

KILLING THE HEADHUNTERS

THE PHILIPPINE CONSTABULARY ENGAGE A BAND OF FILIPINO HEADHUNTERS IN NUEVA VISCAYA AND POT FIFTY-THREE OF THEM—TWO OF THE CONSTABULARY ARE KILLED.

Associated Press Cable to the Star.

MANILA, P. I., October 12.—The constabulary had a serious engagement with a band of headhunters in Nueva Viscaya. The headhunters made a desperate fight but were unable to withstand the onslaught of the constabulary. Fifty-three of the headhunters were killed and two of the constabulary lost their lives in the engagement.

Fear England Will Be Involved In War

Associated Press Cable to the Star.

LONDON, October 12.—There is the utmost disquiet is felt here in diplomatic circles over the Eastern situation. The ministry and other government leaders are fearful that the recent alliance with Japan may involve the British Empire in the approaching struggle between Japan and Russia.

The Japanese minister here admits the possibility of hostilities within a short time, unless Russia accedes to Japan's demands regarding the evacuation of Manchuria. He deprecates, however, the rumors that have been circulating regarding an alleged ultimatum from Japan to Russia. No such notice is admitted in Japanese diplomatic circles, to have passed between Japan and Russia. The negotiations between the representatives of the two nations have not, it is asserted, reached such an acute stage that the Japanese have despaired of effecting an amicable agreement with Russia.

SAYS WAR VERY NEAR

Associated Press Cable to the Star.

WASHINGTON, D. C., October 12.—The Japanese minister admits that his country is preparing for war with Russia. He says, however, that the situation has been exaggerated and that affairs have not yet reached the crisis that the news reports would indicate. The negotiations are progressing between the Japanese and Russian diplomats, regarding the occupation of Manchuria. There have been, he adds, no developments of a favorable character. Thus far, the Russians continue to pursue a policy of procrastination whenever the evacuation of Manchuria is suggested.

It is believed here in diplomatic circles that the negotiations will soon result in Russia being forced into a positive declaration of her intention to permanently hold and occupy Manchuria. Such an admission on the part of Russia will, it is thought, be followed immediately by a declaration of hostilities by Japan.

CRISIS IN EASTERN SITUATION

Associated Press Cable to the Star.

BERLIN, October 12.—A crisis has been reached in the Eastern situation. The Japanese and Russian legations are uninformed however regarding the latest developments in the negotiations between their governments.

INTEREST ON BONDS

SECRETARY CARTER CABLES THAT IT HAS BEEN FIXED AT FOUR AND A HALF PER CENT—BIDS RECEIVABLE NOVEMBER 18—WILL RETURN TO HONOLULU ON THE SIBIRIA.

The following cable from Carter, dated at New York this morning, was received by Treasurer Kepoikai:

"Rate four-half, bids received Honolulu New York November 18th, delivery 24th, will catch Siberia, bringing bonds execution."

This means that the rate of interest on the bonds has been fixed by Carter at four and a half per cent, instead of five per cent. From this it is supposed that the Secretary has found that there is no doubt about a market being found for the bonds; and that he will bring the bonds with him to be executed here.

Returning on the Siberia, Carter should arrive on October 29, or five days before election.

KOHALA DITCH

The Executive Council definitely fixed the terms of the Kohala ditch license this morning and decided to advertise it at public auction. The date fixed for the sale is November 28. This allows over six weeks time for competitors.

The specifications for the bidders are substantially according to the terms already published, and discussed with the parties who are after the franchise.

The proposed license is for fifty years. The rent to be paid to the government for the first four years is \$1,000 per year. After that 5 per cent of the gross receipts are to be paid additional up to twenty years, when the rate is to be adjusted by arbitration. There is to be another similar adjustment in the 35th year.

The company is to begin actual construction of the system, spending not less than \$10,000, within 18 months from the issuance of the license and is to spend not less than \$400,000 on the work within five years. Water is to be supplied at reasonable rates, to all customers in the districts covered by the franchise and only surface water is to be made use of, no tunnelling or digging for underground water being allowed. Violation of any of the terms is cause for forfeiture of the license.

KAMUELA JURY CONTINUES TRIAL

THE ROW OVER COLOR LINE SUGGESTIONS ENDS VERY QUIETLY.

The jurors in the Kamuela case, before Judge Gear, had got over being "sore" by the time court was called this morning, and the trial proceeded after a report by Andrews as to the possibility of taking legal steps on account of the publication which the jury complained of. Quite a crowd had gathered in court expecting to hear some more discussion, but they were disappointed. None of the jury had anything to say and the attorneys on both sides expressed themselves as satisfied that the jurors would give an impartial verdict.

When the case was called Judge Gear asked Attorney General Andrews for his report. Andrews said that in view of the request of the court and the evident strong feeling among the jury he had gone into the matter very carefully. "My first impression was that there was nothing in the article on which charges could be based," he said, "but I wanted to be sure as the jurors seemed to feel very aggrieved and there should certainly be some way to protect them when, as I believe, they are trying to be fair in all cases."

"I find, however, that there is absolutely nothing in the article which, under the authorities, I can bring before the grand jury. The general idea seems to be that where there is mere criticism of a jury without anything tending to bias them, there can be no charges. Nothing in this article that I can see affects them at all."

Andrews said that the only criticism to be found in the article, if there was any at all, was of the defendant's attorney. "The jurors are bound by their oaths to try the case on the evidence presented to them," he said, "and they should not be affected by newspaper articles. In fact in many jurisdictions it is the rule for judges to instruct jurors not to read anything in the papers about the case they are hearing."

"The article itself is not true, therefore it is impossible that there should be any hidden meaning. It mentions the race line and the color line, but there is nothing in it derogatory to the natives. Suppose the paper had said that there was a red-headed jury and some one should object? There would not be anything that could be taken up under the law."

Andrews quoted several eastern cases in which newspapers had passed severe criticisms and aspersions in juries and courts, while a trial was in progress, and in which the supreme courts had held that there was nothing actionable. Judge Gear enquired what was to be done with the case. Andrews said the Attorney General's Department was ready to proceed with the trial. Attorney Long for the defense said that he was satisfied also, and the taking of evidence was resumed.

ERUPTION SEEMS TO BE INCREASING

WIRELESS MESSAGE FROM CAPT. MOSHER STATES THAT KILAUEA IS SMOKING NOW.

Evidently the eruption of Mouna Loa is the greatest that has been known in years. Contrary to the usual rule when the mountain breaks out on the upper slopes, the lower crater of Kilauea is smoking. This news was received this morning by the Inter-Island S. S. Company from Captain Mosher of the steamer Iwalani which went up last week with a special excursion party from Honolulu.

The message from Captain Mosher was as follows: "Kona, Oct. 12, 1903. "Great activity Mokuaweweoe. Kilauea smoking. Grand display visible from steamer along the coast." According to schedule, the party was to have reached Honouapo Saturday night and gone ashore yesterday. They were to go to the Volcano House at Kilauea and from that place take horses and make the ascent of Mauna Loa if possible.

Later advices received yesterday and Saturday indicate that the lava is flowing down the side of Mauna Loa. Within the course of the week if the eruption continues, some body ought to be able to make a definite report on the flow. Captain Mosher of the Iwalani will bring complete details when his vessel returns this week from Punaluu and Honouapo. The steamer Mauna Loa will sail tomorrow at noon for Kona and Kau ports. She will take a number of tourists it is thought for a fair number have already booked by her from Honolulu.

MORE PEAS TO PHILIPPINES

Captain Niblack of the Naval Station will send another consignment of alligator pear seeds to the Philippines. They will be sent by the S. S. Siberia this month. This will be the last shipment of pears for some months, as the season is closing. Captain Niblack has been very enterprising in sending out the pears to the Philippines. He sent a shipment by the transport Sherman last Friday.

FIRST PROCEEDING UNDER TORRENS ACT

MRS. IDA B. CASTLE, WIFE OF W. R. CASTLE, FILES THE FIRST PETITION IN THE LAND REGISTRATION COURT ASKING CONFIRMATION OF TITLE TO THE FAMILY HOMESTEAD.

The first application to Judge Weaver of the new land court for a title under the Torrens act is that of Mrs. Ida B. Castle, whose petition is now on file with Registrar Savidge. It has been referred to E. A. Mott-Smith as examiner of titles and on his report being made it will be advertised and a day set for hearing, after which, if the proper proof is made, a clear title, which cannot be attacked, will be issued by the judge, shutting out all other claims. The first petition is in form as follows:

"To the Honorable Philip L. Weaver, Judge of the Court of Land Registration:

"I the undersigned, hereby apply to have the land hereinafter described brought under the operation and provisions of Chapter 56 of the Session Laws of 1903, and to have my title therein registered and confirmed. And I declare:

"That I, the below mentioned Ida B. Castle, am the owner in fee-simple of a certain parcel of land with the buildings thereon, situate in Honolulu, Island of Oahu in the County of Oahu and the Territory of Hawaii and particularly described as follows:

Here follows a description of the property, showing it to be 152,000 square feet, at Lunaliilo and Victoria streets, assessed at \$50,000. Containing the petition sets forth as follows:

"That I obtained title by deed from Mary Clench dated October 27, 1900 and recorded in the Office of the Registrar of Conveyances of Honolulu Book 217, page 84.

"That said land is now occupied by myself and family as a homestead, post office address box 154, Honolulu.

"That the names in full and addresses so far as known to me of the occupants of all lands adjoining said land as follows: Sarah McKeague, Honolulu, John Farmsworth, Honolulu, S. N. Castle estate limited and the Hawaiian government as owner of Lunaliilo, Victoria and Kinau streets.

"That I was married to William R. Castle by Dr. Bartlett at Pittsfield, Mass., in 1875, but have always since then resided in Honolulu.

"That my full name, residence and post office address are as follows: Ida Beatrice Castle, 1301 Kinau street, P. O. Box 154, Honolulu, Hawaii.

"IDA B. CASTLE."

Contempt Is Now An Infamous Crime

JUDGE GEAR'S WA SIN DECISION HAS AN EXTRAORDINARY EFFECT—THE COURT HELD TO BE POWERLESS UNDER THE STATUTES OF HAWAII TO SUMMARILY PUNISH THOSE IN CONTEMPT.

The Kamuela jury complaints and the question of contempt growing out of it has served to draw attention to an extraordinary predicament in which the circuit court stands since Judge Gear gave his decision in the Wa Sin case. It appears that under that decision contempt of court is an infamous crime and if this is the case, the lawyers say, the court cannot move under the decision without the aid of a grand jury. The court has thus lost its natural power to summarily punish for contempt and can't enforce order in its own presence.

Section 576 of the penal code of Hawaii says that when any fine imposed by a court is not paid, the person failing to pay it shall be confined, at hard labor or otherwise, in Oahu jail. Judge Gear's Wa Sin decision was to the effect that any offense for which there might be imprisonment, with or without hard labor, in Oahu jail was an infamous crime; also that no such crime could be charged without a grand jury indictment. The punishment provided in the statute for contempt is fine or imprisonment, hence it is held that contempt clearly falls within the judge's definition of an infamous crime.

"A person might go into the court and insult the judge all he

BROKE THE DEWEY'S MAST.

While cruising about Pearl Harbor yesterday, the yacht La Paloma collided with the yacht Dewey, and broke off the Dewey's mast. The Dewey's rail and house were considerably damaged. The Dewey's mast fell over the side of the yacht and did not injure anyone on the other craft. No one was on board the Dewey at the time of the accident as she was lying at her usual moorings. The exact cause of the collision does not appear. The La Paloma is said to be quite unwieldy in going on to the wind and when Commodore Macfarlane tried to bring her into the wind yesterday she did not

respond quickly to her helm and crashed into the other boat.

A DISTANT VOLCANO.

Nothing can show better than the present uncertainty about the location of the present volcanic outbreak on Hawaii, how distant it is not only from Honolulu, but even from the shores of Hawaii, the island where the outbreak occurs. At the present time though we have some fair knowledge of where the flow is likely to be, we really have no certain knowledge. No one during the past five days has reached the source of the flow, no one is assured in what direction it is going, no one can give an accurate account of it yet. All the knowledge we have is derived from a distance of from forty to fifty miles on land and from eighty to a hundred miles on the sea.

That there is an eruption there is no doubt of. That it is of a very extensive and awe-inspiring character. Allowing for some natural and perhaps unconscious exaggeration there have been columns of liquid lava shot from a mile to a half into the air. But the people on the Island of Hawaii have experienced no ill effects. The ordinary daily work has been conducted as ably and as carefully as ever, cane has been planted, cane has been ground. The Mahukona railroad and the Hilo railroad have made their regular trips. Mokuaweweo or the minor craters of Mauna Loa may be spouting lava, but it causes not a tremor in the heart of any one on the island, and certainly occupies little attention in Honolulu save as a wonderful natural sight which is well worth taking some trouble to examine.

To thoroughly realize how far the eruption is from Honolulu, it must be understood what means of communication there are. In the first place there is a telephone system around Hawaii by which news from any part of the island can be transmitted to any other part. There are a number of steamers at various ports in Hawaii, which bring any news readily and inform the public through the press upon any point of interest. There are two regular steamers which make weekly trips and visit respectively all the principal ports on East or on West Hawaii. The pursers of these steamers land and can hear the very latest details of news. Finally we have a direct wireless system by which messages may come from the Island to Honolulu in the twinkling of an eye. Yet with all these advantages of communication we know only that there is an eruption, and that it is probably heading towards South Kona and Northern Kau. Of details we have none.

Forty or fifty miles from the sea shore to the summit of a mountain does not appear such a very great distance, but when in that space the mountain rises 14,000 feet it becomes quite a journey. The cultivated and the inhabited part of Hawaii is really a strip extending as a ribbon nearly around the whole island varying in width from one to ten miles. At a certain elevation a dense forest commences, and above the forest belt the mountain rises more abruptly, a mere mass of lava flows, covering lava flows, rocky, rugged, bare, without vegetation of any sort, without water, a blistering mountain flank under the mid-day sun, and a dismal, wind swept, chilling scrap by night.

It can readily be understood that no one ventures here for pleasure. Sometimes a curious traveller makes the ascent, sometime a scientist like Dr. Guppy braves the solitudes in the interests of science, otherwise no sound save the rolling rocks, or the sliding sands break the primeval silence of that cold, unfinished dome of creation, until earth's cyclopean workshops belch forth flames, with a crash of heaving rocks and exploding gases, and pandemonium seems to have broken loose, only to again sink into the deep silence of space and eternal solitude.

We hope to have accurate knowledge during the coming week, but the fact that we have not that accurate knowledge shows conclusively how little our volcanic eruptions affect man and his avocations. They are spectacular, they are magnificent, but they are harmless. Neither our lava flows nor our very rare earthquakes have ever cost a life.

IN HASTE TO GET RICH.

The "get-rich-quick" concerns of one class and another are having such a vogue on the mainland, particularly in the east, that a campaign of education against them is seriously considered, and has actually been undertaken. The New York Commercial has begun the publication of a series of articles under the title of "Gold Bricks and Speculation" which are directed at the mental and moral state of the "down easters" which makes it possible for "get-rich-quick" schemes, to flourish. That the campaign of education may have a wider field, the New York Commercial is seeking to enlist its contemporaries in the good work.

The series of articles are written by John Hill, Jr., a member of the Chicago Board of Trade, who was chairman of the committee of the Board of Trade that was appointed about ten years ago to conduct the fight then inaugurated against the bucket shops.

Though there are not wanting in these articles and the announcement of their publication, signs that both the writer and the publisher have a keen commercial motive in the campaign, it is probable that some good will be done, and the articles are exceedingly interesting, and contain a surprising fund of information on the subject, and a fund of surprising facts and conclusions. At the very outset of the first article the author says:

"One Hundred Million Dollars Annually is about the sum that this highly civilized Nation is contributing to the 'Get-Rich-Quick' and Safe-Investment Swindlers."

"Of this vast sum wrung from the thrifty by false pretenses, about \$20,000,000 is spent for newspaper advertising about an equal amount for postage stamps, and vast sums for blackmail, attorney's fees, circulars, booklets, stenographers, clerks, telegraphing and furnishing suites of offices. The swindler is usually a reckless spender and squanders his ill-gotten gains."

Probably more surprising than even the extent of the fraudulent business are some of the generalizations regarding the victims, such as the following: "The sharper having perfected his scheme of robbery and adopted a high-sounding and confidence-inspiring name advertises in the metropolitan and country newspapers. He also procures, if he does not already possess it as the result of a prior and equally villainous scheme) what is known among this class of rascals as a 'sucker list.' That is, a list of persons who have previously been caught by other schemes, or by reason of their opening correspondence with the operators of

earlier schemes have indicated a desire to be caught.

"These lists are interchangeable or purchasable. A possible victim, having written to one of these 'fakers' will be surprised at his rise from obscurity to popularity in the course of a few months, as indicated by his increased mail and numerous offers of golden opportunities for acquiring a steady income or great wealth."

It is one of the aphorisms of a cynical world, that "there is a sucker born every minute." But it would seem from John Hill, Jr.'s investigations that "suckers" haven't the ephemeral character that is so generally assumed from the extreme fecundity with which they are produced, but that though spawned in myriads, many of them attain longevity.

But though "get-rich-quick" is a new term to describe the schemes, being of the same era as Senator Burton's appearance on the stage where big actions are going forward, the thing itself isn't new. One form in which it seems yet to be particularly successful is scarcely varied in the slightest from the old "Fund W" fraud which twenty years ago made a million or two in a few weeks for the two men that were running it, though it landed them both in prison with long terms to serve, which were greatly shortened, for one of them by a pardon from President Arthur, and for the other by the skill and ability of his attorney, Emory A. Storrs.

The instincts which create both the sucker and the operator, is probably as old as the human race. At any rate it is not the creature either of our century or of our nationality. Oliver Goldsmith in "The Vicar of Wakefield" has most entertainingly described the operations of the swindler and the susceptible victim, and has drawn, without suggestion of cant or homiletics, the moral of it all.

Many excellent inventions have been made on these islands for the purpose of improving the methods of extracting the juice of the cane, and of economizing in the mill. This has helped us to have machinery in our mills in advance of other sugar-growing countries. Many of these devices have been patented and are now in general use. The centrifugal was an Hawaiian invention, though few people remember the fact. Albert Horner of Kukui has made a fresh departure and has invented a ratoon plow. This is said to be a most ingenious agricultural device which will save much labor. The white man in the Territory of Hawaii does not deteriorate mentally. Mr. Horner belongs to the second generation of his stock.

which are certainly marvellous. It was not so long ago that an American horseman who had studied the horse had bred the horse, had raced the horse and in fact knew more about the horse than any one in the States, wrote a learned treatise to prove that structurally greater speed could not be got out of the horse, that the limit had been reached. And then along came Lou Dillon and brought down the trotting record to 2 minutes flat, and on Saturday she lowered the trotting wagon record from 2:05½ to 2:01½ a gain of 2½ seconds. This is simply phenomenal, for records are lowered usually by fractions of seconds, but a record which suddenly goes down to 2:01½ is something almost unheard of. Even clever horsemen will hesitate now as to what the limit of speed in horses shall be.

A great success was made at the flag raising by the Young Republicans. District Attorney Breckons made one of his happy speeches in which humor and good sense were pleasantly commingled. The other speakers made excellent points.

Floods on the Atlantic seaboard continue, and though few lives have been lost there has been an enormous destruction of property. The losses will amount to many millions, and coming at this season of the year will entail very great hardship. Again may the Territory of Hawaii congratulate itself on its freedom from climatic change and the destructive forces of nature. Our natural phenomena are picturesque and not destructive.

The Socialists of Europe are keeping their end up. They have frightened the Czar from visiting Rome. They have had a grand demonstration in Berlin, they keep France on the jump and they have been having quite a pleasant little row in Madrid. If that is not Socialistic success one would like to know what is.

In considering the information about Japan and Russia one must consider the source from which the telegrams emanate. Cheefoo is a long distance from Korea and news from there is largely if not entirely guess work. Japanese news from Tokyo and Yokohama, is of course reliable. News of the intention of France or England emanating from St. Petersburg or Berlin is in nine cases out of ten unauthentic. News from Russia is not to be believed under any circumstances. It is made up by the press censor to suit

Jury politics add neither dignity to the court in which they are permitted, or the law which the judge represents.

The Russo-Japanese question is approaching an acute stage. But then it has been so before, and nothing came of it. Japan is in better fighting trim than she has been all the year. A

careless shot, a sailor's row, might precipitate a naval battle, and all the fat would be in the fire. It was an unintentional shot that precipitated the battle of Navarino.

France and England may desire to keep peace in Manchuria if possible, but once let the dogs of war get loose and it will be impossible to keep out of the row. One can never tell how far such a war will spread, it will be next to impossible to localize it.

A stranger who had missed the electric cars and blundered into a tram remarked yesterday: "Honolulu is rather behind the times." It was pointed out that Honolulu was somewhat of a progressive city. "Well," was the answer, "I judged from this tram." The quicker the Rapid Transit gets rid of its Nuuanu street tram line the better will it be for the credit of the city.

The post office scandal will soon be before the courts. Six prominent officials were indicted by the grand jury yesterday adding to the list already published. There will be a set of the most striking and dramatic trials which have ever been held. Where the record of corruption will stop it is difficult to predicate.

WILL NOT STAND FOR ANY PERJURY

LOCAL IMMIGRATION OFFICIALS DETERMINED TO ENFORCE NEW LAWS REGARDING JAPS AND OTHERS TESTIFYING FALSELY.

The local United States immigration authorities are determined that the Japanese shall understand that any immigrants arriving at this port, detected in the act of committing perjury, will be prosecuted. The laws are very strict on this subject and the authorities propose to enforce the provisions of the statutes covering this offense. The statistics are of recent enactment and their full import is scarcely appreciated by the Japanese and others.

Last week a Japanese named Kinzo Ueda was arrested to answer to a charge of perjury. A Japanese woman named Yoki Nakagawa was detained at this port by the authorities. Her husband did not appear to claim her. There was an excellent reason for his absence as he and the wife had separated. Kinzo thought he would be able to get the woman landed, and so it is claimed, he is alleged to have gone to the immigration station and impersonated the husband. The authorities cornered the man in his testimony and soon became satisfied that he was not telling the truth. The man returned to the station Saturday and wanted to have his former sworn statement straightened out, but a warrant for his arrest had already been sworn to, so he was taken into custody. The woman is to be deported Wednesday by the S. S. Doric.

choose," said an attorney, "and I don't see what the judge could do, under the Wa Sin decision. As soon as the judge found him guilty of contempt he would be in danger of imprisonment at hard labor in Oahu jail. Judge Gear held that it was not the actual sentence that governed the matter, but that if the law simply left it possible that there might be imprisonment, the offense was in the infamous crime category."

LUDWIG LIKES MOOSIC.

But if the United States stands first in the circulation of letters and post cards, it does not stand first in the number of telegraphic messages transmitted. According to the latest statistics Germany had 24,471 telegraph offices and 36,000 instruments, the United States 22,954 and 81,000 instruments, while Great Britain had 41,512 telegraphic offices and 38,000 instruments. The number of messages transmitted was: Great Britain 92,000,000, United States 63,000,000, Germany 46,000,000. This is curious in as much as the general idea is that the people of the United States make use of the most rapid means of communication. Of course the telephone may have some bearing upon telegraphic communication, but upon this statistics are lacking.

WHISTLER'S SARCASM.

Whistler, the artist, had one time quite a tilt with Tom Taylor, the art critic of the London Times, who had made strenuous objection to a quotation by the artist from his article on Velasquez, Taylor declaring that the quotation standing alone as Whistler used it gave just the contrary impression to that which it conveyed when read with the context. "Why squabble?" wrote Whistler in reply. "You did print what I quote, you know, Tom; and it is surely unimportant what more you have written about the master. That you should have written anything at all is your crime. Leave vengeance to the Lord, who will forgive by garbling Tom Taylor's writing." Frederick Wedmore, a critic, complained as Taylor had done that Whistler had treated him unfairly in a quotation from his writings. Whistler had substituted, he said, "understand" for "understate." "My carelessness is culpable," wrote Whistler. "The misprint is without excuse. I have all along known that with Mr. Wedmore, as with his brethren, it is always a matter of understating and not at all of understanding." When Taylor died Whistler remarked to a friend: "I have hardly a warm personal enemy left."

FINANCES OF THE COUNTRY

UNITED STATES TREASURER ROBERTS MAKES HIS ANNUAL REPORTS TO SECRETARY SHAW.

WASHINGTON, Sept. 30.—Ellis H. Roberts, Treasurer of the United States, has submitted his report to Secretary Shaw on the condition of the Treasury on June 9, 1903, and its operations during the past fiscal year. The total net revenues for the year were \$50,396,673, an increase of \$38,988,459 over the year preceding, and the total expenditures \$50,000,000, an increase of \$35,781,034. The surplus was \$4,297,667, as compared with \$1,287,375 in 1902.

In the receipts there was an increase of more than \$30,000,000 from customs and a falling off of over \$41,000,000 from internal revenue, the latter being the result of legislation enacted with that object. On the side of expenditures there was an increase in every important account except pensions and interest, in which there were slight savings. The expenditures for the two military expeditions which together amounted to \$11,227,554, forming by far the largest outlay for any single purpose, were more than \$21,000,000 greater than the year before.

The aggregate income, including, besides the revenues, the receipts from bonds, notes and coin certificates, was \$1,211,394,097, and the average outgo \$1,122,647,665. At the close of the year the Treasury held \$93,068,569 of gold and silver on deposit against outstanding certificates and Treasury notes, besides the \$150,000,000 in gold which forms the reserve against United States notes.

Treasurer Roberts places the monetary stock of the country on June 30, 1903, including gold and silver, United States notes, Treasury notes and national bank notes, but not certificates, at \$2,688,149,621, an increase of \$124,882,963 for the year. The increase in gold was \$90,137,401 and in national bank notes \$56,998,559.

The total estimated stock of gold was \$1,252,731,990, constituting nearly 47 per cent of the whole. The gold in the treasury amounted to \$631,420,789, a gain of \$71,220,480 in twelve months. During the year \$126,715,723 in gold was deposited at the mints and assay offices. Of the receipts from customs at the port of New York, constituting 67 per cent of the whole, 88 per cent were in gold. The proportion of gold at other ports is about 80 per cent. The imports of gold were \$44,082,992, and the exports \$47,990,595. The increase of the money in circulation during the year was \$121,740,252, of which \$59,776,462 was in gold and gold certificates, and \$61,963,790 in national bank notes. The share of money for each person increased 89 cents, and proportion of gold to the whole rose to 42 per cent the highest ratio ever recorded.

There has been a continued increase in the proportions of paper currency of the denominations of \$10 and under in circulation, but the growth hardly keeps pace with the demand. The supply can be increased if Congress will authorize the issue of gold certificates for \$10 and remove the restriction on the issue of \$5 notes by national banks. To meet the constant pressure requires strenuous effort in the preparation of the currency issue.

The national bank notes presented for redemption during the year amounted to \$196,429,621, or 51 per cent of the average outstanding. Of the \$5 notes the redemptions were 55 per cent of the \$10, 46 per cent of the \$20, 49 per cent of the \$50, 61 per cent, and of the \$100, 73 per cent. These figures show that the \$10 and \$20 notes remain in circulation longest.

SLASHED WITH A KNIFE.

Uyamoto appeared at the office of the deputy High Sheriff this morning to secure a warrant for the arrest of Kodoma, another Jap. The latter was charged with cutting Uyamoto on the right side of the face with a knife. The assault occurred during a row between the men in a Japanese lodging

house last night. Kodoma is still at large, as he decamped immediately after the other man was cut in the face.

ALOHA WAS BECALMED.

The schooner Aloha which sailed Friday for Hilo was becalmed off the island up to yesterday.

HURRICANE FORECASTS.

The experience of the United States weather bureau in detecting and following the three tropical storms which have visited this country within the last few weeks shows that its facilities are not all that could be wished. Concerning the first of these it was impossible to obtain definite information for three or four days after it passed over Jamaica. The next one, reported from the Bahamas in time to warn Florida, was lost to view for a day when it had entered the Gulf of Mexico. The third cyclone came as a surprise. It passed near no island or continental station where observation was possible until last Tuesday evening, when it gave hints of its existence off Hatteras. Suspicion was thus excited by a wind velocity of thirty-eight miles an hour, but even then there were two excellent reasons for exercising caution in the form of the warnings issued. Only a month before the bureau had been undeservedly but sharply criticized for its premonitions of a different storm. Again, the path usually followed by hurricanes that are already at sea when off Hatteras is northeastward, not northwestward. Nevertheless, the fuller powers of this destroyer had been obtainable at Washington the center would have been the galilee.—New York Tribune.

"BREAK UP THE GANGS."

Complaints are made in this as well as in other cities that gangs of young ruffians are causing trouble, and that they not only insult and threaten people, but that they are responsible for most of the minor robberies that occur. The mob which is the gang grown larger, can usually be handled, and the mob at its very worst is not responsible for a tithe of the loss that is caused by the gang. Mobs have caused hangings and burnings, and the sum-total of these murders and the subsequent violence against property, is considerable. But in New York alone there is not a week that passes without death occurring from the fights in which the gangs delight. New York is but one city, and all other cities fall in line in proportion to their size. The gang is the breeding place of the criminal. Young men who are too cowardly to act alone do not hesitate to act in concert with other youths of like viciousness and like cowardice. The result is an appalling list of crimes ranging from insult and assault to burglary and murder. There is in Worcester the nucleus of gangs that would go as far as any in the large cities. Usually these gangs are the primary school of tramps and criminals produced here. It is safe for the police to act on the presumption that the gang intends no good, and the police should consider it their duty to break up the gangs. It is only in this way that the city can be assured of safety.—Worcester Telegram.

BACILLUS OF HYDROPHOBIA.

Dr. A. Negri at Pavi, announced last March the discovery of the specific microorganism of hydrophobia. He now states that he has examined more than 100 dogs with natural or laboratory hydrophobia and has never failed to find the specific microorganism in the nerve centers. On the other hand he has never found it in other dogs.

A WONDERFUL BRIDGE.

Work on the Washab bridge across the Monongahela river at Pittsburgh is being rushed in order to complete the structure by November. The bridge designed to carry the heaviest trains on double tracks, will have when completed the longest truss span (812 feet between pier centers) in America, and the third largest in the world.

THE STEAMER WAIALEALE WILL NOT MAKE HER USUAL RUN TO MAUI PORTS THIS WEEK.

A change has been made in the inter-island steamer schedule for this week. The steamer Waialeale will be taken off her Maui run and will be sent to Anahola instead, this afternoon at 5 o'clock. Her Maui run will be taken by the steamer Noeau which sails at 5 o'clock tonight. The Noeau will not, however, touch at all of the ports usually made by the Waialeale. After making some of the Maui ports, the Noeau will continue to Honokaa and Kukuhaele.

The steamer Nihaui will sail at 3 p. m. today for Waimea and Kekaha with a load of coal. The steamers Mauna Loa and Kilaui will depart tomorrow at noon on their regular sailing dates for Maui and Hawaii ports. A number of people have booked on them for Hawaii, for the purpose of viewing the outbreak of the volcano of Mauna Loa.

Captain Nataka will take his vacation this month. He will not take the steamer Lehua out on her weekly run to windward Molokai ports, Captain W. Bennett, late of the steamer J. A. Cummins, will take out the Lehua during the absence of the regular master. Aita, a Japanese deserter from the British bark West York was captured yesterday by Captain of Police Flint.

The schooners Kawailani and Lady arrived shortly after midnight last night with partial cargoes of rice. They are expected to get away tomorrow for Koolau ports. The schooner Ada is discharging a cargo of fire wood at the Fish Market wharf. She is scheduled to return to Puuloa this afternoon after another cargo of wood. The vessel is being operated regularly between Honolulu and Puuloa bringing firewood to this place.

The steamer Maui towed the bark W. B. Flint to sea from Kahului last Saturday. The Flint is bound for San Francisco with a partial load of scrap iron.

The bark James Nesmith is taking ballast today at the Spurgeon wharf. She will sail tomorrow or the following day for Puget Sound.

The bark Abby Palmer finished discharging coal at the Quarantine wharf. She will sail probably tomorrow for Puget Sound in ballast.

TRIED TO DROWN CHINESE MUSIC

SENTELETTE OF NATIVES MAKE UNSUCCESSFUL ATTEMPT TO OUTNOISE CELESTIAL MUSIC.

There were eighteen cases of intoxication in the police court calendar this morning. Judge Lindsay gave all but five a sentence of 15 and costs each. Three of those who escaped the fine, received mild and but proper rebukes from his honor. The three defendants so favored were women. They had been arrested in a raid in the case of the Chinese theater last night. It appears that their husbands were making night hideous, evidently endeavoring with sledge hammers to drown the music from the Chinese orchestra. The sextette of defendants said they would go and sing no more. Two of the other drunkards had bail.

Seven boys were rounded up last night by the police. The youngsters were caught playing on a lambe yard on the water front. Judge Lindsay lectured them and discharged the bunch. Nanea Hookano escaped prosecution this morning in the police court, after being arraigned many times. The defendant knocked her husband in the eye with a broom stick some weeks ago. Since the assault he had been too ill until this morning, to appear against her. When he came into court he refused to testify against his wife, so the woman was discharged.

PHILIPPINE TRADE

The commerce of the Philippine Islands continues to increase, not-
withstanding the adverse agricultural conditions that have prevailed
during the past year. This fact is demonstrated by the trade figures
for ten months ending April 30, 1903, received by the Insular Bureau
of the War Department.

In the month of April, 1903, the total value of imports and exports
of merchandise was \$6,733,778, as against \$3,845,673 in 1902 and \$3,-
867,362 in 1901. For ten months ending April 30, 1903, the trade
amounted to \$53,703,263, while for the corresponding period of 1902
the amount was \$46,145,891, and in 1901 it was \$44,199,558.

The great bulk of this gain has been due to an increase in exports,
shipments from the islands for the month of April 1903, approximating
nearly \$4,000,000, made up, for the most part, of heavy cargoes of
hemp; in fact the largest monthly output since American occupation,
and from present indications the figures for the fiscal year ending June
30, 1903, will show a balance of trade in favor of the islands, a position
they have not occupied for the last seven years, or from the date of the
insurrection against Spain in 1896.

The volume of trade at the present time is larger than in any previ-
ous year, regardless of the interruption to business by reason of quar-
antine restrictions, as a result of cholera, heavy losses owing to the de-
struction of crops by locusts, and an almost total annihilation of farm
cattle, due to the ravages of riderpest, all of which, naturally, had a
depressing effect.

The distribution of exports for the ten months ending April 30, dur-
ing the last three years, according to the principal agricultural prod-
ucts, is shown as follows:

	1901.	1902.	1903.
Hemp	\$11,404,261	\$12,698,355	\$17,506,220
Sugar	1,967,324	2,068,645	2,942,014
Tobacco	1,954,299	2,194,565	1,646,607
Copra	2,382,900	782,102	3,696,186
Sundries	1,325,385	1,623,815	908,845

Totals \$19,034,169 \$19,367,482 \$26,699,872

The most noticeable increase in value is found under hemp and
copra, the trade in both of these articles having made exceptionally
large gains during the past year. Of the hemp produced and credited
to exportation in 1903 the United States easily ranks as the principal
buyer, receiving nearly \$10,000,000 worth, or 57 per centum of the
total, as against 18 per centum of the shipments in 1901.

Although more than two-thirds of the Philippine exports consist of
hemp, it may prove of interest to note the comparative value of United
States trade in the leading commodities as enumerated above. The
exports to the United States were as follows:

	1901.	1902.	1903.
Hemp	\$2,106,630	\$5,129,974	\$9,911,549
Sugar	93,472	293,354	921,150
Tobacco	5,027	8,317	46,070
Copra	4,450	7	9,358
Other articles	62,712	117,062	124,938

Totals \$2,272,291 \$5,548,714 \$11,012,765

With regard to imports into the islands, while their value for the ten
months of 1903 does not show so large a gain as might have been ex-
pected under more favorable conditions, nevertheless an average
monthly trade of nearly \$2,750,000 has been maintained, this being
somewhat in excess of the showing for the year previous. The impor-
tation of rice is still heavy, and will in all probability continue so for
some time, though it is hoped that the home production, which is be-
ing stimulated, will tend to greatly reduce the purchases from abroad.

Aside from rice imports, which reached nearly \$7,500,000 worth in
1903, the United States is supplying over one-sixth of the trade in
other commodities, steady increase being made in such lines as wheat
flour, practically the total importation coming from this country, can-
ned salmon, meat products, illuminating oils, machinery of different
kinds, paper, cotton goods and leather manufactures, principally boots
and shoes, the figures showing a constant and growing demand for the
American make of shoe.

GOOD NEWS FOR ELLIS LANDO.

WASHINGTON, D. C., Sept. 25.—Hazing at Annapolis was one of
the subjects discussed at the Navy Department today between Sec-
retary Moody and Captain Willard H. Brownson, superintendent of the
naval academy. Since returning from his vacation Captain Brownson
has carried out a thoroughly investigation of affairs at the academy,
and today reported to the Secretary that no hazing existed at Annapo-
lis. There are not more than twenty upper-class men at the institution.
As soon as the midshipmen return from their holiday, the superintend-
ent will renew the vigorous policy against hazing which proved ef-
fective last year. Secretary Moody recently said to Captain Brownson:
"If hazing exists at Annapolis, stop it, and the Navy Department
will back you."

LET THEM ALL COME.

Mr. Sargent, United States Commissioner of Immigration, is made
nervous by the number of people coming over here to grow up with the
country. In the last three years nearly two millions have landed, and
Mr. Sargent is sure that a round million will come in the fiscal year
June 30, 1903, to June 30, 1904. Well, what of it. Let them come!
The wretched "foreigners" were going to run the country more than
fifty years ago. So many good people thought. Are the sons and
grandsons of those immigrants going to shut the door in the face of
these later comers? Oh, but these are different. These are not Ger-
mans or Irish or Scandinavians, but "low-down" Italians, Huns, Slavs,
Russian and Roumanian Jews. These will never do. They can never
"assimilate with our people."

All this simply because we don't yet know the newcomers. Fifty
years ago some persons who regarded themselves as particularly "good
Americans" ignorantly hated the "ignorant Irish." They didn't know
"the Irish," that's all. Wait a generation or two, and these dreaded im-
migrants of 1903 may be highly respectable, conservative citizens full
of apprehensions about the immigration of the Persians or the Abyssinians.—Everybody's Magazine for October.

FIND EVIDENCES OF A PIRATE'S CACHE.

AUSTIN, Texas, Sept. 18.—Martin Ledder, who has been a mem-
ber of the United States dredgeboat crew employed in deepening the
channel in Galveston bay, is visiting here, and tells an interesting story
of the discovery of strong evidences of the treasure hidden by Lafitte
the pirate chief, which he says lies at the bottom of Galveston bay in-
stead of being buried on Galveston island, as has long been supposed.

He says the dredgeboat George Sealy has been pumping up old
Spanish coins and other rare relics of ancient times from the bottom of
the bay for several days past, and the boat crew believes the bulk of the
treasure, which is said to amount to hundreds of thousands of dollars
in gold, will be recovered.

In addition to the coins several hundred pounds of copper bolts
have been pumped up from the same locality. These bolts were used
in the construction of ancient seagoing craft. The latest date on the
coins is 1812. Huge stones have also been encountered in the bottom
of the bay, and it is thought they were placed there by Lafitte to mark
the location of the sunken treasure. A rusty shell of ancient type has
been recovered in the same manner. Lafitte and his crew of pirates
lived on Galveston island from 1816 until 1825.

TWO MEETINGS
OF REPUBLICANS

SATURDAY NIGHT WAS A
GREAT ONE FOR THE PARTY
CAMPAIGNERS.

A large crowd gathered at the cor-
ner of Bethel and Hotel streets on
Saturday night at the rally and banner
raising of the Young Men's Republican
club. The banner was raised across
Hotel street from Waverley hall, amid
the glare of red fire, rockets, Roman
candles and the rivalry in music of
the Portuguese band, the Salvation
Army and a quintette club in a near-
by saloon.

President Lorin Andrews introduced
J. A. Gilman as the first speaker, re-
marking that the supervisors should
be business men. Gilman was greeted
with applause. It was his first
speech as a candidate. He spoke of
the responsibilities of county adminis-
tration and asked for the support of
the whole Republican ticket, declaring
that it contained the names of the
most competent men.

United States District Attorney R.
W. Breckons was the next speaker. In
the course of his address he said that
Congress and the people of the states
generally were watching the experi-
ment of self-government here and ask-
ing if the people of the islands are
equal to the task. Congress had given
the islands free suffrage and was able
to take it away if the experiment was
a failure.

Clem Quinn spoke next, referring to
the failure of the Home Rulers to pass
a county bill in the first Territorial
legislature. United States Commis-
sioner Douthitt followed. He said that
the campaign was a most important one
and should be fought out on solid de-
mocratic principles, without any thought
of race prejudice. James Holt spoke in
Hawaiian and Frank Andrade in both
Hawaiian and English. John D. Will-
ard and Representative Gandall of
Kauai were the last speakers.

At Ewa the Republicans held an im-
mense meeting. Judge Hookano acted
as chairman and introduced Isaac
Sherwood as the first to address the
meeting which he did in Hawaiian.
George Renton, who was given hearty
applause, followed with a business talk
Harry Murray, Sam Dwight, R. N.
Boyd, Jack Lucas, Archie Meheula, J.
W. Pratt, S. E. Damon, A. M. Brown,
and W. T. Rawlins spoke in the order
named. The crowd returned on the
11:30 train.

THE ANGLO-JAPANESE TREATY.

EDITOR STAR: In this morning's
paper the following cablegram is pub-
lished viz:

BERLIN, Germany, October 12.—It is
believed that France and England
have entered into an understanding
that neither country will interfere in
the event of war. England thus RE-
FUSES TO ASSIST JAPAN, DIS-
REGARDING THE ANGLO-JAPA-
NESE TREATY, and France does not
help her old ally Russia.

The capitals are mine—this implica-
tion of bad faith is unfair to England
and may perhaps be actuated by jeal-
ousy caused by the good understand-
ing now existing between France and
England. If the gentleman who sent
this cable from Berlin had studied this
Anglo Japanese treaty before sending
it he would have learnt that England
only agrees to assist Japan if she is at-
tacked by MORE THAN ONE POW-
ER.

I am, sir,
Yours faithfully,
W. C. SPROULL.

BY AUTHORITY
Proclamation!

WHEREAS, Act 21 of the regular ses-
sion of 1903 of the Legislature of the
Territory of Hawaii provides that an
election shall be held on November 3rd,
A. D. 1903, for the purpose of electing
County officers, and that at least sixty
days prior to the 3rd day of November,
A. D. 1903, the Governor shall issue a
proclamation for such election:

NOW, THEREFORE, in accordance

VERDICT WAS OUTRAGEOUS

JUDGE ROBINSON SETS ASIDE AND CRITICIZES THE AXTEL VERDICT.

"Outrageous and appalling" was the verdict of the jury in the damage case of Axtel against Hendricks, according to Judge Robinson, who this morning set aside the verdict and ordered a new trial. Axtel sued for \$10,000 damages for malicious prosecution and the jury brought in a verdict for \$5,000, said to be about the largest verdict in the law books in a case of that kind.

The motion to set aside the verdict and grant a new trial was argued before Judge Robinson this morning, by Colonel Fitch and C. C. Biting. The latter contended that the court had no right to set aside the judgment of the twelve men who heard the cases, and quoted authorities to the effect that the jurors were the sole judges of the measure of damages. "Conceding that the facts in this case were such as to justify the court in directing a verdict for the plaintiff," said the court in deciding the motion, "still I think it would have been proper for the court to scrutinize the verdict and if it were inadequate or excessive, to set it aside.

"In this case there is absolutely no proof of actual or express malice, with the exception possibly of one statement made by the defendant on the witness stand. I have looked carefully over malicious prosecution cases and am unable to find one with a verdict in amount anything like \$5,000. At the time the verdict was reached it struck me as being not only excessive, but outrageous and appalling. This court will certainly not let it stand. It seems to have been rendered, not through passion or prejudice, but through some misunderstanding or misapprehension in the jury room. Let the motion to set aside the verdict be granted and a new trial be ordered."

Biting asked that the court grant the motion only on terms, specifying an amount at which the plaintiff might accept a verdict, but the judge declined to do so, saying that as the case was one in which a verdict for the defendant would not have been set aside, he would leave it to another jury. He assigned the case to Judge De Bolt for another trial.

GOING TO NEWCASTLE FROM HONOLULU

BRITISH SHIP BRODICK CASTLE CAN NOT GET CHARTER ON PUGET SOUND.

The British ship Brodick Castle has received orders to proceed to Newcastle. This is probably the first time in local shipping history that a vessel has left Honolulu in ballast for Newcastle. Ordinarily Honolulu is a sort of way port to vessels coming from Newcastle. They usually go down to Australia with cargoes of lumber or wheat and then go to Honolulu with coal. From this port, the vessels almost invariably go up to Puget Sound. From the latter port they go back to Australia with charters. No charter evidently is obtainable for the Brodick Castle, so her owners have decided to send her back to Newcastle after another load of coal. She may return to Honolulu with this cargo.

She arrived here August 27 from Newcastle with a cargo of coal. She has been discharged considerably over a month and has been lying idle in the stream waiting orders. Captain Olsen expects to get away tomorrow afternoon.

NEW MATTING NEEDED.

Many kicks are made regarding the condition of the matting in the office of the clerks of the circuit court. It is worn away and has many holes and ragged edges.

NOMINATION PAPERS.

Senator Crabbe on Saturday filed the nomination papers of Isaac Sherwood, S. E. Damon, Harry Hurray, J. W. Pratt, A. M. Brown, R. N. Boyd, J. A. Gilman and Frank Pahlis. Nearly all the Oahu papers are now in.

ESTEE OPENS TERM.

United States Judge Estee opened the October term of the Federal court this morning. Only ten of the 23 Grand Jurors summoned were accepted as jurors and the judge issued a special venire returnable at two o'clock this afternoon for 14 citizens.

SUPREME COURT.

The Supreme Court met this morning and adjourned to next Monday. Adjournments will probably be taken week by week until Justice Perry returns.
