VOL. VI. HONOLULU, H. I., WEDNESDAY, APRIL 11, 1900. No. 2529

ADMIRAL DEWEY WILL RUN

SAYS HE IS READY TO ACCEPT A NOMINATION.

"If the American People Want Me For This High Office I Am Only Too Willing to Serve."

NEW YORK, April 2.—A World special from Washington says: "Admiral George Dewey is willing to be a candidate for President. He authorizes the World to announce to the American people that after mature reflection, and in response to the earnest entreaties from all parts of the country, his former decision not under any circumstances to run for the Presidency is rescinded. A World correspondent saw the admiral at his home at 6 o'clock this evening. Admiral Dewey dictated the answers to the questions and signed the notes.

"Admiral, in view of the many conflicting reports relative to your attitude toward a nomination for the Presidency will you make a statement to the World?"

"Yes, I realize that the time has arrived when I must definitely define my position. When I arrived in this country last September I said that nothing would induce me to be a candidate for the Presidency. Since then, however, I have had the leisure and inclination to study the matter and have reached a different conclusion, inasmuch as so many assurances have come to me from my countrymen that I would be acceptable as a candidate for this great office."

"If the American people want me for this high office, I will only be too willing to serve them. It is the highest honor in the gift of this nation; what citizen would refuse it?"

"Since studying the subject I am convinced that the office of the President is not such a very difficult one to fill, his duties being mainly to execute the laws of congress. Should I be chosen for this exalted position I would execute the laws of Congress as faithfully as I have always executed the laws of my superiors."

"Is there any political significance in your first answer?"

"No, I am simply filling the engagements made months ago—long before I ever thought seriously of the Presidency."

"On what platform will you stand?"

"I think I have said enough at this time, and possibly too much."

WILL MEET SOCIALLY.
Gathering of Chinese and Japanese next Saturday Evening.

A social gathering of leading Chinese and Japanese citizens will be held at the rooms of the United Chinese Society next Saturday evening. The invitations to the affair are in the hands of a committee of invitation consisting of three Japanese and three Chinese. The Japanese members of the committee are A. K. Ozawa, I. Mitsuishi and G. Jungi. C. Winam is one of the Chinese members of the committee.

There will be addresses made both by Chinese and Japanese, and refreshments consisting of Chinese delicacies will be served.

COAL AT AUCTION.
A favorable opportunity will be offered tomorrow to purchase a cargo of coal at auction. Will E. Fisher, auctioneer, will sell the entire cargo of 1,900 tons of Waratah and West Wallumbi coal on board the bark Portland, lying at Port Street wharf, to the highest bidder. Sale commences at 12 o'clock noon.

AT THE OLD STAND.
General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

BRITISH REVERSE AGAIN

BOERS CAPTURE CONVOY OF THE NINTH DIVISION.

Baggage and Six Guns Fall Into Enemies Hands. French Sent to Assist the Division.

BUSHMAN KOP, Saturday, March 21.—The British force commanded by Colonel Broadwood, consisting of the Tenth Hussars, Household Cavalry, two horse artillery batteries and a force of mounted infantry, under Colonel Pilcher, which had been garrisoning Thaba Nchu, was obliged, in consequence of the near approach of a large force of Boers, to leave last night. Colonel Broadwood marched to the Bloemfontein Water Works, south of the Modder, where he encamped at 4 o'clock this morning. At early dawn the camp was shelled by the enemy from a near point. Colonel Broadwood sent off a convoy with the batteries, while the rest of the force remained to act as a rear guard. The convoy arrived at a deep spruit, where the Boers were concealed, and the entire body walked into ambush and was captured, together with six guns.

The loss of life was not great, since most of the British had walked into the trap before a shot was fired. General Colville's division, which left Bloemfontein early this morning, arrived here at noon, and he is now shelling the Boers.

LONDON, April 2.—Lord Roberts reporting to the War Office from Bloemfontein, under date of April 1, says:

"Broadwood was told that the Ninth Division with Mastry's mounted infantry will march at daylight to support him, and that if he considers it necessary, he should retire from the water works. He moved there during the night and bivouacked. At dawn today he was shelled by the enemy, who attacked on three sides. He immediately dispatched two horse artillery batteries and his baggage toward Bloemfontein covering some of them with his cavalry.

"Some two miles from the water works the road crosses a deep nullah or spruit, in which during the night a force of Boers concealed themselves. They were so hidden that our leading scouts passed over the drift without discovering them, and it was not until the wagons and guns were entering the drift that the Boers showed themselves and opened fire. Many of the Boers were shot down at short range, and several of the guns were captured. The remainder galloped away, covered by Roberts' Horse, which suffered heavily.

"Meanwhile Lieutenant Chestersmaster of Birmingham's spruit uncovered a passage across the spruit occupied by the enemy, by which the remainder of Broadwood's force crossed. They reformed with great steadiness, notwithstanding all that had previously occurred.

"Broadwood's report, which has just reached me and which contains no details, stated that he had lost seven guns and all his baggage. He estimates all his casualties at about 350, including 200 missing.

"On hearing this morning that Broadwood was hard pressed, I immediately ordered the French with two remaining cavalry brigades to follow in support of the Ninth division. The latter, after a magnificent march, arrived on the scene of action shortly after 2 p. m.

"The strength of the enemy is estimated at from 800 to 10,000 with guns, the number of which is not yet reported."

LONDON, April 4.—General Colville and General French have given up the movement against the Boers east of Bloemfontein, and have joined the main army. It doubtless seemed to Lord Roberts a vain attempt to send 12,000 of his best troops into the wilderness with a field transport in a direction at right angles with his chosen line of advance, waiting yet, probably, for the accumulation of material for a swift advance on the Transvaal frontier.

THE TERRITORIAL BILL

CAME BEFORE THE HOUSE ON APRIL 3.

Vote to be Taken at 4 p. m., April 6.—Opening Speech by Knox; Chairman of Committee Urges Passage.

WASHINGTON, April 4.—The date for taking the vote upon the Hawaiian territorial bill under a special order which will bring the question to vote on Thursday afternoon at 4 o'clock. The debate was in committee of the whole, and only three of the six speeches were pertinent to the bill. Knox of Massachusetts, chairman of the Committee on Territories, delivered a carefully prepared speech in advocacy of its passage.

Robinson of Indiana, criticized a section of the bill which he said continued in force labor contracts existing in Hawaii, denouncing it as legalizing a system of wage slavery. Mendell of Wyoming, spoke generally in support of the bill. Lane of Iowa, one of the Republicans who opposed the Porto Rican tariff bill, made a vigorous speech, reaffirming his position and warning his Republican associates that the country would not support an unfair policy toward the Porto Ricans.

Thomas of North Carolina, Williams of Mississippi, and Boutelle of Illinois, discussed imperialism.

The debate is to last until Thursday, at which day at 4 o'clock, the vote is to be taken. Knox of Massachusetts, chairman of the Committee on Territories, who is in charge of the measure, made the opening speech in support of it.

Knox said: "The Hawaiian Islands are the Gibraltar of the Pacific in view of the key of the Pacific in peace, the paradise of the Pacific ever. Hawaii is now American territory, by the solemn agreement of two independent nations. But while Hawaii is United States territory, it does not possess a government of its own. It is a skeleton of the republic of Hawaii remains. The government provided by the annexation resolution was but temporary, intended to last until Congress should establish a government. There was entire absence of representation—no courts, no executive, no legislature, and in derogation of all the principles of a free government. Its only justification could be that its endurance would be of brief.

"The old Legislature has expired; there has been no election of a new one. New courts of justice have not been established. This method of governing Hawaii has proved inadequate, expensive and cumbersome. A large number of contract laborers, numbering at least 25,000 have been brought into the islands since the adoption of the resolution of annexation. It is time that this reproach upon America should cease, and that its territory should be free from the influx of labor long since denied by the laws of the United States.

"The duty is immediate and plain to provide for this new territory of the United States a law framed to meet the needs of the Hawaiian people, not of another people. No question of general policy to other insular possessions should have weight. Justice to Hawaii cannot be done except when her own needs, her own capabilities and her own rights are fully regarded.

"No fear of establishing a troublesome precedent for the future should deter in the discharge of this duty now laid upon Congress. No apprehension for a future election should have any consideration. We cannot now bind the future in this regard. No constitutional question is involved in the present consideration of a government for Hawaii. The spirit of the Declaration of Independence, as well as the duty of Congress, demand the present measure, for it is with the consent of the governed."

Knox was questioned about various sections and provisions of the bill, especially as to whether the Asiatics in Hawaii could enter the United States. He replied that the Chinese and Japanese in the islands were there for only a few years' stay. Some of them had left their native land permanently, and few of them would desire to continue their wandering to the United States, even if they were allowed to do so.

Robinson of Indiana devoted much of his time to a denunciation of the contract labor system in the Hawaiian Islands, which he characterized as practical slavery, and which, he said, the tenth section of the pending bill continued in force. "It means," said Robinson, "that the great mass of the cross of landlordism and money in Hawaii."

He charged the American Commissioners (Senators Cullom and Morgan and Representative Hitt) with having been seduced and lured by President Dole and Judge Peck, the Hawaiian Commissioners. But it must remain for Congress, he said, to determine whether money was to be placed above manhood and contract slave labor above free labor. Robinson read a letter from the Commissioner of Immigration, showing that about 30,000 Japanese had arrived in Hawaii under contract since the islands were annexed.

"The Republican party," said he, "refused to pass a law in the Fifty-fifth Congress excluding contract labor in the Hawaiian Islands; refused to enforce it in the islands under the Hawaiian Commission. But it must remain for Congress, he said, to determine whether money was to be placed above manhood and contract slave labor above free labor. Robinson read a letter from the Commissioner of Immigration, showing that about 30,000 Japanese had arrived in Hawaii under contract since the islands were annexed.

"To these islands for years people have gone like galley slaves, scourged to his dungeon, for not obeying the terms of civil contract into which they were induced to enter by the rapidity of navigation companies, and to the gain of plantation owners."

Lane of Iowa discussed the Porto Rican question, taking the position that while the Constitution did not extend ex proprio vigore to the islands, it should be extended by law, and that every consideration of justice and fair dealing demanded that the people of the island should be placed on an equality with those of this country in the matter of the tariff. He declared

WILL NOT REPLY TO DOLE

DECISION CHAMBER COMMERCE THIS MORNING.

Resolution by Bolte Giving Chamber's Opinion of McKinley's Telegram is Snowed Under.

The Chamber of Commerce this morning decided by unanimous vote not to reply to President Dole's letter in regard to the Court of Claims. A resolution offered by Mr. Bolte giving the Chamber's opinion of the meaning of President McKinley's message authorizing the court was voted down. The Chamber's present position is that it will watch developments, and not speak again in regard to the court unless an unusual necessity arises.

At the meeting this morning the subject was introduced by President Walker, who read the reply of President Dole to the Chamber's note of last week in regard to the Court of Claims.

Mr. Bolte took the floor and moved that the letter be received and placed on file. He then said that there was a great difference of opinion between the Government on one side and the community at large on the other, as to the duties of the Court of Claims, and the meaning of the telegram of President McKinley relating thereto. The community thinks there is no question of general liability; the Executive admits only such liability as exists within the laws, and proceeds accordingly. Here the speaker read the message of President McKinley, as follows:

"The President approves the appointment of the Court of Claims to consider the loss of the dispatch, saving in conformity with Hawaiian laws, referred to appropriations to be made by the Council of State, and had no reference whatever to the composition or proceedings or character of the court. He then offered a resolution giving it as the sense of the Chamber that the clause referred to applied to the manner of appropriating for losses only.

Mr. Albertson said he did not know how much farther the Chamber should go in the matter. It had expressed its opinion, and the Executive had replied with his opinion. In talking with eminent legal authority he had found that the Executive could have, and probably has already, the best of the argument. There are laws ridding the Government of liability in certain cases. The speaker judged that the Executive had an eye to these things in their plans. "I believe the Government is morally liable," continued Mr. Albertson, "and should pay, but when it comes to the legal phase of the matter I think there should be caution."

He went on to say that he would not like to see the Chamber go ahead and get itself in an embarrassing position. To run against the snags apparently in way of dictating legal constructions and conditions might mean to get burnt, and as one of them he did not want to see the Chamber forced into such a position."

Mr. Bolte replied that his resolution did not approach the legal aspect of the controversy, but was merely an expression of the Chamber's definition of President McKinley's intentions.

F. J. Lowrey thought the resolution was a good one, and that the Chamber on their understanding of the situation and the instructions. The Chamber had expressed its opinion and received a reply, giving in detail the position of the Government. The mere fact of the Chamber expressing a disagreement from this view would do no good.

F. A. Schaefer was of the same opinion. He was opposed to the Chamber further committing itself in the matter. The Council of State was now handling it, and that was sufficient.

President Walker said that the danger of the Chamber committing itself on legal technicalities was very apparent to him.

E. C. Macfarlane said this was not the time for extending the controversy. The question might be taken up later, if the necessity arose. The letter of the Chamber to the President was not in fact the Chamber was not in position to answer it. The Council of State was dealing vigorously with the matter and he thought the best thing the Chamber could do would be to stay out of it.

Lowrey moved to table the resolution. Mr. Albertson seconded. Resolution tabled, all voting aye except Mr. Bolte.

President Walker stated that there were many community subjects that might be discussed with interest and profit by the Chamber. For instance, himself he thought of the tendency of the newspapers to rather magnify health reports. The other morning he saw in big, black head-lines the words "Plague to Windward," or about that. The tendency of such startling announcements would be to unnecessarily increase the difficulties of the situation, and he thought that great care should be exercised in such matters. There was no comment from the Chamber on the matter, however, and the meeting adjourned.

THE QUEEN IN IRELAND.
DUBLIN, April 4, 11:45 a. m.—Queen Victoria landed in Ireland this morning for the first time in thirty years. The disembarkation from the royal yacht was accomplished at 11:30. The commander of the forces in Ireland, the Duke of Connaught, the Lord Lieutenant, Earl Cadogan, and his staff, greeted her Majesty, and the ride from Kingstown to Dublin commenced in splendid weather and before huge and good-natured crowds.

SOIL COMMITTEE WORK

AN OFFICIAL STATEMENT GIVEN OUT.

In a Week Will Be Able to Report on Chinatown Soil, and Probably Reopen the District.

The committee appointed by the Board of Health to examine the soils of Chinatown and determine what steps shall be taken looking to the opening of the burned districts has been besieged by people owning land or leases with requests to know when action in the matter would likely be taken. There was talk among them today of an appeal to the Board of Health for information.

The committee is composed of Prof. J. T. Crawford, Dr. Hoffman, and George W. Smith, all chemists and experts. This committee this morning consented to give out the following statement to the public, which seems to embody all the information so much desired by property holders:

"The committee is fully organized, is holding meetings, and is making proper investigations. No time is being lost. Within a week the committee will be able to report definitely on the condition of the soil and what must be done to place it in a healthy state. The result will be that the districts which either opened at once or the bacilli found there, if any, will be destroyed, and the districts then opened."

"Soil has been taken from various parts of the burned districts and examinations are being made at the laboratory. The intention of the committee is to find out, first, if the soil contains any bacilli, and secondly, if it contains plague bacilli. Dr. Hoffman has found bacilli in the soil already, but none of plague. The presence of other bacilli was to be expected. In fact, the committee would have been surprised had there been none.

"In addition to these chemical examinations, the committee is making experiments. Rats have been placed in cages upon soil taken from formerly infected premises, and the result is being closely watched.

"The conclusions and report of the committee will be ready within a week. If the bacilli of plague is found they will be destroyed. If none is there, the committee will recommend that the ground be opened at once. In either event it will be a very short time before the property may be safely returned to its owners and be built upon."

BOYS' CLUB MEETING.
An entertainment will be given at Relief Camp No. 2 next Saturday evening for the Boys' Club that formerly had quarters and met at Kaumakapili church. The effort is being made to get the boys together and this is the first meeting. There will be an entertaining musical program, and some specialties will be introduced that are both novel and interesting. One of these will be some experiments in mesmerism or hypnotism. The meeting is under the auspices of Theodore Richards. Paul Egry will be one of the entertainers.

TAKEN FROM THE RANKS.
Four Deserters from the Grant go to Camp McKinley.

The four hospital corps men who left the transport Grant without leave and were arrested by the police were this morning taken out to Camp McKinley. A sergeant and two men with a big quartermaster's wagon came to the police station for them. They were kept at Camp McKinley as prisoners until it is decided by proper military tribunal, what shall be done with them. They are charged now with desertion. Their names are Clyde Bearner, Louis M. Scholl, John H. Callahan and A. F. Stephen. They are all young fellows, not more than twenty-one or twenty-two. When the Grant came up to the wharf orders were given that none of the enlisted men should go ashore. This order these four men disobeyed. They got ashore and were having a good time when they were arrested by the police on warrants sworn out by commanding officer on the Grant. Owing to the quarantine regulations they were not permitted to be taken back aboard the vessel.

MANY LIVES SAVED.
In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

NEW LIVERY.
The City Carriage Company are prepared to furnish stylish, up-to-date buggies, rigs and surreys at all hours, delivered at the door.

JOHN ANDRADE Manager.
Telephone 113.

GONE TO THE BOTTOM.
That is where the prices are now, at The Golden Rule Bazaar, on first-class, but odd stationery. The best stock at one-half, and less than one-half the regular prices. A hint to the wise should be sufficient.

A WATCH FOR \$4.50.
The very fine and reliable watches that are sold by L. B. Kerr & Co., Ltd., with guarantee of 5 and 10 years, for \$4.50 are wonderfully cheap. Higher priced watches correspondingly low in price for their quality.

PACIFIC HEIGHTS.
Bruce, Waring & Co. desire to inform their patrons that the construction of the electric railway, and other improvements now going on, upon their Pacific Heights property, will in no wise be interfered with, or the sale of lots restrained by reason of any suit or action as between former owners.

All purchasers of lots upon Pacific Heights are guaranteed the service of an electric railway and abundance of water; also, a perfect title.

KALIH CAMP MUST CLOSE

SO THE CABINET DECIDED THIS MORNING.

Two Hundred Able Bodied Natives and Japanese There Must Go to Work—Saloon for Palama.

The Kalih detention camp was the principal topic before the Cabinet today. A petition of a number of Japanese and natives to be allowed to remain there brought up the discussion. Superintendent McVeigh reported that these people were able bodied men and that there was no good reason for supplying them with a home any longer. He submitted a statement of the expenses of the camp, showing that it cost to be \$20 a month, as follows: Doctor, \$400; one nurse, \$150; one nurse, \$90; two wash-women, \$30; board \$120. It was recommended that the doctor and the nurse be dispensed with, which would reduce expenses to \$10.50 a day. There are in the camp two Japanese women with typhoid fever who cannot be removed yet awhile. Except as to these it is recommended that the camp be closed. The Cabinet decided to endorse this idea, and referred the matter to the Board of Health for action.

H. Juen was granted permission to open a saloon on King street in Palama, nearly opposite the Oahu Lumber Company's yard. Juen was the proprietor of the Louvre saloon, and was burned out with block 10. His license is still in existence.

J. H. Thresher applied for the strip of land by the side of Hopp's furniture store on Bethel street. He was informed that nothing could be done in the matter of public lands until the territorial bill is passed.

The resignations of Dr. F. H. Day and F. M. Hatch, members of the Board of Health, were read. Mr. Hatch's resignation was accepted by President Dole some days ago.

Minister Young was instructed to carry out the recommendation of the Board of Health that the Iwilei swamp be condemned, and also to make investigations in regard to the low places in Keolu. If the latter district is found to be a bad as the Board reports, it also is to be condemned.

It was voted that, as soon as he has the money, the Minister of Interior proceed with the extension of Vineyard, School and Kuakini streets through to Kamehameha road, as requested by the Kalih Improvement League.

THE WEATHER.
Weather Bureau, Punahou, 1 p. m.
Wind fresh northeast; weather clear. Morning minimum temperature, 69; midday maximum temperature, 79; barometer, 9 a. m., 30.04 irregular (corrected for gravity); rainfall, 24 hours ending 9 a. m., .40; dew point, 9 a. m., 64; humidity, 9 a. m., 70 per cent.

CRONIE TO ST. HELENA.
CAPE TOWN, April 4.—General Cronje, Colonel Schiel and 1,000 Boer prisoners sailed for St. Helena last night.

BRYAN IN THE NORTH.
PORTLAND, April 4.—Colonel W. J. Bryan arrived from Puget Sound this morning. After breakfast he took a special train for Kamah and Washington, where he will make several speeches today. In the afternoon he will return to Portland and hold a reception, and in the evening will deliver an address at the Exposition building.

CHIEF JUSTICE JUDD BACK.
Chief Justice Judd, with Mrs. Judd, Miss A. E. Judd and J. B. Judd, returned this morning on the steamship Australia. The Chief Justice has been to the States for the benefit of his health, but his condition is still serious. The Judge was not able to leave the steamer this morning without assistance. He was helped down the gang-plank, and did not seem able to recognize anyone. He was driven to his home in a hack. The chief justice has been in the care of American specialists, but they have not been able to cure him. He suffered a stroke of paralysis some months ago.

LESS THAN USUAL PRICES.
Cashmere boquet soap, Cuticura soap and salve at less than usual prices for these standard goods, are among the attractions that bring the people to L. B. Kerr & Co., Ltd. this week.

HANAMAULU. Arrived-April 8, Strm Charles Nelson, from San Francisco; 1,290 tons mds.

MEMORANDA. Purser Tufts of the Mauna Loa, reports 164,850 bags of sugar ready for shipment on Kauai.

The steamer Charles Nelson got into too shallow water in making port at Hanamaula and was hauled off shore by the Waialeale. She is now discharging at Ahukini.

The transport Grant was not able to finish coaling in time to get away yesterday. She left this morning, the Government Band being on hand to play a farewell.

The fire in the bark Fortuna became worse again yesterday afternoon, and an engine was secured to pump water into the vessel. The work of discharging the coal is being hurried as much as possible, as damage to the wooden hull is feared.

The steamer Energia has been chartered by the California and Oriental line to take the place of the Lady Joicey running from San Diego to Japan, via Honolulu. The Energia is now in Hongkong. She is of 3,177 tons gross register and is a faster vessel than the one whose place she takes.

The American-Hawaiian Steamship Company which is soon to inaugurate its service between New York and Hawaii, with the steamships American, Hawaiian, Oregonian, and Californian, has leased a new covered pier at Bush's street, South Brooklyn, 520 feet long and 100 feet wide for handling its freight at that end. There is a car transfer service with tracks on the pier. The trucking will be done via South Brooklyn ferry foot of Whitehall street, New York.

(Additional Shipping on Page 5.)

THE HORN SUGAR FLEET

SIXTEEN SHIPS AND THREE BARKS.

Vessels That Will Take Over Sixty Thousand Tons of Sugar Round the Cape to the Other Side.

Sixteen ships and three barks will comprise the fleet to take the 1900 sugar shipments round the Horn. They range in carrying capacity from 1,750 to 5,100 tons, and altogether, will carry about 62,800 tons of sugar from various island ports to the Atlantic side. Nearly all the vessels are new ships, for here or are already in port, and one or two may have left Hilo and Kahului by this time.

The list includes the British iron ship Bengalore, Hawaiian barks Iolani and Nuuanu, and American ships Henry Villard, J. P. Chapman, S. D. Carleton, G. N. Phelps, R. D. Rice, A. G. Ropes, St. Francis, W. F. Babcock, Susquehanna, A. J. Fuller, Tillie Starbuck, Dirigo, Henry B. Hyde, John McDonald, G. B. Sutton, American bark Pactolus. The heaviest carrier in the list is the ship G. N. Phelps, Captain Graham, which will carry 5,100 tons. She is coming here from Manila. The ship Dirigo, Captain Goodwin, which is coming from Hongkong, will take 5,000 tons. The Bengalore is coming from Newcastle; the A. J. Fuller from Yokohama, and the J. P. Chapman, A. G. Ropes, and Susquehanna from San Francisco.

The first to start from here will be the Pactolus, Captain Watts, which is in the harbor, almost ready for her long voyage. She will take 2,900 tons. The Nuuanu has been at Kahului some time and may have left by now, and the Iolani may have left Hilo. The Henry Villard, Captain Quick, may also have started from Hilo.

In addition to the Pactolus there are seven ships of the round the Horn fleet, in the harbor here. They are the S. D. Carleton, R. D. Rice, St. Francis, W. F. Babcock, Tillie Starbuck and Henry B. Hyde. The Tillie Starbuck and R. D. Rice have begun to load sugar, and the W. F. Babcock is just about to finish discharging the cargo of iron she brought from New York.

PUBLIC CONCERT. The band will present the following selections on Makee Island at 7:30 this evening:

PART I. Overture—"Poet and Peasant" ..Suppe Ballad—"Alice, Where Art Thou" ..Asher Selection—"Nabucco" ..Verdi Vocal Selection—"Bohemian Girl" ..Balfe

PART II. Selection—"Forester's Courtship" ..Intermezzo—"Cavalleria Rusticana" ..Fantasia—"In Switzerland" ..Mascagni Serenade—"Love in Idleness" ..Macbeth "Star Spangled Banner."

FINED FOR ASSAULT. Three Chinese were fined \$50 each by Judge Wilcox yesterday on charges of assault with deadly weapons. Their offense was committed a week ago in Maroa Valley in a fight over water rights. The Chinese injured received a severe cut on the top of the head, and was taken to the Queen's Hospital.

Short Breath from going up stairs, walking, sweeping, singing or talking comes from a weak heart. So does fluttering or palpitation of the heart, fainting spells, choking sensation in the throat, smothering or sinking spells and irregular or intermittent pulse. The circulation becomes sluggish, and head, throat, lungs, stomach and digestive organs are burdened with congested blood vessels.

Dr. Miles' Heart Cure Increases the heart's action, accelerates the flow of blood, clears out the clogged up passages and puts new life into the whole body.

"Three years ago typhoid fever left my heart in a very serious condition. I could not walk a block without stopping to get my breath; the least exertion about the house would cause palpitation and fluttering, and I was so nervous that I did not know what to do with myself. Seeing an advertisement of Dr. Miles' Heart Cure I made up my mind to give it a trial. The first bottle helped me wonderfully, and when I had taken two more bottles my heart trouble was all gone."

COURT OF CLAIMS DEBATE LIVELY TIMES IN COUNCIL OF STATE. Members Urge Settlement of Claims on Moral Grounds—Cabinet Backs Up Its Original Course.

Almost the entire time of the Council of State yesterday afternoon was taken up with discussion of the Court of Claims. The matter was brought up by Mr. Kaulukou, who moves that the Cobi resolution of last week be taken from the table and passed.

Mr. Jones took the floor in his characteristic way and opened out on the Executive. In his remarks his own ideas with respect to the claims came out. At the mass meeting Saturday night one of the Japanese speakers insisted that if the Government was not legally liable for every fire in Chinatown it certainly was morally liable, and should pay for every particle of property destroyed.

Mr. Damon strongly defended the course of the Government. He reminded the Council that the people caused the burning of Chinatown. Prior to the great fire there was a constant, steady cry from all over the city to burn infected premises, and more especially Chinatown. The Council seemed to him to have been misled by the Board of Health in connection with the suppression of the bubonic plague; that is, losses caused by the burning of houses, furniture and goods by direct order of the Board of Health, as well as losses caused by the accidental spread of fire on January 29, 1907, and losses caused by the fencing up of land on which houses have been burned.

Resolved, That it is the sense of the Council of State that the Hawaiian Government should pay all just claims for losses caused by the action taken by the Board of Health in connection with the suppression of the bubonic plague; that is, losses caused by the burning of houses, furniture and goods by direct order of the Board of Health, as well as losses caused by the accidental spread of fire on January 29, 1907, and losses caused by the fencing up of land on which houses have been burned.

DR. WOOD SPEAKS. Talks to Council of State on Filtration of Water. President Wood, of the Board of Health, addressed the Council yesterday afternoon on the subject of a filtration plant for Nuanuu valley. He spoke earnestly for about fifteen minutes, going into observations and figures of other cities. In his remarks he drew attention to the fact that the amount of fever in Honolulu last year was abnormal. It was more than the average for cities of 100,000. The doctor concluded with the following bit of prophecy:

"I will prophesy that we will have an epidemic of typhoid fever in Honolulu within two years if Nuanuu water is not filtered. Then why not pass it through sand filters? That done, you can allow people to live up Nuanuu valley and on the hillsides and the water will not come into your houses polluted. I saw the sand filters in Hongkong. They are finely built, cemented in, and the water lies in them as clear as sapphire. Before it enters the filters it is muddy and dirty. I don't see why we cannot do the same thing here. We have learned a pretty sharp lesson from cholera; we have had another from plague, and just as sure as the sun will rise tomorrow we will have another one from typhoid fever if we do not filter the water."

JAPANESE PETITION. Japanese yesterday presented a petition to President Dole for the appointment of one Japanese and one Chinese on the Court of Claims. Similar petitions were presented some weeks ago. Their principal argument is that the Chinese and Japanese would be of great assistance to the court in getting accurately at losses.

CRUELTY TO ANIMALS. The Society for the Prevention of Cruelty to Animals, has caused the arrest of Moses Punohu, charging him with keeping a horse confined in a small paddock and neglecting to feed it. The paddock was in Kalia, and complaint was made by the sisters in charge of the receiving station of the treatment the animal was receiving.

ROYAL SCHOOL. The committee of the Council of State on Public Instruction yesterday submitted a report on the new royal school, recommending the passage of the item carrying an appropriation of \$75,000. In the report the committee goes into the details of the plans, as published in The Star some days ago. M. P. Robinson, John Ena and W. C. Achi sign the report.

TO MAKE SOY. The manufacture of soy is to be commenced in Honolulu. Soy is a Japanese condiment of which immense quantities are used in the islands, and all of it is imported. Dr. Pratt examined the locality yesterday where it is proposed to do the manufacturing, in Pauoa Valley, near Punchbowl.

A GOOD THING. There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They stop to drink of "Rainier" beer. On draught or in bottle at Criterion.

The presence of a moonshiner still in Manoa valley is nothing wonderful. If any one takes the trouble to get into the heart of any valley or into the mountains it is like looking for a needle in a hay stack to find anything. They are very easily hidden, and they are being constantly moved.

The rain of yesterday and today has been perfect boon to Honolulu and the vicinity. It is years since such a dry spell has occurred. The fall of rain in the upper part of the valley has been very satisfactory, and the natural reservoirs have undoubtedly been filled up, which will surely tell upon the level of the artesian wells.

The Cubans are to have a restricted franchise. Secretary Root thinks that seeing such a very large percentage of the people are illiterate, the fact that there is an educational test will be an incentive to them to enter school, while the small property qualification will teach them to be thrifty. It is the first time that this has been put forward as an argument for a restricted franchise.

The burglar is likely to prove an Hawaiian after all—a product of our own soil. There are a few incorrigible crooks among the Hawaiian race, just as there are many among other races of the earth. Professor Lombroso would delight in getting hold of cases of such men as Kaluna and "Barefooted Bill." They would bear out his criminological theory very well. But theories very seldom hold water, and Professor Lombroso, after obtaining a great vogue, is now being severely attacked.

WATER.

The Star showed yesterday that arguments in favor of a filtration plant would be of the strongest character, and Dr. Wood certainly marshalled a goodly array in his address before the Council of State yesterday afternoon. The Doctor, however, acknowledged that as far as recent statistics went, the typhoid cases could not be traced to Nuuanu water, but he believed that though the water was very little tainted now, it soon would be.

Upon this point Dr. Wood brought forward good argument. It showed that as time went on the upper part of the valley, above the reservoirs, would be built over, and that the reservoirs would then soon become contaminated. If this were not guarded against by filtration we might look forward to an epidemic in the near future. Of course, it could also be guarded against by not allowing people to build above the reservoirs, but that is probably impracticable.

The Star quite agrees with the Doctor that a filtration plant is proper and necessary, but its contention is that if it is a case of filtration plant and no additional reservoir accommodation, the filtration plant will be of little use, because there will be no water to filter. What the city needs is water, and what it most needs is good water. Therefore, it needs both the additional reservoir and the filter, but if it cannot have both, the main necessity is the reservoir. As one understands the question it is a matter of funds, we must cut our coat according to the cloth. It is no use voting for a thing and then finding there is no money to pay for it. The Star in no way denies the necessity and the efficacy of a filter, but it sees reasons why it may not be desirable just now.

COURT OF CLAIMS.

The Court of Claims certainly has raised more violent feeling than anything that has been debated for a long time, and all classes of the community are embroiled over the matter. The Japanese have taken a hand, so have the Chinese; both of whom want a representative upon the Board; the merchants want to be represented and, in fact, consider that the Board should be composed wholly, or at least in majority of merchants. The Executive has taken the view that the Court of Claims can only decide as to the liability of the Government for claims, and therefore it wants lawyers to form the court.

The legal liability of the Government is set down in the statute book. It there states that the Supreme court shall have exclusive jurisdiction to hear and determine all claims against the Government founded upon any statute of the Republic; or upon any regulation of the Executive Department; or upon any contract expressed or implied, with the Government, and so forth.

As far as the legal aspect of the case is concerned, the law seems to be clear. But as put forward by a number of members of the Council of State, the Government has moral obligations. The Government cannot of its own volition go outside of its legal obligations; how then are its moral obligations to be carried out? There is only one method by which they can be carried out, and

that is by the vote of the Legislature, which will be the vote of the people. The Government can go as far as it legally can; if it goes beyond that it is liable to censure and its members to impeachment for illegal acts, but a Legislature of the people can step in and vote a sum of money to liquidate the moral claims of the Government. The question will be debated today, and there does not appear to be any likelihood of a solution being easily reached. The amendment to Mr. Achi's resolution, proposed by Mr. Bolte, will in all probability be passed, but what then? Should the Executive Council refuse to act as the amendment proposes, things will be at a deadlock. The Executive Council cannot be voted out of office by the Council of State. Of course the Council of State might refuse to vote any appropriations, but that would be detrimental to the interests of the territory. Our light upon the vexed question will have to come from Washington.

STRIKING JAPS.

The Lāhaina strike is likely to prove a somewhat serious affair. The information concerning it is not very definite, but this is certain, that some of the laborers have had power enough to form a party which is able to coerce the remainder of the laborers and prevent their going to work.

It has been frequently pointed out that the Japanese of the lower classes are apt organizers and that the masses are kept in terror by a few turbulent minds. It is this which accounts for the manner in which criminals are shielded. It is the hardest thing in the world to get evidence for conviction, and the apprehension of Japanese criminals is often extremely difficult, many getting off, and always through the shielding of apparently peaceable and law-abiding Japanese.

It is evident now that the ringleaders have gone a step farther and are capable of organizing an extensive strike and so manipulating it that the numbers under their control can be displayed to such advantage that they may over-awe their employers. We have had strikes before, but from all that can be gathered, this is by far the most serious one that has appeared.

LOOKING BACKWARD.

As far back as 1874, over a quarter of a century ago, there was a citizens' association started in Chicago. The object of that association was, as the prospectus ran, "to insure a more perfect administration of municipal affairs; to promote the general welfare and prosperity of the city; to protect citizens, as far as possible, against the evils of careless legislation; * * * to secure such legislation, both state and national, as the interests of the city may, from time to time, require; * * * to correct existing abuses, and to prevent their future occurrence."

It was launched then, and it drew down a considerable amount of acrimony, and from the machine side of politics there is every reason to understand why there should have been objection. The mere cold statement in the first article of the constitution of the association was calculated to give cold chills to the average venal politician. And though the politicians may have won, at times, the record of what the citizens' committee has done in that one city, has been a magnificent one.

There is no hesitation about what the "Citizens' Association of Chicago" means. In section 3 of article I, it is very distinct. It says: "This association shall not engage in furthering the interests of any religious sect or denomination, nor of any political party organization, nor of any organization engaged or interested in promoting temperance or sumptuary legislation." That such an announcement of policy would not be well received is a foregone conclusion. It arouses various antagonisms. It arouses both Republicans and Democrats. It will have nothing to do with either Roman Catholics or Protestants. It will have nothing to do with organizations which seem vital to a large number of people.

All this is true. But in spite of this, for over a quarter of a century, this association has been a power, and that in one of the most corrupt cities in the world. It is only an effort upon the part of the right thinking people, who believe in "republicanism," to have it true republicanism, and not a swap-off from royalty to bossism, where it is very difficult to find any advantage in the change. As a point of fact, there is absolutely none, and the scale goes down on bossism any day, for it is an infinitely worse rule than anything that has yet been invented.

The main point of view that should be kept by the citizens of Honolulu, is that nothing in their municipal affairs should be done without the careful scrutiny of those representing their best intelligence. If this has to be carried out it means effort on the part of the best citizens. It will be no use to complain that this thing has been done, or that thing has been undone. It is the duty of the citizen to see that it is done, whatever it may be, and being done, there is the end of it.

The time is close at hand when we shall have to fend for ourselves. We have been practically, in swaddling clothes for some years back, but we shall soon be in position to look absolutely after ourselves, without any reference to any others. An enlightened policy in carrying on our affairs will be of the greatest advantage to us, a mere throwing ourselves to this or that particular party will most assuredly bring us disaster. What we have at the present moment to consider is the conditions now existing, and we have to make the best of them. A society based upon the Chicago ideal would not be so much amiss and it would be essentially American.

Sale of Land in MANOA VALLEY.

HONOLULU, OAHU.

Opportunity is given to purchase in Manoa Valley a beautifully situated property containing all the necessary essentials for a homestead, and where healthful climate and picturesque scenery are in the midst of historic surroundings, and all in contact with improved grounds, planted with various foreign fruits, as well as supplied with fruit trees indigenous to Hawaii. The acreage of 45.64 acres in fee simple and 31.16 acres under long and favorable leases.

Included in the improvements on the fee simple portion is a roomy, modern dwelling house furnished with sanitary and other conveniences; there is also situated thereon a roomy carriage shed and stables.

The celebrated Waiakaeua (Water of the Gods) Falls is in near proximity, and the cool, clear, sparkling water therefrom flows through the grounds, supplying ample opportunity for increased irrigation to the acreage already planted and which is capable of considerable improvement.

For further information apply to J. H. Boyd, Interior Department, Honolulu, March 28, 1900.

FOR SALE.

The old established printing business of the late Robert Grieve, including Presses, Type, Ruling Machine, Book-binder's and Printing Outfit, complete.

Bids for the above mentioned business will be received by the undersigned, who will furnish particulars in regard to same.

JAMES McLEAN,

Administrator Estate of Robert Grieve.

THE AUSTRALIA ARRIVES

WHARF NOT QUARANTINED THIS TIME.

Small List of Passengers on Board. The Transport Grant Passes Her Just Outside the Channel.

The Australia today brought the following passengers from San Francisco: Mrs. Judd, Miss A. E. Judd, J. R. Judd, Mrs. M. S. Levy and child, W. Lindgren and wife, L. A. McCreaner, Wm. Morris and wife, Mrs. T. A. Pettus, Mrs. E. N. Sexton, E. J. Ward and wife, Wm. Booth, Miss M. Grau, Miss C. Howland, Chief Justice A. F. Judd, C. W. Marsh, Miss A. Rollins, J. E. Norstrom, N. P. Nelson, J. Tegan, D. W. Ross, J. W. Rowell, R. E. Cooper, J. D. Miller, O. Jacobs, H. P. Abbott, Miss M. Ticer, F. A. Kingstrom, A. W. Clark, N. Wollstadt, E. Kresendahl, M. Early, C. Richardson, Harry Pears, D. McKenzie, J. F. Brophy, John Roomanias, J. Cardelli, H. Higgins.

The Australia did not get in at her usual time, being late on account of some rather rough weather encountered, and saving of coal. Coal is expensive now. For the first time since last December she was docked at a wharf not in quarantine. She made fast six feet from the Oceanic wharf and there was no quarantine on the wharf. As a result the old-time crowds were on hand to welcome the arrivals. The steamer has not yet been released from all quarantine. None of the officers or men are allowed on shore and there is to be no communication that will mean risk of infection.

The transport Grant left just as the Australia arrived. The big white steamer pointed her nose down the channel as pilot Lorenzen was just heading the Australia for the harbor and the two steamers passed one another outside, the Grant heading south-west. It was hard luck for the people on the Grant, who were hoping for the news brought by the Australia, before starting on their trip of three weeks or more to Manila.

THE TERRITORIAL BILL

(Continued from page one.)

himself unequivocally in favor of free trade. He warned his Republican colleagues that no party could violate the sense of justice of the American people without going down to defeat. Lane's speech attracted considerable attention. Members from both sides of the House crowded about and listened attentively to his vigorous presentation of his position.

Mondell of Wyoming praised the form of government proposed by the bill, and the debate then drifted to the subject of expansion. Thomas of North Carolina and Williams of Mississippi made anti-expansion speeches.

Boutelle of Illinois replied to Williams in the concluding speech of the day.

At 5 o'clock the House adjourned.

INTER-OCEANIC CANAL.

Company Incorporated With \$100,000,000 Capital.

TRENTON, N. J., April 3.—The Inter-Oceanic Canal Company was incorporated today, with an authorized capital of \$100,000,000, to construct, own and operate a maritime canal between the Atlantic and Pacific Oceans, in the territory of Nicaragua or any other territory in Central or South America. The incorporators are William B. Crowell, Levi B. Gilchrist, James M. Rooney, James K. Traynor, George W. Bell, Charles P. Cadley and Richard W. Purcell, all of whose postoffice addresses are given as Jersey City.

The incidental powers conferred on the company under its articles of incorporation are the right to acquire concessions from any Government; to construct, own and operate railroads, telegraph, telephone, cable and steamship lines; to supply water to towns for irrigation, motive power and other purposes. It is also provided that any Government, while a stockholder of the company, may have the privilege of naming a director or directors. It is further provided that the annual meeting of the company shall be held in Jersey City on the first Tuesday in May. The directors are empowered to fix the amount of working capital, to issue bonds and mortgages, and to determine when and under what conditions the books of the company shall be opened for inspection. Five directors are provided for, and these in their may at any time increase or decrease this number and may appoint an executive of three or more with whatever power the Board of Directors may confer upon it.

ANOTHER BURGLARY.

Pacific Cycles Entered Last Night and Robbed of \$7.50.

There was another burglary last night.

The Fort street business house of the Pacific Cycles was broken into and a till robbed of \$7.50. Nothing else of value was abstracted. The methods adopted by the thief strongly suggest the tactics of "barefooted Bill" and Kaluna. This fellow Kaluna was released yesterday on bonds, and last night was his first out since the recent epidemic of burglaries.

The police feel fairly certain that Kaluna knows something of the robbery, and are working on that line.

PORTO RICO BILL PASSED.

WASHINGTON, April 3.—This was a notable day in the Senate. It brought to a close the longest and most prolonged debate upon any measure since those discussed during the memorable "war Congress" two years ago. At 4 o'clock this afternoon the votes were begun upon the Porto Rican tariff and civil government bill and pending amendments, and less than an hour later the measure about which there has been so much contention in and out of Congress was passed by a majority of nine, the final vote being 40 to 31. Only committee amendments were adopted.

The bill imposes a duty on goods coming from the United States into Porto Rico or from Porto Rico into the United States of 15 per cent of the regular duties.

PAWNED CHURCH PROPERTY.

When the sexton opened the Norwegian Lutheran church for prayer meeting one night he found the chairs, pews, organ and even hymn books gone. He discovered the missing articles in a local pawnshop, where thieves got them from them. They represented themselves as deacons eager to raise funds for the church, which they said was in financial distress.—Denver Post.

RUSKIN. Ruskin, the English art critic, lived at Mornex, near Geneva, during the summers of 1863 and 1864. He inhabited a small one-story house with but one front room, the little window of which looks out on the majesty of Mont Blanc. Close to the house is the road to Geneva, whence a bypath shaded with fir trees leads to the summit of Mount Mornex, where the old walls of Mornex castle still remain. On the other side of Mornex is a charming walk—Le Sentier de Chalignieres—bordered with Chestnut trees. Here Ruskin delighted to wander, and was photographed under his favorite trees many times. Some of Ruskin's friends, desiring to commemorate the author's stay in Mornex, asked the permission of the local authorities to place a black marble slab, suitably inscribed, on the house where he once lived. It is expected that the little Mornex cottage will attract many Ruskin admirers, who will be willing to undertake the pilgrimage for the sake of the master.—Chicago Record.

Hawaiian Electric Company.

The cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
 This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
 Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
 We have a complete stock of everything in the line and have just received a lot of the very latest designs.

THE MENTAL ANXIETY CAUSED BY THE BOER WAR NO CASE OF INSANITY COULD BE TRACED.

In a recent address before the Royal Society of Edinburgh Sir John Sibbald, commissioner of lunacy, said that the statistics do not support the view commonly held that suicide is more frequent in the town than in the country. Sibbald, said the lecturer, is not increasing in Scotland. In more recent times the same social stigma does not attach itself to suicide, for the reason that in a great number of cases suicide is the direct result of mental disease. Now in his inquiry, which was sufficiently widespread, Sir John found that the statistics of accidental deaths from drowning, hanging, poisoning and firearms had decreased in the exact ratio that suicide from these causes had increased, and his view, therefore, was that the apparent increase in suicide was a matter of registration, and that quite as many cases occurred before as occur now, though a number of them were entered accidental.

Dr. Clauston, medical superintendent of the Royal Edinburgh Insane Asylum, had been of opinion that the excited state of the public mind during the last year had produced a marked tendency to increase the number of insane cases coming under his treatment. Many people during the period that has elapsed since the Boers declared war have slept badly and have been unhappy about the misfortunes of the country and the army, and many more have been plunged into the deepest sorrow by the loss of relations at the front. A curious thing about all this is that, so far as the medical superintendent of this great asylum could make out, but one case of mental disease could be directly traced to the effect of the war. According to the statistics which were given at the meeting in question, the troubles, worries, anxieties, and shocks that afflict the spirit of man are not the fertile causes of insanity, but the body, with all its manifold inflections and curves, which upsets reason from her throne and self-control. In this connection it was not interesting to hear that the prevailing epidemic of influenza had caused far more lunacy than the combined public suspense and private griefs associated with the war.

HOT CROSS BUNS.
 "Hot Cross buns" are being advertised by all the bakeries in town, for delivery early Friday morning. The bakers themselves are very hazy as to just why this sort of commodity should be in demand on that particular day and on no other. They simply know that there is a demand, and that as a commercial proposition they are ready to fill it.

The custom out of which the demand grows is an old religious one, which has its origin in the early centuries of the Christian era, and survives as a part of the religious duty in Catholic countries. On Good Friday the abstinence from meat during Lent, is made more complete by abstinence from animal food, including eggs and milk. The bread for use that day should therefore be made without milk or eggs. It should be of nothing but flour. The cross on the bun was originally simply a mark to indicate that the baker gave his assurance to his customers that the buns so marked were made in accordance with the religious requirements for the food of the day.

WAR'S EFFECT ON AMUSEMENTS.
 The turn of the tide in the war has made all the difference to the caterers for public amusement at home. After Magersfontein and Colenso there were no more amusements and empty Pandberg and Ladysmith, struggling crowds and bumper receipts.

According to the manager of the Empire last Thursday (the night of the Ladysmith relief) was a record night for his theater.

Mr. Vernon Dowsett sums up his doings at the Tivoli as "wonderful business."

The same tale can be heard at most of the theaters. At the Gaiety, for instance, all seats are taken till May, and booking has already commenced for the month of June.

Even concert givers are beginning to have a happier time. Within the last few months lack of engagements for singers and musicians had usually gone hand in hand with innumerable invitations to sing gratis at patriotic performances.

Unfortunately the season is too far advanced to make it possible to recoup losses already suffered.—London Leader.

ROME IS HEALTHY.
 The sanitary conditions of Rome are often asserted to be exceptionally bad. The following comparative statistics of mortality in the chief cities of Europe during 1898 published by authority, and reproduced in the English papers of Rome, are a sufficient contradiction of this misrepresentation. They show that the healthiest city in the old world:

City	Population	Deaths every 1,000
Rome	489,965	18.26
Turin	253,424	19.07
Milan	464,466	21.58
Genoa	218,299	21.82
Palermo	287,972	23.29
Naples	563,019	24.74
Berlin	1,738,911	17.40
Brussels	205,451	19.48
Hamburg	662,210	17.65
London	4,483,920	18.72
Paris	2,511,629	20.93
Vienna	1,574,129	20.56
Budapest	657,413	21.76
St. Petersburg	1,162,391	25.27

—Chicago Record.

TWO KINDS OF GREEN.
 Greenberg and Damgreene were each fined \$2 and costs by Judge Wilcox for drunkenness.

HECTOR MACDONALD.
 After having returned from Omdurman, Gen. Hector Macdonald, known as "Fighting Mac," was presented to the prince of Wales, who said: "How is it, general, that we have never met before?" "Pardon me, sir, I think we have," was the reply. "Where can that have been?" asked the prince, surprised. "When you were in India. I did sentry-go outside your tent." "But why was a sentry needed outside my tent?" Gen. Macdonald's reply to this query is not reported. The answer might have been a little unconventional for the public ear. The prince, however, after regarding his gravity, said: "Gen. Macdonald, you were doing sentry-go in 1874; now you are a British general, and I am glad to have met you."

THE CUBAN FRANCHISE
 BEARING ARMS AND RECEIVING \$75 BOUNTY GIVES A VOTE, SO DOES PROPERTY QUALIFICATION AND EDUCATIONAL TEST.

WASHINGTON, March 25.—The principal object of Secretary Root's visit to Cuba was to obtain information and advice concerning the municipal officials and provincial legislatures, which it is proposed to hold early in May. As it will be the first practical experiment of self-government in Cuba, the President, Secretary Root and General Wood are extremely anxious that it shall be a success, and there are several important questions that must be immediately decided. There is a difference of opinion among the Cubans with whom Secretary Root has consulted as to whether the vote shall be taken on the first of May, as has been expected, or whether it should be postponed until July, which will give time to make more careful preparations and allow longer deliberation upon certain points that are in dispute.

Each of the six provinces is to be allowed to elect a local legislature, to enact laws for local government subject to the approval of General Wood and his council, and an effort is being made to induce the most intelligent and responsible men to become candidates. Thus far men of property have been reluctant about going into politics for fear of losing caste and suffering embarrassment, but Secretary Root is very much encouraged since his recent visit in this respect. It is practically decided that General Wood's recommendations concerning the limitation of suffrage will be adopted and that three classes shall be allowed to vote—namely, those who are on the pay rolls of the Cuban army and received the \$75 bounty from the United States, all who have made adult of voting age. This shows \$250 in either real or personal property.

General Wood thinks that under this limitation about 150,000 voters will appear at the polls. The population of Cuba is about 1,200,000, and about one in four male adults of voting age. This makes a total of about 260,000 voters. There were 40,000 names on the pay rolls of the Cuban army, which being deducted, leaves 220,000 men to whom the educational and property test must be applied, and it cannot be expected that more than half of them will endure either. The percentage of illiteracy as disclosed by the recent census will be larger than was generally supposed, and not more than twenty per cent of the entire Cuban population can read and write.

General Wood argues strenuously against cheapening the franchise. He says that the Cubans are all eager to vote, and that the development of the island can be promoted rapidly by offering the ballot as a prize for education, economy and thrift. The coming generation will seek the schools in order to qualify themselves, and the present generation who are too old to learn to read and write will save their earnings and buy property in order to qualify themselves.

A Columbia is a Splendid Investment
A Bad One is Dear at any Price

The public know this and that is why COLUMBIAS and RAMBLERS sell so fast. When you invest in one of these wheels you get the most perfect article in the wheel line.

When you can buy a first grade wheel for \$50.00 on easy installments or for \$45.00 cash why do you spend half your time in walking or riding in slow cars. Get on to your self, buy a "Columbia" or "Rambler," save time and money and take note of how your health improves.

FOR G R L F RASH

Heat Rash or any itching, irritation, inflammation, or chafing, produced by exercise or heat, for undue or offensive perspiration, and for many sanative uses, a bath with

Cuticura SOAP

the most effective skin purifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery, when followed by gentle anointings with CUTICURA, the great skin cure and purest of emollients, is most cleansing, cooling, purifying, and refreshing.

SAVE YOUR HAIR Warm shampoos with CUTICURA SOAP, followed by light dressings with CUTICURA, purest of emollients, will clear the scalp and hair of crusts, scales, and dandruff, soothe irritated and itching surfaces, stimulate the hair follicles, and produce luxuriant, lustrous hair, with clean, wholesome scalp, when all else fails.

SAVE YOUR HANDS Bathe and soak the hands, on retiring, in a strong, hot, creamy lather of CUTICURA SOAP. Dry thoroughly, and anoint freely with CUTICURA, greatest of emollient skin cures. Wear during the night old, loose, kid gloves. For sore hands, itching palms, and chapping nails, this treatment is simply wonderful.

Sold throughout the world. Price, CUTICURA SOAP, 25c. CUTICURA, 50c. CUTICURA, 75c. CUTICURA, 1.00. CUTICURA, 1.50. CUTICURA, 2.00. CUTICURA, 2.50. CUTICURA, 3.00. CUTICURA, 3.50. CUTICURA, 4.00. NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

This is the evening of the election in Company F.
The band will play at Makee Island this evening.
Hot cross buns at Hart & Co. on Friday morning.
Over a hundred steerage passengers have been booked for the Australia.
There will not be a meeting of the Commissioners of Education this week.
Eastern oysters will be served at Nolte's after the arrival of the Australia.
Lodge le Progres meets this evening at 7:30 o'clock. Work in the third degree.
Dr. Davis has had several calls today but none of them amounted to anything.
The Australia brings Camarinos' refrigerator filled with the seasons delicacies.
Honolulu Commandery K. T. will meet tomorrow evening for election of officers.
A concert will be given by the band at Makee Island this evening, beginning at 7:30 o'clock.
Morris K. Keohokaloa left by the Nippon Maru yesterday for a visit to his mother in Utah.
Ah Cheong was fined \$15 and costs in the District Court this morning for fast furious driving.
New goods are being received by the Hawaiian Hardware Co. Ltd. Their stock is full and complete.
Allan W. Clarke returned by the Australia today from a visit of nine months to his old home in the east.
Wray Taylor's amateur orchestra will assist in the program at Kamehameha school tomorrow evening.
It is understood that E. C. Winston will be reappointed a member of the Board of Health to succeed Mr. Hatch.
This is the twelfth day since the last case of plague. It is hoped that the hoodoo on the 13th has spent itself ere now.
Rev. W. M. Kincaid of the Central Union Church speaks at the special service in the Salvation Army hall to-night.
Tomorrow at 12 o'clock noon Will E. Fisher will sell at auction on board the bark "Fortuna" the entire cargo of 1999 tons of coal.
The case of the owners of the William Carson vs. Wilder Steamship Company is still on in Judge Silliman's court this afternoon.
Mr. Wood appeared before the Council of State yesterday afternoon and made a strong appeal in the interest of a filtration plant for Nuuanu valley.
Saluina a native woman pleaded guilty to larceny in the second degree this morning in the District Court, and was sentenced to one year's imprisonment.
In the case of San Furushima vs. Captain C. Taylor, \$5,000 damages, defendant has filed an answer stating that two separate causes of action are united in the complaint, rendering the bill imperfect.
Mrs. Levy, wife of the well known rabbi of San Francisco and mother of the Hawaiian hotel clerk who was a suspected plague case, arrived here this morning on the Australia. Mr. Levy is on the road to recovery.

WALFS SHOT AT.
BRUSSELS, April 4.—The Prince of Wales was shot at while leaving the railroad station here. He was not hurt. He had boarded the train which was leaving the Northern station for the Southern Railroad station, when an individual fired a revolver at him but missed.
The Prince and Princess were starting for Copenhagen for the purpose of attending the celebration of King Christian's birthday, which occurs April 8.

QUARANTINE WHARF.
Mr. Swanzy reported to the Chamber of Commerce this morning that quarantine wharf had been turned over to a sub-committee of the original committee, and that everything was getting along nicely. So far, two vessels have been discharged at the wharf.

PROPHYLACTIC BUSINESS.
Dr. Jobe has inoculated sixty people with Haffkin's prophylactic since yesterday. Receipts from this business are approaching the \$2,500 mark since the charge of \$2 was put into effect.

STILL SHOWERY.
Professor Lyons telephones late this afternoon that the weather is still showery.

SCHOONER OVER-DUE.
The new gasoline schooner Eclipse is over-due from San Francisco. She has just been built for the McChesney inter-island line, and is supposed to have left San Francisco on the 25th. Her long trip may be due to the fact that she is sailing here instead of using gasoline power.

FRICITION WITH JAPAN.
YOKAHAMA, March 14.—Judging from the strictures of the native press, there is fear of some friction between Japan and the United States over the Hawaiian question. There are now some 60,000 Japanese on the islands. It is claimed that the United States are ignoring pledges given to the Japanese Government at the time of annexation.

MINSTRELS LEAVING.
The Mowera is billed to leave for the Coast today. She is to take the Hogan minstrels on to Victoria.
