brought me fully fifty per cent. more business, during the past sixty days, than any other advertising medium in Honolulu."

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Four days more will end the BULLETIN Bicycle Contest. The winner of the BULLETIN bicycle will receive a handsome Thanksgiving reminder. The inquest into the cause of death of Mrs. George Barker is being held this afternoon. Much sympathy is expressed for George Barker over his sudden bereavement. The order of services and meetings for the Anglican Synod which meets next week appears in another column. The bark Don Adolfo and her stores will be sold by the Marshal on Wednesday next. Particulars in another column. H. M. Dow, clerk of the Marshal's office, is confined to his house with a severe attack of malarial fever. He is attended by Dr. Cooper.

SUDDEN DEATH.

Mrs. George Barker Found Dead in Her Bed. About 9 o'clock this morning Mrs. George Barker was found dead in her bed at her residence on Kukui lane. Her husband left her sleeping at a little before 7 o'clock when he went to his work at the Honolulu Iron Works. Other parties living in the house visited her room when she did not get up at the usual hour, but as she was still sleeping they did not awaken her. At 9 o'clock she was found to be dead. A telephone message was sent to the Marshal's office and Dr. Emerson soon afterwards made an examination of the body but could give no opinion as to the cause of death, although it was presumed to be from heart disease. The deceased was found in a natural and easy position and her death must have been painless. She had been ailing for a few days with a bad cold, but otherwise was as well as usual. Dr. Emerson reported the facts to Coroner Hitchcock but that official had not determined at 1:30 whether it was necessary to hold a post mortem examination and inquest or not. The funeral will take place at 3 o'clock tomorrow afternoon, the arrangements being under the charge of C. E. Williams & Son. Since the above was in type Coroner Hitchcock has ordered a jury summoned for an inquest to be held at 2 o'clock this afternoon.

Charles B. Wilson had secured the names of 137 prominent merchants and professional men at noon today for his petition to the President and Cabinet asking for clemency for political prisoners. Prof. Alexander contributes to the annual report of the Hawaiian Historical Society a brief sketch of the life of Kamehameha V., "Lot," who died December 11, 1872. The paper is preliminary to a longer one on the same monarch by R. A. Lyman. Captain Barber of the bark H. Hackfeld was found guilty of a misdemeanor this morning by Judge Perry and fined \$10 and costs. The captain's offense consisted in not notifying the Marshal of the desertion of one of his crew named Edward Donahue within forty-eight hours thereafter.

The stockholders of the Kahuku plantation held their annual meeting at the office of E. O. Hall & Son this morning and elected officers for the following year, as follows: Alexander Young, president; James B. Castle, vice-president; C. Bolte, treasurer; W. W. Hall, secretary, and W. F. Allen, auditor. The above constitute the Board of Directors.

Prof. Cook now of this city and vice-president of the National Music Teachers' Association, with his daughter, Miss May Cook, attended the annual meeting held in St. Louis the first week in July last, where Miss Cook gave a recital on the evening of July 4th, of which Knuckle's Musical Review said: "May Cook of Portland, Oregon, who, though she came unheralded, won a host of admirers by her really magnificent playing, which abounded in delicacy and expression and proved her an artist of the first rank." The Musical Courier of N. Y. said, "victor at the piano was Miss May Cook of Portland, Oregon."

AUCTION EVENTS.

Two Treats in Store at Salesroom of W. S. Luce. Next Friday at 10 o'clock W. Seaborn Luce, auctioneer, will hold a sale of ferns, plants and flowers at his salesroom, Queen and Fort streets. The articles were raised by a number of ladies, and some are from the best conservatories in town. There will be a grand display, and Mr. Luce will be pleased to see the ladies come. On Saturday fortnight Mr. Luce will hold a great evening sale for Christmas. He will sell toys, rugs, lace curtains, Christmas novelties, etc. The store will be lighted with electricity for the event, and comfortable accommodation will be provided for the ladies. Further notice will be given of both these sales by advertisements. The District of Columbia, not including the Government buildings and public works, has an assessed valuation of \$99,401,787. Rhode Island, in proportion to size and population, is among the richest of our commonwealths, being assessed at \$252,586,673.

A SCIENTIFIC MAGICIAN.

Will Make Various Staples of Commerce Artificially with Chemicals.

M. Berthelot, the new French Minister of Foreign Affairs, possesses fame apart altogether from his political efforts. In his special domain of chemical knowledge he ranks among the first of his contemporaries. Chemical synthesis, the science of artificially putting organized bodies together—may be said to owe its existence to him.

The practical results expected to flow from his experiments and discoveries are enormous. Thus, sugar has recently been made in the laboratory from glycerine, which Professor Berthelot first made direct from synthetic alcohol. Commerce has now taken up the question, and an invention has recently been patented by which sugar is to be made upon a commercial scale from two gases at something like 1 cent per pound. M. Berthelot declares he has not the slightest doubt that sugar will eventually be manufactured on the largest scale synthetically, and that the culture of sugar cane and the beet root will be abandoned because they have ceased to pay.

The chemical advantages promised by M. Berthelot to future generations are marvelous. He cites the case of alizarin, a compound whose synthetic manufacture by chemists has destroyed a great agricultural industry. It is the essential commercial principle of the madder root, which was once used in dyeing wherever dyeing was carried on. The chemists have now succeeded in making pure indigo direct from its elements, and it will soon be a commercial product. Then the indigo fields, like the madder fields, will be abandoned, industrial laboratories having usurped their place.

But these scientific wonders do not stop here. Tobacco, tea and coffee are to be made artificially. Not only this, but there is substantial promise that such tobacco, such teas and such coffees as the world has never seen will be the outcome. Theobromine, the essential principle of cocoa, has been produced in the laboratory, thus synthetic chemistry is getting ready to furnish the three great non-alcoholic beverages in general use. The tea plants, coffee shrubs and cocoa trees must some day follow the lead of madder and indigo.

Tobacco will be obtained in a similar fashion. Professor Berthelot has obtained pure nicotine, whose chemical constitution is perfectly understood, by treating salomine, a natural glucoside, with hydrogen. Synthetic chemistry has not made nicotine directly as yet, but it has very nearly reached it, and the laboratory manufacture of nicotine may fairly be expected at any time. The tobacco leaf is simply so much dried vegetable matter in which nicotine is naturally stored. Chemistry will first make the nicotine, and impregnate any desirable leaf with it to any degree of strength. Later on, if necessary, it will also make the leaf, as well as those other elements which exist in fine tobacco, in addition to nicotine and vegetable fiber.

Gambling in Fresno.

It has been known for many weeks that gambling has been conducted in this city in open defiance of the law, and no effort has been made to stop it, says a late Fresno, Cal., dispatch. Senator G. G. Goucher has created consternation among the gamblers, as well as among the officials whose duty it is to enforce the law, by sending a notice to the officers. A copy of it was sent to Chief of Police Woy, Sheriff Scott, Constable Shaw and Constable Alb. The Grand Jury is in session, and it is likely indictments will follow.

New Mexico is worth \$14,675,209.

The Good Qualities

Possessed by Hood's Sarsaparilla are almost beyond mention. Best of all, it purifies the blood, thus strengthening the nerves. It regulates the digestive organs, invigorates the kidneys and liver, tones and builds up the entire system. It cures dyspepsia, scrofula, eczema and rheumatism. Remember, Hood's Cures.

Hood's PILLS act easily, yet promptly and effectively on the liver and bowels. 25 c.

After the Grip

Relief from Hood's Sarsaparilla
Wonderful and Permanent.

"C. L. Hood & Co., Lowell, Mass.:
"I had kidney trouble and severe pains in my back, which was brought about by a cold contracted while in camp at Linfield in 1862. I have been troubled more or less since that time and have been unable to do any heavy work, much less any lifting. I received only temporary relief from medicines. Last spring I had an attack of the grip, which left me with

A Bad Cough, Very Weak
physically, in fact my system was completely run down. I tried a bottle of Hood's Sarsaparilla and it made me feel so much better that I continued taking it and have taken six bottles. It has done wonders for me, as I have not been so free from my old pains and troubles since the

Hood's Sarsaparilla Cures

war. I consider Hood's Sarsaparilla a God-sent blessing to the suffering." WILLIAM J. BAKER,
North Pembroke, Mass.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal.

Hobron Drug Co., L'd,
Sole Agents for the Republic of Hawaii.

Save Money!

You throw away dollars every year in broken lamp chimneys. Better stop it now while you can get a preparation that will prevent a chimney from breaking when put on wet. Prof. Humbolt's anti-explosive compound will do this and will prevent the explosion of kerosene oil and gasoline. We are sole agents for this preparation as well as for the New Ideal Sewing Machine, the equal to any high priced article, and we sell it for \$30 and \$35 with attachments. 15000 feet of mouldings for picture frames just received by the "Albert;" also oval and circular frames, something new and elegant.

your home and take delight in working about it in your spare moments, so as to keep everything tidy?

If you do, you ought always to have some of HALL'S COTTAGE PAINTS about the place, as a brushful in time, here and there, now and again, will save the expense of a general painting for a long time.

Hall's Cottage Paint will outlast Lead and Oil Paint mixed by hand, and from its combination and method of manufacture, it is especially adapted to stand the salt atmosphere, and for painting in tropical climates. One gallon of Hall's Cottage Paint will cover 600 feet of ordinary hard surface, one coat, and 300 square feet two coats.

This Paint is made of PURE WHITE LEAD, PURE OXIDE OF ZINC, PURE COLORS, PURE LINSEED OIL and DRYERS, all of which are ground under the supervision of a practical painter, with the latest improved mills, mixers, and other labor-saving paint machinery, which thoroughly mix up the raw materials without waste, thus giving to the consumer a PERFECT PAINT, which cannot be surpassed for durability and appearance.

We have these paints in 24 shades, and they are put up in gallon, half gallon, quart and one pound tins.

Our Navy Floor and Deck Paint is the proper thing to use on your floors. A floor to wear well, and look well, must harden through from foundation to surface. Therefore, insist on Navy Floor and Deck Paint being used, and you will never regret it. To be had in ten different shades.

Call and get, or write for a color card of the Best mixed house and floor paints to be had in the city.

THROUGH DARKEST AFRICA.

Successful Finding of Donaldson Smith's Long and Perilous Trip.

PHILADELPHIA, November 5.—A cablegram was received in this city last evening from Dr. Donaldson Smith, dated at Aden, bearing the one word "Successful." This news establishes the safety of the plucky Philadelphian, who for the past year and a half has been exploring the wilds of Eastern Africa, and at the same time puts an end to doubt as to his safety, which has been felt by those interested in his expedition for the past few months.

Dr. Smith entered Africa on the eastern coast at about the third degree of north latitude a year ago last June, to push across the country of the Gallians and Mazai to the two lakes which have been recently discovered by another expedition, and thence on to the two Nyanzas, his object being to carry out and complete the line of exploration from the lakes to the east coast, a distance of several hundred miles. Dr. Smith was accompanied by about 150 Africans, and at first by an Englishman who was subsequently obliged to return to London. Dr. Smith sent back some fine specimens of flora for the Geographical Society of London, and some months later was reported to be pushing on by another party whom he met.

Aside from these evidences of his safety there have been none until the arrival of his cablegram last evening. As the region which Dr. Smith has traversed is at the present time represented by a blank space on the map of Africa, the significance of the explorer's brief message will be realized. He has undoubtedly made discoveries of value. Dr. Smith is a graduate of the University of Pennsylvania class of 1885.

The shoe leather annually worn out by the people of the United States is said to cost \$180,000,000.

In order to impress upon your mind the fact that the Seattle Brewing and Malting Co's beers are Mild, Light and Lively, we below give the average per cent of alcohol in various liquors in comparison:

Table with 2 columns: Beverage Name and Alcohol Percentage. Includes Rainier Beer (3.4%), Olympic Beer (3.4%), Ale (7.4%), Cider (8.6%), Claret (13.3%), Whisky (54.0%).

On draught at the Criterion. *

MME Yales' La Freckla

is Mme. Yales' infallible cure of Freckles, Tan and Sunburn. It is the only remedy ever compounded that will remove freckles completely and surely. The fairer and more delicate the skin, the more likely it is to freckle and the worse it will look after it is freckled. Thousands of women, otherwise beautiful, are disfigured by these unsightly, brown blotches. Nothing will hide them. They are a source of misery, but they can be cured. La Freckla is the death-warrant to freckles. The preparation of La Freckla is one of Mme. Yales' greatest achievements. There are many imitations, some of them very dangerous and hurtful to the skin; none of them really effective. For safety and certainty, insist always on getting the genuine and original La Freckla. Price \$1 at drug stores, or by mail, MME. M. YALES, Health and Beauty Specialist, 146 State St., Chicago. Beauty Guide, mailed free.

HOBSON DRUG CO., Wholesale Agents.

FITS CURED

Prof. W.H. Peck, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician. His success is astonishing. We have heard of cases of 30 years standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P.O. and Express address. We advise anyone wishing a cure to address, Prof. W.H. PECK, F. D., 4 Cedar St., New York.

Cured A morbid appetite for strong drink (alcohol) by drinking our mild, refreshing Seattle Beer. On draught at Criterion.

G. R. Harrison, practical piano and organ maker and tuner, can furnish best factory references. Orders left at Hawaiian News Co. will receive prompt attention. All work guaranteed to be the same as done in factory.

Bicyclers are likely to get out, scraped, sprained, bruised, or some way hurt. No matter which, an application of Redding's Russia Salve will take away the smart and pain, and cure the trouble in a hurry. Thousands of wheelmen never go on the road without it. Why should you? 25 cents buys it of any druggist. Handy box for your pocket. Hollister Drug Co., Agts.

TODAY'S SHIPPING NEWS.

THE W. G. HALL ARRIVES FROM HAWAII.

Notes Along the Wharves—Movements of Vessels and Other Items of Interest.

The W. G. Hall is coming in from Hawaii as the BULLETIN goes to press.

The brig Larline for Hilo and the schooner Aloha for this port left San Francisco Nov 11.

The marine reporter of the BULLETIN is serving on a jury in the Circuit Court today.

The Iwalani sails at four p.m. today with passengers and a general cargo for Makawell.

The Kaala came into port this forenoon, from circuit of Oahu, with juddy from plantations.

The steamer yacht Eleanor arrived at San Diego Nov 17th and sailed for South America on the 18th inst.

Captain Barber of the H. Hackfeld is in a piliika for not reporting the desertion of one of his men to the Marshal.

The Kaubou came in this morning from Kaula. She had no cargo, having taken a load of coal on her outward trip.

The Hawaii left for Maui and Hawaii ports at five o'clock yesterday afternoon. She had a full load of plantation supplies, etc.

The bark Albert arrived in San Francisco, 13 days from this port, on Nov 12, the liner Coptic 6 days and 3 hours on Nov 12, the brig Canada 15 1/2 days on Nov 12 and the bark Andrew Welch 18 1/2 days, and J. C. Glade 23 days on Nov 12.

The schooner Anna thence from this port arrived in San Francisco November 11th, from Clipperton island with a load of guano, and all the men that have been on that lonely bit of land for a year or more.

There were three of these men who did not wish to remain longer on the island. The schooner brought up some of the machinery which she took to Clipperton.

The Hawaiian ship John Foa, which is owned in Honolulu and San Francisco, carried a treacherous cargo of coal on her recent trip to the Bay City from Newcastle.

There was fire in the coal from the 25th to the 31st of October, and at one time the blaze got such a start that it was only by prompt use of the force pump that enough of the cargo was jettisoned to save the vessel.

The smoke was discovered coming through the trunk hatches. The men were set to work to find the fire, and were forced back by the volume of thick black smoke that poured out of hatch No. 2.

With the steam force pump water was thrown on the coal until it was cooled sufficiently to handle. Enough was thrown overboard to get under the beams near the hatch.

There was coal on fire there, and more coal on fire further down, as was proved by forcing an iron bar into the cargo. The force pump was used again, and finally, six days later, there was no smoke.

ARRIVALS. Stmr. Kaubou, Thompson, from Kaula. Stmr. Kaala, Thompson, from Oahu ports. Stmr. W. G. Hall, Simerson, from Maui and Hawaii.

DEPARTURES. Stmr. Iwalani, Smythe, for Makawell. Stmr. J. A. Cummins, for Waimanalo. Stmr. Hawaii, for Maui and Hawaii. Stmr. Iwalani, Smythe, for Kaula.

Land and the improvement upon it constitute the first and most important item of the national wealth of the United States.

It is believed that the value of the personal property of the United States equals if not exceeds that of the real estate.

It is said that there are thirteen families in New York each of which has over \$500,000 invested in diamonds.

The Stat. of Connecticut is enormously rich in comparison to its size, having an assessed valuation of \$927,177,385.

The manufacturer of bicycles in the United States is in the last few years engaged in an enormous amount of capital. This is a comparatively new business.

Wilder's Steamship Co's

TIME TABLE.

MORTGAGEE'S NOTICE

OF SALE.

NOTICE IS HEREBY GIVEN THAT BY virtue of sale contained in a certain mortgage, dated April 24, 1891, made by GEORGE TROUSSEAU of Honolulu, Oahu, to Alexander J. Cartwright, Trustee for Adelia Cornwell, of said Honolulu, recorded in the office of the Registrar of Conveyances in Liber 119, pages 245-247, the undersigned, successor in trust to Alexander J. Cartwright, intends to foreclose said mortgage for condition broken, to wit, the non-payment of principal and interest when due.

Notice is also given that all the property covered by said mortgage, with all the rights thereto belonging, will be sold at public auction at the auction-room of James F. Morgan, on Queen street, in Honolulu, on

SATURDAY, NOVEMBER 23, 1895, At 12 o'clock noon.

The property covered by said mortgage is as follows: All those three certain lots or parcels of land situate at Kapahulu, in the District of Kona, on the Is and of Oahu, containing in all an Area of 11 2-100 Acres, and being portion of Apana 32 of the land described in L. C. A. 8552B and lots numbered 21, 22 and 23 of Kapahulu, lots adjacent to Kapiolani Park, and the same premises that were conveyed to the mortgagor, George Troussseau, by C. M. Cooke, Trustee for Anna H. Bailey by deed of even date with said mortgage.

Also, the Irrigating Plant, Pumps, Piping, etc., upon the premises. Terms cash. Deed at expense of purchaser.

F. W. MACFARLANE, Successor in Trust to A. J. Cartwright, Trustee for Adelia Cornwell.

CORNER FORT AND MERCH

TO ALL WHO USE PAINT:

The undersigned, L. C. Ables and H. P. Walton, purchased from Charles J. Wagner, the inventor of Peerless Preserving Paint, the exclusive right to manufacture, use and sell the PEERLESS PRESERVING PAINT in the Hawaiian Islands.

Patent for Peerless Preserving Paint.

On the 26th day of September, 1895, the Republic of Hawaii granted to L. C. Ables and H. P. Walton, a patent No. 110, granting them the exclusive right to make, use and vend PEERLESS PRESERVING PAINT throughout the Hawaiian Islands.

Trade Mark for Peerless Preserving Paint.

The Republic of Hawaii has also granted to L. C. Ables and H. P. Walton the exclusive use of the words PEERLESS PRESERVING PAINT as a trade mark throughout the Republic of Hawaii for the term of 20 years.

Imitation.

Certain parties in San Francisco have recently been sending to Honolulu under the name of PEERLESS PRESERVING PAINT a spurious article not only inferior to the genuine paint, but one which is positively injurious to any metal to which it may be applied.

Beware of Fraud.

We hereby warn all persons against being defrauded into using any but the genuine PEERLESS PRESERVING PAINT, which can be obtained only of Ables and Walton.

Warning Against Infringement.

We also hereby warn all persons against buying, selling or using any article under the name of Peerless Preserving Paint, except that sold by us, as such buying, selling or using will be a direct infringement of our patent and trade mark, and a violation of our rights, subjecting the persons buying, selling or using such paint to a claim for damages by us in accordance with the Hawaiian Law.

L. C. ABLES, H. P. WALTON.
