PLATFORM BY AUTHORITY.

Of the Democratic Party of the Territory of Hawaii.

The Democratic Party of the Territory of Hawaii re-affirms the principles of the platform of the party adopted in convention in Honolulu, H. T., October 8, A. D. 1900:

And because the political history of this Territory since that time has shown the peculiar aptness and the wisdom of the position taken by the Democratic party on the issues local to this Territory, we repeat the following:

The Democratic party, as the pronounced and trusted friend of the laboring classes, declares itself to be in favor of an eight-hour labor law, and the giving of all Government work to citizens of the Territory of Hawaii, not, however, to the exclusion of male Hawaiian residents of European nationality who, because of their inability to speak, read and write the English or Hawaiian languages, are denied American citizenship.

We favor the appropriation, by the next Legislature of the Territory of Hawaii, of a liberal pension to the ex-Queen of Hawaii, as a just acknowledgment due her for her great loss.

We favor an appropriation by the Congress of the United States to compensate the ex-Queen in an equitable sum for the deprivation suffered by her of the Crown Lands.

We favor the payment of all proven and just claims resulting from loss by fire incurred through the suppression of the recent epidemic of bubonic plague.

We favor a revision and a modification of all existing license laws.

We favor the enlargement and comprehensive development of all the harbors of this Territory.

AND FURTHER WE DECLARE:

That we favor the immediate enactment by the next Legislature of laws creating out of the Territory of Hawaii, counties, towns and municipalities.

That we protest against the assumption of power and authority arrogated to itself by that creation of Governor Dole known as the Executive Council and declare the same to be absolutely un-American.

That we protest against the employment of Asiatics as laborers or otherwise, either directly or indirectly, by the government, or upon any work or contracts to be done, and paid for, by the Government of the Territory of Hawaii, or any government or board constituted thereunder.

That we oppose all efforts to disfranchise the Hawaiians.

That the powers of the Board of Health be limited and defined by legislative enactment.

On this platform with the ticket already nominated, the Democratic party appeals to the voters of Hawaii.

LATIN VS. ANGLO-SAXON.

Elsewhere in this issue we have taken the liberty of reproducing two editorial articles from the columns of our luminous stellar contemporary, the Star. The first of the two was entitled "Pan-American" and clipped from its issue of Feb. 19th last, and the other was a more recent one, entitled "Americans," taken from its issue of the 7th instant (Tuesday). There is a motive in the reproduction of these stellar articles, for it is very noticeable that a certain change of opinion and of heart has come over its Anglo-Saxon writer.

By comparing these articles, it will be noticed that in the first, the Latin race in the Spanish American countries are hated and despised by the alleged Anglo-Saxon race on the same side of the world. It says that "the average Spanish-American hates, and even despises the Anglo-Saxon and all his works." This may be true to a certain extent, for they may have just cause in having such a feeling towards them, who think that they are the only superior race on the face of the globe and that "they own the whole earth with a fence around it."

Still it goes further and says that "it is the Latin against the Anglo-Saxon. The Anglo-Saxon is burly and blustering and he hates the wily ways of the Latin. The Latin dislikes the bluff manners of the Anglo-Saxon and despises him for his straightforwardness. The Latin would lie as soon as eat, and always does. The true Anglo-Saxon would rather die than lie."

And yet within eight months after making the above abusive tirade against a great race of people, comprising more than one-half of Europe, North and South America combined, and other States scattered over the face of the earth, it has seen fit to change front, and now "the nationalities of the world have gone into the crucible, and they have been melted and transformed into true bred Americans." But in its former article, it said of the two races—"how are two such races going to amalgamate, even in the New World." This amalgamation is shown in its recent article that "one has only to keep one's eyes open and consider the names of one's acquaintance to see how this amalgamation goes on." . . . "and yet, when we come to converse with them,

we find no trace of the ancestry either in speech or in thought. It is all America." . . . "They are polished American gentlemen, who have passed from our common schools to our high schools and later to our universities. They lead in our American methods of business, they are members of our judiciaries and bars, they command our troops and our ships. We find them in every walk of life." Certainly, it cannot be denied. They are still yet foremost in nearly everything.

We think that the Star's former abuse has been sufficiently answered by itself in its later effusion and change of head. At the former time, it abused; but at the present time, the Portuguese in our midst being of the Latin race, it sees a possible chance of winning them over, and may be this has something to do with this change of heart. It is politics now in place of the former abuse, and votes are largely wanted in order to defeat the hated and despised native Polynesian. One article was written from the heart and the other from the head, and that is the difference between them. You see! We hope that our Portuguese fellow citizens will take cognizance and not forget it so soon or think it rather too lightly. They are abused because they are of the Latin race and that they "would lie as soon as eat," but the Anglo-Saxon never, hardly ever for he "would rather die than lie." Pela paha! Rats!

Still further, it recently says that "the process of amalgamation has begun here, it will go rapidly on. We shall not talk of our many nationalities, we shall be pure Americans. The only people who will not amalgamate are the Asiatics. Between them and us is 'a great gulf fixed.'" See what a change has come over it and its views. At one time, votes were not much thought of, but now it is, because they are losing ground through unpopularity and insincerity, for they have been weighed on the scale of public opinion and found to be very much wanting.

Portuguese have got on to the naturalization fever, and many of them have become American citizens and are therefore eligible voters. Remember how you were treated in 1887-89, 1893-95 and since. You are unrecognized and ignored. The Hawaiian people are better friends to you even today after the mean treatment you accorded them, than what the Anglo-Saxons here have been. Bear this in view and in your mind's eyes.

The Independent being a part of the despised Latin race will stay as such and nothing can change it, as it cannot help its being so. And furthermore, we are not ashamed of being a part of that great race, although hated and despised by the Russo-Finnish and Anglo-Saxon connections of our luminous stellar contemporary.

DIG UP AND PAY.

It is not whether Chas. Wilcox, former secretary of the Board of Health, may get his pay, but he should. The Board is not nor is President Sloggett paying it, but the taxpayers of the country by and through the only and proper authority to expend public funds, the Legislature. The Attorney General has given an opinion that Mr. Wilcox's claim for the \$100 voted him by the last Legislature was a legal claim, but Dr. Sloggett is obstreperous like a mule or a donkey who thinks

that he is the whole cheese, even to carrying his personal spite to certain extremity unbounded by any limit. Dig you shall and dig you must, there's no getting out of it, for the Legislature gave and the Board must and shall obey, its President to the contrary notwithstanding, whether he shall indorse the same either for "services faithfully performed" or for "appropriation by the Legislature," it don't matter which, as long as the amount will be paid.

TOPICS OF THE DAY.

Gentlemen of all political creeds, "It don't take long to wait a little while." The day is not far distant when the result will be surely known. Bear in mind that the day of reckoning is nigh and near at hand. Don't forget the above, please. It will soon tell.

It should not be misunderstood that in our article of yesterday referring to Prince Cupid as a thoroughbred that he is such as "a Republican from top to bottom," but rather as "a Hawaiian through and through to the core." Yes, besides being full-blooded, he is also a thoroughbred Hawaiian from way back even before he became a "flop over prince" to the Republican party.

The avidity with which American citizens are being made these days only goes to show that there are many foreigners who want to enjoy the privileges of citizenship. But our Republicans think that these latter day Americans will be eventually enrolled as of that party. Nay, nay, not all of them. Many of them want city and county government and they are in for it. Sure!

And now all the barber shops will run in full on Sundays in the future, so District Magistrate Wilcox decided yesterday in the cases of five Japanese barbers. The police will in the future take a rest so far as barbers are concerned, for the judge has taken the right view of it that if steamers, railroads, tram and trolley cars, hacks, etc., are allowed to do business on the Lord's day, why cannot the others ply their trades and vocations on the self same day. That's right, judge, we are with you.

Our Chamber of Commerce has, by resolution duly adopted yesterday, stamped its confidence in the Board of Health, from the President down. But we very much doubt whether that will even save Dr. Sloggett and the others, for they are doomed. We think that the high handed conduct of the Board deserves censure. The Hawaiians have been the main sufferers and they will bless the day when the present lot will be turned down and out, as they have shown partiality too glaring to be passed by lightly.

So the Chamber of Commerce has seen fit to deny and refute certain charges made lately by Delegate Wilcox before the Senatorial Commission that the Board of Health furnished rotten salmon and shopworn goods to the inmates of the Leper Settlement. We think that this mercantile body has gone out of its way in this matter unless it is playing politics. As far as we personally know, there's more truth than poetry in the asserted accusation. If the present Board of Health is not responsible, other Boards have been, and they are all the same, being alike tarred with the same brush. Remember, gentlemen, we are doing American politics now.

THE LATIN RACE

As Such and as American Citizens.

The Pan-American Congress which has just taken place was for a time quite a feature of the mainland Daily Press. Then it seemed to die down, and for sometime one had heard very little about the Pan-American congress. That it was a failure goes without saying, there never has been a congress of this character which has not been a failure. The only way to make the congress a success is for one country to decide what it wants and impose its wishes unanimitly all the rest. Then you get a unanimity which is very evidently wanting in the Pan-American congress.

The idea of the Pan-American congress was not a bad one. Primarily, probably it was based upon the fact that America, as a continent, should combine against Europe. Though America has derived her civilization from the old world, it is naturally jealous of dictation from the old world, and it is willing to give the old world a set back (to use a colloquialism) if it can.

But the Pan-American congress developed upon entirely different lines. Say what we like, think what we like, dream what we like, the Spanish-Americans hate us. They may be willing as in Cuba, to have us play catspaw to get rid of the Spanish government, but they don't want our form of government in exchange. The average Spanish-American hates, and even despises the Anglo-Saxon and all his works.

The most progressive country of South America, Chile is probably more opposed to the United States than any portion of South America. Of course Chile has been extremely successful, through employing Americans and British in her Army and Navy, she has been able to make a better record than her sister states. It was very noticeable throughout the congress that Chile was intensely antagonistic to the United States, and never failed to score when she could.

Of course every one knows the positions of Chile in South America. She has been phenomenally successful due to Anglo-Saxon development of her mineral wealth. She has been phenomenally successful in her wars, due to Anglo-Saxon or what is the same Anglo-American leaders. Naturally her people begin to feel themselves the leaders of South America, and by a very little effort they include North America as well. One must always keep in mind that it was at Valparaiso that some of the Baltimore sailors were murdered. One may take it as a safe proposition that there is the most intense race hatred against the United States among the bastard races which people South America. One uses the word "bastard" advisedly, for there is hardly a clean lineage from the City of Mexico to Punta Arenas on the dismal coast of Magellan's straits.

Among some of the many subjects came that of scientific degrees. The Spanish-American however was not going to accept a United States degree, not by any means. A medical graduate leaving the United States cannot practice in any part of South America unless he secures a diploma from a Spanish-American college of medicine. Michigan is no good, Harvard is no good, Yale is no good, the Cooper Institute is no good, but a degree from Caracas, or Quito, or Guadalajara, will allow a man to poison his fellow men freely. Just think of the brazen impudence of the half bred Spaniard. Spanish education is at the very lowest ebb, and the education of the South American states is almost beneath that of Spain, and then those people set up a standard which shuts out men of our race, who have more education in their little fingers than a whole province of Spaniards or half or quarter Spaniards.

Look at it how we will, it is evident that the Spanish American hates and distrusts us. We may try to patch up a kind of truce with him, we may spill our blood and pour forth our money as we did in Cuba, but we only reach the same result.

It is the Latin against the Anglo-Saxon. The Anglo-Saxon is burly and blustering and he hates the wily ways of the Latin. The Latin dislikes the bluff manners of the Anglo-Saxon and despises him for his straightforwardness. The Latin would lie as soon as eat, and always does. The true Anglo-Saxon would rather die than lie. How are two such races going to amalgamate, even in the New World. They cannot. They are utterly antagonistic but it is interesting to watch the gradual development.—Star, Feb. 19, 1902.

There have been a great many new citizens made by Judge Estee who will vote at this election, and a considerable number have been made on the other Islands. The bulk of these will vote the Republican ticket. In nothing have the Republican workers done better work than in hunting up those who had not been made citizens, but who had a perfect right to become such. Some men had neglected their voting rights and would have continued to do so had they not had their duty set before them by the party workers.

The Portuguese have taken an interest in the election and quite a number have qualified themselves as voters. This is the great step in amalgamation with the American nation. A man may live for years on American soil, but unless he becomes a citizen and a voter, he remains an outsider to the end of his life. Once he becomes a citizen he is thoroughly absorbed into the nation.

Men who earn their bread on American soil must become Americans or drop behind in the race. When once a man is launched upon the American ways of business and of life, if he is to have influence upon his fellowmen, he must become an American. He can not remain an Englishman, a Frenchman, a Portuguese or a German. He may keep certain characteristics of his nationality, but he must become naturalized, and be an American. His son will lose a large number of his national characteristics, but his grandson will be completely American to the very finger tips.

It is this power of assimilation which makes America the great country that it is. No country upon earth has such assimilative power. The nationalities of the world have gone into the crucible, and they have been melted and transformed into true bred Americans. One has only to keep one's eyes open and consider the names of one's acquaintance to see how this amalgamation goes on. There are German names, French names, Italian names, Spanish names, and yet, when we come to converse with them, we find no trace of the ancestry either in speech or in thought. It is all America. Schoonmaker, Le Blond, Marinetti and Garcia are no representatives of Germany, France, Italy or Spain. They are polished American gentlemen, who have passed from our common schools to our high schools and later to our universities. They lead in our American methods of business, they are members of our judiciaries and bars, they command our troops and our ships. We find them in every walk of life.

The process of amalgamation has begun here, it will go rapidly on. We shall not talk of our many nationalities, we shall be pure Americans. The only people who will not amalgamate are the Asiatics. Between them and us is "a great gulf fixed."—Star Oct. 7, 1902.

A dance is being arranged for tomorrow evening in honor of the officers of the German warship Cormoran to be given at "Rosebank," the delightful Nuuanu valley residence of Mr. and Mrs. F. A. Schaefer.

Circuit Judge Robinson signed an order yesterday declaring that J. A. Magoon is not the guardian of Susan Braash and ordering the payment to her of \$10 per week. Magoon is also required to turn the property over to his supposed ward within thirty days.

The Late Mrs. Hus'ace.

As announced, the funeral of the late Mrs. Chas. Hustace took place yesterday afternoon, at 4 o'clock, from the family residence, the interment being in Nuanu cemetery. A large number of old-time friends were present, some of them bringing many beautiful floral tributes and laid them upon the casket.

Mrs. Hustace was one of the oldest residents of the islands. She was born sixty-two years ago at New London, Connecticut. With the other members of her family she came to Hawaii in December, 1859, the ship being one of the old sailers, and the voyage around the Horn to San Francisco, whence they sailed for Lahaina, where her father, the late B. F. Bolles, was in business. In the party was Mr. Hustace, who was engaged to be married to Miss Bolles, the ceremony following the arrival of the company at Lahaina. For many years the family resided at Lahaina, all of the children being born there. Later they removed to this city and since that time both Mr. Bolles and Mr. Hustace have been in business here continuously.

Mrs. Hustace is survived by her husband, two sons and a daughter, and three sisters, Mrs. Loveland, of Seattle, Mrs. Paty and Miss Lily Bolles of this city.

For nearly two score years Mrs. Hustace was a sufferer from asthma. Through all that time she was cheerful and her life was of that type that gave cheeriness and brightness to all with whom she came in contact.

With Mrs. Hustace, at her demise, were Mr. Hustace, her youngest son, Charles Hustace, Jr., and her daughter, Miss Annie Hustace, the eldest son, Frank Hustace, being on the mainland on a business and pleasure trip. These with the attendants alone formed the circle, as the end came so quickly that none of the friends could be summoned.

Mrs. Hustace has been a sufferer for more than a quarter of a century, but it was only on last Thursday that she was taken with the illness which ended her life. At that time she contracted a cold and this developed a fever which seemed to settle upon her and she began showing signs of sinking. It was not until about an hour before her death however that the family gathered about her bedside felt that a fatal termination would result and for the last hour of her life husband and children waited for the end to come, which eventually came as already recorded.

Death of Mrs. McBryde.

The late Mrs. McBryde, whose death occurred on Monday evening, was the daughter of the late Robert R. Hind of Kohala, and was born at Hawi. She was married July 27, 1900. A daughter was born to her September 28, 1902. Besides her husband and child, her mother, a sister and four brothers survive her. Her mother and sister are in San Francisco. Her brother, George Hind of San Francisco, is supposed to be on his way here now by the Alameda. Her brothers John, Robert and James Hind of Kohala, were notified by wireless telegraphy of their sister's illness and they arrived in the city Tuesday by the Mauna Loa, and they accompanied the remains back to Kohala.

Funeral services were held at 1 o'clock Tuesday afternoon at her late residence, the Rev. Canon Mackintosh officiating. The body was conveyed from the residence to the Claudine, E. D. Tenney, F. B. Damon, Clarence Cooke, Frank Atherton, George Fuller and John Waterhouse being the pall bearers. The body will be sent ashore at Mahukona and will be taken thence to Kohala and interred on the old Hind homestead.

Salutes were fired from the Naval Station battery this afternoon upon the arrival of the transport Thomas with General Miles.

New Divorce Suits.

Divorce suits seem to be all the go nowadays among our people. Suits of this kind are of common occurrence.

Suit for separate maintenance was filed yesterday by Elnor G. Dole vs. E. P. Dole by Humphrey, Thompson and Watson. The plaintiff alleges desertion and non-support and asks for temporary alimony of \$200 per month, the husband being the Attorney General, receiving a salary of \$4500 a year and is perfectly able to pay. The preliminary hearing is set for next Tuesday before Judge Gear.

Suit for divorce was filed yesterday by Augusta Russell against Hugh Russell alleging desertion and non-support. Plaintiff says she was married to her husband in Hilo on the 19th day of February this year and that she lived with her husband only about two weeks or up to March 5th, 1902. Mrs. Russell alleges "that the libelle is a person of very indolent and shiftless habit, and utterly adverse to doing any labor or following any business whatever to earn a livelihood."

Many people were being registered today, most of them being the recently made American citizens.

No signs yet of the body of the drowned young man, James Lucas. The mother was much broken up when she got back and is quite prostrated.

The Standard Telephone Co. has at last been organized by the election of its officers at a meeting held yesterday in the office of Judge Whiting in the Judd building.

Joe Kama, of Kakaako, was fined by Judge White yesterday to pay a fine of \$200 for selling beer without a license. The case has been appealed to the next term of the Circuit Court.

Our local hackmen will soon form a Hackmen's Union for the purpose of having laws framed to be presented to the next Legislature. Orientals will not be admitted to membership.

The steamer Tampico, of the Globe Navigation Co., arrived yesterday afternoon from Puget Sound. She was loaded as deep as she could be loaded and had to leave about 1500 tons of cargo behind, because she was unable to carry any much more. Made a slow passage down from Seattle, although she encountered fair weather all the way.

The Mirror on the Senatorial Commission.

Uncle Sam to Members of the
Senatorial Commission—Find out
all about the Territory of Hawaii
and for once let me have the
honest truth about conditions
down there.

Judge Humphreys to Commis-
sion—I think I may say, without
fear of contradiction, that I have
curbed the Dole faction pretty
successfully. They are afraid of
me and, in vulgar parlance, I
"ducked my nut" in time. Etc.,
etc., etc.

So and So to Commission—Etc.,
etc., etc.

Commission departs with volum-
inous notes and days of the pret-
ty typewriter's time.

Uncle Sam to Governor Dole
and Secretary Cooper—Allow me
to thank you for what you've done
for Hawaii. You may now call it
off. Good-bye.

Governor Dole to Uncle Sam—
Please give me another chance;
this is so sudden.

Secretary Cooper to Uncle Sam
—I seem to be playing in rather
hard luck just now. Long have I
sucked the Government's tit, but
now I will bid me to Manoa Val-
ley, as a feeling steals over me
that I am better acquainted with
waterpipes than politics.

Promotions in Co. "A."

The following order was posted
at National Guard headquarters
Tuesday:

HONOLULU, HAWAII, Oct. 6th, 1902.
General Orders No. 40.

Upon the recommendation of the
company commander the following
promotions are hereby announced
in Company "A," 1st Regiment, N
G H, with rank from October 4th,
1902.

Sergeant Paul Moldenhauer to be
First Sergeant.

Corporal H Harbarth to be Ser-
geant.

They will be obeyed and respect-
ed accordingly.

By order of Col Jones.
(Signed) JOHN SCHAEFER,
Captain and Adjutant.

The First Local Mint.

One of the institutions here
which has the special attention of
tourists as well as the local people
is the Mint, which is established on
Nuuanu street, opposite Queen
Emma Hall. It is interesting to
enter the large main working room
where general manager McDonough
and his corps of assistants are at
work. The cool and large lanai is a
proper resting place and the vaults,
where the "bars" to be minted and
beer are kept present a very tasty
spectacle. The Mint is open from
5:30 a. m. to 11:30 p. m. and during
those hours the work never ceases.
Visitors after looking over the place
will find first class refreshments and
the purest of liquors.
