

# TAFT SIGNS THE NEW TARIFF LAW

## Strikers' New Plan

HIGHER WAGE ASSOCIATION MEETS TO REORGANIZE AS SIMPLE LABOR UNION.

There will be a meeting of the Japanese Higher Wage Association this evening in the Japanese school house on Nuuanu street at which a re-organization of the Higher Wage Association will be considered, following lines laid out by resolutions adopted last evening at the meeting which ordered the strikers to return to work.

The new idea, according to a Higher Wage leader, is to systematize "labor unions" on each plantation throughout the islands, with headquarters in Honolulu, which headquarters will be what the leadership of the so-called Higher Wage Association now is.

In other words, the Higher Wage Association has called a meeting with the express purpose of adopting a disguise, and with the purpose of endeavoring to impress the plantation laborers with the contention that the orders issued commanding strikers to return to work are in no way to be construed as surrender to the planters, but must be taken as the first move in a scheme of re-organization.

Not being able to support strikers in idleness much longer, the leaders of the strike are saving their faces to their followers by the announcement of a new dispensation which promises, in a peaceful way, without strikes, to effect higher wages. The same officers will manage the headquarters.

## EDITOR NEGORO NOW ON GRILL

THE HIGHER WAGE WRITER AND A DEFENDANT IN THE CONSPIRACY CASE IS UNDER UNSPARING CROSS-EXAMINATION BY ATTORNEY KINNEY—BY NERVOUS LAUGHING AND STAMMERING HE SHOWS THE STRAIN BEING UNDERGONE.

Negoro's cross-examination by Attorney Kinney in the conspiracy trial began at 11:30 this morning. It was not long before the Nippu Jiji editor, who is one of the defendants showed that he was indeed on the grill. He hesitated in answering, frequently tried to escape giving direct answers, laughed nervously and stammered appreciably. Some of his reluctantly given admissions were obviously self-damaging, as this example will show. Referring to the Nippu's charge of cowardice against Mr. Sheba, Mr. Kinney said: "You mean you wished him to appear as a coward when you knew he was a brave man?" "Yes," the witness replied. Then, as if realizing the effect of his answer, he proceeded to explain: "The difference between me and Mr. Kinney is that Mr. Kinney is taking the matter seriously." "Will you accept an amendment," Kinney quickly asked, "that I and Mr. Sheba are taking it seriously?" Negoro twisted about in his seat, when Mr. Lightfoot came to his relief with: "We will accept the amendment." Mr. Kinney quoted from a Jiji article calling Sheba a dog and ridiculing him for carrying a pistol—a style of discussion which the witness had characterized as intended merely for "amusement"—and pressed Negoro to explain where the amusement came in. While the witness was making an effort to frame a reply, Mr. Kinney shot in a question as to whether it would have been amusing if Sheba had carried a pistol two days ago. Mr. Lightfoot was on his feet in an instant, declaring against any reference to the stabbing of Sheba as contrary to stipulation. Mr. Kinney considered the incident might be brought out in the present circumstances. Judge De Bolt thought the matter had better not be touched at that time. Lightfoot's objection to the next Negoro twisted about in his seat.

## STRIKE DID NOT MEAN VIOLENCE NEGORO CLAIMS

ARTICLES OF PEACEFUL TONE FROM ORGAN OF THE HIGHER WAGE ASSOCIATION ARE PRODUCED IN THE CONSPIRACY TRIAL—LIGHTFOOT UTTERS AN EXTRAORDINARY IMPEACHMENT OF DEFENDANT AND WITNESS NEGORO'S PROFICIENCY.

Translations of Higher Wage Association literature formed the subject of Editor Negoro's examination in chief resumed by Attorney Lightfoot for the defense in the conspiracy trial this morning.

Negoro was frequently constrained by some internal influence to attempt taking direction of the case into his own hands. On one occasion this led to some fun.

Lightfoot becoming impatient at digressions of his witness exclaimed, "You don't know the Japanese language."

"Perhaps you had better help him out, Mr. Lightfoot," Judge De Bolt blandly remarked and there was a general laugh, in which Lightfoot, when the humor of the thing had seeped into him after some moments joined.

Although Negoro with evident pridefulness testifies in English he is credited with being a scholar par excellence in his native Nipponese. "Bokometsu," the Japanese word used in a Nippu Jiji article that, according to the translation in court, gives reasons why opponents of the higher wage movement "should be destroyed" was defined by the witness. He said that the translation was stronger than the original. "I don't suppose it makes much difference."

## ASSASSIN CHARGED; VICTIM RECOVERING

EDITOR SHEBA'S ASSAILANT FORMALLY CHARGED WITH ASSAULT WITH DANGEROUS WEAPON WITH INTENT TO COMMIT MURDER. MAY BE IMPRISONED FOR TEN YEARS—SHEBA WILL BE OUT OF HOSPITAL WITHIN A FEW DAYS.

T. Mori, who on Tuesday morning assaulted Editor Sheba of the Hawaii Shippo, with a pocket-knife and intent to kill him, was at 10:55 this morning, on complaint of Sheriff Jarrett, formally charged with violation of Section 2911, Revised Laws, assault with a dangerous weapon with intent to commit murder.

Under the charge the maximum penalty is ten years imprisonment. Bail is fixed at \$5,000 and as yet no one has come forward to go the assassin's bail.

Latest word from the Queen's hospital is to the effect that Sheba is out of all danger from complications setting in from his several knife wounds, and that he is on the road to rapid recovery. It is expected that he will be out of hospital by Monday at the latest.

Sheriff Jarrett this morning interviewed Sheba at the hospital and the wounded editor told over the story of how Mori accosted him on Smith street and upbraided him for antagonizing the Higher Wage movement and then, without warning, attacked him with a knife.

## STRIKE ENDS WHEN SHEBA IS STABBED

FEAR OF EFFECT ON PROSECUTION OF HIGHER WAGE LEADERS, GROWING LACK OF FUNDS AND GOVERNMENT'S MANY ARRESTS COMBINE TO PUT LEADERS OUT OF BUSINESS—REPRESENTATIVE OF PLANTERS SPEAKS OF REMARKABLE FEATURES.

Sheba, lying in the Queen's hospital with knife wounds inflicted by a fanatic who is an agent of the Japanese Higher Wage Association, has more to do with the ending of the strike of the plantation laborers than any other consideration, according to the best deductions.

The Higher Wage Association, Makino, Negoro, Yokogawa, Soga and the rest, the leaders of the system and the conductors of the strike organ, the Nippu Jiji, have called off the strike.

It is not a case of the strikers surrendering, for they have not, but it is a proposition of the organization of leaders, or misleaders, practically going to pieces under stress of circumstances, the circumstance being:

1. Lack of funds.
2. Arrest of leaders and their prosecution.
3. Attempted murder of Sheba.

First, the growing lack of funds was getting more serious every day, and in a resolution passed by the Higher Wage Association last night, the "present critical situation" was prominently referred to as a reason for ordering the strikers back to the plantations. This "critical situation" may refer to lack of funds or it may have in view the effect on the prosecution of leaders now under arrest as a result of the attempted killing of Editor Sheba, of the Hawaii Shippo, by Mori, the fanatic and Higher Wage delegate from Maui.

For several days the leaders of the Higher Wage Association have considered recantation, and, it has been learned chiefly for the reason that prosecutions by the government are growing painfully irksome to the association which at the same time has not been realizing in the way of cash contributions as had been hoped.

Then came the assassin, Mori, who tried to kill Sheba, and this was the last straw to the Higher Wage Association movement which was already taking on its back more than it could carry in the way of responsibility.

In the light of Sheba's being stabbed by one of their own number it was decided that it would be best at this time to quit the strike, if for no other reason than that a continuation of the policy of the Higher Wage Association at this time might seriously jeopardize the chances of the Higher Wage defendants in the present prosecutions.

The beginning of the end came Saturday evening, before Sheba was assaulted, and the end came last night when the Higher Wage leaders formally declared the strike off.

All that now remains is for the men,

JAPANESE LINE CUTTING LOOSE FROM PACIFIC MAIL

SAN FRANCISCO, July 28.—Before sailing for Japan yesterday on the Tenyo Maru, W. H. Avery, assistant general manager of the Toyo Kisen Kaisha, said that he had been called to Japan to confer with the heads of the Yokohama company on steps for the canceling of the operating agreement between the Japanese line and the Pacific Mail company.

The reason given for the proposed divorce from the Hariman interests was that the Toyo Kisen Kaisha was not being treated fairly by the company, the executive head of which is R. P. Schwerin.

It has been known for a long time that the Japanese were not satisfied with the Schwerin "square deal," and Avery's announcement would tend to indicate that the camel's back has suffered a fracture.

IGNORANT OF RUPTURE. R. P. Schwerin, vice president and general manager of the Pacific Mail company, said last night that he knew nothing of the threatened rupture.

It will take more than Schwerin's avowal, however, to convince the T. K. K. that they are getting the best of the bargain.

JAPANESE PAID BILLS. During the war with Russia the Japanese ships did not operate, but every month a bill was received from the Pacific Mail company for the T. K. K. half of the freight and passenger departments pay rolls.

Here's how they work it," said a steamshipman yesterday. "You go to a Pacific Mail passenger agency and ask for a berth on the Tenyo Maru."

"Must you go on that date? I'm afraid the ship is pretty full and I will not be able to fix you up very comfortably. If you can wait for the Siberia or the Korea or the Mongolia or even the Asia or China I can fix you up all right."

TENYO HAS LIGHT CARGO. The manifest of the Tenyo Maru, which is carrying Avery to Japan, is likely to carry more weight with President Assano of the T. K. K. than R. P. Schwerin's declaration that the Japanese are getting the best of the bargain.

nese are getting the best of the bargain. The Tenyo left here with less cargo than the Little City of Panama brought the other day from the isthmus. This cargo represents the rustling ability of the Pacific Mail freight solicitors in return for the Japanese half of their salaries.

Honolulu more than any other city in the World, is a place where the EVENING PAPER gets the news first. The clock here is over two hours behind the clock at San Francisco, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when THE STAR is going to press The Day is Closed in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for THE STAR.

The Star gets every Evening the Cable Dispatches giving The News of all the World For the day just ended

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it. It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.
