WHERE IS HAWAII?

McKinley, the avowed enemy of Hawaii, has been elected President of the United States, and will take office in March, 1897.

We cannot understand the reasons of the planters and their agents who to-day applaud the election of McKinley. In 1891 the man, now elected by English gold to the highest office in the gift of the American voters, nearly ruined this country. The "McKinley bill" will never be forgotten here. We have very little sympathy with our selfish planters, but we think that the welfare of this country now jeopardized by the fraudulent election of Mr. McKinley, should have supreme consideration.

There is absolutely no chance for the annexation of Hawaii. The people of these islands decline in the most peremptory language the invitation to join the great country over which the Stars and Stripes wave. The independence of Hawaii will be sustained and protected at all hazards. The election of McKinley or of Bryan would make no difference in that regard.

The main question here is, what Hawaii has gained by the election of McKinley? Mr. Cleveland and his representatives here tried to do the square thing, and through their lack of courage and common sense failed in their efforts. Mr. McKinley will leave Hawaii severely alone, pursue his tariff policy of old, and ruin our planters.

Then, dear readers, you will hear a howl from the ranks of our sugar barons, and all of them will wonder where on earth the Paradise of the Pacific (60 percent) is.

The Hawaiian Islands will remain in their proper place however, and Mr. John W. Foster of annexation fame will report to McKinley that there is no annexation in the sentiments of the Hawaiians.

A GENTLE HINT.

Mr. Dole is an enthusiast on homesteads. He is always ready to advocate lots which never can be of any earthly use to the eventual homesteaders. There are men, however, who are ready to open up their lands and by cutting down forests make fortunes in offering coffee lands in the public market.

Mr. Dole, however, has to listen to his friends the planters, and his Government declines to make any advances which eventually could benefit planters and land owners.

We have in our mind a proposed transaction in the Kohala district which seems to have been considered unfavorably by the Government. It may be of interest to the Kohala planters now in town, to "see" the Government prior to their return to Kohala.

The Puuhue estate owns about 3000 acres of forest land extending from Niulii to Hawi. The managers of the estate has offered to the Government to exchange the forest land, with the lands of Kabei and Kaauhuhu a portion of which is suitable for the cultivation of cane. The forest lands are of the description which has caused Mr. Marsden and other planters to advocate the preservation of a belt of such lands under Government control. The water heads are generally found on such lands and the planters want to draw the water without paying for it. The Puuhue Ranch is justified and well advised in cutting down the forest, and as the land is perfectly suited for coffee homesteads, to offer it in the markets to Portuguese and others who may chose to take chances on the "small farms." The planters will necessarily lose the water now obtained from the mountain lands, but they will probably feel recompensed by the knowledge that Mr. Dole approves of homesteads and that McKinley is elected.

A second thought would perhaps not be amiss, dear friends of Kohala!

TOPICS OF THE DAY.

Would it not be well for the defunct Annexation Club to get a move on and convince Mr. John W. Foster that there really are a few people (mostly Government officials), who do want annexation. It may also be advisable for the Hawaiians to show Mr. Foster that there isn't a decent, respectable man of their race willing to surrender the independence of their country.

Where is that money? Mr. P. C. Jones, the clever financial agent of Mr. Dole, returned to town by the Australia this morning. The agent has been visiting Boston and other places "West of the Rocky Mountains," and his financial eyes have been opened to the fact that Hawaiian bonds are not in demand West or East of the Rockies, and that in fact he couldn't borrow a bean. Now he will ask for an extension. He will tell Messrs. Dole & Co., that he surely can get the money in London. He has forgotten the fact that he assured his friends that if he failed in his financial mission, he would hie himself to Waikane, there to grow cabbage for the balance of his natural life. The Government will hardly dare to give to Mr. Jones an extension of his refunding franchise. Mr. Jones

will hardly dare to ask for the privilege. We think the pompous, old fellow has got his corporosity filled by this time. Years ago he stated that he would sell his shares in Brewer & Co. whenever they were quoted at 50 and then become a "city missionary." The shares are now quoted at 280, but Mr. Dole's financial agent is still hanging on to them and serving Christ by clipping his coupons and building "temporary" chapels at Palama. When this good man addressed a Sunday School class some years ago, he told the boys never to do business on Sunday. He stated that he had once lost a pile of money in an enterprise which was opened on Sunday. Brother Jones forget his own rules and left Honolulu on a Sunday on his last expedition. That was bad—very bad for Jones and the refunding scheme. Now the consolation in his disappointment is confined to gilded cockroaches and a hope that Messrs. Dole & Co., will give him an extension of his borrowing scheme. Mr. Jones is evidently not the financial genius as he claimed to be. Not even "East" of the Rocky Mountains.

The Swimming Champion.

The swimming race yesterday from the boat houses was of great interest to the large audience which gathered at the starting point. John Marshall who won the championship on the half-mile course, is an excellent swimmer, although the time made was not very extraordinary. The following events took place:

First race—100 yards, open for native Hawaiians. Entries as follows: Wu. Peter, James McCandless, Mokulehua, Kimoeko, Kalaikini, Moses and Kelihibuluhulu.

Kimoeko won. Time, 1:14.
Second race—100 yards, for boys. Entries: Moses, Kelihibuluhulu, Kalaikini, and Arthur Harris.

Arthur Harris won. Time, 1:15.
Third race—Half-mile, free for all. Entries: Puahi, Kimoeko, J. L. Marshall and J. Mitchell.

John Marshall won. Time, 16:10.
Fourth race—For boys only. Entries were as follows: A. Welsh, A. Harris, C. D. Walker, A. W. McCurie, and C. Mayne.

A. Harris won. Time, 1:16.
The races were under the auspices of the H. A. A. C.

Following were the officers of the day: Judges—F. S. Dodge, Ed. Towse, A. C. Wall, and W. E. Wall. Clerk of the Course—Emil Berger. Starter—W. E. Wall. Timekeeper—G. Waldron.

Australia Arrives.

There was a large crowd at the Oceanic wharf this morning, when the Australia steamed in.

The news of the presidential election was of small account but everyone wanted to greet the dear old Hawaiian Band which returned after an absence of nearly two years.

The boys tired to play when they passed the Light-house, but their tears of joy were too much for their musical talents and the "hailing" concert was broken up.

The boys all look well and feel proud over the reception given to them by their countrymen.

Mr. P. C. Jones was a prominent passenger. He carried a tan colored satchel which contained the four millions which he got "west of the Rocky Mountains" for Mr. Dole's funny little republic. He also carried a gold cockroach on his coat. That was probably all the "gold" he brought with him.

The Frawley Company which will make their appearance this evening at the Opera House were in full force on the steamer and expressed themselves charmed with the first view of Honolulu. We hope the talented actors and actresses will find an appreciative audience here and find our Pacific Paradise "up to time."

And then our patriotic hearts beat high when we saw George Asbley, Andrew Brown, C. A. Brown and others of the good men who love Hawaii (when there is coin in it) returning to our shores.

The arrival of the Australia was way up indeed. The country is safe once more. The Audies and Cabbies and Georgies are all here. Aloha to them.

Died.

It is a circular shaped vessel, made of cold rolled steel, finely galvanized, with Malleable Iron Side Rod; each box furnished complete with a Japanese Wrought Iron Holder, Plate and Screws. This feed box has the advantage that you can put it up anywhere in the stall or box, does not waste a particle of the feed, will always be sweet and clean, and is especially desirable where a horse is inclined to

Bolting, Slobbering or Scattering.

It saves feed bills at a rate of from 25 to 30 percent. Saves Doctor's bills by preventing Indigestion, Colic and Stomach Troubles, saves hostlers' time, trouble and vexation. It pays for itself in a few weeks, and no stable is complete without it. They come in 3 sizes, capacity 6, 8 and 10 quarts, and the price is within the reach of everybody owning a horse. We would especially call the attention of Managers of Livery Stables to this new device. It will pay you the trouble to come and inspect them.

Died Suddenly. Dan. Awaawa, a well-known hack-driver, who held the reputation of being the only rebel of the 1895 gang, (who was never caught), died suddenly last night on the Mount Tantalus road. The deceased had as a passenger a white woman and according to evidence left the carriage together with her. This morning he was found dead and an inquest was held at the Station House at 11 o'clock this morning. It was held that death was due to disease of the heart and the woman who was arrested in connection with the affair was exonerated and discharged. There is something mysterious in the business, however, as it is not the rule that kanaka boys die from "love" altogether.

W. W. DIMOND'S A wrinkle, new to Honolulu, is old blue china. It has been the rage in the United States for six months past, and in Europe for as many months before. It's the sort your great grandmothers and their children used; except that modern methods of manufacture and decorating enables the potters to make the pieces thinner and the decorations finer. Those people who want something finer than may be had in Delft, can be accommodated with "Belleek." This is a much better quality and is decorated in a more artistic manner. For plain every day use, the Delft is the best, because it is made to wear and to use. We have full sets and single pieces of it, which will soon find their way into the homes of Honolulu. Delft is not a fad; it was used many years ago and was fashionable for a full century before we came on this mundane sphere. Its place was taken by other and Frenchier patterns; now we are back to the old German windmill pictures. Come and see them.
