"WON'T YOU COME HOME JOE"

SOME STRANGE AND ALARMING REPORTS RECEIVED BY WIVES OF MEMBERS OF THE HAWAIIAN BAND—TEN HONOLULU ANGELS WHO ARE WONDERING WHETHER THEY WILL EVER GET BACK WHAT IT COST TO BE AN ANGEL.

Angels are supposed to be happy and to spend their time in beatific appreciation of the strains of thousands of harps, but there are ten angels in Honolulu who shudder whenever they hear anything about music and who are slowly acquiring some very unangelic wrinkles in their brows, for they are angels of the Hawaiian Band, Joe Cohen, manager, and rumors have begun to come across the vasty deep that all is not well with the ear-tickling bunch that Cohen took away. The ten angels put up \$500 each, it is said, as an investment in the tour of the band. Now there are some reports which make them fear that the \$500 is gone glimmering among the dreams of things that were, and they are ready to sing "Won't You Come Home, Joe Cohen, Won't You Come Home," before the energetic Joe spends any more.

The cause of the angelic wrinkles lies in the fact that the wives of some of the band boys have been receiving letters which indicate that the band ghost refuses to emulate the example of the father of Hamlet and walk, and is unlike Banquo in that it will very easily

down. The letters set forth that times are beginning to be such as try musicians' souls. When pay day comes, Joe wears a smile and carries an empty sack, and when the men attempt a merry touch he tells them their fare is paid to the next town all right, and that paying the fares took all the root of evil he could raise.

The letters may not contain the truth. It is thought possible that some of the band boys may be doing over a long distance what many men are said to do when they get home late at night, in the matter of explaining to their better halves what they have been doing.—In other words, that the band boys blew in the dough they should have sent to wife and then wrote her that the ghost wasn't walking.

However the case may be, the angels are worrying—worrying good five hundred dollar worry, and if Joe ever gives them their money back they are liable to be so surprised that a heart shock may change them in the twinkling of an eye from theatrical angels into cherubs of the sort that Joe's friends say he will never be.

APPLIANCES IN READINESS FOR METCALF

LOCAL AGENTS ARE NOW READY TO MEET EXPERT SALVERS OFFICIALLY.

Every thing is in readiness here for the arrival of Captain Metcalf and Captain Pillsbury on the S. S. Ventura today. The Fearless and the Pioneer are now standing by ready to carry out the orders of Captain Metcalf. Arrangements have also been made for securing the scow Melanethon, and various small schooners for possible use in lightening the cargo and coal now on board the wrecked liner. It seems probable that everything necessary to lighten the vessel will be done and in anticipation that such will be the case, the local agents have taken steps to furnishing Metcalf with the necessary means. Several hundred stevedores are within immediate call of Captain Riley for service in discharging the liner. Fully a days time will be required for discharging the liner if Captain Metcalf wishes such a course taken.

F. W. Klebahn of the shipping department of H. Hackfeld and Company, returned last night from the scene of the wreck, accompanied by Purser L. G. Blossom. Klebahn returned for the purpose of boarding the Ventura and meeting Metcalf and Pillsbury. Blossom is arranging here in connection with the routing of the through passengers. The S. S. Hong Kong Maru will be due tomorrow afternoon from San Francisco en route to the Orient. She is likely to be dispatched the following morning for the Orient.

The officials of H. Hackfeld and Company, who have had anything to do with the wrecked vessel, have been under a great strain for the last five days and are now heartily glad that Metcalf is to arrive and assume the responsibility of the safety of the liner. E. B. McClanahan the attorney has been in constant consultation with W. Pfothenhauer of the firm and the very trying work of preparing reports of the vessel, notifying the main office regarding the condition of the liner, as well as communicating with Captain Saunders on the vessel and arranging about securing craft and tackle and labor in connection with the work of saving the vessel for Metcalf and preparing to furnish him with every possible assistance and co-operation, has been successfully carried out by Pfo-

TRYING TO STOP VENTURA

EFFORTS TO BE MADE TO TAKE METCALF AND PILLSBURY OFF BOAT OFF MAKAPUU POINT.

Efforts are to be made to intercept the S. S. Ventura off Waimanalo and take Captain Metcalf and Pillsbury and party direct to the wrecked S. S. Manchuria, and avoid the delay of their coming to Honolulu and then going over the Pali to the scene of the wreck. This attempt is being made at the suggestion of Captain Saunders of the S. S. Manchuria. He sent a telephone message this morning recommending that such action be taken, for he considered that a needless delay would be avoided if the Ventura could be intercepted. If the attempt that is now being made proves successful it will mean that the party from San Francisco will reach the Manchuria four hours earlier than if they remain aboard the Ventura and come on to Honolulu.

It was of course supposed that the Ventura would make Makapuu Point by 5 o'clock or earlier this morning. But when she failed to appear and the morning wore along, Captain

SMITH BEFORE THE BAR

HILO ATTORNEY'S CASE TO BE REPORTED ON AT A MEETING THIS AFTERNOON.

The fate of Carl Smith, as far as the Hawaiian Bar Association is concerned is to be settled at a meeting to be held at four o'clock this afternoon, when the committee appointed to investigate the actions of the Hiló attorney in the Korean cases is to make its report. One rumor has it that there will be a majority and a minority report, while another rumor says that the matter is likely to be dropped. A letter from Smith will be received, it is said, giving his explanation of his actions, and this may lead the members of the association to oppose any movement to discipline him. The main proposition on which some members want to expel him from the association or even go farther, is that his letter to Milverton, suggesting that his own clients deserved hanging, and indicating their confessions of guilt, was a violation of confidence between attorney and client. It is said, by Smith's supporters in this connection that his letter did not give anything the Koreans told him which they had not also told to many other people.

Two of the five men who were sentenced to be hanged after Smith defended them, were given commutation of sentences to fifteen years' imprisonment, when the cases were taken up again here. This was the occasion of the inquiry which was started by resolutions offered by Judge Perry at the last meeting of the Bar Association. There is considerable difference of opinion among the local bar on the subject.

ROYAL BAKING POWDER Absolutely Pure HAS NO SUBSTITUTE

A Cream of Tartar Powder, free from alum or phosphatic acid. ROYAL BAKING POWDER CO., NEW YORK.

THE RULE WORKS BOTH WAYS

THE QUEER STATE OF AFFAIRS BROUGHT ABOUT BY TOO MUCH POLITICAL PRECAUTION.

The primary test vote which the second precinct of the Fourth district is getting up for next Saturday night, is going to make that precinct a great battle ground. The precinct's rule regarding the test is interpreted by some of the leaders to mean that the announced candidates must carry that precinct or else it is against them.

Every Republican candidate who has announced himself will be on the primary ticket for a nomination. It is understood, say the leaders, that the precinct's delegation to the convention is instructed for any candidate who gets a majority of the precinct votes. It is also understood, say the same leaders, that any candidate who fails to get a majority is instructed against. The second of the fourth is the biggest and most important precinct in the whole Territory. Consequently every aspirant for a nomination is up against the necessity of a hard fight in this precinct.

Brown's friends are pointing out that the precinct's new scheme amounts almost to giving him the precinct's vote and the same is true of some other aspirants. Brown is the only announced candidate for sheriff. It is too late for any other to get into the primary now. The precinct has agreed that no one not in the fight by today can be voted for. Hence there is only Brown to vote for, and Brown will undoubtedly go to the convention with this biggest of precincts, the center of alleged opposition to him, instructed to vote solidly for his nomination. It is a case of a rule working both ways.

VENTURA IS SIGHTED

"Here we have our hands full of the problems that arise from race conditions. We have representatives here of the great races of the world. Our industrial condition is complicated by this cosmopolitan population. The liquor, education and social matters and public lands questions are difficult things to deal with by reason of these various nationalities in large numbers living here.

"We have produced these conditions ourselves. The sugar interests are no doubt responsible for bringing these people here, but they are not to blame. They did the enterprising thing in developing the country.

Repatriation Of Islanders

The Australian Commonwealth Government has finally taken up the question of how the Polynesians of Queensland are to be deported...

Deakin, prime minister of the Commonwealth, and Mr. Kidston, prime minister of Queensland, the Commonwealth government has taken the responsibility for the whole subject...

The Commonwealth proposes to begin the deportation—ah beg pardon—the repatriation at once, and has advertised for bids for a steamer to call at certain specified ports in Queensland...

It is clear that the agitation which has been going on for some time against the drastic features of the repatriation act have had their effect and the Commonwealth Premier promises that the repatriation shall be carried out in a humane manner...

Undoubtedly this task of deportation which the Commonwealth government has undertaken is one of the most extensive and striking attempts at deportation which has ever been known.

The Dollar Contribution

After so much muck rake notoriety given to corporations it was hardly to be expected that they could be touched for campaign funds by the Republican party.

Subject from either side. Still campaign funds are needed, and so it was up to campaign managers to devise means of getting them.

Representative James S. Sherman, chairman of the congressional campaign committee, hit upon the idea of asking for dollar subscriptions from the rank and file of the party.

"The republican party is passing the plate. Every loyal partisan has been asked by Representative James S. Sherman, chairman of the congressional campaign committee, to drop a dollar in the contribution box to swell the party's fighting fund."

"This plan is unique enough to be appealing. The man who howled loudest against the sin of holding up the corporations and taking from them their rascal counters now has a chance to make his virtue shine in silver."

"Two months ago the prophets were busy forecasting the methods by which the campaign cash was to be raised. The express companies were to be excluded from the provisions of the common carrier clause of the rate bill, and in gratitude they were to foot most of the campaign bills."

"There will be anxious days at republican headquarters in the St. James building, New York, until it is known whether or not party fealty has a cash value."

The new scheme has been in operation, or at least ready for operation for some time, and now this is the way they are describing it:

"Representative Sherman, chairman of the Republican Congressional Committee, has acknowledged the receipt of two contributions of one dollar each to the campaign fund. Mr. Sherman assured a reporter that the dollar subscriptions were coming in as quickly as could be expected, but that he was not as yet prepared to state the number received."

"This really splendid and wholly untainted munificence given Mr. Sherman great encouragement. It was at one time feared that his committee might face the difficulty already reported by the chairman of the corresponding committee on the Democratic side, who was without money to buy postage stamps and hesitated, as a reformer, to send out campaign material under frank."

"Time was when an intimation that the tariff was in danger was sufficient to cause the 'fat' to come flowing in to the Congressional Committee. But things are different now. Not even the success of Governor Cummins in Iowa suffices to make the corporations come down, and the terror of 'corrupt practices' is so great that it looks as though the tariff would have to be saved this year upon a basis of rigid economy hitherto unknown."

The meetings of the Board of Registration are to begin next Saturday, for the registration of citizens eligible to vote in the coming election.

TRYING TO STOP VENTURA

Saunders decided that it might be possible to intercept the boat. When his suggestion was received at the local office the agents communicated with Dr. Cofer the head of the quarantine service in these islands and made known the desire of Saunders.

At 11:40 o'clock this morning the quarantine officer and F. W. Klebahn boarded one of Hackfeld's automobiles and started for the scene of the wreck. If the automobile does not break down the party should reach the vessel within one hour and 45 minutes. A steam launch will be in waiting to take the boarding officer and representative of the steamship agency and of the vessel out into the open sea.

The boarding officer will remain aboard the Ventura and continue on to Honolulu. About two hours time is required from the Makapuu Point to the port. He will examine the vessel and in all likelihood grant her partique so as to enable her to come into the harbor immediately the pilot goes aboard her.

HONORS FOR CHIEF ENGINEER LITTLE

SYDNEY ADMIRERS OF OCEANIC OFFICER SHOW ESTEEM IN A VERY EFFECTIVE WAY.

When the S. S. Sierra reaches San Francisco next week from the Colonies and Honolulu, the arrival will be of particular interest for A. D. Little, who was formerly chief engineer of the S. S. Sonoma of the Oceanic S. S. Company. A very grateful tribute to his popularity is to be paid to him by a Sydney passenger, on behalf of Sydney residents.

Little was one of the veteran engineers of the company's fleet. He joined the company in 1885, going with the S. S. Alameda which was then on the through run to the Colonies. After the Sonoma was put into commission Little was promoted to that vessel. During his service aboard her she lowered the record from Sydney to Auckland. He made during his twenty-one years of service 96 round trips from San Francisco to Sydney.

Recently the many Sydney friends of Little decided to show him some mark of appreciation of his personal excellence and the courtesy that he had shown them during their acquaintance with him on the Sonoma and in Sydney. A gold sovereign purse, a gorgeously illuminated address and a check for 50 guineas were the form in which the Sydney people expressed their regard for Little. The remembrance was entrusted to Frank Coffee who is a through passenger on the Sierra this trip from Sydney. He will present the things to Little immediately after the vessel arrives in San Francisco.

CLAUDINE ARRIVED THIS MORNING

The inter-island steamer Claudine, Captain Parker, arrived at 3:20 a. m. with a large passenger list and a fair cargo of freight which consisted for the most part of sugar.

The Claudine's passengers are mostly school children who are returning to school after a two months vacation. Many are beginning to arrive in town already so as to get settled before school opens. The inter-island people look for large incoming passenger lists for the next three or four weeks.

The Claudine brought over 1100 bags of sugar and she is lying at the Hackfeld wharf discharging it.

Getting back the "old vigor."

Nothing causes so much discouragement, blues and despondency as the realization that one is "not so vigorous as a year ago."

The great trouble is that people in a run down condition usually sit back for a while and wait and hope that they will feel better soon.

Hoping will not restore the tired nerves to their true strength.

The nerves are tired and sick—they have been abused and they won't do their work in the right way until they have been fed new power and built back to their old strength; then you will feel the old vigor again.

You can get back the "old vigor" with Paine's Celery Compound quicker than in any known way.

The reason is—Paine's Celery Compound feeds new power to your nerves. It gives them vitality and strength. Get your nerves right and your "vigor" will be right.

"Restoring a worn-out person to the old vigor"—Miss Burnett sums up in this sentence exactly what Paine's Celery Compound does.

Oct. 1, 1904. Wells & Richardson Co., Burlington, Vt. Gentlemen:—"Paine's Celery Compound is certainly the acme of perfection in restoring a worn-out person to the old vigor. Last spring I worked very steadily, often from twelve to fourteen hours a day. I had enjoyed good health until that time, but soon found that excessive labor with irregular meals and too little rest led to my health. I became nervous and irritable, suffered from headache, heartburn and indigestion, with loss of memory, and at times everything would become black before my eyes. One of my club friends had been restored through the use of Paine's Celery Compound and I decided to try it and was agreeably surprised to find how soon it relieved me and assisted nature to perform her work and restore me to a normal condition. Within three weeks I felt well and strong again and I have had no trouble since."—Josephine Burnett, 300 Benoist Bldg., St. Louis, Mo., President St. Louis Young Woman's Literary Club.

When you stop and think of it—there must be a pretty good reason for Paine's Celery Compound being the most universally used tonic in the world for over 17 years.

Some few years ago the formula of Paine's Celery Compound was sent to every registered doctor in the United States (it is always sent to registered doctors on request)—that is why it is constantly prescribed by broad-minded doctors everywhere.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians known in medical annals—Prof. E. E. Phelps, of Dartmouth University.

All reputable druggists recommend and sell Paine's Celery Compound.

OPEN THE LANDS SAYS JUDGE DOLE

(Continued from Page Three)

"But the fact is that these people are here. What are you going to do about it? There are many people here anxious about the large number of children born of Asiatic parents and the possibility that they will become voters some day. These children of Asiatic parents are going into the schools in larger numbers than representatives of the Anglo-Saxon race.

"These people are afraid that within fifteen or twenty years these Asiatic children will rule these islands by their numbers and votes.

"I don't think this danger is great, but if they should become the dominating majority there might be a tendency of the islands to gradually slip away from American standards in political social and moral life.

"How shall we consider it? The American, or, I should say, the Anglo-Saxon and Teutonic elements, in these islands are made up of Americans, Germans and English and have combined to make the public sentiment of Hawaii, from a long time back to the present date, American.

"It appears to me tonight that family after family of this Anglo-Saxon or Teutonic race, in consequence of dullness of trade and pressing competition of Japanese and Chinese, are leaving the islands for the mainland. It is a great loss. I feel that if this diminution of our race goes on the future will be dark. We wish to keep the leavening element of men and women that will make the future all American.

"We should keep the islands under American tendencies. The Promotion Committee is doing all it can to bring people here to stay upon the soil and to come back upon it, but I think that something more radical than that is

necessary, and my faith is in a wise disposition of the public lands of the Territory. Mr. Pratt tells me that 263,000 acres of public lands are now available, free of leases, and I think that about one-tenth is suitable for homesteading. Pratt thinks about twenty per cent. The number of acres will be increased very much in a year from now. With 26,000 acres then, there is represented enough land for 500 families, the land being divided into 50 acre farms.

"I believe that to promote the immigration of American families, giving them the best lands of the country, giving them good roads and other facilities, is the way to meet this danger which on account of the departure of people and the growth of Asiatic sentiment, is becoming serious.

"Five hundred American families settled in these islands would almost safeguard the political future of Hawaii.

"The American colony at Waialua is an example of what an American community can do on public lands. The importance now of that little community to Honolulu's business prosperity is great.

"One of the most important policies for the future is to have enough white children in the schools to offset the influence of the children of other nationalities."

"I wish to refer to the character of the guest of honor here this evening. A few years ago I had occasion to go on a hunting trip to the island of Hawaii with the Prince and others. In the course of the trip we camped out and that gave me a chance to get acquainted with him, such a chance as I would not have had in many years' residence in Honolulu. The delegate entertained us with accounts of the time when he was imprisoned by the Republic of Hawaii in connection with the insurrection of 1895. He told us his experiences in a very entertaining way just as he would have told of his travels around the world, and without resentment or feeling in regard

to this hard experience that he had been through.

"I refer to it now because the delegate is the most popular man among the voters in the islands, and this attitude of his in joining in with the new departure of things, seems to me of the greatest value to his people."

Captain Humphrey spoke for the army, giving a witty and entertaining address, in the course of which he remarked that there might be a thousand soldiers stationed at Kahuiki and made a plea for closer acquaintance between army men and civilians. "The Navy" was responded to by Paymaster Brooks, who told some good stories. He said he had heard a report that the Pacific and Asiatic fleets of the United States might be consolidated, and that if this happened Honolulu would become a great naval rendezvous.

W. A. Mears of the Portland Chamber of Commerce responded to "The Envoy from Portland." He urged the backing of diversified industries, remarking that he was surprised at the unwillingness of local capital to back such enterprises. He thought a great quantity of steel ought to be produced in the islands, saying the Hawaiian steel was the best in the world and that one rope factory could handle more than ten times what the islands are producing. Mears referred to the projected opening of closed trade relations with Portland, and said that it would help Hawaii in Washington, by gaining for her the aid of the Oregon, Washington and Idaho delegations, which usually work together.

James E. Morgan spoke for the Honolulu Chamber of Commerce. He commented on the fact that Hawaii was the only Territory to get a federal site appropriation. He said the chamber was doing all in its power to aid in Washington all who were forwarding the interests of the Territory and he bespoke popular support for the chamber also for the Promotion Committee.

W. R. Farrington made a witty reply for the Press, bringing in some very good stories. He complimented the delegate on the record made at Washington and urged that Hawaii work through him in all matters.

This ended the formal toast list, but the toastmaster called upon W. O. Smith for some remarks. W. O. Smith praised Delegate Kubio in high terms and commended the Merchants' Association for its work.

After referring to the Manchuria disaster Toastmaster Smith called upon Captain Slatery. The captain told how on his first trip here he had been told by the captain of the Ventura that a light was badly needed at Makapuu Point. Had one been put there, he said, it would have saved more than \$20,000 it is to cost, whether the Manchuria is saved now or not.

ALBERT TRASK SEEKING TO ENFORCE THE REGISTRATION OF A DEED.

A mandamus proceeding was begun yesterday afternoon to compel Registrar Merriam to record a deed offered by Albert Trask, which the registrar refused to record for \$1 stamps on the ground that the amount should have been greater. The amount of stamps is fixed by the consideration and the deed names a consideration of \$25. Merriam, however, held that there had been a larger consideration and asked for an affidavit to the effect that it was only \$25. The result was the following letter, which has been followed up by a mandamus:

"Honolulu, August 27, 1906. "Chas. H. Merriam, Registrar of Conveyances for the Territory of Hawaii.

"Sir:—On this 27th day of August, 1906, at 3:23 o'clock p. m., a deed to me from Namakale (W). Akio, her husband, and Lul Akio, dated August 21, 1906, acknowledged before N. Fernandez, notary public for the judicial circuit of this Territory, and stamped, is hereby presented to you for record, and demand is hereby made that you, as such Registrar aforesaid, do immediately receive and enter of record in the Registry of Conveyances in your office the said deed.

"Notice is hereby given you that you, both personally and on your official bond, will be held liable for any and all damages, losses and (or) injury that may be sustained by me by reason of failure on your part to so register and record said deed.

"Yours truly, "ALBERT TRASK. "By ANTONIO PERRY. "His Attorney."

May Make Big Pull On Sunday

The delay of the Ventura in reaching Honolulu has caused considerable disappointment. It had been hoped that she would be sighted shortly after day-break from San Francisco.

There are about 8,000 tons of portable material, including 4,000 tons of water, aboard the Manchuria, that can be removed. If all of this stuff were taken out, she would probably be lightened from 8 to 7 feet. But it is not likely that all of this material will be lightened as there will be danger that the ship might capsize. Once let such a calamity occur and there would be no hope of saving her. She will undoubtedly, be lightened sufficiently to bring her up three to four feet. Full moon occurs on Sunday, September 2. With the full moon there will be a high tide. It is not improbable that the first big effort to pull the boat off will occur on Sunday at 4:30 o'clock in the afternoon when high tide large occurs. High tide small occurs at 3:21 a. m. of Sunday. The height of the tide will be 7 foot 8 inches on Sunday and on September 1 21 inches.

Another large crowd will undoubtedly visit the scene of the wreck next Sunday if the operations of the salvaging expert are under way at that time.

Great Hopes Expressed

Captain Lorenzen, the pilot, returned last night from the scene of the wrecked Manchuria. He had been with the British S. S. Restorer for a week. Captain Lorenzen went out with the Restorer and remained aboard her during practically all of the time. He was however aboard the Manchuria.

He is very sanguine over the chances of saving the Manchuria. In fact Captain Lorenzen is of the opinion that had the Restorer been given the opportunity she could have pulled the Manchuria off the reef and the Pacific Mail liner been tied up alongside the wharf in Honolulu ere this time. The Restorer has never made more than 40 revolutions of her propellers and she is capable of making 80 revolutions. With the increased power it is his belief that the big liner could have been pulled into deep water.

Captain Combe of the Restorer did not know last night when he would bring the Restorer back to Honolulu. He was awaiting cable orders from the main office in New York.

The tug Fearless with the scow Pioneer in tow, returned last night shortly after 11 o'clock from the Manchuria. The sea was very smooth yesterday and last night and there was only an ordinary trade wind prevailing. In fact Captain Olsen of the Fearless says that the sea was the smoothest that he has experienced in that vicinity since he has been going to the wrecked vessel.

ATKINSON TO EMMELUTH

Acting Secretary Emmeluth of the Democratic Central Committee made a kick some days ago to Secretary of the Territory Atkinson regarding the rule of compelling voters to sign their names when they appear at the booths on election day, claiming such a requirement was illegal. The secretary admitted the illegality, but gave the Democratic secretary a quiet jolt in his explanations of why the roster was kept.

SEVEN ONE DOLLAR LEGACIES

One dollar each to four sons and daughters and three grandchildren, and all the rest of her estate of about \$5,000 to another daughter, is what the will of the late Mrs. Matilda Hughes, which has been filed for probate, provides for. The estate consists principally of \$5,000 worth of McBryde, Ohaa and a California railway company bonds.

Bequests of one dollar each are made to Thomas Hughes, Emma Searle, the three children of Matilda Blaisdell, Edward Hughes and Alice Guild. All the rest of the estate is left to Julia Elizabeth Hughes, and the will provides that she shall be executrix without bonds.

The will was executed on February 26, 1904, and witnessed by Will E. Fisher and H. C. Carter. J. Alfred Magroon signed a statement at the bottom that he had made the signature or witness, while she held her hand on the pen.

JURY SCORES BOARD OF HEALTH

The Coroner's Jury which was called yesterday to investigate the death of Chu Ing Lum, who was found dead in Palama not long ago, took occasion to criticize the action of the officers of the Board of Health for allowing a body to be interred before the cause of death was satisfactorily known.

Chu Ing Lum was found dead in Palama on August 26. He had evidently been dead for some days. Dr. McDonald who had charge of the autopsy, could not determine the death of the Chinaman for he was too badly decomposed. So the order to inter was given and the man was buried.

When the Coroner's Jury met yesterday they found the following verdict: "We find that the deceased came to his death from causes unknown to this jury. But it strongly condemns the practice of the officers of the Board of Health in this instance, inasmuch as this body was interred without an autopsy being performed and no satisfactory cause of death having been named."

ENGINEER COOPER DIES SUDDENLY

Frank E. Cooper, an engineer employed at the Judd-street quarry, dropped dead this morning, and was removed to the morgue where an inquest will be held late this afternoon or some time tomorrow.

Cooper has been employed at the quarry for some time past and has always been known as a quiet, upright man. He seldom if ever drank and never to excess. This morning he turned from the engine he was running and went to one side where a wash-stand had been fixed up. He started to wash his hands and was in the act when he suddenly fell over. Fellow workmen immediately ran to his assistance but the man was dead before he was reached.

THE CLASH OF THE SHERIFFS

High Sheriff Henry this morning made a formal demand upon County Sheriff Brown for the goods in the Japanese restaurant on Hotel street which both sheriffs have been attaching and which Brown got hold of first. Brown replied that he would very much like to oblige the Territorial sheriff, but he couldn't see how he could let go of the property. Henry retired, and now it is up to the courts to decide.

S W Taxite

A great mixture, did you ever try it? Not very good to drink, but for the purpose of getting off old paint and varnish it is the real thing. It does not injure the hands, or the wood, you are removing paint or varnish from, and is far better and easier than burning off. After you are through with Taxite you will want to cover the bare wood with some good PAINT, VARNISH or STAIN, and we presume you know that SHERWIN-WILLIAMS makes the best goods in these lines and that they are carried in stock, and sold by
