

THE HAWAIIAN STAR

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY

EDITOR F. L. HOOPER, BUSINESS MANAGER BY THE HAWAIIAN STAR NEWS-PAPER ASSOCIATION, Ltd.

SATURDAY, NOVEMBER 30, 1895.

"OBJECTOR HOLMAN'S" vote of influence on either of any side of the Hawaiian question is of small importance as his opinion. He is a work out, shelved back politician who should have been relegated to rotten row years ago.

THE TORRENS system of land transfers, about which W. O. Smith will bring an information from New Zealand, has been adopted by the State of Illinois. As Chicago and Cook County have as many realty transactions as any place in the world, the system will have a thorough test there.

THE newspaper reporter who gets much out of J. B. Atherton, H. P. Baldwin or C. M. Cooke about their mission to the Coast will require a persuasive equal to dynamite. These gentlemen were born at a period too remote from yesterday to chat informally over a pending deal with the refinery and marketing company of the United States.

THERE can be no possible significance in the nationality of foreign political offenders liberated and detained. It simply happens that the two men released were born subjects of Great Britain. Of the three haoles remaining, one is a naturalized American and the other two were born in the United States. It will be a pleasant day when there are no more political prisoners to talk about. In this expression there is wish only for the good health of the men.

VIEW OF A PHILOSOPHER.

Cassius M. Clay, ex-minister to Russia, famous abolitionist and a man who will figure forever in the history of the United States, is now in retirement at his Kentucky home. At the age of 86 he recounts happenings of half a century ago with vivid faithfulness. Of the tremendous political struggle immediately preceding the civil war, he can say: "All of which I saw and part of which I was." His life was attempted no less than a score of times while he was campaigning, but he continued to urge his convictions. Gen. Clay has lately been interviewed and while he seems pessimistic, his views may be presented and should be considered as those of a keen, experienced observer and a profound philosopher.

"I take no interest now in politics," he answered in reply to a question relating to the campaign now closing. "I take absolutely no interest in politics. The country is torn apart by the greater part of the money in the United States is owned east of the Hudson river, and the man who owns the money dictates the laws in their own interest." "A republic is defined as a government in which the will of the majority of the people is the law. In this condition it exists here? No. Parties are dominated by the caucus. There are 1,000 Democrats and 1,000 Republicans in Madison county. A caucus is held, 501 votes decide the action of the Republican party, and at the polls the Republicans are predominant. So that really 501 people are subject to the will of 501 or one-fourth. That condition little resembles a majority rule. In cities the condition is worse; the body governing is greater and the controlling power is smaller. The English Government is far better than ours, and the Russian form a great improvement upon either. In Russia there are no political parties to divide interests and create panics. I firmly believe that unless the Government takes possession now and operates the telegraph and railway lines, as the Governments of other countries are doing, the Republic will fall. The American is slow to wrath, but when he is thoroughly convinced that his rights and his liberties are in danger, you may rely upon him to fight. It will be as it was in France at the close of the last century, except that here the change will be thorough and permanent." "I have modified my political beliefs as I have taken time to think over them and benefit from my experiences, but I have never found reason to alter my religious views. I believe in the existence of God as earnestly and fervently as I did when a child. He has placed us here for a purpose, and he makes known his wishes in various ways. Sometimes men are his instruments of communication, as, for instance, Abraham Lincoln. He delivered God's message to the world. Atheists may may bring all their cantistry to their aid, but they cannot shake my belief in the eternal omnipotent God."

A PRACTICAL ARGUMENT.

Hugh B. Rice, the Oceanic Steamship Company agent at Los Angeles makes a special effort to turn tourist travel in this direction and is in constant correspondence with several Honolulu gentlemen. In a recent letter to Mr. C. D. Chase, Mr. Rice says: "Coming in contact with a large number of Eastern tourists, I hear their objections to visiting the Islands. I can assure you that the great barrier, the thing that discourages them the most is the absence of telegraphic communication. Many a man has said to me: 'I should be delighted to make the trip, but I simply cannot be cut off from my business for so long a period. If there was a cable I would certainly go.' Therefore I am glad an earnest movement is now on foot to hasten the laying of a cable between Hawaii and San Francisco. I can think of no one thing that would have such a marked influence on the volume of travel, unless, indeed, it were the annexation of the Islands to the United States. But if this should occur, the necessity of a cable would be far greater than now. A line would give a great impetus to business enterprises between the two countries and bind them together as nothing else would."

Mr. Rice adds that tourists are now pouring into California and that he will send a few this way by the Australia of December 3. "The cholera scare," he writes, "seems to have subsided."

Timely Topics.

November 24, 1895.

Among a number of other things the Australia brought us ten bicycles—five for boys and an equal number for girls. These wheels are from Demorest factory and are little beauties; are fitted with brakes and coasters and are perfect in every detail. We intend to sell every one of these wheels before Christmas and the heads of households are cordially invited to call and make an inspection. We will not give them away, because we are not in business for our health only; but we can say in an honest manner that no fair offer will be refused. Any sensible boy or girl will prefer a handsome, well-made and at the same time, not a costly wheel to any present you may mention. A new saw says "healthy outdoor exercise creates a love for the beautiful in Nature; a love for the beautiful develops lovable men and women; happy homes; happy homes create a wealthy nation."

For adults we have a number of Monarch and Tribune wheels; none are better made. Terrill, the cyclist, says that Tribune wheels are all the go in the Eastern States. We sell these wheels at honest prices and warrant them to give satisfaction. The opinion has been expressed by many that a high-grade bicycle can be manufactured and profitably marketed for forty dollars. This talk is the veriest nonsense. Bicycles can be built for that sum, and marketed as well, but surely the intelligent purchaser can not reasonably expect to obtain a thoroughly high-grade mount for a great deal less than the price now asked. The high-grade bicycle of today is tested in much the same manner as the famous Kwv Observatory in England tests watches. A watch bearing the "Kwv" certificate can not be purchased under seven hundred and fifty dollars. The ordinary watch of commerce can be had for fifty dollars. So it is with bicycles. The maker's guarantee carries with it a bona fide offer to replace defective parts. Defects and shortcomings are ascertained only after the most severe tests. The employment of skillful artisans and the costliest machinery is utilized to remedy them. A high-grade bicycle leaves the factory with the maker's guarantee. Both the Monarch and Tribune are guaranteed. A bicycle may be built to look all right as far as outside appearances go, for a comparatively small cost. It is difficult to judge from appearances whether a frame has one coat of enamel or four, or whether the plated parts have been run in nickel fifteen minutes or three hours. Also in the mechanical work, it is not easy to tell when looking at a finished bicycle whether the cones and bearing parts are drilled, tapped and formed in one operation and used in the shape they come from the first screw machine, or whether they are formed over size and then finished to gauge on hardened arbors, at several times the cost. The latter method means fine, accurate and easy running bearings that can be perfectly adjusted, while the parts finished in one operation are always more or less eccentric, making it impossible to adjust the bearing so that it will not be tight in one position and loose in another. There is probably no piece of machinery, except, perhaps, a watch, where outside appearances can cover as vast a difference in quality as in a bicycle. The Tribunes are high priced wheels, and the dealer may recommend to a rider machines on which he can make a larger profit, but the purchaser of a Tribune may feel assured that he has got the finest bicycle, in both design, quality and finish, that good machinery and experience can produce.

We have quite an assortment of goods on hand suitable for presents; our regular holidays stock will arrive on the next steamer that arrives from San Francisco. We will have any quantity of new goods to select from.

SEQUAH cures chronic cases.

Forty years ago Mr. F. Stubbs of South Dunedin, commenced to have sciatica. He spent time and money looking for a cure, but until he used Sequah's remedies he was never free from it. Grateful for his release from such a complaint of so long standing, Oct. 17th, 1894, he writes: "I thank you for the great benefit I have received from the use of your Sequah Oil and Cure. I have been troubled for over 40 years with sciatica. Tried different remedies and spent a lot of money doctoring with no benefit. I decided to give your remedies a trial. In a few days I found great relief, and now I can climb a ladder or dig with a spade, neither of which I have been able to do for the past 30 years. I trust others similarly afflicted will try your remedies, from which I have received such wonderful benefit. Yours gratefully, (Signed), F. STUBBS."

Have you seen the Free Ad?

The "Tribune" man gives the "STEARNS" WHEEL? If not look over the Evening Bulletin, and you will see how the "STEARNS" light glistening on those Orange Rims "has disturbed the spirit of his dreams, (or profits he was going to make on the "Tribune."

Every one knows without being told, that the "Yellow Fellow" is a "back number," to the man who keeps "Tribunes," and the "reliable San Francisco agents," who probably also keep "Tribunes," are being kept awake nights for fear the good Honolulu wheelmen will buy "Yellow Fellows."

Quotations from "reliable" letters are valuable some times if part of the letter is not quoted, for instance, a few days ago an item in a local paper stated that the well known rider, Terrill had written to the "Tribune" rider that he did not think much of the "Tribune" on the Coast, (perhaps they only have the "back number" kind at that Agency,) but after arriving in the East found it was a better wheel than he supposed.

We have read the whole letter, and Terrill goes on to say that he is riding in races in the East, and uses a 16 pound "STEARNS" RACER, and says he likes it very much. We don't blame the "Tribune" man for not giving this part to the paper man, he was not paid for telling of an expert who would speak well of, what is really a very fair wheel, but prefers to ride a better. It can be seen what kind of a man the "reliable San Francisco agent" is, when he admits selling "in December" a wheel that was "badly out of order," and to a friend. What honest man would treat a friend like that, and in the rainy, cold month of December, when he ought to be filled with brotherly love, and be getting ready to make his "friend" a Christmas present of a wheel in good order.

We want to give the "Tribune" man a good send off in return for the kind turn done for us in paying for a \$20.00 a month ad. of our "YELLOW FELLOW," and we do our best when we say that the "Tribune" is a good wheel, pretty light and fairly well made, in fact ALMOST up in point of material, workmanship and finish to the standard high grade wheel, the "STEARNS."

But that ALMOST is the catch, and is why we sell so many wheels, every rider wants the BEST, so the "YELLOW FELLOWS" sell, and as they show up in great shape when they go spinning down the street, the "Tribune" man can't help seeing them, and oh, "that tired feeling" when he thinks, it might have been a "Tribune" going by if that "STEARNS" had never come to town.

Our "STEARNS" wheels are \$95 model, shipped direct to us from the factory in Syracuse, N. Y., but we'll admit that the 1894 model is better in a good many ways than the 1895 "Tribune." The fact that you can to-day buy tickets for a raffle of a new "Tribune" speaks for itself, we don't have to raffle any of our wheels, they sell without any such efforts.

Of the two good wheels, "Tribune" and "Stearns" ride the BEST, the "STEARNS" for sale at reasonable prices, on easy terms, with a full guarantee, by

E. O. HALL & SON Agents for the "YELLOW FELLOW."

Mr. Bankhausen a young man traveling from Germany with Paul Isenberg, arrived by the Aloha. Mr. Isenberg is in San Francisco.

A short meeting of the Anglican Synod was held at 5 p. m. Friday at which the minutes were approved and adjournment sine die taken.

The concert at Thomas Square Friday evening was attended by a large number of people in carriages who were at last able to enjoy the music.

William Bell, Scotchman, about 60 years of age, died very suddenly at 11 o'clock at the Bay View. Bell has been afflicted with dropsy for several years.

The American Legion of Honor through Mr. Eckardt has paid to the town of \$5,000, the amount due on a benefit policy on the life of her late husband.

The town is unanimous in saying that the artillery was an imposing feature of Thursday's parade and should always accompany the regiment in a general turnout.

Owing to the number of infractions of the law of late, a number of posters calling attention to the fact that bathing and fishing in the harbor are strictly forbidden, have been put up at the boat houses and along the water front.

To Be Given Away. Do your shopping at N. S. Sachs and get a guessing blank for the Lamp, or a coupon for the Big Doll.

PERSONAL. Mrs. Dr. Russell is ill. Miss Bessie Reynolds, daughter of C. B. Reynolds, is a member of the Board of Health party.

Mrs. A. S. Willis, wife of the American Minister, has not recovered from the effects of her late accident; she cannot walk without the aid of crutches.

THE DESPISED BUT NEEDED BRAKE. When the shoe and back pedaling fail to help a rider.

The brake is necessary to the fullest possible use of the wheel, but a careful rider may safely do much practical work without it. All arguments contending that application of the sole of the shoe to the tire is as effective as all the brakes are specious. It takes time, not to mention expertise, to place the foot in position, but the lever may be grasped and the brake jammed hard down almost as quick as thought. In an emergency the foot should both be in position on the pedal. Braking which may be performed under favorable conditions, but in a "close call" it is not to be depended upon.

Back pedaling is good for a fairly quick stop at moderate speed and may be trusted on easy declines, but the rider who attempts to down a steep hill should be prosecuted for endangering the safety of others whose right to use of the road is the same as his own. Riding a brakeless machine cultivates avarice, develops the art of back pedaling and tends to make the rider an expert, but unless he has an utter disregard for the rights of others holds him to a slow pace and compels him to walk down hill—American Cyclist.

The parent of all the varieties of apples is a sort of wild crab. It is known that this fruit was cultivated and improved by the ancient Greeks and Romans, and it is believed that even earlier nations were instrumental in its cultivation.

A man's genius is always in the beginning of life as much unknown to himself as to others, and it is only after frequent trials attended with success that he discovers himself equal to those undertakings in which those who have succeeded have found the admission of mankind—Hanna.

Benson, Smith & Co., the druggists, who are also the only ones in the city to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. For this reason they wish to publish the remarks of other dealers about their articles which he handles. Honors: C. F. Moore & Co., Newberg, Ore., say: "We will more of Chamberlain's Cough Remedy than all others put together, and it always gives good satisfaction." Mr. J. F. Allen, Fox, Ore., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hitchcock, Columbia, Wash., says: "Chamberlain's Cough Remedy is well and is highly prized by all who use it." For sale by all dealers—Benson, Smith & Co., General Agents, H. I.

SAILLED FOR WINDWARD. Highest of all in Leavening Power.—Largest U.S. Gov't Report. Baker's Yeast Powder. ABSOLUTELY PURE.

LULLABIES OF NATIONS. VARIOUS COURT MATTERS. ALBERT LUCAS IS FINED \$500 BY JUDGE MAGOON.

The entertainment by the young ladies of Kawalaba Sunday evening was a signal success, and was enjoyed by about two hundred people. The program was planned by Miss Gillan, principal of the Seminary, and her corps of assistants.

The case of the Republic vs. Vivas and Teixeira, of the Seminary, was decided by a jury late Friday in favor of complainant. This morning Judge Magoon sentenced Vivas to pay a fine of \$50 and Teixeira \$25. Defendants gave notice of appeal and by stipulation, have been given thirty days in which to file objections. Bonds to that end have been filed. In the matter of J. O. Carter, administrator of the estate of the late Henri McGrew, the complainant has answered the motion of defendants for a new trial, arguing that such should not be granted.

Before Judge Magoon Friday H. A. Wideman was given judgment against A. Rosa for the sum of \$87.30 monthly annuity on a note for \$250 given Dec. 1, 1921. Albert Lucas appeared before Judge Magoon at 10 o'clock to receive his sentence. He was sentenced to pay a fine of \$5,000 and costs. The money was promptly paid and the young man was released.

This being the last day of the term the Court held until this afternoon in order to finish up its business. Judges Whiting and Magoon were both on hand and were kept busy sentencing, closing cases and continuing others to the Rehearing term. The juries were discharged and paid off this morning.

H. Woodward, the young man whose case has been a noted one at the present term, came before Judge Magoon at 12:30 p. m. for sentence. This matter had been postponed two weeks. Attorney Creighton stated that his client had made this morning an honorable offer of marriage to the young lady. Judge Magoon said he had postponed sentence in the hope that matters between the two young people would be settled. Such, he had understood, had not been the outcome. The points were argued by respective counsel. Judge Magoon said it was his desire that the complainant and plaintiff settle the matter between them. For that purpose he would adjourn the case to 2 p. m.

Upon failure of the plaintiff and defendant to agree the young man Woodward was sentenced to the State Prison at 10 o'clock to imprisonment for one year at hard labor. A motion for a new trial will be made.

Who Will Get It? People are beginning to wonder who will be the lucky one to carry off the magnificent \$350,000 mahogany piano that J. B. Kerr is to give away to his customers. Get a coupon.

HISTORICAL MATTERS. Local Society Meets, Elected Officers and Transacted Business. The Hawaiian Historical Society held its annual meeting at the Y. M. C. A. hall yesterday evening. President Dole occupied the chair. The annual report was read by Prof. Alexander. Not much had been accomplished in furthering the objects of the Society last year. A letter from Hon. W. R. Castle was also read which enclosed a copy of Capt. Cook's coat of arms now in the possession of Mr. J. M. Stevenson, the great grandson of cousin of Capt. Cook. The Treasurer's report showed total receipts of \$284.01; expenditures \$236.20; deposit in Savings Bank \$301.30. The Librarian's report called for the Society's collection of pamphlets, and the Society voted to have it done.

The old officers were re-elected: President, Hon. W. B. Castle; Vice-Presidents, President Dole, Mr. W. P. Allen, Mr. Joseph Emerson; Treasurer, G. P. Castle; Librarian, Miss M. E. Burbank; Corresponding Secretary, Prof. W. D. Alexander, Recording Secretary, Rev. C. M. Hyde. The Society elected as active members: Mr. W. P. Allen, Mr. Joseph Emerson, Mr. McCully-Higgins, Miss D. Lamb, Messrs. L. A. Dickey, E. P. Dole, W. Berlowitz, G. A. Carter, J. F. Scott, H. E. Waiti, H. H. Williams; also as corresponding members, Dr. H. E. Lyman, of Chicago, J. G. Swan, Port Townsend; Hallett Phillips, Washington; Rev. W. B. Olsson, Rev. E. G. Porter.

A paper, contributed by M. M. Gower, of New Haven, was read, giving incidents of travel and residence on the Islands in 1858 and '59. Subsequently, Miss Henry's paper on Tahiti was ordered printed.

It was voted to bind the papers, and to purchase some book-nodes preparatory to publishing the catalogue, which will include a list of the manuscripts as well as the pamphlets and bound volumes. The list of annual members was omitted in the last report.

Duck Suits of Ehlers'. B. F. Ehlers & Co. have received a new line of duck suits for ladies. The garments are perfect in every respect and are made in fashionable designs. Call and see them.

That Tired Feeling. Is dangerous condition directly due to depleted or impure blood. It should not be allowed to continue. It leads to all sorts of ailments, especially liable to serious attacks of rheumatism. Hood's Sarsaparilla is the remedy for such a condition, and also for that weak, sickly condition of the blood known as chlorosis.

Hood's Pills are purely vegetable, care being taken to prevent the most injurious.

HAWAIIAN STAR. Highest of all in Leavening Power.—Largest U.S. Gov't Report. Baker's Yeast Powder. ABSOLUTELY PURE.

LULLABIES OF NATIONS. VARIOUS COURT MATTERS. ALBERT LUCAS IS FINED \$500 BY JUDGE MAGOON.

The entertainment by the young ladies of Kawalaba Sunday evening was a signal success, and was enjoyed by about two hundred people. The program was planned by Miss Gillan, principal of the Seminary, and her corps of assistants.

The case of the Republic vs. Vivas and Teixeira, of the Seminary, was decided by a jury late Friday in favor of complainant. This morning Judge Magoon sentenced Vivas to pay a fine of \$50 and Teixeira \$25. Defendants gave notice of appeal and by stipulation, have been given thirty days in which to file objections. Bonds to that end have been filed. In the matter of J. O. Carter, administrator of the estate of the late Henri McGrew, the complainant has answered the motion of defendants for a new trial, arguing that such should not be granted.

Before Judge Magoon Friday H. A. Wideman was given judgment against A. Rosa for the sum of \$87.30 monthly annuity on a note for \$250 given Dec. 1, 1921. Albert Lucas appeared before Judge Magoon at 10 o'clock to receive his sentence. He was sentenced to pay a fine of \$5,000 and costs. The money was promptly paid and the young man was released.

This being the last day of the term the Court held until this afternoon in order to finish up its business. Judges Whiting and Magoon were both on hand and were kept busy sentencing, closing cases and continuing others to the Rehearing term. The juries were discharged and paid off this morning.

H. Woodward, the young man whose case has been a noted one at the present term, came before Judge Magoon at 12:30 p. m. for sentence. This matter had been postponed two weeks. Attorney Creighton stated that his client had made this morning an honorable offer of marriage to the young lady. Judge Magoon said he had postponed sentence in the hope that matters between the two young people would be settled. Such, he had understood, had not been the outcome. The points were argued by respective counsel. Judge Magoon said it was his desire that the complainant and plaintiff settle the matter between them. For that purpose he would adjourn the case to 2 p. m.

Upon failure of the plaintiff and defendant to agree the young man Woodward was sentenced to the State Prison at 10 o'clock to imprisonment for one year at hard labor. A motion for a new trial will be made.

Who Will Get It? People are beginning to wonder who will be the lucky one to carry off the magnificent \$350,000 mahogany piano that J. B. Kerr is to give away to his customers. Get a coupon.

HISTORICAL MATTERS. Local Society Meets, Elected Officers and Transacted Business. The Hawaiian Historical Society held its annual meeting at the Y. M. C. A. hall yesterday evening. President Dole occupied the chair. The annual report was read by Prof. Alexander. Not much had been accomplished in furthering the objects of the Society last year. A letter from Hon. W. R. Castle was also read which enclosed a copy of Capt. Cook's coat of arms now in the possession of Mr. J. M. Stevenson, the great grandson of cousin of Capt. Cook. The Treasurer's report showed total receipts of \$284.01; expenditures \$236.20; deposit in Savings Bank \$301.30. The Librarian's report called for the Society's collection of pamphlets, and the Society voted to have it done.

The old officers were re-elected: President, Hon. W. B. Castle; Vice-Presidents, President Dole, Mr. W. P. Allen, Mr. Joseph Emerson; Treasurer, G. P. Castle; Librarian, Miss M. E. Burbank; Corresponding Secretary, Prof. W. D. Alexander, Recording Secretary, Rev. C. M. Hyde. The Society elected as active members: Mr. W. P. Allen, Mr. Joseph Emerson, Mr. McCully-Higgins, Miss D. Lamb, Messrs. L. A. Dickey, E. P. Dole, W. Berlowitz, G. A. Carter, J. F. Scott, H. E. Waiti, H. H. Williams; also as corresponding members, Dr. H. E. Lyman, of Chicago, J. G. Swan, Port Townsend; Hallett Phillips, Washington; Rev. W. B. Olsson, Rev. E. G. Porter.

A paper, contributed by M. M. Gower, of New Haven, was read, giving incidents of travel and residence on the Islands in 1858 and '59. Subsequently, Miss Henry's paper on Tahiti was ordered printed.

It was voted to bind the papers, and to purchase some book-nodes preparatory to publishing the catalogue, which will include a list of the manuscripts as well as the pamphlets and bound volumes. The list of annual members was omitted in the last report.

Duck Suits of Ehlers'. B. F. Ehlers & Co. have received a new line of duck suits for ladies. The garments are perfect in every respect and are made in fashionable designs. Call and see them.

That Tired Feeling. Is dangerous condition directly due to depleted or impure blood. It should not be allowed to continue. It leads to all sorts of ailments, especially liable to serious attacks of rheumatism. Hood's Sarsaparilla is the remedy for such a condition, and also for that weak, sickly condition of the blood known as chlorosis.

Hood's Pills are purely vegetable, care being taken to prevent the most injurious.

ALL ALONG THE DOCKS. THE SHIPWRECK EXPECTED TOMORROW FROM THE SOUTH.

The steamer Ke Au Hou left the Inter-Island wharf last evening about nine o'clock with officers and members of the Health Board and their invited guests on board, bound for the leper settlement. The party numbered about thirty-five and included Minister Cooper and Miss Kate Field, the well-known writer. The Bishop of Panopolis went along, accompanied by five Catholic brothers, the latter to remain at the settlement. The local newspapers were represented by George Mansson, W. R. Farrington, editor of the Advertiser, and Ed. Towse, editor of THE STAR.

Quite a number of people were on the wharf to see the steamer depart. Dr. Wood, who was unable to go, and Mons. Vizzano, the French chancellor, were among the spectators. As usual, a number of natives were there with requests to be allowed an opportunity to see friends and relations, but they received a kind but firm refusal from President Waterhouse.

Barring accidents, the party reached Molokai at daylight this morning, and after a breakfast on the boat went on shore. The usual program is to inspect the settlement that lies near the beach and then take to horses and ride inland for three or four miles. The members of the Board of Health will have many matters of detail to look after. Luther Wilcox went along as interpreter. Executive Officer Reynolds and Agent Jack McVeigh went along to pilot the party about. Miss Jenkins was allowed to go on the trip; she recently made application to the health officials for permission to spend her life on Molokai, but her request was refused.

The following is a list of the party: J. T. Waterhouse, President Board of Health; Dr. Day, Dr. Howard, David Keliipi, members of the Health Board; Minister H. E. Cooper; Senator Henry Waterhouse; Bishop Rogers and five brothers; C. H. Reynolds; J. B. McVeigh; Prof. Richards; Drs. Pratt, Ryder, Cooper, Russell, Hibbet, Capron; Chas. Wilcox; Luther Wilcox; Rev. Waiaman; A. W. Carter; Prof. J. R. Musick; George Mansson; W. R. Farrington; Ed. Towse; Miss Kate Field; Miss Bessie Reynolds; Miss Jenkins. The Keau Hou is expected to return to port late this evening.

Christmas Detachments. Lewis & Co., the well-known grocers, are unpacking a large shipment of Christmas delicacies. Their store is being rapidly placed in order for the holiday trade. They are headquarters for fine goods.

THE ANGLICAN SYNOD. Protest from an Officer of the English Church. EDITOR STAR.—Will you allow me space to contradict the article in the P. C. A. of this morning's date under the heading "Couldn't turn him out." An article of so misleading a character cannot be allowed to pass without protest. Whoever is responsible for it has placed himself on record as hostile to the peace and well-being of the Church which all here treasure.

The town is unanimous in saying that the artillery was an imposing feature of Thursday's parade and should always accompany the regiment in a general turnout. Owing to the number of infractions of the law of late, a number of posters calling attention to the fact that bathing and fishing in the harbor are strictly forbidden, have been put up at the boat houses and along the water front.

To Be Given Away. Do your shopping at N. S. Sachs and get a guessing blank for the Lamp, or a coupon for the Big Doll.

PERSONAL. Mrs. Dr. Russell is ill. Miss Bessie Reynolds, daughter of C. B. Reynolds, is a member of the Board of Health party.

Mrs. A. S. Willis, wife of the American Minister, has not recovered from the effects of her late accident; she cannot walk without the aid of crutches.

THE DESPISED BUT NEEDED BRAKE. When the shoe and back pedaling fail to help a rider.

The brake is necessary to the fullest possible use of the wheel, but a careful rider may safely do much practical work without it. All arguments contending that application of the sole of the shoe to the tire is as effective as all the brakes are specious. It takes time, not to mention expertise, to place the foot in position, but the lever may be grasped and the brake jammed hard down almost as quick as thought. In an emergency the foot should both be in position on the pedal. Braking which may be performed under favorable conditions, but in a "close call" it is not to be depended upon.

Back pedaling is good for a fairly quick stop at moderate speed and may be trusted on easy declines, but the rider who attempts to down a steep hill should be prosecuted for endangering the safety of others whose right to use of the road is the same as his own. Riding a brakeless machine cultivates avarice, develops the art of back pedaling and tends to make the rider an expert, but unless he has an utter disregard for the rights of others holds him to a slow pace and compels him to walk down hill—American Cyclist.

The parent of all the varieties of apples is a sort of wild crab. It is known that this fruit was cultivated and improved by the ancient Greeks and Romans, and it is believed that even earlier nations were instrumental in its cultivation.

A man's genius is always in the beginning of life as much unknown to himself as to others, and it is only after frequent trials attended with success that he discovers himself equal to those undertakings in which those who have succeeded have found the admission of mankind—Hanna.

Benson, Smith & Co., the druggists, who are also the only ones in the city to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. For this reason they wish to publish the remarks of other dealers about their articles which he handles. Honors: C. F. Moore & Co., Newberg, Ore., say: "We will more of Chamberlain's Cough Remedy than all others put together, and it always gives good satisfaction." Mr. J. F. Allen, Fox, Ore., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hitchcock, Columbia, Wash., says: "Chamberlain's Cough Remedy is well and is highly prized by all who use it." For sale by all dealers—Benson, Smith & Co., General Agents, H. I.
