CIRCUIT COURT MATTERS

Judge Stanley Gives Decision on Genealogical Trees.

Demurrer of Waiialua Agricultural Co.—Christley vs. Wagon—Other Papers on File.

Judge Stanley has rendered a decision in the matter of the estate of Kepola, w. deceased. It appears that on the approval of the accounts of W. L. Wilcox, administrator, four persons claimed that they were entitled to the balance of \$346.10 after paying debts. By the aid of two genealogical trees, Judge Stanley orders the administrator to deliver the property remaining in his hands to Apela Kaleiheana, on the filing of whose receipt therefor he will be discharged. W. L. Wilcox for himself and Kabele, w., J. M. Kaneakua for Kiba, k.; J. K. Kaulia for Kapu, K., and S. K. Kane for Apela Kaleiheana.

Samuel C. Allen by his attorney, F. M. Hatch, files a general denial to the complaint in ejectment suit of Sames Hoare.

Thomas Christley by his attorney, F. M. Hatch, files a replication to the answer of J. A. Magoon and wife, saying it is untrue, uncertain and insufficient.

The Waiialua Agricultural Co. by its attorney, F. M. Hatch, demurs to the petition of McCandless Bros., for an order to produce its books for inspection, on the ground that cause is not shown for the desired relief.

Judge Stanley has appointed Kalanihūia guardian of the person and property of the Kalanihūia lili, minor, under a \$200 bond. J. T. De Volt for petitioner.

Judge Perry has approved the accounts of S. K. Kane, guardian of Elizabeth K. and Isaac J. Robinson, minors.

The estate of the late A. L. d'

Oliveira, the substance of whose will was published in yesterday's issue, is valued at \$18,000 in real and 18,895.86 in personal property, a total valuation of \$36,895.86.

Antonio Richard, executor of the will of Manuel A. Barete, makes return and account of sale of real estate. The property consisted of 3 3-10 acres at Kalibi, and at public auction held by Jas. F. Morgan, was sold to G. J. Waller, trustee of the Metropolitan Meat Co., for \$4000 cash.

Manuel J. Borba by his attorney, Geo. D. Gear, makes answer to the complaint of his wife for divorce. He denies all charges of cruelty and says that instead of her leaving him he left her and for good cause, also that his wages of \$9 a week, he being without property, will not admit of paying more than \$10 a month alimony.

Geo. D. Gear files a demurrer to the bill in equity for accounting of Mrs. Ruth Horn against him. His grounds are that complainant has a remedy at law, that there is a defect of parties in that the children are not made defendants, and that the alleged facts do not constitute a cause in equity.

Kinney, Ballou & McClanahan, attorneys for defendant in Kohala Sugar Co. vs. James Wight, have filed a bill of costs amounting to \$254.90.

Robertson & Wilder, counsel for plaintiffs, file a notice of appeal to the Supreme Court from the decision of Judge Stanley in the bill for instructions of J. O. Carter et al. vs. F. J. Crehore et al.

Words Omitted. In printing W. O. Smith's paper on immigration yesterday the omission of some words destroyed an intended point. The last sentence should have read as follows, the words that were omitted being shown in small capitals: "The law provides for the enforcement of the contract against the EMPLOYERS AS WELL AS AGAINST THE LABORERS."

The Japanese murder case has been put over until Monday.

SOME CUBAN PROBLEMS

The Lucha Outlines Some of the Troubles in Havana.

Robbers Found to be Relatives of the Judge—Immense Task Put Upon Governor General Brooke.

I. R. Burns of this city has received from his brother now in Havana, a copy of the Lucha, a Havana daily published in American and Spanish. The following editorial article entitled "Justice" gives a vivid idea of obstacles with which the reconstructionists of Cuba have to struggle:

The War Department at Washington has a peculiar way of viewing things. Since January 1st the care of forty thousand soldiers in tents, in climate to which they were now accustomed, with all of the attendant details of providing for them, has devolved on General Brooke and his corps.

In times of peace the Army of the United States, consisting of some twenty-five thousand men all in barracks, with nothing to do except routine work, requires the attention of the entire War Department.

The vast machinery of that institution is devoted to doing less than one half of the work here accomplished by the Governor-General, his staff and force of clerks.

In addition to the endless labor entailed in this way, Brooke is expected to be Governor-General of an island which is in an unprecedented condition.

He must reconstruct the customs and plan the future of a million aliens.

He must reorganize every branch of government; deal with difficult subjects in a manner satisfactory to the War Department, the citizens of the United States, those of Cuba, and the newspapers.

He must study the existing Civil law and eliminate the clauses which are prejudicial to administration of true justice.

This is expecting a great deal, and the impossibility of fulfilling such a proposition is apparent.

On taking charge of Cuba, General Brooke ordered that, until time for revision was obtained, Spanish Civil law should remain in effect.

This was the only method which could have been adopted, at the time and under the conditions prevalent.

Nearly three months have passed, and the Spanish laws are still the ones which are observed. Under them all sorts of abuses are being perpetrated. Two instances will suffice to illustrate this point.

Three gentlemen living at Number 2 A. Zulusta street, were robbed.

During their absence from their rooms thieves broke open their trunks and obtained a quantity of valuable property, including diamonds.

A porter employed in the house was arrested, and confessed to being guilty. He claimed, however, that he did not have the jewelry, as he had been arrested and relieved of it, while attempting to pawn it. Two men, claiming to be policemen, had threatened him with jail unless he gave up the stolen goods. This he did.

The two highwaymen were then found and arrested, when it developed that one is a bona fide member of the police force, and the other a son of the judge before whom they were brought for trial. They were dismissed for lack of evidence.

In this case the original thief should have his booty restored to him. The true owners can not hope to recover, so the articles should certainly be delivered to the enterprising porter who discovered and broke open the trunks.

Case number two.

On Sunday evening a policeman was shot and mortally wounded, on the corner of Zanja and Soledad streets. The police arrested, as witnesses, the proprietors and clerks of all establishments within two blocks of the scene.

These men, who were arrested only to give their evidence, were handcuffed by pairs and marched through the streets, to half-dozen places, and finally to the court of a magistrate, where they were released.

When one of them, Francisco Mestre, returned to his store, he found that it had been broken open and robbed. After all of his annoyance and humiliation Mestre was not allowed to reopen his store without first going to the judge of the district and securing a permit.

The treatment of these men should receive attention at once, as it was not even in accordance with the Spanish statutes, which require summoning of witnesses.

The cited instances go to prove the necessity for an early and complete establishment of a legal code such as that observed by England and America.

Common law, in other words common sense, is what is needed to clear away the network of intrigue, injustice and dishonesty which so enwraps every legal question dealt with on the island.

General Brooke will possibly be able to see to this in time, but the duties of a Governor-General are so multifarious that military matters must give place to civil, or vice-versa.

Reconstruction is a long word, and a comprehensive one, and means should be adopted by the dilatory War Department to relieve the Governor-General and his staff of at least a part of the multitudinous duties which now overwhelm them.

Cathedrals in Europe.

Dr. Alfred Kummer will give his second lecture in the Y. M. C. A. hall Monday evening next at 8 o'clock, on "Cathedrals in Europe." Dr. Kummer writes to Gen. Secretary Coleman that he has been kept very busy while visiting in Hilo and would give a course of four lectures besides preaching in the Hilo Foreign church. Dr. Kummer claims to have the finest collection of views illustrating this subject of anyone in the United States, and no doubt this will be a great treat to all lovers of architectural beauty and students of European History. The admission is only twenty-five cents.

Birthday Party.

There were a hundred invitations sent out for Miss Wilhelmina Tenney's birthday party yesterday afternoon and all but a very few of the children invited were present. The party was a most enjoyable one from beginning to end. The children danced in the parlor and dining room and then went out on the lawn for refreshments, sitting down to a couple of tables set on a large mat on the lawn. This finished, games were played. There were present a number of ladies and gentlemen who enjoyed immensely the pleasure the children seemed to feel.

NO DECISION IS REACHED

The Chamber of Commerce Wrestles with New Harbor Lines.

Mr. Dillingham the Chief Talker—Without the Plans the Meeting is Somewhat at Sea.

A meeting of the Chamber of Commerce was held to consider the Honolulu harbor plans at 10 o'clock this morning.

There was present: President J. B. Atherton, Secretary J. G. Spencer, F. A. Schaefer, J. F. Hackfeld, F. M. Swanzy, John Ena, J. P. Cooke, H. M. Whitney Jr., A. V. Gear, T. J. King, T. Clive Davies, C. L. Wight, W. H. Hoogs and Lieutenant Pond, commanding the U. S. S. Iroquois.

Mr. Dillingham addressed the meeting at length on the dealings of the Government with the Oahu Railway & Land Co. The Supreme Court left the law the same as it was two and a half years ago, although the newspapers erroneously represented that the railway lost its case. Holders of riparian rights were entitled to build wharves to deep water. He proceeded to advocate placing the harbor lines well back. If they made a long wharf, as had been proposed, around by the cattle pen, they would have 3000 feet of wharfage. Whereas, by setting the line well back and excavating the slips, they would secure a wharf frontage of 9000 feet. Further, by excavating toward Kalibi, they could have wharves for 8000 feet on each side. An expenditure of capital for the Kalibi channel, at four or five per cent, would in time be a handsome investment.

Mr. Dillingham spoke of the interest of the draymen in the matter, saying that they should have no difficulty in getting capital for a belt line railway to wharves on the other side of the harbor. This device might result in giving the business community draying service at 25 cents instead of 50 cents a load. The Chamber ought to decide whether to have a larger harbor of Honolulu or admit the necessity of developing Pearl harbor to accommodate the commerce.

Mr. Wight suggested that the Chamber should have the benefit of expert opinion on the drayage and other questions.

Meers, Schaefer, Cooke, Swanzy, Dillingham and Hackfeld continued the discussion.

A motion by Mr. Dillingham to appoint a committee to secure a report from engineers was withdrawn, the president having pointed out that a strong committee was in existence with full powers of action.

Mr. Swanzy reminded the meeting that what was wanted was an expression of opinion from the Chamber upon the harbor lines proposed by the United States Board of Officers. The report of that body was going forward to Washington by the Australia's mail, therefore the Chamber should act at once with regard to the plans submitted at the conference with the U. S. engineers yesterday.

The meeting was at a disadvantage in not having the plans before it. It was well enough known however, that the scheme involved stopping some of the wharf extensions that had been recommended by the Chamber and adopted by the Government with a purpose of immediate construction.

At 11:10 the meeting, unable to reach a conclusion without more complete data, adjourned till 2 o'clock Monday afternoon.

Janet Waldorf.

It is not often that enthusiasm rises to such a pitch that prominent men wire to others in neighboring towns to be sure and not miss a coming attraction. Such has, however, been the almost universal case of late with Miss Janet Waldorf.

NIULII STOCK DECREASED

Favorable Halawa Deal Makes One Million Dollars Suffice.

Dividend of Twenty-five Percent is Assured for This Year—Negotiations in Progress to Annex Kohala.

The Niulii plantation with the Halawa joined in combination is to be capitalized at \$1,000,000 instead of \$2,000,000 as was at first proposed. This is owing to the reduction in cost of the proposition from having secured Halawa as a leasehold instead of buying it outright.

Forty thousand shares are to be issued, at a par value of \$20 a share. The balance of the stock, or 10,000 shares will be reserved in the treasury to pay for the new mill and other improvements.

Niulii has 3200 acres in fee simple, and Halawa 7500 acres in leasehold. This land, together with mills, equipments, live stock, water rights, etc., comes to the new company at the end of this month—the purchase price of Niulii being \$750,000, and the annual rental of Halawa \$22,000.

The company receives 600 tons of sugar from Halawa, and 2400 tons from Niulii, which at \$70 a ton net will put \$210,000 into the treasury. This ensures a dividend this year of more than 25 percent on the \$800,000 of stock issued.

These two plantations promise to be a fine property, having all of the water. Under the management of Mr. Kay, with the enhanced economy of combination, the yield from both estates will certainly be largely increased.

Mr. Waterhouse, however, is not resting upon what he has already effected. He is negotiating for the acquisition of the plantation of the Kohala Sugar Co. A meeting of this company will be held early in the coming week to consider the proposition. It is understood that the holders of control are willing to sell out. In the event of such a transaction, there would necessarily be an increase of capital stock. The property is somewhat less in size than Niulii and Halawa combined.

The Orpheum Theater.

The new talent, the advent of which has already been heralded in the local press, will make their first bow to a Honolulu audience this evening. Miss Beatrice Campbell and Miss Myrtle Graham are two lady vocalists who carry with them an American reputation as leading artists in their line. Miss Violet Dale is a specialist as a back and wing dancer. William Howard, eccentric musical com- W. J. Du Bell, trapeze artist, and Matt Keefe, the youthful tenor, will likewise contribute some of the latest novelties from the Coast and Eastern music halls. Van Gofre, Cotreley, Ordway, Post and May Ashley show in new acts and a farce entitled "The Burglar Alarm." Altogether this comprises the best program that has yet been placed on the Orpheum stage and warrants the management anticipating the necessity of hoisting the banner, "Standing Room Only."

Almost Blind

Scrofula Affects the Eyes—Little Boy Treated by an Oculist Without Relief—But Now He is Well.

"When my little boy was three months old his eyes became very sore and he was almost blind. I took him to an oculist who treated him for six months, and left him as bad as he was at the beginning. Finally Hood's Sarsaparilla was recommended and I began giving it to him. In less than three weeks he was able to go into the sun without covering his eyes, and today his eyes are perfectly well, and his ears and nose, which were badly affected, are also well. Hood's Sarsaparilla has certainly done wonders for my boy." MRS. JAMES H. PALSTER, Amador, California.

San Francisco contractors may give the Honolulu guild a wrinkle in taking a job below cost and getting their profit on it afterward. The Hawaiian taxpayers, of whom are the contractors thus privileged, will pay for the lesson.

When a Chinaman next would dispute the right of way with Senator McCandless, he should do it with one of the wide tire drays the Senator has called into existence. Then he might not need to give any lip, in either profanity or police court evidence.

If the Ancient Order of Sugar Barons had the cash and courage to do all the new developing, would not other burden bearers of civilization in Hawaii stand a strong chance of being black-balled as candidates for initiation into the order?

When played out let the fellow on the bench have an inning. You'll be all the better for it when you go to bat again.

Since baseball has been well maintained here for a whole generation to show that Hawaii was fit for the flag, it ought not to be dropped now until congress gives us a territorial form of government.

Try biting your tongue when you want to keep down Honolulu gossip inadvertently swallowed with your coffee.

In view of the increasing scarcity of milk, on account of pastures taken for sugar cane, it is fortunate that the water works are not in the hands of a private trust. Otherwise the dairies might have to resort to Standard kerosene as a cheap substitute for the Luakaha ooze in filling up the cans from the lower half where the cows go shy. One of the dangers of such a practice would arise from smokers indulging in a whiff after their morning mush and milk. Their individual blowing up from ignition of their breath might not matter so much, but the liability of having the air poisoned with the disintegrated elements of their persons would be a menace to the public health.

If "the man with the hoe" is such an ugly beggar as the Examiner's poet makes him out to be, there are lots of Chinese rice planters in Hawaii who would pay him well to frighten the rice birds away.

Instead of pity for the deluded victims of a so-called gambling mania, may it not be that the prevailing emotion of some of our high minded moralists, in that regard, is one of envious fear lest their small and singular distinction of accidental prosperity may disappear in a more general diffusion of the country's wealth?

The meanest breed of two-legged donkey is the touchy critter, who thinks every straw he sees is a whip lash.

In discovering that wharves are of no account without water to float vessels alongside of them, the Government has at last struck a lucid idea in harbor improvement.

Supreme Court to Dillingham— "You may build a wharf almost anywhere, but don't put it near the water."

Colonel Macfarlane would not have gone to San Francisco to float his storm if the equinoctial gales had not been behind time at Honolulu.

EVENING BULLETIN. Published Every Day, except Sunday, at 210 King street, Honolulu, H. I., by the BULLETIN PUBLISHING COMPANY. W. R. FARRINGTON, Editor DANIEL LOGAN, City Editor SATURDAY, APRIL 15, 1899.

It now remains to be seen whether the registration boards will have the backbone to reject the hyphenated amalgamated half and half oath foisted upon the electors of the Republic by the Executive.

Captain Mahan says that preparedness for war on the part of the United States would have been a potent factor in averting war with Spain. The men who opposed proper fortifications and increase in the navy are now howling against the so-called imperialism which is the direct result of their lack of foresight and honest loyalty to the best interests of the country.

The Reveille, the bright weekly published by the U. S. V. Engineers extends its farewell greetings in this week's issue. The Reveille's candle of life is snuffed in a very pleasant manner, the last issue being marked with illustrative features and historical reviews that make it a valuable souvenir. Editor Ayres says that his career as editor and manager has not been without the usual trials and tribulations of newspaper proprietors. He and the boys of the battalion are to be congratulated on the good work they have done.

"Hawaii Nei," an historical and biographical review has just been issued by the Hawaiian Gazette Company. From a mechanical standpoint this volume is one of the best works that has ever been issued from the islands. It speaks well for the progressive spirit of Hawaii. Although the book is primarily an advertising scheme the articles by Prof. Alexander, Dr. Emerson and other prominent men of Honolulu are accurate and interesting. Not the least interesting feature is the fact that yards of space and detail are given the fracas of 1895 while the details of the flag raising, the most important event in Hawaiian history is dismissed with a paragraph.

EXECUTIVE'S FLEETING SHOW.

Our esteemed evening contemporary, the Star, acting as an apologist for the Executive Council's latest shift on the labor question says that while the Cabinet has received no direct communication from Washington, "there can be no doubt that a hint as to the necessity of dealing with the contract labor question has been received." Further on, the apologist, referring to W. O. Smith's pertinent question as to the intention of this movement, remarks, "Is it not rather, that knowing what it does, the Cabinet is desirous of showing that it is not in favor of contract labor and that it is trying to force an issue which will bring about the gradual abolition of it, instead of waiting till the United States laws are extended, when the system would cease in a flash."

With one exception this view is undoubtedly correct; in place of the word "knowing" use the word "fearing" and you have the situation in a nutshell. Eight months after annexation, the Cabinet is desirous of "showing" that it is not in favor of contract labor and it is trying to force an issue. This show of desire comes at the end of a period during which Mr. Dole and his Cabinet have been under oath to protect the constitution and laws of the United States, and during this period Mr. Dole and his Cabinet have issued permits for several thousand contract laborers to enter Hawaii. Now comes

a movement to show that it, the Cabinet, is not in favor of contract labor.

By this show, the direct answer to Mr. Smith's question is given and it can be none other than that the Cabinet seeks suddenly to throw the responsibility for bringing contract Asiatic laborers to Hawaii upon the planters—upon the business community of Hawaii. The Cabinet hopes to close the volume which contains a history of its action during the first days of the annexation period, turn over a new leaf and pose before American officials and the American people as earnest champions in opposition to contract labor. The show is a most perfunctory one and American officials are keen enough to readily size up the sham.

Mr. Dole and his cabinet are not more anxious to prepare for the certain abolition of assisted and contract labor that will follow the extension of American laws than are the planters. The planters are the men who must stand the possible financial strain of a change, the business men of Hawaii are neither fools nor knaves although that is the position in which Mr. Dole now seeks to place them, reserving for himself all the credit for business and political acumen that may be going. The business community is in possession of and is receiving as many hints from Washington as Mr. Dole and his cabinet, and while they are willing to meet the situation in a straightforward, unselfish way, ready to assume the full responsibility for their own acts, they are not prepared to act as puppet to be kicked about in the sole interests of the political aspirations of Mr. Dole and his Cabinet.

How does Mr. Dole explain the action of his executive in issuing permits for several thousand contract laborers the moment annexation was assured? His official organ said that the business interests of Hawaii required this action. Are the necessities of the business interests of Hawaii of any less importance today than they were immediately following the period when the Hawaiian officials took the oath to the United States?

Let Mr. Dole and his cabinet outline a policy, a policy that at least has the American feature of being something that can be depended upon for a week, and will not vary from the conciliatory to the revolutionary on five minutes notice after a "hint" has been received from Washington. Let Mr. Dole and his officials for once in their fleeting political lives do something by which they are ready to stand or fall; for once, give some evidences of executive capacity.

The members of the Kamehameha Alumni Association were given a reception at the home of Mr. Thompson on the college campus last evening. Added to these were the members of the graduating class and the girls from the Girls' school.

CONUNDRUM!

Why will a man refuse the request of a friend to endorse his three months' promissory note for One Thousand Dollars, and at the same time become his surety for Ten Thousand Dollars without the slightest hesitation?

The last time this question was asked the public some local wit sent the following reply: "Because he's a fool."

Perhaps the wit is right, but we think it more likely the man had never heard that

The Fidelity and Deposit Company of Maryland

were doing business in Honolulu and furnishing SURETY BONDS OF EVERY DESCRIPTION for a small annual premium. By the way, did YOU know it? Call and get particulars.

Kinslea Missing. Frank Kinslea, foreman in the press rooms of the Hawaiian Gazette Co, has been missing for the past five days. It is believed by some that he has left the country. Most of his friends believe that he is still about town. Some even make the assertion that they have seen him. A short time ago Kinslea disappeared but turned up again.

Care of Rubber Tires. Do not ride tires flat. A few miles of such treatment will damage them more than a full season's riding. Tires should not be soft unless you want them to wear out by chaffing on the rims, or have the inner tube cut by pounding against the spoke heads. Use care in handling the valves of your tires. Do not treat them roughly by screwing in the pump in a hurry. Keep them free from dirt and dust on the inside. If a valve does not work well pump a drop of water through it. No particular care need be given the rubber. All rubber will wear out in time, particularly in this climate, but it is not materially injured by weather, dirt or water. It is well, however, to keep it clean from oil and grease, as both will rot rubber. The Pacific Cycle Co. give all purchasers of the '99 model Sterling bicycle an option on any tire in the market, \$14 Palmer tires included.

The Rock Lick Block

Is a discovery, the result of thirty years' practical experience in the doctoring of STOCK for worms and parasitic diseases. It is UNANIMOUSLY declared by STOCK OWNERS who have used it to be the most important veterinary discovery ever brought under their notice. In cases of WORMS, BOTTS, pleuro, TUBERCULOSIS, Texas fever, milk and other fevers, its value as a preventive is incalculable; as a cure immeasurable. Acting—as it does—both as a tonic and restorative, animals accustomed to use the Rock Lick Block are rendered sufficiently strong constitutionally to resist parasites and worms of all kinds. Millions of Stock die annually (sheep in particular) from wasting, dropsical, or bottled diseases, notwithstanding that they are drenched repeatedly, as well as receiving a continuous supply of salt and iron. Horses suffer from botts and worms, and require to have them removed, as well as having a tonic. Dairy Cows suffer from fever, sunstroke, tuberculosis, pleuro, inflammation of the feet, inflamed udders, etc., etc. The use of the Rock Lick Block entirely supersedes the primitive and expensive system of drenching. All animals take it readily. C. W. MACFARLANE, Agent.

UNIVERSITY WORK DISCUSSION.

To Be Held Monday Afternoon at usual Place - Topics.

The afternoon discussion of Charles Lamb and his contributions to literature will take place at the High School, Monday, at 2:30 o'clock. Prof. Rolfe will conduct the class, and all are invited to attend.

The syllabi have not yet been received, but much can be done without them. The topics for consideration are as follows:

- Subjects for class discussion:
- 1.—What is your favorite among the Elia essays? On what do you base your claim for it?
 - 2.—Enumerate, with illustration, the characteristics that lend Lamb's style its peculiar charm.
 - 3.—Give extracts that illustrate Lamb's use of archaic words, the rhythm of his sentences and his use of common words in uncommon connections, and almost Shakespearean quality.

Sing Lung & Co. will open a dry goods store at 212 Nuuanu street on Monday. The stock which is entirely new will consist of clothing, boots and shoes, hats, camp-horn trunks, matting, etc. Chong Sam has taken the position of manager and will be pleased to have the public call and inspect his wares. See New Today.

Quilted History.

There is an interesting historical association sewed up in the silken quilt presented to Mr. and Mrs. John H. Wilson on their marriage. Queen Liliuokalani started the quilt, making the first square, to relieve the tedium of her imprisonment in the Executive building in 1895. About fifty ladies have wrought on the article, and it is not yet finished. The grandmother of the groom, Mrs. Townsend, was not therefore the sole artist in its fabrication as appeared from the report of the wedding in this paper.

Mauna Loa To Be Laid Up.

On account of the accident to the tubes of the Mauna Loa on her last trip, that steamer will be laid up for repairs and will not sail next Tuesday. Her place will be taken by the W G Hall, the boat that used to run on the Mauna Loa's route, while the Iwalani will be placed on the regular Ka uai route. The Mauna Loa will probably not be laid up for more than one trip.

Quaker Doctor Fined.

In the Police Court this forenoon James Ferdon, the Quaker medicine man, was found guilty of practicing medicine without a license and fined \$100 and costs. Ferdon was arrested yesterday afternoon.

A French woman, a number of Portuguese and others were put on the witness stand. The doctor himself was made to undergo a rigid questioning.

**Gifts
For All**

.....In selecting Gifts many points are to be considered: First of all, where is the largest and best display to be seen? Second, the quality and prices? After you have convinced yourself on these two points the rest is easy.

Largest Stock....

We have on display the largest and greatest variety of CHOICE GOODS ever offered in Honolulu. We know our prices are right, because we buy right from the manufacturers, thereby saving the percentage made by the middle man.

**Cheapest
and Best.....**

When you come to our store we feel it our duty to familiarize you with the goods we carry, and our time is yours.

Come and inspect our stock. Goods are all marked in plain figures.

HAWAIIAN STOCKS IN BOSTON.
 J. Q. A. Bunkerhill (at a party)
 "Do your folks think Hawaiian
 securities are a judicious invest-
 ment?"

Miss Oldbay—"Why, yes, I
 should apprehend they do. Pa
 has already displayed his confi-
 dence in the industrial develop-
 ment of those pearls of the Pacific
 among our new possessions, known
 to students of geography as the
 Hawaiian Islands, by purchas-
 ing a not inappreciable amount
 of Makaweli, also acquiring a
 moderately large number, each, of
 Laupahoehoe, Nialii and Ookala
 shares, besides a somewhat
 numerous aggregation of the capi-
 tal stock of a recently organized
 corporation, devoted like the
 others I have just mentioned to
 the production of the saccharine
 commodity, which, if my utterance
 of the Hawaiian vernacular is not
 too faltering, I believe is designat-
 ed the Ulupalakua Plantation
 Co., Ltd., the fields whose culti-
 vation it essays to prosecute being,
 as I am given to understand, situat-
 ed at the base of the stupendous
 mountain dome of Haleakala, in
 the summit of which is enconced
 the largest extinct volcanic crater
 upon the surface of this mundane
 sphere. What a delicious degree
 of intellectual diversion it has
 yielded our domestic circle, the
 disciplining of our comparatively
 barbaric organs of speech into a
 tolerable mastery of the dulcet
 and flowing vocables of that
 charming language of nature's
 children!"

J. Q. A. B.—"Aw! You don't
 happen to recollect if he mention-
 ed Kihei?"

Miss O.—"Indeed, I think he
 alluded to a security of somewhat
 like that cognomen, making the
 remark that it appeared from his
 most recent advices to be unap-
 proachably exalted in the empy-
 rean."

 Prof. Rolfe asked his Universi-
 ty Extension students whether or
 not great authors revealed their
 personalities in their writings.
 Certainly neither "Old Subscri-

 of the Victorian Age—has ever re-
 vealed his personality in his works.

New England Bakery and Candy Co.
 It is not generally known to the
 trade that the New England Steam
 Baking and Candy Co., Hotel
 street, are able to manufacture all
 the candies used on these Islands,
 supplying them fresh and in any
 quantity desired and at a great
 saving over San Francisco prices,
 doing away with freight charges
 and custom duties, etc. They
 have just received an order from a
 large wholesale house here for
 about two tons of candy of which
 75 pairs is boss mixed candy.
 The balance covers stick candy,
 broken stick, chocolate cream
 drops, gum drops, peppermint,
 wintergreen and conversation
 lozenges, acidulated fruit drops,
 etc. Mr. Lutted the manager
 takes pleasure in showing samples
 and quoting prices to the whole-
 sale trade and guarantees to sup-
 ply same quality of goods and at
 lower prices than can be purchas-
 ed elsewhere.

The two-year-old son of W. L.

 whooping cough. "After several
 physicians had prescribed for him,
 without giving relief," writes Mr.
 Ferguson, "I persuaded my wife
 to try a bottle of Chamberlain's
 Cough Remedy. The first dose
 had the desired effect, and in
 forty-eight hours he was entirely
 free from all cough. I consider
 your remedy the best in the mark-
 et, especially for children and re-
 commend it at all times." 50 cent

Woman's Meeting.
 The Woman's meeting at Ka-
 waihaio yesterday afternoon was
 attended by between sixty and
 seventy, this number being made
 up of Kawaihaio and Kaumaka-
 pili church ladies who were ex-
 pecting to hear from Mrs. Kekela,
 wife of the aged Hawaiian mis-
 sionary who returned from the
 Marquesas Islands a short time
 ago. Unfortunately, this lady
 could not be present as she was
 sick in bed with the grip. How-
 ever, a most interesting meet-
 ing was held. Among the speak-
 ers of the afternoon were two ladies
 who have recently arrived here
 from Japan and who have been
 doing good work in that country
 among the natives. Miss Mattie
 Chamberlain was another speaker.
 This lady used the Hawaiian lan-
 guage. The next meeting will be
 held at Kaumakapili church and
 the ladies are hoping that they
 will be able to have Mrs. Kekela
 with them.

Kona: J E Gomez, E Johnson, Mr Crawford, E P Dole, J Greenwell, Mr Cathcart, C Creighton, Mr Correa, J K Nahale, C D Miller and family. Maalaea: Mr Landers, J S McCandless, W J Gallagher, Mrs Auld. Lahaina: Mr Marshall, T Hayselden, Col W F O Haason. Molokai: Mrs P McLain, Misses Sorenson (2), Misses Center (2), D Center Jr, Miss Mossman and J A McCandless.

ITEMS FROM HARBOR FRONT

The schooner Blanche and Ella is back in port.

The fast schooner Mokulele arrived from Hilo yesterday.

The Lehua was despatched on her usual route last evening.

The Mauna Loa reports 9000 bags of sugar left at Honoukaa and 4700 bags at Kukuihaele.

The Elihu Thompson is due to sail for San Francisco with a full cargo of sugar next Tuesday.

The Honoupa and Punaluu plantations have been cleaned out of their sugar. No rain at Hamakua or Kona.

The ship J B Thomas has begun taking on sugar. She will get enough to take her to Hilo and will load the remainder of her cargo there.

The Mauna Loa did not arrive in port until about 7 o'clock last evening. This delay was caused by leaking boiler tubes which necessitated a long wait at Lahaina for temporary repairs and more coal. The steamer came down under half steam. She was telephoned at 4 o'clock and took three hours to get in. The Inter-Island Co. is expecting new boiler tubes for the Mauna Loa in a vessel that is about due here.

THE BREW OF OLYMPUS.

THE "HOFFMAN," corner of Hotel and Nuuanu streets, claims to be the "Banner" resort for gentlemen and holds the flag. L. H. Dee, the proprietor, has attained success in his line, by specially supervising everything connected with his establishment. He now introduces to his patrons "Olympia Beer." This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne." Mr. Schmidt, the leading spirit of this corporation is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

Stmr Maui, Freeman, from Hawaii ports. Stmr Noeau, Pedersen, from Elele; 4100 bags sugar for F A Schaefer & Co. Stmr Waialeale, Green, from Kauai; 3860 bags sugar for W G Irwin & Co. Stmr James Makee, Tullett, from Kapaa; 2660 bags sugar.

PASSENGERS ARRIVED.

From Kapaa, per stmr James Makee, April 15 — Miss Minnie Wilder and 6 on deck.

There are thirty foreign vessels in port. The Alice Cooke will finish discharging this afternoon.

The Elele plantation is cleaned out. The Noeau brought up the last sugar.

There were 56,600 bags of sugar left on the Garden Isle yesterday afternoon.

There was good weather on Kauai yesterday afternoon, Waimea excepted. At this place the steamer Kauai found it impossible to discharge her freight.

New Zealand No More.

It will be seen by the advertisement of the Canadian Australian Line that the steamers are not to call any more at Wellington, New Zealand. Readers of the BULLETIN were some months ago made aware of this as a probability. There was strong opposition in New Zealand, especially at Auckland, to the continuation of a subsidy to the line, while the company wanted an increase of the amount. Then Queensland stepped in and offered to pay a subsidy satisfactory to the company, if the steamers made Brisbane the first and last port of call in the Colonies. Hence the change.

Counterfeit Coins.

The police department wishes to warn the public that Italians of the Piemonte are trying to pass counterfeit coins. Some of these have already been passed. These are seemingly gold pieces with the appearance of the ordinary English sovereign. One side is the head of Victoria and on the other, St. George. The only difference is that above the latter are the words "To Hanover." One of these pieces was taken to Spreckels' bank this morning and found to be absolutely worthless.

Extraordinary Macaroni Order.

A prominent grocer was startled yesterday by an order for something like 2500 pounds of the best macaroni on the market and had to stand and scratch his head in deep thought for a moment before the full import of the order dawned upon him. It was the paymaster of the Italian cruiser Piemonte who stood before him and the macaroni was for that man-of-war. The order was filled during the afternoon but it left a shortage of macaroni in the city.
