

GUARDIAN'S ACCOUNT.

Master's Report on Estate of Cartwright Minors.

In the matter of the estate of Susie F. Ruth and Mary Cartwright, P. D. Kellett, master, has recommended that the accounts of J. M. Monsarrat, guardian, be approved, save for two or three matters that remain to be explained. Defendant has appealed in the case of M. G. Silva vs. C. S. Desky, damages, appeal bonds, with W. C. Weed, on as security, in the sum of \$600 have been filed.

The Christley-Magoon case is again on today before Judge Perry. It was deferred last month to make way for term business.

"BOHEMIAN GIRL."

The melodious opera, the "Bohemian Girl" will be given tonight by the Boston Lyric Opera Company. Few, if any operas contain as many melodies that have become well known and familiar, as this one does. It is almost half a century since it was first produced, but it has held its own as an ever popular favorite.

The fourth school children's matinee will be given next Saturday. The "Mascotte" will be the opera presented. Saturday evening "Amorita" a strictly comic opera will be given.

NEW ADVERTISEMENTS BY AUTHORITY NOTICE TO HACKMEN

By virtue of the Authority in me vested by Section 102 of Act 64 of the Session Laws of 1896, I do hereby give notice that Hack Stand No. 4, located on the back side of Hotel Street, opposite to the entrance of the Hawaiian Hotel, is hereby abolished.

And also that Rule 24 of the Hack regulations which was revoked September 27th last is hereby re-enacted and amended so as to read as follows:

"Rule 24. If any licensed vehicle shall be found standing in any place but on the appointed stand, the driver shall be liable to arrest by any Police Officer, unless said driver shall be under engagement. Nothing in this regulation however shall be construed to conflict with regulations 9, 10 and 11.

PARKER FOR GOVERNOR

FRIENDS BELIEVE HE CAN HAVE THE OFFICE.

Said to Have the Backing of Senator Hanna, Senator Davies and Senator Clark and Others.

His friends believe it will be Hon Sam Parker, first Governor of Hawaii. Letters received from the coast by intimate friends create the impression that Sam Parker can have the Governorship, if he will take it. He had an interview with President McKinley, which, while it was purely a personal one, is taken by his friends to indicate that the presidential eye is fixed on him. The interview was not sought by Sam Parker, but the President having expressed a desire to meet him, it was arranged. In this interview, at McKinley's request, he expressed his views fully and freely on Hawaiian matters, and it is reported that he made a deep impression.

Senator Hanna is said to favor Sam Parker for the Governorship, and so are a number of other influential senators. Among them are Senator Davis of Minnesota, chairman of the Foreign Relations Committee and Senator Clark of Wyoming, who is also a member of that committee. At Vice-President Hobart's funeral Sam Parker rode in the same carriage with Senators Davis and Clark.

Mr. Parker is expected to arrive home about December 23.

MYSTIC SHRINERS' PLANS

Plans are maturing for the organization of a body of the Mystic Shrine in Honolulu. The plans contemplate a real event in fraternal social circles. The Mystic Shrine is an organization that never does things in a common place way. It is not going to organize here in a common place way.

The plan now under consideration is the chartering of a steamship to bring a large number of Mystic Shriners from San Francisco to organize the shrine here. When they get here they will be handsomely entertained by the prospective members of the local shrine and the installation will be on a scale of pageantry commensurate with the other arrangements. It is intended that it shall be one of the greatest fraternal society events that ever happened in the Islands.

It has not yet been announced what steamer will be chartered. The new Wilder steamship Kalulani will arrive here about Christmas. But that may be sooner than the plans for organization will be ready.

HACKMEN'S TROUBLES.

Hotel Stand Manager and Men Disagree and Part.

There is a big piliika about the Hotel stables hack stand, one of the oldest vehicle centers in the city. The trouble started a few weeks ago between Manager Buckley and the hackmen on the stand. It appears that the hackmen, who have been there a long time, gradually became owners of their own vehicles. Then there was some stress from the manager as to his proportion of the revenues.

The revolt came suddenly, but very effectually. The hackmen moved down to the corner opposite P. M. Lucas' residence, but still within the legal bounds of the stand, built an office and opened a new place on their own account. The Hotel stables was then without hacks, except the few owned by it.

Representations were made to Minister Young which resulted in the abolition altogether of the Hotel stables stand. "It is because the street is too narrow at that point," is the statement given out at the Interior office.

A LUMBER YARD.

The fine homestead of the late Charles T. Gulick, on King street near Alakea, has been purchased by Senator Northrop, of Hawaii, and will be moved via Merchant and King streets to a new lot bought by the Senator in the tract at the corner of Sheridan and Kings, just Ewa of Independence park. The Gulick premises, which were purchased by C. M. Cooke for Lewers & Cooke, will be added to the lumber yard of the firm named. It was the first intention to improve the fine property but the business of the owners has increased to such dimensions that yard room is now the most important consideration.

WIRELESS TELEGRAPH CO.

MR. CROSS' SCHEME IS NOW ORGANIZED.

List of the Men Who Will Control the Marconi System Between the Islands the First Year.

Articles of incorporation of the Inter-Island Telegraph Company, Ltd. were filed with the Minister of Interior yesterday afternoon and reached the Attorney General this morning. This is the concern, recently organized, that will supply and operate Marconi's wireless telegraphy system between the islands of the group.

The officers of the company are: J. H. Fisher, president; Fred J. Cross, vice-president; W. R. Farrington, secretary; J. F. Morgan, treasurer; E. O. White, auditor; Robert Catton, C. L. Wright, W. H. Hoogs and F. D. Greany, directors.

The capital of the concern is \$100,000 divided into 2,000 shares of \$50 each, with the privilege of increasing to an amount not to exceed \$500,000.

The purposes of this corporation are purchasing, selling, leasing, hiring or in any manner acquiring and leasing water rights, water privileges, easements, rights of way or any other corporeal or incorporeal estate in lands tenements and hereditaments for the purposes hereinafter set forth: acquiring or producing energy from water, steam, condensed air or chemical transmission and transforming hydraulic into electrical energy, electrical into mechanical energy, mechanical into electrical energy, and transmitting energy of either kind to such place as may be desired for the purposes hereinafter set forth; placing poles and other apparatus used in connection with electrical transmission on lands leased, owned or in any way acquired mission wires and other apparatus thereto, or otherwise transmitting such energy over and through said lands; by said corporation, and fixing transmitting, introducing and using any system of wireless telegraphy communication whatsoever between the Hawaiian Islands or any of them or between any portion or portions of any of said islands or between any of said islands and vessels adjacent to said islands, etc.

SAID IT WAS SOAP.

Ten Tins of Opium on the Schooner Eric.

Before the schooner Eric reached the wharf this morning, arriving from Seattle, ten tins of opium were found on board and seized. The opium was concealed between piles of lumber, just opposite the cook's galley. They were half-pound tins, stowed away in a small crate.

After the seizure Customs Inspector Neesley placed the cook, William Pong, under arrest. Pong admitted that the stuff was his, claiming when it was first discovered that it was soap. He said that someone here had asked him to bring it down and had told him there was a lot of money in it. He paid \$20 for it. Here it is worth about \$100, so that there was something in the statement of Pong's advisor. The money in it now will be for the guard who made the capture and the local treasury, if Pong is convicted and fined.

PRISON OUT OF THE CITY

JAILOR HENRY'S IDEA OF NEW STRUCTURE.

Would Start an Industrial Department for the Training of Hawaiians in Agriculture.

Jailor Henry is firm in the opinion that the new Oahu prison should not be built on the site at present occupied. Proximity to the wharves as well as disadvantages are his principal arguments.

"If the Dillingham wharf project goes through," remarks Mr. Henry, "the jail will be right against the harbor front. The wharves will extend to the road by the prison walls and the bows of ships will be only a few yards away. A prison is not a pleasing spectacle to place in the eyes of the world's commerce at the waterfront.

"Again, the prison neighborhood will soon become an important business and even residence section of the city. The new wharves and the railroad will bring it up.

"The prison should be located on the outskirts of the city, and not in its center as at present. With stable political conditions there is no longer the necessity of having it near at hand. The assistance of the police in guarding it will never be required again, and it frequently spends nights at the wharves; this last time had been there about two weeks steady, day and night I once applied for work shovelling coal, but have not tried since; at the wharves I dive for mussels, carry packages and shoot 'craps'; we shoot crabs by the stone wall over on the other side of Pacific Mall wharf; there is more money to be made at the wharves there are lots of boys whom I know there and I prefer the life to that of working and staying home.

"Kaleiwohi—Am 16 years of age; father and mother both dead; live with my brother in Nuuanu valley; attended Royal School under Mr. Mackintosh and left in 1896; home is not agreeable and I frequently spend nights at the wharves; this last time had been there about two weeks steady, day and night I once applied for work shovelling coal, but have not tried since; at the wharves I dive for mussels, carry packages and shoot 'craps'; we shoot crabs by the stone wall over on the other side of Pacific Mall wharf; there is more money to be made at the wharves there are lots of boys whom I know there and I prefer the life to that of working and staying home.

"Kealoa Akahi—Am 18; father is dead; live with my mother on Punchbowl street; attended St. Louis college; have spent most of the past three months at the waterfront; mother does not like it and quarrels with me whenever she has the chance about not coming home; make most of my money carrying packages and holding horses; sometimes shoot 'craps'; all the boys do; have never tried to get work.

"Kane (bright little fellow, but evidently an outcast)—Am 15; father and mother both dead; live with my sister in Kikihale; poor home; attended Royal school up to last Spring; since then have stayed at the wharves nearly all the time.

"Halelani—Am 15; father and mother live in Kona; they gave me to my grand parents at Kailua; when I was a baby; attended Royal school; used to go to the wharves nearly every day, but last three weeks have been spending nights there; my grand parents make me cook, wash and do many other things; I do not like this; prefer staying at the wharves where I can be with the boys and make some money.

"Kahala—Am 14; live with father and mother in Kewalo; attend Royal school everyday; was there Tuesday; went to wharf to sleep that night and was arrested; my parents do not like for me to go to the wharves, but I like it; have been sleeping there every night for about a month; carry packages, dive for money and shoot 'craps'.

"Wana—Am 15; live with father and mother in Emma street; attend Royal school up to the Summer vacation; have been staying at the wharves regularly about a week.

"Kohumu—Am 14; father and mother dead; live with brother on Punchbowl street; he works on a steamer and is almost always at sea; I attend Royal school; was there Tuesday, in Miss Brickwood's class; have been spending every night for a week or more at the wharves.

"Kupa—Am 15; live with father and mother on Queen street; used to attend Royal school; have spent very few nights at the waterfront, though have frequently been down there in the daytime.

"Maui—Am 14; live with father and mother on Punchbowl street; left Royal school in June; yes, I was in school age and am now; have been going to the wharves every day for a long time; for past week and a half have spent all my time there.

"The other two boys, Kealoa Alua and Antone Louis, tell substantially the same story. The latter is a part Portuguese and attended St. Louis college.

The boys say that the wharf gang is a very big one, but that since the police began raiding them many have gone to their homes at night. This exodus began Monday night.

Particular attention is called to three boys who are within the school age. Two now attend school. To send them to prison would at least the custom of this country. The boys are working in a 'misdemeanor' gang with six men and an armed ika.

STORIES OF WHARF RATS

BOYS TELL WHO THEY ARE AND WHAT THEY DO.

Their Homes and Why They Spend Nights on Waterfront—Crab Shooting—The Big Gang is Scattered.

The eleven wharf rats sentenced yesterday to five days each for vagrancy were put to work this morning making macadam for the roads. Jail and macadam making is a novelty to them; they have good food and good bunks at the prison. In truth, in going to jail they have struck a "snarp."

There is a story behind each one of these boys. All are not homeless; many are, and deserve sympathy and help. As will be seen from the statements below all have received fair common school education. They speak the English very well indeed. They have just now begun to drift, and will continue so to do unless checked by some power. As most of the boys now under arrest attended the Royal school it would seem that one clan of the wharf gang was captured. Following are the statements of the boys themselves as to who they are and why they are wharf rats:

"Kaleiwohi—Am 16 years of age; father and mother both dead; live with my brother in Nuuanu valley; attended Royal School under Mr. Mackintosh and left in 1896; home is not agreeable and I frequently spend nights at the wharves; this last time had been there about two weeks steady, day and night I once applied for work shovelling coal, but have not tried since; at the wharves I dive for mussels, carry packages and shoot 'craps'; we shoot crabs by the stone wall over on the other side of Pacific Mall wharf; there is more money to be made at the wharves there are lots of boys whom I know there and I prefer the life to that of working and staying home.

"Kealoa Akahi—Am 18; father is dead; live with my mother on Punchbowl street; attended St. Louis college; have spent most of the past three months at the waterfront; mother does not like it and quarrels with me whenever she has the chance about not coming home; make most of my money carrying packages and holding horses; sometimes shoot 'craps'; all the boys do; have never tried to get work.

"Kane (bright little fellow, but evidently an outcast)—Am 15; father and mother both dead; live with my sister in Kikihale; poor home; attended Royal school up to last Spring; since then have stayed at the wharves nearly all the time.

"Halelani—Am 15; father and mother live in Kona; they gave me to my grand parents at Kailua; when I was a baby; attended Royal school; used to go to the wharves nearly every day, but last three weeks have been spending nights there; my grand parents make me cook, wash and do many other things; I do not like this; prefer staying at the wharves where I can be with the boys and make some money.

A MISSIONARY SCHOONER

ARRIVAL OF A SMALL OCEAN TRAVELLER.

The Hiram Bingham En Route to the South Seas—Success With the Gilbert Islanders.

The little missionary schooner Hiram Bingham, named after Dr. Bingham of this city, arrived this morning from San Francisco en route to the South Sea Islands. The Rev. A. C. Walkup, the captain on board, is a missionary of 19 years' experience, nearly all spent in the Gilbert Islands, where he has been twice before with the schooner he is now sailing. Since her last visit here several years ago the Hiram Bingham has acquired a gasoline engine. She is a diminutive ocean sloop but has a comfortable cabin and can make good time. The recent heavy weather made her last trip down here a very hard one. The crew consists of four men.

The Rev. Mr. Walkup's mission is under the American Board of Foreign Missions, Congregational. His work is in co-operation with that of the famous Morning Star, which is now in the southern seas. While here he will visit the local board of missions and will take on supplies for his voyage.

Mr. Walkup had just returned from the Gilbert Islands, when he began preparations for the present trip. He declares that the work of converting the natives is progressing very satisfactorily. "Out of the 30,000 natives on the Gilbert Islands about half are now nominal Christians," said the missionary. "By nominal Christians I do not mean necessarily church-goers, but people converted to civilized ways and wearing clothes. There is a great deal to be done yet. We are now trying the plan of getting natives to do the work. We have established a training school for natives, to fit them to teach their own people and shall complete the conversion of the native population with the influence of teachers of their own race."

Captain Walkup found Honolulu much changed since his last visit, which was before the American flag was hoisted on government buildings. He didn't have a very easy time getting ashore. The harbor was full, and more vessels were coming in, and the Hiram Bingham was placed at the old fisherman wharf. Between the schooner and the wharf were two island schooners, the steamer James Makee and a scow and the wharf itself was piled deep with freight and ballast. It was quite a journey from the missionary schooner to the land.

ARENS-ARENS. August T. Arens, the well known contractor of Honolulu, was married at the Methodist parsonage last evening to Mrs. Hattie Arens of Oakland, California. The bride, who does not change her name by the important ceremony, arrived by the Alameda yesterday morning. Rev. G. L. Pearson, of the Methodist church tied the sacred knot.

NEW PROGRAM—NEW PEOPLE. A full change of program and six new people will doubtless fill the Orpheum to the doors this evening. La Petite Riato assisted by Julius H. Riato will appear in an electric serpentine dance. Frank C. Smith and Lillian F. Smith will exhibit marvelous feats of scientific shooting, breaking glass balls as fast as they can be thrown in the air. The favorite Jackson Heards will appear as Rev. Ebenezer Black, a southern negro preacher and the evenings' program will close with Musical Fletcher assisted by his daughter in an original act, entitled, "Just for fun."

MEMORANDA.
The ship Paul Isenberg is discharging at Brewer's wharf, the County of Merioneth at Emmes.
The British bark Errol has been having a hard time getting a crew. She has been ready to go for several days and will probably get away this afternoon.

The four hundred tons a day record in discharging vessels was considerably beaten in the case of the Hawaiian Isles. From her hold 3300 tons of coal were taken and 900 tons of ballast replaced it, in ten days. She is now trying to get a crew.

MARRIED.
ARENS-ARENS. In Honolulu, December 6, 1899, the Rev. G. L. Pearson officiating, August T. Arens, of Honolulu, to Mrs. Hattie Arens, of Oakland.

THE END OF IT.
Attorney A. B. McClanahan and W. A. Bowen will leave by the Mariposa tomorrow for San Francisco to deliver to San Francisco subscribers the shares of Waialea assessable stock awarded to them by Circuit Judge Perry. Mr. McClanahan represents the subscribers and Mr. Bowen the Waialea Agricultural Company. A large amount of money for unpaid subscriptions is to be collected by Mr. Bowen.

BATTLE ON CANVAS.
Larry Dee has on exhibition at the Hoffman hotel a fine, large painting of the battle of Manila bay. Every ship, including the Spanish fleet, is distinctly seen. The artist also portrays the mysterious launch, which is now a matter of dispute between Admiral Dewey and one of his officers.

LIPPINCOTT BURNED OUT.
PHILADELPHIA, November 25.—An electric spark in the basement of Patridge & Richardson's big department store, Nos. 15 to 25 North Eighth street, started a fire this morning and in less than four hours laid in ashes nearly four blocks of business houses and caused an estimated loss of over \$2,000,000.
The heaviest losers are J. H. Lippincott & Co., book publishers, 716 to 720 Filbert street, whose big six-story brick building, containing rare and valuable plates and machinery, was completely gutted, involving a loss estimated by a member of the firm at \$2,000,000.

LOCAL STEAMER CHANGES
The new Wilder steamship Kaulani is about ready to start from San Francisco and is expected to arrive here on Christmas Day. She will be brought down by Captain Jacobson, who brought the schooner Golden Gate here for the same company and who will be captain of the Kaulani. The latter is to be put on the Hilo run, where the Hawaii has been. The Hawaii is now laid up for an overhauling and the Kilauea Hou is at Hilo. Both the Hawaii and Kaulani are to be kept there.
The Kaulani of the Inter-Island company's fleet is in commission again after a thorough overhauling. She will leave at noon Saturday in charge of Captain Bruhn, for a tour around the island of Kauai. The James Makee has been taken off for repairs.
A number of changes have been made in the Inter-Island captains. Mate Nicholson of the Mauna Loa has been promoted of the Kilauea. Captain Nicholson will be much missed on the Mauna Loa and his absence will be sorely felt when it comes to loading her with obstinate mules. He has a well-earned reputation as a mule driver of staying with a mule and winning out. Mate Osen of the Mikahala has been made mate of the Mauna Loa. The other captains have been distributed as follows: Nihau, Captain W. Thompson; Iwailani, Captain Gregory; W. G. Hall, Captain Thompson; Mikahala, Captain Pederson; Ke Au Hou, Captain Mosher; Wailaleale, Captain Green; Noeau, Captain Wyman; James Makee, Captain Tullett.

WE INVITE INSPECTION Pacific Heights

Residence lots on Pacific Heights are now offered for sale. No residence property having similar advantages and attractions, as far as healthfulness of location, having an elevation of from 170 to 800 feet, and affording the grandest marine and scenic views, as also its proximity to the business part of the city being less than a mile from the Progress Block, has ever before been presented to the people of Honolulu.

One of the main features of this property, and procured at great expense, is the abundant supply of pure spring water, pronounced by Dr. C. B. Wood as being the purest and best drinking water obtainable in the Island, which is now being conducted into storage reservoirs upon the property by an independent pipe line, and will be supplied to residents at Government rates.

OUR GUARANTEE.—We guarantee to all purchasers of lots on Pacific Heights that we will, within six months, provide rapid transportation to the highest lots on the property, connecting the same with the Honolulu Rapid Transit Co.'s line on Pauoa Road at the beginning of Kaulani Drive.

TERMS.—One-third cash, 1/3 in one year, 1/3 in two years; interest, six per cent per annum on deferred payments.
Our carriage will convey parties desiring to inspect the property to and from the same.
For maps and full particulars, call at our office, rooms 7 and 8, Progress Block.

Continued complaints come in about the tram cars. A lady who travels on the King's street route says that she complained to a driver about a Chinaman who was blowing his reeking tobacco smoke into the face of another lady, a stranger. The driver replied that the Chinaman was doing no harm. If there had been any man on the car that celestial would have either thrown his cigar away, or would have been thrown out with it. The incivility of some of the drivers is atrocious, but the more uncivil they are the better they seem to be appreciated by the officers of the company. Such conduct would not be tolerated in any city of the United States. The trams are the disgrace of the city.

The views of Captain Mein upon the Boer government, which appear in another column are anything but favorable to President Kruger and his people. The same view is taken by the majority of property holders in the Transvaal. Those Uitlanders who have joined the Boers are not property holders and are held in contempt both by the Boers and their own countrymen. There can be no doubt about the injustice done to the Uitlanders by the Boer government. The latter was quite willing to make all the money it could out of them, but was unwilling to give them the slightest political right, or even to grant them municipal rights in the city that the Uitlanders had built. That the condition of affairs was endured so long is really a matter of wonder. It will be finally broken up now.

GRAVE QUESTIONS.

The religious question is going to cause some trouble in Porto Rico. The Spanish system, like all European systems, recognized a state church. Under the American Constitution there can be no state church. The disestablishment of the Roman Catholic Church in Porto Rico will not be because it is Roman Catholic, but because the Constitution cannot recognize any connection between ecclesiastical and state affairs.

This will also affect the marriage question. The laws of Porto Rico refused to recognize civil marriage, an ecclesiastical ceremony was a sine qua non. In United States law the very essence of marriage, as far as the State is concerned is the civil contract, and there is no obligation about a religious ceremony which is at the option of the contracting parties.

In dealing with Hawaii the United States will have no such difficulties. There has been no state church, people have been free to marry in church or by civil contract, as they pleased. In fact Hawaii is thoroughly Americanized while Porto Rico has to be Americanized and it will take fifty years or more to do it.

COFFEE.

W. H. Crossman and Bro. in their circular for November have an elaborate argument showing that coffee prices instead of advancing should be receding. The main reasons for advance, according to these coffee experts were sentimental, not practical. The first advance was in sympathy to an advance in cotton. The report of bubonic plague was the next cause, when as fact there were only a few sporadic cases and no epidemic. Lastly an advance was made because of a report that the Italian labor was leaving. After the picking season many Italians return home, but for hundreds that go, thousands come as the circular shows. The main object of the circular is to show that this fictitious advance in the price of coffee is sure to have a terrible reaction in time. The low value of coffee results from over-production. The recent unreasonable advance in coffee stimulates production, the only real help, says the circular, for genuine better prices for coffee is diminished production.

Coffee prices from Brazil do not affect Hawaiian coffee apparently, but a general depression in the coffee market would have its influence and seriously hamper Hawaiian investors. The future of coffee is by no means rosy. The fault lies in Brazil, and is likely to increase rather than decrease.

THE WHARF RATS.

Investigation shows that every one of the eleven wharf rats sentenced to five days imprisonment yesterday had received a common school education. The Star made special investigation into the matter, interviewing each boy. The result of the inquiry shows that the boys have a thorough dislike to work in any shape and would rather pick up a precarious existence along the wharves, than live at home and get employment. One thing strikes the mind very forcibly. Three of these boys are within school age. They have been attending school, and their names must be among the list of names on the school rolls.

Their teachers must then be probably aware that they have been absent. The Commissioners of Education authorize the employment of truant officers. How comes it then that one boy who has been absent since September has not been hunted up? Either the particular teacher in whose class this boy was derelict in his or her duty, or the truant officers have not been doing their work properly. At all events there is ample opportunity for the Minister of Education to make enquiry. It seems a strange thing that boys actually in school should be lost in this manner.

It is plain that these wharf rats should not be returned to their schools. Their example and conversation would be apt to corrupt the other pupils. These boys are probably backward in their work, and their habits are certainly not good. Their teachers no doubt were glad to be rid of them. But it is the duty of the Territory to meet conditions of this kind and to solve them. In many places a special school is opened for children of this character, to the pale of the law, enabling them to be sent to a Reformatory, but yet they are an undesirable element in the public schools. Germany has solved the problem by opening special schools in various towns, and the idea is gradually expanding and being taken up elsewhere. It is evident that there is room for at least one such institution here.

It must, however, be conceded that working boys of fourteen in a prison gang is not a reformatory measure. There are better ways of dealing with children and punishing them than this, but the means must be provided and the philanthropic ought to set their minds upon the question of how to supply the means.

KING OF PEACE VICTORIOUS

SALVATION ARMY WORK AMONG THE SOLDIERS.

Men from the Transports Attend the Meetings in Large Numbers—Many Conversions Reported Among Them.

The Salvation Army reports that last week was one of the most successful the army has experienced in the Islands both in attendance at meetings and in the number of conversions. Every night the hall which will seat over 300 was crowded to its capacity. Not only were the seats filled but all available standing room was occupied. Every evening when the officers came to the hall from holding their street meetings, they found scores waiting in front of the hall for the meeting there to begin. During the week thirty-one professional conversions. Some of these were soldiers from the transports. Others were sailors from vessels in the harbor. Still others were tourists simply passing through. One very striking case was that of a sergeant in one of the regiments passing through. At the beginning of the Spanish-American war he was the pastor of a congregation in the States. He enlisted and was in Cuba during the fighting. As he testified after his conversion here, he lost his religious experience while in the army and when mustered out had become an abandoned character. He re-enlisted in one of the regiments for service in the Philippines, and was re-converted here on his way thither. The Salvation Army officers have held frequent meetings on board the transports. The Salvation officers say that they found among the men of the Fortieth regiment a general spirit of seriousness which was evidenced by a number of conversions among them.

The cleanest, brightest safest and really the long run, the cheapest and best light to use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give us figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind what you want the best and safest light; send the Hawaiian Electric Company and tell them what you want.

Poisoned

Terrible Feelings. Loss of Sleep. Impurities often accumulate in the blood until they produce the most dangerous symptoms of poisoning. The appetite is lost, digestion weakened, and nerves exhausted. Mrs. F. Flynn, of Adelaide, So. Australia, sends us her photograph and says:

"I used to have terrible feelings come over me. The doctors could do me no good. I could not sleep, my appetite left me, and I was a most miserable woman indeed. Having read of

AYER'S Sarsaparilla

I thought I would try it. To my great surprise, after taking only two bottles I found myself very much better in every way. After taking six bottles all my disagreeable feelings left me, and I was completely cured." If your bowels are constipated, take Ayer's Pills. They are gentle and sure. They cure biliousness, dyspepsia, and sick headache. Take them with Ayer's Sarsaparilla; one aids the other.

BRILLIANT ENDORSEMENT.

By Health Journal of New York, August 24, 1899—J. A. Davis, M.D., Editor and Manager.

Only last week we examined the beer brewed by the Capital Brewing Company of Olympia, Wash., and it is a perfect illustration of the quality of beer which we are always glad to commend, for the analysis showed it to be entirely free from any trace of any injurious substance. Such a high grade of beer is most beneficial in its use, for none of the pure malt and hops have been displaced by harmful ingredients. Every hygienist will concur with us in saying that a beer of such superior excellence is a very wholesome beverage. Physicians often have occasion to prescribe a pure beer for cases of debilitation, and they can safely order this beer, made by the Capital Brewing Company.

L. H. Dee has in his keeping the American Journal of Health and can be seen by anyone.

This beer can be had in bottle or on draught at the HOFFMAN, corner of Hotel and Nuuanu streets. A large assortment of the very best of American and foreign liquors we are pleased to sell you and give you value for the "nest" of your health.

Yours, L. H. DEE, Proprietor of HOFFMAN.

TRIP TO LAYSAN ISLAND

THE SCHOONER NORMA IN PORT AGAIN.

A Visit to King Spencer's Lonely Home—End of Guano Supply in Sight.

The schooner Norma has retrieved herself after earning quite a reputation as a hoodoo, by a successful trip to Laysan Island and back. She was recently bought at auction by Captain Weisbarth, formerly of the Helene, and after being repaired was started for Laysan. She got back in remarkable time, making the trip here in twenty days. The pumps were working so well of the time and there was a little leak aft, but the Norma will be ready for another cruise in a few days. She will go to the South Sea Islands.

The Norma brought about 25 tons of guano from Laysan. She also brings a report that the supply there will give out in a couple of years, at the present rate of export. On account of its situation and its odd population Laysan Island is one of the most interesting of the many little specks on the map of the Pacific. In the language of the tars, it has a "king in the person of Captain Spencer, the only white man there and the agent of the guano company that owns the islands. The local agents are Hackfeld & Company. Captain Spencer lives at Laysan with his wife and a company of Japanese who do the work. The life is a lonely one, but accounts agree that the captain is very comfortably fixed. He has a pretty home, a large stock of canned stuff and plenty of chickens and live stock. There is any amount of fish to be had and at intervals deep water ships call there for cargoes of guano. It is a long time between dispatches at Laysan, and Captain Spencer must be a long way behind in war news. "I'd like to have a job like that," said the mate of the Norma, who has just logged from Laysan in a small schooner and had a good chance to see Captain Spencer at home. If the Norma's report regarding the prospect of an end to the supply of guano proves true Captain Spencer will soon be leaving for good and the little island, divested of its own only product that is useful to civilization, will become uninhabited.

First Colored Citizen: "What you think 'bout dis here Filipino policy?" Second Colored Citizen: "Dunno I neber played it."

TWO POINTED QUESTIONS ANSWERED.

What is the use of making a better article than your competitor if you can not get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best? Ans.—As articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

WAS A JAMIESON RAIDER

CAPTAIN THOMAS MEIN VISITING HONOLULU.

His Views Regarding the Transvaal. The Best Mines and Mining Machinery in the World.

Captain Thomas Mein, one of the men who took part in the Jamieson raid in South Africa and for six months the Transvaal government collected a ten thousand dollar fine for doing so, arrived here on the survey ship Pathfinder, as a guest of Captain Perkins. Captain Mein has large interests in the Transvaal and is watching the course of events there with deep interest. He is very emphatic in denunciation of the actions of the Boers.

"The management of affairs by the Boers in South Africa is simply damnable," said the captain. "It is a marvel to me that the Uitlanders stood it as long as they did. The only explanation is the Englishman's habitual obedience to law. An equal number of Americans in the same country would have risen in rebellion long ago.

"When the discovery of gold was made the Transvaal government was absolutely without money and had not paid any of its bills for six months. Soon after money began piling into the country in such quantities that I have seen wagon loads of coin, drawn by six bullocks, like ordinary freight. The Boer would not take a certified check on the Bank of England for money. The gold coin and they piled on a table in front of him. In a short time Englishmen and other immigrants had bought an immense area of land from the Boers. At the present day I believe about half of the entire Transvaal is owned by the Uitlanders, but as is well known, they have the vote in the system of election."

"The city of Johannesburg is a sample of Boer incompetency. It has a population of about 60,000 and is utterly without a sewer system. At times one can scarcely bear to walk along the streets. Of the 60,000 over 50,000 are Uitlanders and they have absolutely no voice in the management of affairs. They are regarded as no better than Kaffirs. In fact the Boer calls an Englishman a 'white nigger.' In the present war he is learning his error in regarding the British soldier as a poor fighter. A remark of one of the burghers has been that one of their number is easily a match for eighteen or twenty Englishmen. This is a result of the British unpreparedness in former wars.

"There is no question about the Boers' readiness to make a brave fight, but I am of the opinion that when the British forces are ready for concerted action the affair will not last over three months. I do not think there will be any guerilla warfare. The overthrow of the Transvaal government will end the war in my opinion—and then the Uitlanders will have to stand the cost. The owners of the mines will have to pay for it, as they have paid nine-tenths of the taxes for years, without having any representation in the government."

Captain Mein says that the Transvaal is the richest gold country in the world and has the best and most modern mining machinery. "There is no mine in America," he says, "that can compare with those of South Africa and nowhere is mining being so scientifically done. The output will reach a hundred million dollars a year, when this fighting is over and it will keep up that rate for fifteen or more years, surpassing the whole of the United States in gold production."

Captain Mein spent six weeks in jail after the Jamieson raid, with sixty other prisoners of Dr. Jamieson. At the trial the men were persuaded to plead guilty with the understanding that they were to be fined about \$50. Then an old law was dug up, says the captain, whereby Kruger was able to impose any sentence he wanted. He fined the sixty men \$10,000 each and bound them over to take no part in any political affairs for three years. Captain Mein, with his wife and son, who arrived on the Alameda, is stopping at the Hawaiian hotel. His home is in Oakland, California. He will stay here about two weeks.

TORTURING DISFIGURING HUMOURS

ITCHING, BURNING, AND SCALY ERUPTIONS OF THE SKIN AND SCALP, WITH LOSS OF HAIR.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura remedies are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humour remedies of the civilized world.

Those who have suffered long and hopelessly and who have lost faith in doctors and medicines may make trial of these great curatives with the most gratifying success. The treatment is simple, direct, agreeable, and economical, and is adapted to the youngest infant as well as adults of every age. *Bathe the affected parts with Hot Water and Cuticura Soap to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and lastly take the Cuticura Resolvent to cool and cleanse the blood.* This sweet and wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp, and blood, and points to a speedy, permanent, and economical cure when all other remedies and even the best physicians fail. The SET, consisting of Soap, Ointment, and Resolvent, or each separately, may be had of all chemists and stores where medicines are sold throughout the world.
