

Kahului Breakwater Money Is Available

President Has Signed Appropriation Bill Which Carries Over Quarter Million For Big Improvement — Work Likely To Start Soon

Mail advices reaching here from Washington this week state that President Wilson signed the Rivers and Harbors appropriation bill on Thursday, July 7, carrying with it the item of \$260,000 for Kahului harbor. Of this amount \$250,000 is for the west wing breakwater of the harbor, and \$10,000 is for maintenance. The sum of \$100,000 is made available at once, but Col. R. R. Raymond, U. S. engineer officer of the district is given authority by the bill to contract for additional \$150,000 worth of work, so that the contract for the breakwater may be let as a whole. It is anticipated that steps will be taken by the engineer to advertise for bids for the work at once.

Goodness And Waiahola Aspire To Be Senators

County Attorney Kane spent several days last week on Molokai entering the names of new voters to the great register. He reports forty-two new voters in the Settlement alone, the big proportion of whom have become residents of the place from the Hamakua district, Hawaii. This week the Clerk visited different sections of the Lahaina district, and next Tuesday he will go to Hana. Indications thus far are that the increase in Maui voters will somewhat exceed the loss by deaths and removals.

Three Out for Senate
Thus far three candidates have taken out nomination papers indicating their intention to try for one of the two places in the upper house of the legislature which are to be filled this fall. Senator W. T. Robinson is the hold over member of the senate. Col. H. A. Baldwin is candidate to succeed himself, while P. J. Goodness, of Wailuku, and Ed. Waiahola, of Lahaina, late members of the house representatives, would hereafter grace the senate chamber. It is reported that W. F. Pogue may be a candidate for representative, though he has not yet taken secured the blanks for his nomination from the clerk.

Sam Kuula, long-time democratic candidate for public honors has deserted the Bourbon ranks and is this year making the race for the legislature as a republican.
A. F. Tavares of Paia, is again a candidate for the house of representatives, while John Brown, Jr., former district magistrate of Lahaina, is also having a nomination petition signed.
The democrats have taken out eight nomination papers, but thus far have not indicated any of the victims who will represent the Maui democracy in the big race.

Haiku Teacher To Be Witness In Bomb Case

Herbert Wade, principal of the Haiku school at Pauwela, will be an important witness for the state in the prosecution of the suspected perpetrators of the dynamite bomb outrage in San Francisco on July 22, in which a number of persons lost their lives and many were injured. Wade was bumped into by a man with a suitcase which is believed to have contained the explosive, just a few minutes before the explosion occurred. The district attorney of San Francisco has written the school department asking that the Maui school teacher be permitted to attend the hearing which will probably take place soon. Wade was stopping at the Young Hotel, Honolulu, the first of the week.

FASSOTH WILL NOT BE CANDIDATE

John Fassoth, manager of the Kipahulu Plantation, returned on Tuesday from a trip to Honolulu. Mr. Fassoth, who was a member of the last legislature from Kauai, is quoted by a Honolulu paper as stating that he will not seek similar honors from the Maui electorate this year.

SCARCITY OF BAIT SPOILS FISHING EXCURSION

Delegate Kuhio, R. W. Shingle, president of the Henry Waterhouse Trust Company, and H. Gooding Field, made a trip to Lahaina on Tuesday for the purpose of enjoying a day or two of game fishing. Dearth of aku or other suitable bait in the markets put the trip out of business and the party returned the same evening with nothing to show for their pains.

Maui Teams Win All Harvest Home Sports

Throngs Of Visitors Enjoy Hospitality Of H. C. & S. Men And Good Athletic Events — Honolulu Teams Fail To Take Any Laurels

For the first time in a good many years the visiting athletic teams from Honolulu competing in the Puunene Harvest Home games, went back to the city with no laurels of victories won. It is true that some of the best players of both the bowling and the tennis teams from Honolulu were unable to make the trip this year. But it is also true that the Maui athletes did some good work, and would have made it mighty interesting in any event.

The Harvest Home celebration of the Hawaiian Commercial & Sugar Company this year is conceded by all of the many hundred guests to have eclipsed all previous efforts in many ways. It is certain that the hospitality of the big company through its officers and employes was never more pleasingly accorded than it was last Saturday. No pains had been spared in making the Puunene Club House and grounds attractive with beautiful decorations. A large arbor, or outside lanai formed an attractive place in which the delicious lunch was served at noon time to the many guests who had gathered to see the morning sports. In the evening this same floral shelter afforded a pleasant retreat in which dainty refreshments were partaken of between the dance numbers. The ball, by the way, was the opening dance in the Puunene Club's new club house, and the perfect floor and attractive furnishings of the building were greatly appreciated.

Honolulu Well Represented
Besides the members of the athletic teams, quite a large number of Honolulu visitors were present, having arrived by the Claudine and Manoa, both of which reached port early Saturday morning. The sailing of the Manoa for Honolulu on Sunday permitted the visitors to enjoy the dance on Saturday night to the end.

Three Teams Win Tennis
But three of the eight Honolulu teams won their games, all the others losing by heavy scores. The total score for the day is given as 122 to men on whom much had been counted by Honolulu, were unable to come, which possibly accounts for the poor general showing. Lowrey and Hennoch, Nowell and Cunha, and Rice and Macfarlane were the three teams that made good for the visitors.

Local Bowlers Win
In the bowling an even worse defeat was administered by the local knights of the pin to their Honolulu competitors. Here again, however, the Honolulu team was unfortunate in being shy Scott and Clark, two of their most reliable rollers. Maui won the three games by a total of 453 pins more than their rivals.

Lost Money Through Paia Arouses Interest

The reported shortage of foreign money order funds totaling \$1750, which passed through the Paia post-office destined for Japan, is the source of much speculation. The matter was brought to light by complaints of Japanese of Maui to their consuls in Honolulu. The post office inspectors in Honolulu profess not to have been able as yet to fix responsibility on any person as yet, but are awaiting the return of Postmaster Morris K. Keohokole, who attended the democratic national convention in St. Louis, and has not yet returned. National Committeeman J. H. Wilson is reported to have stated that he does not know Keohokole's present whereabouts. The remittances all disappeared between July and November of last year, according to the Japanese consul.

PAIA PASTOR TO TAKE VACATION

The Rev. A. Craig Bowditch, pastor of the Makawao Union Church, accompanied by his wife, will leave Saturday of next week by the Lurline for a several months' vacation, during the time that the construction of the new Baldwin memorial church is in progress. They will probably return about Christmas time.

THE FIRST MAUI COUNTY FAIR WILL BE A SUCCESS, BUT IT WILL BE A BIGGER SUCCESS IF YOU DO YOUR PART.

RE-ELECTED PASTOR OF KAAHUMANU CHURCH

At a meeting of delegates representing the Hawaiian congregations of Wailuku, Wahee, Waikapu, and of Camp 1, held last Sunday afternoon, the Rev. L. B. Kaumeheuiwa was re-elected pastor of the Kaahumanu Church. His opponent was the Rev. Isaac D. Iaea, of Molokai. Kaumeheuiwa received 14 votes; Iaea, 4; and 2 blank ballots were cast.

Alexander House To Enlarge Its Scope

Land Bought For Outdoor Games — Two Tennis Courts A Feature — District Nurse To Look After Welfare Of Paia Camp Residents

Earl L. Corson, of Columbus, Ohio, who has been engaged by the Alexander House Settlement to take charge of the boys' work departments, is expected to arrive next week by the Lurline. He will have the direction of all lines of work in which boys are interested, including charge of the gymnasium and playground. Mr. Corson comes very highly recommended. For some years he was in charge of similar work in the Bay State Club, an organization of South Ashburnham, Mass., similar in scope to that of the Alexander House.

District Nurse Department
Broadening its field and the character of its work, the Alexander House Settlement will inaugurate a system of district nursing on September 1. The first nurse who has been engaged is Miss Anna Silva, a trained nurse of excellent qualifications, who was formerly connected with the Lahaina Hospital, and her field of effort will be in and around the Paia camps. Understanding and speaking both Spanish and Portuguese fluently, it is expected that she will be able to accomplish a great deal in bettering conditions especially among these two nationalities. If the experiment turns out as is hoped, it is likely that other nurses will be added for other districts.

More Land Acquired
Through the purchase from A. G. Dickens of 3-10 of an acre of land almost directly across the street from the Settlement, the institution has secured room for two fine tennis courts, a hand-ball court, and a croquet ground. There has long been a recognized need for an out-of-doors yard for such sports, which the acquisition of the Dickens property will fill. Work will begin in fitting up the lot for its new purposes probably next week, and it will be ready for use within a few weeks.
It is understood that the Association paid Mr. Dickens \$1,000 for his property.

Will Lay Corner Stone Of New Church On Sunday

The corner-stone of the new Makawao Union Church—"The Henry Perrine Baldwin Memorial Church" as it will be known, will be laid on Sunday morning, August 20, at the time of the regular church service. The ceremony will be conducted by the minister, the Rev. A. Craig Bowditch, assisted by the Rev. R. B. Dodge, who will make an address. The actual placing of the handsome stone which is to support the corner of the beautiful edifice, will be assisted in by the Hon. H. A. Baldwin.

A duet will be sung by Mrs. L. C. Jones and Mr. H. Washburn Baldwin and two anthems will be rendered by the Molokai choir, the members of which are at present on Maui. The congregation, which is expected to be unusually large, will participate in a number of hymns and responsive readings.

Would-Be Assassin Confesses Dastardly Crime

Joseph Elizado, a Filipino employe of the American Can Company, at Haiku, is in jail in Wailuku, awaiting the results of a bullet wound in the neck and back of a fellow countryman named Pastol, who is now in the Paia Hospital. The police say that Elizado has confessed to having fired the shot.

The prisoner is alleged to have marked a spot on the outside wall of the building in which Pastol slept, and late Sunday night to have slipped up to this place and fired a bullet through the board at the point where the mark had been made. Pastol was asleep on the other side of the wall, and the bullet struck him in the neck, ranging downward and lodging back of the lung. The fact that the wounded man had had a quarrel led to Elizado's being suspected of being the would-be assassin. After a number of persons had been found who had seen him with the revolver, he made full confession.

PROMINENT VISITORS SEE HALEAKALA

H. H. Walker, of the Hawaiian Trust Company, Honolulu, Dr. Charles E. Davis, of Albany, N. Y., his stepson, Henry A. P. Carter, and his sons Charles and Arthur Davis, formed a party which made the ascent of Haleakala. They report a delightful trip. Mr. Carter is son of the brother of Geo. R. Carter who was killed during the revolution shortly before annexation.

Board Revises List Of Maui Teachers

School To Begin On September 11 — Slight Changes In Course Of Study — Commissioners Refuse To Reinststate Browns Of Kauai

Practically all school appointments were made by the territorial board of school commissioners before the board adjourned on Tuesday, until its regular meeting early in December when it will take up for consideration the school budget which will be presented to the next legislature sitting in February, 1917.

A number of changes were made, several teachers exchanging positions at their request, with the consent of the commissioners. There are still a number of appointments to be made, and Superintendent Kinney was authorized to make these appointments after consultation with the commissioners of the school district affected.

The course of study committee, through Inspector General of Schools Raymond made its report. Only slight changes were recommended, these being particularly in arithmetic and geography. The report was adopted.

Blacksmith Wanted
Superintendent Kinney is now grappling with a peculiar problem. The board wants to secure the services of a good blacksmith, who in addition, is a capable upper-grade teacher, for Lahainaluna. Willard S. Terry, at one time principal of the Hilo Boarding School on the Big Island and a prominent coffee planter and mill owner has been suggested.

Browns Lose Again
After devoting one full day to consideration of the protest of Mr. and Mrs. H. C. Brown, formerly principal and teacher respectively in the Wai-mea (Kauai) school, the commissioners voted to stand by their former action in not appointing them to any positions. The Browns were represented at the hearing by an attorney, and the evidence of many witnesses was taken.

School Opens September 11
The fall term will open on Monday, Sept. 11, or 3 weeks from next Monday.

The list of teachers for Maui, as revised by the commissioners, is given below with the exception of a number of cases in which contracts have not yet been signed. With a few exceptions, however, the board made the Maui appointments complete before adjourning.

Dickey Will Plan Two New Maui Residences

Before leaving for the coast last week Architect C. W. Dickey, of Berkeley, was commissioned to prepare plans for two handsome new Maui residences—one a colonial or Italian style villa for Col. H. A. Baldwin, to be built in upper Paia, and the other a bungalow type of dwelling for Dr. W. D. Baldwin which will replace the present Baldwin home at Haiku. A Honolulu paper is authority for the statement that Mr. Dickey will also make plans for the new \$25,000 Maui High school building, which is to be in a large part built from money given by the Rices and Baldwins.

KAHULUI—SECOND PORT OF THE TERRITORY

When President Wilson, on Thursday, July 27, affixed his signature to the Rivers and Harbors Appropriation Bill, the destiny of Maui as a factor in trans-Pacific commerce was assured. For, by that act, the federal government sets aside the sum of \$250,000 for the Kahului west wing breakwater.

Perhaps few persons in the Territory really appreciate what that improvement really means. It certainly signifies much more than simply the spending of a quarter of a million dollars in the Kahului harbor. Nor is the fact that the new breakwater will make the Maui port safer for the shipping at present using the port, the most significant thing. The real underlying fact of all is that Maui is to have a port that will be second to none in security; one, practically as commodious as Honolulu harbor and very much superior in shape; and one that is just as accessible for world shipping as any in the Islands.

Honolulu harbor is now so badly congested that traffic is at times seriously inconvenienced. Even the enlargement which will be secured with the cutting of the Kalihi channel, will afford but temporary relief, so rapidly is the commerce of the territory increasing. It is then that Kahului harbor will fully realize her destiny. Hilo harbor is a great open roadstead which it will require immense expenditure of money to ever make perfectly safe. Kahului will be perfectly safe with the utilization of the money now available. Hilo is out of the direct course of trans-Pacific ships. Kahului is almost directly in line with such trade routes. With adequate wharves and coaling facilities Kahului will have all that Honolulu has to offer as a port of call, and from the fact that it should be cheaper than Honolulu to maintain, may offer even superior inducements.

Three-quarters of a century ago, Maui was the shipping center of the Hawaiian group because it then afforded the best accommodation for vessels. Everything now points to the return of something of the same preeminence of the Valley Isle. Like a good many other things that have come and are coming to Hawaii, this destiny will probably force itself upon Maui in time by sheer pressure from without; but there is little doubt that it may be hastened by effort from within. And being a destiny that should appeal to the imagination of every live citizen, there should be no question as to our making the effort.

COMMISSION GOVERNMENT FOR HONOLULU

R. W. Breckons, returned from Washington this week, declares that talk of commission government for Hawaii is all "tommy-rot".

In spite of this assurance the indisputable fact remains that the welfare of the nation will ever be paramount to any territorial interests. Just at present the nation probably has no cause to complain of Hawaii, but it is not at all beyond the bounds of imagination that the time might come when it would have. This will doubtless come first, if it ever comes, on Oahu, and will be due to the hampering of army development plans by local politics. In fact the military in Honolulu is becoming such a dominating factor that the suggestion that the whole administration of the city and county be assumed by a military commission is possibly not so fantastic or impossible as it seems. It is certain that the idea has a good many adherents in Honolulu, and not all of them members of the army, either.

The fact that Congress holds the destiny of the territory in its hands is a reminder that there is no complicated machinery to prevent a quick consummation of this idea whenever the demand for it shall be sufficiently insistent. Nor does it follow that the governing of Honolulu by a military board would be a calamity—except of course to the professional politicians and their satellites. Indeed there would be almost every assurance that Honolulu's troubles over finances, roads, water, sewers, and what-not would be solved, and that instead, Honolulu would become a model of efficiency—a shining example for the rest of the Islands to aspire to. For of course "military expediency" would be satisfied with absolutely controlling the Island of Oahu, the rest of the group being left to struggle along with their civil government as best they might.

A mighty good suggestion comes from Kauai through the *Garden Island* which might well be followed here on Maui. The Kauai paper would have every licensed driver of an automobile placed under bond sufficient to cover any reasonable damages which he might cause to other machines or property through accident. As it stands at present a careless or incompetent driver may wreck not only his own machine but destroy the property of others and, because of his financial inability escape, leaving his victim to stand his loss as best he may. An amendment to the present automobile ordinance, covering this feature, would be in the interests of both safety and justice.

WAIHEE SALOON KEEPER LEAVES ESTATE TO FRIEND

Ah Nim, a Chinese resident who conducted a saloon at Waihee for many years, died on Tuesday last, following a long illness. A will was offered for probate on Thursday, in which all of the property consisting of some \$1,300 worth of personal property is left to Wong Tim, a friend of the deceased. Kum Chong is named as executor of the estate. The dead man is said to be survived by a wife residing in China.

FINED FOR PROFANE LANGUAGE

Joe Correa was fined \$10 in the district court on Tuesday for using profane language. Correa is the chauffeur who last week was fined \$50 and had his license suspended for a year for careless driving. He had a dispute with his former employer, Joe De Rego over the matter, and his second arrest was the result.

ROTHROCK SUCCEEDS McCONKEY ON SANITARIUM BOARD

Filling the vacancy on the managing committee of the Kula Sanitarium caused by the resignation of Dr. Wm. F. McConkey, the board of supervisors last week appointed Dr. A. C. Rothrock on recommendation of the other members of the Sanitarium board. Dr. McConkey resigned on account of the fact that he will leave very shortly for a year or two of post graduate work in the east.

Polo Exhibition Enjoyed

A large crowd at the Keahua field in the afternoon, enjoyed a good game of polo between picked teams of Maui players, with the exception of Arthur Rice, of Honolulu. The team which won by a score of 7 to 1, was known as the "Blues" and was composed of Frank Baldwin, Edward Baldwin, A. W. Collins, and Dave Fleming. The "Whites" consisted of S. A. Baldwin, Arthur Rice, Harold Rice, and C. Burns. Edward Baldwin, the 13-year-old son of Frank Baldwin played a fine game and scored one of the seven goals made by his team. He is clever with the mallet, and is no mean horseman for one of his years.

PROTECT your FARM MACHINERY

*Professor K. J. T. Ekblaw, of the University of Illinois,
makes the following significant statement;*

"A fair average life for farm machinery, which is allowed to stand in the open is five years, and further, farmers who take proper care of their implements can get from twenty to twenty-five years service therefrom. On an average investment of \$1000 per farm for machinery, the building of an implement shed at \$250, will save the farmer \$1800 or rather give him an investment representing \$1800, gauged by his savings. The growing use of the small tractor on the farm is also a factor which increases the necessity for a well-built implement shed."

It is estimated that of the 6,200,000 individual unit farms in the United States not to exceed 25 per cent cover their agricultural implements.

OUR ISLAND CONTEMPORARIES

Dr. SINCLAIR'S RESIGNATION
 The resignation of Dr. Sinclair from his office as head of the tuberculosis work in the Islands is a matter that should not be passed over lightly. The reason given for his resignation is that he wishes to engage in private practice. That does not satisfy. Something has happened, and the public is entitled to know what that something is. Dr. Sinclair is regarded as an authority on the subject of tuberculosis, not only in these Islands but throughout the United States. Everything was expected of him in the campaign which is taking on new vigor throughout the group against the white plague. Much was expected as the result of investigations made during his recent visit to the States. In place of that we have his resignation and departure from this important work entirely.

There is something behind all this. We do not know what it is, but there is a blank, occupied only by a question mark, and we want to see something else there. It seems quite improbable to us that Dr. Sinclair resigned solely for the reason that he wished to engage in private practice; in fact we are almost prepared to say that such is not the case. There is another reason, and quite likely it is also of public interest and importance and should be held into the light.

FROM POLO-PLAYERS TO AIRMEN
 General Evans' request for the formation of a local Aero Club should bear fruit soon. It would seem that the racing and polo association which has secured the race track and polo field at Kapiolani Park would form a proper nucleus for the proposed organization. From what has been seen of the polo folk here, they have the means, the material, the personnel and the spirit for such an undertaking as General Evans desires. Patriotism alone should lead them to it.—The Service.

The Midget demonstrated its fallibility, last week, by sending to the Masonic rites in Hilo two men who never stirred a hoof out of Kohala, and one of whom is not a Mason. We apologize for all the damage done, but proceed sadly to delete one name from our list.—Kohala Midget.

WEEKLY MARKET LETTER
 There has been no change in the condition of the egg market during the past week. Chickens in good condition are meeting a ready sale. Muscovy ducks are very plentiful and cheap.
 Such green vegetables as green beans, cabbage, tomatoes and cucumbers are getting scarce and the prices are advancing. In spite of the fact that there is a shortage of lemons, limes are not selling well and the price has dropped during the week. Most of the stock received, however, was rather poor.
 Island potatoes are selling at last week's prices. It seems that there is no chance of getting higher prices again this year. During the past week the number of small hogs sent to the market has decreased but there are still a few producers sending in their hogs under weight and not in good condition. Those men will invariably receive low prices as butchers can not afford to buy them, especially at this time, when there is a supply of market hogs.
 The price of beef has advanced one cent during the week and this will, no doubt, have an effect on the retail price. The price of veal, mutton and pork remains the same.
 Feed prices are higher now than at any time since the establishment of the Division. Local farmers should let this be a lesson to them to at least raise part of their feed at home.

AT THE THEATERS

Mary Pickford is included among the stars to appear this coming week. The following is a synopsis of features:

"The Black-list" is the name given to the system by which certain big industrial concerns keep track of discharged employees, making it impossible through the interchange of information, for the employee to obtain work elsewhere.

With Blanche Sweet as the star the Jesse L. Lasky Feature Play Company presents on the Paramount Program a thrilling photoplay in which, for the first time in the history of the screen, this much despised system of "black-listing" is exposed. The play is entitled "The Black-list" and was written by William C. DeMille and Marion Fairfax.

Blanche Sweet whose power as an actress of strong and intensely human roles has increased with her growing popularity, appears in the leading role in "The Black-list." Into her hands is given the fate of thousands of striking miners who have taken up arms against strike-breakers. The story does not end with a thrilling representation of the conflict but is carried through to a conclusion in which the authors give a substantial remedy to the problem of the war between capital and labor.

"The Family Stain" "Who killed the Widow Lerouge?" This is the question calculated to puzzle the brain of even Sherlock Holmes himself, in the latest and greatest William Fox photo-play, "The Family Stain," and which is asked and answered with fascinating and thrilling dramatic power in this screen-play supreme. Suspicion rests upon six persons—four men and two women. The tangled web of evidence enmeshes first one and then another of the suspects. Not till the very end of this remarkable and noteworthy drama of the silent stage is the mystery solved in a manner so striking and original in its astonishing denouement that "The Family Stain" has been declared by the metropolitan press to stand in a class absolutely by itself.

The production abounds in strong and powerful climaxes and swift thrilling action that sweeps on from first scene to the last, like a mighty river in flood.

"The Writing on the Wall"

Irving Lawrence, wealthy owner of a large number of tenements which are an eyesore to the Health and Fire Department, shows his disregard for others in his private life. Payne, his wife's brother, arrives for a visit, with his bride, Muriel, and it evolves that the girl is a victim of Irving's disregard for others in the past. Complications develop, during which Irving's wife, becoming aware that her husband's mode of living is not all it should be, misunderstands a situation between Muriel and he, and she denounces them. An estrangement between all concerned follows, during which a terrible fire breaks out in Irving's tenements. His little son is believed to be in one of the burning buildings, and Irving needlessly sacrifices his life to save the boy, after which a reunion is effected between Muriel and her husband.

"Mary Pickford"

Though her countless admirers do not require Mary Pickford to give any further proof of her amazing versatility, this supreme screen favorite renders another novel character-interpretation in the Famous Players Film Company's spectacular and thrilling production, "Poor Little Peppina." As Peppina, the boundless scope of Mary Pickford's art is illustrated in her delineation of the various roles of the child of wealthy Americans kidnapped by Italian and made to work in a Sicilian vineyard, a stowaway disguised as a boy, a newsie, a bootblack, a fruit vender, an employee of an opium den, a messenger boy, and finally, the restored millionaire's daughter who comes into her own. With this diversity of atmosphere and interest, and with its many dramatic and amusing episodes, "Poor Little Peppina" will undoubtedly be accepted as one of Miss Pickford's foremost triumphs.

U.S. Gov. experts report that oils correctly refined from asphalt-base crude "distill without decomposition" (do not break up and lose their lubricating value under cylinder heat) and "are much better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils."

Motorists who use Zerolene, an oil scientifically refined from asphalt-base crude, back up the experts with reports such as these: "Covered over 16,000 miles without adjusting valves or cleaning out carbon."—"The carbon taken out of this car in 50,000 miles amounted to less than an ounce." Zerolene is for sale at dealers everywhere and at service stations and agencies of the Standard Oil Company.

Nevada Man Wanted Big Cornwell Ranch

Capitalist Now Considering Lanai But Predicted Deal Will Fall Through Also — Rice Beat Mainlander To Maui Property

Doubt is expressed by those who claim to know something about the matter, that the deal for the island of Lanai, an option for which at \$1,000,000, is reported to be held by a Nevada cattle king, will go through. The property was visited last week, by members of the Lanai Company, including J. T. McCrosson, R. W. Shingle Prince Kuhio, and H. J. Lorentzen, the latter of whom is said to hold the option for the mainland man. It is reported that the same capitalist was interested in the Cornwell Ranch, but that H. W. Rice slipped in ahead and bought the property while negotiations were hung up on a question of the valuation of the cattle on the place.

If everybody expected to see a BIG MAUI COUNTY FAIR and then left it to others to do the work, there would be no fair. Do your part.

BAND WANTS INSTRUMENTS

The Wailuku Band under the leadership of Mr. J. A. Hannon has arranged for a series of benefit concerts which are being given at the Valley Isle Theatre, the receipts of which are to be applied towards the purchase of instruments. Lack of instruments has been one great drawback with the band but nevertheless they have been able to render some exceedingly good melodies.

Among the numbers rendered at the Valley Isle Theatre last Sunday evening were "Are You From Dixie?" and "Good-bye, Good Luck and God Bless You", the latter being the tune played by every National Guard Band going to the Mexican border.

Next Sunday, it is expected that exceptionally good selections will be rendered.

KAELEKU WINDING UP GOOD YEAR

The Kaeleku Sugar Company, of Hana, which finished grinding about two weeks ago, will dry off its last ton of sugar next Tuesday, at which time it will have manufactured some 6700 tons. This is an excess over last year of about 500 tons. The outlook for the 1917 crop is good, and an output equal to this year is anticipated. The bark R. P. Ritbet, now being fitted with auxiliary engines in San Francisco, is expected here about the middle of next month to take the last of this year's sugar to the coast refineries.
