JUDGE HUMPHREYS GETS MORE TIME

To Develop a New Idea That Had Occurred To Him.

OPPOSITION NOT EXPECTED FROM ATTORNEY GENERAL

ARGUMENT OF SCHEME TO OBTAIN COURT FUNDS TO OCCUR THIS AFTERNOON BEFORE SUPREME COURT.

"The Court" was announced by the Supreme Justice at 10 o'clock, and then entered Justice A. Perry, W. O. Smith and J. T. De Bolt and took their seats on the bench. The presiding judge handed his associates each a printed court blank of some kind and then the trio awaited business.

Judge Humphreys, who had taken a seat in front of the members of the bar assembled, was first to break silence. He said an idea had occurred to him within the past 24 hours, which he desired time to develop. He would request that their Honors adjourn until 2 o'clock this afternoon. The Attorney General was agreeable to the motion and had informed the speaker that he would present his side of the issue in a few minutes. For himself he would not want more than half an hour.

Attorney General Dole was agreeable but wanted the hour a quarter after two. Mr. Smith, however, preferred the earlier hour as he had an engagement for 3 o'clock. The Attorney General, however, begged for the quarter, saying the proceedings were unlikely to take more than the time stated by Judge Humphreys. And the court capitulated, making the hour 2:15.

Judge Humphreys appears in person for the scheme initiated at the conference of the three judges with the Governor, which involves declaring the Bailiff Act to carry appropriations for the pay of bailiffs, where it fixes the rates of pay and directs the Auditor to issue warrants for payment, so that the appropriation for civil and criminal expenses may be credited with the amount already paid to bailiffs. This, as already published, would give the courts \$4500 for general expenses before the Legislature passes new appropriations.

All appearances are that the Attorney General, who appears for the Auditor, will make but a passive reply to Judge Humphreys, leaving the question for the court to decide.

It is usual, though, on submissions of public questions to the Supreme Court for a general invitation to be given to members of the bar for an ex-

pression of view. Should this course be followed, there may be strenuous opposition to the scheme as being irregular and a bad precedent, for such a view is strongly held on the outside. The jurisdiction of the court as constituted is liable to be challenged, while authorities among the highest hold that the Bailiff Act is not in any manner an appropriation measure.

Besides those already named, there were present at the opening session Deputy and Assistant Attorneys General Cathcart and Douthitt, A. G. M. Robertson, S. F. Chillingworth and Chas. Creighton.

MORE TROUBLE RAISED

ANOTHER IMMIGRATION LAW PROSECUTION

REFUSAL OF REJECTED IMMIGRANTS ON BOARD THE S. S. CHINA IN SEPTEMBER LAST YEAR.

Another information against H. Hackfeld & Co., Ltd., was presented to Judge Estee in court this morning by District Attorney R. W. Breckons, charging that corporation with a violation of the Immigration Act in refusing to return rejected immigrants to the land from whence they came.

There are two immigrants in this case and the alleged offense was committed nearly a year ago. As agent of the steamer China the defendant is declared to have refused to take on board that vessel for deportation to Japan, on September 8, 1901. Hayataro Chakung and Takichi Kuwano, who are alleged to have unlawfully entered this country on August 27, 1901.

Judge Estee dismissed the bankruptcy of Wing Wo, on the sworn admission of W. L. Whitney, attorney for petitioning creditors, that he knew of no reason why such an order should not be made. Russel & Watson for the bankrupt were granted an attorney's fee of \$50.

FIRE CLAIMS REPORT

There will be a joint meeting of the Chamber of Commerce and the Merchants' Association on Friday, August 22, at the assembly rooms of Castle & Cooke, Ltd., King street, at 2 p. m., to hear the report of the joint committee on Fire Claims Commission. J. G. Pratt, the representative of the joint bodies at Washington, will also be present to report.

Notices to the above effect have been sent out by James G. Spencer as secretary of the Chamber of Commerce and W. W. Harris as secretary of the Merchants' Association.

In the suit of O. R. & L. Co. against John K. Sumner and Bishop of Panopolis, defendant is given ten days from the 20th inst. to plead or move.

AN OLD QUESTION BEING REVIVED

Renewal of Enforcement of Act to Mitigate Mooted.

ON BOARD OF HEALTH ORDER OF BUSINESS

ARGUMENT IS FOUND IN INCREASE OF DISEASE IN HONOLULU—THE BOARD'S RESPONSIBILITY.

"The Act to Mitigate," was the first item on the order of business for the meeting of the Board of Health which was not held for lack of quorum yesterday. Dr. Sloggett, president, said this morning that the item was entered on the order at the request of a lay member of the Board. There had been considerable discussion lately, however, among medical men upon the subject. It was beyond all question that disease had greatly increased in Honolulu since the law had been voted to become a dead letter. In consequence there was a strong disposition to revive the enforcement of the law.

The measure had been in operation here almost from time immemorial, withstanding efforts to repeal it made at every successive Legislature. About a year ago an injunction against the maintenance of the Iweli stockade effectively destroyed the policy of the police authorities to segregate the evil. As that policy was regarded essential to the purposes of the Act to Mitigate, the Board of Health forthwith voted to abolish the medical inspection of subjects. Contributing to that decision was the judicial declaration that the Edmunds Act was in force here, as it applied to all Territories of the United States, and under that law, it was thought, the evil could not be officially tolerated as it tacitly was through certificates of inspection which were popularly regarded as licenses.

However, under the public health situation that has developed since the law was abandoned, medical men and others believe that an effort should be made to renew the system of regulation. In this opinion some of the Federal officials join. The interests of the Army and Navy here are urged as opportunity.

As to tacit countenance of violation of the Edmunds Act involved, the question has been raised as to whether the Board of Health should not have a free and independent hand in protecting the public health, leaving entirely to the police authorities the responsibility for the suppression of crime whenever and wherever it may appear. The position of the Inland Revenue service is quoted as analogous to that which the Board of Health should sustain in respect to police matters. Wherever the revenue officers discover the making or selling of liquor they simply demand the tax for the particular branch of business, but the law protects them from being compelled to testify in the courts against any payer of such tax who may be prosecuted for conducting the particular business contrary to local police laws. The certificates of payment of the Internal Revenue taxes in such cases are declared as criminalizing evidence against their holders, and the popular naming of such certificates as "Federal liquor licenses" is erroneous. The officers do not license the making or selling of liquor but tax it, and the tax receipts cannot be used as defensive any more than convicting evidence.

RECEPTION TO THURSTON

Governor S. B. Dole received former Senator John M. Thurston of Nebraska at the Capitol this afternoon. The heads of departments and prominent citizens were invited to join in the reception. Those attending were present to the distinguished guest by the Governor and sociable conversation followed. Up to the time the Bulletin went to press there were no speeches.

Those in attendance were Justice A. Perry of the Supreme Court, Secretary H. E. Cooper, Attorney General E. P. Dole, Treasurer W. H. Wright, Superintendent of Education A. T. Atkin, Private Secretary A. G. Hawes Jr., Col. J. W. Jones, C. M. Cooke, F. A. Schaefer, G. D. Tenney, S. K. Kane, J. Lee Kaulukou, F. W. Macfarlane, P. C. Jones, Col. J. H. Fisher, W. O. Smith, E. C. Winston, J. A. McCandless, A. C. Gehr and Cecil Brown.

Accompanying Mr. Thurston was Carroll Purman, brother of Mrs. Thurston and a representative of Collier's Weekly.

BOUGHT KAMALO STOCK

FRANK FOSTER'S SHARES KNOCKED DOWN TO DEE

RESULT OF SHERIFF'S SALE AT POLICE STATION AT NOON. LAND SALE POSTPONED TO THURSDAY.

By virtue of an execution issued by Judge Humphreys, July 7, in re the matter of H. K. Hitchcock and others vs. Frank Foster and others, there was a sheriff's sale of the real estate and shares of Frank Foster in the Kamalo Sugar Co., at the police station at the noon hour today.

The land described in the sheriff's notice consists of Lot 20 in the Pawaia tract, consisting of 10,450 square feet, and the Foster home at Kamuel. Moloai, consisting of 4.45 acres. The sale of this property was postponed until Thursday, the 28th inst.

There were 1465 shares of assessable stock in the Kamalo Sugar Co. put up for sale, six dollars a share had been paid in on this. There were a large number of people at the sale but there was no bidding whatever.

When the shares were put up, Auctioneer Schermerhorn waited for a little and then Larry Dee, one of the principal stockholders in the company, bid ten cents a share. There was no one around who seemed to show any inclination to raise on this amount and, knowing that Mr. Dee was ready to go higher no one else said a word and the 1465 shares were knocked down to him for \$146.50.

Mr. Dee had the following to say after the sale: "I bought in those shares for the benefit of the plantation company and I made for the corporation, something over \$2000 for, as you know, \$6 per share had already been paid in."

"The intention of the company" as soon as all the litigation has been settled, is to move up all the assessable stock to paid up stock and cut down the capitalization from \$1,000,000 to \$500,000. We will then be on a good working basis and will boom the work along."

LEONARD ARRESTED

HORSE TRAINER SAID TO HAVE FIRED SHOT

RAN AWAY FROM OFFICER DUVAUCHELLE BUT WAS PULLED OFF HIS HORSE—DETAILED CASE.

Caleb Leonard, alias John Lambert, a horse-trainer employed by Prince David, was arrested last night by Mounted Patrolman Eugene Duvauchelle for carrying a dangerous weapon.

Last night at about 8:30 o'clock Duvauchelle was at the end of his beat, near Kapiolani Park. He was just in the act of sending in his report to the station by the police alarm box when he heard the report of a gun. He immediately mounted his horse and proceeded towards town when he saw a large crowd of people, mostly young native boys, running from the store which is situated near the corner of the entrance to the church.

On questioning some of the crowd, Duvauchelle was informed that Leonard had fired a shot at a native boy by the name of Kalamai. The officer immediately rode up to Leonard, who was also on a horse, and asked him for his gun.

"What do you want?" asked Leonard, at the same time calling him a vile name, and, as the officer says, reaching for the gun in his pocket.

Duvauchelle reached out for his man, whereupon Leonard started his horse on a run, at the same time reaching in his pocket.

The officer immediately gave chase and, having a horse which has a record for speed, he soon caught up with his man. When he was alongside, he caught him by the shoulder, the result being that Leonard's horse ran from under him and left the rider on the ground. Duvauchelle, letting his own horse go, jumped on the ground and secured Leonard, who by this time was lying flat on the ground, holding his revolver by the barrel.

The horse-trainer tried to fight Duvauchelle off, but his efforts were of no avail. The officer secured the revolver and telephone to the police station, whence an officer was sent to Waikiki. Leonard was taken to the station house, where he gave his name as Lambert.

He appeared in the Police Court this morning to answer to the charge placed against him. He was represented by Attorney Kaulukou. The case was continued until tomorrow.

CORP. THORNTON IS EXONERATED

Authorities Order Him Released From Custody.

FINDINGS OF COURT MARTIAL ARE REVERSED

MAJOR GENERAL HUGHES OF DEPARTMENT OF CALIFORNIA SPEAKS MIND—REFERS TO LIEUTENANT DAVIS.

General Orders, No. 24, from the Headquarters of the Department of California, San Francisco, Cal., August 7, 1902, arrived in the Sierra. They relate to the general court-martial which convened at Camp McKinley, Honolulu, pursuant to paragraph 6, Special Orders, No. 101, current series of the Headquarters of the Department of California. Lieut. Col. Joseph B. Girard, Deputy Surgeon General, was president and First Lieut. Harry W. Newton, Artillery Corps, was judge advocate.

Corporal Edward L. Thornton, Sixty-seventh Company, Coast Artillery, the defendant, was charged with "Falsifying official papers with willful intent to defraud the United States, in violation of the Sixtieth Article of War."

The specification reads substantially as follows: "In that Edward L. Thornton, while acting post quartermaster sergeant at Camp McKinley, and while in discharge of his duties as such, between dates of January 1, 1902, and February 28, 1902, did or did cause certain false entries to be made on the signature of certain officers of the United States Army."

Here follows a list of the alleged false entries and then comes the following: "The same purporting to be correct transfers from clothing schedules (Form 85) of money values of clothing to Abstract 'M' (Form No. 65) for use as voucher to quarterly return of quartermaster's property for the third quarter, 1902, of Second Lieutenant J. S. Davis, Artillery Corps, Quartermaster; this with the willful intention of defrauding the United States and to deceive his immediate commander, Second Lieutenant J. S. Davis."

A plea of not guilty was entered to both the specification and the charge, the defendant being represented by Attorney Frank L. Thompson of this city.

The court-martial found the defendant guilty of the specification and of the charge "Not guilty, but guilty of conduct to the prejudice of good order and military discipline."

The court sentenced Corporal Thornton "To be dishonorably discharged from the service of the United States, forfeiting all pay and allowances due or to become due and to be confined at hard labor at such a place as the reviewing authority may direct, during the period of two years."

Then comes the reversal of these findings by command of Major General Hughes of the Department of California, substantially as follows:

"In the foregoing case of Corporal Edward L. Thornton, the court during the trial permitted the prosecution to range entirely outside the pleadings and by this means to establish a presumption of guilt which was not confirmed by any direct evidence."

"The record shows that Second Lieutenant John S. Davis assumed the duties of Post Quartermaster at Camp McKinley December 1, 1901; that he received to his predecessors without taking an inventory of the property; that the property was left to the care of several enlisted men, one of whom was the accused, without any apparent supervision or control on the part of the post quartermaster, until the 4th of April, when an inventory was taken and the property found to be short."

"Early in March the desk of the accused was found by Sergeant Nixon, who had relieved the accused and by Nixon, then took from it certain papers, among which were Abstract 'M' Form 65, Quartermaster's Department blanks, which had been signed, virtually in blank, by Lieutenant Davis in February and on which blanks the accused had entered the issues of clothing to enlisted men for the quarter ending March 31, 1902. In April Nixon reported alterations in the figures of these abstracts, as set forth in the specification. The prosecution has failed to prove by whom these alterations had been made, while it is shown that different persons had had access to them."

"An attempt was made to prove that the accused was selling or wished to sell Government property of the character borne on the abstracts in question. But that effort did not succeed beyond showing that he wished to dispose of certain clothing which he would have no need of after his discharge, which was to be given within a month."

"In the opinion of the reviewing authority the evidence of record fails to establish the guilt of the accused."

TIME NOW TO "SAY NOTHING AND SAW WOOD"

—Harper's Weekly.

"The remarks of the counsel for the defense when he said that 'The record of testimony so far as the Post Quartermaster's Department is concerned is a red-lettered testimonial of official laxity, labor-saving departures from honored customs and express regulations, and evidences a reliance upon subordinates which places a premium upon carelessness if it does not foster downright dishonesty,' were, unfortunately, true."

"All officers of this Department must understand that conduct that will allow such remarks to pass unchallenged cannot and will not be tolerated."

"The record shows Lieutenant Davis is to be totally unfit for the position of Post Quartermaster. The Department Commander hopes that this unfitness is largely due to inexperience, but even then it must be said that there still remains much unexplained and apparently inexcusable neglect of the public interests in the management of his office."

"The findings and sentence are disapproved and Corporal Thornton will be released from arrest and restored to duty."

"By command of Major General Hughes. B. C. MORSE, Captain (Seventeenth Infantry), Acting Assistant Adjutant General."

BURTON TO HAWAII

The Wilder steamer Helene left port this morning with such honors as are seldom afforded that vessel. The reason was that Senator Burton left for Hawaii where he will spend some time as a guest of Col. Samuel Parker.

Among others who left in the Helene were Col. W. H. Cornwell, W. M. Giffard, H. H. Renton, Captain J. Ross and J. T. McCrosson. Delegate R. W. Wilcox was also a passenger. The Territorial hand played the steamer off and a quiet club was also present on the wharf to extend an aloha in music to the distinguished visitor. The Helene will make a special stop at Kawaihau to land Col. Parker's party.

Captain T. K. Clark of the Wilder Steamship Company also departed in the Helene, accompanied by a carpenter. Captain Clark goes to Oluwa where he will connect with the steamer Lehua which will take him to Maalaea bay where that steamer under Captain Clark's direction will be engaged in placing and repairing the buoys at that place.

CHINAMAN IS VERY MUCH ALIVE

No Truth In Story of Cremation In Recent Fire.

FELLOW WAS AT EWA ENJOYING HIMSELF

NEW BUILDINGS WILL BE ERECTED IN THE BURNED DISTRICT. THIEVES FOUND BY POLICE AT THE RUINS.

The morning paper contains a story about a Chinaman supposed to have perished in the Chinatown fire and states that he was last seen at 2 o'clock on the morning of the conflagration as he was entering the room of a friend in one of the buildings that were burned to the ground. All this would naturally be very touching if true but unfortunately, there is no foundation for the story.

There is no question that someone "saw things," became hysterical and then reported to police headquarters that the poor Chinaman in question had very probably perished in the flames. The result was that police officers and others possessing a particularly large amount of morbid curiosity, went to the burned district yesterday and turned up the corrugated iron and charred wood in their effort to discover the remains of the Chinaman.

Meanwhile, the Chinaman was spending the day at Ewa in the company of some of his friends, far from the maddening crowd. In the afternoon, he returned to the city very much unharmed and very much alive. This naturally put a stop to any further searching in the remains of the fire.

As to the statement that he was last seen entering one of the buildings in the burned district at 2 o'clock on the morning (Monday) of the conflagration, this Chinaman was peacefully slumbering at the house of a

HOTEL BAND CONCERT.

The band will play the following selections at a concert to be given on the grounds of the Hawaiian hotel this evening, beginning at 7:30 o'clock:

PART I.
March—Hail to Our Friends... Modest Overture—Semiramide... Rostand Reminiscences of Balfe... Godfrey Songs—
(a) Malanai, (b) Lipolipo, Miss I. Kelliaa, (c) Akahi Hoi, (d) Kuwiliwili, Mrs. N. Alapai.

PART II.
March—Semper Fidelis... Sousa Selection—Herald Angels... Beyer Fantasia—Old Acquaintance... Liddell March—Bravo, My Boys, Bravo (new)... Goodwins
The Star Spangled Banner.

PRECINCT CAPTAINS.

The following notice has been circulated by the secretary of the Young Men's Republican Club to members residing in the new eighth precinct:

Owing to the recent division of the Second Precinct, Fourth District, it becomes necessary to elect a precinct captain. You are notified that a special precinct meeting of the members of the Young Men's Republican Club in your precinct (Fourth District) now eighth precinct, for the purpose of electing such precinct captain, and the transaction of other important matters, is called for Thursday evening, August 21, at 8 o'clock, at the headquarters of the Young Men's Republican Club, Maile Huna hall, 1131 Fort street, upstairs, opposite the Club Stables.

TEACHERS' EXAMINATION.

The annual examinations for teachers' certificates began at the Normal School this morning. Superintendent A. T. Atkinson and Prof. W. D. Alexander of the Board of Education, Principal T. H. Gibson of the Reformatory School, Inspector J. K. Burkett, C. W. Baldwin and Chas. King, Miss Felker and Mrs. Frasher are the examiners.

RECEPTION TO BISHOP.

The reception to Bishop Restarick by the congregations of St. Andrew's and St. Clement's will take place at the Hawaiian hotel this evening. The lanais and parlors are being decorated for the reception. The Ewa lanais will be used for the serving of refreshments.

The band will play on the hotel grounds and additional music will be furnished by a quintet club. Mrs. E. D. Tenney of St. Andrew's and Mrs. John H. Soper of St. Clement's are the chairmen of the joint committees. All the clergy will receive with Bishop Restarick.

GRAIN TO AUSTRALIA.

The drought in Australia is resulting in large shipments of grain from San Francisco to the famine stricken districts of that country. The steamers of the Oceanic line have recently carried large cargoes of wheat and flour to Auckland and Sydney. The Oceanic steamship Sierra, which was in port yesterday on her way to Australia, carried a large consignment of wheat for Sydney.

BOOMERANG BRANDY FROM KANGAROO LAND RATHER STRONGLY PRIMED WITH FUSIL OIL.

E. C. Shorey, Food Commissioner, found 82 samples of milk up to or above standard last month, and five below standard as follows: two samples from M. Pedro, two from Nishimoto and one examined on private complaint.

Of 35 samples of poi analyzed he says:

"In no case was there found any foreign starch, or any mineral substance other than that naturally in the ash. The taro from which poi is being made at present is of good quality and free from disease."

The following analysis of a sample of Sledge brand condensed milk is given without comment: Total solids, 38.74 per cent; butter fat, 12.1 per cent; ash, 2.62; protein, 7.78.

A sample of brandy submitted by a private party was found to be colored with caramel and to contain rather a large amount of fusel oil, 0.596 per cent. The brandy is made partially at least of ordinary spirits colored. The bottle was labeled "Boomerang" Australian Brandy, Joshua Brothers, Ltd., Melbourne.

GOURT EXPENSES TEST STORY OF CAPT. QUICK

To make a test of the question whether the Bailiff Act is an independent appropriation law of itself, Judge Humphreys sent the following written demand to the Auditor. It was denied by that official, when an appeal was taken to the Supreme Court by the judge:

Honolulu, August 19, 1902.
Mr. H. C. Austin, Auditor, Territory of Hawaii.

I am informed that the sum of \$500, which amount covers the salaries of the various bailiffs of the several Circuit Courts, has been paid out of the expenses of the Supreme and Circuit courts. If my information is correct I respectfully submit and contend that such payment out of said appropriation was without authority of law, and I now respectfully demand that said sum of \$500 be credited to the Judiciary Department, to that the same may become immediately available to meet the current expenses of the Supreme and Circuit courts. I take the position that the bailiffs in question are entitled to be compensated and to receive their respective salaries from the Treasurer of the Territory, upon your warrant, under Sec. 5 of Act 19 of the Law of 1901, which section I contend carries an appropriation.

Respectfully,
A. S. HUMPHREYS,
Judge.

Justice Perry, the only member of the Supreme Court at present in the Territory, called W. O. Smith and J. T. De Bolt to sit with him for the hearing.

EXPRESS COMBINE

New York, Aug. 17.—A combination of express companies is believed to be practically an accomplished fact. The report is current that a basis has already been reached for an exchange of securities of the several companies. The express business has been particularly profitable of late years, a fact in evidence in the high prices at which the various express company stocks sell in the open market.

Wells, Fargo & Co. issued a balance sheet today, showing the profits of its banking business during the fiscal year. It has a capital stock invested in the banking business of \$500,000. During the fiscal year just ended the undivided profits showed an increase of a little over \$2,000,000, or more than 400 per cent on the banking capital. There is also shown an increase of almost \$500,000 in the value of bonds and stocks owned by the banking department of the company.

The express business is also extremely profitable, and it is said this company, as well as others, shows profits from the express business of from 25 to 40 per cent on the capital stock.

ATTACKED BY MOROS

Manila, August 13.—A small party of Moros surprised an outpost of Company G of the Twenty-seventh Infantry at Camp Vicars yesterday. Sergeant James Foley and Private Henry C. Carey were killed and Private Van Dorn was severely wounded.

The Moros, who numbered only a dozen, were armed with spears and swords. The morning was dark and foggy. The attacking party crawled to within a few feet of the sentinels and then sprang upon them suddenly. Then entire outpost rushed to the relief of the sentinels, but they were too late and the Moros escaped, although possibly a few of them were wounded. The American sentinels were terribly cut by the swords and spears.

The attacking Moros were all from Bacalod, and the occurrence probably will result in a move against the town, which has a strong fort and other defenses.

Constabulary Inspector Wm. Schermerhorn, whose home was in Seattle, Wash., was mortally wounded in a recent fight with ladrones at Iigan, Mindanao.

LOW COAL RATES

The schooner Americana has just been chartered to load coal at Seattle for San Francisco at \$1.50 per ton, the lowest rate ever accepted for that service. A few years ago, during a period of great stagnation in coal freights, a whaleback steamer accepted \$1.75 per ton for carrying a cargo of coal from Puget Sound to San Francisco and now twenty-five cents per ton has been cut from that extremely low rate. Even worse news than that for shipowners comes from Australia, where vessels seeking coal charters for Honolulu and San Francisco have had to accept 8 shillings per ton or carry ballast. At the close the best offer at Newcastle for coal to San Francisco was 7 shillings, 6d. The drought in Australia is the principal cause of this depression in coal freights.

A work by E. W. Theobald on the mosquitoes of the world, prepared to aid medical men in identifying the kinds suspected of spreading disease, describes 300 species, 176 being new. Most of these species are found in and around towns or are pests known to travelers and traders.

At the present rate of progress very many years will elapse before Pompeii is entirely uncovered. It is thought that as much of treasure remains as has been exhausted.

Cottonseed oil, corn oil and linseed oil, there is good reason to believe, will probably have a rival at a not distant day in edible petroleum oil. As a matter of fact, petroleum has been successfully demethylated and demethylated. Certain other solids and ingredients have been extracted from it, and the production of a fairly good edible oil has already resulted.

THURSDAY, AUGUST 21, 1902.

Revel of the Act to Sillate will be the signal for a flood of moral discussion of immorality that will keep Legislators and courts and churches busy for months.

The Fifth District's discussion of platform necessities will be awaited with no little interest by all party workers. The Fifth as the center of party radicals will furnish plenty of food for thought—material that it is well to thresh out that the convention may be able to strike a happy medium as nearly satisfactory to radicals and conservatives as it is possible for a political body to accomplish.

Venezuela's chief mission on earth these days seems to be to stir up strife for foreign nations to step in and settle. Should the United States and Germany fail to reach a serious understanding over the South American republics in general it will not be the fault of the hot heads of that section of the world who are never happy unless embroiled in some sort of a revolutionary movement which respects neither foreigners nor foreign representatives.

Delegate Wilcox has started on his tour of Hawaii. When the circle of the Big Island is completed he will have made a preliminary canvass of the whole Territory before the Republicans have even started in. The cool reception Wilcox has met in many of his former strongholds is gratifying to the Republicans, but it cannot be denied that in actual political work he has gained an advantage that will require a very vigorous effort to counteract. The Republican party has a good sized task on its hands which does not allow of any half hearted measures or procrastination.

Politicians may howl because they require political capital and the anti-imperialists may hold up their hands in holy horror over the record of Gen. Smith who recently returned from his tour of duty in the Philippines only to find that his services were no longer needed, but eventually all come in evidence a sentiment that Gen. Smith has been the victim of rank injustice, as justice goes in time of war. At best, war is hell, and the people who believe successful subjugation of savage races can be accomplished by moral suasion have yet to offer examples to support their conviction.

Sheriff Pearson, the man who left a Methodist pulpit to take up the task of enforcing the Maine prohibition law, is dead. Pearson undoubtedly sacrificed several years of his life through his strenuous effort to prove that prohibition can prohibit. He had not been in office three months before he had the respectable illicit liquor dealers on the run and during the last year of his official service his county was as completely free from traffic in intoxicating liquors as it is possible to make any portion of the United States in this day and generation. Pearson made prohibition prohibit, with the law on his side and public sentiment which created the law, against him. Pearson did his duty under the law he had sworn to enforce. Had he lived he would not have been reelected to office because the people whose votes made the law possible do not want it enforced. They prefer to have it remain as a sort of conscience monument.

EFFECTIVE TREE PLANTING.

The Pennsylvania Legislature has passed a law to promote the planting of shade trees on public roads which might be adapted to this Territory with very little difficulty. It provides that any one who is liable for road tax who shall transplant to the side of the public highway on his own premises any fruit, shade or forest tree of suitable size shall be allowed by the road supervisors in abatement of his road tax \$1 for every two trees set out.

The indigenous trees are specified in the act which directs the species to be allowed for each. The roads to which the act applies must run through or adjoin cultivated fields. Trees growing naturally by the side of such roads shall be allowed for at the same rate.

The act further provides that any

person who destroys or injures the trees thus planted, or who carelessly permits a horse driven by him or for him to injure said trees, shall be subject to a penalty not exceeding \$5 for every tree killed or injured. The act is much in advance of any previous Pennsylvania legislation on the subject. It received the approval of those who are interested in forestry. The act requires the township supervisors to keep a permanent record of the trees planted, for which the tax abatement is allowed.

Reforestation and planting trees in this city and the outside district has ever been one of the topics for local discussion always slated among the things that ought to be done. And with few exceptions it is one of the things slighted with remarkable regularity. The government takes a hand occasionally and some public spirited citizens have taken up tree planting with a view to beautifying the streets and roads beyond the immediate vicinity of their homes. Tree planting, however, that will give attractively shaded roads in country districts has never been forwarded in a manner that enlists the attention and cooperation of all property holders. Apparently our people require an incentive that can be figured in dollars and cents. And in this respect they are no better and no worse than the average citizen. Given a price of reduced taxes it would seem reasonable to believe that Hawaii would be as quick to take up tree planting as Pennsylvania or any other State or Territory. The advantages gained are certainly worth the price which Pennsylvania proposes to pay.

CHAMBERLAIN'S GROWING POWER.

[New York World.] London was greatly surprised yesterday when Sir Michael Hicks-Beach followed Lord Salisbury into retirement. The net result is to greatly strengthen Mr. Chamberlain's power in the Government. Hicks-Beach was a stout opponent of Chamberlain's new colonial policy, and especially of his leading feature—an Imperial tariff union, with preferential duties in favor of British and colonial products. Salisbury, too, was against it. Balfour, who was no sooner named by his uncle for Prime Minister than he was enthusiastically assured of it, is therefore inferred to be in accord with the Colonial Secretary's program.

It is a short-sighted view which speaks of Balfour's Premiership as if it destroyed or diminished Chamberlain's chances of eventually becoming the acknowledged chief of his party and head of the Government.

THE RELIGION OF THE FUTURE.

[Ethical World.] As we interpret the signs of the time, men are quietly gathering their forces for a religious renaissance that is to herald a faith as much larger and deeper than Christianity as that was in its turn greater than the Paganism which it supplanted. It will carry forward much of the old—just as Christianity borrowed without stint from Paganism. But it will imply a new attitude, a new catholic all-embracing recognition of human excellence.

It will be based on a perception of the human unity underlying all creeds and races. It will have no jealousies and exclusions in the interests of a special interpretation of the world, but will be tolerant and hospitable. It will not worship Christ; it will honor and revere Him. He will be received at last into that great circle of human brotherhood, that large communion of saints and league of heroes, not to eclipse the lesser members of it but to give added luster to them.

A MISFIT INSCRIPTION.

[London Truth.] The Westminster Gazette appears pleased with Mr. Carnegie's "approval" of the inscription on the monument to Mr. Pitt in the Guildhall "He lived without ostentation, and he died poor." If Mr. Carnegie knows nothing about Mr. Pitt's private life the Westminster Gazette ought surely to be better instructed. Mr. Pitt simply let his affairs go to rack and ruin, and no man ever lived who was so frightfully robbed by his servants. He left debts to the amount of about £40,000, which were paid by the country, and this assuredly was not a creditable termination of his career, considering that he had no family, that during the greater part of his life he was in receipt of about £10,000 a year in salaries, and that he had the free use of two furnished houses (Downing street and Walmer Castle), besides many valuable perquisites.

ODD WEDDING CUSTOMS.

[Chicago Record-Herald.] Giving wedding presents is an old custom, but it differs in various countries. Scotland's penny weddings were peculiar. They were called penny affairs, but the invited guests contributed a shilling and occasionally a half crown, and out of this sum thus collected the expenses of the wedding feast were paid. Germany has a party wedding at which the bride receives her guests with a basin before her, in which each person entering deposits a jewel, a silver spoon or a piece of money. In some parts of Germany the rule is that the expenses of the marriage feast shall be met by each guest paying for what he eats or drinks. The prices paid for viands and drinks are high, and the young couple often make a handsome profit out of their wedding, often realizing a sum quite sufficient to start them in life. Often as many as 300 guests are present at such a wedding.

COLONIAL CONFERENCE.

London, Aug. 12.—While the results of the colonial conference which ended yesterday are generally considered satisfactory as far as they go, it must be understood that their enforcement depends ultimately upon action by the colonial Legislatures and by the Imperial ministers whose departments they concern. In addition to the Australian naval arrangements, by which the Australian contributions are to be largely increased on condition that certain vessels be officered and manned entirely by Australians, a general increase in colonial naval subsidies was agreed to. The scheme also provides that some colonies shall allot part of their local military forces to Imperial defense in case of emergency, but Canada and Australia contented themselves with agreeing to keep their local forces in a state of efficiency, relying on volunteers in case of Imperial need, as was done in South Africa. The contribution of Cape Colony to the Imperial navy was fixed at \$250,000 annually, and Natal at \$150,000.

The preferential tariff arrangements in a nebulous condition, depending entirely on future arrangements between the mother country and each in division colony, the understanding being that such arrangements would follow the general lines of the Canadian tariff.

The foregoing arrangements do not represent the unanimous opinion of the conference, but each resolution was adopted by a majority vote.

CONSOLIDATE LEAGUES

BASEBALL ORGANIZATIONS ARE TIRED OF FIGHTING

PROSPECTS FOR AMICABLE ARRANGEMENTS IN NATIONAL SERIES NEXT SEASON—DENIAL NOT ACCEPTED.

Chicago, Aug. 12.—The consolidation of the National and American baseball leagues into a twelve-club circuit is well under way, according to a statement made to the Daily News today. John T. Brush, chairman of the executive committee; James A. Hart, president of the Chicago National League club, and A. H. Soden, president of the Boston National League club, both members of the executive committee, says the News, have been in conference in Boston for two or three days and have opened negotiations with the clubs of the American League toward the consolidation of these two organizations.

According to this informant, plans have been laid for some time and are nearly matured for the consolidation of these leagues into what will be known hereafter as either the National-American or the American-National League. Soon after the close of the baseball season a conference of the presidents of the clubs of the two leagues will be called by Brush. League officials will be barred from the session, only club magistrates being admitted. The proposition to end the war between the organizations in an amicable manner will then be presented and a vote taken to cast the clubs together in one organization.

A. H. Soden, president of the Boston ball team, when asked today about the proposed consolidation of the American and National leagues, said there was absolutely no truth in the report. The meeting of the National League in Boston yesterday had no reference at all to any combination or consolidation with the American. Mr. Soden could not imagine how such a report should be sent out.

DIRECT HAL WINS HARD FOUGHT RACE

New York, Aug. 12.—The second day of the Grand Circuit meeting at the Brighton Beach track had an excellent crowd. The weather was bright and cool, but a high wind prevented fast time. The management announced that owing to the Abbot being lame, the \$10,000 match between the ex-champion and Lord Derby was declared off. In its place on Thursday Prince Albert, 2:09 1/2, and Ananias, 2:01 1/4, will compete for a purse of \$5000 to beat the world's pacing record, held by Star Pointer, of 1:59 1/4. With favorable weather, it looks as if both records are in danger, as the track is fast and the horses are in first-class condition. Dan Patch was booked for Saturday.

The Metropolitan, \$5000, for 2:20 paces, had a hot favorite in the bay stallion, Direct Hal, who has won every race he has started in this season. The field was a strong one and the betting was wild, heavy and sensational in the extreme, one plunger laying \$20,000 to \$25,000 in the pools on the favorite, whose price was steady at \$100 to \$75. Miss Williamson drew the pole, but as soon as the word was given, Greenline, with a splendid burst of speed, took the lead and got the pole, with Eldrone second and the favorite, who got the worst of the start, third.

In the back stretch Direct Hal tried to get to the front, but was interfered with by Eldrone and a foul occurred. Greenline led into the stretch, when Greenline finished and won by half a length. Eldrone was distanced for the foul. In the second heat the battle was again between Greenline and the favorite from start to finish, and in the third the favorite won easily by three lengths from Tertimon, Greenline breaking so badly on the top turn that he was distanced.

LOVE VS. CROWN.

New York, Aug. 11.—A cable to the Sun from Paris says: "The Matin which printed a story yesterday to the effect that the German Crown Prince had had a violent interview with his father, in which he expressed a desire to renounce his rank and give up his claim to the throne to marry for love, says today that Miss Gladys Deacon, daughter of the late Edward Parker Deacon, is the object of the young Prince's affection. The paper adds that Miss Deacon told Prince Frederick William that she would never consent to a nuptial alliance, and if he desired to marry her a full religious and legal ceremony would be necessary.

Three days after Miss Deacon's avowal, the Crown Prince gave her a ring which he had sworn to give to no one except his wife, it being a present he had received from his grandmother, the late Empress Frederick.

There are 275,000 names in the new city directory of Boston, an increase of 4,722 over the number last year. Surprisingly, the John Smiths (male) outnumber the John Smiths (female) by one, but there are no indications that the Smiths are in danger of extinction.

Rudolph Aronson of New York, who recently gave the Sultan of Morocco his first lesson on the piano, has been presented by his royal pupil with a magnificent Moorish sword, handsomely jeweled and of great value.

HIGH ROLLING GAME OF SARATOGA SPORTS

Saratoga, N. Y., Aug. 10.—America's great racing day was followed by a night of feverish gambling at the club-houses. John A. Drake, a young Chicago millionaire, put down twenty \$1000 bills at the start for a stack of chips at \$60 each, and lost. Then he invested another \$10,000 in chips and soon before the tide turned Drake was with luck heading upon him, Drake won the play, and shortly before midnight cashed in \$32,000 worth of ivory. In the course of his play Drake lost \$400 a card.

Over in the Chicago Club John W. Gates plunged. As usual, he bet \$1000 to "evens" and, after losing heavily, stung the house for \$17,000. Eddie Burke, who played at the same table, lost \$5000, while Eole Persall finished \$2000 to the bad.

In the Saratoga Club Cornelius W. Provost, who is a figure in Wall street, and who came to spend Sunday, began throwing \$1000 bills at the roulette wheel. In ten minutes he stopped and cashed \$7000. The majority, however, left their bank rolls behind them. They say tonight that Harry Payne Whitney has contributed \$14,000 to Canfield's war chest. Young Whitney lost this sum at one sitting in the Saratoga Club, and, after seeing the last of his ivory chips disappear, arose, and, yawning, remarked: "Well, I'll get it back another time."

New York, August 12.—Elliott F. Shepard, grandson of W. H. Vanderbilt, has been sued for absolute divorce. To avoid the publicity of open court, the case will be heard by a referee. Shepard married Mrs. Esther Potter, the divorced wife of a Long Island skipper, in 1897. No member of the Shepard or Vanderbilt families was present at the wedding. Young Shepard had no money in his own right. He left Yale in his freshman year, owing to an escapade with some actresses.

Mrs. Potter, as "Essie" Wiggins, daughter of Grocer Wiggins, had the honor of being one of the first girls of Greenport, Long Island, to ride a bicycle. Young Shepard met Mrs. Potter in Philadelphia and at places in this city, where she lived. After their marriage they went to Paris. Reports reached this country that the young man had tried the liquor business and that the banking business in that city without success.

Mrs. Elliott F. Shepard, mother of the defendant, went to Europe recently. About the same time the summons and complaint were served on young Shepard by counsel for Mrs. Esther Shepard.

Baby Farm Horror

Unearthed in Chicago

Chicago, Aug. 2.—Boys, kidnapping, poisoning and startling leads to death are the charges which caused the arrest of Mrs. Nell Campbell of 685 Grand avenue. The woman is suspected of operating a "baby farm." Evidence has been obtained confirming the information of the police and supporting the charges preferred against the prisoner. The story, horrible in its details, was unfolded to Inspector Wheeler today by Viola Campbell, a fourteen-year-old girl who until recently believed Mrs. Campbell to be her mother, but who is now thought to have been stolen from her father, John Reide of Cincinnati, while she was an infant. The story includes details of how the little dependents were slowly starved to death or made to eat opium, and of eight half-brothers, laid to rest in one lone lot in "Catholic cemetery." The police believe the young girl's story and consider it adequate to hold Mrs. Campbell a prisoner pending the coroner's official report. The information received by the police is to the effect that Mrs. Campbell has buried no less than twelve children in the last five years. Further inquiry has led to have developed that she had a score of prices which she paid for children, and that she conducted a regular traffic in babies. In this connection the names of several mothers were brought up in the case, and they are now threatened with arrest. Inspector Wheeler is strongly inclined to the opinion that if investigations supports the girl's story sensational developments are soon to follow. He confidently expects to return Viola to her grateful parents and to unearth a conspiracy to traffic in children of tender age. Mrs. Campbell alleges that the child that died Friday was the daughter of her dead father, and while stating that there have been eight deaths in the home, admitted in the police that three children had died in her house within the last few months. Another feature of the case which appears strongly to the police is the opportunity afforded to clear away many mysterious child kidnapping cases which have occurred in this city in recent years and which to date remain unsolved.

Mrs. Burke-Roche is the divorced wife of the eccentric younger brother of Lord Fernoy and is a daughter of Frank Work of New York.

PRINCE CHEN'S TOUR NEW ZEALAND MAIL

TAKES IN THE SIGHTS OF NEW YORK CITY BUT WITHOUT EFFECT

GOING HOME BY WAY OF VANCOUVER—PLEASED WITH HIS TRIP—TO VISIT ST. LOUIS FAIR.

New York, Aug. 12.—Prince Chen paid a visit to the City Hall today and was formally welcomed to the city by President Forbes of the Board of Aldermen, who is acting Mayor in the absence of Mr. Low. The Prince was accompanied by Third Assistant Secretary of State Foy, the Chinese Minister, Wu Tingfang, the new Minister, Sir Chen Tung Liang (Chang), the Chinese Consul and also consul and attaches of the Chinese legation at Washington.

A visit was next made to the post office, where Postmaster Van Cott, after receiving the distinguished visitors in his private room, conducted them through the office. Prince Chen was apparently much interested and spent a considerable time watching the system in detail. The Prince and his party then took a drive over the Brooklyn bridge, next visiting the treasury, and then proceeded to Chinatown.

There an elaborate reception had been prepared and the streets were handsomely decorated with flags and colored lanterns. The Chinese merchants lined up on the sidewalks, with Long Yam Hing, known as the Mayor of Chinatown, at their head. Large strings of fireworks and other fireworks were strung across the streets. There was no cheering for the prince as he passed through Chinatown, and he was driven through very rapidly. Many of the Chinese standing on sidewalks executed a bow-row.

From Chinatown the party was driven back to the Waldorf, where the Prince entertained Sir Chen Tung Liang and Secretary Foy at dinner. Prince Chen left tonight for Montreal in a special car attached to the Montreal express. He was escorted to his car by Mr. Payne and Secretary Reynolds. He shook them both very warmly by the hand, and then Sir Liang, speaking for the Prince, said:

"His highness desires me to tell you that it is with deep gratitude in his heart that he now bids farewell to the hospitality of this Nation. He is sorry that his stay here has been so brief, and says that if it is possible he will visit this country during the St. Louis Exposition. He desires me to thank you, gentlemen, personally, and the people of the United States and its noble chief executive, for their hospitality. He desires that you again express his gratitude and that of his Government to President Roosevelt and Secretary Hay for the friendly feeling which this country feels toward China."

Before the train started Chinese merchants made an offering to the Prince. The offering consisted of flowers, fruits, sweets and American souvenirs. Prince Chen will not visit Niagara Falls, as was planned. He will go direct to Vancouver from Montreal and will sail for China on August 18.

The transfer system is not used on any street roadway in Great Britain. The Bulletin, 75 cents per month.

OCEANIC SERVICE ATTACKED BUT WITHOUT EFFECT

Wellington, Aug. 6.—That implacable opponent of the San Francisco mail service, Mr. Wilford, never loses an opportunity of attacking it. This morning, at 3 o'clock, when the House was about half full, and in a very sleepy mood, the service came up on the Estimates and evoked discussion and a division upon an amendment moved by Mr. Wilford, to reduce the vote for the carriage of mails by sea as an indication to the Government not to commence any further negotiations with the Oceanic Steamship Company for carrying mails via San Francisco. This was lost by 26 votes to 12.

Though there is a strong feeling among a section of the House against the service, it is very doubtful whether the ill-considered amendment of Mr. Wilford did any good to his party; on the contrary there are many members who are of opinion that this morning's episode did it a great deal of harm.

W. Fraser, referring to the statement of the Postmaster General that proposals regarding the service would be submitted next session, said he hoped that the existing contract would not commit the colony for a longer period than the time fixed for the meeting of Parliament next year.

Sir Joseph Ward replied that the colony would not be committed in any way beyond the authority given by Parliament. He held that the San Francisco service should be continued, and that the colony should also join the Vancouver service. He thought Auckland should be the terminal port in each case. He would also like to see the colony have the Federal service. He would be prepared to submit definite proposals to the House next session. The present contract with the Oceanic Company was for eighteen months only, and at the expiration of that period temporary arrangements would be made till Parliament met again.

It was then that Mr. Wilford moved to reduce the vote by £1,000 as an indication that the House disapproved of further negotiations being entered into with Mr. Spreckels.

The member for Franklin, Mr. Massey, who is always on the quiet, gave when this important service comes up, pointed out that the present contract would run out on May 1 of next year, and if Mr. Wilford's amendment were carried it would mean that there would be no fast mail service between this colony and Europe till Parliament met and made fresh arrangements.

After further discussion the amendment was put and lost on the voices, but the member for Parnell called for a division, apparently to have the votes recorded. The division resulted in 26 voting for the amendment and 12 against. Mr. Massey is in favor of the service, but of course had to vote for the amendment, as he called for the division. —New Zealand Herald.

REPUBLICAN TEXTS

Washington, Aug. 2.—The Republican text book for the campaign of 1902 has been issued by the Republican Congressional Committee. The book which is in pamphlet form, contains 250 pages, makes liberal quotations from the speeches of both McKinley and Roosevelt and also extracts from their messages to Congress in support of the Republican doctrine. The book reviews the record of the Republican party from its beginning to the present time. Under the heading "Protection and Prosperity," eighty-one pages are given to the advocacy of protection.

Twenty pages are devoted to the trusts, and in opening the discussion the book thus describes the attitude of the two parties:

"The attitude of the two great parties on the trust question is clearly defined. That of the Democratic party looks to control of the trusts, with no restriction on their power. Members of the Republican party favor no restriction as will prevent arbitrary advance in prices or reduction in wages through exclusive control, but not the destruction by legislation or injury by fictitious inflation of legitimate enterprise through the great manufacturing system by which production is cheapened, prices of manufactures reduced and permanency of employment assured."

Following this are the record of the Republican party on the trust question, mention of the Sherman anti-trust law, McKinley's recommendation, proposed legislation by the Republicans and a quotation from Roosevelt's message to the Fifty-seventh Congress. The latter is described as "conservative and fearless."

The assertion is made that the share of trust in business is comparatively small. The book says: "The trusts have not occupied a significant place in the manufacturing industries as they have in public discussion."

Further along it is asserted: "The Republican administration of President McKinley and President Roosevelt have made a good record in their efforts to execute the anti-trust laws. There has been no shirking of duty because of the powerful financial influence behind the trusts. These two Republican Presidents have recognized no man or corporation as above the law."

The assertion is also made that "free trade England is the home of trusts." Ninety-five pages of the publication are devoted to the Philippines and the Republican insular policy, which includes the early stages of the acquisition, the conduct of the Army, declarations from prominent people that the Philippines are not ready for independence and a large portion of Admiral Dewey's testimony before the Senate Philippine Committee. In which he gave his opinion of Aguinaldo. President Roosevelt's Declaration day address, so far as it refers to the conduct of the soldiers in the Philippines, is quoted entire. There is also some discussion of trade with the insular possessions.

More than twenty pages are given to the discussion of the gold standard and the outline of the Republican party on financial questions.

A chapter is given to diplomacy in the Orient and a declaration is made that "McKinley's policy saved China from dismemberment."

The declaration by the late Amos J. Cummings, "When I refuse to protect the lives of American soldiers I hope I shall be paralyzed," heads a chapter which declares that the Democrats oppose Army appropriations.

Reference is made to the repeal of the war tax. Credit is given the Republican party for the Isthmian canal. Considerable space is given to Cuba, and it is asserted that the groundwork of a republican form of government was laid by the United States under a Republican policy.

Liberal quotations are made from President McKinley's speech at Buffalo. Reference is made to Republican efforts to revise the American merchant marine. The Fifty-seventh Congress is referred to as a "distinctly business Congress" and the principal business of that Congress are mentioned. Special reference is made to the new policy in all of reclaiming the arid lands of the West. The Republican party is asserted to be the friend of the old soldiers and the pension laws it has enacted are enumerated. The claim is made that rural free delivery is due to Republican legislation and administration.

In the closing pages of the book is a chapter entitled "Democratic Harmony." Reference is made to the Tilden Club dinner, there being a quotation from ex-President Cleveland's speech and the comments of William J. Bryan and Henry Watterson upon it, and the efforts toward Democratic harmony.

The book is intended for the use of campaign orators and is designed as an exposition of Republican policies generally.

TEACHER BURIED ALIVE TITUS THE WINNER

Manila, August 12.—An investigation made by the constabulary to clear up the facts in the killing of a teacher coaching party of four school teachers shows that the party was ambushed twelve miles from Cebu. The teachers were shot and killed at the first volley a third who ran, was shot in the back, and a fourth who was captured, was shot in the chest while he was praying for mercy.

It is suspected that the fourth man was buried alive, as his wound was slight and probably would not have caused death. Does dug up two of the bodies and devoured the flesh. It is believed that sufficient evidence has been secured to convict all the participants in the crime.

The bodies of these teachers were found on July 21th, after the teachers had been missing since June 10th. The police killed the leader of the band of murderers and captured eight other alleged participants in the crime. One man escaped.

RUSSIAN BONDS LISTED. New York, August 12.—Application in the name of the Imperial Government of Russia has been made to the New York Stock Exchange through J. P. Morgan & Co., to have listed on the exchange the entire issue of Russian Government bonds as a preparation for making a market here for Russian government bonds.

It is said that the shipbuilding trust, formed by Lewis Nixon, which yesterday acquired the Hecla and Hollingsworth Company of Wilmington and the Crescent from Weeks at Elizabethport, has been and is now trying to get control of Vickers, Maxon & Vickers. Negotiations are said to be progressing so favorably that a definite announcement of consummation may be expected.

An effort was made by the Cramps to obtain control of Vickers, Maxon & Vickers two years ago. Its acquisition by the Nixon interests would greatly increase the importance of the new shipbuilding combination.

THE TRUST COMPANY of the Republic today completed payments for all its shipbuilding plants held under the option of the United States shipbuilding company, including the Bethlehem Steel Company, Union Iron Works, San Francisco; Bath Iron Works and Iron Works Company, Bath, Me.; Eastern Shipbuilding Company, New London, Conn.; Hecla & Hollingsworth Company, Wilmington, Del.; Crescent Ship Yard, Elizabeth, N. J.; Samuel L. Moore, Sons & Co., Elizabeth, N. J.; and the Canada Manufacturing Company, Carteret, N. J. This consummated the transaction, and the business organization will begin at once by concentrating in different yards different types of vessels and introducing economies which are expected to result in increased profits over those of the independent companies before they were brought together.

NOTICE. Neither the captain nor the agents of the American ship E. F. Chapman will be responsible for debts contracted by the crew of said vessel while in this port. G. S. KENDALL, Master.

POLICE OF CITY BEING KEPT VERY BUSY NOW

JUDGE WILCOX' JAPANESE FOUND NATIVE IN HIS ROOM BUT ALLOWED HIM TO GET AWAY.

In the Police Court this morning no less than four defendants appeared to face the charge of larceny in the second degree.

John Lim, a young native boy, had gone through the clothing of some Chinamen in a pool shop on Liliha street. In doing so he aroused the owner, who was sleeping in the next room. The scolded immediately pulled forth and Lim ran away. He was caught yesterday by Detective David Kaapa. His case, like the rest of today's larceny cases, was continued until Saturday in order to await the action of the grand jury.

Tom Scott, a rather freshly dressed young man, was charged with having stolen from Lawrence Kip a gold watch valued at \$100. How Scott got the watch which had been left in Kip's room is not known, but as it was found in his possession he is alleged to have taken it.

John Lim had taken an interest in a native case and various other larceny cases, in toto at \$90, from a store in Kakaia. Pahia claims to have a right to these things.

Kaapa was in the toils for having taken seven fish nets.

Detective David Kaapa is at present at work on a case in Ala, down the railroad line. J. O. Marat, a hua on Honolulu plantation, had his trunk stolen from his room a couple of days ago. It contained among other things a gold watch, a razor and some money. Kaapa was sent to investigate the case and found the razor in a place where a certain Porto Rican was in the habit of sleeping. He consequently watched that place last night in the hope that the man would return but in this he was disappointed. He hopes soon to be able to lay his hands on the missing razor.

Finally, Judge Wilcox himself told of a case of attempted larceny which occurred on his place in Kailua a couple of days ago.

The judge's Japanese had just returned from his work to his room. He found a native there in the act of rifling his contents. The judge's man is a big, strong Japanese and he immediately caught hold of the native and proceeded to march him down the line.

He further took out a pocket knife and opening it told the native that he would carve him if he attempted to escape. The captive yielded to this gentle persuasion and marched along quietly until he had to pass a railroad track bridge which leads over a small creek.

Here the native saw his chance and, giving a sudden jerk, he wrenched himself loose from his captor and jumped into the water. As the Japanese hesitated, he made good his escape.

GAMBLING RAID.

Special Officers McDuffie and Dan Renner, accompanied by Officer Ayala, went on a tour this morning to raid a well-known gambling den near the corner of Kukul and River streets. They have, however, raided this place before, the result being that this morning, watchful spies gave warning of the approach of the officers and the players escaped. The warning was given too late, however, to give the banker, a young Chinese named Ah Sin, a chance to get out, and he was caught sitting at a table on which was a Russian war chart. The three dice necessary for that game, and \$2 in small coin.

SHIPPING ON KAUI.

The steamer Ke Au Hoo arrived in port from Kauai this morning at 7:15 o'clock. She brought 17 bags rice, 20 packages sundries, Purser Deyrell reports the following sugar left at Kauai ports ready for shipment: K. S. M., 1200 bags; M. H., 2500; G. & R., 1150, making a total of 5250 bags.

The Edward May was at Mahukali loading sugar. She had 7500 bags on board. The Mibabaha was at Kakaia unloading freight. Smooth seas and light wind on outward trip. Smooth seas and equally northeast winds crossing the channel on wayward trip. Very rainy weather on Kauai.

On Tuesday morning the E. S. S. Lomonos was seen off Ahululu.

Measured by the foot rule, M. Combes, the new French Premier, does not amount to much, being only 5 feet 3 inches tall, but it is said that no statesman now alive, nor in a generation, except Gladstone, equals him in the range of mental labor. He is by profession a physician, but never practiced much. He was at one time a schoolmaster, and is a leading authority on French educational affairs. His scholarly and literary activities have for years been large and comprehensive, embracing such topics as the Latin poet Virgil, Kant's metaphysics, the philosophy of St. Augustine and the social theories of St. Simon.

Berkeley, Aug. 12.—President Wheeler of the State University has received from Joseph H. Choate, American Ambassador to the Court of St. James, an appeal for advice on the question of the plan for awarding the Oxford scholarship recently provided for the American college man in the will of Cecil Rhodes. The Governor of the State has also requested the President to forward to Secretary of State John Hay a copy of his advice on the subject.

The will of Cecil Rhodes provides for the awarding of two scholarships a year, of the value of \$1500, to each State and Territory in the Union. He specifies that many athletic youths, such as are generally deemed typical college men, are the ones that he wishes chosen, but all details of the mode of choosing the scholars is left in the hands of Lord Milner and Joseph Chamberlain. It is for advice on this subject that these executors of the Rhodes estate are now addressing prominent educators in this country.

President Wheeler would not give his views on the subject until after they had been forwarded to the proper authorities. Prof. H. Morse Stephens of the university faculty, himself an Oxford graduate, has a decided opinion on some points in the mooted question.

It is presumed that the executors of Mr. Rhodes' estate, who understand his intentions, will try to get picked out students from American academies and colleges to fix a limit of age for the Rhodes scholars, since it is evident that he hoped to bring young Americans to Oxford at the impressionable age and not to swell the number of American post-graduates there.

The system of examinations pursued in many Congressional districts for nomination to Annapolis and West Point could be adopted in the awarding of the Rhodes scholarship.

New York, August 12.—The Herald says: Facts have been laid before Secretary of the Treasury Shaw which point to the existence of a scandal in the importation of china and pottery involving losses to the Government exceeding even the amounts lost through the frauds in Japanese silks. It is ascertained by experts who are not themselves interested in the matter that a system of undervaluation has been practiced for the last twenty years which has caused a total loss to the Treasury of over \$20,000,000.

Assessment was expressed yesterday that the determined attitude of the Secretary of the Treasury and the new officials appointed by him had served as a warning to dishonest importers. It was said that frauds have been detected in still another line of imports, and that when an investigation that is now in progress is finished disclosures of a startling nature will be made.

Not only has Secretary Shaw been asked to put an end to the alleged undervaluations of pottery, but the facts have been submitted to President Roosevelt.
